Swift Action Promised On Poverty Plan

WASHINGTON (AP) — The administration laid its program for the restoration of Appalachia's economy before Congress today and got an assurance of prompt action.

Rep. Charles A. Buckley, R-N.Y., chairman of the House Public Works Committee, told Undersecretary of Commerce Franklin D. Roosevelt Jr., the committee would act "decisively and quickly" on the $228-million, 10-state program.

President Johnson, at the White House breakfast with Democratic congressional leaders, urged quick action both on the Appalachian bill and on his more general antipoverty program, House Speaker John W. McCormack, D-Mass., reported.

Roosevelt, who heads the President's Appalachian Regional Commission, was the first witness at hearings on the bill worked out by the commission to meet the needs of the impoverished mountain area.

The governors of the 10 states involved — Pennsylvania, Ohio, West Virginia, Kentucky, Virginia, Maryland, Tennessee, North Carolina, Alabama and Georgia — will testify later in the hearings.

Roosevelt described the aim of the five-year Appalachia program as the building of an economic base that will attract private industry in the area hit hard by the decline of coal operations.

The program calls for highway construction, building sewage facilities and purification of rivers, development of coal, timber and agriculture resources through research and expanded markets, and training and education projects.

CHOSEN FOR SUMMER SCIENCE AND MATH courses was this group of Snyder High School students, the largest number ever to be selected from the school here. Eight have been selected already; the others are alternates. Pictured in the front row are Sherrea Belt, Millijon Smyth and Glenda Sehested; second row, Barbara Buchanan, Judy Mixon and Raye Herring; and in the third row, Steve Crowell, Jeff Graham, Fred Wiman and Damon Ginby. Not pictured is Larry Walton who received his acceptance into the program Monday shortly after the picture was taken. In the top row are the math and science instructors who nominated the students for the courses. They are Gerald Cardwell, Mrs. Roy Carter, Bob Cole, Miss Virginia Grove and Ollie Peek.

Math, Science Students Chosen

The largest number of students ever selected from Snyder High School to attend the National Science Foundation summer courses will attend the courses this summer.

Eight students from Snyder have been chosen. This is an exceptionally large number from this size school, or any size school.

The National Science Foundation Summer Science and Math Institute for Secondary Students was started eight years ago by major colleges and universities throughout the United States. It is designed to further the education and interest of high school students in the fields of science and mathematics.

Snyder students who will take advantage of the summer courses include Steve Crowell who was selected by S.M.U. in the field of mathematics; by the University of Nevada in the field of ecology; and by St. Cloud State Teachers College in chemistry and mathematics. Crowell has chosen the University of Nevada.

Barbara Buchanan has been selected by Louisiana State University in marine zoology; by the University of South Dakota in computer math; and as an alternate by the University of Kansas in multiple sciences. Miss Buchanan has chosen L.S.U.

Raye Herring has been selected by Tougaloo Southern Christian College in chemistry and by the University of Kansas in metal engineering. Miss Herring plans to attend Tougaloo College in Mississippi.

Jeff Graham has been selected by Oklahoma State University in PSSC physics and as an alternate by the University of Texas in mathematics and by the University of Kansas in multiple sciences. He will attend Oklahoma State.

Sherrea Belt has been selected by Arizona State college in mathematics, and as an alternate to Southeastern State College in mathematics and the University of Southern Louisiana in mathematics. Miss Belt will go to Arizona State.

Damon Ginby has been selected by Texas A&M University in mathematics and as an alternate to S.M.U. in mathematics. He will attend A&M.

Judy Mixon was selected by the University of California in genetics.

Larry Walton was selected by the University of Kansas for the metallurgy and materials engineering summer camp.

Three students have been selected by one or more colleges as alternates and may later be informed of selection and opportunity to participate.

Millijon Smyth has been selected as alternate to Arizona State College in mathematics and University of Kansas in multiple sciences.

Glenda Sehested, a sophomore, was selected as alternate by Virginia State College in biology and mathematics and Southern Illinois in biology.

Fred Wiman, a sophmore, was selected as alternate by Texas A&M University in biology.

The courses will start in June, and most will last six weeks.

Barge Burns After Crash In Harbor

MOBILE, Ala. (AP) — An outbound freighter collided with an oil barge in Mobile harbor early today and the barge burst into flames. The Mobile waterfront was under critical threat for hours.

A spokesman at the Pure Oil Co. terminal at the state docks said the barge contained 735,000 gallons of high test gasoline.

The bow and forward hold of the 447-foot ore carrier Prospector also caught fire. That blaze was extinguished in about an hour.

The barge was beached by a Coast Guard cutter but the fire continued for hours.

The Coast Guard said no injuries were reported.

Mansfield Seeks To 'Break Ice'

WASHINGTON (AP) — Senate Democratic leader Mike Mansfield of Montana said today he hopes to "break the ice" on the civil rights bill Wednesday when the first jury trial amendments are brought up.

Various proposals are pending to require jury trials for contempt in civil rights cases, or to limit the punishment a judge may order without a jury trial.

Mansfield told of his hopes to begin voting Wednesday after the weekly breakfast conference of Democratic congressional leaders with President Johnson.

Mansfield said Johnson expressed appreciation over the bipartisan support the civil rights bill is receiving, singling out Sen. Everett M. Dirksen of Illinois and Thomas H. Kuchel of California, respectively Republican leader and assistant leader, for special praise.

AGAINST INFLATION

Labor Asked To Help Hold Line

By HARRY KELLY

WASHINGTON (AP) — President Johnson, concerned lest a prosperous economy breed inflation, has urged labor leaders to help hold the wage-price line by adhering to "sensible and fair" government guideposts for wage settlements.

Speaking to 139 union chiefs and their wives at a White House dinner Monday night, Johnson—as he did at a similar gathering of industrialists last week — dangled the carrot of "another tax cut in a few years" if the economy keeps expanding.

But he warned: "We surely do not want this promise of progress to be threatened by inflation."

Some of the union leaders already have announced they would ignore the guideposts in negotiations this year and Johnson lectured them on the possible hazards in a growing economy.

"As demand increases and unemployment falls, managers will be tempted to raise prices —in spite of the already high profits and continuing excess capacity — and unions will be tempted to force wages up faster than productivity, in spite of already high wages and continuing excessive unemployment" Johnson said.

He said he knew one side is inclined to blame the other for irresponsibility but he declared:

"I do not believe labor or business wants another wage-price spiral any more than Barry Goldwater wants to run on the same ticket with Nelson Rockefeller.

"For such a spiral steals savings—eats away at real wages —bleeds the meager income of our older citizens—gives orders and jobs to foreign competitors —and undermines the soundness of the dollar."

Johnson faced a difficult task in trying to convince the union leaders to keep with the guidelines, which were set forth by the late President John F. Kennedy.

Butler In Manila For Philippine Talks

MANILA (AP)—Foreign Secretary Richard A. Butler arrived in Manila today for two days of talks with Philippine leaders and said he is here to try and enlarge the area of peace in Southeast Asia.

Fifteen Die In Crash Of US Army Plane

TAN HIEP, Viet Nam (AP)—A U.S. Army Caribou transport caught fire and dashed all the 15 men aboard it to death in flames today a few seconds after taking off for Saigon, 25 miles northeast of Tan Hiep.

Authorities here said nine Americans and six Vietnamese servicemen were victims of the crash, the worst American military air disaster in Viet Nam.

In Saigon, a U.S. military spokesman said the plane may have been carrying 10 Americans and five Vietnamese. But, he said, the Tan Hiep figures could be correct.

Two American helicopters arrived at the scene two minutes after the crash. Others from Tan Hiep followed quickly. It was too late to help those aboard the plane.

Eight bodies were thrown from the blazing wreckage into the rock-hard rice field beside a Vietnamese village. The helicopter crews sprayed the bodies with fire extinguishers and dragged them to the edge of the field.

The other bodies were pulled from the charred wreckage. One of the pilots had to be cut from his seat.

Witnesses at Tan Hiep said the twin-engine Caribou's left engine was smoking as it took off and the smoke thickened as the plane rose. The control tower told the pilot the engine was on fire.

"He seemed to get control of the fire for a moment," a witness said, "and appeared to have feathered his engines, probably with his carbon dioxide containers. The plane seemed to wheel around, got up about 100 feet and then plunged down over the treeline two miles away with the engine blazing again."

Another American at the field commented: "When you're at that height and trouble happens, there is nothing much you can do."

Viet Cong snipers have shot at planes landing and taking off at Tan Hiep, but American officers at the field said there was no reason to believe Communist bullets had hit the Caribou.

"Apparently it was a mechanical failure," one officer said.

Five American visitors from Clark Air Force Base, in the Philippines, would have been aboard the plane if the pilot had not been impatient to take off.

M. Sgt. James Tucker of Gainesville, Ga., said he and the other four soldiers were racing across the airstrip to get the plane for Saigon. They nearly reached it, but the pilot impatiently waved them away.

The Caribou is a twin-engine, Canadian - made aircraft designed to provide rapid mobility for troops, equipment and supplies in forward battle areas. It can carry 32 fully equipped soldiers.

Ira E. Hayley Dies Monday; Rites Set

Funeral services will be held at 2:30 p.m. Wednesday for Mr. Ira Eugene Hayley of 1912 Avenue R.

Mr. Hayley died at 9:30 a.m. Monday at Cogdell Hospital.

Born June 23, 1888 in Coleman, Mr. Hayley had been a resident of Snyder for the past 15 years. He was a building contractor.

The funeral services will be held at the East Side Church of Christ with Richard Williams, minister of the church, officiating. Burial will be in Hillside Memorial Gardens under the direction of Bolger Funeral Home.

Mr. Hayley is survived by his wife, Mrs. Bernice Hayley; one daughter, Mrs. Ruth Rose of Odessa; four sons, Ira E. Hayley and W. D. Hayley, both of Corpus Christi, Joe Dorsey of Lubbock and Dale Dorsey of Snyder; five sisters, Mrs. Ada Henderson of Snyder, Mrs. Myrtie Huddleston of Knapp, Mrs. Jessie Jennings of Sweetwater, Mrs. Grace Mayes of Van Buren, Ark., and Mrs. Nettie Daugherty of Philadelphia, Pa; two brothers, E. G. Hayley of Waco and W. C. Hayley of Sweetwater; 10 grandchildren and 10 great-grandchildren.

Pallbearers will be Joe Day, Wayne Foster, Jack Dupree, Bob Dupree, Bill Schiebel and Cecil Boren.

