Dedication Ceremonies Set Friday for Canadian Bridge

Free Barbecue at Noon Opens Program; Thornton Speaker

All members of the State Highway Commission and DeWitt C. Greer, state engineer, are scheduled to be present Friday at the dedication ceremonies for the Canadian River bridge on highway 70. The dedication program begins at noon with a big free barbecue for everyone. This barbecue will be staged at the north end of the bridge, at a site prepared for the feed.

At least 3,000 persons are expected for the barbecue and short dedication service and six beefs will be barbecued by representatives from Roberts, Ochiltree and Gray counties.

The members of the commission will fly from Austin in time for the bridge dedication Friday. They will be honored Friday evening at a stag dinner at the Pampa Country Club.

The commission members will visit Perryton Friday afternoon after the dedication and will be given a short tour around town. There will be an informal coffee at the Hotel Coffee Shop honoring the commission members that afternoon.

Members of the State Highway Commission are E. H. Thornton, Jr., of Galveston, chairman; Marshall Formby of Hereford; Herbert C. Petry of Carrizo Springs; and State engineer D. C. Greer.

Thornton is an attorney who has served six years in the Texas Legislature and is a World War Navy veteran. Formby, also an attorney, is owner of radio station KPAN Hereford and KFLD at Floydada. Petry, a past president of Lions International, is an attorney who has held a wide variety of state and national posts. Greer has been with the State Highway Department since 1927 and has been state engineer since 1940.

Work was begun last June on the bridge and traffic was opened on April 15. The structure, which consists of 39 spans, 3,250 feet long, was erected at a cost of \$636,727.97 and was built by the Frost Construction Co. of Hydro, Okla. Other contracts brought the total cost to well over \$1 million.

Platform guests for the dedication event will include W. B. LaMaster, Louis Bryan, Mrs. Van W. Stewart, R. T. Shindler, Max W. Boyer, Judge H. R. Slaughter, Ivan Day, George Yates, Herman Hargrove and John King.

The dedication program is as follows:

12:00 Noon—Barbecue served. Music by Pampa junior high band.

1:00-1:15 p. m.—Band Music, Amarillo Air Force Band.

1:15 p. m.—Meeting called to See No. 1 Page 8

Irrigation Meet Scheduled Here Next Friday

An irrigation meeting will be held in the district courtroom on Friday, May 13, with the emphasis on soil fertility, county agent Delbert Timmons has announced.

The meeting is scheduled to begin at 10 a. m. and all farmers of the Perryton area are invited to attend.

Ben Spears, agronomist for the Extension Service, will speak on sorghum varieties; Jack Barton, conservationist, will speak on soil conservation under irrigation and Dr. W. O. Trogon will speak about commercial fertilizers.

Bob Thurmond, state irrigation specialist of the Extension Service, will be present, as will Ralph Jones of Lubbock, another irrigation specialist. John McHaney, Extension Service economist, is to talk about farm markets.

It is planned to make this an all day meeting, Timmons said, with a recess for lunch.

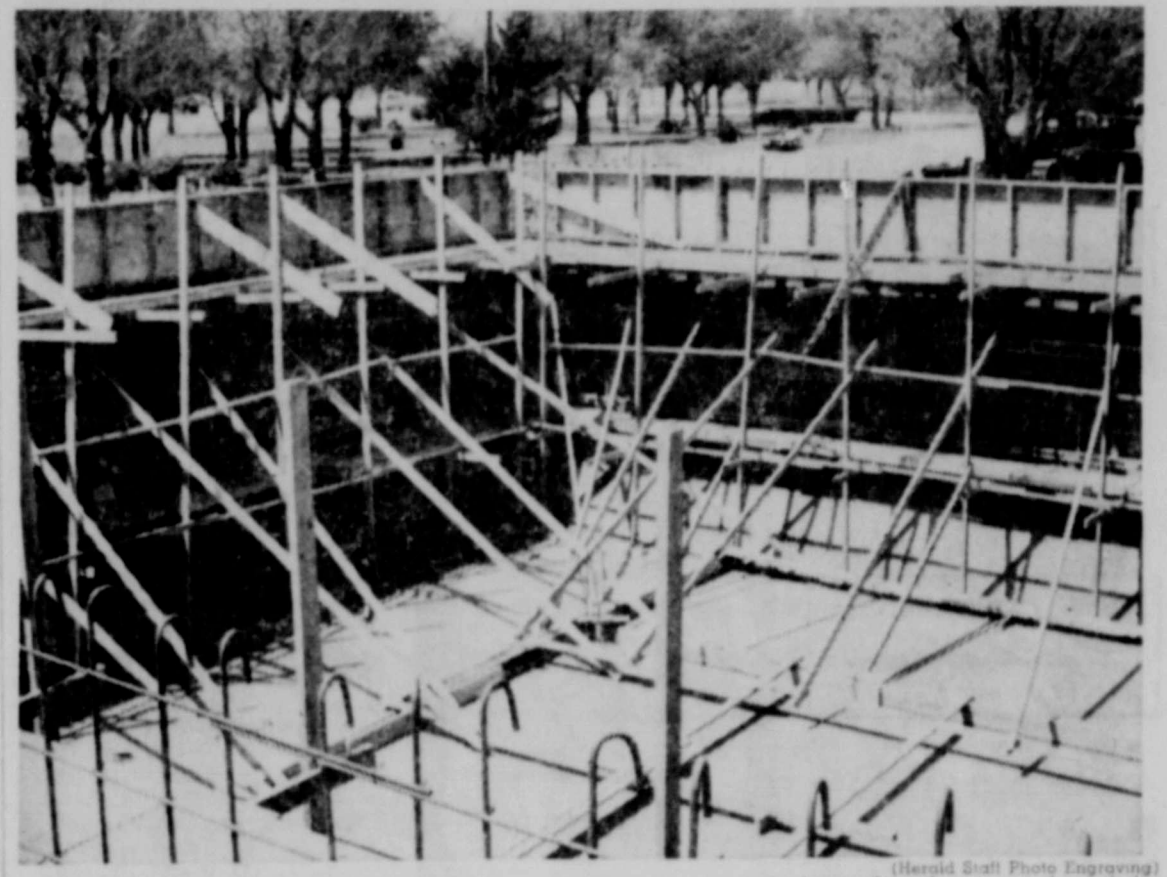

City Funds Show Big Increase in Past 12 Months

The semi-annual city audit, presented to the city council last week by auditor F. E. Coan of Amarillo, shows that Perryton's fund balances increased from \$90,157.64 on March 31, 1954 to \$140,404.23 on March 31, 1955, a total of \$50,246.59.

The bonded indebtedness of the city during this same period decreased \$8,500 to a balance of \$340,500 on March 31.

Delinquent taxes for 1954 totaled \$6,977.62 and the previous taxes on the delinquent roll brought this total up to a total of \$18,573.41.

Taxes were 91.15 per cent collected on March 31, with a total of \$71,857.87 collected of a roll totaling \$78,835.49.

RESERVOIR—Work is progressing on the new city water reservoir, located at the city park, and the Ferguson Ready-Mix Co. is pouring the concrete walls this week. The reservoir will store another 250,000 gallons of water for thirsty Perryton residents this summer.

Mrs. Sena King Is First Across Bridge

If you wanted to be first across the Canadian River bridge, you are a bit too late. Mrs. Sena King, mother of Ochiltree county commissioner John King and Roberts county commissioner Woods King, was first across the bridge some time ago, according to G. K. Reading, senior resident highway engineer at Pampa. Reading said that Mrs. King, who had long expressed her desire to be first across the new bridge, was taken across on a piece of construction equipment—and she even made the trip before Reading did. Mrs. King was born in Norway and lived in Iowa before coming to the Panhandle before the turn of the century.

Three Ranger Track Members To State Meet

Three members of the Ranger track team qualified for the state meet in Austin on May 4-5-6 by winning places at the regional meet in Lubbock Saturday.

Bill Whitsett and Shorty Dearth tied with Mike Salor of Dumas for the first place in the pole vault, while Dempsey Gyger qualified for the state meet by winning second in the high jump.

Dear won third in the shot put and Whitsett placed in the high jump.

Perryton finished with 8 points, more than any other district 1-A school. The Rangers were narrowly beaten last week in the district track meet by Phillips, but scored more points in the regional meet Saturday.

This will be a repeat trip to Austin for Dear and Whitsett. Both boys qualified last year when they won the regional pole vault and set the record in doing so.

Perryton Schools To Close Term Friday, May 20

With only three weeks of school remaining, superintendent Gilbert Mize has announced the schedule of events for the coming weeks of school.

Commencement exercises for the senior class will be held Friday, May 20, in the school auditorium with Rev. William E. Everhart, pastor of the Westminster Presbyterian church of Amarillo as the commencement speaker.

Rev. A. B. Cockrell, pastor of the First Methodist church, will deliver the baccalaureate sermon to the seniors in the school auditorium on Sunday night, May 22.

More Than 300 Register for Panhandle Odd Fellows Meet

More than 300 delegates attended the 32nd annual meeting of the Panhandle Association of Odd Fellows and Rebekahs, held Saturday and Sunday at the school auditorium.

The visitors were welcomed to Perryton by G. E. Shackelford, city councilman, while Frank

Rummage Sale for Cancer Drive

A rummage sale will be held Saturday, April 30, in the Woodward building, sponsored by the Epistol Sigma Alpha sorority. Proceeds of the sale will go to the Cancer Crusade, and this will complete the fund drive for this year.

The total amount contributed in advance gifts is \$570, reports Mrs. E. D. Kelley, county chairman. The goal for the county is \$1,420 and workers of the ESA sorority are making their calls this week in business and residential districts.

Persons with articles of clothing or household goods they will contribute to the rummage sale are asked to bring these to the Woodward building on Friday afternoon, according to Mrs. Sammy Phelps, president of the sorority.

Concert Drive Opens Monday, Ends Saturday

The annual membership drive of the North Plains Mutual Concert Association opened Monday evening with a kickoff dinner in the Harvest Room of the Hotel Coffee Shop. The drive will end at noon on Saturday, April 30.

This spring campaign is new, previous campaigns in the five-year history of the association being held in the fall. The selection of talent is much greater at this time than it would be in the fall.

Among the programs available for the 1955-56 season are Loren Driscoll, tenor; Rosemary Kuhlmann, soprano; The Knickerbockers, mixed quartet; Henry L. Scott, concert humorist; Jeane Dowis, pianist; Stecher and Horowitz, duo pianists; Zvi Seittin, violinist; Tichman and Budnevich, clarinetist and pianist; Actor's Holiday, four one-act plays; Cornelia Stabler, monologuist; and Paul Draper, tap dancer.

Annual membership dues are \$5 for adults, \$2.50 for students and \$12.50 for families.

Moina Caldwell has been elected president of the association for the coming year, succeeding Joe Erickson.

Shaffer and Mrs. Fred Tillman extended the welcome for the local Odd Fellows and Rebekahs organizations.

The first business session began at 1:30 p. m. Saturday and at 4 p. m. the judging committees judged the individual scores in charge competition. Babe Maston of the Pampa Rebekah Lodge made a perfect score in the banner charges of the Rebekah Degree and Jack McNeil of the Pampa lodge walked away with the top score and the medal in three of the most outstanding charges competed for in the IOOF degree.

Other medal winners were Bonnie Erman, Canadian; Ruth Lawley, Pampa; Jewel Rabe, Shamrock; Faye Weaver, Skellytown; H. T. Schuster, Amarillo; and Frank Shaffer, Perryton.

Some of the dignitaries attending the convention were John Ross, past Grand Master of Texas; Bill Taylor, past Grand Master of California; Lillie Alexander of Lubbock, president of the convention.

See No. 2 Page 8

Walt LaMaster Is President of The 400 Club

Walter LaMaster was elected president of The 400 Club Monday night at the annual election of officers, succeeding C. E. Whippo, who has served since the club was formed in May, 1953.

LaMaster has been a vice president during the past two years. Other officers are J. H. Stephenson, Jr., first vice president; O. R. Truax, second vice president; John Mayfield, secretary-treasurer.

