

School Board Election Scheduled Saturday, April 6

Census of Agriculture Report on 1945 Local Crops

Land in Ochiltree county showed a 6,583,134 more bushels of in 1945 than in 1940, a re-
cessed from the United
Census of Agriculture re-
Wheat acreage increased
8,678 to 303,980 acres, or ap-
proximately 34 per cent as compar-
ed to 1940. The 1940 census re-
ported 488 farms report-
ing 1940 census while only
one in statistics for the 1945

Information regarding farms
in acreage showed that 528
were reported in 1940 as com-
pared to 494 in '45 with 562,203

acres in farms. In 1940 there were
only 550,998 acres. The average size
of the Ochiltree county farm in-
creased from 1,043.6 acres in '40 to
1,138.1 in '45.
Cattle raising showed a definite
upward trend with 40,264 head of
cattle and calves in 1945. There
were only 17,213 head of cattle and
calves listed in the 1940 census by
402 farmers. A few more horses and
colts, including ponies were listed in
the later census; tabulation showed
837 head in '45 and 712 in '40.
There was a decrease in the mar-
keting and production of milk and

milk products over the five year
period. 774,859 gallons of milk were
produced in 1940 and only 624,659
in 1945. Cream sales went down
from 156,176 pounds to 84,218
pounds, while statistics on the sale
of butter showed that eight farmers
sold 1,676 pounds in 1940 and 1945
listed one farmer with 75 pounds
sold.
The production of sheep and
lambs showed little change over the
five year period; 25 farmers re-
ported 8,520 head in 1945 and 33
farmers reported 8,502 head in 1940.
Hogs and pigs showed only a slight

increase with 2,622 listed in '45 com-
pared to 1,793 listed in '40.
Ochiltree county rural folk have
increased their chicken raising ac-
tivity. When figures were compiled
for the late census there were 47,307
chickens on our farms; in 1940
there were only 238,770. Egg produc-
tion was stepped up in proportion
too. There were 390,061 dozen pro-
duced in 1945 compared to 238,770
dozen in 1940. There are only 1,669
turkeys on 51 farms in the county
now, and in 1940, 78 farmers re-
ported 6,783 birds.
Rye production increased from

2,255 bushels to 8,880 bushels while
acreage increased over 50 percent;
there were 498,148 bushels of barley
threshed in 1945 while the 1940 re-
cord showed only 89,594 bushels har-
vested. More sorghum was raised in
the past year than in 1940; accord-
ing to statistics there were 345,597
bushels harvested for grain and 24-
291 tons saved for hay and dry for-
age this year, and in 1940 there
were 12,096 bushels harvested and
10,389 tons saved for hay. 84,838
bushels of oats were threshed in
1945, 20,764 bushels in 1940; 1,548
acres of oats were cut for feeding

during the 12 months in 1945 and
999 in 1940.
The only grain crop showing a
decrease was that of mixed grains;
during 1940, 47,708 bushels were
harvested and last year 11 farmers
reported a total of 19,375 bushels.
Interesting also in the census re-
port was the fact that 384 farms re-
ported an expenditure of \$327,968 for
livestock and poultry feed, and in
1940, 350 farms reported \$109,263
spent for feeds. Vegetables grown
for farm households' use were val-
ued in 1945 at \$17,668 and in 1940
at \$17,174.

Perryton and Farnsworth Polls To Open and Close at 8 a. m. And 7 p. m.; Voting Urged

Ochiltree county voters will go to polls located at Perryton and the Farnsworth school Saturday, April 6, to cast votes in an election of directors in the Perryton Independent School District, it was emphasized Tuesday by school officials. The public is being urged to turn out and vote as three directors will be named to serve a three year term.

Mayor Asks Public To Conserve Water Supply

Mayor G. T. Leatherman is asking the public's cooperation in conservation of water and to refrain from watering lawns, trees and washing cars along with other activities entailing considerable use of water, it was announced Wednesday. One of Perryton's two water pumps is undergoing repairs, thus cutting the pumping capacity to approximately 300 gallons per minute. Repairs are expected to be completed by this week end. Plans were also announced for a third well to be dug. A contract will be let Tuesday, April 9, to dig a well with a minimum pumping capacity of 300 gallons and possibly 450. Contractors of Amarillo, Pampa, Garden City, and Wichita, Kans., along with others, will be on hand to make bids, it was said. Under the present system approximately 600 gallons per minute may be pumped by the two existing wells. The new well will be located south of the other two and near the tower. It can be completed within a week after digging is started.

Petitioned for reelection will be Roy Stinson, Stanley Key and Emil Hearn. Appearing on the ballot as additional candidates for these posts are Ray Grabeel, Walter LaMaster and A. W. Henry.

Those on the school board having two more years to serve are Harlan Hawk and George Dietrich. Aldon Bell and Virgil Castle have one more year to serve on the administrative group.

Voting polls will be maintained at the Perryton schools and at Farnsworth, it was pointed out. J. N. Conley will act as election judge and will be assisted at Perryton by Ward H. N. Gregg, A. K. Wooten and Ralph Durham. Assisting with the election at the Farnsworth polls will be N. P. Dear and Dean Conner. Hours between 8:00 a. m. and 7:00 p. m. are designated as voting time during the election.

Tennis Teams To District Meet Fri.-Sat.

Tennis activity in the Perryton schools is in full swing with preparations for winning teams in recent eliminations to attend a district tournament scheduled in Panhandle and White Deer Friday and Saturday, according to school officials. Boys will play at Panhandle Friday; girls at White Deer Saturday.

In the eliminations David Hummer won over Max Repligle in the senior singles and will represent the school in that capacity. Kenneth Turner will be his alternate. Max Repligle and Tommy Fletcher will play in the senior doubles with Richard Morgan their alternate.

Ralph Brumback is the entry in the junior singles with Myron Schroeder as alternate. In the junior doubles will be Don Rogers and Jerry Ward with Donald Graves, alternate.

Among girl teams will be Ara Nell Gan in the senior singles with Colleen Smith, alternate. Lura Lee Groves and Norma Flowers will represent Perryton in the senior doubles. Donna Clark will be alternate.

Entries in the junior girls singles and doubles were to be named this week.

Three Sections—18 Pages

NUMBER 14

Funds Donated Red Cross Total \$3,160

Tabulation of funds donated by Ochiltree county citizens to the annual Red Cross drive reported that \$3,160 was subscribed between the period March 1-31, according to Otis E. Burk, member and fund raising committee chairman of the local chapter. This is the minimum quota of \$470. Other officials wished to express their appreciation to citizens for their generous support to this drive. B. Sumpter, chapter chairman, listed in previous lists the following:

Victory Dry Goods Co., \$35; Mrs. W. M. Shrader, \$10; J. V. Stump, Pounds Home Store, Mr. and Mrs. W. E. D. O'Brien, Mrs. Jack Todd, O'Brien Lumber Co., \$25; G. O'Brien, Mr. and Mrs. Herman Smith, \$20; Mr. and Mrs. Dewey E. Wilson, \$15; Mr. and Mrs. L. E. Bellhart, \$12; A. A. Engle, Wiley Bryan, James E. Williams, \$10; Mrs. H. C. Brown, Jr., \$5; George B. Jackson, \$7.50; Slaughter, O. E. Enterline, Sutor, Debs Riley, Alva, \$5; E. D. Kelley, Mrs. Emma, \$2.50; Dwight Drake, Sparks, Houston Mizar, H. Wagner, M. A. Dearmond, D. Wayne Gyger, Ruby Ann, H. E. Smith, L. B. Wilson, L. B. Wilson, \$1.

Management of the Burk Company announces that the has secured the services of Miller, lately of the armed forces, in addition to the pharmacy. Mr. Miller began his duties Tuesday.

Pharmacist As Burk Drug

Management of the Burk Company announces that the has secured the services of Miller, lately of the armed forces, in addition to the pharmacy. Mr. Miller began his duties Tuesday.

pharmacist, Mr. Miller, has many years of experience in his prior to entry into military service. He was recently discharged from the Corps of Engineers at Ft. Tenn. For several years he was associated with the Fox Company in Amarillo and also in Amarillo.

Miller, the former Florence of Amarillo, and their two sons, John Lynn, age seven, and June, age three, will join her in Perryton when suitable quarters can be obtained. Shindler, veteran Perryton, or Mr. Miller will be on duty at all times to cater to the public in filling prescriptions, the management said.

Fortyteen Selective Service Men Discharged During March

Ragan, secretary for the county Selective Service, revealed this week that 44 discharged veterans from the armed forces had reported for duty during the month of March. While many of the men returned to this county, registered for the main part of selective service with the local board. Some of the men were in through other boards, but were discharged to local officials.

Legion Building Fund Now Totals \$6,290.50

According to Omar Truax, chairman of the fund raising committee for the Pierce Johnson Post No. 254 of The American Legion building fund, a total of \$6,290.50 had been collected up to Wednesday on the contemplated building. A goal of \$50,000 is the amount to be attained. At the present time solicitation is being made only among the membership of the Legion Post with later plans calling for the soliciting of subscriptions from the general public and organizations. It was said. Donors this week were the following: F. L. Garrett, \$100; Perryton Wholesale Candy Co., \$20; Sgt. Myrtle Mae Conley, \$10; J. W. Herrell, \$5.

Car License Figures Are Given April 1

Registration of cars, trucks and trailers in Ochiltree county at the close of business March 31, was one less vehicle than at the same time last year. Sheriff W. H. Lance, whose office has charge of car registration and issuance of tags, reported a total of 1,768 motor vehicle registrations for a total tax collection of \$33,149.63. All of this money with the exception of the small collection expense remains in the county for use of roads and bridges.

Breakdown of the 1946 registration is as follows: 1,090 passenger cars for \$12,304.39; 165 commercial trucks for \$8,469.50; 460 farm trucks for \$9,471.40; eight motorcycles for \$40.00; 40 trailers for \$2,739.25; seven dealer's plates for \$65.00.

Registrations in 1945 on April 1 were: 1,034 passenger cars for \$11,769.76; 145 commercial trucks for \$8,250.90; 552 farm trucks for \$11,961.62; three motorcycles for \$15; 35 trailers for \$2,617.00.

Total plates issued during 1945 were 2,439 for a total of \$40,431.34.

Fortyteen Selective Service Men Discharged During March

Ragan, secretary for the county Selective Service, revealed this week that 44 discharged veterans from the armed forces had reported for duty during the month of March. While many of the men returned to this county, registered for the main part of selective service with the local board. Some of the men were in through other boards, but were discharged to local officials.

Citizens Flock to Polls Tuesday To Elect Three Aldermen; 396 Ballots Are Cast

SERVICEGRAMS

Word was received this week that Technician Fifth Grade Finley Hamman sailed from his post in the Southwest Pacific and expects to be released from the army soon. He formerly lived here with his parents, Mr. and Mrs. A. B. Hamman.

Private First Class Eldon L. Gurley has been recently promoted to his present rank. He is serving aboard the USS General Omar Bundy with the Medical Department.

Private Ben T. Hardy has returned to the States from Europe and is at present stationed with a service company at Ft. Belvoir, Va.

John B. Hardy, MoM 3/c, returned recently from sea duty in the Pacific and is a crew member of the USS Gustafson DE-182, Florida Group, 16th Fleet, Green Cove Springs, Fla.

Discharged from the army March 2, Master Sergeant James F. Dowers has returned to his home in Ventura, California, according to an announcement made this week. He served overseas with the 35th signal detachment in the South Pacific before being transferred to Ft. MacArthur for separation. Sgt. Dowers wears the World War II victory medal, the American campaign medal, the Asiatic-Pacific theater medal, the Philippine liberation ribbon with three bronze stars and the Good Conduct medal. He will be remembered as "Jeff" by many Ochiltree county people, having lived

Initiate Ten Into Legion

Ten new members were initiated into the Pierce Johnson Post No. 254 of The American Legion at their regular meeting Monday, April 1, so states A. N. Dowers, post commander. The new Legionnaires joining the organization in the simple, but impressive rites were A. Malaney, Gene Lawrence, James L. Wright, Eldon Strickland, Elza Kutch, James Elrick Wilson, W. L. Collins, Lonnie Sutor, Chellis Gidley and Salomo Koch.

Among other business taken up was instruction by the commander to the Americanism Committee, composed of A. P. Spicer, Arvie Hale and E. D. Kelley, to investigate action to be taken on sending two boys to Boy's Day held at Austin in which a mock state governmental system is set up and boys attending are elected to the posts and given educational instruction.

In addition to the above the organization voted to investigate the possibility of getting an appraiser named for Ochiltree county, whose duty would be to appraise business ventures and lands which would accompany applications for loans of various types possible under the GI Bill of Rights.

A committee was appointed by Mr. Dowers to work on the establishment of a Junior Baseball League among children between the ages of 10 and 16 years to be sponsored by the local post. The committee was composed of George Paulk, Arch Talley and Ray McWilliams.

A half done job in terracing a field is worse than no terraces at all.

Voters flocked to the polls Tuesday in the largest turnout at any city election in recent years when 396 citizens cast ballots for the election of three aldermen for two year terms. Fourteen of this number voted ballots incorrectly and were disqualified by election judges. Sam Hergert was reelected, polling 373 of the votes cast. Debs Riley received 181 votes and Alton Boxwell, 180, completing the list of three elected. Boxwell was write-in on the ballot for the office.

Running fourth place as a write-in candidate was R. L. Bogan with 172 votes. Other write-in candidates were as follows: J. H. Stephenson, 6; and T. O. Pugh, 1.

Appearing on the ballot in addition to the above were the following: T. O. Patton, 135; J. A. Graves, 97; Jewell Anderson, 48; James H. Davis, 18.

Dr. J. C. May Dies Suddenly Wed., April 3

Dr. J. C. May, prominent physician and surgeon of this community, died suddenly Wednesday, April 3, at 3:30 p. m. in the Perryton hospital. He was 58 years old. At time of death he was preparing to go to Amarillo to enter the Veterans' hospital, where he had been receiving medical treatment for several years; but became acutely ill and was hospitalized here.

Funeral arrangements are tentatively planned to be held in the First Christian Church here Friday, April 5, at 3:00 p. m. Burial will be made in the Ochiltree cemetery.

Dr. May came to Ochiltree county in 1917 from Ft. Worth and became widely known throughout this area for his professional ability as a physician and surgeon and civic worker. He operated one of the first hospitals in the old Ochiltree townsite before moving to Perryton when it was established in 1919. A World War I veteran, he was elected first commander of the Pierce Johnson Post No. 254 of The American Legion when it was founded after the war.

See No. 9, Page 6

VFW Post Is Organized for Perryton Area

A Veterans of Foreign Wars Post was organized in Perryton Monday night at a meeting in the State Highway Department warehouse. O. C. Watson was elected as Commander and E. D. Kelley as Quartermaster.

Assisting with the organization was the following delegation from Borger: Robert Chumbley, Scott McCartney, A. L. Baker, A. L. Morrison and Mike Thompson.

Twenty-six members were enrolled at the first meeting. Commander Watson states that the charter roll will be held open for several weeks so that members enrolling can be considered as charter members. Veterans with overseas service are eligible for VFW membership.

Arrangements have been made to hold regular meetings in the American Legion Hall. The next meeting will be Tuesday, April 9, at 7:30 p. m.

JUST HERE and THERE

There are better things in store for Perryton in the future! This was clearly indicated by the interest in Tuesday's election when 396 citizens went to the polls to elect three aldermen. This was probably less than one-half of the eligible voters, but many more than have voted in years in city elections.

It's a good sign when citizens are sufficiently interested in governmental affairs to help select officials. It happens so often that a mere fraction of the entire citizenry is interested enough to go to the polls. Let's hope for a continuation and increase in participation in government by the people.

Sam Hergert, veteran city official, civic leader and manager of the Plainview Hardware, was paid a deserved tribute when he was reelected to the city council with 373 votes. Of the 396 ballots, 14 were thrown out as mutilated. This means that Hergert received 373 votes out of the 382 legal ballots counted.

Debs Riley, wholesale agent for the Continental Oil Co., goes on the council as a new member. He received 181 votes. Mr. Riley has lived in the Perryton area for many years and will make the city an efficient and trustworthy

See No. 2, Page 6

Variety Show Here April 15

A variety show from West Texas State College will include Perryton in the list of scheduled appearances, according to an announcement made this week. The show will be presented at the high school auditorium as a benefit program for the Perryton High School senior class at 8:00 p. m. Merle Cudd, president of the Perryton seniors will be in charge of the event.

Also included on the roster will be appearances in Amarillo, the Panhandle Press Convention, Dumas, Spearman, Borger and Phillips. The group of 25 students directed by Glenn A. Truax will include a single band of 12 pieces, several vocalists, a tap dancer, LaNell Ekelund of Amarillo, a tumbling act by the West twins, Opal and Ruby of Silverton, instrumental soloists, and a reader, Dorothy Rae Blivins of Tulsa. The group also functions as a choir.

At the Ellis

Thurs.-Fri., April 4-5—Dennis O'Keefe, Marie McDonald, Barry Sullivan, Blinnie Barnes in "Getting Gertie's Garter."

Sat. April 6—Kirby Grant, Fuzzy Knight, Poni Adams in "Trail to Vengeance."

Sat. Preview, 11:45 p. m.—Jess Barker, Julia Bishop in "Idea Girl". Sun.-Mon., April 7-8—Randolph Scott, Ann Dvorak, Edgar Buchanan and Rhonda Fleming in "Ablene Town."

Tues.-Wed., April 9-10—Vincent Price, Lynn Bari, Frank Latimore in "Shock."

Thurs.-Fri., April 11-12—Pat O'Brien, Ruth Warwick, Alan Hale, Edgar Buchanan and Audrey Long in "Perilous Holiday."

Cement Block Factory To Open Soon

A new industry to relieve the shortage of building materials will be ready for business in Perryton about May 1. It is a cement block factory now being installed by J. S. Slaughter and Robt. Lawrence. The plant will be located on East Brilliant avenue on the site of the old Perryton Wheat Growers elevator which was destroyed by fire several years ago.

Special machinery for making an improved block has been ordered. A 30x60 ft. building will house the factory, which will represent an investment of about \$15,000. The blocks will measure 58x12 inches in size.

Mr. Slaughter and Mr. Lawrence plan to develop this business for Gene Lawrence and John W. Slaughter and four other returned war veterans, with the business eventually being controlled and operated by veterans.

Last Rites for L. V. Gross Held

Funeral services for L. V. Gross of the Balke, Okla. community were held from the Blue Mound church, Wednesday afternoon, March 27, at 2:30 p. m. Rev. Henry C. Thomas officiated.

A male quartet composed of Robert Lawrence, Rufus Bolerjack, Frank Herndon and Troy Bolerjack were accompanied by Mrs. Fay Ferguson, and pall bearers were Ed Pribble, T. P. McLain, John Williams, L. V. Noe, Ray Schweitzer and J. W. Gayler. Mrs. Margaret Keefer, Mrs. Dale Smith, Mrs. F. D. Mays, Mrs. R. T. Pittman, Mrs. Raymond Jewell and Mrs. O. E. Enterline.

Lycurgus Vernon Gross was born October 10, 1873 in Gunnerville, Alabama. His father and mother, Isaac Gilmore and Caroline Gross preceded him in death. March 4, 1906 he was united in marriage to Minnie May Gregory at Elk City, Okla. Shortly after the marriage they came to his claim near Balke, Okla.

To this union were born nine children: eight daughters and one son. One daughter, Tessa, preceded him in death. His other daughters are: Mrs. W. H. Baker, Mrs. E. C. Lile, Mrs. R. L. Johnson, and Mrs. Kenneth Anderson, all of Perryton, Texas; Mrs. S. J. Maxwell of Liberal, Kansas; Mrs. Orville Gray of Dumas, Texas; and Mrs. J. C. Harris of Gray, Oklahoma. The son is

Herald to Close for Press Convention

The Herald office, newspaper plant and office supply store will close next Thursday, April 11, at noon and will not reopen until Monday morning, April 15. We are closing our doors to allow our staff to attend the annual convention of the Panhandle Press Association at Amarillo, April 11-13. We ask your cooperation in getting news and advertising copy to us just as soon as possible so that the Herald can be printed Wednesday. To print on this day, we must have all copy in the office not later than Tuesday evening. We thank you!

Soap-Making Tree in Middle America

PROF. ALFRED F. BUTLER, Chief of the Pan American School of Agriculture's Department of Agronomy, checks on development of an African Palm at the School's experimental plantation.

IT'S a long way from this young African palm to the bar of soap in a North American bathroom, but more and more soap is being "grown" these days. Oil pressed from palm seeds or kernels goes into about thirty-five percent of all soap manufactured.

The African Palm being inspected by Prof. Butler is one of the twelve varieties grown by the student-farmers of the Pan American School of Agriculture in Honduras. This school was established in 1941 by the United Fruit Company for the purpose of giving Middle American students a free, modern education in scientific farming. Students are drawn from all ten Middle American republics: Mexico, Guatemala, El Salvador, Honduras, Nicaragua, Costa Rica, Panama, Haiti, Cuba and the Dominican Republic.

One of the top aims of this unusual school is to develop new

crops which independent citizen-farmers can produce profitably. Oil-bearing palms are fruits of this research. The African Palm is only one of twenty-five species of palm which experimentation has proved can be grown commercially in Middle America. Previously palm oils were grown only along the African coast, in the South Pacific, and in Asia and had to be carried half-way around the world to the United States. Although largely a war-time innovation, the palm oil industry of Middle America is now expanding into a permanent occupation which will give our neighboring republics a more rounded economic life.

