VOL. 1. NO. 122.

PAMPA, GRAY COUNTY, TEXAS, SUNDAY MORNING, JULY 31, 1927.

PRICE FIVE CENTS.

KEY RATE IS SLASHED 24 CENTS

Panhandle Field Oil Production Is Under Demands

SLUMP AGAIN PRONOUNCED IN GENERAL AREA

108,846 Barrels Taken Out; 112,150 Are Needed

ROXANA WELL MAKES 1,000 BBLs.

Thirty-Six Gray Tests Now Drilling Below 2,000 Feet

For the first time in its history, the Panhandle oil field this week failed to produce as much crude as was demanded by refinery and pipeline runs, and the storage was brought into use.

The field produced 108,846 barrels, while the demand was 112,150 barrels. A decline of 4,947 barrels marked the gradual slump over this section. The production by counties:

Gray county, 144 wells, 9,448 barrels.

Carson county, 155 wells, 10,056 barrels.

Hutchinson county, 1005 wells, 86,801 barrels.

Moore county, two wells, 100 barrels.

Potter county, one well, 35 barrels.

Wheeler county, 35 wells, 2,386 barrels.

There are 1,342 producing wells in the Panhandle. One hundred and thirty-four wells are drilling below 2,000 feet. Of these operations, 36 are in Gray county and 53 are in Hutchinson county.

The Gulf-Saunders area southeast of Pampa continues to be the most interesting development. A mile east of the discovery, the Atlantic Oil Producing company's No. 1-D Coombs-Worley is cleaning out after a heavy shot, and it is expected to be that firm's second producer at the extended location.

Late Friday the Roxana McConnell No. 1, located northeast of the southwest of section 174, block 3, responded to a 275-quart shot and made 1,000 barrels initial. This fine well is a diagonal offset to the Empire No. 1 Archer, which came in 90 days ago for 400 barrels and has been holding up remarkably.

Ford Tries Out New Car To Be Introduced Soon

DETROIT, July 30.—A motor and speed test of the new auto shortly to be introduced on the market by the Ford Motor company is being made here personally by Henry Ford, it was announced today.

Ford celebrated his 64th birthday quietly at his home.

Eastern Bankers Visit Pampa Oil Area and Investments Considered

Twenty-three prominent Eastern business men were in Pampa Saturday on the last portion of their extensive tour of the Panhandle oil field.

The party was made up of officers of Pettigrew and Myers, bankers, and their associates, and several officers of the Reiter-Foster Oil corporation.

The men arrived in Amarillo at 4:30 a. m. Saturday in their private car after having visited the Salt Creek field in Wyoming, the Teapot Dome area, the Oregon basin, and the Hiawatha dome. They toured the Berger, Roxana, and Wilcox pools and oil properties, and rejoined their train here. The financiers are from Chicago, New York and Boston and

DETROIT MAN GIVES 40 BOYS ALASKAN TRIP

GEORGE E. BUCHANAN

DETROIT, July 30. (AP)—Every July George E. Buchanan, Detroit coal dealer, consummates his annual adventure in boy-philanthropy. Buchanan now is Alaska-bound with 40 boys, from half a dozen states, who have earned in the past year the privilege of adventuring into the northland.

The cost of the trip from Detroit to Alaska and return is \$375 for each member of the party. Buchanan pays a third of the sum, the boys' parents pay another third, and the boy himself must have earned the remainder of the cost.

CROWN LOOKS GOOD TO CAROL

Says Acceptance of Renunciation Was Forced

(By The Associated Press.)

PARIS, July 30.—Former crown Prince Carol of Rumania informed the Associated Press today that he still maintains his hereditary rights to the Rumanian throne.

Carol through his authorized agent spoke of the acceptance of his renunciation of the throne, which was voted on by the Rumanian government January 4, 1926, as a forced action. He considers himself as authorized personally to intervene, although remaining a "loyal patriot."

Oil Well Burns Wild Near Houston

(By The Associated Press.)

HOUSTON, July 30.—Efforts are being made today to bring under control an oil well on the Rio Bravo lease near here, which caught fire late yesterday.

The flames, shooting 200 feet in the air, were seen for miles last night.

Kell Incorporates His Proposed Cheyenne To Pampa Railroad Line

(By The Associated Press.)

AUSTIN, July 30.—Incorporation of the Clinton, Oklahoma and Western Railroad company of Texas was approved Saturday by the attorney-general's department here.

The company plans to build a 94-mile extension from Hemphill county at the state line west to Pampa, Gray county, connecting with the Clinton, Oklahoma and Western of Oklahoma, which joins the Santa Fe at Cheyenne, Okla. The capital stock is \$100,000

and headquarters is at Wichita Falls. Frank Kell, O. B. Womack, and T. B. Boone are among the incorporators.

Approval of the Interstate Commerce Commission is awaited by the officials of the road before there can be further steps toward building the line.

The road at present is 70 miles long in Oklahoma. The proposed extension would traverse a rich oil and grain territory. No announcement has been made of the exact route of the proposed extension.

Grays Lose to Midland, 8 to 3, and Are Out of Panhandle Meet—Team Finishes With Fourth Money

Pampa and Northwest Texas Are Drenched By Rains Friday

(By The Associated Press.)

WICHITA FALLS, July 30.—Practically all of Northwest Texas was drenched Friday night, according to reports received here.

It was indicated that the rain extended through Oklahoma and all Northwest Texas, and as far south and west as Stamford.

Rainfall in Pampa late this week totaled 1.8 inches at the 9 o'clock reading Saturday. Of this amount .61 of an inch fell Friday.

Officers Finally Discover Cunning Liquor Cache

In a raid made by officers of the sheriff's department, assisted by local officers, fifteen and one-half gallons of Oklahoma red whiskey was found in a cunningly concealed wall cache in the lavatory of a South Pampa rooming house Friday afternoon, and as a result the owner of the rooming house is out on bond and will be tried in the 84th district court this week on charges of possession for sale of intoxicating liquor.

The officers searched the entire house without success, but were rewarded when it was noticed that the moulding in the lavatory had been cut above a closet. Investigation discovered a close fitting door, but no lock, and the officers had to pry it open to discover a hairpin lock. The lock on the inside of the cache could only be opened by a hat pin or piece of wire pushed through a hole in the wall.

Sheriff Graves says it was the most cunningly concealed cache he has ever discovered. Numerous previous raids had been unsuccessful, but at last the department was successful.

Another house in South Pampa was also raided by the officers Friday afternoon and a bottle of alcohol used to spike beer officers said, was discovered. The owner is out on bond to appear at the district court.

Farm Agent Is Killed by Shotgun

(By The Associated Press.)

HOUSTON, July 30.—William Stalling, 58 years old, an agricultural agent here, was shot and killed apparently by accident here today.

The body was found lying on a wood pile at his home. It is believed his foot slipped and the gun was discharged.

R. Q. Wells, police officer, was probably fatally injured answering the call. His car ran into an ice truck.

BY STAFF CORRESPONDENT

AMARILLO, July 30.—Not quite up to their standard, but fighting hard, the Pampa Grays were eliminated in the Panhandle baseball tournament here Saturday, 8 to 3. They finished in the fourth money, Claude having bowed to Texon, 11 to 4.

Fuller started for the Grays, but was hit hard. He was taken out in the first inning after Midland had scored two runs off two hits. Ketchum relieved him, and although suffering from ptomaine poisoning that put him in bed after the game, combated a high fever and the slugging Colts into the ninth. Allred, who has had tonsillitis, pitched to the last man up.

The Grays failed to get the breaks, while Midland scored on every opportunity. Adams of Midland got two homers, with one and two on, respectively, accounting for five runs. The Grays will return to Pampa Sunday after the finals here.

The score:

Pampa	AB	R	H	P	O	A	E
Powers, 2b	4	0	0	1	0	0	0
Mines, 3b	4	0	0	2	3	1	0

Body Is Found In Cistern; Murder Belief Is Held

(By The Associated Press.)

COMMERCE, July 30.—Police today are investigating the finding here yesterday of the body of J. A. Huckabay in a cistern.

The body was found by neighbors, who started a search after Huckabay had been missing from his home several days.

Police are working on the belief that the man was murdered, with robbery as the motive.

Four Firemen Die In Atlanta Blaze

(By The Associated Press.)

ATLANTA, July 30.—Four firemen were killed and two injured seriously by the collapse of a wall during a fire here today at a grain warehouse.

Tennessee

MISS CARRIE HUNTER

ELIZABETHTON, Tenn., July 30. (AP)—Bobbed hair and dignity are combined agreeably by Miss Carrie Hunter, first and only woman lawyer of Carter county and one of the few women practicing in Tennessee's federal courts.

Miss Hunter had no qualms about hanging out her shingle, for she's a direct descendant of John Carter, chairman of the Watauga Association, the first court which sat west of the Alleghenies a century and a half ago.

Graduating from the State Normal college in 1917, she worked in the Library of Congress. After finishing a course at Washington College of Law for Women, she was admitted to the state and federal courts.

TAX MEASURE UP TOMORROW

State Will Vote on Four Amendments Monday

Despite the vital importance of at least one of the proposals, the special amendment election to be held over Texas tomorrow is expected to draw a light vote.

In Pampa and Precinct No. 2 the balloting will be in the Chamber of Commerce rooms. D. W. Osborne was named presiding judge, but he has been called for grand jury service and early voters will have to choose a proxy Monday morning. According to County Attorney John Studer, the electorate may name the judge and start the election when the official named is unable to serve.