Latest Election Returns Revealed

DALLAS (AP)—Latest returns from the Texas Election Bureau on voting Saturday in the Republican and Democratic primaries include:

Returns from 254 of 254 counties 229 complete:

Democratic primary:

Governor: M. T. Banks 23,955, Gov. John Connally 1,113,278, Mrs. Johnnie Mae Hackworthe 11,840, Don Yarborough 467,318.

Lieutenant governor: Albert Fuentes Jr. 298,268, Lt. Gov. Preston Smith 1,145,212.

U. S. Senator: Gordon McLendon 667,454, Sen. Ralph Yarborough 895,127.

U. S. representative at-large: Robert Baker 313,204, Bill Elkins 115,342, Bob Looney 109,566, Rep. Joe Pool 642,912, Dan Sullivan 193,280.

Agriculture commissioner: Millard Shivers 429,115, Commr. John White 965,888.

Land commissioner: Commr. Jerry Sadler 1,022,590, Fred Williams 363,226.

Railroad commissioner: Commr. Jim Langdon 876,373, Jesse Owens 541,760.

Supreme Court: Sears McGee 512,342, Jack Pope 819,211.

Republican primary: (253 counties, 250 complete).

U. S. Senator: George Bush 62,401, Jack Cox 45,146, Dr. Milton Davis 6,113, Dr. Robert Morris 28,046.

GOP presidential preferential poll: Sen Barry Goldwater 101,683, Gov. Nelson Rockefeller 5,945, Sen. Margaret Chase Smith 4,759, Harold Stassen 5,158, Henry Cabot Lodge 11,803, Richard Nixon 5,253, George Romney 135, William Scranton 609, others 362.

House-districts

Democratic Primary:

3. Rep. Lindley Beckworth 37,602, Charlie Langford 6,060, L. Everett Page 18,556. (9 counties, 7 complete)

5. Baxton Bryant 38,428, Earl Cabell 73,959. (complete).

6. Rep. Olin Teague 56,829, Jack Zubik 20,082 (11 counties, 10 complete).

7. Rep. John Dowdy 45,779, Benton Musslewhite 34,969 (complete).

11. Joe F. McAlister 11,789, Rep. Bob Poage 43,103)complete).

12. T. D. Thompson 7,160, Rep. Jim Wright 70,486 (complete).

15. Eligio de La Garza 30,513, Gene McCullough 17,957, Lindsey Rodriguez 20,682. (Complete).

16. Mrs. Robert Dooley 6,962, Malcolm McGregor 24,032, Richard White 27,611 (17 counties, 14 complete).

17. Rep. Omar Burleson 43,009, Max Carriker 20,170 (14 counties, 13 complete).

Republican primary

17. Phil Bridge 1,282, Dr. Clyde Morgan 1,214.

18. Hinkson 1,977, Price 8,218.

20. Layman Cameron 4,276, John O'Connell 4,555.

Parking Plan Is Discussed

Snyder City Councilmen awarded a contract for furniture and fixtures for the new fire-police building and discussed a committee report on a current study of downtown parking at their regular meeting Monday night.

The parking study was initiated at the April meeting of the council following a presentation by a merchants committee. The committee had asked that a study be launched to determine whether additional off - street parking facilities might be developed to an extent which might eventually lead to elimination of parking meters.

In connection with the study, a council-merchants committee appointed in April sought advice from a planning firm with offices in Kansas City and Fort Worth. Larry McWhorter, a representative of the firm, attended the council meeting Monday night.

McWhorter said that his initial reaction, after a brief look at the local situation, was that the city probably needed to approach the parking problem on a "spot" basis, rather than through a detailed master city plan involving many other factors. This, in effect, was the procedure recommended by the committee.

The big issue to be resolved, councilmen and members of the committee agreed, is the extent of city responsibility in actually promoting and carrying out such a project. The committee will continue its studies and the council indicated that more attention would be devoted to the proposal at its next meeting.

McWhorter said he could envision a related project which would have the effect of pulling the square closer together by landscaping, etc., if local interests should desire to pursue it. He also suggested that some general planning might be advisable along the new highway.

Bennett Office Supply was awarded the contract to provide furniture and fixtures for the new fire-police building. Bennett's bid was $3,268.84, just under the $3,286.84 quotation submitted by Bud's Office Supply.

After considering estimates on repairs and bids for a new vehicle, the council decided to purchase a new police car to replace one damaged in a collision last Wednesday. Successful bidder was Wilson Motors, for a new Ford. The only other bid received was $1,931.07 from Wellborn Motor Co. for a new Dodge.

Councilman M. L. Broman was elected unanimously to serve as mayor pro tem during the 1964-65 council year.

The council approved July 29 as the date for final public hearing by the city tax equalization board. Action was delayed until the next meeting on selection of a new member for the zoning board of adjustment. The new member will succeed John Mark McLaughlin, the city's new mayor.

Transfer of the Courtesy Cab Co. franchise from Mrs. Adelle Josephson to T. A. Roberts was approved by the council.

E. D. Walton requested that the council close an alley adjacent to a lot on the Lubbock Highway, which he purchased from the city on a bid last month. The alley has never actually been opened for public use, the council was advised. City Attorney Joe Carroll was instructed to prepare an ordinance to abandon the alley.

Red Guard Shoots West Berlin Youth

BERLIN (AP) — A 20-year-old West Berliner was fatally shot by an East German border guard during the night, the official East German news agency, ADN, reported today.

The agency said the youth tried to attack a Red border guard, who shot in self-defense.

West Berlin police said they had no report of the incident and said their men on the border heard no shots.

Junta Seeks To Quell Disorders

SANTO DOMINGO, Dominican Republic (AP)—The Dominican Republic's embattled civilian junta sought today to quell a spreading strike and mounting disorder with troop action, a court order and radio appeals.

Jose Salvador Velazquez, president of the Dominican Court of Appeals, ordered striking taxi and bus drivers to return to work within 48 hours. The newspaper Prensa Liore said the transit services would be "militarized" if the strikers did not comply.

Helmeted troops with bayonets patroled the capital's streets after three days of rioting in which two persons have been killed and dozens injured.

Donald Reid Cabral, president of the ruling triumvirate, said in a radio-television address that 548 persons had been arrested and property damage was estimated at $100,000.

Reid Cabral said some politicians "in and out of the country" are seeking to take advantage of the situation by supporting "anarchic" aims of the strikers. The junta leader cast blame on Cuba's Fidel Castro regime when he said Havana radio has announced some acts of agitation "several hours in advance."

Cuban Exiles Say New Attack Due

WASHINGTON (AP) — Rumors are flying once again among Cuban exiles that new efforts will be made soon to topple Cuba's Prime Minister Fidel Castro.

These reports, increasingly persistent both in Washington and in Miami, say the Castro Communist regime soon may find itself under terrorist and sabotage attacks both from within Cuba and from without.

The exiles say the outside groups will come from areas other than the United States.

Such a move, they explain, would avoid international complications for Washington as well as interference by U.S. planes and ships with such raiding parties.

U.S. officials appeared surprised when asked about the rumors. They indicated they had no information whatever about any such plans by the exiles, although they said they had read recently a statement by one Cuban exile leader, Manolo Ray, now living in Puerto Rico, that he and other leaders will be fighting inside Cuba by May 20.

The only major organized effort to overthrow the Castro government came in April 1961, when Cuban exiles, with U.S. help, failed in a sea and land attack gainst the Castro forces at the Bay of Pigs.

The exiles say a different type operation — much smaller than the Bay of Pigs in some ways, and much larger in others—is being planned.

They indicated the new attempt against Castro would be in the form of persistent sabotage, terrorist and subversion tactics, with no one large group in action, but as many smaller groups functioning as can be organized.

Exile forces have been claiming that despite intensive anti-subversive activity by the Castro government, opposition forces are finding it increasingly possible to infiltrate Cuba.

The anti-Castro groups apparently are depending heavily on what they insist is increasing disenchantment with the Castro government in Cuba.

Intelligence reports in Latin-American diplomatic circles, however, suggest that the Castro Communist dictatorship has become increasingly powerful as a state police organization, with little chance for sabotage.

WEATHER

SNYDER TEMPERATURES: High Monday, 94 degrees; low, 60 degrees; reading at 7 a.m. today, 74 degrees.

North Central Texas: Cloudiness and windy today and Wednesday. A few thunderstorms, mostly in north Wednesday. Low tonight 65 to 74. High Wednesday in 80s.

Northeast Texas: Cloudy today and Wednesday. Windy Wednesday and over west today. Low tonight 65 to 73. High Wednesday in 80s.

Northwest Texas: Partly cloudy and windy today and Wednesday. A few thunderstorms, mostly in east. Wednesday. Low tonight 50 to 72. High Wednesday 82 to 94.

South Central Texas: Cloudy and warm today and Wednesday. A few rain showers. Low tonight 68 to 74. High Wednesday 93 to 93 except 93 to 101 in southwest.

Southeast Texas: Cloudy and warm today and Wednesday. Widely scattered showers. Low tonight 65 to 75.

Southwest Texas: Clear to partly cloudy and warm today and Wednesday except late at night and in mornings. A few isolated showers. Low tonight 65 to 75. High Wednesday 88 to 98.

Moscow Peking Rift Highlighted In Book

By WILLIAM L. RYAN
AP Special Correspondent

A Chinese-inspired book circulating in Asia levels sensational charges against Soviet Premier Khrushchev and illuminates the monumental Moscow - Peking battle for domination of revolutionary movements in the underdeveloped world.

Bursting with anti-Khrushchev fury, the book accuses the Soviet leader of such things as plotting against Fidel Castro's regime in Cuba and advocating abandonment of the Communist struggle to take over South Viet Nam and Laos in Southeast Asia.

The charges and documentation could have come only from Peking. With Moscow's latest lament that the Chinese are trying to freeze the Soviet Union out of Asia, indications are that the dispute has gone past the point of no return and that the breaking point is near.

The book was published in Ceylon late last year. It was written in English by Theja Gunaward Hana, a Ceylonese Communist leader who is active in the "Afro-Asian solidarity" movement. Its text indicates it was virtually dictated by the Chinese. The title of the book is Khrushchevism."

Here are a few of the accusations against Khrushchev:

—That he made a deal with President John F. Kennedy for "20 years of peace" and pledged not to support violent revolutions.

