TEXAS EDITORS MEET IN ANNUAL CONVENTION TODAY

Welcoming Addresses And Responses Are Heard At Opening Session This Morning

NEWSPAPERMEN FROM MANY POINTS ATTEND

Program Of Addresses And Papers Is Being Carried Out This Afternoon—Smoker Tonight

Wichita Falls this morning welcomed the editors of the state, gathered here for the Thirty-Fifth annual convention of the Texas Press Association. The opening session was held at the Wichita Theatre this morning and in delivering welcome of the city to the visitors Mayor A. H. Britain told them the city and all therein was theirs.

More than one hundred editors were present when Joe J. Taylor, of Dallas, president of the association rapped the gavel convening the association. Most of these came in on the morning trains, being met at the station by R. H. Miller, secretary of the Chamber of Commerce and members of the reception committee. Other members of the committee met the editors at their hotels this morning and led by a band accompanied them to the theatre for the opening session.

The roll call and the reading of the minutes of the last annual meeting was dispensed with in order that more rapid progress might be made with the program so that the hospitality of Wichita Falls might be accepted tomorrow afternoon for the automobile trip to the oil and gas field at Petrolia. The program as originally planned included a business session that would have taken up most of Friday afternoon. As carried out this morning most of the Thursday afternoon program was completed at the opening session, and this afternoon papers on the program for tomorrow morning are being read.

In opening the convention this morning President Taylor said the Texas editors had been looking forward to the meeting in Wichita Falls with pleasurable anticipation and that they were glad to be here.

The invocation was delivered by Rev. J. L. McKee, pastor of the First Presbyterian church, following which Mayor A. H. Britain delivered the address of welcome. He mentioned the vicissitudes through which the newspaper profession has struggled to its present type and achievements declaring that in no line of endeavor had any made greater progress than the newspaper. He declared that with all the honors that had been given to newspaper men in recent years they have never been given the credit to which they were entitled.

"We are glad to welcome you to Wichita Falls," he said. "There is no class we would more gladly welcome and extend the hospitality of this little city."

"I am glad to welcome you to Wichita Falls because Wichita Falls has received many little bouquets from the press of Texas. We are glad you are here and want you to enjoy your stay with us."

In delivering the welcome in behalf of the press of Wichita Falls Edgar P. Haney mentioned the promises that had been made at the San Antonio convention and said: "If there is a single promise we made that is not fulfilled I am willing to assume the entire responsibility. Our gates are open, we are glad to have you here."

Col. W. A. Bowen of Arlington, Texas, editor of the Arlington Journal and the Farm and Fireside Bulletin, responded to the address of welcome.

He said that in 1873 he had hunted buffalo on the very site occupied by Wichita Falls and that the city had been built within the history of the Texas Press Association while the telephone, telegraph, web press and other inventions were being perfected which had contributed so largely to the progress of the press.

"Wichita Falls," he said, "presented a paradox of a city of unnatural advantages. Men, not natural advantages, have built Wichita Falls. Men who had the spirit of progress and getting together and doing things."

Upon the motion of Col. F. B. Baillio the following were made honorary members of the association: Wright A. Patterson of the Western Newspaper Union, Chicago; Mills Johnson, Barnhardt Bros., Dallas; A. D. Hodge, West-Cullum Paper Co., Dallas; Platt I. Daley, Western Newspaper Union, Dallas; E. W. Julian and H. C. Bridges of Oklahoma City; R. S. Dyer and R. O. Alvis, Barnhardt Bros., Dallas; Ad S. Eberly, American Press, Dallas; D. C. McCaleb, Austin; Hunt McCaleb, Dallas; Dudley Kennedy, Dallas; Ben Hartley, Dallas; W. D. Cox, International Typesetting Machine Co., New Orleans; Miss Laverne Cates, Bartlett; R. H. Miller and A. H. Britain, Wichita Falls; J. E. Farnsworth, Southwestern Telephone Co., Dallas; H. W. Baker and Miss Mamie Cox, Dallas.

Committee on Membership—F. B. Baillio, Chairman; J. H. Low-Proctor, A. H. Luker, F. C. Thompson, W. S. Spotts.

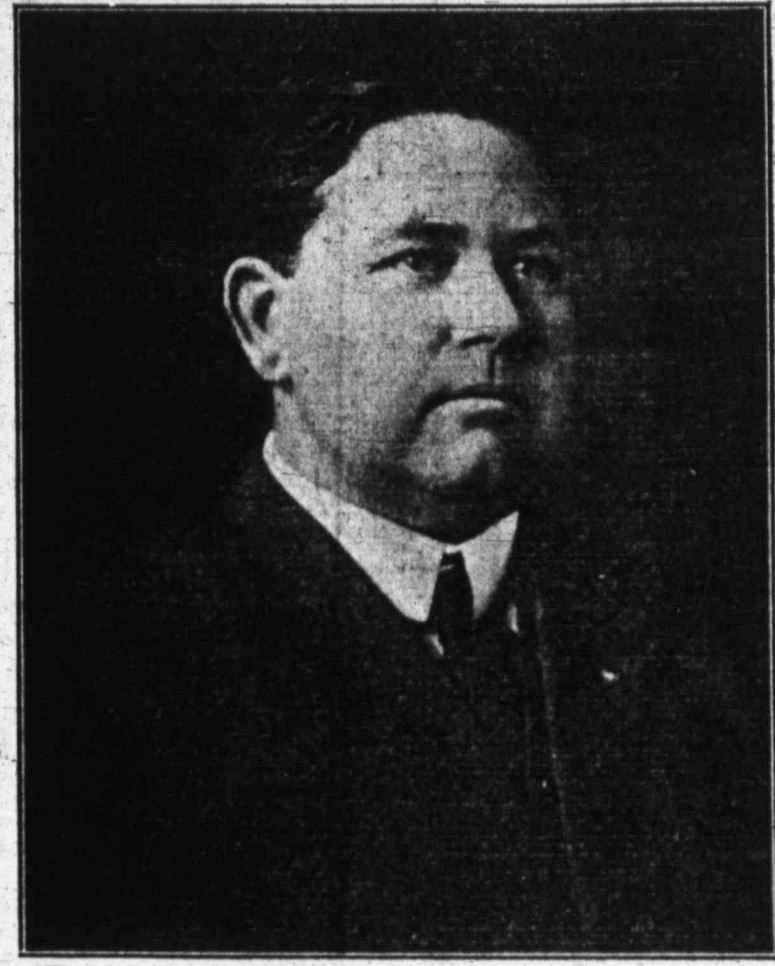

Revision of Roll—Lee J. Rountree, Chairman; Hy Edwards, J. M. Edwards, Jno. E. Cooke, H. F. Schwenker.

Committee on Membership—F. B. Baillio, Chairman; J. H. Lowry, C. W. Wilson, J. E. H. Reilly, Jno. W. Stayton.

MEDIATION OUTLOOK DARKER THAN EVER

SENOR RABASA'S STATEMENT ATTACKING AMERICANS IS LATEST FEATURE

WASHINGTON STILL HOPEFUL

United States' Insistence on Constitutional For President Is Bar to Proceedings

By Associated Press.
Washington, June 18.—While administration officials said today they still hope for a successful outcome of the mediation at Niagara Falls, they were more doubtful than they have been at any time probably since the conference began.

Officials close to the president feel that Senor Rabasa's published note of yesterday disclosed anew that the Mexican delegates are consistently holding out for a Huerta adherent for the provisional presidency despite the fact that many such men have been mentioned as "neutrals."

President Wilson is equally determined in his view that unless a man approved by the constitutionalists is chosen, the new provisional president will be troubled from the outset. White House officials said that when the reply of the American delegation to Rabasa's note was published it would be a sufficient explanation of the attitude of the United States.

