Owes His Life to a Neighbor's Kindness.

Mr. D. P. Daughtery, well known throughout Mercer and Summer counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little if any relief; when a neighbor learned of his serious condition and brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than 24 hours. Sold by Overton Drug Co.

I am now located next door to the Dublin National Bank in the Watkin' furniture store and ask all who need drugs, patent medicines, toilet articles, etc., to share their trade with me. You will be treated right. Respectfully,—H. C. Birchmore.

It Costs You Nothing to Investigate

Have you made sufficient provision for your wife and little ones in case of your death?

Have you made provision to have your debts paid without using up your estate, when you die?

Do you still owe something on your farm that would leave your dependents in a crippled condition if your death should occur soon?

Have you a money value to your family that would cease with death?

Better let the Equitable assurance society relieve you. You pay a stated amount each year. The strongest insurance company on earth will do the rest if you die, and if you live 20 years will return you your money.

You protect your family and lay aside money at the same time.

Falls County Cotton Crop Ruined.

Jim Reynolds, a pioneer saddle man of Marlin, passed through Dublin Monday on his way to Coleman, where he takes a position in J. H. Nance's saddle establishment. The farmers in Falls county, said Mr. Reynolds, are almost on the verge of ruin. Crops have been a failure for three years, and just as the prospect was favorable for a tremendous cotton crop, boll worms and weevils struck the fields and desolated them. In many fields it will take twenty acres to make a bale of cotton. Cotton is coming into Marlin slowly and receipts have been small to date. One buyer offers a premium of a pint of whiskey to every man who sells him a bale. The corn crop, however, was a "bumper," and corn is selling low at around thirty-five cents per bushel. Some corn was sold there last week at twenty-two and a half cents. One result of the cotton failure, concluded Mr. Reynolds, is that the negroes are leaving the country by hundreds.

New Frisco Passenger Service.

Of late there have been numerous rumors of a proposed change in the passenger service of the Frisco between Ft. Worth and Brady, which, if inaugurated, will be of great convenience and benefit to patrons of this line. It is said that soon after October first, the mixed trains which pass through Dublin at most any time between midnight and daylight will be abolished and in their stead regular passenger trains will be substituted and run on schedule time. Trains from both north and south will arrive here in the morning about seven o'cock and the same about six in the evening.

It is said that the Ft. Worth Record Publishing Co. has secured the change in the service in order to get the Record, which is a morning paper, into all towns along the line early in the morning. The rumors which have been in circulation came from train men in the Frisco service, and also from a newspaper man connected with the Record. At the time this is being written, the local agent of the Frisco had not been officially informed of the change, but had heard the rumors.

You know what you are taking when you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No cure, no pay, 50c.

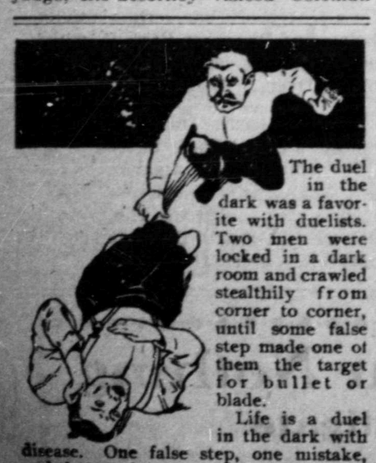

Brown County Antis Didn't Enjoin.

The Brownwood Banner-Bulletin of the 17th. inst. says: On last Tuesday a Brownwood attorney visited Belton with an application to Judge Furman for an injunction in the recent county prohibition election. The chief ground assigned is the rather novel one of religious intimidation at the polls. The judge took the matter under advisement, but we are informed he refused to grant an injunction on so weak a plea. It is said that after failing to secure an injunction from the Bell county judge, the attorney visited Coleman on a like errand, but there too he was unsucessful.

This is perhaps the first time religious intimidation has been assigned as grouuds for an injunction.

According to the Pecan Valley News of the same date, it appears that the above is to some extent erroneous. The News says:

It has been reported here that the anti-prohibitionists had applied for an injunction restraining the commissioners' court from publishing the order declaring the result of the recent local option election and that the injunction had been refused. This is a mistake. The matter was never presented to Judge Furman of Bell county, as has been reported; however he would have been asked to grant the injuncion had he not asked to be excused from hearing the case, inasmuch as he had already granted several injunctions in local option cases. The matter, we are informed, would have been presented to Judge Goodwin, but he was so busy with the regular docket of the district court at Coleman that he could not take time to hear the arguments and render an opinion.

The duel in the dark was a favorite with duelists. Two men were locked in a dark room and crawled stealthily from corner to corner, until some false step made one of them the target for bullet or blade.

Life is a duel in the dark with disease. One false step, one mistake, and the attack comes swift and sudden. The mistake which commonly opens the way for an attack by disease is neglect of the symptoms of stomach trouble. When eating is followed by undue fullness, belchings, sour or bitter risings, etc., disease is attacking the stomach.

The best way to frustrate such an attack is to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, and makes the body strong and healthy.

"I was suffering very much with my head and stomach," writes Mrs. W. C. Gill, of Weldon, Shelby Co., Ala., "head was so dizzy when I would raise up in bed would fall right back. Could eat but very little, in fact scarcely anything there seemed to be a heavy weight in my stomach so I could not rest; I had to belch very often and would vomit up nearly everything I ate. I was in a bad condition. I took four bottles of Dr. Pierce's Golden Medical Discovery and five of his 'Favorite Prescription' and am now well and healthy. I feel like a new woman and praise Dr. Pierce's medicines credit for it all. I had taken medicine from physicians without any benefit as I could see."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at Overton's.

The Capture of Jefferson Davis.

Brief announcement was made last week in the news columns of the Progress of the death at El Paso, Texas, of W. G. Lowe, a veteran editor and one of the survivors of the squad of Union soldiers which captured President Jefferson Davis after the fall of the Confederacy. To every man who wore the gray Mr. Lowe's story of the capture of President Davis will be one of exceptional interest. To an attache of the Progress office Mr. Lowe once related some recollections of the incident, and was emphatic in the statement that the story that Davis was clad in female garments when captured was absolutely false, and its only foundation was that he wore a garment somethinng like a shawl on his head as a precaution against taking cold. He was clad, said Mr. Lowe, in the customary attire of a citizen gentleman of that period. Mr. Lowe always deplored the indignities which the president of the Confederacy was forced to suffer. The deceased editor was for many years publisher of the Pass City Independent at El Paso, a paper of considerable prominence in that section. He was a man of unimpeachable integrity and although reserved in manner, and had sufffered many disappointments in life, he had a kindly feeling in his heart for all his fellow men, and was always ready to respond to the appeal of the unfortunate or the distressed.

Raised from the Dead.

