THE JUNCTION EAGLE

Volume XL. Junction, Kimble County, Texas, Friday, December 7, 1923. Number 33.

EAGLE PLANT ADDS MORE NEW EQUIPMENT

A new sterotyping machine has just been received and installed in the Junction Eagle plant. With this machine it is now possible to actually cast the cuts used for illustrating the advertising in this issue, as well as case the feature pictures, headings, etc., that add to the appearance of The Eagle.

This paper has added new and uptodate machinery to its equipment, from time to time, until we have now, one of the most complete printing plants to be found in this section of the State and we doubt if there is a town anywhere in the State the size of Junction that can equal our facilities for handling our work.

Few people, even in the town and county, realize that within the commonplace looking building that we occupy, are thousands of dollars worth of machinery and equipment—equipment that is adequate to handle a newspaper of several thousand circulation, and all the commercial job printing that a town several times the size of Junction would demand.

Junction is a small town, but it believes in bigger things. It is building for the futuer, and it is the constant aim of the management of The Eagle to keep abreast the progress that the town is making.

This is necessary only because of the wonderful support of most of the business concerns of the town, and the readers of this paper.

Every institution of [illegible] has its knockers. We have ours. But these knocks scarcely make a dent in the workblock, so to speak, that our loyal subscribers and advertisers have constructed.

The Junction Eagle is run in the interest of the town and county in general, and its readers and advertisers in particular. We have many things in view for improving the paper in 1924. Your continued loyal support will enable us to carry out these plans and give you the best paper possible.

The public is cordially invited to visit The Eagle plant at any time.

JUNCTION STATE BANK HAS RADIO STATION.

While there are a number of radio sets in the town, and the country nearby, the Junction State Bank is the first business house to install a set with loud speaker for the entertainment of the general public.

The aerial is above the bank building and the receiving set inside, while the loud speaker is placed on the side walk when receiving.

It was installed this week for the purpose of getting President Coolidge's message to Congress Wednesday.

INSTALLED NEW GASOLINE PUMP.

Wahl Brothers and Jordan, local garage and hardware concern, have just completed the installation of a new and up to date visible gasoline pump, at their garage, fronting on the Square. They now have two pumps to take care of their customers.

The one just installed is approved by the Underwriters Laboratories and does not constitute a fire hazard, as is the case with many gas pumps. The pump is electrically operated and aside from its standard construction, is a very attractive ornament at the front of their business house.

Mr. and Mrs. Alex J. Hamer returned Wednesday from a two weeks' trip to Pennsylvania.

Sixty-Eighth Congress Convened Monday; Pres. Coolidge Delivered Message Thursday.

Calvin Coolidge, 29th Vice-President and 30th President of the United States, was born at Plymoth, Vermont, on July 4, 1972.

After taking A. B. and L. L. D. degrees from Amhurst, began the practice of law at North Hampton, Mass. During the next few years he held a number of public offies, among which were: councilman, city solicitor, court clerk, mayor, State Senator, Lieutenant Governor for three terms and Governor of Massachussetts for two terms.

Upon the death of President Harding, he took the oath of office as President, the oath being administered by his father.

The 68th Congress convened Monday of this week and Mr. Coolidge delivered his first message Thursday.

THE CAPITOL AT WASHINGTON

The Capitol Building at the left, was completed in 1865, is one of the most imposing capitol buildings in the world.

It stands on a plateau, in the City of Washington, eighty-eight feet above the level of the Potomac River, and fronts east. Its length, north and south, is 752 feet, and its greatest width is 350 feet, covering an area of more than 153,000 square feet. More than eight millions of pounds of iron was used in constructing the massive dome, which is 287 feet above the base line of the east front, and its diameter at the base is 135 feet. The corner stone of the original building was laid by President George Washington, with Masonic ceremonies, in 1793. The corner stone to the extension or wings, was laid by President Fillmore in 1851.

The dome is crowned by a bronze statute of Freedom, which is 19½ feet high and weighs 15,000 pounds.

The Senate Chamber and the House of Representatives, the Supreme Court room, and a few offices are in the building, while most of the administrative offices occupy separate building near the Capitol.

