Denver City Plays Bulldogs Tonight

Game Will Be On Local Field

Tahoka Bulldogs meet the Denver City Mustangs on the local gridiron at 8 o'clock tonight in what promises to be another wet affair. However, the local field is well sodded, and many cars can be accommodated along the side-lines.

Denver City, a new-comer in Class A, has a speedy and flashy team, and this should be one of the best games of the season. The Denver City Band and pep squad, decked out in new uniforms, as well as the colorful Tahoka band will entertain during the game and at the half.

Last Friday night, the Tahoka Bulldogs, playing at Seagraves in the mud and rain, lost a close one by a score of 6 to 2. This was just one of those games that Tahoka should have won but the breaks of the game went against the boys and Seagraves came out on top. From the beginning, rain poured down, making the ball and the boys' footing very slippery. Though behind in the score, Tahoka had the ball down on the goal line twice only to lose out on fumbles, while Seagraves pushed over the goal line in its only consistent drive of the ball game.

Many Tahoka fans followed the teams to Seagraves in spite of the rainy weather.

Wenzel Hogs Win At Dallas Fair

Leo Wenzel, 15-year-old Wilson 4-H club boy, had the grand champion litter of hogs over all breeds at the Junior Fat Stock Show of the State Fair of Texas in Dallas recently.

Leo and his brother, Wilburn, 12, won seven ribbons on their eight Berkshire hogs entered in the show. Their winnings brought them \$57.00 in prizes. Their hogs were sold for from 11½ to 12½ cents.

The Wenzel boys are sons of A. D. Wenzel, who lives on the Dick Green place four miles northwest of Wilson, and who is well known over West Texas for his fine Berkshire hogs.

The Wenzels keep about 25 hogs on their place, and they show them at many shows and fairs. This year in March, Mr. Wenzel won eight prizes on eight hogs, including the grand champion litter of all breeds at the Fort Worth Fat Stock Show. Last year, Wilburn had the grand champion litter of all breeds at the State Fair at Dallas.

Mr. Wenzel says he and his boys have realized a nice profit from their hog raising, and the prize money always comes in handy. They are firm believers in registered stock, and of course they think the Berkshires are the best breed.

Tahoka Golfers Are Invited To Lamesa

John Edmison, court reporter and expert golfer from Lamesa, has cordially invited all the Tahoka golfers to participate in a big inter-city golf meet involving golf teams from Big Spring, Colorado City, Lamesa and Tahoka. The Tahoka and Lamesa teams are to combine to play against the combined forces of the Big Spring and Colorado City divot diggers.

After the meet a big free barbecue is planned for all participants in the meet. Starting at 1:00 or 1:30 p. m. these matches take place next Sunday, Nov. 2, 1941, and all local golfers are urged to attend.

BANK RE-DECORATED

The First National Bank interior recently has been completely repainted and redecorated, greatly adding to the building's appearance.

Miss Anna Jones, who has been here for several days looking after business interests, left for her home in Fort Worth Tuesday.

Draw Man Injured By Saws At Gin

Injuries sustained by W. E. Durbree of Draw, sustained when his hand was caught in the saws of the Thomas Bros. Gin at that place on Wednesday of last week, are said to be healing as satisfactorily as could have been expected.

All five of the fingers on one hand were badly lacerated, and the bone in one finger was fractured and the finger almost completely severed from the hand, it is reported.

He was brought to the Tahoka Clinic where the wounds were dressed and medical treatment given.

Honor Parents At Game Tonight

A highlight among school events in Tahoka is Parents' Night which has been scheduled for tonight at the Tahoka-Denver City Football game on the local gridiron.

An invitation to attend the game and a welcome is being expressed by Supt. W. T. Hanes to the fathers and mothers of students of the Tahoka Schools. Special invitations were sent to all parents this week.

Parents of football boys wearing numbers that corresponds to their sons' number will sit on the bench with the football boys during the game. These parents will be admitted free and will be given special recognition during the game.

Prizes will be given at the half of the game to parents traveling the longest distance and to parents with the largest number of children enrolled in school at the present time. Special recognition will be given to the parents with the largest number of children graduating from Tahoka High School since 1933. Supt. Hanes will serve as master of ceremonies for the special Parents' Night program.

An unique formation by Tahoka High School band members at the half of the game under the direction of John Hamblen will be dedicated to the mothers and fathers of students.

This is the third annual Parents' Night celebration observed by the Tahoka Schools.

Defense School Opening Monday

Classes will begin Monday night in the Tahoka Defense Training Center at the Luallin garage under the supervision of Ovid Luallin, local mechanic and garage operator.

Instruction in operation, care and repair of machinery on the farm and in industry, elementary electricity, metal work and wood construction will be given to the youths enrolled in this school free of charge. If there are still out-of-school youths that have not signed up to attend this school and are interested in doing so, they should see Leslie Browning at the high school immediately.

Youths that have signed up to attend this defense school are Harold Sherrod, Jack Alexander, Rufus Morgan, Bryan Wright, Truman Hines, Allen Luallin, Pug Parker, Burt Stephens, Arthur Hammonds, C. W. Conway, Frank Woods, Roy Botkins and Dub Riddle.

Mr. Browning and Mr. Luallin visited the defense training center at Ralls, Texas, Wednesday afternoon.

TAHOKA REPRESENTED AT O. E. S. ANNUAL MEET

Mrs. W. T. Hanes, Worthy Matron, and Mmes. W. M. Harris and Jim Burlison went to Amarillo Monday to represent the local Eastern Star Chapter in the annual meeting of the Grand Chapter in session there this week.

Other Tahoka members attending some of the sessions were Mmes. H. L. Roddy, W. O. Robertson, E. I. Hill, and Vesta Redwine.

Red Cross Drive Will Open Soon

Flood, tornadoes, fires and other disasters last year took the American Red Cross to the scene of 149 disasters where 217,201 persons were given food shelter, medical attention and rehabilitation assistance.

"The manner in which the Red Cross was able to answer these calls for disaster relief assistance emphasizes the need for strong membership support at Roll Call time." "On November 11, the Tahoka Chapter will launch its annual drive for membership, extending to every person the opportunity of supporting disaster relief work and other services of the Red Cross."

CLASSIFIED AD GETS QUICK RESULTS

Mrs. B. P. Maddox phoned Tuesday to have her little classified ad discontinued after running one time. She declared that it surely did bring quick results, as she had sold the stove.

Rains, Hail, Sunshine But Cotton Gins Busy

Hail Last Week Damaged Farms

We'll put Lynn county up against the world when it comes to doing big things, meteorologically or otherwise.

When sandstorms were in vogue, she pulled a few samples that would put to shame most of the little wind-dusters that gave the Dust Bowl of the Dalhart section its name.

And when it comes to the matter of hailstorms, there is no country in the world where the heavens can pound the earth more unmercifully with pellets and bombs of ice than here in Lynn Co. Destructive hail can fall any time here from April till November, and sometimes in the other months.

There are sections of Lynn county out west and northwest of Tahoka that have been visited by at least four severe hailstorms this year. The latest bombardment, which (Cont'd. on back page)

Pickers Get Brief Chance At Cotton

Big news! No rain fell in Tahoka from Sunday morning until Wednesday night. The skies were almost clear a part of this time. A high west wind blew throughout the day Sunday. It looked as if happy days were here again.

But Monday was not quite so promising. Tuesday brought a slight feeling of uneasiness. On Wednesday morning a very damp east wind was blowing, and the skies were overcast. The menace of bad weather grew as the day drew to a close. And that night mist, and later rain, began to fall.

At ten o'clock Thursday morning .52 of an inch of water stood in the News editor's rain gauge.

That brings the total for the year up to 40.32 inches.

Almost six inches of rain fell last week. By days, it ran thus: Tuesday .43, Wednesday .91, Thursday 1.26, Friday 1.74, Saturday 1.41, early Sunday morning .04; making a total of 5.79 for the week.

The total rainfall thus far this month is 8.54 inches. The total rainfall this year prior to October 1 was 31.78. The grand total for the year up to 10 o'clock Thursday morning was therefore 40.32 inches.

During the first three working days this week, many pickers were in the cotton fields and the crop was being gathered rapidly. By Tuesday night most of the gins in the county were crowded.

Up to ten o'clock Thursday morning the five gins in Tahoka had ginned a total of 1,684 bales; which means that 627 bales had been ginned since our report last week.

Cool weather prevailed the first of the week, the temperatures dropping down to the low fifties two or three nights.

Another cool wave swept down from the northeast Thursday morning, and some are predicting that this spell will wind up with a freeze—but the News makes no predictions, not for publication.

Soil Conservation Election Carries

The soil conservation election held in Lynn county last week seems to have resulted in the approval of the proposition by considerably more than the required two-thirds majority, according to returns made to County Agent Don Turner.

Not all of the voting boxes have sent in official returns and Mr. Turner is not sure that his figures are exactly correct in each instance, but it is not believed that changes will be sufficient to materially affect the result.

The vote as given to him is as follows:

Tahoka, 44 for, 3 against.
Wilson, 26 for, 3 against.
O'Donnell, 33 for, 11 against.
New Home, 3 for, 13 against.
Wells, 0 for, 8 against.
Grassland, 4 for, 0 against.
The total vote: 110 for, 36 against.

It may be seen from the above figures that very little interest was taken in the election. The size of the vote was also reduced by the fact that rain fell much of the day Saturday and country roads in many places were impassable.