C. W. Landis, porter for the Oriental hotel, Chanute, Kans., says, "I know what it was to suffer with neuralgia, deed I did, and I got a bottle of Ballard's Snow Liniment and I was 'raised from the dead.' I tried to get some more, but before I had 'deposed' of my bottle, I was cured entirely. I am tellin de truth too." 25c, 50c and $1 at Overton's.

Just a Printer.

Tom Lacy, a faithful employe of the Herald for the past five weeks, as well as the writer in years gone by, left Monday to visit his old home at Comanche, Texas. His was just the case of a printer, a young man, a little wild as the world goes, going back to the old homestead to spend a few days with an aged father and mother. But when Tom drew his final check Saturday night and while he was gathering together a small bundle of belongings, the writer's imagination could not keep from wandering off to a meeting which took place at a modest little cottage down in a Texas town. A tall, angular and ungainly man folds in his arms a little piece of humanity, while he kisses again and again a face hardened and wrinkled by labor and age, and which the world would not call pretty, but which to him is the most beautiful object in the world. At the same time a big, raw-boned man of three-score-and-ten stands off to one side watching the scene, and when it is over comes forward brushing tears of joy from his cheeks with his left hand while he extends his right hand and greets his only son in a husky voice.

Tom has not been at that little home before since three years ago when he was mustered out of the army on his return from the Philippines, but every week he remembered that mother with a letter, no matter how short, and that father with a check saved from a sajary which some might think none too large for their own use. Would not the world be better off if more boys remembered the old folks in this manner?—Portales, N. M., Herald.

The Fort Worth Record.

For the first time since the suspension of the Fort Worth Gazette in 1897, Fort Worth is to have a first class morning paper with a full Associated Press and leased wire service.

On last Friday at New York the directors of the Associated Press elected to membership in that organization Mr. Clarence Ousley, editor of the Ft. Worth Record, which is to succeed the Register. The service is to start about October 1st, beginning with the appearance of the initial number of the Record.

That day will mark theh beginning of one of the greatest enterprises ever established in Ft. Worth and one which will be the foremost agency in the advancement of that now great live stock, grain, commercial, railroad and financial center.

The new paper has a mechanical equipment which makes possible the production of a paper the equal of any west of the Mississippi river, its management has the ability and the resources to make the most of the possibilities within its reach. Its news service will be complete and at its command will be many special features only seen in the greatest of the metropolitan dailies. Already seven rapid typesetting machines are in place, announces the Register, and another, the very latest on the market—a machine which has only been perfected within the present year, and offered for sale within the past ninety days—is now on the way. It is a wonderful invention: the crowning invention of the genius which has produced the merganthaler typsetters. It can set all kinds of type, and turn out advertisements faster than they can be written for it. It will soon be in place and will be the only machine of the kind in use in Texas. A rapid, perfect, magic press; a three deck color machine, which can print enough papers in a night to supply every home in Texas, and print them in colors if desired, has arrived. Mr. Ousley, the managing editor of the Record, is well known through his work on the Galveston Tribune and Houston Post.

His Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors call bilious dysentery, and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md. For Sale by Overton Drug Co.

For One-Half.

You can complete a thorough, practical, extensive course in bookkeeping, shorthand and typewriting at Tyler College, Tyler, Texas, at one-half the cost of any other school.

1903 methods, not those of 1850.

No five hundred rules, five hundred exceptions, three thousand lolograms in shorthand, but thirteen rules and nine lolograms. 1903 short hand, not that of 1877.

Typewriting new too—a simple invention that forces the pupil to use the touch method.

The above systems are theirs; the author one of them. The college one of the largest, with seven hundred and fifty students last session.

Will enroll nine hundred to one thousand this year. Has enrolled students from eight states during the past two weeks.

What is Life.

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle, yet thorough. BROWNWOOD.

Brownwood Bulletin.—H. J. Butler, living nine miles northwest of Brownwood, brought into the Bulletin office an armload of corn this morning that made the people passing pause to look a second time, and having looked to be amazed that such fine corn could be raised in Brown county. Five ears made an arm load and their equal in size has not been seen in our office. They were bigger, longer and with fuller grains than the ordinary, and were grown without irrigation. Mr. Butler placed the corn with Melton & Couch to be added to the Brown county exhibit at the world's fair.....Clarence Linn, formerly of Dublin, but now connected with a cotton firm at Temple, is in th city today on business. It will be remembered that Mr. Linn married a Brownwood girl, Miss Stella Edwards, and they have many friends in the city. Mr. Linn likes Brownwood and if the opportunity is ever offered, may become a citizen here.

Morgan held the broad m of the sack, with the lantern w the background. In eager expe they patiently awaited the fir stallment of "snipes" for about hours, their only interruption the unwelcome inquiry of Davis, Woodall and Muse. were onto the joke and strolled urely by, making the boys dis ingly uneasy lest they scare their expected game. When gentlemen had moved on a short tance in the darkness, weariness disappointment, mingled with slight suspicion, overcame the "yanks" and they decided to an investigation. And dre thing! At the fateful mo when they had deserted their po duty, Whitmire's voice was hear treating, "look out there! splendid drove of snipes!" consternation filled the breasts lads to think they had been neglecting their responsibility the snipes were to be lost, b hoarse and unfeeling "horse la broke in upon their explanation extenuation and the boys ret with perhaps a small degree confidence in their Uncle Doubleday.

BRIDE MURDERED.

Woman Who Did the Deed Says Providence Directed Her to Do So.

Nashville, Sept. 19.—The wife of John E. Wilson was shot and killed at her home in East Nashville and Miss Lula Cunningham is in jail charged with the murder. The women were living in the same house and no differences had arisen between them. Several years ago Wilson married a sister of Miss Cunningham, who went to live with him and continued to make her home with her brother-in-law after the death of her sister. Wilson married Miss Alice Carry of Louisville last Sunday morning. He brought his bride at once to Nashville. There was no objection to the marriage on the part of Miss Cunningham and all went well until Saturday morning, when without warning she snatched a pistol that was lying on a mantle and fired four times in rapid succession. One bullet pierced the heart of Mrs. Wilson and another went through a hand. No cause is known for the deed other than a statement made by the murderess, who says Providence directed her to commit the crime.

STILL SOLE TOPIC.

Resignation of Chamberlain Talked All Over Great Britain.

London, Sept. 19.—The political crisis is still the sole topic of discussion in the United Kingdom. Mr. Balfour, when he appeals to the country, many say, will be beaten and succeeded by a Rosebery cabinet, which will not last long. A curious phase of the situation is the severe criticism, regardless of party lines bestowed on Mr. aBlfour's action in publishing his views and selling them in pamphlet form. The premier's keen sense of chivalry and honor are certainly far too deeply appreciated by all parties to ever permit a suggestion that he purposely adopted a doubtful practice. By Balfour's own admission, he is "mere child in such matters," and his inexperience in business affairs now appears to have put him at the mercy of the publishers of the pamphlet, who are coining money over a vital issue in national affairs. That Mr. Balfour will devote his portion of the proceeds to some charity is generally assumed, but it is regretted he did not mention some such intention in his preface to the pamphlet. The Outlook, which is a warm supporter of the premier, declares that Mr. Balfour's indiscretion "strikes a rude blow at one's reverence for traditions of English public life."

