County Precinct Boundaries Ok'd

The new boundaries for the four precincts in Aransas County have been approved by the county commissioners following a public hearing at the courthouse.

The boundaries were changed by county surveyor Tommy Griffith so that between 900 and 1,000 voters reside in each precinct. The boundary changes were made to equalize the population distribution in accordance with the "One Man, One Vote" ruling by the Supreme Court.

In other actions at the Commissioners Court, it was decided to seal-coat the runways, taxi strips and aprons at Aransas County Airport next spring.

The commissioners also approved a request by Rouquette and Wendell to pour a slab on a portion of Bay Street where the oysters come off the conveyor.

Police Wear Flag On Uniforms

Chief of Police Everett D. Taylor today announced that the police force would begin to wear as part of their regular police uniform the national flag of the United States.

The Chief said, "The police officer today stands for law and order in this community. He is the symbol of freedom, justice and protection for the law abiding. It is therefore very appropriate for us to wear and display our nation's flag as part of our uniform to remind our citizens of the role we play in the defense of their homes and life."

This is part of a program sponsored by the American Federation of Police which has made these emblems available to police departments throughout the United States. The idea started in Macon Ga. where it has been acclaimed a great success.

United Fund Reaches \$4,611

Collection of cash and pledges in the United Fund Campaign has reached \$4,611.47. The goal is \$10,425.

Pat Smith, general chairman of the drive, asks all workers who have completed their calls to turn in the pledge cards and the collections to Mrs. Loyce Landrum, secretary, at the Chamber of Commerce building.

Smith also asks all local persons who have not been called on and who are willing to contribute, to please stop in at the Chamber building and make a donation to help the community reach its goal. The funds are needed to assist 14 agencies.

The most encouraging and interesting United Fund news this week came from the sixth grade class at Rockport Elementary School. Boys and girls of this class, with no prompting from teachers, parents or anyone else, took up their own collection and turned in \$7.33.

One of the children wrote this letter:

"Dear Sir: We consider ourselves, the sixth grade class, part of this community. That's why we're sending this money to the United Fund. We all participated in giving this money. We think our money can help others."

Pirates To Battle Yoakum In Bi-District Clash At Victoria Fri.

RFHS Matches Size, Power vs. Speed of Bulldogs In Victoria

By Bob Crawford

Before the sounding of the midnight hour this Friday night, the Pirates of Rockport-Fulton will see one of two things come to pass: 1) Through their gallant efforts they will have advanced to the Regional Playoffs against either Klein or Needville; of 2) the bubble will burst and the dreams of many will again turn into a pumpkin after being a Cinderella team for the 1969 season.

The Pirates of District 28-AA will match their size and power against the quickness and speed of Yoakum, representatives of District 27-AA. Both teams will come on the field in Victoria Friday night with unblemished records in the districts that they have recently disposed of to get to the Bi-District game. Game time is 8 p.m.

The powerful Rockport offense has the edge on Yoakum in the points scored column; however, the Bulldogs have only yielded 13 points in district play. The Bulldogs run the same defense as that of the Pirates so it will be interesting to see how the teams fare against their own defense.

The Pirates have stepped over some of the hurdles that have been too high in the past, but never before has so much been at stake. With the winner of the game goes the possible advancement to the State Title; for the loser only memories of what could have been.

Rockport has evened its record against all but one of the teams that beat them a year ago, but the one they haven't squared yet is Yoakum, a 1968 winner by a 28-25 score. The Pirates will try to keep the ball rolling over those who beat them last year.

The Yoakum Bulldogs come into the contest with seven straight victories. The Bulldog attack features the pass. (Continued on Page 8)

Firemen Battle Brush Fire

Members of the Rockport Volunteer Fire Department successfully battled a brush fire Wednesday afternoon and night that spread over an estimated 100 acres west of the city in the vicinity of Club Lake.

One member of the department said 18 fire fighters using three fire trucks, a water truck and other equipment starting battling the blaze about 1:30 p.m. and were still there nine hours later before getting the fire under control.

At one time intense blazes were cracking through the underbrush in two places, on both the northwest and south sides of the lake. A Fire Department spokesman said the fire apparently was accidentally started by welders working on a pipeline.

Vietnam Veteran Speaks to Rotarians

A pilot's-eye view of the war behind the combat lines in Vietnam was given by Chief Warrant Officer Onofre Orosco, Jr., at the luncheon meeting of the Rotary Club at Corky's restaurant Wednesday.

Warrant Officer Orosco, who was born in Refugio, recently returned from Vietnam where he piloted an Army helicopter, serving combat installations, many of them surrounded by enemy forces.

