SNYDER TIGERS WIN LAST GAME OF YEAR 18 - 0

Luckless Tigers Score Almost At Will In Last Half of Final Game of The Season

Scoring all their touchdowns in the last half the Snyder High School Tigers defeated the Loraine High School ball club on the latters home field Thanksgiving Day by a score of 18 to 0.

The Tigers were really ready for this game and although unable to score in the first half they were constantly threatening. After the intermission the second time they got the ball on a quarterback sneak. Jack Garison broke through the middle of the Bulldog line and raced 69 yards before being run out of bounds on the two-yard line. On the next play a fumble and then the ball but the fighting Tigers were not to be denied a score. After Loraine was unable to bring the ball out, Nayrell attempted to punt from his own goal line and Raymond Bynum blocked it only a yards short of pay dirt. On the first play Garison carried it over.

After the kick-off to Loraine, the Bulldogs were never able to make a serious scoring threat. Featuring a beautiful run by Louis Vaughn and the passing of Garman the Tigers carried to the 1 foot stripe from where Garman pitched one to Billy Longbotham on the goal line but the play was called back because the Tiger tackle was in

Migratory Laborers Moving Southward

With a considerable amount of unharvested cotton and grain still in the fields of this area and Northwest Texas, migratory laborers are pulling out and moving south in large numbers, Texas A. & M. College Extension Service reports to The Times.

Shift southward started after the first real norther of the season struck November 8.

In the seven days after the norther, Snyder lost 55 migratory laborers, Texas Extension Service states.

Roby, to the east, with a third of her cotton unharvested, lost 60 laborers after the first norther, and other area towns report losses about as heavy.

Most of the laborers who left Snyder's trade zone gave San Antonio, Bishop, Pleasantown, Robstown and points in the Rio Grande Valley as their destination.

Aerial Engineer Out Of Army Air Corps

Technical Sergeant Delbert Johnston, son of Mrs. A. Johnston of Southwest Snyder, received an honorable discharge November 23 from the U. S. Army Air Corps.

Sergeant Johnston enlisted in the air corps April 15, 1941, and served as an aerial engineer on a C-46.

Johnston holds decorations and citations in the American Theatre of Operations, the African and Middle Eastern campaign ribbons, Good Conduct and Victory medals.

Who's New In Scurry County

Mr. and Mrs. James M. Boyd Sr. of Colorado City announce the arrival of a baby boy, James Melvin Jr., November 21. The baby weighed 6 pounds, nine ounces.

Sergeant and Mrs. Jack Harless, Snyder, are entertaining a new baby girl, Rita Sue. The young lady weighed 6 pounds, 2 ounces and arrived November 21.

Mr. and Mrs. Charles McKinney of Route 1, Snyder have a baby boy, David Charles, who was born November 21. He tipped the scales at 6 pounds, 2 ounces.

A baby son was born to Mrs. Marie Decker, Snyder, November 22. He weighed seven pounds, one ounce and was named Charles Randall.

Mr. and Mrs. L. A. Crenshaw of Coleman are the proud parents of a baby boy born November 26. The baby weighed four pounds, four ounces, and has been named Howard Randall. Mrs. Crenshaw is the former Jettie D. Elkins.

Mr. and Mrs. E. E. Minor of Ira announces the arrival of a baby boy November 26. The youngster weighed seven pounds, 12 ounces.

Mr. and Mrs. Charley Stewart are parents of twin boys born in Snyder General hospital, November 23. They have been named Billy Roy and Jackie Ray.

Colonel Roy Irvin Helps Discharge Men from Service

Lieutenant Colonel Roy D. Irvin of Garden, officer in charge of the separation center at Abilene, Hardin Field, and his wife have been [illegible] "Army mommy" [illegible] of Abilene and Lubbock.

Colonel Irvin's picture, with [illegible] in recent issues of the Abilene [illegible] and the publication today in The Times is chock full of facts on the Separation Center as familiar to Scurry County eyes.

A total total of 1,866 enlisted personnel have been processed at Fort Bliss for discharge to date since start of the year. For the year to date, 1,386 enlisted personnel have passed through the Fort Bliss Separation Center.

Colonel Irvin and his staff members are having an exceptionally busy time of the matter these days, with returned veterans from overseas points being processed daily for civilian life again.

