Hoodlums Cause Bombings, Ike Declares

QUADS BORN TO 33-YEAR-OLD MOTHER—A feature attraction at Grace Hospital in Detroit, Mich., were these quadruplets born to Mrs. Julia Ullman, extreme right, wife of Chester H. Ullman, a carpenter living in suburban Clawson. Pictured behind the incubators from left: Dr. Jean Holdredge, hospital pediatrician; nurse Mrs. Mary Piescinski; Dr. William F. Stanley, who made the delivery; and Mrs. Ullman. The quads were born 32 days prematurely and weighed a total of 16 pounds, 14½ ounces. (AP Wirephoto)

Tunisia Breaks Diplomatic Ties With Nasser's Combo

TUNIS (AP)—The government of Tunisia today broke diplomatic relations with the United Arab Republic after a series of political battles between the two Arab countries.

The break was announced by Dr. Sadok Mokkadem, Tunisian secretary of state for foreign affairs. Tunisia has accused President Nasser of meddling in Tunisia's internal affairs.

The United Arab Republic ambassador in Tunis was informed of the break this morning, Mokkadem said.

The newly intensified feud between Nasser and pro-Western President Habib Bourguiba of Tunisia indicated a struggle for the allegiance of other North African Arabs and a continuing roadblock to Nasser's ambition to dominate the Arab world.

Morocco sought to patch up the quarrel.

The feud flared up Saturday when Tunisia broke up an Arab League meeting in Cairo by accusing some big Arab nations of trying to dominate the 10-nation group. Tunisian spokesmen later said they meant the U.A.R.

Tunisia's foreign minister, Dr. Sadok Mokkadem, told newsmen in Tunis there were two main reasons for the action in Cairo: interference by the U.A.R. in Tunisian internal affairs and U.A.R. support for a group of Tunisians hostile to Bourguiba's government, particularly Salah ben Youssef.

Mokkadem added that a diplomatic break with the U.A.R. "Is under study."

Tunisia accused the U.A.R. last March of aiding Youssef in a plot to assassinate Bourguiba. Youssef, an anti-Western extremist, was sentenced to death here and has been in exile in Cairo.

Bourguiba said March 6 that unless Nasser gave a "serious explanation" of the reported plot, "we no longer have any need of diplomatic relations with Egypt."

Nothing came of this, however, and Tunisia drew nearer the U.A.R. by joining the Arab League Oct. 1. The meeting in Cairo Saturday was to welcome Tunisia and Morocco as new members.

Tunisian delegate Habib al Shatty told the meeting his country had hesitated to join because "some delegations from big countries had been trying to impose domination on other delegations." The U.A.R. delegation angrily walked out and Tunisia also left.

Little Rock Case Decision Delayed

ST. LOUIS (AP)—A federal Appeals Court took under advisement today a request to permanently block the use of Little Rock High Schools as private, segregated institutions.

The three judges of the U.S. Eighth Circuit Court of Appeals gave no immediate indication when they would rule on the case.

Judge Joseph W. Woodrough ordered the clerk of the court to meantime extend the temporary restraining against leasing the Little Rock High School buildings to a private corporation.

Arguments took less than an hour before the court which only nine days ago extended the restraining order until the case could be argued on its merits.

A Negro attorney at the start of today's hearing attacked the Little Rock School Board's contention that it was neutral in the case.

Thurgood Marshall, general counsel for the National Assn. for the Advancement of Colored People, made the statement before judges of the Appeals Court.

Marshall charged that the School Board's motive in leasing Little Rock's four public high schools was to bring new parties into the case, exactly what the NAACP was trying to prevent.

Marshall added that the NAACP merely was asking the Appeals Court to see that the original federal court order integrating the Little Rock schools is carried out.

"The school board deliberately leased the building knowing we were going to appeal from a restraining order," the Negro attorney said.

Only Tuesday the school called the hearing a "summary proceeding" since some of the principal parties would be represented before the court.

Venezuelan Plane Lost

MARACAIBO, Venezuela (AP)—A Venezuelan airline Constellation with 17 passengers and 6 crewmen was presumed lost today on a flight here from Panama to Caracas.

The Maracaibo Airport control tower said the Linea Aeropostal Venezolana plane had radioed to the tower Tuesday night. Later bad weather closed in, and lack of radio contact raised fears here.

Efforts to locate the plane Tuesday night were fruitless. The airline, a government-operated concern, began search operations again this morning.

Included among the passengers are a group of Cuban showgirls known as "The Platinum Blonde Ballet."

Dreary Weather Spell Still Prevails Here

Fog, mist and drizzle still prevailed over the Snyder area today, the Weather Bureau forecasts held little hope for an early break in the weather.

A total of .16 of an inch of moisture had been measured by David Strayhorn on the official gauge here during the 24 hour period ending at 7:30 a.m. This brought the total precipitation for a four-day period to 1.14 inches.

1,000 Ducats Left To Midland Game

About 1,000 tickets to the Tiger-Midland game here Friday remained to be sold as of noon today, the school business office reported.

Tickets may be obtained at the Chamber of Commerce office up to 3:00 p.m. today and from 8:30 a.m. to 3:00 p.m. tomorrow.

There are a scattering of tickets left for the West Side in sections 7 and 12 and one section on the East Side.

Tickets are $1.50.

Dulles Given Backing On China Policy

WASHINGTON (AP)—President Eisenhower today backed up Secretary of State Dulles in saying the United States would not compel Nationalist China to cut its forces on Quemoy and Matsu Islands.

The President, however, did not bar the use of every possible persuasion by this country—on whose supplies Nationalist China is dependent—to get the garrisons reduced.

Dulles told a news conference Tuesday the United States wants President Chiang Kai-shek to thin out his off-shore island garrisons as a military matter and not as a device for trying to bargain with the Chinese Communists on a Formosa settlement. The Reds won't bargain on that issue, Dulles said.

Eisenhower made it clear in response to several questions today that he had resolved before meeting reporters to say as little as possible about the whole Formosa problem. He and Dulles apparently had agreed that it was much too delicate to risk upsetting Chiang or the Nationalist Government or complicating efforts to get the Red Chinese to continue indefinitely their Quemoy cease fire.

Eisenhower was asked what he thought about suggestions that a popular vote be taken on Quemoy and Matsu to determine whether the people would rather stay with Nationalist China or join the Reds. He said he did not want to comment but he did not see much use in that idea.

He declared on another question that he had not received any indication from Chiang that the Nationalist chief would be willing to cut his Quemoy garrison in return for more modern and numerous weapons.

Auto Theft Count Filed

A charge of automobile theft was filed today against Everett Scott Dodson by city police following his arrest here last night.

Dodson was one of six men arrested last night in south Snyder after two cars became stuck in mud in the construction area on the Big Spring highway.

One car became stuck in mud in front of the D & H Super Market on the Big Spring highway, and five men were arrested by city police officers on charges of intoxication in an automobile at about 10:30 o'clock. Later Dodson was arrested when another car he was in became stuck near the same spot.

The car was a 1957 Chevrolet owned by Sun Oil Co.

M. M. Dyer, superintendent for Sun Oil Co., signed the complaint against Dodson this morning, and Dodson was arraigned this morning in justice court, and his bond was set at $1000 by W. C. Davidson, justice of peace.

Pilot Lands 'Dead' Plane

MEXICO CITY (AP)—A plane carrying 30 persons, fell 10,000 feet in 81 seconds yesterday when two engines went dead during a storm, but the pilot made a safe emergency landing at Tampico.

The quest Aerovias Mexico Airlines' Constellation was on a regular flight from here to Miami.

Capt. Eduardo Iglesias, the pilot, said in Tampico that they ran into a sudden storm at around 20,000 feet and that lightning killed two of the four engines. Another was damaged.

He managed to halt the swift descent and land with the 25 frightened passengers and crew.

Absentee Voting Period Launched

Absentee voting started today for the Nov. 4 general election and will close Oct. 31.

Dan Cotton, county clerk, said applications for absentee voting and ballots are available at his office.

A person who is ill or planning to be out of town on the day of the election may vote absentee, but he must first make application.

FOOTBALL TAKES SOME CRAZY BOUNCES AGAIN

The football took some crazy bounces last weekend, and when the smoke cleared no less than six entries were in a deadlock for the week's prize money in The Daily News grid picking contest.

The six top pickers turned in entry sheets with eight misses each. They included W. M. Suttle, 1807 Thirty-ninth Street; J. C. Bullard, 505 Thirty-second Street; James Hazle, 410 Thirtieth Street; Eldon W. Thompson, 2609 Thirty-sixth Street; Corrine Luther, 2206 Fortieth Street, and Sherwood Edwards, 609 Thirtieth Street. Actually, they had seven outright misses apiece and one tie, the Big Spring-Lamesa game, which for all practical purposes counts as a miss.

The entries last week may have provided a tip for contestants to consider in the future. If you're going to enter, you might pick a full slate, then tear it up and pick one exactly the opposite all the way down the line, because there were entries which missed as many as 21 selections last week.

The six winners will share $15, which amounts to $2.50 each, since the second place money from the previous week was carried over and added to this week's total.

Another contest begins today, and the list of games may be found in sponsors' advertisements in this issue of The Daily News.

MISS WORLD OF 1958—Penelope Anne Coelen, 18-year-old secretary from Durban, South Africa, plays the piano at London's Lyceum ballroom during a break in Miss World 1958 competition. She won and was crowned Miss World of 1958. She is 5 feet, 7½ inches tall, has hazel eyes and honey blonde hair and the rest goes 35-23-36 (AP Wirephoto)

Public Gets A Look At Space Rocket

LOS ANGELES (AP) — A rocket ship designed to carry man to outer space and back will be rolled out for public view today.