Berlin, Sept. 19.—The Turkish war ministry has ordered 170,000 pounds of smokeless powder at the Rootwell works. Turkey has several agents permanently residing in Germany who buy supplies for the army and navy. One of these, Ahmed Bey, who spends his time between Essen and Kiel, is especially active in placing orders for field transports, saddlery, etc. Turkey is seemingly about to dispose of sufficient cash to pay for supplies, as German firms require money or its equivalent on delivery.

ODD ACCIDENT.

Gravedigger Hit by a Wad While a Volley Was Being Fired.

New York, Sept. 19.—An odd accident has occurred in Orange, N. J., at the burial of James J. McGrath, who was killed in the Philippines. The members of company H, Fifth regiment, escorted the body to St. John's cemetery and a squad was told off to fire a military salute over the grave. As the volley was fired a grave digger fell, crying out with pain. Ceremonies were suspended immediately and the laborer was carried to one side. It was found a felt wad from a gun had struck him on the arm, inicting a painful wound. After it was seen he was not seriously injured another volley was fired.

BUGGIES AND CARRIAGES!

Moon Bros. buggies and carriages are standard the world over. They are always being imitated and other goods offered by dealers who will try to get you to buy of them by saying that they are as good. They never claim they are better or try to sell on their own merits, but the genuine Moon Bros. buggies and carriages are set up as the standard and one of known merit, hence the "just as good" proposition, The orignal of anything is always the best; the just as good proposition is a dangerous one for the buyer. Nothing is just as good, its better or worse and other dealers don't claim to have anything better. Mr. Will McCampbell will take pleasure in showing you this exemplary stock and explaining the merits if they need be explained. The present prices are below what they ordinarily are. The factory is behind on filling orders but we have an ample stock on hand and are therefore not affected by the shortage caused by the heady demand for the best buggies made.

We also handle the Banner brand buggies and carriages which are a particularly popular priced goods. They are not so expensive as the Moon Bros. but they are better than many higher priced ones and we offer them in competition.

EXPECTED INVASION.

Spanish Honduras May Take Action Against Nicaragua.

TO ENFORCE DEMAND.

It Involves the Granting of a Concession to an American Syndicate, and United States May Take a Hand.

New Orleans, Sept. 22.—Advices of an expected invasion of Nicaragua are made public by soldiers from Spanish Honduras to enforce that country's contention that Nicaragua, in giving a concession to a Pittsburg syndicate, granted rights on the territory which belonged to Honduras, reached this city via the American ship Breakwater from Puerto Cortez, Spanish Honduras.

"Last month a commission headed by General Ordonez was sent by President Bonilla of Spanish Honduras to Cape Gracias to notify the collector of the port that if the Nicaraguan republic did not recognize certain rights claimed by Honduras along the Wanks river, separating Honduras and Nicaragua, war would be proclaimed by President Bonilla. Customs officials and military authorities at Cape Gracias lacked authority to act in accordance with Honduras' request, so General Ordonez and his colleagues returned to Tegucalpa after learning that Nicaraguans would be on the look out for an invasion provided Honduras' rights were not respected. President Zelaya, on being notified of the event immediately garrisoned Cape Gracias. Unless an amicable settlement of the boundary dispute is effected there is a strong probability that war will be declared. The stand taken by Honduras may involve that country in a dispute with the United States, as the question affects rights granted to an American company."

SOME SUSPECTED.

Others May Be Implicated in Chinese Substitution Cases.

San Francisco, Sept. 22.—The Call says: Three or more deputy sheriffs employed at the county jail as jailers and one, and perhaps two, deputy United States marshals will in all probability be charged with unlawful substitution of Chinese before the investigation now in progress is ended. Evidence obtained against them is said not to be conclusive, but sufficiently strong to warrant something more than suspicion that they have been actively implicated in the illegal traffic, for which three white men and three Chinese are under arrest and on account of which William P. Gamble put an end to his life. The investigation may even go further. There are strong suspicions that federal officials higher up than the men directly charged with the offense of Chinese substitution have expressed acquiescence in the traffic. Their actions in this matter are being scrutinized with the utmost care by secret service agents engaged in the investigation, and it need cause no surprise if an upheaval in at least two important federal offices in this city should follow.

ANOTHER SURETY.

George W. Beavers Is Required to Have One More Bondsman.

New York, Sept. 22.—Counsel for George W. Beavers were informed at conclusion of adjourned hearing Tuesday of the Beavers case that Mr. Beavers must be produced before Commissioners Hitchcock immediately to answer to two additional complaints against him, predicated upon two indictments recently returned against Beavers in Washington for alleged conspiracy to defraud the government in connection with State Senator Green and the Bundy Time Clock company of Binghampton, N. Y. It is also made known that other surety than J. R. Brown, who is now Mr. Beaver's bondsman on two $5000 bonds, must be produced, the practice of the district attorney's office being not to accept same surety on more than two bonds.

INTEREST EVOKED.

Many Evicted Tenants Are Anxious to Resume Holdings in Irsland.

London, Sept. 22.—Interest has been evoked here by a letter from Secretary O'Callahan of the United Irish League of America to Mr. Condon, M. P., saying since the passage of the Irish land act many evicted tenants now residing in the United States have made anxious inquiries regarding the possibility of re-acquiring their former holdings. Mr. O'Callahan expressed the belief that should a large proportion of the enquirers be able to do so it would go far toward solving the question of emigration and turn the tide back to Ireland.

Extreme Radicals Won.

Belgrade, Sept. 22.—In the election Monday to the skupsthina there resulted unexpected victories for the Extreme Radicals, of whom sixty-five were elected. Th house otherwise is composed of seventy-eight Radicals, fifteen Liberals and two Socialists. All party leaders elected to the skupsthina meet in extraordinary session Sept. 27, when the ministry will resign. It is practically certain General Gruics will be the next premier.

Mutilated Body of a Young Lady Found Across Railroad Track.

Cleveland, O., Sept. 22.—The mutilated body of Miss Olive Rayl, twenty-two years of age, was found early Tuesday lying across the Lake Shore railroad track at the entrance to Gordon park. It was at first supposed that Miss Rayl had been killed by a train, but later the police stated than an investigation developed the girl had been murdered and her body placed on the track, where a train had cut it in two. Miss Rayl lived with her brother, Dr. W. L. Rayl, at Glenville, a suburb. She was handsome and highly respected. Thus far the case is enshrouded in mystery.