AMERICAN REPRESENTATIVES CRITICISED IN STATEMENT

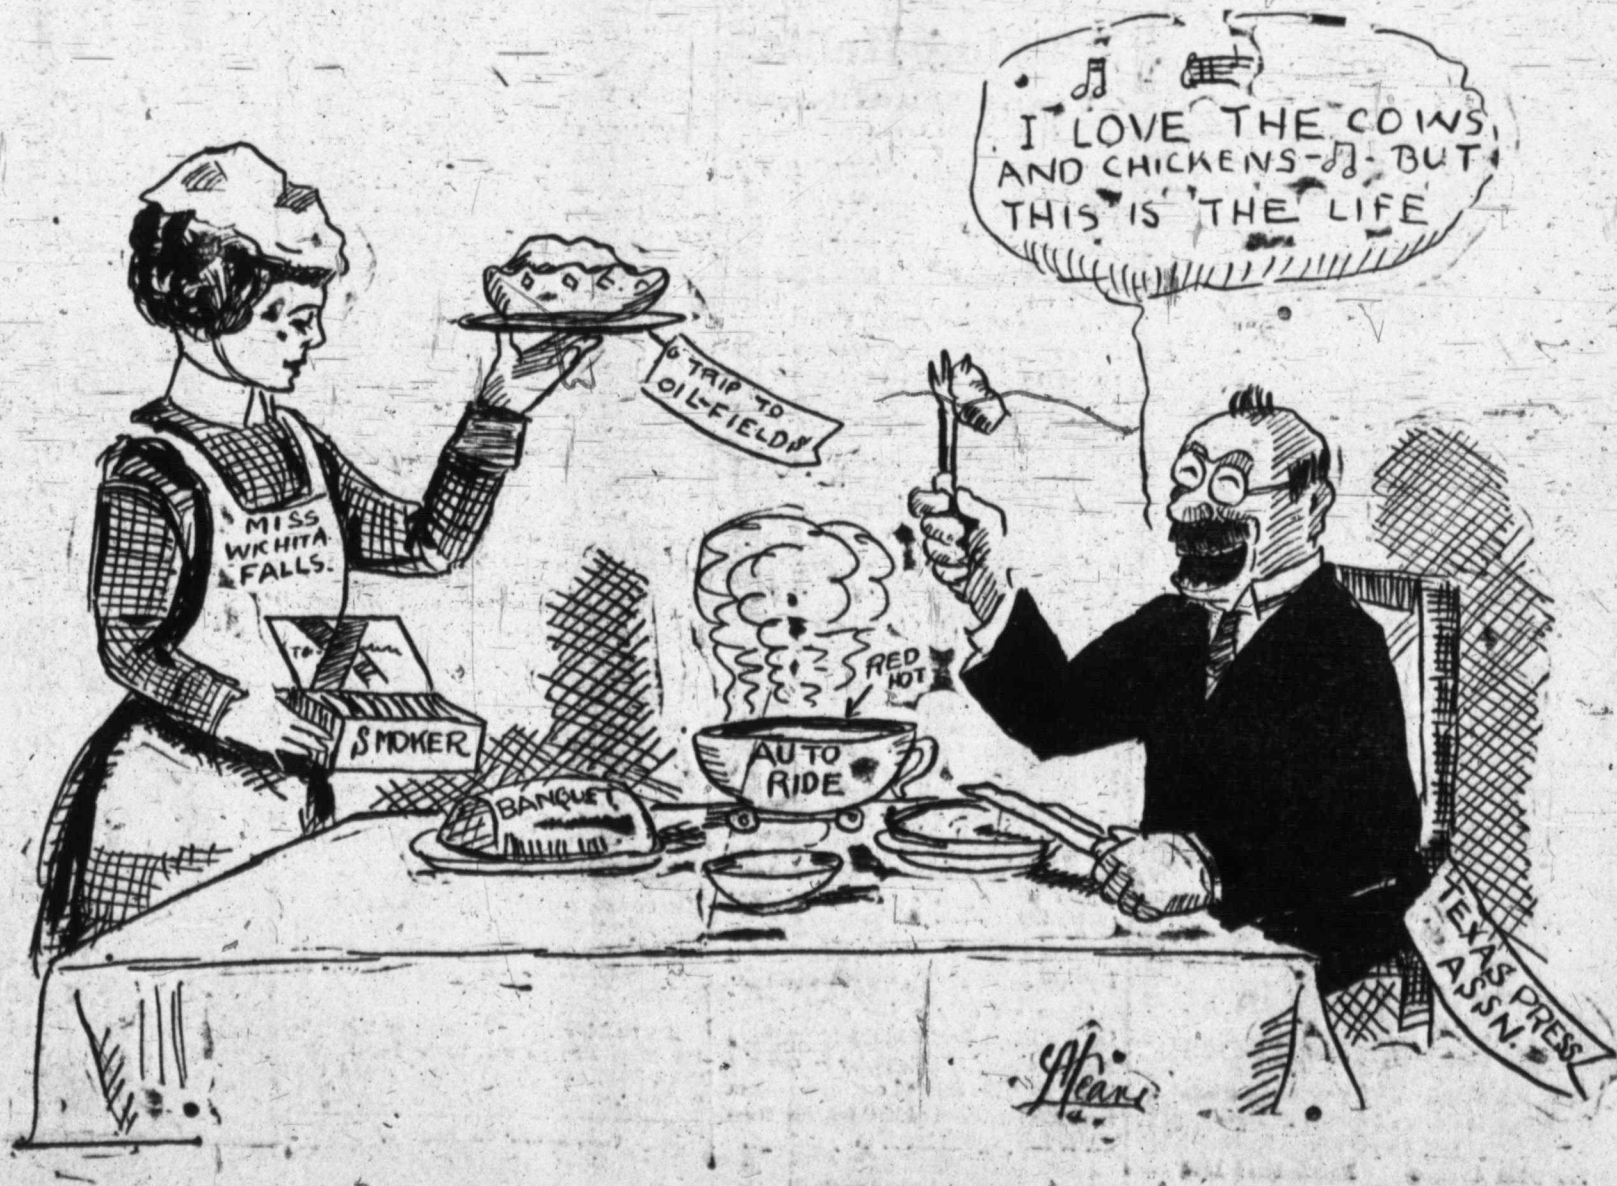

By Associated Press.

Niagara Falls, June 18.—Justice Lamar was at work early today on a reply to the statement issued last night by Emilio Rabasa of the Mexican delegation, but waited word from President Wilson and Secretary Bryan as to whether it should be made public. Mr. Rabasa's statement was a paraphrase of a memorandum given to the American delegates last Friday, criticising their plan for establishment of a provisional government.

The statement that the insistence of the United States on a constitutionalist for provisional president would be "tantamount to abetting and even exacting fraud and violence at the election," in Mr. Rabasa's statement caused much speculation as to the reason for its publication at this time. The American delegates were not offended but they thought that notice of publication of the substance of the memorandum to which a reply had already been given should have been conveyed to them so that a response could have been published at the same time. In the Mexican statement no reference was made to the fact that the American delegates had replied.

NOT CONSIDERED DISCOURTESY

While it was said the statement of the Mexican delegates savored of discourtesy the American delegation felt that the responsibility for any ill effects upon negotiations that might be produced by airing an exchange of public opinions in the press would fall on the Huerta delegates. It was made known that the American delegates answered almost immediately the memorandum received from Mr. Rabasa. The response was considered by the American delegates as adequate defense of the establishment of a new provisional government. It is said to declare that the Mexican delegation had not taken into consideration the fact that under no circumstance would the American government be a party to any influence in the elections of any country. Its preference for a constitutionalist for provisional president was due wholly to the contention that a man from that

Up the Road
"Friends of mine along the way,
Whither bound, this windy day?"
"Join us, friend, our way is one,
Up the road, till day is done;

"Up the road toward light of Home
Shining far for all who roam,
Shining for us brothers all,
Lest we falter, lest we fall;

"Up the road, with words of cheer
Fit to banish every fear,
Helpful deeds and kindly smiles,
Easing so the wind-swept miles.

"Up the road we brothers all!
Brave to answer every call;
Up the road, till day is done,
And the goal at last is won."
—From the Survey.

Two Sandwich Recipes
(By Mrs. T. E. Dobson)

One half jar peanut butter, one dozen olives stoned and minced. Mix together well, season with lemon juice and salt, combine with fresh lettuce to make sandwich.

Three hard boiled eggs, minced very fine, mix with minced olives, cress or parsley. Moisten with mayonnaise, season. This can be combined with an equal portion of potted ham with appetizing results.

(Recipes are solicited. Phone 1671, or send in to Times office.)

GARRISON-MATHIS WEDDING
TODAY IS BRILLIANT AFFAIR

One of the most beautiful church weddings of the season was that of Miss Vivian Mathis and Dr. Monte R. Garrison, which occurred at high noon with the M. E. Church, South, for the setting.