Vice President Nixon and a shiny array of governmental brass will be on hand for the ceremony, the first public debut ever staged for an experimental plane.

The new supership, the X15, is expected to make its maiden flight in January. Soon thereafter it will begin streaking through the sky—a stainless steel needle with its tail on fire—on test hops at speeds that may range up to 4,500 miles an hour.

One day, if all goes well, the X15 will blast up to its maximum altitude, estimated at 400 miles above earth, and man will have reached the threshold of the stars.

There, in the satellite zone, the pilot will push his ship's nose over and try to get back to earth—alive.

School Building Progress Report Is Made To Board

A report on progress in the school building program was made to the Snyder school board at its regular meeting last night by William A. Turner, representative here for Buford & Associates of Dallas, architects and engineers on the projects.

Turner said that Kelley Construction Co., which has the contract to build the new junior high school in west Snyder, has moved onto the site and is making preparation for dirt work there. The new school, which will cost close to $1 million, will take about a year to build.

At the new Stanfield Elementary School, Alston Construction Co. is ready to start roof deck but has been held up because of bad weather. Bad weather has also hindered the company in putting up structural steel on one of the wings, since a rig cannot be moved in during the damp weather.

The field house at the junior high practice field, which will become a playing field, is as far as it can go until metal bucks and windows arrive, Turner said. A. P. Kasch & Sons is the contracting firm working on that project, as well as one to improve the present junior high building. Steel arrived yesterday to be used in the addition to that school.

During the discussion about construction work, the board instructed Doug Flynn, director of business services, to learn the progress made by the city toward building streets around the new junior high site.

Still planned in the school building program is an addition to the school administration building, refurbishing of the gymnasium at the present junior high, and providing seats and lights at the junior high football field.

Plans are now in the making by school staff members and Fred Buford, architect, to be presented to the board on the gymnasium improvement.

The board discussed a water problem at the North Elementary School and voted to contact the city to secure a firm commitment on cost of running a line to that school for city water. The school is now served by water well. T. E. McCollum, superintendent, reported to the board that the water system has caused considerable trouble at that school this fall, and on at least two occasions the school has been without water practically all day. To get city water at the school, the school will have to pay for about 4,000 feet of line from present city water facilities to the building.

The school sick leave policy was revised slightly by the board. The policy, adopted last spring, provided for a teacher to be absent from school because of the critical illness or death of a member of the immediate family. The list of those in the immediate family was revised to include son-in-law, daughter-in-law, and grandparents. It already provided for husband, wife, child, father, mother, sister, brother, father-in-law, mother-in-law, or grandchild.

The board also made provision in the sick leave policy for the absence of teachers at the critical illness or death of relatives other than those listed as part of the immediate family. In this type absence, a teacher can be absent but must pay $10 a day for a substitute. A provision was also made that teachers can take off as much as two days a year for business reasons by paying $10 a day for a substitute. Absences for reasons other than those for which the sick leave policy provide mean deduction of a full day's pay from the teacher's salary.

The board is to meet again at noon Friday to discuss brick to be used in the new junior high building.

Stengel Gets 2-Year Pact

NEW YORK (AP)—Casey Stengel today signed a new two year contract to manage the world champion New York Yankees through 1960.

No salary figures were announced but it was believed the 68-year-old Stengel would receive in the neighborhood of between $75,000 and 80,000 for each of the next two years. His salary was believed to have called for $70,000 in each of the last two seasons.

Mild, Damp Weather Due Next Five Days

DALLAS (AP)— The Weather Bureau issued today this 5-day outlook for Oct. 15-20:

West Texas: Temperatures 3 to 6 degrees above normal. Only minor daily changes.

Hits Foreign Policy Issue

WASHINGTON (AP)—President Eisenhower today angrily characterized those responsible for bombings of places of worship as hoodlums of the Al Capone and Babyface Nelson type.

At a news conference the President spoke out vigorously against the dynamiting of Jewish temples in Atlanta, Ga., and Peoria, Ill.

He did so after a reporter told him that some of those responsible apparently have been privately identifying themselves as members of a "Confederate underground."

Addressing himself to that description, Eisenhower said that from babyhood he has been taught to respect the Southern Confederacy of Civil War days.

Then he said that for hoodlums to describe themselves as any part of the Confederacy is a complete insult.

They should be described, he added angrily, as Al Capones and Babyface Nelsons, and that kind of hoodlum.

Eisenhower also dealt with these other matters:

FOREIGN POLICY — He said emphatically that foreign policy ought to be kept out of partisan debate in the current congressional campaign.

Then he said that another man who has borne the responsibility of the presidency—A clear allusion to Harry S. Truman — also has taken the position that foreign policy should be left out of partisan politics.

Eisenhower made his remarks when a newsman asked whether he subscribes to Vice President Nixon's campaign statement, made in reply to Democratic criticism, that "the Acheson foreign policy resulted in war and the Eisenhower-Dulles policy resulted in peace."

Eisenhower said he had not heard that quotation before. Then he added, without any direct comment on the Nixon statement, that he does subscribe to the idea that foreign policy should be kept out of partisan debate.

He said further that the country's long term interests are better served if that sort of thing is not indulged in.

On a related matter dealing with this country's position regarding defense of Quemoy, Eisenhower said he does not decry any intelligent criticism of any particular point. But when it comes to policy, he said, that has been standing on its own feet for a long time.

POLITICS—Eisenhower backed away from an Oct. 6 statement by Republican leaders saying the clear alternative to election of a Republican-controlled Congress is nationalization and socialization of American industry under the Democrats.

Asked whether he subscribed to that statement, Eisenhower replied he had read the full statement before it was made public and does not remember that exact language.

The President said his recollection is that the statement said the country could be led to the left and such a course could lead eventually to socialism.

Eisenhower added crisply that in any event the statement about nationalization and socialization of industry was not his. With a trace of a smile, he said politicians do like to make things positive.

CAMPAIGN TRIP—As for the six-day campaign tour to the Midwest and Pacific Coast he will start Friday, Eisenhower said the itinerary has been arranged so that he can, through regional television and radio, reach the greatest number of people possible in those areas. He made that statement when asked why he is going into such states as Iowa, Kansas, Colorado and Illinois where there are no U.S. Senate races, and is passing up Minnesota and Wisconsin where there are such races.

Rio Grande Rise Continues

By B. F. KELLUM

BROWNSVILLE, Tex. (AP) — The swollen Rio Grande, ignoring a canal dug in a desperate effort to drain some of its floodwaters, continued to lap higher at the levees here today.

Men and machines worked 16 hours to dig a canal from the main floodway system to the river near Mission, hoping to drain water threatening this extreme South Texas city and its sister community of Matamoros, Mexico.

The high waters were already spreading much misery in Mexico.

But an International Boundary and Water Commission spokesman said the heavy rains forced the crews to abandon the job and only a trickle of water flowed in from the river.

"The river is just too low at the spot and it will have to rise a foot or so to get into the floodway," he said.

He added he did not know just what effect this would have on this area where the river, already near flood stage, is expected to continue rising.

The river is at flood stage almost all the way from Falcon Reservoir to the Gulf because of heavy releases from the giant reservoir. The reservoir's flood pool was filled by high water coming downstream and the releases were made to make room for more.

Hard rains and high water have plagued the wandering border river for hundreds of miles upstream all fall.

Heavy rains in Mexico have pumped more water into the Rio Grande below Falcon Dam. That water, along with releases from Falcon, could put the river over the 20 foot mark here, considered the danger level.

The river started a slow fall yesterday at all points above Falcon.

But the Rio San Juan in Mexico continued today to pour water into the Rio Grande at Rio Grande City. The river was expected to go over the flood stage of 21 feet there today. Mercedes, also with a 21-foot flood stage, expected 22 feet.

Police at Rio Grande City said the entire population, estimated at 500 to 600, was evacuated from the Mexican border town of Camargo yesterday because of the overflowing Rio San Juan. The police spokesman said he understood streets were flooded there and said he believed most of the occupants were taken to El Comares, a village about 10 miles east.

Several hundred persons, including women and children, were forced from their homes in Reynosa, Mexico, because their small houses had to be torn down to build a levee to hold off rising waters in a canal in the western part of town.

R. E. Chastain, a McAllen, Tex., contractor, said about 150 homes were torn down. He said the water in the canal was backing up from the swollen Rio Grande.

Rain and drizzle continued over much of the lower valley during most of the night.

McAllen had 1.45 inches and Edinburg 1.15 yesterday afternoon.

Heavy clouds covered most of Texas yesterday with light rains reported at San Angelo, Junction, Midland, Abilene, Fort Worth, Dallas, Amarillo, Wichita Falls, Beeville, Brownsville, El Paso, Laredo, Lubbock, Midland, Van Horn, Mineral Wells, Junction, Del Rio, Big Spring and Sherman.

Highs yesterday ranged from 59 degrees at Midland to 86 at Palacios and Kingsville.

More light rain, drizzle and heavy fog blanketed West and Southwest Texas today.

Predawn temperatures today varied from 46 at Dalhart, the only clear spot in the state, to 74 at Brownsville.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 70 degrees; low, 55 degrees; reading at 7:30 a.m. today, 55 degrees; precipitation, .16.

East and North Central Texas: Mostly cloudy through Thursday with a few showers. Not much change in temperatures.