Palm oils, in addition to making soap, are used extensively for oleomargarine, cosmetics, candles, dental creams, polishes, "tin" cans, glycerines and a host of other products for U. S. industry.

Legion Asks Real Priority for Vets to Buy Surplus Property

INDIANAPOLIS, Ind. — Armed with a growing accumulation of evidence that veterans are being denied opportunities in the purchase of surplus war property, the American Legion, through its National Commander John Stelle, is demanding:

1. Ranking priority for the veteran in the purchasing of surplus property, ahead of government agencies and all other groups.

2. Accurate and timely dissemination of surplus property news and information, so the veteran may know in plenty of time about all scheduled sales.

3. A system whereby, after notification is received by the veteran, he will be assured that the property is available and for sale to him as a veteran, to eliminate unnecessary traveling and expense and disappointment after he has been informed of the availability.

4. A change in the law and regulations to permit the veteran to buy surplus property for his personal use instead of only for business purposes.

5. The opening of surplus lands to veterans for homesteading and farms.

Complaints Pouring In

Veterans from all parts of the nation are deluging national headquarters of The American Legion here with complaints of the "run-around" being given them in their efforts to purchase surplus property.

"It is the same old story that we had with veterans' preference in employment where the vets got the preference and somebody else got the jobs," Commander Stelle said. "Now the veterans are getting priority certificates but somebody else is getting the surplus property."

The many letters received at national headquarters all tell the same story, Commander Stelle said.

"Veterans needing automobiles, trucks, tractors, typewriters, refrigerators, and other goods and equipment to get into business for themselves, simply are unable to purchase them. Most of them succeed in securing their pink slips certifying to their priority to purchase what they want but they never get to use them. What they want is either not for sale or has been sold. Often they are advised about a sale after it has been held. This is a matter that Congress should look into with a lot of vigor."

"All complaints received at national headquarters are being forwarded to the Washington offices of The American Legion for action," Commander Stelle said.

BONDS for the VICTORS

Signal Corps Photo
Army Divers. There is always work to do for the Engineers' port construction and repair group. Victory Bonds will provide them with additional comforts while on duty overseas.

U. S. Trainers Department

Promoting Air Education

Washington — Aviation education is being promoted by four of the domestic lines of the United States which maintain special departments staffed by full-time directors and able research and field workers.

Non-profit Air Foundation

Cleveland — Civic and business leaders here have formed a non-profit Air Foundation which is offering scholarships to advance aviation.

W. G. Hibbs, Mrs. Frank Hibbs and Mr. Taylor were Amarillo visitors Wednesday.

Mrs. Glenn Tarbox has returned home from Dallas where she spent a week visiting relatives.

Dr. Manse Wood Will Re-open Dental Office

Dr. Manse Wood announces that he will re-open his dental office in Perryton, Monday, April 8. Before leaving Perryton for service in the United States Navy, Dr. Wood purchased the medical building at 501-503 South Main, built and used as an office for many years by Dr. J. C. May.

This building has been given a thorough renovating and decorating job with ample quarters for a complete dental office and clinic. There is a large reception room, two operating rooms, laboratory, X-Ray room, business office and patient's room. For the past year, the REA has officed in this location.

Mrs. Johnnie Holland, R. N., will serve as receptionist for Dr. Wood.

Dr. Wood has been a resident of Perryton for 15 years, opening his office here after graduating from dental school. He served 26 months as a dentist with the Navy on the West Coast and in the Philippines. His many friends and patients welcome his return to the professional and civic life of the Perryton area.

Four Local Men Attend Lubbock

Of the more than one thousand veterans enrolled in Texas Technological College of Lubbock this semester, the following four are from Perryton:

Charles Warren Cudd, son of Mr. and Mrs. Jess E. Cudd, junior business administration major; John C. Gramstarr, son of Mrs. Harriett P. Gramstarr, freshman agriculture major; Thomas J. Lovett, son of Mr. and Mrs. Jack H. Lovett, freshman accounting major; and Ronald McCarty, son of Mr. and Mrs. Martin McCarty, sophomore geology major.

Cudd and McCarty attended Tech before entering the armed forces.

Ranger Club is Transporting Boys Out for Football

Members of the Perryton Ranger Club are cooperating with Coach Floyd Murray of the Perryton High School by transporting boys to their homes each afternoon after spring football practice. This announcement was made this week by President Yancey Apple of the Ranger Club.

The club membership has been divided into four groups with captains Drew Ellis, Harry Nail, Mark Burton and W. L. "Pood" Herndon are the group captains.

Ellis has charge of transportation this week. Harry Nail will line up the cars for the week of April 8 with Mark Burton assigning cars the week of April 15. "Pood" Herndon will captain the group for the week of April 22.

This cooperation on the part of the Ranger Club allows boys who live on rural bus routes to get in spring football training.

Bookkeeping and Accounting Systems at Stewart Printing Co.

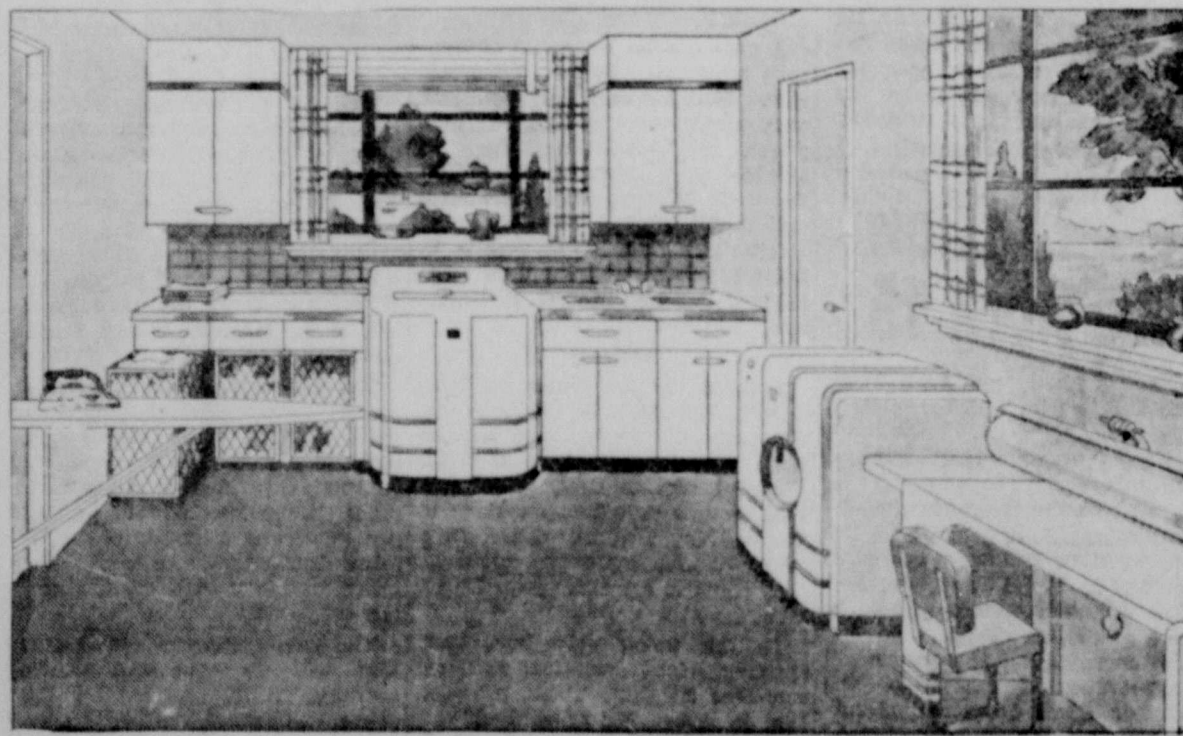

Kansas' Flying Governor

Topeka—Gov. Andrew Schoepel, who uses an airplane in getting about the state, estimates that he gains the equivalent of two days a week by flying.

Gases and flame throwers developed by the Chemical Warfare Service of the U. S. Army are being used extensively to exterminate locusts, the boll weevil, the corn borer, potato hopper and other pests ruinous to crops.

Any feed or grazing which might flavor milk should be fed after the cows are milked.

The Electric LAUNDRY Center

A NEW IDEA FOR HOME BUILDERS AND REMODELERS

Major inconveniences and minor irritations that once gave "Blue Monday" its bad name are done away with in the new Laundry Center. It's a work-saving idea that's sweeping the country.

Everything that is needed to turn out a week's washing with a minimum of effort is arranged on a production line basis. There's a special sorting and sprinkling table next to the automatic clothes washer. Clothes baskets are portable—and the laundry sink has deep bowls. The electric dryer fluff-dries everything from diapers to bedspreads and eliminates de-

pendence on the weather. A built-in ironing board folds into the wall when not in use. A cabinet-type ironer, at which you may sit down while you iron, is also provided.

With modern laundry appliances, washing is not the damp, dripping job of former years, so the laundry need not be relegated to the basement, garage or servant's house. A first floor Laundry Center, adjacent to the kitchen, can be step-saving, light, airy. It may double as a sewing and mending center, a study spot for the youngsters, a play place for children on rainy days.

Free Girl Scout Camps Are Being Planned for Summer Months This Year

Three types of camps for Girl Scouts and camping activities were the main subject of discussion at a Girl Scout Council meeting last night at the Methodist church. Miss Norma Ewing, area representative for the Girl Scout Council, led the discussions and the local council formulated plans for summer camping activities among the local troops.

The first type of camp discussed was the troop camp which is held for a period of one week in the city park. The second type of camp discussed was the day camp which will be held for a period of four days.

The third type of camp discussed was the overnight camp which will be held for a period of two nights.

Miss Ewing announced that the Girl Scouts of Perryton are planning to hold a series of camps during the summer months.

The first camp will be held at Glen Canyon the last week of March and the first three weeks of April.

Only a limited number can be accommodated and the council voted to send registration fees of \$5.00 each.

Miss Ewing was asked to investigate the possibility of obtaining a site for the Girl Scouts of Perryton county park site just west of Perryton.

Miss Ewing stated that she will be in Perryton May 3 for conferences with scout leaders and council members.

Present Tuesday evening were Mrs. R. B. Orrill, council president and the following council members and troop leaders: Mesdames Pearl Teeter, A. J. Kelly, Jack Allen, A. C. Witt, Charley Kent, C. B. Rogers, Beulah Birdwell, Dorothy Zeigler, Albert Ackley and Miss Ewing.

Tuesday afternoon, Mrs. Witt, Mrs. Allen and Miss Ewing inspected sites for the day camp.

Miss Brillhart Is Complimented

A party Saturday night in the Van Stewart home was the compliment of Misses Carmen Keith, Beth Trolinger and Pat Barlow to Miss Nettie Mac Brillhart on her seventeenth birthday.

The affair was a surprise to the honoree, and the lace covered table held a centerpiece of jonquils and tapers in a crystal epergne. Two birthday cakes added a festive note to the table decorations.

Games and dancing filled the entertainment hours after which hot dogs, chili and cokes were served with the cake to Marjorie Hummer.

Barbara Buckley, Billy Jones, Russell Revis, E. R. Bell, Don Stephenson, J. C. Jones, Jim Dunlavy, Delmar Igou, the hostesses and honoree.

Misses Keith, Brillhart and Barlow proceeded to the home of Miss Beth Trolinger after the party to be her guests for the night.

Miss Robertson, Robert Sharpe Marry in Borger

Mr. and Mrs. Leonard Robertson announce the marriage of their daughter, Arlette, to Robert Sharpe, son of Mr. and Mrs. I. H. Sharpe. The marriage vows were spoken at 6:30 p. m. on March 30 at the First Baptist church in Borger when Rev. Cullen read the double ring ceremony.

The bride was gown in white cable net over satin and carried a white handkerchief. Her corsage was of pink and white carnations, and an arrangement of the flowers was also worn in her hair.

She was attended by the groom's sister, Mrs. George Lewis, who as matron of honor wore a blue wool suit. Mr. Lewis attended the groom as best man and little Sue and Richard Lewis were also part of the bridal party.

Following the ceremony, the wedding party was joined by a group of friends for an informal evening.

Both the bride and groom are graduates of the Perryton school. Mr. Sharpe was discharged last July 12 after four years of service in the army. He is employed by the Tri-State Insulation Company and he and his bride will reside in an apartment on Second street.

Mrs. T. M. Osborne returned home Sunday from Lubbock where she had undergone surgery on March 5 at the Lubbock Memorial Hospital. Her sons, Ray and Landrum, went down Saturday to bring her home.

Lester Barnes, Kenneth Fuller and John Smith spent Tuesday in Brownwood on business.

Mrs. Todd Has Party for Janye

Mrs. Jack Todd entertained 15 young guests March 27 to compliment her daughter, Janye, on her sixth birthday.

Focal point of interest was the birthday cake, and after the game hour, refreshments were served.

Janye's invited guests were Glenda McGibbon, Robby Logan, Judy Woodward, Virginia McLanahan, Sarah Mize, Gaynelle Leatherman, Dixie Conley, Sue Ann Brashears, Janice Schuster, Barry Acker, Jan Anderson, Freddy Smith, Tommy Johnson, Joan Johnson, Jimmy Todd, Donna Jo Yates, Stacy Ellis and Sidney Slack.

People of Germany Studied by Club

The life, customs and food of Germany were discussed when the McMillen Home Demonstration club met in the lounge at the Ochiltree building Thursday afternoon, March 28. Mrs. John Schoonover was hostess for the meeting.

Mrs. Leon Brown gave the discussion on the life and customs of the people of Germany; Mrs. Delbert Miller talked of the food grown in Germany. Later in the program Mrs. Verdie Wheeler spoke on infant care.

Present were Mesdames Martin McCartor, Fred Tarbox, Ellis Matthews, Frank Gipson, Kenneth McLain, Leon Brown, Delbert Miller, Chester Graham, Herman Ball, J. H. Woodward, B. L. Barnes, John Schoonover, Clyde Herrington Jr., Hollis Gossett and Wheeler.

The next meeting will be April 12 in the home of Mrs. McCartor with Mrs. Herrington, co-hostess.

Study of Prints And Paintings Studied by Group

Decorative prints and paintings were discussed by the members of the Fine Arts Department of the Sorosis Club when they met at the clubroom in the Hotel Perryton last Wednesday. Hostesses were Mrs. A. P. Spicer, Mrs. J. R. Thomas and Miss Nellie Perry.

During the business hour the group voted to donate \$10.00 to the National Cancer fund.

"The Language of Painting" was Mrs. Virgil Castle's topic, and Mrs. Vance Apple gave a paper on etching and engraving. Lithography was ably discussed by A. P. Spicer.

A refreshment plate was served to Mesdames Stanley Key, Arch Talley, John Sammons, J. A. Anderson, Vance Apple, Virgil Castle, Oscar Flowers, C. B. Rogers and the hostesses, all members. Visitors were Mesdames A. K. Wooten, R. B. Orrill, Robert Lawrence, Harriet P. Gramstorf, W. E. McMillen and Mr. Spicer.

LeMaster Home Scene for Two Bridge Parties

Mrs. H. J. LeMaster, Mrs. Miles Edwards and Mrs. W. R. Cayler were co-hostesses for the two parties last Wednesday in the LeMaster home.

An arrangement of snap dragons graced the dining table while carnations were used effectively as a mantle decoration.

In the games following the luncheon Mrs. LaRue Norris took high score and Mrs. Cecil Dodd, second high and traveling prize. At the dinner bridge Wednesday evening Mrs. W. L. McConnell played high. Mrs. J. H. Brashears, second high, and Mrs. W. C. Herndon took the traveling prize.

Guests for the bridge luncheon were Mesdames H. C. Sanford, Ross Leatherman, H. C. Brillhart, John Bolin, L. T. Tucker, A. C. Witt, Aldon Bell, Crawford Sims, O. C. Watson, LaRue Norris, Dean Blank, Cecil Dodd, G. L. Kengle, Manse Wood, O. C. Doane and Dean McCutcheon.

Enjoying the evening party were Mesdames G. W. Acker, R. P. Hurn, R. E. Bell, Claud Allen, J. H. Brashears, Glenn McGibbon, Jack Todd, Fred Osborne, W. L. McConnell, Bob Logan, Max Boyer, W. C. Herndon, R. R. Ward, S. S. Dodson, Vance Apple, and Miss Georgia Hurlhey.

Society Completes Current Study Course

The W. S. C. S. of the Methodist church completed their current course of study when they met at the church last Thursday afternoon.

Mrs. R. B. Orrill conducted the lesson on "The Fatherhood of God." The members who were present went to the Red Cross room to sew following the church meeting.

Still More Women Needed for Work!

Mrs. J. F. Cox is again issuing a call for volunteer workers to help sew for the Red Cross on Tuesday, Wednesday, Thursday and Friday afternoons next week. Mrs. Cox, production chairman for the Ochiltree county Chapter, states that the capes for refugees being made must be completed by May 1. Workers may take garments into their homes, also. Next week's Herald will publish a list of the workers who have helped on the project during recent weeks. There is quite an amount of hand work on the capes and women who like to do this work may take garments to their homes.

Sunday Dinner

Mr. and Mrs. Worley Adair had several guests at their home for dinner Sunday, and in the late afternoon home made ice cream was served.

Enjoying the day were Mr. and Mrs. Bill Fletcher and son, Mrs. Susan Fletcher, Mrs. Julia Edge, Mrs. Maria Fletcher, Mr. and Mrs. Byron Fletcher and family, Mr. and Mrs. Andy Wagner and Leata, Mrs. Lydia Holdeman, Mrs. Frank Holdeman and children and Alene and John Andy Wagner.

Former Residents Visiting This Week

Visiting old friends in Perryton from Sunday until Wednesday were Mr. and Mrs. Ferd Funk of Wichita, Kansas and Mr. and Mrs. Seville J. Funk and children, Donnie and Joy of Milan, Kansas.

Seville, who has been discharged from the army after serving in Italy, owns and operates a drug store in Milan at the present time. The group was enroute to Idaho Springs, Colo. where they will spend some time vacationing.

Stanley-Tracy Vows Solemnized

The marriage of Mrs. Josephine Stanley to Dan Tracy was solemnized Saturday evening, March 30, at the Baptist parsonage. Rev. O. C. Curtis officiated.

Mr. Tracy is associated with the McBride Machine Shop, coming to Perryton some time ago from Corpus Christi. For the past four years, Mrs. Tracy has made her home with her daughter, Mrs. Henry Balzer.

The couple are at home in the Rifeberg apartment on First street.

Canadian Resident Honored, Birthday

Mrs. L. S. Willis prepared a lovely turkey dinner Sunday to honor her mother-in-law, Mrs. C. H. Willis of Canadian on her seventy-sixth birthday. The honoree was formerly a resident of Perryton.

Plates were laid for Mr. and Mrs. C. A. Zirkle, Mr. and Mrs. P. W. Werniske, Mr. and Mrs. L. W. Werniske, Mr. and Mrs. L. S. Willis, Betty Jean, Jane and Linda Jo, and Mrs. C. H. Willis.

Dr. Huff to Speak At Senior Fete Tuesday Evening

Dr. Huff of Howard Payne College at Brownwood will address the Perryton High School Senior class at the annual banquet given for them by the Baptist Women's Missionary Society. The banquet is scheduled for Tuesday night, April 9, and committees are busy making preparations for the affair.

Committees on invitations, program, decorations, menu and serving and arrangement and dishes have been appointed by the W. M. U. president, Mrs. Virgil Castle.

This year the banquet will be a carnival feast and the carnival motif will be noted in table decorations and place cards as well as the menu.

Between 55 and 60 seniors will be served.

Mrs. LaVaun Pattison, Mrs. Ralph Pattison, Mrs. Jesse Russell and Mrs. Lloyd Furnish spent Friday in Amarillo.

Dinner Honors Mrs. H. C. Barlow

A group of relatives and friends gathered in the home of Mr. and Mrs. J. D. Copeland Sunday to help Mrs. H. C. Barlow celebrate her seventy-fourth birthday.

A delicious potluck dinner was served at noon; fried chicken was the main dish.

After dinner a program was presented and the remainder of the afternoon was spent in singing and visiting.

Those enjoying the day were Mr. and Mrs. H. C. Barlow, Sr., E. C. Barnes, Guy Cooper and family, Guy Gruver and Marlene of Gruver; Mr. and Mrs. Lester Schwaik and Bobby, Gray, Okla.; Mr. and Mrs. A. J. Reimer and Marvin.

Boyd, Okla.; Mr. and Mrs. Harry Reimer, Beaver, Okla.; Mr. and Mrs. Harry Barlow and Pat, Mr. and Mrs. Leonard Barlow, Mr. and Mrs. R. J. Barlow, Mrs. Conner, Rev. and Mrs. O. C. Curtis and Lynn, Mr. and Mrs. Kenneth Ward, Elk City, Okla.; Mr. and Mrs. Horace Smith and Freddy, Mr. and Mrs. Verbon Smith, Elaine and Don Dietrich, Joy Green, Olene Cline, Maxine Cooper, Bob Stark, Beth Trolinger and the host and hostess, Mr. and Mrs. J. D. Copeland.

Mr. and Mrs. J. L. Smith left Monday for Tallesquah, Okla. to make their home.

Mr. and Mrs. Roy Carter spent the week-end in Childress.

W. M. U. Meets for Regular Study

The Baptist ladies met in their respective circles of the W. M. U. for their regular Bible study last Thursday.