He declared that the helicopter was the most important single piece of equipment used in the war, adding that the disabled aircraft recovered by helicopters alone save the government far more than the cost of the helicopters. He also said that necessities, comforts and even luxuries such as hot meals supplied battle zone personnel by helicopters made them an invaluable morale factor.

Warrant Officer Orosco pointed out that men wounded in action were only minutes away from a fully-staffed hospital for the first time in military history. He explained that most battle casualties reached a hospital in not more than 30 minutes.

CITY HALL CLOSING

The City Hall will be closed Thursday and Friday, Nov. 27 and 28, for the Thanksgiving holidays. There will be no garbage pickup on Thursday.

Comprehensive Plan For Water, Sewers

Details of the Utilities Plan

Primary growth areas during the planning period are estimated to extend from Live Oak Point south including all of the area of Cove Harbor; to the west development should become concentrated two and one-half miles inland to the area surrounding the new subdivisions on West Market Street, including: Oak Terrace, West Terrace, and Peninsula Oaks Subdivisions. The north urban areas should become fairly intensively developed all the way to the proposed Route 35. Within this area, water and sewer services are estimated to be required during the planning period. The plan proposes to gradually expand the water system in accordance with the overall plan prepared for Aransas County.

To the northwest, urban development should become concentrated in the area between the coastline and the proposed realignment of State Route 35. Water and sewer facilities should be established in this area during the planning period. A series of loop mains generally following the location of proposed major streets recommended. Toward the end of the planning period, after major drainage improvements to the inland areas, urbanization would be to extend far inland to the urban areas identified in the plan. Major water mains required as a part of the water system should generally follow the alignment of proposed major streets. Sanitary sewage facilities and the water system expansion into these areas will require detailed engineering study. Additional sewage treatment plants will likely be required, one possibly north of Fulton, and one to the south near Cove Harbor.

Major drainage facilities proposed in the plan would include the extension of large drainageways into the interior portion of the future urban areas. These drainageways would permit the construction of major waterfront development projects identified as part of the land use plan. The construction of these drainage facilities should be accomplished so that they

Seventeen ladies played in a "birthday" tournament at Live Oak Country Club Tuesday. All holes with numbers in each member's birthday were thrown out.

The results were: First flight, Mrs. Dale Hagy, low net; Mrs. J. T. Stellman, second low net; and Mrs. O. D. McCoy, low putts; second flight, Mrs. Mabel Spears and Mrs. W. E. Tuttle, tied for low net; and Mrs. Aubrey Wrinkle, low putts.

Motor Vehicle Inspections Lag

Col. Wilson E. Speir, director of the Texas Department of Public Safety, says that motor vehicle inspections in Texas are running almost 30 per cent behind the inspection rate at this time last year.

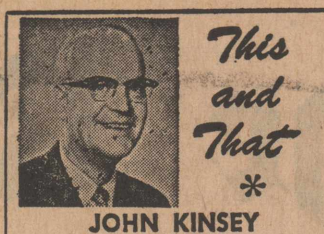

"Unless the inspection rate increases, there are going to be some awfully long lines at inspection stations prior to the April 15 deadline," Speir said.

During the year which ended Aug. 31, some 6.3 million vehicles were inspected in Texas. Since Sept. 1, only 538,000 have received the required inspection.

The State Motor Vehicle Inspection Act was amended by the Legislature to provide that inspection stickers issued Sept. 1 will expire 12 months from the date of issue. However, the law requires that all vehicles display a new sticker before April 15, 1970.

Speir noted that the new stickers are being placed on the driver's side of the windshield and contain a number tab showing the month of expiration. The old stickers are on the passenger or right-hand side and have no number tab.

"The inspection program is intended to discover vehicle defects which may lead to an accident. We urge all Texans to have their vehicles inspected soon to make sure they are safe for winter driving," Speir said.

JOHN KINSEY

When serving as a reporter on the Chicago Daily News I occasionally was assigned to interview a movie star. Generally it was a fairly interesting experience but some times it was a bit embarrassing.

One time the city editor yelled, "Crab a cab and hurry down to the Northwestern station and interview some guy named Cornel Wilde who's supposed to be a hot shot from Broadway on his way to fame and fortune in Hollywood."

I hurried to the railroad station a couple of reporters and photographers from other newspapers waiting for the arrival of the train carrying the great man.

I had never heard of Wilde, nor had the other reporters. When the train arrived a lot of people got off and then we saw a procession that left no doubt that a super-duper, honest-gosh star was in our midst.

Heading the procession was a good-looking, slender young man accompanied by a beautiful blonde. The man wore his topcoat like a cape and the lady was swathed in mink. Behind them came about six porters, one leading two greyhounds on leashes, and the rest carrying suitcases and hat boxes.