The ceremony was performed by Dr. J. L. McKee of the First Presbyterian church and the beautiful double ring ceremony was used.

In the decorations and in the gown of the attendants elegant simplicity was the keynote and a most charming effect was obtained. The decorations were centered about the altar, where ferns, rubber plants and other greenery was massed to make an effective background for the wedding party. A delightful conceit was the idea of a rainbow wedding which was carried out by the profuse use of tulle and in the sashes and accessories of the bridesmaids. The bride had chosen to have the basket motif featured, baskets of blossoms being used in the decorations and the maids carrying baskets of roses in a variety of tones. The family pew was marked off with ropes of smilax and ropes and bows of airy bridal tulle in the rainbow tints.

Mr. Durand gave an organ prelude, followed by "Here Comes the Bride" by Mrs. T. B. Greenwood on the violin. Mrs. G. Fred Thompson sang "At Dawning" and the bridal party then entered, coming down opposite aisles to the strains of Lohengrin. The bridesmaids, Misses Helen Jalonic, Carrie Kell, Phoebe Bishop of Georgetown, Annie Yewe Carter of Houston, and Jewel Kemp entered with the groomsmen, Messrs. Gibson, Britain, O'Donohue, McDowell, Pain coming down opposite aisles and alternating man and maid. The couples meeting at the altar formed a semi-circle for the bride.

At the first strains of the march Dr. McKee entered from the pastor's study and awaited the bridal party at the center altar. Following the maids and groomsmen came the matron and maid of honor respectively, Mrs. Walter Daugherty and Miss Edith Mathis, younger sister of the bride. Little Miss Ella Marie Mathis, youngest sister of the bride in the role of ring-bearer followed the maid of honor, bearing in each hand a full blown American Beauty rose, a gold-encircled which figured in the ceremony, resting in the heart of each. The bride made her entrance alone, coming down the long aisle to the altar, where she was met by the groom and his best man, Frank Griffith.

Baking Helps

Learn to Regulate the Heat of
Your OvenBy Mrs. Janet McKenzie Hill, Editor of
the Boston Cooking School Magazine

There is just one way to make your cakes rise high and keep an even surface. Have your oven moderate at first, until the cake is fully risen; then increase the heat, so as to brown it over quickly. Extreme heat stiffens the dough. If you stiffen the outside of the cake before the rising is complete, you stop the rising process. Then the leavening gas, forming inside, will bulge up the center, where the dough is still soft, and spoil the shape of the cake.

NOTE—Biscuits or other pastries made from stiff dough, that are cut into shapes for the oven, bake in a hot oven. This is because the cut surfaces of the dough do not seal over, but rather leave the pores open, allowing the leavening gas to escape and the heat to penetrate readily. Small ovens cool quickly; therefore they should be made several degrees hotter than a larger oven, and the less the door is opened the better. Do not attempt to bake bread and pastry together. Bread requires prolonged, moderate baking—pastry the reverse.

Have a strong underheat for baking powder preparations, especially pastry.

These are only a few of the many baking helps found in the K C Cook's Book—a copy of which may be secured by sending the colored certificate taken from a 25-cent can of K C Baking Powder to the J. J. Rogers Co., Chicago.

An who entered from the study door near the altar.

On the conclusion of the ceremony the party left through the front door. Mendelssohn's Recessional being played by Mr. Durand.

The bride's gifts to her maids were dainty lingerie clasp sets and the groom presented each of his attendants with monogrammed tie clasps. The bride was attired in her traveling suit, a modish suit of Beauden Blon silk faille, trimmed with touches of Galliarde gold, her hat was of blue milan hemp to match trimmed with two self colored plumes and all accessories were to match. A huge arm bouquet of American Beauty roses completed the charming ensemble. The matron of honor, Mrs. Walter Daugherty, wore a white organdie, trimmed with shadow lace and girde of white. Her hat was a dainty lace affair in white with faint touches of color and carried pink roses. Miss Edith Mathis, maid of honor wore a white lingerie suit and carried a bouquet with an exquisite garden hat in all white and carried an arm bouquet of white bride roses.

Miss Annie Yewe Carter's dress was of Italian net with touches of taffeta. Her girde and sash was of pink and the trimming of her dress was of coral. Miss Phoebe Bishop was crowned in white net with girde of blue and the blue note repeated in the attractive picture hat. Miss Carrie Kell wore a creation of white embroidered voile and Maltese lace. Small French flowers were used effectively on the waist and the sash of lavender formed the color note in her costume. Miss Jewel Kemp wore a lace and organdie robe over crepe de chine with mounting of blue. Miss Helen Jalonic wore a beautiful white gown with girde of soft yellow with touches of yellow on her picturesque garden-hat. The little ring-bearer was crowned in simple white, her dress of lingerie with wide sash of white moire taffeta.

To complete and add to the picturesque effect, each of the maids carried wicker baskets filled with roses and the attendants wore suits of pearl grey in harmony with the hour and the groom wore a conventional dark suit with sober accessories. Immediately following the ceremony Dr. and Mrs. Garrison left for Colorado points, after receiving the congratulations of friends who were present.

The principles in the wedding are of unusual prominence and are popular members of the young society set of this city. The bride is the oldest daughter of Mr. and Mrs. L. H. Mathis, one of the oldest and best families in the city. She is a graduate of the local high school and was for several years a student at Kild-Key College, Sherman. Later she pursued the study of voice at several noted institutions. She is among the city's most accomplished and beautiful young ladies exceedingly popular by reason of her charm and manner.

The groom is a prominent dentist of this city and stands high with his large circle of friends and their many friends are extending to them the heartiest of congratulations and best wishes in their new estate.

LOCAL ROYAL NEIGHBORS
SPEND DAY IN PETROLIA

Wednesday the Lone Star Camp No. 4108 Royal Neighbors of America went to Petrolia to adopt a club into the camp there. Arriving in the morning the local ladies were shown every courtesy possible, among the enjoyable features provided was an auto ride to the oil fields and a sumptuous dinner served downtown. After dinner the ladies were shown a gas well that had been opened up for their inspection. After the pleasures of the morning a large class was adopted and the ladies returned to Wichita well pleased with the day and the manner in which it was spent. Those going on the trip were: Mesdames Barclay, Boone, Bates, Cook, Craig, Colboth, Carter, Dillard, Dillard, Dike, Huddleston, Isler, Hill, Lee, Noe, Smith, Tucker, Thompson, Ubrich, West and Miss Craig.

FESTIVITIES FOR VISITING
LADIES ARE BEING HELD

This afternoon the ladies of the United Clubs are holding open house for the ladies of the Texas Press Association, the editors' wives and daughters and the lady editors of Texas, at the Elks' Club. The affair is in the nature of a general informal reception with musical features. Punch will also be served.

Tonight the ladies will again be the guests of the United Clubs at lawn party at the home of Mrs. J. A. Kemp. A short program is being planned for the occasion.

The club ladies have undertaken the entertainment of the visitors with the usual zest, characteristic of them and will endeavor to fill every moment of the guests' stay with some enjoyment making this visit one long to be remembered.

MRS. DELLIS HOSTESS TO
NEW IDEA CLUB WEDNESDAY

The New Idea Club met Wednesday afternoon in regular session with Mrs. D. D. Dellis. Sewing as usual occupied the attention of club members until late in the afternoon when a refreshment course of ice cream, cake and foot tea was served. Mrs. A. B. Crites and Mrs. Dellis, Sr., mother-in-law of the hostess were the guests of the afternoon. The club members present were Mesdames Carey, Simon, G. E. Friberg, H. J. Bachman and T. E. Dobson.

Mr. and Mrs. T. E. Dobson and daughter Miss Mathis left today for Knoxville, Tenn., where they will spend the summer.

TRIBE OF BEN HUR IN
SESSION MONDAY NIGHT.

The Tribe of Ben Hur met in regular session Monday night at the Moose Hall. They met for reasons known only to the members of that benevolent organization and engaged in pure enjoyment and pure amusement tempered with the business of the lodge. Several new members underwent the initiation ceremony and

torture and received no serious injuries. After the secretary had recorded the minutes of the meeting, some of the younger set who were gifted with that talent began dancing.

J. D. Kerns announced he would give a social party at his home, 1502 Austin street and the court unanimously accepted his invitation. The social is for the members of the Ben Hur and their friends and will be held on Monday evening, June 29.

