VOL. 3, No. 274 — SNYDER, TEXAS, MONDAY, MARCH 16, 1953 — EIGHT PAGES — PRICE 5c

Flowing Well Completed In Wolfcamp Lime

Humble Oil & Refining Corp. has completed its No. 6 Conrad as a flowing producer from the Wolfcamp on the southwest edge of the Diamond M Canyon field of Southwest Scurry County.

It drilled to a total of depth of 5,484 feet in Wolfcamp lime, plugged back to 5,463 feet, where it set casing. It perforated casing at 5,413-454 feet and completed it on natural flow for 192 barrels of 41.1-gravity oil daily.

Flow was through a quarter-inch choke. Tubing pressure was 225, and gas - oil ratio was 427-1.

It is 417 feet from north and 1,990 feet from west lines of section 76-25-H&TC, 17 miles southwest of Snyder.

BUFFALO CREEK

Humble No. 1 Nachlinger in the Buffalo Creek Ellenburger field near Hermleigh swabbed 24 hours on Ellenburger perforations and recovered 53 barrels of new oil and 92 barrels of water. It swabbed another 24 hours, with the period ending at 7 o'clock this morning, and recovered 51 barrels of new oil plus 25 barrels of water.

It was still swabbing with the fluid level 400 feet from bottom, and operator expects to complete soon.

GARZA COUNTY

Tobe Foster of Lubbock has set another location in the Tobe Strawn field of Garza County to begin at once to drill to 7,500 feet to test the Pennsylvanian lime.

It is his No. 1 Alice Williams, 660 feet from south and west lines of section 19-6-H&GN, one mile southeast of Justiceburg.

BORDEN COUNTY

Green No. 1 Wolf, wildcat in Southeast Borden County, drilled to 7,301 feet in Pennsylvania shale and had no shows. It plugged back to 6,600 feet and cemented five and one-half inch liner there.

It will perforate and test in the Wolfcamp, where it had made oil, and try to complete as a discovery.

DRILLING REPORT

Texaco No. 2 Fuller, North Scurry wildcat, plugged back to 2,146 feet in San Andres and at last report had pumped only load water. It is preparing to treat with 5,000 gallons of acid and test farther.

Vega and Universal No. 1 Fowler in Dawson is now drilling at 5,518 feet in lime and shale. Previous reports that the well had recovered salt water on a drillstem test in the San Andres were in error. Tests showed it to be drilling water.

In Scurry, Louisiana Land No. 1 Howell is at 7,300 feet in an unidentified dolomite, Blount No. 1 Cary is at 5,450 feet in lime and shale, and Southern Minerals No. 1 Huddleston is at 5,580 feet in black shale.

In Mitchell, El Capitan No. 1 Dixon is at 6,407 feet in lime and shale after recovering 40 feet mud with no shows on a one and one-half hour drillstem test at 6,207-240 feet, Sun No. 2 McCabe is at 3,25[illegible] feet in sandy shale, Humble No. 1 Coleman is still pumping after pumping five barrels of oil and 25 barrels of water in 24 hours, Humble No. 1 Cooper is at 3,065 feet in dolomite and shale, and Sohio No. 1 Yarbrough had spudded and drilled to 362 feet in anhydrite.

In Howard, Sun No. 3-A Jones is at 2,255 feet in lime, McFarland & Texas Crude No. 1-35 Jones is at 5,203 feet in lime and shale, and Stanolind No. 1 Anderson is at 5,534 feet in shale, trying to regain lost circulation.

Thundershowers Are Predicted In Area

(By The Associated Press)

Warm, moist air sucked in from the Gulf of Mexico drew a leaden cloud blanket across Texas Monday and sprinkled much of the state with light rain.

The precipitation was expected to turn into scattered showers and thundershowers over the entire state Monday night and Tuesday.

Folks at Fort Worth awoke to the clash of thunder, followed by steady drizzle. Early morning rain also fell at Wichita Falls, Laredo, San Antonio, Tyler and Dallas.

Winds were light and temperatures mild. Pre-dawn temperatures ranged from 41 degrees at Amarillo to 71 at Brownsville.

WHEN GOTTWALD SHARED HIS DAIS

Less than four years ago Klement Gottwald (right), shared the dais at a Communist rally in Prague — May 27, 1949 — with two men whose political destinies were to take opposite and unpredictable paths. At left is Rudolf Slansky, Secretary General of the Czechoslovak Communist party, who was among the first to be purged in the recent Communist anti-Jewish campaign. Next to him is Georgi M. Malenkov, identified then merely as a Soviet Politburo member, who last week succeeded Stalin as Soviet premier. Gottwald's illness was blamed on wintry weather in Moscow where he attended Stalins funeral. There were "hints" that some Czechs believe he might have been purged by the new Kremlin regime. Man between Malenkov and Gottwald is P. F. Judin, then Russian editor of the Cominform Bulletin.

Tito Arrives In England, Is Greeted By Prime Minister

LONDON (AP)—President Tito of Yugoslavia stepped ashore today to begin an historic visit—the first ever made to Britain by any head of a Communist state. His arrival on British soil had been delayed four hours by a typical British weather phenomenon—fog.

Greeting him at Westminster pier in the shadow of Parliament were the Duke of Edinburgh, Queen Elizabeth's husband; Prime Minister Winston Churchill and Foreign Secretary Anthony Eden. Tito was attired in a Naval uniform. Smiling broadly, he shook hands all around.

The Duke saluted him and Tito returned the greeting. A guard of honor also presented arms as the Yugoslav national anthem was played. After the welcoming ceremony which lasted about 10 minutes Tito strolled along the Thames embankment with the Duke.

Tito is here for talks with British leaders. The exact nature of the parley has never been disclosed and as deep a veil of secrecy surrounds the purpose of his visit as surround his movements while here.

Stern security measures have been taken to protect the Red ruler from any danger at the hands of a possible assassin.

The ship in which he had traveled from Yugoslavia, the Galeb (Seagull), anchored last night 35 miles down the river and was to have cruised up starting at 8:30 a.m. During the foggy delay Tito could be seen from the air pacing the deck impatiently.

As a safety precaution, the scheduled times of his arrival and over events of his visit were kept secret. His stay will include lunch with the Queen at Buckingham Palace, as well as high-level policy talks and a round of dinners.

Scotland Yard ordered Westminster Pier closed to the public from noon until 4 p. m. today (7 to 11 a. m. EST). All shipping was warned to keep on the opposite side of the river channel between 2:30 p. m. (9:30 a. m. EST) and 3:30 p. m. EST).

Extra detectives have been called in from the provinces to help guard the Yugoslav dictator.

Officers of the Scotland Yard Special Security Branch and the MI-5, the nation's top secret service agency, have asked the thousands of Yugoslavs living here—many as refugees from Tito's Red regime—to report any rumors of plots on his life.

Four British destroyers and a Royal Navy torpedo boat formed a cordon around the heavily guarded Galeb last night. All other shipping was ordered to keep at least 400 yards away.

GOP Trying To Root Out High Demos

WASHINGTON (AP) — President Eisenhower called in his new civil service commissioner today for a talk with congressional leaders on putting men of his choice in government policy-making jobs.

The idea, Sen. Taft (R-Ohio) said, is to get rid of what he termed New Deal thinkers.

Taft said in advance of the scheduled White House meeting that congressional leaders want to get the ideas of Philip Young on possible legislation to root out Democrats still clinging to top government jobs.

Young, dean of the Graduate School of Business of Columbia University, was chosen by Eisenhower last week as chairman of the Civil Service Comission.

Taft, the Senate Republican leader, said in an interview that lawyers for the Federal Security Administration, Labor Department and Agriculture Department appeared to have omitted their own names in compiling lists of jobs in their organizations which do not have civil service status and thus can be filled by the new GOP administration.

66-Degree High Here

The temperature yesterday reached 66 degrees according to Mrs. D. P. Strayhorn, official weather observer. After a minimum of 40 degrees last night the mercury stood at 58 degrees at 7:30 o'clock this morning, she said.

Pioneer Reduces Service And Blasts Action Taken By CAB

DALLAS (AP)—A sweeping curtailment of service throughout its 21-city system was announced today by Pioneer Air Lines. The company said it might suspend "all other service" and blamed the action of what it termed an "iron curtain "clamped on its operations by the Civil Aeronautics Board.

The announcement, made following the company's annual stockholders meeting, resulted from a CAB order last Friday which, Pioneer said, reduced the company's mail income below that previously paid for DC-3 operations and criticized Pioneer for buying new Pacemaster planes to replace the DC-3s.

The announcement said in part:

"Pioneer Air Lines will immediately reduce its service to its 21 cities in Texas and New Mexico; furlough many of its personnel; curtail advertising and other expenditures; and consider the sale of its Pacemaster planes and possible suspension of all other service x x x."

Gen. Robert J. Smith and Maj. William F. Long, president and chairman of the board respectively, said in a joint statement:

"We are grievously shocked that the Civil Aeronautics Board in Washington has decreed that Pioneer must provide a second class service to the people on its 21-city system xxx."

They added that the CAB, "Has placed an 'iron curtain' on the service Pioneer can render xxx."

Trials Split; Sapet Will Be First Tried In Murder Case

BROWNWOOD (AP)—The defense won separate trials today for two men accused of furnishing "arms and aid" to an unknown killer who shot down Jacob S. (Buddy) Floyd Jr. in what was termed a bungled South Texas political assassination.

Mario (El Turko) Sapet, San Antonio tavern owner and former South Texas political figure George B. Parr, will be tried first.

Charged with murder in the sensational slaying with Sapet is Nago Alaniz, dapper Alice lawyer.