South Central Texas: Mostly cloudy through Thursday with scattered showers. Not much change in temperatures.

West Texas: Cloudy to partly cloudy through Thursday, scattered showers mainly Pecos Valley eastward this afternoon and tonight. Not much change in temperatures.

Bombing Evidence Is Sifted By FBI

WASHINGTON (AP)—The FBI, engaged in an all-out effort to help local authorities solve three recent hate bombings, was reported today to be working on possibly important evidence from one.

It involves the Oct. 5 dynamiting of the integrated high school at Clinton, Tenn.

Officials, as usual, declined to discuss the matter, but it was learned the evidence is being processed in the FBI laboratories here for Clinton police. Its nature remains undisclosed.

Meanwhile, the Police Department at Atlanta, Ga., was reported to be sending here, for FBI laboratory analysis, the evidence they and FBI agents were able to gather up after last Sunday's bomb-wrecking of the Hebrew Benevolent Congregation's temple there.

A substantial force of outside FBI agents are on the scene at Peoria, Ill., where a crudely made bomb early Tuesday damaged Temple Anshai-Emeth.

Director J. Edgar Hoover has ordered that nothing be spared in the way of cooperation with local authorities, even though no violation of federal law is indicated thus far. He has direct d the most vigorous hunt for evidence of any such violation.

The director is making frequent reports on these investigations to the White House, at President Eisenhower's request.

Atty. Gen. Rogers said several weeks ago that about 40 unsolved bombings of Jewish and Negro centers, principally in the South, had been investigated by the FBI during the last three or four years. He said none developed any grounds on which the federal government could take over.

In these circumstances, he said, the primary responsibility for arrests and prosecutions fell on local authorities, but that the FBI stood ready to offer every kind of assistance possible including use of its elaborate laboratories and large staff of technical experts.

1959 PLYMOUTHS ON DISPLAY—Pictured above is the Belvedere four-door model of the 1959 Plymouth which will go on display here at Pollard Motor Co., 2101 Twenty-fifth Street. Shown looking at the car are Marcene Holt, left, sales manager for the firm, and T. W. Pollard, owner. The new Plymouth features restyling of the interior, dash, grills and a complete revamping of the tail fins and rear end. (Lee Watson photograph)

'Unknown' Gets Role In Brando's Movie

HOLLYWOOD (AP) — A little known Mexican actress, Pina Pellicer, has won the coveted leading role opposite Marlon Brando in his next picture.

Miss Pellicer, a tawny-eyed brunette, is 22, unmarried and speaks hesitant English.

Pat Ward Is Trying For Divorce Again

MIAMI (AP)—Pat Ward, key witness in the Mickey Jelke vice trial in New York five years ago, is suing for divorce from Dr. Julian Savarese, operator of an osteopathic clinic here. She alleges he bullwhipped and beat her.

A hearing was ordered for Friday on her third divorce suit in two months.

The first two were dismissed after the former Miss Ward reported reconciliations with the wealthy Savarese.

In her latest action, Mrs. Savarese contended that although her husband lavished thousands of dollars worth of gifts on her, he beat her with his fists, with a bullwhip and with a marble ash tray wrapped in a turkish towel.

She married Savarese in Mexico last Nov. 11 after he took her to a bank and gave her a box containing $22,000 in cash, the suit said.

After a free-spending honeymoon in Mexico, the beatings began, she alleged.

She also accused Sevarese in the suit of forcing her to drink whisky and writing a letter falsely admitting alleged infidelities.

Suspects In Kidnap Held

TEXARKANA, Tex. (AP)—Officers captured last night two men believed wanted in a kidnaping episode which they enlivened by a little William Tell act.

Miller County Sheriff Rudy Burgess said an Irwin, Tex., man, 21, and a Mt. Pleasant, Tex., man, 33, are being held for possession of concealed weapons.

Burgess said the two were arrested under the Red River Bridge at Index, Ark., last night after their description was circulated by authorities in Paris, Tex.

Earlier, two gunmen abducted Burnett Cravens at his Arthur City, Tex., filling station, hauled him 30 miles to near DePort, Tex., tied him to a tree and debated his fate.

While debating, they took turns shooting empty beer cans off each other's head. After the men left, Cravens worked loose and called police. He said they got $35 to $50 in the holdup.

ADMISSIONS — Ola B. Riggins, 1411½ Avenue T; Evelyn McGinnis, 2412 Twenty-ninth Street; Viola Breland, 3010 Avenue E; Walter Cox, Stephenville; Margie Anderson, 513 Thirty-fifth Street; Cora Payne, 2707 Avenue O; Ruby Tillery, 2802 Avenue C; Everlee Calvert, 2901 Avenue J; Nelda Colclazer, Route 3, Box 286.

DISMISSALS — Mrs. Denzil Kight and baby, Avenue H and Thirtieth Street; Mrs. Phil Isley and baby, 3212 Avenue U; Shirley Munden, 409 Twentieth Street; Fannie Dishroon, Gen. Del.; Maggie Wilson, Snyder.

The first known white man to visit South Bend, Ind., (where the University of Notre Dame is located) was Father James Marquette in 1675.

Many Names Considered At Conclave

ROME (AP) — "Nineteen years ago," said Bonaventura Gammarelli, "everybody knew who would be coming out of the conclave as the new pontiff. But now, things are different.

"In 1939, it just had to be either Cardinal Pacelli (chosen Pope Pius XII) or Cardinal Maglione, and I tailored the pontificial robes according to their measurements. Today, there are many names."

The papal robes must be ready for their new wearer soon after his election. But Gammarelli, official purveyor to the apostolic seat, seemed hardly worried.

"I am preparing three sizes," he explained. "One ought to fit the new pontiff."

His chief cutter was brandishing a supersized pair of scissors and following a brown cardboard pattern placed on a large piece of white moire silk.

"This will be a pontifical cassock," Gammarelli explained. "It was on the same table that I tailored the robes for our late Pope in 1939."

The Gammarelis have been tailors for the princes of the church since 1798. Beside the wide shelves in his workshop, filled to capacity with bales of precious cloth and silk, hang pictures of various pontiffs, awarding a Gammarelli the title of official purveyor.

Fight For Cheryl's Custody Predicted

BEVERLY HILLS, Calif. (AP) —Any change in the custody of Cheryl Crane will bring a fight between her parents, Lana Turner and Stephen Crane, attorneys say.

The Juvenile Court place Cheryl, 14, in the custody of her grandmother Mrs. Mildred Turner after Cheryl stabbed her mother's lover Johnny Stompanato to death last April 4.

Crane's attorney Harold Rhoden said that if Miss Turner attempts to gain custody, Crane will "fight her tooth and nail."

Miss Turner's attorney Jerry Giesler replied, "You can be sure that when the Juvenile Court releases custody of Cheryl, Miss Turner will be in there fighting with everything she has to keep custody of her daughter."

Aurora Mayor Held By Chief

AURORA, Ill. (AP) — Mayor Paul Egan, who has been feuding and fussing with the police chief he fired but who has refused to quit, was jailed Tuesday night—by the chief.

Egan, the controversial and publicity-minded chief executive, stayed in his cell about five hours, long after his bond of $200 was posted. He had been charged with disorderly conduct.

The 60-year-old mayor wouldn't leave until bond for four college youths had been posted. They had been arrested when they refused to disperse from the mayor's emergency citizen's meeting. Police broke up the meeting, declaring it an unlawful assembly.

The stumpy little mayor put up a brief struggle.

Egan had called the meeting to organize a law enforcement group to replace the city's 68-man police force, which he also has fired.

He was in the midst of a tirade against the world in general and Police Chief Donald Curran in particular when the chief and eight policemen walked into the Council chamber.

"We got 10,000 people in America worse than anything they've got in Russia," Egan told the crowd of about 400. "And that Curran is the worst criminal in the whole world. He's worse than Khrushchev."

Curran, speaking over a portable loud-speaker, drowned out the mayor's words, as he said: "Mayor Egan, I arrest you in the name of the law for disorderly conduct and creating a disturbance."

"You'll hear about this," Egan shouted as the cops seized him. "This is goint to be the most costly thing you ever did."

The crowd booed as the policemen grabbed Egan and took him down stairs and put him in a cell. About an hour later a friend posted $200 bond and he was told he could go home.

The mayor refused. He wouldn't leave, he said, until similar bonds were posted for the four youths arrested on similar charges.

At 12:30 a.m., bond was posted for the college boys. Egan still refused to leave. He said he would stay until his 250-pound bodyguard, V. L. Stevenson, 59, of Chicago, was released. Police, however, held Stevenson for investigation and refused to let him out.

Egan, under persuasion from his wife, finally left the jail—at 12:45 a.m. He ducked out a side door and got into a car.

The mayor's troubles with the police erupted about three weeks ago when he fired Curran and the police force for failing to clamp down on bingo. But the City Council, voting 4-1, backed Curran and the police force. Egan's efforts to take charge have been frustrated on every front.

New Voice In Sky Is Heard

KANSAS CITY (AP)—Is there a new electronic voice in the sky? Sputnik No. 4?

"It's a new satellite," says amateur radio operator Elmo Melton, "or else some mighty weird things are happening."

The 59-year-old Melton said he heard a new signal Tuesday night at intervals of 100, 105 and 117 minutes. Melton, who listens almost nightly for Sputnik No. 3, insists it is a new signal. "Sputnik 3 sounds like a slow letter A," he said. "This one resembles a fast T, about four dashes a second."

