FROM THE SCRIPTURES—"Greetings to the Twelve Tribes dispersed throughout the world. My brothers, whenever you have to face trials of many kinds, count yourselves supremely happy, in the knowledge that such testing of your faith breeds fortitude, and if you give fortitude full play you will go on to complete a balanced character that will fall short in nothing." James 1:4

Christmas Greetings Cards are beginning to come in now, but not in the numbers that they used to, with the high cost of postage and increased cost of cards. More and more, though, with the availability of home computers and word processors, come the two-page "form letters", telling the family history for the past year—everything from Fido-ette having another litter of pups to little Ginny getting a new set of braces. We've gone a full circle again, from brief notes on a Christmas Card, to impersonal printed cards, to all you ever wanted to know about Uncle John's operation.

As Texans usually begin a once-upon-a-time story: "You won't believe this, but ... A grandmother took her grandson to see Santa Claus

in a department store after purchasing about a dozen Christmas gifts.

Santa gave the boy a little present. "What do you say to Santa?" prompted grandma. "Charge it!" said the little boy.

THE LONE WOLF SAYS, "Your greatest influence is your example."

There is a difference between post card and postal card. When you go to the Post Office to buy a card with the 14-cents stamp already printed on it, you bought a postal card. When you buy a picture card in a souvenir shop then have to paste a postage stamp on it, you bought a post card. The only real bargain you get from the Post Office is the postal card. For the price of the postage, you also get the card. They'll probably change this one of these days, but so far, since the postal card has been around since 1873, they are afraid the public outcry would be too great to charge for it. Not so for pre-stamped envelopes, however, they do charge for the envelopes, on top of the postage.

DID YOU KNOW? To preserve a news clipping so it will last 200 years: Dissolve a milk of magnesia tablet in a quart of club soda overnight. Pour it over the clipping flat in a pan. Soak for an hour. Remove. Pat away extra water. Don't move it until it's thoroughly dry.

City Council tables vicious dog ordinance

The Colorado City Council, conducting its regular meeting in the Chamber of Commerce Board Room Tuesday night, tabled the amending of the City's Animal Control Ordinance, approved budget amendments and made Committee appointments as the main items of business.

A new state law regulating vicious dog control was presented to be incorporated in the City's present ordinance on first reading. Major provision of the State Law is requirement of \$100,000 liability insurance coverage by a person keeping a dog known to be dangerous or has engaged in vicious conduct; and establishing offenses as a Class B misdemeanor. On recommendation of Councilman Dan Johns the Council tabled the first reading until the City Attorney could determine how it affects the

present ordinance. The Council approved the motion.

Committee appointments volunteered for and appointed were:

Mitchell County Ambulance Board—Rex Thackerson.

Handicap Regulations—Tom Carlock, Johns and Don Webb.

Police Committee—Mayor Jim Baum, Dee Hearn and Don Webb.

Capital Improvements—Carlock, Johns and Hearn.

Personnel Regulations—Hearn and Webb.

Insurance Review—Hearn, Thackerson and Johns.

Budget Committee—Baum, Johns and Carlock.

Several Budget amendments were presented by City Manager

She reported that it has become necessary to look for a replacement for the Street Superintendent; and reminded the Council of the City employee Christmas Party to be held at 7 p.m. Friday.

In the Mayor's report, Mayor Baum suggested that the City consider every means possible to get the City Hall in compliance with handicap regulations. He felt that meeting in rented halls, etc. was not conducive to properly conducting City business. He also reported on attendance at a Mayor's Meeting in Abilene, which was represented by ten different area cities, to get ideas on: (1) how Abilene could help the 22-county trade area with industrial development; (2) how Abilene residents could have greater participation in surrounding community activities; and (3) how all could help cut down on the leak of some \$538 million annual in trade lost outside the local trade area.

Councilwoman Hearn reported that since B&PW Club always met on the same night as the Council meeting, the Club is considering changing its meeting day so that the Council could utilize the Civic Center facilities.

Councilman John suggested that the Council get a report from the Industrial Foundation to better coordinate industrial development activities.

At Lions Club meeting

Benefits of airport outlined

"Flying is important, even to a small town, because of the revenue it generates into the community. OUR airport has served this town well in this capacity," Don Browne told members of the Colorado City Lions Club at its regular meeting last Friday. "I emphasized 'OUR' because we all benefit from having the airport."