Mrs. T. P. McLain was hostess for the Lawrence circle meeting in her home. Members present were Mesdames J. S. Slaughter, J. L. Blackburn, Ray Phagan, J. D. Wade, Oscar Flowers, Virgil Castle, Paul Bowen, Miss Sammie Roach and Mrs. Horace Smith, teacher.

The Williams circle met in the home of Mrs. Holly Palmer for their hour of study. Those attending were Mesdames G. I. H. Key, Stanley Key, G. D. Holt, A. K. Wooten, F. M. McGee, Herman Morgan and C. H. Williams.

Nine members were present at the Curtis circle meeting in the home of Mrs. Val McLanahan. Mrs. J. R. Thomas and Mrs. A. M. Horan led the Bible study and Mrs. McLanahan served to Mesdames Clyde Cofer, C. C. Carter, J. C. Cooper, J. H. Stephenson, H. C. Williams, Thomas and Horan.

Methodists Hold Children's Workers Clinic Wednesday

Over 100 children's workers and pastors of the Methodist churches in the Perryton district were in Perryton last Wednesday to attend the annual Children's Workers Clinic at the local church. Representatives of the Perryton, Follett, Darrouzett, Booker, Spearman, Stinnett, Phillips, Berger, Sunray, Dalhart, Morse, Stratford and Gruver Methodist Churches were in attendance.

Mrs. H. L. Thurston, chairman of children's work in the Perryton district, stated that the district was fortunate to have three outstanding leaders in children's work to take part in the clinic program.

Mrs. Ewell Crosby of Seymour, director of children's work of the Northwest Texas Conference of Methodist Churches taught the course offered for junior leaders; Miss Mattie Sue Howell, Lubbock, conference youth worker, taught the intermediate group leaders; Mrs. John English, Vega, district director of children's work in the Amarillo district was the primary workers instructor for the clinic.

Leading the study for the group of beginner and kindergarten workers was Mrs. H. D. Malone of Perryton, and Mrs. Thurston taught the nursery workers course.

Lunch was served at noon by members of the local Women's Society for Christian Service.

Missouri Avenue Club Meets April 12

The Missouri Avenue Home Demonstration club will hold its next meeting on Friday afternoon, April 12 at 2:30 p. m. Mrs. A. W. Henry will be hostess in her home.

All members are urged to attend and visitors are welcome to attend this meeting.

Steak Fry for Class at Lake

Members of Mrs. A. K. Wooten's Sunday School class of the Baptist church enjoyed a steak fry at Lake Fryer Tuesday evening.

Attending the affair were Messrs. and Mesdames Leon Brown, Buford Cagle and Sue, George Parker, Jr., Bill Parker, Bob Schuster, Joe Watson, C. H. Williams and Bob and Mrs. Wooten.

Mrs. Brillhart Entertains Club

Mrs. H. C. Brillhart entertained members of the Friday club and a number of guests with bridge in her country home last week. Mrs. Glen McGibbon took high score for club members and Mrs. L. T. Tucker high for guests.

Seated for the games and the refreshment plate were Mesdames Max Boyer, Vance Apple, Glen McGibbon, LaRue Norris, W. C. Herndon, Harlan Hawk, L. T. Tucker, A. C. Witt, John Bolin, A. J. Kelly, H. J. Boisdorf and A. V. Goff.

Farewell Party Favors Smiths

Mr. and Mrs. J. L. Smith were favored at a farewell party Saturday evening in the home of Mr. and Mrs. Chas. B. Jackson. The Smiths are leaving Perryton to make their home in Tallesquah, Okla.

Hours of informal entertainment and music were culminated with the refreshments of cake and coffee, and the honorees received lovely gifts.

Mrs. W. R. Symons assisted Mrs. Jackson with the hostess duties.

McGees Hosts for Dinner Party

Mr. and Mrs. F. M. McGee were hosts to several of their friends at dinner Friday evening. The meal was followed by games of "42".

Their guests included Messrs. and Mesdames Val McLanahan, A. S. Brillhart, L. T. Tucker, Raymond Bowen, C. B. Rogers, O. C. Shearer, Mrs. Pearl Wade, Mrs. Sheldon Wilson, Mrs. Marge Black, A. F. Cutter and Emery and Otha Castle.

Mrs. John Osterbahr and Ken left for their home in Franklin, Neb., Tuesday after a week's visit in the home of her parents, Mr. and Mrs. J. W. Cayler and with other friends and relatives.

Mr. and Mrs. Harry Cayler, Pampa, were Perryton visitors over the week-end.

Mr. and Mrs. Dempsey Malaney and children spent Saturday in Pampa transacting business.

Mrs. B. J. "Grandma" Jackson and Lily Jackson were overnight visitors in Perryton Monday.

Mr. and Mrs. Frank Hibbs and Frank Jr., and Mr. and Mrs. Pete Lane and Barbara Lee returned the first part of the week from Fairfax, Okla. where they visited Mrs. Hibbs' and Mr. Lane's parents.

Bottle Note Answered 10 Years Later

Mrs. Naoma Hockinson is shown at Seattle, Wash., with the answer to a letter she wrote 10 years ago. At that time, when she was 15, she tossed a bottle into Puget Sound containing a note: "Naoma Sheehan, 1411 N. 51st Street. Whoever finds this bottle, write me a letter." So 10 years later an answer comes from W. W. Messersmith of Red Bluff, Calif., discharged sailor who found the bottle in May, 1944, on the beach of Eniwetok Atoll in the Marshalls.

PHS Players Present Plays

The Perryton High School Players will present three one-act plays Friday, April 12, at 7:45 p. m. in the high school auditorium. The plays will be under the direction of Miss Inez Franz, dramatics instructor.

A well-organized program has been arranged. Miss Franz stated, with plays to be presented consisting of "Mooncalf Magford," "Suppressed Desires," and "The Valiant."

A nominal admission fee will be made with all proceeds to be used for the purchase of new equipment for the stage. It was further stated.

CARD OF THANKS

I sure think you folks were pretty nice to me while I was sick in the hospital. Flowers, cards, toys and visits. Gosh but I am thankful.

Joe Bill Kelley

14-11-p

Judge and Mrs. D. D. Shanks were in San Angelo over the week-end visiting with their son Mr. and Mrs. David Shanks, Jr.

Mr. and Mrs. Werner Lehman, Denver, Colo. left Thursday for Chickasha, Okla. where they will visit his brother Ted Lehman and Mrs. Lehman. They were guests of his parents, Mr. and Mrs. John Lehman and his sister, Mrs. Kenneth Cude while they visited in the Gray, Okla. and Perryton vicinity.

Delos Pugh, student at W. T. S. C. Canyon, spent the week-end with his parents, Mr. and Mrs. T. O. Pugh.

"Teen Agers" Musical Show On April 17

"Bash Street" a musical show, is now in rehearsal by the "teen agers" of the "Wagon Wheel," Perryton teen-town recreation center. The show will be presented in the school auditorium, April 17, 8 p. m.

Included in the cast are: Vera Jo Mitchell, Velma Bowles, Jimmy Key, Gene Cooper, Ruth Wade, Carol Lawrence and Marjorie Hummer.

Proceeds will go to the "Wagon Wheel."

Among the songs will be the following popular hits: "Somebody Loves Me," "My Man," "How Can You Do Me Like You Do," "Do Do," "St. Louis Blues," "Stormy Weather," "Blues in the Night," and "Basin Street Blues."

Vernon Hergert Joins Plainview

Cpl. Vernon Dale Hergert, lately of the U. S. Air Forces, will be associated with the Plainview Hardware Co. It was learned this week. The son of Mr. and Mrs. Sam Hergert, he was with the Boeing Aircraft Corporation, Wichita, Kans., prior to entry into the service in March of 1944 at Ft. Riley, Kans.

Basic training was received at Shepherd Field, after which he was transferred to Pratt, Kansas, for a short tour of duty before going overseas. He sailed from the West Coast Dec. 18, 1944, and spent 14 months on Guam in the Western Pacific, returning to the States Jan. 22, 1946. He was discharged Feb. 17 at Ft. Bliss and is entitled to wear the Presidential Unit Citation with two bronze stars.

Mr. and Mrs. Hergert have been visiting in Ft. Worth and recently returned to Perryton where they are residing at 514 Southwest 4th St.

McMillen Farm Bureau to Meet

The McMillen Farm Bureau will conduct a meeting at the McMillen School April 12, at which will be featured an Amateur Night program which will last approximately one hour. Harvey Urban will act as master of ceremonies and prizes will be awarded among those participating. Admission will be ten cents per person. It was said.

Lions Met Tuesday

More than 35 members and guests of the Lions Club met at the Hotel Perryton for their regular luncheon Tuesday noon to hear an address by George Brown of Ft. Worth, lay worker for the Texas Christian churches. Mr. Brown spoke on the religious trend in America and rapid gradual disinterest apparent in all communities. He issued a special appeal for increased church attendance inasmuch as April 21 is Easter Sunday.

Free Ice April 13

J. H. Shearer of the Shearer Ice Company announced Monday that this year, as in past years, 50 pounds of ice would be given free during Saturday, April 13, to those calling for same.

Air Cargo

Figures compiled by the Air Transport Association of America reveal that the major airlines plan at an early date to increase their cargo carrying capacity more than five fold over the estimated 26,736,389 ton miles flown last year as equipment becomes available.

Seventy-Four ARC Workers Die In Overseas Service

WASHINGTON, D. C.—Seventy-four American Red Cross workers lost their lives overseas and 182 received military and civilian decorations in the second World War. It was announced by Basil O'Connor, National Chairman. The totals are calculated as of March 15.

"These Red Cross people died, not only in the service of their country, but in direct and unselfish service to the individual men of the American armed forces in every war theater," said O'Connor. "The girl who was killed by a bomb at the Anglo Beachhead in Italy, the field director or killed by mortar fire in Manila, and the others who died on foreign duty symbolize the ideal of the American Red Cross."

O'Connor disclosed that Red Cross Bronze Medals would be awarded posthumously to any workers "who died in the service of the American Red Cross during the second World War and as a result of such service."

The highest military award earned by Red Cross personnel during the war was the Silver Star "for gallantry in action." The three recipients were James P. Shaw, West Haven, Conn., Richard M. Day, Kirkwood, Mo., and John P. Ramsey, North Columbus, Miss.

The President's Medal for Merit was awarded to Harvey D. Gibson, American Red Cross commissioner in the European Theater of Operation from 1942 to 1945 and to Stanton Griffiths, who served similarly in the Pacific Ocean Area from Sept. 1944 to July 1945.

Other awards include: 83 Bronze Stars and 32 Medals of Freedom for outstanding services; 15 Purple Hearts, two of them to women.

Foreign decorations have come from British, Italian, Polish and Belgian governments, including the Italian Cross of Military Valor to Esther Richards, the first American Red Cross woman to lose her life through enemy action. Eighteen civilian war relief workers were awarded the Philippine Liberation Ribbon "to express the profound

An Itemized Statement

An artist employed to renovate and retouch the great oil paintings in an old church in Belgium, rendered a bill of \$62.04 for his services. The church directors, however, required an itemized bill, and the following was duly presented and paid:

For correcting the Ten Commandments	\$ 5.12
For renewing Heaven and adjusting the stars	7.14
For touching up Purgatory and restoring lost souls	3.06
For brightening up the flames of Hell, putting new tail on the Devil, and doing odd jobs for the damned	7.17
For putting new stone in David's sling, enlarging head of Goliath	6.13
For embellishing Pontius Pilate and putting new ribbon on his bonnet	3.02
For mending shirt of Prodigal Son and cleaning his ear	3.39
For putting new tail and comb on St. Peter's rooster	2.20
For re-planning and re-gilding left wing of Guardian Angel	5.18
For washing the servant of the High Priest and putting carmine on his cheek	5.02
For taking spots off the son of Tobias	10.30
For decorating Noah's Ark and new head on Shem	4.31
Total	\$62.04

Secretarial Course

We like any man who comes right out and says what he thinks, when he agrees with us.

gratitude of the Filipino people for their liberation from the Japanese domination."

New Management Best Way Grocery

Mr. and Mrs. Paul C. Abbott arrived in Perryton last week to assume active management of the Best Way Grocery. It was announced this week. The Abbotts have resided at Shattuck Okla., for the past six years where they operated another grocery.

The Best Way Grocery, for several years one of Perryton's leading food stores will continue to feature the same quality of staple foods and fresh meats, fruit and vegetables as in the past and both old and new patrons are invited to drop in and get acquainted, it was said.

They are residing temporarily at 806 Southwest 4th Street until arrangements can be made for a home.

Workers Per Plane Double

The average of 50 workers per plane in the air transportation industry for 1940 is expected to double as the scheduled airlines of the United States add new and improved planes to the fleets.

Frost Preventors

Purdue—The University here conducting experiments to determine whether or not surplus aircraft propellers can be used in preventing frost damage to crops.

Army engineers surveyed, constructed, and managed for such well known railroads as Baltimore and Ohio, the Northern Central; the Erie; the Boston and Providence; the New York and Haven and Hartford; the Albany and Albany, and many others.

World Air Routes

Hamilton—The recent meeting of British and American delegates to the Civil Aviation Conference here agreed that the British were to receive 7 routes to and through the United States, and the United States was to get 13 routes to various points in the Empire. The delegates also agreed on the freedom of traffic right and unlimited frequencies of schedules.

A prominent Mexico City attorney praised the increasing study of Spanish in Texas schools.

Included on the list of superintendents is Wayne Thomas of Perryton, who will be in charge of production. Others are C. C. Brookshier, Tulsa, Holstein; R. L. King, Dimmitt, Guernsey; H. B. Horn, Plains, Jersey; Frank W. Well, Hale Center, Milking Shorthorn; L. A. Hartzog, Floydada, dairy calf club; N. C. Fine, Lubbock, vocational agriculture judging; K. M. Remmer, Lubbock, dairy products judging.

Prize money for this year's show totals \$3,035, the largest amount in the history of the exposition. A tent has been rented to take care of the overflow of entries. Last year approximately 500 animals on display could not be placed in the barns.

Baptist Meet At Balco

The general public is invited to attend the series of revival meetings planned at the First Baptist Church, Balco, Okla. The meeting will open April 9 and run through April 17. Services will be daily, 10 a. m. and 7:30 p. m.
Dr. I. L. Yearby, pastor-evangelist, and R. M. Chambers, singer, Oklahoma City, will conduct the meeting.

Dairy Show at Plainview 13-19

Plans are shaping up for the nineteenth annual Panhandle Plains Dairy Show scheduled at Plainview April 13-19 inclusive. The largest entry list in the history of the show is forecast by C. B. Martin, general superintendent.

Judges have been designated, superintendents of the various departments selected, all activities dated and arrangements made for a round of entertainment during the almost full week of the show.

Included on the list of superintendents is Wayne Thomas of Perryton, who will be in charge of production. Others are C. C. Brookshier, Tulsa, Holstein; R. L. King, Dimmitt, Guernsey; H. B. Horn, Plains, Jersey; Frank W. Well, Hale Center, Milking Shorthorn; L. A. Hartzog, Floydada, dairy calf club; N. C. Fine, Lubbock, vocational agriculture judging; K. M. Remmer, Lubbock, dairy products judging.

Prize money for this year's show totals \$3,035, the largest amount in the history of the exposition. A tent has been rented to take care of the overflow of entries. Last year approximately 500 animals on display could not be placed in the barns.

Jaycees To Hold Meeting April 8

The Perryton Junior Chamber of Commerce will hold a regular meeting Monday, April 8, in the Legion Hall starting promptly at 8:00 p. m., so stated Dr. Roy K. Sanford, president, Wednesday.

All members are being urged to be in attendance as it has definitely been decided that the organization will receive their charter, Tuesday, April 16, and final plans will be drafted for the program. A dinner is planned to be held in the high school cafeteria early in the evening followed by a dance at Lake Pryer, Dr. Sanford said. State Jaycee officials will be on hand to present the charter.

Mr. and Mrs. James B. Terhune and family have moved from Big Springs, Texas, to Gage, Okla. Mr. Terhune was recently transferred to the C. A. A. station there. Both Mr. and Mrs. Terhune are former residents of Perryton, and she will be remembered as the former Ava Dunlavy.

Mrs. Horace Lackey, Mrs. Sybil McGarragh and Mrs. W. E. Perry have returned from a week's visit in the home of Mrs. Lackey's parents, Mr. and Mrs. Dave Kyle of Boise, Texas. They also spent some time in Dallas while they were gone.

Mr. and Mrs. Floyd Price left last Thursday for their home in Oakland, Calif. after a two week's visit with his mother, Mrs. Dona Price and other friends and relatives here.

What this country needs is a good cigar that sells for less than 5c a puff.

SECURITY COUNCIL: STRIFE HERE CAN MEAN PEACE EVERYWHERE

World peace or world strife can result from this meeting of the United Nations Security Council in New York. Representatives are: 1—Gromyko, U. S. S. R.; 2—Cadolag, United Kingdom; 3—Stettinius, U. S.; 4—Hodgson, Australia; 5—Velloso, Brazil; 6—Lie, Belgium (United Nations Secretary General; Belgium is not a Security Council member, however); 7—Quo, China, Chairman; 8—Pasha, Egypt; 9—Bonnell, France; 10—Najera, Mexico; 11—Van Kieffens, Netherlands; 12—Lange, Poland.

Migratory Hoppers Light This Year

COLLEGE STATION—Preliminary surveys indicate that the migratory grasshopper infestation this spring should be relatively light in the Great Plains counties across the top of the Texas Panhandle.

But the situation, barring favorable weather conditions, is not so rosy in "the crop hopper section" along the principal rivers of Texas and their tributaries. Cameron Sidell and Paul Gregg, entomologists for the Texas A. and M. College Extension Service, say that conditions last fall contributed to maximum egg laying by the yellow grasshopper, which is not a migrant.

Cool weather will delay the hatch, but warmer weather and frequent moisture to soften the soil crust will hasten it. Then a sudden frost or freeze might kill out large numbers.

Most of the counties in Texas which entered the fight had one

Aviation Jobs for Women

Passenger relations is the field in air transportation which offers young women the greatest opportunity for employment. Included in this category are stewardesses and reservation agents. Most airlines now need additional stewardesses and as the larger planes are placed in service, this need will increase. For many of the big ships will carry two stewardesses. One airline reports it will have as many stewardesses on its payroll at the end of this year as the entire industry had in 1941.

The radio beacon was a development of the Signal Corps, and after successful tests, plans and specifications were turned over to the free use of commercial manufacturers.

mixing station, and in all 69 were reported for the state. County leaders supervised the mixing stations.

International Routes

Washington—There were 106,197 miles of international routes certificated for U. S. flag airlines at the end of 1945. This mileage included pre-war routes and new routes over the North Atlantic. During the year, the Civil Aeronautics Board granted 3 carriers certificates for routes across the North Atlantic through Europe to India and Russia.

Airline Routes Increase

Washington—The domestic airlines of the United States last year added 4,402 miles to their network of air routes for the transportation of passengers, mail and cargo. This brings the total number of route miles over which the airlines are now authorized to fly, to the all-time high of 66,979 miles.

An Army Air Forces jet-propelled plane has flown across the nation almost with the speed of sound.

Leroy Gross of Dallas, Texas.

He had seven brothers, one half-brother, and one half-sister. His half-brother, Isaac Benson; half-sister, Segurne Johnson, and two boys, who died in infancy, preceded him in death.

The surviving brothers are: E. T. Gross, W. B. Gross and J. H. Gross all of Scottsboro, Ala.; S. M. Gross of Chickasha, Okla.; and H. B. Gross of Sentinel, Okla.

He was converted in 1932 and lived a consistent Christian life until his death at 9:10 p. m., March 23, 1946. To know him was to love him.

In addition to his devoted wife, eight children and five brothers, he leaves sixteen grandchildren and a host of other relatives and friends to mourn his passing.

Mr. and Mrs. Russell Enlow, Woodward, Okla. were week-end guests of Mr. and Mrs. Glen McGibbon.

"AMERICAN" by Fostoria

"AMERICAN" FOR GIFTS So Easy To Give . . . So Nice To Get

There are many ways to settle your difficult gift problems. But none easier than selecting "American." For here is a crystalware pattern that has fascinated many generations. It sparkled once upon a time in ancestral homes. Recreated, by Fostoria, it sparkles again in modern homes which are sympathetic to colonial traditions.

Rightly, "American" has proved to be America's most popular pattern. Its fascination derives from sheer simplicity of design, and its jewel-like capacity for reflecting light and color.

You will be proud to give "American" gifts to everyone. Prices are exceedingly attractive; some individual pieces costing as little as 50c each. And, in our displays, you will find a great variety for your selection.

A New Water Heater!

Different From Any You've Ever Seen!

Permaglas
CLASS LINED

AUTOMATIC GAS STORAGE WATER HEATER

JUST think! An automatic gas storage water heater so modern — and so different from any you've ever seen — that it's actually lined with glass! That's the new SMITHway Permaglas Water Heater.

Now you can stop worrying about the cleanliness of your hot water supply. You can stop heating water for cooking purposes in a leaky kettle because you distrust the cleanliness of your heating system. For the revolutionary, new Permaglas Water Heater provides plenty of hot water as clean and pure as your water supply. Fused to the heavy steel tank is special SMITHway glass — mirror-smooth yet flexible enough to expand and contract without chipping, cracking, or crazing. No metal inside the tank to rust or corrode!

Find out now how a Permaglas Water Heater, in the size you need, will bring you the convenience of a constant, clean hot water supply at low cost.

CLEAN, Economical Hot Water 24 Hours a Day!