Other voting places in Gray county:

Precinct No. 1: Lefors courthouse; M. B. Davis, judge.

Precinct No. 3: Steed, at Grandview schoolhouse; N. A. Steed, judge.

Precinct No. 4: Alanreed, at S. L. Ball building; S. B. Loftin, judge.

Precinct No. 5: McLean, at office of M. D. Bentley; A. A. Callahan, judge.

Precinct No. 6: Laketon school house; W. S. Paris, judge.

Precinct No. 7: Farrington school house.

Precinct No. 8: Hopkins school house; W. E. Ginn.

Returns will be gathered by the Associated Press, and the Pampa Daily News, a member paper, will canvass Gray county. All judges are asked to telephone the results as soon as possible after the polls close. Call 100, Pampa, collect.

The tax amendment is expected to be scratched by all Gray county voters who are familiar with this measure and who realize its dangers to this section. Further details of the election are carried in today's leading editorial.

BIG CROWD IN TOWN

Pampa streets were crowded with cars and people last night, and officers had a big job directing traffic while the parading "Forty and Eight" boys meandered about.

BIG SAVING IS ASSURED THRU IMPROVEMENTS

Fire Insurance Body Recognizes Bond Issue

RESTRICTIONS NOT YET ADEQUATE

But City Betterment Brings Benefit To Citizens

(By The Associated Press.)

AUSTIN, July 30.—The Pampa fire insurance rate has been reduced from 58 to 34 cents, due to improvements in the waterworks, fire department, and street paving there, the state fire insurance commission announced today.

A saving of from \$5,000 to \$10,000 per year will be enjoyed by Pampa people as the result of this substantial reduction in the key rate, it was estimated by insurance men here today. The exact amount is hard to determine, for although the key rate is constant, the exposure charges to be added to the premium cost are varied. The lowering of the key rate will also appreciably lower the exposure charges, it was stated.

An inspector from the state department was here three weeks ago and took cognizance of the contemplated improvements, which the passage of the city bond issue has made possible. The reduction likely will remain in effect if the city ordinances are observed. The ordinance, No. 36, provides that no frame structures may be built within the fire limits, and an amendment provides that when existing frame buildings are moved from their foundations they must be removed from the fire limits. Building permits must be obtained to erect any kind of structure.

An analysis of the 34-cent rate shows the following charges on the \$100 valuation:

1. Waterworks, 4 cents; power other than steam or water.
2. Elevated tank, 2 cents; deficient 67 per cent in capacity, but with pumps of adequate size.
3. Water mains, 2 cents; supply main not in duplicate, and 10 per cent of mains deficient in size in residence sections.
4. Fire hydrants, 2 cents; deficient 22 per cent in number in residential sections.
5. Fire department, 6 cents; one pumper inadequate in capacity and no hook and ladder truck.
6. Fire alarm system, 4 cents; none but electric siren in use.
7. Building law, 6 cents; inadequate, but fire limits established and general character of construction therein properly restricted.
8. Streets, 2 cents; principal streets in residential sections not paved or properly macadamized.
9. Conflagration hazard, 7 cents; overhead wires in mercantile district, frame buildings in mercantile districts and 75 per cent of roofs wood shingle. Total charges, 37 cents. There must be deducted credits of 3 cents allowed for buying the new ruck, having a chemical truck, teaching fire prevention in local schools, and maintaining an arson reward. This leaves a net key rate of 34 cents.

These costs may be compared with the 58-cent total heretofore obtaining. The old charges were based, for example, upon a single pumping unit, deficient number of fire hydrants in residential sections, no paid firemen or organization, insufficient fire hose, worn-out pumper truck, and lack of paving in mercantile district.

Mrs. L. E. Press and son, Louis, returned from Wichita Friday. They had been gone several days on a business trip.

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: David and Jonathan.

Scripture Lesson: I Sam. 18:1-4; 19:1-7.

1. Sam. 18:1. And it came to pass, when he had made an end of speaking unto Saul, that the soul of Jonathan was knit with the soul of David, and Jonathan loved him as his own soul.

2. And Saul took him that day, and would let him go no more home to his father's house.

3. Then Jonathan and David made a covenant, because he loved him as his own soul.

4. And Jonathan stripped himself of the robe that was upon him, and gave it to David, and his apparel, even to his sword, and to his bow, and to his girdle.

1 Sam. 19:1. And Saul spake to Jonathan his son, and to all his servants that they should slay David. But Jonathan, Saul's son, delighted much in David.

2. And Jonathan told David, saying, Saul my father seeketh to slay thee: now therefore, I pray thee, take heed to thyself in the morning, and abide in a secret place and hide thyself.

3. And I will go out and stand beside my father in the field where thou art, and I will commune with my father of thee; and if I see aught, I will tell thee. Let not the king sin against his servant, against David, because he hath not sinned against thee, and because his works have been to thee-ward very good.

5. For he put his life in his hand, and smote the Philistine, and Jehovah wrought a great victory for all Israel; thou sawest it, and didst rejoice; wherefore then wilt thou sin against innocent blood, to slay David without a cause.

5. And Saul hearkened unto the voice of Jonathan; and Saul sware, As Jehovah liveth, he shall not be put to death.

7. And Jonathan called David, and Jonathan showed him all those things. And Jonathan brought David to Saul, and he was in his presence, as before-time.

Time: Professor Beecher dates the plot against David's life, B. C. 1071; David an outlaw, B. C. 1068; David spares Saul's life in the cave, B. C. 1066; the second sparing of Saul's life, B. C. 1055; the death of Saul and Jonathan, B. C. 1053.

Place: The attempts of Saul to slay David took place at Gibeon, in Benjamin, which Saul seems to have made his capital. Golden Text: There is a friend that sticketh closer than a brother. —Prov. 18:24.

Introduction

After David's return from pursuing the Philistines, Saul's general, Abner, had brought the lad before the king. Saul had asked David who his father was, and David had answered; but the implication here is that the conversation had extended much beyond this query and reply. "The soul of Jonathan was knit with the soul of David." It was friendship "at first sight." There must have been something exceedingly winsome in David's face and manner; he made friends easily all his life, and his friends were ardent and devoted. "Knit with" implies the closest and most intimate affection. "Jonathan loved him as his own soul." The statement is repeated in I Sam. 20:17; and in David's lament for Jonathan, 2 Sam. 1:26, he declares that Jonathan's love "was wonderful, passing the love of women."

Jonathan

"Of all the stories in the Old Testament, there is none which appeals so quickly to one's sympathies as that of Jonathan. There is no other which is so perfectly beautiful throughout, and so infinitely pathetic at the close. Take him in all, Jonathan is the noblest figure of the Old Testament, the flower and crown of Hebrew history, the knight without reproach."

Jonathan's Unselfishness v 4

The shepherd lad was roughly clad, in garments not fit for a court. Jonathan not only honored him by giving him his clothes, and clothed him in proper court habiliments, but by the act he ratified the covenant into which they had just entered (v. 3). The "robe" was his long outer garment; the "apparel" may have been a special garment under it, to be worn with arms, the sword was a rare article in those days, and the bow would seem from 2 Sam. 1:22 to have been Jonathan's special weapon, as the sword was Saul's. True friends have all things in common, and each enjoys his own possessions far more when his friend shared them with him. Whoever would have friends must be friendly. Friendship rests on sympathy and helpfulness, on unselfishness such as Jonathan's.

Jonathan Warns David v 2

"And Jonathan told David, saying, Saul my father seeketh to slay thee." Jonathan was loyal to his father and held to him to the last, dying on the same field of battle. But Jonathan knew that the highest loyalty to his father required him to do what he could to prevent his yielding to the worse part of his nature and obeying its evil dictates. This must have been spoken in the evening, as soon as Jonathan learned of his father's base intention. David could keep secure at night, but his duties next day would require him to be about the court, exposed to assassination. "Abide in a secret place, and hide thyself." This was a secret place well known to the two, doubtless one where David and Jonathan had been in the habit of meeting.

Jonathan Pleads for David vs 4,5. Jonathan, like a skilled advocate, reminded his father of the most conspicuous example of David's loyalty, his combat with Goliath, which might so easily have resulted fatally for the bold young hero. "And Jehovah wrought a great victory for all Israel." A less skillful pleader would have said here that David had won a great victory for all Israel; but he knew that his father was intensely jealous of David for that wonderful exploit, and so pictured his friend as merely the instrument through which God had worked to gain the triumph. This was precisely true, for David without God's help could never have slain the giant. "Wherefore then wilt thou sin against innocent blood, to slay David without a cause? Jonathan presses home the fearful charge that Saul was planning murder, since David had done nothing to deserve death as a penalty.

Jonathan a True Friend

"Jonathan was the eldest son of the king, the heir to the throne, the natural successor of Saul. David, by his military prowess, had come to be esteemed by the people as a worthy successor for the throne. He had been anointed by Samuel, the prophet, as a worthy candidate for that place of distinction. Yet Jonathan, who had the least to gain and the most to lose by protecting his life, makes his affection a thing resplendent by its sheer unselfishness. He must have known that David would increase while he must decrease, yet the sky of affection was unclouded by a touch of jealousy."

Last Meeting of David and Jonathan I Sam. 23:15-18

David was a hunted fugitive, never knowing when Saul's soldiers would be upon him. He lived in caves or in the woods, slept out in the open air, obtained his food precariously, was often cold and wet, hungry and weary. It was a sad and lonely life, though a band of attached and courageous friends held to him stoutly and shared his exile. To him, while he was hiding in the savage region between the mountains of Judah and the Dead Sea, one of the wildest countries on earth, Jonathan, managed to make his way and "strengthened his hand in God"—a beautiful phrase. He bade David to be of good cheer, and prophesied that after all his wanderings he should yet be king of Israel, with Jonathan himself the second in rank. It was the final meeting of the illustrious friends.