Wilde spotted the reporters (by our slouch hats and unpressed suits, I guess) and greeted us with a big smile and a "Hello, fellows." We all said "How you doing?" or something. Then there was silence. None of the reporters wanted to admit having never heard of Wilde.

Not wanting to stand there all day, I finally said, "Mr. Wilde, we are not drama critics and we don't know very much about your background and your plans for the future." Wilde, being a smart cookie and naturally wanting some good publicity in the Chicago papers, said, "Well frankly I'm not surprised since I've spent most of my professional life on Broadway in musical comedies and plays."

He then proceeded to give

us a blow-by-blow account of his career, up to that time, and then tell us about some of the movies he was scheduled to make in Hollywood.

He really was a regular guy and he and his wife and the greyhounds looked like Hollywood's conception of movie stars.

Rockport Fire Department Meets

The Rockport Volunteer Fire Department met Nov. 14. Charles H. Smith, president, called the meeting to order. Twenty men answered roll call.

John Ray, Jr., chairman of the maintenance committee, reported that a starter had been located for the utility light plant and was being installed. Also, that a filler valve is to be replaced on No. 9 truck.

There was discussion of having a stronger base station radio and Jimmy Little was appointed chairman of a committee to investigate the possibility of purchasing three more sets.

Discussion also was held regarding the meeting of the South Central District Firemen's Association which will be held here Jan. 18. A committee was named to plan the program. Refreshments of cakes and cookies were supplied by Mrs. J. C. Gurley and Mrs. Bill Gray.

The Fire Department issued a warning against turning in false alarms. First of all, it is a law violation and subject to penalty. Second, a false alarm brings out 20 men or more — volunteers who are working men.

Bill Gray gave the following suggestions about turning in a legitimate fire alarm: Be sure to give the correct address. Also, what kind of fire it is as it is necessary to send more equipment to a house

United Fund Benefits USO

Another agency that is aided by our United Fund campaign is the United Service Organizations (USO). Here is some information about USO:

The United Service Organizations (USO) bookers of free entertainment for servicemen throughout the world, will send a record number of college groups to perform overseas during the 1969-70 academic year. In a booklet just published, thirty three college and university units are listed for tours ranging from four to eight weeks outside of the U. S.

The "Cheer from the Campus" tours are part of the overall USO shows program, of which the annual Bob Hope Christmas tour is probably the best known. This year's selection of college entertainment brings the total number of USO-sponsored college units to 254 since the program was formally established in 1958.

The 1969-70 college tours began in September with the departure of a group of students from Park College, Kansas City, Mo., for a 28-day tour of Greenland, New Foundland, Iceland and Baffin Island. They will be followed by a group from Sul Ross State College, Alpine, Tex., which will tour for eight weeks throughout the Pacific, including Japan, Korea and several Pacific Islands.

Although most of the 134 colleges who have volunteered for the program have made one or two tours, Oklahoma City University holds the record with eight USO tours since 1962. The shows, usually organized by the drama and music departments, represent a complete cross-section of the nation's campuses, from Yale, Cornell and Purdue in the East, to the University of California, University of Oregon and the University of

Hawaii in the West.

A primary factor in the success of the program is the age similarities between the performers and their military audience and the rapport that was established between the two groups during performance and, importantly, during mixed gatherings afterwards.

As one observer has reported recently, (Mr. Benjamin Sternberg, Executive Director, Armed Forces and Veterans Services, National Jewish Welfare Board), "USO Shows had been a program seen through the eyes of others. I caught the University of Texas' 'Here's US' show on an air base in Athens. I spoke with the young students and the military youth afterwards. There was a bond between them, a common understanding of their world and of each other."

"We know the GIs loved it, but I got a big thrill listening to the students, breathless and in all candor, telling me how much this meant to them, to give to these servicemen so far from home, and to realize, finally, at this stage of the trip, that they were just not entertainers belting out songs and skits, but really showing they were representing all Americans back home. How else could they perform with such vim, verve, and vitality, as they do, two, three or four shows a day!"

Question and Answer Column

This column of questions and answers on Federal tax matters is provided by the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q—I pay the medical bills for my aunt even though she is not my dependent. Does that mean I won't be able to deduct these costs?

A—As a general rule, only medical expenses for a dependent may be deducted along with the taxpayer's other medical costs. However, if you could have claimed your aunt, except for the fact that she had \$600 or more income or filed a joint return with her spouse, then you may add the medical expenses you pay for her to your own expense.

Q—I'm not sure I understood the notice I got from the service center. What should I do?

A—Call your local IRS office, they should be able to help you. When you call have the notice in front of you so you can identify it for the

person helping you.

Q—Why can't a check made out to cash be used to support a charitable contribution?