For the Kitchen For the Laundry For the Bathroom

Compare These PERMAGLAS Features with ANY Other Water Heater at ANY Price!

1. LINED WITH GLASS . . . the ultimate in sanitation.
2. MIDWAY CONTROLS . . . prevent accidental damage.
3. UNIFLOW BURNER . . . insures perfect gas combustion.
4. FIBERGLAS INSULATION . . . extra heavy to prevent heat loss.
5. MONOQUAD CONSTRUCTION . . . assures flawless glass lining.
6. TRUCENTER FLUE . . . increases uniformity of heating.
7. NEOTONE FINISH . . . durable, easy to keep clean.

official.
In a surprise write-in campaign Alton Boxwell received 180 votes and was elected alderman. Mr. Boxwell is manager of the Boxwell Bros. Funeral Home and an active civic and church worker. He will add strength to the city board.

R. L. Logan, owner of the Perryton Rubber Works, ran a very close fourth with 172 votes. His name was written on the ballot.

While the voters gave an overwhelming endorsement to Sam Hergert, they turned thumbs down on the other two administration candidates. T. O. Patton and Jim Graves, running for reelection, received 135 and 97 votes, respectively.

Light votes were recorded for the other two candidates, Jewell Anderson and James K. Davis and write-in votes were cast for J. D. Stephenson Jr. and T. O. Pugh.

No. 4 Continued from Front Page

Booker
Playing at Booker Thursday, the matches were concluded with the following results: Brumback over Lee, Booker, junior boys singles; Rogers-Ward over Blau-Lee, Booker, junior boys doubles; Hummer over Paul, Booker, senior boys singles; Morgan-Repligle over Shouse-Lennon, Booker, senior boys doubles.
In the girl competition the following results were revealed: Holde-man versus Trosper, tie, junior singles; Kelley-Barnes over Smith-Sell, junior doubles; Gann over Eccles, Booker, senior singles; Flowers-Groves over Loosche-Bell, Booker, senior doubles.

Canadian
Boys matches played at Canadian Monday resulted in the following winners: Hummer over Cross, Canadian, senior singles; Repligle-Morgan over Hill-Cross, Canadian, senior doubles.

Girls matches were: Gann over Watson, Canadian, senior singles; Flowers-Groves over Watson-Sipes, Canadian, senior doubles.

The teams will go to Booker today for return matches.

More than 510,000 chapter-produced garments are part of \$1,300,000 worth of supplies being distributed by the American Red Cross in Italy this winter.

Miss Georgia Hurlbey has as her guests her nephew and his wife, Mr. and Mrs. H. H. Scott of Wichita, Kansas.

No. 3 Continued from Front Page

here several years ago with his parents, Mr. and Mrs. Pat Dowers, former residents.

Bill Herndon called his parents, Mr. and Mrs. W. C. Herndon Monday morning from El Paso where he is being discharged from the army. He landed in the states last Thursday and will arrive home this week, he stated.

Neal McGarraugh, F. I. c. is expected to return to Perryton this week with his discharge from the navy. He phoned his wife, the former Miss Alta Todd, upon his arrival in the states last Friday and was at San Pedro early this week being processed for his separation.

Pvt. Jackson H. Wooster received his discharge from the Army at Camp Chaffee, Ark. Saturday, after four months in service. He plans to resume farming. Mr. and Mrs. Wooster are residing in Perryton for the present.

Jack Igou is now seaman, second class, and he is stationed at Great Lakes, Ill. his mother, Mrs. Violet Igou reports. Jack's address is James C. Igou, S. 2-c. Sec. E. 3-1, Bks. 405, U. R. Port, S. S. C. Great Lakes, Ill.

T/Sgt. Roland Hurter, son of Mr. and Mrs. Bernard Hurter of the Hinton community is at Munich, Germany, with the occupational forces. Hurter, who went overseas in February, 1945, has recently received his promotion to tech sergeant. His address is T/Sgt. Roland Hurter, 38572390, 616 Q. M. Depot Co. Supply, APO 205, care Postmaster, New York, N. Y.

Temperature Control

Thermostat temperature control units are now being used aboard all-cargo planes to insure perishables crossing the country via air without any loss of vitamins. The thermostat is set at the specific temperature desired before the plane takes off. When the temperature drops or rises above the ideal point, a colored light flashes in front of the plane captain who can make the proper adjustment by a control knob near his seat.

Curves Keep Planes In Air

The basic secret of keeping an airplane up is the thickened shape of the wings, more sharply curved on the upper than on the lower surfaces. Thus the air has to travel farther over the upper surface, creating less pressure than below, so that the greater pressure below creates a strong lifting force. The push of the air against the tilted lower surface also contributes to the lifting force.

Adjustable Air Cargo Space

Many of the new air transports soon to appear on the domestic air routes of the country will have adjustable cargo space which can be arranged to fit varying passenger-cargo proportions. This space may be shifted on brief notice when mail, express and other articles outweigh the passenger list or vice versa.

Since October 1943, more than 3,800,000 chapter-produced garments valued at \$8,000,000 have been distributed to the Italian people by the American Red Cross.

Mr. and Mrs. F. N. Winn left today for Stephenville, Texas where they will spend the week-end with his mother, Mrs. E. N. Winn.

the measure as presented.
BE IT THEREFORE RESOLVED THAT the Pierce Johnson Post No. 254 of The American Legion at Perryton, Texas, in accordance with Representative Lesinski's proposal goes officially on record, as an organization, to be in favor of the measure and urge all people also to favorably consider the measure. The Post offers their fullest cooperation with the Veterans of Foreign Wars and any other organization engaged in prosecuting this plan into a law.

IN WITNESS THEREOF, I have hereunto set my hand to this resolution on this 1st day of April, 1946.

A. N. DOWERS

ing the Legion and Auxiliary will participate. At this meeting there will be a mass initiation service conducted by the Degree Team from Volture No. 669, Amarillo; and there will also be a Memorial Service Sunday morning; and in the afternoon, beginning at 1:30 p. m., the Auxiliary and the Legion will conduct separate business sessions at the high school in Childress.

There will be two Legion dances provided by the host post Saturday night, April 13. The Forty and Eight will have a dinner in Childress Saturday evening at 7:00 p. m.

Mr. and Mrs. A. V. Goff returned to Perryton Tuesday after spending several days visiting in Oklahoma City.

Cartwright Buys Store at Booker

The Booker News announces that Mr. and Mrs. J. B. Cartwright Jr., former Perryton residents, have purchased Smith's Store at Booker. They assumed charge of the store on March 25.

Mr. and Mrs. Cartwright have had years of experience in the retail store line and their many Perryton friends are sure they will be successful in this venture for themselves.

The Booker News states that they plan to expand the service of the store by the addition of new lines of merchandise.

No. 9 Continued from Front Page

After moving to Perryton he became associated with Dr. W. T. Travis and for several years maintained offices on South Main Street. When the growth of Perryton indicated in 1929 that better medical facilities were needed for the adequate care of community health, he led the way and together with Dr. Travis laid the foundation for a \$35,000, 25-bed hospital. This modern hospital was completed in 1930 and was operated by Dr. May, along with Dr. Garret Budd for several years as the Plaza. Ill health compelled him to dispose of this hospital. It still serves Perryton and community.

Survivors are the wife, Imogene Grigsby May of Perryton; two daughters, Helen May of El Paso and Mrs. Jimmie Palmer of Perryton; and one small son, Milton May of Perryton.

Airline Seats to Public

With the ending of the ODT order that required the airlines to allot 70 per cent of their eastbound seats on transcontinental planes to returning service men, all space on airlines throughout the United States is now open to the public without Government restriction.

"OIL-PLATED engines... they'd better have!"

The "haulaways" are abroad in the land! Your new car is on order—or in your mind. And now here is why any car of yours should have an OIL-PLATED engine . . .

OIL-PLATING will shield your engine's insides. It saves fine-finished surfaces from lots of wear. And that's how to raise resistance against carbon, gum, and sludge.

An OIL-PLATED engine is yours for the asking. Simply insist on filling with Conoco Nth motor oil. Conoco Nth brings its added OIL-PLATING substance. This acts magnet-like . . . joins lubricant durably to metal, so as to form protective OIL-PLATING! The process is the same in any engine. Though yours may not be new, this is an extra good time to OIL-PLATE it. For it needs a Spring oil change, and simply by getting Conoco Nth you'll get oil that OIL-PLATES—at a few cents' extra cost! See Your Conoco Mileage Merchant—today Continental Oil Company

SUNDAY LESSON

Friends of Jesus Were in All Walks Of Ancient Life

The International Sunday School Lesson for April 7
Scripture: Mark 10:13-14, 16; Luke 6:13-16; 8:1-3; 15:1-2; John 3:1-2

WHO were the friends of Jesus?

First of all, the children, whom He took up in His arms and blessed. The Disciples, with those false notions that many religious people have had about the young people who brought their children, rebuking them for troubling the Master. But the Master was "much displeased." It was the Disciples who were rebuked.

Then, the Disciples themselves, already with Him and in His company—the men from fishing boats, from customs houses, and from other lowly places and walks of life, to whom Jesus said, "I have not called you servants, for the servant knoweth not what his lord doeth, but I have called you friends."

The great, also—men in authority, like the Roman centurion whose faith He commended; Nicodemus, the ruler of the Jews, who came to Him by night; Joseph of Arimathea, who claimed His body and gave it burial; the wealthy who invited Him to their homes and made for Him a feast, like Simon, the Pharisee.

He befriended, too, the sick and the needy, the common people who "heard Him gladly." And He accepted the sinners, those publicly recognized as sinners, men and women of ill repute who earnestly longed to become more worthy, and who were already worthier than the hypocrites who despised and condemned them. How friendly Jesus was toward them! His kindness brought upon Him the reproach of the Pharisee, "this man receiveth sinners and eateth with them."

Nor should we forget the women, Mary and Martha, at Bethany; the "woman who was a sinner" who washed His feet with her tears, and dried them with the hair of her head; the "woman of Samaria" whom He met at the well.

These were the friends of Jesus. And what a Friend He was to them all!

Christian Science

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 7.

The Golden Text is: "There is that maketh himself rich, yet hath nothing; there is that maketh himself poor, yet hath great riches" (Proverbs 13:7).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Unless thy law had been my delights, I should then have perished in mine affliction" (Psalms 119:92).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Truth, Life and Love are the only legitimate and eternal demands on man, and they are spiritual lawgivers, enforcing obedience through divine statutes" (page 184).

Panhandle A & M Spring Festival

GOODWELL—The annual Spring Festival, sponsored by the Panhandle A & M College, will be held at Goodwell on April 12 and 13.

Approximately 15 schools from the Panhandle area and from neighboring states will be represented in this year's festival, according to Milton Bradley, music department head. The festival will serve

Soviet President

Nikolai Shvernik, 58, trades union movement leader, is the new President of the Soviet Union, succeeding aged and ailing Mikhail I. Kalinin, who held the office 27 years.

as district elimination center for the state finals to be held later at Norman and Stillwater. Events will include vocal solos, glee clubs, piano bands, and instrumental solos.

John Vogt, professor of piano at Oklahoma A & M College, Stillwater, will be the Spring Festival judge. Vogt is a graduate of the

Chicago Musical college and has had much experience coaching singers and instrumental accompanists.

The festival will be divided into four sessions: Friday morning, Friday afternoon, Saturday morning, and Saturday afternoon. There will also be a winners' program either Saturday afternoon or evening in which outstanding group and soloist performers of the festival will be presented.

Tentative plans call for vocal quartets and vocal and instrumental solos on Friday, and bands, boys' and girls' glee clubs and mixed choruses on Saturday.

The festival will be the first full schedule festival held on the Panhandle A & M campus since 1942.

GAS--Eliminates Home Drudgery

They heated stones and dropped them into vessels containing cold water. That's the way the ancients obtained their hot water. We have progressed a long way since those days. Now we get all the hot water we need by merely lighting the pilot under a modern Automatic Gas Water Heater. It is ornamental, efficient and economical. Gas is the silent butler that serves constantly.

Public Service Corporation of Texas

You can do it better with gas.

UNDER TEXAS SKIES

By A. Garland Adair
Curator of History,
Texas Memorial Museum

Texas is now in the midst of a 52 day period that will be remembered as long as there are thoughts of the Lone Star state. From March 2nd, 1836, through April 21st of that same year, our pioneer fathers wrote more undying history than was ever written by mankind in such a short span of time. On the second of March, 1836, fifty nine delegates assembled at Washington-on-the-Brazos and adopted the declaration of independence for the then and there born Texas Republic. 110 years ago, Gail Borden's newspaper at San Felipe de Austin carried the first printed form of that declaration, which can be seen in the Sam Houston case in the Texas Memorial Museum. These same delegates wrote the first constitution for Texas.

Principles of civil and religious freedom were brought to Texas from the Motherland across the Sabine. Upon these principles rests the fabric of our state and the career of human liberty in this confused post-war world.

The delegates assembled not in palatial halls, but in a smithy shop on the banks of the Brazos, which later became one of the several migratory capitals of Texas.

So it was that old Washington arose as the birthplace of the Lone Star Republic. Ten years later Texas joined the Union. The final congress of the republic was held at old Washington. It is therefore proper that the Centennial of Statehood be commemorated at this sacred spot of hallowed memories. The American Legion of Brenham is to be commended for planning such a commemorative event there on June 28th of this year. The 101st anniversary of the last congressional session.

The freedom they there and then declared was won the hard way, through blood gloriously shed, suf-

fering cheerfully endured and sacrifices gallantly made.

The Texas Revolution already in progress and which culminated in two days later on the 10th decisive battlefield of the world, at San Jacinto, April 21st, 1836, was no mere child's game. Shouting "Remember the Alamo, Remember Goliad" as they charged the tyrant Santa Anna's well-equipped and uniformed veterans, Sam Houston's ragged Texans were saying to themselves, "We must fight to the death or victory as our brothers fought at the Alamo and at Goliad."

No race has exerted a more beneficial influence upon the struggle for a republican form of government, or left behind more enduring memories than did the early Texans who planted Anglo-American culture in our beloved homeland and state.

He who lives only in the present, has not attained the stature and dignity of man made in the image of his Creator. Men cannot live without a past; it is as essential to them as a future.

We feel a personal pride in the country they colonized, the institutions they founded, and the example they bequeathed for our children to emulate. We exult in our history, in our birthplaces and in our lineage. We gather inspiration when we review the high purposes and noble principles by which they were guided in private dealing and public action.

So, today it is but proper that we meditate upon the noble lives of our glorious ancestors, upon their trials, tribulations, and their virtues. And tomorrow we will return to our daily avocations, with minds refreshed and our hands strengthened for the tasks of the future.

CARD OF THANKS

We wish to express our heartfelt thanks and appreciation for the flowers, cards, and other acts of kindness during our bereavement.

The L. V. Gross family.

Making Trim Garden Rows Calls for Precision Care

For Larger Seeds Make Drill With the Hoe Blade.

When flowers or vegetables are grown in rows, the layout of the garden should be a precision operation. The garden should be rectangular, the rows parallel and straight.

An exception is made for hilly country, where the wash of soil should be checked by contour planting. Here rows should run at right angles to the slope, but they should still be parallel, though on rounded slopes they will be curved.

Serpentine, slanting or uneven rows will double the work of cultivation, and give an appearance of incompetence to the garden.

Rows are spaced with varying distances between them, depending on two factors: The needs of the crop, and the convenience of cultivation. In rich soil vegetables may be spaced more closely than in poor; but when spaced too close together, it is difficult to cultivate between the rows.

For crops growing twelve inches tall or less, rows may be spaced 18 inches to a foot apart and cultivated with hand tools. For cultivation with a wheel hoe, eighteen inches is likely to be found a minimum distance, since it is necessary to avoid disturbing the roots of the vegetables, whatever tool is used.

Taller vegetables, and those that make vines, large bushes, or have a sprawling habit, must be given more distance between rows. In small gardens, 4 feet will usually

For Shallow Drill for Tiny Seeds, Press Edge of Blade into Soil.

Use Hoe Handle to Make Drill For Medium Sized Seeds.

be the maximum distance, given only for such crops as bush squash and cucumbers.

After you know where the rows are to be, a line should be stretched to mark the first row.

Some gardeners use a straight, narrow board as a ruler to make the row straight. A garden line is likely to be more convenient; heavy lines wound on iron reels are handy, but any strong cord stretched between two stakes will do.

Using the corner of a hoe, draw in the soft soil a shallow trench with this line as a guide. This is known as a drill. In the spring a very shallow trench is called for, in which to sow small seeds. Some prefer to use the end of the hoe handle rather than the corner of the blade. Others have small hoes which they like; but it is more a matter of touch than the tool.

For small seeds such as radishes, onions, carrots, lettuce, and endive, a drill half an inch deep is enough. A little deeper for beets and Swiss chard, and an inch for peas, beans and sweet corn will be sufficient. Shallow sowing is preferred nowadays in the cool, moist spring, but make drills a little deeper when hot weather comes.

The chief point to watch in making a drill is to keep it straight. Use the line as a guide, but do not put any pressure on it, otherwise you will easily swing it out of line.

Veteran Loans To Celebrate Made Easier Nurse Week

Veterans who have decided to solve their own personal housing problem by buying a home will find the process of obtaining government-guaranteed loans has been considerably simplified by recent changes in laws governing such loans. The amended laws make it possible for a veteran to obtain a home loan in a matter of days, where before the procedure took several weeks in some cases.

In the past, the veteran did not obtain his home loan from a lending agency until the Veterans Administration had approved the loan. Now, the government guarantee goes into effect immediately when the borrower and a qualified lender close their deal. The loan papers need not be submitted to the VA until after the veteran has completed arrangements for his loan with the lender.

Under the old law, a veteran could not obtain a government-guaranteed loan if appraisal showed the property was priced at more than its "reasonable normal value."

In view of current inflated real estate prices, this provision prevented many veterans from obtaining loans. This phrase has now been amended to read "reasonable value," recognizing the fact that most homes are priced at more than their normal, pre-war value.

The portion of the loan for buying a home which the government will guarantee has been increased from \$2,000 to \$4,000, but the guarantee cannot be for more than half the total loan. The non-realty business loan guarantee remains \$2,000.

Veterans may repay their home loans over a period of 25 years, while business non-realty loans must be repaid within 10 years. Farm purchase loans can run 40 years.

Further information on government-guaranteed loans may be obtained from the nearest Veterans Administration contact office. In addition, many banks, building and loan associations and other lending agencies have set up special "veterans' departments" to advise veterans planning to buy homes.

AUSTIN—The State of Texas is planning to celebrate the first national "Know Your Public Health Nurse Week" April 7 to 14, as proclaimed by President Harry S. Truman.

The purpose of the week, according to Dr. Geo. W. Cox, State Health Officer, is to focus attention upon public health nursing as a service for every individual, and to increase public understanding of the part played by the public health nurse in helping to build better health for family, community, and nation.

Many communities in Texas are planning to give special recognition during this week to the value of the public health nurse in the community.

From the beginning of this work more than thirty years ago, public health nurses have been concerned with the total health situation of the family including sickness, disease prevention, care of disease, and health protection.

In setting aside April 7 to 14 as "Know Your Public Health Nurse Week" for America health administrators and all other friends of nursing should dedicate themselves to the extension of public health nursing services so that there will

Put Food Where Roots Can Reach It for Best Effect

Commercial Plant Food is Most Efficient When Applied in Trenches on Both Sides of the Garden Row.

Quick-acting chemical plant food will benefit garden plants whether it is spaded into the soil, spread and raked in as the top soil is being smoothed, or applied in several other ways in which amateur gardeners may have been in the habit of using it.

But the most efficient method—the way that gives the most for your money — is to apply it in trenches on either side of the garden row in which the seeds are sown. This method has been developed in a long series of experiments, and is based upon the way that plants grow and chemicals behave when applied to soil.

Plants require balanced nutrition from the time seeds germinate, or the transplants are set out. Yet too much nitrogen, especially, is harmful to seedlings. Then, certain chemical food elements do not travel very fast in the soil. Others attach themselves to soil particles and do not move to the feeding root area. It is better when making application of plant food to put it in a location where it will be more convenient for the roots to reach it.

Even nitrogen, in the form usually found in plant food, will not at once dissolve and be evenly distributed in the soil moisture though it will in time, after certain chemical changes have taken place.

To use the new method for applying plant food, stretch the line to mark the row in which seeds are to be planted. Then not less than two inches away on either side, make a furrow four inches deep. Pour plant food into each furrow at the rate of one pound (or pint) for 50 feet, and cover it with earth. Then make the drill in which seed are to be sown and proceed with planting as usual.

Remember that it is possible to use too much plant food, and do not exceed the recommended application. Additional plant food should be applied later at about five or six week intervals to keep your plants growing well. And be sure to keep your hands of plant food two inches away from the seed drill, so that the soil in which seedlings are coming up will not get an overdose, which the young plants cannot handle.

Health for All

Heart Care

The very thought of heart disease strikes fear in most people. They think of heart disease as attacking suddenly, with great pain, and as bringing immediate death. This may be true in middle life and old age. However, there are various kinds of heart disease. All of them do not develop suddenly nor are they necessarily fatal.

Nevertheless, heart disease is one of the most serious health problems in this country. In fact, it is the leading cause of death. In 1943, the last year for which complete statistics are available, it was responsible for 426,391 deaths, or 318.3 per 100,000 population.

Unfortunately, the fear of heart disease is at the root of many deaths from it. Because of fear, people ignore warnings that something is amiss. When they finally do muster the courage to see a doctor, often it is too late.

