First Official Freeze Is Recorded Here

Unofficial Lows Read Earlier

Olton received its first official freeze of the season Wednesday morning, Nov. 1, when the temperature dropped to a low of 31 degrees, according to James Gallagher, official weatherman.

Local farmers have reported lower temperatures but they are not official.

The reading was taken at 7:30 a. m. High for the day before, Tuesday, Oct. 31, was 53 degrees. The lowest temperature dipped last week prior to the below-freezing mark was 33 degrees registered for October 27, 28, and 30. High for last week was 83.

A blustery cold front that set off winds of near hurricane force on the Middle Texas Coast brought the chill to this area. While downpours of more than six inches swamped sections of North and East Texas, Olton received only .05 of an inch of moisture Sunday, with a trace reported for Tuesday.

The gloomy, damp cold weather of Sunday extending onto the first part of the week was dispelled by brighter skies late Tuesday and Wednesday.

Farmers Begin Cotton Harvest

Cotton ginning has begun slowly in the Olton area, but according to gin owners will start in full soon.

"It will be another ten days or two weeks before there is any cotton to gin to speak of", said Jack Straw, co-owner with W. C. Gunter of the Jack Straw Gin Co., "and it will be pretty good".

He stated that the best cotton would probably come from farms east and northeast of town.

Olton Co-Op Gin has had about 60 bales brought in so far, with L. A. Johnson bringing in the first. Lloyd Graham, manager of the gin, commented that up to now the quality of the cotton has been good

and that ginning is going to start in full before long.

The first bale brought in to the Circle Gin was delivered October 25 by V. G. Wood. A 500-pound bale was made from seed cotton weighing 2180 pounds. It was rated middling grade, staple 1 and 1/8 inch, mike 3.2, and was Acala long-staple cotton, according to George Richards, manager. The gin gave Wood 50 cents per pound for the bale and ginned it free.

"It looks like the cotton will be of a good quality, but the amount will be small--about one-half a crop," said Earl Douglas, manager of the Farmers Gin Inc.

Manager of the Thompson Gin could not be reached for a report.

Mustangs, Bobcats Fight For District Championship

The Olton Mustangs expect a very difficult game when they clash with the Dimmitt Bobcats Friday night at 7:30 in Olton for, as Olton Coach Don Beck says: "It will be a fight for the district championship and Dimmitt has a fine football team".

Beck thinks it will be the toughest game of the season as Dimmitt would like to win the same as Olton. Complimenting the Bobcats, Coach Beck said, "They have an extremely fine team which is headed by Land, their 195-pound fullback, and Hayes, 155-pound quarterback. They are also gifted with real fine speed in their halfbacks Thomas, 140-pound sophomore who must run in the neighborhood of 10-2 in the 100 yard dash, and Hutton, who is an experienced senior halfback that does everything well."

"David Land was all-district last year as a sophomore," explained Beck, "and is the finest back that we faced or have seen this year."

The Olton coach states that the Bobcats rely on land running between the two ends and Hayes, Thomas and Hutton getting outside of their opponents.

"Although they don't throw a lot, they are very capable of throwing the ball well", he said. "Their line is a little bit larger than ours overall and is quicker than ours. Their largest lineman weighs about 215 pounds, but most of their linemen in the neighborhood of 170, more or less."

Beck declares that Dimmitt has a well experienced defensive team composed mostly of seniors, and that they have allowed very few points to the

eight opponents they have played so far.

Two guards on the Dimmitt team, twins named Johnson, may give double-trouble.

Olton's starting lineup for the game is the same as last week:

OFFENSE -- quarterback, Johnny Lewis; halfbacks, Benny Akin and Kenneth Johnson; fullback, Sel Sanchez; ends R. L. Copeland and Lanny McClain; tackles, Steve Burleson and Mike Crowder; guards, Eddie Hooper and Tony George; center, Jason Latimer.

DEFENSE -- middle guard, Eddie Hooper; tackles, Danny Dial and Steve Burleson; ends, Stacy Pendergrass and Benny Akin; halfbacks, Butch Hudgens and Kenneth Johnson; line backers, Ricky Smith and Sel Sanchez; safeties, Charles Mc Clain and Steve Spain.

