If you want to buy a farm, or if you want to buy a stock farm, or ranch in any part of Texas, be sure to write or come to see me, as I have choice farms in Erath and adjoining counties; also stock farms and ranches in this county and all counties west from the north line of the Pan-handle to the Rio Grande river and the Gulf. If you want to sell your farm, ranche or city property, I have every facility for handling same, and thoroughly advertising your property. I am now publishing a booklet of about forty pages, listing about 100 desirable farms, ranchs, etc., in Texas. These will be distributed throughout the North and East in such states as Iowa, Ohio and Illinois. I also have plenty of money to loan on good farm securities at 8 per cent on long time. Will take up and extend vendors lien notes or sell them outright. Watch this space for bargains in Real Estate from week to week, as I have contracted for this space for a period of 12 months.

Will It Be Suppressed.

The "Anarchists" of Chicago have a paper called "Free Society." It is a weekly, with a circulation of some 30,000. In the last issue appeared an article contributed by Emma Goldman, under the caption, "The Tragedy at Buffalo," which has produced much comment. We reproduce it below, just as it appeared in that stalwart republican organ, the Inter-Ocean, which claims to be the only paper in Chicago which dares print all the news. The article is as follows:

"Never before in the history of government has the sound of a pistol shot so startled, terrorized and horrified the self-satisfied, indifferent, contented and indolent public as has the one fired by Leon Czolgosz, when he struck down William McKinley, president of the money kings and trust magnates of the country. Not that this modern Caesar was the first to die at the hands of a Brutus. Oh, no! Since man has trampled upon the rights of his fellow men, rebellious spirits have been afloat in the atmosphere. Not that William McKinley was a greater man than those who throned upon the fettered form of liberty. He did not compare either in intellect, ability, personality, or force of character with others who had to pay the penalty of their power. Nor will history ever be able to record his extraordinary kindness, generosity and sympathy with those whom ignorance and greed have condemned to a life of misery, hopelessness and despair.

"Why, then, were the mighty and powerful thrown into such consternation by the deed of September 6? Why this howl of a hired press? Why this bloodthirsty and violent utterances from the clergy, whose usual business is to preach 'peace on earth, good will to all?' Why the mad ravings of the mob; the demand for rigid laws to curtail freedom of press and speech? For more than thirty years a small band of parasites have robbed the American people and trampled upon the fundamental principles laid down by forefathers of this country. For thirty years they have been increasing their wealth and power at the expense of the vast mass of workers, thereby enlarging the army of the unemployed, the hungry, homeless and friendless portion of humanity. For thirty years the sturdy sons of America have been sacrificed on the battlefield of industry war.

"With the minds of the young poisoned by perverted conception of patriotism and the fallacious notion that all are equal, and each has the same opportunity to become a millionare or a president, it was an easy matter to check the discontented and acts of violence in this country were declared impossible.

"And now the impossible has happened—that even America has given birth to a man who struck down the king of the republic—they have lost their heads and are shouting for vengance upon those who for years have shown that conditions here were beginning to be alarming, and that unless a halt be called despotism would set its heavy foot on the hitherto relatively free limbs of the people. In vain have the mouthpieces of wealth denounced Leon Czolgosz as a foreigner; in vain are they making the world believe that he is the product of European conditions and influenced by European ideas.

"This time the assassin happens to be a child of Columbia, who lulled him to sleep with 'My Country, 'Tis of Thee, Sweet Land of Liberty,' etc., and who held out the hope that he, too, could become president of the country. Who knows but he too was willing to fight for his country and die for her liberty until he saw that all liberty and independence of his youthful dreams was but a farce. Perhaps he learned that it is nonsense to talk of equality between those who have all and those who have nothing, and hence he rebelled.

An act of violence is not only the result of conditions, but also of a man's psychical and physical nature, and his susceptibility to the world surrounding him. Resistance against force is a fact all through nature. Force will continue to be a natural factor just as long as economic slavery, social superiority, inequality, exploitation, and war continue to destroy all that is good and noble in man. When McKinley more than any other president, had betrayed the trust of the people and become the tool of the moneyed kings, the pains began.

"What is it that drives a man to commit the act of striking at tyranny, while others pass quietly by, though they loath it? It is because the one is of such a sensative nature that he will feel a wrong more keenly and with greater intensity than others. It is not cruelty or a thirst for blood or any other criminal tendency that induces such a man to strike at an organized power. It is mostly because of a strong social instinct, of an abundance of love and overflow of sympathy with the pain and sorrow around us.

"I find that nothing could be farther away from the thoughts of such a man than that if the king were dead the mob would cease to shout 'Long live the king,' or that the world would be liberated from the fetters of despotism. The cause for such an act lies in the fact that the world within the individual and the world around him are two antagonistic forces, and therefore must clash.

"Do I say that Czolgosz is made of that material? No. Neither can I say that he was not. Nor am I in a position to say whether or not he is an anarchist. I did not know the man, but from his attitude and behavior (I hope that no reader of "Free Society" will believe the newspaper lies) I feel that he was a soul in pain; a soul that could find no abode in this cruel world of ours; a soul 'impractical,' inexpedient, lacking in caution (according to the dictum of the wise,) but daring just the same, and cannot help but bow in reverenced silence before the power of such a soul, that has broken the narrow walls of its prison and has taken a daring leap into the unknown.

"I do not advocate violence; government does this, and force begets force. Violence will die a natural death when man will learn to understand that each unit has its place in the universe, and while being closely linked together it must remain free to grow and expand.

"Some people have hastily said that Czolgosz's act was foolish and will check the growth of progress. Those worthy people are wrong in forming hasty conclusions. What results the act of Sept. 6th will have no one can say; one thing, however, is certain—he has wounded government in its vital spot."

An English prison chaplain has made the statement that in all cases of children convicted of crime, the root of the evil is found at home. Long ago Victor Hugo wrote that "nine-tenths of the crime of France is due to neglected childhood." The whole business of the liquor traffic depends upon the men and women who drink, and we know that were drinking stopped crime would be reduced to a minimum. The hope of the world's redemption is with the children, and who shall save the children if not the mothers—the organized motherhood of the temperance reform?

One of the leading daily papers of prohibition Maine declare that the thousands of visitors in Portland during the season just closing have demonstrated the fact that the city has become an acceptable summer resort. It is profitable to ponder a moment over the fact that these thousands of tourists have not shunned Portland because it is a "dry" city, nor have they found fault when obliged to patronize hotels where no liquor is sold.

THEY NEVER STRIKE.

There is one class of laborers who never strike and seldom complain. They get up at five o'clock in the morning and do not go to bed until ten or eleven o'clock at night. They work without ceasing the whole of the time, and receive no other emolument than food and the plainest of clothing. They understand something of every branch of economy and labor, from finance to cooking; though, harrassed by a hundred responsibilities, though driven and worried, though reproached and looked upon, they never revolt; and they cannot organize for their own protection. Nor even sickness releases them from their posts. No sacrifice is deemed too great for them and no incompetency in any branch of their work is excused. No essays or books or poems are written in tribute to their steadfastness. They die in the harness and are supplanted as quickly as may be. These are the housekeeping wives of the laboring man. If these women had the time to rest with their husbands in the dramshops and dissipation have; and if they had the money to spend which their husbands squander, they would brighten their home with comfort and sunshine, rear their children in respectability and cause life's desert to rejoice and blossom like the garden of the Lord.—Sheldon Sun.

Is there any department which any and all unions take up? Yes, indeed. There is one which every union in the land should—nay, must—keep in active operation or the keystone of our arch is wanting. I mean the evangelistic department—the assembling of ourselves together for prayer and spiritual counsels, the blessed work of communicating the gospel of Christ to those who yet sit in darkness. Works fail. Wisdom comes to an end. In all human endeavor there is the place of failure. The soul alone is invincible, eternal. Christ alone is the ever-conquering leader. If every saloon in the United States were closed tomorrow by law and the heart of man remained in league with the powers of darkness, how long would the demon of drink lie low. If you can do nothing else—or think so—organize for earnest, regular prayer and bible study, and I promise you that those heartily—mark the word—persisted in will lead you out into paths of diverse and strong endeavor.—Mother Experience in Union Signal.