In the roadway near where the body was found the police discovered tracks of a rubber tired buggy and also foot prints of two persons, one being that of a woman and the other the heavy imprint of a man's shoe. In bushes a short distance from where the girl's body lay was found a man's plain linen handkerchief. It was saturated with blood and bore the initials, "J. D." The throat of the dead girl was discolored as though she had been choked. Her body was cut completely in twain across the chest, while the limbs were broken and crushed.

GIBBONS RETURNS.

Cardinal Says Pius X Is Well Posted on American Conditions.

New York, Sept. 22.—Cardinal Gibbons arrived here on the Kaiser Wilhelm der Grosse. A delegation of priests and laymen from Baltimore went down the bay on a revenue cutter to welcome him home. Heading the delegation were Rev. Dr. D. J. Stafford of Washington, Rev. B. Singleton of Baltimore and R. B. Tibbett of Baltimore, supreme president of the Catholic Benevolent Legion. The cardinal had a pleasant voyage and he said the ocean trip recuperated his strength.

Of the new pontiff the cardinal spoke in terms of the greatest enthusiasm. He said the choice of the conclave had

CARDINAL GIBBONS.

been a most happy one from an American view point, as Pius X. was deeply interested in the development of the church in this country and singularly familiar with American institutions. The cardinal had several lengthy interviews with the pope regarding church affairs in this country. He is not inclined to discuss the probable policy of the new papal regime, but said no radical changes in American church administration would ensue. He said one of the first steps taken by Pius X. was to instruct acting secretary of state, Mgr. Merry Del Val, to provide for an extensive exhibit of the Vatican treasures at the St. Louis exposition.

SIRE AND SON.

Cardwells Give Different Testimony In the Curtis Jett Trial.

Cynthiana, Ky., Sept. 22.—In Curtis Jett trial Tuesday T. P. Cardwell, Sr., for the defense said he was in the Crawford building and heard shots, two volleys. More than one man did the shooting. The defense announced testimony ended. Commonwealth on rebuttal introduced T. P. Cardwell, Jr., and M. Forbes. They contradicted T. P. Cardwell, Sr., in saying Newton Crawford, one of the defense witnesses, was at the Crawford building instead of at Hargis' store. The commonwealth then rested.

Instructions were read by Judge Osborne. Argument commenced.

HOOT AT THE MATTER

Arkansas Cotton Men Say No Boll Weevil Are in State.

ARE SHARPSHOOTERS

Chemist McLane of the Agricultural Department of the Government Does Not Coincide in This View of the Matter.

Little Rock, Ark., Sept. 22.—Arkansas cotton men, and especially those in this city, which is the chief market for the state, hoot at the interview given out at Knoxville, Tenn., by Charles P. McLane, a chemist in the employ of the agricultural department of the United States government, who has spent two months studying the boll weevil in the cotton-producing country of the southwest. Mr. McLane says a portion of Arkansas has been devastated by the boll weevil, and that eastern Arkansas, and especially Hempstead county, presents a desolate appearance. After a hasty, but thorough, investigation, it has been established beyond the peradventure of a doubt that there are no boll weevil in Arkansas. Recently in Woodruff county, in this state, an insect appeared which caused much damage to cotton, and is still causing it. It was thought by the planters that these insects were the Mexican boll weevil, but investigation proved them to be the sharpshooter, a pest which does almost as great damage as the boll weevil, but which disappears after one season, and may not appear in the same region for a number of years, or at all, whereas the boll weevil, when once it appears, stays year after year.

A special to the Arkansas Gazette from Hope, the county seat of Hempstead county, says the crop there is good, though it has suffered some deterioration, but no more than that suffered in other Arkansas counties, and there has been no evidence of boll weevil.

A Gazette special from Washington says: Dr. L. O. Howard, chief of the division of entomology, said that he had no record of the boll weevil in any of the northwest Texas border counties. Dr. Howard added, however, that there was a bare possibility of isolated cases. For instance, not long ago a few of the weevils were found at the Louisiana experiment station, and just how they got there was never known. If the weevil had been doing "great damage" in Arkansas the agricultural department would certainly have heard about it. Frequently a boll weevil scare is precipitated by the discovery of insects that resemble the weevil, but are altogether different. The department is constantly receiving all sorts of insects which are claimed to be boll weevils, but are not.

SEVEN INJURED.

Runaway Horse at Gallatin, Tenn., Caused Very Serious Results.

Gallatin, Tenn., Sept. 22.—A runaway horse attached to a delivery wagon smashed three vehicles here, seriously injuring seven persons, three fatally. ARE YET CONSIDERING

Matter of Appointment of the Valis Yet Unsettled.

LIGHT OF TRANSFER

Rather Than a Promotion Is One of the Views of the Situation That Is Taken by Some of the Officials.

Washington, Sept. 22.—The state department still has under onsideration the matter of the appointment of the retiring vali of Beirut to be vali of Brusa. At the present the officials are disposed to regard the appointment in the light of a transfer rather than a promotion, but a further inquiry into the facts by Minister Leischman may change this view of the case. It was said at the state department Monday that it was the original intention of the sultan to appoint the former vali of Beirut to be subsecretary of the department of the interior, and it is intimated that the strong representations against the appointment made by Minister Leischman were effective. In his cablegram Mr. Leischman states the American claims against Turkey are not receiving satisfactory attention by the porte. The state department received a long cablegram from Minister Leischman at Constantinople, but nothing was given out regarding it except the informal statement that it contained no alarming news, and was in part concerned with routine business. Withdrawal of the American squadron from Beirut, it was said, has not yet been determined on, and

JOHN G. A. LEISHMAN, MINISTER TO TURKEY.

no intimation has yet been received from Oyster Bay as to the president's intentions in the matter. Communications have reached the state department urging this government to say or do something that will put a stop to the atrocities in Turkey. It is said that this pressure does not emanate from the missionaries. Officials at the state department are reticent about the probability of the United States giving expression to the feeling with which the alleged atrocities in Turkey are viewed by the people of the United States, but they say that reports from Turkey show that the deeds daily perpetrated in sections of that country are of such character as to shock civilization, and necessarily are of deep concern to the United States.

To Be Promoted.

Salonica, Sept. 22.—Orders have been received here from Constantinople to promote all sergeant majors to the rank of sub-lieutenants owing to the scarcity of officers in view of the complete mobilization of the Turkish army.

Drake of Alva, Okla., was severely injured and some other passengers badly shaken up.

Miller Matter.

Washington, Sept. 22.—While the Miller case was being discussed by the executive council of the American Federation of Labor President Whitmore of the Stereotypers' union, employed in the government printing office, characterized the matter as a blunder, and asked that no action be taken. A Settlement of Differences.

Dublin, Texas, Sept. 18th, 1903.

—We, the undersigned board of arbitrators selected by W. R. Strong of Dublin, Texas, and N. E. Johnson of Topaz, for the purpose of adjusting, determining and settling all matters in controversy between them concerning their company business, hereby certify that we have carefully looked over and checked the books and records of said company. Also heard the testimony of all parties which have appeared before us as witnesses in this matter.