—That he deliberately built up the October 1962 missile crisis to humiliate Fidel Castro so that the Cuban regime would be overthrown in favor of Moscow-trained Communists.

—That he sent agents to Peking to foment trouble between Chinese and Africans, particularly in the university.

—That he plotted the Hungarian uprising in 1956 in a deal with Yugoslav President Tito, only to have it backfire into full-blown revolution.

—That he bludgeoned Communist-ruled nations with threats of economic reprisals so they would toe his line. The book said he threatened to boycott the sugar of one nation (obviously Cuba) and that he threatened to expel others from the Communist family, hinting that those threatened were Romania and North Viet Nam or North Korea.

—That his policies caused rebellion against his rule in Soviet central Asia.

—That the Romanian party accused him of advocating abandonment of collectivization.

—That Khrushchev had to purge Czechoslovak and East German Communist leaders for opposing his line.

—That he bled Red China for repayment of every ruble loaned for the prosecution of the Korean war.

The book, citing little-known documents which must have been supplied by the Red Chinese, goes far back in the history of the Moscow-Peking dispute to portray "flea-bitten Khrushchev" as an "adventurist, opportunist, traitor, manipulator, stage manager — all of which produce the modern revisionist."

The author, once again seeming to echo Peking, predicts that Romania will be the next European Communist nation to join Albania in breaking away from the Khrushchev camp. He says Romanian Communist chief Gheorghe Gheorgiu-Dej "is a brave man, and the world will soon see the Romanian Peoples Republic also proving its national sovereignty."

Since the book was published, Romanian leaders have traveled to Peking and have been pictured in the forefront of efforts to soft-pedal the Moscow-Peking dispute. But Gheorghiu-Dej did fail to show up at a round of Khrushchev meetings recently with satellite leaders.

Britain Sends More Troops To Aden

LONDON (AP) — Britain ordered more troops to Aden today in preparation for stronger action to defend its base guarding British oil investments in the Middle East.

Defense sources said 600 men of the Lancashire Fusiliers plus a tactical headquarters from Northern Ireland would be airlifted immediately to the big port and base at the southwest tip of the Arabian Peninsula.

They will bring British strength in Aden to about 3,000 men, backed by jets of Royal Air Force.

Their immediate task informed sources said, would be a punitive expedition against tribesmen fighting a guerrilla war against the British-protected South Arabian Federation, which joins the Aden crown colony with the 14 sheikhdoms of the former Aden protectorate stretching along the south coast of the peninsula.

The long-term objective is to convince the guerrillas, Yemen's republican regime and President Gamal Abdel Nasser of the United Arab Republic that Britain will not be driven out of its Aden base. The base is considered essential to the protection of Western oil interests in the peninsula as well as a staging post on the Commonwealth defense line to the Far East.

Scouts In Competition

Seven Boy Scout troops from the Lone Buffalo District were in competition at a first aid meet over the weekend at the Willingham Ranch east of Snyder.

The district health and safety chairman, Dr. B. J. Weaver, and the camping and activities chairman, Russell Jones, conducted the event.

Cub Pack 36 of Snyder and Pack 32 from Ira, along with parents, attended the Friday evening camp fire program, with troops providing songs and skits. Cubmaster James Patterson presented Scouter pins to leaders of Pack 36.

In the first aid meet Saturday morning, Troop 35, sponsored by the Kiwanis Club of Snyder and led by Scoutmaster A. J. White, won top honors in all three events to take the first place ribbon. Troop 35 scored 251 points out of a possible 300.

Two second place ribbons were awarded. One went to Troop 123, led by Scoutmaster Levi Garrett, which scored 248 points, and the other went to Troop 20, led by Scoutmaster Tom LeMaster, which scored 243 points.

Two third place ribbons went to Troop 177, led by Scoutmaster Currie Skains, with 229 points, and Troop 32 of Ira, led by Scoutmaster Jack Adams, with 238 points.

Rotary Club Troop No. 36, led by Bob Bell, followed with 185, and Troop 108 led by Jim Jackson had 167 points.

Connally Pushes Plan For Future

SAN ANTONIO (AP) — Faster transportation, pushbutton homes and three cars in every garage await Texans in 1975—if they are willing to plan and work—Gov. John Connally told a group of bankers today.

"If we fail to plan for this future, being a Texan will not mean to the next generation what it has meant for all these 128 years since the Republic of Texas was born," Connally said.

He told the Texas Bankers Association that "Texas today is great almost in spite of itself.

"Historically, we have tended to resist change rather than foster it . . . The Texas best known to folklorists is rural and agrarian."

Locusts Invade Ranch Near Laredo

COTULLA (AP)—Swarms of locust infested a 10 mile strip today on the Atlee Ranch 50 miles north of Laredo.

The pests were clinging to mesquite and cactus and were confined to an area where grass was either absent or negligible.

Seek Rules For Financial Expansion

GENEVA (AP) — The United States joined Yugoslavia and 11 Asian, African and Latin-American countries today in proposing a set of rules for financing the trade expansion of the underdeveloped nations.

The draft resolution of general principles, submitted to the 122-nation U.N. trade and development conference, said the industrialized countries should give their financial aid "with a view to continuity so as to allow the most efficient planning of the economic growth of developing countries."

Jury Returns Verdict In Assault Case

A jury in 132nd District Court has found Robert Durst, Snyder Negro, guilty of aggravated assault, and set his fine at $275.

The case went to the jury Monday afternoon, and the verdict was returned Monday evening.

Durst has been charged with being the driver of an auto and intentionally striking another Snyder Negro, Floyd Wellington, with the car.

DeGaulle Blocks Cut In Tariffs

By CARL HARTMAN

GENEVA (AP) — President Charles de Gaulle's France today was blocking a move to declare a 50 per cent cut in tariffs as the official goal of the Kennedy Round negotiations to break down international trade barriers.

This is the maximum cut that can be made under the U.S. Trade Expansion Act put through by President John F. Kennedy in 1962.

France is unwilling to pledge itself to this figure even though it is a goal that the 75 nations in the talks are unlikely to achieve.

Some French industrialists fear a sharp lowering of tariffs will expose them to competition they can't meet.

Preliminary work on the Kennedy Round has been in progress for more than a year. The talks opened officially Monday with speeches by representatives of the leading countries involved including former Secretary of State Christian A. Herter, President Johnson's chief negotiator.

Valery Giscard d'Estaing, De Gaulle's minister of finance and economics, also was present. Authoritative sources said he was the key figure in meetings of the representatives of the European Common Market, which includes West Germany, Italy, Belgium, the Netherlands and Luxembourg as well as France.

The Common Market and the United States are the two giants of the Kennedy Round. Its success depends on agreement between them.

Leading figures at the session agreed that little or nothing could be done in the two or three days of top-level meetings this week.

It will be at least a year, and probably more, before the Kennedy Round produces any binding agreements.

But there is strong hope that this meeting will result in at least a statement of the 50 per cent goal. There also is expectation that Sept. 10 will be set as the deadline for submitting lists of exceptions—items on which participating countries will not accept across-the-board tariff cuts but will insist on negotiating separately.

At closed meetings of the Common Market countries that lasted late into the night, authoritative sources said the French held out against both these points.

US Freezes All Viet Nam Assets

WASHINGTON (AP) — The Treasury announced today it is freezing all assets of North Viet Nam in this country.

The Treasury said that it was adding North Viet Nam to the list of countries which will come under foreign assets control regulations.

In addition to blocking any North Vietnamese assets which may be in the United States, the action also prohibits all financial and commercial transactions between Americans and North Viet Nam.

The action was taken, the Treasury said, at the recommendation of the State Department, in the light of the continued Viet Cong Communist aggression in South Viet Nam.

Law Eased For Tribal Hunting

OKLAHOMA CITY, Okla. (AP)—An Indian custom is responsible for the Oklahoma Wildlife Conservation Commission bending a law.

Richard Gibson, spokesman for the Shawnee Indian tribe, explained to commission members Monday that it was the custom of tribesmen to hunt 100 squirrels during a tribal ceremony near Little Axe, south of here, when trees leaf and the first full moon of the season appears.

The problem was that all this takes place before squirrel hunting season opens May 15. The commission consented to the hunt.

Navy Recruiting Office Is Opened

The U. S. Navy Recruiting Office in Sweetwater has been opened permanently, Chief Charles Conner, recruiter in charge, has announced.

The office is located in the basement of the Sweetwater Post Office from 8 a.m. to 5 p.m., Monday through Friday each week. It serves this area as a recruiting installation of the Navy. Telephone number of the office is BE 4-8000.

Airliner Skids On Takeoff Try

ROCHESTER, N.Y. (AP)—A United Air Lines passenger plane skidded 700 yards on an airport runway Monday night when the craft's nose wheel collapsed during an attempted take-off.

None of the 24 passengers and five crewmen was injured in the mishap at Rochester-Monroe County Airport, a United official said.

Thank You

Please let me take this opportunity to thank all the voters who considered me in their selection of a nominee for Sheriff in the Democratic Primary of May 2nd. I will do all I can to earn your continued support and confidence. I would also like to thank all of the other candidates in the race for Sheriff for the good, clean campaign.

Thank you,
Keith Collier

Candidate for Sheriff of Scurry County, Democratic Primary

(Paid Pol. Adv.)

THANK YOU!

I sincerely thank you for the vote of confidence you expressed by your support in the first primary. I will continue to serve you to the best of my ability and strive at all times to merit the trust you have placed in me.

Thank you again,
Thayne Mebane

(Paid Pol. Adv.)

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: "Khows My Birds" doesn't know much. The male of the species is handsomely bedecked with colorful plumage in order to lure the female during the mating season. The female is drab and plain so she'll not attract too much attention, thereby diverting her from her maternal responsibilities. It is just the opposite with the human animal, however. The female does the strutting, preening, chasing and ultimately the capturing. Although Nature originally made her plain and drab, she soon learned the tricks of paddling, girdling, painting and trapping like no other animal on earth. But no amount of trickery could alter the biological laws. And the female must continue to endure the pregnancies and bear the young. Ho ho ho!

MALE

• • •

DEAR ABBY: Whoever signed himself "KNOWS MY BIRDS" certainly does not. We had an adorable little bluish green parakeet named DICKIE. He talked a blue streak. Apparently nobody told DICKIE that only male parakeets could talk because when DICKIE was two years old, "he" laid an egg. I thank you.