The case, here on a change of venue, opened in Dist. Judge A. O. Newman's court at 9 a.m. Newman granted the motion for severance (separate trials) during trial preliminaries.

Young Floyd, 22-year-old University of Texas student and son of an influential South Texas political leader, was shot down the night of last Sept. 8 by a gunman hiding in the shadows of the Floyd family garage in Alice.

As proceedings got underway the state called names of 50 witnesses—one of them the victim's father, Jacob S. Floyd Sr. Three hundred veniremen have been called for jury selection, expected to start later today.

Crowds of spectators milled around the courthouse. Seven Texas rangers are also here.

Sapet has been held in Brown County jail here without bond since Dec. 27. Alaniz, who had been free on bond, arrived yesterday.

The charges against the two say they were not present when young Floyd was shot but "furnished arms and aid" to an unknown killer; that they conspired to kill Jake Floyd Sr. and that by mistake his son was killed.

At the examining trials of the two men, the elder Floyd—a prominent Alice lawyer and political foe of Parr—told of a secret rendezvous with Alaniz while his son lay dying. The father testified that Alaniz told him that he and then District Judge Sam G. Reams had been marked for death. He said that Alaniz told him that as they talked, someone was waiting in the Floyd's garage to kill him.

Floyd said Alaniz told him that he was scheduled to be killed because "they are afraid you will put Judge Reams back in office."

Reams—another political foe of Parr—was defeated for re-election by Parr - backed C. Woodrow Laughlin of Alice.

Recently Laughlin was accused by a Jim Wells County grand jury of putting "stumbling blocks" in its way in investigating young Floyd's death. The grand jury took its complaints to Gov. Allan Shivers last week.

Alaniz was arrested in Alice the day after the shooting.

Sapet was arrested in San Antonio. He said he was on a bus bound from Corpus Christi to San Antonio at the time of the shooting. A car owned by Sapet was recovered a few days after the shooting in Nuevo Laredo, Mexico.

Neighbors of the Floyds told police that Sapet's car "looked like" one they had seen parked near the Floyd home the day of the shooting.

Hunt For Girl Friend Leads Back To Prison

HOUSTON (AP)—Twenty-one years of freedom and a search for a childhood sweetheart ended for an escaped convict here today.

An anonymous tip led to the capture of Conway Jones, 47, a jazz band pianist, who broke out of a Lubbock jail in 1932.

Jones said he broke out less than a week after he had been sentenced to four years on a forgery charge.

It was about two weeks ago that Jones married a waitress named Nina here. He said she was his childhood sweetheart.

"It was searching for her that brought me to Houston," he said, "I've always loved her."

Jones appeared unworried about his capture.

"They won't send me to prison," he said, "I've got tuberculosis. When they find that out, they'll turn me loose."

Officers I. C. Shelburn and J. H. Sullivan arrested Jones at 12:30 a.m. in his room at a local hotel.

Jones gave skimpy details about his jail break years ago.

"I was in the same cell with two other fellows," he said. "When they broke out, I just followed the leader."

He then told of touring the West Coast where he said he was arrested on several occasions "for general investigation."

He said he heard through an old friend that Nina, the girl he had known in Lubbock, was in Houston.

"I came here immediately," he said casually, "and learned that she was married. She got her divorce several months ago and we were married recently."

Autopsy Ordered In Death Of Widow As Airman Being Sought

DALLAS (AP)—An autopsy was scheduled today in the death of a 58-year-old widow as officers searched for a 19-year-old airman she had befriended.

The body of Mrs. Mahala Winterbauer, whose son is serving in Korea, was found in the blood-stained living room of her modest home here. She was the widow of a retired policeman.

Newspapers for each day since March 8 were scattered on the front porch. No charges were filed in the death, but the autopsy was ordered to determine if she died from a blow on the head.

Homicide Capt. Will Fritz said her late model automobile disappeared about the time of her death. A neighbor said an airman was seen driving the car March 8.

A check at Perrin Air Force Base in Grayson County showed the youth had been absent without leave for two weeks from his air police squadron. Neighbors said the airman came to Dallas about two weeks ago and told Mrs. Winterbauer he was a good friend of her son.

He told her he was on leave and had no home or parents. Mrs. Winterbauer allowed him to stay in her home, neighbors said.

$20 Billion Is Said Necessary For Defense

NEW YORK (AP)—The New York Times said today that additional defense expenditures running to 20 billion dollars have been proposed in the latest study to guide U. S. defense officials on how best to prepare the nation for air attack.

The Times, in a story from Washington, reported that the sum is said to be recommended in the most recent paper in a continuing study by the Massachusetts Institute of Technology, under an Air Force contract for two years' standing.

High Air Force strategists, the newspaper added, are "debating whether such a sum should be spent for purely defensive devices, such as radar stations and warning systems, or for strategic bombers capable of striking at the enemy bases."

The Times story continued:

"The (MIT) paper stresses the vulnerability of American metropolitan centers to air attack, and urges the importance of acting soon to protect them. It emphasizes Russia's growing strength, not only in atomic weapons but in intercontinental bombers to transport them.

Mitchell Says Morrow Not On Committee

WASHINGTON (AP) — Democratic National Chairman Stephen A. Mitchell says he does not consider Wright Morrow of Texas or Richard D. Barker of Florida still members of the national committee because of their lack of support for Adlai E. Stevenson in the November election.

The names of the two national committeemen came up yesterday on a television show (NBC, Meet The Press) when Mitchell was asked about "any member or members of the national committee who did not support the ticket."

Mitchell also told the television audience he thinks Stevenson will be seriously considered as the party's Presidential nominee.

On the committeemen issue, Mitchell said his interviewers must have in mind only two persons. Mitchell said Morrow had resigned from the committee.

When a questioner said Morrow's resignation had not been accepted by the Texas state committee, the chairman replied:

"You don't resign from the state committee. If you resigned it would be to the national committee. He resigned his membership in the national committee."

Mitchell added that "a review of the matter will be given to the Texas committee before long." He said an opinion of counsel on the Morrow case was being prepared.

Crafty Aussie Pilot Bottles Up Convoy For Smashing Raid

SEOUL (AP)—A quick-thinking Australian fighter-bomber pilot bottled up a long Communist supply convoy today and paved the way for one of the biggest truck-busting forays of the Korean War.

The U. S. Fifth Air Force said more than 100 vehicles were destroyed or damaged in a climactic air strike that followed a day-long series of air blows against Red targets.

Warrant Officer Bob Turner of Adelaide spotted a mile-long Communist convoy south of Wonsan on North Korea's east coast. He roared to the head of the line and blew up the first two trucks with back and got the last four.

an attack dive. Then he circled

The Reds were stalled on a narrow road, a steep cliff on one side, a sheer drop on the other.

More Aussie Meteor jets and U. S. Marine and Air Force warplanes streaked in to attack the trapped trucks. They darted up and down the line, setting off gasoline fires and explosions.

The day's aerial activity got underway at dawn when allied warplanes drove deep into northwest Korea and turned a Red rail yard into smoking, burning shambles.

Other fighter-bombers ranged over the Communist supply routes and front lines, loosing their bombs on targets of opportunity.

Screening Sabre jets tangled with Communist MIG15s and shot down one, the U. S. Fifth Air Force reported.

F84 Thunderjets hit the rail yards at Chongju and set off a series of secondary explosions. At least 17 boxcars were destroyed. Chongju is on the west coast, about 60 miles from the Manchurian border.

Along the ground front, probing beams from Allied searchlights flushed Red infantrymen on two fronts just before daybreak and at least 50 Communists were chopped up in a hail of explosives from U. N. artillery.

Last night 18 B29 Superforts smashed at two Red supply centers near Pyongyang, the Red Korean capital, in the biggest Superfort raid of the month. Night-flying B26 Invader bombers prowled over Communist supply lines and destroyed 77 Red trucks. The Invaders also blasted a big supply and personnel center near Hungnam on the northeast coast.

Bohlen Isn't Even Discussed

WASHINGTON (AP) — President Eisenhower indicated no concern today about Senate controversy over his nomination of Charles E. (Chip) Bohlen to be ambassador to Russia. Congressional leaders reported he did not even bring it up in his weekly conference with them.

Before the conference, Sen. Bridges (R-NH) told reporters he was prepared to recommend withdrawal of the nomination if Eisenhower brought the matter up.

But Bridges and Sen. Taft of Ohio, the Senate Republican leader, said there was no discussion of it.

Asked whether he looks for Bohlen to be confirmed by the Senate, Taft replied:

"I would guess so—yes, that is my guess." He said he would vote for Bohlen.

Taft predicted the Senate Foreign Relations Committee will vote on the Bohlen nomination tomorrow. He said the Senate itself probably will take up the nomination Friday.

Taft said in reply to a question that he had not heard of any talks that Eisenhower might withdraw the nomination.

Senate Pleads For Aid To Tornado Victims In Northern Texas Today

FUTILE FIGHT

Firemen's sprays were helpless against this furious blaze that destroyed the block-square Lehman industrial building in Jersey City, N. J. Firemen said it was the worst industrial fire in 26 years. Illuminated in the background is the nearby Jersey City Medical Center.

AUSTIN (AP)—The Senate today asked Texans to be merciful and generous in helping tornado victims in Northwest Texas, an area already stricken by drought.

It unanimously passed a resolution endorsing organized efforts to furnish "sorely needed aid" to Knox City, O'Brien and Judd, lashed by last week's storm.

The resolution was sent to the House where quick action was expected. It noted that many persons lost all their personal possessions and homes, and that the Knox County hospital was almost totally wrecked.

Committee action on girlie books and big money were in the spotlight as the legislature began what ought to be the second half of its session.

The Senate started debate on the Canadian River bill and the House heard 128 new bills on first reading. Then they interrupted work for a joint session to hear a concert by the Melody Maids of Beaumont.