Presidents of the 17 local civic clubs and organizations are automatically on the board of directors, according to the constitution and by-laws of the club.

It was voted to make the next project the completion of the east end of the Veterans Memorial Building auditorium and to put in the stage and dressing rooms.

Secretary John Mayfield reported that the club has \$763 on hand, in spite of a drop in membership during the year. In the two years that the club has been in operation, it has spent \$4,679.61 in putting in the center partition, paneling the west and south walls, repairing the roof, installing plumbing and wiring at the Veterans Memorial Building.

Of the \$5,464.00 taken in by the club during the two years, all has gone toward construction of the building except the balance on hand and a total of \$180.74 for office supplies and postage.

DRIVE OPENS—These officers of the North Plains Concert Association are shown looking at material for the current membership drive, launched with a kickoff dinner Monday. Left to right: Dorothy Long, secretary; Mrs. Gladys Phillips, vice president; Rev. Alvin Klotz, vice president; Caldwell, president; Chuck Foote, Pryor-Menz representative; and Joe Erickson, retiring.

Perryton Wins Regional Title; Bouzett, Booker Also Win

Perryton won the regional Inter League literary contest at Lubbock Saturday, coming out of 94 points to take first in the Class A division. The Class A division was second with 75 points. Floydada was third with 62 points.

Perryton won top honors in the 62 points, followed by 45, to give this unprecedented sweep of

win 15 points in boys' points in girls debate; in declamation; 15 girls debate; 14 points in 15 points in expository speech; and 30

Blue Sox Get New Uniforms

The Perryton Blue Sox will have new uniforms when they play their first game of the season. Fifteen new uniforms have been ordered, and all were contributed by Perryton business firms.

Those giving to the uniform fund were the Perryton Implement Co., Equity, Townsend Grocery and Market, Perryton National Bank, First National Bank, Bryan Food, W. H. Lackey, Perryton Coca Cola, Malone's, Taylor Drug, Hurn's, Perryton Furniture Co., North Plains Implement Co.

Perryton Motor Co., Modern Barber Shop, Sibley Jines and Son, Davis Shamrock Service, McGibson Oil Co., Luthi Oliver Co., D. P. Unruh, John Tillerson and Boyd's Drive-Inn.

Lower Prices Are Recorded At Angus Sale

Showing the effects of dry weather and recent dust storms, prices at the fifth annual sale of the North Plains Aberdeen-Angus Association were lower than normal.

The bulls averaged \$173.25 and the cows averaged \$155.25 and the total sale receipts were \$11,272.50.

Top selling bull was Prince 105 of Lakeview, owned by Lake View Farms, Woodward, Okla., and sold to Conner and Conner of Farnsworth for \$400.

The top selling cow was Skyland Mignonne A, owned by Percy Powers of Perryton and sold to William Schrock of Kiowa, Kansas, also for \$400.

School Choruses Win First In Region Contest

The Perryton school choruses won two firsts and a second in regional contests at Canyon last week.

The junior high chorus won a first place in singing, while the high school chorus won first in sight reading, second in concert.

Last year the high school chorus won second in both divisions.

Individual first place honors were won by Pat Haywood and Gary George with solo performances. Second places went to Rodney Symons and Benny Easter.

The PHS boys Octet won a second place rating.

The contests were held Wednesday and Thursday at Canyon. Bob Irby is the director of both the junior high and senior high choruses.

In much of New England, daylight saving time was extended through October instead of ending in September during 1954 and the practice is spreading to other localities.

It pays to use consistent ads.

Frenchman Is Impressed On Cycling Tour

By Bruce Henderson

DALLAS, Tex. (AP)—Guy Chassagnard, a polite young Frenchman bicycling across the United States, has reached Texas.

His reaction: "People in Texas are prouder than other Americans."

Which is probably the gentlest description of Texas bragging in a decade. Chassagnard says he himself is impressed with Texas size and friendliness.

"The more I am going west, the more I find help," he says. Chassagnard, 19, has pedaled from the U. S. Canada border in New York to Dallas since last Aug. 5. His destination is San Francisco.

He started out with \$70 and has \$15 left. Funks take him in along the way.

Chassagnard, a clean-cut youth with wavy brown hair and quick green eyes, is doing this not so much to impress Americans as people back in France. Sort of a long-range publicity stunt.

He puts it this way: "I wanted to be a journalist on one of the big newspapers in Paris but I did not know how to find a job. I had no relatives, no influential friends to help me near the editor. And I had no experience in journalism."

"So, I decided to find references, experience and publicity

traveling over the world. Then I should be able to go and meet an editor and say to him, 'This is what I am able to do.'"

Chassagnard, whose parents live in a Paris suburb, talked 27 French manufacturers into equipping him. He received a light-weight bike, movie camera, tent, sleeping bag, an air mattress—even a cigarette lighter.

He says he arranged to write stories for a Paris newspaper, France Soir, and five magazines. He left Paris July 1, cycled to Antwerp, Belgium, and departed via a free ticket on a ship bound for Montreal. He landed July 29.

Chassagnard has cycled thru Albany, Hyde Park, and New York City... Newark, Philadelphia, Harrisburg... Van Wert, O., Warsaw (Ind.), Chicago, St. Louis, McAlester, Okla., Paris, Texas, and Greenville, Texas.

"I wanted to see Texas," he says. "For this I turned south." He plans to continue by way of El Paso.

The Frenchman says he's in no great hurry, because he wants to learn about the United States. With 150 pounds of clothing, books and papers draped over his bike, he averages 30 miles a day.

"What do I think about when I'm traveling? I look at the countryside, the people. And the people look at me. But when I get very tired, I think only of arriving at my next town."

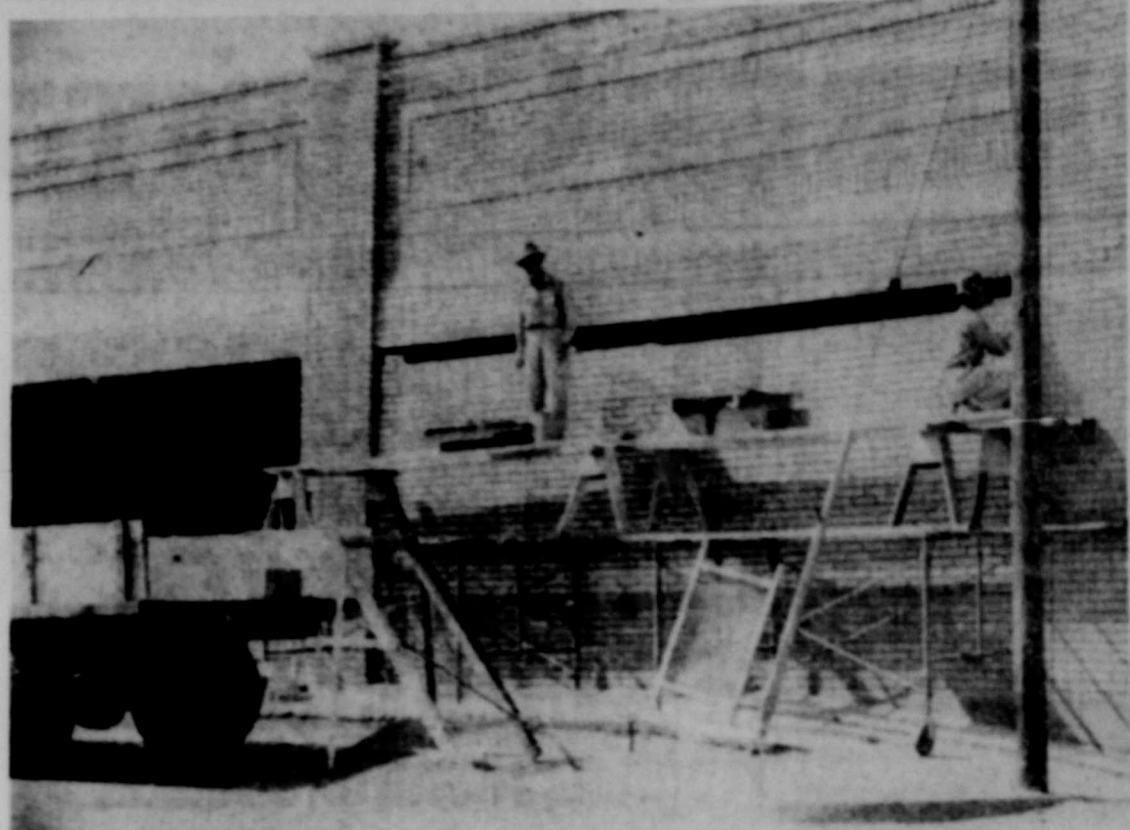

Winter struck on the way, "but I have acquired winter clothing: an army coat, a fur-collared jacket, overalls, heavy socks..." he says.

Reaching a town, Chassagnard heads for the newspaper, which usually finds him food and sleeping quarters.

"Sometimes, however, I have a bad luck," he says in English learned in school, "and I must sleep anywhere; jail, city hall floor, or in churches."

He depends on benefactors for cigarettes—"When I left with my \$70 and I said to myself, 'I should not buy cigarettes with this.'"

The luck has been good in Texas. His first stop was Paris, Texas—which bears the name of his home—and he spent Chris-

REMODELING UNDERWAY—Workers are bricking in old office space in the Ideal Food building and plans call for complete remodeling of the Ideal Grocery and Market. Hundreds of extra feet of display space will be available with the addition of the former office space now being added to the store. Many new fixtures, a self service meat department and refrigerated air conditioning are included in the remodeling contract. Hank Cornelison, local manager, thinks that work will be completed by June 1.

mas there as the guest of civic dignitaries.

Pedaling the 55 miles from Greenville to Dallas, he stopped in two cafes for hamburgers and coffee.

"I did not pay," Chassagnard says. "The people learned what I was doing. I did not pay."

Here, the Dallas Times Herald found him lodging.

Chassagnard, dressed in tough cowboy-like blue jeans, green wool shirt, snappy American socks and French bicycling shoes, says there is one thing in Texas he finds strange—the dry county.

"In France beer is a soft drink. But in these counties," he shrugs and grins—"there is no beer, no gin, no champagne..."

Services Held Monday for Andy Anderson

Funeral services were held Monday afternoon at the First Christian church for J. M. "Andy" Anderson, 52, a resident of Perryton, who died in the Perryton Hospital on Saturday following a heart attack.

He had suffered from a heart ailment for several years, but the fatal attack lasted only a few hours.

Anderson operated a shoe repair shop when he first came to Perryton. He later expanded into a retail shoe store, then sold this to enter the canvas manufacturing business. He had become one of the largest wholesalers of irrigation supplies in the Panhandle with the Anderson Mfg. Co.

He was a member of the Christian church and was a Scottish Rite Mason.

He is survived by his wife, Celita; four brothers, John, Lawrence, Alpha, Beaver, Lawrence, Melissa, Texas, and Grant Anderson, Pampa.

Rev. W. O. Harmon and J. W. McKinney officiated at the final rites. Pallbearers were Wayne Kisker, Bob Schell, Harold Malone, George Rupprecht, Roy Bell, Harry Stumpf, Ross Leatherman and Jake LeMaster. Interment was made in the Ochiltree cemetery.

Soup At Wholesale

FAIRGROVE, Mich. (AP)—Bean soup—400 gallons of it—is dished out each year to thousands of persons who attend the annual Fairgrove Bean Festival. The village is in the heart of Michigan's bean country.

Tibet Road Pushed

TOKYO (AP)—Communist China says it has finished all but about 95 miles of the highway being built from west China to Tibet. A Peiping broadcast said a 140-mile stretch, cut across precipices and through forests, was opened last month to traffic.

This section of the road winds through "the most isolated part on the Sikang-Tibet plateau," Peiping said. The road is being built—reportedly with forced labor of political prisoners—to Lhasa, capital of Tibet, from mountainous Sikang province.

Consolidated Birthdays

ST. DAVID, Ariz. (AP)—Mr. and Mrs. Alden Merrill's three daughters, Lorena, Kathy and Sharon all have the same birthday. But they are not triplets. This year Lorena is 14, Kathy 11 and Sharon 7.