AMAZED

• • •

DEAR ABBY: Several weeks ago, a birdwatcher said in effect that the females were prettier than the males, but that they were useless. And you let him get away with it. Having given him one barrel about who laid the eggs, you should have let him have the other barrel and asked him if he had ever seen a pair of ring-necked pheasants, or weed cocks, or Kentucky cardinals, or ruby-throated hummingbirds, or indigo buntings. The males are marvelously colorful. The females are not. Nature colored the females protectively, to help perpetuate the species. Of course, male and female doves, chickadees, bluejays and many others are similarly marked. But I can think of no bird hereabouts among which the female is more attractive than the male.

BILL THE BIRD MAN

DEAR ABBY: No, no, no! You are wrong, wrong, wrong! The female of the feathered family is NOT more beautiful! The peacock is the gorgeous one. The peahen fades in with the background. The male cardinal is brilliant red, while the female is brownish with only slight tinges of red. The reason: The male must divert attention of a predator away from the nest, so the female can stay on the eggs, unnoticed. Now as for the female being more vocal: That is the prevailing manifestation of all females.

Really, Abby, you write a wonderful colum , and when you wish, you can make strong men quail (hah!), but you deserve 60 lashes with an ostrich plume. It won't hurt, but you'll be tickled to death.

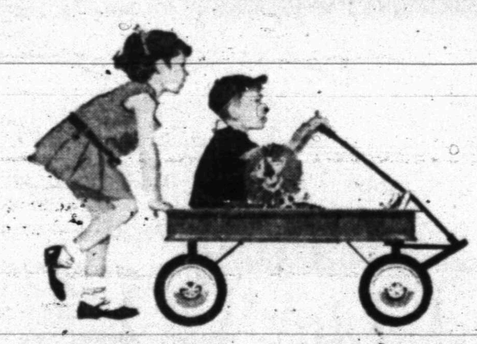
THE DEPENDABLES: SUCCESS CARS OF '64



Some men never outgrow the need

for a wagon

A wagon has a way with men. Always has. Always will. Especially when it's a Dodge Wagon. Case in point: that Polara shown above. As rugged and handsome a carryall as you've ever laid hands on.

Inside—saddle-grained vinyl that resists cracking, scuffing, shrinking, stretching. Hand-fitted carpeting on the floor. A center armrest in front that snaps down solidly under your arm.

And there's room. Big, open room you can cram to the roof. Seating for six or nine passengers. And underhood—a choice of engines ranging from a frisky Six to an optional, ripsnortin' 426 cubic inch V8. It's a tough combination to beat.

Look 'em over at your Dodge Dealer's. The wagons that have a way with men—Dodge Wagons. Man-sized. Man-powered. Eight versions to pick from. (And you might as well bring along your better half. Seems the gals prefer the big, strong, silent type, too.)

Fluvanna News

BY MRS. J. R. JONES

Mrs. Fowler Mathis attended the District Home Demonstration meeting in Floydada recently.

Kevin and Mark Cade of Rotan spent last Tuesday with their grandmother, Mr. and Mrs. J. R. Jones, while their parents, Mr. and Mrs. Bill Cade attended the funeral of her grandmother, Mrs. Irene Dumas of Brownfield. The funeral was held in Plains.

Mr. and Mrs. Bud Schults and girls of Odessa spent last Saturday with Mr. and Mrs. J. W. Love.

Mrs. Pat Barr, her husband and children, Debbie Mathis, Rinda Brunner, and Keitha Kever are in Austin for a FHA meeting.

Mr. and Mrs. Lee Lavender visited Sunday with his sister, Mr. and Mrs. Kalep Browning of Girard.

Mrs. Jessie Sims visited several days last week with her neice, Mr. and Mrs. James Sharbs and daughter of Lubbock. Mrs. Sharb and baby returned home with Mrs. Sims on Friday to spend the weekend.

Mr. and Mrs. Dean Ball and children, Mr. and Mrs. Joe Landrum and Mike spent the weekend at Lake Whitney.

Mrs. Lora Lady and Anita, Mr. and Mrs. Charlie Ritchie and Gregg of Colorado City, visited Mr. and Mrs. Robert Jones on Sunday.

Bobby Warren of Tye visited his parents, Mr. and Mrs. Robert Warren last Sunday.

Mrs. Raymond Stansell, Mrs. H. E. Shifflett and Mrs. Bertie Lee and son of Snyder visited Tuesday with Mr. and Mrs. Barney Stansell.

Mr. and Mrs. Mert Jones and Mrs. Ola Stavely are vacationing in Riudoso, N. M. this week.

Vibe Patterson who has been confined to the Snyder Hospital for several months returned to his home here on Thursday.

Mr. and Mrs. Horace Carmichael visited relatives in Hereford Thursday and Friday. Mrs. Ida Barker who was also visiting in Hereford returned home with the Carmichaels to visit for awhile.

Sliced onion and apple plus brown sugar do a lot for sauerkraut; just simmer the combination in a big skillet. If you like, you may cook the onion and apple in a little butter or margarine before adding the kraut and sugar.

Hiroshima Pilot Visited By Survivor Of Atomic Attack

GALVESTON (AP)—The pilot of a reconnaissance plane which led in the atomic bombing of Japan in World War II met with one of the Hiroshima survivors Monday.

Dr. Takuo Matsumoto of the Hiroshima - Nagasaki World Peace Study Mission came here to visit Claude Eatherly, 45, who directed the B29 Straight Flush on a weather mission over Japan an hour before the bombing.

Eatherly has been described as suffering from a severe guilt complex over his role in the attack. He has been arrested a number of times in recent years on attempted robbery and worthless check charges.

Matsumoto said the purpose of his visit with the pilot was to "try to console him and tell him not to worry too much. He was not the one who was responsible. . . ."

The two men were together at Eatherly's home about 30 minutes Monday night.

"He asked me if I had any suggestion as to what might be done to keep the peace," Eatherly said. "I told him I thought he was better qualified to do something about it than me."

The former Air Force major said he made no suggestions.

Matsumoto is the senior delegate of a 50-member mission which recently arrived in the United States from Japan. He said the purpose of the mission is to present a testimonial of actual experiences, rather than abstract beliefs, about the horrors of nuclear war.

In Dallas earlier, Matsumoto said he also plans to visit former President Harry S. Truman, who ordered the nuclear unleashing against Japan which signaled an end to World War II.

California Aviatrix Is Honolulu Bound

HONOLULU (AP)—Joan Merriam was to take off from Wake Island today on a direct flight to Honolulu, the Federal Aviation Agency said.

Unfavorable weather conditions prevented her from leaving Wake Monday. The FAA said the Long Beach, Calif., housewife should arrive in Honolulu at 12:30 a.m. EST Wednesday.

Methodists Vote Sweeping Policy On Civil Rights

PITTSBURGH (AP) — The Methodist Church, after spirited debate, has adopted a sweeping policy on civil rights designed to persuade Methodists to abolish racial segregation in their churches and in communities in general.

Delegates to a worldwide General Conference of the Methodist Church approved the policy by a show of hands Monday night.

The policy is embodied in a report by the Committee on Christian Social Concerns. It is now church policy but is not church law.

This means that the policy cannot be enforced by such measures as expulsion or censure.

Some of the highlights of the policy are:

—Pastors and church officials are to open their churches to persons of all races.

—Methodist bodies, organizations and individual Methodists are to use their influence to secure fair employment practices and non-segregated services in the corporations in which they hold investments.

—Equal rights should be provided for voting, law enforcement, education, employment, housing, and public accommodations.

—Elimination of racial segregation, including de facto segregation, in all public and methodist schools.

The term "civil disobedience" was omitted from a substitute paragraph before the report came to a vote before about 900 delegates.

The original version would have condoned civil disobedience in "rare instances where legal recourse is unavailable."

The substitute paragraph read in part:

"In some instances, where legal recourse is unavailable or inadequate for redress of grievances from laws or their application that, on their face, are unjust or immoral, the Christian conscience will obey God rather than man."

The chairman of the commission which drafted the report, Harold A. Bosley of New York City, told the conference that the substitute portion was not a weaker version.

"We do not intend to give a single inch in endorsing the principle of civil disobedience."

The adoption of the policy came as the conference entered its second week in Pittsburgh. The conference, which meets every four years, is the supreme policy-making body in the church.

N.M. Primaries Dullest To Date

ALBUQUERQUE (AP)— With only four statewide contests, one of the dullest campaigns in the memory of state political observers in New Mexico was concluded in today's primary elections.

A pre-primary convention system, adopted by the 1963 Legislature, is responsible for the small number of offices being contested on the state level.

Democrats will choose between state Land Commissioner E. S. Walker and state Sen. Fabian Chavez of Santa Fe for U.S. representative, Position 2. New Mexico's two congressmen are elected at large.

Rep. Joseph Montoya, D-N.M., is vacating Position 1 to run for the Senate. Rep. Thomas Morris, now holding Position 2, is unopposed on the Democratic ticket for nomination to Position 1.

Less heated Democratic campaigns have seen Asst. Atty. Gen. Boston Witt oppose Tucumari lawyer Emmett Hart for attorney general and Robert Valdez of Albuquerque running against incumbent G. Y. Fails for a Corporation Commission seat.

In the one Republican race, B. Lyman of Clovis opposes Stella Montoya of Albuquerque for nomination for secretary of state.

Only about 25 per cent or 100,000 of the state's registered voters were expected to ballot.

The pre-primary convention system was tried in New Mexico in 1954 but scrapped after one test because of public protest.

The voting hours were 8 a.m to 7 p.m. (MST).

Demonstrators Get Cases Postponed

ST. AUGUSTINE, Fla. (AP)—Trespass cases against Mrs. Malcolm Peabody, 72-year-old mother of the governor of Massachusetts, and 284 other persons arrested during racial demonstrations here have been postponed.

The defendants were scheduled to appear in St. Johns County Court today. Chief Judge Elbert Tuttle of the U.S. 5th Circuit Court of Appeals ordered prosecution postponed until that court hears an appeal.

The defendants appealed the refusal of U.S. Dist. Judge Bryan Simpson of Jacksonville to take jurisdiction in the case. The circuit court will hear the appeal at New Orleans Wednesday.

Strikes Are Better Than Beanballs

By MIKE RATHET
Associated Press Sports Writer

Sandy Koufax threw 39 strikes. Bob Gibson threw two beanballs and one bat.

Koufax won. Gibson didn't.

Moral: Strikes are more effective — and less expensive.

Koufax, making his first start since injuring his arm April 22, pitched the Los Angeles Dodgers to a 2-1, 10-inning victory over the Chicago Cubs Monday night, allowing only three hits and striking out 13 in an impressive return.