He said he first heard the radio signal Monday morning and it has been growing stronger. The Naval Research Laboratory in Washington said it had not received any new signals.

Melton said one of Tuesday night's signals came two minutes after the expected "beep" of Sputnik III. The signal comes in on the same frequency as Sputnik III —20.005 megacycles, he said.

Hale-Aikin Report Set

AUSTIN (AP)—The Hale-Aikin School Study Committee met today to put the finishings touches to its tentatively recommended program which would cost the state about 120 million dollars more a year.

The final report will be made to the Legislature and Gov. Daniel, who will have to approve the alterations in the school program.

A longer school year, an increase up to about $800 a year in teachers' salaries, and rejection of federal aid for maintenance of school lunch programs are features recommended.

ADMITS EMBEZZLEMENT — Police said Mrs. Flora Lopez, 48, above, of San Francisco, Calif., a war widow, admitted she embezzled $54,000 from the department store where she is employed. Inspector Gil Dowd said she told him she took the money to help support her four children and pay medical expenses. (AP Wirephoto)

Teacher To Cut Down On Homework

PITTSBURGH (AP)—A Rankin High School history teacher has agreed to reduce the homework of 88 junior pupils if they return to school.

Thomas A. Rodgers made the promise Tuesday night at the second stormy School Board meeting in two nights.

The pupils walked out Monday, protesting that Rodgers assigned as much as four hours of homework each night. They carried placards stating he was unfair.

At Tuesday night's meeting Supt. Maurice Silverstein announced that Rodgers would not teach history to the junior class for a 20-day "cooling-off" period.

Silverstein described Rodgers, who has been at the school 21 years, this way: "Mr. Rodgers might be a little strict but he does a good job. If anyone learns anything in this school, it's in Mr. Rodgers' class."

Rodgers had estimated that his assignments could be done by the average student in 40 minutes.

According to local educators, the amount of homework time estimated by Rodgers is more than generally assigned for one subject, but not overwhelmingly so.

Appearing rather dejected over the outcome of the meeting, Rodgers only comment was: "I can't say anything—but if they take my classes away from me I haven't gained anything."

Women Ask Drama In Doors

By FRANCES LEWINE

WASHINGTON (AP) — The women told the builders front doors of America's homes are too commonplace. They want "more drama" in them.

The builders are listening intently to ideas tossed around by the 83 selected women attending a three-day housing conference sponsored by the National Assn. of Home Builders and the United Industry Committee.

The women said make the doors bigger. They said natural wood is good, but they thought some gay color might be even better and suggested red and maybe aqua as starters.

The front door should have something special to reflect the taste of the people inside and be unique, they said.

Conferring in the modernistic atmosphere of the National Housing Center here, the women hold 40-minute sessions. They give their own ideas and answer questions bothering the building industry. At the blast of a whistle they take a 10-minute break and then start again.

Every word they say is being taken down in shorthand so the builders can mull it over later.

They made it plain at Tuesday's opening go-round that they'd put as many bathrooms in their homes as they could afford.

They told the builders to take the medicine cabinet off the wall above the sink—where bottles can fall out and break, and put it somewhere else—with a lock to keep youngsters from getting into it. Over the sink in its place, they advised, a big mirror.

U-shaped kitchens were preferred and just nobody seemed to want a rotisserie as part of the kitchen equipment.

They'd rather have natural wood instead of steel cabinets. Steel is too cold looking and shows finger marks, they said.

Better floor and counter top materials, pleaded a few delegates. Get counter surfaces that don't burn when a cigarette or hot pot goes down.

And as for the floor, get something that doesn't need wax and won't show dirt.

Soviet Russia declared war on Japan on August 8, 1945.

$16-Million Hotel Planned In Houston

HOUSTON (AP) — Negotiations are being made here for an agreement to build a 1,000-room, 16-million dollar hotel.

Robert Sonnabend, vice president of Hotel Corp. of America, said the corporation and a group of Houston men seek acquisition of a downtown area. He said the agreement also must provide that the Houston group help share the risk.

If the contract goes through, the Houston group would buy the land for about $1,500,000 and build the hotel for 11 million dollars. The corporation would lease the structure and spend four million on furnishings.

Women's Culture Club Hears Program On Nursing Tuesday

The Women's Culture Club met Tuesday at the Martha Ann Woman's Club with Mrs. Jodie Bynum as hostess.

The program presented was on the need of nurses a scholarship project which the State President, Mrs. Ben W. Boyd, chose as the Club's project for the year.

Mrs. Lora Miller who introduced the program said "Someone has said America is made up of people -- hardworking people, good people, people like the nurse. From Greek mythology we get the first suggestions that women were associated with healing arts. Nursing dates back to prehistoric in natural influence to help. It has not always been done by professional nurses, but the Mothers and neighbors have tendered care for the ill. Early nursing was done mainly by religious orders.

"During the Civil War nursing was done on volunteer basis only no one under 30 years need apply. The nurses wore black or brown dresses, no frills or bows. They hadn't dreamed of the antiseptic purity of modern nurses uniforms.'

Mrs. J. W. Clawson told about the pioneer nurses, she said "Florence Nightingale was the first who blazed the trail for nurses. She established the first nursing school in England. Linda Richards was America's first trained nurse. She aided in organizing several schools of nursing in America and one in Toyko, Japan.

"Clara Barton one of the Civil War nurses was influential in esfablishing the American Red Cross Society.

"Coming on down to our present time our own Mrs. Annie Bailey, who is one of the supervisor nurses at Cogdell Hospital, was the first graduate nurse in Dawson County. She had her training in Lubbock Hospital."

Mrs. Annie Bailey spoke on 'Nursing Is a Gratifying Profession' saying, "There is probably no group of professional people more devoted to their work than is a nurse, you feel that you have helped to eleviate pain and suffering of the patient, comforted the loved ones and maybe made the load a little lighter for your fellow man. The famil, of seriously ill patients are due much consideration and kindness for they are under such strain they are not responsible, and sometimes are very hard to deal with. A good nurse will have the patients interest at heart as well as the hospital. Better patients care requires a constant search for better methods.

"This is an age of specialization in nurses as well as in many other professions. The demand for nurses, especially for those well qualified has not been filled in the past 10 years, and even in the time of general unemployment there has always been a place at the top for well prepared nurses.

"In 1940 there were 8,169 men who were registered nurses, the survey shows that there are more positions for men nurses than there are applicants. Practical nurses are finding employment in an ever increasing number and variety positions. We need 60,000 trained practical nurses to help ease the nations shortage.

"The Medical Auxiliary or nurses aides, is helping in many ways to eleviate some of the many duties that a nurse has -- such as acting as a messenger and similar tasks.

"Special attention has been given to the personal qualities desirable in each field of work. For the most part there are valid discriminations. For example, the nurse who dislikes teaching or is very self conscious, shy and retiring is not a likely candidate for public health, but she would do a good job in research. The nurse who is imaginative, creative and enjoys change and a constant contact with new situations and people will not be happy as supervisor of surgery, but would be satisfied in the out patient service.

"In hospitals, branches of nursing is so varied that any one can specialize in the branch best suited to the individual. A wide field of useful service which should return personal satisfaction and professional success awaits the registered nurse of today.

In closing Mrs. Bailey gave the Florence Nightingale pledge: 'I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully. I will obstain from whatever is deleterious and mischievous, and, will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician in his work and devote myself to the welfare of those committed to my care'.

The hostess served refreshments to 15 members.

WOMEN'S CALENDAR

WEDNESDAY

Acacia Study Club meets at 3:45 p.m. at the Martha Ann Woman's Club with Mrs. Elmer Muhlbach, hostess.

Wesleyan Service Guild of the First Methodist Church meets at 7 p.m. in fellowship hall.

VIC Group Holds Meeting Monday Night

Members of the Vocational Industrial Club held their regular meeting at 7 p.m. Monday night.

The meeting was held in Towle Park where the group enjoyed a wiener roast and practiced the initiation ceremonies which will be conducted in Levelland October 25th.

The group then went on a hay ride to the rodeo grounds and around the square.

The group went to Big Spring Tuesday evening to initiate the Big Spring Chapter into the State VIC Club.

Plans Complete For Regional Meet Saturday

Final preparations have been made by committees as Snyder will host the Regional 15 meeting of the Delta Kappa Gamma Society here Saturday.

Registration and coffee will open the meet at 9 a.m. Saturday at the high school with Beta Epsilon Chapter hosting.

Mrs. Dorothy Parnell, Alpha State corresponding secretary will preside over the morning session beginning at 10 a.m., with Mrs. Lida Rhoades, president of Beta Epsilon to give the invocation.

At the luncheon program Mrs. Rhoades will preside with Mrs. Mary Devenport to bring the invocation.

Special music will be presented by the Sub Debs of Snyder Junior High School, under the direction of Mrs. Nan Lee.

Miss Ethel Morgan, Alpha State co-chairman on legislation will present the luncheon address titled "Take Hold and Look Forward".

Chapters participating in the meeting include: Alpha Kappa, Gamma Iota, Delta Xi, Alpha Sigma, Gamma Tau, Epsilon Delta and the hostess chapter Beta Epsilon.

A conference of regional presidents is scheduled for 2:30 p.m. Saturday.

PETROLEUM PEGGY

Mix sand and petroleum together and what do you have? Well, under ordinary circumstances you'd have a rather sticky mess. But put them together in the chemical laboratory and you've got some of the fastest-growing wonder products of all--silicones.