Herrington On Way Home on Saratoga

James T. Herrington, [illegible] second class, U. S. Navy, and husband of Mrs. Mary J. Herrington of Snyder, is on his way home, a release from Pearl Harbor, Territory of Hawaii advises.

Herrington is one of the 3,729 high-point veterans whom the "Magic Carpet" is bringing back to the United States aboard the U. S. S. Saratoga.

Herrington, when he arrives in the states, will go to a separation center nearest his home to complete formalities connected with obtaining a service discharge.

Small House Burns To Ground Monday

Snyder's Volunteer Fire Department answered a call Monday night, 9:45 o'clock, to a one-room house north of O. P. Tate Service Station. The house was located across the creek from Tate's Station and evidently no one was at home when the fire broke out.

When the alarm was turned in, the one-room structure was ablaze all over and even though department members did all they could the house burned to the ground.

Contents of the house were a total loss.

Big Crowds Help Celebrate Return Of War Prisoners

Seldom have Snyder area people been given the type of entertainment that was provided last Thursday evening, when Snyder's Will Layne American Legion Post celebrated the return of county prisoners of war by staging a special program at Snyder High School Auditorium in honor of the boys.

Hilton Lambert was master of ceremonies for the gay affair. Mrs. John E. Sentell sang "Bring New Glory to Old Glory," and Beverly Johnson gave a number.

Then, there was the Barber Shop Quartet, with songs both old and new to regale atendants.

When the Robinson Troupe put on the one-act play, "All In a Day's Work at An Army Hospital," attendants got to see one of the largest appendix removed that has ever been seen in "these parts."

Returned POWS present last Thursday evening, who were introduced in an informal way, were Prentice J. Riley, Bobby Mitchell, Max West, Sam Hamm, J. W. Kimzey, Roy O. Irvin and Leonard Spence.

No admittance charges were made for the celebration, which attracted a capacity crowd.

Victory Loan Week Designated In State By Coke Stevenson

In a telegram received Wednesday afternoon, The Times is informed by Lockett Shelton of Abilene, assistant regional manager of the War Finance Committee, that Governor CMoke R. Stevenson of Texas has proclaimed the week of December 2 as Victory Loan E Bond Week.

F. G. Sears, county Victory campaign chairman, stresses the fact that war bonds purchased will have more purchasing power four to five years from now and will keep down inflation.

Keeping inflation down will be the major problem, it is stated by campaign officials.

Each Scurry County citizen is urged to make the Series E War Bond week successful.

In conjunction with the week, each community chairman is urgently requested to have community-wide rallies at the earliest possible date and help the county get its job done.

Submarines Are Resting After Doing A Good Job

Men of the U. S. Navy submarine service reveal the toll they took of enemy shipping on long patrols in enemy waters as their tie-up at Pearl Harbor. They are now enjoying a well deserved and long-needed rest. Their job well done, so too, as Snyder citizens should prove to them you can finish your job to buying your Victory War Bonds today.

Meat Rationing Ends After Two And Half Years

Many Snyder people, and especially Snyder storekeepers, felt the letdown at a yell of "Go" Saturday, 12:01 a. m., when meat rationing came to an end.

At the same time, all food fats became ration-free.

Local merchants have had enough beef and veal products to go around virtually all through meat rationing, but pork supplies have been and still are scarce.

Sugar now remains the only food left on the ration list.

Since September 30, about one-third of the meat supply has been ration-free. Cuts included the lower grades of beef, veal and lamb. Only choice cuts of those meats and virtually all pork had remained on the ration list after that time.

Meats and fats rationing program for Scurry County and the nation was started March 29, 1943.

Although shortening and lard became ration-free Saturday, there is no doubt but that local merchants will have to limit consumer purchases for several months.

It is estimated that lifting of rationing will make meat available for civilians during December at an annual rate of 185 pounds per capita, as compared with an annual rate of 110 pounds during the early spring and summer.

Ending, however, of meat rationing will in no way affect government plans for the shipment of meat and certain fats and oils to allied and liberated countries.

Clinton Anderson, secretary of agriculture, said this week that there is no immediate prospect of lifting sugar rationing.

The over-all picture for fats and oils makes it mandatory that merchants limit purchases, since supplies of these will be limited for several months yet.