The Mother's Meeting of last week was well attended, was instructive and interesting. Every one present testified to the pleasure and benefit they had derived from the meeting. Dublin is rather behind in such work and our mother's do not realize how helpful these meetings are, especially to young mothers.

WHEN WE'LL ALL BE GOOD.

I don't know when the day will come,
  But you and I—we know
That after awhile our good resolves
  Will into being grow.
Some day, when we both have the time,
  We'll cast our faults away,
And you'll be good and I'll be good—
  We'll all be good some day.

We'll run our business affairs
  With thought of fellow-men,
For we will let our good intent
  Go into action then.
We'll make our friends all happier,
  And life will really pay;
For you'll be good and I'll be good—
  We'll all be good some day.

Some day—of course, it's way ahead—
  But I know, so do you,
That some day we will take a turn,
  And try the good and true.
We'll do our best for other folks,
  The world will be more fair,
And you'll be good and I'll be good,
  When we've the time to spare.

Spreads Like Wildfire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases begin in disorders of stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price 50 cents. Sold by Overton Drug Co.

The worst thing about Pants is that they keep some wife, mother or sister constantly sewing rips and buttons. The best thing about the BUCKSKIN BREECHES is the fact that the buttons stay on and seams don't rip as long as the pants last. That's a good while longer than any other pants will wear.

H. E. Watson, living two and a half miles north of Dublin, last week disposed of his farm of two hundred acres to H. V. Armstrong and W. B. An Elephant Band.

Among the latest results achieved by the trainer of Gentry Brothers' shows is teaching a herd of baby elephants to play brass band instruments. Coupled with the three score of other novel and original acts to be seen with the show this season, the public may expect the greatest treat of the season when the Gentrys come to town Saturday, November 9th.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlin's Cough Remedy, and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given when the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidentally to a baby as to an adult. For sale by Overton DrugCo.

When a woman will she will and you may depend on it, but when she won't she won't, and mere men may as well hang up his fiddle and quit his foolishness. The wearing of long skirts by the ladies and the gathering up and dragging home in their folds of numerous and perhaps reluctant microbes, may give way to the shorter, more sanitary and more bewitching skirt known as the "rainy daisy." The louder and more frequently men advise this change just so much longer will it be in coming. When such aggregations of asininity as the city council of New York confine themselves to an endeavor to secure an honest administration of their city's affairs and let woman's dress alone, then, and not till then, will woman's own good sense teach her the mode of dress demanded by the exigencies of the present day; the day when men crowd together in cities and hold spit scattering confabulations on the corners.—Houston Post.

According to estimates the Pan-American Expoaition will run behind about $4,000,000. A failure to have the exhibits installed at the opening of the enterprise, the assassination of President McKinley and several mistakes in construction account for much of this loss. St. Louis is fortunate in the character of the financial enterprise that is backing the Louisiana Purchase Exposition. No mistakes have been made, the prospects are that none will occur, and at the appointed time the fair will be complete in every particular.—Republic.

The Wrong End.

An aged gray headed negro, mounted bareback upon an equally ancient-looking mule, whose ears flopped abjectedly at every step, was laboriously steering the weather beaten steed through the streets of an Arkansas town, when, coming opposite the postoffice, he decided to stop and inquire for mail. After some maneuvers resembling those of a sidewheel steamer, the negro got the mule turned around and headed for a telephone post, but at this juncture progress was abruptly terminated by a dead balk on the part of the mule, with ears rigidly pointed forward at the telephone post, he tilted farther and farther back at each dig of the negro's bare heels in his sides, until his legs stood at a perilous angle, and finally began to back back. A group of men standing in a door way of a store opposite saw the difficulty,and one of them, a prominent lawyer, called out:

"Say, old man, you'll get there quicker if you head him the other way."

"Dat's all right, boss" was the ready answer,spoken in all sincerity and gravity; "but dis is de end what I wants to hitch." And the old negro resumed his argument with the mule.—Merkel Mail.

The machinists in the Texas Central shops of Walnut Springs are out on a strike. A press telegram of date last Saturday has the following statement in regard to the affair: The committee of arbitration from the Cleburne Machinists' Union arrived here Saturday morning, but has as yet made no headway toward a settlement of the trouble here in the Texas Central shops. The trouble originated with the duties of a helper. Ten days have elapsed since the strike began. Quite a number of conferences have been held between the strikers' committee and the officials of the road without any settlement.

Cold Ice and Warm Ice.

The college professor asked the rest of us whether ice was colder in winter than it was in summer. Now, to the rest of us ice was ice, and therefore we could not see how it could remain ice and be either colder or warmer. Then the professor explained the thing in this fashion:

"If a thermometer is buried in ice in the summer it will indicate 32 degrees. If you throw a piece of ice into boiling water and leave it there until it is almost gone, what is left will still be at 32 degrees. Ice can never be got ten above that temperature.

"But while ice can never be warmed above 32 degrees, it will go as much below that as the weather does. An iceman delivering ice one zero day in January was asked whether his ice was any colder than in July. He thought not. But, as a matter of fact, a piece of summer ice, if he had it, would have been something of a foot-warmer for him, as it would have been 30 degrees warmer than the air of the bottom of his wagon.

"Mixing salt with ice makes it much cooler. The ice in a wine cooler goes down to about zero. This is why the point zero on our common thermometers was fixed where it is. It was supposed to be the lowest point which could be reached by artificial means. Since then we have reached about 383 degrees below zero by chemical processes.

"Ice will cool down with everything else on a cold night to zero or below. What should prevent it? On a day when it is just freezing, a block of iron and a block of ice outdoors will stay at 32 degrees. If the weather grows warmer the iron will warm up with the weather, but the ice will stay at 32 degrees and melt away. But if the weather grows colder the iron and the ice will cool off, and one just as much as the other.

"As the ice grows colder it gets harder and more brittle. There can be no hickory bent on a skating pond on a zero day, for the ice is then to brittle. Silvers of ice dipped in liquid become so hard that they will cut glass. Water thrown on ice in the Artic regions will shiver it like pouring boiling water upon cold glass. This is because the ice is so much colder than the water."—Beverages.

Gentry is Coming.

The society editor will probably overlook the arrival in this city of Mr. and Mrs. Snyder, but society itself will not be so careless. True, Mr. Snyder does not pretend to be a gentleman, nor can Mrs. Synder boast the proud title of lady. Notwithstanding this handicap the couple are very popular in Dublin. They are charming entertainers, graceful dancers, elegant dressers, popular everywhere, and never gossip about their "nabors." Neither was ever known to speak harshly and their nature is at all times manifest. They have both traveled extensively, but never bore one by long drawn out descriptions of the many sights they have seen. The children love them and they love the children. In fact, every fond mother wishes her little ones to spend an afternoon or evening with Mr. and Mrs. Snyder. She knows they will enjoy themselves immensely because this pair are only two of the beautiful little animals among the 300 comprising Gentry Brother's famous trained animal exhibition which will make this city a visit for one day,Saturday,November 9th.

DUBLIN, TEXAS, FRIDAY, NOV. 8, 1901.

The nominee of the Union Labor party in San Francisco was elected mayor of that city last Saturday.

Viceroy Li Hung Chang of China died at Pekin last Tuesday. His death is expected to bear an influence favorable to the United States by reason of the probable succession of another less biased in favor of Russia.

The president has issued a proclamation designating Thursday, November 28th, as a day of Thanksgiving.

The defeat of the Tammany candidate for mayor of Greater New York, last Saturday is another deserved blow against the power of that corrupt political machine. Richard Croker and his allies appeared to be confident of success, and the defeat of their candidate by a majority of thirty to fifty thousand was a crushing below, which it is now said will result in the resignation of Croker as leader of Tammany hall.

The young men of Norway are jubilant over a law lately passed in that country providing that in future any woman who desires to get married must present to the proper authorities a certificate showing that she is skilled in the arts of cooking, sewing, knitting and embroidering. The young women are wondering why no certificates are to be required from men which shall prove that they are able to support their wives.

Since the recent decision of the attorney general of Texas that the state treasurer had no right under the law to deposit state money in banks, while awaiting collection on checks or otherwise the postoffice at Austin has suddenly gotten to be the first one in the union in point of money order business. The reason of this is due to the fact that nearly all remittances to the state treasurer are now sent by money order and as one of the results a largely increased force in the money order department at Austin has been necessitated.