CHRISTMAS DAY IN THE RURAL DISTRICTS

Christmas in the farm homes and in the rural schools!

What memories it brings to thousands of men and women in crowded cities as well as in the open country. The spirit of making others happy is abroad in the land. At this happy time when our main objective is to add the joy of the Christmas season for our boys and girls may we not also take stock of the kind of permanent service we are giving our children in providing for their future welfare and happiness, especially for the education?

Houses and lands, money, jewels, may be of temporary endurance. Good health, a trained mind, and a sound, moral inheritance are treasures stored where moths can not enter nor rust destroy. The best Christmas gift any community can give its children is an efficient school, one which assures in so far as it is humanly possible the spiritual and intellectual training that prepares them for the "good life."

School trustees and parents, why not, when you go to a Christmas program at your schoolhouse, look about you carefully, see that the school building is sanitary, comfortable, and convenient for its purpose? Desks must be occupied five hours a day by school children; eyes must be used day after day; sanitary conveniences should be adequate. If these things are not satisfactory the [illegible] ing for a Christmas present.

The Christmas vacation is a good time to make necessary repairs, to remodel unsuitable buildings, or to arouse sentiment for a new one.

STORES REFLECT APPROACH OF HOLIDAYS.

The Holiday Spirit is now very plainly shown in the different stores of Junction. Toy counters, all decorated with Christmas bells and green streamers are seen in some of them. Practically all have in stock an excellent assortment of merchandise suitable for gifs for old and young.

In passing along the streets, the show windows give evidence of the progressive spirit with which the owners, managers and clerks are imbued.

Even in a small town like our own, it will be to the advantage of both merchant and customer, to observe the over-worked admonition, "shop early."

With such excellent stocks of all kinds of merchandise, and with prices as reasonable as can be found anywhere, there is no reason why all should not do their Christmas buying here in Junction.

TEACHERS' INSTITUTE ON 17TH THIS MONTH.

The teachers of this and Edwards County will meet at the Court House in Junction on Monday, December 17th, for regular institute work. Last year the teachers from this county attended institute at Rocksprings.

As each county has only a small number of teachers, it was decided that the program could be more varied and more interest shown, if the two counties met together. Besides the advantage of a larger number, a great deal of good will naturally result from the association of those who direct the school activities of adjoining counties, where conditions are very much the same.

Programs were printed last week and distributed by County Judge Baker, to the teachers of the two counties.

HOW TO KNOW WHEN YOU ARE EDUCATED.

The Progressive Farmer:

When is one educated in the best sense of the word? A professor in the University of Chicago is said to have told his pupils that he would consider them truly educated when they could answer affirmatively these fourteen questions:

1. Has your education given sympathy with all good causes and made you espouse them?

2. Has it made you public-spirited?

3. Has it made you a brother to the weak?

4. Have you learned how to make friends and keep them?

5. Do you know what it is to be a friend yourself?

6. Can you look an honest man or a pure woman straight in the eye?

7. Do you see anything to love in a little child?

8. Will a lonely dog follow you in the street?

9. Can you be high-minded and happy in the meaner drudgeries of life?

10. Do you think washing dishes and hoeing corn just as compatible with high thinking as piano playing or golf?

11. Are you good for anything to yourself? Can you be happy alone?

12. Can you look out on the world and see anything except dollars and cents?

13. Can you look into the mud puddle by the wayside and see anything in the mud puddle but mud?

14. Can you look into the sky at night and see beyond the stars? Can your soul claim relationship with the Creator?

SAN SABA GRAND JURY HITS AT THE MASKS.

San Saba, Nov. 27.—Denouncing the Ku Klux Klan or any organization that "conceals the identity of its members behind [illegible] ber' grand jury here went on record as condemning such organizations or any demonstrations by them.

"It has been brought to our attention that in some instances masked men, supposedly of the klan, have entered churches during services and have made donations of money to the pastors of these churches.

"As grand jurors of this county, and citizens of this State, we unanimously go on record against such actions.