A Senate Finance subcommittee report today urged pay raises for state workers and colleges teachers. Its recommendation goes before the full finance committee this afternoon. The House Appropriations committee recommended no pay raises.

The Senate resolution on the tornado noted that the Red Cross gave quick and early help to the stricken communities, but that "other and enlarged financial aid is sorely needed."

The resolution, by Sen. George Moffett of Chillicothe, said that other organized efforts are under way to extend help "particularly by the Wichita Daily Times and Record News and other organizations whose names are not presently available" and urged Texans to donate to the fullness of their ability.

AUSTIN (AP)—Girlie books and big money were in the spotlight today as the 53d legislature began what ought to be the second half of its session.

Debate on major issue was bogged in a logjam of new and old bills. The emphasis was still on committee work 60 days after start of the session. The constitution suggests should run for 120 days.

Clerks in the House were reading themselves hoarse formally introducing about 200 new bills filed before Friday night, when free introduction of bills ended.

Snyder Representatives To Air Service Hearing Encouraged

Representatives of Snyder and Scurry County returned yesterday from the Civil Aeronautics Board hearing on air service "a little encouraged" after presenting the case for local citizens on the county's application for air service to Winston Field.

James Rosser, attorney, and John Blum, head of the county airport board, were the representatives to the Washington hearing. They were given 10 minutes' time to present Snyder's case.

George Mahon of Lubbock, representative of this area in Congress, appeared before the board, Rosser said, and made a very effective talk on behalf of Snyder's application. The attorney said the CAB members made inquiries to Mahon about his membership on the appropriations committee, and "he could have gotten the impression that the board wanted more money for its operation."

Snyder was the fifteenth on the list of cities asking for local service, Rosser said, adding that the board indicated more interest in Snyder than any of the other cities, as evidenced in the number of questions they asked in regard to Snyder's size and growth, size and condition of the airport, distance from Lubbock and Abilene, and the number of airlines having routes near here.

Rosser pointed out that Pioneer Airlines has a route close enough to include Snyder, and he said board members brought out the fact that Continental Airlines also has a route that could include Snyder. "We tried to show them that our main interest does not lie in the direction Continental flies," Rosser said, explaining that that firm's route is in a northeast-southwest direction and extends into Oklahoma. It does not include Fort Worth and Dallas. The attorney added that he and Blum made clear to the board that Snyder would accept air service of any route, if it could not have the one preferred.

Sen. Lyndon Johnson of Texas appeared before the board and made a short talk extolling the virtues of Texas, but not giving much help, the representatives indicated.

Rosser said Pioneer, which had been fighting service to Snyder and to all other "out of way" stops, ignored Snyder's application at the hearing.

Rosser said he will write the CAB and attempt to find out the estimated time their decision will be made.

New Elections In Japan Are Set April 19

TOKYO (AP) — Prime Minister Shigeru Yoshida and his political opponents are squared off for new national elections that will decide the fate of the little man who has led Japan for five years.

The stubborn, 74-year-old Premier, fighting for his political life, called the elections Saturday after the lower house of the Diet (parliament) passed a vote of non-confidence in him.

Instead of resigning after the vote, as his opponents wanted, Yoshida dissolved the lower house and took his case squarely to the people.

He set a tentative date of April 19 for the balloting.

The elections will give about 45 million voters—slightly more than half of them women—a chance to decide if Yoshida has tied his nation too closely to America, as some opponents charge, and is following too "reactionary" a line in internal policies.

WEATHER

WEST TEXAS: Considerably cloudiness and mild with scattered showers or thundershowers south portion of South Plains and from the Pecos Valley eastward Monday and Monday night. Tuesday partly cloudy and mild.

Malenkov's Mild Speech Heard With Interest Around World

MOSCOW (AP)—The more than 1,000 members of the Supreme Soviet unanimously confirmed Georgi M. Malenkov as the Soviet Union's prime minister yesterday and loudly cheered his inaugural assertion that all "troublesome and unsolved" issues with the United States and other countries can be solved peacefully.

One foreign diplomat termed the speech to the nation's parliament by Joseph Stalin's successor "almost an offer to sit down with the United States and anyone else and try to ease the world's tension."

"It could be one of the most important statements to be made in a very long while," another diplomat commented.

(In Washington, officials of President Eisenhower's administration said they were studying Malenkov's words carefully but commented that the sincerity of any peace overtures would be shown better by action rather than words. Such specific action, they pointed out, could range from an easing of tensions in Germany to an armistice in the Korean War.)

As in his funeral oration over Stalin's bier a week ago, Malenkov in his address to the Soviet delegates in the Kremlin's ancient Hall of St. Andrew again stressed a policy of peace.

"At the present and in the future," he asserted, "there is no such troublesome or unsolved question which cannot be solved by peaceful means."

This, he continued in a specific reference, applies to the Soviet Union's relations with all countries including the United States.

Not once did Malenkov refer to "warmongers" or to American "imperialists." Both these terms, formerly so widely applied to activities of U. S. leaders, have been absent from pronouncements of Soviet leaders and the Soviet press since Stalin's death.

Malenkov said his new government's foreign policies are based on respect for the rights of other countries, "strict adherence to all treaties" signed by the Soviet Union, and co-operation and development of business relations with all nations, whether Communist or capitalist.

The Soviet Union, he went on, would draw even tighter its links with its allies, and especially with Communist China and the "people's democracies" of Eastern Europe.

On the home front, Malenkov said, his government would work for five things: to make the state even more powerful, tighten the bonds among the Soviet Union's various nationalities, strengthen the armed forces, better standards of living and guarantee the "unity" of party and government.

THERE'S A BRIGHT SUN IN WASHINGTON

—So say these Eisenhower grandchildren as they try to sit still for photographers on the south steps of the White House. Visiting for the first time since the inauguration, these children of Major and Mrs. John Eisenhower are: Dwight David II, 4, who uses his hands for shade; Susan Elaine, 14 months, who turns away, and Barbara Anne, 3, who blinks in the bright pre-Spring sunlight.

Hokkaido Is Serene Place, Despite Dangerous Location

By FRED SAITO

NEMURO, Japan, March 14 (AP)—The ground is cold and the air is hot over Hokkaido.

This port city on the northwestern tip of Japan's northernmost island, is typical. Walk out of town a little way, stand at the end of Cape Nosappu, look out over the gray, frozen sea and there, only four miles away, lies Russian-held territory in the Kuriles.

Despite the proximity, despite the fact that Russian and American planes have dueled over their heads and Japanese fishermen have been seized by the Soviets, there is little noticeable tension among the 20,000 inhabitants of Nemuro.

With the port frozen shut for four months, the town has gone into a sleepy hibernation. The ships are moored to their piers, and the crab and salmon canning factories are closed. People appear relaxed and healthy. Children ski and skate on the icy roads. Girls drive horse-drawn sleighs laden with milk, and the sleighs jingle with bells.

There is this sleepy peace now, and yet as recently as Feb. 16, I watched two American jets tangle with two Soviet planes over the cape. The Russians refused to land and opened fire. The Americans returned the fire and sent the two Soviet planes racing homeward, one of them trailing smoke.

Then Nemuro returned to its unreal quiet.

Hokkaido is potentially one of the most dangerous spots in the world, in the hot and cold wars of the great powers.

The Russians in the North and Northwest, in Sakhalin and the Kuriles, are believed to have Hokkaido ringed with about 4,500 bombers and fighters. To defend the 30,000-square-mile island, there are American planes and a Japanese National Safety Force of 28,000 men.

This force is made up of eight regiments. One 3,000-man regiment, with artillery and tank units, is charged with the defense of the vital 300-mile coastline along the Sea of Okhotsk, which separates the Japanese from the Russians in the Kuriles and Sakhalin. Another regiment is to be added to this line in the spring.

Six more are stationed in the interior. The headquarters for Hokkaido's entire defense force is in Sapporo, to the southwest.

There, Lt. Col. Yahei Toyama, intelligence officer at corps headquarters, told me that any one NSF regiment now in Hokkaido could match five or six crack regiments of the old Japanese Imperial Army.

"We have the same spirit and are far better equipped," he said. At Bihoro, I visited a 2,000-man unit, equipped with 100 trucks, ten 20-ton tanks and sixteen 105-mm. guns, and the usual small arms. Officers there told me they expect to get more heavy arms from the U. S. Army.

Although Nemuro is the closest point to Soviet-held territory, military authorities here do not believe the Russians would attempt to invade Hokkaido through this area. As a port, Nemuro is frozen out four months a year. In the warm weather thick fog makes navigation extremely hazardous.

A more likely target, in the opinion of Japanese officers, would be Wakkanai, Japan's northernmost port and only 30 miles from Soviet-held Sakhalin. The sea near Wakkanai never freezes over because of warm currents coming up from the south.

I went up to Wakkanai, a town of 30,000 people, most of whom show no great concern about the nearby Russians. Restaurants, night clubs and "pachinko" or hinball parlors are filled with gay, carefree people. Businessmen are inclined to belittle the Russian threat.

"The press overplays the so-called tense situation around Hokkaido," one said. "That makes it hard to obtain loans and investments from the central government and banks."

Nevertheless, there is much talk of Russian spies and the Soviet seizure of 60 Japanese fishing boats off the Hokkaido coast last year. The Russians insist on defining their territorial limits as 12 miles. Most nations are content with three.

In all, the Russians seized about 500 Japanese fishermen last year. More than 50 have not been returned. The others spent between one week and nine months in jails in the Kuriles or Sakhalin before they were sent back.

HOSPITAL NOTES

The following admissions and dismissals at Battenfield Hospital are those whose names were released by the hospital.