TAKE THEM OUT.

Or Feed them on Food they can Study on.

When a student begins to break down from lack of the right kind of food, there are only two things to do; either take him out of school or feed him properly on food that will rebuild the brain and nerve cells. That food is Grape-Nuts.

A boy writes from Jamestown, N. Y., saying: "A short time ago I got into a bad condition from overstudy but Mother having heard about Grape-Nuts Food began to feed me on it. It satisfied my hunger better than any other food, and the result was marvelous. I got fleshy like a good fellow. My usual morning headaches dissappeared, and I found I could study for a long period without feeling the effects of it.

After I had been using Grape-Nuts Food for about two months I felt like a new boy altogather. My face had been pale and thin, but is now round and has considerable color. I have gained considerable in strength as well as flesh, and it is a pleasure to study now that I am not bothered with my head. I passed all my examinations with a reasonably good percentage, extra good in some of them, and it was Grape-Nuts that saved me from a year's delay in entering college.

Father and mother have both been improved by the use of Grape-Nuts Food. Mother was troubled with sleepless nights, and got very thin, and looked care worn. She has gained her normal strength and looks, and sleeps well nights." Don E. Cooper.

The salary of the mayor of greater New York is claimed to approximate in the sum total, fifteen thousand dollars. To this also is added the right of appointment of every clerk and assistant in the mayor's office that he may deem advisable.

At the state election in Virginia the Booker Washington incident is reported to have figured conspicuously as a campaign boomerang and possibly to have been the means of changing many votes from where they would have otherwise been cast. As a matter of fact such things as that lack much of being a reasonable campaign issue; in fact it is not an issue but an appeal to class pejudice. However, the depths to which our political system has decended makes such as this more vital in deciding an election than a sure enough issue involving a principle of government. The question as to whether the Nicaraguan canal should be built by the United States or whether we should interfere in South Africa, whether it meant a clash at arms with England, fade into significance beside the question as to whether President Theodore Roosevelt dined with a negro. Such is partisan politics.

The state of Texas is just now beginning to taste some of the fruits resulting from the receipt of the balance due Texas from the United States government, in which was involved the notorious Hogg fee of $10,000. The amount received from the federal government it will be remembered was a balance still in the treasury resulting from the disposition of the lands at the time of the entrance of Texas into the union. In consideration of these lands the United States government assumed and guaranteed payment of the indebtedness of the republic of Texas and this sum was still on hand. There were thousands of dollars of claims to be paid, but many of them had never been presented and possibly never would have been. When the balance was called for by James S. Hogg, representing the state of Texas, the money was promptly paid over and the responsibility of the federal government for the claims against the republic of Texas ceased, and the state was then liable for them all. Now the claims are coming in at a rapid rate and there is no saying where the matter will end so far as financial outlay to Texas is concerned.

The result of the local and state elections in the north and east last Saturday resulted almost completely in republican victory over the democratic nominees, the only two states so far heard from where the democrats were successful being Virginia and Kentucky, with Maryland in doubt and most probably for the republicans. Pennsylvania, Nebraska, Iowa, Connecticutt, Massachusett, Rhode Island, South Dakota, New Jersey and Kansas were all republican and in the city of Greater New York, Seth Low, the reform candidate for mayor, defeated Shepard, the democratic nominee, by nearly fifteen thousand majority. All the other large cities of New York also elected republican city officials and the republicans will retain control of the lower house of the legislature. There is a little consolation in the general result expected for the republicans and the outlook from this view point appears dark for any opposition to them in the next presidential election. Gorman may be returned to the senate from Maryland and if he does the democratic nomination in the next campaign will likely fall to him, otherwise the one most likely to get it would be David B. Hill. Both of them are what are termed anti-Bryan and gold standard men.

The election held last Tuesday to determine whether a special road tax of fifteen cents on the hundred dollars valuation should be levied throughout Comanche county resulted in a defeat of the proposition by from three to five hundred majority. The vote at Comanche was 200 for and 230 against, DeLeon 135 for and 272 against, Gustine 32 for and 32 against, Newburg 29 for and 31 against, Mt. Valley 5 for and 7 against, Proctor, Lamkin, Sidney and Shrum were against the tax by good majorities; Bibb and Theny for the tax. The other boxes have not yet been heard from.

"As to the Gustine List."

In the last week's issue of the Telephone, a newspaper claimed to be published in Dublin, but two-thirds of which is published in Dallas, appeared an article by one of the fellows who claim to edit that erratic sheet, in regard to the "Gustine list," evidently referring to a list of subscribers who had subscribed for the Gustine Tribune, a paper which I established at Gustine, but later found not to pay and consequently discontinued. The statements of the Telephone in this matter has in every instance been untruthful, misleading and unreliable. In the first place I had agreed to dispose of this list to Mr. Daley, editor of the Progress. Later on I secured a contract from Mr. Huchingson of the Telephone to work for him for a year and commenced work under the contract. At the time Huchingson was using a considerable amount of my material in the way of type, etc., to get out his paper. After going to work for Huchingson for a year I thought that in justice I should give the list to him and told Mr. Daley so, to which he readily assented and said that it would be right for me to do so, and that he would release me from the contract under such circumstances. I then took the list to the Telephone (or Huchingson) and gave it to them under the contract that I was to work for them for a year. He, Huchingson, (the Telephone) at once inserted an article saying that he had "bought the list that it amounted to several hundred and therefore increased the subscription of the Telephone to twelve hundred a week," all of which was not so. In the first place he never bought it; in the second place there was not "several hundred" in the list and consequently he also wilfully and knowingly misrepresented both in regard to the Gustine list, and of his own list. In a short time he violated his yearly contract with me and I was out. When I went out I took my printing material, my list and everything in his shop belonging to me, which he had been using and I went to the Progress office and openly and above board turned over to the Progress the entire list of the Gustine Tribune, for which I was promptly paid the sum formerly agreed upon. I was not willing to be mislead into bolstering up a "windy" circulation and that at my expense, and I at once authorized the sending of a printed statement to the subscribers of the Gustine Tribune to the effect that I had disposed of the list of the Gustine Tribune to the Dublin Progress and that those who owed me should pay same to the Progress and those who were ahead should receive credit on subscription to the Progress. So far as the Telephone is concerned they are at liberty to send their paper to whom they please; in fact any name they might pick up, (which, as a matter of fact, is a common thing with the Telephone to do) and then claim subscriptian against them. but the only one authorized to fill out the unexpired subscription of the Gustine Tribune is the Progress, of Dublin. The publisher of that paper has bought the list from me and paid me for same and I have never had to run after him day after day to get what he had contracted to pay me.

STEPHENVILLE.

From the Tribune.

Nov. 1st.—Up to Wednesday of this week Stephenville yards had received 7200 bales of cotton of which about two thousand bales are stored cotton belonging to farmers. Those who are considered good judges say Stephenville will get ten thousand bales this season.

O. Lane of near Huckabay has recently purchased a farm in the Pigeon community, to which he will move in a few days.

Mayor James Collins is still agitating the erection of a cotton mill for Stephenville and we learn that a considerable amount of stock has been subscribed.

J. H. Sheridan and family, Hard Tudor and family, John Ross and family, Boone Tudor and family, W. T. Patton and family and Elmo Head, all of the Rayburn Hill community, left Thursday for Matador, Texas, where they will locate. Tom Minter went with them to drive some cattle to that country, but will remain there but a short time.

Nov. 5th—Ice the fourth inst. and frost the morning of the fifth, which will put a quietus on the much boasted of top crop of cotton. The weather being dry, we may realise as much as five pounds per acre. Most all of the cotton has been gathered for this season. No one can tell what a cotton crop will make in Erath county, with all the drawbacks we never have known a failure in this county. While we have lived here, since the year 1855. we never had to buy bread. Even in 1886-1887, the two years of continued drouth, we were blessed with with plenty of wheat and corn, which we had on hand. We never received a pound of the state's donation of the one hundred thousand dollars worth of provisions for the drouth stricken people of this state, and the readers of the Progress all or many of them remember that Senator L. N. Frank was the man from this county, who introduced the bill.