There will be short talks made in behalf of the order by two or three of the old members.

T. B. Vanvooy and wife left this morning for Cleveland, Ohio, after a two months' visit with their son, C. R. Vanvooy and family. Mr. Vanvooy and wife are well pleased with this city and will probably return after attending to business matters at home.

DIAMONDS

Visitors in the city are invited to call and see our line of DIAMONDS. We do not believe it is excelled in the state, and we know our prices cannot be duplicated.

We call special attention to several beautiful stones recently taken from our loan department. These were pledged for just about half their value, and to get our money, we are placing them on sale at

VERY MUCH REDUCED PRICES

They vary in size from one-half carat to three and one-half carat, and may be mounted in any desired style.

ROWENA CIRCLE MEETING TOLD IN VERSE BY MRS. DEATHERAGE

Last Wednesday evening when the clouds hung low and it threatened rain, the ladies of the Rowena Circle No. 36 donned their cool summer dresses and went out to Circle again.

It made no difference what the weather chose to be, they went just the same, I'm sure you will agree.

For there was a good time waiting for each and every one.

Not forgetting the business which must be finished before the set of sun. Our members are increasing, for we're members strong and true.

We organized with nine and now we've twenty-two.

Another one was added to the roll this very day.

A reason within itself that you must not stay away.

Mrs. Sullivan was the hostess so generous and kind.

For she furnished us with enjoyment, not a dull moment did we find.

And our plans for the future on such you'll want to know.

We are strictly up and doing, not the kind that grows so slow.

So a Circle lady I know you'll want to be.

But first you join the Yoeman then the Circle comes you see.

We'll show you a good time, planning things so great and grand.

And you'll enjoy yourself immensely and the good times of our band.

It was late in the evening as time quickly passed.

That delicious refreshments were served which always come at the last.

Each one so very much delighted with the lovely cream and cake.

That I'm sure there was no time for snoozing, all were wide awake.

At last the time had to come to bid our hostess goodbye.

We'll meet again two weeks from today, you can come if you will but try.

Let you forget, I will kindly mention the time and place we next meet.

Which will be June 1st with Mrs. Zetzsche at 1713 Sixth street.

Those present were Mrs. Smith, our president fair.

Who rules the Circle with every care, Mrs. L. Deatherage, our vice president kind.

Whose duty is to serve, when no president we find;

Mrs. Dunaway, our secretary faithful and true,

Taking care of the books and writing members too;

Mrs. Richardson, whose time is so limited we know,

However, she stays for an hour or so; Mrs. McAllister, coming in with her jokes,

A pleasant feature for the rest of the folks;

Mrs. Shuelen with smiles most sincere, There can none of us help but know she is here;

Mrs. Zetzsche an elderly lady grand, Who enters the Circle with heart and hand;

Mrs. Gibbons with ideas both bright and new;

Without her the Circle would know not what to do;

Mrs. Jenne who's so willing to do Anything the Circle might want her to;

Mrs. Lee, a visitor, thrice welcome is she,

Come join our fun and a Circle lady be;

Mrs. Fitzgerald, our new members today

On with the good work, Hurrah and Hurrah.

—MRS. L. DEATHERAGE.

DR. M. A. BECKMAN CLAIMS BRIDE IN FORT WORTH

Dr. M. A. Beckman, formerly of Fort Worth, but now of this city and Miss Nellie Clift of this city were united in marriage early Wednesday morning in the presence of a number of their friends at the Westbrook hotel in Fort Worth, Rev. Anderson of that city officiating.

Miss Clift has been living here since childhood and is a popular young lady and one who has many friends who wish her happiness.

Dr. Beckman came here from Fort Worth recently and formed a partnership with Dr. Mark Moore.

Dr. Beckman has many friends in Fort Worth that being his old home and has made many friends since coming here.

Both bride and groom are graduates of the T. C. U. of Fort Worth. They returned home on the morning train and will be at home at 1201 Bluff street.

Mrs. C. C. Huff and daughter, Miss Pista, returned yesterday to their home in Dallas. They were accompanied by Miss Katherine Watts who will be their guest for some time.

TONIGHT AND TOMORROW'S ENTERTAINMENT FOR EDITORS

Tonight's entertainment — Garden party for the visiting ladies at 8 p. m., at the home of Mrs. J. A. Kemp in Floral Heights. Smoker for the gentlemen at the Elks Club at 8:30, by ball at pavilion.

Tomorrow's entertainment — Automobile ride to the Petroli, oil and gas field in the afternoon. Banquet at Lake Wichita pavilion upon return from Petroli in the evening followed by ball at pavilion.

PEN POINTS

Sam Harben is some secretary, and Frank Cates is another.

State Press-ident Joe Taylor is making good on the job. Presiding comes perfectly natural to him.

We have "in our midst" not only the quill pushers, but a large and select bunch of supply men, and likewise quiten sprinkling of politicians. And they're all good fellows and "welcome to our city."

Have you heard the latest? Ask Ben Hartley or W. D. Cox.

No, my son, that is not a Russian general with his decorations. It is a convention editor with his badges.

President Taylor told the truth when he said that the Texas Press Association "carries with it some hefty orators." Take O. P. Gresham for instance—weighs three hundred in his sock feet.

Col. B. C. Murray of Denson, seventy-seven years young, is one of the kids of the convention, along with Col. F. B. Baillio, Col. W. A. Bowen and State Press.

Corpus Christi, Austin and Mineral Wells all have hustlers on the ground working like beavers to land next year's convention for their respective cities.

So far the weather has been all that wheat harvesters could wish and nearly wheat crops have been cut and threshing and marketing of the grain crop is now in full away. The price of the grain is about all that is disappointing, and this drop from 80 cents to 75 cents per bushel will cause many wheat farmers to hold for a better price.

We have with us today the Texas Press Association and the Times joins with the Chamber of Commerce, the Civic League and the entire citizenship in extending to each and every member of that splendid organization of newspaper men and women a most hearty welcome, trusting that it may be such that, should Wichita Falls again the pleasure of entertaining them in a body that it will not be denied. There are other cities, however, that are seeking this honor, and it can hardly be expected that Wichita Falls will be selected as the place for next year's meeting. But perhaps in another year or two the editors will want to come back to Wichita. Therefore, let us make their present visit as pleasant and enjoyable as possible.

If the water pressure can be maintained as strong as it was the morning during the fire at the corner of Seventh street and Indiana avenue, there would be little use of the city government expending \$4,000 or \$5,000 for another fire engine. Although the fire engine was quick to reach the scene, it was found the water pressure was strong enough and there was no need to use the engine to increase it. This is probably due to the fact that the water company has just recently installed new pumping machinery that has brought the pressure up, and for this the water company is to be commended. There have been fires to occur in Wichita Falls when the pressure was so weak that even with the aid of the fire engine, only one or two small streams could be forced to the top of a second story building. It is different now, and with water pressure such as furnished by the water company at this fire, there should be no complaint whatever.

Phone, office 89; res. 1709

So long as it is the policy of the United States not to take from Mexico one foot of her territory or demand from her one dollar of indemnity of the war, it would seem that in leaving the matter of bringing peace in Mexico among the warring factions and happiness to that country's people to the mediators was exactly the proper thing to do. That the delay in the work of the mediators is being criticized by those unfriendly to President Wilson and Secretary of State Bryan was to be expected. But suppose it should require another month before an agreement is reached by the mediators, or even two months, is not that much better than sending into Mexico a great army of American soldiers to conquer and keep conquered the two warring factions? Such a plan would not only be expensive, but would be accomplished if undertaken, at the sacrifice of the lives of thousands of American soldiers, and all for what—the happiness and welfare of the Mexicans themselves. If the mediators can reach an agreement by which peace can be brought about without humiliation to the United States, they should have all the time they ask, even if it takes all summer.

VILLA WANTS MORE AUTHORITY GIVEN

SAID TO HAVE DEMANDED HE BE GRANTED SOLE CONTROL OF ARMY

MAY CLOSE PRESENT BREACH

Rebel Officials Believe Ultimatum Will Be Granted By General Carranza

By Associated Press.
Eagle Pass, Texas, June 18.—That General Villa has presented an ultimatum to Gen. Carranza demanding the absolute separation of the civil and military branches of the constitutional government was the substance of dispatches received at constitutional headquarters in Piedras Negras today. A committee of three officers was said to be now in conference with Gen. Carranza at Saltillo, presenting Gen. Villa's plan. According to constitutional officials at Piedras Negras this plan is as follows:

1. Villa to have complete control of the army and to direct the military policy without interference, while Carranza is to have control of the civil government and foreign relations.

