

REPORT REVOLUTION AGAINST THE SOVIET REGIME IN RUSSIA

By Associated Press. LONDON, April 2.—Reports that a revolution against the soviet government has broken out in Petrograd are supported by an official Russian wireless dispatch received here which says that there is a serious strike of railway men in the Petrograd region. The strike, it is said, was prompted by the Mensheviks and the social revolutionaries.

"There is no transportation and consequently there is no bread in Petrograd. The mensheviks and the social revolutionaries are calling out the railway men and railway communication has been stopped."

"The social revolutionaries are the agents of Denekine, Kolchak and the Allied imperialists."

DAUGHTERS OF THE CONFEDERACY MEET IN LOUISVILLE TODAY

By Associated Press. LOUISVILLE, KY., April 2.—Near 500 delegates were registered to the first formal session of the United Daughters of the Confederacy, which began its 25th annual convention here today. At a "welcoming evening" last night Governor A. O. Stanley, the principal speaker, pleaded for a "rejuvenation of old fashioned state rights," which he declared was "the thing to save America from central government, state ownership of all our activities, and bolshevism."

Governor Stanley spoke "as the son of a rebel brigadier" in a flag-draped hall where the "Stars and Bars" of the Confederacy entwined with the Stars and Stripes and the flags of America. Many were hung about pictures of Confederate army leaders.

"Plans to turn the activities of the organization from the pursuits of war to the paths of peace today developed a proposal to discontinue gathering funds for the support of a Red Cross hospital at Neuilly, France, and devote the money to establishing scholarships for wounded men in all branches of the service. It will be known as the 'Hero fund for our reunited country' and is expected to be maintained for four years from various state institutions."

Today's program included the report of the president, Miss Mary B. Poppenheim, of Charleston, S. C., the annual memorial for the daughters and important men of the Confederacy who have died during the year and reports and addresses.

PLAN TO ADOPT A UNIFORM METHOD OF COTTON QUOTATIONS

By Associated Press. MEMPHIS, TENN., April 2.—Announcement was made today that a conference of representatives of cotton exchanges in the southern spot cotton markets which fix "differences" in the future market are based, will be held here April 14 to adopt a more uniform method of making quotations. Under the present irregular future trading, differences on the various grades of the staple are determined on quotations reported by designated southern cotton markets and traders have urged that more uniformity in methods is necessary. The meeting to be held here was arranged after consultation with Charles J. Brand, chief of the bureau of markets of the department of agriculture.

Corn Advances 6c At Chicago Today

By Associated Press. Chicago, April 2.—Corn made an extraordinary jump in price today, amounting in some cases to six cents a bushel. Official announcement that wheat scarcity was so acute that the export of wheat to neutral countries had been stopped, was chiefly responsible. Victory for the liquor interests in the Chicago municipal election was also an important factor. The steepest advance was corn for September delivery, a rise to \$1.24 1/2 against \$1.22 1/2 at the finish Monday.

Traders took the view that corn products for export would be much more in demand in place of wheat and flour. It was a popular opinion also that rye and barley would be largely bought on the chance that the result of the Chicago election would be interpreted as a referendum on prohibition and that with a peace treaty signed before July 1 prohibition would not be permitted to take effect.

The official announcement was made at New York last night by Julius Barnes, head of the grain division of the food administration, according to reports received here. Mr. Barnes was quoted as saying:

"We have advised the neutral governments that America will be unable to furnish any more wheat of wheat flour to them; that they are free to buy other grains in any market, but must seek wheat in other markets."

Mr. Barnes, it was reported, said that beginning next week the grain administration will buy for shipment to liberated countries which need relief, rye flour, corn flour and barley flour and will thereby reduce its current purchases of wheat flour. He said further that if these measures failed to keep the price of wheat flour on a reasonable level, import restrictions would be relaxed to permit the United States to import from Argentina, Australia and Canada.