Rebuilt Service Station Opened

Mr. and Mrs. W. L. (Bill) Burlison opened their remodeled and greatly improved Tahoka Service Station last Saturday, and finishing touches were put to the building this week.

The station, located at the intersection of the two highways, is one of the most beautiful and most modern.

HELEN BELLE PEMBERTON

Miss Pemberton Contest Winner

Concluding the home town contest sponsored by the Tahoka Chamber of Commerce, Miss Helen Belle Pemberton won the \$5 cash prize offered to the winner of the local speech contest on "My Home Town and Defense". Miss Pemberton is the daughter of Mr. and Mrs. M. R. Pemberton.

Miss Pemberton won third place in the Chamber of Commerce preliminary speech contest at Texas Tech in Lubbock Wednesday afternoon.

There were 13 entries in the district contest. The winners of the first four places were girls. First place winner was Dorothy Ann Doolley of Floydada, the winner of second place was from Idalou and the fourth place winner was from Post.

Members of the speech department served contestants and their guests cookies and punch following the contest.

Miss Ruby Nell Smith, who assisted Miss Pemberton, accompanied her to Lubbock Wednesday afternoon. Miss Mary Beth Roddy also attended the contest.

The district preliminary contest was held at Texas Tech, Lubbock, Wednesday afternoon under the direction of Miss Annah Jo Pendleton, head of the speech department. The winner of the district contest will go to Midland to represent this district at the West Texas Chamber of Commerce convention which is scheduled for November 4.

Bishop Injured In Car Wreck

J. J. Bishop, who lives a few miles south of Slide in Lynn county, was seriously injured Wednesday morning while driving north toward Wolfforth, when his car was struck at a road intersection by a car being driven east by some Mexicans. His neck, or the upper portion of the vertebra near the neck, is reported to have been broken and one shoulder crushed. He was taken to the Lubbock Sanitarium for treatment, where his condition Wednesday night remained grave.

Bishop formerly lived near Tahoka, his first wife being the daughter of L. C. Johnson, and a sister of Clayton Johnson of the Redwine community.

Shelton Holmes, now in the army, was here last week visiting his wife and two little children and her parents, Mr. and Mrs. D. H. Good-nough. He recently returned from the maneuvers in Louisiana but upon leaving there went to Fort Sill, Oklahoma.

100 Men At Draw-Tahoka Meeting

Fully one hundred men of Tahoka and Draw attended the banquet and good-will meeting at Draw on Tuesday night, sponsored by the Tahoka Chamber of Commerce, and enjoyed a hilarious evening of entertainment, good food, and conversation.

The meal was prepared and served by the Draw-Redwine home demonstration club, with Mrs. A. R. Hensley in charge.

Durwood Dodson, school superintendent, presented several much-enjoyed program numbers from the Draw-Redwine community, including piano solos by Misses Williams and Sybil Busby, and vocal numbers by the Draw-girls choral club. The girls were called back by an encore. "Judge" H. W. Calaway, "mayor" of Draw, welcomed the Tahoka visitors in typical Calaway style, that brought an uproar from the crowd. Truett Smith answered Calaway and presided over Tahoka's part of the program.

Melvin Rathel, accompanied by his wife at the piano, gave two vocal solos, "Old Man River" and "On the Road to Mandalay" much to the enjoyment of the audience.

Imitating Harold L. Ickes, "Bud" McGonagill, in a humorous vein, proposed a 10-year farm plan. He was followed by two Tahoka citizens, R. P. Weathers and Wynne Collier, who claimed to be Walter Caswell and John Sherrill ten years hence. Their conversation as to the results of this farm program, after ten years, revealed its effects upon many Draw citizens and brought much more hilarity from the listeners.

All funds derived from the dinner and "fines" assessed against the visitors go to the home demonstration club.

Both men of Tahoka and of Draw greatly enjoyed the occasion, and Draw men asked that the meeting be repeated some other time.

This is one of a series of such meetings sponsored by the Chamber of Commerce. The first was held at Grassland a month ago.

Cotton Stalk Has 150 Grown Bolls

G. A. and Loyd Edwards were exhibiting a remarkable stalk of cotton last week which grew behind their auto parts store on the west side of the square.

The stalk, which came up volunteer, had 150 grown bolls, when the stalk finally gave way under the tremendous weight of the bolls. One limb alone had 30 bolls on it, 13 of which were in a cluster which had the appearance of a bunch of huge grapes.

New Wildcat Oil Test Near Draw

One of the latest wildcat oil tests being drilled on the south plains is a well situated a few miles south of Draw in the northwest corner of Borden county, about two miles south of the Lynn county line and three miles east of the Dawson county line. It is being drilled by the Pure Oil Company.

Reports early this week were to the effect that drillers had reached a depth of more than 3,200 feet. It should be several hundred feet deeper than that by this time.

After the machinery had been removed from the Dan Auld well in western Lynn county one mile east of the Terry county line, it was decided to give this well another and a bigger "shot", it is said, which will be done as soon as equipment can be replaced.

The Rice well thirteen miles north and slightly west of Tahoka has been finally abandoned as a dry hole.

Wilson Boy Gets Air Corps Wings

MOFFETT FIELD, Oct. 30.—Winning his wings as a member of the United States Army Air Corps is Jake L. Currey, 23, son of Mr. and Mrs. J. T. Currey, Route 1, Wilson, Texas.

Upon receiving his wings and a commission in the Air Corps Reserve, he will be assigned to an Air Corps tactical unit or to an Army flying school as an instructor.

Today's graduation from the Moffett Field Air Basic Flying School marks the completion of 20 weeks of Army Air Corps pilot training for Currey, who arrived at this field August 18 after primary training at the Ryan School of Aeronautics, San Diego, Calif.

Currey is a graduate of Mart, Texas, high school and later studied at Texas Technological College at Lubbock. Prior to enlisting as a cadet in June, he had had 35 hours flying experience under the C. A. A. program.

Congratulations . . .

To Mr. and Mrs. A. L. Pace on the birth of a son at Plains Hospital, Lubbock Wednesday afternoon at 2:10. The young fellow weighed exactly 5 lbs. 13 ounces. Mr. Pace is principal of the Tahoka grade school.

Abilene Couple Makes \$72,250 Gift To McMurry College, Methodist Institute

ABILENE, Oct. 30.—McMurry college will collect \$72,250 from oil production over a period of several years through a gift from Mr. and Mrs. S. M. Jay of Abilene, patrons of the Methodist school since its founding.

The donation represents payments in oil due from the sale of leases in Coleman county by Jay to States Oil corporation.

Mr. Jay, co-owner of a local bottling plant, is chairman of the McMurry board of trustees. He is in his second term of that position, having served in the same capacity during the mid-thirties.

Dr. Frank L. Turner, McMurry's president, announced that the gift would be administered for the benefit of the college by the board of trustees under direction of Mr. and Mrs. Jay.

Dr. Turner said the Abilene couple has been among McMurry's more liberal benefactors since the institution was established.

"It is our belief," he said, "that this is the beginning of a series of

Lubbock Plans Big Armistice Program

LUBBOCK, Oct. 29.—In keeping with the theme of national defense and in commemoration of the sacrifices of the victims of World War No. 1, plans for the biggest and best Armistice Day celebration ever held on the Plains have been announced here by E. F. George, Texas Tech professor and chairman of the combined committees of the American Legion and Veterans of Foreign Wars.

The Legion V. F. W. and all other patriotic organizations of Lubbock and vicinity have been invited to participate in the celebration that will include an address by Mark Magee of Fort Worth, a veteran of World War 1 and widely known speaker.

Included also will be a giant parade featuring several hundred men in uniform, hundreds of ex-service men and representation by a large number of other organizations. It is anticipated also that several bands from the territory will participate, and that 25 to 40 airplanes will be in flight as an added feature of the parade and celebration.

Efforts are under way to enlist the aid of Army officials to the end that a number of combat tanks and perhaps other military equipment will have part in the parade and be for inspection and demonstration during the day.

Under announced plans the parade will start at 10 o'clock on November 11, which is on Tuesday. It is to start from the Legion Hall between 9th and 10th streets on Texas Avenue, move south to Main St., then circle the square and move west on Broadway at least as far as Avenue Q.

"We feel this is a time when every American should take time off and give expression to his sentiment of loyalty to our Government and to the Democratic principles upon which it is founded—a time of patriotic fervor," Mr. George said concerning the celebration.

It is anticipated that visitors from all parts of the territory will want to be here for the celebration, and a special invitation is extended to patriotic organizations throughout the Plains to have a part in the parade. Plans for organized participation, however, should be taken up with Mr. George.

Your Stomach Can't Talk

1903 Ford Given Canyon Museum

CANYON, Oct. 24.—The little red Ford has finally reached its last resting place—the Panhandle-Plains Museum. Walter Irvin of Amarillo donated a 1903 model in the name of his daughter, Miss Peggy Irvin. Henry Ford has the only two older models in his museum at Dearborn, Mich.

The machine, which has a two-cylinder motor, will operate now and can speed along at "several" miles per hour. The frame is made of iron and wood with imitation leather upholstery. The now faded paint once covered yellow spokes, black fenders, and a red chassis. Forward, reverse, and neutral are the only gear shifts available with the lever placed on the far right side of the seat. The steering wheel is located on the right side in the manner of English-made cars. Other features of this ancient car, serial No. 28, are chain drive, motor under the seat, crank in the middle of the right side, and kerosene lamps preceding headlights.

Irvin has driven the Ford in hundreds of parades throughout the Panhandle. He presented it to the museum on October 14.