County Commissioner Mayfield was here Tuesday interesting the people in assisting him to secure an order from the court requiring the tax collector to take the rendition of taxes by commissioners precinct so that the exact sum paid in by each precinct for road purposes may go to that precinct for the purpose for which it is paid. The result will be a strong petition to that effect, which will be presented to the court next week, including in it an appeal to the court to do better by the Dublin Precinct than has heretofore been done in road matters by giving the precinct the benefit of the sum its tax payers pay into the county treasury for road purposes. The law contemplates a division of the road fund to the several precincts in the county in exact proportion to the amount each pays, but heretofore the taxes of the county have been assessed without regard to commissioners' lines and the total to be expended in each precinct is arrived at by dividing the total taxes by four which is the number of precincts in the county. Even under this arrangement the Dublin precinct has never received her share of the road improvements and the result is that while this precinct pays more taxes than any other in the county, yet we have the least work done by the county and the poorest roads. This is obviously an injustice to this side of the county which no fair minded citizen will insist should be allowed to continue and no doubt the court will readily grant this reasonable demand. While good roads in every part of the county are a growing necessity and incidentally improvements in this direction in any part of the county is indirectly beneficial to the whole, yet it must be conceded that the direct benefits of the sum paid in each precinct for road purposes should return to that precinct in improvements. Mr. Mayfield is entitled to credit for his efforts in behalf of good roads and fairly play in securing them.

F. M. Phelps of Hamilton county believes in raising baby beef, and says that his experience teaches him there is more money in raising an animal that will weigh 700 pounds when a yearling than raising one that will weigh only 400 pounds at that age, because the difference in the price of the two is much greater than the cost of the feed necessary to produce the good one. While not particularly crowding them he sees that his calves make satisfactory growth, and with that end in view he feeds them cotton seed while suckling, weaning them when about eight eight months old, when they are put in a pasture to themselves and fed on cotton seed through the winter, or until the grass has made sufficient growth for pasture in the spring. He uses high grade and pure bred Herefords and for the last three years has been selling his yearlings at $20.—Stockman.

The trouble with the Texas Central machinists at the company's shops in Walnut Springs has been satisfactorily adjusted and the men are again at work as usual. A committee from the Walnut Springs shops visited General Manager Charles Hamilton at Waco and afterward a committee from the Cleburne shops visited the Walnut Springs shops, resulting in the machinists accepting the terms offered and the with drawal of the entire matter of controversy and the men returned to work Tuesday morning. The complaint was made in regard to an apprentice in the shop being allowed to work in a machinist's position, but we understand the representatives of the union declare their demand unreasonable. The local mention of this matter printed on page three of this issue was put to press before the facts above stated were learned.

J. A. Choat, a pioneer citizen of Erath county, who lived three and one-half miles northeast of Dublin, was in the city yesterday and gave us a pleasant call. Mr. Choat recently disposed of his farm to Oscar Wheelis and expects to leave to-day for Plainview, Texas, going via Stephenville, where himself and lady will spend a few days visiting their daughter, Mrs. Emory Jones. Mr. Choat has purchased land near Plainview, where he expects to spend the remainder of his days. He has been a citizen of this county since 1881, having cultivated the same land since that time. We dislike to lose such citizens as this gentleman and family, but heartily join their many friends in wishing them much success in their new home.

There has never been a time in the history of Erath county when real estate has been so active as for the past few months. Many large properties are changing hands throughout the county each week and a large number of our old time citizens are moving to the west, their places being taken by new comers generally from east and south Texas

Death of G. W. Harris.

After a protracted illness extending over several months, Mr. G. W. Harris, Sr., passed away last Sunday at 11 p. m. at his home in this city. For some days he had been dangerously ill, though up to the hour of his demise himself fully believed that he would recover. Funeral services were held at the Methodist church Monday afternoon, and with the honors of the Pythian lodge, the body was laid to rest in the new Dublin cemetery. Mr. Harris was a well-known character in Dublin, in fact throughout all this territory, in which he had for a number of years conducted a mercantile business. The universal esteem in which he was held by every person who knew him, and more especially so by those whose business relations had been closest to him, is ample proof of the worth of the man as a citizen and a Christian gentleman. As a member of the church he was a model; as a citizen, he was a model in every point that goes to make a good citizen; as a friend he was constant and true, and as a patriot and a soldier, those who knew him during the stirring times of '61 to '65, testify that he was loyal and brave, and as a husband, his neighbors knew him as most loving and gentle. He will be sadly missed in the business and social circles of Dublin, and the absence of few men have been or will be so truly grieved. The hearts of all go out in this sad misfortune to the grief stricken widow and orphans, who have asked us to extend their thanks for kindnesses already shown.

Mr. Harris was born in St. Charles, Missouri, in 1838, and at the time of his death was sixty-three years, seven months and two days of age. In 1858 he moved to Waco. He served as Texas ranger and distinguished himself in several noted battles under Gen. Sul Ross. In 1871 he settled in Bosque county and later moved to Dublin and entered the mercantile business. During the civil war he served gallantly in the confederate army as a member of Parson's brigade, 19th Texas cavalry.

J. M. Ely returned Tuesday from Wolf City, where for the past year he has been employed with a second-hand store. He will remain in Dublin and enter the employ of W. C. Bowden.

The board of trustees of John Tarleton college at Stephenville expects shortly to ask Andrew Carnegie for a donation to assist in the enlargement and maintenance of the John Tarleton College.

Revs. H. A. Boaz and lady, and E. F. Boone expect Monday to leave for Corsicana to attend the northwest Texas annual conference of the Methodist church, to convene at that place Wednesday.

J. C. Hallmark, who has for a year or more resided in east Dublin at a residence erected by him has decided to return to his farm near Harbin and has accordingly disposed of his place in town to his son, Will. He expects to move next week.

W. S. Cole, who a year ago moved from the Lingleville country to Scurry county, arrived in Dublin last Tuesday to again take up settlement as near the old home place in Erath as possible. He is a good citizen and the Progress is glad to note his return.

Henry Culp has recently bought the Jack Smith farm a half mile north of Gustine and will shortly move to the place to prepare for a crop next year. The place contains one hundred and two acrs, fifty being in cultivation. The consideration is given out as $1000.

Including yesterday, the cotton receipts at Dublin this season have been: Farmer's yard, 3,510; Dublin yard, 3,997; total, 7,507. The compress has handled slightly over 25,000 bales and the gins as follows: Wasson 583, Rosamond 711, Peeples' 772, Armstrong 1,095; total, 3,161.

The regular quarterly session of Erath county commissioners court will meet next Monday and continue in session during the week. Among the matters to come before the body we understand will be petitions for a prohibition election throughout the county except Thurber precinct.

A movement to secure the location in Dublin of the girl's industrial school could now very well be begun if some enterprising citizens will take the matter in hand and start the ball to rolling. The Progress, is by reason of correspondence already received, able to give some information in regard to the requirements for securing the location when an effort is made.

There is one or more merchants in Dublin, who also have business elsewhere in this territory, who never lose an opportunity to say all they truthfully can say and often more against the Progress. The reason of this so we learn, is that they do not advertise in the Progress to any extent, and why they don't do this is that they cannot buy space by the acre and at cheap rates then; in fact, at less prices than will justify reasonable and prompt wages to our employes. These parties have here and there cost us a few subscribers in their attempt to build up another paper that will readily do their bidding for the "crumbs that fall from their table." We are glad to note however that the majority of sensible men pay no attention to such interference and give a wide berth on their business affairs to those who attempt it.

Miller Risien, brother of John T. Risien of the Progress force, writes from San Saba, Texas, that he expects to start in about ten days for London, England, by way of Bremen, Germany. He will be accompanied by a male cousin of about fifteen years, instead of a young lady cousin as formerly announced in the Progress, and the two boys will remain for several years with a well-to-do uncle, who is engaged in the mercantile buiness on a large scale in London. Since the death of his father Miller has been with his brother here, but left last week expecting to reach San Saba in time to start from there and reach Galveston for a ship that left that port on the first of the month. He will now await the next through steamer to Bremen, Germany, and leave in time to reach Galveston to ship on board that vessel.

Dr. A. C. Martin of Lingleville was in the city yesterday and gave the Progress a pleasant call. The doctor informed us that the little city of Lingleville is in a flourishing condition, in fact, on a boom. Town lots are selling at one hundred dollars each, and farm lands in that vicinity are worth from twenty to fifty dollars an acre. He says they would like to have several more merchants and at least one more physician.