During the forenoon the price of rye jumped seven cents and barley 3 1/4 on the board of trade.

HIGH MEXICAN SAYS JAPANESE MADE NO DEAL

Chief of Staff Department of Agriculture Discredits Recent Report.

GRANT IS PROHIBITED

Declares Constitution of Mexico Prohibits the Sale of National Lands.

By Associated Press. MEXICO CITY, Tuesday, April 1.—Salvador Gomez, chief of staff of the department of agriculture and development, officially denied tonight reports that Japanese subjects have bought lands in Lower California. His statement was issued on behalf of the department in the absence of Pastor Rouaix, the secretary of commerce, labor and agriculture. It reads as follows:

"I can say that up to present there has been no sale of lands in Lower California to Japanese subjects; neither has the department of development authorized anything giving foreigners rights to large extensions of land in that section."

"Moreover since our constitution prohibits the sale of national lands this department, in accord with President Carranza, is giving special attention to all matters referring to Lower California. Concessions of territory in that part of the republic which have been authorized have been for a reduced number of hectares and to residence various small villages of that territory, following the policy of creating small land holdings with the object of favoring the natives."

Baron Fujiwara Otori, Japanese minister to Mexico, tonight issued the following statement regarding the discussion over alleged attempts by Japanese interests to purchase lands in Lower California:

"A tempest in a teapot has been created and I think the importance the American press has given this question is due to some political maneuver caused by the nearness of the next presidential campaign. It may be declared that there are no concessions in Lower California that favor the interests of any country. Only near the town of Mexicali is there a small Japanese colony that cultivates rice, but this is absolutely lacking in importance."

The only paying exploitation that can be made in that part of Mexico is for the development of mineral deposits, and this is beyond the modest resources of the only Japanese colony located in that region. I am sure that if the American department of state has asked its embassy here for information, the embassy must declare that there are no concessions in Lower California favoring Japanese interests."

WOMAN'S MISSIONARY COUNCIL IN SESSION

By Associated Press. MEMPHIS, TENN., April 2.—Community work during the war is shown by a board of trade report which says that in 1914, there were 2,276,000 women employed, and since that time 1,532,000 offered their services, mostly replacing men. The percentage of women workers in industries in April, 1918, was 37.

