If you are a business man, did you ever think of the field of opportunity that advertising opens to you? There is almost no limit to the possibilities of your business if you study how to turn trade into your store. If you are not getting your share of the business of your community there's a reason. People go where they are attracted—where they know what they can get and how much it is sold for. If you make direct statements in your advertising see to it that you are able to fulfill every promise you make. You will add to your business reputation and hold your customers. It will not cost as much to run your ad in this paper as you think. It is the persistent advertiser who gets there. Have something in the paper every issue, no matter how small. We will be pleased to quote you our advertising rates.

### Where Are Your Interests

- Are they in this community?
- Are they among the people with whom you associate?
- Are they with the neighbors and friends with whom you do business?

If you want to know what is happening in this community. You want to know the goings and comings of the people

## The Thirty-Second Legislature

### WHAT THE LAWMAKERS HAVE DONE AND WHAT THEY WANT DONE

**Senate Proceedings.**  
Austin, Tex.—While Grady Calloway the student of the University, who was shot Thursday after a day of student clashes and night of hazing operations, was hovering between life and death, but making some improvement, the senate of Texas Saturday debated resolutions looking to an investigation of the practice of hazing at the state's chief educational institution, the result being the appointment of a committee composed of Senators Hudspeth, Watson, Malfield, Terrell of Wise and Carter to conduct such investigation; also the introduction by Senator Mayfield of a bill prescribing penalties for hazing, which offense is defined as in the United States statutes upon the subject, relating to the military and naval academies.

**Rejected Resolution.**  
While the resolutions were under debate it was made known to the senate that the dean of the university, as well as the student council, were holding sessions and that the latter desired an opportunity to stamp out hazing from its body. This desire was put in the form of a resolution, but the senate rejected it, upon the theory that it was its duty to investigate affairs in this state institution.

Some of those who were foremost in urging investigation have formerly been conspicuous advocates of liberal appropriations to the university. Senator Mayfield, who offered the original resolution, is an alumnus of that institution. Senators Hudspeth and Lee, who offered the amendment amending the resolution and calling for investigation, have been very friendly to the University. The same is true of Senator Willacy, who decided that the university must be governed by the state, and that if students could not be protected from indignities and attacks, the university ought to be closed.

The night session of the senate was characterized by filibustering, and very little was accomplished. The hour of contention was the bill by Mr. Carter prescribing one to three years in the penitentiary for giving liquor to a minor, or for the agent of an express company to give liquor to a minor.

Much time was lost in discussing what was pending business, the chair holding it to be Mr. Carter's bill.

An amendment that the act shall not apply where a minor is given liquor in a private home which he enters with the consent of his parents was voted down, as was an amendment to punish minors who receive the liquor or deceive others as to their age.

An amendment making the offense described by the bill a misdemeanor instead of a felony was tabled.

An amendment permitting parents to give their children liquor at a social gathering provoked much discussion, but was adopted, 14 to 7.

An amendment that the gift or sale must be "knowingly" made was adopted.

An amendment was adopted striking out the provision which allowed sale of liquor to a minor upon permission from his parents.

The bill was engrossed.

House bill providing an eight-hour law on all public work was passed to third reading, as was house bill creating the seventy-second judicial district in the Lubbock County.

In response to the senate's resolution the governor returned the Harris County district court bill.

Ex-Senator Seth P. Mills of Waco was invited to address the senate and briefly responded.

The house bill providing for appropriations for a continuation of the topographical survey work was ordered printed in the Journal in order to secure action on the bill.

Senator Meachum had the senate concur in house amendments to the joint resolution levying a tax of 5c for confederate pensions and the support of the Confederate Veterans' Home and Confederate Woman's Home.

Senators Wetbert, Terrell of Wise, Murray, Watson and Collins were appointed conferees on Senator Wadsworth's suspended senate bill.

Adopted the conference committee report on the bill extending two years the time within which railroad companies may construct their lines and save their charters.

Senator Hume had a series of three motions adopted, undoing what had been done in the final passage of the Harris County district court and sending it to a conference committee consisting of Senators Murray, Coker, Hume, Carter and Watson.

**House Proceedings.**  
Austin, Tex.—The house considered senate bills Friday and Saturday, working industriously, with few fancy frills, and passing finally all the senate measures on the day's calendar.