Yes, That's Cricket

LITTLE ROCK, Ark. (AP)—Irate neighbors have flooded police headquarters here with reports of dice games taking place under street lights. In each instance, the men were catching crickets for fish bait.

Barbed Wire Collection Tells Much About Texas History

OLNEY, Tex. (AP)—Barbed wire tamed the Old West like a bit in the tender mouth of a wild horse.

It wasn't easy, and it didn't happen overnight. Proof of that is on the walls of a Young County rancher with an appreciation of history.

Wilbur T. Swink has hung his walls with thousands of different kinds of barbed wire. They tell a story that began in the early 1860s.

Swink's collection has some surprises. Barber wire was used first, not to protect fields, but cemeteries. The idea of using it to keep livestock in or out didn't occur to anyone for several years.

In the early 1870s, barbed wire appeared in Texas. Bloodshed followed.

These were the days of the open range, when land was there for the getting and you grazed your stock where you found grass. Big ranchers feuded with the free-grass ranchman, farmers, rustlers and settlers.

There was no law against cutting a fence. Stock fences had not been around long enough to become the subject of law.

Among Swink's barbed wire samples are those from ranches of 45 cattlemen who met in near-

by Graham in February, 1877, and formed the Stock Raisers Assn. of Texas, the first such Texas organization.

Their purpose was to protect themselves against fence-cutters. Not for seven years—until 1884—was there a Texas law against fencecutting.

On Swink's wall is barbed wire from the old Dakota Bad Lands, single strand square wire from Kansas. Smooth wire used before the idea of barbs was introduced, regular three and four-barbed wire from the famed King Ranch and Matador Ranch in Texas.

Swink also has barbed wire from Japan, Switzerland, Holland, Finland and Lapland. Swink and his wife took the side trip to Lapland, above the Arctic Circle, after attending the 1952 Olympic Games in Helsinki, Finland. The Lapland wire is vicious looking, with many barbs.

The Texas ranchers soon found the wire could be a dangerous trap for horses. The horses often didn't see the small wire until they had run into it. In trying to get free they often cut themselves so severely they had to be shot.

As a result cattlemen began to tie strips of metal, woods or little flags onto the top strand.

Swink has several samples of this, some improvised by smart cattlemen and others manufactured. Some of the examples from Wyoming, Idaho and Montana are of this type.

All types were tried by various manufacturers — ribbon wire, right-hand twist, left-hand twist, one-way barbed wire (the barbs pointed in only one direction, allowing stock to pass one way but not the other), long barbs, short barbs, barbs close together and far apart (from 1 to 18 inches), sheet metal instead of wire barbs, even little spur-like wheels.

In 10 years barbed wire had fanned across Texas, the bloodshed had come and gone, the battle for open range had been fought and lost, and cattlemen had learned to live with barbed wire.

They know now that orderly marketing, up-breeding and feeding would be impossible without it.

Film Record

CASPIAN, Mich. (AP)—After 74 years, Peter Dzanbozoff saw his first movie. A retired iron miner, Dzanbozoff can't remember what the picture was, but he liked it. He just happened to see it when he stopped to see his son, Tom, in a between-features musical act.

When it is time to migrate in the fall, egrets and eagles often fly north instead of south until winter turns them back.

Capital Distance

ROANOKE, Va. (AP)—Erland, assistant U. S. attorney for Western Virginia, is about 400 miles from his home in Clinton, Mo., the Kentucky border.

"We are a little bit away," he said. "There are state capitals closer to N. C., Columbia, S. C., Ga., Nashville, Tenn., Ky., Indianapolis, Ind., bus, Ohio, and Chicago, Va."

Smallest Combatant

NORFOLK, Va. (AP)—The smallest combatant ship not armed. It is a 52-foot ship, weighing 35 tons, a minesweeper.

visited in the Willis Hardy home
Friday evening.

Mr. and Mrs. Carroll Mallett,
Doyce and Jane visited in the
Sam Judice home Wednesday
evening.

Mr. and Mrs. Jim Dodson cal-
led in the Charles Trew home
Sunday afternoon.

Mr. and Mrs. H. O. Bateman
were in Pampa Friday.

We wish to express our sym-
pathy to Mrs. J. M. Anderson.

Dinner guests in the John Har-
dy home Sunday were Mr. and
Mrs. Clyde Herrington and fam-
ily, Grandpa Hardy and Mr. and
Mrs. Willis Hardy.

Mr. and Mrs. Samuel McLain
spent Sunday with Mr. and Mrs.
J. S. Wheatly of Satananta, Kans.

Mrs. John Hardy and Mrs. Oby
Rist were in Spearman Monday.

Mr. and Mrs. Ellis Matthews
and family called in the Clyde
Herrington home Saturday even-
ing.

Mr. and Mrs. M. B. Williams,
Gayle and LeRoy were visitors
Sunday in the W. B. LaMaster
home.

We want to wish Mrs. Neil
Thompson a speedy recovery
from her surgery.

The Taz Tome Demonstration
club met Friday with Mrs. Mar-
tin McCartor. Those present were
Miss Lou Ella Pattison, agent,
Mrs. John Hardy, Mrs. Warren
Gum, Mrs. Chester Barnes, Mrs.
Robert Potts, Mrs. Carl Phillip,
Mrs. Harvey Urban, Mrs. Samuel
McLain, Mrs. Oby Rist, Mrs. El-
is Matthews and Joyce and Mrs.
Terry Yates, Ann and Kristine.

Mr. and Mrs. Lester Barnes
and family returned Wednesday
from a two weeks vacation in
California.

Mr. and Mrs. Charles Trew
and family called in the Jesse D.
Wilson home Sunday evening.

Attend State
FHA Meeting

Perryton was represented at
the state meeting of the Future
Homemakers of America last
week in Galveston by Linda
Rogers, Connie Slaughter, Mrs.
O. C. Rogers and Peggy Rodgers.
Linda is the president elect of
the local FHA chapter, and Con-
nie is the vice president elect.
Miss Peggy Rodgers is the spon-
sor.

The state meeting was held at
Pleasure Pier in Galveston and
was attended by about 3,500
girls, their sponsors and parents
from Wednesday to Sunday.

Theme of the meeting was
"Peaceful Thinking — Peaceful
Living."

On the way to Galveston, the
group visited Austin, where they
saw the state capitol and visited
the University of Texas. On the
return trip they visited Texas
A&M in College Station, Baylor
University in Waco, TCU in Fort
Worth.

Steve Wolfrum
Is Discharged

Sgt. Steve Wolfrum, son of Mr.
and Mrs. M. J. Wolfrum, returned
home April 21 from 17 months
study with the 8th Army head-
quarters in Korea. He was dis-
charged from the Army at Fort
Bliss on April 20.

Sgt. Wolfrum trained at Camp
Chaffee, Ark., and Ft. Hood, Tex-
as. He is a graduate of Perryton
high school and attended West
Texas State College. He plans to
return to college in the fall.

His wife is the former Miss
Joan Johnson.

From where I sit... by Joe Marsh

Red Finds a
"Sweet Solution"

Red Jackson found a slick way
to get his cows to eat what's good
for them. Seems they were pass-
ing up the tall green grass—full
of minerals and vitamins—and
eating the short grass, which is
naturally sweeter.

Red solved the problem by
spraying a solution of corn syrup
over the grass that was going
begging. The cows sure went at
it. Red says it's lucky for him—
and the cows—that every one of
them has a "sweet tooth."

Next week, according to Red,
he's going to have his cows clean

up all the weedy grass along his
fences—after he sprays them with
more corn syrup, of course.

From where I sit, some folks,
like Red, are always trying out
new tricks—and others stick with
the old tried and true methods.
Just a question of preference, I
guess. Like the way you may en-
joy coffee with meals, while I
prefer a cold glass of beer. So
let's not allow any had feelings
to "crop up" by thinking ours is
the only choice.

Joe Marsh

Copyright, 1955, United States Brewers Foundation

COME ON IN—
the price is fine!

UNLESS we miss our guess, a lot of sur-
prised people are going to do some new
back-of-an-envelope arithmetic when they
see the low delivered price of the Buick
shown here...

Because we know that many folks still don't
realize how little a Buick really costs—that
the dollar difference between this big Buick
SPECIAL and the leading smaller cars has
virtually disappeared.

Buick Sales Are Soaring As Never Before

But more and more of them are finding it
out. And that's a major reason why Buick
production and Buick sales are soaring to
all-time highs today—and why Buick again
is outselling all other cars, regardless of
price range, except two of the well-known
smaller cars.

Big reason, too, for this soaring popularity
is Buick's full line of automobiles, giving you
a choice in any price class—the rock-bottom-
priced SPECIAL, the high-powered CENTURY,
the supremely spacious SUPER, and the
custom-built ROADMASTER.

Thrill of the year is Buick

Nonexplosive Crash

HELENA, Mont. (AP)—A car with 25 pounds of dynamite in it went out of control. It went off the road shoulder, traveled 270 bumpy feet, climbed onto the highway, crossed, and went into a ditch, traveled another 150 feet and turned over at least once. Then it stopped.

The driver, Charles Hansen, 32, Helena, got out with minor cuts, bruises and shock.

The dynamite didn't explode.

Beet sugar was developed during the blockade of Europe during the Napoleonic Wars when Napoleon offered a large prize for the development of a domestic source of sugar.

TEXAS TORERA RETURNS—Pat McCormick of Big Spring duels her first bull in Ciudad Acuna, Mexico in her second comeback fight since almost fatal goring in the same plaza last September. She was awarded the ears and tail for an almost perfect fight after this kill. A near capacity crowd offered a thundering ovation when the plucky Texan entered the arena. Her parents waited out the fight in their hotel room. "I wasn't completely satisfied today," she said after the fight. — (P) Wirephoto.

Fast Friends

ATCO, N. J. (P)—Friends of James Gauger, 70, a broommaker worked so fast after fire destroyed his tiny home that he had a new one before the embers were cold.

One company donated a 10 by 12 tool shed. Another hauled it to the site. Volunteer firemen, in a canvass of the town, collected heating and cooking stoves, bed, table, chairs, shades, curtains, blankets, bed linen and towels.

A volunteer work crew put on a new roof, repaired the floor, replaced broken windows and painted the place. As the grateful Gauger prepared to go to bed in his new home, firemen were still wetting down the embers of the old.

Current estimates are that 40 million Americans now living will have a cancer at some time during their lives.

Herald Want Ads Do the Job!

Costly Forgetfulness

HOT SPRINGS, Ark. (P)—After vacationing for several days at this resort city, Mr. and Mrs. Charles Guillaert checked out of a motel and headed for Mexico City.

A few miles out, they discovered that Guillaert had left his shaving kit behind. They raced back, but the kit was gone.

So was the \$700 they had hidden in it.

Wrong Steer

STERLING, Volo. (P)—As William Walter Oliver, 72, drove his new car past a herd of cattle one of the animals jumped in the way. The horn-to-grill crash caused \$150 damage. The steer was uninjured.

When To Retire

RICHMOND, Va. (P)—United States Sen. A. Willis Robertson, elected to a new six-year term, told an audience here when he was going to retire.

"I'll know when I'm too old to serve you—you won't have to tell me," the senator said. "That time will be when I'm too old for hunting and fishing."

Profit by Herald advertising!

NORTH TEXAS SPEEDSTERS—This foursome from North Texas State College clocked the distance in 3:23.1 at the Texas Relays, the second best time in the nation this year. Among other events, they plan to enter the upcoming Drake Relays. From front to back they are: Mike Hagler (440), Dean Renfro and Boyd Dolar (220), and Paul Patterson (880). — (P) Wirephoto.

Tv Is Getting All Wet In Water Behind Dams

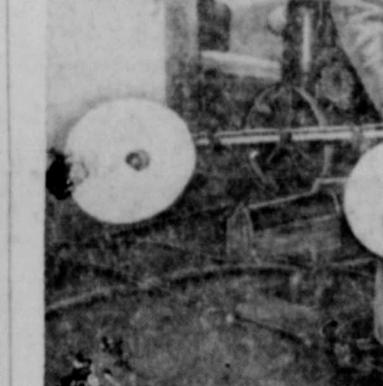

Newsfeatures

GRAND COULEE, Wash.—Out at the Grand Coulee Dam they are bringing in some strange pictures on a TV set. It's part of a scheme to give engineers a better idea of maintenance and construction needs of dams, bridges, piers and other underwater structures.

