CAR PLUNGES INTO WATER; FAMILY DROWNS

Census Head Here to Check County Districts

W. L. Turner, census supervisor for the 14th district, was in Ballinger Tuesday preparing plans to count the inhabitants, etc., for the federal census of 1930. Mr. Turner's district comprises thirteen counties, one of which is Runnels, and at present he is visiting each county, getting the boundaries of the small districts in each county designated.

Runnels county is divided into twelve enumerators' districts, two of which are in Ballinger. Each of these districts will have an enumerator named to do the work which will begin on April 1st, 1930. Mr. Turner stated that he had a number of applications for enumeration positions but that he was badly in need of men in the northern part of the county. He is anxious to sign enumerators for those districts, men who live there and who are well acquainted in that section. Applications from other parts of the county have come in satisfactorily and a number have applied for each position.

Those desiring to apply for positions as enumerators can make applications either to the census bureau at Washington or to Mr. Turner at Brownwood. All these places will be filled and the names announced before January 1st, 1930.

Counting in incorporated towns will commence on April 1st and must be finished in two weeks with all reports turned in to the supervisor's office at Brownwood. In rural districts the work will begin at the same time and must be finished and reports made in thirty days.

After spending some time here Tuesday Mr. Turner left for Comcho county to line up enumeration districts, and will go from there to McCulloch county. He will complete this phase of his duties in all the thirteen counties by January 1st.

The census to be taken in Runnels county next spring is expected to show a big increase over the report in 1920. Mr. Turner stated that the same would be true all over his district as during the past ten years there has been considerable development in many lines, and many people have moved into this part of the state. Ballinger's growth during the last decade has been very great and the enumeration is expected to be at least double that shown in 1920.

Urge early Ticket Buying for Special

Santa Fe officials here announced Tuesday morning that plans and arrangements for the special train from this section of the state to College Station had been completed and tickets for the train had been received at the local office. A pullman will be set off at Ballinger so that those desiring to do so can go to bed early and get a full night's sleep. Officials asked that those who could to get tickets Wednesday afternoon, making their pullman reservations early so that a complete and correct check could be tallied with the Pullman Company.

The train will leave Ballinger at 3:30 Thursday morning, arriving at College Station just before noon, and will leave there following the game. Those with reservations can go immediately to bed and will not have to get up until Friday morning when they choose, in Ballinger.

With tickets bought early in the day Wednesday a great deal of trouble and annoyance will be saved, railroad officials pointed out. The ticket office will be open at 4 o'clock Wednesday afternoon and will be kept open until 6 o'clock and possibly later in order to accommodate those who wish tickets.

ALPINE—Gold nuggets and ore were found by workmen on the new Santa Fe line between here and Presidio.

Chief Moreland is Given Big Siren

George H. Porter, co-proprietor of the Club Cafe, which was recently opened under the new management, has given Chief of Police Lee Moreland a siren for his automobile. This siren is one of the best on the market, costing \$550 new, and has a loud, clear tone.

The chief said that during a fire rush or when he was after some law violator in the past it had been difficult to thread through the traffic on the crowded streets, but that in the future with the aid of the large siren he expected to find a clear lane when he needs it. The siren was installed Monday, but as yet no occasion has arisen in which it was necessary to use it.

C. of C. In Meeting Here Tuesday

A regular meeting of the directors of the Ballinger Chamber of Commerce was held Tuesday morning in the chamber headquarters. Minutes of the special meetings which had been held recently were read and it was voted to place them in permanent record as minutes of regular meetings.

A report was given by the committee which represented Ballinger at the Interstate Commerce Commission hearing at San Antonio relative to the proposed extension of the Atlantic and Pacific line to San Angelo. The report was placed before the executive board, as was the transcript of the meeting in San Antonio received here for reference and to be used in future questions involving the hearing.

This committee was instructed to continue its duties, and to take any action that was deemed necessary in the future concerning the controversy, acting in the best interests of Ballinger should any question arise concerning the extension. No definite action was taken by the executive board on the hearing which is in progress at Washington.

A committee was appointed from membership of the Retail Merchants Association to make arrangements for the next Christmas Window Fair, and to provide for decorations. It was decided to conduct the fair this year along the same lines as the one held last year, but to try to make it a much larger affair than that of 1928.

The fair committee will meet in the near future to carry out the program. The directors also discussed plans for the building of county roads, but no definite decisions were made and the matter was deferred to the next session.

Houston Man Charged For Not Aiding Victim

Search Bayou for Missing Fishermen

GALVESTON, Nov. 26.—The bayou near here is being dragged today for the bodies of C. W. Oldham and Charles Hainkley, who are thought to have drowned while fishing Sunday. Hundreds of people are taking part in the search. A hat was identified as one worn by Oldham has been found and an overturned boat has been located.