"American citizens should stand out in the open in proud assurance that it never becomes necessary for the 100 per cent American to refuse to reveal his identity when he seeks to uphold the laws and institutions of his country.

"We call upon the local authorities to arrest all masked intruders of this kind in order that the offenders may be brought to trial."

REGENTS WILL GET TEXAS TECH IDEAS.

Waco, Dec. 1.—Chairman A. G. Carter of the Board of Regents of the Texas Technological College, Fort Worth; Secretary C. W. Meadows of Waco, with J. W. Carpenter of Dallas and Clifford B. Jones of Spur, two of the other members of the board, will leave about January 10, for a visit to Atlanta, Boston, New Haven and Cambridge to inspect technological schools in those cities.

The trip is being made to secure ideas that will be utilized in connection with the erection of buildings for the Texas college, to be located in Lubbock. They will be accompanied by Mr. Watkins of Houston, associate architect in connection with the preparing of plans for the school at Lubbock.

President P. W. Horn of the State Tech school will have a conference in Lubbock next Wednesday with Regent C. B. Jones of Spur, J. E. Nunn of Amarillo and R. E. Underwood of Plainview, together with a representative of the architectural firm of Sanguinet, Staats & Hedrick, Fort Worth, who will draft plans for the buildings.

COLLINS ANNOUNCES CAMPAIGN PLATFORM.

Former State Senator Vinson A. Collins, who some weeks ago announced that he would be a candidate for the office of Governor of Texas in next year's elections, Saturday afternoon made public his formal platform embodying declaration of the principles upon which he will make his campaign.

Senator Collins has been a resident of Dallas for the last few years, coming here from Beaumont. He represented the Beaumont district in the Senate for several years, and has a wide personal and political acquaintance in the State. He is senior member of the law firm of Collins & Houston.

CONFLAGRATION RESULTS IN LOSS OF $4,000,000.

Tampico, Nov. 30.—A third of the business section of the city was in ruins this afternoon when fire broke out early in the day was brought under control.

The flames were halted only after the fire had spread to the great oil storage tanks near the outskirts of Tampico.

Hundreds of homeless, without food or shelter, were being rushed to neighboring cities this afternoon.

While the city was without electric light and power, due to a strike, the government warned strikers to adjust their differences or suffer prosecution.

The property damage will run close to $4,000,000, it was said.

BURGLARS LOOT STORES IN TWO NEARBY TOWNS.

San Antonio Express:

Two burglaries, believed by San Antonio officers to have been done by a band of professionals, were reported by Devine and Fredericksburg officers Sunday. A description of the suspected band and a car in which they were driving tallies, and it is believed that the stolen goods will be brought to San Antonio for disposal. Though no trace of the men had been found up to a late hour Sunday night, their arrest is expected within the next few days. In both instances clothing stores were entered.

Five hundred dollars worth of men's, women's and children's ready to wear clothing was stolen from the Schmidt Brothers store at Fredericksburg when thieves entered the building by forcing the bars and breaking the glass of a rear window Saturday, according to a report sent San Antonio officers by the sheriff's department of Gillespie County.

A similar burglary took place in Devine Friday night when the store of H. Kaplan was entered through a transom to a rear door and a quantity of clothing stolen, according to a report sent San Antonio officers by the Devine authorities. No estimate of the amount stolen had been made, according to the report.

E. B. MAYFIELD TAKES OATH AS SENATOR.

Washington, Dec. 3—Oath of office as a member of the United State Senate from Texas was administered to Earle B. Mayfield of Austin, together with other newly elected Senators, in the Senate chamber shortly after the noon hour Monday, as an incident to the organization of the Senate of the Sixty-Eighth Congress.

Announcement of Mr. Mayfield's name by the reading clerk of the Senate created no more than passing interest, and he quickly left his seat to join Senator Morris Sheppard, the senior Senator, and be escorted to the presiding officer. The oath was administered to four Senators at a time.

Mr. Mayfield, who now has all the rights and standing as a Senator, resumed his seat at the extreme right of the first row of desks on the Democratic side and that occupied by former Attorney General of the United States Garland while a member from Arkansas.