That after full investigation and careful consideration of all matters in controversy, we have unanimously agreed as follows:

1st.—We believe that during the season of 1900 the profits of the gin amounted to about $21,00.00 above running expenses, during which season of 1900, W. R. Strong was manager a greater portion of the season, and we found from the books and evidence that said $21,00.00 had been honestly and faithfully accounted for.

And we further believe, from the books, records and evidence brought before us, that during the season of 1901-02 the gin company sustained considerable losses.

J. A. Creager,
H. E. Brown,
J. J. Turpen,
Arbitrators.

Sworn to and subscribed before me this September, 1903.—W. T. Daniel, Notary Public, Erath County, Texas.

The above findings were incidental to a general settlement of the affairs of the gin company, through and by which Mr. Strong will become sole owner of the gin property by assuming certain obligations and paying certain sums, stated in a seperate finding of the board of arbitration. This settlement will stop a suit in the district court of Erath county, concerning the seperate rights of the owners of the property.

"If its not right, we make it right;" thats one of the mottoes of the Dublin printery that turns out work quickly—the Progress.

Now let our people encourage the enterprise. We need a band. We have the instruments. Let us get to work with all our might and build up the best band in this section of Texas. They immediately began housekeeping in the house rceently bought by the groom, next door to Dr. Thomas' residence.

Fort Walldrop of Gustine has taken a position as salesman in Slider & Martin's store.

A great deal of corn is being thrown on the market at Comanche. For three years past the town and surrounding country has had to depend on Kansas for the suppaly.

Hall, an ever steadfast friend of the church, was the donor The pastor stated that it was a very thoughtful and timely present and very highly appreciated by all the members, and that he is just waiting for some other friend to send around a communion table to match it.

From the Chief.

Lee Holland and bride were here this week visiting relatives. Lee is in business at Paint Rock with Fred Cox.

Capt. F. M. Browne moved Saturday and gave possession of his home to his vendee, W. B. Cunningham.

Ernest St.Clair and wife of Caldwell arrived Tuesday night on a visit to the families of his brother C. P. St. Clair and sister Mrs. D. C. Clark. He is cashier of a bank at Caldwell.

Roy Langston, a deserving young man of Sidney, left for Georgetown Sunday to enter the Southwestern University, the alma mater of the editor of the Chief and the very best college in the state of Texas.

Capt. R. S. Rich, De Leon's justice of the peace, reports moral conditions in his community to be first class. Since his assumption of the duties of his office he has never had a trial of a criminal case before a jury, and yet he has turned in as much money to the county as any justice who preceeded him in the same length of time. On last Saturday a couple of persons had a fisticuff at Duster over church differences, then they got in a buggy together and went to De Leon to lay the matter before Judge Rich. An altercation also occurred at De Leon the same day, over matters relating to the election. Prohibition, he says, is being enforced and he believes the town is in a prosperous condition.

CARLTON.

Regular Correspondence.

Sept. 24th.—Rev. Watts organized an Epworth League Sunday evening.

The following officers were elected: A. G. Thornton, president; Miss Jay Curbo, vice-president and Loved Jordan secretary.

Rev. Hood Vinson passed through here Sunday on his way home to Gorman.

Rev. R. H. Gibson has a new girl at his home; also our postmaster and cotton weigher is happy over a like result at their homes.

T. B. Cook has bought him a good place on the river.

Our gins are running very steady now. They have ginned 260 bales to date.

The people are very greatly disappointed on account of the decline in cotton.

Cotton picking is going to be of short duration if the weather continues fair.

A great many are getting ready to sow wheat now, getting the corn off the land as fast a possible.

The chances are favorable for our school to begin earlier than usual.

Will Neel was in Granbury this week on business.

An Unusual Spectacle.

Comanche Chief.—A novel and unique scene in Comanche county was the presence at the polls, at the county seat last Saturday, of a large number of ladies who sought by their presence and personal suasion to assist the cause of prohibition. Over each gate of the court house premises they placed an arch with a significant motto, and the yard was full of ladies armed with ballots and white ribbon bows for those whom they could induce to accept them. A white silk banner was held over the door where the voter cast his ballot, the ladies relieving each other at this task. At noon a free lunch of ham, chicken, coffee and other edibles was served and there were plenty of hungry mouths to make way with it. It is hard to estimate the effect the presence of the ladies had upon the result, though the pros and the ladies themselves believe they did effective work for their side. The pros did not poll as many votes as they did last year at a similar election when there were no ladies present, but the fact that the antis polled 161 less than in 1902 would seem to indicate that the ladies or the poll tax law or both together, kept that number away from the polls. Besides the women, the children were present with campaign songs to the tune of Dixie, etc., and prior to the opening of the polls they marched around the square singing and displaying their banners. The banners were furnished free of charge by a wealthy man, a Mr. Miller of Belton, who also loaned them to the Brownwood women for use in their campaign. The Sidney quartette sang from the court house steps during the day, and now and then the ladies joined in the singing of hymns. A number of ladies from Brownwood were present and assisting.

Farms Wanted.

I can sell your farm in Erath or any of the adjoining counties. My facilities for so doing are the best. I am turning away people every day because I have not the place that just suits them—yours might fill the bill. By mail I am getting from five to ten inquiries daily from people who are hunting new locations. These inquiries come from farmers who are selling out in the old states, and a great many from counties in this state. If you want to make a change now is the time to do so. My terms are reasonable and all business intrusted to me will receive my careful personal attention. If you cannot get in to see me at once, write, giving full description, price terms, etc. Do not wait until too late, let me hear from you at once.—W. R. McClellan, Real Estate and Loans, Stephenville, Texas. Office in court house, east side. 19tf

Death of Rye Philips.

Rye Phillips died at his home near Capitan, N. M., on the 15th. inst., with a complication of diseases. Mr. Phillips was well known in this section and for several years during the early days was a citizen of this place. He later removed to Stephenville, where he resided for a number of years and at which place he married. He removed to New Mexico a few years back with the hope that the high altitude would benefit his health, which to some extent it did, though during his residence in that section he has at various times had severe attacks of the maladies which finally cost his life. The deceased was an exemplary citizen and a kind and affectionate father and husband. We extend to the bereaved wife, little children and other relatives our heartiest sympathy.

Among the distinguished visitors at the Ft. Worth stock yards Monday was P. L. Pierce, president of the 3circle ranch in Erath county. Mr. Pierce stated to a Register man that no rain has fallen in Erath county for over three weeks, but the ponds and rivers are full of water. "The forage crop in Erath county will make enough to carry our stock through this winter," said Mr. Pierce. "Corn did nicely and will average thirty-five bushels to the acre. The cotton crop will average one-half a bale to the acre. We have about nine hundred feeders which we will market there at an early date."