Patients admited: Clell Reaves, 2505 Twenty - sixth Street, medical; Mrs. A. C. Alexander, 2908 Avenue U, medical; Deretha Jean Rushing, daughter of Mr. and Mrs. D. F. Rushing of Snyder, medical.

Patients dismissed: Bill Childress, son of Mr. and Mrs. L. W. Childress of Snyder, medical; J. H. Rollins, Jr., and infant daughter, Debra Kay, route No. 1 accident; Mrs. Kenneth Blalock, route No. 1, medical; Mrs. Billy J. Osgood and baby girl, Snyder.

BIRTHS

Mr. and Mrs. James A. Patrick of route No. 2 are parents of a son born at 12:01 this morning in Battenfield Hospital. The baby weighed seven pounds and 11 ounces.

PERSONALS

Guests in the home of Mr. and Mrs. Jack Neale, 3009 Avenue W, have been Mrs. James Rosenberger of Seminole and Mrs. James Cornish and daughter of Houston.

Mrs. Walla Fish, 3110 Avenue U, was called to Dallas Friday night to attend her sister, Miss Bobbie Garner, who was ill.

Mr. and Mrs. Bill Tuttle, El Paso Camp, are in Temple where Mrs. Tuttle is undergoing a medical check up.

Korean Vets To Be Honored

Men from this area who have returned from the Korean war will be honored guests at a special chicken supper at the Veterans' Club House sponsored by the American Legion next Monday night, Ray Niedecken, commander, said.

The chicken supper will end "Korean Veterans Appreciation Week" which is being observed all over Texas, Niedecken said.

Proclamations by both Governor Allan Shivers, and Harry T. Holbrook, mayor of Snyder, have been made in connection with the appreciation week.

The congregations of all churches, schools, luncheon clubs, Chamber of Commerce and Junior Chamber of Comerce and all other civic units have been invited by Niedecken to join in honoring the men who have returned from the Korean conflict.

"We want to urge every Korean veteran and his wife to be our guest at this occasion. If such a member does not get a special invitation from a member of the American Legion post, we would like for him to come out anyhow," the commander said.

An effort to find out the names of close relatives of men who have lost their lives in the Korean war is also being made, and appreciation plaques will be given the wives, parents and other close relatives at the meeeting, Niedecken stated.

Bette Davis To Lose Part Of Her Jawbone

NEW YORK (AP)—Actress Bette Davis is scheduled to have a section of her jawbone removed in an operation at New York Hospital today.

Paul W. Benson, her personal press representative, said over the week end that she is suffering severe chronic osteomyelitis of the jawbone. She has been at the hospital for more than a week.

GET ACQUAINTED . . . just think of "what those two words mean" each and every day to us—in business and in all our social contacts.

"LET'S GET ACQUAINTED" . . . will be "that feature" when our attention is focused on people—at our offices—our stores—our places of business!

Let's Get Acquainted

St. Patrick's Day Parade In Richmond By 2

RICHMOND, Va. (AP) — John O'Grady and Allie Duffy, Richmond's two-man St. Patrick's, day parade, will be making their annual rounds tomorrow, painting the town green.

O'Grady, 63, a builder, and Duffy, 60, a retired fireman, will drink only green beer. A local brewery is making sure the brew is the correct shade.

They'll eat only green bread and food. Restaurants that expect them to call have promised to co-operate but the two Irishmen will carry a green vegetable dye just in case the restaurants forget.

O'Grady has warned police he'll pay no attention tomorrow to any other than an Irish officer and he'll have no truck with traffic tickets if they aren't green.

Of course, the pair will be decked out in green from head to toe.

"We'll even wear green underwear, in case of an accident," O'Grady chuckled.

Their day will start with visits to any number of business establishments along the city's main artery, Broad Street. At each stop, O'Grady and Duffy will make with a tentative Irish jig, a "top o' the morning," and a pleasantry or two.

They'll travel in an old-fashioned buggy behind a green - blanketed horse named Patrick. A footman will jump down at each stop to unroll a green carpet for them to tread.

O'Grady and Duffy, one a portly and the other a spare gentleman, are not advertising anything except their high spirits.

"We just want to bring good cheer, to show people that life is really good living," O'Grady explained. "St. Patrick's Day gives us an excuse."

O'Grady has been promenading through Richmond bearing the green every St. Patrick's Day since 1911. Duffy started a few years later, also as a solo performer. They decided to make it a duet in 1936.

The two will have a full day tomorrow. Besides their "parade," they have accepted invitations to attend three dinners, a church function and a ball. It will keep them going from 9:30 a. m. until the wee hours.

The church function? At St. Patrick's, of course.

DWI Fine Paid Today

Charlie Rhodes, 32, of 2204 Avenue M, was fined $123.50, including court cost, when he pleaded guilty this morning to a charge of driving while intoxicated. He was arrested yesterday morning.

Rhodes was arrested Jan. 6, 1952, on a charge of being intoxicated in an automobile and was fined $38 in justice court.

Changing Mind Results In Higher Court Fine

Kenneth Eugene Davis, 30, of Snyder, found it expensive to change a plea in county court Saturday on a charge of driving while intoxicated.

Friday, Davis was fined $100 plus court cost of $23.50 when he pleaded guilty to the charge. He was arrested by three officers the night before.

Saturday, the court refunded the fine and court cost Davis had paid when he and his attorney, George Killam, filed a motion for a new trial, stating that Davis decided he wanted to plead innocent.

The motion was granted, and the case was set for jury hearing this morning. But shortly after the motion was granted, Davis decided again he would plead guilty. Edgar Taylor, county judge, assessed Davis a fine of $150 plus court cost of $23.50.

Charles Duran Named Cashier Of West Texas State Bank By Board

Charles Duran, 28-year-old acting cashier at the West Texas State Bank since the resignation of Olian Vinson early this year, was officially made cashier at a meeting of the board of directors, Nolan Watson, president, said.

Vinson resigned to become president of the First National Bank of Seagraves, Jan. 12.

The new cashier of the West Texas State Bank is married and has one son, Mike, 15 months old. The family residence is at 202 Thirty-first Street.

Duran has been in the banking profession seven years, the last three of which were with the West Texas State Bank here.

Real Atomic Shell To Be Fired During Test

ATOM BOMB SITE, Nev. (AP)—It's a true atomic shell—not just an atomic warhead—that will be fired here sometime late in the new Atomic Energy Commission test series.

Carroll L. Tyler, AEC test manager, told newsmen that the 11-inch (diameter) shell will have an atomic component inside.

Tyler also revealed that the cannon will not be fired in actual military fashion, but the shell would be touched off by remote control.

Mrs. D. A. Taylor who lives at Frontier Courts on the Colorado City Highway was returned here yesterday by Bell ambulance. She had been a surgery patient in Gaston Hospital in Dallas.

H. B. Baruch Dies Yesterday

WYANDANCH, N. Y. (AP)—Former Ambassador Herman B. Baruch, 80, died at his Long Island home here yesterday.

He was a brother of Bernard M. Baruch, presidential adviser in two world wars; Sailing W. Baruch, financier, and Hartwig Baruch, retired broker and stage actor, who died March 1.

A native of Camden, S. C., Dr. Baruch practiced medicine here for several years and in 1903 entered the financial business. Leaving the financial field in 1943, he became special representative of the U. S. Board of Economic Warfare in Brazil and special economic adviser to the U. S. ambassador there.

Baruch, a Democrat, was named ambassador to Portugal by President Roosevelt in 1945 and ambassador to The Netherlands by President Truman in 1947. President Truman accepted his resignation from the Netherlands post Jan. 1, 1949. Baruch later became president of the Dr. Simon Baruch Foundation, a medical research group here named for his late father, a physician.

Civil Cases In Courts Here This Morning

Testimony was begun this morning in civil trials by jury in both county and district courts.

The district court action is a compensation suit of Everett C. Stone vs. Texas Employers Insurance Association. The plaintiff's attorneys are Pat Beene of Snyder and the law firm of Jones, Jones & Brian of Marshall, Tex. The defendant association is represented by Ross Hemphill of Snyder and Marvin Sprain of the Abilene firm of McMahon, Springer, Smart & Walter. The suit was filed Sept. 27.

The county court damage suit of Little Westbrook vs. O. L. Hammit concerns the loss of an automobile engine which the plaintiff claims had to be replaced because no oil was placed in it by the defendant's service station when the car was serviced for an oil change. Westbrook is represented by Keith L. Merrick, Lubbock, and the defendant is represented by the Abilene law firm of Brooks, Fergus, Nemir & Brooks.

For 100 years Presidents elected at 20 year intervals have died in office— William Henry Harrison, 1840; Lincoln, 1860; Garfield, 1880; McKinley, 1900; Harding, 1920 and Roosevelt, 1940.

Mrs. Joyce Smith, manager of the Central Elementary School cafeteria, rolls out graham crackers to be used in a favorite family dessert.

EATING WITH SNYDERITES

Graham Cracker Dessert Is Favorite With Mrs. Smith

Mrs. Joyce Smith of 2502 Thirtieth Street frequently prepares a graham cracker dessert for her family that takes little time and is relatively inexpensive, she said.

The dish can be mixed as long as a week ahead of time and stored in the refrigerator. It may be served with or without whipped cream, Mrs. Smith stated.

GRAHAM CRACKER DESSERT
⅝ cup butter
1½ cups sugar
8 eggs
1 and 1-3 pounds graham cracker crumbs
½ pound chopped nuts
3½ cups crushed and drained pineapple

Cream butter and sugar. Add beaten egg yolks and mix thoroughly. Fold in stiffly beaten egg whites. Mix crumbs and nuts. Arrange layer of crumbs on bottom of pans followed with a layer of the cream mixture, then nuts and pineapple. Top with an aditional layer of crumbs. Chill. Makes 18 servings.