David Mourns Jonathan's Death II Sam. 1:17-27.

This tragic and yet happy story has its final scene on the death of Saul and Jonathan. Once more Israel was attacked by those fierce foes, the Philistines, and the decisive battle was joined at Mt. Gilboa, north of Shechem. The Philistines were victorious, Saul committed suicide on the field, and Jonathan was slain, doubtless fighting heroically. David rent his clothes in token of deep grief, and fasted, and wept in his great sorrow. He expressed his woe in a lamentation which is one of the most beautiful poems he ever wrote, one of the world's greatest elegies. Almost every line of this ode has passed into the proverbial language of mankind. It is a worthy commemoration of one of the noblest friendships of history. "Jonathan's affection for David was wonderful in its

Atlantic's New Challengers

Where Nungesser and Gull failed, Captain Rignot and Lieutenant Dieudonne Coste (left to right above) hope to succeed. They're reported about ready to take off from Paris on a non-stop flight to New York. They will fly a Breguet one-motored biplane in which they already have set a record of 3415 miles of continuous flight—a record that it remained for Lindbergh to break with his epochal journey in the "Spirit of St. Louis."

first revealing, but the more it was put to the test the purer and holier it proved. Some friendships are emotional and soon burn out, leaving only cold ashes, but Jonathan's only increased in intensity as the days went on. So it should always be."

In marketing fruits and vegetables no one factor is more important than careful grading. If constantly adhered to it builds good will and creates confidence.

San Antonio Is Flying Center Of Whole Southwest

SAN ANTONIO, July 30.—San Antonio's claim to be the flying center of the western hemisphere is amply borne out by army air service statistics which show that almost half of all the air service flying last year was done at Brooks and Kelly fields here.

The statistics credit Kelly field with approximately 40,000 hours and Brooks with almost 34,000. The total for the whole service was 165,000. This does not include flying done at Duncan field and from the landing field at Ft. Sam Houston. It of course excludes all commercial flying.

Langley field, Va., is third in the list with approximately 17,500 hours and Chanute field at Rantoul, Ill., is fourth with 12,500 hours. McCook field at Dayton also claims to be the center of flying in this hemisphere, if not in the world, but the claim is not based on flying hours. McCook field is probably the greatest flying center in many respects, however, as it includes the engineering section of the air service. At this field a flyer can fly every type of plane made and use every engineering device designed for airplanes.

No greater waste occurs in logging than that caused by leaving high stumps. These usually contain the clearest and highest-priced material. The timber saved by cutting low stumps often largely pays for the logging operation.

TO the PUBLIC—

We have been doing business in Pampa over a year. We came here and established one of the best medium-sized laundries in the state, so that YOU might have up-to-date laundry service.

We have always given you good work. We employ only capable, law-abiding, sober workmen and use only safest chemicals and supplies in cleaning your laundry. Our service is prompt and courteous. Our prices are fair—both to you and to ourselves.

We own our building and support Pampa and Pampa institutions with taxes and are taking our share in the civic organization of Pampa.

We are worthy of your patronage, and respectfully request that you consider the above statements when sending your laundry out. You may get lower prices, but you will also get cheaper work. Our services are "best in the long run."

He who knocks his competitor's wares is a menace to his own industry.

Pampa Laundry

THE FIRST, BIGGEST AND BEST

Pirate Trio Of Heavy Hitters Still Lead National

PITCHING ALSO IS HIGH CLASS

Munson of Tulsa Is Unopposed Homer King

(By The Associated Press.)

CHICAGO, July 30.—The merry pirate trio of heavy hitters are still sailing along serenely at the top of the National league batting column, with a little wider gap between them and the rest of the field. Paul Waner and Joe Harris each made big gains this week while Clyde Barnhart added one point to his percentage. If help were needed, it is not far behind, for brother Lloyd Waner is just on the border of the first ten hitters of the league.

Riggs Stephenson, the fly chaser whom Manager McCarthy tried at third base early in the season, has recovered his batting eye out in the sun garden and has crashed into the select list.

The Reds winning streak is reflected in their batting figures which improved from .277 to .289, and fourth place which was held by the Cardinals. The Pirates, the only .300 team, held steady at their regular mark of .314.

Frankie Frisch is the closest to the Pittsburgh trio, with the same percentage as a week ago, .358, and three more stolen bases, making his total 31. His batting mark is now thirteen points better than Hornsby and he is fifteen hits ahead of Rogers, though Hornsby has scored five more runs.

Also Lead Pitching

Like the Yanks, the Pirates are easily the best in their circuit in both batting and pitching. Carmen Hill and Lee Meadows, the bespectacled twirlers, have won 15 and 14 games respectively, with only four defeats apiece. Charley Root of the Cubs has 16 victories but has gone down to defeat nine times.

Naturally the home run race in the National league is not as hot as the Babe Ruth-Lou Gehrig competition, but old Cy Williams, who could knock them over the fence before the days of the jack rabbit ball, is in the lead with 20 four-base blows.

Leading National league hitters: P. Waner, Pittsburgh, .388; Harris, Pittsburgh, .385; Barnhart, Pittsburgh, .371; Frisch, St. Louis, .358; Harper, New York, .354; Hornsby, New York, .345; Hafey, St. Louis, .343; Farrell, Boston, .340; Traynor, Pittsburgh, .346; Stephenson, Chicago, .331.

Simmons Still Ahead

The home run twins of the Yankees, Babe Ruth and his pupil, Lou Gehrig, have joined forces for an attack on the league leadership in batting, which now reposes on the brow of Al Simmons of the Athletics.

Gehrig held the honor post himself awhile, with Ruth way down the column, but the home run duel with Ruth cut down Gehrig's batting percentage until Simmons shot past him. Now Babe and Lou are third and second, five and ten points respectively behind Simmons.

The pace at the top grew too hot for Ty Cobb Simmons' tutor, and he is back down in 20th place, in averages compiled today, including Wednesday's games. Tris Speaker, though after breaking into the first ten a week ago, moved up to sixth place.

The team batting figures show that the Yankees are getting the best batting marks and the pitching ranking proves they are getting the best pitching. The Yanks have scored 103 homers, Rut hand Gehrig having 33 apiece of this number up to Thursday. They are more than one hundred runs ahead of the next team, Philadelphia and have more than twice as many homers as the Athletics.

Dutch Reuther and Waite Hoyt, their star left and right hand flingers, are at the top among American league pitchers. Reuther's score is eleven victories and two defeats and Hoyt's thirteen and four. Ted Lyons of the White Sox has sixteen victories but 8 defeats.

Fothergill Up Again

Bob Fothergill, Detroit's big boy slugger who in years past has hovered around the top of the batting list, has just managed to break in the first ten this week. George Sisler is just below him, in twelfth place with Jimmy Dykes of the A's in between. Sisler, whom Phil Ball has stated he might be willing to trade, only got one stolen base this week, but his total of nineteen is two better than Jimmy Tavenner, of Detroit, the runner-up.

George Burns two-bagger mark of 11 is well along with his record total, giving the Cleveland first sacker hopes of a mark perhaps better than

Diegel And Melhorn As Partners

his season record of 59 last year.

Leading American league hitters: Simmons, Philadelphia, .395; Gehrig, New York, .389; Ruth, New York, .374; Schang, St. Louis, .371; Neun, Detroit, .370; Speaker, Washington, .369; Heilmann, Detroit, .365; L. Miller, St. Louis, .364; Meusel, New York, .363; Fothergill, Detroit, .349.

Russell at Top

Reb Russell, former White Sox pitcher now chasing flies for the Indianapolis association team, has won his way to the top of the batting column in that circuit with a mark of .391 in averages compiled today, including Wednesday's games. Reb was on the of the star witnesses of the baseball scandal investigation last winter and the keenness of his eye was shown by the way he gave back stare for stare as he confronted his former teammates, Swede Risberg and Chick Gandil. For several weeks Russell has been hovering around the top and Ossie Orwoll's slump gave Reb his opportunity. In the last five games, Reb has hit safely ten times, including three doubles and a home run.

Grimes, Toledo's first sacker, went into a tie for second honors with Orwoll when the Brewers' pitching outfielder lost his .400 mark. Dewitt Lebourveau, who held the lead so long that it seemed his by right of tenure, appears to be on the way out of the select group, since his sale to the Athletics was announced. He is now ninth in the standing, fifty points or more below his mark of several weeks ago.

Emmer Is Slugger

Riconda, Milwaukee shortstop, has ousted one of the Toledo heavy hitters from the first ten, J. Kelly, but the champion of all heavy hitting short stops is Frank Emmer, the Millers' home run king, who has eighteen circuit drives notched on his war club. He scored three of them this week, while Earl Smith, his teammate runner up, failed to connect with one.

Orwoll's slump at bat has not affected his salary arm, though, for he turned in his weekly victory on the hill to retain first place among the regular Association flingers, with a mark of nine victories and two defeats. Zinn, Kansas City's star slapper, has 14 wins to his credit, but has been set down six times.