Fuel Runs Out and Flyers Forced Down

LOS ANGELES, Nov. 26.—Bobbie Trout and Elmer Smith, girl flyers who are seeking to establish a new refueling endurance flight record landed their plane at 2:55 this morning when their gasoline supply gave out.

Flight sponsors said they ordered the flyers down when a refueling plane was unable to make contact in the dark with the endurance ship. They had been aloft 18 hours. Another attempt will be made tomorrow.

Mrs. Hollingsworth Visits Girls Clubs

Mrs. Lura Hollingsworth made a trip to three schools Monday in her program of organization of the girls' club which she has been working on for some time. The three schools visited Monday were Independence, Mazeland and Wingate, and at all three places it is reported that the club work received new impetus with her visit.

Mrs. Hollingsworth has set as her goal for the year to get a girls club in every community and to have all live wide awake organizations functioning according to the instructions issued by the head of the extension department at College Station.

RADIO SERMON LEADS TO GIFT FOR CHURCH

LONG BEACH, Calif., Nov. 26.—Radio sermon listeners may not drop dimes in the collection plate, yet church broadcasting does bring results, the Rev. L. A. Reed has learned.

Her receiving set gave Mrs. Virginia Kent, widow, her first contact with the Church of the Nazarene while she was stopping at a hotel here. After hearing Mr. Reed's broadcast sermon she discussed spiritual matters with the pastor.

When she died recently in Chicago she made a bequest of \$25,000 to the church here.

Fourth of Stinnett Robbers Get Trial

STINNETT, Nov. 26.—Torrence Popejoy, the fourth man charged with theft in connection with the robbery of the First State Bank Friday, faced an examination trial today. He was arrested yesterday.

Sam Jones and Jim Hodges, who were transferred for one Texas jail to another last week to prevent them making a premature bond, are still in jail today having failed to find bondsmen.

Union Choir to be Largest Assembled

One of the largest and best choirs ever to sing in Ballinger will be heard Wednesday night at the union service of the churches in celebration of Thanksgiving. The choir will number forty voices, seventeen men and twenty-three women and those in charge ask that all members of the choir be present by 7:15 Wednesday (tomorrow) night.

A rehearsal was held Monday night with a good representation of the singers present, but several were out of town at the time and were unable to attend the practice session. A director for the combined choir will be chosen today. R. E. White has charge of organizing the group.

All other services for tomorrow evening have been dismissed so that there will be nothing to interfere with the union gathering and every church in Ballinger will have a part in the service, members of every church as well as the general public being invited.

The custom of Thanksgiving dates back to Puritan days when the early pioneers gathered to give thanks for a safe voyage over the great ocean, protection from hostile savages, and bounteous harvests, etc. The holiday now is celebrated by Americans and some foreigners in all parts of the globe.

Simmons Refuses to Accept Prison Job

HOUSTON, Nov. 26.—Lee Simmons, of Sherman, today listed three reasons for not accepting the general management of the Texas prison system to which post he was elected by the Prison Board yesterday. "At home we have three big projects, the Woodmen Circle Home, a dairy program and the new consolidated Presbyterian college and I feel that I am needed at home," he said. The board persuaded Simmons to reconsider his refusal and gave him until December 10, to change his mind.

Supt. White Visits In 3 Rural Schools

County Superintendent R. E. White, accompanied by S. D. Williams, made a tour of inspection to three of the county schools Monday. The trip included Wingate, Independence, and Mazeland school districts. Mr. White declared Tuesday that he was well pleased with the work being done in these rural schools and the teachers in the various districts were to be commended.

The county superintendent believes the common school districts in this county are being conducted as efficiently as schools in most of the independent districts. He intends to visit every school in the county during the next two months, spending a short time in each district.

Senator Shepperd Visits at Austin

AUSTIN, Nov. 26.—United States Senator Morris Shepperd visited State officials today. He plans to spend Thanksgiving at his home in Texarkana. "People in the east are talking about the rapid growth of Texas and are deeply interested in our progress," he said while here. He believed the new census will show Texas' population to be between five and half and six million people.

WEATHER FORECAST

(By Associated Press)
West Texas—Fair tonight and Wednesday.
East Texas—Cloudy, unsettled tonight, Wednesday partly cloudy.
Coal mines in Illinois produced 55,948,199 tons of soft coal last year.
American antelope are so numerous in Idaho as to constitute a farm nuisance.

Ellison Jury Out; Took Case Monday

LIANO, Nov. 26.—The jury in the B. F. Ellison trial here continued its deliberations today after receiving the case yesterday. Ellison and his father, D. K. Ellison are charged with the slaying of L. C. Callaway several months ago. The elder Ellison is to be tried at a later date.

Prominent Doctor Dies at Beaumont

BEAUMONT, Nov. 26.—Dr. J. W. Grath, 62, a widely known Southeast Texas philanthropist, and donor of a building to newsboys in connection with the new Y. M. C. A. here, died today after a long illness.