NEW LYNN COUPLE MARRIED RECENTLY

Myrtle (Polly) Jenkins and Dan Yandell were united in marriage by Rev. J. H. Stalcup of New Lynn Saturday night, October 18.

Mrs. Yandell is the daughter of Mr. and Mrs. H. M. Jenkins of Edith and Mr. Yandell is the son of Mrs. Lynn Yandell of New Lynn.

The bride wore blue and white and was accompanied by the two sisters, Ivy and Hazle Jenkins, and the groom was accompanied by his brother and his wife, Mr. and Mrs. Hugh Yandell.

The young people are a promising young couple, and their many friends and relatives wish them a long, happy married life together.

They will make their home in San Antonio, where he is stationed at Fort Sam Houston.

Soldiers' field rations will soon include a food confection containing cottonseed flour. The product which is manufactured and marketed by a Fort Worth cotton oil mill, has been endorsed by the Council on Foods of the American Medical Association.

Mrs. Lola James of Post is here visiting her niece, Mrs. Garland Pennington.

First aid has been prominent on programs for most 4-H Club girls' encampments this year.

The Chinese jujube, sometimes called Chinese date, is extremely hardy and produces a crop of fruit yearly. It grows well in West Texas areas having 18 inches rainfall in Louisiana.

Marines Planning Tahoka Invasion

Tahoka will be invaded by the United States Marines on November 9 to 11, both dates inclusive, according to an announcement by Captain T. E. Kendrick, district recruiting officer for the United States Marine Corps. Blitzkrieg tactics will not be used, he added, as every man entering the United States Marines is a volunteer for the regular term of four years or for the duration of the emergency in the United States Marine Corps active reserves.

Unlimited opportunities to complete their education, learn a trade, advance rapidly and receive good pay, is open to white, unmarried, male citizens of the United States, between 17 and 30 years of age, 64 to 74 inches in height, physically sound, of good moral character, and with sufficient education to be able to read and write intelligibly, and to understand both written and oral orders.

Those men accepted for enlistment by this recruiting party will be furnished free transportation to Amarillo and from there to Oklahoma City for final examination and enlistment. Men accepted for enlistment in the Oklahoma City recruiting district are sent to the Marine Corps recruit depot at San Diego, California for a seven weeks period of training prior to being assigned to duty with a regular unit of the Marine Corps on shore or afloat.

New License Plates Are Received Here

Although none of them can be used until February, more than 3,800 number plates for motor vehicles of all kinds are stacked up over in the office of R. P. Weathers, county tax assessor and collector, awaiting the time when they can be distributed.

Three thousand of these are for passenger cars, 400 are for trucks and other commercial vehicles, 350 are for farm trucks, and 85 are for trailers, making a total of 3,835.

License plate numbers for passenger cars begin with 969,501 and run up to 972,500. These figures are about 84,000 higher than those on the number plates this year.

The colors on these plates are the reverse of the color this year, black numbers on an orange background instead of orange colored numbers on a black background.

TAHOKA YOUTH WEDS O'DONNELL GIRL

On last Saturday night, Robert Cathcart of this city and Miss Mildred Weempe of O'Donnell were united in marriage by Rev. George E. Turrentine at his home in north Tahoka.

Mrs. Cathcart was a popular young woman of our neighboring little city to the south while Mr. Cathcart is the son of Mr. and Mrs. T. R. Cathcart of Tahoka and was reared here. They will make their home in Tahoka.

LEGION PLANS NAVY RECRUITING

Governor Coke R. Stevenson at his desk in the reception room of the Governor's office, Austin, discusses plans for immediately recruiting two companies for service in the United States Navy or Naval Reserve in Texas with The American Legion, Department Commander Andrew Dilworth of San Antonio and Capt. H. W. Underwood, United States Navy, commanding the Naval ROTC Unit at the University of Texas. The campaign was started by the American Legion in response to a telegram from Secretary of Navy, Legionnaire Frank Knox, asking the American Legion to "recruit a minimum of one company consisting of not less than 140 men * * *. The Navy has 338 ships in commission and 353 building. Need for men is obvious," said the telegram in part.

Commander Dilworth wrote the Secretary of the Navy "Texas will recruit two companies of 140 men each from the Houston and Dallas recruiting area."

Capt. Underwood said "The Naval ROTC unit of the University of Texas is anxious to make any contribution to the success of this campaign."

"I am ready to do all I can for the War and Navy Departments and all-out defense as urged by President Roosevelt, in fact I think I am about two jumps ahead," said Governor Stevenson.

Each American Legion Post is requested to send to the nearest Naval Recruiting Station, or sub-station, at least one recruit for the Navy or the Naval Reserve on or before October 27. Fitting ceremonies will be held on October 27 either at Austin, or Houston and Dallas with high State, Navy and American Legion officials participating.

Governor Stevenson issued a proclamation calling upon Texas citizens to observe Navy Day, October 27 "For it was in October, 1775 that our forefathers * * * came to the conclusion we must have a Navy to maintain peace."

Accidents Reported But None Serious

The car of Jack Edwards was in collision with a pick-up belonging to the Gattis Drug Tuesday. The car was badly damaged but not much damage was done to the pick-up. Nobody was hurt.

On Wednesday morning, a car driven by Sam Ramsey struck the rear end of a car driven by Mrs. Sam Floyd at the intersection of two paved streets a few blocks east of the school buildings. The Ramsey car was rather badly wrecked and considerable damage was done to the Floyd car. Neither Mr. Ramsey nor Mrs. Floyd was hurt further than that resulting from shock, but Mrs. Floyd's daughter, who was in the car with her, received slight injuries.

On the same morning L. C. Johnson was coming back from the farm of Clayton Johnson near Redwine, when his trailer broke loose, turned over, and was badly smashed up, but he kept his car right side up on the rubber and sustained only a scare.

Several minor accidents on the highway north of Tahoka Wednesday night have been reported. A farmer's trailer turned over up near the county line. A few miles north of Wayside, two heavy trucks were in a collision but the extent of the damage done is not known here. No personal injuries were reported. Still further down the highway toward Tahoka a farmer's cotton truck and trailer overturned, with no casualties.

All these mishaps are believed to have been due to the heavy fog and the mist that enveloped the surface of the earth along about ten and eleven o'clock Wednesday night.

Bill Burleson says that two women who were coming south on this highway became jittery after seeing so many wrecks and got a man somewhere up the road to drive them on in to Tahoka.

George P. McCarthy Extension poultry husbandman, is to be here Tuesday, November 4, at 2:00 p. m. The meeting is to be held in the County Court Room.

Mr. McCarthy will help the people with their poultry problems and is to give a demonstration on some phases of poultry work.

The public is invited to attend.

Poultry Expert Is Coming Tuesday

George P. McCarthy Extension poultry husbandman, is to be here Tuesday, November 4, at 2:00 p. m. The meeting is to be held in the County Court Room.

Mr. McCarthy will help the people with their poultry problems and is to give a demonstration on some phases of poultry work.

The public is invited to attend.

Bovell's Brother Accidentally Killed

Mr. and Mrs. T. J. Bovell were called to Dallas last Friday morning by the accidental death of Mr. Bovell's brother, W. T. Bovell, 52, which occurred in Port Arthur at 3:30 Thursday afternoon. The brother resided in Dallas and the body was brought back to that city for burial. Funeral services were conducted there Saturday afternoon. Mr. and Mrs. W. T. Bovell of this city, John Evans, and Sam Reid went down Saturday morning to attend the funeral.

Mr. Bovell was auditor and special inspector for the Magnolia Petroleum Company. The accident occurred while he was supervising the making of a valve connection at a large storage oil tank. Two men were with him in the pit helping him to make the connection when the thing was broken loose by the intense pressure. They fled but he remained in a desperate effort to replace the connection but was overcome by the fumes and collapsed.

With the exception of eighteen months spent in France and Germany in the World War with the Rainbow Division and with the army of occupation, he had been in the employ of the Magnolia Petroleum Company for more than thirty years, and he was slated for a promotion next January, when he was to take the place of a retiring brother as equipment manager of the Company for four states.

Legion Auxiliary Installs Officers

At the regular meeting of the Legion Auxiliary Tuesday night, the following officers were installed.

Mrs. A. M. Cade, president; succeeded Mrs. Noble Winn.

Mrs. Charley Coffee, first vice-president, succeeding Mrs. Cade.

Mrs. J. B. Oliver, second vice-president, re-elected.

Mrs. Roy Edwards, secretary, re-elected.

Mrs. H. L. Roddy, treasurer, succeeding Mrs. Sam Holland.

Mrs. L. O. Mitchell, corresponding secretary, succeeding Mrs. N. M. Wyatt.

Mrs. Sam Holland, sergeant-at-arms, succeeding Miss Bernice Edwards.

Mrs. Chester Connolly, chaplain, succeeding Mrs. Carl Owens.

Mrs. Skip Taylor, reporter.

Mrs. F. H. Hancock visited her daughter, Mrs. B. M. Hayes, at Woodrow last week.

More N. Y. A. Jobs Available Here

Tahoka High School is eligible for five additional students to receive N. Y. A. jobs, as announced in a letter received this week by Lee Dodson, high school principal.

At the present time there are five students that have signed up for N. Y. A. work. It is through the federal government that these jobs are being made possible. The students must meet certain qualifications before they are eligible for work under the National Youth Administration. They must be between the ages of 16 and 23 years and must be passing in three-fourths of their school work. Wages are twenty-five cents per hour and the maximum time limit is 24 hours a month which amounts to six dollars in wages each month.