Leading hitters of the association are: Russell, Indianapolis, .391; Grimes, Toledo, .387; Orwoll, Milwaukee, .387; Kirkham, Columbus, .383; Duncan, Minneapolis, .367; Funk, St. Paul, .365; Tucker, Minneapolis, .365; Veach, Toledo, .362; Lebourveau, Toledo, .351; Riconda, Milwaukee, .354.

One week at the top of the Western league hitters was enough for Cunningham, the Des Moines outfielder, who slid to fifth place while the procession moved past him. Langford, his teammate in the outer garden, stepped into the van with a healthy gain in percentage, in figures compiled today including Wednesday's games.

Comorosky of Wichita and Bennett of Tulsa kept right in step, moving to second and third places. Sturdy, the Ollers' first baseman, jumped up ten places in the line, from

BY O. B. KELLER

To most golfers a quartet of players is a foursome, which is technically out of line unless the quartet are playing as partners and the two partners constituting each side are playing alternate strokes with the same ball.

This is the true Scottish foursome. It is not much played in this country save as a novelty—usually a mixed affair, somewhat terrible, with both the man and the woman driving from each tee and selecting which drive they will continue to play. Foursome play is a regular part of the international and Ryder Cup matches, however, and usually develops some interesting anecdotes.

In the recent match at Worcester between the teams of American and British professionals, some inspired genius, probably Walter Hagen, who was the American captain, bracketed Leo Diegel and Wild Bill Melhorn as partners; a whimsical notion, since both are of a volatile and excitable disposition and they react on one another about like the two parts of a Siedlitz powder. This was the only match the Americans lost of the four played in this half of the contest, but it wasn't from lack of earnest endeavor on the part of Leo and Wild Bill. In fact, they tried rather too hard.

While the affair ended in something of a rout for our pair, it started off close enough and was still about level when it reached the middle of the second nine, where a dog-leg drive-and-pitch hole presented itself—the thirteenth or fourteenth, I think. Leo and Melhorn by this time were rather getting on each other's nerves. One of them would slap a good approach up on a green and the other would miss the putt, or else leave the other a five-footer coming back, which he would miss. And they were con-

stantly and were rather free with advice, at times of an abrupt nature.

Coming to the hole in question, it was Melhorn's turn to drive. "Now, Leo," said Bill, "I know you can't pitch to this green from anywhere except well out to the left, so I'm going to place this drive right out at the left-hand edge of the fairway and open the green up." "Fine!" said Leo, hopefully. "Place it!"

As sometimes happens with the best of golfers when trying to "steer" the ball, Wild Bill then pulled a powerful wallop much farther off line to the left than he had intended to go to the right. "Deep in the spinach," moaned Leo. "For heaven's sake, Bill, don't place any more of 'em for me! Just shut your eyes and let nature take its course."

From that point on, the American pair disintegrated rapidly. A story is told of Harry Vardon and James Braid that illustrates how partners in a foursome can make use of each other's good shots. They were in a competition on a very dry course with a certain green on which it not only was virtually impossible to stop an approach but where the third shot usually was played out of dire trouble and many sixes and some sevens were turning up there. Both rounds, Old Harry, playing the second, deliberately planted the ball in the sand of a certain bunker, and Jimmy Braid, one of the classic niblick players of the world, both times brought the ball out so well on the green that Harry was able to get the putt down for a four.

However, I should like to hear Leo and Wild Bill planning to put each other in a bunker on purpose!

Dotson Will Have Real Opponent In Match Monday

Tomorrow night at the Pampa Athletic Club on South Cuyler street, Pampa's wrestling blacksmith, Oscar Dotson, will meet his toughest opponent of the season when he steps on the mat with Cowboy Chick, light-heavyweight champion of Wyoming and a brother of Bobbie Chick.

Wrestling fans may look forward to the best exhibition that has yet been introduced in Pampa.

The preliminaries will be newsboy bouts in different classes which usually prove to be fast exhibitions of wrestling.

FOR SALE, NEW MEXICO OIL LEASES

For \$1.00 per acre, in the heart of development in Central New Mexico. Torrance county, the next big oil field. You can invest in a section or as small as 40 acres. Five years lease, with rental five cents per acre. Do it Now, and take your profit when the boom comes. Drilling campaign now on by big companies. Eleven drilling wells. See—

SPORT TALK

Fighting one of the greatest battles of his 1927 comeback Big Bill Tilden defeated Wray Brown in a five set match at the Illinois state tennis championship matches. It was an uphill battle for Tilden but he finally emerged victor in the deciding set, 10 to 8. That's courage for you.

In the record batting spree of the season, the Dallas Steers Friday polled out 25 hits for 20 runs against Beaumont. In the bunch were two homers by Bagwell and an even dozen doubles. Such sometimes happens.

Lone Wolf is the team to beat in the finals at the tournament, and the Pampa Grays are the boys to do the trick. They have fought an uphill battle since the opening game.

VOTE AGAINST THE TAX AMENDMENT

Your vote—or the absence of that vote—at tomorrow's election on the four proposed amendments to the Texas constitution is of vital importance to yourself and the other taxpayers and citizens of the state.

The Pampa Daily News was one of the first agencies in West Texas to point out the danger to the tax amendment proposed, and since that time has printed many articles and editorials explaining the menace to Pampa, Gray county, and other similar communities. In recent weeks the fight against this dangerous, drastic change in the tax system grounded in the Texas constitution has been taken up in other sections. The Panhandle has been particularly outspoken against the plan. Because it likely would mean a loss of millions of dollars to Gray county, and because of the inherent defects of the measure, voters should go to the polls tomorrow and cast a heavy opposition ballot. Take your friends with you.

The other three amendments are not so vital, and the voter may use his best judgment. No. 24 is intended to provide a more efficient judicial system by increasing the members of the Supreme Court from three to nine, the Court of Criminal Appeals from three to five members. The bill would eliminate the assisting commissions helping these courts, and would not entail a large additional expense. Most lawyers appear to favor the amendment.

Amendment No. 33 pertains to the salary of the governor and remuneration of "officers and members of the Legislature." It is generally agreed that the governor's salary should be increased, and \$1,500 yearly is not too much to pay good legislators. However, the cost entailed would be more than \$200,000 per year and increase the expense of state government. The major defect appears to be that many \$2,000 a year men are not included. It is unfortunate that the bill is not more inclusive. Some believe the Legislature should be decreased in numbers before a salary increase is made.

Amendment No. 25 is the tax amendment which should be scratched.

Amendment No. 32 relates to the objectionable fee system, and under its provisions county officers would be paid

salaries instead of having to work up fees to make a living.

Be sure to do two things Monday: VOTE, and when you vote SCRATCH THE TAX AMENDMENT!

AIRPLANE IMPORTANT IN PAMPA OIL WORK

A few aviation enthusiasts have set the ether vibrating with unheeded declarations for several years, but at last these prophets are seeing many of their predictions come to pass. Even Bill Mitchell is apt to get a laugh out of the next regular session of Congress.

The industry is advancing at a rate which will be surprising in the next five years. Not only the big industries, but the average business man is finding the plane a time and money saver.