The body gives various warnings that the heart is overburdened or diseased. Some of these signals are breathlessness after exertion, dizziness, fatigue, vague digestive disturbances, swelling of the feet and ankles and pains in the chest.

Such pains are not always due to heart disease, and of course digestive disturbances may be traceable to any one of a number of causes. But there is no point in ignoring any of these warnings. They may indicate heart trouble. The safe policy is to heed the signals and see a doctor.

Certain illnesses often weaken the heart, and too great exertion immediately after a severe sickness may have an adverse effect on the heart. Caution should be observed especially after an illness due to any of the infectious diseases of childhood.

Periodic physical examinations are the best insurance against developing serious heart trouble. The individual who goes to the doctor regularly for a check up, without waiting to be stricken by illness, may learn of a heart disorder before it reaches serious proportions.

Many types of heart trouble can be treated effectively if discovered in time. People who have, or have had, heart trouble do not necessarily have to lead lives of invalidism. Certain strenuous occupations may be denied them, but they can still lead normal lives if they follow rules of moderation.

The treatment for tuberculosis will be discussed in the next article.

Sweet potatoes should be treated with either corrosive sublimate or commercial fungicide before they are bedded.

First Division Organizes Club

Reorganization of the Society of the 1st Infantry Division, formed shortly after World War I, is presently under way to include members who served with the division in World War II, according to a bulletin from Lieutenant Colonel Robert L. Hardy, Commander of Headquarters, West Texas US Army Recruiting District in Lubbock.

It is one of the largest divisional societies in the country and its membership includes two former Army Chiefs of Staff, General of the Army George C. Marshall and General Charles P. Summerall, retired. Thirty-seven active chapters are scattered throughout the United States and an additional chapter is now being formed by Major General Clift Andrus, present divisional commander, among current overseas First Division men. The division is on occupation duty in the European Theater and its responsibilities include the guarding of the Nazi war criminals on trial at Nurnberg, Germany.

The election and installation of officers of the District of Columbia chapter was held at a buffet dinner in the Crystal Room of the Burlington Hotel on Thursday night, March 21. This date commemorates the First Division victory at El Guettar, Tunisia, in 1943. The annual Cantigny Day dinner celebrat-

Trash Should Be Salvaged

COLLEGE STATION—War-time need for salvaging much "trash" has brought many thrifty housewives to useful salvaging in peacetime, too, says Mrs. Bernice Claytor, specialist in home improvement for the A. and M. College Extension Service. Mrs. Claytor has several suggestions on what is "useful trash", and she says the rest should be collected and discarded promptly.

Articles usually thrown away often can be saved and used again if there is room to keep them, says Mrs. Claytor. A drawer or a rack may be used to hold wrapping paper and string. An upper shelf may be dedicated to jars and glasses which may prove useful in home canning. Magazines often are allowed to pile up and fill needed space until the housewife finally decides to

throw them out or burn them. A much better plan, says Mrs. Claytor, is to pass them on regularly to the many hospitals, recreation centers or other institutions in need of reading matter.

Many such wastes as papers, cartons, old clothes and rags also can be turned in for peacetime salvage.

Covered storage places need to be arranged for different groups of salvage materials. A waste basket or other holder in every room will save much time. Garbage should be kept tightly covered and disposed of as promptly as possible, and other trash should be burned regularly or kept in a covered container until carried away, concludes the specialist.

The chick brooder should be cleaned up and adjusted several days before the chicks are to arrive

Faith in America

The calamity howlers are at it again—just at a time when faith in America and its future is most needed.

Our nation is strong. The greatest evidence of our democratic morality and strength is that, though strikes are hurting every citizen, no responsible group demands that the right to strike be abolished.

Through depression and war we have taken no action which need put any permanent dent in the American way of life, with all its freedoms and benefits.

We are a big nation, a young nation, a virile nation—as well as an aggressive nation when it comes to looking out for our individual interests at home.

It is inevitable that we sometimes tread on one another's toes, and that groups sometimes forget that privileges should be matched with responsibility.

But the public is the arbiter—and the public has a way of catching up with those who play the game in their own way.

INVESTMENT TRUSTS

ROGER W. BABSON, Editor-in-Chief

New York City, March 29.—In view of the tremendous growth in the business of investment companies, readers of this column should realize their possibilities, both as a service to the small investor and as a factor in stabilizing the present stock market.

"Closed-End" Versus "Open-End" Companies

Investment Companies are divided

into two main groups.—The closed-end companies are the old-fashioned investment trusts, of which there are a large number scattered throughout the United States. There, however, are only a few large ones, the securities of which are listed on the New York Stock Exchange. As examples of these companies, I might mention Lehman Corporation, Adams Express,

The first of the Navy's "cruiser" carriers, the USS Independence, commissioned in 1913, has had a long and battle-scarred career in every Pacific war zone. She participated in actions from Tarawa to the blows against the Jap mainland, operating with carrier groups in air strikes, and supporting amphibious assaults.

Official U. S. Navy Photograph

Atlas Corporation and Tri-Continental.

These closed-end companies have a definite amount of capital stock which is not increased or decreased. When an investor buys such stock he does not buy of the company but, through a stock-exchange broker, must buy the stock of someone else who desires to sell. As a rule these companies do not diversify very broadly but usually confine themselves to special situations in which they purchase a large interest. Often stocks of these companies sell for less than the real liquidating value of the securities which they hold.

This is an advantage to the investor when buying such stocks; but a disadvantage when selling.

"Open-End" Companies

When a salesman calls upon you to sell you the shares of an investment company it will probably be an open-end company where the amount of stock outstanding varies from day to day. There are about 75 of such active open-end companies. For instance, if the salesman should sell today \$100,000 worth of these shares, when the checks come into the company it will go into the stock market and invest this \$100,000 in perhaps twenty high-grade listed stocks, which stocks will be held in the company's treasury. Then the company will issue \$100,000 worth of new shares which will be mailed out to the above-mentioned investors.

It will be seen, therefore, that these open-end investment companies provide a very good method of diversification for small investors. Naturally, the investor must pay something for this service. All "open-end" investment companies add a sales charge to the asset value of their shares and this charge normally runs around 8½%. There is, however, no charge for liquidation of a holding except in very rare instances and in such cases it is usually less than 1%. Without getting into the minute details of the com-

SANFORD DRUG CO. Phone 90

cushion which the stock market has never had in the past and, until the holders of these shares liquidate, which previous history shows that as a rule they do not do, these investment companies are performing an economic stabilizing service to the holders of all stocks.

Fairly Firm Stock Market Expected

Today the stock market is very little influenced by typical old-time speculators. The fact that he must pay 100% cash for his purchases has pretty much eliminated him from the market. Wall Street and most brokers are now largely "sold out" and the market is in the hands of real investors throughout the country who—either directly or through these investment companies—have the securities paid for and in safe deposit boxes. They are holding these for income; only some panicky event could cause them to sell.

Days when the market is strong, there usually is considerable profit taking. So long as the investment companies and other legitimate investors can absorb these sales, the market holds firm. When such selling exceeds the buying powers of these investment companies and small investors, the market sells off. When the buying power of these investment companies—spurred on by 7500 active salesmen—exceeds the selling, the market continues to rise. It is true that we have a "thin market" today; but this need not prevent it selling at these levels or above for many months to come.

War Planes for Education

Washington—More than \$40,000,000 worth of Army and Navy bombers, fighters and aircraft equipment have been made available to qualified educational institutions. This equipment was sold at nominal fees through the Reconstruction Finance Corporation.

Air Records Broken

Many of the 179 official world and international air records which were set up between 1906 when Santos Dumont established a speed of 25 miles per hour in the air, and 1940 when the war ended such attempts, will go by the board this year. The 1940 records were divided among some 50 classifications and were held by the airmen of 9 countries.

Satisfying Story of "Abilene Town" at Ellis Sunday-Monday

colorful pages of one of the stirring and romantic phases of American history are brought to life as the story of "Abilene Town" unfolds on the stage at the Ellis Theatre Sunday, April 7-8, through the Artists release. Produced by Levey from the best-selling "Trail Town" by Ernest Haycox, this dramatic film tells the violent conflict between the cattle barons and the settlers who settled on the plains of Kansas during the last decade after the Civil War.

In top featured roles are Ann, recently returned from war in Britain, and Randolph. Ann is cast as Rita, the town's gayest tavern, and has a look lover or played better. The song-writing team of Goell and Spellman have provided her three of the catchiest hit tunes of the season—"I Love It Out Here in the West," "All You Gotta Do is Give My Heart"—and Ann them all she's got. Which is

Petunias Are Popular For Abundant Yield of Bloom

Petunias and zinnias are the most popular flower in America today. They have come to the front in the last twenty years, displacing the former leaders, which were nasturtiums and sweet peas.

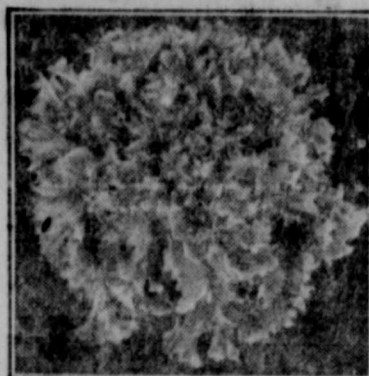

Each of the popular leaders has outstanding merits, that of the petunia being profuseness and long season of bloom. Though so slow to begin that seed is usually sown early under protection, the petunia never stops blooming until frost kills the plant.

Unlike other annuals, petunias do not seem to mind failure to pick off faded flowers. Where many annuals stop blooming, once they have begun to mature seed, the petunia keeps right on; which may be due to the fact that a great percentage of its flowers make no seed. Double petunias never bear seed; pollen from them must be carried to single flowers and seed from the usual cross produces both double and single plants. But all-double petunias, grown by a method which still is secret, have now been produced, and one of them, All-Double Colossal Shades of Rose, won a silver medal in the All-America trials for 1946.

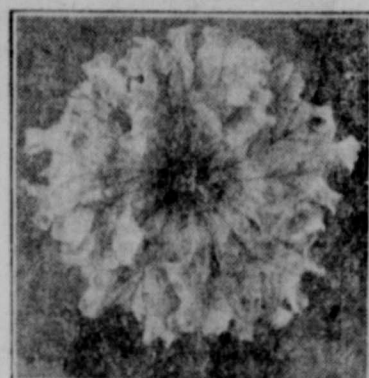

The secret of breeding all-double petunias was first discovered by a Japanese, and until the war the only all-double seed came from that country. Now the method is known in this country, and many all-double varieties of American origin may be expected.

Most widely planted petunias are the small flowered singles, in many tones of red, pink, lavender and blue-purple. There are no really yellow petunias, though some varieties have a tinge of cream. Some small flowered singles are very dwarf in habit, and others make large mounds covered with blossoms. Some large flowered single varieties have fringed petals; and there are balcony types, which trail festoons of color from window boxes.

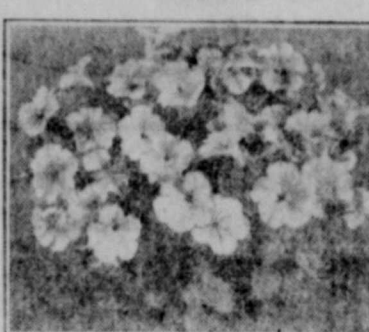

Double petunias and the large flowered fringed types are often grown by florists to make pot plants. They are also used effectively as cut flowers. But wherever a mass of pleasing color is needed all summer long, the small flowered single petunias will supply it with less care and better than almost any other annual, in most sections of this country. The seed is hardy, and often lies in the soil over winter and comes up in the spring. But it takes so long to mature, that if early flowers are wanted it should be sown under protection, six to eight weeks before the ground can be worked outdoors.

Petunia All-Double Colossal Shades of Rose. All America Winner, 1946.

Large Flowering/Fringed Single Petunia.

Small Flowered Single Petunias, Widely Used for Garden Borders.

ter and comes up in the spring. But it takes so long to mature, that if early flowers are wanted it should be sown under protection, six to eight weeks before the ground can be worked outdoors.

Tri-State Tattler

By BILL COX

WHEN THE RAPIDO CROSSING controversy, involving the Texas 36th Division flared up several weeks ago in Fort Worth, the editors of that little Cowtown sheet, The Star-Telegram, contacted Vincent Lockhart, publisher of the Canadian Record, for a story.

Lockhart got a tidy little sum for his editorial endeavor, and the Fort Worth rag came up with a very nice yarn.

A better man couldn't have been picked for writing anything about the Texas 36th. He was with the Texas boys from the time they left the U. S. for foreign shores and covered the 36th battle by battle as division historian. Major Lockhart was also assistant to the adjutant general.

Now Vince is writing the history of the famous Texas Division and to date has about 15,000 words banged out.

"I haven't had much time to write anything recently," he said. "I've not a full-time job putting out the Record each week."

I create quite a sensation every time I shoot a picture with my camera. Or rather more accurately speaking, my camera case creates quite a stir.

The fact that the case formerly served as a lady's cosmetic kit is bad enough. But I could survive it happily if the camera half way fit into the darn thing. As it is, I can put the camera in the case and still have room left over for a suit of clothes. Also I believe I could work my portable typewriter in without much difficulty. That's just how spacious the thing is. It's like housing a model airplane in a B-29 banger.

So the only thing I can do is pack a lot of stuff around the camera to keep it from bouncing and consequently breaking to pieces.

Being somewhat rushed when I left home this time, I cushioned the camera with the first junk I found around the house. This junk is what is now causing me all my

humiliation.

First I filled in with some tissue used in wrapping crated oranges; bright pink tissue that hurts your eyes to look at it. The next thing I found was an old turban I once wore to a masquerade party, a bright purple Hindu-type head wrapper that would be hot stuff amongst the princess of India. But after packing was done, I had to admit the camera fit very snugly.

The first picture I took, I was horrified with embarrassment. Everybody chuckled when I came trotting up with my cosmetic kit. I merely sneered at them, feigning nonchalance, opened the case and started hunting for my camera. I threw orange wrappers every direction. It looked like the fruit and vegetable storage vault of a large produce company. But the climax came when I pulled out my colorful Hindu turban. Everyone expected a magician show. Finally the camera lay uncovered.

I withdrew the little thing from its huge shroud, snapped one simple little picture, and started packing it back again.

I don't know which was the reddest—my face or the orange wrappers.

Remember when hankies were two for a nickel, instead of two for a dollar?

R. B. YOAKLEY
Jeweler

A new sensory aid for the blind, now under development by the Army Signal Corps, will enable the sightless to spot obstacles within a radius of 20 feet by means of an "optical cane."

ENIAC, the amazing new electronic calculating machine developed for the Army Ordnance Department, has 18,000 vacuum tubes and is more than 1000 times faster than any computer in existence.

Film Hit Has Unusual Theme

A man, torn between his love for a woman who is bad for him and his own conscience, and a woman, lovely and beautiful but unrelenting in obtaining her own ambitions, are the engrossing characters portrayed in "Shock," 20th Century-Fox's edge-of-the-seat filmfare which shows Tuesday and Wednesday, April 9-10, at the Ellis Theatre starring Vincent Price and Lynn Bari, with Frank Latimore, Anabel Shaw, Michael Dunne, Reed Hadley, Renee Carson and Charles Trowbridge heading the exceptional cast.

Vincent Price portrays the character of Dr. Cross, an eminent psychiatrist who, bound in an unhappy marriage with a woman who will not free him, and possessed of a mad love for his nurse, is taunted into committing a murder.

Aided and abetted by the nurse, portrayed by Lynn Bari, whose own desires blind her to the eventual doom of their love, she is ruthless in her determination to hide the crime to the extent of harming the innocent who stand in her way. Influenced by her, Cross is forced to take measures that oblige him to forego all medical and legal ethics. The network of complications is built up to a tensely drawn finish under the able direction of Al Werker. The picture was produced by Aubrey Schenck.

Two army pilots completed the first non-stop flight from coast-to-coast in May, 1923, flying 2,520 miles in 26 hours, 53 minutes and 38 seconds. Present Army jet plane record: 4 hours, 13 minutes and 26 seconds.

HERALD ADS BRING RESULTS!

Thrilling Western Coming to Ellis

Hollywood is adding glamour to its western movie thrillers. Newest heroine to be featured in an outdoor drama is vivacious Poni Adams, one of the widely-publicized "Salome" girls. That Miss Adams possesses dramatic ability as well as "oomph" is demonstrated in Universal's "Trail To Vengeance," in which the devastating brunette has the leading feminine role. The new film comes Saturday, April 6, to the Ellis Theatre. Kirby Grant is the star.

Poni, who was born in San Antonio, Texas, attended college at the University of Southern California. The young actress posed for magazine advertisements and studied music before her "discovery" by movie talent scouts.

In "Trail To Vengeance," Poni appears with such players as Fuzzy Knight, Tom Padden, Frank Jaquet and John Kelly. Wallace W. Fox was the producer and director of the colorful melodrama.

'Idea Girl' Has Mirth and Melody

Jess Barker, Julie Bishop and Alan Mowbray have leading roles in Universal's zesty comedy-musical, "Idea Girl," playing at the Ellis Theatre, Saturday, April 6, at the preview, 11:45 p. m. Conspicuous in the supporting cast are such well-knowns as George Dolenz, Joan Fulten, and Laura Deane Dutton. Rhythmic surprise of the picture is the appearance of Charlie Barnett and his popular orchestra.

Heart-throbs and laughs behind the scenes of a music publishing firm are gay elements of the story which was scenarized by Charles R. Marion. Will Jason directed.

Top Adventure Hit Arriving at Ellis

Based upon the action-blazing Collier's Magazine serial by Robert Carlton, set in exciting Mexico City, Columbia Pictures' "Perilous Holiday" comes to the Ellis Theatre Thursday and Friday, April 11-12. Pat O'Brien plays the leading role of a secret service agent who finds himself mixed up with international intrigue and intriguing women. He stars with Ruth Warrick, and the featured players include Alan Hale, Edgar Buchanan and Audrey Long. Eddie LeBaron and His Continental Orchestra help set the pace with their torrid Mexican rhythms. The screenplay by Roy Chansloa was directed by Edward H. Griffith. Phil L. Ryan produced.

Major Walter Reed and a group of Army Medical Corps officers discovered the cause and cure of yellow fever and thus enabled the construction of the Panama Canal, a project started but abandoned by the French because the dread scourge killed 75 per cent of their workers.

The Army Signal Corps has developed a direction finding radio set that will locate lost aircraft hundreds of miles away.

Eight Counties Donate to WISC

CANYON—Eight counties of the Panhandle have raised their quotas of funds for the completion of the addition to the Plains Museum on the campus of West Texas State College here. The latest of these to attain their goal of \$1,000 was Hansford County, where W. J. Miller and David M. Warren obtained \$1,040 from thirty-six subscribers in seven hours.

Parmer County was the first to reach its quota in the current drive to raise \$60,000. Parmer set the pace with a total of \$2,000 contributed by sixteen subscribers. The drive was directed by Hamlin Overstreet, officer of the Panhandle Plains Historical Society. Carson County, in a drive directed by David M. Warren, subscribed \$2,258.50. There were 214 contributors.

O. T. Nicholson of Sherman put Wheeler County into the cash column with a total of \$2,038 received from 124 subscribers. From Claude, President New on Harrell of the Society sent in \$1,943.50 from twenty-four Armstrong County individuals and firms. Mr. and Mrs. O. H. Finch and Allyn D. Finch donated a total of \$1,050 for Hartley County. Mr. and Mrs. L. M. Price of Stratford led off with \$1,000 in Sherman County, and Royal Pendleton and nine other citizens added \$184. O. H. Finch and John O. Colquitt of Darrhart have sent in \$608 to date from twenty-six subscribers in Dallam County.

From Pampa, Mel Davis sent \$1,260 from nine individuals in Gray County. Randall County has raised \$1,800 up to now. H. C. Pipkin of Amarillo, chairman of the museum campaign, has sent in more than \$6,000 from twenty-six Potter County subscribers. Three donors have sent \$600 from Hemphill County. Several other counties have contributed substantial amounts.

About half of the \$60,000 needed is on deposit in a bank, said Dr. L. P. Shiffley of Canyon, secretary of the Panhandle-Plains Historical Society. Officers of the Society have decided to complete the drive as soon as possible in order that work on the two-story addition may be started. Such construction is considered imperative in order to prevent rain damage to the original building.

Wants Feeder Airlines

Evansville — Purdue University now has an application before the Civil Aeronautics Board to operate an experimental feeder airline between this city and Chicago. The University, which offers several aviation courses, believes such an airline would provide practical instruction for students as well as aid aviation generally due to the intensive research work that could be accomplished.

National Guard Air Force

Present plans being developed by the Army Air Force call for 84 air squadrons of 16 planes each for the National Guard Organization. The 84 squadrons would be located at strategic points and 72 of them would be fighter units. Each state will have at least one unit.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Apprenticeship Training Plans for Veterans

State approved labor-management committees are now recognized by the veterans' administration as institutions eligible to provide apprenticeship courses for veterans under Public Law 16, for disabled veterans, and under the G. I. bill of rights.

The committees when approved by the appropriate state agency will be responsible for: (1) acceptance of applications for veterans training; (2) determination of establishments in which training is to be provided; (3) arranging for placement of veteran and (4) assurance the establishment is providing a standard course.

Veterans administration commitments on homes under the guaranty provisions of the G. I. bill now amount to \$134,545,000, on business loans, \$6,814,000, and on farms, \$2,721,205. Of 97,728 applications for loans received up to February 23, 81,633 were approved. There were 73,533 applications for loans on homes approved, 2,233 on farms and 5,376 on business loans.