4-H Club Calf In Hgh Ten at Dallas

Of the 157 4-H Club calves entered in the Pan American Her ford Exposition, recently, at Dallas in the particular division, the 4-H Club entry of Bruce Cox, Fluvanna 4-H Club member, placed in the high 10.

Bruce, son of Mr. and Mrs. John Cox, sold the 820-pound calf, which was under 12 months of age, at 28 cents per pound. Young Cox received a $25 premium on the animal.

Bruce's calf was donated by O. J. Martin of Canyon, well known breeder of straight Anxiety 4th Herefords. Martin has some of the best blooded cattle in his vicinity.

Bruce has purchased another calf from Martin to be fed for next year's show.

Returned Chaplain To Preach Sunday

Rev. Harvey E. Carrell, whos wife has been living in Snyder while he was serving as a chaplain in the army will speak at Snyder First Methodist Church Sunday night.

Rev. Carrel, a native of Scurry County is well known to people of this territory having served a number of church in this area before entering the army over two years ago.

Members of the church and others as well are urged to attend Sunday night an hear Rev. Carrel.

Save That No. 4 Ration Book, You You May Need It

Even though meat and all food fats rationing ended Saturday morning, the OPA cautions Snyder and Scurry County people to save War Ration Book No. 4.

Sugar continues to be rationed, and the No. 38 sugar stamp is currently valid for five pounds of sugar through December 27.

Shahans Bid Adieu To Snyder Church

Rev. Roy Shahan, Snyder's First Baptist Church pastor for the past three years, and his family moved today (Thursday) to San Angelo, where he becomes pastor of th Immanuel Baptist Church.

"We have really enjoyed our stay in Snyder," Rev. Shahan states, "and I have enjoyed working with the Lions Club, Chamber of Commerce and Snyder business men.

"I am happy to state," Rev. Shahan concluded, "that in Snyder, its good people have a town far above the average.

Best Warns Citizens Against Shooting of Fire Works in City

Every Snyder citizen is cautioned this week by Simon Best, city marshal, and other city officers to see that no children shoot firecrackers around the public square.

There is, parents are reminded, a pretty heavy city ordinance against children shooting fireworks within Snyder's fire zone.

If young folks must shoot fireworks, they can do so only on vacant lots, out in the edge of town, and a definite stop will be put to children "running wild" in the fire zone with the implements of noise.

There is not only a great danger of fire in ruthless firing of fire crackers, roman candles and the like, but returned World War II veterans with shattered nerves cannot stand the noise made by the fireworks.

Snyder's fire zone is defined as an area one block each way from the square.

Parents of all children, especially children from seven to 15 years of age, are admonished that warnings from city officers will be followed with more drastic action if the practice of wanton y shooting fire crackers continues in the fire zone.

Scurry County Test Attracts Interest From Wide Area

Located in the southwest quarter of Section 116, and two miles slightly southeast of Ira, the C. T. McLaughlin No. 1 J. C. and Lee T. Stinson well has been flowing by heads since completion.

This well has attracted wide intrest, because it marks the first pool (Old Northwest) completion in many years to be producing, by heads, from the upper pay horizon. The well was completed at 1,775 feet.

McLaughlin has moved rig and drilling equipment to his No. 3 location for the Stinsons, the west one-half of Section 101, and will spud the test Friday.

The Stinson land has been a "key" tract in the Ira pool for a number of years, and development now underway promises to result in new drilling operations for the area.

SHOPPING TIME HERE, STORES GIFT CONCIOUS

Snyder Merchants Display Goods For First Peace-Time Yule Season In Four Years

With Scurry County's first peacetime Christmas in four years only 26 days away after today (Thursday), Snyder area people speeded preparations for the gay holiday ahead.

Christmas Day, this year, will fall on Tuesday, and advance indications are that a considerable number of service men and women and discharged World War II veterans will be home for the happy occasion.

Even though war-time restrictions yet remain on many articles and foods, Snyder area people are planning for the type of Yuletide so familiar here in the years preceding Pear Harbor.

Snyder merchants, too, are stocking Christmas goods as they are available. Local merchants will have Yuletide goods here that doubtless will not be available in some of the larger towns and Snyder area people can do all their Christmas shopping right here in Snyder.