**Subscribe Today
to the RECORD
Call 728-3413**

Too many people think of the airport in terms of 'their' or 'his'. "Because of the ability to be able to fly into our Municipal Airport, jobs have been kept here that would have otherwise gone to other towns. For example," he said, "one business is particular in this town has had over \$200,000 worth of sales generated in less than two years because of general aviation. Were it not for the ability of this particular company to be able to fly quickly to the job locations of the companies they do work for and service their

needs, this business would be lost."

Browne added, "This benefits almost everyone...groceries, gasoline, drugs, clothes, fast foods, electricity, etc. that people who have jobs buy. The airport serves the whole community."

"Another thing about an airport, the airport generally projects the attitude or image of a town." He gave as an example, the City of Breckenridge which featured its airport in its industrial promotion. "If you are interested in the image set forth by a community, visit their airport. I'll guarantee you that in any aggressive town, there will be an active, modern airport."

"We have a good airport," Browne said, "but many improvements are needed and funds are available through federal and state grants."

Browne concluded the program with an AOPA slide presentation of the benefits of general aviation.

Hidden sugar examined

The Looney Extension Homemakers Club met Nov. 25 at 2:30 p.m. in the home of Mrs. Linnie Williams.

Club members said the prayer in unison and answered roll call with "What I'm Thankful For".

Members planned the club Christmas party for Dec. 16 at 2:30 p.m. at City Savings. Members will also help with the county Christmas luncheon on Dec. 10.

The program on "hidden sugar" was presented by Iva Prescott and Linnie Williams. They revealed some of the foods that contain more sugar than most people think. Members were encouraged to read labels before purchasing food items and to beware of "hidden sugar".

Present were Corrina Barnett, Eddie Barclay, Iva Prescott, Juanita Coker, Pearl Woods, Bea McGuire, Lonnie Pruett, Etta Lee Gibson, Linnie Williams, Louella Hall and guest Lillie Raschke.

Mr. and Mrs. Bob Ratliff entertained several visitors this past weekend.

Memorial service scheduled for Mrs. Jessie Person Crump

A brief memorial service for Mrs. Jessie Person Crump will be conducted at 12:30 p.m. Saturday, Dec. 12, in the Colorado City Cemetery.

Born in Clinton, Mo., Jan. 3, 1895, Mrs. Crump moved to Colorado City about 1899 with her parents, Hohn and Margaret Person, who had relocated temporarily in Missouri after being married in Colorado City. They initially resided in what is now the Heritage House before moving to their home on Hickory Street.

She and her mother worked in the Colorado City post office where her father was postmaster from 1912-20. In 1920, the family moved to California. Mrs. Crump, 92, died of a heart attack Oct. 4 at her home in Corona del Mar, a California seaside community between Laguna Beach and Newport Beach.

An accomplished pianist and artist working in both oils and watercolors, Mrs. Crump provided illustrations for two books, "California's Spanish Missions" and "Ride the Big Red Cars," written by her son, Spencer Crump.

Crump.

Her grandparents, Thomas and Drusilla Payne of Colorado City homesteaded a ranch near Justiceburg in the late 19th century, and she often recalled making the trip by wagon from Colorado City to Post, stopping overnight at Snyder.

Mrs. Crump was active in managing the ranch and other property at the time of her death. She also was assembling early day pictures of Colorado City residents to be presented to the city's historical museum.

Besides her son, she is survived by two grandchildren, John and Victoria, who will accompany Spencer Crump to Colorado City for the service.

In lieu of flowers, the family requests contributions to the American Friends Service Committee, 980 N. Fair Oaks, Pasadena, Calif. 91103.

Don't Blame Your Age For Poor Hearing.

Chicago, Ill. — A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of the smallest hearing aid Beltone has ever developed will be given absolutely free to anyone requesting it.

It's yours for the asking, so send for it now. It is not a real hearing aid, but it will show you how tiny hearing help can be. The actual aid weighs less than an eighth of an ounce, and it fits completely into the ear canal.

These models are free, so we suggest you write for yours now. Again, there is no cost, and certainly no obligation. Although a hearing aid may not help everyone, more and more people with hearing losses are being helped. For your free sample send your name, address, and phone number today to: Department 79551, Beltone Electronics Corporation, 4201 West Victoria Street, Chicago, Illinois 60646.

Area livestock market charged with violation

Big Spring Livestock Auction, Big Spring, has been charged in a federal administrative complaint with allowing its weighmaster to purchase livestock from consignments to fill an order for a meat packer.