Postmaster S. J. Weaver informs us that the receipts of the Dublin office for the month of October summed up $782.76, which is an increase of seventy-five per cent over the same month four years ago. Of this sum $600 was remitted to the postal department at Washington after paying all expenses in connection with the office for the month.

COMANCHE.

From the Visitor.

Nov. 6th.—Judge Lindsey informs us that he allowed bond in the sum of $600 to E. Crew, who is under indictment in Jones county for forgery. He is well known in this and parts of Erath county and once taught the school at Gustine in this county, and later at Purves, in Erath county.

Miss Ava Robinson of Dublin, is the guest of her sister, Mrs. Gus Walling at this place.

Dr. Ewell Keith of Stephenville, returned Thursday morning to his home after spending two or three days at Gustine.

Judge Lee Young of Stephenville, has been selected to hold the special term of district court for Comanche county, which will begin next Monday.

Mesdames Jim and Tom Johnson of near De Leon, visited their father, G. M. Phillips, here the past week.

A heavy frost fell over the county Monday night, destroying the much talked of top crop of cotton.

A Family Re-Union.

A general re-union of the family of Mr. and Mrs. J. M. R. Stephen occurred at the country home of Mr. Stephen near Alexander last Sunday. Each member of the family were gathered at the festal board under the same roof for the first time in twenty-four years and it was of course one of most pleasurable occurrences that has happened in that section. The Progress editor and family acknowledges a kind invitation to have partaken of the hospitality of the family on that occasion, but regret that the inclement weather was such as to prevent such a pleasure. However, at our request we have been furnished a brief notice of the affair.

The children present were as follows; Mrs. Mary R. Pack of Huckabay, J. R. Stephen of Alexander, Mrs. A. M. Maloney of Dublin, J. V. Stephen of Point Lookout, Mrs. J. Walter St. Clair of Fort Worth and Lawrence M. Stephen and Willie G. Stephen of Point Lookout. Capt. Stephen, familiarly known by the pioneer citizens of this county as "Jim Matt," is himself, wife and children all native Texans and was married in Erath county on the second day of August, 1860, all their children having been born and raised in this county. He is one of the three surviving persons who moved to Erath county in the early part of 1855. For several years he served as a Texas ranger and saw hard service during the time. He went through the war between the states in Company C of Baylor's Texas cavalry and was mustered out of the service at Richmond, Va., at the close of the war, and with several others of the lost cause tramped the entire distance back to McClellan county. He was born in Washington county January 31, 1840, and his wife, who was a Miss M. V. Greaves, was born March 17, 1843, in Hopkins county.

The Progress is glad to note the presence of such families as citizens and to know that prosperity and happiness are with them.

PUBLISHER'S NOTICE.

The Progress has a large amount due on subscription and other accounts, a good portion of which it is essential that we collect within a very short time to be able to meet heavy obligations which we have incurred in making improvements. These accounts are mostly small and consequently troublesome to call for and hence we ask that all who are owing will please call promptly and settle the amount due.

J. S. DALEY, Publisher.

There are at the present time published in Texas, six hundred and forty-six weekly papers, seventy-one daily and sixty-eight monthly. The total within the state, including all other publications, besides those mentioned is eight hundred and fifteen.

The total number of publications in the United States is twenty thousand eight hundred and seventy-nine. Illinois has eleven hundred and four weeklies, leading any other state in that respect. New York leads in the number of daily publications, with five hundred and forty-four. In all classes of publications New York has nineteen hundred and thirty-six, Illinois next with seventeen hundred and twenty-six, Pennsylvania, Ohio, Iowa, Missouri, Indiana and Texas follow in the order named.

The Brownwood Banner-Bulletin of last week contained sixteen pages, each page the same size as those of the Progress. Besides a large amount of reading matter and an excellent and extensive line of small advertisements, the paper contained two double page ads and four full page ads of the enterprising firms who are drawing business to the thriving city of Brownwood. The Banner-Bulletin claims the issue to be the largest single issue of any newspaper published in west Texas, and no doubt it is, and yet it seems to have but little more advertising than usual. There is no mystery in the minds of people who receive the Brownwood papers, as to what is bringing Brownwood so rapidly to the fore ground.

Gov. Hogg returned to Beaumont last Saturday after an absence to New York and other points east, of more than three weeks. The reporters have tried in vain to worm out of him what he did in New York and what his plans for the future are. The Governor knows how to keep his own counsel and he is keeping it. He'll spring a sensation on the country before the New Year makes its advent.—Mercury.

A man carrying a basket containing a litter of kittens and a dog attracted much attention on the streets today. The dog guarded three kittens as zealously as though they were puppies. John Large, a squatter living in a tent north of the Kelley flour mills, is the owner of a strange family. He declares the dog is the real mother of the kittens. The dog is a half-breed Mexican and the kittens bear no resemblance to the canine species.—Kansas City Star.

The quarter of a million British troops in south Africa are still far from conquering the hardy Transvaalers, who combine the qualities of good marksmanship with a firm determination to fight to the last man. Shipload after shipload of mules and horses have been sent from American parts to the British, for use in the service, a train of twenty-six car loads of the former being shipped from Houston last Sunday morning, and yet buyers are in the market for more. This enormous demand tells a tale that no number of reports of pacification can down. The Boers may be annihilated, but they will never be conquered.

President Roosevelt has been set down by some of his critics as the first high official who has dined with a man of color. Let us note the facts. President Grant entertained Senator Bruce of Mississippi, Fred Douglas and others. President Cleveland dined with Liliuokalani and invited Fred Douglas to a reception. In 1873 Gov. John C. Brown of Tennessee gave a banquet at Maxwell House in Nashville and one of his guests was Sampson Keeble, a man of very black skin. Mr. Roosevelt, when Governor of New York, entertained a negro at the executive mansion. The Thirteenth legislature of Texas was once banqueted by citizens of Galveston and Houston, and certain of the colored members held places at the festal board with the rest. There are many other instances which can not be recalled at this time.

Booker T. Washington, the negro who at President Roosevelt's invitation dined with the latter in the white house last week, causing much criticism in the south, was born a slave in Virginia, is forty-four years old, formerly worked in a coal mine and later found means to attend the negro school at Hampton, where he equipped himself for the work he has since performed. At Tuskegee, Ala., in the "black belt" of the South, he founded July 4, 1881, and has conducted since, the Tuskegee Normal and Industrial Institute, started with one teacher and thirty pupils and no property, in a rented shanty church; it has grown and expanded during all the years since, owning at this time 2,267 acres of land, forty-two buildings, counting large and small, all but three of which—and these are the first buildings and the smallest on the ground—have been constructed wholly with student labor, under the direction of negro instructors. All of the 100 officers, academic teachers and industrial instructors at Tuskegee are negroes. The property valuation is now at least $300,000, with no mortgage of any kind. It has an attendance of eleven hundred students, who have come from twenty-four states and territories, from Cuba, Porto Rico, Jamaica and Africa; none of them are under fourteen years of age, and the average age is eighteen and a half years. More than six hundred others have applied for admission during the present term, and have been refused because of lack of dormitory facilities and endowment for their support.—Exchange.

Stop the Blight

It is a sad thing to see fine fruit trees spoiled by the blight. You can always tell them from the rest. They never do well afterwards but stay small and sickly.

It is worse to see a blight strike children. Good health is the natural right of children. But some of them don't get their rights. While the rest grow big and strong one stays small and weak.

Scott's Emulsion can stop that blight. There is no reason why such a child should stay small. Scott's Emulsion is a medicine with lots of strength in it—the kind of strength that makes things grow.

Scott's Emulsion makes children grow, makes them eat, makes them sleep, makes them play. Give the weak child a chance. Scott's Emulsion will make it catch up with the rest.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

THE OCTOPUS IN TEXAS.