The Watson stenographers bill was debated at length, and some opposition was developed, it being contended in effect that court reporters make too much money. The bill provides a salary of \$5 per day, with 15c per hundred words for transcripts. In districts of more than one county a straight salary of \$1,500, with transcript fees, is provided. Several amendments were offered, limiting the maximum salary which might be received and requiring publicity of all fees taken by court stenographers for transcripts. These were lost, and the bill finally passed as introduced.

**Purchase of Interurban.**  
The bill permitting the purchase of the Denison-Sherman Interurban by the Texas Traction Company was passed finally, as was the bill establishing a state normal school at Waco, and the measure permitting railroads and other companies to secure rights of way across islands in Aransas Bay, which are state property, for the development of Aransas Bay.

The free conference committee report on the Weinert suspended sentence bill, which was adopted, leaves the measure as it passed the house, which is that suspended sentences may be given in first convictions of felonies, manslaughter being added to the list of crimes for which no suspension of sentence may be made.

Upon convening from Friday's recess—still working on senate bill day—the house engrossed the Coker senate bill, abolishing the "rule in Shelley's case."

**Stenographers' Bill.**  
The Watson bill requiring stenographers of district and county courts to pass a reexamination in which he shall write 175 words per minute for five consecutive minutes, and providing a compensation for such stenographers of \$5 per day and 15 cents per 100 words for transcripts; providing a straight salary of \$1,500 per year in districts of more than one county was taken up.

Mr. McNeal offered an amendment placing a maximum limit of \$2,000 salary and fees for court stenographers and of \$1,200 for assistants, and requiring such stenographers to file quarterly reports of all fees received, and to turn all in excess of the maximum salary provided into the county treasury.

Mr. Terrell of Cherokee offered a substitute allowing a maximum of \$2,000 in cities of over 3,000 population and requiring sworn statements of total amounts received.

Mr. McNeal opposed any proposition of raising stenographers' fees.

"Cheap John Economy."

Mr. Buchanan and Mr. Cretton spoke against the amendment and substitute, the latter protesting against "cheap John economy" and the foolishness of "swearing men to tell the truth and getting bum stenographers to take it down wrong." Such would be the case because the good stenographers would not work for \$200 a year. He said this kind of cheap economy had resulted in the building by the state of college buildings at Denison, dormitories at the A. and M. College, and buildings at the insane asylum at San Antonio that were now falling down. (Applause) He proposed against such "economy."

Mr. Rogers favored the substitute, and urged the house to adopt it.

The bill was engrossed, 65 yeas, 30 nays.

A bill over the Harris county court bill was occasioned when Mr. Standifer moved the house to grant the senate's request for a free conference committee on that bill.

Mr. Gilmore raised a point of order, contending that such action could not be taken until the senate and house had resindicated the action of their presiding officers in signing the bill, which has passed both houses and been returned by the governor by request.

After discussion by Messrs. Gilmore, Standifer and Terrell of Texas, the latter opposing the point of order and contending that the unbroken precedent of this house had been to handle bill, the chair (Nickels of Hill) overruled the point of order. The motion to grant a free conference committee prevailed, and the following committee was named: Standifer, Campbell, Leach, Hill, Nichols of Hunt.

**CANE SEED FOR SALE.**

The little red top, the very kind you want for syrup, or forage. Two blades of fodder to one of amber, and does not fall down like most cane. Size of stalks can be regulated from size a straw to a small size saw log, as you sow thick or thin. Every seed guaranteed to sprout, or money refunded (on all that fail). I have them on the head at a reasonable price. You will be surprised at what a curry comb, a board and a little elbow grease will do a home made thrasher for 30 cents that will get the seeds off faster than nine hundred "biggers" solders can count. If you want several bushel just throw a wagon shet into your wagon and tramp the m out as you go home. I have a few gallons of good old thick home e evaporated made molasses. Sweet and juicy; 65 cents per gallon as long as they last. Now is the time.

N. C. PATTERSON.

The center of area in Texas now rests near Brady. Dividing the state into four sections by drawing a line east and west and another north and south through the area center, we find one-half of our population in the northeast sections of the state, one-tenth in the northwest and one-twenty-sixth in the southwest, and one third in the southeast section. The center of area and the center of population appear to have little or no affinity for each other but the development in the western portion of the state will have a tendency to bring them closer together.

Talk about the benefits of advertising. Down in Florida not long ago a family lost a child which they supposed had strayed away from home and gotten lost. After searching in vain for three days, the frantic parents placed an advertisement in the nearest newspaper. Imagine the surprise of the parents upon going to the door the next morning to see a monster alligator upon the doorstep where he had disgorged the child alive and then died himself; the "ad" cost them but 25 cents and it gave back to them their darling child; they sold the alligator hide for \$5, and the parents are showing the child in all the dime museums in the land at \$50 per week. Does advertising pay?—San Angelo Standard.