Immediately to Mr. Mayfield's right sits former Governor Ralston of Indiana, who in stature and physiogomy reminded the older observers of the late Grover Cleveland.

The next seat beyond is occupied by Senator Walsh of Massachusetts.

One of the first to greet the new Texas Senator after he had resumed his seat was Senator Heflin of Alabama.

ATHLETICS.

Two games of basketball were played here last Saturday. One between Junction and Roosevelt resulting in a score of 23 to 13 in favor of Junction. The Junction second team and the Menard second team game was also a victory for Juntion, by a score of 20 to 6.

The football boys went to Sonora and defeated the Sonora boys 3 to 0. Ernest Randle kicked the Field goal for Junction.

Anticipation! Ah, that is one-half the joy of Christmas! With it always is that certainty that it is to be GOOD, because old Santa Claus typifies the generous heart.

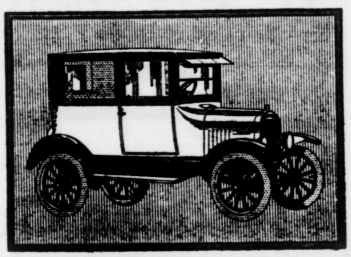

So Come one---Come all---to Toyland, where Santa has grouped joys and thills for the Kiddie hearts. Every day now he sits in his great "Welcome" Chair as Host to all who will honor Him with a visit.

Amongst the talking, crying, sleeping and walking dolls; or midst the autos, trains, skates, sleds, horns, drums, you'll find the one thing you want most---and Old Santa will see and know.

IF you haven't yet visited Phillip Joseph's Toy Land, make ready NOW!

No annonymous communications will be published in this paper under any conditions. Persons sending in matter intended for publication must sign it, but name will not be used unless requested.

Any erroneous reflection on the character or standing of any person, will be gladly corrected if brought to the attention of the management.

The management will greatly appreciate the co-operation of the public in helping to fill this paper with live local news. If you know a news item, phone 57, or drop your communication in the mail.

In another section of this issue will be found an excellent article on credit. While this article deals primarily with the extending of credit by wholesale houses, the same principles apply to any locality and to every kind of business in which credit is involved.

This country has undergone a great transformation during the past two or three years, in its methods of doing business. The long drawn out "pay when you want to" system of selling merchandise or lending money is a memory of other days. A good many relics are left, in the form of old obligations that were contracted during the inflated price days, that are still outstanding, and probably will be ten years from now.

Many men, who are apparently honest, allow their obligations to run from month to month, making one excuse after another, without making any real effort to pay. They are doing themselves a much greater injury than they are the creditors. They are destroying their own self-respect and the respect and confidence of those who are and will be in position to assist them in the future.

There are some few cases where a man having obligations to meet, cannot pay even a small amount, but the vast majority can manage to pay in small sums until the obligation is liquidated. Too many follow the line of least resistance. It is to them easier and better to make excuses and hope for a more convenient season.

No matter how many honorable fraternal organizations a man belongs to, or how loud he shouts "amen!" from the amen corner when the preacher makes a strong point on the straight and narrow path that all should travel, or how strong an impression he attempts to make for the benefit of those who are not acquainted with him, he is not honest unless he meets his obligations promptly, or can show that there is good reason why he cannot do so.

The end of another year is drawing near. Now is a very good time to take stock and see how many people have accomrodated you in the past and whether your actions have shown that this trust was well placed.

From the current issue of the Texas Highway Bulletin, we that an issue of $100,000 Sutton County specialroad bonds, bearing 5½ per cent and maturing in 30 years, with an option of 20 years, was approved by the Attorney General's Department and registered in the Comptroller's Department.

Kleberg County took control of the putting up signs on their improved highways when they were built and permit no advertising on them. The county commissioners say that the place to advertise is in the newspapers and not along the roads.

TWO DAYS HOLIDAY CELEBRATION AT SONORA

At mass meeting of the citizens of Sonora, last Tuesday night, in the rear of the First National Bank building, it was decided to have some kind of a celebration in Sonora for the Christmas holidays.