Driven out of Texas, bag and baggage, kept out until it pleaded for mercy and promised to be good, the Standard Oil Company was permitted to re-enter the state on the arm of Senator Jo Bailey, who with Ithuriel's spear, had driven it howling beyond the portals. It came in with no song of defiance, but with becoming meekness and humility, and it resumed operation with all the apparent gratitude of a pardoned convict, and people believed that its penitence was sincere. When the gushers were discovered on Spindle Top and Beaumont, and every one was going wild over the discovery, the Standard Oil Company never raised its eyes from its desk or manifested any interest in the matter. It was not interested in the matter, it said. And when the wells it had sunk and sealed up were uncovered by curious investigators it merely shrugged its shoulders indifferently and said nothing. It was not interested. The Beaumont oil could flow all it wanted to, it could not be refined, and it was unfit for illuminating purposes. It might take the place of coal for fuel purposes, but the Standard Oil Company was not in the coal business nor in the wood and kindling business. The octopus was supposed to have gone to sleep. Recent developments show that it was only 'possuming.

It was noticed that a few leading politicians, friends of the plain people, mighty Nimrods, who made a specialty of octopus hunting and who had been on their uppers for years, suddenly flamed above the horizon as men of millions. They had purchased and paid for the chief section of the oil field. They had sunk gusher after gusher and built pipe lines to the coast. They had storage tanks and all necessary equipment, and from being men who could not conduct a sand pit or lime kiln successfully they became men of great business and financial capacity capable of handling with facility vast enterprises. Their oil gushed from many pillars and they marketed it.

There was a boom on. Other people sunk wells and built storage tanks. Some put down tank lines to tidewater. But while their tanks were full and their wells per force plugged, they could not get rid of their oil. There were many purchasers ready to buy, but no shipping facilities. Tank cars? Yes; the railroads had plenty of them and would have them there soon. They did not come. Tank vessels? Yes; but busy just for a little while. Cooperage to barrel the oil and flat cars to carry it away? Yes; thousands of them, and they would be here soon. They did not come,

Private corporations were slow in suspecting anything because there was no apparent rivalry. Everything was good natured and everybody was cheerfully welcomed. But it was finally realized that the octopus was only feigning sleep, and that it really had fastened its tentacles on the oil business in Texas. Those who have oil can not dispose of it and are being ruined by holding it. They will be compelled to turn loose.

There will be much red hot rhetoric in Texas soon, and the octopus will be sought in his abiding place, but whether or not he can be overcome is a question that is not without the elements of doubt in it.—Commercial Appeal.

BURNED AT STAKE.

The Horrible Death of a Negro in Mississippi.

MADE A CONESSION.

Wife of a Prominent Citizen Was Beaten into Unconsciousness and Assaulted—Woman Identifies Her Brutal Assailant.

Gulf Port, Miss., Nov. 5.—A negro, whose name has not yet been ascertained, was burned at the stake in Perry county, Mississippi, Saturday night. The crime fro which the negro was burned was committed early on that day.

Mrs. Fortenberry was the victim. She is the wife of a prominent country gentleman. She was attacked, beaten inti unconsciousness and criminally assaulted by the negro. After recovering consciousness, while yet almost too weak to mave, she began crying for help.

Within a short time assistance reached her. She told the story of the crime. The negro was described. A posse was organized and a search begun for the criminal. A negro answering the description given by Mrs. Fortenberry was caught. He was carried back to the home and identified by her. She stated positively that he was the brute who had committed the crime. The nerve of the negro then gave way, and he made a confession of his crime, telling all the details he had previously denied.

An informal court was organized by the members of the posse.

The trial resulted in a decision to burn the negro. He was carried from the house to the exact scene of his crime and there burned at the stake.

Burglar Captured.

Burleson, Tex., Nov. 5.—Two burglars entered Armstrong Bros.' store Sunday night baout 1 o'clock. Messrs. Branston and Overton, who compose the night watch, had previously suspected their movements and made ready to capture them. They, with Mr. Armstrong, ran in on the burglars just as they were making preparations to drill the safe. One of them ran and was shot at several times, but made his escape. The other surrendered without making any resistance. A set of tools, fuse, etc., were found. The captured man said his home was in St. Paul. He waived an examining trial and was sent to jail at Cleburne.

Fatal Horseback Collision.

Naples, Tex., Nov. 5.—Sunday night JamesBryan and two other young men were riding out on a road from Bryan's Mill. Bryan stopped to talk to a friend and his companions rode on. After they had left him they heard several pistol shots and, supposing him to be in danger, rushed their horse back to him. Bryan had started at full speed to overtake them, and thus their horses collided with fatal results. Bryan was killed. One of his companions was slightly injured, and one horse was killed.

Killings in Oklahoma.

Guthre, O. T., Nov. 5.—At Mountain Park, a town in the new country, Frank Innes and Martin Welsch quarreled over a town lot. Innes shot Welsch dead in self-defense, it is alleged.

At Edgewood, O. T., Charles Blanchard was shot and killed by F. M. White, a merchant of that place. White surrendered.

Alleged Montana Train Robbers.

New Orleans, Nov. 5.—Kid Wilson, Charles Holmes and Frank Smiley and William E. McKernon, were put under arrest here Sunday night, charged with being confidence men. Later the police received in formation that tne men are the Wagner, Mont., train robbers. Affidavits have been made against the men. They will be held awaiting further advices from Montana.

Old Steamboat Captain Dead.

Memphis, Tenn., Nov. 5.—Captain M. C. Hazelett, commander of the mail steamer Ferdherald, plying between this city and Cairo, was found dead in bed at his home in this city. Heart filure is supposed to have been the cause of death. Captain Hazelett was well known in river and business circles along the Ohio and the Mississippi.

Lew Welch Dead.

Milwaukee, Nov. 5.—Lee W. Welch, one of the best known telegraphers in the west, died suddenly here of heart trouble, aged 39 years. Mr. Welch was connected with the Associated Press for several years and was also well known in railway and commercial telegraph circles.

French Warships at Smyrna.

London, Nov. 5.—The Paris correspondent of the Daily Mail says he understands that dispatches have been received at the French capital announcing the Admiral Caillard's division of the French Mediterrenean squadron has arrived at Smyrna and seized the customs.

Boers Captured Three Guns.

Pretoria, Nov. 5.—It is now known that the Boers got away with the three guns captured from Colonel Benzon's column in the recent engagement near Brakenlaagte, eastern Transvaal.

No Fresh Plague Cases.

Liverpool, Nov. 5.—No fresh cases of bubonic plague were officially announced Monday, and United States Consul Boyle considers the situation altogether favorable.

AGAINST SOCIALISM.

Archbishop Corrigan Says Such a System Would Not Do.

New York, Nov. 5.—Archbishop Corrigan, in St. Patrick's cathedral, Sunday, preached on socialism. If socialism prevailed, he said, the world would be in utter confusion, and the liberty and rights of man reversed. Its whole basis, he declared, is a denial of the right of private ownership.

"According to the socialists," the archbishop said, "the entire State is to be a bee-hive. In this bee-hive there is to be no room for drones. All must work and all must fare alike. You must suppose that those who were formerly lazy and shiftless and irresponsible have suddenly, by some magic, transferred themselves into ideal, industrious workers; all this, I say, you must suppose if you are going to embrace socialism.

"Socialists claim that the political evil state of things can be set right by dividing property, but, he said, some men must work, some men must employ and some must be employed.

"Again, socialism does not promote fraternity. Christianity alone can do that. But socialism is not Christianity. All the leaders of socialism from time immemorial have been opposed to Christianity."

Way to Baffle Scalpers.

Austin, Nov. 5.—The railroad companies in Texas have found a way of getting rid of the ticket scalpers for brief periods on occasions when the scalpers would find business at its best. The experiment was recently tried at San Antonio of applying to the district court for an injunction restraining the scalpers from selling tickets. A temporary restraining order covering a period of ten days was granted the railway companies, and the scalpers were prohibited from doing business during the time the San Antonio international fair was in progress. It is proposed to institute similar proceedings against the scalpers in the future when events are held at points in Texas to which low passenger rates apply.

Transfer of a Railroad.

New York, Nov. 5.—The transfer of the Omaha and St. Louis railroad to the Wabash railway company was completed Saturday, and the Wabash company begins to operate the road at midnight. The new Omaha division mortgage of the Wabash company was made and as soon as the bonds secured by this mortgage are engraved, the holders of Union Trust company certificates of deposit for old Omaha and St. Louis bonds will receive their proportion of the new Wabash bonds.

Fell Sixty Degrees.