It was the 52nd time in his major league career that Koufax had struck out 10 or more in a game, leaving him only two 10-strikeout performances away from the record of 54 held by both Rube Waddell and Bob Feller.

Gibson, meanwhile, got involved in the first beanball incident of the season and drew an automatic $50 fine along with Philadelphia's Jack Baldschun. The St. Louis right-hander also left himself open for further action when he was ejected for throwing his bat toward the mound in the fourth inning.

Gibson threw two fast balls at the head of Phillies' pitcher Dennis Bennett in the third inning, apparently in retaliation for Bennett's decking the Cardinals' Julian Javier in the second inning. Gibson drew a warning from plate umpire Doug Harvey —and with it the automatic $50 fine.

Then, in the fourth, with Baldschun on the mound for the Phillies, Gibson was hit in the side by a pitch, and flipped his bat toward the mound. Baldschun immediately drew a warning and the automatic fine while Gibson drew a thumb from Harvey.

Gibson not only lost money—but a victory as well. When he left the Cardinals were leading 5-1 and won 9-2. Gibson, however did not qualify for the triumph because he didn't pitch the required five innings.

Who got the easy victory?

Lucky Roger Craig.

In other National League action, a fight broke out after Milwaukee had edged the New York Mets 2-1 behind Denny Lemaster's two-hit pitching, Willie Mays hit home run No. 10 in San Francisco's 3-2, 12-inning victory over Houston and Pittsburgh defeated Cincinnati 4-2.

In the American League, Baltimore crushed Washington 11-4, Cleveland whipped Boston 7-5, the Chicago White Sox walloped Minnesota 10-5 and Kansas City downed the Los Angeles Angels 7-4. The New York Yankees and Detroit were not scheduled.

Nine Texans Are Drafted By NBA

NEW YORK (AP)—Nine Texas collegians were drafted by the National Basketball Association Monday with two of them No. 1 choices.

Philadelphia took Lucious Jackson of Pan American as its No. 1 selection. The New York Knicks grabbed Jim (Bad News) Barnes of Texas Western as No. 1.

Egne Elmore of Southern-Methodist was picked by San Francisco, Bennie Lenox of Texas A&M by Baltimore, John Savage of North Texas State by Los Angeles, Kendall Rhine of Rice by St. Louis, Larry Phillips of Rice by Detroit and Scott Pierce of West Texas State and Jim Reynolds of Abilene Christian by Cincinnati.

NICKLAUS WINS ANOTHER BATCH OF SILVER DOLLARS — Jack Nicklaus and his wife, Barbara, check some of the silver dollars representing his $12,000 first prize money that he won in the Tournament of Champions at Las Vegas, Nev. Nicklaus sank a 42-foot birdie putt on the 18th green to win the golf tournament by one stroke with a four-day total of 279. (AP Wirephoto)

Rosters Picked By National FL

Rosters for the National Farm League were selected Monday night to round out the personnel for Little League Baseball operations here.

The Little and Farm Leagues will begin operations on May 15. They will play on Fridays and Saturdays until the end of school, and then begin their schedule of four playing dates per week.

Managers of the National Farm League also announced their practice sites and the first practice sessions have been set for 5 p.m. Thursday. The Cardinals will practice at the high school practice field, the Cubs on the diamond west of West Elementary School, the Braves at Stanfield Elementary School and the Giants on a field next to 3111 Thirty-ninth Street.

The National Farm League team rosters follow:

CARDINALS

Manager, Horrace Bostick; coaches, Jack Gorman and Dan Cotton. Players, Boyd Noel, David Sellars, Laddie McMillian, Larry Roach, Joe Hale, Kenneth Vernon, Danny Andrews, Jackie Gorman, Mike Hill, James Williams, Dennis Reynolds, Mark Bostick, David Cotton, Richard Gorman, Kyle Rosson.

CUBS

Manager, Dub Wright. Players, Ronnie Watkins, Jon Ellis, Gary Pruitt, Alfred Smith, Paul Watkins, Mark Zeck, Randy Wright, Mike Dennis, Randy Glasscock, Bryan Baize, Alan Smith, Wesley Key, Sammy Byrom, Joe Dennis, Steve Talbott.

BRAVES

Manager, Homer Godair; coach, George Stewart. Players, Keith Longbotham, Keith Evans, Gary Hicks, Jeff Stewart, Ricky Freeman, Vance Morgan, Noble Longbotham, James Walkers, Gerald Garrison, David Merritt, Terry Roe, Karl McKinney, Grant Knipe, Gary Wittie, Gregg Godair.

GIANTS

Manager, Ernie Jones. Players, David McCommas, Kenneth Keller, Roland Thorpe, Tommy Hendrix, Jerry Littlejohn, Larry Hatfield, Steve Wevel, Mark Line, Bobbie Price, Norman Clement, Derrel Clements, David Jones, David Minton, Joy Aycock, Billy Poe.

McMurry, Angelo Eye Lone Star Bid

NACOGDOCHES, Tex. (AP) —McMurry and San Angelo will be considered for membership in the Lone Star Conference.

The faculty athletic representatives meet here Friday and Saturday and expansion will be one of the items on the agenda.

McMurry is an independent. San Angelo is returning to football this fall.

The meeting will be held in connection with the annual spring track, golf and tennis meet of the conference.

Houston Is Left Without Sponsor In Bid For SWC

HOUSTON (AP) — Rice University officials have informed the University of Houston they will not sponsor the Cougars for membership in the Southwest Conference at the league meeting in Lubbock this week.

Dr. Philip C. Hoffman, president of the University of Houston, announced the Rice decision Monday in a prepared statement which made no attempt at concealing the school's disappointment.

As a result of Rice's decision, a breach that many persons hoped would never come apparently is in the making between the two Houston colleges.

It has long been the belief in Houston that Rice held the key to the university's chances. With Rice as a sponsor, many observers felt Houston might ride straight through to membership at the weekend conference meeting, possibly by an 8-0 vote.

Houston officials had been told by persons high in Rice administration Rice was considering sponsorship of Houston for membership at the Lubbock meeting.

Dr. Hoffman, in his statement, said other conference schools had expressed interest in sponsoring Houston, but Houston officials, at Rice's request, asked no one else submit the school's name.

The Southwest Conference has a rule that members will be accepted only by invitation and a present member must submit the application.

At almost the very last moment, Rice removed itself as a potential sponsor.

A spokesman for that school said Monday, "Rice University feels that the question of enlargement of the Southwest Conference is a matter to be considered carefully and collectively by the entire conference."

The conference meetings begin Thursday, which leaves Houston officials little time to secure necessary sponsorship.

Dr. Hoffman said he had been contacted by a high official of the administration of Rice and by an officer of the board who said they felt their school should sponsor Houston for SWC membership.

Indicating the move would take time, they asked the Houston president to "assist in preserving an atmosphere which would be conducive to a calm consideration of this possibility."

Hoffman said:

"I was specifically asked not to allow any other Southwest conference institution to sponsor the University of Houston until Rice had been able to give full consideration to the matter."

Dr. Hoffman said the University of Houston honored Rice's request..."in spite of encouraging expressions of interest from other Southwest Conference institutions."

Texas Lutheran In Bid To Clinch Tie

SEGUIN, Tex. (AP) — Texas Lutheran goes after a clinch tie for the Big State Conference baseball championship today when it meets St. Mary's.

Lutheran, leading the race with a 4-3 record, can sew up at least a tie for the title by winning.

Texas Lutheran plays defending champion Southwestern at Georgetown Thursday. Southwestern has a 4-4 record. So has St. Mary's, while St. Edward's, the other team in the race, is 4-5.

TIGERS MEET LAMESA TODAY

The Snyder Tigers, back from a week on the road, were to engage the Lamesa Tornadoes in a District 3-AAA baseball game this afternoon in Towle Memorial Park.

Game time was set for 4 p.m.

The Tigers, in a tie for second place in the district standings, have won five games and lost two in loop play. The Lamesa team went into today's game with a league record of one victory and six defeats.

The Tigers have an open date on the league schedule Saturday, but will entertain the Andrews Mustangs in a non-conference doubleheader on the local diamond.

Battle Resumed In Texas League

By The Associated Press

The Texas League resumes operations after taking a day off to change stands.

San Antonio, leading the league by three games, goes to Fort Worth for a first meeting with the Cats this season.

Fort Worth is tied for second place with the other four members of the circuit.

El Paso will be at Tulsa and Albuquerque at Austin in other games tonight.

To The Voters Of Scurry Co.

I WISH TO THANK THE VOTERS OF JUSTICE PRECINCT 1 FOR THEIR SUPPORT IN MAY 2nd. PRIMARY. NOT ONLY DO I FEEL THANKFUL, BUT IT MAKES ME FEEL VERY HUMBLE, AND TO THOSE WHO SAW FIT TO VOTE FOR MY OPPONENT I WISH YOU EVERY GOOD THING IN LIFE THAT IS RIGHT. COME SEE ME SOME TIME.

Believe me, I've cooked on both...and a GAS range is the most automatic. It has Burner-with-a-Brain.

Mrs. Dorothy J. Smith has cooked on both gas and electric ranges, and she knows from experience. The new gas advance called Burner-with-a-Brain lets you set your temperature and forget it. No burned food or boil-overs. Another thing with the new gas range is the Cook n' Keep oven that turns itself down to ideal serving temperature. And stays that way indefinitely. Hours later, your meal's still perfect and piping hot. There's also smokeless broiling —with the broiler door closed. Modern, automatic gas ranges have all the advantages, see them now while they're on sale at your gas appliance dealers!

Truman Certain Of Niche In American History Books

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Harry S. Truman, as brisk and cocky as when he left the White House in 1953, will be 80 Friday and if over the years he has sounded self-satisfied, and still does, it's no wonder.

He doesn't have to worry about his place in history. It will be high up.

In 1952, not long before Truman turned over the presidency to Dwight D. Eisenhower, the American historian, Henry Steele Commager, said in 50 years historians would regard Truman's administration as one of unparalleled success."

Ten years later the New York Times reported a survey of 75 American historians showed they listed Truman among the near-great presidents. They may plant him among the great in the years to come, by Commager's reckoning.

They named the great ones Franklin D. Roosevelt, Wilson, Jefferson. This was their near-great list: Jackson, Theodore Roosevelt, Polk, Truman, John Adams, Cleveland.