The Thurber public schools opened this session with an attendance of about one hundred and seventy-five pupils. The first morning was spent in grading the different classes and a holiday was taken during the afternoon, the date being Labor day. During the first week about twenty-five other pupils were enrolled, making a total of about two hundred. Prof. Chastain says that everything is moving along very nicely and satisfactorily and that he is well pleased with the outlook for a prosperous session

CUBS' FOOD.

They Thrive on Grape Nuts.

Healthy babies dont' cry and the well nourished baby that is fed on Grape Nuts is never a crying baby. Many babies who cannot take any other food relish the perfect food Grape Nuts and got well.

"My little baby was given up by three doctors who said that the condensed milk on which I had fed it had ruined the child's somach. One of the doctors told me that the only thing to do would be to try Grape-Nuts, so I got some and prepared it as follows: I soaked 1½ tablespoonfuls in one pint of cold water for half an hour then I strained off the liquid and mixed 12 teaspoonfuls of this strained Grape-Nuts juice with six teaspoonfuls of rich milk, put in a pinch of salt and a little sugar, warmed it and gave it to baby every two hours.

"In this simple, easy way I saved baby's life and have built her up to a strong healthy child, rosy and laughing. The food must certainly be perfect to have such a wonderful effect as this. I can truthfully say I think it is the best food in the world to raise delicate babies on, and is also a delicious, healthful food for grown-ups, as we have discovered in our family." Name given by Postum Co., Battle Creek, Michigan.

Grape-Nuts are as equally valuable to the strong, healthy man or woman.

Grape-Nuts food stands for the true theory of health.

A man gets a friendly tip now and then that's worth while.

A Nashville man says: "For many years I was a perfect slave to coffee, drinking it every day and all the time. I suffered with stomach trouble and such terrific nervousness that at times I was unable to attend to business and life seemed hardly worth living. I atributed my troubles to other causes than coffee and continued to drench my system with this drug. Finally I got so that I could not sleep, my limbs were weak and trembling and I had a constant dread of some impending danger and the many medicines I tried, failed to help me at all.

"One day a friend told me what Postum had done for her husband and advised me to quit coffee and use it, but I would not do so. Finally another friend met me on the street one day and after talking about my health he said 'You try Postum Cereal Coffee and leave coffee alone,' adding that his nervous trouble had all disappeared when he gave up coffee and began to drink Postum. This made such a great impression on me that I resolved to try it, although I confess I had little hopes. However I started in and to my unexpected surprise, in less than two weeks I was like another person. All of my old troubles are now gone and I am strong and healthy and a living example of the wonderful rebuilding power of Postum. It is a delicious beverage and drink as well as a delicious beverage and I know it will correct all the ills. I know what a splendid thing it had on me to give up coffee and drink Postum. J. D. Nichols of near Theny was in Wednesday and asked the Progress to say for the benefit of the general public that the public road from Dublin to De Leon has been changed to some extent. The road has heretofore ran across the corner of Mr. Nichols property, nine miles from Dublin and it will be changed to run directly on his property line running east and west instead of northeast and southwest as heretofore. The petiton is now before the commissioners court to be acted upon at the next session of that body in November.

To the Methodists of Dublin.—As the second Sunday in October is Sunday School Decision Day, the sermon at 11 a. m. (Sept. 27th.) will be preparatory to the work of that day, that we may get ready for that important occasion. Subject, "Children and Practical Christianity." Let all the church be present. At the beignning of the 11 a. m. service an opportunity will be given for the baptism of children. All are cordially invited to worship with us.—J. H. Wisemann, Pastor.

The Hamilton Rustler says, W. T. Gee, who lives eight miles south of Dublin, is over this week attending court. Mr. Gee called on the Rustler yesterday and we enjoyed the pleasant few minutes spent with us. He is an old settler in this section of the state, but says he was last in Hamilton twenty-one years ago. He has lived at his present location for seventeen years and says his crop is better this year than it has been before in many years.

A man's wife doesn't have time to be forever sewing buttons on his pants, or sewing up pockets and rips. She won't have to take time either, if you wear the Buckskin Breeches. We don't ask any good wife to make good our neglect. If you get a pair of these pants and they rip, take them back to the dealer and get another pair. That's what the guarantee in the pocket means.

Prof. E. I. Hall reports having been advised of the date for the first attraction of the lyceum course for which he has arranged this year. There are others in the series and they are all of the high class represented by the Mendelssohns.

W. H. Pilgrim & Co. have this week sold thier meat market business and stock to Norton & Jones, who will continue the business at the present stand until the first of the coming month, when they will consolidate it with their other shop. Henry Pilgrim will retain the market tools and on the first of the month move to Marlin and open a business.

E. R. Snead, proprietor of the Red Wagon yard, solicits the patronage of the general public. Mr. Snead has generally overhauled the yard, placed it in better condition than it has heretofore been and now makes it a point to keep all kinds of feed, which he will sell at reasonable figures. You will be treated right at the Red wagon yard. 18tf.

Morgan News:—Lovey Belcher stated to the News man the other day that from six acres of ground he had sold $129.50 worth of broom corn, secured enough of feed to winter ten head of cattle and saved one hundred bushels of broom corn seed. He estimated that he received at least five dollars a day for his work on the crop.

Walnut Springs Hustler:—The estimable family of E. G. McKinney left Thursday evening on the flyer for Dublin to reside in the future. Walnut is losing some mighty good people on account of this freight division business and ones that are going to be hard to replace.

John Adams, editor of the Free Press, came down from De Leon Sunday in quest of a devil of the print shop variety. He states that business in all lines is brisk in De Leon and that the Free Press office has all the business it can handle unless more assistance can be obtained.

The energies and labor of one thousand persons and almost as many animals are required by the Adam Forepaugh and Sells Brothers circus in presenting the exhibition for which but fifty cents admission fee is charged.

The famous Adam Forepaugh herds of educated elephants and that of the Sells Bros. will both be seen here on the same day in parade and performance. It will be a stupendous aggregation of elephantine avoirdupois and intelligence.

Jim Whitley, the man who was arrested near Dublin last spring for adultery, was tried in the district court of Hamilton county last Monday and given two years in the penitentiary.

The trains of the Adam Forepaugh and Sells Brothers circus are the longest, and the tents the largest of any show in the world. The canvass covers twelve acres of ground.

RURAL DELIVERY

First Route Out of Dublin is Now in Operation and Service Giving General Satisfaction.

The Rural Free Delivery is now in operation on Route No. 1, service having been begun on the fifteenth of the present month. Patrons on the route now receiving the service state that it is convenient far beyond their expectations and that it is all that could be desired.

A. L. Morgan of Dublin received the appointment as carrier at a salary of six hundred dollars a year. This route includes one hundred and fourteen houses and four hundred and fifty-six presons. The route traversed is twenty-five and a fourth miles in length and is as follows: Beginning at Dublin post-office will go southeast one mile to the Hartgrove corner; thence south bearing slightly toward the east for eleven miles on the Dublin and Hazel Dell road, passing Oak Grove church, Barbee's gin, Shiloh and Lone Star school houses, to the Knox corner; thence a distance of three miles northwest, passing Arrarat post office, to the Gustine road at the Davies corner; thence north on the Dublin and Gustine road, passing Mexico and Shady Grove school houses, a distance of 10¼ miles to the Dublin post-office, the place of beginning.