2. Villa agrees to recognize Carranza as his superior, providing Carranza accords him recognition as supreme military chief.

3. The promotion of officers and the disposition of their commands to be in Villa's hands.

Constitutionalists express their belief that if these demands are granted Villa would proceed with the campaign and take personal command of the forces in the field. Otherwise they said they thought he would persist in his resignation and retire to Chihuahua to await such time as he could serve the constitutional cause without friction.

MEDIATION OUTLOOK IS DARKER THAN EVER

(Continued from Page 1.)

party must be taken in order to insure the disarmament of all the factions that otherwise would menace the new Mexican government, if a man not satisfactory to the constitutionalists should be installed in place of Huerta.

ANOTHER AUTO FIRE ENGINE MAY BE BOUGHT TONIGHT

Negotiations for the purchase of the proposed new auto fire engine will be terminated at a special session of the city council this afternoon when the contract for the apparatus will be let. The following representatives of fire department apparatus concerns will appear before the council and submit their claims: J. H. Schmidt, American La France Co., Elmira, N. Y.; E. T. Robison, president of the Robison Fire Manufacturing Co., St. Louis; Chas. E. Johnston, the Seagrave Co., Columbus, O.; Arthur S. Goetz, the Nott Co., Minneapolis.

Three types of engines are under consideration—piston, rotary and centrifugal. The machine which at present does service in running down alarms in this city is of the rotary class and has proven invaluable to the city in the fighting of the flames since its introduction here four years ago in February. "Vic" as it is affectionately dubbed, will be rebuilt and improved all around upon the arrival of the new truck and will grace the sub-station to be established on either Brook or Denver, the exact location being as yet undetermined. The new machine will hold forth at the fire department's new home. The local fighting material will then consist of the two giant engines and the combination hose wagon backed up by one of the fastest and classiest bunch of volunteers in Texas or elsewhere.

TODAY'S MARKET REPORT

New York Cotton.
By Associated Press.
New York, June 18.—Spot cotton quiet. Middling uplands 13.40, Gulf 12.55. No sales. Cotton futures closed steady. July 12.93; August 12.92; October 12.69; December 12.74; Jan. 12.59; March 12.62.

Chicago Futures.
By Associated Press.
Chicago, June 18.—Perfect weather in the harvest regions of the Southwest had a bearish influence today on wheat. Weakness was checked, however, by reports of big export sales and because of signs that farmers were showing a disposition to hold off for better prices. The opening which ranged from 1-8 to 1-4 decline to a like advance was followed by a general sag below the last night's level. Corn ruled steady on account of light offerings; after starting 1-8 lower to 1-8 up, the market appeared inclined to keep within those limits. Covering by shorts made oats firm. Wheat closed easy; corn closed unsettled. Prices, wheat, July 83; Sept. 81 3-8; corn, July 69 7-8; Sept. 67 1-4; oats, July 39 5-8; Sept. 38 3-4.

Kansas City Grain.
By Associated Press.
Kansas City, June 18.—Wheat No. 2 hard 90 1/4 to 91 1/4; No. 2 red 88 1/2 to 89. Corn No. 2 mixed 53 1/4 and 64. Oats No. 2 white 40 1/2 to 41.

Fort Worth Cattle.
By Associated Press.
Fort Worth, Texas, June 18.—Cattle receipts 3500, steady. Beeves \$8.25 to \$7.75. Hog receipts 1000, active and five cents higher. Bulk \$8.35 to \$8.50. Sheep receipts 1500, brisk and ten cents up. Lambs \$6.50 to \$8.35.

New Orleans Spots.
By Associated Press.
New Orleans, June 18.—Spot cotton steady, unchanged. Middling 13 13-16. Sales on spot 550. To arrive 100.

RIFLES AND AMMUNITION LANDED OFF IRISH COAST

By Associated Press.
Dublin, Ireland, June 18.—Large quantities of rifles and ammunition were landed during the night on the Connemara Coast in the west of Ireland for the Nationalist volunteers. The rifles are said to be of the latest American pattern. Torpedo boats have been ordered to prevent further gun-running.

\$70,000 IS INVOLVED IN SAN ANTONIO CATTLE DEAL

By Associated Press.
San Antonio, Texas, June 18.—A cattle deal involving a consideration of \$70,000 has been closed here by which Col. Ike T. Pryor of San Antonio, buys 2,000 head of steers from Ed C. Lanaster of Fallurris. The price which was at the rate of \$35 per head is a high mark for South Texas cattle reported here this season.

TEXAS EDITORS MEET IN ANNUAL CONVENTION

(Continued from Page 1)

Committee on Finance—G. B. Whitely, chairman; O. P. Gresham, N. C. Howe, Sam Braswell, H. A. Gibbs. Constitution and By-laws—V. A. Johnson, chairman; R. V. Reavis, H. Edwards, H. B. Terrell, W. A. Harris. Resolution Committee—Will H. Mayes, chairman; Wm. A. Bower, H. P. Nelson, J. A. Thomas, M. E. Wallace.

J. H. Lowry, F. B. Baillio and W. H. Whitely were appointed a committee to dispose of the president's address and Sam P. Harbin, B. C. Murray and W. A. Bowen were named as a committee to select a present to the president from the association.

Col. F. B. Baillio, historian of the association, formally presented the association with the manuscript of its history and a committee comprising G. R. Harris, Will H. Mayes and Henry Edwards was named to report on its disposition.

This completed the program announced for the morning session but as more than an hour's time remained before adjournment, papers on the afternoon program were taken up. "The Value of Newspaper Files and Their Preservation" was the subject of a paper read by J. E. H. Bailey of Waco.

Corpus Christi, Mineral Wells, Austin and Fort Worth are seeking the 1915 convention of the association and each has representatives here to present its claims. Just where the plum will fall is yet to be seen but sentiment seems to favor Corpus Christi at this time and the other contestants will have to pick up if the "undertowless" burg is defeated.

John W. Staiton is presenting Corpus Christi's claims for the honor

and had "undertowless" badges tacked on to a lot of folks this morning. The Mineral Wells contingent is headed by Editor Wilson of the Mineral Wells Index and they are offering handshakes in the form of mineral water, bottles of which were placed in the rooms of each visitor. Will L. Vining, secretary of the Austin Chamber of Commerce is presenting the capital city's side of the argument, armed with literature and the glad hand. Fort Worth is represented by Claude Callan of the Star-Telegram and H. Nugent Fitzgerald of the Record.

The Mineral Wells crowd had planned to come as a flying squadron in automobiles, but washed out bridges forced them to abandon their scheduled "capture" so as many as could came up by train.

Absence of several members on the program for papers shortened the afternoon session and the convention adjourned at an early hour.

USE OF FREE PLATE BY NEWSPAPERS DISCOURAGED

The Texas Press Association at this afternoon's session went on record against the use of "free" plate matter sent out by candidates and various organizations through the adoption of a resolution declaring that the association "looks with disfavor" upon such practice. The resolution was introduced by M. Adams of Plainview and was adopted after short discussion. The names of no candidates or no organizations which have been sending out plate matter were mentioned. The resolution as adopted follows:

"Resolved by the Texas Press Association that this body looks with disfavor upon the use of every series of so-called free plates and urges members of the association to not use it."

NEXT MONDAY IS OPENING DATE FOR LAMAR AIRDOME

Next Monday has been fixed as the opening date of the Lamar Airdome with the Keyes Sisters and their stock company as the attraction. Concerning them an advance notice says: "One of the most important theatrical engagements in this city in recent years is the appearance of the famous Keyes Sisters and their stock players at the Lamar Airdome, opening on Monday, June 22nd. This company comes from Dallas well recommended and just closing a long run to enormous business. Scenic productions of the latest Broadway successes will be offered and two plays will be given each week, changing the program on Mondays and Thursdays. For the opening attraction the management has secured the rights to the well known metropolitan success, "As Ye Sow" which is from the pen of the well known Harvey Harrison and is a play of merit. The leading parts are in the hands of the Keyes Sisters and Milton Byron and the principal comedy character is taken care of by the inimitable comedian Chet Keyes.