Approximately one in four of the 10,610,000 veterans discharged as of March 1, have enrolled for readjustment compensation and survey shows that the average veteran only draw about five or six weeks' allowance. Approximately 2,300,000 have received compensation and less than half that number are currently enrolled. Some 500,000 withdrew their claims before receiving first checks. This indicates the peak of demobilization has passed and that veterans are rapidly obtaining jobs, the VA said.

Questions and Answers

Q. My brother, after being discharged last March, 1945, from the marines for wounds received on Guam, is now called to the hospital for observation for 30 days. Will his wife and children receive any allotment or aid from the government while he is there? — Reader, Webster, Mass.

A. If your brother was actually separated from the marines and obtained his honorable discharge, the answer is no. The general rule is that he cannot be discharged unless he is physically fit. It could be that some repair job was done and surgeons wanted to check it at the end of a year.

Q. My son enlisted in the navy in May, 1945. He had an allotment paper made out and sent to me, but at the time I did not feel that I really needed it and did not fill out the questionnaire. Ever since he had this paper sent to me he has only received a small amount of his pay. What can he do to get his full pay check? — Mrs. P. C. Orrick, Ma.

A. The navy department says there is no paper for the wife or mother to fill out. If the allotment, however, has been deducted from his pay, write to Field Services, Bureau of Supplies and Accounts, Navy Department, Cleveland, Ohio, giving serial number, name, duty and rate.

Q. My husband and I have been separated six years. He has a bonus from World War I that has never been cashed. He left it with me and said it was mine. He is now in very poor health with a heart ailment. In case of death, could I cash this and if so, how? — Mrs. H. R. R., Battle Creek, Mich.

A. The veterans' administration says this is a legal question. In general the bonus would go to the legal heirs or assigns of the veteran. Suggest that you write to your nearest veterans administration office and give them full particulars, or consult your attorney.

Q. My husband has chronic arthritis of the spine and right hip and is totally disabled. He is only rated 30 per cent and thinks he should receive more. He was denied more over a year ago. How can he get his pension raised? — Mrs. T. O. G., Milwaukee, Wis.

A. There is a sub-regional veterans administration board in Milwaukee. Suggest you appeal your case to this board. You have right of appeal.

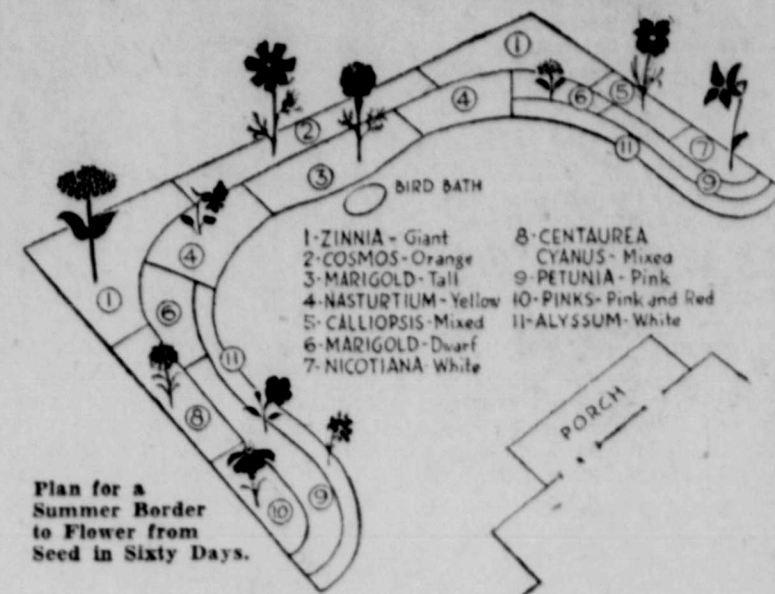

Q. My son volunteered for the navy in November, 1941. He has spent 45 months overseas. I want to know if he is eligible for a discharge or state-side duty and if so who does he get in touch with? — Mrs. J. B., Foxworth, Miss.

A. A general rule is that a "tour of duty" at sea is 24 months when he would become eligible for shore duty in the States. It is, however, up to the theater commander and depends on whether your son enlisted in the regular navy before Pearl Harbor or was drafted afterwards.

Research Scholarship

New York—The first working and research graduate scholarship in air freight has been established by New York University.

Grow Border of Annuals For Vivid Color Accent

Modern annual flowers have everything—color, size, beauty of form, fragrance, abundance of bloom and long season of flowering. From a few packets of seed a garden can be grown in a matter of weeks this spring.

For a new, or rented home, where a quick effect is demanded, nothing can compare with annuals. And many an established garden depends upon beds and borders of annuals for the principal accent in the landscape picture because of their vivid coloring, and long season.

There is a place for a garden like the one illustrated in almost every home grounds. Be generous with the space allotted to it. A planting of annuals should not only beautify the grounds, but provide cut flowers for the house, so be sure of an abundant supply.

In the plan suggested, all colors are used in well balanced proportion. Tall flowers are placed in the background, with the lower grow-

ing ones in front. Plants for such a garden can be started in a seed-box, and moved to the garden when they are large enough; or seed can be sown directly, in which case the plants should be thinned out, so that each has room to develop its full size.

If such a border can be viewed from a window, or made near a terrace or porch, enjoyment of it will be enhanced. A bird-bath or small pool, placed as a focal point at the center of balance, will help complete the design.

It is essential that a garden such as this shall have full sun. Select a place where sunshine is assured, and there are no roots of shrubs or trees to compete with the flowers for food.

Plant food should be spread over the area at the rate of 4 pounds to 100 square feet and dug into the soil at least four inches deep. This will place it where the roots of the plants will find it when they have begun to grow well.

New Mexico Vows Of Interest Here

Announcement is made of the marriage of Miss Leona Oma Berkstresser to Thomas Ames Whelan, son of Mr. and Mrs. Lawrence Whelan of Edmond, Okla. The vows were read in Carlsbad, N. Mexico, at the home of the bride's brother, W. H. Berkstresser, 303 E. Church Street, March 20 at eight o'clock in the evening with James Willford, pastor of the Church of Christ officiating.

Spring flowers were used profusely in the living room; included in the arrangements were bouquets of pink sweet peas and red tulips.

For her marriage the bride chose a dress of turquoise blue cable knit with pink accessories and she carried a bouquet of pink carnations showered with sweet peas. Her sister, Mrs. K. Fred Cline of Tucson, Ariz., served as matron of honor and she wore gold jersey accented with a corsage of pink rosebuds.

W. H. Berkstresser was the bridegroom's best man.

Immediately following the cere-

mony a reception was held, and after the bride cut the first piece of the cake it was served by her mother, Mrs. I. F. Berkstresser. The cake was decorated with pink sweet peas and a miniature bride and groom. Mrs. K. Fred Cline and Mrs. W. H. Berkstresser poured.

Those present were Mrs. Huel Davis and Mrs. E. Fred Cline of Tucson, Ariz. Mr. and Mrs. Jimmie King, Mrs. John Burns, Mr. and Mrs. I. F. Berkstresser, Mr. and Mrs. Berkstresser and children, Jim Bill, Reata Lu and Nancy Joyce, all of Carlsbad.

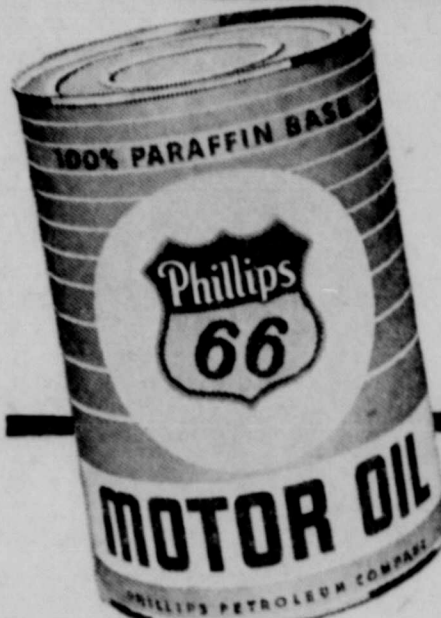

Following the reception the bridal party progressed to the old South Dining Room where they were the guests of Mr. and Mrs. W. H. Berkstresser for dinner.

Mr. and Mrs. Whelan left the following day for a two week's wedding trip, and upon their return to Carlsbad Mr. Whelan will be employed by the United States Potash Co. as an electrician helper.

Both Mr. and Mrs. Whelan are graduates of the Edmond, Okla. high school and popular members of the younger set. He has just returned from service in the Pacific.

Mr. and Mrs. I. F. Berkstresser at-

It isn't *WHEN* you change, it's *WHAT* you change to!

Probably you are already thinking about that regular spring oil change for your car.

It's important. But equally important—is the kind of oil you change to!

For unless you change to a rugged, protective oil that'll stand up under the hot, hard driving conditions of the months ahead, we say—you're just wasting your money.

Make your spring change-over with an oil you can be sure about—Phillips 66 Motor Oil. It has been proved by 66,000,000 miles of all kinds of driving . . . by hundreds of thousands of pleased drivers.

Get set for Summer—with Phillips 66.

THE AMERICAN LEGION PLAN OF UNIVERSAL TRAINING

UNDER THE ADMINISTRATION OF A CIVIL AUTHORITY CREATED BY CONGRESS

The above is a chart of The American Legion plan of universal training for national security which is being offered as an amendment to the Gurney-May Bill now pending in Congress. In this carefully planned program The American Legion believes it has met the objections of the clergy, educators and parents to other plans.

Under this plan the young man upon reaching the age of 18 or upon graduating from high school, never is later, would take a four months' basic military training course which could be given during the summer months. Thereafter he would have five options for completing his advanced training. He would thus be able to select the course that would not interfere with his schooling or business plans. The American Legion believes this is the best plan of military training yet advanced for the nation and its young men.

Washington Letter

EUGENE WORLEY
Congressman, 18th District

A constructive move was made last week by Secretary of War when he appointed a six-member board of former servicemen to study the much criticized "military system."

The board will be Lt. James H. Doolittle, of Tokio, and subsequent distinguished service. On the board will be Maj. Gen. John H. Hines, former chief of the 1st Infantry Division, and Maj. Gen. John H. Hines, former chief of the 1st Infantry Division, and Maj. Gen. John H. Hines, former chief of the 1st Infantry Division.

Secretary Patterson said the investigation will look into the relations between officers and men on and off duty, investigate their housing, clothing, recreation facilities, living conditions and the promotion system. The investigation will start this month. A large number of

witnesses, including civilians who had close contact with service personnel, such as workers of the Red Cross, will be heard.

It is expected that the Navy will announce the appointment of a similar board soon. Vice Admiral Louis E. Denfield, Chief of Naval Personnel, disclosed that the make-up of the Navy board has not yet been determined but stated that it would consist of reservists or former naval men.

Patterson, in appointing the board, said that in planning for a peacetime Army any change in personnel policy should be made to achieve a citizen's Army of the best type possible. "In the last few years, millions have served in the Army who would not have done so had it not been for the war—and while the experience of the war is still fresh in our minds, the time is right to take stock and determine what changes should be made in our practices."

Another announcement made by the War Department was that of 212 Brigadier Generals being reverted to the permanent status of Colonels, which serves to give some idea of how rapid has been our demobilization policy.

Blue Mound

The Ladies Club met Wednesday, March 27 in the home of Mrs. C. E. Presnall. Quilting provided diversion. A covered dish luncheon was served at noon. During the recreation hour, the entertainment included games, a duet "Did You Ever Go Sailing" by Verna Presnall and Grace Shuler with Maxine Rorabaugh at the piano; and a reading "Popping Corn," by Marie Blosser. The guest box was won by Marie Blosser. The next meeting will be with Mrs. Grace Shuler on April 10th. Members present were Mesdames Lola Rorabaugh, Grace Shuler, Marie Blosser, Josephine Rorabaugh, Mabel Beckwith, Fannie Sagar, Lillie Morris, May Pattison and Miss Maxine Rorabaugh. Visitors were Mrs. Edna Mae Presnall, Mrs. Anna Beuchner, and Mrs. L. V. Noe.

Mr. and Mrs. Eron Blorton and baby spent Sunday in the home of Mr. and Mrs. Clyde Carrol.

Mr. and Mrs. A. C. Partridge were dinner guests last Sunday in the home of Mr. and Mrs. Levi Blosser. The occasion was in observance of Mr. Partridge's 69th birthday.

Mrs. Paul Bohrer and daughter,

Paula of San Antonio, spent a few days last week in the home of her uncle, C. E. Presnall.

Mr. and Mrs. A. W. Pattison and Karen and Mrs. H. E. Pattison spent last Friday in Liberal.

Mr. and Mrs. W. T. Shuler of Lincoln, Neb., are here looking after their land interests.

Mr. and Mrs. Elmer Unruh and children called Tuesday afternoon in the home of Mr. and Mrs. George Beuchner.

Mrs. Walter Morris submitted to an operation at the St. Anthony hospital in Amarillo.

Mr. and Mrs. E. M. Padgett and Ed Pribble were in Liberal last Friday.

RELEASED BY NAVY—Garland Daley, S 1/c, was discharged from the U. S. Naval forces at the Separation Center, Norman, Oklahoma, March 7, and has returned to Perryton where he will be associated with his father in the Daley Glass Shop. Garland entered the Navy at Oklahoma City, Okla., Nov. 10, 1944, and received boot training at San Diego, Calif. where he attended a storekeeper school. He also served at stations at Sampson, New York, and was on active sea duty to Cuba. He is a son of Mr. and Mrs. R. H. Daley and will reside here with his wife and daughter, Carol Ann, age three.

NOTICE TO CREDITORS OF ESTATE OF NANNIE STUMP, DECEASED

Notice is hereby given that original letters testamentary upon the estate of Nannie Stump, deceased, were granted to me, the undersigned, on the 4th day of March, 1946 by the county court of Ochiltree County, Texas. All persons indebted to said estate are hereby notified to come forward and make settlement, and all persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence is two miles west and seven miles south of Waka, in Ochiltree County, Texas, at which address I receive my mail.

JESSE V. STUMP
Independent Executor of the Estate of Nannie Stump, deceased.

Visiting Hours:
10:00 a.m. until 11:00 a.m.
2:00 p.m. until 4:00 p.m.
7:00 p.m. until 9:00 p.m.

Robert Gail Schroeder was a medical patient from March 22 to 27.

Mrs. Ralph Francis, a surgical patient, was dismissed from the hospital March 28.

Mrs. F. D. Louen, Gruver, was dismissed March 30.

Dean Wing, Hardesty, Okla., a surgical patient, was dismissed April 1.

Mrs. Buell Morris, Balco, was dismissed from the hospital April 1. She had undergone surgery.

Joe Bill Kelly, a surgical patient, was dismissed April 2.

Mrs. Fred Smith, a surgical patient, was dismissed April 2.

Ramona Sue Wilson, daughter of Mr. and Mrs. William Wilson was a medical patient for two days. She was released April 2.

Charley Holmes is a hospital patient.

Mrs. George Trosper and Mrs. E. J. Trosper are surgical patients. The former was operated on March 26 and the later on the 27th.

Mark Blodgett is still a hospital patient.

Mrs. Lilly Evans, a hospital patient, underwent surgery Tuesday.

Mrs. P. D. Thiessen, a medical patient, was admitted March 27.

Mr. and Mrs. Arch Cooper are the parents of a daughter born April 1.

Harvey Wilson, a medical patient, was admitted for hospitalization March 31.

Mrs. Paul George underwent surgery March 29.

Calvin Flowers, a surgical patient, is still in the hospital.

Miss Leata Wagner is a medical patient.

CARD OF THANKS

I wish to thank my friends who remembered me with cards and visits during my stay in the hospital. They helped brighten the hours.

Mrs. Fred Smith

Mr. and Mrs. Roy Roper of Amarillo are the parents of a son, Jeffrey Lynn, born March 17 at the Amarillo Osteopathic Hospital. Mrs. Roper will be remembered as the former Miss Ruth Jeffroy and they are former Perryton residents.

Mr. and Mrs. Tom Collingsworth have returned to their home at Downey, Calif. after a short visit with his mother, Mrs. Myrtle Collingsworth, his sister, Mrs. John Foster and family, and with her parents, Mr. and Mrs. Q. M. McBride of Hardesty, Okla.

A. F. Cutter has returned to Perryton after spending several months at Mineral Wells.

Air Shipper Research

Washington—Due to continually rising shipments of air cargo bringing many new commodities to the airlines, the Air Transport Association of America is setting up a Shipper Research Division. The new division will study and prepare regulations dealing with the safe transportation of hazardous commodities by air. It will also direct laboratory experiments in the testing and analysis of packaging specifications.

Auxiliary Jet Power

One of the domestic airlines has ordered 100 planes that will have jet exhaust propulsion as auxiliary power. The planes, twin engine type capable of flying 40 passengers will be used for speedy, economical flights of 1,000 miles or less.

Mr. and Mrs. W. E. McMillen and Mrs. E. L. Whippo were in Shattuck Monday; Mrs. Whippo went thru the clinic for examination.

Omar Truax was in Shattuck to bring his mother, Mrs. Belle Truax home. She has been in Shattuck for some time under the doctor's care.

Mr. and Mrs. Chester Beck have returned home from Del Rio where they have been for Mr. Beck's health.

Sunday dinner guests of Mr. and Mrs. C. F. Jones were Keith Bray and Jerald Jones.

Breaking Through the Dark Clouds

Mrs. J. C. Case and Otto, Balco,

were Monday visitors in the I. H. Sharpe home.

Mr. and Mrs. Henry Balzer and Mr. and Mrs. Dan Tracy were in Borger Monday on business.

CONSTRUCTION will get underway within six weeks on a \$165,000 clinic and 30-bed hospital in Perryton. Drs. Roy K. and Herbert Sanford, who recently let the contract to a Muskogee, Okla., firm estimate the building will be completed in six or seven months.

VOTERS will choose directors for the Perryton Independent School District on April 6.

WHETHER OR NOT a Soil Conservation District is to be established in Lamb County will be determined April 9 at a meeting in Amarillo, according to County Agent Lenn Weaver. The State Soil Conservation Board will hold an election at its expense if enough interest is shown.

THE LOVINGTON, N. M., chamber of commerce has revived its annual banquet, discontinued during the war.

THE ELLIS COUNTY (OKLA.) American Legion Auxiliary, with headquarters at Shattuck, is sponsoring a "plant a tree" program as memorial to the county's Gold Star men and women of both World

Wars. Each resident has been asked to set out a tree.

THE EDDY COUNTY NEWS of Carlsbad, N. M., reports 20,000 visitors went through Carlsbad Caverns in March.

EDDY, CHAVES AND LEA Counties now have a Veterans Administration advisor. He is Arthur E. Day who recently set up offices in the courthouse at Carlsbad.

BEAVER OKLA., will be the site of Beaver County's annual 4-H Club contest on April 16.

THE HUMELE OIL test well near Swearingen in Collingsworth County was abandoned last week. Drilling ceased at 5,985 feet when they ran into blue shale.

MEMPHIS plans to organize a Veterans of Foreign Wars Post, according to details outlined at a meeting here last week.

BECK, OKLA., has a drive underway to raise \$2,000 to rebuild its ball park, hire a new coach and purchase new equipment.

R. C. HIGLEY AND JOHN BROWN of Tucuman, N. M., have invented a new type land-leveler, which they call a "land planer" since it operates in the manner of a carpenter's plane. It yields a 12-foot blade for leveling the ground.

trustee election is scheduled for April 6. DEAF SMITH COUNTY also holds its school board election that date.

ONE OF HEREFORD'S newest industries, an alfalfa mill and dehydration plant, will be ready to operation in time for this year's harvest, according to owner George Board.

G. KELLEY STOUT has resigned as Artesia, N. M., chief of police.

This city is undergoing a building boom. The Artesia Advocate estimates three quarters of a million dollars worth of building is either underway or contemplated.

WAYNOKA, OKLA., plans a town-wide clean up campaign this month. THE MENARD (TEX.) Junior Chamber of Commerce also announces a city-wide clean up campaign for the near future.

CLARENDON'S water situation should be eased somewhat this summer, according to the Donley County Leader which complimented the city commission last week on the installation of a new water well, a new pump on the main city well, and proposed improvements on the town's drainage system.

CHEYENNE, OKLA., announces construction has begun on a \$25,000 brick building to house the Kaiser-Frazer Automobile Agency.

HALE CENTER will be in a farm-to-market program which includes widening of Highway 87 from Plainview's northern outskirts to Hale Center. This city also announces appointment of officers for the Hale County Cooperative Hospital, with work to begin on construction soon.

PADUCAH is host this week to the 18th Annual Conference of the 14th District Texas Congress of Parents and Teachers.

WORK starts shortly on a farm-to-market road from Delwin to U. S. Highway 83, the State Highway Department at Childress has announced.

CLOVIS, N. M., is looking forward to the Mounted Patrol Rodeo, a two-day celebration to be held June 7-8. A Pioneer Day parade will start the colorful affair.

AND QUANAH'S chamber of commerce has signed a contract with Beutler Bros., of Elk City, for its rodeo May 3-4.

ALTUS, OKLA., goes to the polls April 9th on a \$29,250 city bond issue for improvement of light plant, water and sewer systems.

PROTESTS to the State Highway Engineer from Andrews County Commissioners and County Judge Charles Roberts have resulted in reclassification of the Andrews-Big Spring highway. Formerly classed as a farm-to-market road limited to 16 feet in width present classification will permit a width of 22 feet.