Muskogee, I. T., Nov. 5.—The fall of 60 degrees in temperature in 12 hours marks the first cold wave of the season throughout the Indian Territory. The wave was preceded by a fierce wind and rain storm, an inch of rain falling in 25 minutes.

NEWS IN BRIEF.

OSS STONE'S RANSOM

egotiations Said to Be Blocked by Mr. Dickinson.

BJECTS TO AMOUNT

Is Said He and the Russian Minister Are at Dagger Points—Nothing Said as to the Whereabouts of Miss Ellen Stone.

New York, Nov. 5.—The hitch in the negotiations for Miss Stone's release arises from two causes: First, the fierce antagonism between United States diplomatic agent, Dickinson, and the Russian minister, Bakhemeteff; second, the missionary and diplomatic disinclination to accede to the brigands' terms, though moderated, says the Samakov correspondent of the Journal. The relations between Mr. Bakhmeteff and Mr. Dickinson are strained to the breaking point. The former, being friendly to Bulgaria does not want his agent to finish the final transaction on Bulgarian soil.

Mr. Berth, a Macedonian student at the American institute at Samakov, one of the agents sent to negotiate with the brigands, has returned from Sadlog. He reports that the brigands consider Mr. Dickinson's money offer too small. They say they do not want to agree to terms that would disgrace them with their brethren.

Discussing the amount of ransom, Missionary Baird, purser of the Samakov Institute, says:

"If the brigands get a quarter of what they still ask, bands will spring up like mushrooms, Samakov itself will furnish many and Bulgaria will be joined. The brigands began negotiations with us by asking twice Miss Stone's weight in gold. Even a fourth of this sum is preposterous. If the Bulgarians had either trackers or bloodhounds, Miss Stone would not be spending her sixty-first day with the brigands."

ROCK'S THEORY ABSURD.

Barney Proves Human and Bovine Tuberculosis the Same.

New York, Nov. 5.—Positive signs of tuberculosis have appeared in the cow that was inoculated with germs by Dr. George D. Barney, of Brooklyn, several days ago. Dr. Barney will permit the signs to become more pronounced and will then kill the cow and hold an autopsy. Dr. Barney is now certain that he has disproved Dr. Koch's theory that human tuberculosis and bovine tuberculosis are not intercommunicable.

The cow was inoculated by Dr. Barney about ten days ago. On Saturday night it began to show a fever, and now all the known signs of tuberculosis are apparent in the beast. Dr. Barney said Sunday night he had no doubt that an autopsy to be performed would prove beyond doubt the fallacy of Dr. Koch's theory.

FIRE AT JENNINGS.

Twelve Structures Consumed Causing a Loss of Thousands of Dollars.

New Orleans, Nov. 5.—Fire broke out early this morning at Jennings, La., the town where theoil gusher was struck in a few weeks ago and which is now crowded with oil prospectors from all over the world, consuming at least twelve business business houses entirely, including the bank of Jennings and the leading hotel. High winds prevailed and the fire raged with fierceness. No lives were lost but property damage amounts to hundreds of thousands.

Rheumatism
Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and it until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Keil, of 707 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescription and I would get well. After having it filled three times without receiving the slightest benefit, I declined to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided, almost in despair however, to give the medicine a trial, and after I had taken a few bottles I was able to get around on crutches, and very soon thereafter had no use for them at all. S. S. S. having done me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health.

SSS the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or anything in it to disturb the digestion and add to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

NEED MORE MONEY.

New Taxes and Fresh Loans Intimated to the British People.

London, Nov. 5.—What is regarded as an important announcement preparing the people of Great Britain for new taxes and fresh loans was made Monday night by the chancellor of the exchequer, Sir Michael Hicks-Beach, in a speech at Bristol. After alluding to the enormous increase in the ordinary expeditures of the government, he reviewed the war taxes, and said that the ever increasing demand for the national exchequer gave reasons for careful thought, and even anxiety for the future.

"The cost of the war in South Africa is enormous," said Sir Michael. "It still drags. It may be, when next year comes, that I may have to ask the people of this country to bear even greater, burdens and to make even greater sacrifices."

John Morley, speaking Monday at Forfar, Scotland, asserted that the ordinary annual expenditures of the Tnglishgov ernment had increased £28,000,000 during the last three years, or, including the suspension of the sinking fund, £32,000,000. H declared that there was a real danger ahead of the country.

WILL SEND MORE MEN.

More Troops Are to Be Sent to South Africa to Fight the Boers.

London, Nov. 5.—It is understood to be the intention of the war office to send 5000 more mounted men out to South Africa during the next six weeks. There are only about 7000 mounted men at home, so that the military authorities are faced with the problem of training soldiers minus the necessary accompaniment of a cavalry arm. To meet this obvious failing it is probable that several composite regiments of yeomanry will be voluntarily embodied for home service. A move will soon be made to bring home from South Africa the men who have served over two years in the warfi and their place may be taken by the British cavalry division of seven regiments now in India. After the conclusion of hostilities it is expected that a permanent garrison at the Cape will consist of 50,000 men.

Charged With Swindling.

Waxahachie, Tex., Nov. 5.—An important arrest was made by Constable W. W. Warden of Palmer at Ghost Hill, when a man going under a number of aliases, and charged with swindling three or four merchants and trust companies, was captured. The last offense charged, which resulted in his capture, was committed last summer, when, by means of a fraudulent mortgage, he is alleged to have obtained $400 from the Ellis County Loan company of this city. The trust company paid Mr. Warden a reward for making the capture.

Killed While Hunting.

Marlin, Tex., Nov. 5.—Van Capers, about 18 years of age, was accidentally shot and killed. The deceased and Lon Cole, a boy of he same age of this city, left on a hunt, going afoot. Reaching a point near the falls of the Brazos river, they discovered a boat in the river and got into it. Lon Cole, the only witness, states that they were attempting to shoot a duck when Van's gun was accidentally discharged, the contents entering his breast and producing immediate death.

Forest Fires in Missouri.

Poplar Bluff, Mo., Nov. 5.—The fiercest forest fires since 1885 are raging on the range a few miles south of this city. The woods have been in flames for three days, and thousands of head of cattle and horses are in danger. Farmers and stockmen have turned out en masse to fight the flames, but they have made very little progress. The fire will cause a famine for feed for cattle this winter, on account of the drouth this summer, cutting crops short.

Repair Shops Burned.

San Francisco, Nov. 5.—The repair shops of the Santa Fe railroad company at Point Richmond, which contained considerable machinery, have been destroyed by fire. The loss will reach $125,000. During the progress of the fire William Fitzgerald was severely burned about the hands and face, and Frank Bailey was struck on the head by falling timber and badly hurt.

Given Twenty-Five Years.

San Angelo, Tex., Nov. 5.—At Sonora, Sutton county, Pedro Ortez was found guilty of murdering Jesus Ruis at Gillespie's ranch, in that county, last July, and was given twenty-five years in the penitentiary.

Fire at Ardmore.

Ardmore, I. T., Nov. 5.—Fire here destroyed a feed store ocupied by G. W. Peterman and owned by J. R. Best. Loss $2000, insurance $1300.

Texas Cloth for China.

Bonham, Tex., Nov. 5.—The Bonham cotton mills made a shipment of one car of cloth to Shanghai, China, Monday. The mills are filling several large orders, and the entire output from now until February has been sold.

Empress Dowager Attacked.

Pekin, Nov. 5.—A rumor is current that the empress dowager was attacked with a weapon, said to be a spear, at a river crossing shortly before the arrival of the court at Honan Fu, five days ago. The assassin was cut down after killing an attendant. The court is now on the way from Honan Fu to Pekin.

Expressions of Sympathy.

Buda Pest, Nov. 5.—The lower house of the diet unanimously adopted expression of sympathy and grief on the assasination of President McKinley.

NO MORE WITNESSES.

Testimony in the Schley Inquiry Case Now All In.

THE ARGUMENT NEXT

Mr. Hanna Will Begin the Argument and Mr. Parker Will Follow Him. Messrs. Rayner and Lemly Will Close the Case.

Washington, Nov. 5.—Two new witnesses were before the Schley court of inquiry yesterday, both called in the interest of Admiral Schley. They were Frank B. Richards and George Lynch, both of whom went through the Cuban campaign as newspaper correspondents. Richards was on the press boat Premier and testified concerning an interview with Captain Sigsbee, while the latter was in command of the St. Paul off Santiago in May, 1898. Lynch was on Somers M. Smith and was called to relate his recollection of Captain Sigsbee's communication to that boat, concerning which Photographer Hare and Correspondent Scovill testified.