There are no injuries.

Blue And White

Displayed Here

For Color Week

Blue and white ribbons are flying--everywhere in Olton the school colors are shining for it is Color Week here.

In response to a plea by the Olton Chamber of Commerce to display the colors, merchants have cooperated and decorated their stores in blue and white. A festive air prevailed throughout the week which will draw to an exciting close Friday night when the Mustangs meet the Dimmitt football team on the local gridiron.

Olton High School students will gather for a pep rally at 3:30 p. m. Friday to cheer their players on to victory. Special guests at the game will be fathers of the football boys.

CROP Collections Delayed One Week

Collection for CROP was postponed from last Sunday due to the misty rain until next Sunday when youth from the Methodist, Baptist, and Nazarene churches will call on Olton residents from 3 to 5 p. m.

Each boy and girl participating will bear identification as a volunteer for the Christian Rural Overseas Program, and will solicit contributions.

If a person is missed by the CROP Trick or Treaters, or does not live in town, he may give his donation to the worthwhile project to the pastors of participating churches. CROP is the community food

appeal of the Church World Service, and provides assistance, high-protein foods, emergency supplies, agricultural tools, seeds and other commodities through the churches' overseas programs.

Gifts to CROP are put to use under church supervision in more than 40 countries, strictly on the basis of need. CROP's exports of contributed and purchased food and supplies since

1947 have totaled \$17 1/2 million, and its designation to other agencies, such as Catholic Relief Services and Lutheran World Relief, have totaled more than \$2 1/3 million.

Necessity Of Aviation

GUEST EDITORIAL

The Texas Aviation Commission is developing a program that could be significant to the bulk of the Texas communities outside the periphery of big-time aviation. The commission, utilizing new funds made available by the Texas Legislature, is embarking on an airport construction aid program that is on an unprecedented scale in the state. The result is that towns are going to have aviation facilities equal to their actual requirements. In all, the smaller communities will be spending about \$2 million this year for airport construction. The federal government is chipping in a substantial part of this cost. The local governments, city and state are contributing nearly as much. And, in many instances, the Texas aviation agency is making a substantial contribution to complete the job.

The importance of such programs is that it will keep numerous Texas communities in the current century in a transportation way. Because of the economics of higher level aviation, many towns and even substantial but small cities are outside the transportation mainstream. Without aviation perhaps even third level airlines in the future, these communities would have virtually no public transportation. The new Texas Aviation Commission program is more than a windfall. It is something of a public necessity. — Austin American-Statesman

Proposed Amendments Gets Lubbock Co. Support

A proposed constitutional amendment to allow non-elective state officers and employees to be members of state and federal boards and committees was "enthusiastically endorsed" Saturday by Lubbock County and area legislators. Lubbock County Rep. Delwin Jones, chief sponsor of the House Resolution that put the issue on the Nov. 11 ballot in the form of Amendment No. 6, said the charter change "would eliminate an archaic law that undoubtedly has cost our State University System millions of research dollars."

Lubbock County Sen. H. J. (Doc) Blanchard, co-sponsor of the resolution when it reached the Texas Senate was joined in his support of the amendment by Lubbock County Reps. Reed Quilliam and Elmer Tarbox, Reps. Ralph Wayne of Plainview and R. G. (Randy) Pendleton of Andrews. Tarbox and Quilliam joined Jones in sponsoring the House measure, and Wayne and Pendleton were instrumental in moving the bill through House approval to the Senate.

Their supporting statements followed by a week similar supporting action by the Texas

Tech Board of Directors. The lawmakers said "strictest interpretation of the present law prohibits faculty members of Texas Tech and other public institutions in the state from serving the state or federal government in non-paying advisory positions." Jones said "elimination of this restriction would allow employees of government agencies, including scientists involved in space exploration and oceanography, to accept appointment as part-time faculty members."