Students who are working under the N. Y. A. this year are Edwin Jolly, M. T. Cruse, Clint House, Mary Jo Anderson and Margie Shepherd. They work in the lunch room, office, home economics department, library and carry the mail.

Students interested in applying for one of the five vacant N. Y. A. jobs in Tahoka High School should see Mr. Dodson at once.

CLINIC NEAR COMPLETION

The new Tahoka Clinic building is almost complete except for the installation of equipment. Everton Nevill of Nevill Bros., contractors, informs The News. The Clinic building and equipment will be quite a credit to Tahoka when opened in the very near future.

Doctors Emil Prohl and K. R. Durham are owners of the Clinic.

The News expects to carry a detailed description of the building soon.

SORRY, WE CAN'T PUBLISH

The News received for publication this week a well-intended communication from a very good and devoted woman appealing to young people to refrain from dancing and to their parents to guide the young people aright, but we must decline to publish it for the reason that some of the implications therein would probably deeply offend other good moral people and possibly result in more harm than good. Though the writer evidently intended no offense to anyone. We are sorry.—The Publishers.

Pvt. Eugene C. Parrish of Co. F, 55th Q. M. Rgt., Fort Sill, Oklahoma, has just returned to camp after spending fifteen days with his parents, Mr. and Mrs. J. A. Parrish of Grassland. He enjoyed his stay very much, it is said, and was sorry to have to go back so soon.

Czechs Observe Independence Day

Tuesday of this week, October 28, was observed throughout Texas by Czechoslovakians as Czechoslovak Independence Day, so designated by Governor Coke R. Stevenson.

The Czechoslovakians in this country are notably loyal to the Government of the United States. They are deeply devoted to democratic principles and are uncompromising enemies of all forms of dictatorship and totalitarianism.

There are only a few Czechs in Lynn county, but the few here are among our most loyal and patriotic citizens. They appreciate the freedom which they enjoy in this country.

Last week our good friend H. A. Macha of the Dixie community brought to the News office a newspaper clipping respecting the observance of Czech Independence Day and also a Discussion of the European Situation by Dr. Frank Munk, a native and former distinguished citizen of Czechoslovakia, which is one of the most illuminating discussions we have ever seen. We hope to run extracts from it at intervals for the information of our own people.

Monteray Keltner now in the Marine Corps

Monteray Keltner, who was reared in Tahoka, is now in the Marines and stationed in Hawaii, where he was sent on Oct. 3, according to his mother, Mrs. C. B. Keltner.

Monteray enlisted last April, and since that time has been attending a radio school in San Diego, Calif. He graduated from this school on Sept. 15th and has been given radio work in the Marines.

The former Tahokan writes his mother that evidence of the wide distribution of the Marines may be seen in the fact that 19 of the 24 hours the Marines raise the flag at 8 o'clock somewhere on the globe.

Douglas Henderson and wife of Los Angeles, California, came in Monday night for a few days visit with Douglas' parents, Mr. and Mrs. Howard Henderson, and with his wife's parents, Mr. and Mrs. Curry at Ballenger.

President Roosevelt delivered another of his vigorous, aggressive, fighting speeches Monday night. For clarity and forcefulness of expression, Franklin D. Roosevelt probably has had no superior in this country. His purpose Monday night, apparently, was four-fold: to inform and arouse the people of our own country; to strike fear into the hearts of those who are following the lead of the monster Hitler if not into the heart of Hitler himself; to nerve the arm of subjugated countries and the enemies of Hitler everywhere; and finally to cause the masses in Germany to take pause, with the hope that the forces of disintegration may be set to work in Germany itself. We do not know how much this speech may accomplish in either of these respects, but it was a dynamic, defiant, hope-inspiring message that was carried by radio and newspapers to all the remote corners of the earth. There is hope that it will result in much good at home and abroad.

In his leadership of the fight in the Senate for the re-assertion of our rights on the high seas this week, Tom Connally is superb. He is leading the fight by reason of the fact that he is chairman of the Foreign Relations Committee. One of the most resourceful and brilliant debaters in the Senate, no better man could have been chosen to conduct this fight. He is bigger than all the Nyses and Tafts and Vandenberges and Wheelers and Clarks put together. He is no war-monger, just as Woodrow Wilson was no war-monger. He is a man of peace. He hates war. But he also hates totalitarianism and military aggression and brutal conquest and heartless tyranny, and he is no coward. Neither does he want his nation to play the part of a coward. He is no cold-blooded neutral, who can remain unmoved when a powerful war-mad monster starts out on a deliberate campaign of terrorism and murder to subdue and enslave the world. All power to Tom Connally the Texan who is leading this fight for humanity and righteousness.

No other pronouncement in President Roosevelt's speech Monday night received as vigorous and long-continued applause as that which referred inferentially to Labor Leader John L. Lewis. The people of this country have long been sick and tired of his obstructive activities, and Congress could not do a more popular thing than to enact legislation sitting down hard upon him and his kind. He may not be a traitor to his country, but his own selfishness and ambition have made him just as harmful to the country as if he were a traitor. It is high time for him to be squelched.

We are wondering if we will utilize this marvelous feed crop to the fullest extent possible. A number of trench silos have been constructed throughout the county but only a small number as compared with the number that would be required to store away all this surplus feed. Besides, feed preserved in the form of ensilage, is worth two or three times as much as it is put up in stacks or stored away in barns, the agricultural experts all tell us. Some day we will learn to make the most of our feed crops.

Rank, unsightly weeds all over Tahoka still mar the beauty of our town, and they create a fire menace that may prove costly some day when the dry winds begin to blow again. It would be a fine thing if all of us were as proud of our vacant lots and blocks as we are of the premises at our homes. It would cost very little to remove, or destroy these ugly weeds. Why don't we do it?

Elder Drennon's Notes
(Delayed)

A few notes this gloomy morning. The people here are very blue, because rain has almost ruined their broomcorn crop. The prospects a month ago was the best it has been in many years, and as gathering began rain also began, and as they gathered and piled it on the ground the rain came and turned it almost black.

This reminded us of what James says in James 4:13-14. "Go to now, ye that say, Today or tomorrow we will go into such a city and continue there a year, and buy and sell, and get gain, whereas ye know not what shall be on the morrow." Man proposes but God disposes.

We have had more than thirty inches of rain in this county this year, which is the heaviest on record, I think.

Our friend, Lee O'Daniel, is still being heard in Washington. Of course several of the newspapers in Texas say he is only making an ass of himself, but I hear other Senators making remarks not as sensible as O'Daniel's but as they are professional politicians that makes it all right.

It seems strange that people think a man has to be a lawyer to make our laws. Yet the most of the laws made by lawyers have loopholes in them so other lawyers can get around them. That is the way it seems to me.

I see October 1-8 was Newspaper Week, and they made much of freedom of the press, and yet they lambast Mr. Lindbergh for using free speech. I think we like free speech and free press when they agree with

road, staggering along under a load of ragged bedding. Asked him if he wanted to ride. He said: "What fer, young feller? Ain't going nowhere. Just as well be here as on up the road."

The Duchess studies me gravely. "Yes, but what makes frogs holler?" Mike burps loudly and indecately from his corner of the bed. I sigh and go off to bed where I can sit and whistle my toe-nails in peace.

What does make frogs holler, do you suppose?

Next Year Should Be Big Crop Year

LUBBOCK, Oct. 30—The old saying about ill wind that blows no good, or the long lane never turns, may have some sort of application here.

Don L. Jones, local weather man who also is in charge of the agricultural experiment sub-station, offers at least a measure of consolation to his agricultural friends in connection with the unusually heavy rains of the fall that are delaying and damaging crops and harvest.

Next year, he said in explaining operation of weather observations and recordings to a luncheon club, we should have better crops than this year, and "in dry years following wet years they are generally harvested."

As weather man, however he did not offer definite, workable solution to harvesting problems of wet years. Rainfall here this year to the time of his statement was 37.79 inches, an all-time record for the bureau history. Nearest approach was 1915 with 31.88 inches. The prior year, 1914, had 31.43 and in 1919 the fall was 31.61. In eleven out of 30 years records have been kept, rainfall has been less than 15 inches.

NOT MUCH CHANCE for you to get clogging different brands of motor oil to prove which one flows fastest in Eskimo season. Yet the quicker the lubrication at every cold start, the less "dry rub" on delicate surfaces in your engine. Then why not change now to Conoco Nth oil for Winter and get an OIL-PLATED engine? OIL-PLATING is high up in the cylinders to fight fierce grind, much sooner than any plain oil-flow alone could even start wiggling.

Conoco Nth oil, you see—all in addition to speedy flow—fastens OIL-PLATING to inner engine surfaces, as if by "magnetic attraction." This close-bonded OIL-PLATING is up to its topmost point before you even touch the starter—and that's—"faster than fast," to aid you toward anti-friction starting.

Even up in Iceland, of course, any engine's normal firing is hotter than the Land of the Hottentots. Yet you don't want to "burn up the oil." And Conoco Nth proved it could last for more than twice the mileage averaged by the five other big-name oils in the impartial Death Valley Death-Test. When all five others were used up—engines ruined as each strict 5-quart fill gave out—the Conoco Nth oil that competed under identical conditions was still up at 2.7 quarts! Certified!

A known economy record... plus a known aid to safe prompt starting... when you change to Conoco Nth for Winter OIL-PLATING, at Your Mileage Merchant's Conoco station. Today. Continental Oil Company

GAVE TWICE THE ENGINE LIFE!
This oil that OIL-PLATES gave its engine more than twice the life averaged by the engines using the other oils in the Death-Test.
In these times use your car prudently. And use oil that's great for engine life—changing regularly as recommended.
Good starting—good lubrication against all needless wear—helps conserve gasoline, too.