"The sisters are both young, extremely good looking and possess wonderful personalities in addition to being particularly clever in their respective roles. The company is composed of twelve people and a scenic artist has been secured to properly mount the plays to make the productions more elaborate. Among the plays to be presented are the following: "Little Girl Ho Forget," "Silver Threads Among the Gold," "Tess of the Storm Country," "The Turning Point," "The Lottery Man" and "The Fortune Hunter." The prices for this engagement will be ten, twenty and thirty cents and the ladies will be admitted free on the opening night."

FIRST NATIONAL WINS CASE
IN COURT AT SAN ANGELO

Point Involving Peculiar Question of Law Decided In Favor of Local Institution

The following concerning a case of some local interest is from the San Angelo Standard: "Involving a point of law that has never been brought up in Texas, the case of Washington county against the owners of Bismarck Farm went to trial before District Judge Timmins Monday evening. The suit was brought by Washington county, through its county attorney, L. B. Raspberry, against Pendleton brothers of San Angelo and the First National Bank of Wichita Falls. It seeks to restrain the defendants from maintaining a dam and irrigation ditches on the Washington county school land. "The peculiar question of law that is involved as stated by one of the lawyers in the case, is whether a prescriptive right or easement can be acquired over land belonging to the public free schools of a county as against a county. In other words, it is a question of limitation. 'If the land were owned by an individual, the long maintenance of the dam and

Two plays each week with magnificent scenic productions

ditches would establish the right of such maintenance," said the attorney. "But since the land is owned by a county the right of maintenance is questioned."

"The Bismarck farm lies on the South Concho just south of the city. The dam from which the farm is irrigated is located above the place on the Washington county school land, and the ditches run through this land to reach the Bismarck farm. In case the suit is finally decided against the defendants, it will be necessary for them to get their water for irrigation further down the river.

"The plaintiff is represented by County Attorney Raspberry of Washington county and by Blanks, Collins & Jackson. Hill, Lee & Hill represent Pendleton Brothers and Wright, Wynn & Harris represent the First National Bank of Wichita Falls. The case is expected to consume Monday and most of Tuesday."

R. E. Huff who has just returned from San Angelo says that the court rendered judgment for the defendants affirming their right to an easement over the Washington county school land. The defendants proved that the dam and ditch had been erected in 1874 and 1875 and that the water

had been used by them and their predecessors in title, running over the Washington county school land for nearly forty years, also that the State has recognized the rights of the irrigation ditch owners who constructed the dam and ditch by giving them 31 sections of public domain under laws then in force which authorized assistance to irrigation companies and railroad companies. The defendants recognized that no limitation would run against the county, but sought to establish to the satisfaction of the court that Washington county had granted originally the right for this purpose but that through carelessness the record had not been correctly made or had been destroyed as there was proof of some mutilation of Washington county's records. Even the attorneys for Washington county admitted that they had absolutely no equity in their claim, there being abundant proof that the county officials knew all the time for the past forty years of the existence of the ditch and that no objection had been made to it until suit was filed. The right to use this ditch is a very valuable one to the defendants and yet the county could not in any manner use this water to irrigate her own lands.

The remarkable values that we have offered for this sale, combined with the extraordinary big selection marks this sale as

WELCOME TEXAS EDITORS

to the FACTORY CITY. Today all Wichita Falls feels a thrill of pride to have as her guests within her gates the distinguished craft who have done more than any other to make Texas as great as she is big. Today Fra Howard and Fra Haney are having a holiday, and the editorial departments are in the hands of the office boys, who will no doubt change the editorial policies of both sheets by endorsing Jim Lowry for president of the United States, thus showing that in the matter of real brains they have the moguls nine miles down the speedway with a bent axle and a dead engine. The Knights of the Quill are invited to do as they please, as the police department is stone blind for three days. If you want to wear out the sidewalks and tear down Union Station, that's all right. We have only one request to make that you don't fail to get the proper optical slant on this husky village and then try to decide whether or not you have seen anything like it on earth or elsewhere. If any native gets chesty and refuses to recognize the distress signal, phone the

TO THE VISITING EDITORS

THE LAST WORD IN IMPROVED TYPESETTING MACHINES; THE
ACME OF HIGH QUALITY; THE GENERAL UTILITY MACHINE—

MODEL "B" INTERTYPE

Multiple Magazine

Is on exhibition at the office of The American Printing Company, 707 Seventh Street
and all visiting editors and printers are invited to call and see the machine demonstrated

A World Record Made on an Intertype

Arch M. Culmore, owner of Intertype No. 305, doing the composition for The Worley Printing Company, Dallas, Texas, set a new world record for continuous single price composition, quantity considered, on THE INTERTYPE, by setting

3,751,000 Ems in 293½ Hours

This is an average of 12,800 ems an hour, 6 point on 15-em slug. Much of the time Mr. Culmore was operating at the rate of 14,000 and 15,000 ems an hour. The copy was City iDirectory names, with many capital letters, much more difficult than regular reading matter. The copy was all written with lead pencil and only fair copy at that. Considering the enormous quantity of matter set, the length of time consumed—18 1-22 days—and kind of copy handled, a world record was made. This feat was made possible only because of the superior assembler and distributor mechanism of the INTERTYPE.

GET A SOUVENIR BLUEBIRD—"The Lucky Bluebird"—The soul of happiness; the emblem of good cheer and good luck, in the form of neat brooch pins are being distributed as souvenirs as souvenirs at the exhibit rooms and all visitors are invited to call and get one, especially the ladies. These souvenirs can be had only at the exhibit. Maeterlinck says: "We need the Bluebird for our Happiness." We say: "You need the Intertype for its efficiency."

Don't leave Wichita Falls without seeing The Multiple Magazine INTERTYPE, especially brought here for this meeting of the Texas Press Association. It is sold for \$2750.00 on easy terms, for which apply at the Exhibit Room in The American Printing Company Office, 708 Seventh Street.

See "The Devil's Sweetheart"

"The Devil's Sweetheart" is a moving picture film introducing in 'movies' a clean little love story in which a country boy applies for a position in a city without avail till he sees a sign on a great Texas Printing Office door: "Boy Wanted." He secures the position of 'printer's devil' and gradually works his way up to the superintendency of the plant. A rush job amounting to \$50,000 in school books is taken into the office and with the aid of two high grade INTERTYPES the books are composed on record time and a \$1,000.00 bonus is won. The once "printer's devil," already in love with the proprietor's daughter, is then happily married to the "lady of his choice, and they live ever thereafter happy." All the process of printing, binding, ruling and trimming books is shown in the picture. It is an interesting and instructive film well worth seeing and is presented with the compliments of Mr. Wm. D. Cox, manager of the New Orleans Agency of the International Typesetting Machine Company.

The film can be seen at the Victoria Theater, 815 Ohio Avenue, any hour Thursday and Friday from one to eleven p. m.

GET TICKETS AT THE INTERTYPE EXHIBIT.

Wm. D. COX, Manager

REPLIES TO DR. SCOVILLE'S CHRISTIAN SCIENCE SERMON

Dallas Man Takes Issue With Evangelist on Statements Made During Revival

The remarks of Dr. Charles R. Scoville in his sermon on May 19, when he indulged in rather sharp criticism of Christian Science have been accepted by members of that faith and Brigham C. Odum of Dallas, chairman of the state committee which makes it a rule to answer such criticisms as a reply to the statements made by Dr. Scoville as reported in The Times. Mr. Odum's letter follows:

To The Wichita Daily Times: Your paper of May the 20th gave a report of a sermon delivered by Dr. Scoville at Wichita Falls in which the doctor made some references to Christian Science. These criticisms, when examined in the light of the facts, will be seen to be without foundation, and are therefore misconceptions of the subject. The report says Dr. Scoville "was particularly severe in his discussion of Christian Science; that he urged his hearers to cling to the Bible when advocates of this faith appealed to them."