The first witness to take the stand was Captain Sigsbee, formerly of the St. Paul, who was recalled for the purpose of reviewing his former testimony. Admiral Schley also was called for this purpose and his statement occupied a good portion of the time of the court. His testimony occupied five days, and as many of his statements were made off handed, there were innumerable changes to be made, as well as some additions. During the day Captain Lemly submitted for consideration of the court a large mass of documentary evidence. There has been no change of the program arranged on Friday for the presentation of argument by the counsel. Mr. Hanna will lead off for the government. He will talk about three hours and will be followed by Captain Parker on behalf of Admiral Schley. It is expected these two speeches will consume the court's time for a whole day. It is now believed Mr. Rayner for Admiral Schley and Mr. Lemly for the government will not conclude the presentation of the case to the court until Wednesday and probably part of Thursday.

While Captain Sigsbee was on the stand Mr. Rayner asked him if he had megaphoned or otherwise communicated to the press boat Premier while off Santiago the fact that the Spanish fleet was not in Santiago.

The witness replied that he had not done so, although he would have been justified in saying so if he had thought it proper under the circumstances of war.

When Captain Sigsbee was excused, Captain Lemly announced he had no more witnesses to call.

Frank B. Richards was then sworn. Lemly objected to the witness proceeding and the court sustained the objection, thus ruling out both the testimony of Richards and Lynch.

Admiral Schley then took the stand to correct his testimony, and finished shortly after noon.

The opening speech of the argument in the case was made in behalf of the government by E. H. Hanna, assistatn to the judge advocate. He began his presentaetion of the case a few minutes after the court reconvened at 2 p. m., and whne court adjourned two hours later he had not covered more than half of the ground involved in the controversy.

Teased Until Insane.

Indianapolis, Ind., Nov. 5.—Teased by the waiting maids at the Denison hotel until he became wildly insane, Carl Van Dorn, one of the foremost decorative artists of the country, was locked up at the central police station. Van Dorn had been employed at the hotel for several months, and complained after his incarceration that the women at the hostelry insulted him repeatedly. Previous to his coming to Indianapolis he was employed in Washington, where he was one of the chief artists in designing the decorations for the congressional library.

City Can Regulate Rates.

Knoxville, Nov. 5.—The supreme court has decided that the city of Knoxvile has the legal right to regulate the water rates of the Knoxville water company, holding the lower water-rates ordinance valid. This means a reduction of about 10 per cent. The company may appeal to the federal supreme court, alleging infringement of contract, or may try to enjoin the enforcement of the ordinance. Boston people constitute the company.

Accident to a Well Digger.

Belleville, Ill., Nov. 5.—William Warren, a welldigger, engaged in digging a well on the Isaac Rittenhouse farm, south of Smithton, was struck on the head by a sledge hammer, which was blown out of the well by powder, while he was leaning over the well to see if the blast was going to explode. His skull was split open from the forehead to the base of the brain. It is feared his injuries will prove fatal. The accident occurred Saturday.

Pink Blitz Sentenced.

Kansas City, Nov. 5.—"Pinky" Blitz, the notorious crook, was found guilty, in the criminal court and his punishment assessed at five years in the penitentiary. Blitz was charged with robbing W. M. Hall, a stockman of Osceola, Mo., of $320, the technical charge being grand larceny. Five years in the penitentiary is the maximum sentence.

THE ACT SUSTAINED.

Chamber of Deputief Approves Sending Warships to Turkey.

Paris, Nov. 5.—After a speech delivered by the foreign minister, M. Delcassee, the chamber of deputies sustained by a vote of 305 to 77 the government's action towards Turkey.

In the chamber of deputies, M. Sembat (Radical-Socialist) interpellated the government on the Franco-Turkish dispute, criticising the action taken as being for a material end, and contending that France ought to have intervened at the time of the Armenian massacres.

The foreign minister, M. Delcasse, replied that France's patience was exhausted by the porte's breaking its own promises. In the present difficulty France pursued no fresh advantage, but everybody would agree that this effort on the part of France ought at least serve to put an end to the annoyances and unjust treatment of which France works in the orient, scholastic and hospital establishments, commercial and industrial enterprises had been the object. He added:

"Unless parliament arrests our action the government will shed to show that France, after exemplary patience, has other things to oppose to the long and persistent refusals to do justice than simple observations. The government intervened in the quays question in order to get Turkey to fulfill her engagements. If the government had not done so there would have been an end of the numerous enterprises which France had created in Turkey, in the shape of railroads, roads, lighthouses and banks.

"The porte has also persisted in its refusal to reimburse M. M. Tubini and Lorando, in spite of the decrees of the tribunals in their favor. The debt has been reduced by a large percentage and the porte in August agreed to give satisfaction, but on the morrow these arrangements were forgotten and others were proposed. Our minister then ceased official relations wth the porte. There was no ultimatum, but the cessation of relations indicated that the government took the porte's word seriously, and that it intended that the engagements entered into should be respected, but reserved to itself fixing the moment for their execution."

Then the vote of confidence occurred.

Killed by a Train.

Denison, Tex., Nov. 5.—A man was found in a dying condition on the Katy track at Colbert, I. T., eight miles north of Denison. He was taken up and medical aid rendered, but his case was pronounced hopeless. When picked up the man was unconscious, but afterward recovered his senses sufficiently to tell his name, which he gave as Joe Robbins, but did not state the place of residence. He had letters on his person addressed to him at Atoka, and also had money to tne amount of $17.45.

Suit for Damages.

Cleburne, Tex., Nov. 5.—Elbert Smith has field suit against the Gulf, Colorado and Santa Fe Reilway company for $25,000 damages, alleging that his backbone was dislocated in a wreck on defendant's road, when some cars were standing on the track near Dallas. Plaintiff also alleges paralysis of a leg and arm and confinement to his bed at the present time.

Wreck in Indiana.

Bedford, Ind., Nov. 5.—A wrech occurred Monday night on the Monon track at the passenger station in this city in which thirty persons were injured. A combinaeion passenger and stone train broke in two at the intersection of the Monon and Southern Indiana roads, coming together a few minutes later with a crash. In the two passenger coaches were 100 quarrymen and officials. Of this number thirty were bruised and injured, some of them seriously if not fatally.

Released on Bail.

Houston, Tex., Nov. 5.—Another robwas allowed bail in the sum of $750 in connection with the death of James Sullivan, whose body was found at Seabrook two weeks ago. It will be recalled that Lynch was arrested shortly after the finding of the body. It was at first thought that Sullivan lost his life by drowning. The matter was investigated by Justice of the Peace J. C. Matthews, which resulted in the arrest at that time.

Greenville Loses its Park.

Greenville, Tex., Nov. 5.—A judgment for plaintiff has been rendered in a case of O. D. Moulton vs. the city of Greenville. The suit was brought for possession of the city park, which plaintiff formerly owned and deeded to the city with the understanding that the park was to be kept in good order and improvements made, it being alleged that the city failed to carry out the contract.

Famous Smuggling Case.

San Antonio, Nov. 5.—The November term of the United States district court was begun Monday morning, Judge Maxey presiding. The grand and petit juries were sworn in and the smuggling case against Mrs. W. F. Peasley will be taken up. This is one of the most important cases of this kind that has been tried in this court for many years. Witnesses are here from a dozen cities in the United States.

Remarkable Woman.

Paris, Tex., Nov. 5.—Grandma Zilpha Dockery, who is 106 years old, was in the city last week with her granddaughter from the southeastern part of the county, shopping. She is still in good health, and walks a mile frequently to church. She says she can walk three miles on a stretch without becoming fatigued.

Fatally Burned.

Paris, Tex., Nov. 5.—Ab Barnes, a farmer living three miles east of Paclo, Delta county, who was burned last Saturday by a lamp explosion in his hands, died from theinjuries received.

EVERY WOMAN!

Housekeepers, wives, mothers, every woman who has the care of a family or household, has at one time or another spells of backache, nervous weakness, sick headache and disorders in the digestion, caused as a rule by domestic worry, overwork, irregular meals or habitual constipation.