It also would open the door for Texas Educators who have been prohibited from serving on boards concerned with government research, Wayne said. Approval of Amendment No. 6 would eliminate the serious disadvantage in which Texas finds itself when competing for government research contracts.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

I've been feeling sorry for myself. Here I've lived these many years without ever REALLY riding on a train and now we're not going to have passenger service (in this part of the country, anyway) so I guess I never will!

I did get to go from Lubbock to Slaton and back to Lubbock with the cub scouts several years ago but that doesn't really count! When Mike was a cub scout Santa Fe sponsored a "Railroad Day" for area scouts. Mary Collins, Norma McClain (they had never been on a train either!) and I took our little den on that excursion. Don't laugh! we enjoyed it!

Don't mean to be a choosy beggar but it wasn't the Santa Fe Chief they took us on. The way I remember it it was one of those cars that they show on "Iron Horse". Seriously, it was OLD but at least the three adults got a thrill.

Now, I know that you people who have traveled via rail probably don't see my point but

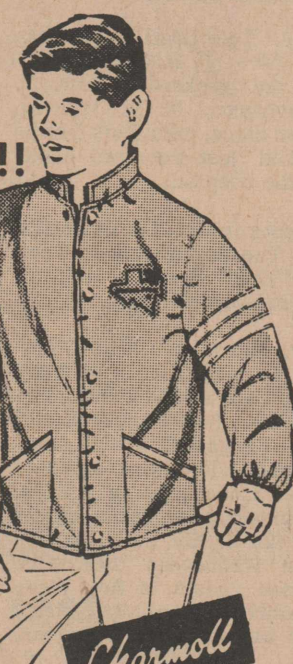

I feel - well, SAD. Guess I was born 30 years too late! I did hear them say something about building a monorail between - was it Dallas and Ft. Worth? (I shouldn't try to tell about anything that I know so little about but isn't that what "authorities" do?) I heard them say "Love Field" in the same announcement so if it's service from the air port I might as well forget it, I'd rather stay down here!

And now for something I DO know about! Notice - all you gals who sew! Did you know that beginning NOW (November) all pattern companies are changing the size scale of their patterns? The January dated catalogs, which reach pattern counters this month, will have two measurement charts in the back of the catalogs. The new sizing will be labeled in red. The change is to more closely correspond with ready-to-wear sizing. You will most likely be buying a different size so study these charts.

Mustangs Win Over Lockney, 14-6

For the first eight minutes of Olton's 14-6 victory over Lockney last Friday night, fumble was the name of the game. Both teams lost a pair of fumbles before the Mustangs finally came up with the stray pigskin on the Lockney 43, compliments of ball hawk Kenneth Johnson.

From there, the Ponies drove the 57 yards in seven plays to manage a 7-0 lead with 2:29 left in the first quarter.

Benny Akin carried on six of the seven plays, his longest gain a 16-yard run to the Lockney 14.

Akin later tallied from five yards out and Steve Spain kicked the extra.

As it turned out, that TD was all the unbeaten Mustangs needed to notch their eighth victory of the year, including five in District 3-AA play. The win set up the Mustangs' all-important battle with Dimmitt here Friday night, when all the chips will be on the line for the 3-AA championship.

That game may have been on the Mustangs' mind last Friday night, because Lockney, winner of only one in seven, made it an extremely tough night for Coach Don Beck's ponies.

As has been the case the past two Friday nights, The Olton opponent turned in its best games of the year against the Mustangs.

But that's the way it usually is for the front-runner. Everybody wants to gun him down. That was Lockney's goal early in the game when the Longhorns reached the Olton nine after scooping up a Mustang fumble at the 35.

But the Mustangs' Steve Spain recovered a Lockney loose ball at the nine, but Lockney got another chance two plays later when the Longhorns covered the pigskin at the Olton 27.

The Ponies were tough on defense, however, and four plays later took over at the Olton 33.

Late in the first period, after Olton had taken its 7-0 lead, the Ponies took over at their 13 and used up some eight minutes of the clock in driving the distance for their second touchdown.

The 87-yard march took 16 plays, all of short yardage except a 16-yard scamper by Akin and a pair of runs of 13 and 10 by Charles A. McClain.