Spring Encore!

Auxiliary Sets Installation At Club Tonight

Election and installation of Veterans of Foreign Wars Auxiliary officers will begin at 7:30 o'clock tonight at the clubhouse.

Mrs. Ed Chapman, president of VFW Auxiliary District 8, will be installing officer.

Candidates for the offices are as follows: Mrs. S. L. Surratt and Mrs. Dillard Pope, president; Mrs. Delbert Jones. Mrs. M.M. Clark and Mrs. Claude Lloyd, senior vice president; Mrs. Travis Lankford and Mrs. R. L. Johnston, junior vice president; Mrs. Bill Butler and Mrs. Fred Clark, treasurer; Mrs. Jim Norred, chaplain; Mrs. Wanda Holland, conductress; Mrs. Simon Steinberg and Mrs. J. E. Craven, one-year trustee; Bertie Stringer and Mrs. Margie Land, two-year trustee.

Following the installation, a buffet supper will be served by retiring officers.

PERSONALS

George Sands of Akron, Ohio, was a guest yesterday in the home of Mr. and Mrs. Turner Kimmel, 3798 Avenue V.

Mrs. Turner Kimmel, 3798 Avenue V, returned during the week end from Lubbock where she visited her parents, Mr. and Mrs. M. C. Butler.

Sometimes stains can be overcome with a rottenstone and oil treatment. Rottenstone and linseed oil may be purchased at hardware and paint store. Mix rottenstone (or powdered pumice) into a creamy paste with a little linseed oil, and apply it with a soft cloth, rubbing it over the stain with the grain of the wood. Then polish with a clean cloth. Likely the stain on your table will require a complete refinishing job, as you suggested, since it penetrated the wood. Buy a reliable brand of varnish remover and follow instructions given by the manufacturer. It is doubtful that the wood which was eaten away could be successfully replaced with a plastic wood filler which you get at hardware stores. There are two professional furniture refinishers in town who could probably give you an estimate on the extent of damage and advise you about your table. If sanding is called for it requires an expert.

* * *

What is it that can be added to soapsuds to cut greasy film on woodwork? R.

One method calls for adding a tablespoon of kerosene to a gallon of soapsuds.

* * *

I have had my oven checked and it is all right but things I bake never brown evenly. What could be the matter? S.

Perhaps your pans are warped or discolored. Either will result in uneven baking and browning.

Charles Thorpe Marks Birthday With Party

Mrs. C. M. Thorpe 2802 Avenue C. was hostess for a party honoring her son, Charles, Saturday on his ninth birthday.

Guests included J. Ralph Johnson, Carolyn Hammil, Reba Rand, Lee Marshall and Wanda Lee Thorpe.

Favors were lollipops wrapped in birthday decorations.

Helps For Homemakers

Send your questions to "Helps for Homemakers" Snyder Daily News or call 3-5486.

The other day I accidentally spilled a little hot lye soap on my oak dining table. I did not notice it for about 20 minutes, so the clear varnish finish was eaten off the wood, the wood was eaten to some extent and there was a dark stain. Hastily I made a strong solution of baking soda and water, poured it on the spot, but the soda removed more of the finish. Now I have a dark brown stain surrounded by a lighter brown one. Please tell me how to bleach away the stains, fill the eaten out part of the wood. or smooth it, and how to refinish the whole table top, as it needs it anyway. Mrs. L. T.

Severe damage of the finish and penetration of the wood cannot be overcome by home treatment.

NEW Cough Help FOR LITTLE CHILDREN

For coughs and acute bronchitis due to colds you can now get Creomulsion specially prepared for Children in a new pink and blue package and be sure:
(1) Your child will like it.
(2) It contains only safe, proven ingredients.
(3) It contains no narcotics to disturb nature's processes.
(4) It will aid nature to soothe and heal raw, tender, inflamed throat and bronchial membranes, thus relieving the cough and promoting rest and sleep. Ask for Creomulsion for Children in the pink and blue package.

Club Federation Publicity Contest Deadline Extended

Entries in the press book contest of the seventh district Texas Federation of Women's Clubs are not to be sent in advance of the district convention, Mrs. Allen Hodges, district press book chairman of Littlefield, announced.

The press books must be brought to the convention headquarters in Hotel Jim Hill at Hereford April 10.

Earlier plans of Miss Nanine Simmons, TFWC press and publicity chairman of Mexia, had called for the books to be mailed to her by April 10. Because of the wish of the publicity chairman to see the winning books, and since the dates are so close, she has moved the date to April 11 for the winners to be mailed to her. Thus, the seventh district winners will be on display during the convention, Mrs. Hodges said.

Purpose of the contest is to honor effective use of publicity to advance the work and objectives of the club and the Federation. Mrs. Hodges said.

Rules governing the contest, outlined by Mrs. Ed M. Anderson of West Jefferson, N. C. GFWC chairman, include entering the books under one of the following divisions: individual club, junior club, city federation or department club. Extent of coverage and a community angle will be included in judging.

Mr. and Mrs. Price Jerrell and son, Glen, of the El Paso Camp are visiting Mrs. Jarrell's relatives in various points in East Texas.

America's New Railroad

What's this surveyor doing? He's sighting on tomorrow . . . clipping off an old curve . . . clipping off the past.

It goes on day after day on the Santa Fe. Building new.

Till there's nothing left that's *old* today of the Atchison, Topeka and Santa Fe but the country and the song and the pride of its people!

IN THE PAST 5 YEARS . . . Whole fleets of streamlined trains replaced with finer streamlined trains . . . Enough new track laid to more than reach from Chicago to Los Angeles . . . Great new "hump" yards built to speed switching . . . New roadbed, new rail and new ballast methods—for smoother, safer rides for goods and people.

IN THE PAST YEAR . . . New freight stations, with new towveyors, at Chicago and San Francisco . . . Great new construction started to raise Santa Fe rails in Kansas and Missouri above the highest flood stage of recorded history.

IN THIS YEAR . . . New micro-wave communication system put in service between Galveston and Beaumont, Texas . . . New freight classification yard will be opened at Belen, New Mexico.

AND IN THE NEXT YEAR . . . More curves will be clipped, more grades reduced . . . 119 new diesel units will go to work . . . New modern diesel shops will be completed . . . 3600 new freight cars will be placed in service . . . New electronic communication and control equipment will be installed . . . and El Capitan will be re-equipped with all new chair cars!

AND IN THE NEXT 5 YEARS . . . New cars and whole new trains will be rolling on an ever *newer*, greater Santa Fe.

It costs Santa Fe millions (not one penny from the taxes you pay) to keep America's New Railroad *growing newer every day.*

THE ADVENTURES OF PATSY

Kiner Ends Holdout; Heading For Havana

PALM SPRINGS, Calif. (AP)—Home Run Specialist Ralph Kiner, his traveling bags packed for days, heads for Havana today to join the Pittsburgh Club and conclude a stormy holdout session with the Pirate General Manager Branch Rickey.

Presumably concluding one of the most publicized holdout campaigns since the glamorous era of the late Babe Ruth, Kiner said he was booking airline passage to Cuba as soon as he could make it.

Late last night—30 minutes, in fact, before another ultimatum by the demanding mahatma that he agree to terms—Kiner from his winter home here disclosed that he was coming to terms.

The terms. Kiner said, were almost exactly those he and Rickey agreed on at their meeting in Hollywood on Feb. 13. They call for Kiner to receive something under $76,000, a cut he agreed upon from the $90,000 he is supposed to have received last year.

WHO WON?

Kiner was asked bluntly who won the bitter, wordy and long range squabble between himself and Rickey.

"The only thing I ever held out for was what we originally agreed upon a month ago. Some of the things we agreed on at that time were withdrawn in the days that followed."

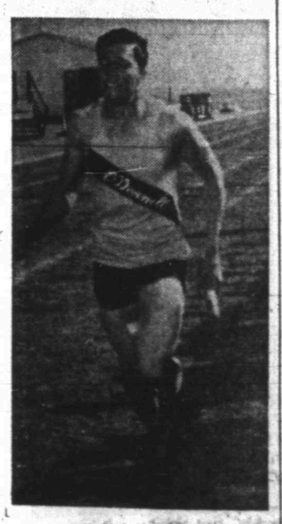

The big Californian and Rickey have been at swords' points since their Feb. 13 meeting. At one point Rickey demanded that Kiner report to camp by March 1, then March 7 and finally by March 15, although the month before he had said Kiner would not have to be there until the middle of March.

SLUGGING CHAMP

Kiner, who was the co-home run champion with Hank Sauer of the Chicago Cubs with 37 apiece last year, said he had sent the following wire to Rickey last night:

"I accept the terms of your March 14 telegram and will report as soon as transportation is available. I am anxious to get to spring training and I am in good condition. I hope that I can in some way help the team get into the first division. and I hope to be with Pittsburgh the rest of my baseball career."

The formal contract signing will come in Havana this week, providing there is not another blowup between Rickey and his star outfielder.

Jim Jackson, anchor man on the O'Donnell sprint medley team, came in far ahead of his opponents Saturday in the Canyon Reef Relays here. Running in the medley relay with Jackson were Wayne Mott, James Rains, and Roger Doss. They finished in 3:50.3. The Snyder team ran second in that event.

No Opposition To Franchise Shifts Planned

TAMPA, Fla. (AP)—The American League is expected to give Bill Veeck the green light today in his efforts to shift the St. Louis Browns franchise to Baltimore.

Lou Perini's plans to move the Boston Braves to Milwaukee will come up for vote Wednesday when the National League meets at St. Petersburg following an American Association meeting earlier the same day.