Just before he retired, Truman, in interviews with newsmen who had covered his White House years, was asked: If he had it to do all over again, would he change anything?

No, he said, and added: "If a president makes decisions that are right, and for the welfare of the people, it does not make any difference what is said about him while he is alive. The presidents who have done things, who were not afraid to act, have been the most abused."

Now, 12 years later, a newsman asked the same question, got the same answer: "I would change nothing." Figuring he did his utmost and willing to be judged on that, he is adjusted to the thought of death.

He put it this way: "I know that when I am carried out feet first it can be said of me: "He did his damndest."

No president in history ever had dumped on him a load more terrible than the one inherited when he stepped into the White House April 12, 1945; a war to be finished in Europe and the Pacific; a country to be reconverted to peace, and, still undreamed of then, a cold war to be fought.

Except that he had been a hard-working senator, he was an unknown quantity when he became president. He was overwhelmed. He said he felt the moon and stars had fallen on him. "Pray for me," he said.

But what he had was iron and the ability to make decisions. What he needed was good advice. He sought it. His first test: deciding to end the war with Japan by dropping atomic bombs on its cities.

By the fall of 1945 the cold war was taking shape. So was his thinking about it. In a speech on Oct. 27, 1945, he announced the United States would keep the secret of the atomic bomb, to be safe and preserve peace, and he called for a large armed force. Things piled up on him but he handled them all like iron.

In early 1946 he forced Stalin to pull his troops out of Iran. Early in 1947 he took America, once and for all, out of its ancient tradition of peacetime isolation.

With Greece overrun by Communist guerrillas and Turkey pressured by the Soviet Union, he proclaimed the Truman Doctrine: American help for nations struggling to survive. Greece and Turkey were saved.

The same year he launched the Marshall Plan of aid to shattered countries. Western Europe was put back on its feet, the rest of the non-Red world was helped. Since then the aid bill has reached $100 billion.

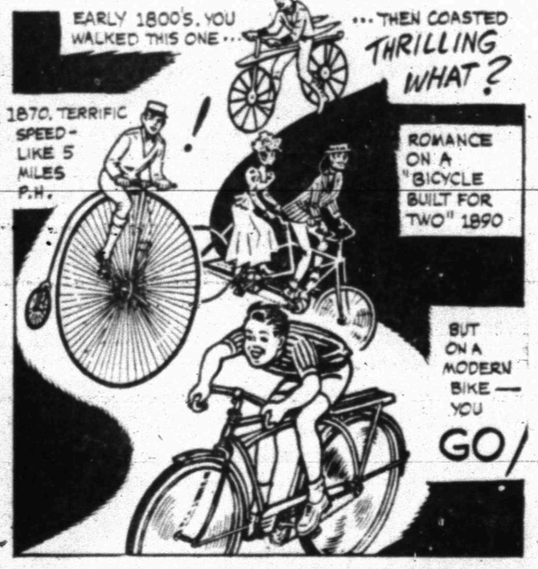
In 1948 and 1949, with the airlift he broke Stalin's Berlin blockade. In 1950 he decided to fight the Korean war. He was abused, denounced and tormented by people like Sen. Joseph McCarthy who never got off his back.

But the foreign policy he laid down in those years—as early as 1947—has been followed ever since by Presidents Eisenhower, Kennedy and Johnson with variations. The main point of it was: stop communism in its tracks.

What was the most tremendous decision of his presidency? He said it was not dropping the bombs on Japan but going into Korea.

He was asked once what was the high point of his White House years. He laughed and said it was his election to a full four-year term in 1948.

Junior Editors Quiz on BICYCLES



QUESTION: Who invented the bicycle?

ANSWER: There is an old stained glass window in a church in England which shows a man apparently walking alongsome kind of wheeled vehicle, but this can hardly be called a bicycle. About 1790, the "walk-along" was invented, but this was still not a bicycle, because the rider kept his feet stepping along the ground. These machines became quite popular in the early 1800's and riders found they could coast downhill. Such experiments probably led to the first true bicycle, made in Scotland in 1840 by Kirkpatrick MacMillan. This had a seat and a set of pedals and cranks which led to and turned the rear wheel. This machine was improved in 1846 by Gavin Dalzell. The next step was the velocipede or "boneshaker" with pedals attached to the front wheels, and this led to the high wheeler, which had the first all metal frame. The difficulty of riding these ungainly affairs resulted in the "safety bicycle," introduced around 1880 with both wheels of the same size. The next 10 years gave us rubber tires, ball bearings, coaster brakes and adjustable handles and ushered in the bicycle age, with all the fun and thrills which bicycles still give us today.

Pat Yourself On The Back To Succeed

By HAL BOYLE

NEW YORK (AP)—Curbstone comments of a Pavement Plato:

Self-approval is one of the greatest keys to successful living.

To enjoy life more, learn to pat yourself on the back when you deserve it. The chances are you deserve it more often than you realize.

We are all familiar with the big bore who can talk only of his own aims, activities and achievements. If something did not happen to him, he feels it's a waste of time to bring it up. Conversation for him is usually just one long session of bragging.

Such a person is an example of egotism become rampant. He therefore assumes a comic quality, as most exaggerated things do, and we tell ourselves when not in his presence, "I'm glad I'm not like that one. He's really in love with himself."

But there is this to say on his behalf: He may bore others to death, but he won't bore himself to death. He probably will live to a ripe old age, because he has found a sure source of enthusiasm and excitement — himself. And it is through enthusiasm and excitement that we stay young.

There is a worse fate in this world than boring others — and that is to bore ourselves.

Too many of us as we grow older tend to lose our good opinion of ourselves. We let our goals grow rusty, permit our jobs to become ruts, and abandon in ourselves the faith that alone can sustain us.

For others to like us we must first learn self-approbation — to find some basic satisfaction in who we are and what we are trying to do with our lives. It is surprising how many people lose this essential satisfaction and wind up with an actual sense of self-dislike.

Most of the mental and emotional troubles that beset middle-aged or elderly people arise from a loss in them of a feeling that they are worthwhile members of worthwhile groups engaged in worthwhile enterprises.

Time erodes their sense of personal value. Their pursuits come to seem meaningless.

US Show-Ship Savannah Finally To Begin Voyage

By HAROLD R. WILLIAMS
AP Aerospace Writer

GALVESTON (AP)—The N.S. Savannah, built as a U.S. showcase to show the world the peaceful uses of nuclear power but tarnished by a year of labor troubles, sails to Houston today to start a long-delayed world tour.

The rakish ship, which resembles an overgrown yacht, became idle in its Galveston berth a year ago, the day before it was to sail to Houston.

The 48-mile voyage through the twisting, narrow Houston ship channel marks the first time the 22,000-ton Savannah has made a public appearance since entering the island city harbor in February, 1963.

Sea tests of the $55 million vessel started this February after a new crew was trained to operate the reactor. A large growth of barnacles during the year's inactivity was scraped off early last month.

The U.S. Maritime Commission canceled the operating contract with States Marine Lines after the labor dispute over wages lingered.

A new contract, which includes a no-strike pledge, was given to American Export-Isbrandtsen Lines, Inc.

The new contractors drew the cream from its crews and placed them on the Savannah.

Labor troubles started plaguing the ship in August, 1962, and the engineers walked off the vessel at Long Beach, Calif., in December, 1962.

The vessel was given its first sea trials in April, 1962. Engineers claimed they were entitled to the same wages paid to deck officers.

After an impasse was reached in May, 1963, the government canceled the contract.

The sleek, white and red ship, which has called only at U.S. ports, is tentatively scheduled for a visit to Bremerhaven, West Germany, in mid-June.

Thousands of persons have toured the ship, fitted luxuriously for 60 passengers, and huge crowds are expected for the five-day Houston visit.

The United States has spent a total of $82 million on the entire program. The ship cost $55 million and the remainder has been spent on training, new equipment, and dock facilities at Galveston, which is the vessel's home port.

To date the reactor has used 11.9 pounds of enriched uranium oxide in traveling 30,000 miles. The ship can go around the world 14 times before it needs refueling. It is estimated with its tentative schedule, the ship will have to refuel in 1968.

The 600-foot long ship can cruise at 21 knots.

From Houston it will go to New Orleans for a week's stay, then to Baltimore, Boston and New York before sailing for Bremerhaven on June 17.

The Savannah, the world's first nuclear-powered merchant ship, was named after a 320-ton ship which was the first vessel to use steam on a trans-Atlantic crossing.

The old Savannah ushered in the steam age in ocean travel. The new Savannah has started the atomic age for merchant shipping.

Russia has a nuclear-powered ice breaker and both the U.S. and Russia have scores of atomic-powered submarines.

Dallas Newsman's Shot Of Oswald Wins Pulitzer

DALLAS (AP)—A young photographer who captured vividly for the world the Nov. 24 slaying of Lee Harvey Oswald is the newest Texan to win a Pulitzer Prize.

Robert H. Jackson, 29, of the Dallas Times Herald, was afraid at the time of the frantic activities in the basement of the City Hall that the form of Jack Ruby had spoiled his shot.

The Associated Press transmitted his picture around the world, showing the smoke curling from Ruby's gun as it was shoved point-blank at an agonized Oswald, accused assassin of President Kennedy.

Jackson said he had picked out a point to focus on for his picture of Oswald being led into the basement for transfer to another jail.

"Then I noticed the movement of a body to my right. It was Jack Ruby but I didn't know that then," he said.

"I didn't realize what he was doing. I was concentrating on getting a picture of Oswald, a clear face shot, with my Nikon 35-millimeter camera and its wide-angle lens.

"As this body to my right kept moving I became worried about missing the picture of Oswald. The closer he got the more I knew I would have to shoot the picture sooner than I had expected or lose it altogether.

"I took my picture just as Ruby shot, but I can't recall whether it was exactly at that time or a split-second afterward.

"I didn't know what kind of picture I had taken."

Jackson said his first realization that he had caught the actual shooting was when he looked at his negative in the darkroom enlarger, later the same day.

Ruby has been condemned to death for Oswald's slaying.

Jackson is a native of Dallas and a business administration graduate from Southern Methodist University. He switched to photography after college.

GOPs See Heavier Vote In Runoffs

AUSTIN, Tex. (AP) — Two Texas Republican officials said Monday they are encouraged by the vote total in Saturday's GOP primary and predicted an even greater turnout in the GOP runoff election June 6.

State chairman Peter O'Donnell also called the GOP presidential preference poll a "resounding vote of confidence" for Arizona Sen. Barry Goldwater.