You're probably familiar already with silicone polishes that clean furniture and leave a glossy, practically unstainable coating on it. . silicone hand lotions that ward off dishpan hands . . silicone treated ironing pads that bounce off heat so that you iron both sides of the garment at once.

In the textile industry, silicones are used to make fabrics that act like the proverbial "duck's back." Treated fabrics shed water easily, and they don't lose their water washings or dry cleanings. And soft materials, such as some woolens, keep their creases longer, and shed wrinkles more easily when given an application of silicone.

Actually, there's no end in sight to the possibilities of silicone use. Bakeries use it as a non-sticky, non-smoky coating for bread pans. The tire industry uses it as a coating for tire molds, to prevent the rubber from sticking to the mold and ruining the finished tire. And even the medical profession is interested in silicone rubber tubings and molded shapes for use in surgery.

In the past nine years, the silicone industry has expanded 25 times, and it's expected to treble within the next five. This newest of the family of industries which petroleum helped create is quickly taking its place as an important source of conveniences for our modern, easier way of life.

Mrs. W. Pitner Hostess To Sorority Group

The Iota Psi Chapter of Epsilon Sigma Alpha met in the home of Mrs. Mary Pitner, 214 Thirty-fourth Street for a regular business meeting Monday.

Mrs. Mary Kate recieved her pledge pin in a pledge ceremony.

Lending a Fall atmosphere, the home was attractively bedecked with bouquets of dalhias.

Coffee and cake were served Mrs. Marlene Stokes and Mrs. Pitner, to Jenelle Beasley, Shirley Bowers, Avanell Corbell, Shirley Drum, Jean Everett, Faydene Hart, Mary Kate, Laverta Lovell, Anita Payne, Anna Stephens and Margaret Wood.

U.S. Army Engineers began investigation for available railroad routes in Alaska in 1914.

Junior High P-TA Executive Committee Meet Held Monday

The Executive committee of the Junior High School Parent-Teachers Association met in the principal's office at 1:30 o'clock Monday afternoon, with Mrs. Fred Beaty, president presiding.

Plans for the queens race, which opened Monday, and the variety show to be presented Oct. 28th. climaxed by the coronation of the queen, were discussed.

The variety show will be presented by the parents and teachers of Snyder Junior High students.

Mrs. Beaty read a communication from Mrs. James C. Parker, President of the National Congress of Parents and Teachers in which she said, "We want good schools and good communities, but first of all we want good homes. May your organization this year help us build a nation of honor, from which will come the kind of citizens America must have to grow ever better and greater. The whole world needs such citizens".

Mrs. Parker recently said in the Texas parent-Teachers magazine "In the last ten years our membership has sown the magnificent increase of 114 per cent.

"This growth has come about, and will inevitably continue, because we are a voluntary organization, striving toward goals that mean much to every American: the best possible homes, schools, communities -- the best possible world. And every one of our millions of members is needed to help knock on the doors of neighbors who do not yet belong to a P-TA and to invite them to join with us in the tasks we have willingly, gladly undertaken.

"Why does the P-TA seek people out in their homes? Because, despite all change, home is still the dwelling that houses our most profound and satisfying experiences. Come what may, home is the stronghold of personal dignity. It is to home that we look for a vast and limitless reservoir of lovingness.

"Home is a refuge, a fount from which we can renew our courage. It is a place in which we can find ease for our tenseness. Home is a generator of trust, of faith in ourselves and others.

"Above all, home is the child's first school. It is at home that children learn lessons that they will carry with them for a lifetime. For what the young hear and see and feel in their earliest years largely determines their views, their hopes, their fears. Only the home can build in the nation's youth the strength that is our country's greatness. The primary purpose of the P-TA is to safeguard children, to build for the future in such a way that in every community the lights of home may always shine out.

"And so I do hereby designate the month of October 1958 as Membership Enrollment Month, and call upon every parent-teacher member to knock once more on the door, and at the heart, of every American -- so that all of us, working together, may make America the best possible home for all our children."

Mrs. L. Russell Honored With Surprise Luncheon

DUNN (Spl.) — Mrs. L. A. Scott and Mrs. Bettie Smith honored Mrs Laurence Russell with a surprise birthday luncheon Tuesday in the L. A. Scott home.

Gifts were presented to Mrs. Russell by guests including, Mrs. T. E. Grimes, Mrs. John Brown, Mrs W. E. Wade, Mrs. James Stewart and the hostesses.

Fort Leavenworth, Kan. gives 1,417 hours as basic training to student U.S. Army Officers.

MANY SNYDER RESIDENTS, including several classes of school students, yesterday visited the exhibits presented by the oil industry here in connection with Oil Progress Week. There were a number of exhibits, including several working miniatures, while films were shown. The oil and gas committee of the Chamber of Commerce, Oil Information Committee, and Desk & Derrick Club cooperated in arranging the exhibit, along with a number of firms in the oil industry. (Lee Watson photograph)

Eisenhower Is Going After Independents In Campaign

By JACK BELL

WASHINGTON (AP)—President Eisenhower apparently is going out after support for Republican congressional candidates from independents and voters he calls discerning Democrats.

He hasn't defined exactly what a discerning Democrat is. But party leaders judge from what he has said recently that the President, in his forthcoming personal campaigning, plans some strong appeals to Democrats with conservative leanings.

With Eisenhower's approval the Republican National Committee has been pouring away on the theme that most of the Democrats running for Senate and House seats in the North and West are "left-wing radicals."

Eisenhower himself has suggested that the alternative to electing Republicans may be "radical government."

This strategy obviously has been based on the knowledge that registered Democrats outnumber Republicans in many critical states. Unless some of the independents and conservative Democrats can be lured over to the GOP column, a number of Republican candidates will be in a bad fix.

Eisenhower had some happy experiences in collecting independent and Democratic votes in 1952 and 1956.

But whether he can make his charm work by proxy this year—when he isn't running—remains to be demonstrated.

Sen. Olin D. Johnston (D-SC), who tried unsuccessfully to get Eisenhower to run for president as a Democrat in 1948, said the thinks the President's campaigning will help Democrats.

"Everywhere President Eisenhower makes a speech a Democrat rather than a Republican will be elected to Congress, particularly near the South," Johnston said in an interview.

Eisenhower leaves Friday on a major Western swing which will take him to Cedar Rapids, Iowa; Abilene, Kan.; then after a Denver weekend to Los Angeles, San Francisco and Chicago.

Burns Prove Fatal

RAYMONDVILLE, Tex. (AP)—Don Guerrera, 22, of Hebbronville died early today of burns sustained Monday when he touched a high voltage wire in a trucking accident.

Nike-Asp Rocket Gets Solar Data

HONOLULU (AP) — The Navy says its solar eclipse expedition in the south Pacific fired a Nike-Asp rocket 150 miles into the air Mtnday and gained important information.

The firing was aimed at a large solar flare which followed Sunday's eclipse. Conditions were ideal, said the Navy, in contrast with those Sunday when thunderstorms shrouded a total eclipse visible along a path across the south Pacific.

OUR VIEW

That 80th Congress

THE CORPUS CHRISTI CALLER-TIMES:

Former President Truman and Vice President Nixon, hottest noncandidate campaigners in the current congressional elections, have interjected an intriguing (if irrelevent) issue:

Was the 80th Congress (1947-48), the only one with a Republican majority during the past quarter century, the "worst" or the "best" in U. S. history?

Probably it was neither. In fact, Congress in changing times are hardly comparable in such flat terms. But the Truman-Nixon debate recalls interesting history that may have some influence on this fall's popular decisions.

Truman, slated by the dopesters for certain defeat in his 1948 bid for election to the presidency to which he had succeeded by Roosevelt's death in 1954, launched a whirlwind, give'em-hell "whistle-stop" campaign. His main theme was that the Republican 80th Congress, which had blocked much of his "Fair Deal" welfare program and passed the Taft-Hartley Act, was "the worst in history."

To nail down his point, Truman, spectacularly announced at the Democratic nominating convention in Philadelphia that he was calling Congress back in special session to challenge the GOP majority to make good in advance on the Republican platform announced for that fall's campaign. The Republicans scored the maneuver as dirty politics, and the session did nothing. The then GOP Senate Majority Leader Robert A. Taft countered:

"The Democrats controlled Congress for 14 years, professing the greatest interest in social welfare legislation. Now they say that they failed to deal adequately with social security, education, health and housing and blame the Republicans for not enacting the program they failed to enact during 14 years.

But Truman unexpectedly won the presidency, at least partly on this issue, and helped switch party control in both houses of Congress to heavy Democratic majorities. Popular disfavor with the GOP 80th's record, dramatized by Truman, might well have cost the Republicans the presidency in 1948.

The doughty Missourian obviously thinks the issue still has mileage, and Nixon, aspiring to the White House in 1960, is afraid it might. Well, maybe—but all that was 10 years ago. And we doubt that the Democrats need this dusted-off issue anyway.

Right-To-Work Is Top Issue In Ohio

COLUMBUS, Ohio (AP) — The right-to-work issue has really stirred things up in this year's Ohio election.

Even seasoned politicians are having their troubles figuring the outcome.

Right now, the Ohio capitol is solidly Republican from cellar to cupola. All officeholders from Gov. C. William O'Neill on down seek re-election, not for two-year terms as in the past, but for four-year terms. Another GOP stalwart, John W. Bricker, is a candidate for a third U.S. Senate term.

This strange and fascinating campaign, in the opinion of competent observers, appears to be shaping up in this singular pattern:

Ohio voters probably will write into the state constitution a right-to-work section—a provision prohibiting union shop contracts which require union membership as a condition for holding a job.