ELUSIVE ELECTION NAMED; IT'S LOST COLLAR BUTTON

The Associated Press
AUSTIN, Nov. 26.—It is a collar button that has defied the electron in words anyone can understand. "The electron," said Sir Oliver Lodge in an address here on the relationship between science and religion, "is the lost collar button of the universe."

"We know that the electron is in space, but we cannot exactly locate it. It is like a collar button which we know is in the room, and even under the dressing table, yet we cannot locate the thing."

(By Associated Press)

ORANGE, Nov. 26.—J. C. Doles, 50, and his wife, 39, and daughter Marjorie, 12, were drowned in a canal near here today when an automobile in which they were riding plunged into the stream. The family lived in Merced, Texas. Their bodies were recovered and brought here. They were identified by papers found in the water. Cause of the accident is unknown. A road maintenance crew at work near the scene gave aid in recovering the bodies.

High School Needs Magazines Badly

The Ballinger high school library is greatly in need of several magazines which are to be used in connection with questions which are studied for the extemporaneous speaking contest in the interscholastic league meets every year. Supt. H. C. Lyon stated Tuesday that the school wished copies of the following magazines: Current History, The Scholastic, The Review of Reviews, and World's Work.

These magazines are to be placed where all pupils will have access to them, and the superintendent said that he requested anyone who has copies of these magazines to either give them to the school or sell them at reduced rates to notify him. He said that anyone who could furnish these magazines to please phone him at number 100.

Extemporaneous speaking is considered one of the best of the literary contests, but requires much study on the part of the entrants. The subjects are taken from current events and subjects are given in the official organ of the organization each month, and these can be studied throughout the entire term.

The picking up of people along the highway and giving them a ride is becoming more dangerous all the time. Of course there are some people walking who possibly need a lift and would make pleasant company on the trip, but those who use this as a ruse to slug and rob are making many drivers wary. The recent experience of a young man found here half unconscious brings the matter close to home and makes us decide that we prefer riding alone.

Lubbock county is getting ready for the third time to vote on a bond issue of \$991,000 for the hard-surfacing of highways 79 and 53 through that county. Lubbock and the plains country in general are considered very progressive but they will never convince people of that fact until they start building permanent roads. Travelers report that few all-weather roads are to be found in that section of Texas and their highways do not compare favorably with the chainwork of good roads being built through this section of the state.

Lawn, Taylor county, is preparing for the reception of natural gas in the next few weeks. The gas is being piped there by the Lone Star Gas Company who will rent the only vacant building in that town for an office.

Ballinger has decided definitely to dress up for Christmas. The directors of the Chamber of Commerce voted to take part in carrying on the street decoration program and to the staging of another show window fair. This will go far towards creating a Christmas spirit and when the citizens realize the gift giving season is here they will start buying merchandise to supply their lists. The chamber desires to have every store do its part toward making its place of business look appropriate to the season.

DROVE POISON OUT

Constipation Troubled Alabama Lady Until She Had Taken Black-Draught, Then Felt Fine.

Florence, Ala.—"For two years, I suffered with pains in my back and head," writes Mrs. J. E. Sloan, 810 Park Street, this city.

"I felt dull all the time, and was not able to do anything."

"I was constipated most of the time. My complexion was bad and I had no appetite."

"An old lady advised my father to give me Black-Draught. As quick as she told him, he got it for me. I took Black-Draught three times a day for three weeks, and I began to feel like a different person. I developed a good appetite; the pains left my system, and I felt fine."

"I thought my trouble came from constipation, and as soon as the cause was removed, I got all right. Since that time, I have tried to keep a box of Black-Draught in the house, as I find it corrects biliousness and relieves sick headache. It is our family medicine."

Constipation damps up poisons in the bowels, causing their bad effects to be felt in other parts of the body.

At the first sign of constipation, take Thosford's Black-Draught. Costs only 1 cent a dose. NC-315

BLACK-DRAUGHT
For Constipation
and Biliousness

It is a Fine Medicine,
Says Angelo Barber

"I Lost My Appetite and Couldn't Eat What I Wanted, But Orgatone Has Relieved Me and I Have a Fine Appetite," Declared Joiner.

"I have just taken three bottles of this Orgatone and have certainly improved in health in every way," said C. P. Joiner of 723 Veck, who is a well liked barber at the Angelus Barber Shop in the St. Angelus Hotel.

"For more than two years," he continued, "I suffered from indigestion and stomach troubles. I took all kinds of medicines for my case but just seemed to get worse; I ruined my stomach by eating too much sweet, rich foods and never found anything that would relieve me until I found Orgatone."

"After eating, my stomach would swell up with gas and I had severe pains; this would cause shortness of breath and it was hard for me to breathe. I felt tired and worn out all the time and when night came couldn't sleep and

just didn't get the proper amount of rest."