No solid resistance to either move appeared at yesterday's Executive Council meeting at Belleair, Fla., where Commissioner Ford Frick held a preliminary hearing with officials of the four clubs and leagues involved.

Approval by the American League at today's special meeting scheduled for 11:00 a.m. at Tampa would not bring major league ball to Baltimore officially. It would still require the sanction of the International League, which will meet within the next 48 hours, as soon as the scattered officials can get together.

Frick told both Veeck of the Browns and Lou Perini, president of the Braves, they must follow the established rules of procedure in their franchise shifts. He pointed out each move must have the approval of the major and minor leagues concerned.

While raising no objections to the proposed moves before the imminent 1953 season, he indicated he was not too happy about such major transactions at this late date.

Frick outlined a "get tough" program that would ban future major league franchise moves into minor league cities except between Oct. 1 and Dec. 1 .The Executive Council will recommend such a policy at the joint meetings in July. In the meantime, the Executive Council's decree will be in force. However, it will not effect the Browns and Braves dealings.

'DEFIES' BAN ON SHORTS

Marlene Bauer, who is a pretty good argument against the recent USGA ban on golfing shorts in tournament play, as a gag, addresses the ball wearing a long black skirt. Taking time out to enjoy the horseplay at the women's Titleholders Tournament at Augusta, Ga., are left to right: Betsy Rawls, who shot a 74 in the opening round; Louis Suggs, who shot a 75 and Bonnie Randolph, 85. Miss Bauer carded a 77.

Tigers Have Found Pitcher Who Looked Good Two Times

By ED CORRIGAN
Associated Press Staff Writer

They can't go any lower this year, so the Detroit Tigers, an inept crew last year, are looking in the only possible direction — upward.

With all their "ifs," the biggest of whom is Hal Newhouser, Manager Freddie Hutchinson has had to hunt for talent all over the lot, and he has come up with a pitcher who has looked good in two appearances.

Milt Jordan is the hurler. On his first outing less than a week ago, he went three innings against the Cincinnati Reds and received credit for a 7-3 decision. Then Saturday, he tossed five scoreless innings against the St. Louis Cardinals, a tough bunch of customers.

So young Milt, who labored in Buffalo last year, has been involved in two of the Tigers' six Grapefruit League triumphs, and, incidentally, two of the three well-pitched games the Bengals have had.

They've been hitting, but their pitchers haven't been showing well. Their record to date is 6-2, highly respectable, but the Detroit hurlers have given up 37 runs in the eight games, or about 4.50 per game.

They licked the Boston Braves yesterday, 9-6, on a couple of home runs in the ninth inning by Rufus Crawford and Johnny Bucha, each with one man on base. Newhouser and Ned Garver, who took over in the sixth, were tapped for 12 hits, Bill Bruton hit Newhouser's first pitch in the first inning for a home run.

The two World Series rivals, the New York Yankees and the Brooklyn Dodgers, went at it again in Miami, and Casey Stengel's men came out on top, 4-1, to take the odd game of a three-game set. Vic Raschi, Allie Reynolds and Ewell Blackwell, all making their first appearances, handcuffed the Brooks.

Bob Rush, top operative on the Chicago Cubs' pitching staff, gave up only one hit in five innings and got credit for an 8-3 decision over the Chicago White Sox. Joe Dobson was no great shakes for the Sox and was reached for seven hits in four innings.

Injury Takes Allie Reynolds Out Of Game

By ED CORRIGAN
Associated Press Staff

Allie Reynolds, the Big Chief of the New York Yankees pitching staff both in the matter of his Indian ancestry and his won and lost records, was back on the shelf today with a pulled back muscle.

But Manager Casey Stengel wasn't worried because the injury is a minor one—especially for a fellow who has been hit with all sort of miseries during spring training. Allie, a 20-game winner last year, has a month to get over it before the season opens.

Ol' Case trotted out his first line of defense yesterday for its first appearance and what he saw was a beautiful exhibition of pitching as the Yanks polished off the Brooklyn Dodgers, 4-1, in Miami to take the odd game of a three-game set.

Without Reynolds, there's no telling where the Yanks would be. But Allie in his debut against the club the Yanks beat in the World Series last fall, gave up only one hit in two innings before he retired.

The Detroit Tigers licked the Boston Braves, 9-6, on a couple of home runs by Rufus Crawford and Johnny Bucha in the ninth inning, each coming with one man on base. Hal Newhouser and Ned Garver divided the pitching chores for the winners.

Duane Pillette and Harry Brecheen combined for one of the best pitching jobs so far in San Francisco when the St. Louis Browns shut out the local club, 2-0. Pillette gave up only two hits in the first five innings while Brecheen tossed hitless ball for the last four.

The Cleveland Indians needed a home run from Larry Doby to score a 3-2 victory over the New York Giants. The big blow came off ace Giant righthander, Sal Maglie. He also yielded both other Cleveland tallies.

The Philadelphia A's with rookies Ed Monahan, Bill Harrington and Ed Hrabcsak toiling on the mound, whipped the Washington Senators, 7-1, in Orlando. The A's broke a 1-all deadlock with five runs in the seventh.

With Stu Miller hurling six innings, the St. Louis Cardinals defeated the Philadelphia Phillies, 3-1, at St. Petersburg, while at Tampa, Ernie Nevel and Eddie Blake pitched the Cincinnati Reds to a 4-2 victory over the Boston Red Sox.

Final Rounds In City Loop

National Guard, which tied for top place in practice rounds of the city cage league, will meet Wade Pipkin Motors in the first round of the championship tourney at 7:30 o'clock tonight.

Following up that game will be a match between Chuck Wagon, the other first place squad, and C&S Sporting Goods, which ran close to the top.

The Guard squad lost to the Pipkin team, which had not previously won a game, last week 55-54 in an overtime match.

After tonight's play, league officials will work out the remainder of the schedule for the double-elimination tourney, which will require about five nights of play.

Charlie White and Robert Minton lead the Guard team, while Bill Zimmerman and Norman Carter are sparkplugs of the Pipkin squad.

Heading up the list on the Chuck Wagon team are Joe Burney and Ned Underwood, while Bobby Shipley and Bill Boyd pace C&S.

Harrison Is Golf Winner

ST. PETERSBURG, Fla. (AP)—Big Dutch Harrison hung a record-matching 266 on the scoreboard yesterday to win the $10,000 St. Petersburg Open Golf Tournament in a drama-packed finish.

The drawling "Arkansas Traveler" covered the last 18 holes in 66, five under par for the Pasadena Municipal Course, then lounged in the locker room while a pair of hot St. Petersburg pros—Chick Harbert and Dick Mayer—made a great but futile effort to catch him.

Harbert, who shot his second 64 of the tournament, was just one stroke off the course record held by Jim Turnesa, and Mayer wound up in a second-place tie at 267.

Harrison, playing out of Ardmore, Okla., was 18 strokes under par for the distance as he equalled the record for the 19-year-old tournament. Jack Burke Jr. set the mark last year at the nearby Lakewood Course in the process of winning his fourth straight tournament of the 1952 winter tour.

Houston Swimmers Win Meet In Louisiana

NATCHITOCHES, La. (AP)—Crystal Pool Swimming Club of Houston, Tex., won the team championship in the Southern AAU Women's Indoor Swimming Meet at Northwestern State College.

The Texas club posted 34 points to take the title Saturday in the two-day meet. Audubon Swim Club of New Orleans finished second with 30. Minden High School came in third with 23.

The Texas State College for Women team won the team synchronized swimming title. Miss Loyal McNair of TSCW took the solo synchronized contest.

Crystal Pool won first in the duet synchronized event.

Patty Berg Is Philosopher

AUGUSTA, Ga. (AP)—Patty Berg, whose Women's Titleholders victory was her second tournament triumph in a row, combines a little homespun philosophy with her golf.

"Golf is a game of skill," said the red-haired veteran professional who broke the Titleholders' record yesterday with a 294. "Sometimes its your day, sometimes it isn't. If you have a bad round there's no need to get all upset. Your mother and father are going to love you anyway."

Patty ran away from the high caliber field to capture her fifth Titleholders, finishing nine strokes ahead of runner up Betsy Rawls of Spartanburg, S. C. She took a two stroke lead the first day with a par 72 and increased the margin every round.

Most of the pros left today for the 54-hole Peach Blossom-Betsy Rawls open starting Friday at Spartanburg, established in honor of that city's golfing daughter.

Miss Berg's 294 total was four strokes under the tournament record set by Babe Zaharias of Tampa, Fla., in 1950. Her victory, fresh on the heels of her triumph in the Jacksonville Open, was worth $1,000.

Jaguars Win Honors In Sport Car Races

AUSTIN (AP)—A modified Jaguar XK-120 sport roadster driven by Col. George Koehne of Carswell Air Force Base flashed to top honors yesterday at the Monte Carlo Road Rally at Bergstrom Air Force Base here.

Vaughn Woodard of Fort Worth was second and Frank McKinney of Dallas third, both driving standard Jaguar sport roadsters.

The meet attracted 61 foreign made sport cars entries.

Mr. and Mrs. Bill Pettus of Claremore, Okla., have been guests in the home of Mr. and Mrs. W. H. Gray. 412 Thirtieth Street.

Favorites For SW Conference

(By The Associated Press)

Baylor and Texas play Tuesday in what might be a preview of the Southwest Conference Baseball Championship race.

Texas is defending champion and will be opening the season. Baylor is considered the chief contender. The Bears already have played five games, winning four of them.

The Longhorns and Bears get together at Waco in a nonconference game but it will be watched with great interest.

Baylor won three games last week, beating the University of Houston twice—4-3 and 11-6—and licking Texas Christian 7-4. Meanwhile, Southern Methodist was losing its first game of the season—a 12-0 strapping from Brooke Army Medical Center.