## The Citizen

DELAY IS DANGEROUS.

When the kidneys are sick, the whole body is weakened. Aches and pains and urinary ills come, and where is danger of diabetes and fatal Bright's disease.

Mrs. M. A. Jenkins, Quannah, Texas, says: "I was so badly run down that the doctors told me there was no hope. I was so low my relatives were called in to see me before I died."

Used to it. Recently a lady witness in a court up the state was subjected to a troublesome fire of cross questions, and the lawyer, thinking that some apology was necessary, tried to square himself.

"I really hope, madam," said he, "that I don't annoy you with all these questions."

"Oh, no," was the prompt reply; "I am accustomed to it."

"You don't mean it?" wonderingly returned the lawyer.

"Yes," rejoined the lady, "I have a six-year-old boy at home."

ROYAL STOCK BIRDS

Wood Pigeons Coming to This Country from Great Britain.

American Robins Imported into British Isles Last Year Thought to Have Disappeared, but Few Are Discovered.

London.—Among emigrants who will presently embark for New York are to be a dozen members of a community which has multiplied extremely in Great Britain.

These pigeons are of royal stock, sprung from some birds set free from Buckingham palace, and when the authorities of the New York zoological gardens, which is surrounding and equipment are the best in the world, desired to naturalize in the Bronx park some of these wood pigeons, it was decided that the St. James' park birds would make the most docile and worthy pioneer settlement.

Some members of a previous immigration from America are at a crisis of their lives. Several American robins—birds of the thrush tribe, finely marked with deep blue and tawny red—were brought over last year, and a number were bred under thrushes and blackbirds.

But two were seen and heard recently in a Surrey copse, and naturalists, especially in the south, should keep their eyes open for a bird which is not a fieldfare or a redwing or a thrush, but has a suggestion of the fieldfare's shape and is much the size of the English thrush, flying with a buoyant but undulating flight which is quite its own.

The whole question of bird exchanges and naturalization is to be discussed this year at a international meeting of bird lovers in Berlin.

There is more catfish in this section of the country than all other domestic fish combined, and the last year was especially so.

THE ROAD TO POPULARITY

Recipe Has Been in Use Many Years But It is Not Always Safe to Trust It.

"The way to be popular has been explained by one of the marshmallows which infuses itself with the idea that it is directing modern life. "Mr. Morgan's wealth causes him to look at money in a large way. Once, at the Metropolitan club in Fifth avenue, I told him of the death of a mutual friend.

"How much did he leave?" Mr. Morgan asked.

"A matter of five or six millions, I believe," said I.

"Mr. Morgan's eyebrows lifted. "How deceptive circumstances sometimes are," he said, "I always supposed him quite comfortably off."

Paris.—The Intransigent as a result of private inquiries gives a new story of the famous Hope blue diamond, according to which a Paris jeweler named Rosenan bought the gem when Solomon Habib's collection was sold last year at the Hotel Drouot.

The reputation for bad luck borne by the big diamond is said to be kept up by jealous collectors, with the object of reducing the price.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Grantville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as indigestion, bloating, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

# SUFFERED 23 YEARS

Constant Sufferer From Chronic Catarrh Relieved by Peruna.

Mrs. J. H. Bourland, San Saba, Texas, writes: "For twenty-three years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent attacks of rheumatism. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages. I tried many remedies, which gave only temporary relief or no relief at all. I at last tried Peruna, and in three days I was relieved of the bowel derangement. After using five bottles I was entirely cured. I most cheerfully recommend the use of Peruna to any one similarly afflicted."

Mrs. J. H. Bourland.

Montague Demands Surrender of Town.

El Paso, Texas.—Francisco I. Madere has sent word demanding the surrender of Chihuahua and on threat to strike it into shrapnel according to information received Saturday.

San Antonio, Texas.—A taken by insurgents Tuesday and the town of Uruapan and Arripa have fallen into rebel hands. Chihuahua is guarded night and day by volunteers.

Fortification has been constructed. General Orozco, who commanded the rebel force, captured a day train, two passenger trains and a freight train at San Pedro, west of Chihuahua on the Mexican Northwesterns on Tuesday.

Prospect for Good Crops.

Beeville, Tex.—J. W. Scott, one of the live and progressive farmers of the county, feels jubilant over the present crop prospects for a good crop this year.