CONOCO Nth MOTOR OIL

Winston C. Wharton
LOCAL REPRESENTATIVE

Alvin Shambeck Writes Of Life In Fort Knox, Ky.

Pvt. Alvin Shambeck of Wilson, who is now in Fort Knox, Kentucky, has written a most interesting communication to the local draft board, which has been turned over to the News for publication. It is dated October 25. We regret to note that Alvin is temporarily in the Army Hospital there. His letter follows.

Dear Draft Board: It has been some time since I have written to you all. But then the army keeps a person pretty busy; you don't have to work hard, but they don't like to see you idle too much.

At present I am in the hospital with stomach trouble—too much army chow. I will be out in about ten days. I have been in here for some time. I must say I was given the very best of care. In fact this has been like a rest. So you might say I am having a good vacation.

I didn't get to go on maneuvers. I sure wish I could have.

This is the first time Edmund Macha and I have been separated. The maneuvers will last till about the first of December.

I think the last time I wrote you all I was driving tanks and scout cars. Well, they put us in the 6th Inf. (Armed), I like it pretty well. I also drove a motorcycle for about a month, but driving a motorcycle in the army is like having one foot in the grave and the other on a banana peel.

We are using the new M. I. rifle. It is the fastest shooting rifle in the world; shoots five times as fast as any one can shoot the Springfield.

We also have had all kinds of combat practice. And I might say plenty of walking. It sure gives a person a good appetite. Napoleon was right when he said an army marched on its stomach.

It is very interesting up here at Fort Knox. A lot of British soldiers come up here for instruction on tanks and guns. Fort Knox is known as the nerve center of the United States Arm. Division. Not long ago they brought a British tank up here. It is different in shape and size than a U. S. tank. The British tank has two motors and travels 15 miles an hour top speed, whereas an American-built tank has one motor, travels 65 miles an hour (some faster), and it is built and equipped better for fighting. I myself would choose the American-made tank.

Chrysler is building the world's best tank, the M.3, 28-ton land battleship—it has enough guns to call it that.

A person gets to see and work with a lot of things in this new army. It takes 103,000 gallons of gas to move the First Arm. 150 miles. So you see, they have quite a few tanks, trucks, and half trucks. Since then, they have gotten in more equipment.

Recently they have formed the Fifth Division. This division will go to California. They are planning on building 16 armored divisions before they stop.

The U. S. army is the best army in the world. And I am proud to say I am an American, with freedom of speech and religion. I am Pvt. Alvin Shambeck.

N. B. Brower was in The News office a few days ago to have the paper sent his son, Jean Brower, who with Charles Oliver, is in San Diego, Calif., working in an airplane plant. The boys have excellent jobs.

The Call America Heeds

The Red Cross nurse is the symbol of the 1941 American Red Cross Roll Call poster, appealing to all men and women to join their local chapters as members during the annual Roll Call. Bradshaw Crandell, distinguished poster artist, painted the poster and Frances Fedden is the model.

My Home Town And National Defense

(Following is the winning theme submitted in the My Home Town and National Defense contest recently conducted in the Tahoka High School as a part of the West Texas Chamber of Commerce program. Coffee won second in the speech contest, Miss Helen Belle Pemberton, whose speech appears in another column, having won first place.)

By WENDELL COFFEE

The United States is preparing to defend itself from an invasion. Tahoka is doing its best to help.

To defend America from a military invasion an army is needed. Armies are men and material. The men must be paid and the material bought; hence money is a necessity. For men in the army Tahoka has many volunteers as well as draftees. There has been no violent emotion experienced by either class of soldiers. The volunteers do not consider that they are destined to free the world of tyranny, nor do the draftees think that they have been unjustly infringed upon. It has all been taken with calm reasoning. Thus Tahoka does its best to furnish men.

With the problem of materials Tahoka has shown this same unruffled spirit. Before the defense drive, Tahoka was mainly suited to the production of cotton; after the drive citizens were satisfied to con-

tinue with their occupation instead of attempting to obtain factories or camps that for the nation as a whole would be a loss. Many specialized men, like mechanics and tinmiths, however, have gone to distant factories to work on defense goods. A night school has been started to train young men as mechanics to fill vacancies made as experienced ones leave. These younger men may also do greater service when they get in the army. In the aluminum drive a sizable amount was collected without any usable articles being wasted.

The Red Cross unit is doing most of its work on sewing machines rather than with knitting needles, which are picturesque but slow. To provide money for defense Tahoka has invested \$80,000 in defense bonds, mostly through the First National Bank. Citizens have also purchased \$750 of stamps. This was done quietly with only one rally which was free of any emotional appeal as found in such statements as, "It's the duty of every patriotic and loyal citizen to put every nickel and dime he can gather into stamps and bonds." It appealed more to the reasoning. In the U. S. O. drive Tahoka went above its quota while Texas as a whole paid only one seventh of the quota.

This is the way my home town is doing her best for the national defense, although at first glance it may not seem so much. The whole attitude is: There's a job to do; let's do it well; let's do it fast.

FILMS AVAILABLE AT FARM SECURITY FOR SCHOOLS AND VARIOUS ORGANIZATIONS HERE

Several 16mm sound films are available to schools, civic clubs, farm groups and other organizations through the Farm Security Administration, Jack Welch rural rehabilitation supervisor for the PSA in Lynn county, said today.

Films immediately available include "The River", "The Flow", "The Army in Overalls", "Power for Defense", and "Farmers and Defense".

The teaching of social studies through these documentary films is especially recommended for the schools in Lynn county.

"The River" has been acclaimed as one of the most important films ever produced. It is beautiful, impressive, cogent, poetic and emotionally moving. The other films are exceptionally timely because of the National Defense program.

Anyone interested in obtaining one or more of these films for showing in this county should contact Mr. Jack Welch at his office in the Courthouse.

If saving money is your goal, buy foods here at these bargain prices.

Macaroni and Sausage Creole

Broadcast by Mary Lee Taylor, Oct. 30

1 1/2 cups broken macaroni or spaghetti
6 cups boiling water
1 1/2 teaspoons salt
3 cups bulk pork sausage (1 1/2 lbs.)
1 cup Fat Milk
1 tablespoon hot shortening
10 1/2-oz. can condensed tomato soup
1/4 cup water

Boil macaroni until tender in boiling water and 1 1/4 teaspoons salt. Drain and rinse with hot water. While macaroni is cooking, mix together pork sausage and 1/4 cup milk. Divide meat mixture into 18 portions. With wet fingers shape the portions into finger-shaped patties. Brown meat slowly on all sides in hot shortening. Remove meat patties and drain off all fat. Pour mixture of tomato soup and water into pan used for browning meat. Add drained macaroni. Heat thoroughly. Heat remaining 1/4 cup milk slowly to boiling. Stir macaroni mixture into hot milk. Do not heat after combining the two mixtures. Put macaroni in serving dish or deep platter. Put meat patties around edge. Serve at once. Serves 6.

*2 1/4 cups broken noodles may be substituted for the macaroni or spaghetti.

Boost Is Given Tahoka By Speaker In "My Home Town" Contest At Lubbock

(Following is the speech which won first place in the Tahoka "My Home Town and National Defense" Contest. Miss Pemberton, the speaker, used this text in district WTCC competition at Texas Tech College Wednesday. In the latter contest she won third place.)

By HELEN PEMBERTON
My Home Town, Tahoka, is like the thousands of other small towns in this country; they are America's first line of defense.

There are four great institutions that are found in every small town. They are the church, the home, the school and the state. The principles that make a democracy possible are derived from these four great institutions and that is why I say our home towns are America's first line of defense.

Defense on Main Street plays a very important part in the National Defense of our country.

Any where you find a group of people talking in Tahoka you will notice a strong feeling for Americanism. Words can be made to work for a democracy. They work even better for a democracy than a dictatorship because words that come from a free heart and brain are stronger than words repeated by a ruled people. Truth is more important in building confidence and loyalty than lies. You find true American citizens in Tahoka supporting their town and country with

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the gentle way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

words, strong words for the defense of America.

The nation's decisions are made by the people. The children of today are the citizens of tomorrow. Tahoka school children are learning the ways of democracy in the class room and in their activities at school. An example of this is a unit taught in the seventh grade English classes.

The children make notebooks on "Why I am Glad to be an American" and "How I Can be a Better Citizen of My Country."

In civics we find that a democracy is a government by the governed. In history class we find that this great democracy, the United States, is a "government of the people, by the people, for the people". If children are taught the ways of democracy today, they will strengthen and defend democracy tomorrow. And that is what the Tahoka Public Schools are doing for the defense of the United States.

But what of the young people in this country, just turned twenty-one? It is fitting that we remember that citizenship training is necessary to native-born Americans who are too often inclined to take our democratic liberties for granted. The citizens of Tahoka observed the national Citizenship Recognition day as set aside by President Roosevelt, with a "I am An American" Celebration in Tahoka last May to honor citizens of our town and community who recently became 21 years of age.

There is a lack of skilled labor to meet the demands of increased defense production. Today, with the defense effort under way, it is important to find the right person for the right job. To do this a program of vocational guidance and training is needed. There are twenty out-of-school youths attending the defense training center in Tahoka at night. These boys receive free instruction in the operation, care and repair of machinery on the farms and in industry, Wood construction and elementary electricity.