A—To substantiate a deductible expense your records must indicate, among other things, the purpose of the expense, to whom paid, as well as the amount.

A check made out to cash does not indicate the nature of the expense and must be supported by other records, such as receipts.

A check made out to a specific organization, a charity for example, may well be sufficient to establish that a deductible contribution has been made.

Q—Under the 1968 gun law, if I take my own guns with me for a hunting trip to Canada, will I have any problem bringing them back in?

A—No, there should be no problem as long as you can show Customs that you took them out of the country. To do this, a bill of sale or other evidence of purchase or ownership will be helpful.

If you wish you may also use a procedure the Bureau of Customs has established for persons taking cameras and other valuable out of the country. Then there will be a record of your ownership when you return.

Q—The buyer of my summer home wants to pay me over a period of years. He says I can save on my Federal taxes that way. Is he right?

A—When certain conditions are met, profits on a sale may be reported over the period in which the collections are received. To qualify, collections during the year of the sale must not exceed 30 per cent of the selling price.

Depending on your tax bracket and other income, the option of reporting your profits over a period of years may provide a tax advantage.

Q—How can I tell if I will have any tax to pay when I sell some stock I inherited?

A—You use the fair market value at the time of the de-

cedent's death as the basis of the stock in figuring the gain or loss.

Q—When can my husband take a withholding exemption at his job for our baby which is due next month?

A—As soon as the child is born. Also the full \$600 exemption for a dependent may be taken on your tax return for a child born any time during the year. Your husband can take the additional exemption by filing a new Form W-4 "Employee's Withholding Exemption Certificate" with his employer.

Q—My 15-year old son wants to go hunting with me. Is there any Federal law that would stop from taking him along?

A—No, you son may go hunting with you without violating any Federal firearms law. Although the Gun Control Act of 1968 prevents your son from buying a rifle, shotgun or ammunition for himself until he is 18, you may supply him with what he needs.

Q—When can I start deducting the pledge I made to my church's building fund drive?

A—Deductions for contributions to qualified organizations can only be taken for the tax year they are actually paid. If you pay all or part of your pledge this year, then you must take the deduction on your 1969 return for the amount actually paid.

To take the deduction on your 1970 return you should postpone your payments until 1970. For additional details, ask any IRS office for a free copy of publication 483, "Charitable Contribution Deductions."

Q—Is a fellow with a pension from private industry taxed the same way as a person with a government pension?

A—Except for the retirement income credit, both a government and a private pension are subject to the same income tax provisions.

To claim the retirement income credit, a person with a private pension must be 65 years of age or over. This age requirement does not apply to Federal, state or local civil service retirees.

Junior Varsity Wins, Junior High Loses

By Bob Crawford

Only a few brave souls were seen at Pirate Stadium last Friday evening where the teams representing the Junior High and the Pirate Junior Varsity played hosts to the teams from Yoakum. Although the bitter cold kept many fans away, the two games might well have been a preview for the coming contest in Victoria this Friday night between the varsities of Rockport-Fulton and Yoakum.

The Bucs of Rockport-Fulton Junior High took it on the chin in the opening game by the score of 30-8. The game was marked with long runs and called back touchdowns. At one time the Bucs had the chance to go into the lead, but a penalty nullified the score. At another point the Bucs rallied to tie the score at 8-8; George Green driving over from one. On the extra point try, the Bucs made it successful with Joe Green passing to Royce Court for the two points.

All evening the Bucs had trouble stopping the elusive running of Jimmy Giles, younger brother of Yoakum varsity players Clarence Giles and Lorenzo Giles. Jimmy ran for three touchdowns and added a two point touchdown. The loss of this game brought the season's record of the Bucs four wins and five losses.

The Pirate JV recorded their seventh win of the season

against one loss and one tie. In the second game the Pirate JV came back for a Pirate win, 20-6. They rode the passing of quarterback Craig Thornton to their first score as Thornton hit halfback Mark Wright with a pass and Wright turned the pass into a 65-yard score.

Fullback Paul Mauer, leading Pirate runners with 80 yards in 21 carries, hit the Yoakum line of two touchdowns. Mauer plugged over from the two for the second Pirate score. This TD was followed by a two point play on a pass from Thornton to Flip Shaver. Mauer also scored in the fourth quarter.

The fine defensive unit of the Pirate JV arose to stop the Bulldogs on many occasions. Robert Schendel and Nelson Barre along with their teammates harassed the Yoakum team throughout the evening.

GOLDEN AGE CLUB

The Golden Age Club will meet at 2 p.m. Tuesday, Nov. 25 in the Fellowship Hall at First United Methodist Church. Games will be played, refreshments served and fellowship enjoyed.