"Orgatone was advertised so highly and several of my customers told me how it had helped them so I began taking it. I feel better now than I have in the past two years and seem to have more pep and energy and really feel like doing my work. All of my stomach trouble and indigestion has gone and I feel like eating things that I wouldn't dare before I took Orgatone. All of those bloating and gas spells have gone and my breathing is normal. My constipation has been relieved and I am glad to recommend Orgatone for I think anyone who has my troubles would be benefitted if they gave it a good trial."

Genuine Orgatone may be obtained in Ballinger at the Weeks Drug Store

Story of Ballinger
Starts Here Today

Starting today and continuing through Thanksgiving Day "The Story of Ballinger," recently produced motion picture, will be projected at the Palace Theatre. Shots for this picture were completed last week and producers of the celluloid drama have been in their San Antonio studios developing and editing the takes for the premiere here tonight.

Scenes were taken of every point of interest in and around this city, and these were worked into the story which was filmed around a local cast.

Reports say that the shots taken by E. M. McDaniel of the Palace Theatre, last week of the Ballinger-Winters football game were good and will show great in the finished photoplay. Other football scenes will be shown, including some of the Ballinger-Brady game.

Victor Shuler, cameraman and director of the picture, is an expert in this phase of film production having made pictures in many cities of the South. For the past three years he has been devoting all his time to making movies in Texas patterned along the lines of the one to be shown here tonight and the next two days.

McNURLIN GETS 5 YEARS
IN BROWN COUNTY

According to reports received in Ballinger, R. H. McNurlin, who was sentenced to two years in the penitentiary in district court here after entering a plea of guilty to robbing the Walker-

Smith Company of a quantity of cigarettes, has been sentenced to five more years by a Brown county jury. McNurlin entered a plea of guilty to robbing the Harry Knox Produce Company of Brownwood of a quantity of tobacco and cigarettes.

Makes Life
Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

When tongue or breath tells of acid condition, correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescriptional product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

SUNDOWN
STORIES

THE DUCK'S BILL

By Mary Graham Bonner

The Little Black Clock had brought John and Peggy to a farm. It looked like a very old-fashioned kind of a farm, and the Little Black Clock said that it was, and that he had put the time back quite a distance.

"Of course not the way I turned it back when we saw the water clock, but I've put it back for tonight's trip, too."

Near the farm was a little brook, and wading in the brook were some ducks.

They were having a meal and were enjoying themselves, so much. Between nibbles they quacked-quacked their pleasure at what they were finding.

It was fun to watch them. They ducked their heads down in the water, they shook themselves, they waddled up on the banks and they seemed to keep very

busy without doing very much of anything.

"The leader duck is saying something," the Little Black Clock said. "Let's listen."

The leader duck had just had his dessert. At least Peggy decided it was his dessert, for, as she said, he had been eating steadily and had certainly reached dessert time by now.

"That was just the right size for my beak or my bill," said the leader duck, or as he called himself, Leader Drake.

"And," he added, "I decided something. Friends of the brook, hearken to what I say."

LOUISIANA GOVERNOR
HAS BASEBALL HOBBY

(By Associated Press)

NEW ORLEANS, Nov. 26.—While other governor's follow the calm sports of golf and angling, Gov. Huey P. Long, fiery young executive of Louisiana, has harked back to his youth and taken up baseball as his hobby.

In his school days, Huey was much feared in the pitcher's box of the sand lots and once or twice professional baseball scouts watched him work but he preferred politics to baseball.

Now he has concluded that politics and baseball make a good mixture and this summer he joined the Tin Can League, made

up of pros and scrubs of yesterday.

On Sunday afternoons, he would slip into the box and send over a few fast ones. Although he never pitched a full game, each time his team won and the haters said he has a mean curve and a lot of steam.

RADIOS FOR STATE PATRIMENTS

AUSTIN, Nov. 26.—(AP)—The state of Texas has installed radio sets in all eleemosynary institutions. Loud speakers in each hospital carry programs to all wards. The legislature appropriated \$10,000 for the equipment.

WHEN IT'S **ZERO**
IN THE CRANKCASE

OR A **HUNDRED**
IN THE SHADE

You Get Protective Lubrication With

Conoco Germ-Processed Paraffin Base Motor Oil

CONOCO Germ-Processed Motor Oil retains its fluidity at sub-zero temperatures. In fact, there is no practical operating condition in winter that will affect its ready lubricating flow.

Due to the Germ process and the select, premium, paraffin base crude stocks used, CONOCO Germ-Processed Motor Oil positively does not break down under the most intense cylinder wall heat.

A climb, high speed, heavy load, the temperature—none of these conditions affect the ready lubricating qualities of CONOCO Germ-Processed Motor Oil.

This oil is different from all other oils in one outstanding respect. It actually penetrates metal surfaces.