Goldwater's 75 per cent vote, coupled with 65 per cent in Illinois, indicated his support transcends regional lines. Some observers predicted a strong upsurge for Henry Cabot Lodge, but he received only 8 per cent of the vote," O'Donnell said.

O'Donnell said he was confident that those persons who voted for Gordon McLendon in his unsuccessful race against U. S. Sen. Ralph Yarborough, D-Tex., in the primary election Saturday will switch to the Republican candidate in November and provide the winning margin.

National committeeman Albert B. Fay predicted that the Republican percentage of the total vote in the runoffs June 6 "will be higher than the GOP turnout percentage in the primaries Saturday."

The Republican runoff is for the U.S. Senate nomination with George Bush opposing Jack Cox.

About 140,000 voters turned out for the GOP primary, compared to some 115,000 in 1962.

DISMISSALS: Mrs. Billy Rylander and baby girl; Mary E. Parks; Arthur Williams; J. D. Montgomery; Pete Payne; Eloise Kelly; Carol Ann Kimzey; Nell Parks; Leota Hamlin.

Alaskan Crash Kills Texas Soldier

ANCHORAGE, Alaska (AP)—A soldier from Hale Center, Tex., was killed Sunday when his car ran off a road near Palmer, Alaska.

Killed was Sgt. Billy Joe Baker, 35, stationed at Ft. Richardson. He was alone in the automobile at the time of the accident.

Survivors include his widow, Lillian, and two stepchildren in Hale Center, and his parents, Mr. and Mrs. Thomas M. Baker of Arch, N. M.

Texas Negro Gets Change Of Venue

WAXAHACHIE, Tex. (AP)—The murder case of Will Travis King has been transferred to the Dallas court of Judge Henry King.

Judge A. R. Stout made the change of venue Monday.

The defendant, a negro in his 20s, is charged with the stabbing death of Miss Thelma Thompson, 51. The woman's body was found Aug. 16 on a railroad right-of-way 100 yards from her home.

Galveston Woman Is 1964 Aggie Mother

COLLEGE STATION (AP) — Mrs. Edna M. Urbanic, a Galveston schoolteacher, is Texas A&M's "Aggie mother of the year."

Mrs. Urbanic will be honored here Sunday at the annual Parents' Day ceremonies.

Selection of the fourth grade parochial school teacher was announced Monday by Pat Nance, chairman of the student life committee of the Texas A&M student senate.

She was nominated by a son, Charles, a junior at A&M.

Houston Pair Held In Market Robbery

SAN ANTONIO (AP)—A Houston couple has been charged with robbery by assault in an $1,000 market holdup here. George Taubert Jr., and his wife, Carol, 18, were arrested at a hotel Sunday night. A woman bandit with a pistol took $1,100 from the Buy-Rite market Friday night.

Oklahoma Promises Torrid Weather And Primaries

OKLAHOMA CITY (AP) — Warm weather, torrid races for Senate nominations and a right-to-work issue prompted predictions of a record vote in Oklahoma's primary election today.

Frank Reneau, State Election Board secretary, forecast a turnout of 700,000. This would be 55,000 above the primary election record set in 1938.

Four Democrats and three Republicans seek the Senate seat. There also are primary contests in five of the state's six congressional districts and scores of races for seats in Oklahoma's reapportioned legislature.

Democratic Senate candidates are Howard Edmondson, Raymond Gary, Fred Harris and Willard Owens.

Republican contenders are Forest Beall, Tom Harris and Bud Wilkinson.

Oklahomans, who like their politics hot, got a triple treat this spring.

For the first time in years, Republicans fielded more than one major senatorial candidate. Democrats, as usual, conducted a lively primary campaign. But the right - to - work issue overshadowed the political races, with both supporters and opponents of the proposal mounting saturation advertising campaigns.

If approved by voters, the right-to-work proposal would in effect ban the closed shop in Oklahoma.

The Senate races were spiced by the renewal of an old Democratic feud and the entry into politics of a nationally-known sports figure.

Incumbent Edmondson and Gary, both former governors, blazed away at one another during the campaign, with Gary doing most of the attacking.

Gary, 56, whose political career spans a quarter century, says he will never again seek public office if he loses this race. He and Edmondson, 38, have been political foes since Edmonson's 1958 campaign for governor.

Fred Harris, at 33 the youngest candidate, is a retiring state senator who made an unsuccessful bid for governor in 1962.

Wilkinson, 47, who was the nation's most successful college football coach at the University of Oklahoma, shed all ties with the sports world to enter the Senate race.

The former coach and his two GOP foes, business executive Tom Harris, 48, and Beall, 54, a rancher, have concentrated their campaigns in northern Oklahoma—where the most Republicans live.

The senator elected in the November general election will serve the remaining two years of the 6-year term to which the late Sen. Robert Kerr was elected in 1960.

Shortly after Kerr died Jan. 1, 1963, Edmondson resigned as governor and was appointed to fill the Senate vacancy.

The hottest congressional race appears to be in the 6th District, where Democratic incumbent Victor Wickersham faces the challenges of three Democrats and two Republicans.

There are primary contests in all but Rep. Carl Albert's 3rd District of southeastern Oklahoma.

Also on the statewide ballot were two other proposed constitutional amendments: One which would ease voter residence requirements and the other which would allow legislators to set their own pay.

Business Upturn Sets New Record

NEW YORK (AP)—The business upturn has entered its 39th month with few if any signs of weakening.

This makes it the longest upturn in American peacetime history.

The average duration of the 26 previous cyclical recoveries since 1854 was 30 months.

At this advanced stage, business men are continuing to raise their sights on investment plans even though the stimulus from the March tax cut is not yet clearly evident, reports the First National City Bank of New York in its current monthly economic analysis.

"Confidence in the outlook has been bolstered by the improving trend of business profits and the unexpectedly peaceful settlement of the thorny railway labor dispute, which added to hopes that moderation and good sense may prevail in other labor negotiations this year," the report said.

Earlier, business firms had been increasing their capital budgets. The latest survey by the publishing firm, McGraw-Hill, indicated that business plans to spend $44 billion this year, a gain of 12 per cent over 1963.

With the tax cut in effect only eight weeks, those who expected a sharp gain in consumer spending have been disappointed.

However, First National points out, economic performance in the first quarter as a whole could scarcely be called disappointing.

The Gross National Product—total of all goods and services—climbed to an annual rate of $608.5 billion, up $8.4 billion from the preceding quarter.

While the GNP rose more than this in the final two quarters of 1963, the bank finds it significant that $8.1 billion of the increase in the first quarter was concentrated in consumer expenditures, reflecting unusually strong demand which probably will characterize the second quarter also.

The first quarter gain in consumer spending was nearly double the average quarterly gain last year.

Dry Heat Is Hurting West Texas

AUSTIN (AP)—After a week of high temperatures and scattered showers, Texas ranges and pastures are in good condition in the eastern half of the state, but need rain in the northwest, Trans-Pecos and South Texas, the U.S. Department of Agriculture says.

Showers in eastern sections also slowed spring field work, an activity that was near peak in other areas.

Hot weather dried out moisture supplies on the Plains and hurt wheat prospects.

Cotton planting was a week behind last year's rate, with only 43 per cent of the planned acreage in the ground.

"Most of that lag is occurring in the dry northwest where dryland farmers need rain before risking seed," the department's weekly crop report said Monday.

Sorghum also was behind schedule, with 44 per cent planted, compared with 51 per cent at this time last year.

Corn planting neared completion, with 97 per cent of intended acreage planted.

Spring vegetables in South Texas made good growth during the week.

In the Rio Grande Valley, harvest of sweet corn, cucumbers, poatoes and squash is active. Harvest of carrots, cabbage and onions continues in declining volume.

Watermelons in all South Texas areas are making good growth.

Sheep shearing is in full swing in the Edwards Plateau.

Tyler Newsman Killed In Crash

TYLER, Tex. (AP) — Henry Allen Jr., 51-year-old photographer for the Tyler Courier-Times - Telegraph, was killed Monday in a car wreck.

Allen had been chief photographer for the newspaper since 1951.

He died as his automobile struck a tree on a curve of Texas 110 five miles west of Tyler.

Man Found Dead Of Exhaust Fumes

SAN ANTONIO (AP) — The body of Robert Bristol, 65, was found in his car in his garage Monday. A hose was connected from the exhaust to the interior of the car.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — Now that the two months of winter are over (some time back) Eternal Spring has set in.

The big sign at the airport says "Mexico City, 5,500,000 inhabitants, average annual temperature 62 degrees F." Some Chamber of Commerce people worked this out somehow.

At some time or another, there no doubt were 5-5 million citizens here. Maybe for a few minutes. But the birth and death rate keep the figure jumping like a roulette ball according to my calculations.

Last night the thermometer said 57 degrees F. Today it squirted up to 81 degrees F. A day's average of 69 degrees F.

We currently are in the hot season which is wedged in between the short winter and the rainy months when things cool off again. Ladies will be sporting new furs and the gentlemen will don light coats of an evening. This may drop the average to around 60 degrees F.

The weathermen and Chamber of Commercers are whipped before they start.

But Eternal Spring is on the high, Eternal Aztec plateau. And it will last an eternal 10 months until the frosty winds blow off the mountains in January and February.

The population is hard hit and even the unobservant are aware of this condition. Sales ladies in shops gaze through the door while you rap on the counter for service.

"A package of Queen Elizabeth cigars," you order firmly.

"They have not brought any. We have none," they reply in a Springy lilting voice and keep looking through the door.

Traffic cops on the corner watch cars squeeze past a red light and study the fresh greenery of the trees. A trivial matter.

Notes come from school. Teachers claim the junior members of our family are more concerned with the little girl or boy sitting at the next desk than with arithmetic.

Three plus six comes out fourteen. Or is ignored while the young Abneys contemplate the fresh green of the school grounds.

One teacher skipped several words in a complaining note and it was tough to make out. I suspect she was trying to recall a phone number.

Among the eternal casualties of Eternal Spring are our maids. For some reason they abandon the supper dishes so they can rush out and bay at the moon.