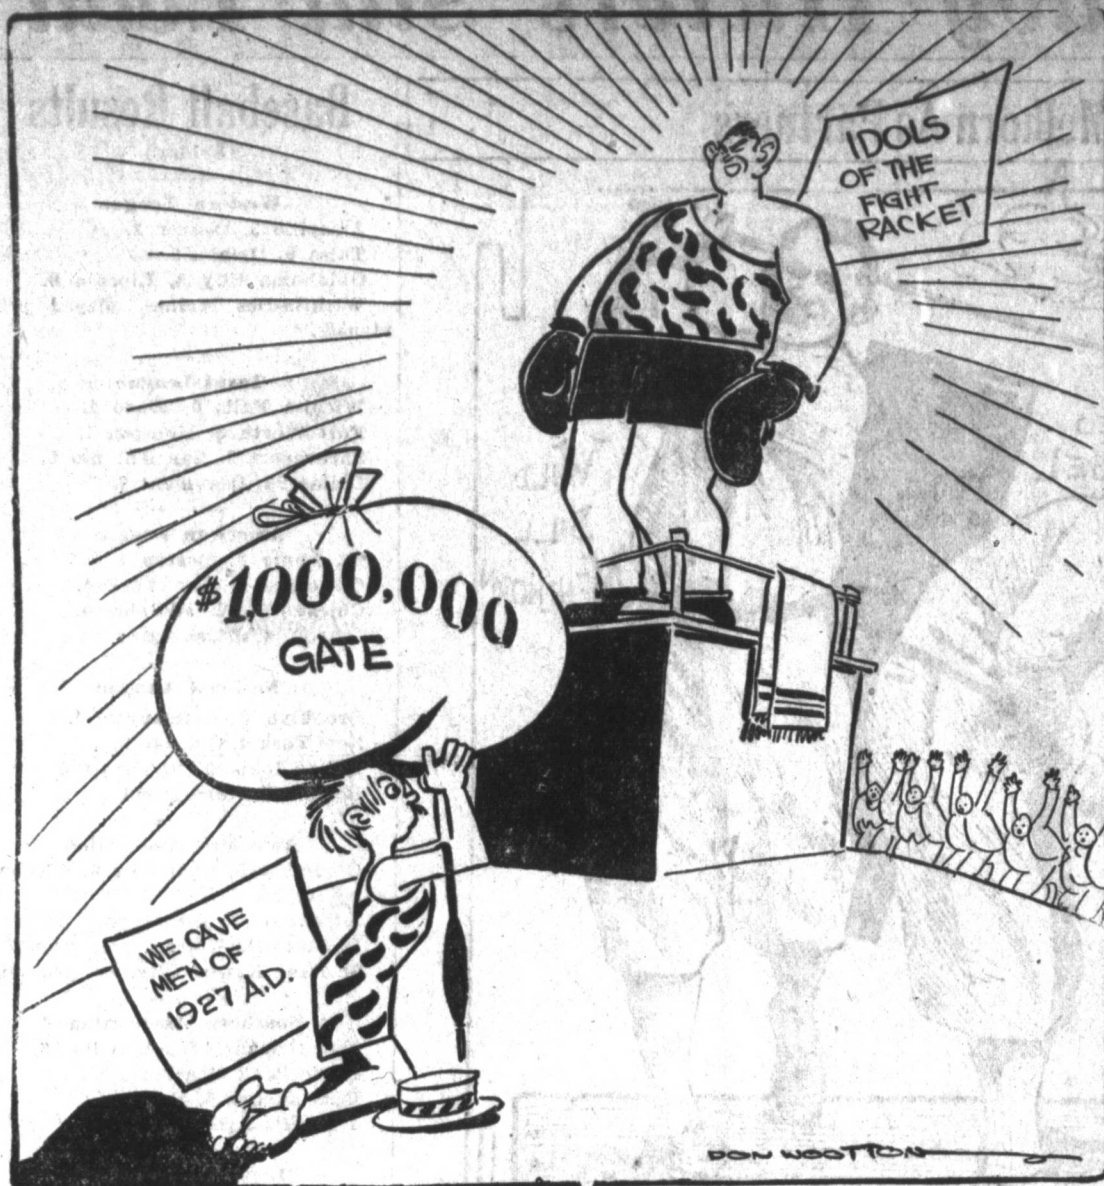

In proportion to the growth of Pampa, this city is going to find aviation important. For example, there are many important deals which make trips back and forth to Amarillo, Tulsa, Oklahoma City and Wichita Falls necessary. That the airplane will soon become the favorite mode of travel to these points can no longer be disputed. Amarillo is sure to be an important junction point for air travel.

From the standpoint of the aviator, a city is no better than its airport. It will be important to have the airport designated on tourist maps as to have the railroad thereon. A municipal, well lighted, widely advertised airport is going to be a civic necessity, as well as an asset.

And civil authorities are going to be interested in other ways. The airplane is going to have a big place in law enforcement. Had the sheriff's department had an airplane ready to take the air when the Pampa bank was robbed, the speeding car might have been located before it had taken to cover. The scouting qualities of the plane make it a valuable adjunct to all officers.

Panhandle cities which ob-

My! Aren't We Progressing?

PRESS FORUM

CITY AIRPORTS

In a recent address Colonel Lindbergh stressed the seriousness of the handicap in the development of passenger air routes in the United States due to the lack of conveniently situated landing fields. The time required to travel from the center of St. Louis to the respective fields where the mail planes arrive and depart, he said, was greater than the time required for the flight between the two cities. Chicago, already the center of 6,000 miles of air routes, has seen two new passenger lines opened during the last few days. The first of these is to San Francisco, the trip being on a 22 1/2 hour schedule and the fare \$200 for each passenger. The second new passenger line is to Minneapolis and St. Paul. There are for Chicago still other routes in prospect. In the mileage of air routes for which it serves as the center, Chicago leads all other cities in the world. The next in order, says Chicago Commerce, which has assembled much information on the subject of American airports, are New York, San Francisco, Detroit, Los Angeles, Berlin and Cairo. In this city are nine aircraft manufacturers who last year constructed or rebuilt 81 planes. By virtue of its geographical position, Chicago inevitably has become a great airplane terminus and the hub of the country's aviation, as it is the center of American railroad transportation. The fact remains, however, that much more can and should be done than has been done thus far to attract the industrial side of aviation to this city.—Lubbock Avalanche.

Strange how timid sheep are when a sheepskin does so

tain landing fields and have them entered upon aviation maps ahead of the big movement are going to get some fine publicity and be ready for air visitors.

much to stiffen the backbone.—The St. Paul Dispatch.

Then there is the type of dear thing who thinks it is a very lovely frock indeed and would buy it if it cost \$25 more than it does.—Detroit News.

The country is not absolutely denuded of trees. There are still enough for reckless drivers to crash against.—The Detroit Free Press.

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON.—General Jose M. Moncada, who seems likely to be a candidate for president of Nicaragua, is regarded as most friendly to the United States.

He is the author of a book in which he makes a strong plea for friendly relations between the two countries and speaks highly of Americans.

Moncada now stands out as the "strong man" of Nicaragua if only because there are few other substantial candidates to oppose him for the presidency.

Adolfo Diaz, the president who remains in power supported by United States marines, is cordially hated by many Nicaraguans. It now appears that even his former friend and supporter, Emiliano Chamorro, who placed him in the presidential palace, has gone back on him. Chamorro put over the election of Diaz when the United States refused to recognize him after his coup d'etat, but the leading Spanish language newspaper of this country has just quoted a dispatch from Rome quoting Chamorro as saying that he would return to his country to fight Diaz. Without Chamorro and his faction, Diaz becomes almost the man he was when he served as a \$25 clerk for an American mining company.

In any event, Diaz cannot be reelected because the Nicaraguan constitution expressly forbids two consecutive terms.

Moncada, now said to have become Nicaragua's fair-haired son, is about 50 years old and a business man rather than a warrior. He fought side by side with Chamorro and Diaz in the revolt against the Dictator Zelaya many years ago, but returned to business and remained there until Sacasa called him last year to head the Liberal army. With his

TWINKLES

Experience of the former Texas man again proves that a taste of one's own medicine is very edifying, and sometimes fatal.

It is reported from the South Plains that "home grown" watermelon belongs to the same class as "imported" cheap fabrics—imported from St. Louis.

Well, we oozed downtown Friday night, proving some expressions have a basis in fact after all. But those of us oldtimers who remember when hip-boots were necessary to cross Foster or Cuyler, can certainly appreciate this fine paving.

Although Congress is going to consider flood control, we would prefer the solons stick to water, and leave the Seminole deluge alone.

"Jim" is going to furnish butter to the state. That is a better product than he usually furnishes Old Man Texas. It is to be hoped that he sticks to this other sex of the bovine industry.

brilliant successes as general, he then became the marvel of Latin-America.

Although his patriotism is questioned by die-hard Liberals, Moncada took the common sense course when he threw down his arms by agreement with Stimson to prevent slaughter of his troops by the marines.

It is to be noted that he refused to call General Sandino a bandit at a time when the Navy Department, through Admiral Latimer, and the State Department, were attempting to brand Sandino with that stigma.

Sandino was one of Moncada's best generals, although he incurred displeasure when he insisted on carrying on the hopeless war against the conservative and the marines.

SOCIETY

Mrs. Marion Howard Honors Visitor

Mrs. Marion Howard was hostess Thursday afternoon to a number of friends honoring Mrs. Robert Wilson, who is visiting her sister, Mrs. J. M. Dodson, in this city.

The afternoon hours were spent playing bridge, Mrs. W. M. Lewright winning high score prize. Mrs. Wilson was presented with the guest prize, and consolation was awarded Mrs. W. E. Coffee. Later, dainty refreshments were served Mrs. P. O. Sanders, Mrs. Younger, Mrs. G. C. Walters, Mrs. Griffin, Mrs. Lewright, Mrs. J. M. Dodson, Mrs. W. E. Coffee and the honoree, Mrs. Wilson.

Mrs. Harrah Entertains Thursday Club

Members and guests of the Thursday Bridge club enjoyed a very pleasant morning Thursday at the home of Mrs. Raymond Harrah. The rooms were tastefully decorated with cut flowers, the color scheme of lavender and white predominating.

The guests began playing at 9:30 a. m. The high club prize was won by Mrs. J. Cram, and high guest prize by Mrs. Marion Howard. Mrs. W. E. Coffee was winner of consolation.

At 12:30 o'clock a two-course luncheon was served the following ladies: Mrs. H. D. Lewis, Mrs. John Cram, Mrs. John Studer, Mrs. J. D. Sugg, Mrs. H. G. Twiford, Mrs. Marion Howard, Mrs. W. E. Coffee and Miss Adeline Bellman.

Miss Counts Marries Ben Lockhart

Miss Grace Counts of Miami and Ben Lockhart of near this city were united in marriage Tuesday evening at 8 o'clock at Miami. Rev. J. W. Whitley officiated.

Both the bride and bridegroom are long-time residents of this section, the latter having lived on the Lockhart ranch north of Pampa for the past several years. Both have many friends in this community.

Mr. Lockhart has accepted a position with the Hamon-Whittington Mortgage company in Amarillo, and the couple will make their home in that city.

Mrs. J. M. Dodson Honors Friend

One of the most delightful parties of the mid-summer season was given Thursday afternoon by Mrs. J. M. Dodson, when she entertained a number of friends honoring her sister, Mrs. Robert Wilson of Amarillo, with a 1 o'clock luncheon. This was followed by a musical program given by Mrs. Wilson and her two young daughters and Mrs. Dodson's children.

The home was tastefully decorated with sweet peas, and following the program bridge was played the remainder of the afternoon. Guest prize was given Mrs. Wilson and the cut prize was won by Mrs. C. T. Hunkapillar.