Mignon Merritt, Margaret Ferguson and Jane Eller attended an initiation service at the home of Mary Bamberger in Sinton during which three new members were welcomed into Gamma Psi chapter of Delta Kappa Gamma Society.

of quarterbacks Marcellous Minor and Pat McMasters and a host of running backs to supply the ground game.

Rockport will bring its great running game into the contest after a tough Calallen defense held them to their season low for yards gained. Halfbacks Ruord Huff and Robert Brooks will try to spring loose through the holes provided by the Pirate line. Glenn Davis will no doubt be called upon to keep the Yoakum defense honest with his bounding up the middle.

The Pirate defense will be striving to prove that they have given up more points on defense only because they have finished a tougher district race.

History proves that no matter what, on a given night any team can beat the other. The Pirates are going to try to take that night away from Yoakum. Regardless of the statistics on each team, the game promises to be a potential cliff-hanger if both teams are up to their best form.

The midnight toll will sound the tones of victory for one of the teams, but only a terrible awakening after being a District Champion. Which team will be the Cinderella team and all things coming to an end at midnight, or the Sleeping Beauty team chance for a happy, longer life?

than 25 minutes, and that a trip of such as 45 minutes from battlefield to hospital was unusual. He added that the use of helicopters made it possible to operate with fewer troops than otherwise would be necessary.

Following his talk Warrant Officer Orosco showed a slide film depicting helicopter supply operations in Vietnam, as well as typical scenes in that country. Dr. J. Martin Shaw was in charge of the program.

History of Masonic Lodge

Since the organization of Rockport Masonic Lodge No. 223 in June 1870, there have been 65 men who served as Worshipful Master of the chartered lodge. The first Master was James M. Doughty who served two terms.

During the first year of operation, there was a visitor from Blackpoint Lodge No. 250 in St. Mary's (Bayside) who was to play an important part in the development of the local lodge and of Rockport.

As Charles F. Bailey was an officer in Blackpoint Lodge No. 250, he could not transfer his membership to Rockport lodge until after his term expired. When he finished his term, Charles F. Bailey did transfer his membership to Rockport Lodge and became the second Master of Rockport lodge in 1872 and again served as Master in 1890, 1891, 1892 and 1893.

During the intervening years he served in some capacity as an officer of the lodge. Bailey was a rancher and publisher by trade, owning the Blackpoint Vaquero and the Rockport Transcript.

He was a strong advocate of making good men better and teachings of freemasonry was his main forte. Over the past one hundred years the Rockport lodge has been in service there has been the name of the Bailey family on its roster. He also was a captain of the 8th Texas Infantry Battalion of the Confederacy.

would provide navigation for pleasure craft into the interior portions of the urban area. Since the navigation of these areas would be included as a part of the plan, the Aransas County Navigation District should be included as a part of the plan, the Aransas County Navigation District should play a major role in the planning and construction of these facilities.

This would require a coordinated planning and construction program involving the development of the drainage ways and cooperative action with property owners insuring the best possible development of these inland areas. The extension of water lines and sewer lines would also have to be coordinated with these proposed drainage improvements. The end result would be an extraordinary complex of interior waterways, holding an enormous potential for water recreation in sheltered areas. These drainage ways would nearly double the available water frontage in the planning area.

Since these improvements will require the expenditure of large sums of money, full advantage should be taken of the available assistance programs provided by the Federal Government. These programs provide funds for detailed planning and engineering and also provide for substantial grants which may be used to provide these facilities in advance of actual development. The scheduling of these projects and coordination of the various systems can play a major role in guiding the growth and development of the Rockport area.

Girl Scout News Troop 469

At our Nov. 12 meeting we started with the flag ceremony. Then we worked on a toy for the toy maker badge. Then we had a Court of Honor which included the leader, Mrs. Rice, the four patrol leaders, Jean Marie Hayes, Molly Hynes, Annette Ledbetter and Vicky Rice, sitting in for Susan Stafford, who was absent, and me, Lisa Casterline, Troop Scribe. After that we closed the meeting.

Due to illness I did not report the Court of Awards which was held Oct. 29. Three new leaders and seven new girls were given their Girl Scout pins. Seventy-four various badges were awarded to 25 girls in an impressive candle-light ceremony. This is the largest number of badges ever awarded any group of Girl Scouts in Rockport. Most of the badges were started last summer at Camp Green Hill, our local day camp, and out summer activities. Each girl acted as hostess to our mothers to complete the hospitality badge.

Mr. and Mrs. Charles LeBlanc and daughter Michelle of Houston spent the weekend with his parents, Mr. and Mrs. Leonard LeBlanc. They left for Barranquilla, Columbia, South America Tuesday where Charles has been transferred by the Zapata Oil Co. They will be in South America for three years.