Just what else the doctor said the writer does not know, and he will confine himself to the consideration of the statements given in the newspaper report. Those who heard the denunciations of Christian Science by Dr. Scoville and who may chance to read what is here written, should know that Christian Scientists do not make appeals to people with a view to making them converts to Christian Science. Those who have been healed of some physical ailment or sinful tendency, through Christian Science treatment and study, naturally feel a desire to tell these experiences to their friends who may be in distress, their purpose always being to help them to better and happier conditions of life and not to proselyte. Christian Scientists do not urge people to join the Christian Science church, nor do they condemn other churches and their methods of worship. Those who ask for membership in a Christian Science church do so of their own volition, their fitness therefor being determined through examination of the applicant by a committee of church members. The doctor's warning that "his hearers cling to the Bible when advocates of the Christian Science faith appealed to them" implies that Christian Scientists do not accept the Bible. The truth is Christian Scientists read and study the Bible daily—the same Bible as do other Christians; they teach nothing in their religious tenets which has not for its basis the holy Scriptures. In the Christian Science text book, Science and Health by Mary Baker Eddy page 497, this statement will be found: "As adherents of truth, we take the inspired word of the Bible

as our sufficient guide to eternal life." Again (Ibid. same page). "And we solemnly promise to watch and pray for that mind to be in us which was also in Christ Jesus; to do unto others as we would have them do unto us; and to be merciful, just and pure."

The critic declares that "Christ came from God, but one could not say that the 'dope' Christian Science, came from such a source." Christian Scientists plant themselves on the Christ and it is their daily prayer and effort to manifest the Christ spirit. They would be judged by the standard set up by Jesus. "Ye shall know them by their fruits." Christian Science stands for all that is right and good and for nothing else; it holds a lofty concept of the brotherhood of man; it inculcates faith in one God; believes in one Christ and also in the Holy Ghost. The mission of Christian Science is to show mortals the way of salvation—salvation from fear and sin and from the effects of these evils. This movement, which has so much good to its credit and which is daily blessing mankind, is denominated by Dr. Scoville as "dope." The doctor's own concept of Christian Science is what he is really opposing and not Christian Science as it really is. No thinking person could believe that a teaching such as Mr. Scoville represents Christian Science to be, emanates from God; and if the gentleman had the true sense of the subject he would have no desire to condemn it. The term "dope" is not an elegant one and the doctor's use of it evidently shows the extremity to which he is driven, convincing one that denunciation cannot profitably supplant argument. As is often the

case with such discussions, the natural and logical outcome of the minister's warning that his hearers disregard the appeals of Christian Scientists and cling to the Bible will doubtless be that many will purchase the authorized Christian Science literature and learn for themselves what the source of Christian Science is; whether it is dope or whether its origin is in God.

The evangelist insists that "the first thing one gets from a Christian Scientist is the price of the treatment." Here the vital issue is evaded and the preacher directs the attention of his hearers to that which has little or no concern for one who has been led to believe by material medicine that his condition is hopeless. If the speaker had been fair and willing that his congregation know the facts as to the teachings and results of Christian Science he could at least have admitted that Christian Science is a world power for good, as is evidenced by its rapid growth, and the work it is accomplishing in healing the sick and reforming the sinner. Would one who has been restored to health through Christian Science, after a period of helpless invalidism; who has been given spiritual freedom, after almost a life time of hard bondage to some form of sin, stop to quibble over "the price of the treatment?" Would he not rather rejoice that he had "found the pearl of great price" and be eager to bring to the consideration of his fellow mortals this saving and redeeming truth? The price of the treatment would be a matter of small moment in comparison with the great good received. Mr. Scoville complains because "Mrs. Eddy says Christ never died."

"Any religion that does away with the blood of Calvary, I am dead against it," declared the speaker. The following statements from Science and Health will show Mrs. Eddy's position on the point in question concerning the Christ: "The advent of Jesus of Nazareth marked the first century of the Christian era, but the Christ is without beginning of years or end of days. Throughout all generations, both before and after the Christian era, the Christ, as the spiritual idea—the reflection of God—has come with some measure of power and grace to all prepared to receive Christ, truth. Abraham, Jacob, Moses and the prophets caught glorious glimpses of the Messiah or Christ which baptized these seers in the divine nature the essence of love. The divine image, idea or Christ was, is and ever will be inseparable from the divine Principle, God. Jesus referred to this unity of his spiritual identity thus: 'Before Abraham was, I am.' 'I and my Father are one.' 'My Father is greater than I.'"

By these sayings Jesus meant, not that the human Jesus was or is eternal, but that the divine idea or Christ was and is so and therefore antedated Abraham; not that the corporeal Jesus was one with the Father, but that the spiritual idea, Christ, dwells forever in the bosom of the Father, God, from which it illumines heaven and earth; but not that the Father is greater than Spirit, which is God, greater infinitely greater, than the fleshly Jesus, whose earthly career was brief.

"The invisible Christ was imperceptible to the so-called personal senses, whereas Jesus appeared as a

bodily existence. This dual personality of the unseen and the seen, the spiritual and material, the eternal Christ and the corporeal Jesus manifested in flesh, continued until the master's ascension when the human, material concept or Jesus, disappeared, while the spiritual self or Christ, continues to exist in the eternal order of divine Science, taking away the sins of the world as the Christ has always done, even before the human Jesus was incarnate to mortal eyes."

Christian Science does not "do away with the blood of Calvary." The spiritual interpretation of flesh and blood is expressed by this statement from Science and Health: "The spiritual essence of blood is sacrifice. The efficacy of Jesus' spiritual offering is infinitely greater than can be expressed by our sense of human blood. The material blood of Jesus was no more efficacious to cleanse from sin when it was shed upon the accursed tree, than when it was flowing in his veins as he went daily about his Father's business. His true flesh and blood were life force; they truly eat his flesh and drink his blood, who partake of that divine life."

Here is the doctor's concluding reference to Christian Science: "Before you are such a fool as to believe in Christian Science sit down and read your Bible." A fool is one who is destitute of reason; not guided by wisdom; one who lacks judgment. The indictment is a severe one, but it is out of harmony with an editorial comment in a leading daily newspaper of this country: "The church Mrs. Eddy founded but a few years ago already has a membership, made up not of ignorant, credulous people, not of those who are easily duped, who

are moved by prejudice and passion, but more largely than the average denominational church of thoughtful people, educated people, intelligent and cultured people, drawn mainly from the leading Protestant Christian churches throughout the world, a unique religious body unlike any other in history and yet holding to certain fundamental truths which people of all religious beliefs admit, a religious body having some of the finest edifices erected in modern times. Mrs. Eddy did not live in vain. The world has been made and will still be made the better for her having lived and she has left an impress upon the world that will go down the centuries yet unborn."

The Robatch Mineral Water. Acts directly on the digestive organs of the stomach. Strengthening the kidneys and keeps the blood in fine condition. Good circulation is the only cure for constipation, rheumatism and the only way the system has to throw off germs that cause typhoid, smallpox and other loathsome diseases. GLASS PLANT IMPROVEMENTS
ARE PROGRESSING RAPIDLY

New Machinery Being Installed In Two Plants and Large Force Is At Work

Steady progress is being made at both the window glass factory and Ball Brothers' plant in the factory district, installing the new machinery and equipment in preparation for a busy season next fall and winter. In the window plant, it has been necessary to remodel the entire factory, the new machinery requiring a much higher ceiling than was necessary when the blowing was done by the men. A big addition to the warehouse is being constructed, increasing the storage capacity to care for the additional output.

At Ball Brothers' plant, the new machinery is being installed rapidly, but no date has been set as yet for the reopening. Shipments continue daily, although they are below expectations on account of the short peach and fruit crop throughout Texas.

LOCAL NEGROES TO OBSERVE
EMANCIPATION DAY TOMORROW

Will Hold Picnic East of City With Oratory and Other Features Planned

Wichita Falls negroes will tomorrow observe Emancipation day, anniversary of the signing of the emancipation proclamation by President Lincoln after the Civil War. Emancipation Day or "Jubilee" as it is known, will be observed here with a picnic on the old baseball park across the east lake and with a dance and other festivities at night.

Local oratorical luminaries among those of the African persuasion will hold forth and a program of speeches, recitations and other features has been prepared. Those in charge say they want to make the celebration properly commemorative of the occasion without the objectionable features so often noted in observance of the day.