The oil never leaves the bearings. In effect, a fracture-proof film—a carry-over film—is always on duty, lubricating your motor from the instant you put your foot on the starter.

When the temperature drops down to the sub-zero zone protect your motor by using CONOCO Germ-Processed Motor Oil. Know the satisfaction of realizing that your motor is well lubricated even before you start it.

Drive in at the nearest station displaying the Red Triangle now, today and have your crankcase drained. Your winter driving will change from one of worry to one of pleasure and satisfaction.

4-Speed Gears Are Stressed By Europeans

(By Associated Press)
WASHINGTON, Nov. 26.—European manufacturers are hard at work to match the performance of American automobiles.

Such was indicated by the twenty-third annual International Salon at Paris, Europe's most important automobile show, according to a review received by the department of commerce.

Special attention has been given by foreign manufacturers to obtain suppleness, power and silence characteristic of the American cars.

Suppleness is the ability of a car to run slowly or rapidly under a considerable pull without shifting gears. Much gear shifting has been necessary with most European cars in traffic and on hills.

There was little in the salon to be considered revolutionary, effort apparently having been concentrated on improved performance and more comfort.

A definite trend toward the four-speed car with a silent third gear was one of the most marked features of the show. Several European manufacturers have had four speeds forward for some time, but it was only this year that they have worked out the silent third gear.

One hundred and sixteen makes of cars, 56 of them French and 30 American, were shown at the salon. Eight nations were represented by exhibitors.

BOY SCOUT FRANCHISE PLACED IN BALLINGER

R. E. Bruce, chairman of the Ballinger Boy Scout Council, announced Monday afternoon that all details had been completed for the placing of a Boy Scout franchise with The Hub store of this city.

This store in the future will be authorized to handle all Scout equipment and will be the second store in the Chisholm Trail Area to be granted a franchise. The other franchised store is in Abilene and has been furnishing equipment to this area for a number of years. The growth of Scout activity in this section of the country has been so rapid that it has been inconvenient for troops to order all their supplies from a distance and the national organization has placed the franchise here to accommodate Scouts in this territory.

Mr. Bruce has been diligently striving to get a franchise for Ballinger but was unsuccessful until this week when his request was granted. The goods are handled on a small margin and the store taking a franchise merely does so as an accommodation.

Ballinger Scout troops have been attracting attention of all the Chisholm Trail Area and after a long time Scout work here is showing real progress. Much credit for this progress is due to Mr. Bruce, K. V. Northington and Ross Murchison, local leaders, who have worked hard with their proteges.

TOMATOES
Green for chow chow, \$1.00 per bushel; ripe, cooking, \$1.00 per bushel. Splendid grade green tomatoes for ripening out, \$1.50 per bushel. Less than bushel lots, 20c to 25c per gallon, delivered in Ballinger. J. C. Taylor, Phone 7011. 26-2td-11w*

DILLEY—Heavy shipments of vegetables have been made from here this season.

IN THE REALM OF SPORTS

I. O. Wooden presented the Ballinger pep squad with \$5.00 this week and the same has been turned over to the girls. This is the first gift we have heard of here to the girls who so faithfully work for the winning of each game. Usually the prizes, money and other flowers go to the football team but Mr. Wooden appreciates the sideline support given by the pep squad and places his money where he thought it was deserved. The entire school appreciates his gift.

It was announced sometime ago that the champions of District 11 would receive a trophy from the J. C. Penn stores. So far the trophy has not been delivered and nothing definite has been heard from it. The pep squad was informed during the Brady game that such a trophy would be presented to the Ballinger team and other papers have carried stories about the trophy which seems is a handsome thing and something that the school and team can treasure.

One fan was heard to remark that he did not expect a single championship game to be played in Ballinger, that other towns would offer more than this place could. Personally, we believe that Ballinger is the best town for sports in West Texas and that we can support anything that any other Class B town can. Let some winner say what they will give for the game and Ballinger can equal or beat it and then make money off the game. The town is for the Bearcats and the regional championship.

Royal Neighbors
A called meeting of the Royal Neighbors will be held Wednesday afternoon at 3 o'clock at the Odd Fellows Hall. All members are urged to be present at this important meeting.

Legion Makes Hit At Wingate Monday

The American Legion players were greeted by a packed house in Wingate Monday night. One of the Legionnaires stated Tuesday morning that it was the largest crowd they had ever played to outside of Ballinger and compared favorably with audiences here. Every seat in the Wingate high school auditorium was filled and many were seated on the stairway bannisters and in windows, with a large group of boys seated on the floor close the stage.

The local post members were doubly paid for their trip to Wingate. It was profitable in a financial way and the reception accorded the play was excellent. The comedy situations went over big with the audience and after the first few minutes of the play, the crowd was kept in an uproar of laughter.