In the realm of children's toys, for example, wooden "contraptions" of 1943 and 1944 are gradually giving away to metal toys. Popular with people in this vicinity is the lay-away plan by which a deposit will guarantee a lay-back on coats, gift sets, toys and other holiday commodities.

Scurry County people feel the real "pinch" during Christmas time will be with fresh eggs and sugar. Sugar will be rather "tightly" rationed and fresh eggs will be scarce—at least. Some area people are already beginning ts save fresh eggs so enough will be available for Yuletide baking.

Former POW Back In States Liberated

Taken prisoner of war by the Japanese at Corrigedor on May 6, 1942, J. W. Kimzey, son of Mr. and Mrs. R. M. Kimzey of Hermleigh, is now stationed at Fort Sam Houston.

Overseas with the U. S. Air Corps, Kimzey, after being taken prisoner by the Japs, escaped, later, and was a member of a Guerilla Band for in the states on November 1. J. August 19 of this year and arrived three months. He was liberated W. was stationed at Kelly Field before he saw overseas service.

Max Kimzey, another son, was stationed in the European Theatre of Operations as a radio operator. He and R. M. Kimzey Jr. went into service June 23 1941, and both are now honorably discharged.

The three boys attended Hermleigh High School and are well known in the community.

Pyron Girl Makes Honor Roll in School

Mary Ann Haygood, a 1945 graduate of Pyron High School, and daughter of Mr. and Mrs. Arnold Haygood made the honor roll at Draughon's Business College of Abilene last month.

She was salutatorian of her class and finished with 18 credits, and is now an advanced student in college where she has been going since June 4, 1945.

Scurry County Lags In Series E Bond Buying

C C Gets Promise of Investigation Into Cotton Grades Discrimination

[illegible] Chamber of Commerce [illegible] Snyder [illegible] cents per bale this week brought protest action from Congressman Mahon, 19th District Congressman.

Scurry County Chamber of Commerce visited the mill to long last week, which it was ascertained [illegible] prices there have been buying cotton at grades one half to a grade higher than classing given at the same mills at Abilene.

Mahon informs the Chamber of Commerce that he is quite confused over the situation and that he has contacted the Commodity Credit Corporation, both in Washington, D. C. and at New Orleans, Louisiana.

Mahon is urging that steps be taken immediately to correct the cotton classing discrimination.

This district's congressman has appealed to the Production and Marketing Administration, U. S. Department of Agriculture, to help correct the present condition.

It has been ascertained that the Memphis, Tennessee office of the USDA periodically checks cotton classing at Abilene and other branches and will check the Abilene classing.

Navy Man Receives Credit for Vital Aid

Norman B. Griffith, radarman third class, U. S. Navy, and other navy men who served on the attack transport U. S. S. LeGrange, are credited in newly revised navy records with serving in two of the vital campaigns that marked the closing stage of the Pacific War and helped bring the Japanese to their knees.

The La Grange was with one of the groups of attack transports that made the initial invasion of the Kerama Retto group several days before D-Day on Okinawa, and helped clear the way for landings on the island.

The ship also took part later in the landings on IeShima, another strategic island nearby, and the scene of Ernie Pyle's death.

Pigeons Released In Snyder Return To Home in Brenham

Remember the homing pigeons released here Sunday, November 11, Mr. and Mrs. J. R. Green for Brenham Pigeon Club??

Mr. and Mrs. Green were informed this week that approximately 40 per cent of the birds returned to their nests at the Brenham Pigeon Club.

It seems the pigeons ran into a rain squall between Snyder and Brenham, and the percentage getting home was said to be fair. The first of the birds released here arrived home on the second day at 2:00 p. m.

Mrs. Williams of the Brenham Club thanks Mr. and Mrs. Green for their cooperation. She says the club will likely send another bunch of birds up here next May.

Airport for Snyder Discussed By City Post-War Boosters

Mr. Metz, Department of Commerce, with offices at El Paso, was in Snyder Tuesday in the interest of a post-war airport for Snyder.

Mr. Metz was a guest of the Scurry County Chamber of Commerce, and declared that Snyder should, by all means, qualify for a No. 2 airport.

The Department of Commerce official further informed Chamber of Commerce officials that an airport should be a "must have" project, inasmuch as airlines will be directed over this vicinity by major aviation companies of the nation.