McClain finally got the tally from five yards out with 4:25 left in the half. Spain added the extra and it was 14-0.

The Mustangs almost made it 21-0 at the half, as they drove 66 yards to the Lockney three-yard line.

Akin started it with a 27-yard run to the Lockney 42, and QB Johnny Lewis hurled

17 yards to End Lannie McClain, who made a great catch at the Lockney 11.

But after reaching the three, the Mustangs lost the ball with 36 seconds left in the half, Lockney recovering another Pony fumble.

In the third period, neither team was able to mount a threat until Lockney got a drive going late in the quarter.

The Longhorns used 13 plays to march 66 yards to a score, Tim Stansell scoring from six yards out.

A passing try on the extra points failed and it was 14-6, Olton, with 10:55 left in the game.

Lockney had one other threat going midway in the fourth quarter, but after moving for one

first down, another fumble went up for grabs.

This time it was End Stacy Pendergrass who came up with the ball for Olton, stamping out the last Longhorn threat at the Olton 42.

The Mustangs drove down to the Lockney 11, courtesy of a great 28-yard run by Akin and a beautiful catch by R. L. Copeland of a nine-yard pass from QB Lewis.

But the Lockney defense held and Steve Spain's 27-yard field goal try was just a mite wide to the left, with just 2:20 showing on the clock.

The Mustangs then stifled every Longhorn effort and ran out the clock for their 14-6 victory.

Akin was the leading Mustang ground gainer with 187 yards in 32 carries, while Stansell had a great game for Lockney with 127 yards in 29 tries.

And the Lockney line had a great game, too, giving the Mustangs one of their toughest nights of the year.

But the Ponies now can look toward the Dimmitt game, thankful that Lockney's great effort was not quite enough.

R. L. COPELAND, tries to go for the goal, but is pulled down from behind by a Longhorn. Olton came out on top by 14-6.

Signers Request Liquor Election

More than enough signatures have been obtained to petition for an election to make the sale of alcoholic beverages legal within the city limits of Littlefield, according to information in the County Wide News, Oct. 29.

Petitions are to be checked to ascertain legality of signatures, according to spokesmen, who indicated the petitions would be filed with the county clerk if a study of petitions showed all was in order. Safe maximum number of qualified voters needed to sign the petitions was set at 712.

Next step would be to present the petition to the Lamb County Commissioner's Court at its next regular meeting, Nov. 13, after the county clerk certifies eligibility and legality of signatures.

Proponents of the election, under the election code, have 30 days from the date of filing application for petition—which was Oct. 20—to file the petition itself.

QUALITY COTTON

On a farm operated by Mr. Bill Boggs, who farms 6 miles north of Plainview and one mile off FM 400 on the Providence pavement to the east, you will see a field of fine cotton, which not only gives promise of considerable quality but also of high production. This is a field of Gregg 25V one of the newer cottons for the Plains. The seed of this cotton is glandless, free of gossypol making it possible to use the meal in the feeding of poultry and swine, and also can be used as a high protein diet in human nutrition. Gregg 25V was specifically bred to resist verticillium wilt, however, a majority of those who have planted it this season have done so, not because they have a wilt problem, but because of the other good qualities which it possesses, such as better microaire, better grades (being a smooth leaf it cleans well), a little longer staple, and a better grade of seed. (Yes, Mr. Boggs managed this cotton according to special instructions.)

You are invited to drive out and see this field of cotton, or if you prefer just come to our place two and one-half miles east of the courthouse on the Lockney Highway, and we will not only show you Mr. Boggs' cotton, but also several other good fields of 25V. Gregg Seed Farms, 2700 Lockney Highway, Plainview, Texas. (Adv.)

Cotton Harvest Gains Momentum

The South Plains cotton harvest continued to gain momentum this week and was ahead of the pace of the 1966 harvest, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the USDA.

Forty-seven hundred samples were classed at the Lubbock office during the week ending Wednesday, Oct. 18, bringing the total classed this season to 7,300. Through Oct. 18 last year only 2,900 samples of the 1966 crop had been classed.

Most of the cotton harvested this season has been long staple varieties and has been hand-snapped and machine picked.