Wingate citizens expressed their appreciation of the post's play and an invitation to come back again next year was extended to the cast.

The Wingate school has a fine auditorium with an excellent stage which will accommodate most any type of production. The stage is well equipped with scenery and well lighted. Dressing rooms on each side of the stage make it modern in every particular.

The Legion players present their offering in Winters tonight, and word comes from that city that

the reserved seats were about sold out Monday and that a record-breaking crowd was expected. The play is being sponsored jointly by the Little Theatre group and the Parent-Teachers Association of Winters.

The Winters people have provided excellent service for the Ballinger cast, orchestra and stage hands. One of the nicest homes in Winters will be open to receive the ladies of the cast upon arrival. A tailor shop will remain open late to press any costumes that need it. All properties and stage settings have been procured by the Little Theatre. Refreshments will be served to all the troupe and helpers in the domestic science room of the Winters high school immediately following the presentation of the play.

CARD OF THANKS
May we take this method to thank each of our friends who so nobly administered to our dear mother in her illness, and to those who so kindly offered words of

condolence during the time in which our hearts have ached, owing to the loss of our loved one. For the beautiful floral offerings and for the many other kindnesses we are thankful.

May each of you find as much friendship and love whenever time of distress shall be visited upon you.

Tom and Henry Truly,
Mr. and Mrs. R. R. Truly,
Mr. and Mrs. R. E. Truly,
Mr. and Mrs. C. L. Dunn,
Mr. and Mrs. A. C. Cates,
Mr. and Mrs. Paul Arnold,
Mr. and Mrs. Roy C. Griffin,
Maryon Flynt and children.

JEWELRY IS TINTED BY ELECTRIC PROCESS

(By Associated Press)
NEW YORK, Nov. 26.—Tungsten, familiar in electric light filaments, now furnishes beads of rare colors in a development of the jewelry industry.

The process resembles dipping the drab metal in a rainbow and

withdrawing it coated with permanent color.

This is illustrated in a glass tank set up at the Museum of the Peaceful Arts here. Immersed in liquid in the tank, a piece of the metal becomes encircled with a ring of glowing color when an electric current is turned on. The colors pass successively through every shade.

They are due to a film forming rapidly over the tungsten surface, an oxide made of oxygen combined with the metal. It is like rust on iron, except that it is intensely hard.

The film is semi-transparent, so that light reflects both from its surface and from the metal underneath, and the reflected light waves overlap and break up into colors.

The color depends on thickness of the oxide coat. The electricity can be snapped off at any desired color, which remains permanent, unless washed with a caustic solution.

Tantalum, and columbium, a

still rarer metal, are said to take exquisite color effects. Tantalum is used for making necklaces, bracelets and other jewelry.

Camels have
made smoking
a national
pleasure!

With years of steady growth behind them, Camels continue to grow. They are smoked today by more millions than ever before.

**Modern Commercial Banking
Service**
Thoroughly conversant with local requirements, our officers are well fitted to co-operate with business men in fully benefiting through every commercial opportunity.
Our progress reflects the combined success of patrons and every effort is made to insure their maximum advancement.
We place the resources and facilities of a great financial institution directly behind the welfare of each customer.
**FARMERS & MERCHANTS
STATE BANK**
Ballinger, Texas
Established 1909

The increasing popularity of smoking in the United States exactly parallels the growth of Camel Cigarettes. Camel has given smokers a cigarette of genuine quality . . . a marvelous blend of choicest tobaccos . . . mild, fragrant, satisfying. This is the quality that smokers depend upon, and they can rest assured it will never be sacrificed. Taste in smoking, as the real pleasure of smoking is experienced, leads directly to Camel quality.

BOX SUPPER

The school at Rannels will have a program and box supper Wednesday night. The proceeds of the sale of boxes will go to pay for equipment that is badly needed in the school. A Thanksgiving program has been arranged by the children of the school and will be very entertaining to those who attend. Everyone has an invitation to be present and take part in the box supper, following the program.

FAIR WINNER RETURNS HIS CHECK TO ASSOCIATION

The officials of the Rannels County Fair Association had a new experience Tuesday morning when they received a check returned to them for a premium paid during the 1922 fair here. In mailing out the checks \$31 in premiums were sent to J. C. Dibrell & Son at Coleman for prizes won in the livestock department. Mr. Dibrell returned the money to the association stating that he did not wish to accept it, that the advertising he received here was worth bringing his stock. He asked that the association accept the \$31 as a gift, which was done.

Dibrell & Son are breeders of fine registered Hereford cattle, and exhibit at many of the fairs in this section of the state. At the Rannels County Fair the Dibrell entries won several first places and were among the best shown here. Mr. Dibrell believes in county fairs and in returning the money he expressed the hope that it would aid some in assisting the fair here.