But Republican Gov. O'Neill, who is stumping for the proposal, appears on the ragged edge of defeat after only one term in office.

His Democratic challenger, Michael V. DiSalle, who personally opposes the union shop prohibition, sees victory finally within his grasp despite a trouncing by O'Neill in 1956.

And Bricker, who delayed taking a public position on the constitutional proposal, appears a cinch to coast to another victory, this one over former Ohio Congressman-at-large Stephen M. Young, Democrat.

Republicans who now control the Ohio delegation in the U.S. House 17-6 and both houses of the Ohio Legislature are plainly scared—but hoping for the best.

Why, after rolling up huge majorities in 1956, are they running scared this year? Three reasons:

1. They fear that a Democratic trend, noted nationally, has seeped into Ohio. They recall that for the first time in a generation Democrats outvoted Republicans in the May primaries—by 100,000 votes.

2. They expect organied labor's desperate campaign to stave off the right-to-work proposal will lure many union members to the polls. Among union members, the GOP figures, there are more Democrats than Republicans.

3. Voter registration, in the populous counties which require it, is at a record high for a non-presidential election year. Election officials say the right-to-work issue is responsible. True, they say, many Ohioans registered so they would be able to vote for it, but the big push for registrations was among the groups fighting it.

O'Neill was the golden boy of Ohio politics when he was elected governor two years ago at the age of 40. He already had 12 years in the Legislature and six years as attorney general under his belt.

Beset by a series of public relations bobbles on relatively minor issues, O'Neill suffered a heart attack early this year. He recovered quickly, but some dissatisfaction with his administration within his own party was indicated in the May primary when Charles P. Taft racked up 36 per cent of the Republican vote without campaigning.

Unquestionably, O'Neill has regained some of his political losses.

DiSalle, 50, once known nationally as President Truman's rolypoly, jovial director of price stabilization, has shed most of his excess weight. The joking is under wraps and his mustache is gone too.

Already this year, he has visited each of Ohio's 88 counties at least twice, some of them many times.

Some Pet Peeves On Travel By Air

By SAUL PETT
For Hal Boyle

NEW YORK (AP)—I like airplanes but:

I don't like the noise, the vibration, the sense of constantly rushing and, of course, the sense of nothing between you and the ground. As far as I can tell, man has gained nothing from the age of flight except the ability to go some place he can't afford.

You can now get from here to there in half the time it takes to claim your luggage.

Airplanes can be uncomfortable. For example:

I can never seem to find the little ash tray on the end of the arm rest. I always seem to grind out my cigaret on my knee.

I think the trays and the silverware and packets of salt and pepper and salad dressing they serve on airplanes are awfully cute, and my kids have enjoyed them for a long time. But I think the meals served on most airplanes are overly ambitious, overly cooked, and overrated. Why, when meals have to be cooked many hours in advance, why do so many airlines insist on serving steak? The steak is so leathery it ought to have a baggage check on it.

I find the stewardesses charming and efficient and solicitous, like hospital nurses wheeling you up to surgery. Instead of these Florence Nightingales, I would prefer the old type of railroad conductor who collected your ticket with a snarl, consulted a huge old watch drawn from his blue serge vest, and then, without a word, retreated to the back of the car to read somebody else's newspapers.

I don't find the announcements made over the PA system by the pilot informative, interesting, or reassuring because I can rarely hear them over the static. Besides, he's always announcing Chattanooga on our left when I'm on the right.

And why is it that the pilot always sounds like that old Armageddon voice of the "March of Time" man when he starts: "Now don't get alarmed. We are about to switch engines into a higher speed level. It will seem for a second or two like the engines are stopping, but. . ."

Until then I wasn't alarmed. Why doesn't the big mouth tend to his knitting and keep quiet?

Least of all am I reassured when I buy air insurance at one of those little counters they have at airports. After pressing me for details on amount of coverage, next of kin and beneficiary, the lady then wishes me, in tones of a mortuary: "A pleasant, safe flight."

Somehow I always suspect her interest is more commercial than personal.

Bing Crosby first studied law before Paul Whiteman told him he was better as a singer.

Ike In 'Socialism' Chorus Of Party

WASHINGTON (AP)—President Eisenhower has joined the ranks of Republican leaders who say or imply that socialism may result if the Democrats retain control of Congress.

The raising of this old political specter apparently is a deliberate GOP strategy born of acute shortage of campaign contributions.

Hardening of the financial arteries is not restricted to the Republican party alone. The Democrats also are finding their supporters slow with a buck this year.

But there is a basic difference between the two parties in the way they parcel out their campaign money in congressional elections. The Republicans have more central control, in Washington, while the Democrats depend on local contributions raked up by the individual candidates.

Republicans figure each of their campaign committees — national, House and Senate—needs a million dollars this year for a total of three million dollars. So far, they have collected about 40 per cent of that.

The Democrats' House committee had a $250,000 campaign budget last time. This year it has been cut to $75,000.

Eisenhower is reported to have appealed to affluent Republicans for more open-handed contributions during White House stag dinners. Tuesday, combining his 68th birthday celebration with party politics at a partisan breakfast, he said:

"We started off in 1952 to break away from the kind of government the kind of political philosophy, that wants to put all power, all direction of our economy and of our whole population, in the hands of a central bureaucracy."

Nine days ago GOP leaders went beyond that. After meeting with Eisenhower and Vice President Nixon at the White House Oct. 6, they issued a statement saying:

"Either we Americans dedicate ourselves to strengthening and preserving private enterprise, using the only dependable political instrument available—the Republican party—or we are certain to go down the left lane which leads inescapably to socialism."

Three days later, on Oct. 9, Nixon was in Columbus, Ohio, making a campaign speech. In it, the vice president argued that the Eisenhower administration had done more than its Democratic predecessors to increase Social Security benefits, raise wages and stabilize the cost of living.

Such seeming inconsistencies — warning against socialism one day, and boasting of Social Security gains three days later—are what Americans generally expect in a campaign year.

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THE UNIVERSITY OF TEXAS, to say the least, even surprised yours truly in beating Oklahoma last week.

We couldn't visualize a squad with such youth as is found on the Longhorn squad beating an experienced team as Oklahoma. Texas has only six seniors on its entire squad of about 60 players and some of them don't play regularly.

We came to the conclusion that Texas would be beating Ou pretty regularly the next few years but then we didn't believe they would start this season.

The Longhorns, quite probably, will be the only team to measure the Sooners this season since the rest of the teams on the OU slate, maybe with exception of Colorado, are "weak sisters."

So, at worst, the Sooners will post an 8-2 record this season and if they can get by Colorado then they'll post a 9-1 record.

It's easy to see, when you note the Sooner schedule each year, how OU manages to win so many games. Year-in-and-year-out the Sooners will have one or two toughies on their schedule and the rest "patsies."

We wonder how many games the Sooners would win each year if they would play Notre Dame's schedule? The results might be a little shocking.

"Experts" To Blame

It sorta irratates you when a team gets ranked No. 1 in the nation playing a weak schedule. It doesn't give other top-notch teams a chance who play a rugged opponent week after week.

But as long as the sports "experts" emphasize victories in football regardless of the caliber of opposition, the Sooners will continue its policy of weak scheduling.

Milton Ham, the ex-Tiger now playing at TCU, turned in a fine performance against Texas Tech last weekend. His play at end earned him Honorable Mention as "Lineman of the Week" in the Southwest Conference by the Dallas News last week.

Reports from the TCU-Tech game had it that the Raiders wound up with "minus yardage" on the plays run Ham's way.

Jack Spikes, the other ex-Bengal playing for the Frogs, carried the ball only five times against Tech but observers say that Jack was tackled on about every play.

Spikes, only the week before, had gained 110 yards against Arkansas and the Raiders were keeping a close eye on Jack Saturday. Tech players tackled Spikes on most running plays just in case he had the ball.

Robert James Playing A Lot At McMurry

We watched ex-Tiger Robert James in action Saturday night who played for McMurry against ACC. James had a big hand in the McMurry defense that pretty well contained ACC's offense. Robert played tackle on the No. 2 unit but he played almost as much as did the players on No. 1 team.

McMurry coach Doc Ellis alternated his No. 1 and 2 units throughout the game with each team recording about the equal minutes of playing time.

McMurry built up a 20-0 lead at halftime and then held off the Wildcats in the second half for a 20-7 victory.

While we're speaking of former Tigers, we received a rather humorous note concerning George Herring, the ex-Bengal who is now a regular tackle at North Texas State.

Herring played a bang-up defensive game in the 42-0 North Texas rout of Drake last week but he almost 'goofed" on his only offensive chance.

It seems that one of the North Texas ball carriers got in a jam and at the last second before being tackled he lateraled off to Herring. George, we're told, was bum-fuzzled for a moment as to what to do with the ball but after realizing what had happened, the 210-pounder lugged the ball for an additional seven yards before being downed.

Texas' Bryant Is 'Lineman Of Week'

By TED MEIER
Associated Press Sports Writer

A couple of guards achieved the goal of every lineman by running for touchdowns last week, but the Lineman of the Week honor today went to an end, big Bob Bryant of Texas.

Bryant snared the forward pass for a touchdown that enabled Texas to tie Oklahoma at 14-14 and set the stage for Bob Lackey's winning extra point from placement. It was Texas' first victory over the Sooners since 1951.

Texas, behind 14-8, had the ball on the Oklahoma seven, third down, in the closing minutes of play. "You guys have just got to get open, 'quarterback Lackey told his ends in the huddle.