Harold Maiken, veteran diver rigged up the underwater set to show the engineers what he saw. Still pictures have been taken before, but Maiken thinks his show was the first of its kind. He got out of bed after being hospitalized with the "bonds" (a disability stemming from under water pressure) to make his first demonstration.

The engineers saw where concrete had been eaten away by the rushing water, cavities along the bottom of the dam and a dozen other things. One of them explained that still pictures and oral reports of the divers were not easy enough to interpret. "We just don't get the feel of it."

Some experts also believe the camera can take pictures in places too small for the diver to enter and send them to the surface on a coaxial cable.

CAMERA MAN—Harold Maiken adjusts the camera and lights he uses for under-water pictures.

This Pilot Flies High With His \$42,000 Auto

By George W. Hackett

Newsfeatures

LOUISVILLE, Ky. Charley Johnson is no millionaire but he can afford a \$42,000 auto to drive to work. It's a Brewster convertible limousine, custom designed and built for F. W. Woolworth, the dime-store king back in 1914.

The antique was a gift to Johnson from R. S. Reynolds, chairman of the board of Reynolds Metals Co., where Johnson is chief airplane pilot. Reynolds acquired the car as part of the Woolworth estate which he purchased at Glen Cove, Long Island, N. Y., in 1929.

On a visit there Johnson spotted the auto, expressed admiration and Reynolds told him: "Take it away, it's yours."

Although the Brewster hadn't been used in years, Johnson said she "is as sound and steady as she can be. The leather fenders and convertible top are worn in a few spots and the moths did a disappearing act with the back seat. But she rides like a dream and the engine is quieter than an electric lawnmower." Most of

the engine is aluminum. Other innovations, considered revolutionary in 1914, are: a hand-formed aluminum body; tapered roller bearings in the wheels which are 35-inches in diameter; internal expanding brakes and a geared-in fan which makes a fan belt unnecessary.

Johnson said many of these features, such as the brakes and bearings, were not used in most automobiles until 1930.

For special occasions Johnson plans to ride in style. His wife will dress up in a 1900 and he'll wear a duster, cap and goggles. At present he's using the vehicle to drive between his home and office at Bowman Field Airport.

The speedometer registers 31,000 miles, but it is broken so there's no way of knowing how far the Brewster has traveled. It uses very little gas.

While the car was stored on the Woolworth estate, someone in the Reynolds research laboratory removed the black paint from the body to show the aluminum. Johnson likes it that way.

IT'S A GIFT—Charley Johnson and his antique car.

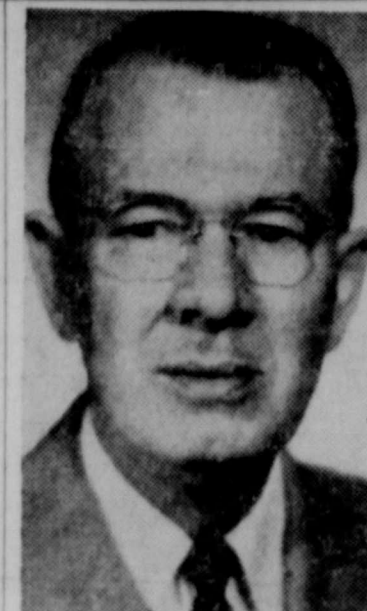

Expansion Stopped

DETROIT (P)—Suburban Roseville and St. Clair Shores have banned new home construction while they work out a plan to curb "growing pains."

Both are considering adding \$150 to \$300 to the cost of building permits, saying rapid expansion has outdistanced ability to provide sufficient schools or adequate water and sewer facilities without additional revenue. Roseville's ban includes new commercial as well as home construction.

Mixed Family

CANTON, N. C. (P)—Frank Parker's dog, Cindy, has a strange assortment of adopted "children"—picked up after she lost puppies. Cindy started mothering a duckling with a broken leg. Then a chicken and a kitten at the Parker home were added to the family circle. The duck and the chicken sleep on Cindy's back and kitty cuddles close to her head, Parker said.

APPOINTED—Dr. J. E. Adams, nationally known soil chemistry and crop production authority, was appointed Dean of the School of Agriculture of Texas A. & M. College. He succeeds Dean Charles N. Sheppardson, who leaves Texas to become a member of the Board of Governors of the Federal Reserve System. Dr. Adams has been head of the combined research, teaching and extension work in the department of Agronomy at Texas A. & M. since 1946. — (P) Wirephoto

Backfire

RICHMOND, Va. (P)—The fifth grade at Tuckahoe school here was studying nutrition. They fed one mouse on milk and bread after naming him Frisky. The other, Peepsqueak, lived on water and bread. Soon Frisky weighed 128 grams, Peepsqueak only 82. But Frisky died.

Experts called in said Frisky died of pneumonia. The kids shifted Peepsqueak to a milk-bread diet. He quickly shot up to 188 grams. So far, no pneumonia.

Question of Defense

DETROIT (P)—Secretary of Defense C. E. Wilson is advocating "disarmament."

For years the Ayrshire cattle that have roamed Wilson's celebrated Windrow Farm have been recognized by their long, graceful upswept horns.

But now 11 naturally hornless Greenrange Farm in Vermont, can be seen at Windrow. The Wilson purchase is the largest single importation of the hornless breed in Michigan.

Eloquent Gesture

HOUSTON, Tex. (P)—The high spot at the banquet winding up a speech clinic here was a moment of silence.

MRS. TEXAS — Mrs. James Gunn, El Paso, Tex., a pretty blue-eyed brunette won the "Mrs. Texas of 1956" title in a contest which judged ability as a homemaker in Austin, Texas. She will represent the Lone Star State in the "Mrs. America, 1956" contest which will be held in Florida. — (P) Wirephoto.

"Chiropractic Adds Life To Years — And Years To Life"

While the wide scope of Chiropractic is amazing to the uninitiated, we do NOT recommend Chiropractic as a CURE-ALL. Chiropractic is effective in those cases only where the cause is found to be defective in organic energization due to spinal misalignment (subluxation). Most of our cases are those that had previously resisted ordinary methods of healing. Our examination is designed to eliminate those we cannot help.

ARTHRITIS

CASE NO. 1616: A matron, age 32, came to the Clinic complaining that she had been suffering for five years with terrible pains along the spine between her shoulders which had previously been diagnosed and treated for arthritis. She also complained of period headaches, cramping, low backache, and low abdominal pains. The spinal analysis indicated nerve interference and X-rays revealed spinal vertebral misalignment causing the interference. She was discharged when alignment was restored at which time she felt completely well.

HIGH BLOOD PRESSURE

CASE NO. 1103 is a lady, age 50, who came to the chiropractic unable to work after suffering from high blood pressure, constipation and nervousness for seven years. A scientific spinal analysis and spinal X-rays located the subluxated vertebrae causing the nerve frequency interference and adjustments were given to correct the spinal misalignment. Upon discharge this case reported normal blood pressure and no uncomfortable symptoms of any kind and enough energy for two persons.

KIDNEY TROUBLE

CASE NO. 1495: A lady of 44 years complained of kidney trouble, albumen and pus on test, full feeling, backache, legs ached, eyes swollen, hand swollen, excessive nervousness, headaches two or three days a week, colon trouble and low blood pressure. Had an operation on female organs. Finally came to the Chiropractic Clinic where a spinal analysis of the spine indicated defective nerves. Spinal X-rays located the causative vertebral subluxation and adjustments brought about a correction and the case reported feeling fine at the end of the period of corrective services recommended.

STOMACH TROUBLE

CASE NO. 1533: A married lady of 40 years was being treated for the change of life and suffering from indigestion, stomach trouble, headaches, which had not responded to any past treatments. A spinal analysis revealed the cause to be in her spine. Corrective adjustments, restored alignment. She was discharged feeling grand, able to eat as she pleased without discomfort and without a single pain complaint.

HEADACHE

CASE NO. 2007: A 43-year-old man came to the Chiropractic Clinic complaining of a drawing pain in his right groin and abdomen causing a limp; was nervous and unable to sleep, had bad headaches, left ear throbbled, and had gas pains. The scientific spinal analysis and spinal X-rays located the subluxation causing the nerve irritation and interference. When case was discharged he reported no symptoms remained.

IRREGULARITY

CASE NO. 1315: A young matron of age 28 had not had a period for 7 months, had frequent headaches, left breast pains, shortness of breath, extreme nervousness, nausea, indigestion and stomach distress which had resisted all previous efforts and medicine to cure. The Chiropractic Clinic made a spinal analysis to locate the effective innervation and spinal X-rays to bring the area into view for correction. Adjustments were begun and in a few months this case reported periods were regular and other symptoms gone.

SINUS TROUBLE

CASE NO. 1186: This case is a lady, age 49, who had a history of 6 years of sinus trouble and hay fever, pains in right side of neck and shoulder, rheumatic pains in knees, tired back, dizziness and nervousness. After going the rounds of doctors, and remedies, she finally came to a chiropractic clinic for spinal examination. After the spinal analysis and spinal X-rays located the cause of her trouble, spinal corrective adjustments were begun to realign and remove interference in nerve wave frequencies which restored normal function to the entire ill-functioned body. Upon discharge, this patient reported no symptoms of any kind remained. The body contains everything necessary for health if its forces are free to work efficiently.

SCIATIC RHEUMATISM

CASE NO. 2392: A man, age 55, came to the clinic complaining of a pain in left leg, gas on stomach, a drowsy, dizzy-headed feeling, dull headaches, backache, nervous shaking in left side and low blood pressure. A scientific spinal analysis and spinal X-rays revealed a nerve interference. Adjustments were begun and in time he reported all symptoms gone and that he was feeling fine.

EPILEPSY

CASE HISTORY NO. 117: Typical of the many cases of epilepsy that have responded to Chiropractic adjustments, is this case of a boy who from age 4 to age 8 had as many as five seizures a day. He had been taken from specialist to specialist without sign of improvement. The parents were advised to place him in an institution but decided to try Chiropractic first. A Chiropractor took charge of the case in

February. By July the fits had entirely ceased and every since the boy has developed normally in every respect.

ABDOMINAL DISORDERS

CASE HISTORY NO. 114: Severe pains in the abdominal region sent this man to a specialist who advised him to have his appendix removed. This was done but shortly afterwards the pains returned with the additional conditions of heartburn and constipation. Unable to get relief from drugs, he consulted a Chiropractor who declared that nerve pressure was the cause of his trouble. The pressure was traced to a twisted bony segment of the spine which the chiropractor adjusted back to normal. Immediately the heartburn subsided and little by little all other symptoms disappeared.

HEADACHES

CASE HISTORY NO. 1024: A well known radio artist whose career was threatened by persistent headaches of a pounding throbbing nature. Medication failed to bring relief and his broadcasting activities were frequently curtailed. Hearing of an aunt who had recovered from neuritis under Chiropractic care, he decided to see what spinal adjustments would do for him. X-ray photographs were taken of the spine, and a malpositioned vertebrae was located and adjusted. Seconds after the first adjustment the headaches ceased and has returned since only at infrequent intervals, each time subsiding following an adjustment.

SKIN DISORDERS

CASE HISTORY NO. 1569: Five days after birth this infant developed a rash over his entire body. It failed to respond to treatment and he was under the care of specialists until he was 10 months old. The case was variously diagnosed, the final conclusion being that it was eczema. He was sent home from the hospital as incurable and in desperation the parents decided to give Chiropractic a chance. Spinal adjustments to relieve nerve pressure were begun in May and in October the skin was free from lesions and hair had commenced to grow.

INFLAMMATORY RHEUMATISM

CASE HISTORY NO. 4332: A middle aged woman with a condition diagnosed as Inflammatory Rheumatism. Right side of neck, right arm and leg were stiff and she lay in one position unable to move. Treatment with a variety of powders and drugs were ineffective. In her own words "I did not think I would be able to be up again." She finally heeded the advice of a neighbor and called in a Chiropractor. After her first spinal adjustment she was able to raise her arm and move her head without difficulty. Within a few weeks she was able to get around with normal activity and in every respect was feeling good.