Quality of these early harvested bales has been excellent. Grades have been predominantly Middling, and average staple length has averaged better than 1-1/8". Micronaire has been excellent with approximately 97 per cent miking 3.5 and better.

Prices paid for these early bales indicate a strong demand for South Plains cotton. Cotton prices paid South Plains farmers as reported by the Consumer and Marketing Service of the USDA, generally ranged from \$7.50 per bale over the loan for short staple cotton up to \$65.00 per bale over the loan for 1-3/32" and longer cotton.

Prices paid farmers for cottonseed ranged from \$52 to \$57 per ton.

MR. AND MRS. BOB NORFLEET

Spotlight On Senior Citizens

Rancher Is Determined

"Man can do anything he wants to do if he has determination and tries" is the motto of Bob Norfleet, long-time Olton rancher.

He exhibited the kind of determination it takes to fulfill desires when, at the age of 15, he chose his present home-site 14 miles northeast of Olton as the place he wanted to spend his life. He spotted the site--which he described as pretty, a place for a home, wife and family--while he was driving 2500 steers to Amarillo with a bunch of cowhands.

Just a kid, working for \$25 a month at the Spade Ranch, Norfleet told his cowboy companions on the cattle drive of his dreams that were inspired by the land he saw. He liked it then and he likes it now!

Perseverance and hard work rewarded Norfleet, who finally got the land he wanted when he was 21. A house was already there on the "school land"--at that time every other section was railroad and school land. But he was 33 before the one section was all his, completely paid for.

He worked every way he could to raise money. For two years he hunted wolves for which he was given \$10 a hide, and this brought him in more money than working for wages. Once he found a mother wolf and nine pups which earned him \$100, his first real money. He killed eight big wolves also. Because the wolves devoured cattle every night, it was necessary to get rid of these carnivorous mammals. In the summer, Norfleet gathered cattle for extra pay.

Born November 6, 1876 in Lampasas County, Norfleet quit school in the fourth grade. He went to work in 1893 at Spade. His job was to ride fence, grease windmills, and work with cattle. The 96-pounder was little but tough, and was known as "the boy who could do anything that couldn't be done" after he caught a bob wolf, which had evaded everyone else, roped him and cut his throat. Norfleet also roped two mustang horses, black and brown, that couldn't be caught! Norfleet was nicknamed "Toad" by his family, one of whom was a brother, Frank Norfleet, who died recently at the age of 102 at Hale Center.

After eight years at Spade, Norfleet became the first settler in James County at Seminole. He worked first one place and then another including the K Ranch in Hockley County in 1910, before settling down on his own place.

He and Mrs. Norfleet, the former Fanny Norris, were married October 6, 1910. One of six children, she was born February 7, 1886 at Logansport in Carroll County, Indiana. After her mother died of tuberculosis, Fanny came with her father and grandfather to Texas when she was 14. She was the only girl in Hockley County at the time they moved there.

The two have lived in their present home since they married 57 years ago; the house is the same except for a face-lifting, according to Mrs. Norfleet. Landscaping, which consisted of only one willow tree at the time they moved there, later boasted more willows and elms which they planted. The 60 acres are almost all in farming land now except right around the house. Mrs. Norfleet recalls seeing a water moccasin kill some of their horses.

Blizzards were other perils of the early days. Norfleet recounts how he saved all but one of 1100 wild steers he was wintering by going out and knocking the snow and ice from their eyes with heavy gloves. At one time a number of their hogs were buried in snow drifts for about five days before the Norfleets found them, but the hogs were all right. The Norfleets remember the severe storm in which five men, going to the lot to do their chores, had to hold hands for fear of being lost.

In addition to the deep snows were the Dust Bowl storms which often piled the sand up six inches or more on the wind-mill tower. During the dust storms, Mr. and Mrs. Norfleet put their boys in the attic to scoop out the sand with shovels and buckets' otherwise the ceiling might cave in. The buckets would be lowered by a rope and emptied by Mrs. Norfleet.