Open Letter To Rockport

Dear People of Rockport:

Man's dream of the moon came true, just as our dream did a week ago last Friday night. This date will always stay with us as long as we live. Yes, it was that night when the Rockport-Fulton High School Fighting Pirates captured the title of 28-AA District Champs, giving the community a very happy Homecoming.

This winning team consisted of 31 young men who had the desire in their hearts, and the ability to stop at nothing in order to uphold the student body's new motto, "Pirates Are No. 1."

We are now in orbit as number one, but let us soon come back down to plant our feet in order to advance to higher goals.

The 31 Fighting Pirates will be shooting for these higher goals as the days go by. Proud to be a Pirate, a member of RF, and a citizen of Rockport, you can bet that they will be fighting with all their might to conquer a new title. This is where you, the Pirate fans, come in. We ask for your strongest support and your enthusiasm to launch the Pirate team to these higher goals. We must help and stand behind them so they may have the power to conquer all.

I have never seen in all my life as much backing given to the Pirates as I did for the Calallen game. If we could only create a little more spirit and backing I believe that in this year's competition the Pirate team of 1969 will come out of this season better than number one.

It was ten years ago when the Pirates held the District title. This is a new year, let's break the school's history records by achieving the highest goals possible. In order to keep a number one team we must have a number one community. BACK the PIRATES.

False Distress Broadcast Are Federal Violation

Rear Admiral Ross P. Bulard, commander, Eighth Coast Guard District, announced recently that any person or persons involved in the issuing of a false distress broadcast, such as occurred earlier this month in the Brownsville, Texas area, is in violation of federal law and faces a maximum penalty of \$10,000 fine or one year in federal prison.

The announcement followed careful analysis of a case involving Coast Guard ships and aircraft from as far away as North Carolina, utilized in a search for a non-existent fishing vessel, the Polaris II.

In reviewing the case it was pointed out that the initial distress call was heard by two vessels, the Charles and Kiki at 6:10 p.m., Saturday, Oct. 11. At that time the person or persons responsible for the call stated that the Polaris II was sinking and that all hands were abandoning ship in a position nine hours south of Port Isabel, Texas in 18 fathoms of water.

The admiral pointed out that the 210 foot Coast Guard Cutter Durable and four Coast Guard aircraft were immediately ordered to proceed and assist the Polaris II. Throughout that Saturday night and again through Sunday the cutter and various aircraft pressed the search.

On Sunday a Coast Guard C-130 aircraft flew from Elizabeth City North Carolina to join the search, and by Monday a sixth aircraft was additionally committed.

Bateman Shows Slides of Europe

The sixth grade geography classes at Rockport Elementary School, who are studying the continent of Europe, enjoyed a program of slides given by Leon Bateman last week.

Bateman's slides of Europe were taken during his European tour of duty with the 11th Armored Cavalry in 1956-58. He described the scenes he had photographed at many historic and well known spots in Germany, Italy, Austria, France, and Switzerland while he was on tour with his rifle team.

Bateman's description and explanation made the study of European countries much more significant and real to all the geography students.

CHARLES DAVIS DIED

Funeral services were held in Danville, Ill., for Charles Theodore Davis, 49, who died at his home in Fulton Nov. 14 after apparently suffering a heart attack. Local arrangements were directed by Marshall Funeral Home.

Born in Danville, Ill., he had lived in Fulton since February, 1969, moving here from Danville. He was a retired electrician and a veteran of World War II.

Davis is survived by his wife, Jo Ann Louise; two sons, Charles T. Davis, II of Galveston and David Allan Davis of Danville; two daughters, Mrs. Nancy Razmus and Mrs. Linda Howard, both of Danville; two brothers, Jimmy Davis of Hanna City, Ill., and Oliver Davis of Danville; one sister, Mrs. Emma Green of Danville; and four grandchildren.