Students Play for National Guild

Miss Frances Crawford and Miss De Vona McEntire, piano students of Mrs. Louis Jacquot and Miss Mary Lou Jacquot, piano student of Mrs. Ardath Johnson of Amarillo played in the National Guild Auditions being held in Amarillo this week. The National Guild of Music Teachers hold auditions in 400 centers throughout the nation, with 30,000 pupils participating. These three girls received from excellent to superior ratings.

The U. S. public and private debt rose about 26 million dollars in 1954 to 709 million dollars.

The hammock was invented by the Arawak Indians who once lived in the West Indies.

Mrs. Ruth Seitz of Pampa was a guest in the W. E. McMillen home last week.

Taxi Trouble

PARIS, 47—After an interruption of 15 years, Paris has put back into operation the telephone along side Taxi stands, so that customers can call the cabs to their homes.

Taxi drivers aren't enthusiastic.

For one thing, they have to buy a key to the box. For another, the customer often gets tired of waiting and finds another cab. Worst of all, a cab on its way to pick up a customer may be halted by a policeman for cruising empty with its flag down, which is against the law.

Sheltered Classes?

ROANOKE, Va. 47—At a Civil Defense discussion a woman suggested bomb shelters be erected at every county school.

"Wonderful idea," said another, "they could be used for additional classroom space."

AT ANGUS SALE—First Angus to go through the sale ring Monday at the North Plains Aberdeen-Angus sale was this bull which went for \$205. Shown in the ring at the right is Vern Conner, member of the sales committee. At the auctioneer's stand in the rear are Milton Miller, American Aberdeen-Angus Assn., auctioneer Delbert Winchester and clerk Gale Rogers of the Perryton National Bank. The bulls averaged \$173.25 and the cows \$155.25 in the sale.

Northern Natural Gas won three games from Ray's Shamrock. Faries rolled a 505 series with 202 high game for Northern Natural. For Ray's Shamrock Edwards rolled a 526 series with 188 high game.

Wool Incentive Price Outlined

Producers who own unshorn lambs and yearlings are entitled to participate in the wool incentive payment program, according to Elliott Lee, county ASC secretary.

To be eligible for payment, the lambs or yearlings must have been fed or pastured in the U. S., they must have full pelts and must have been slaughtered within the April 1, 1955-March 31, 1956 marketing year. There are an estimated 2,000 sheep in the county to be sheared this year, according to Lee.

More than 700,000 Americans will be under treatment for cancer this year, according to expert estimates.

Wired for Eggs

WOOD RIVER, Ill. 47—Coaxing an egg out of a gas tank of an automobile is about as tough as putting toothpaste back into a tube, but Ray Estele did it. Someone dropped an unbroken egg into the gasoline spout of his car, and it remained undetected until a filling station attendant discovered it.

The egg was lodged six to seven inches down the spout and had to be removed intact or it would foul up the engine. A piece of adhesive tape on the end of a prod failed.

A bent wire finally did the trick, but Estele says it was an exhausting job.

The last outbreak of yellow fever in the United States was in New Orleans in 1905.

Keeps in Tune

WORCESTER, Mass. 47—A musician is under a handicap if he tries piano tuning, says Ronald P. Traill, a piano tuner for 32 years. He says, musicians are concerned with tonal quality. The piano tuner listens to the vibrations which determine pitch. A piano tuner's life has its surprises. Traill has seen mice leaping out of piano cases and squirrels, and sudden clouds of moths. During prohibition, he reached into a piano case and came up with a fifth of hooch.

The commonest enemy of the piano, he says, is the dry heat of overheated apartments and houses.

For concert work, a piano should be tuned before every concert, says Traill. For meticulous musicians, once a month is average. For most of the rest of us, once a year is average.

Remember Want Ads Pay!

Highway Messages

RALEIGH, N. C. 47—Roadside signs in series have been planted along the 133 miles of U. S. 1 in North Carolina by the State Highway Commission.

Motorists on the north-south route road 193 messages like: "If you are over 55, you're lucky to be alive."

"It's a short hill; don't be impatient."

"Safe speed 55; local security 65."

"The late Ben Smith tried to pass here."

Motor Vehicle Commissioner Ed Scheidt said similar signs may be put on U. S. 301 and 17 if motorists take kindly to those on 1.

The 18 per cent of U. S. highways that get federal aid carry 42 per cent of the traffic.

There are 25,000 cancer patients in Swedish hospitals every year.

The U. S. steel industry capacity of 126 million tons a year.

Elephants seldom live more than 63 years old, says National Geographic.

Announcing — America's newest, lowest, smartest 4-door Sedan

Newest model in Mercury's Montclair Series lets you enjoy "hardtop" beauty with 4-door convenience

It's the newest Mercury of them all—the Montclair 4-door Sedan, and the photograph shows you that not one bit of the original Montclair hardtop beauty has been lost. It has the same dramatic lowness—only 58 1/4 inches from road to roof.

And see how convenient it is to get in and out. Everyone who admires hardtop styling, but wants the roominess and convenience of a 4-door model, can now eat his cake, and have it too!

198-hp Super-Torque V-8 with dual exhausts

Seldom has an engine caused as much enthusiastic comment from auto editors. And once you drive a Montclair, you'll see why. It gives you instant, on-the-spot pickup at every speed—

from zero to super-highway limits. A four-barrel carburetor, unique new high-compression spark plugs, and dual exhausts are yours at no extra cost. Features like these are usually extra on medium-priced cars.

Exclusive new power lubrication gives Mercury widest choice of power features

The Mercury Montclair offers a new optional power feature—power lubrication. And it's exclusive with

Mercury in the medium-price class. You push a button on the dashboard and vital parts of your car are automatically lubricated. You can also choose optional power steering, power windows, power brakes, 4-way power seat and Merc-O-Matic Drive.

Why not come in and see the newest Mercury? It costs a lot less than you think. And right now your present car is worth a lot more than you might think on a trade-in at your Mercury dealer's.

More than 300 registered for the two-day convention.

Veterans Forum

Q. I obtained a loan on my permanent GI insurance policy. Could I apply my regular dividend toward repayment of the loan?

A. Yes. Well in advance of the date your dividend is due, you should ask VA to take necessary action to apply it toward repayment of your loan.

Q. I am considered totally disabled for insurance purposes, and yet I have been given only a 30 percent disability rating for compensation. Why the difference?

A. For insurance purposes, you may have other non-service-connected disabilities which, when combined with your 30 percent rated service-connected disability produce total disability are not identical for insurance and compensation purposes.

Q. Must a veteran's blindness be service-connected, in order for him to receive some of the special aids for the blind, furnished by the VA?

A. Not necessarily. However, a blinded veteran must be entitled to compensation for a service-connected disability, in order to qualify for the special aids for the blind. Blindness itself need not be service-connected.

Q. I entered military service a few days before January 31, 1955, the date of the termination of eligibility accumulation for GI wartime benefits. I understand I need at least 90 days of active duty to qualify for a GI loan after my discharge. Must all 90 days be before January 31, 1955?

A. No. Some part of the 90-day period—but not all of it—must be on or before January 31, 1955. Furthermore, the 90-day period is waived for veterans discharged sooner for disabilities incurred in line of duty.

Experts estimate that commercial air transport in the United States uses about 1,400 planes compared with 20,000 planes operated by businesses and executives and 10,000 used by farmers and ranchers.

The American Automobile Assn. predicts that America will have 81 million motor vehicles by 1965.

When treating for grubs it is a good practice to sprinkle the lawn after the insecticide is applied, adds Fuller. This will wash the poison down into the soil where it can reach the insect.

Check Grubs In Sick Lawns

COLLEGE STATION — Spotty damage to lawns, or a general unthriftiness for which there is no obvious cause, may be the result of work done by beetle grubs.

Remaining in the soil throughout their larval stage, these grubs feed upon the roots of grasses and other plants. If a sufficient number are present in the lawn, whole root systems are destroyed and the grasses die.

Though lawns may suffer from the ravages of a great many insects, beetle grubs do most damage, and their activity is harder to detect, according to Dr. F. M. Fuller, extension entomologist.

Fuller suggests an easy method of checking for the presence of grubs in the lawn. Cut down on three sides of a square foot of sod, two to three inches deep, with a sharp spade. Then forcing the spade underneath, lay back the foot of sod, using the uncut side as a hinge, and examine for grubs. If six or more grubs are found in this area of soil, the lawn is subject to damage, and some treatment is needed.

Tests so far have shown chlordane to be the most promising insecticide for lawn treatment. Fuller explains, but others include aldrin, DDT, and dieldrin and heptachlor.

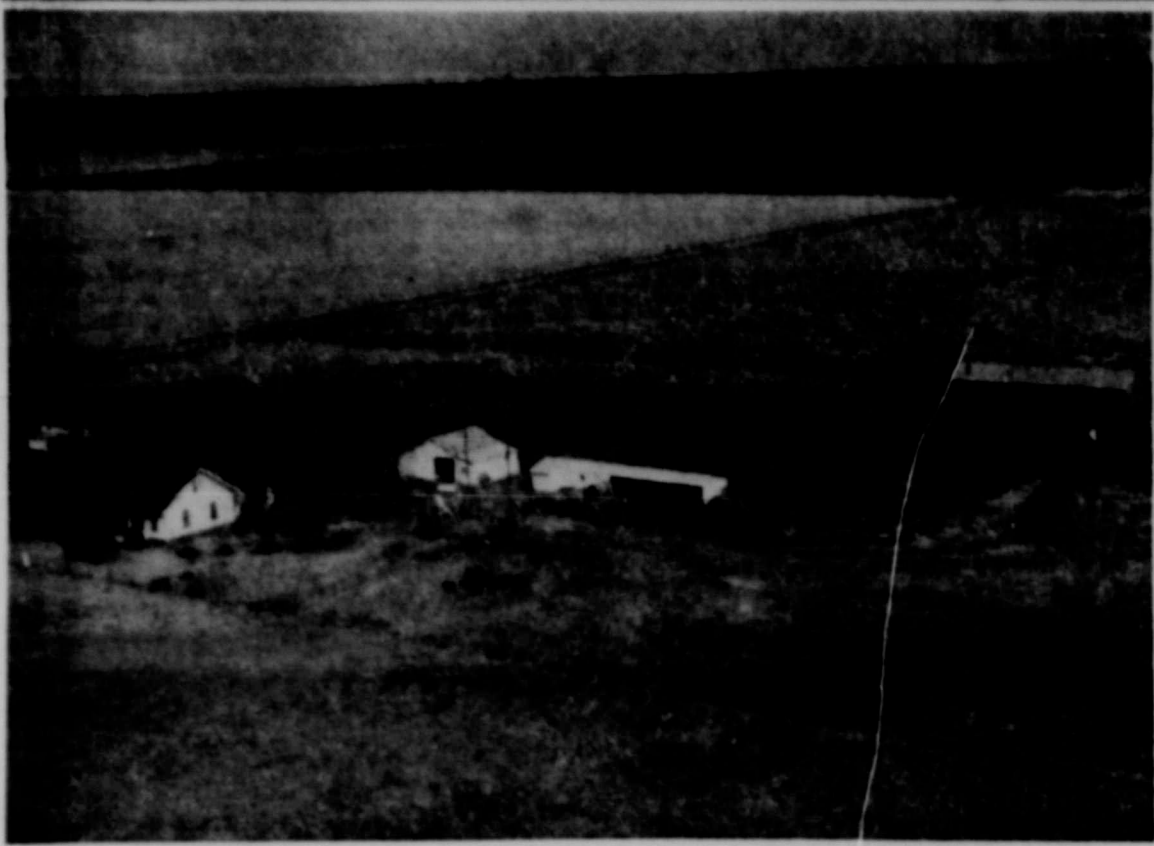

All these materials are poisonous and should be handled and applied according to manufacturer's directions. They are available in the form of wettable powders or emulsifiable concentrates that can be mixed with water and used in a sprayer. The dust forms may be applied directly to the lawn.