SCHOOLS HAS CHANGE IN DAILY SCHEDULE

Starting Tuesday morning a small change was made in the schedules at the Ballinger schools. School will start with study periods at 8:30 each morning all buildings. The students will be turned out for noon at 12:00 o'clock and classes will be taken up again at 12:35. The first, second and third grades will be out in the afternoon at 2:25 and the other grades at 4:00 o'clock.

Patrons who go after their children regularly or on bad days are requested to note the change so that they will not arrive too early and have long waits until school is recessed.

CROSS COUNTRY FLIERS VIEW THREE SUNSETS

(By Associated Press)
OAKLAND, Calif., Nov. 26.—Sunrise in the evening—sometimes three of them—is one of the strange sights seen from the air on the trans-continental route over the desert and mountain ranges.

Flying westward about sunset time the planes cover a course over three mountain ranges in a few hours. The approaching hills cut off the sun three times and on the other hand reveal Old Sol three times. Although the sun is really setting, the effect is that of a sunrise.

NOME, Nov. 25.—(AP)—Duties of forest ranger and census taker are combined by Harold Smith, whose territory is the icy Strait of Anich.

Obtains Relief After 10 Years

"I didn't believe anyone ever got finer results from this new Sargon treatment than I did."
"I had become so weak and run-down from ten years suffering

MRS. CATHERINE TAYLOR

with stomach trouble that I simply felt like giving up. Nearly everything I ate disagreed with me. I had terrible pains in my right side; my color was bad and I was finally told that I needed an operation on my gall bladder. "But I'm feeling so much better since taking Sargon that I fully believe that I am a well woman. I never suffer the slightest indigestion now, and that dreadful pain in my side has completely disappeared. The Sargon Pills, that go with the tonic, seemed to have a stimulating effect on my liver and gall bladder, and my complexion has improved wonderfully. I feel worlds stronger, can even do my own housework, and I'm convinced Sargon has saved me from an operation."—Mrs. Catherine Taylor, 1906 Cadiz St., Dallas. J. Y. Pearce Drug Co. Agents.

Birthday Party

Little Miss Jane Reaves celebrated her eighth birthday with a party at her home last Friday afternoon. Mrs. Reaves directed the twenty-seven children present in a number of interesting plays and games which they enjoyed very much. The guests attending were: Ruby Nance, Rosemary Lasater, James Lasater, Jack Chaney, Powell Wear, John Cummings, Douglas Black, Ross Black, Jr., Warren Murphy, Frank Alwell, Jr., Billie Jones, Alexander McGregor, Jack Bandy McGregor, Marguerite McGregor, Lillian Hamilton, Larene Strain, Ida Louise Dietz, Virginia Dietz, Virginia Orger, Wanda Lane, Doris Lane, Willie Bell Hale, Laverne Thomas, Doris Drennan, Alma Deenan and Ann Keiche.

Refreshments in the way of a big birthday cake, brick ice cream and candy brought to an end a very delightful party.

OLFEN

For a
SORE
throat

A sore throat may be eased by gargling just once, with quarter of a glass of water in which you have dissolved two tablets of Bayer Aspirin. You may have to repeat the treatment for a deep-seated inflammation like tonsillitis, but Bayer Aspirin is the one thing that reduces the infection. Don't forget this most sensible of all treatments for sore throat. The one the nurses all know; the one which all doctors concede to be effective. And remember its quick relief of neuralgia, neuritis, rheumatism, lumbago and the like. Use it to break up any cold, or to dispel a headache. It does not depress the heart. Aspirin is the trade mark of Bayer manufacture of monoacetic acid ester of salicylic acid.

Millions Saved for Car Buyers By Automotive Research Work

(By Associated Press)
DETROIT, Nov. 26.—Automobile buyers of the country are being saved millions of dollars annually in the cost of their cars through research and standardization of parts and practices in the automotive industry.

Through standardization of minor parts and fittings and other fixtures of the automobile which in no way affects the originality of design, the Society of Automotive Engineers estimates that the saving to buyers is \$840,000,000 a year. The calculation is based on the total valuation of \$4,700,000,000 of all cars and parts produced last year.

In cooperation with the automobile industry, equipment manufacturers and others, the engineers' society and the United States bureau of standards have brought about a great reduction in the multiplicity of shapes and sizes of screws, bolts, nuts, couplings, and other minor fittings.

To the layman this might seem an insignificant achievement, but it has been responsible in large part for the reduction in the price of his car and in making it possible for him to get a much better car for the same money he paid a few years ago. Standardization, to a certain extent, also has been effected in the manufacture of automobile tires, but further reduction in the number of sizes is hoped for.

Work in the automotive laboratories has resulted in far more powerful engines without increase in size or cost, engines which will stand the punishment of hard use long after those of a few years ago would have gone to the junk heap.

Bodies, springs, headlights, fan belts, ignition systems, virtually every part of the automobile has been improved at no increase in cost or at less cost, through research and standardization.