CHATTANOOGA RIVER POWER STATION BURNS

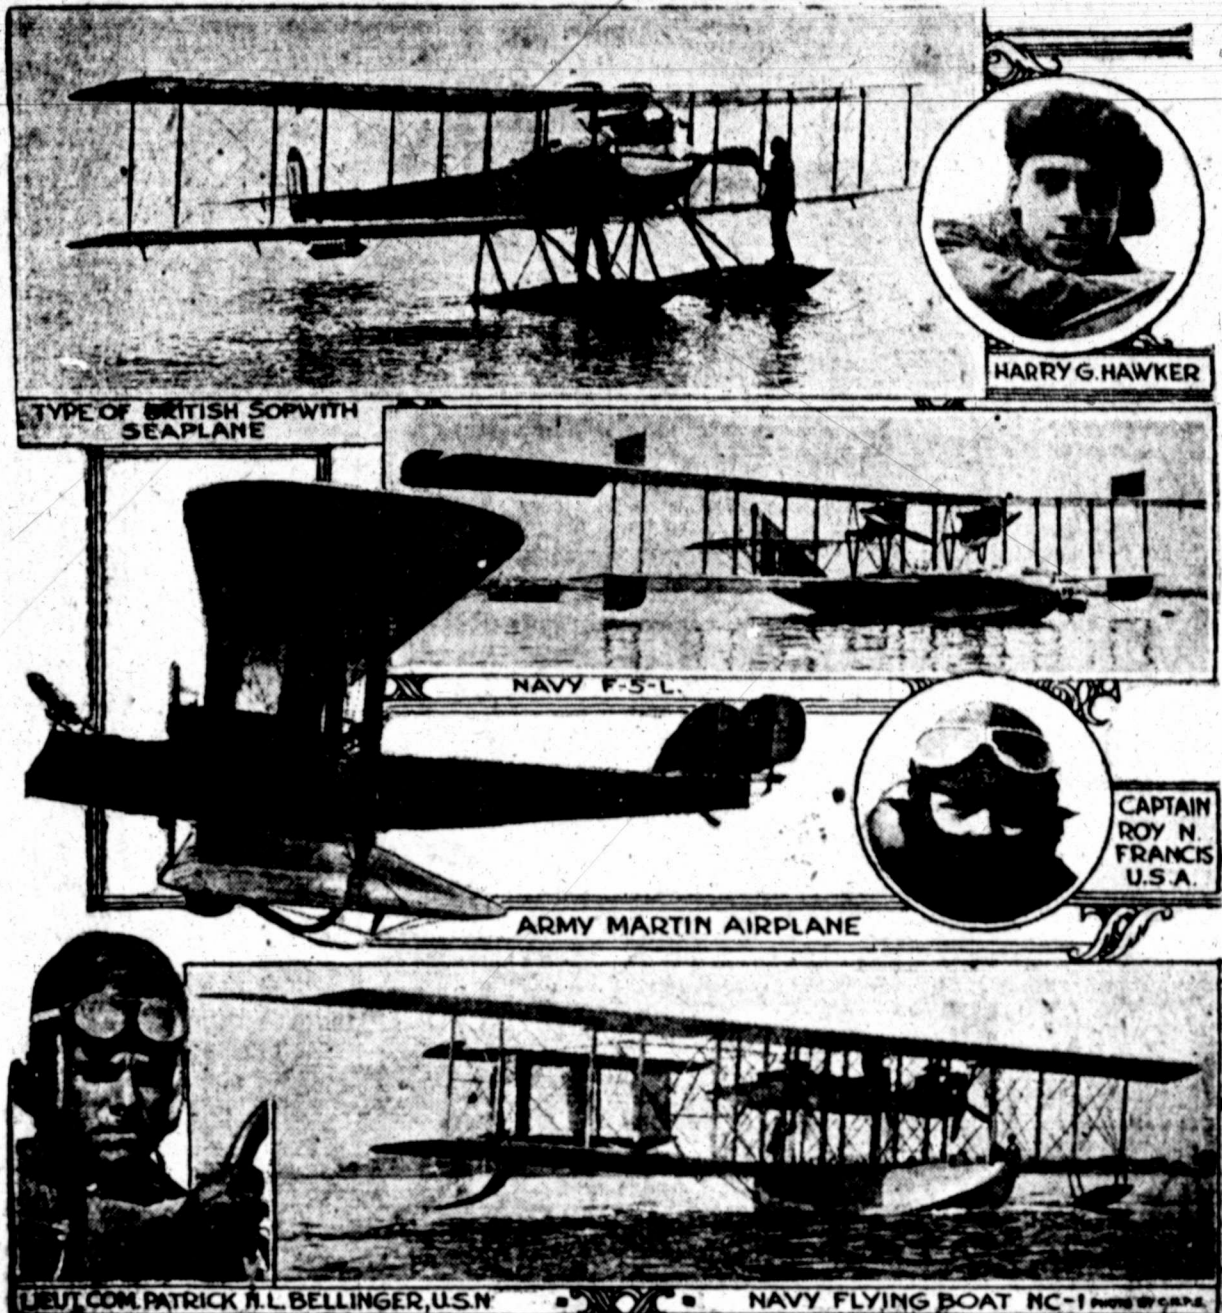

By Associated Press. CHATTANOOGA, TENN., April 2.—The Chattanooga-Tennessee River power station and several adjoining buildings were destroyed by fire here early today. The loss is estimated at \$100,000.