Metz realized that Snyder, more or less, will be dependent upon the federal government for backing in such a project. Bill calling for such help is now in process of becoming law and doubtless will be a law of the land by January 1, 1946.

If Snyder is at all interested in an airport project, citizens of the town and trade area must get behind such a project 100 per cent and back the Chamber of Commerce to the limit in order that the city can participate in aviation for West Texas.

The first mule bred in this country belonged to George Washington. The first jack brought to this country was presented to him by the King of Spain.

Hermleigh After Bulldogs Hide In Friday Grid Game

[illegible] wins out of eight decisions [illegible] be the goal and win of the season [illegible] Cleveland football team against [illegible] off against the Loraine Bulldogs Friday night at Loraine.

The Cardinals have won the [illegible] three games played [illegible] Big Spring [illegible] Hobbs Panthers of district 3A. The Hobbs game, played on Turkey Day at Snyder two weeks ago was a mild upset, due to the fact the Panthers were rated as one of the best teams in this district.

Among Hermleigh victims earlier in the season was the Snyder High School Tigers who fell before the passing attack of the Cardinals by a score of 12 to 6.

Friday night's game will mark the last of the current football season for each team and promises to be one of the best of the year. The Bulldogs have not won a game this year, but in Don Narrell, 220-pound fullback, they have one of the best backs in the district.

Several local football fans are expected to go to Mitchell County to see the game as well as a large group of backers from in and around Hermleigh.

AAA Committees For Coming Year To Be Elected Soon

Scurry County farmers will have time out from seasonal work in the next four weeks to elect AAA committeemen for the coming year.

Three community committeemen and two alternates as well as a delegate to the county convention will be chosen in each of the county's nine farming communities. The delegates will later elect the three-man committee which will administer AAA activities within the county.

Chairman S. L. Terry of the county AAA Committee, said today that date and places for holding the annual elections are now being determined. Announcement will be made within a few days.

In Scurry County, Mr. Terry said approximately 1500 farmers are eligible to vote on committeemen this year. "Eligible" farmers are those who participate in the 1945 agricultural conservation flaxseed payment, sugar, or crop insurance programs.

The county AAA chairman, in reminding Scurry County farmers of the forthcoming ballot, appealed for full participation.

"Solution of the postwar problems ahead of us is the vital concern of every farmer. Consequently, it is to his own best interest to vote in the coming elections to make sure that the men administering AAA programs in the county are the ones he wants to represent him."

Dunn Service Men Honored By Ladies At Dunn Banquet

Thursday night, November 22, the Women's Society of Christian Service of the Dunn Methodist Church sponsored a supper for returned service men of the Dunn community. Present also were the families of these men. Honored guests for the occasion were the following:

Ray Gibson, Harold Denson, T. H. McCormack, Tony Gonzales, Jeff L. Brown, Marcus Johnson, Claude Lloyd, Jackson Ellis, Price Crabtree, James Clayton, Fred Gary, Mrs. Bonnie Shied, Mrs. Anna Beth Morin, and Mrs. Edith Summerford

More than 200 people were present and enjoyed an evening of fine fellowship together.

At this meeting it was decided to give another banquet for the service men in the month of January.

President Lincoln was assassinated by John Wilkes Booth on April 14, 1865. The first attempt on President Lincoln's life occurred while he was en route to Washington in 1861.

17 PER CENT OF QUOTA SOLD AS CAMPAIGN ENDS

Scurry County Patriots Urged To Help Prevent Inflation and Save For The Future

[illegible] urged to every Snyder and Scurry County citizen [illegible] to the Victory Loan war bond meeting held Monday night at Snyder Junior High School, at which time County chairman, F. G. Sears, H. H. Odom, Snyder chairman, and other war bond drive workers [illegible] the county.

The fact was brought to light that Scurry County, to date, has raised only 17 per cent of its overall Series E war bond quota. The campaign is scheduled to draw to a close next week.

Texas as a state, now stands on the lowest rung of the Victory War Loan drive and unless Scurry and other counties [illegible] the state [illegible] by itself as a bond drive [illegible].

Scurry Countians, in the final days of the campaign, should feel that it is their duty to raise remainder of the Victory War Loan drive quota, since the over-all goal is only about two-thirds of the amount set in the previous campaign.