After discussing the situation roughly, it was decided to have a two days event, with three dances. The dances will be on the nights of December 24, 25 and 26th. The celebrations will be on the days of the 25th and 26th.

The celebration will possibly consist of horse racing and rodeo the opening day, with horse racing and football on the final day.

Roy Aldwell was selected permanent chairman and Vernon Hamilton permanent secretary.

Mr and Mrs. Joe P. Fritz, and Mrs. Josie Summers are at Bronte, where they were called last Friday on account of the serious illness of a sister of Mesdames Fritz and Summers. They are expected home today.

WHERE DOES ALL THE TURKEY MONEY GO?

Cuero, Texas, Dec. 3.—A few days before Thanksgiving Day, a daily newspaper announced on the same day, that the whole sale price of turkys in Cuero was 14 cents per pound, and the retail price in Chicago was 70 cents per pound. A natural querry would be, how is the "spread" divided? It is the habit of some people to "lay it on the railroads" when the 'spread' between wholesale and retail price is large. Here are the actual figures of the highest priced transportation, shipment by express on passenger trains, to the longest distance markets, and it is easy to see what the express and the railroad and and the ice men get out of shipping dressed turkeys.

The express rate on a carload of 40,000 pounds of turkeys from Cuero to Chicago is $1,-164.00, and the iceing charge is $62.37, a total for 40,000 pounds of $1,226.37, slightly more than three cents per pound, or less than five per cent of the retail price.

The express rate from Cuero to Boston, Mass., and New York, N. Y., is for 40,000 pounds, $1,-712.00 and the iceing charge is $69.30, making a total of $1,-781.30, or four and four-tenths cents per pounds. The like rate from Cuero to St. Louis is $1,-020.00, and the iceing charge is $55.44, a total of $1,075.44, or two and six-tenths cents per pound. Of course, if the turkeys were shipped by freight, as most dressed meats are, the rate would be approximately one-half of express rates.—Milton Everett.

BOXES SOLD WELL AT EVERGREEN SATURDAY.

As announced some time ago, the patrons of the Evergreen School had made extensive preparations for a Box Supper and program last Wednesday night, but on account of the weather, postponed the occasion until the following Saturday night.

The bad roads and more rain prevented a very large gathering, but those who were there were enthusiastic, and after Judge Stevenson had completed the sale of boxes, it was found that the boxes averaged $4.00 each.

COUPLE MARRIED 70 YEARS STILL HAPPY.

Dallas, Dec. 2—Seventy years married and still enjoying life together in their home at Canton, Van Zant County, is in brief, the story of Mr. and Mrs. Lycergus Walters, who at present are in Dallas visiting at the home of their daughter, Mrs. I. M. Lane.

To live three score and ten years and still retain the zest of living is in itself rare enough. To live three score and ten years as man and wife is rarer. But their long life together seems only to have sweetened the years for mr. and Mrs. Walters.

The above article appeared in Monday's San Antonio Express. Mr. and Mrs. Walters are the grand-parents of Mrs. R. H. P. Wright. They still keep house in their home at Canton. Mrs. Wright's father, who is a son of this aged couple, is also still living, and is past seventy years of age. The children of Howell Wright and the sons of Mrs. French Murphy of Nacogdoches, and Mrs. Coke R. Stevenson of Junction, are great, great grand children.

STATE TO MARK HIGHWAYS WITH ROAD SIGNS.

Bellinger Banner-Ledger.

In addition to the State taking over the maintenance of all State highways on January 1, 1924, as announced recently, the State Highway Department will also take over the marking of all State highways on the same date, and carried on under the direction of sixteen district engineers all State highways will be marked.

The road signs will be very simple in design and merely intended to inform the traveler the distance between towns, crossroads and other important places.

In addition to these signs, road markers will also be erected, which will consist of a black circle, six to eight inches in diameter, containing a single white star and in the center of the star will be the number of the highway. These circles will be painted on telegraph poles, bridge heads, culvert headwalls and occasionally on signboards where there is nothing else avail able to show such markings. For example: Anyone leaving Texarkana and following State Highway No. 1, will see these markers erected, or markers on posts, headwalls, etc., at relatively close intervals all the way to El Paso.