When treating for grubs it is a good practice to sprinkle the lawn after the insecticide is applied, adds Fuller. This will wash the poison down into the soil where it can reach the insect.

HERALD MYSTERY FARM OF THE AIR No. 89—Here is the Herald Mystery Farm of the Air for this week. Some person correctly identifying this farm will receive a free Herald subscription and the owner will get a mounted photograph of his farm by calling at the Herald office. The farm last week was the home of Mr. and Mrs. A. L. Swink. Larry Hulsey won the free subscription.

Val Cloud Team At People's Chapel

The Val Cloud Evangelistic Team of Los Angeles and Spokane will be at the People's Chapel from Wednesday, May 4, through May 8, it has been announced.

Services will begin each night at 8 o'clock during the week, and at 11 and 7:45 on Sunday.

The team is composed of the dynamic evangelist Val Cloud, who will be speaking on current events in the light of the Bible; Mrs. Val Cloud, contralto song stylist and vibra harpist; and Al Shafer, recording artist on the piano and organ.

There will also be solos, duet combinations and other special song numbers.

Rev. Calvin Cook, pastor of the Chapel, extends an invitation to everyone to hear these services.

In the Alt Haddidi tribe in the Atlas mountains of Morocco, a woman can legally divorce her husband for 15 cents and some of the women have had as many as 20 husbands, says the National Geographic Society.

Most Okinawa children never tasted cow's milk until relief agencies shipped in dried, powdered milk after World War II.

Parent Teachers Final Meeting Is Held Monday

The Perryton Parent-Teachers Association held their final meeting of the school year in the school auditorium Monday night. Bob Irby, school chorus director, presented several of the winners at the regional contests in Canyon last week.

The boys' octet sang "Heart of My Heart" and "This Train," while Pat Haywood sang "On Wings of Song." Gary George sang "The Big Brown Bear."

Mrs. Manse Wood, a past president of the PTA, installed the new officers. These officers are Mrs. Clifton Bell, president; Mrs. Max Boyer, vice president; Mrs. Roy Sanford, second vice president; Mrs. Gene Brillhart, secretary; Mrs. Giltner LaMaster, treasurer; Mrs. J. H. Brashears, historian; James Wright, pallbearer.

Mrs. Paul Loftin's first grade room won the attendance award, making the fourth time her room has won this award.

Mrs. Clifton Bell gave a report on the district convention in Borger last week.

Some of the farm land in China is occupied by as many as seven people per acre.

City Patrol Car Is Damaged In Sunday Accident

The city patrol car has been out of action since Saturday as a result of a Main street collision early Sunday morning at the intersection of Main and 5th avenue.

City policeman Les Crain, who had received a call from deputy sheriff Luther Daves, was traveling south down Main to set up a road block when the patrol car collided with a Chevrolet driven by Charlotte Forney, accompanied by Jackie Carter.

The accident occurred at about 1:30 a. m. Sunday and the right front fender of the patrol car hit the left rear fender of the Forney car.

Crain said he was traveling with his red light flashing and that the Forney car made a left turn at the intersection ahead of him. He had been called by Daves to set up a road block to stop an Oldsmobile which was being pursued south of town by the deputy sheriff, who was unable to catch the Olds.

Larry Hulsey Wins Subscription

Larry Hulsey won the free subscription to the Herald for correctly identifying last week's Mystery Farm of the Air as that of Mr. and Mrs. A. L. Swink. His name was drawn from the list.

Others correctly identifying the farm were Mrs. B. R. Fletcher, Mrs. Harry Langolf of Book, Mrs. Ralph Patterson, Mrs. Nell McGarragh, Mrs. Roy Johnson, Mrs. Edwin Malaney, Paul Tucker, Leota Snider, Mrs. L. L. Swink, Dean Morgan, Miss Hulda Schmidt, Mrs. H. T. Cutter, Mrs. E. Vernon Witt of Guymon, Okla. and Sam Janzen.

Tool makers say the twist drill, while simple in appearance is geometrically one of the most complicated tools.

Negro Singers At Local Church

The nationally known "Spiritual Singers" from Southwestern Christian College of Terrell, Texas makes an appearance at the Church of Christ located at 5th and Colgate on May 4 at 7:45 p. m.

These Negro singers are widely known for the excellence of their performance in presenting both hymns and spirituals. During the past two years they have made appearances before more than one million people in every state and in Canada.

The public is cordially invited to attend.

Attend Weed Control Meet

Several Ochiltree county farmers are attending the annual Texas Weed Control Conference at the Amarillo Experiment Station today.

John C. White, Texas Agriculture commissioner, will be the featured speaker of the program. A discussion of various weeds and their control will take up most of the afternoon, and there will be a tour of test plots.

Audie Conley of Perryton is a director of the Texas Weed Control Conference. Others attending today are W. H. Lance and county agent Delbert Timmons.

Agent Judges Visit Huntoon

The Huntoon community was visited Tuesday by a group of county agents who judged the homes, improvements and farms for the contest sponsored by the Farmer-Stockmen magazine and which the Huntoon community has entered.

Making a tour of the Huntoon community were Knox Parr, district agent, Doris Leggett, district HD agent, Hugh Clearman, Deaf Smith county agent, Adgen Draper, Deaf Smith county HD agent, and Garland Smith of the Amarillo Globe-News.

A number of farms were visited. Stops were made in the homes of Roy Stollings, Jim Latham and Jeff Collins.

No. 3. Continued from Front Page

Immediately following the baccalaureate service, the seniors will leave for Colorado Springs and their annual senior trip. They will return Friday, May 20, for the commencement exercises.

Final examinations will be given during the week of May 15 and classes will end on May 18.

The Rebekah Assembly of Texas; Sarah Spector of Borger, president of the Theta Rho Girls Clubs of Texas; and a number of past association officers.

Saturday night was devoted to competition in the drill work and degree work of the lodges. Seven Rebekah drill teams displayed 15 minutes each of outstanding drill work. The Herford team took top honors with the Perryton lodge a close second.

Rev. Jay Russell of the Church of the Nazarene delivered a devotional address Sunday morning.

The annual election of officers highlighted the afternoon session and Bernard Bryan of Perryton was elected Panhandle IOOF president and Jewell Rabo of Shamrock was elected Rebekah President. John Rust of Borger was installed as vice president and Mrs. Fred Tillman of Perryton was named Rebekah vice president.

Ruth Marie Lawlly of Pampa is the secretary-treasurer and Mrs. Perl Castka of Pampa was selected to serve as chaplain for the next year.

Ben Conklin and Leta Kaul of Herford and Frank Shaffer of Perryton were added to the executive committee.

The closing service was a memorial, commemorating the deceased members of the Odd Fellows and Rebekahs who have passed on during the past year.

The United States had 4,060,000 babies born in 1954.

Vaccine Too Late for Carlos Smith, Feels Serum Will Protect Children

Ed. note: This story, concerning Carlos Smith, a former Perryton resident, appeared in last week's Enid Daily News. Smith was a star guard on the 1946 Ranger football team and is a PHS graduate. He has been a polio victim since last July.)

July 26, 1954, was not unlike any other Monday for 25-year-old Carlos Smith, but the following Thursday might have been different if Dr. Jonas E. Salk's polio vaccine had been developed one year sooner.

Smith, the father of three children, was working for the Texas Co. and living at Beaver where the oil company was engaged in exploring for oil. Smith liked his outside work—he always had liked being in the out-of-doors.

He liked it so well that he often played baseball after working hours. And on the evening of Monday, July 26, 1954, he played baseball just the same as he had done many times before.

Daughter Just Recovered

Smith's 5-year-old daughter Sherry Lynn had just recovered from a light attack of polio. In fact the doctor had told them the disease had almost run its course before they were even aware she had it. Smith was glad his daughter was alright, he was glad to be outdoors, and he was glad to be playing baseball.

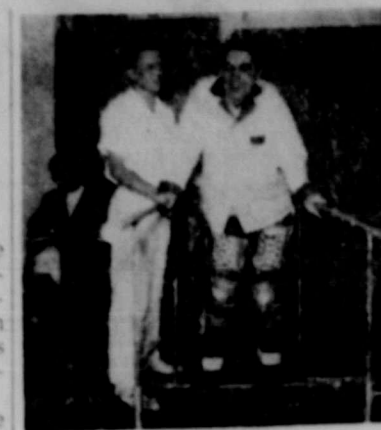

When the game was over, Smith went home and went to bed. The next day, he noticed a stiffness in his back. He went to the doctor, who diagnosed it as nothing more than a strained back—that was on Wednesday. But the next day, when Smith awoke, one leg was paralyzed, and when he tried to get out of bed his knee buckled.

So, on July 29, 1954, he was admitted to the polio ward of St. Mary's hospital—where he has been ever since. At present he is the only polio patient hospitalized in Enid.

He had contracted the spinal-type polio, and when he was admitted to the hospital he was unable to even lift his arms. "At first," his wife Donna said, "we even had to open his mail for him."

In Iron Lung At First

The first ten days to two weeks at the hospital were spent in an iron lung, and then for about another month Smith required the help of the "rocking table" to breathe. He describes the "table" as "kinda like rid-

in a tiltawhirl." He is no "little squirt." He weighs 185 pounds and is 5 feet 11 inches tall.

He feels that the Salk polio vaccine is one of the greatest things that has ever happened. Even though, the vaccine can't do him any good, he feels that it might save the lives of his three children, Carolyn, two years old, Tex, 4, and 5-year-old Sherry Lynn.

Of course, even though Smith no longer has the disease, a shot of the vaccine will prevent him from taking one of the other two types of polio. And some persons have been known to have polio twice.

Smith couldn't play ball the rest of last summer, but when it came time for the world series he had the next best thing—a ringside seat for the world series, through a TV set provided by his father at Perryton.

Smith is progressing. Now he can walk a few steps with the help of parallel bars. He feels that it won't be long now before he will be through with parallel bars, "tilta-whirls" and iron lungs. And now he feels too, that—thanks to Dr. Salk—his children will never know what an iron lung, or rocking table is.

Perryton Sorosis Club Entertains With Annual Guest Day Tea, April 20

The Perryton Sorosis Club entertained with its Annual Guest Day tea Wednesday April 20, 3 p. m. in the Fellowship Hall of the First Methodist Church.

Special guests were members of the County Home Demonstration clubs, Jennie June Club, Perryton Garden Club and Red Bud Garden club.

In the receiving line were Mrs. Orlan Bell, Mrs. W. B. LaMaster, Mrs. H. C. Brillhart and Mrs. S. P. Tevis.

Mrs. Earl McGarragh had charge of the guest book.

Mrs. Orlan Bell welcomed the guests. Mrs. Roy Orrill and Mrs. Vance Apple introduced the program.

Miss Charlotte Flowers played an obse solo "Adagio Cantabile" from Beethoven's Tanteleque Sonata. She was accompanied by Mrs. Raymond Powell, Jr., pianist.

Miss Mary Lou Jacquot gave two piano selections, "When It Rains" by Poulshoff and "To Spring" by Grieg.

A series of slides, "Creating a Home" were shown by Mrs. Ray McGarragh. Mrs. Clair Brillhart was narrator.

The tea table was laid with a white organly cloth over pink. An arrangement of pink snapdragons flanked with white tapers adorned the table.

Mrs. Bell, Mrs. LaMaster and Mrs. Tevis alternated at the silver tea service.

Those attending were Mrs. Jack Allen, Mrs. J. C. May, Mrs. R. T. Correll, Mrs. Harlan Hawk, Mrs. Chas. Price, Mrs. Fred Huston, Mrs. Clair Brillhart, Mrs. O. T. Glasgow, Mrs. R. S. Roberts, Sr., Mrs. Harriet P. Gramstorf, Mrs. A. P. Spicer, Mrs. H. T. Glas-

Recital Held In Tarbox Home

Mrs. Roy L. Johnson presented her grade school piano students in a spring recital recently in the country home of Mr. and Mrs. Fred Tarbox.

A coffee followed the afternoon's program.

The table was centered with an arrangement of yellow tulips in a brass bowl. Coffee and tea were served from a brass service.