Those playing were Mrs. G. C. Walters, Mrs. Carlock, Mrs. Griffin, Mrs. W. M. Craven, Mrs. DeLea Vickers, Mrs. Henry Thut, Mrs. Siler Faulkner, Mrs. Marion Howard, Mrs. W. E. Coffee, Mrs. L. L. Masters, Mrs. W. L. Woodward, Mrs. C. T. Hunkapillar, Mrs. Twiford, Mrs. W. P. Masters, Miss Bessie May Skinner, the latter of Ennis, Texas, and the honor guest, Mrs. Wilson.

Members of the Rebecca lodge gave a social Friday evening at the Odd Fellows hall. "Forty-two" was enjoyed and later refreshments of ice cream and cake were served to about 20 persons.

Dr. and Mrs. W. F. Nicholas are leaving tonight for Denver, Colo., and western Nebraska, where they expect to spend two weeks. Dr. Jones of Amarillo will arrive today to take care of Dr. Nicholas' practice. Dr. Jones is a graduate of the Dental school at Dallas.

STUDENT IN MOVIES

AUSTIN, July 29. (Ar)—Melvin Williamson, former Texas university student and one of the 10 local collegians to take the "dominate male personality" screen tests here, has broken into the movies, says an announcement here. Williamson formerly directed the University Curtain club.

Have you tried a want ad?

Artists Have Same Name

Gladys L. Johnson is the name not only of the violinist (left) but also of the cellist (right), who play for western radio fans.

PORTLAND, Ore., July 30. (AP)—Two artists with the same name—one a violinist and the other a cellist—entertained from a Portland broadcasting station.

Miss Gladys L. Johnson is the name of each, and fans cannot always tell from the announcement just which one of them is playing.

SOCIAL NEWS

By MRS. J. M. SMITH, Jr.

PHONE 72

Mrs. Harry Groves left Friday for Elk City, Okla., to visit relatives and friends.

T. L. Irby of Ponca City, Okla., was in this city Saturday on business.

Mrs. Ed. Dunnigan and little daughter of Panhandle, are visiting Mr. and Mrs. C. P. Sloan in this city.

Mr. and Mrs. Bernard Schmidt left Saturday for Lubbock.

Miss Mabel Johnson will leave Sunday for her home in Lubbock for a visit. Miss Johnson is connected with the L. T. Hill store here.

William T. Fraser left Friday for Dallas to spend the week-end.

Mrs. T. M. DeSpain and daughter, Miss Beatrice, will arrive Sunday from Altus, Okla., for a week's visit with T. M. DeSpain and son in this city.

Mr. and Mrs. Ray Thomas left Friday for Altus, Okla., where they were called to the bedside of Mr. Thomas' father, who is seriously ill.

Mrs. Alton Shumate is visiting relatives in Amarillo this week-end.

Frank Soodhalter left Saturday for Chicago and New York for a 10 days' business trip.

M. Levine and Ben Lipsky were Amarillo visitors Friday.

Mrs. Edith Levine of Vernon is visiting Mr. and Mrs. M. Levine in this city.

H. S. Dunaway left Friday on a business trip to Odessa.

Miss Hazel Penland of Shamrock and Miss Ethel Pauley will have charge of the Georgette Beauty shoppe during the absence of Mrs. W. F. Nicholas.

Marvin C. Smith of Panhandle was a Pampa visitor Saturday.

J. M. Dodson returned Saturday morning from a business trip to San Antonio.

Henry Heitholt of Billings, Okla., is in this city looking after business interests.

H. J. Taylor of Shamrock spent Saturday with his daughter Miss Esther Smith. Mr. Taylor was enroute home from Colorado.

Lloyd Isbell of Bristow, Okla., arrived Saturday morning to visit his sister, Mrs. Morris Lawless, of this city.

Mrs. Val Smith of Amerada underwent a major operation Friday at a local hospital, and is doing nicely.

H. A. Gilliland and son, Alfred, are expected home Saturday from Oklahoma City, where they went on business.

Friends of Ivey Duncan of this city will be pleased to learn that he is recovering nicely from a nasal operation at Colorado Springs, recently. Mr. Duncan will have to remain there for several days, however for treatments.

Mrs. A. J. Crocker and children and Mrs. A. Cole and children are spending the week-end with Mrs. Oliver Elliott at Mobetle.

O. W. Ferguson left Saturday night for St. Louis, Mo., to buy fall merchandise.

Miss Margaret Royse of Elk City, Okla., is visiting Mrs. O. W. Ferguson and family.

Mr. and Mrs. J. D. Hughes and family have returned to their home in Morganville, Kan., after a very pleasant visit with Mr. and Mrs. W. W. Merten in this city.

Mrs. J. R. Crawford and children returned to their home in Amarillo Friday evening after a short visit with Mrs. Crawford's parents, Mr. and Mrs. J. S. Wynne.

Miss Bessie May Skinner of Ennis is visiting Mrs. Siler Faulkner and family.

Mr. and Mrs. R. T. Kiser have gone to Kansas City, Mo., where Mrs. Kiser will visit her mother and also attend the art and gift show.

Mrs. Hunkapillar Is Hostess At Bridge

Mrs. C. T. Hunkapillar proved a charming and gracious hostess Friday when she entertained a few friends with an evening of bridge.

High score prize for the ladies was won by Mrs. Griffin, and for the gentlemen by Joe M. Smith. Mrs. I. B. Hughey received consolation.

After several spirited and interesting games, dainty refreshments were served to Mr. and Mrs. W. M. Craven, Mr. and Mrs. W. L. Woodward, Mr. and Mrs. G. C. Walstad, Mr. and Mrs. Griffith, Mr. and Mrs. I. B. Hughey, Mr. and Mrs. Joe M. Smith, Miss Lillian Manning of Dallas, Miss Guinn and Mr. Jones, as well as the host and hostess.

Mrs. William Lang Gives Party

Mrs. William Lang honored the seventh birthday of Clara Marie Harrell Thursday with a 12 o'clock luncheon at her home.

The guests included Leslie Yarbrough, Sam Patrick, Georgiana Gray, Mary K. Hartell, Gus Ylover and Mr. and Mrs. Lang.

On her return home the honoree was greeted by a number of her friends as a complete surprise, and was the recipient of many nice birthday gifts. Later in the evening an ice course was served the following: Mrs. Frank Spelman and daughter, Mary; Mrs. William Lang, Georgia Gray, Mrs. Carl Taylor, Mrs. Don C. Davis and Bernice Lyons of Ft. Collins, Colo.

Setting and Facilities Ideal To Make Eighth Northwest Texas Girls' Camp In Canyon Success

CANYON, July 30.—The eighth annual Northwest Texas Girls' camp will begin August 6 and continue through August 27 under the management of Mrs. T. C. Delaney of Memphis, Texas, who believes that the camp this year will include a larger number of girls than ever before, judging by the number of inquiries made concerning it.

The camp will be held at the Methodist camp grounds in the heart of the Palo Duro canyon, where all phases of nature's beauty and grandeur may be studied. Springs provide abundant water, and the campers enjoy such sights as picturesque waterfalls, canon formations, wild flowers, countless birds, trees, plum thickets, and other beauty spots that are a delight to everyone.

Mrs. Delaney has been on the grounds since June 15 supervising preparations for the encampment; everything will be ready to welcome the girls by August 6.

An auditorium is to be built on the grounds, as "A Tribute to all Girlhood," with this statement on the corner stone which will be placed the second Sunday in camp, August 14. Dr. R. E. L. Morgan will conduct the services, assisted by R. N. Huckabee of Paducah and John E. Eldridge of Miami.

The auditorium is being financed by the Women and Girls' Missionary societies of the Methodist Texas conference. It is to be an open air affair seating 650 people or more, and finished in rough stucco.

A carefully supervised system of entertainment assures every girl that her time will be well spent during the entire three weeks. The activities of one day in camp include camp fire meals, camp clean-up, dish washing with water carried from the spring, all done by the girls themselves; an early hike or swim before breakfast, or if one prefers, this time may be used for a beauty sleep. Then comes an assembly sing-song with the aid of an orchestra in the auditorium. Other special features are special programs planned by the platform director, inspirational addresses, classes in nature study and basketry.

Swimming, tennis and rides on donkeys and horseback are available. A new concrete dam below the fall provides an excellent swimming pool.

Equipment Light.
The baggage carried by the girls will be very light. Only simple clothes are needed. A cot, two or three quilts, plate, knife, fork, spoon and cup-towel completes each girl's outfit.

Milk will be delivered each day to the camp, and a store on the grounds will provide all food needed in camp.

Girls are organized in groups of eight with a chaperone for each group and a tent for a dressing room. Girls from all churches are included and mothers and women friends are urged to come and enjoy the camp.

Miss Winnie Mae Crawford is platform manager and will be assisted in dramatics by Miss Hazel Delaney, who also teaches basketry.

Musical programs are under the direction of Mrs. Elmer S. Shelley, assisted by Mrs. Dr. Hendrix, Miss Estelle Plumer and Mrs. Faye Rogers Carr, pianist and Ruby Neufeld, also pianist.

Beverly Harvey, Ruby Hoffman and Marie Crone are to be in charge of the daily devotional and vesper services.

Other people who will assist with camp activities are Mrs. John E. Eldridge, mission study director; Miss Rebecca Ainsley, Bible study; Miss Verna Crump, secretary; Alice Mulkey, official news reporter; Mrs. T. V. Reeves, nature study. There are swimming directors, camp postman, chaperones and others who will do much to make the camp an entire success.

TO THE VOTERS OF THE REPUBLICAN PARTY IN GRAY COUNTY, TEXAS

Just a timely hint on the coming election Monday, August the first, regarding amendments to the Constitution:

1. "To provide a more efficient judicial system," I will vote for it, and you ought to support this, as it will improve the present system and not increase the expense.