Victory War Loan drive officials, however, tell that Scurry County, had it more citizens like Ron Williams, one mile west of Plainview School, the drive would have already been over the top with honors.

Williams, Scurry County farmer since September, 1907, and former [illegible] Hermleigh community resident, has bought $3,000 worth of bonds to help the campaign—not only for Plainview but for Scurry County.

Since most of those present Monday night said they had not been solicited in the present campaign, a public bond selling session was held and several thousand dollars worth of war bonds were sold.

F. G. Sears county chairman for the Victory War Loan drive, pointed out at the gathering that a potent sales point for war bonds at this time lays in the fact that bond purchases will help keep down inflation. The government has repeatedly told people that inflation must be kept down and bond buying provides the only certain and safe way to do this.

Consequently, a dollar spent in war bonds now will be, beyond a doubt, a purchase that within a period of five years have twice as much purchasing power as the dollars by themselves, have today.

Since next week will mark the final week of the Victory Loan war drive, it will be exceptionally fitting that the campaign come to a close a day after the infamous Pearl Harbor attack anniversary. The Pearl Harbor attack occurred on December 7, 1941.

The Pearl Harbor attack is one we, here will long remember, bond campaign officers state, and Scurry county should count it a privilege to raise its over-all bond quota. No tally of less than 100 per cent should be acceptable to red-blooded citizens.

Deer Hunters Have Good Luck on Hunt

Nolan von Roeder, co-owner of Von Roeder Sred Farms, Knapp, Sam Armstrong of Coahoma, W. L. Gardenhire of O'Donnell, Lloyd Murphy, Howard Franklin and Roland Hamilton of Gail returned Sunday from a deer hunt to Kimbell County that netted the group six white tail bucks and three wild turkeys.

Members of the group left November 15. Mr. and Mrs. R. O. von Roeder, former Snyder merchants now operating a store at Mason, kept camp for the group and prepared the meals.

Freshman Student On ACC Honor Roll

Seabourne Ricke, freshman student at Abilene Christian College, whose name appears on the ACC honor roll for the first nine weeks of the semester, made a superior grade in three subjects.

Seabourne is a spring graduate of Snyder High School and son of Mr. and Mrs. A. B. Ricke, 2302 25th Street. Seabourne has agriculture as his major.

FAST RELIEF

From Too Frequent Urination, Backache, Run-Down Feeling

—due to irritation of the bladder caused by excess acidity in the urine

Famous Doctor's discovery gets on the kidneys and helps keep you from getting up nights!

Are you suffering unnecessary discomfort and distress from backache, burning, scanty, excessive desire to pass water, getting up often at night? These symptoms may be caused by bladder irritation due to excess acid in the urine. You may feel nature intends you to get more rest and sleep — get GOLD MEDAL HAARLEM OIL CAPSULES today!

Famous for over 200 years, Haarlem Oil is a carefully blended combination of herbs, roots, balsams and other natural ingredients. That's absolutely nothing harsh or habit-forming in a scientific prescription. Just good, pure, time-tested Haarlem Oil, as the kidneys appreciate the love of anise and celery. Soothe irritation and get wonderful, distressing symptoms. You'll see its marvelous effect at once. Don't delay!

How much light is *enough* to make a cake?

Kitchen work requires almost as much effort with the eyes as it does with the hands. *Better Light* enables you to see what you are doing, keeps you from having to work in your own shadow, makes your kitchen tasks seem easier.

Put a 150-watt bulb in your kitchen lighting fixture, and if your kitchen is large, a fixture over the range or over the sink will give the added light you need for easy seeing. *Better Light* also will give your kitchen a brighter, cleaner appearance.

Try Hot Water Plus After Meals For Acid Upset Stomach

Here is welcome relief from the distress and discomfort caused by excess stomach acid.

Just introduced to the druggists of this state is a remarkable formula called Neutracid. Its name tells the story of excess irritating stomach acids being robbed of their power to cause upsetting distress.

There's nothing quite like Neutracid. Its fast action means quick relief and this alone should merit a test. Surely you can get a package today! Put one teaspoonful of Neutracid in half a glass of hot water and drink right after meals when distressed. Gibson Drug Company and all good druggists have this new and remarkable formula for gas, stomach acid.

Do We Need Anything?