Mrs. A. K. Wilson and Mrs. Bob Urban presided at the serving table.

Appearing in recital were Leon Doffer, Eddie McGarragh, David Fike, Peggy Barnett, Raymond McGarragh, Danny Tarbox and Phil Fike.

Parents and friends of the pupils were guests for the afternoon.

Wedding Read at La Junta, Colo. for Miss Snyder and Mr. Sweigart

In an impressive ceremony Friday afternoon, April 8, in La Junta, Colorado, Miss Winnie Snyder became the bride of Earl Sweigart.

The vows were read at 3 o'clock in the home of the bride's parents, Mr. and Mrs. Mark Snyder, 322 Hayes Avenue, Mr. Sweigart is the son of Mr. and Mrs. Sweigart of Perryton.

Officiating at the ceremony was the bride's brother-in-law, Reverend Marcus Bishop, pastor of the Mennonite Church in Pueblo. The ceremony was read before the fireplace in the living room which was banked with pink flowers and fern and candles in gold candelabra.

Preceding the ceremony Mrs. Don Snapp of La Junta, organist, presented a program of nuptial selections.

The bride wore a white afternoon frock, fashioned with a fitted bodice, short sleeves, a high rounded neckline and flared skirt. White accessories completed her ensemble. Her corsage was of pink roses.

Mrs. Verna Sheppard of Pueblo, sister of the bride, was matron of honor. She wore a blue dress, similar to the bride's, and a pink carnation corsage.

Melvin Eyster of Thomas, Okla., was best man.

For her daughter's wedding, Mrs. Snyder chose a grey afternoon dress with black and white accessories. The bridegroom's mother wore a navy blue dress with navy and white accessories. Both wore white carnation corsages.

A reception followed the ceremony.

The bride's table was centered with an arrangement of pink snapdragons and a tiered white cake, decorated with bells and love birds.

Members of the house party included Mrs. Sheppard, Mrs.

SOCIETY.

Follett Couples Share Wedding Anniversaries

FOLLETT—Eight pioneer couples of the Follett community who have been married from 30 to 57 years shared their wedding anniversary celebration on Sunday, April 24.

Honored on their wedding dates were Mr. and Mrs. Price Bruce, April 3, 1898; Mr. and Mrs. Tom Bruce, Nov. 25, 1897; Mr. and Mrs. Clagett Cookman, Oct. 16, 1898; Mr. and Mrs. John A. Cox, Jan. 12, 1899; Mr. and Mrs. George Kraft, Feb. 14, 1901.

Mr. and Mrs. Harry Parker, Jan. 6, 1902; Mr. and Mrs. J. F. Travis, June 19, 1898; Mr. and Mrs. Harry Whitte, March 18, 1905.

After attending morning services at the Follett Methodist church the couples enjoyed a community-wide basket dinner in the school house cafeteria. A short program in their honor was presented by other members of the community.

All of the "golden years" couples have lived in and around Follett for over 45 years, having been engaged in farming and ranching during that time.

Sweden has one passenger automobile for every 13 people.

Home, Mrs. Davis and her mother went to Meade Thursday and visited in the Gopenhaver home.

Mr. Carl Carter spent Friday morning visiting Mrs. Leon Morris and Mrs. Ralph Bobbitt.

Mr. and Mrs. Leon Morris spent Sunday afternoon in the Wayne Peters' home and attended church at Turpin in the evening.

Ruth Whitte is on the sick list.

Miss Carolyn Hyatt and a girl friend from Weatherford, where she attends school, spent the weekend with Carolyn's parents, Mr. and Mrs. Walter Hyatt.

Walter Hyatt with his musical saw participated in the variety show held at Beaver Friday evening.

Swink Farm Home Scene of Flood in Fall of '50

The A. L. Swink farm home, located 7½ miles southwest of Perryton, was identified as last week's Herald Mystery Farm of the Air. The Swink family moved to the farm in 1943 after buying the place from the late H. T. Carter in 1942.

There are 960 acres in the farm and wheat and milo are the principal crops grown. Best crop year for wheat was 1947. Swink recalls, while the greenbug year of 1950 was the most complete crop failure he ever had.

In September, 1950, heavy rains caused the lake around the Swink home to rise, and the water rose four inches in the garage, filled the basement of the house, and the family moved to town.

That is, Mrs. Swink and the children moved to town. Arthur and a hired man stayed there and pumped water out of the house for two months. Finally, after the water receded, Swink put up a big earthen dike around the house to keep out the

water in the event it ever rained that much again.

The lake dried out completely in the spring of 1952 and there hasn't been any water in it since, Swink says. And he has never needed the dike, but it's a comfort to know it's there in case we ever go through a wet season again.

There are three children in the Swink family—Mrs. Donna Langolf, 18; Howard, 15; and Marjorie, 13. Mrs. Swink is the former Opal Dear and she grew up around McBeetle, Texas.

Swink has lived in Ochiltree county since 1925. He was born near Ryan, Okla., but moved to this county 40 years ago. He went to school at Cedar Bluff, in the southwest part of the county.

The Swinks are members of the Methodist church, the Farm Bureau, Equity, North Plains, Texas and American Aberdeen-Angus cattle associations.

Swink went into the registered cattle business in 1951 when he bought his foundation stock. Just recently he bought a bull and cow to strengthen his bloodlines, and foresees a good future in the registered cattle business in

spite of the recent slump.

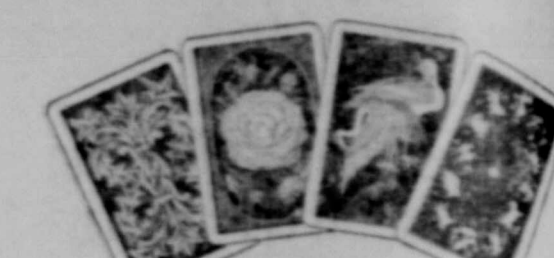

He operates an irrigation on the L. L. Swink farm, miles to the southwest, good results have been achieved with irrigation. Although all tries have been made completely successful, it has been drilled on the A. L. place.

The Swink house was built about 1952 by Mr. and Mrs. Swink and it contains rooms and bath. It is a full basement.

Soil conservation practices include chiseling to hold the ture, and construction of diversion terraces.

The Swinks have been subscribers since 1928 and they wouldn't be without

Mr. and Mrs. Wayne Salina, Kans., formerly of ton announce the birth of a son, 10 oz., son of April 20, 1955. Mr. and Mrs. H. Sharpe are paternal grandparents and Mr. and Mrs. Brown of Booker are maternal grandparents.

News from BOYD, OKLA.

By Mrs. Aldeen Rodgers

Word was received here of the
death of C. W. Kight former
Boyd resident. He was a brother
of Mrs. Walker Bryan who lives
south of Boyd.

News came of the death of
John Neilson of Stinnett. Mr.
Neilson's widow is the former Lil-
lian Nichols who spent her early
girlhood on a farm northeast of
Boyd.

Mr. and Mrs. Aldeen Rodgers
and son James were dinner
guests Thursday of John A. Beck
and daughter Helen in Beaver.

Mrs. Dorla Kirks and a girl
friend of Amarillo visited Satur-
day in Adrian Nolder home. Mrs.
Kirks is attending school in Ama-
rillo.

Royce Rodgers was the guest
of Sherman Jines Wednesday
night.

Mr. and Mrs. Barton Lewis,
Barty and Janet of Chicago ar-
rived early Sunday for a week's
visit in the W. H. Williams home.

Mr. and Mrs. C. A. Sullivan of
Guyton called in the John Dav-
is and the George W. Kirton hom-
es Sunday.

Several fishermen were fishing
at the George W. Kirton lake
Sunday.

Hugh Williams and Party Lew-
is took James Rodgers to Amar-
illo Sunday afternoon where he
took a plane to return to San Di-
ego Naval Base. James had a
ten day leave. While here he
called on several friends in the
Boyd community and visited
friends and relatives in Beaver
and Liberal and spent Wednes-
day night with former college
friends at Goodwell.

Mr. and Mrs. Paul Dean Kirton
are the parents of a son, born at
Epworth Hospital in Liberal Ap-
ril 19.

Ruth Whitte has been ill.

Sunday evening callers at the
George W. Kirton home were Mr.
and Mrs. Adrian Nolder, Jim Wal-
lace, Dolph Kuykendall, Mr. and
Mrs. Alec Wahl and Mr. and Mrs.
Aldeen Rodgers.

Royce Rodgers visited Sunday
afternoon at the W. H. Williams
home.

John Winter was ill part of last
week.

John A. Beck and daughter
Helen of Beaver, and Mr. and
Mrs. Aldeen Rodgers drove to the
new dam of Hackberry Creek
south east of Hardesty Sunday.

Mrs. W. H. Williams and grand-
daughter, Janet Lewis were in
Turpin Monday evening. Mrs.
Williams attended the regular

Editor Ochiltree County Herald

Dear Sir:

In comment to your article
"Shorty McClung Partner in Colo-
rado Uranium Mine." In the first
place Mr. McClung is not a part-
ner in the "Stumbling Stud Ur-
anium mine." He is merely the
mining contractor, and not one
of the owners. Furthermore he
was not the subject of an article
in the Denver Post. The Stum-
bling Stud mine, and its operation
was what the feature was a-
bout.

There are not four, but eleven
people who have claims in the
mine. There are six new Mexi-
cans, and five Coloradians, in-
cluding my husband, Mr. G. E.
Briscoe of Walsenburg, and not
Tucumcari, New Mexico, as your
paper stated, who have claims in

the mine. Mr. Briscoe is a former
Ochiltree County resident hav-
ing lived in the McMillen com-
munity eight years.

You also stated they have start-
ed shipment of ore, which is not
a fact, but they hope to in the
near future. Otherwise the facts
in your article are true.

I will send you some clippings
and a self addressed envelope.

and will appreciate your sending
them back to me.

Thank you very much.
Mrs. G. E. Briscoe
114 S. Fordham
Perryton, Texas

(Ed. note: The information
given to the Herald was that
McClung was a partner in the
mine, and if we have erred, it
was an honest mistake. Here's
hoping that the "Stumbling
Stud" produces high grade ur-
anium ore by the ton and that
all the partners get rich.)

Mrs. A. M. Bond of Colorado
Springs, Colorado, is visiting
with her daughter and family.
Mr. and Mrs. Mason Anderson
and sons.

Highways Build Towns

With the opening of State Highway 70 to the south, and the dedication of the Canadian River bridge coming up tomorrow, it may be well to reflect upon the value of roads to a community.

Some fears have been voiced that the opening of the new road will lead trade out of Perryton. And it may—but it will be largely Perryton's fault if trade does leave by that route.

Highways run two ways and it is just as probable that trade will come into Perryton on the new highway.

Certainly history shows that the town with the highways is the most prosperous. A casual look at the map will show small towns, isolated from the main arteries of traffic, where business is nil. It would appear that these towns, isolated where people have to trade there, would prosper. But it works the other way around.

Another look at the road maps, and the towns with highways leading out in all directions are generally the best business towns. Good highways are an asset to any town. And all highways travel both ways. Which way the trade goes depends almost entirely upon the town itself.

In these days of fast automobiles and paved roads, it is absolutely impossible to isolate a city and make even the people who live there trade at home unless the business houses have something to offer.

Texans Are Suckers

The people of the East are portraying Texans as a group of bloodsuckers in the current dispute arising from the Supreme Court decision saying that states have no power to regulate the price of natural gas; that all prices are to be set by the Federal Power Commission.

This federal price fixing is just the ticket for the eastern firms who are buying the natural gas in Texas and other Southwestern states and piping it north.

They find it easy to buy at a low price at the wellhead with federal price fixing. The gas companies have been buying at a ridiculously low price for years, but lately the price to the land owner has gone up; due in part to state price laws and in part to the law of supply and demand.

The new decision stops that. The eastern companies can buy it low and sell it high.

For example, the testimony shows that gas purchased for 7 cents per MCF in Texas is being sold today in New York for \$2.89 per MCF, over 40 times the price of the gas at the wellhead. Yet the consumers in the metropolitan areas are being told that gas producers in Texas are robbing them!