CLAYTON, N. M., natural gas users were elated over lower rates approved this month by the New Mexico Public Service Commission.

TICKLERS...

JIM NEILL, former Texas Tech football star and New York Giant pro, has been named coach of Lamesa high school. He succeeds H. J. Sanders.

SWEETWATER city dads last week granted a franchise to J. B. Langhorne, Houston bus operator, for a bus line in this city.

WHEAT AND GRAIN SORGHUM production in Parmer County in 1945 doubled that of 1940, according to a recent release by county agent Lee H. McElroy.

CECIL B. HODGSON of Sayre, Okla., has built more than 280 earth-filled dams in Beckham County under the AAA program, the dams ranging from 100 to 400 feet long.

SEMINOLE, OKLA., is now eligible for city mail delivery service and may have it soon, according to Postmaster Jewell Cobb.

LEVELLAND'S new ward school construction began this week. Contracts totaling \$105,560 have been let on the building.

McCAMEY announces a new industry, the manufacture of terra cotta tile for building purposes. Perry Lancaster and Reyburn L. Brown are owners of the newly-organized company.

ERICK, OKLA.'s bond issue for purchase of new transportation equipment for Beckham County's school district carried 4 to 1 in their recent election.

HASKELL, TEX., announces organization of a Junior Chamber of Commerce, to cooperate with the Senior C of C for civic improvement. Roy Sanders is prexy. Work has started also on this city's \$30,000 Memorial Building, financed by donations and sponsored by the American Legion and Lions Club.

CANADIAN'S \$74,000 bond election for sewer and paving expansion carried 238 to 14 last week, while the \$20,000 city park issue was edged out 128 to 117.

MAYOR R. H. PORRESTER of Wheeler is puzzled. Some person left a \$50 war bond on his desk as a gift. The mayor said it was out of the field, but the Postmaster Chester Lewis would not purchase the bond for the mayor.

MORE THAN 70 per cent of Shamrock's voters approved the \$80,000 bond issue for the erection of a municipal hospital.

HOCKLEY COUNTY'S \$850,000 road bond election has been ordered for April 27. The program includes 42½ miles of hard surfacing for county roads. AND LEVELLAND'S \$300,000 city bond election came up April 2.

SLATON'S Lions Club celebrated presentation of its new charter last week.

DIRECTORS of the Floyd County Cooperative Hospital last week approved purchase of the Baker Hotel building in Leakey for conversion into a hospital.

CROSBYTON voters approved a \$100,000 bond issue 16 to 1 for sewer and water extension, paving, a new fire truck, and a new city hall.

AUTHORIZATION for construction of 150 miles of REA lines in Coke County was received last week from Washington, reports the Robert Lee Observer.

TULIA has called a \$150,000 school bond election for April 6, for construction of a new elementary school building.

CLAUDE has started plans for a city park, to be a World War II memorial project. This city is also sponsoring a city-wide clean up campaign.

CORDELL, OKLA., is host April 19 for the Cluser-Washita County pioneer celebration.

THE KNOX CITY Board of City Development last week announced completed plans for a transient labor camp for Knox County.

RECENTLY the Cities Service Company brought in one of the largest gasers in the North Panhandle country on the Sam Wohlford ranch, eight miles south of Stratford, said to be making 50,000,000 cubic feet per day according to the Oklahoma Times.

A GOLD MEDAL should be awarded J. W. Johnson of Cadon for his courage. Recently his plane flew into a garage roof in that city. Johnson issued a statement blaming his foolishness and recklessness and not the fault of flying. His

statement will do more to improve flying than all other safety devices invented this year.

BOOKER farmers were elated

last week not only over a half-inch rain in the vicinity but over a heavy snow which followed the downpour.

HIGH WINDS brought approximately \$6,000 in damage to Wellington buildings last week.

HEAVER, OKLA., property owners voiced an opinion last week, 100 strong, they wanted a paving program and street improvement.

TWO BORGER men are held on a charge of staging a drunken brawl at Wheeler and the local sheriff made a front-page statement relative to their arrests and participation in The Wheeler Times. Guests in a Wheeler hotel were held at bay by the drunks at pistol point, who created a disturbance in a drug store and otherwise disrupted normal affairs until calmed down.

MEMPHIS officials declared a recent petition to vote on a recall for beer was illegal. Those in favor of beer say another petition will be presented.

HOLLIS, OKLA., proposes to raise \$10,000 to erect a War Dead Memorial.

SPEARMAN announces construction of a 56,000 bushel concrete storage elevator, also a 57 inch rain to aid future grain crops and a record one-day contribution drive by editor Bill Miller for the Panhandle Historical Museum at Canyon.

PLAINVIEW has secured an engineering firm to survey its future sewer and water expansion needs.

HAPPY is constructing a new Legion Home, 40 by 80 feet.

PAMPA and other Gray County citizens will vote March 30 on a

\$550,000 general hospital bond issue.

Hot and Cold Air Cargo

Washington—Air cargo carried on an international run is subject to wide temperature variations. The average outside temperature in winter on a trans-Atlantic flight is 22 degrees F. below zero. On a flight from New York to Calcutta at take off cargo may be subject to 40 degrees F. below zero, then for many hours while flying at 10,000 feet or higher, it may be subjected to 10 degrees F. and then return to the 40 degrees or higher several times during the flight.

Office Furniture at Herald office!

Air Travel Fellowships

Washington—Air travel fellowships in the form of special rates on U. S. airlines flying national routes have been proposed by J. Parker Van Zandt, director of Aviation Research for the Institute. He suggests that at certain times of the year on trans-oceanic air trips there will be percentage of unoccupied seats. Teachers winning a scholarship should obtain these seats at a minimal fee on a "when and as available" basis. Thus they could spend 6 or more weeks of study and travel abroad in a number of foreign lands at a small cost.

DR. MANSE WOOD

DENTIST

Recently released from active duty with the U. S. N. R. announces the reopening of his dental office in a new location.

MONDAY, APRIL 8

Mrs. Johnnie Holland R. N., Receptionist

In New Quarters

501-503 S. Main St.

To The Voters of Perryton Independent School District

★

A petition has been circulated to place my name on the ballot for the election of school trustee, to be held next Saturday, April 6th.

Since my name will appear on the ballot, I will accept such position, if elected, but I want to make the statement that I am making the race independent of any faction, issue, or group and, if elected, will fill the office to the best of my ability and the best interest of the school.

A. W. HENRY

Mr. and Mrs. Robert Lawrence were called to Abilene last Wednesday night to be with their daughter, Mrs. A. P. Holland who was ill. Mrs. Holland, who before her recent marriage was Miss Norma Lawrence returned home with them and is recuperating from her illness before returning to her studies as a cadet nurse in the Hendrich Memorial Hospital at Abilene. J. S. Slaughter made the trip with the Lawrences.

Miss Sammie Roach and her nephew, Sam Roach, were in Hooker Friday transacting business.

Shirley Temple's Brother a Pro

Despite family disapproval, George Temple, Jr., brother of actress Shirley Temple, makes his debut as a professional wrestler in a Los Angeles arena. That's George on the bottom, trying to squirm out of Mike Works' hold—which he did, and won the 20-minute bout as his parents watched glumly from ringside.

Mr. and Mrs. J. R. Thomas were in Amarillo Monday and Tuesday visiting in the home of his parents. Mr. and Mrs. K. K. Thomas.

Rev. O. C. Curtis left Monday for Channing where he is conducting revival services in the Baptist Church there.

Army Uniforms Single Styled

Officers and men of the Army will dress alike after June 30, 1943 in battle jackets and trousers of the same olive drab shade now used in enlisted men's clothing, according to information received from Lieutenant Colonel Hardy, Commanding Officer of West Texas Army Recruiting District. This type of uniform is worn now by many officers and men and will become obligatory for all personnel after the 1943 deadline. Until then, the present types of uniform may be worn.

New regulations prescribing the olive drab combination for all ranks also paved the way for the eventual adoption of dress blue uniforms for officers and men provided they can be procured and manufactured without interfering with the production of civilian clothing. If available, the blues will be worn by officers and men after June 30, 1948, for dress and special occasions. If the blues do not become available, the olive drab jackets and trousers will serve for both duty and dress.

For summer and tropical wear, the duty uniform for officers and enlisted men will continue to be the familiar khaki. The summer dress uniform for officers and men will be shirt, trousers, service cap, and battle jacket, in tropical worsted material.

The request to explore the possibilities of blue uniforms came from the European Theater of Operations when General Eisenhower, now Chief of Staff, was in command there. It was suggested that the blue uniforms might be used for the Army of Occupation, that new uniforms would be welcomed by our soldiers, and that they would distinguish them from troops of Allied Nations.

Tests for a satisfactory shade of blue are now being made and it will be several months before the last qualities of the new color are determined. Experimental models of the enlisted men's dress uniform comprises a sack type coat, matching trousers, and visored cap, in medium weight wool tailored to individual measure. Brass buttons and piping in the color of the individual's branch or arm of service add contrast. The officers' dress uniform as contemplated would be similar except for insignia.

Beating Sound Speed

At least two manufacturers are far advanced on planes for the Army and Navy so that within the next few months these planes with pilots aboard will set records in the supersonic fields.

Mrs. Rupert C. Allen, who has been confined in St. Anthony's Hospital, Oklahoma City, Okla., for medical treatment for some time, has returned to her home and is improved.

80 Per Cent Flour Will Be Marketed

Enriched 80 per cent flour, to be on grocery shelves soon, has the same vitamin content as enriched white flour, but is higher in protein value—energy—according to Miss Edith Lawrence, food preparation specialist of the Texas A. and M. College Extension Service.

The story of American flour, Miss Lawrence says, goes something like this: For many years modern white flour has been losing important values in milling. In order to have it white and fine, and of good keeping quality, the outer coat of the grain was removed. With it went around seven-eighths of the thiamine and niacin, three-fourths of the riboflavin, and four-fifths of the iron, as well as some calcium, phosphorus and better quality protein.

Some of these values were returned when bread was enriched with the three lost B-vitamins, thiamine, riboflavin and niacin, also iron.

Only about 65 per cent of the flour and flour products on the market, however, has been enriched. Flour rank in this order in nutritional value: whole wheat, enriched 80 per cent flour, enriched white flour, unenriched 80 per cent flour, and unenriched white flour.

The new 80 per cent flour is much finer and lighter in color than whole wheat flour. Unenriched it has only about 40 per cent as much

thiamine as whole wheat flour, only half as much riboflavin and iron, and a fourth as much niacin.

On the foods preparation end, tests conducted by the USDA Bureau of Home Economics under commercial baking conditions revealed that the difference in bread made with the old and new flours was not as great as had been expected. The loaves made from the 80 per cent flour did not rise quite as much as those from white flour, and the bread had a slightly off-white or creamy cast. The Bureau of Human Nutrition and Home Economics has had reasonably good success in making biscuits and pastry with the 80 per cent flour.

Fight Forest Fires

Los Angeles—The Army Air Force and the U. S. Forest Service are going to use 6 helicopters in fighting forest fires in the Los Angeles National Forest. The Fourth Air Force search and rescue unit will fly the planes and if tests prove successful such planes will be used throughout the country by the Forest Service. There will be other tests such as counting cattle, sowing seed and stocking mountain streams with fish.

Lt. Randall Jones left Saturday to transact business in Denver, Colo. Randall is on terminal leave from the Navy until April 21.

Apples have been cultivated in Europe for at least 4,000 years.

A Brownie Revel was held in the school gymnasium Tuesday afternoon at three o'clock with 26 Brownies from two troops present. The meeting was under the direction of Miss Norma Ewing, area representative, who was in Perryton this week conferring with Girl Scouts and their leaders.

Singing games were played, and they included "Swinging in the Swing," "Muffin Man," Miss Jenny O'Jones" and "Three Dukes."

The following members of Mrs. H. D. Malone's Brownie troop were present: Joy Anderson, Lois Beck, Charlotte Ann Flowers, Barbara Flathers, Vondel Smith, Phyllis Vernon, Jane Malone, Marilyn Scott, Deanna McLarty, Jackie Nell Carter, Marita Lou Pittman and Barbara Lynn Hawk.

Present from the second Brownie troop, whose leader is Mrs. Al Ackley were Ellen Ackley, Beverly Barnes, Carla Sue Blackmore, Barbara Bohling, Connie Edwards, Ola Sue Johnson, Patty Logan, Geraldine Parker, Barbara Powell, Shirley Stone, Patsy Tregallas and Marilyn Witt. Mrs. Miles Edwards and Mrs.

Darwin Barnes, troop committee members were also in attendance.

Flying Them Home

Washington—The U. S. Army in the last quarter of 1945 brought back from foreign countries by air a total of 91,355 army personnel. The "white" project, as European returns were called, brought back 73,933 persons from Europe in 6,088 aircraft. The "sunset" project, as the Pacific movement was termed, returned 17,774 personnel in 1,259 planes.

Mr. and Mrs. Lester Baumann were in Borger and Pampa Monday.

Santa Fe Plans Lowering of Rates

CHICAGO—Citing efforts of the railroads to meet competition through lower rates, Fred G. Gurley, president of the Santa Fe System, told the combined arbitration boards hearing the wage demands of 18 railroad unions recently that "The greater the disparity between our costs and the costs of our competitors, the more perplexing our problem becomes." "Railroad employees," he said, "have had the benefit of the employment and compensation incident to the traffic the railroads have been able to retain by these experiments in rate adjustments."

Mr. Gurley said that the "cushion" which had enabled the railroads to reduce many competitive rates in the face of rising wage and material costs and increased taxes, had been the increased productivity of the railroad plant. "The real reason for this increased productivity throughout a period of years," he said, "is the improvement in the plant produced by large investments which have brought about a new technology, and there also have been continued improvements in managerial technique."

"The most important factor has been the new tools and the new instrumentalities of transportation made possible by the continued investment of capital in the railroad plant. The expenditures of the vast sums of money which have been made for improvements in the American railroads have resulted in better railroads each year than we had the year before."

Mr. Gurley said, "It would be a great tragedy in a great national era if the railroads get so squeezed that they cannot go forward with a program of modernization and improvement which all circumstances so plainly suggest and demand."

"If the railroads are to compete with reasonable success in an endeavor where the competition will be greatly intensified, they must continue to invest large sums of money annually for improved equipment and additions and betterments," he said.

"WAKE UP, AMERICA!"

Do Price Controls Hinder Production?

As debated by

John W. Scoville
Consulting Economist

Robert R. R. Brooks
Deputy Administrator for Information—OPA

MR. SCOVILLE OPENS: Five market prices bring maximum production. If the controlled price is above the free market price, some consumers are unwilling or unable to buy, and this decline in demand brings a decline in output. If the controlled price is less than the free market price, then the supply declines. When prices are forced down, profits are reduced. This decline in profits forces some marginal producers to reduce operations or quit altogether; it reduces the probability that a going concern will expand its operations and it tends to prevent new capital and new firms from entering the field. A government agency which can set prices has the power of life and death over every business enterprise. This unpredictable hazard makes businessmen cautious and less inclined to make long range plans and investments. It is the policy of the OPA and other agencies of government to reduce profits. This reduction is accomplished by holding down selling prices and increasing costs by granting large increases in wage rates. This reduction in profits and rents acts as a brake on manufacturing and construction. Statistical data to prove this proposition are not necessary just as no data are necessary to prove that a ship sinks deeper in the water when more cargo is added. Those who dissent must accept the absurd alternative that business is stimulated by making it less profitable.

MR. BROOKS CHALLENGES: With present demand for most products far in excess of supply we have no free market. Removal of controls now would result in rapidly rising prices, hoarding, speculative buying, wildly fluctuating business costs and the kind of boom and bust we had after World War I. Mr. Scoville's generalizations that price controls hinder production, force producers out of business, create unpredictable hazards and reduce profits cannot be supported by facts. Business leaders now anticipate unprecedented expansion, failures are at an all-time low. Profits are now at record peacetime peaks. The principal uncertainty now is whether price controls will be promptly renewed so business can be assured of stable costs.

MR. SCOVILLE REPLIES: The basic question is whether production will be greater when people are free to trade with each other or when they are controlled by government bureaucracy. One year or 3 years from now OPA can advance all of its present arguments for continuance of price control. Senator Wagner says food should be controlled until 1950. Automobiles will be scarce for 3 years; houses for perhaps 5 years. The question is not whether OPA should be continued for another year, it is rather can we ever get rid of it when it uses the taxpayers' money to conduct a colossal propaganda campaign to indoctrinate the citizens with falsehoods, fears, apprehension and unjustified alarms.

MR. BROOKS OPENS: The facts speak for themselves. Price control does not interfere with production. During World War I, without price control, industrial production rose only 24%. During World War II, with price control, industrial production went up 116%. Under price control, the nation is now doing a tremendous reconversion job faster than we did a much smaller job after World War I. Both employment and production are now at peacetime peaks. In November, less than 3 months after V-J Day, production began rising. In January 1946, production was 90% above 1939 levels. Price control, under conditions in which demand far exceeds supply, really aids production. Stable prices make production cost predictable. Stable prices also safeguard buying power and protect the big markets upon which mass sales and steady jobs depend. Assurance of stable costs and mass markets enable business to plan large scale production with confidence. Our experience after the last war shows that inflation hinders production. When prices rise rapidly suppliers hoard raw materials and parts for still higher prices. This holds materials off assembly lines, creates artificial shortages and shoots costs and prices still higher. This slows production. Rising costs make it especially difficult for small businesses to operate. With limited financial reserve they are less able at high prices to get their fair share of scarce supplies. Finally, inflated prices drive customers from the market. Reduced markets force production down. Curtailed production creates unemployment and depression.

MR. SCOVILLE CHALLENGES: Doesn't Mr. Brooks know we had price control in World War I? His figures indicate what was accomplished with price controls, but fail to show how much more would have been accomplished without price controls. It is expectancy of profit—not ability to predict costs or existence of mass markets—which stimulates enterprises to produce. When certain official agencies plan payroll costs and OPA plans material costs and selling prices, businessmen cannot plan confidently. Mr. Brooks seeks to show by an argument based on hoarding that inflation hinders production. However, periods of rising prices are almost always associated with rising production and, as for hoarding we have that under the OPA.

MR. BROOKS REPLIES: The few controls of World War I which permitted living costs to rise 62% were so weak they cannot be compared to the effective price controls of today. After World War I we tried to get production up by simply letting prices rise, but production did not go up. Instead, prices shot up 25% in a year, while industrial production dropped 33% in 13 months. Repeating this process won't get full production. Why have higher prices now when production is already above any previous peacetime period? Why did businessmen in the last Gallup Poll vote 3-to-1 to extend price controls? Because stable prices help businessmen plan confidently for the future.

Santa Fe to Reduce Transcontinental Schedules June 2

CHICAGO, Ill. — Schedules of Santa Fe transcontinental passenger trains will be substantially reduced effective June 2. It was announced today by Fred G. Gurley, the Road's President. He also said that effective with the change in schedule, the Chief will be regularly powered with Diesel locomotive. It will be the only daily transcontinental passenger train between

Chicago and Los Angeles pulled with Diesel power.

Running time of the Santa Fe Super Chief and El Capitan will be reduced two hours, to thirty-nine hours and forty-five minutes. Schedule of the west bound Chief will be reduced one hour and forty-nine minutes and east bound twenty-four minutes, with an over all time west bound of forty-seven hours and east bound forty-seven hours. Time of the Grand Canyon Limited, Chicago to Los Angeles will be reduced five hours and fifteen minutes, providing materially improved service along its route. East bound reduction will be nine hours and thirty-five minutes. The Chicago to Los Angeles California Limited will be cut three hours and forty-five minutes, and east bound thirty minutes. The Road's economy train, the Scout, will make the Coast run from Chicago in fifty-nine hours and fifteen minutes west bound, a reduction of three hours and fifteen minutes. East bound the running time will be reduced by an hour and forty-five minutes.

Gurley also announced that the Road has on order 164 modern light weight passenger cars, delivery of which is expected during the summer and fall months.