Phone 1067. Suits cleaned pressed \$1.00. Gupion, the Tailor. \$1.10

NEW BRIDGE WILL SOON BE
READY FOR WAGON TRAFFIC

Movement To Pave Burnett Street Is Started In Connection With Opening

The new bridge across the Wichita River at the foot of Burnett street, connecting Scotland Addition and North Wichita with the south part of the city will be ready for traffic early next week from present indications. The bridge is now completed and as soon as the approaches have been put in condition it will be opened to traffic. It is expected that considerable traffic will come into the city by that route as soon as those north of the river become accustomed to its use.

In connection with the opening of the bridge, a movement is under way to pave Burnett street for a number of blocks leading to the bridge. Property owners on this thoroughfare sometime ago signified their willingness to pave and it is considered probable that the work will be done.

The formal opening of the bridge will be held on July 4 when the independence day celebration will be held in the park donated to the city by the realty company.

PASTOR NOW IN CHARGE OF
FACTORY DISTRICT MISSION

Rev. Simpson of Hollister, Okla. Assumes Duties—Services To Be Held Regularly

Rev. Lide Simpson, pastor of Hollister, Okla., has been officially placed in charge of the Paul's Memorial chapel as the M. E. Mission in the factory district is known. He will look after the services in this thriving little church during the summer at least in co-operation with Rev. C. C. Smith of the First E. Church.

This will make it possible for the memorial church to have services every Sunday night and such other services as the members see fit to hold and is expected to greatly strengthen the work there. In connection with

the work of this chapel, Rev. C. C. Smith said:

"This is a fine opening among a fine class of people and will undoubtedly be of much service to the community. These people are entitled to the best and it is the expectation to give it to them. This plan of work calls for co-operation from all the religiously inclined people in the community without regard to denominational connections. People uniting with the chapel group do not need to sacrifice membership in their own church and all people interested in the community are invited to work with this chapel organization even though they may have membership elsewhere."

You had better come and have your eyes tested for glasses before it is too late. A. S. Fonville, Mfg. Optician, phone 31. 708 Ohio. 26 tfe

A Million Dollar Wheat Crop for a Starter

The bumper wheat crop will be like a touch of high life for Wichita Falls. With other crop prospects as fine as fine can be; the resumption of the glass factories in the near future, and the get-there spirit of Wichita there is going to be something doing in real estate before long. Of course you can wait and pay more for choice locations but you can't wait and get the same locations at

Southland Addition is right in the choice residence portion of Wichita Falls. Every modern convenience. Built up on three sides. Southland Addition is not a speculation—it's a cinch. Let us show you. Money loaned to homebuilders. prices that you can buy them at today.

Bean & Gohlke, Agts.

Let Every One Boost

It is now almost absolutely sure that Texas is going to have an era of unparalleled prosperity this summer and fall, and especially Wichita County which has one of the largest wheat crops ever seen in this country. Money will soon be plentiful and times will be good.

Through all the hard years of crop failures Wichita Falls has been progressing nicely, growing faster than any city of similar size in the United States. Every month new industries and new enterprises are locating and being built in this city. With contracts already let and in sight the month of July will witness over a half million dollars of improvements under construction. With good crops and plenty of money in the country Wichita Falls will go forward with leaps and bounds.

The rapid growth of Wichita Falls means that property values will double and treble. Now is the time to make some investments. Let us show you some bargains.

DISTRICT SUPERINTENDENT OF M. E. CHURCH IS VISITOR

Finds Local Affairs in Good Condition—Outlook Encouraging Throughout Territory

Dr. W. T. Euster, district superintendent of the Fort Worth district of the Oklahoma conference, was in the city yesterday looking after the business of the third quarterly conference in connection with the First Methodist Church. Local reports show everything paid up in full and conditions generally prospering. The church is in splendid shape now and has a very loyal and energetic bunch of members.

Dr. Euster reports the progress of the district as very encouraging. At the present time gains in benevolences and membership are ahead of the last full year and there are three and one-half months to work yet before this year is up. Dr. Euster travels over a large section of Oklahoma and Texas and is very enthusiastic as to the future outlook in these sections.

The great harvest is putting new life into all lines of church activity and progress is in the air. He considers the local Methodist Episcopal church among those which have a decided future and Wichita Falls as one of the liveliest places on his long rounds.

TICK ERADICATION MAKES CATTLE BUSINESS BETTER

Improvement in Both Number and Grade of Cattle Along Quarantine Border Noted

By Associated Press. Washington, June 18.—Eradication of the cattle tick has resulted in a strong impetus being given to the cattle and dairy industries, according to officials of the department of agriculture. This conclusion came from study of replies from more than 1000 stockmen and farmers in eleven states bordering the quarantine line.

The states affected include: Texas, Oklahoma, Arkansas, Alabama, California, Georgia, Mississippi, North and South Carolina, Tennessee and Virginia. The average gain in weight of cattle subsequent to the tick eradication for the entire territory was 19.14. Far more flattering were reports concerning the increase in quality of cattle since tick eradication, the average for eleven states, being 26.91 per cent, which officials say makes these cattle one-fourth better in grade than under tick conditions.

The average loss from Texas fever before tick eradication for this same territory was thirteen per cent. The annual loss from deaths alone caused by the fever was approximately \$5,000,000. A substantial increase in the yield of milk also was reported.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Texas Testimonials. Dr. E. W. Hall, 936 Olive St., St. Louis, Mo. Sold by all druggists. (Adv.)

CONCRETE IS BEING LAID BETWEEN BROOK AND DENVER

When Completed Will Make Fifteen Blocks of Paved Highway On That Thoroughfare

Work is under way on Tenth street paving the section between Brook and Denver and this will be finished within the next ten days or two weeks. This will give an unbroken paved highway from Michigan to Denver, a distance of about a mile and a half. Concrete is being used. This pavement has proven very satisfactory on that part of Tenth street where it has been laid.

When this paving is completed, Wichita Falls will have a total of over thirty blocks of paved streets and as soon as the city's finances permit the issuance of bonds for further work of this kind it is expected that the paved area will be materially increased.

BENNETT BURLEIGH, WAR CORRESPONDENT IS DEAD

By Associated Press. London, June 18.—Bennett Burleigh, the oldest and most widely known war correspondent died here today aged seventy. He joined the ranks of the Confederates in the Civil War in the United States, fighting through the entire campaign, being twice captured and sentenced to death by northern troops. Later he turned to newspaper work and reported several campaigns for a news agency.

Chet Keyes and his own stock company opening at Lamar Airdome Monday, June 22.

Combination Is Need

To Get Into Postoffice:

New Doors Are Put In

How to get into the postoffice: Approach the building carefully from the left side, holding your hat in your left hand. Walk up the steps and knock three times. Then wait until two Southland cars have passed, after which you will receive a printed slip of paper. Turn around and go four doors to the right, then

six to the west; be sure to keep your hat in your left hand. Upon arrival at the place indicated, sit down and fill out a blank giving your name, age, sex, color if any, disposition, religion if any, name before marriage and previous condition of servitude. Then return to postoffice and present filled out blank at door and receive another slip of paper. Follow directions on this. It tells you to go to the viaduct and look under a large rock where you will find a small steel case. Stand before this, holding your hat still in your left hand and repeat the words "if not;" then turn around three times and repeat the words

"fifty-fifty." Then seize the box firmly in your right hand and return to the postoffice and go in the back way. It isn't really as bad as all that, though postoffice patrons who are trying to get used to the new patent doors on the government building may think this isn't much of an exaggeration. You have to go through two doors on the west side and if you forget and try to go in through the "out" door or out through the "in" door you get a bumped nose for your pains. Postmaster Bacon is trying to educate the public to the "go to the right" idea and the doors that have been installed certainly make it necessary.

A New Feature in BANK ADVERTISING

We are prepared to make loans to any responsible party in this vicinity for a reasonable amount on satisfactory security. We make this announcement to any person REGARDLESS OF WHERE YOU DO YOUR BANKING BUSINESS. As National Banks are not permitted under the law to make loans on real estate security, we cannot make loans with this class of collateral. We have a few customers who often request us to purchase for them real estate mortgages, and there are times when we can help you in this respect. We realize that this invitation for loans will bring many applications and we emphasize that the collateral security must be good and afford a full margin.

We have a well equipped Savings Department and we will be glad to have you call and let us explain the advantages of starting a Savings Account. 4 per cent interest per annum is paid quarterly on money deposited in this department. We believe you will be interested.

This Bank has been established for THIRTY YEARS. Our total resources are over ONE MILLION DOLLARS.