He says the fields are in excellent shape and the farmers are fully prepared to meet their work. Mr. Scott plants about 700 acres in corn, cotton and hay crops and raises Jersey cattle, hogs and worlds of poultry, and does not go to the store to buy butter, bacon, eggs and such other things as he can produce on the farm. Last year he made about 3,000 bushels of corn and 150 bushels of cotton.

Lake Charles.—Criminal term of court closed this week. Joseph Milsted was convicted of forging and attempting to pass a bank check for \$30. James Williams, charged with burglary, was acquitted. Dennis Be- hrens was fined \$10 for drinking on a railroad train. W. F. Cooper was sent to jail for six months in default of \$250 fine for carrying a concealed weapon. The case of Joe Landry, charged with burglary, was referred to the juvenile court, and the state abandoned the charge of manslaughter against Clark. Kille in connection with the death of Joe Wiley, at Elizabeth.

Rain Over Southwest Texas.

San Antonio, Tex.—During the past few days more rain has fallen all over Southwest Texas. It has been practically ten days since any work could be done in the fields. The rain came slow and steady and most of it was absorbed by the ground. This has put the country into exceptionally fine condition. Sunshiney weather now prevails and the farmers will soon be in the fields again. The ranges are reported to be rapidly getting into good condition.

# BUSTILLOS LOST HIS HEAD

HE WAS EXECUTED FOR LETTING NAVARRO PASS.

Reports Are That Rebels Were Routed From Several Points—Insurgents Captured by U. S. Troops.

City of Mexico.—The responsibility for permitting General Navarro to arrive at Ciudad Juarez has been placed by the rebels upon "Captain" Bustillos, a minor chief, who has paid for his alleged negligence or incompetency with his life, according to reports from Turron Salazar. He is said to have been executed by order of Orozco.

When Orozco left the vicinity of Guerrero, his plan was for Bustillos to keep Navarro occupied until Orozco could reach Juarez, and to prevent the troops also from leaving the area. Bustillos failed, whereupon Orozco ordered his execution, which was accomplished ten days ago in Ocampo by six men sent by Orozco. Bustillos was said to have been the leader and star of a vaudeville troupe along the line of the Mexican Northwestern Railroad.

Passengers arriving state that the troops were fighting with rebels near Gabriel and Avino on the International Railway, in Coahuila. The rebels were said to have been routed from several points. They appeared to have no organization, but to have been operating in bands for robbery.

From the south came news that a body of men, many of whom were convicts, who broke jail in Huamantla a day or two ago, were threatening assembly upon a hacienda near Texilo, in Tlaxcala. The place was being defended by private guards.

News of further fighting between federal and insurgents near Chilpancingo in the state of Guerrero are reported. A hundred Mexicans were reported Saturday on Mexican soil opposite El Paso, smaller and exchanged shots with a few federal rifles. The skirmish was seen by employees of the smelter. Federal infantry left Juarez at once for the scene.

The federal soldiers were unable to find any insurgents and returned to Juarez. Late in the day United States troops patrolling the international boundary above the smelter discovered twenty-five insurgents on American soil. They were arrested and are in the El Paso jail.

Professor Maynor has just issued a most useful, useful and complete almanac. It contains not only all the scientific information concerning the moon's phases, in all the latest and best illustrated articles on how to read charts by chronology, palmistry and birth month. It also tells all about card reading, birth stones and their meaning, and gives the interpretation of dreams. It teaches beauty culture, manicuring, gives weights and measures and antidotes for poison. In fact, it is a Magazine Almanac, most invaluable.

It will be sent to anyone absolutely free on application to the Maynor Remedy Company, Philadelphia, Pa.

His Aspiration.

Richard, aged 12, Warburton, aged 14, and Gordon, aged 10, were discussing what they would do with a million dollars.

Richard said: "I would buy a motor boat."

Warburton said: "I would spend my million for music and theater tickets."

Gordon, the 10-year-old, snifed at them derisively. "Rumph," said he, "I'd buy an automobile and spend the rest in fines!"—Harper's Bazar.

Down With 'Em.

Young Lord Fairfax, in a brilliant after-dinner speech at the club house in Turin, pronounced the following:

"Down with the misogynist," said Lord Fairfax. "Down with the cynical type of male brute who says with the Cornish fisherman:

"Wimmen's like pilchards. 'When 'em's bad 'em's bad, and when 'em's good, 'em's only middlin'!"