W. I. Molesworth was admitted to the Northwest Texas Hospital Monday where he will undergo a minor operation.

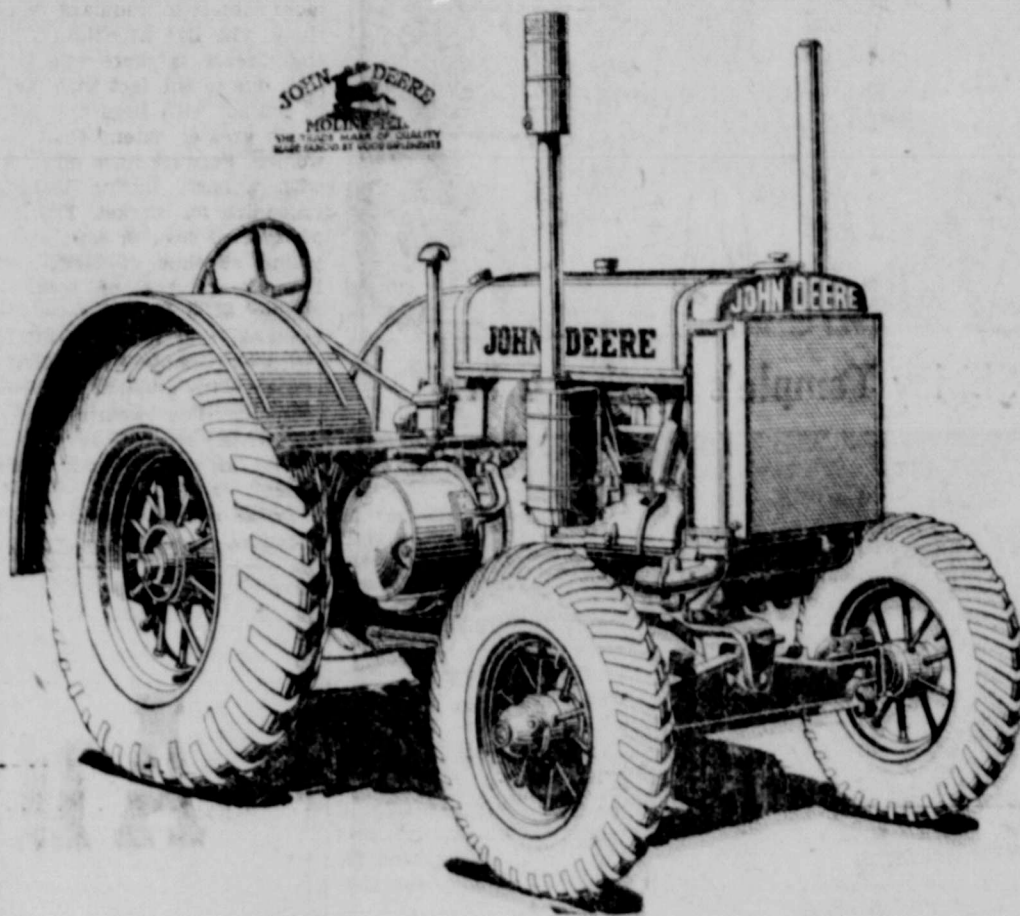

Billie Tremble With Airborne

Pvt. Billie J. Tremble son of Mrs. G. A. Bonner of 520 S. E. 3rd, Perryton, Texas has earned the right to wear the "Boots and Wings" of the United States Army Airborne Troops. He has completed eight weeks of combined Parachute and Glider training during which time he made seven jumps, one at night and the other at the break of dawn. Special Glider flights have also been successfully completed in this course.

The modern war aerial tactics has been augmented by the methods as developed from World War II. The American Trooper has been able to fight against the enemy.

This latest type of training duces combined qualified soldiers and glidermen and also specialized training in communications, riggers and parachute tenancy, which are vital to Airborne Troops.

Typewriters for the time only six keys.

Across-the-fence enthusiasm that radiates from John Deere tractor owners everywhere is the direct result of actual experience, for which there is no substitute. It has had a tremendous influence with farmers who today are operating more than one-half million John Deeres, and with the many more thousands who have placed their orders for earliest possible delivery and are "standing by".

This recognition and appreciation by farmers of true tractor values, accentuated by the stress of wartime food production, has done more than any other one thing to spread the popularity of John Deere tractors.

Wartime operation by boys and farm women has added greatly to the list of John Deere tractor enthusiasts. With starter and lights, hydraulic control, hand clutch, standing platform, good vision, and easy steering, it has been easy and practical for them to pinch-hit in meeting the acute farm labor shortage.

Long life, dependable performance, low cost of operation and maintenance, together with all of the modern features to make tractor operation easier and more productive, is the enviable combination found in greatest measure in the John Deere complete line.

John Deere tractors are built in 6 power sizes and 20 models with matched integral and drawn equipment to meet your most exacting needs.

Higher Yield -- Lower Cost with the Jeoffroy Soil Control Cultivator

Perryton Implement Co.

John Deere Farm Equipment — Krause Plows — Jeoffroy Cultivators

A John Deere Tractor

Is Well Worth Waiting For

With the speeding up of production, as material and manpower become available, more and more John Deere two-cylinder tractors will be coming off the assembly line. If you need a new tractor and can't get a John Deere now, why not place your order with your John Deere dealer. A John Deere tractor is well worth waiting for.

Unemployment Claims Taken Every 2 Weeks Under New Plan

Results prove that people read Herald want ads.

Faced with a backlog of 149,000 unpaid servicemen's readjustment allowance claims, the Texas Unemployment Compensation Commission after Monday, March 25, will begin taking veterans claims once every two weeks instead of once a week.

Reason: the Texas Commission can not obtain additional machines and equipment to handle the increased number of claims filed weekly. Payments to the unemployed recently discharged veterans will be speeded by the change-over. Also the Commission is seeking to reduce administrative expenses of this rapidly growing program, which now has more than 110,000 veterans actively claiming allowances.

Overall amount of the entitlements under Title V of the G. I. Bill of Rights—a maximum of 52 weekly payments of \$20 each—will not be affected. However, under the new procedure unemployed veterans will report every 14 days instead of seven days and they will claim two weekly payments instead of one. Self-employed claim-taking procedures will remain unchanged.

As agent for the Veterans Administration, the Texas Unemployment Compensation Commission administers the servicemen's readjustment allowances phase of the G. I. Bill of Rights in Texas. Administrative expenses, as well as allowance funds, are supplied by the Veterans Administration out of monies voted by Congress for that purpose.

Oysters Via Air

Washington — A five-thousand pound shipment of oysters was recently flown from the National Airport here to Chicago. The oysters were boxed, shocked and canned in 3,996 pint cans in a single day.

All Plastic Plane

One airplane manufacturer has been experimenting with plastics with the hope of constructing an all plastic plane.

as Fish to ceive Play

ON — North Texas State biologists are laying the work which may someday mention-minded America to winter fishing and Texas to markets with their fish. Increase fish production by ing farmers and fishermen accurate data on problems of management, three staff mem- a dozen or more student ts have been probing the life of Texas fish for the past 10 in a series of studies that long-time benefits to the

farmers bringing fish to market as they now bring cotton, or livestock may be the eventual results of the research in the college

average farmer and rancher in the future know how and what to stock his small pond; he will know whether environment is right for the wished to grow, and if con- are wrong, where he can ob- tain advice on how to these conditions. Such is the NTSC biological research. 1936, the fish research has conducted at the college by B. Harris, Dr. J. K. G. Silvey and Dr. C. L. Schloemer.

Through experiments, demon- strations, and a variety of tests, the research of 10 years has included lake management, studies with emphasis on the natural foods of fish, age and rate of growth of Texas species, lake and pond fertilization, and fish egg production.

Data concerning age and growth of Texas fish is far from complete, and at the present the biologists are still studying types of water best adapted to certain species of fish. Studies have been conducted concerning fish population, food and growth, and practical help was given farmers when results revealed that oats, maize, and other farm products can be used just as effectively for fertilizer for fish ponds as expensive commercial products.

Not Big Enough

New York—The largest airline passenger reservation room in the world is maintained by one of the domestic airlines at LaGuardia Field. This room has a staff of 170 people who handle between six and seven thousand phone calls on an average day, plus four thousand teletype messages from other offices in the company's system.

The new railroad in America was built by the U. S. Army.

Beginning with the construction of the old Chesapeake and Ohio Canal and the Erie Canal, Army engineers have worked upon virtually every navigable body of water in the country.

Porous Soil Cover Needed To Insure Seedling Growth

Covering seed, after it is sown, is easy to do, and important to do right. If the seed is covered too deeply, or with compact, wet soil, or soil containing so much clay that it will form a hard crust which seedlings cannot penetrate, then the sowing may be lost.

In gardens which have heavy soil, it is a good plan to save your best loose, sandy loam to use in covering seed. Mix all the compost you can, and lacking compost use peat moss. Then after the seed is sown, cover with this special soil, which will not form a crust, and will allow both water and air to penetrate for the benefit of your seedlings.

This treatment is especially important in hot weather, when moist soil is liable to bake into a hard crust.

Soil must be firmed above the seeds, to form close contact, and prevent air spaces from separating the soil and seed. This is especially important with beet and Swiss chard seeds, and others of large and irregular shape. By firmed down with the hoe blade, or use the side of a rake; and afterwards draw the rake lightly over the row to break up the crust and prevent baking.

Experienced gardeners learn through trial and error to watch this point, and take precautions to avoid conditions which may prevent seeds from growing. A heavy rain falling soon after seed is sown may pack the soil too hard, especially if it is followed by sunshine. Until the seed has sprouted the soil surface over it should be moist and loose. When the ground dries out exces-

Special Top Soil Rich in Humus is Safest for Covering Seed.

sively in the spring it will pay to sprinkle the rows in which seed have been sown to prevent them lying dormant for lack of moisture. This is the only time when the garden should be sprinkled, rather than soaked.

Undulant Fever Via Animals

AUSTIN—Undulant (Malta) fever is a disease which is transmitted to human beings by infected animals. Individuals may acquire the disease (1) as the result of direct contact with infected animals or (2) following the use of raw dairy products obtained from infected dairy cows. If the disease is due to contact with infected animals or their waste products, the germ gains entrance to the human body through the skin, stated Dr. Geo. W. Cox, State Health Officer.

Persons who live on farms are more subject to undulant fever than those who live in cities. On farms, the disease is more apt to affect men due to the fact that men come in contact with hogs and cows to a much greater extent than do farm women. Farmers have direct contact with animals during loading and unloading for market. The handling of infected cows or sows and of the young at time of birth represent hazardous types of contact. The danger of undulant fever may be reduced greatly by avoiding as much as possible all forms of direct contact with animals which may be infected. The wearing of heavy gloves if contact is unavoidable should aid in protecting the skin against exposure.

Urban residents have little or no occasion to come in direct contact

Nation's Milk Diet Upward

Americans really reached for the "extra glass of milk" last year.

The per capita consumption of milk and cream jumped to 442 pounds in 1945, the highest total ever reached, and 102 pounds more than the per capita consumption in the five year period from 1935-39. This was an increase of 30 per cent, said the National Dairy Council in analyzing United States government reports.

Translated into housewife's terms, these figures meant that an average of about 206 quarts of milk in 1945, almost four quarts a week, was consumed for each man, woman and child in the nation, in the form of milk and cream. In the 1935-39 period, the consumption was three quarts each.

with infected animals. Undulant fever acquired in city or town is due, as a rule, to the use of milk, cream, and butter which lack certain safeguards. Prevention of undulant fever, whether due to contact with infected animals or to ingestion of contaminated dairy products, is dependent to a further extent, upon the eradication of contagious abortion from farm animals and careful pasteurization of dairy products.

Milk production in 1945 also reached the highest total in history, 122,219,000,000 pounds or 56,846,000,000 quarts. There were 25,519,000 cows on the nation's farms last year, slightly fewer than in 1944, but they produced an average of almost 4,800 pounds or 2,227 quarts of milk each. This was 410 pounds or 191 quarts per cow more milk than was produced in pre-war years.

"This sharp increase in the per capita consumption of milk and cream during the war years is significant," said Mrs. Ethel Austin Martin, director of Nutrition Service for the National Dairy Council. "It brings consumption much nearer the long-sought nutrition goal of a quart of milk daily for children and at least a pint daily for adults."

"Increased use of milk at this time was probably due to the fact that the public became more nutrition minded during the years of food rationing and scarcities. People learned that milk was good to drink and good for them. In war plants, tests proved that if the workers drank a half-pint of milk in mid-morning and another in mid-afternoon the net result was a significant decrease in the accident rate."

Paul Allen Fletcher was in Perryton over the week-end on a three day pass from Wichita Falls where he is stationed.

Mrs. J. F. Herndon is in the Shattuck hospital, having undergone surgery the first part of the week.

Air and Rail Salaries

A comparative study of salaries paid to five functional employee groups has revealed that during 1944 the domestic airlines paid higher average monthly salaries than did the Class I railroads. Average monthly salary for domestic airlines was \$208 against \$205 for railroads. Rail passenger engineers averaged \$383 a month against air pilots at \$659.

Air-Time Research

New York—With the airplane moving transportation speeds towards the 400 miles an hour mark, an Air-Time Research Institute has been founded to study the social, economic and other effects of such fast movement.

2-4-D was developed by the USDA as a hormone to stimulate plant growth but now scientists find it more valuable to kill weeds and noxious shrubs. An overdose does the trick.

The hens of the United States require about 320,000 tons of calcium a year to put shells on the eggs they lay.

Mrs. Ralph Headlee, Jane and Roy returned Sunday from a four day visit with Mrs. Headlee's mother, Mrs. Nellie Lockhart at Canyon.

Mowing Proves Most Valuable

COLLEGE STATION—Many testimonials to the value of mowing pastures can be gathered from Texas farmers and ranchers, says R. R. Lancaster, pasture specialist of the Texas A. and M. College Extension Service.

"The mowing machine is the most valuable implement I have on the place," W. T. Montgomery, RFD Route 9, San Antonio, said recently. His 1000 acre ranch is divided into 27 pastures, each supplied with water and shade. He does not consider the extensive cross fencing as an expense, but a saving.

Regular mowing, rotation grazing and applications of superphosphate fertilizer have made pastures a year round proposition for Mr. Montgomery. Altogether, 24 different kinds of grasses and clovers can be found on the place. Some silage crops are produced together with Johnson grass and alfalfa for hay. Giant bermuda is a specialty of the ranch and is proving its worth not

only as a pasture grass but as a soil binder.

A pasture stocked with sheep and cattle on the Wagener Ranch, Victoria County, was mowed around the outside with an unmowed area in the center. The stock grazed almost exclusively on the mowed portion.

Small live oak shrubs have been effectively controlled on the Koonitz Ranch, Victoria, by using a heavily weighted cylinder cutter of the Caldwell Stalk Cutter type.

Safety Signposts For Farm Families

COLLEGE STATION—With the high crop requirements and shortage of new machinery, a higher farm accident toll is apt to result this year unless proper precautions are taken, says R. B. Hickerson, assistant state farm labor supervisor for the A. and M. College Extension Service.

The fundamental step in the safe operation of machinery is to put it in good condition before field work starts, says Mr. Hickerson. Defective hitches, seats, clutches, wheels, brakes, steering mechanism, and unguarded revolving parts are things to check for. The National Safety Council at Chicago reports that many fatal accidents have been caused by failures of makeshift seats and unguarded power take-off shafts.

Clean all dirt, trash and grease from platforms, pedals, foot rests, or steps to assure safe footing, Mr. Hickerson says.

Special care should be taken in checking homemade labor-saving equipment for accident hazards. The operator's safety often is overlooked in the development of this type of equipment, and accidents can easily offset all other advantages of such equipment.

Poorly conditioned farm machinery is irritating and fatiguing to the operator. It requires his alertness and encourages carelessness. Timely servicing will reduce accidents as well as costly field breakdowns.

Airport Study

New York—A study of airport terminal facilities to provide better service for the public and lower operating costs is now being conducted by the Air Transport Association of America. Under the direction of Joseph D. McGoldrick, former Comptroller of New York City, such problems as loading and unloading and the handling of passengers, baggage, mail and cargo, lounge and restroom cleaning services, fueling and the cleaning of planes as well as many other items will be investigated with the view to the establishment of joint facilities for handling them.

Speeding Airport Returns

Washington — To aid in the prompt transfer or return of airports used by the armed forces to local governments, the Surplus Property Administration has authorized the owning agencies (generally the Army or Navy) to issue permits to local units pending final disposal.

Announcing . . .

New Location

MINNEAPOLIS-MOLINE

FARM EQUIPMENT

I have recently acquired the agency for the Minneapolis-Moline line of farming equipment and have a new building now under construction on South East Second St. Anyone needing parts can obtain same by calling at this location as they are housed in temporary location near by the new structure. We are receiving many new parts and will be glad to have you call for whatever you might need.

The new firm will be known as the Davis Implement Co. We will handle a complete line of Minneapolis-Moline farming equipment as well as parts. We will stock this equipment just as quickly as it becomes available.

In our new building as soon as completed, along with our parts and machinery we will maintain a shop that will be equipped to handle the mechanical work on tractors and other Minneapolis-Moline machinery.

Davis Implement Co.

To My Perryton Friends:

After spending the past year and one-half in the Navy, I have returned to Perryton where I will be associated with my father, R. H. Daley and also my brother Phil Daley in the Daley Glass Shop. It is a real pleasure to get back home and to meet my many friends. I hope that I can be of service to you as in the past and will be glad to have you drop in to renew our acquaintance.

• Booster Station

Mrs. Burl Bohling entertained the sewing circle in her home Wednesday afternoon. After the social hour refreshments were served to Mesdames Chas. Pruitt, Noel Keith, Frank Vaughn, Weldon Luginbyhl, Ernest Groves and O. C. Lalliment.

Patsy Anderson has just recovered from the measles.

Roselle Vaughn, Janice Miller and Bess Miller have been ill part of the week.

Mr. and Mrs. Chas. Pruitt spent last Saturday and Sunday with her mother, when Mr. and Mrs. Albert Ondereck went to Ponca City, Okla. Tom and Eddie LeMaster visited Saturday with Zack Miller.

Mrs. M. C. Lanagan, Tommie and Ann are visiting with her parents in San Antonio.

Guests in the W. J. Miller home Sunday, March 24 for a turkey dinner were Mr. and Mrs. Norman Crum and Karen, Amarillo, Mr. and Mrs. Grover Crum and Gary, Mrs. Beula Birdwell, Tom, Eddie and Kay, Mr. and Mrs. H. H. Crum and Joe, Mrs. Grace Bateman, Gerald and Mary Bateman.

Mr. and Mrs. Fred Corbin spent Sunday afternoon with Mr. and Mrs. Leonard Frye.

Roy D. French has the measles this week. Visiting with Mr. and Mrs. Chas. Thomas over the week-end were Mrs. H. C. Wells and Claudine of Stratford, Mrs. Udell Richardson, Los Angeles, Mr. and Mrs. Frank Easton of Perryton.

• Boyd, Oklahoma

Thermometer registered 95 degrees Sunday evening. Plenty of wind and dirt too.

Mr. Key and sons were out buying horses Wednesday.

The young women's club quilted for Mrs. Reuben Penner Thursday. Mr. and Mrs. Dick Young and Donnie visited Fred Cowans Friday evening.

Osa Noider of California visited her mother and other relatives the past week. She spent a few hours in the home of her brother, Ed Claybrook Sunday and will soon return to California.

Emma Claybrook visited with Mrs. Reimann Wednesday. Mr. and Mrs. Ed Claybrook were in Beaver Tuesday. Had a nice visit with Mr. and Mrs. Merrett, Mr. and Mrs. Bud Campbell, children and Mother Claybrook. Also made the acquaintance of some of the Herald Staff.

SPOKES FROM
THE WAGON WHEEL

Did you ever "shoot the moon"? Some of you parents who enjoy a good stiff game of Moon or 42 are missing one real fun by not joining us at the Wagon Wheel.

Ping Pong still holds the interest of all. The hand is indeed quicker than the eye when our experts get to whamming the ball across the net.

We were very happy to have Mr. and Mrs. Charlie Kent visit us Friday evening.

You have heard of a leopard changing its spots—well, the Ducky Jubilee has changed its color to a white cast. We are presenting a musical program which will bring a story of romance, stormy weather and we hope a happy ending. Watch for the date and further publicity.

You have never tasted the food of the Gods. If you haven't eaten one of the sandwiches that Duane and Veva Jo put out. You can have them plain or extra special.

It is funny how permission to do a thing takes away the excitement or desire. What is the matter with our males with the itchy feet? We have had no dancing for two weeks.

A lovely card and note from Sgt. Myrtle Conley Saturday. Thank you, Myrtle.

Callers at Ed Claybrooks Sunday were Buddy Denham, Mr. and Mrs. Alton Reimann and Junior, Liberal, Mr. and Mrs. Frank Leatherman, son and daughter, Ollie Mae.

Erosion is our constant enemy. Winter legumes work for man while the land is idle.

Represents Iran

Hussein Ala, Iranian ambassador to the U. S., is shown at the United Nations Security Council meeting in New York where, in view of the Soviet-Iran dispute, he is a spotlighted figure.

• East of Boyd

The weather has been very warm and dry.

The annual school meeting was held Tuesday. Earl C. Watkins was re-elected as clerk of the School Board in District 86.

The little Misses Ariene Watkins and Naomi Sherrill were ill last week.

Fred B. Whitte is improving since the operation he underwent at Halstead, Kansas, some time ago.

Anita Watkins, Marilyn Rodgers, Douglas Dean Sherrill and Paul Dean Kirton were in the Fine Arts contests at Beaver Friday and Friday night.

Oscar Lueie has been ill at his home east of Boyd.

Mrs. John C. Gable has been having trouble with her foot, and has had to walk on crutches.

Word was received here recently of the death of Wallie Boring in a car wreck in the vicinity of Enid. Mr. Boring lived in the Boyd neighborhood a number of years ago. His wife was the former Myrtle Dowers of Perryton. Mr. Boring is survived by his wife and several children.

Callers at Harry M. Kirton's Sunday were Mr. and Mrs. Jim Wal-

lace. Mrs. Aldeen Rodgers and children.

Mrs. George Kirton and Douglas Sherrill called on Mrs. Hill in Turpin Sunday.

Mr. and Mrs. John Winter, C. Gable and son, Elmer, Mrs. Wahl, Aldeen Rodgers and Mrs. Perryton Saturday.

Vernon Ratcliff has been doing his house.

CARD OF THANKS

I wish to thank the many friends for the beautiful flowers, cards and letters during my confinement at the hospital. They seemed to enliven my stay.

Mrs. Rupert C. Allen

Terraces have the effect of maintaining the soil.

FOR SALE

800 acres of land north of Booker, Texas, in Beaver County, Okla.

185 acres in cultivation, balance in grass. Fair improvement. Two good wells. Now carrying \$7500.00 loan.