The gas producers in Texas are being milked and played for suckers—and with the aid and encouragement of Uncle Sam.

Different Kind of Insurance

Several years ago, when farmers were being urged by a group of high-powered "salesmen" from the federal government to take out crop insurance, it was pointed out that this was the only kind of insurance which would insure a crop against all hazards.

Basic idea of the insurance, they were told, is to put the farmer's seed back into the ground in the event of a failure, due to weather, fire, hail, insects, or what not.

So the Ochiltree county farmers joined up. Things were fine, until the dry weather began to take its toll. The first year the county went into the red, the premiums were doubled. The next year, when it continued in the red, due to the drought, the insurance was cancelled.

Which brings up the question—what kind of insurance is the government selling? If this was designed as an emergency measure to keep the farmers in business, this seems like a pretty poor way to demonstrate it.

If it is necessary for every county to take in more premiums than it pays out in claims, then federal crop insurance is a farce, because no county can stand alone in a situation of this nature.

No doubt the government "salesmen" will be back around to sell crop insurance when we enter another wet cycle and crops start again.

Then we doubt if their customers will be very eager to buy.

Luxuries

of the past are now necessities, if one wants to enjoy the comforts of a modern home. These comforts are now available by.

The Automatic Gas Range, and air conditioning unit.

The Automatic Gas heating

The Automatic Gas hot water heater.

The Automatic Gas Refrigerator.

The Automatic Gas clothes dryer.

The Automatic Gas Incinerator.

AUTOMATIC is the magic term. It is the modern invention which makes home appliances do the work. GAS makes the operations efficient, silent, and inexpensive.

Public Service Corp. of Texas

You Can Do It Better With Gas

From the SIDELINE

with HAROLD HUDSON

This department was honored with an invitation to accompany the drought tour of Secretary of Agriculture Benson through the Panhandle this week, but we had to decline since the tour was made on Wednesday and Thursday. Weekly newspaper editors share a common occupational handicap—their Tuesdays. Wednesdays and most of the time Thursdays are tied up and they find it exceedingly difficult to leave town on those days.

We think we would have enjoyed this tour—our only regret is that Ezra could not have been here Saturday to enjoy one of the dust storms which are becoming somewhat more frequent.

People with the narrowest minds always seem to have the widest mouths.

We didn't know until recently that it is illegal in Texas to operate a pool hall. A domino parlor, where the participants have been known to wager a friendly sum on the outcome of this game of skill, is quite legal. But a pool hall, where the players sometimes risk their money on their skill, is illegal. Practically every town in Texas has a pool hall, and these are still run on a "men only" basis, as far as we know. These last refuges of the male sex, the sanctum where a man can hide from his wife with perfect peace of mind, are apparently on their way out.

We read in the Ralls Banner last week where the pool halls in Crosbyton, Lorenzo and Ralls have been closed by permanent injunction. From time to time, in other parts of the state, we have read of the closing of pool halls and right now we would think being in the pool hall business would be facing a less-than-rosy future.

Of course, pool halls have operated in this state for years, even though they are against the law. The reason they are being closed, it seems, is not because the men of the town are playing pool, but because the after-hours activities around a pool hall includes gambling—something also against the law in Texas.

We doubt if closing a pool hall will stamp out gambling in a town, but it will probably get the games off Main street.

In the Perryton Toastmasters Club, every member has to make a speech every week, and the first speech he has to make is an autobiographical one. Last week Alton Boxwell had to make his. He started off by saying he was born in 1932. A little later on, Dean McCutcheon commented on his speech, saying it was a real pleasure to meet a man who was married when he was four years old and became a father at seven. This caused Digger to back up and admit he was born in 1912.

A newspaper article we read recently told about the origin of the daily coffee break, and we were surprised to learn that this quaint custom began only during World War II. Looking back, we do know that while we were working before the war, we knew no one who quit their work to go drink a cup of coffee in the middle of the morning and the middle of the afternoon. Now everyone does. You can nearly set your watch by some groups who come up the street at 10 a. m. and 3 p. m., headed for the coffee counter.

A national survey of 1,160 companies disclosed that 80 per cent of them had "breather" periods for coffee and relaxing in effect since 1941. Whether this contributes to efficiency or not is a good question—but the custom seems here to stay.

Freddie Dendy In Maneuvers

FORT LEWIS, Wash. — Sgt. Frederick G. Dendy, 21, son of Mr. and Mrs. Troy Dendy, 1114 S. Baylor, Perryton, Texas, is among 26,000 soldiers slated to participate in Exercise Apple Jack during May at the Yakima Firing Center, Wash.

Apple Jack will test the efficiency of infantry and support units in mountainous and desert terrain. The simulated use of atomic weapons will be one of the conditions of the exercise. Sergeant Dendy, a squad leader in the 2d Infantry Division's 38th Regiment from Fort Lewis, Wash., entered the Army in June 1953. He is a 1951 graduate of Perryton High School.

What's in a Name?

DETROIT (AP) — Norman McDonald, 56, came before Probate Judge James H. Sexton.

"Judge, I'd like an 'a' added to my last name between the 'm' and 'c'," he said. "I'm a Scotchman born and bred, but my name is spelled like an Irishman. The extra 'a' would make me known as a true Scotchman. The 'a' was dropped from my birth certificate through an error in Scotland."

Judge Sexton, sent Norman MacDonald home a happy man.

Rent Typewriters—Stewarts

Seats For Sinners

PITTSBURGH, Pa. (AP)—County commissioners appropriated \$3,000 for new benches at the Greater Pittsburgh Airport—for sinners.

Commissioner John M. Walker asked whether the benches would be for "saints or sinners."

John B. Sweeney, county aviation director, gave him a puzzled look.

"I mean will they be hard or soft benches," Walker explained.

Railroad rails become unusually slippery in damp weather because at such times, a very thin layer of oil often spreads over the rail.

Wolf Creek Philosopher

Farmers May Become Extinct

(Ed. note: The Wolf Creek Philosopher takes a confident view of farming, his letter this week reveals.)

Dear editor: Last night I was thumbing through a magazine wondering if there was anything in it I'd be interested in reading, most articles in magazines are written for neurotic women and I usually just skim through em, when I noticed an article about farming and I settled down on it.

That is it wasn't exactly about farming, it was about the farm population. According to it, a hundred years ago 80 per cent of the population in this country was farmers, but the percentage has been dropping steadily, as towns and cities grew bigger and bigger, and today its only 19 per cent. That's right, the article said, only 19 per cent of the population of this country are farmers—and furthermore, it adds, the percentage is dropping at the rate of 1 per cent a year.

Now it doesn't take any mathematician to figure that if this trend continues, in 19 years there won't be any farmers left.

This bowled me over, I knew there were possibilities of the country running out of oil, gas, coal, uranium, plutonium, and whooping cranes, but didn't know us farmers were in the same category. I had always figured you couldn't run out of farmers any more than you could run out of candidates for office, that as long as there was any land left, a farmer would show up with a plow, the same as when an office becomes vacant, a candidate always turns up with a promise.

But if these figures are true, this represents a real crisis and some department of the government ought to get to work, say the wildlife department, which

could divide its efforts between vanishing farmers and the disappearing whooping cranes. They could get up a national preserve for farmers, check em with their binoculars every spring to see how many made it through the winter, and leave food scattered around to let em know the rest of the nation was still friendly.

However, this morning I came outside and started checking around myself and as best I can tell, every piece of land around here is still being farmed like it has been ever since it was broke out and while it don't appear that the percentage of absentee land owners is diminishing, the land is still being farmed. If farmers are disappearing, you can't tell it by looking, and as a matter of fact I know some fellers

that would like to get some land to farm, even this drought.

Myself, I have enough to keep me busy. I'll be glad some food scattered around me, but I ain't planning on farming. After all, the way you can't beat the house.

Yours faithfully

J. A.

200 BLAZING HORSEPOWER

at the lowest cost in history!

...plus size, luxury and styling unsurpassed at the price!

It's a fact—never before in the history of the automobile industry has a car offered so much power for so little money as the 1955 Pontiac. It is the first and only automobile ever built that delivers 200 horsepower at a price every new-car buyer can afford—hundreds of dollars less than any car equalling its blazing performance.

And that's not all! Pontiac is also the sole automobile at its price to unite the terrific "drive" of 200 horsepower with a road-leveling "122" or "124" wheelbase and such big-car stability. It's the biggest as well as the highest-powered car ever priced with the lowest.

Yes, you read that right! You can buy a big,

powerful Pontiac for less than many models of the lowest-priced cars or stripped economy models of higher-priced makes.

Come in and drive this silken-smooth performer. A few miles behind the wheel will tell you better than any words that Pontiac is the greatest buy that ever took the highway!

CLYDE AYNES

Pastor, Fellowship Baptist Church
6th and Ash

The following is the sixth in a series of messages by ministers of this trade area. This week's message was written by Rev. Clyde Aynes, pastor of the Fellowship Baptist Church.

Ps. 122:1—"I was glad when they said unto me, let us go unto the house of the Lord."

The psalmist David was here expressing his joy at the privilege of attending the house of the Lord. My friends, so should you, here are some of the reasons you should be glad to attend the House of the Lord:

Very few countries are there left that a person can attend the church of their choice without persecution, our forefathers died for this happy privilege, yet today even in our town many neglect it when they should be rejoicing in the fact.

Also you would not want to bring your children up in a country where there were no churches; although you may not know it, you owe a great deal to the church for helping thru the power of the Gospel to stem the rising tide of sin.

When Jesus comes back for the church (those who are born again) John 3:3, there will be left the most troublous times ever imagined. The first chapter of Romans will give you an idea of what will take place. Rms. 1:21-32.

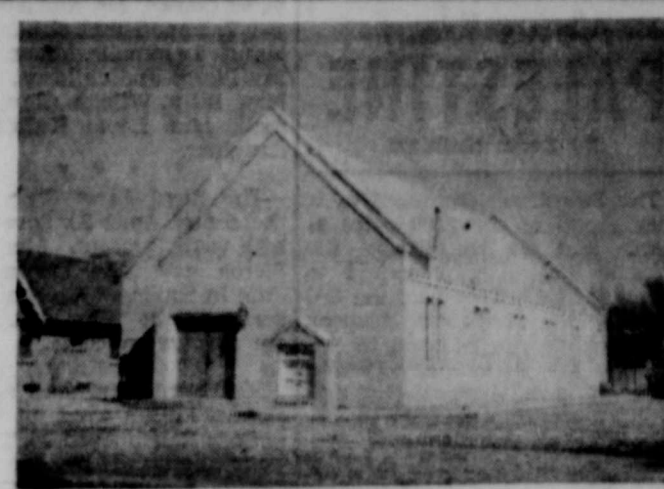

Then last but most important, the one who created you, the Lord Himself expects it of you. If you are a Christian it is the least you can do to show that much appreciation for His Dying to save you.

If you are not a Christian you need to be in the House of the Lord because He says: Isaiah 55:6, "Seek ye the Lord while he may be found, call upon Him while he is near." II Cor. 6:2, "Behold now is the accepted time; Behold now is the day of Salvation."

Be in Church this Sunday and show forth His praises until he comes!

News from PALESTINE

By Leota Kulbiski

The Palestine Community is very proud of the \$100 prize award and the certificate the Farmer Stockman presented to them April 12. This was the 3rd prize in the Northwest District. The money is to be used in improving the Community Center. An evening meal was served and a short program was given before the awards were made. Pictures were made during the evening. Special guests for the occasion were Miss Southwell and Earnest Shinner. Others present were Mr. and Mrs. Lester Leatherman and children, Mr. and Mrs. Sam Kauffman and daughter, Mr. and Mrs. L. C. Karber and children, Mr. and Mrs. Harvey Ratzlaff and children, Mr. and Mrs. Everett Cowan and children, Mr. and Mrs. Boyer, Mr. and Mrs. Fred Cowan and children, Chal Gift, Frank Reiman.

The Man Behind Your Memories

The Basis of DEPENDABILITY

A consistent policy of conservatism and able management is necessary if a bank is to earn a reputation for strength and dependability. The constructive principles of this bank include the utmost possible in financial cooperation with customers—within the limits of sound banking.