All of the houses on the route are not yet being served, as some of the boxes have not yet been placed as required by the department.

"I learn that a great many persons on the other proposed routes do not understand the workings of the system," said Postmaster Andrews to a Progress representative. "They seem to be under the impression that they will be under expense to get their mail after they comply with the requirement of placing thier boxes. The government does not charge them one cent for the benefit they will receive. It only asks them to provide a box for the reception of their mail. The box must come up to certain requirements, but it is optional with the purchaser as to which of the kinds approved by the department he may select. The price of boxes range from one to three dollars. These boxes are the property of the purchaser but are under the control of the department, which gives them the same protection as a post-office. Any person convicted of unlawfully interfering with one of them is subject to a fine of $1000 and imprisonment for one year. This penalty insures safety to mail deposited therein. Persons on the route not desiring to go to the expense of putting up a box may continue to get their mail at the post-office as heretofore, except where post-offices are abolished. I will take pleasure in giving any information desired concerning the rural delivery system, and invite those desiring information to call on me."

Postmaster Andrews is working energetically to secure the establishment of routes covering all the nearby territory and it is probable that in a short time seven or eight routes will be in operation. The advantage of these routes will be of great importance to the commercial interests of Dublin, as well as to the people who will receive the free delivery service.

The Great Re-Union.

The reunion of the former inmates and attaches of Buckner Orphans' Home will take place on the 3rd and 4th days of October, 1903.

It is earnestly deisred that not one shall be absent who can possibly attend, and that all of them who are now married bring their families entire with them. This is the first general reunion attempted in twenty-five years, and will be the last in the life time of some of us. Dear ones, your "Father Buckner" desires to see your faces once more, and as many of you together as possible. Your old home has been greatly improved, come and see it, every one shall have a welcome. There have been about three thousand five hundred of you, but some are dead, some are in New York City, some in Chicago, some in Galveston, some in other cities and other states, some are in Mexico, some in the United Staes Navy and some in the Philipine Islands—and many cannot come, many will not even see this notice—we have been even too slow getting out, but surely a few hundred of you can be present. Come to spend both days if you can. There shall be lodging for you and the "fatted calf" shall be killed—several of them. Some will find it convenient to bring provisions, and tables shall be spread for all. Let nothing keep any of you away. Come Saturday morning and remain till Sunday evening. The state fair of Dallas will be on and railroad rates will be cheap. Write me that you will be here.

The pubile is also invited. 'I cannot forbear to do this. Many have said they must be permitted to come.

Come along, we'll be glad to see you. Of course you can't be lodged at night, but will have to return to the city, but you can bring provisions for yourselves and others.

All members of the reunion proper will be designated by badges.

All people who expect to attend will please notify me by mail, so soon as possible, that sufficient excursion trains may be engaged to run out from Dallas and back, and sufficient table room prepared for what you shall bring.

All Saturday will be given the perfect freedom that you shall want.

On Sunday the same, with addition of religious services at intrevals, conducted at the same time at different places, that all may participate.

The regulations in full will be announced in proper time.—Robert C. Bucker, Founder and General Manager, Dallas, Texas.

Ledbetter-Edwards.

Last week we received a neatly engraved card announcing the marriage at St. Pauls church in Holley, New York, at high noon on the 13th of September, of Mr. Dancy Ledbetter and Miss Ella May Edwards. They will be at home in Dublin after October 5th. The Progress joins with the numerous friends of the groom here, in extending best wishes to Mr. and Mrs. Ledbetter.

Miller-Saunders.

Paul Miller, second eldest son of Dr. and Mrs. R. A. Miller of Dublin, and Miss Angie Saunders, were married in Grandview on Thursday of last week.

The announcement of the marriage came as quite a surprise to the many friends of the groom in Dublin, as he did not intimate his intention before leaving, to any but a few boon companions.

His bride is a member of one of Jonhnson county's most respected families, and is a young lady of lovable character and exceptional talents.

Mr. Miller has a responsible position with the largest mercantile establishment in Cameron and he and his wife will reside in that town.

The Progress extends it's congratulations to the principals in this marriage and earnestly hopes that their future may be attended by naught but happiness and prosperity.

Trout-Moseley.

Mr. Roy Trout and Miss Dora Moseley were united in marriage at 8 o'clock Saturday evening at the Christian parsonage, by Rev. A. H. Darnell, pastor of the Christian church.

Mr. Trout is the day operator at the Frisco depot and is one of the most popular and capable men in the Frisco service. His bride has grown to womanhood in Dublin and is a woman of charming personality.

Mr. and Mrs. Trout are domiciled in the T. H. Wood's residence in east Dublin, recently purchased by Mr. Trout.

Almost Killed at Thurber.

Walter Nolan, a carpenter employed at Thurber, was seriously injured last Sunday on the road from the mining camp to the Junction. He, in company with five other young men, wrere driving a buckboard. Their vehicle capsized as they were attempting to pass a baggage wagon. Nolan went under the wheels of the wagon. He was badly mangled, losing an ear, an eye and his teeth. His nose was broken and his skull probably fractured. He went to Thurber from Big Sandy about four months ago.

C. S. Bowden made a business trip to Granbury the fore part of the week.

Rural improvements in the vicinity of Hico are reported by the News as follows: J. N. Wright, out on the Carlton road, a nice residence; A. L. Shipman, near Ondee, a new residence; R. R. Warnock, near Carlton, a fine barn; J. W. Buckeloo, near Carlton, nice residence; Albert Fewell, Cairette, splendid residence.

$10,000 PAY ROLL

That Amount is Paid to Employes of the Dublin Oil Mill Each Season.—Mill Soon to Open.

The Dublin oil mills will probably open next week if enough seed is on hand to begin the run.

The machinery of the mill has been overhauled and everything is now in readiness to begin operations.

The oil mill gives regular employment to about fifty men during the season, but the number is sometimes larger. The laborers and mechanics pay roll runs from three hunrded to five hundred dollars per week, an average of about fourteen hundred dollars per month, and between $7,000 and $8,000 for the season. In addition to this is a pay roll of upwards of $400 per month for salaried men, which makes the total amount paid for an average season not less than $10,000.

Seed have not been marketed rapidly since ginning began, but the movement is growing briskly. The price paid this week by the mill has been ten dollars per ton. With seed at this basis, meal will sell this season at about $21 per ton and hulls at $5 per ton.

Editors of Religious Paper Sued.

H. W. McGhee, mayor of Brownwood, has instituted suit against Rev. George C. Rankin and Louis Blalock, editor and publisher respectively, of the Texas Christian Advocate of Dallas, for damages to the amount of $25,000. The plaintiff sues on the ground of libel.