"Golly, I did, and that Lackey threw me the ball, 'the jubilant Bryant said afterwards.

Thus did the left end for the Longhorns gain the Lineman of the Week in the Weekly Associated Press poll of sportswriters and broadcasters. Altogether Bryant caught four passes for 29 yards and played an outstanding defensive game throughout.

It was a cruel twist of fate for Oklahoma guard Jim Davis. Only a few minutes earlier, he had grabbed a Texas handoff and raced 24 yards for a touchdown that put the Sooners ahead. Nevertheless Davis became one of the few linemen who can boast of having scored a touchdown. Gene Appel, Columbia guard, also joined the list. He intercepted a Yale pass and raced 65 yards for a touchdown as Columbia upset the Eli 13-0.

Dick Wallen, UCLA All-America end set a school record by catching 10 passes in a losing cause as the Uclans bowed to Florida. Two were for touchdowns. Another end, Jerome Green of Georgia Tech, threw a jolting block that enabled Frank Nix to get into the open for a 74-yard punt return for a touchdown against Tennessee.

Guards Bob Grottkau of Oregon and Frank Miknis of Wyoming were among those praised highly.

Lamar Moves Up To No. 5

KANSAS CITY (AP)—The list of the top 10 National Assn. of Intercollegiate Athletics football teams was revised radically after three of the teams took their first defeats last week.

Lamar State Tech's 21-0 trouncing of East Texas State was the most shocking upset. East Texas, leader of the NAIA poll all season, dropped to eighth this week. Lamar jumped from the second 10 to No. 5.

Northeast Oklahoma, third last week, rose to the top spot, with Williamette of Oregon keeping second place by one point over Arizona State of Flagstaff.

Middle Tennessee retained fourth place; Central Michigan rose from seventh to sixth, followed by Missouri Valley, East Texas, California Polytechnic (San Luis Obispo) and Tampa.

Dropping out of the top 10 were Iowa State Teachers, beaten 26-15 by Augustana, and Presbyterian of South Carolina which was edged 7-6 by Davidson.

FIGHT RESULTS

By The Associated Press

London, England — Henry Cooper, 189¼, London, outpointed Zora Folley, 198¾, Chandler, Ariz., 10.

Halifax, N.S. — Richard Howard, 137½, knocked out Vernon Lynch, 132, New York, 10.

Holyoke, Mass. —Harold Gomes, 131, Providence, outpointed Johnny Beans, 130, New York, 10.

AP Forecaster Likes Texas, TCU, SMU

By HAROLD CLAASSEN
Associated Press Sports Writer

NEW YORK (AP)—Last week's predictions (21 wrong ones in 55 stabs) can bring a chesty forecaster back to earth faster than a burned-out moon rocket.

Using a new motor and a different type fuel, here are this week's winners:

Army over Virginia: The Cadets now rate as the country's best.

Auburn over Georgia Tech: The Plainsmen, who haven't yielded a touchdown on the ground since 1956, will have a busy afternoon but their defense should pull them through.

Iowa over Wisconsin: Randy Duncans' passing to be the decisive factor in this battle of Big Ten title claimants.

Navy over Tulane: It is the Oyster Bowl game at Norfolk, Va., with the Southerners finding Navy's shell to tough to crack.

Texas over Arkansas: The Razorbacks have scored only three times in four games and Texas did beat Oklahoma.

Mississippi over Hardin Simmons: This could be more rugged than it sounds.

Notre Dame over Duke: Nick Pietrosante and Wray Carlton to share the individual honors.

Oregon over Washington State: Another game in which the defense will tell.

Skipping over the others in a hurry:

FRIDAY

George Washington over Richmond.

SATURDAY

EAST: Harvard over Columbia, Holy Cross over Dartmouth, Lafayette over Temple, Penn State over Boston University, Delaware over New Hampshire, Brown over Penn, Pittsburgh over West Virginia, Princeton over Colgate, Rutgers over Bucknell, Syracuse over Nebraska, Wake Forest over Vilanova, Yale over Cornell.

MIDWEST: Ohio State over Indiana, Michigan State over Purdue, Colorado over Iowa State, Kansas State over Missouri, Boston College over Marquette, Illinois over Minnesota, Tulsa over Drake, Michigan over Northwestern.

SOUTHWEST: Oklahoma over Kansas, Houston over Oklahoma State, Texas Christian over Texas A&M, Baylor over Texas Tech, Southern Methodist over Rice.

SOUTH: Louisiana State over Kentucky, Davidson over Carson Newman, Florida State over Virginia Tech, Florida over Vanderbilt, Furman over Wofford, Mississippi State over Arkansas State, North Carolina over Maryland, Virginia Military over Tampa, Tennessee over Alabama, William & Mary over North Carolina State.

FAR WEST: Arizona State over San Jose State, Brigham Young over North Texas State, Wyoming over Colorado State University, Oregon State over Idaho, Utah State over Montana, New Mexico over Arizona, College of Pacific over Cincinnati, California over Southern California, Air Force over Stanford, Denver over Utah, Washington over UCLA.

Tulsan Honored As MVC 'Back Of Week'

KANSAS CITY (AP) — Tulsa fullback Bob Brumble, on the strength of his performance in the 24-14 upset of Oklahoma State Staturday, is the Missouri Valley Conference Back of the Week.

He edged Pat Studstill of Houston and Joe Morrison of Cincinnati for the honor.

The 172-pound Brumble played 51 minutes and carried the ball 33 times for 129 yards against Oklahoma State.

Abner Haynes, fleet halfback at North Texas, won mention for his play against Drake.

FRESHMEN TO SAN ANGELO

Blue Devils Play Here Tomorrow

The Snyder Junior High Blue Devils, whose two teams have chalked up eight wins and a tie in 10 starts this season, will host Big Spring Goliad tomorrow night at Tiger Stadium.

The 7th grade game tomorrow will start at 6:30 with the 8th graders to follow immediately.

It will be the second meeting for the Snyder and Big Spring schools. Both Snyder teams defeated Goliad in the first meetings by identical 22-0 scores.

The Tiger Freshmen will also see action tomorrow night. Coach J. P. Ward will take his Tiger Yearlings to San Angelo a return engagement with Edison.

Edison is the only team that has measured the Tiger Frosh this season. The San Angelo team turned the trick in the season opener, 24-8, and since that time the Tiger Freshmen have won four straight games. Tomorrow's game is ticketed for 7:30 p.m.

The Tiger "B" team, Snyder's other "minor league" team, is scheduled to go to Lamesa Saturday.

Following are the probable starting lineups for the local teams in tomorrow's games:

7th GRADE

Ends — Roy Rice and Jackie Stewart.

Tackles — Tommy Christian and Richard Smedley.

Guards — Jimmy Tullos and Danny Aycock.

Center — Robert Lieb.

Quarterback — Jimmy Feather.

Halfbacks — Abe Gonzales and Ygnacio Benitez.

Fullback — Edward Schulz.

8TH GRADE

Ends — Pat LaFountain and Jimmy Taylor.

Tackles — Riley Boothe and Weldon Duke.

Guards — Billy Kitchings and William Robinson.

Center — Kenny Wellborn.

Quarterback — Dalton Walton or Stuart Long.

Halfbacks — Luke Nigliazzo and Dean Howard or Stuart Long.

Fullback — Bob Pena.

FRESHMEN

Ends — Ronnie Merritt and Freddie Miller.

Tackles — Dahl Edelman and Joe Burns.

Guards — Butch Browning and Bill Weaver.

Center — Larry McNair.

Quarterback — Steve Free.

Halfbacks — Spencer Dyer and Joshua John.

Fullback — Mike Morris.

Colorado U. Holds College Offense Lead

By The Associated Press

It has been seven years since a major college football team ran over another the way Colorado trampled Arizona last Saturday to gain the national lead in offense.

The thundering Golden Buffaloes ran for 551 yards on the ground and added 74 yards on passes, just to keep the defense loosened up, as they rolled up a 65-12 score. They also took over second place in the national team scoring race.

The 551-yard rushing figure is the largest any major team has made in one game since 1951 and the 665 yards overall is a one-game high for this season.

For three games this season, Colorado has averaged 449.0 yards gained per game and 374.0 yards a game by rushing. These statistics shoved last weeks 'leaders, Army and College of the Pacific, down into second place. Army now has a 435.3 yard total offense average and COP a 317.3 yard rushing average COP also is third in total offense with 424.3 yards.

Washington State retained the passing lead with a record of 66 percent completions and average air gains of 192.0 yards per game. Hardin-Simmons and Army both have averaged 181 yards through the air. Washington State's average dropped from 237.3 yards last week.

West Virginia, loser of three out of four games, accomplished the remarkable feat of climbing from 33rd to 10th place in total offense while dropping a 36-30 decision to Boston University.

Pastimes In Sports

By Howard M. Milburn

H-SU's Hart Leads BC In Ball Carrying

By The Associated Press

Pete Hart of Hardin-Simmons has taken over the lead in Border Conference ball-carrying.

Hart blasted out 61 yards against Arizona State last week to push past Leon Burton of Arizona State, who was held to 39 yards by Hardin-Simmons.

Hart now has 271 yards in 60 carries compared to 268 in 54 tries by Burton.

Charley Johnson of New Mexico A&M moved further out front in total offense and passing. Johnson has 533 yards on 131 plays to top in total offense and his 39 completions out of 73 for 480 yards give him a long lead in passing.