Probably the most harrowing time Norfleet had was his pre-wedding experience. First of all there were 1700 steers to be dipped twice--the dip held ten days and then the animals must be dipped again and the old dip had to be cleaned out--and Norfleet did this by himself. Then three days before his marriage, Norfleet delivered 1000 head to Clarendon; the remainder of the steers were taken to Spur by Pete Norfleet and John Payne accompanied by all the men and wagons.

That night, after delivering the cattle, and the next day, Norfleet spent getting to Lubbock to buy wedding clothes and the license. He traveled 100 miles one night. He went to take his marriage vows after riding a pony three days and nights in a row and after staying up until 2 a. m. talking with an old friend he met in the barber shop!

Mr. and Mrs. Norfleet have seven children, Gladys of Canyon; Robert of Westville, Okla.; Kathryn and Mary Hope of Levelland; Helen of Grand Junction, Colo.; Owen and John of Olton; 20 grandchildren; and 25 great-grandchildren. Their children drove a hack and mules to school or rode ponies. Mrs. Norfleet was an early riser in order to fix five lunches each day. The couple belong to the Church of Christ.

Meinecke Named Ticket Chairman

Robert Meinecke of Olton has been named Lamb County ticket sales chairman for the Nov. 17 fund raising dinner in Amarillo honoring Cong. Bob Price on completion of his first year as Panhandle representative.

Cong. Gerald R. Ford of Michigan, House Republican Leader, will be featured speaker. Also attending will be Cong. George Bush of Houston, 1964 Senate candidate.

Cong. Ford has been the leader of recent successful attempts in the House of Representatives to reduce the Federal budget in hopes of avoiding the necessity of a tax increase this year.

A strong believer in the maximum use of American conven-

tional air and sea power in Vietnam, Cong. Ford has called for attacks on all significant military targets and a blockade of the port of Haiphong in order to bring the war to a speedy conclusion.

Like Panhandle Congressman Price, the Michigan congressman has also been an outspoken critic of Administration welfare legislation, and has offered alternatives to Great Society programs.

The Lockney Longhorns were thrown for a loss by our victory-bound Mustangs Friday and this made the present record read eight wins and no losses for the ponies. Butch Hudgens was the man who led the Mustangs defensively and held the Longhorns to only six points. Otis Patterson led the offensive men to victory and helped to add 14 points to our season total.

Head Hunters were Butch Hudgens, Sel Sanchez, Steve Burleson, and Stacy Pendergrass. Otis Patterson, Johnny Lewis, Benny Akin, and R. L. Copeland rated as Stallions. The Mighty Mustangs also captured the Spirit Jug this week because they have had outstanding school and team spirit all year. Congratulations Mustangs! This team spirit has helped OHS to many victories and has helped OHS in many ways.

We all know how important a victory over Dimmitt is, so we want to see everyone at the game Friday and the pep rally Friday afternoon. Mother's Day has been canceled because of conflicting time, but Dad's night will still be recognized Friday night. All the dads will have a place to sit on the sidelines or they may walk with the boys on the sidelines.

The businessmen who have displayed our colors, blue and white, have done an excellent job! We appreciated the interest and participation that each of you have shown this week,

the Smith family, There's the mother and the father and the baby. How many does that make?"

JoEllen Spain: "Two, and one to carry."

Benny Akin: "Have a peanut?"

Jan Scruggs: "No, thanks. They're fattening."

Benny: "Aw g'wan. Why should they be fattening?"

Jan: "I don't know why, but I never saw an elephant eating anything else."

You can tell that a child is growing up when he stops asking where he came from and starts refusing to tell where he's going.

Coach Beck: "Who's the Speaker of the House?"

Rickey Smith: "Mother."

R. L.: Grounded?? Never!!

What's wrong, Benny?? Losing your appetite?!!

Susan N.: Are you for sure??

Lynda Blackwell: Sore any more?!!

Sue Church: Who said it wasn't your fault?!!

Janie J.: Just your word against his!!??

Monty R.: They didn't know!!

Jane Ann, Carol and Shirley: Do you always leave your clothes everywhere you go?!!

Helen Ruth: What happened Wednesday night-anything different?!!?