The suit is the outrgowth of the publication of an artice in the Advocate, which is alleged to be a personal attack on Mayor McGhee for the position he took in the recent local option campaign in Brown county.

Commenting on the article the Pecan Valley News, at Brownwood says:

This week on the front page of the Texas Christian Advocate, published at Dallas, there appeared an editorial under the head of "The Meanness and Effrontery of Whiskey Advocates." The article in the main is an attack on Mayor McGhee for his position in the local option election and to say the least it is unwrranated and erroneous; reflecting not only on our mayor but other good citizens who did not view the question as did the editor of the Advocate. We are sure the article will not receive the endorsement of Brownwood people. Lack of space and time prevents a complete review of the article but we feel it our duty to the mayor, the town and the citizenship to criticise the article and next week we will have more to say on the subject.

Movement to Build New Church.

Owing to the increase of interest and the condition of the old building, the Presbyterian people have decided that they are almost compelled to have a new, larger and more convenient building. The present building on Grafton street, in which they have been worshiping for about fifteen years, was built for the Methodists about twenty years ago and it has now outgrown its second denomination and should be replaced by something more imposing and in keeping with the general progress of the town, as well for more convenience. The matter of repairing and adding to the building has been considered by the members of the Presbyterian denomination, but they have found this to be to some extent impracticable and also undesirable in view of the cost incident to such improvement being so near that of a new and modern building. The Progress hopes to see this laudable enterprise carried to a conclusion and result in the erection of a magnificent building, creditable alike to the town, the members of the Presbyterian denomination and the Christian citizenship of the town in general. We believe that the citizens of the town, without regard to religious belief will assist in this undertaking. It is eminently fit that they should.

Railroad men here do not see any immediate relief in the matter of a stock car famine, as it were. Unless the roads that are short on stock cars can secure cars from the stable car companies, no relief can be promised the stockmen. A majority of the roads entering Ft. Worth are not permitting their cattle cars to leave their own lines, fearing they will not be promptly returned, thereby hampering their local business, says the Ft. Worth Register. The local agent of the Frisco says that he has had but little difficulty in securing cars for shipments from this point and that shipments have gone out on time.

An amusing story is told concerning a certain young couple of Morgan who have been courting for the last few weeks. The young lady was telling a girl friend about it and the story has been passed around among friends. The girl incidentally spoke of the young man and told her friend that he had asked to marry her. "Did he get down on his knees?" asked the inquisitive friend. "Why, how could he—I was on his lap," came the reply.—Meridian Tribune.

BUDS AND FLOWERS OF HOME LIFE.

Paine's Celery Compound Makes and Keeps the Children Well and Strong.

Mothers Make It the Home Medicine For the Little Ones.

The children, God bless them, are the buds and flowers of our homes. Without their prattle and hearty laughter, our homes would be desolate. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.

In the home and at school, the children have their times of ill health and suffering. We often note the pallid and bloodless cheeks, heavy eyes, nervous movements, and twitchings of limbs and muscles. They complain of headache, drowsiness, weariness, dyspepsia, and indigestion. All such symptoms and ailments mean that the seeds of disease will have a fast and firm hold, unless proper measures are taken to restore a perfect condition of health.

Thousands of wise and prudent parents have made their children happy, healthy, and vigorous by giving them nature's medicine, Paine's Celery Compound. In many severe and complicated cases, Paine's Celery Compound has restored health when the little ones were given up by physicians.

If your dear ones are not as hearty, strong, and rugged as they should be, try the health giving virtues of Paine's Celery Compound. It makes and keeps the children well.

Wreck on Frisco.

A wreck at bridge 257, three miles south of Comanche, delayed traffic on the Frisco yesterday evening.

An engine and a portion of a cotton train left the track just before crossing the bridge, and after crossing, the tender of the engine and seven cars of cotton turned over.

While the engineer, firemen and train crew stayed with the train, no one was hurt. Steve Coleman was the "eagle eye" and John Anderson conductor.

MISTROT BROS. & CO., - DUBLIN, TEXAS.

The Cotton Market and Trade Center

OF WEST TEXAS!

That's the claims that are put forth for Dublin this season. The special reasons for this special claim this year is that we know Dublin at the present time has every advantage over competing points as a Cotton Market and a Trade Center.

OUR COTTON MARKET

Is supplied with Exchange Quotations, not each day only, or each hour, but every day and every minute of the day, and the slightest variation of the market is noted here through our Local Cotton Exchange, hence, we always know the state of the market and are fully prepared to pay the full valve in cash for every bale. We have more regular buyers than any other town in Texas west of Waco and many of our merchants supplement the regular buyer. Every great cotton concern in the world have buyers here.

THE TRADE CENTER

With a big THE because we have more merchants with heavier stocks than any competing town, or in fact, than any other town in this section of the state. We have many Department Stores where you can get anything you want, and others on an equally large scale carry exclusive stocks of one line full to over-flowing with good things for the buyer. Our home competition is close and when it's a Cash Proposition it's still closer. This year all our merchants have bought even much heavier than usual and the big stocks on hand and the train loads rolling in, mean low prices and ample variety for the producer who comes to Dublin to trade this season. Never before has there been such a world of merchandise shipped and shipping into Dublin. You will miss much and lose money if you fail to do all your trading at Dublin this year. It will pay you to come a long way, bring your products and buy your supplies.

He was up and about yesterday and it is now hoped that the hurt may not prove as serious as was at first thought.

Commissioners' court was in session last Monday and Tuesday to consider the bridge proposition, and it now looks as though the bridge will be built at the upper crossing. Citizens of Fairview and Granbury went before the court with a subscription list amounting to $3,000, which Mr. Flinn agreed to take for it's face value and release the court for that amount. He also proposed to knock off $500 from his bid, thus making the bridge cost $13,000. The court then agreed to add $2,000 to the $8,000 of bonds and enter into a contract, provided the people would open, without cost to the county, a first class road from the bridge to the present county road. Here was the only hitch, as the route proposed was not satisfactory. However, a new route was viewed out and agreed upon, and a committee appointed to secure the right of way. It was believed that everything would be satisfactorily arranged yesterday and the court is to meet again today to close the contract Mr. Flinn.

Pastor Wilson is in fine spirits over the success of the bi-centenary celebration of the birth of John Wesley, the founder of Methodism, held at the church from Thursday night over Sunday. The services were well attended and greatly enjoyed. No wonder the people were so well entertained when we merely mention the list of well known ministers who occupied the pulpit at different times during the services. Among them were Revs. S. A. Steele of Mississippi, J. M. Moore of Dallas, R. C. Armstrong of Ft. Worth, W.H. Terry of Stephenville, W. A. Turner of Bluff Dale and Presiding Elder Bailey.

A Remarkable Record.

It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by Overton Drug Company.