Dave Hibbert of Arizona, leads in pass-receiving with 22 catches for 236 yards and John Furman of Texas Western tops the punters with a 40.0 average on 11 kicks.

The scoring leader is Louis Kelley of New Mexico A&M, with 32 points.

Arizona State leads in team offense with an average of 351 yards per game. Hardin-Simmons is the defensive leader, giving up 272.7 yards per outing.

Carol Heiss, three-time winner of the women's world figure skating championship, trains each summer at the Michigan State ice arena.

Bud Believes OU Will Bounce Back

NORMAN, Okla. (AP)—"I hope we play as hard and do as well as we did against Texas."

Thus a proudly pessimistic Bud Wilkinson launches his Oklahoma Sooners into another Big Eight Conference campaign.

Oklahoma's effort against Texas fell a little short as the Longhorns took a 15-14 decision. But most Sooners faithful feel their team will bounce back strongly in the conference opener against Kansas Saturday at Lawrence.

There's hope Oklahoma again will spring unscathed through the Big Eight schedule and into the Orange Bowl come January. Bud's still here, isn't he?

Wilkinson, now in his 12th season at Oklahoma, has never lost a conference game. His teams have won 10 straight Big Eight titles, tying for the crown in his first year, 1947. He has a league record of 61-0-2.

Wilkinson is proud of his team despite the one-point loss Saturday which tumbled the Sooners out of the Associated Press top 10 and snapped a six-year string of triumphs over the men of Austin.

"I thought we played fine against Texas," he said. "We have a fine group of men on our team. I know one thing, they will play the best they know how every week.

"We may lose three or four games, but I hope we will win some too. If a team plays as well as it can, it isn't too important whether it wins."

Test Your Skill.. Win CASH PRIZES

HERE ARE THE RULES OF THE CONTEST

In each advertisement on this page you will find the contestants in a prominent football game being played in the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only . . . opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie score must be specified as a tie or else it will be considered a miss.

If there is a tie for first place the winners will divide the cash money of $12.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for that place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's 1st prize. Tie for perfect score will split $25.00. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all of the person's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blanks and list your address and phone number — and watch for the story on next Wednesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employes of The Snyder Daily News and their families, not eligible to enter.

IT'S FUN! IT'S EASY! ANYONE CAN WIN! ENTER TODAY!

Junior Editors Quiz on SCIENCE

QUESTION: Why wasn't Benjamin Franklin electrocuted by the key on the kite?

• • •

ANSWER: It is surprising that Franklin, continually at work on all sorts of inventions and experiments, was never injured. But the great statesman-scientist spent a great deal of time planning his experiments before actually conducting them, and he had anticipated the effects of "trapping" electricity with his kite.

He prudently ran a wire the length of the kite's string and put it in the ground, thus "grounding" the electrical power so it would be harmless. When he tested the lightning rod he went even further, and developed a "grounding box" of a rubber and twine combination, knowing both these materials would not conduct electricity, but would help "bury" it.

• • •

FOR YOU TO DO: There seems to be no end to the achievements of Benjamin Franklin. Look up his fascinating story in your school or library encyclopedia. Which of his activities come as a surprise to you?

• • •

(The young scientist interested in this question is Jeff J. Wieland, Alameda, California, and wins him $10. Write your question on a postcard, and mail to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: How did bull fighting originate?) 10-15

New Four-Man Cabinet Ends Era Of Disorder In Beirut

By TOM MASTERSON

BEIRUT, Lebanon (AP)—A new four-man Cabinet representing the main factions in the Lebanese civil war was formed today. Peace at once returned to Beirut.

A general strike of shopkeepers ended, and the business district started back to normal. Armed civilian gangs began dismantling street barricades.

The specter of war between Moslems and Christians appeared to have subsided.

The new government cannot solve any of the little country's long-term problems. But it may cool tempers and restore order so that these problems can be settled politically and not in street battles and terrorism.

Rashid Karami, a leader of the rebellion against former President Camille Chamoun, remained premier. But his deputy premier now is Pierre Gemayel, leader of the pro-Chamoun Phalange party whose three-week strike had closed most business establishments and brought down Karami's first Cabinet.

The other two members are Hussein Oweini, whose National Front spearheaded the rebellion against Chamoun, and Raymond Edde, a neutral who had tried to mediate the civil war.

The new government called on all citizens to "resume work and restore order to permit Lebanon to return to a normal life." The east Mediterranean Arab state has been torn by violence since May 10. Lately the situation has grown uglier with daily slayings and kidnapings.

Karami formed his first Cabinet Sept. 24 of rebel associates and neutrals. The Phalangists demanded representation in the government and fought Karami much as he had Chamoun. Faced last week with certain defeat on a parliamentary vote of confidence, Karami offered his resignation to President Fuad Chehab. Chehab refused to accept the resignation and threatened to form a military government unless the contending parties got together.

Local Option Votes Set In Beaumont

BEAUMONT (AP)—Local option elections in seven Jefferson County precincts were called for yesterday in petitions certified by the Commissioners Court.

The proposition will be listed on the Nov. 4 general election ballots.

The petitions were circulated in a campaign spearheaded by Safety, Inc., composed principally of Baptist ministers and laymen.

Californians Study Bounty For Skunks

SAN RAFAEL, Calif. (AP)—The Marin County, Calif., Board of Supervisors met Tuesday to consider skunks and heard a dozen complaints were coming in daily from people who smelled trouble.

Three Killed In Air Force Mishap

HONOLULU (AP) — Two Air Force jet fighter planes ran low on fuel over the Pacific Tuesday and the pilot of one died when he bailed out 90 miles northeast of here.

Two Marine helicopter crewmen were killed when their chopper blew up in the rescue operation.

Six supersonic, swept-wing F101 Voodoos were ferrying to Honolulu from McClellan AFB, Calif., where a spokesman said they had refueled Tuesday morning after a hop from Langley AFB, Va. One of them radioed he was running out of fuel.

A KC50 tanker and two rescue planes were sent out. Due to air turbulence, the Air Force said, connections could not be made for the aerial refueling and the pilot ejected in what appeared to be a normal bail-out.

But he was found dead, floating in his inflated life jacket, by one of two Marine helicopters on the rescue mission.

It deposited his body on the destroyer Forrest Sherman along with the crewmen who had been lowered by cable to pick him up.

As the chopper pulled away, it blew up, presumably killing its two remaining crewmen.

Names of the dead were withheld pending notification of next of kin.

The second helicopter was forced to ditch near the destroyer when it ran out of fuel after an unsuccessful attempt to land on the destroyer. Its three crewmen, all rescued, are 1st Lt. James Prather, 28, of Dallas, Tex., pilot; Lt. Frank Ball, 21, of Mount Shasta, Calif., copilot; and T. Sgt. Robert Stemper, 31, of Canton, Ohio, crew chief.

Commission To Set Flow For November

AUSTIN (AP)—Major companies and the Bureau of Mines are in general agreement on the amount of crude oil Texas should produce next month.

Purchasing oil companies yesday nominated a total daily production of 2,772,013 barrels compared to the Bureau's forecast of a 2,775,000 barrels a day demand.

The bureau was 65,000 barrels higher with its forecast compared to last month. The company's nominations were down 6,363 barrels.

Dist. 9, North Texas, showed a nominations increase of 17,967 barrels. It was the largest change and almost offset the decreases in other districts. Others with increases were Dist. 8, West Texas, 7,060 barrels and Dist. 10, Panhandle, 1,401.

Decreases included: Dist. 1, Southwest Texas, 1,458 barrels; Dist. 2, Southwest Texas, 4,233; Dist. 5, East Central Texas, 2,455; Dist. 6, East Texas outside, 5,302; Dist. 6, East Texas Field, 6,298; Dist. 7-B, West Central Texas, 2,734; and Dist. 7-C, West Central Texas, 1,935.

The Railroad Commission holds its monthly proration hearing tomorrow.

Tomorrow . . . all America sees the one that's truly new!

Like all '59 Chevies, the Impala Sport Sedan has Safety Plate Glass all around.

what America wants, America gets in a Chevy!

'59 CHEVROLET CHEVROLET

It's shaped to the new American taste with a lean, clean silhouette, crisp new contours, beautifully restrained accents. It brings you more spaciousness and comfort with a new Body by Fisher. It has a bright new sheen—a new kind of finish that keeps its luster without waxing for up to three years. New bigger brakes. Vast new areas of visibility. New Hi-Thrift 6. New handling ease and road steadiness. It's new right down to the tires!

Never before has an automobile manufacturer made such sweeping changes two years in a row. Chevrolet says new like nobody else with a fresh Slimline design that brings entirely new poise and proportion to automobile styling. Inside the new and roomier Body by Fisher you'll find truly tasteful elegance. And you'll have clear seeing from every seat. The new Vista-Panoramic windshield curves overhead—and there are new bigger windows, too.

When you take the wheel, you find Chevy's newness goes down deep. A new steering ratio makes handling easier. New suspension engineering gives you a more stable ride. There's a new Hi-Thrift 6 that goes and goes on a gallon. Vim-packed V8's. New and bigger brakes. Even tougher, safer Tyrex cord tires.

There's still more! A new finish that keeps its shine without waxing or polishing for up to three years. Impressive new Impala models. Wonderful new wagons—including one with a rear-facing rear seat. And, with all that's new, you'll find those fine Chevrolet virtues of economy and practicality. Stop in now and see the '59 Chevrolet.

The Bel Air 4-Door Sedan shows Chevy's new Slimline design.