A. V. YOUNGLOVE DIES

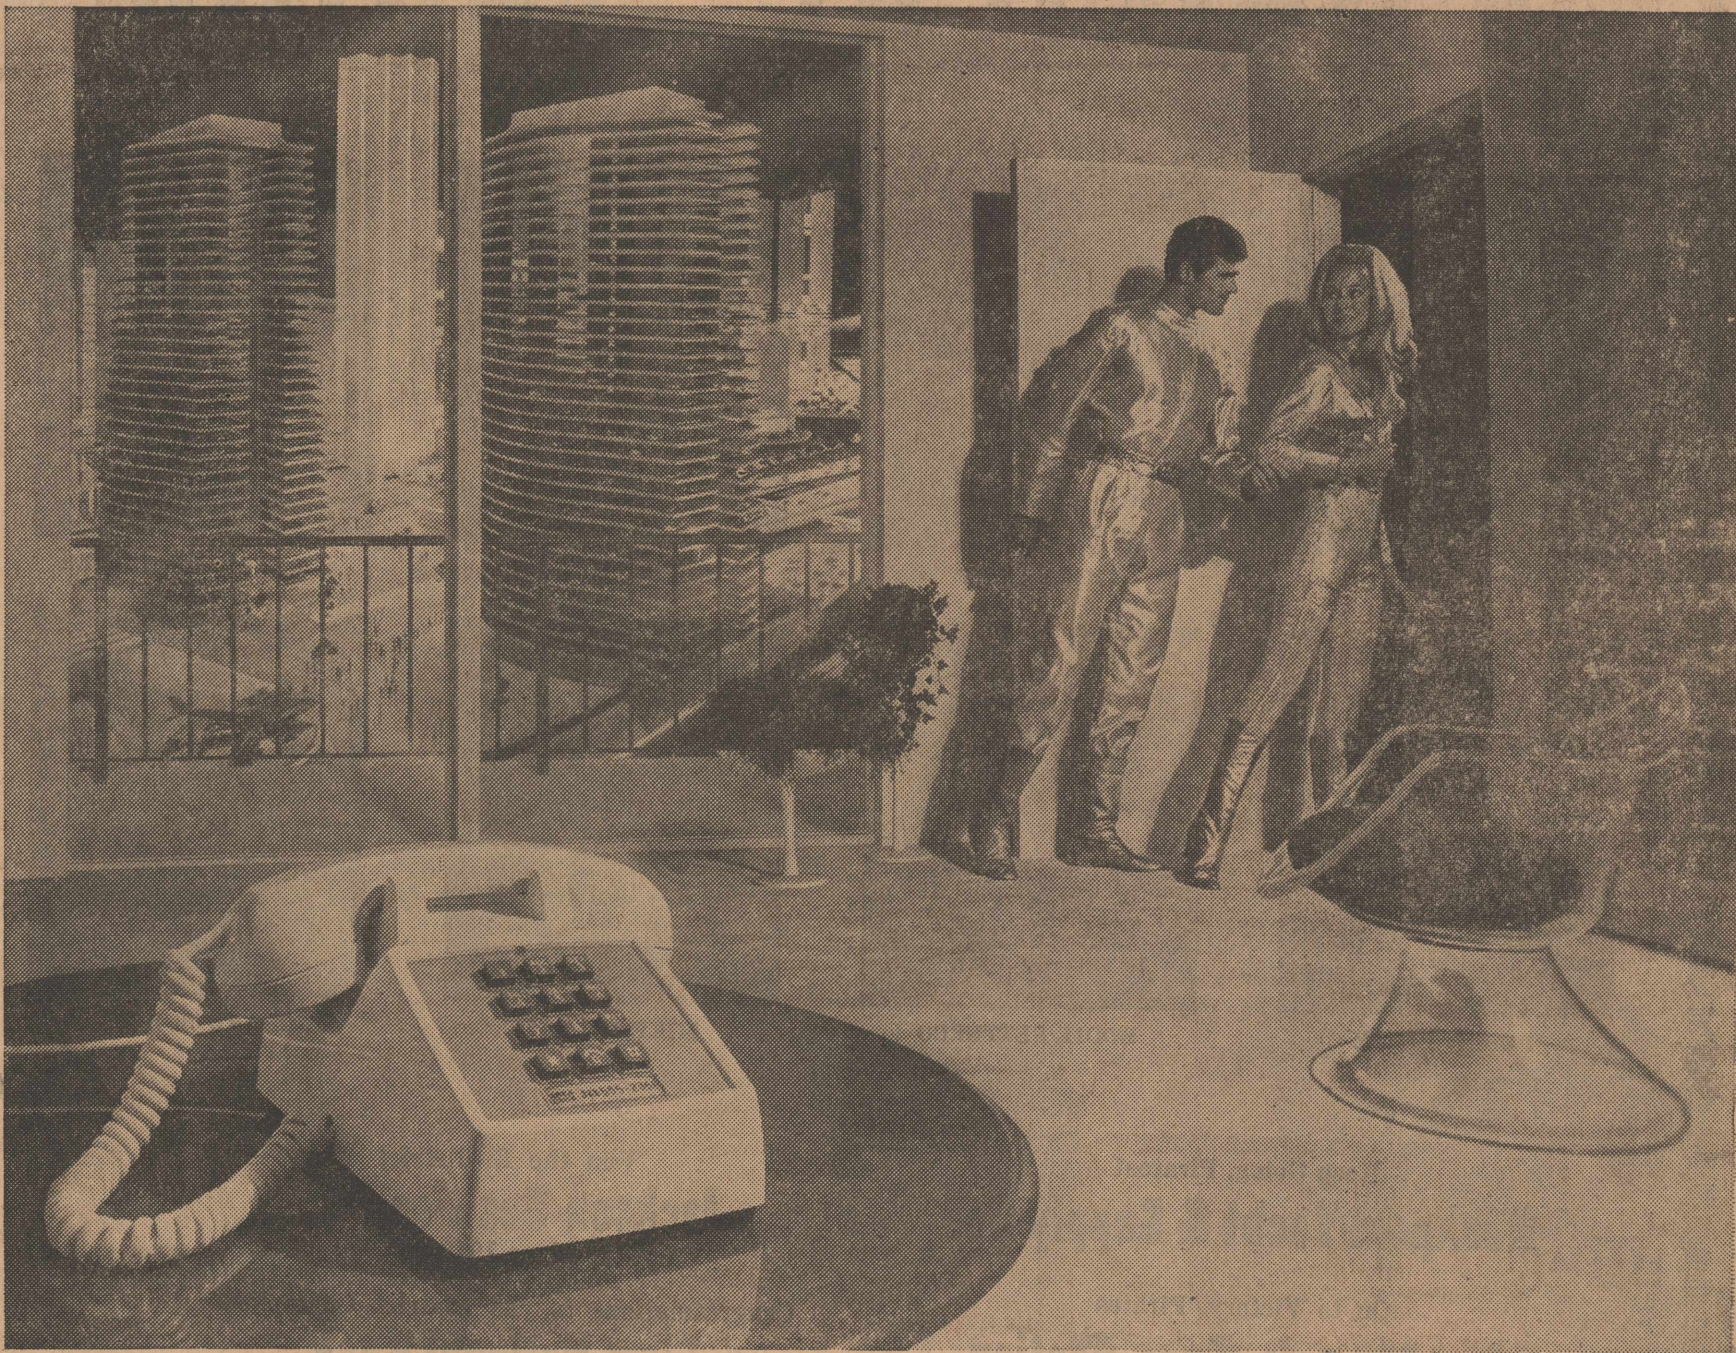

Aransas Pass—Funeral services were held Nov. 15 in the J. E. Stevens Funeral Home in Coleman for Alton Vernon Younglove, 55, who died Nov. 13 in a local hospital after a short illness. Burial was in Burkett Cemetery in Burkett, under direction of Marshall Funeral Home.

Born in Calahan County, he had been a local resident 22 years. He was a member of the Second Baptist Church here.

Surviving are his wife, Thelma; one son, Billy Wayne Younglove of Irvin; four daughters, Mrs. Patricia Alexander of Rockport, Mrs. Linda Davis of Freeport, Mrs. Peggy Baker of Ingleside and Miss Janet Younglove of Aransas Pass; one brother, Lester W. Younglove of Twenty-nine Palms, Calif.; five sisters, Mrs. Joy Smith of Coleman, Mrs. Dessie Bennett of Cross Plains, Mrs. Bernice Garrison of Houston, Mrs. Vivian Pond of New Braunfels and Mrs. Ava Trent of Denver City, and five grandchildren.

CHARLES MORRIS DIES