In addition there will be other signs for "Bad Curves," "Railroad Crossings," "Detours," etc.

The State Highway Department will finance the marking of all highways and have exclusive control of same, which will eliminate the necessity of the public contributing funds for the purpose of marking highways.

This is indeed valuable information and persons reading same should make it a point to tell others.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved. Dangerous and Sickening Qualities Removed. Perfected Tablet Now Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water, that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price 35 cents for the large family package; ten cents for the small; trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Adv. 10-tfc

KERR COUNTY HATCHERY NEARING COMPLETION.

Kerrville Mountain Sun:

The Kerr County Bass Hatchery is nearing completion, regardless of the handicap of continued bad weather, which has not only delayed construction work but has added to the cost.

The lower underground flume across Fessenden Branch has been completed and three-fourths of the 1,500 feet of new ditch from it to the ponds finished. The two ponds are practically constructed and two days will finish them when the weather clears.

Of the $2,500 fund asked for, only $2,02- has been paid in. So far, $1,540.86 has been expended, which means that the full $2,500 will be needed and probably $500 in addition to complete the work properly.

From reliable sources it is learned that Kerr County is doing twice as much work as is being done at the Medina Lake Hatchery, and their contract was let for $,300.

As chairman of the Hatchery Committee, the editor of The Sun has put in practically full time for the past two months gratis, and feels that the request for additional funds with which to complete this worthy proposition should meet with a ready response.

As stated by The Sun at the start, money put into the Bass Hatchery is not a donation, but an investment which will bring in handsome profits to the entire citizenship of the Hill Country.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a trembly feeling is often a sign that the stomach is out of order. For this I took *Thedford's Black-Draught*, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

If it isn't Thedford's it isn't BLACK-DRAUGHT Liver Medicine.

A MAN'S CREDIT IS HIS BEST ASSET.

Kansas City Packer:

"He is honest, but slow pay and under pressure uses the plea that he is hard up." The Packer recently inquired as to the standing of a fruit and produce merchant and one of their replies read as quoted above. In another case where the shipper of fruits and vegetables, located in one of the Southern States was inquired about, one answer read: "He is chronic in taking plenty of time in his payments. He aims to be honest but his policy is to defer the day of paying and all kinds of excuses are indulged in for not being prompt, like slow collections, up set conditions due to war, hail, storm, floods, bad markets, etc. indeed his list of excuses is of large proportions. In the course of time he pays some of them, but on small accounts it costs almost as much in postage and letter writing, dunning him over a period of several months or a year or two, as the original accounts."

From a practical business standpoint the man who is always slow is an uncertain proposition, and even though honest in intention, he is not much safer as a credit risk than the deadbeat. His methods are so unbusiness-like as to make him unsafe to recommend him as a good risk.

On rare occasions good people who are almost always prompt have to ask for small favors in the way of extension of time in payments, but they never do this except as a last resort, knowing as they do that business in the main is a matter of credit and confidence and that in order to maintain a first class standing everywhere it is best to toe the mark and live up to all promises promptly.

Excuse for non-payment, no matter how legitimate, is bad business at best, for in most cases they are not received at the other end at full value, but are usually regarded as subterfuges.

We know a man of average ability who started out thirty years ago as a boy at $10 per week. His policy was never to make a promise to pay that he did not keep right on the dot. If there was any likelyhood of his not paying in accordance with his promise he simply did not create the obligation. Today he could borrow $100,000 at the bank without security, and by giving security could get accommodations up to half a million. He is rich and made it largely out of the use of borrowed capital with which he was accommodated and with which he handled not brilliantly but safely and in "hoss" sense style.

We know another man who also started life about thirty years ago, a brilliant young fellow with a good salary as a start and whose future seemed an assured success. But he was loos in his methods, he contracted debts he could not pay, he used every known variety of excuse for not paying, he was soon regarded as doubtfuland later a dangerous risk. In the course of time he lost his position and then tried to embark in business for himself, but his reputation as a payer could not be hid under a bushel; he has drifted here and there; today those who know him would be no more inclined to credit, trust or have confidence in his word than they would be disposed to drop a match in a cargo of loose powder.