Southern Methodist opens a two-game series with Sam Houston State of the Lone Star Conference at Huntsville Monday. Texas Christian, winless in three games, plays Carswell Air Force Base at Fort Worth Tuesday.

Friday Texas Christian opens a two-game series with Sam Houston State at Huntsville. Saturday Baylor and Texas play at Austin and Rice opens the season against Port Arthur of the Gulf Coast League at Port Arthur.

Texas A&M tried to open the season last week but couldn't make it. Two games with Brooke Army Medical Center were cancelled because of rain.

Track Records Are In Danger

DALLAS (AP)—Five records appeared in danger from 17 teams that have entered the Fifth Annual North Texas Relays here Saturday.

Tom Kelly of Sunset (Dallas) and Bob Roark of Arlington Heights (Fort Worth) have cleared 6 feet this season in the high jump and seem certain to break the 5-foot 11 inch record mark.

Ronnie White of Arlington should top the broad jump record of 21 feet 3 inches. Jerry Polen of North Dallas has bettered the record of 11 feet 4 inches in the pole vault.

Woodrow Wilson (Dallas) is given a strong chance of beating the mile relay record of 3:34 and lowering the medley relay mark of 3:45.5.

Sunset and Woodrow Wilson are expected to be leading contenders for the team title.

Teams entered to date are Gainesville, Arlington Heights, Garland, Irving, Mount Calm, Highland Park, Wilmer-Hutchins, Chico, North Dallas, Adamson (Dallas), Forest (Dallas), Sunset, Terrell, Woodrow Wilson, Crozier Tech (Dallas), South Oak Cliff and Hillcrest.

Cards Sign Youth To Farm Team In Houston

HOUSTON (AP)—The St. Louis Cardinals signed Leon Akers, 23-year-old shortstop to a contract with the Winson-Salem, N. C., club yesterday.

Akers, a native of Yakima, Wash, has been working at Orange and played yesterday in the Houston Buffs intra-squad game. He played for the University of Washington before Army service.

Dallas Wins Exhibition

GALVESTON (AP)—A last inning score gave the Dallas Eagles a 5-4 win and their second straight victory over the Oklahoma City Indians in a Texas League exhibition baseball game here yesterday.

Russ Burns, Oklahoma City slugger, homered in the eighth to break a 3-3 tie. A crowd of 1,814 saw the game.

Mrs. Donnie Chorn, Mrs. Thelma Clark and Miss Mantha Landfried have returned from Dallas where they attended the Texas All-State Beauty Show sponsored by the Texas Association of Accredited Culturists. Mrs. Chorn is president of the local unit and Miss Landfried is a director.

Stoneham Not Sure How He Is Going To Vote On New Changes

By GAYLE TALBOT

LOS ANGELES (AP) — President Horace Stoneham of the New York Giants hoped to start beating his way eastward by easy stages today toward the meeting scheduled in St. Petersburg Wednesday to ratify the transfer of the Boston Braves to Milwaukee.

It might be a close thing, as the best plane flights are jammed for days ahead, and it appeared that the Giants prexy might have to be routed by way of Ashtabulla, with frequent stopovers en route. He wasn't too happy about either the travel situation or the jam he feels baseball has gotten itself into.

"I'll probably be so mad by the time I get to St. Pete that I'll vote against the change," he said half seriously.

Like all the other baseball people out here in the open spaces, Stoneham has felt very remote from the main scene ever since the jolting news came three days ago that the two major leagues were about to turn themselves inside out.

Stoneham, supposedly one of the game's inner council, had been tipped off by owner P. K. Wrigley of the Chicago Cubs that the Braves deal might go through, but he was struck more or less speechless for a time at the proposed transfer of the St. Louis Browns to Baltimore.

"I can't understand that one," he finally said. "What the American League does is none of my business, but I never have considered Baltimore a good sports town outside horse racing. They never really supported baseball, even when they had those great International League teams.

What really has the Giants head worried as he heads for Florida is the playing schedule in his league. He can't see how in the world, with five clubs in the West and three in the East under the proposed new set up, the National League is going to operate.

"It took 16 or 18 years of steady work and experimentation to arrive at our present schedule format," he said. "In recent years every time we needed to make even a few minor changes it was necessary for a committee to get together and work for days on it.

"The playing season is almost upon us now. If the change goes through, as I suppose it will, how could a club based in Milwaukee operate under a schedule drawn up for Boston? It would find itself playing a game in Milwaukee when it was due at the Polo Grounds the next afternoon. That would be a little awkward.

"If, on the other hand, we attempt to draw up a completely new schedule to take care of the 5-3 East-West alignment we'll wind up with the worst mess on our hands you ever saw. I just don't see how it can be done in the time we will have.

"However, I don't think there can be any turning back now that the story has broken. The Braves couldn't stay in Boston for another season or the Browns in St. Louis with the fans knowing what they do. They might as well close their parks for all the business they would do."

Investment Paying Off For Houston Buffs

HOUSTON (AP)—Harry Elliott, a $30,000 investment, began paying dividends for the Houston Buffs yesterday when he homered with the bases loaded in an intra-squad game.

A crowd of 5,000 saw the outfielder purchased from Shreveport crack out two singles to finish with five runs batted in.

The Hawns won 15-5 over the Mars.

Bill McGhee, 23-year-old rookie outfielder, also homered and had two hits in four trips. McGhee hit .377 in Class D ball last year.

The Buff Stadium fences, shortened 20 feet during the winter, were an inviting target for the sluggers.

BOYLE'S COLUMN

Income To Give Country' No 'Regrets Of Only One

By HAL BOYLE

NEW YORK (AP) — Millions of Americans today are locked in a tortured grapple with a federal income tax blank, trying to get it in the mail before the deadline.

It is a time of tense anxiety. They are torn between honesty, fear of family insolvency and a strong unwillingness to support the government in the style to which it has become accustomed.

Often people in moments of great emotion make great utterances. They say things like, "Don't give up the ship," or "Hell, boys, do you want to live forever?"

But nobody ever said, "I regret I have but one income to give for my country."

The chances are at least 100 million to 1 against anybody saying anything memorable about taxes between now and tonight at midnight. Somehow tax payment time takes the cleverness out of even our greatest literary figures. They either are struck dumb—or say things that are unquotable.

An exception was James Otis, who in 1761 cried:

"Taxation without representation is tyranny."

This got a lot of applause at the time. But the net result was we got representation. And Mr. Otis, if he were alive today, might regretfully have to recast his historic remark as follows:

"Taxation with representation is no guarantee against personal bankruptcy either."

Probably the only other famous saying about taxes that the average man remembers now was made by Benjamin Franklin, who wrote a French friend in 1789:

"Mais dans ce monde, il n'y a rien d'assure que la mort et les impots."

As this kind of talk is hard to understand on a crowded bus, most of us translate it:

"But in this world, nothing is certain but death and taxes."

TELEVISION ANTENNA HERE

The 70-foot television antenna above, at the home of Mr. and Mrs. J. D. Boyd on Thirty-seventh Street in Towle Place, is one of many jutting into the sky around Snyder now. It, like many of the others, was installed by M & M Radio Electric, which will move this week to a new location in Town & Country Home Furnishing store on the Lamesa Highway in West Snyder. Boyd said reception is good most of the time. (Lee Watson Photograph)

Dust Damages Appliances Here At Higher Than Normal Rate

"Factory recommendations that appliances should only be greased once each 10 years, or once in a lifetime, do not work in this part of West Texas, because of the dust and sand in the air," Milton M. Mapes, owner of M & M Radio-Electric, which will move to a new location in Town & Country Home Furnishings on the Lamesa Highway this week, said.

Mapes illustrated what he meant by saying that vacuum cleaners, and other electric appliances which are factory greased to last for a long time without added attention, by displaying a hand full of worn bearings taken from a vacuum cleaner that was less than one year old.

"In places where the atmosphere is damper and there isn't so much dust the vacuum cleaner could have gone ungreased for the recommended length of time, but in Snyder its bearings wore out and had to be replaced in only a short while," Mapes said.

The M & M Radio-Electric will have a modern, fully equipped workshop in Town & Country and will continue to service all electrical appliances including radio and television sets.

Before coming to Snyder one year ago, Mapes had been in the television service field for three and one-half years. During that time he sold and serviced more than 100 television sets, and installed more than 275 television antennas. He also serviced hundreds of television sets for persons who had purchased them somewhere else.

"When we get set up at Town & Country, we will keep a 'loaner' TV set on hand so that a TV customer may have his set serviced while using our set," Mapes stated.

Mapes firm will continue to offer service on all kinds of electric appliances. It carries a complete line of replacement parts for all kinds of irons, coffee makers, toasters, vacuum cleaners, and the larger appliances as well as for radio and TV.

A word of advice Mapes has for prospective television purchasers is, "be sure to get a good antenna and see that it is properly installed if you expect good reception in this fringe area."

"A good antenna is more important than having the best TV set available," he said.

Sgt. and Mrs. Teddy Wallen of Sulphur Springs were week - end guests of their daughter, Mrs. Billy Lavender, and Mr. Lavender, 125 Milburn.

Five Scurry County Men Due Induction

Five Scurry County men are included in a list of 20 men from Scurry, Nolan, and Fisher Counties to be inducted into the Armed Forces April 9.

Two of the men are from Snyder. They are James Erwin Westbrook of 3106 Avenue K and Norman Hull Inman of 2705 Avenue W.

The other three men, from Hermleigh, are William Lee Adams, Billy Ray McDougold, and Jacob Douglas Boatenhamer.

Doctors Say Hopeless Cases Should Be Told

LOS ANGELES (AP)—When a doctor discovers that a patient is fatally ill, should he tell him?