Funeral services were held Nov. 14 at First Presbyterian Church in Corpus Christi for Charles E. Morris, 41, of Corpus Christi, who died Nov. 12. He was found dead in his car on Goose Island. Justice of the Peace J. Paul Rogers ruled suicide and said a hose had been connected to the car's exhaust and extended through a rear window. Morris apparently died from carbon monoxide poisoning.

The Potters are expecting a very important phone call.

In the years ahead, you'll be able to preset your telephone to transfer calls to the number where you're visiting.

Electronic switching—using a sophisticated computer system—will make this and many other new services possible.

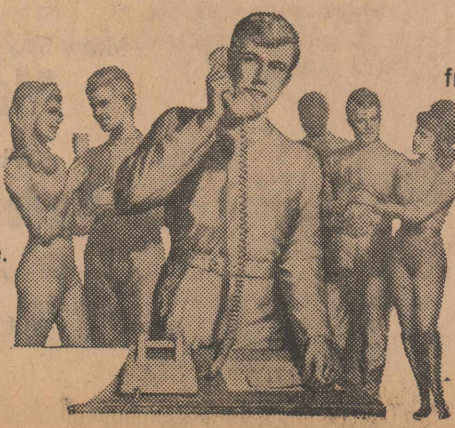

For example, your phone will have a memory. By dialing just two digits of a

frequently called number, you'll activate that memory, then the phone will dial the remaining digits automatically. Electronic switching is fact, not fiction.

It's part of our program to plan today for tomorrow's communications needs.

We may be the only phone company in town, but we try not to act like it.