THE YOUNG BRIDE'S FIRST DISCOVERY.

Their wedding tour had ended, and they entered their new home to settle down to what they hoped to be one long uninterrupted blissful honeymoon.

But alas! the young bride's troubles soon began, when she tried to reduce the cost of living with cheap big can baking powder.

She soon discovered that all she got was a lot for her money, and it was not baking powder for the bulk it was cheap materials which had no leavening power. Such powders will not make light, wholesome food. And because of the absence of leavening gas, it requires from two or three times as much to raise cakes or biscuits as it does of Calumet Baking Powder.

Thus, eventually, the actual cost of cheap baking powders, is more than Calumet would be.

Cheap baking powders often leave the bread bleached and acid, sometimes yellow and alkaline, and often unpalatable. They are not always of uniform strength and quality.

Now the bride buys Calumet—the perfect baking powder, moderate in price, and always uniform and reliable. Calumet keeps indefinitely, makes cooking easy, and is certainly the most economical after all.

#### THE STATE OF TEXAS,

To the Sheriff or any constable of Kimble County, Greeting:

You are hereby commanded,

that by making publication of this citation in some newspaper published in the County of Kimble, if there be one published in said county, (but if not, then in the nearest county where a newspaper is published), for eight weeks previous to the return day hereof, you summon the unknown heirs of Ruben Runner and of Eugene Reed and Edwin Reed whose residences are unknown, to be and appear before the Honorable District Court of Kimble County at the next regular term thereof to be holden in the County of Kimble, at the Courthouse thereof in Junction, Texas, on the 20th day of March, 1911, File Number being 514, then and there to answer the petition of W. W. Buck, filed in said court on the 28th day of December, 1910, against the unknown heirs of the said Ruben Runner, Eugene Reed and Edwin Reed, and alleging in substance as follows, to wit:

That he is the owner and in actual possession of that part of Survey No. 372, (except 100 acres conveyed to R. S. Beard, May 13, 1908) No 372, Section No. 9, described by metes and bounds as follows:

Beginning at the upper corner Survey No. 372, R. S. Beard, and lower corner of Survey 373, William Berry on the S. bank of the S. fork of the Llano River; thence S. 55.40 vrs. to a stone mound under pasture fence; thence E. 95.0 vrs. to a stone mound; thence N. 45.91 vrs. to a stone mound, the S. E. cor. of a 100 acre tract out of said Survey No. 372 in name of R. S. Beard, from which stone mound a cedar 3 in. bears N. 10 W. 19 varas. clump of Spanish Oaks, N. 51 W. 27 varas; thence S. 77 W. with S. line of said 100 acre tract 617 varas to stone mound, its S. W. corner from which a double elm 8 and 4 in. bears S. 24 E. 102-5 varas, a SP. O. 6 in. bears S. 64 W. 13 varas; thence N. 57.0 varas to a stone mound on S. bank of river from which a pecan 15 in. bears S. 24 W. 9 varas, another 18 in N. 19 E. 17 1-3 varas; thence up the river with its meanders to the place of beginning.

Also 246 acres, the East half of the Edwin Quinby 492 acre survey No. 374, Sec. 5, Cert., No. 672, patent No. 178, Vol. 2, and being same land conveyed to Mary A. Thomas by Lula May McDonell and A. A. McDonell, Sept. 29, 1897, by deed recorded in Bk. 7, page 462 of Kimble Co. deed records.

Plaintiff alleges that he and those whose estate he has, claiming under deeds duly registered, has had peaceable, continuous and adverse possession of the land and tenements herein claimed, cultivating, using or enjoying the same, and paying all taxes thereon for a period of more than five years before the commencement of this suit, and this he is ready to verify.

Plaintiff alleges that he and those whose estate he has, claiming to have good and perfect right and title to the lands herein claimed has had and held peaceable said lands and adverse possession of same cultivating, using or enjoying the same for a period of more than ten years before the commencement of this suit, and this he is ready to verify.

Plaintiff alleges that the defendants the unknown heirs of Ruben Runner, are setting up some character of claim to the first tract of land herein described, but that the claims set up by the defendants are spurious, fraudulent and unjust, but that the said claims of the defendant cast a cloud upon plaintiff title to said lands, seriously depreciating the value thereof.

Herein fail not, but have you then and there before said court this writ, with your return thereon showing how you have executed the same.

Given under my hand and seal of office, this 22d day of December, 1910.

A. O. LAWLER, Clerk District Court Kimble Co.