So far, the general response to proposal for a new food lock-r and meat curing plant in Snyder has been mighty unenergetic and cold-blooded. It seems, at times, that Snyder doesn't need anything. We seem to be satisfied to let the post-war world find its own path a mile or two wide down and not a single animal payroll to keep the merchants in business.

Snyder during the years of war, dared not reach out for new life blood in the form of new capital and new industries, and as a consequence cannot point to a single new industry, like an egg drying warehouse for mercantile or grocery firms established here. Naturally, it might have been human to let a few projects go by the board—but when a community lets all projects go overboard that community need not even look forward to real post-war prosperity.

Neighboring towns, with smaller populations, have cast after new projects that would bring new money to town like people poisoned, but neighboring towns are listening on new payrolls and new expansion programs that are creating more jobs than can be filled and more business that many firms can handle at this time.

Evidently Snyder does not need a modern, up-to-date food locker plant and meat curing plant, but there will come a time when the town will have to reach out for new capital and new payrolls to keep the community growing and progressing.

Fair Cotton Grades

Some Scurry County farmers are losing from $12 to $17 per bale on county cotton being classed at Abilene there is every reason in the world for every citizen to back the Chamber of Commerce in its fight to not only demand but get a fair cotton classing for Scurry County's cotton crop.

Scurry County is making a short cotton crop, anyway, and certainly farmers are due every penny their 1945 crop is worth. Undergrading, and resultant loss in revenue, should not be tolerated one second let alone half the season.

If county farmers are being "graded out" of part of their just cotton earnings, it's high time we quit being arm-chair generals and pencil pushing "managers" and like red-blooded Americans take up arms until we get a fair trade in this part of West Texas.

Silence, How Golden

It provided a happy little story this week when the U. S. Coast Guard revealed that it developed a cute little gadget, radio controlled, by which it turned off war-time fog horns by a system of remote control.

Civilians, too, have been waiting for just such development, but some find almost despaired of such good fortune. Civilians need a remote control gadget by which they can stop automobile horns from honking late at night, turn off the neighbor's radio, quietly close the mouth of the baby who takes the colic at 2:00 a. m. and still the voice of the alley cats that like to tip-toe along the back-yard fence when the moon gets low in the sky. Now it will be up to the Coast Guard to "give out" with just a little information on the how of the remote control instrument.

Editorial of the Week

CHINA'S TWENTY-FIFTH HOUR

It is getting late in China. Not much time is left to prevent the civil war, which probably cannot be stopped once it starts full blast.

There is little hope in the long and inconclusive unity conferences in Chungking between Chiang Kai-Shek and the Reds. Outside peace pressure is needed now.

The prospect of civil war would be bad enough if only China were involved. That torn and exhausted land cannot stand more blood-letting after the long struggle against the Jap invaders.

But a China war also would prevent stabilization and reconstruction throughout the Far East, and stimulate the racial strife already beginning in Southeastern Asia and the neighboring Indies. Moreover, it would align Russia and America on opposite sides in an Oriental conflict when cooperation between the two major powers is essential for world security.

Both the United States and Russia have committed themselves to the Chinese Nationalist Government, as an ally in war and as the responsible authority to receive surrendered Jap arms and territory. The only difference is that Washington has lived up to that obligation, while the role of Moscow is not yet clear.

If Russia hands over Manchuria to the Chinese Reds, it will be a complete violation of the recent Stalin-Chiang pact of friendship.

Obviously, the United States and Russia should act jointly and immediately in applying peace pressure.—The Fort Worth Press.

SCHOOL CLOSET SKELETONS

Mr. and Mrs. John Q. Public will go back to school this week. In a million classrooms they will sit again in the old desks and look up at the familiar blackboards. It is American Education Week for the twenty-fifth time, and the teachers by now have learned pretty well how to get the mothers and dads, the aunts and uncles, to heed the annual call: "Visit Your Schools."

What will they see? Much that is encouraging. Gayer classrooms. More color. Better pictures. Some movie and radio equipment. More attractive textbooks. They will discover that reading is better taught, that writing and arithmetic are receiving new emphasis. American history, they will learn, is now required by law in practically every state. They will see some special classes for returning veterans. The teacher shortage they will hear is growing less serious. Teacher-training schools are full, and some veterans have returned to their teaching jobs. On the surface, at least, things seem to be looking up.