Yes, says Dr. Philip J. Vogel, even if the patient is neurotic—a chronic worrier.

"If you don't tell him," Vogel added, "he will develop an anxiety which is worse than the fear of death."

The present trend, Vogel said, is away from the policy of hiding the grim facts from victims of hopeless ailments. In nearly every case, he said, they will suspect that something is being withheld from them. As this suspicion grows, they will lose faith in the doctor and in all those around them who have been aiding the deception.

Vogel, a Pasadena, Calif., neurologist, appeared yesterday on a panel discussing hopeless prognosis at the alumni convention of the College of Medical Evangelists. He is head of the college's department of neurosurgery.

Complete candor does not necessarily require bluntness, he conceded, and patients can be told the truth in a kindly way which minimizes the shock and leaves them with some measure of hope.

"Oddly enough, most patients so advised do not stop fighting," he said. "Even neurotics have been known to lose their neuroses completely upon learning that they are going to die."

"There is an ethical as well as a medical reason for the truth," Vogel added. "A person fatally ill has the right to put his affairs in order and to adjust the rest of his life to his own liking. The average physician has found that the most difficult task in such cases is not handling the patient but handling the relatives. Relatives are inclined to insist that the truth be withheld."

The only cases wherein withholding the truth is justified are those of children, very old persons and persons mentally incapable of comprehending, he said.

Father Watches While Five Children Burn To Death In Fire

MEADVILLE, Pa. (AP)—Unable to find a ladder, a father of nine watched helplessly as five of his children, trapped in an upstairs bedroom in their flaming home, burned to death.

Four other children and the wife of Donald McElhaney fled to safety through second-floor windows.

McElhaney awoke at 4 a. m. yesterday and smelled smoke. He jumped through a window to the ground. Unable to find a ladder he yelled to awaken his family.

His wife, nightclothes aflame, appeared at a window. She collapsed and dropped 10 feet to the ground. Shortly afterward the dwelling exploded in flames. She is in critical condition at Titusville Hospital with extensive burns and shock.

Deputy Coroner C. M. Sonne identified the dead as Florence, 15; Barbara, 11; Maxine, 10; Gordon, 5; and Sylvia, 3.

Vandenburg 'Fed Up' Communist Actions

WASHINGTON (AP)—Gen. Hoyt S. Vandenberg said last night he is "fed up with our boys being used as clay pigeons" by Communist plane pilots in Europe.

"I'm worried about it," said Vandenberg, the Air Force chief of staff, in speaking of the situation which saw two planes, one U. S. and one British, shot down by the Reds in Germany last week.

He said in talking with newsmen on his return from an inspection trip to Europe and Africa, that he could not comment further.

Vandenberg said U. S. pilots in the American zone of Germany must fly near the borders of Communist East Germany and Czechoslovakia "to see what is going on, but they stay well within our own lines."

Indians Move To Cities To Better Jobs

CHICAGO, March 14 (AP)—American Indians are taking city jobs.

Their quest for better wages and living standards is prompted by the Federal Bureau of Indian Affairs and economic necessity. They are leaving the reservations in a voluntary Indian relocation project started a year ago.

Kurt Dreifuss, director of the Midwest field placement office, says 250 wage-earning Indians between 21 and 40 years old moved to Chicago last year. They brought along an equal number of dependents.

What's more, employers welcomed them with open arms. Indians found jobs as machinists, stenographers, hospital aids, shipping clerks, welders, warehouse workers and construction laborers.

Chippewas and Sioux lead the list of relocatees from 20 tribes on reservations throughout the U. S. Most applicants came from Oklahoma, Arizona, Michigan, Wisconsin, Minnesota and the Dakotas.

Nathaniel Lewis, 32, a Cherokee from Stillwell, Okla., came to Chicago and got a white collar job the same day he arrived. He served in the U. S. Air Force from 1942 to 1946 as a cryptographer (code expert).

As a willing relocatee, Lewis' hunt for a job was made easier by the Indian bureau, which set up its first field placement office here a year ago. There are others now in Salt Lake City, Los Angeles and Denver.

The relocation of American Indians to industrial centers is part of a new effort to give them a fair break to earn a living.

Most of the 400,000 Indians on reservations are hard up, Dreifuss said. Indians who work at seasonal jobs—farms, resorts, hotels, railroads—receive workmen's compensation and public assistance during idle periods but there is little opportunity for permanent year-round work on or near reservations.

Mr. and Mrs. Seamon Hedgpeth of Crane have been guests of Mr. and Mrs. H. R. Murray, El Paso Camp.

Von Roeder Production Will Be Entirely Stormproof Seed

Since 1923 Von Roeder Seed Farms have been breeding cotton seed in West Texas and have developed a highly popular Western Prolific cotton. Now the breeders have come up with a new line of cotton seed especially bred for the climate as well as growing conditions in West Texas.

It is Western Stormproof cotton, which retains the high per-acre yields, high lint percentage, and good cleaning properties of Western Profilic but has the added advantages of being better adapted for mechanical harvesting. This cotton will not be damaged by rain or windy weather in the field like most breeds of cotton, Bentley Baize, manager of the farms, said.

In a brief history of the Von Roeder cottons, Baize said that they started in 1923 and first developed a long-fibered, easily picked cotton that was extremely popular in West Texas before the advent of mechanical cotton pullers. But that type cotton was discontinued in 1942 in favor of a shorter staple cotton which was better adapted to snapping when picking went out of the gathering picture in West Texas.

The then new cotton was Western Prolific, which at once became extremely popular because of its early maturity, high yield, high lint percentage, and good cleaning properties, Baize stated.

"But it didn't entirely fit the needs when mechanical snapping or stripping came along," he added.

"Realizing ten years ago that there would be a demand for a more stormproof cotton that would better withstand the ravages of bad weather during times of labor shortages and also be better adapted for mechanical harvesting, we crossed our Western Prolific with Macha cotton in 1942, and from this cross we have developed our Western Stormproof cotton," he said.

"Since we have been unable to produce enough seed to supply the demand for Western Stormproof, and since we believe it is the better cotton, we have decided to devote all our acreage to it and discontinue production of Western Prolific," he said.

Baize said that although the last two years have produced only small cotton yields over much of the state because of the drought, they have enough Western Stormproof cottonseed to supply the demand they now forsee.

"We sell all kinds of planting seeds, and the only actual shortage we can see will be for Sudan seed, which may become very scarce later this Spring," he said.

U. S. Drivers Dangerous On Mexican Roads

MEXICO CITY (AP)—A Mexican taxi driver says he avoids American drivers. You never know what they'll do, because most of them can't read the Mexican highway or street signs.

"An American driver who can't read Spanish traffic signs is just as dangerous as someone who can't read at all," says the taxi driver.

U. S. traffic experts will tell you he has a good point. An illiterate motorist who doesn't know what "stop" and "danger" mean can get into a lot of trouble.

Tens of thousands of American tourists will visit Mexico this spring and summer, most of them by automobile. For these tourists, here's an A-B-C on the more important traffic signs they'll see:

"Alto" means "stop" and it's usually a good idea to do just that when the sign says so.

"Peligro" means "danger," and is generally seen near road construction work, or a bad spot on the highway.

"Poblado proximo" is a warning that a town is near.

"Escuela" means "school" and don't get the idea that school isn't in session just because it's summer. Most Mexican schools take their long holidays in November, December and January.

"Curva" means "curve" and "codo' means "sharp turn.' Incidentally, "despacio" means "slow." "Camino sinuoso" is "winding road" and is a sign you'll see often between Tamazunchale and Mexico City, where the highways are cement pretzels.

Mr. and Mrs. Elton Roberts, and family, El Paso Camp, have returned from a visit with Mrs. Roberts' sister, near Odessa.

West Berlin Mayor Gives Opinion On Red Attacks On Planes

NEW YORK (AP) — West Berlin Mayor Ernst Reuter says Red attacks on British and American planes in Europe are part of a plan by the Communists "to show their presence."

"How far they will go, I do not know," he adds, "but I do not think they will go to war."

Reuter made the comment to newsmen as he arrived at Idlewild Airport yesterday for a two week speaking tour. He plans to see President Eisenhower and Secretary of States Dulles Friday.

The mayor later told a news conference he plans to urge Eisenhower to continue mutual security financial aid to German industry for the next three or four years. Such help reached 69 million dollars last year.

Roads and buildings have been banned in the Gila National Forest in Southwestern New Mexico.

MINIATURE COTTON GIN

A small cotton gin is shown above being used by Bentley Baize, manager of Von Roeder Seed Farms on the Lamesa Highway west of town. Baize said the machine is used in breeding blocks to give selective ginning to cotton from individual stalks or rows. It permits weighing of lint and seed, and measuring staple of the cotton from one stalk to help build better cotton seed, he said. (Lee Watson Photograph)

Korean Reds Picket U. S. Embassy In Japan

TOKYO (AP)—Korean leftists today briefly picketed Japanese government offices, the U. S. Embassy and two headquarters buildings of the American Army here.

A brisk rain scattered them shortly after noon.

The pickets carried signs calling for withdrawal of foreign troops from embattled Korea—a familiar Communist chant — and opposed sending "Japanese troops to Korea." No responsible Japanese official has ever suggested sending Japanese to Korea.

The pickets said they represented the National Unification League and were from all parts of Japan.

A group of 20 conferred with an American Embassy official but the embassy would not say what they talked about.

Guests in the home of Mr. and Mrs. Howard Gracey, 1107 Thirty-first Street, have been her sister, Mrs. J. L. Wadleigh, Mr. Wadleigh and children of Amarillo.

Moslems ban the use of pictures in religious decoration.