To meet the present world crisis, it is necessary for this country to have a supply of materials on hand. These materials are shipped to foreign countries to aid those nations

Howitzer Shells For Hitler

THIS small corner of a munitions plant somewhere in Canada which is manufacturing howitzer shells gives an idea of the vast munitions program upon which the Dominion is engaged. In the manufacture of shells, chemicals and explosives, Canada has assumed a position of supreme importance in the war. Nine of the Dominion's twelve chemical and explosive plants (one of them the largest in the British Empire) are producers and the

balance will be in operation soon. This year alone, the total production of explosives in Canada should exceed the entire Canadian output during the whole of the 1914-18 World War. In the munitions plants, nine types of gun ammunition are being produced at a rate of millions of rounds per year. About forty per cent of the total national income of Canada this year will be spent by the Dominion for her own military needs and to give financial aid to Great Britain.

In their fight against dictators, to defend America it is necessary to have these materials for large-scale defense production. Tahoka, is the county seat of Lynn county which is a large production area for cotton, feed, hogs, cattle and sheep. For the defense of America to be possible there must be an army. Tahoka and Lynn county are represented in our nation's army camps by volunteers and draftees. The citizens remaining at home are doubling up on their work so that their work may be completed as well as the work left by these volunteers

and draftees who are in army camps to learn to defend America against a military invasion. There is a committee made up of Tahoka patrons called the Lynn county defense savings committee. The purpose of this committee is to visit all small communities and promote the sale of Defense Bonds and Stamps. The Red Cross is a very active organization in Tahoka and Lynn county. Tahoka may not be as large as some of your home towns but the citizens know what is meant by Liberty, Justice and Equality. They know the American way of keeping Americanism alive. Tahoka, one of the finest small towns in the finest part of Texas, the best state in the United States, which is the best and only real democracy left in the world of today. Let's keep our home towns as America's first line of defense.

FATHER-IN-LAW OF LUCILLE SLATON DAVIS FATALLY BURNED AT WOLFE CITY

Mrs. A. L. Davis, who, with her baby, Slaton Davis, had been visiting her parents, Mr. and Mrs. W. B. Slaton, was unexpectedly called to Dallas Tuesday by a message from her husband informing her of the critical condition of his father.

The elder Mr. Davis received fatal burns when he was trapped in his burning home near Wolfe City Tuesday morning. Mrs. Davis caught a bus for home immediately on receiving the message, but her father-in-law was dead when she reached Dallas. Burial was at Wolfe City on Wednesday.

A brother of her husband was also burned but not critically. Mr. and Mrs. A. L. Davis, the latter well known here as the former Miss Lucille Slaton, live in Dallas.

Mrs. H. L. Roddy, War Production Chairman for Lynn County, requests that all persons having Red Cross articles finished, bring them in by Wednesday as a shipment is to be made next week.

Robert Maddox was here last week end from Camp Bowie, Brownwood, visiting his parents, Judge and Mrs. B. P. Maddox.

Sam Garrard of Camp Bowie, Brownwood, has been here visiting his father, Tom Garrard, and other relatives.

ODDS & ENDS

by Eee Eye,
the Elder

We the people of the United States are so accustomed to the enjoyment of certain personal and "inalienable" rights in this country that it is possible that we do not fully appreciate them—freedom of speech, freedom of the press, freedom of worship, and numerous others.

Take this matter of religious freedom, for example. We have enjoyed this right so long that many of us do not seem to care much about it. We rarely ever avail ourselves of the opportunity to exercise it. Since we have the right to go to church or not go to church, just as we please, a lot of us choose not to go to church. Some men in Tahoka, possibly, have not attended a church service for years. A law prohibiting attendance upon church services would not materially affect their habits.

Others attend only when some sensational preacher comes to town, or when some new cult is introduced.

But let some fellow come along and take his stand on the street corner and begin to lambast the preachers and the churches that are doing most in this country for the moral and spiritual well-being of the people, and these same fellows who never attend church will listen with bated breath, drink in everything he says, and applaud with hellish glee.

Every religious denomination in this country probably has a few crooks among its leaders. Every church of any consequence in a town possibly has a few hypocrites in its membership.

This column has never assumed the task of defending the preachers and the churches against the slanderous charges of their enemies. They probably need some constructive criticism now and then; they may need it often—but we undertake to say that notwithstanding their faults, the churches stand a long way above them, as the most important and effective civilizing and refining agencies on earth.

They have meant more to this country than most people realize. We dare say that but for them we would not be enjoying the other liberties that we do enjoy today.

Just to bring the matter down home to us, suppose that there had never been a church in this country—not a church in it today. Suppose that instead of a group of Puritans, it had been a group of atheists that landed at Plymouth Rock. Suppose that no preacher of the gospel had ever placed foot on our shores, that not one had ever grown up among us.

Can any of you imagine the sort of civilization we would have under those circumstances in this country today?

Or, suppose that following the lead of Stephen F. Austin, only infidels and skeptics had come to Texas. Suppose that no Methodist circuit rider, no "corn-field" Baptist preacher, no Presbyterian, no minister of the Church of Christ, no gospel preacher of any name or denomination had ever crossed the Red River or the Sabine. Suppose there had never been a Christian school or college in Texas; never a teacher who had embraced Christianity. Never a Christian mother.

Isn't the very thought enough to make you shudder?

Christianity, then, must be worthwhile. The churches must be worth preserving. Freedom to worship God according to the dictates of one's conscience must be a precious right.

Would you like to be deprived of it?

Well, that is what Hitler and his Hordes hope to be able, in the course of time, to do.

You don't believe it? Well, then, you just don't know your Hitler.

He has hooted at the idea of freedom of speech. He murders men for making bold to exercise that right.

He has destroyed freedom of the press in his own country and in every country he has conquered.

He has ridiculed the Bible and its teachings; he has heaped scorn upon it as a mere Jewish book. At the outset of his reign of terror, he sought to destroy the religious ideals of the people of Germany and to set up a religion of his own making for them. He has since thrown into prison and into concentration camps many who have had the boldness to defy him. He has murdered many of them. The teachings of Jesus are not the teachings that serve his purposes.

He has set out to set up a "new order" not only in Europe but eventually throughout the world.

If he succeeds, he will not concede that Christianity has any place in that "new order". Religious liberty will have no place in it.

The doctrine of equal rights and the brotherhood of men will have no place in it. Hitler preaches that his people are a superior people and that by reason of that fact they have the right to rule.

With him "might makes right". The only language he can understand is the language of mighty guns, bursting bombs, terrifying torpedoes.

Human rights are nothing. Other races shall be the serfs and the slaves of the Nazis.

To talk about religious freedom, about churches, about righteousness, about God—that is to laugh, in the estimation of Hitler. It is this monster that is seeking to subdue and to enslave the world.

Should we highly value the religious freedom we enjoy in this country? Should we be willing to fight, if need be, to preserve it? We think so.

But we think also that it is high time that irreligious, godless people in this country were turning again to God.

We think that it is high time that they turn away from some of the frivolities of life and give attention again to the serious things.

We think that they should quit coveting the material things so much and begin to crave spiritual things more—to "hunger and thirst after righteousness".

We think that our churches should be filled every Sunday—here in Tahoka and throughout the land.

We think that people should gather less frequently in the road houses

NAVY BOY VISITS HERE

R. Bosworth of Corpus Christi and his son, Clifford Bosworth, now in the naval service and stationed at New Haven, Connecticut, spent the weekend here with Mr. and Mrs. Deen Nowlin and family, Mrs. Nowlin being Mr. Bosworth's daughter. Mrs. Ed Hawthorne of Happy, another daughter, came down Saturday to visit with her father and her brother while here. She returned to her home Sunday afternoon and Mr. Bosworth and Clifford left Monday morning.

Although in the Navy service, Clifford has not yet been out on the sea. His particular job is that of a mechanic in the submarine plant. While he gave us no information on the subject, it is to be expected that he will be helping to man one of those machines some of these days.

Mrs. Lucille Davis and son, Slaton of Dallas are here visiting Mrs. Davis, parents, Mr. and Mrs. W. B. Slaton.

and the dance halls and the honky-tonks and more frequently at the "little brown church in the dale".

Now, we are sure that we are not becoming fanatical in these matters. In fact, we are far from being what we ought to be in many important respects. But, we do sincerely believe that this nation needs a new birth, spiritually and religiously.

We can not afford to drift into infidelity and atheism, as Russia and Germany have done; nor can we afford just to forget or to ignore God.

We shall become strong to the extent that we as a people again become seriously thoughtful and devoted.

WHAT'S DOING AROUND

GRASSLAND

The high school boys and girls from Grassland who attend the Tahoka school have been having to meet the bus at the Central Baptist Church. We wish to thank those who have been so good as to take them and go get them each day, thereby making it possible for them to be present all through the bad weather.

Correction of item in last week's News: Forrest Chapman is not cooking at the new cafe but is working for the Red and White grocery there.

Mrs. Frank Williams has been on the sick list but is better now.

W. T. Mitchell is sick with the measles. Several children have them around Post. This is the only case in the Grassland community so far.

Mrs. Meyers resigned as cook for the lunch room here. Mrs. Ruby Rash is the new one.

Grassland also has a new bus driver, Mr. Howard—although he may not drive much if the weather stays bad.

Crowds at the churches Sunday were quite small, due to the fact that some were water-bound; some got stuck several times and were late.

Cotton pickers are plentiful now, it seems. If the weather would get pretty, some think all the cotton would be open and out by Christmas.