But there are skeletons in the classroom closets. Behind carefully closed doors are many of the same old unsolved crimes with which the schools have had to live for so long, and in spite of which they have had to carry cheerfully on. Teachers, for example, are still disgracefully underpaid. Some 44,000 of them, or five out of every 100, receive less than $600 a year or $11.58 a week. Well-qualified men and women, many with families, actually cannot afford to teach.

And what of the children? A child's chance for a good public school education depends not on the fact of his American birth but on the region in which he lives. Furthermore, in some parts of the country, if he happens to be black, his chances are even less. Again, black or white, he may have only a few weeks' schooling as against nine months if he lived elsewhere. Or he may have none at all. Meanwhile, bills in Congress proposing Federal aid for poorer communities continue to be political footballs.—The Christian Science Monitor.

Crime Trends Upward

I have been in several Texas cities within the last 30 days and have observed that in each city the crime trend is upward. I have observed that either the person committing the murder or the one murdered had been drinking.

There are in the United States, according to J. Edgar Hoover, 4,500,000 criminals, committing crimes at the rate of one every 22 seconds, and costing our country over $15,000,000,000 annually.

These cases occur in every section of Texas. A woman was killed by a drunken driver. A man was murdered and empty whiskey bottles were found in his room. A child was killed by a drunken truck driver. A house was set on fire by a drunken man. In the house were a woman and two little children . . . and on the records go.

Mothers and fathers need to re-study alcohol and crime. Alcohol has been referred to as "the great destroyer." It should be referred to first as "the great deceiver." It deceives and then destroys. In face of this it is difficult for an intelligent person to understand why the distillers are given a month in which to make 50,000,000 gallons of liquor, using 7,000,000,000 bushels of grain, enough grain to feed the starving peoples of a great nation.

It has been pointed out to us recently that whereas the federal government receives $18 per capita on the revenue derived from the liquor traffic, it costs the government $91 per capita to arrest the drunkards, drunken criminals, to prosecute the criminals made by liquor, build and maintain asylums for alcoholic addicts and build and maintain institutions of various kinds to care for the men and women who have become mentally deranged because of drinking beverage alcohol.—T. C. Gardner.

WE Like It Here

A preacher was conducting a series of revival services in Arkansas, but was having no response. Finally, discouraged and ready to quit, he asked the congregation, "How many here want to go to heaven?" No one lifted his hand. Then he asked, "How many want to go to hell?" Still there was no indication.

Then an old lady arose and said, "Brother, heaven and hell may be all right, but we don't intend to leave Arkansas to go anywhere."

It would be wonderful if all the people of the world felt a greater loyalty to the place where they live—a type of loyalty that would give them a public interest in voting improvements, building churches and schools, and in the removal of unrighteous influences that degrade and mar. If they would only try to build a community that they would not want to leave.

How fine it would be if good old competition, so kind and yet so cruel, could bring the modern conveniences of life down to a level so that every home could afford them.

Every American home ought to have electricity, a bath tub, refrigeration, screens, radios and many other things that bring comfort and material ties of appreciation to the place where they live.

Many a child has left home early and maybe went the wrong direction searching for something better than he had at home.

Let's make these places where we live so attractive that they will not want to leave to go anywhere—that we can all say, "We like it here!"

Piper Cub Airplane Ready for Delivery

Bill Mobley of Tuscola, Piper Cub airplane dealer for Scurry and other counties in this area, was here Wednesday in a brand new 1946 Cub.

Mobley loaded his Cub on the highway, without trailer, and traveled between here and around 6:00 p. m. Groups of young men in the area are showing considerable interest in taking flying lessons and taking instruction from Mobley and his associates. His 1946 Cub was the first flew from the factory to this section of West Texas.

Thanks . . .

For more than 20 years it has been my pleasure to serve people of Snyder and Scurry County with their automotive needs. I would be ungrateful indeed, if I did not take opportunity to express to you my sincere thanks for your business and the many other considerations given me through these years.

Formal onnouncement of a change in the ownership of Stimson Camp Ground will probably come next week from the new owners.

To the many friends and customers I have had, accept or sincere thanks for the privilege that has been mine to serve you. I have no immediate plans for the future. Thanks again for your business and your friendship.—

J. O. Stimson