The fatal first step taken when a man uses his first excuse for non-payment, when, with a little sacrifice, he could send a check instead. The first excuse works, it puts off the day and it does not take long in this way of payment, it leads to other creditors to destroy all prospects of further credit or confidence.

The business world looks upon with distrust and will not recommend any man who, to any extent, uses excuses at the proper time for non-payment of honest debts instead of sending checks. Furthermore, those who are chronically late paying hurt themselves far more than they do others. Last, but not least, they can not be tardy in such matters and keep it a secret.

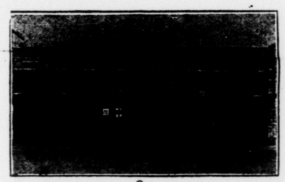

THE THREE DUDES.

Three dudes were walking along the street one morning and met an aged, decrepit minister, with long white hair and beard. Desiring to poke fun at the old man, the first called out: "Hello, Father Abraham," the second, Good morning, Father Isaac," and the third greeted him as "Father Jacob." The minister seeing the situation and likewise using scripture, quietly replied: "I am neither Abraham, Isaac nor Jacob, but Saul, the the son of Kish, who went forth to hunt father's asses, and lo, I have found them."—Exchange.

TAYLOR-BAKER.

At the home of Elder John S. Durst, last Sunday night, Tuff Taylor and Miss Lila Mae Baker were united in marriage by Elder Durst.

The groom is a son of Henry Taylor and wife of Junction, and was reared in this county. The bride is the daughter of Mr. and Mrs. Thomas Baker. She has been for some time deputy County Clerk, and is a very popular and accomplished young woman.

Congratulations are extended.

America's Marvels

NATURAL AND OTHERWISE

By T. T. Maxey

"THE LITTLE CHURCH AROUND THE CORNER"

So fittingly descriptive and yet at the same time so unusually appropriate is the legend "The Little Church Around the Corner" that its long-continued usage in referring to this quaint and honored landmark in "Little Old New York" has all but blotted the real name of this house of worship from the memory of the hordes of pilgrim visitors who, annually or more or less often, journey thither to "pay their respects."

"The Little Church Around the Corner," squatty, broad-spread and set well back from the narrow and busy thoroughfare, is none other than the Church of the Transfiguration. Its exact location is No. 5 East 29th street, just around the corner from Fifth avenue.

The story of how this unusual name came into being, and which arose in a perfectly natural manner, is indeed interesting. It also serves to illustrate how, through a mere turn of fate, fame sometimes unexpectedly attaches itself to an object—in this case a religious edifice.

A noted actor had died. He had no church connection. As he was widely known, his family and friends felt that a public funeral was a necessity. The curator of a neighboring house of worship was requested to conduct the funeral service. He promptly declined, adding that "perhaps the rector of the little church around the corner might be willing to serve." History records the fact that the funeral was held at "The Little Church Around the Corner."

Following in the wake of this incident, The Church of the Transfiguration was adopted as the Protestant house of worship by the theatrical profession. Since that time, this little church has been the scene of countless christenings, weddings and funerals. The church and its present and past pastors have so endeared themselves to all who have come into direct contact with them that, recently, when the present rector celebrated his silver jubilee, letters, telegrams and gifts from all sections of the country, especially from actors and newspaper men, flowed in to express the "Many happy returns of the day" spirit in the hearts of the senders.

THAT HOME You've Been Planning to Own:

No matter how strong a desire you may have to own your home, you will fall short of this commendable ambition unless you start a systematic method of saving.

A certain part of your earnings, set apart each month, and placed in a good bank, like ours, where you will be paid an attractive interest rate, while your funds are accumulating, will grow faster than you think, and by following this systematic policy of saving, you will soon be in a position to make a substantial payment on a home of your own, and the habit of saving that you have started will enable you to continue to set apart some of your earnings each month to complete the payments.

There is no better time than at the approach of the Holiday Season to plan this savings account. Don't put it off. Start a small account with us now and begin your foundation for future comforts and the fulfillment of your desires