Reports come that several people were hailed out last week in Lynn county.

Miss Anita Reddell, who is teaching in Hale Center, spent Sunday here with her parents, Mr. and Mrs. W. A. Reddell.

JONES TO BE MAIN SPEAKER AT W. T. C. CONVENTION

LUBBOCK, Oct. 30.—President Clifford B. Jones of Texas Technological College will be main speaker at the banquet terminating the convention of the West Texas Chamber of Commerce at Midland Nov. 4. President Jones was one of the organizers of the West Texas Chamber of Commerce, has served as a director and was its third president. Mark McGee, attorney of Fort Worth and member of the Texas Tech directorate, will act as master for this "all-out" West Texas banquet.

Pyorrhea May Follow Neglect

Are your gums unsightly? Do they itch? Do they burn? Druggists return money if first bottle of "LE-TOS" fails to satisfy.

Rotarians' See Moving Pictures

Rotarians were entertained Thursday with pictures of War scenes in Europe and on the oceans thrown on the screen by Lum Haney with his projecting machine. These pictures gave just a sketchy outline of what has been happening in the war-torn countries for the past two years.

Haney also showed pictures, in color, taken at the annual Lynn County Junior Fat Stock Show last spring which were very fine.

Miss Helen Belle Pemberton favored the Club with her discussion of the subject "My Home Town and National Defense," with which she won third place among thirteen contestants from the Lubbock district at the Texas Tech Wednesday afternoon. Her number was highly praised and much enjoyed.

In the attendance contest started last week, Ray Weathers and W. T. Bovell, captains of competing sides, announced that they each had one absent member for the previous week.

J. L. Heare and W. O. Thomas were voted membership in the club. Five Rotarians from Brownfield were present, C. L. Avin, president of the Brownfield Club, Tom May, Bob Bowers, Lal Copeland, and L. Nicholson.

Miss O'Bea Forrester served as pianist for the day.

COUNTY COURT WILL CONVENE NEXT WEEK

County Attorney Calloway Huffaker states that several cases are expected to be called for trial Monday morning when county court opens.

Among the cases to be tried are four liquor cases; one charging a Tahoka man with unlawfully transporting intoxicating liquor, and three against an O'Donnell man, who is charged with two sales and with unlawfully possessing intoxicating liquor.

One man, whose conviction on a charge of drunken driving was reversed by the court of criminal appeals, is also to be tried again. He was tried and convicted in the district court the first time, but as the legislature has since reduced this offense from the grade of felony to a misdemeanor, the case will be tried this time in the county court.

Also pending is a charge against a Lubbock man for operating a truck without a permit, and a case against another Lubbock man charging violation of the pure food law.

PHEBE K. WARNER CLUB MEETS

The Phebe K. Warner Club met in regular session in the home of Mrs. H. M. Snowden. After a short business meeting followed the program of the day which was taken from the October Reader's Digest.

Mrs. Wharton discussed "Must the World Destroy Itself?"

Mrs. Walter Mathis talked on "Why England was not Invaded".

Mrs. Richardson gave a Reading, "Our Flag".

Mrs. A. P. Edwards directed a drill in better English.

After the program a refreshment plate was served to the following members, Mesdames: W. R. Penton, R. L. Richardson, Winston Wharton, Fred Hegl, Emil Prohl, D. G. Ridge, G. M. Stewart, A. P. Edwards, Walter Mathis, a guest, Mrs. Clark and the hostess Mrs. Snowden.

Morris Robinson of Plainview has accepted employment at the Boyd Smith service station.

T. R. Ganaway Died Thursday

T. R. Ganaway, prominent citizen of Lynn county residing between New Home and Lakeview, died between five and six o'clock Thursday morning, according to news reaching Tahoka. He had been in ill health a long time.

Funeral arrangements had not been completed when our forms closed but it was announced that the body would be buried in Tahoka.

Deceased was a member of the Church of Christ and funeral services will probably be held in the Church at New Home.

Weatherford Home, Afraid Of Drowning In The Dust Bowl

Jim Weatherford blew into Tahoka from the north Tuesday trying to get away from the dust bowl floods. In fact, he intimated that he was afraid that he might get drowned any day if he remained anywhere north of Amarillo. He had spent about nine weeks at Higgins and White Deer, and he had been waterbought so much the last few weeks that he got shakey. He reports that there is a lake south of White Deer of enormous proportions. In one lake up there somewhere the water was standing four feet deep over the railroad tracks and there was no way for it to drain off. Folks had to go forty or fifty miles up there in some places to get to points twenty miles away from home.

But Jim declares that he had an enjoyable visit nevertheless. Recently, he attended a big celebration of the Adobe Walls fight staged at Berger. Jim says the fight was reproduced in a manner that seemed very real. That old, old Indian, Yellow Fish, the last survivor of the Adobe Walls fight, was there, as was also Mrs. Billie Dickson, widow of the noted white warrior of that name. And numerous Indians were there from Oklahoma. The Adobe Walls battle was fought on November 25, 1874, just in case you don't remember.

It is probable that no man living knows more pioneers and more noted characters of the early West Texas days than Jim Weatherford—but he didn't get tangled up in any Indian fights.

THE CHILD GUIDANCE CLUB MET AT DURHAM'S

On Tuesday, October 21 the Child Guidance Club had a very interesting and enjoyable meeting in the home of Mrs. K. R. Durham. After the business meeting, presided over by the president, Mrs. Emil Prohl, the members answered to the roll call by suggesting methods of punishment for children. Some very interesting and helpful suggestions were made. After roll call Mrs. E. R. Edwards gave a very interesting talk on "Obedience". Mrs. John Hamblen talked on "To Punish or Not to Punish". Both talks were both helpful and inspiring to the mothers present.

Refreshments of delicious salad plates were served to the following members:

Mesdames Alton Cain, Wynne Collier, E. R. Edwards, Coy Fielder, Douglas Finley, R. H. Gibson, John Hamblen, Fred B. Hegl, Calloway Huffaker, Emil Prohl, Truett Smith, Jack Welch and two guests, Mrs. T. G. Clark of Tahoka and Mrs. James Hutchinson of Shreveport, La.

DELTON PEMBERTON GOES TO BASIC AIR TRAINING SCHOOL

Word has just been received that Delton L. Pemberton, son of Mr. and Mrs. M. R. Pemberton, of this city, has completed his final checks in the Air Corps Training Detachment, Ryan School of Aeronautics, Hemet, California.

He reported to this field August 20, 1941, and will report to Basic School October 8. He was recently appointed to serve as a cadet Lieutenant in his battalion.

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the gentle way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

SPUR LADY GUEST SPEAKER AT MEETING OF CLUBS HERE

Featured by a talk on the "Wonderful Story of Life" given by Mrs. E. M. Kelly of Spur the Child Guidance Club and Parent-Teacher Association of Tahoka held a joint meeting in the American Legion Hall Wednesday afternoon.

Mrs. Emil Prohl of the Child Guidance Club directed the program which opened with piano numbers by Miss Bonnie Jean Clark. Mrs. Prohl introduced Mrs. Fred McGinty, P. T. A. President, who introduced her sister, Mrs. O. M. McGinty of Spur. Mrs. O. M. McGinty in her own pleasing way, introduced the speaker, Mrs. Kelley, herself a mother of two young daughters.

Mrs. Kelly's discussion was a very lucid and impressive presentation of the principles to be followed in the development of the child's understanding and appreciation of the finer things of life. Every mother present must have gotten new inspiration and courage for the task that lies before her.

DORMAN GANDY RELEASED FROM THE HOSPITAL

Dorman Gandy, who was severely burned from a gasoline explosion out on the Marvin Hinkle farm on September 25, had recovered sufficiently to be released from the hospital and brought back home last Saturday, October 25, according to his father, who called at the News office on that day.

One of the arms, which perhaps was more severely burned than any other portion of his person, was still very sore and will probably require a number of weeks yet to completely heal.

The explosion occurred while Dorman was pouring gasoline from a can into the gasoline tank on the tractor, when some of it fell onto a hot exhaust pipe.

The burning gasoline was thrown all over Dorman, who was alone, but he had sufficient presence of mind to fall onto the ground and roll over and over in the sand until he had extinguished the flames. He then walked to a neighbor in a field half a mile away, and was brought to the Tahoka Clinic for first aid treatment.

His injuries came very near being fatal.

Mrs. Alvin Seth of Seagraves recently visited her mother, Mrs. F. H. Hancock.

VICTORY PAGEANT TO BE PRESENTED AT WOMEN'S MEETING IN DALLAS

CANYON—Indicative of the policy of club women always to keep in tune with the times will be the presentation of Mrs. J. A. Hill's pageant, "V for Victory," at this year's meeting of the Texas Federation of Women's Clubs. The meeting will be held in Dallas Nov. 10-13.

Mrs. Hill, wife of President Hill of West Texas State College, Canyon, is a member of the state board of the Federation and is a past-president of the Seventh District. She has written various magazine articles but is best known for the book, "In Little America With Byrd" of which she and her son, Joe, are co-authors. Joe was with Admiral Byrd on the second expedition to Little America.

Flags and costumes of many nations will be seen in the two colorful episodes of the pageant. The first episode, "The Changing World" depicts Hitler's many conquests, while the second episode, "Our All for Defense," introduces the Federation's new department of defense. A narrator will give a survey of the present world situation.

The cast of the pageant will be composed of Dallas women.

GRASSLAND H. D. CLUB MET

Grassland H. D. Club met Tuesday afternoon in the home of Mrs. R. E. Appling for the purpose of electing new officers and attending to other important business.