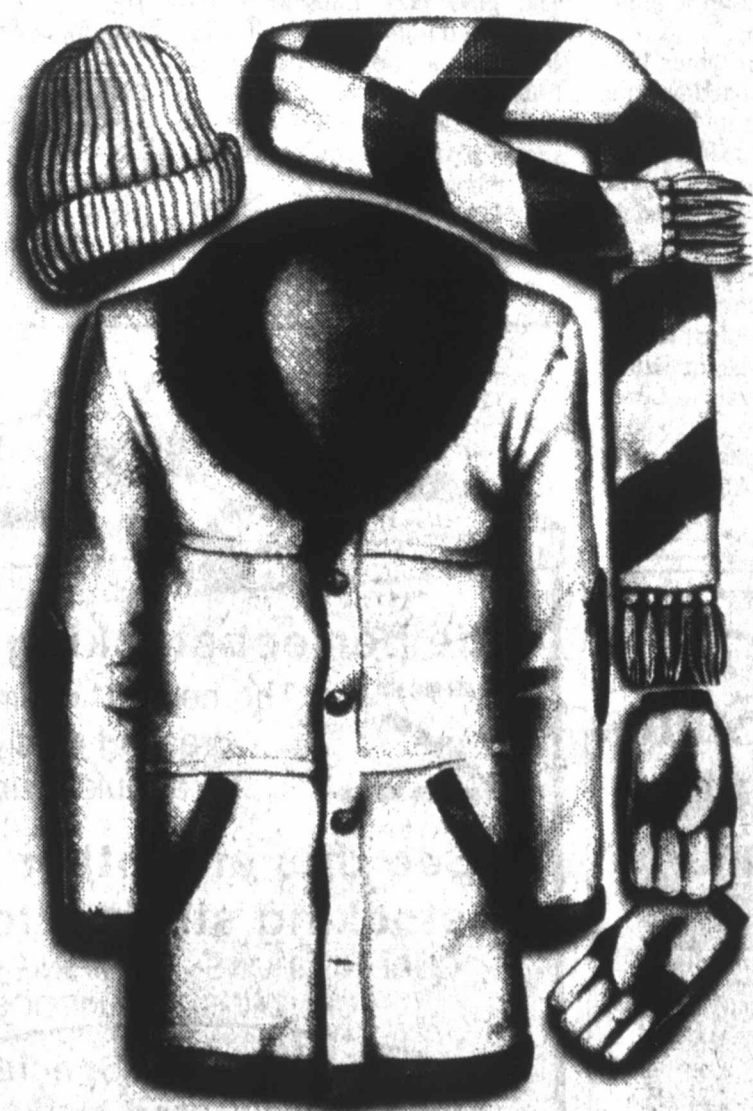

Calvin W. Watkins, deputy administrator of USDA's Packers and Stockyards Administration, said market selling agencies are required under the P&S Act to maintain an arm's-length business relationship between the buying and selling sides of the market to avoid conflicts of interest. Key employees involved in the actual operation of auction sales may not buy livestock from consignments for speculation or to fill or-

ders.

Big Spring Livestock has a right to a hearing on the charges filed by USDA under authority of the Packers and Stockyards (P&S) Act. If the charges are proven, the market will be placed under a cease and desist order, similar to a permanent injunction. It could also be suspended from operating and ordered to pay a civil penalty.

The P&S Act is an antitrust, fair trade practice, and payment protection law. It is designed to maintain integrity in the marketing of livestock, poultry and meat, and economic law and order in the marketplace.

HERE COMES SANTA! - Santa Claus arrived in Colorado City Saturday horse-drawn buggy during this year's Christmas parade.

Committee OKs Gramm proposal

WASHINGTON--A key Senate committee has resoundingly approved legislation supported by U.S. Sen Phil Gramm to add 67,000 acres to Big Bend National Park.

The proposal, which authorizes the U.S. Park Service to accept the Harte Ranch property on the edge of the park, was introduced

in the House by U.S. Rep. Lamar Smith, R-San Antonio, and in the Senate by Gramm.

It was overwhelmingly approved by the Senate Committee on Energy and Natural Resources.

"The land which will be added to the park offers variety and beauty with its desert, mountains and prairies," Gramm said.

The land donated is adjacent to the current park boundaries and is commonly known as the Harte Ranch or the North Rosillas Mountains Preserve. In 1985, the original owners gave the property to the Texas Nature Conservancy with the stipulation that it be donated to the Big Bend National Park in its natural state.

The Gramm-Smith legislation provides the U.S. Park Service with the formal authority it needs to accept the property. There will be no purchase costs or other charges to the federal government involved in the transaction.

"This is a great deal for the taxpayer, a great deal for Texas and a great deal for us and our children," Gramm said.