Standardization has been a two-bladed knife in cutting manufacturing costs. Multiple operation machines which do the work formerly performed by crews of men and turn out a more uniform grade of work have greatly reduced the cost of labor, while at the same time reducing expenses by speeding up production.

Canadian—Courthouse is installing natural gas burners.

Van Horn—Work is underway of clearing ground for a new hotel to be erected here.

Amusements

Underworld Movie at the Queen Closes Run Tonight

A tense underworld drama, with numerous situations that flash thrill upon thrill to the audience, is "Eyes of the Underworld," the Universal melodrama which closes a two-day run at the Queen Theatre tonight.

It is the prize picture of the year as far as excitement is concerned. Gun fire, fist fights, perilous jumps across yawning depths between skyscrapers, and an excellent automobile chase between four cars help keep the audience in a state of pleasant unrest.

"Eyes of the Underworld" is the story of the "Racketeers," a dangerous gang, who murder the publisher of a newspaper when he threatens to print evidence of their activities. With the help of a young sportsman the publisher's daughter learns the identity of the gang and effects their capture.

Bill Cody and Sally Blane are co-featured in the leading roles. Both give outstanding performances, Cody especially by his daring stunts.

Others in the cast are Arthur Lubin, Harry Tenbrook, Charles Jalry and Monte Montague.

Stellar Cast in Mack Sennett Comedy, "Broadway Daddies"

What happens when a big but-fer-and-egg man hits the high spots on Broadway is vividly and comically depicted in Mack Sennett's first feature length all-talking comedy, "Midnight Daddies," featuring Harry Gribbon and Andy Clyde and which will be the attraction on the bill at the Palace Theatre starting at a midnight matinee Thursday night, and continuing through Friday and Saturday of this week.

Clyde, co-featured with Gribbon, will be seen as a prosperous rick-western business man who comes to New York. The proprietor of a fashionable, but money-losing modiste shop, tries to induce the unwary small-town financier to become a partner in the ailing business, and Clyde is unwittingly ensnared by a good-looking model of the gown shop.

Rosemary Theby, famous star of feature comedy and dramatic productions, is cast as the wife of the unwilling "angel" whose money is sought by the schemers. Vernon Dent, featured in many

laughmakers, and Jack Cooper, ing on water and the alighting on also a well known comedian, are land of an amphibian plane are seen as the male modiste and the owner of the shop. Gribbon is the scheming manager of the place, and the "vamp" who almost ensnares Clyde is played by Alma Bennett. Addie McPhail, the favorite model of the establishment, is seen as Gribbon's sweetheart. Mack Sennett himself directed the talking picture.

WANTS HIGHWAYS BUILT TO AVOID LARGE CITIES

(By Associated Press)
OKLAHOMA CITY, Nov. 26.—Arterial highways of the future, says A. R. Losh, Oklahoma state engineer, should be built for through traffic only and should avoid all cities.

Deaths

Mrs. M. T. Jones

Mrs. M. T. Jones, age 24 years, 8 months and 3 days, died at the Ballinger Sanitarium Monday afternoon at 1 o'clock. Mrs. Jones' infant baby was buried here last week and since that time the mother continued to sink until her death Monday.

Mrs. J. W. Galloway, mother of the deceased arrived in Ballinger on the noon train Monday only a short time before her daughter's death. Mrs. Jones is survived by her mother, a step-father, J. W. Galloway; her father, J. M. Angel; two sisters, Mrs. D. Bivory of Ballinger; and Eunice Brown, of San Angelo; and two children, Roxie Lois and Elberta and her husband M. T. Jones.

Services were held from the Church of God Tuesday afternoon at 2:30 with Rev. O. R. Williams in charge. Interment was made in Evergreen cemetery. Undertakers from King-Holt Co., prepared the body and it lay in state at the King-Holt chapel until the services Tuesday.

AMPHIBIAN MAKERS SEEK NEW TERMS FOR LANDING

(By Associated Press)
NEW YORK, Nov. 26.—Two English words to describe the alight-

"What a difference," says TEXAS mother

"My little daughter, Grace, has just gotten over whooping cough," says Mrs. G. G. McCreless, 1024 Drexel Ave., San Antonio. "You'd hardly know she had it. We kept her bowels active with California Fig Syrup."

"We've used California Fig Syrup for all her little upsets and colds. I always have a bottle in the house. I give it a lot of credit for her wonderful condition. She has won two perfect baby contests."

When bad breath, coated tongue or fretfulness warn of constipation, don't wait. Give your child a little California Fig Syrup. A child loves it. Headaches, feverishness, biliousness vanish with its use. Weak stomach and bowels are strengthened. Appetite improves. Digestion and assimilation are assisted. Weak children are strengthened.

To identify the genuine, endorsed by physicians for 60 years, look for the word California on the carton.