The Food Supply Sheets were made ready for mailing and the phase of work was selected for the coming year.

Delicious refreshments were served to Mesdames A. A. Lawson, R. B. McCord, G. C. Watson, Claude Thomas, Roy Lemond, and Tom Brown by the hostess, Mrs. R. E. Appling.

Next meeting will be in the home of Mrs. Tom Brown on November 11. Demonstration will be on "Grooming". Also will have clothing demonstrators' achievement scoring.

All members are urged to attend.

METHODIST CHURCH

Two more Sundays and we go to Conference. Sunday will be Annual Missionary Sunday. Every parent and child who comes will make the atmosphere of services more friendly and encourage the church as a whole. The pastor is especially desirous to have everyone present at this close of the third year of his pastorate.

Mr. and Mrs. G. A. Blanton and Patricia were new members welcomed last Sunday.

Again next Sunday members will be received and infants baptised.—Geo. E. Turrentine.

Lubbock Secures Housing Project

Conditional contract has been let to the Maxey Lumber Company for the construction of the first forty of more than a hundred houses to be constructed to rent to officers of the Air Corps Advanced Flying School now under construction west of Lubbock, subject to approval by Lubbock Homes Inc., organized to sponsor the project, and by the Federal Housing Authority, which is expected to furnish most of the funds. The total housing project calls for the expenditure of about \$515,000.

The project includes an administration building, landscaping, and possibly a recreation area.

The houses, to cost approximately \$4,500 each, are to be located in an addition known as "Green Acres", lying a block or two west of College Avenue between 26th and 31st streets, in southwest Lubbock. Streets entering the addition will conform to existing thoroughfares, but inside will follow a winding, landscaped course. All utility lines, wires, etc., are to be underground. No two houses of the development are to be exactly alike.

Construction is to start at the earliest possible time, due to a change in plans for sending personnel to the school about three months ahead of the original schedule. Army officials have announced that a full complement of troops are to be assigned to the school early in December, and the first class of cadets is scheduled to begin training January 24, 1942, as compared with the original schedule to assign personnel next March.

NOTICE

Of County's Intention To Receive Bids For Purchase of Certain Road Machinery and to Issue Time Warrants Therefor.

Sealed proposals addressed to Chester Connolly, County Judge of Lynn county, at Tahoka, Texas, will be received at the office of the County Judge until ten o'clock A. M. on the 14th day of November, 1941, for the purchase of the following machinery, to-wit:

One Elevator Grader, with nine-teen-foot carrier, with forty-two-inch belt conveyor, powered with four-cylinder, forty-five H. P. Motor.

Such proposals will at said time be publicly opened and read before the Commissioners Court of said county.

It is the intention of the Commissioners Court to pay for such road machinery by the issuance and delivery to the proper contractor of the legally issued Time Warrants of said County, bearing interest at a rate not exceeding 6 per cent per annum, payable semi-annually; which said warrants shall not exceed the principal sum of \$2,000.00, and the principal of said warrants shall be paid serially, the maximum maturity date not being later than April 15, 1944.

The Commissioners Court reserves the right to reject any and all bids. Chester Connolly, County Judge, Lynn, County, Texas. 12-2tc.

CORRECTION

Recently it was stated in the News that Edwin Jolly was the only boy scout residing in Tahoka who had ever been honored with the eagle award.

F. L. Prater informs us that this is erroneous. He calls attention to the fact that his son, Lester Prater, was given the eagle award here quite a number of years ago.

Mrs. Ruth Harkins of Dallas is here visiting her mother, W. D. Nevels.

Food-For Freedom Committee Named

Farmer-committeemen of the AAA and representatives of government agricultural agencies meet in Lubbock Thursday and Friday, October 30 and 31, to lay plans for the Food-For-Freedom campaign in this area, according to Vernon Willhoit, chairman of the Lynn county USDA defense board.

The district meeting will be one of 12 similar meetings being held throughout the state at the same time to get the food production campaign into high gear, the defense board official said. Representatives of Lynn county who will attend are County A. C. A. Committee Secretary, County Agent.

Following the district meeting, the county USDA defense board, working with AAA committeemen, will undertake a farm-to-farm canvass in the food production pledge sign-up. Farmers in the county will be asked to produce their share of the foods which are needed for defense and for aid to the nations resisting aggression.

"We are undertaking the greatest food production job in the history of the world," Willhoit declared. "We have the goals to meet and we will meet them. I believe the farmers of this country will go all-out in their effort to do their share in the Food-For-Freedom campaign."

Willhoit explained that the USDA defense board would announce definite plans for carrying on the campaign in the county after the district meeting, but it is anticipated that county and community meetings to explain what is needed will be held in conjunction with the farm plan and pledge sheet sign-up which will be handled by AAA committeemen.

Mrs. J. B. Stokes Has Interesting Hobby

Mrs. J. B. Stokes, who was one of the pioneer residents of Tahoka and who lived here many years, recently purchased the old family home at Bangs, where she has lived the past few years, and has just completed a nice new duplex apartment there. In building the new residence she had a place built in for the marvelous collection of glassware that she has acquired from many parts of the world in recent years. A photograph of Mrs. Stokes seated in front of this beautiful cabinet of glassware is now before us, but we will let the Bangs Gazette tell our readers about it.

(From The Bangs Gazette)

Matty Mathews, local photographer, made an interesting photograph this week of Mrs. J. B. Stokes and her little fox-terrier, Zero. The picture had for its background the unique china and glass ware which Mrs. Stokes has gathered over a period of years in many interesting places which she has visited.

Hundreds of glasses, odd-shaped bottles, and lovely china pieces from all over the United States and some foreign countries make up the unusual collection.

Each piece has a history, colorful and interesting, which lends enchantment to the story as Mrs. Stokes tells of her travels to various places where she gathered her souvenirs.

Beside the china and glassware there are lovely Indian blankets brought from quaint old Mexico, hand made by the natives, and fine pottery pitchers exquisitely painted in the individual Mexican style.

Among the articles from foreign countries are two hand-made, hand applied banners, depicting scenes of the Bible, which were sent to Mrs. Stokes by her sister, after being brought to this country by a young lady friend from far off Jerusalem. One of the scenes shows Christ's triumphal entry into Jerusalem on the back of a donkey; the other is a picture of a soldier playing the games of the period. A hand woven pillow from Persia, in fabric similar to that of the famous Persian rugs, is another of her prized possessions.

About the house are various items of interest, such as the unique door stops made of glass bowls and odd bottles and filled with sand, shells, rocks, moonstones, and agates gathered Mrs. Stokes from the shores of the Pacific ocean.

One of the oddest articles is a work basket made from a Japanese keg which was originally a shipping crate for soy bean salad and shipped direct from Japan.

Beside her china, and other trophies, Mrs. Stokes has over 2,000 buttons of various sizes, shapes and colors, no two of which are exactly alike.

One of her most prized souvenirs comes from Canada. It is a lovely painting of the birth place of the Dionne quintuplets, personally autographed by Oliva Dionne, father of the quint, and dated, Sept. 11, 1937.

Other items include: a match safe made of juniper wood, brought from central Oregon; a thermometer mounted on cedar from Mt. Lookout, Chattanooga, Tennessee; a hand carved cedar jewel box from Mexico City; a woven basket, hand-made by the Cherokee Indians of North Carolina, and others too numerous to mention. Mrs. Stokes states she has traveled in all but 10 of the 48 states and has a souvenir from each of them.

Her collection of bottles numbers near 500. The cups and saucers, many of them delicately hand-painted, number 80 and there are 24 lovely vases and 30 pitchers. It is truly a sight worth anyone's time to see.

LYNN COUNTY BOYS MAKE GOOD IN SERVICE

Sgt. Hal D. Shannon of Fort Bliss was here visiting his sisters, Mrs. Mart Willingham of Draw and Mrs. Otis Cash of Grassland, over the weekend. He came by way of San Saba and visited his parents, Mr. and Mrs. W. E. Shannon, former residents of Lynn county.

Mark L. Shannon, a brother of Sgt. Shannon, is now at Pearl Harbor, Hawaii, and is rapidly going to the top in the Navy, now being a pharmacist's mate in the Medical department.

Mmes. H. L. Roddy, J. K. Applewhite and Irvin Stewart and Lenore M. Tunnell, attended a Red Cross Conference in Big Spring Monday. Officials of the Red Cross from National Headquarters in St. Louis were present and took part on the program.

Fowlry Roundworms Shudder—at thought of Dr. Salsbury's AVI-TON. They know they don't have a chance with this plus value treatment. "Plus Value" is important in worming your flock. Ask us about it.—Wynne Collier, Drugist. 1tc.

Hail . . .

(Cont'd. from page 1)

was not the severest however, on Thursday afternoon of last week, swept across a district from a mile to two miles in width and extending from near the west line of the county northeastward clear to the Garza county line and then on to the caprock, if some reports are to be believed.

Farms in the vicinity of Tahoka on which crops were damaged include those of A. P. Edwards, Claud Wells, Bob Spruill, Mrs. Florence King, Buster Fenton, and Vernon Willhoit. These farms lie west, north

west and north of Tahoka. The damage was severe in places, much cotton being beaten into the ground. It may be that a number of other crops were just as badly damaged. The menacing cloud that dropped these destructive hail pellets missed Tahoka but swept on to the northeastward through the New Lynn and other communities further away. The path of the storm was rather narrow, otherwise the destruction might have been much greater.

A heavy rain accompanied the hail.