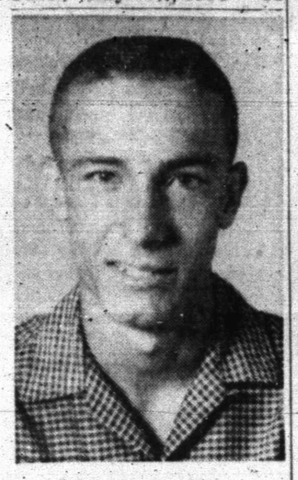
There are two new buildings going up on our street and the place is loaded with bricklaying and cement - mixing gentlemen. Comes 6 p.m. and the gentlemen hose off the cement and lurk near our front door.

A few days later one of the maids has to go home and visit her ailing mother. And a workman disappears. The casualties of war are frightening.

The Lady from Puebla has a habit of heaving buckets of water out the windows. So the Lochinvars take a stance where there is ample ducking space.

Personally, I consider it outrageous to have a 10-month spring. The lack of activity and indifference to duties is shocking. Somewhere there must be a remedy for this situation.

And I often wonder what it might be as I lie in the hammock counting the new flowers in the garden.



TERRY HOBBS

KELLY MAYES

CAROLYN ROEMISCH

Hermleigh's Top Seniors Announced

HERMLEIGH — Terry Hobbs, son of Mr. and Mrs. Carmon Hobbs, has been named valedictorian of the Hermleigh High School graduating class of 1964.

He has maintained a four-year grade average of 94.363.

Salutatorian of the class is Kelly Mayes, with a four-year average of 93.1591. She is the daughter of Mr. and Mrs. Dudley Mayes.

High ranking girl of the class is Carolyn Roemisch with a four-year average of 93.1138. She is the daughter of Mr. and Mrs. Frank Roemisch.

Hobbs is reporter for the National Beta Club, president of the Spanish Club and was elected to Who's Who this year. He also is snapshot editor of the school annual.

Miss Mayes is a member of the Beta Club and is secretary of the senior class. She was elected Most Popular this year.

Miss Roemisch is president of the Beta Club and president of the Student Council, was elected Miss Hermleigh High School of 1964 and is editor of the annual.

Baccalaureate services will be held Sunday, May 17, in the high school auditorium, starting at 8 p.m.

Commencement exercises will be held at 8 p.m. on Tuesday, May 19, in the auditorium.

The seniors will leave May 22 on the annual senior trip. They will go by bus to Memphis, Tenn., where they will board a train for Washington, D. C. They will stay two days in Washington and then go to New York. During a four-day visit in New York they will go to the World's Fair. They plan to leave New York May 30 and fly by jet to Dallas, and then return home by bus.

CRAFTSMANSHIP RECOGNIZED — Lincoln High School students who received awards at the Industrial Education contest at the School of Industrial Education and Technology at Prairie View A&M, May 1, are pictured above. From left are O. D. Clayton with a pair of lamps, Vernon Clay, who built the typewriter table shown, and Langston Powell who built the night stand pictured. They received the "artisan" or top award in the Group 2 (ninth and tenth grades) for furniture making. Also pictured are Curtis Clay who received a "craftsman" or second division award; Howard Newsome, who received a "merit" award; Billy Hardiman, and Daniel Crayton, both of whom received "craftsman" awards.

Wallace Bases Vote-Appeal On States Rights Stand

By EARL P. LEUBSDORF

WASHINGTON (AP)—A foray into Indiana by segregationist Alabama Gov. George C. Wallace and the presence on Ohio's ballot of the famous names Taft and Glenn headlined primary elections today in six states and the District of Columbia.

In Indiana, Gov. Matthew E. Welsh—a stand-in for President Johnson—sought to blunt the impact of Wallace, who polled 33 per cent of Democratic primary votes in his first Northern bid in Wisconsin last month.

Wallace based his appeal on states rights and opposition to the Johnson administration's civil rights bill. But home-state opposition to a sales tax enacted during Welsh's administration was also expected to play a part in boosting Wallace's total.

In Ohio, Rep. Robert Taft Jr. —son of the late Sen. Robert A. Taft—was favored over conservative Secretary of State Ted W. Brown for the Republican senatorial nomination. Taft's House vote for the civil rights measure was strongly opposed by Brown.

On the Democratic side, Sen. Stephen M. Young, 75, faced an uncertain challenge from supporters of astronaut John H. Glenn Jr. Glenn, the first American to orbit the earth, withdrew last month because of a head injury.

But his name remained on the ballot, and some of his backers, convinced he is the only Democrat who can win in November, hoped to propel him back into the race by surprising Young.

Chief interest in other states centered on a Democratic gubernatorial fight in Florida, a sharp battle for Senate nominations in Oklahoma and the Welsh-Wallace battle in Indiana—three minor candidates were also entered → overshadowed a GOP primary face between Arizona Sen. Barry Goldwater, former Minnesota Gov. Harold E. Stassen and two minor candidates. Goldwater, leading the GOP delegate race with 209 of the 655 needed for the presidential nomination, was rated a cinch to pick up Indiana's 32 national convention votes.

No contests of national significance were on the ballot in either New Mexico or the District of Columbia.

Hearing Due To End On Cotton Price Equalization

MEMPHIS (AP)— A Department of Agriculture examiner prepared to wrap up a hearing on the price equalization fee authorized by the recently enacted cotton bill today to meet a deadline by Agriculture Sec. Orville Freeman.

The hearing, opened in Charlotte last week, seeks to find the best spot to pay the 6.5-cent price equalization fee.

A committee will review the testimony in Washington next Monday and Tuesday and make a recommendation to Freeman, who wants the answer by May 15.

An international cotton merchant testified here Monday he believes the payments should go to the first buyer rather than other handlers because it is "the only way to a one-price system."

Everett Cook, chairman of Cook & Co., told the some 400 cotton industry representatives:

"A one-price system is essential to buyer confidence and it does away with the export subsidy on raw cotton and arouses less criticism from cotton growing countries which accuse us of dumping."

Cook's view was taken to be generally that of the shippers, the futures exchanges, some mills and some producers. He spoke for the Southern Cotton Association.

George Cortright of Rolling Fork, Miss., chairman of the farm policy committee of the Delta Council, objected to the first buyer approach.

Cortright strongly urged that the 6.5 cent per pound cotton subsidy be paid to the last handler of the staple—usually a mill or an exporter.

R. W. Williamson of Dallas, president of the Texas Cotton Association, suggested the payment-in-kind certificate be attached to the warehouse receipt and that it be redeemable at any point in the trade that the owner of the cotton elected.

BY STATE DEPT. OFFICIAL

Freedom Of Press Seen As Handicap

BOSTON (AP) — Robert J. Manning, top State Department information official, said today that the government is often handicapped in carrying out its foreign policy because of what he called the unlimited freedom of the press to pry into and print government secrets.

"The occasionally mindless devotion of the press to exposure for exposure's sake can put us at a disadvantage," Manning, assistant secretary of state for public affairs, said in a speech prepared for delivery before the Massachusetts joint bar-press symposium.

Manning questioned the principle that "The people have the right to know" when the knowledge can compromise the nation's defense or foreign policy.

The press, he said, "wants to know a great deal more than do the people in whose name it acts. The freedom of the press to print without fear or reprisal can, if improperly or unwisely used, run contrary to an equally basic part of the public interest, namely the ability of the government to carry out the people's business of defending our interests abroad and guarding the nation's security."

The answer to the question "Do the people have a right to know?" is not as simple as is sometimes supposed, Manning said.

Publicity in the press, he continued, sometimes could "greatly assist our adversaries."

To illustrate his point Manning mentioned what he called a recent case when a newspaper "by dint of shrewd reportorial enterprise" described disarmament proposals the United States was about to submit at the Geneva conference.

By so doing, he said, the newspaper "told the highly expert Soviet negotiating team what we were going to say and gave them important clues as to the order of priority in which we ranked our proposals." Manning did not identify the newspaper.

The question arises, Manning said, whether the American reader really feels a need to be informed on the details of the U.S. disarmament negotiation position.

The reader, he suggested, is not concerned about such specific details but should be informed on what Manning called the broad outlines of policy.

As an example of excellent cooperation between reporters and editors with the government he mentioned the 1962 Cuba crisis when the administrations secrecy was "preserved and maintained."

But even then, he said, it took the late President John F. Kennedy and his aides "near superhuman effort" to keep the crisis out of the papers for a brief week, while the Soviets launched an undertaking over a period of months "without leaving any footmarks or fingerprints in conditions of extreme secrecy."

While it is generally agreed that specific data about military equipment and personnel should not be printed if it would violate military security, there is no such understanding about "intentions," which, Manning said, "can be at least as valuable to a potential enemy as the performance characteristics of a new piece of hardware."

Diem's Brother Loses Clemency Appeal

SAIGON, Viet Nam (AP) — Former President Ngo Dinh Diem's younger brother, Ngo Dinh Can, lost his appeal for clemency from a death sentence today and is scheduled to die by the guillotine within the next five days.

The Viet Nam press reported that Duong Van Minh, the chief of state, rejected Can's appeal along with the appeal of one of Can's aides, Phan Quang Dong, who also is under a sentence of death.

Under a decree laid down by the military junta, revolutionary court death sentences must be carried out within five days after an appeal for mercy is rejected.

Both Can, 52, and Dong were convicted of murder, unlawful detention, extortion and harming the national economy.

One-fourth of Panama's one million people live in two major cities; Panama City, the capital on the Pacific, and Colon on the Atlantic.

Courthouse Has Own Time Zone

MADISONVILLE, Ky. (AP)— It can be 9 a.m. in Hopkins County courthouse but stick your head out the window and you can yawn at 10 a.m.

Madisonville is now on Central Daylight Time. But Hopkins County, of which Madisonville is the county seat, is on Central Standard Time, an hour earlier.

County Judge L. R. Slaton announced Monday that all county offices in the courthouse will operate on standard time.

IS YOUR WATER HEATER ON "BORROWED TIME"?

Replace it now with a quick recovery

ELECTRIC WATER HEATER

Why put up any longer with an old water heater that may fail at any time? Install a flameless quick recovery electric water heater and enjoy abundant hot water for every need, plus these additional important advantages:

CLEAN—No by-products of combustion to soil walls and woodwork. No unpleasant fumes. No flue to accumulate soot.

FAST AND EFFICIENT—High-speed immersed electric heating elements put all their heat into the water. None is wasted up a flue.

SAFE—No flame to blow out accidentally. No pilot light to worry about.

FLAMELESS—No flue or ventilation needed. An electric water heater can be installed close to the point of greatest use, eliminating long heat-wasting pipe runs.

See the new quick recovery electric water heaters at your dealer's soon. Enjoy worry-free hot water service the modern way ...electrically!