2. "Giving the Legislature power to pay County offices and District Attorneys through salaries, instead of as it is now through fees." The system has been condemned times over, not only by citizens, but the highest courts have ruled it unconstitutional. All of us should vote for the amendment.

3. "To remove all restrictions from the constitution providing for payments in salaries to State officers," which means that we authorize more salaries to state officers, which is against our policy of economics. State officers having been serving us with the present salaries very efficiently, and most of them are always up for re-election, so why the amendment? Kill it with your vote.

4. "Providing for a change in the taxation system." We do not need any change, as the change would only be an increase in taxation. Kill it with your vote.

These are my sentiments on the amendments and I trust they are yours.

With greetings and best wishes,
Your County Chairman,

V. E. V. BRUNOW.

(Adv.)

OUT OUR WAY

—By Williams

FROM A POSITION TO A JOB.

FRANK EMMER HITTER AS WELL AS FIELDER

MINNEAPOLIS (AP)—Frank Emmer, Minneapolis shortstop, can hit as well as field. Emmer tied the all-

time American Association fielding record of 22 consecutive errorless games by handling 140 chances without an error.

Emmer has been batting better than .300 all season. During his field-

ing spree he was tied for runner up position for home-run honors. The day he tied the A. A. fielding record, he drove out a triple to score three runs, putting his team back into a winning spurt at a time when it was

Cole Shows Will Open Here Monday

Commencing tomorrow on the lot across from the Schafer hotel the O. C. Cole shows will play all week under the auspices of the Pampa Grays baseball team, the proceeds to be used to finish the baseball park for the coming football season. Also, the Grays may enter the Denver tournament.

The O. C. Cole shows have in connection one of the best wild west shows in the country, composed of roping experts, bareback riders, and broncho busters who have made names for themselves in the west.

four runs behind and there was only one inning to go.

Emmer got into the big show with Cincinnati but was sent back. He is determined to vindicate himself and is considered again to be headed for the major leagues.

The World has never known such Value!

All prices f. o. b. Flint, Michigan. Government Tax to be added.

All former standards of motor car value fell when Buick for 1928 swept into view.

All previous conceptions of beauty... smartness... luxury and comfort were discarded as people thrilled at Buick's graceful, youthful, low-swung bodies and Buick's harmonized interiors, as exquisite as the finest drawing rooms.

All previous performance records faded into insignificance before Buick's brilliant abilities—mighty power, performance vibrationless beyond belief and get-away like an arrow from a bow.

Here are listed all 16 Buick models for 1928, with their prices, so that you may see for yourself how little Buick costs, when you consider how much Buick gives.

BUICK for 1928

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

MUSICAL BUGS, FROGS MAY ENTERTAIN TOKYO

TOKYO (AP)—The music of chirping insects and singing frogs which enraptures the Japanese every spring and summer, is to be made a big feature of the new Meiji Shrine Park each year, under plans of the national young men's association.

The program is to capture tens of thousands of crickets, grasshoppers and other insects including singing frogs, and release them in the park for the edification of the thousands of Tokyo dwellers who gather there.

Peddlers throughout Japan sell the musical insects in small cages, the prices ranging from 50 sen to 50 yen (about 25 cents to \$25).

Old Landmark to Make Way For A New, Large Hotel

(By The Associated Press.)
SAN ANTONIO, July 30.—The oldest hotel in the city, the Alamo, one of the best known hotels in the state is to be torn down in the near future to make room for a great modern hotel, according to T. B. Baker, its present operator.

Rumors that the old landmark was to be demolished have been current for more than a year. The recent sale of adjacent property to wealthy easterners, however, has given impetus to the project and plans for the new building are expected to be on paper soon.

The Menger stands on a part of the land which was once the Alamo and overlooks the portion of the Alamo which still stands. The hotel was built in 1859 and has housed many famous personages in its day, including Sam Houston, McKinley, Lee, Grant, Sheridan, Roosevelt and many others.

Texas Tech Buys 4,000 Steel and Concrete Bleachers

LUBBOCK, July 29.—Preparing for what is considered to be the football classic of West Texas when Texas A. & M. college meets Texas Tech here October 28, a contract for 4,000 steel and concrete bleachers was let yesterday by E. W. Provence, business manager of the college. Construction on the bleachers will be begun in the near future and they are to be ready for the opening game here.

With the addition of these bleachers more than 6,500 spectators can be seated at football games here with Texas A. & M. Temporary seats will be constructed to care for the overflow.

The new bleachers will be 25 seats high and the lowest seat six and one-half feet from the ground. They are to be placed on the west side of the Tech field, facing the track straight-of-way.

Indications point toward an attendance of more than 1,000 students of A. & M. at the game. Amarillo will send a special train, railroad officials have announced and it is likely that a large number of the cadets will accompany the team here.

Rarely Used Are \$10,000 Bills Kept In Reserve Banks

(By The Associated Press.)
HOUSTON, July 30.—Most of the \$10,000 bills in Texas repose in the vaults of the Federal Reserve bank of Dallas, it was disclosed here by Sam Pondrom, cashier of the Houston branch of the federal reserve system.

"Such bills," he said, "are kept in Dallas because the law requires a certain cash balance at all times and \$10,000 bills take up the least space."

During his many years experience as a banker Mr. Pondrom does not recall a single instance where a \$10,000 bill has been used in a transaction between individuals.

"It looks like any other bill," he added, "bears a picture of Andrew Jackson with the usual scrolls on the face and picture of a ship and a locomotive on the back."

Texas Ships Much Fruit Despite Low Prices For Season

(By The Associated Press.)
AUSTIN, July 29.—Shipments of fruits and vegetables from Texas during June were sharply advanced over May loadings, the University of Texas business research bureau here announced.

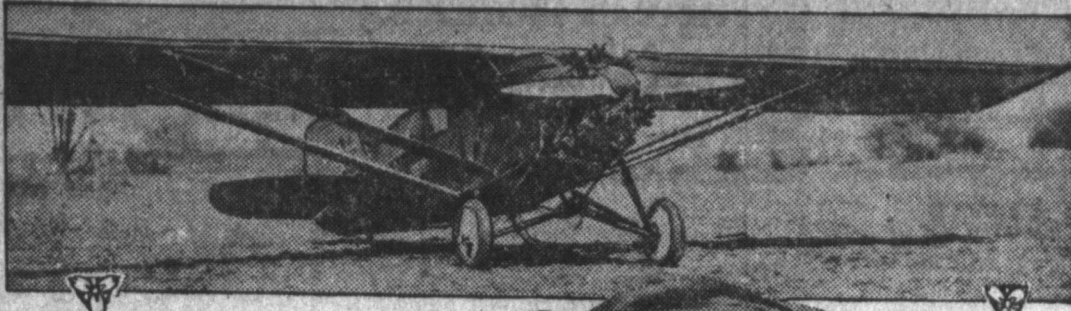

During June, 5,843 cars were shipped; in May 3,975 cars and in April 5,406. Watermelons and tomatoes, it is said, account for the bulk of shippings, although some onions and early potatoes still are being freighted out.

Carlots of celery, peppers and grapes were reported last month for the first time this year, the bureau said.

Growers' chief trouble was the "generally downward price" explained by the bureau as resulting from competition from other parts of the country. The watermelon was classified as one of the best selling Texas crops.

TEXAN TO CORNELL
AUSTIN, July 29.(AP) — Dr. G. W. Cunningham, former professor in philosophy at the University of Texas, has accepted a position with Cornell university Sage school of philosophy, and will begin work there in October.

EXPERIENCE IN SPOTTING LIQUOR STILLS MAY AID REDFERN IN HOP

By W. H. BEATTY
(Associated Press Staff Writer)
BRUNSWICK, Ga.—When Paul R. Redfern, 25-year-old aviator, soars over the swamps and jungles of the Amazon on his proposed non-stop flight, he will probably feel as much at ease as though he were going through his regular flying routine for the government.

For Redfern's flights during the last six months have been over just such stretches of land and water as he expects to cross on his long air voyage from Brunswick, Ga., to Rio de Janeiro, a distance of 4,300 miles.

The "pioneer" air scout of the national prohibition unit, southeastern division, Redfern's assignments during the last six months have been to rout out the moonshine stills in the swamp lands of South Carolina, Georgia and Florida. Moonshiners seeking something new in the way of concealment, conceived the idea of building heavy rafts in the marsh grass and heavily wooded swamp area along the coast, where they successfully operated stills for several months.

It was impossible for government boats to reach the swamps and the land parties could not find the stills because of the head-high marsh grass and then the prohibition officials imported Redfern and his plane from Geneva, N. Y., where he was operating an airport.

Flying at a dangerously low altitude over the swamps, Redfern spotted the stills, one by one, signalled to a convenient patrol boat, and small rowboats were sent into the swamps to capture the moonshiners, while Redfern circled overhead, directing the hunters to their objective.

In the first 10 days of flying Redfern located and led in the capture of 49 stills, each of them valued at several thousand dollars.

"We usually got our man," Redfern says. "The moonshiners couldn't get out of sight of the plane no matter how hard they tried and after a few hours of hide-and-seek in the chilly swamp waters they were caught by patrol boat operators."

The flight, which will start around August 1, will take him two days and two nights, he estimates, and will be over some of the uninhabited region of the Amazon river. He will fly a Stinson monoplane to be called the "Port of Brunswick."

Redfern has received a leave of absence from government service to make the flight. His plane will carry 500 gallons of gasoline, more than has ever been carried by a plane with a 200-h. p. motor.

His course from Brunswick will be directly over Porto Rico, then over the Caribbean Sea and on to the South American coasts, then into the interior of Brazil, and through the Amazon jungles, passing finally over the mountains on the eastern coast of South America and into Rio de Janeiro.

"Previous flights have all been made in the same latitude," Redfern says, "and my flight will be unique in that I will pass from a moderate climate to the very hottest—over the equator—then over the winter tem-

Paul Redfern

In the last six months Redfern's flights in government prohibition service have been over just such stretches of land wastes as he expects to cross on his South American flight. Above is the single-motored Stinson monoplane "Port of Brunswick," which he plans to use on his hop to Rio Janeiro. The plane will carry 500 gallons of gasoline.

peratures of the snow-topped mountains in the Brazilian coastal range."

In addition to the load of gasoline and oil, the flier will take a rubber air raft, concentrated food to last 10 days, a small distilling outfit and a Vya pistol for flare-shooting. For his "jungle" equipment, to be used should he be forced down in the Amazon country, he will carry small firearms, a fishing tackle, mosquito netting and fire-building equipment.

The plane will have a top speed of 130 miles an hour and will average around 110 miles with a full load. It is a cabin type monoplane, with direct vision from the glass enclosed pilot's seat. Redfern will be directed by three compasses, one earth inductor and two ordinary compasses. He will carry the usual array of instruments on the instrument board.

1928 License Plates Are Being Made By California Firm

(By The Associated Press.)
AUSTIN, July 30.—Manufacture of 1928 automobile plates for Texas already has started at the plant of a Los Angeles firm, according to information received here by the State Highway commission.

The new plates are to be five by 14 inches in size with white numbers on a brown background. Approximately 1,225,000 pairs will be required, into the manufacture of which will go 450 tons of steel and two carloads of baking enamel. The steel, it is interesting to note, is to be furnished by a blasting furnace at Provo, Utah, and it is to be rolled in a Los Angeles mill. Eighteen thousand pairs of plates per day, the commission learns, are being turned out to fill the Texas order.

Fly Infestation Does Damage To Texas Livestock

(By The Associated Press.)
AUSTIN, July 29.—Fly infestation is causing "considerable damage" to stock and breeders are being forced to employ additional help to combat the pest, the monthly Bulletin of Texas university's business research bureau here says.

Conditions of livestock on July 1, however, was "very much improved over the June condition," the bureau said.

Loss from the "fly weather spell" so far has not been serious.

So your bit toward keeping Pampa clean.

AGENTS ALL MARRY

AUSTIN, July 29. (AP)—Travis county is hard put to find a permanent county demonstration agent because of a certain marrying proclivity.

Announcement of the forthcoming marriage of Miss Eula Nell Sellback, incumbent agent, as the third from the office within a relatively short time, has been made.

Mt. Vesuvius Is Belching Ashes and Releasing Lava

NAPLES, July 30. (AP)—In the throes of its most violent eruption of the last twelve years, Mount Vesuvius today hurled hundreds of tons of incandescent fragments far into the air, while a huge column of lava, after nearly filling the inner crater, began to creep over the edge into the Valley of Hell toward the Bay of Naples.

Four-Year-Old Mystery Believed Near Solution

(By The Associated Press.)
DENVER, July 30.—A solution of a four-year-old murder in the wilds of the Rockies was dependent today upon what light could be thrown on the case by Arthur Osborne of Scotts Bluff, Neb., declared by detectives to be the key man in their investigation.
Osborne was a companion of William Head, young jewelry store clerk of Texas when Head disappeared in the mountains west of Denver in 1923.
A skull identified as that of Head was discovered a few days ago near the scene of his disappearance. Osborne was located last night at Scotts Bluff.

Two Kidnapers Of American Pay Penalty In Mexico

(By The Associated Press.)
MEXICO CITY, July 30.—Execution of two men charged with being implicated in the recent kidnaping near Parral of Russell Johnson, American mining engineer, was reported today in dispatches from Parral.
Johnson, superintendent of the American Smelting and Refining company, was kidnaped July 19.
On July 27, word reached the United States that he had been released.

Deputy Pipes Able To Be Out After His Long Illness

Deputy C. E. Pipes, better known to his numerous friends as "Tiny" who has been confined to his home since April 7, was able to be out and downtown for the first time Friday and was welcomed by his old friends.
Nearly four months ago Deputy Pipes became ill with influenza which later developed into pneumonia and settled in his left thigh, which had to be operated on twice. Although not able to walk yet the jovial deputy is feeling much better and is glad to be out again.

He has lost in weight until friends hardly recognized him when he drove down town Friday afternoon, but soon gave evidence that he had not changed through his long illness.

Wales and Baldwin Are Welcomed By Canada In Festival

(By The Associated Press.)
QUEBEC, July 30.—The Prince of Wales, Premier Baldwin, and their party, now visiting Canada, took part in the Diamond Jubilee Confederation's celebration and were officially welcomed to Canada today.
They were given an enthusiastic reception.

84th District Court to Convene Monday

Judge Newton P. Willis tomorrow will convene the August session of the 84th district court in Gray county.
A heavy civil docket, with dozens of continued cases, is before the court and the criminal docket would have been heavy had not five county prisoners escaped this week.
The trial of Ranger Jack DeGraffenreid on a charge of assault with intent to murder will be the feature of the two-week session, if the case goes to trial.

Local 40-8 Group Initiates 6 "P. G.'s"

Torches, BVD's, the drum corps, and lots of spirits played a big part in the initiation last night of nine new "P. G.'s" in the local vulture of La Societe des Hommes 40 et Chevaux 8.

The new members who went through the rigorous initiation are E. E. Shelton, G. C. Durham, R. E. Gilbert, A. C. Ryland, Charles Rothmell, J. N. Robinson, and J. P. Malone.
The vulture now has 36 members. Dr. Montgomery of Amarillo was a visitor last night. The organization staged an extensive street parade.

Naval Parley May Adjourn Without A Public Session

(By The Associated Press.)
GENEVA, July 30.—Adjournment of the naval conference, possibly for a certain period of time, without holding a final session is now considered a possibility here.
It is a growing opinion that a public session, with fireworks by both British and American delegates, would do no good and might do harm.

QUEBEC, July 30. (AP)—Premier Baldwin of Great Britain, arriving here for a visit, today said he does not expect during his stay on the North American continent to meet President Coolidge to discuss the deadlock at the naval conference at Geneva.

He added that if the conference should fail it would not be England's fault.

Writer's Cramp Is Felt as Officials Sign City Bonds

Mayor F. P. Reid, City Secretary C. H. Fisher, and City Treasurer J. M. Dodson spent a strenuous two and one-half hours Saturday afternoon, signing \$160,000 in city bonds.

The documents resulting from the recent city election were printed and signed within ten days after the vote. Mr. Fisher has taken the first portion to Austin to place before the attorney-general for approval. Excellent service has been obtained in all negotiations with the bond buyers, and it is believed the paper will be approved and registered without delay.

Did Woman Help Rob Banks Near Pampa Oil Field?

(By The Associated Press.)
TRINIDAD, Colo., July 30.—Maude Thompson, alleged "queen" of bank robbers which has been operating in Texas recently, was arrested here today at the request of Texas authorities.

The gang with which the woman is alleged to be connected is confined in its activities to the oil field towns.
Miss Thompson is wanted in connection with a "job" at Vega, Texas. The robbers are alleged to have staged five successful robberies in the last five months in Texas.

Another Victim of Burns Is Dead

J. E. Stewart, burned in the explosion at the Skelly Oil company's No. 1 Schafer ranch two weeks ago, died in the Pampa hospital Friday afternoon.

He leaves to mourn his loss, three brothers and two sisters. Two brothers and a sister attended the funeral yesterday afternoon at 3 o'clock at the Baptist church. Burial was in Fairview cemetery.

Hutchinson Jury Reveals Inefficiency of County Officers

(Special to The News.)
BORGER, July 30.—Adjourning today, the Hutchinson county grand jury gave much cause for sensations in its 12-page report.

Alleging gross misuse of county funds, it recommended that the district attorney bring suit at once to recover this money and cancel two contracts. One is to A. N. Blackmon of Limestone county, legal adviser who gets one per cent of all warrants and bonds issued by the county; the other is Tom Y. Pickett of Dallas, auditor, who gets seven and one half cents on all \$100 valuations of oil properties. It is said these men would get for 1927 and 1928 about \$35,000 each, for work which should be done by the county attorney and tax assessor.

It was recommended that the county hospital operated by Dr. W. P. Malone be taken out of his hands and more efficiently governed than in the past. The body asked that steps be taken to obtain possession of \$225,000 in warrants held in a Dallas bank in escrow pending an outcome of an injunction pertaining to construction of a sewer system and city hall.

Fifty-six indictments were returned. Sheriff Ownby and Borger city officers were commended for efficient enforcement of law. General correction of flagrant cases of poor but the jury fearlessly called for the correction of flagrant cases of poor judgment on the part of the county commissioners.

Your Health
—AND—

FRIGIDAIRE

Your home and the health of yourself and your children are the most important things in your everyday life. And nothing contributes more to that health than FRIGIDAIRE installed in your home.

The modern home, nowadays, has FRIGIDAIRE, the most economical, most sanitary and most serviceable form of caring for food and keeping cool the things you eat and drink.

Come in and see the FRIGIDAIRE. We will be glad to explain its features.