CAPTAIN PROCTOR IS WITNESS TODAY IN CHAMBERLAIN TRIAL

By Associated Press. LONDON, April 2.—Captain Andre M. Proctor, U. S. N., was the only witness this morning in the court martial of Captain Edmund G. Chamberlain of San Antonio, Texas, in connection with his reported air exploits on the British front last summer. Captain Proctor identified letters in Captain Chamberlain's handwriting.

The prosecution planned to put on the stand this afternoon a hand-written expert from Scotland Yard in an attempt to show that the alleged reports of Captain Chamberlain's feats were written by the captain himself.

FOUR NATIONS TO RACE ACROSS ATLANTIC

With the high strong airplanes of at least four countries straining at the leash impatient to be off, the accomplishment of the long contemplated transatlantic flight within a very short time seems inevitable. Great Britain, France, the United States and even isolated Germany are working at fever heat on the finishing touches of their individual and most secretly secret programmes for the achievement in less than the span of one full day of a flight that men have dreamed of for hundreds of years. Which of the four nations will win? Predictions, with no concrete information to base them upon, are futile. It is not at all certain that while these four giants are jockeying up to the line a "dark horse" may not burst upon the field suddenly and take the honors.

HUMBERT AND HIS ASSOCIATES NOW ON TRIAL IN PARIS

By Associated Press. PARIS, Tuesday, April 1.—Only a few persons were present in the court room today for the continued reading of the indictment against Senator Charles Humbert and his alleged accomplices, who are on trial charged with having carried out commerce with the enemy.

That part of the indictment referred to M. Humbert ended as follows: "The relations of Humbert with Pierre Lenoir and William DeSouche, on the one hand, and with Bolo Pasha on the other hand, and his acceptance of millions of francs from these agents of Germany and his partnership with them constitute money relations with them. While it is possible that he ignored the source from which the money by which he benefited originated, these facts constitute the crime of commerce with the enemy although they seem insufficient for the graver charge of intelligence with the enemy."

WOMEN PLAY IMPORTANT PART IN WINNING WAR

By Associated Press. LONDON, April 2.—Women's great work during the war is shown by a board of trade report which says that in 1914, there were 2,276,000 women employed, and since that time 1,532,000 offered their services, mostly replacing men. The percentage of women workers in industries in April, 1918, was 37.

CHATTANOOGA RIVER POWER STATION BURNS

By Associated Press. CHATTANOOGA, TENN., April 2.—The Chattanooga-Tennessee River power station and several adjoining buildings were destroyed by fire here early today. The loss is estimated at \$100,000.

CAPTAIN PROCTOR IS WITNESS TODAY IN CHAMBERLAIN TRIAL

By Associated Press. LONDON, April 2.—Captain Andre M. Proctor, U. S. N., was the only witness this morning in the court martial of Captain Edmund G. Chamberlain of San Antonio, Texas, in connection with his reported air exploits on the British front last summer. Captain Proctor identified letters in Captain Chamberlain's handwriting.

The prosecution planned to put on the stand this afternoon a hand-written expert from Scotland Yard in an attempt to show that the alleged reports of Captain Chamberlain's feats were written by the captain himself.

DEBS MUST BEGIN SERVING SENTENCE WHEN GENERAL FOCH

By Associated Press. WASHINGTON, April 2.—Unless pardoned by President Wilson, Eugene V. Debs, socialist leader, probably will begin serving in the penitentiary at Moundsville, W. Va., his ten-year sentence for violating the espionage act, about May 1. According to Clerk James D. Maher of the supreme court in Ohio, where Debs was tried, case will be sent to the federal district court, which on March 10 affirmed Debs' conviction; the mandate in the about April 15.

HART CONVICTED BY HOUSTON JURY AND SENTENCED 10 YEARS

By Associated Press. HOUSTON, TEX., April 2.—William McKinley Hart, charged with the murder of February 2, of Mrs. Pauline McConnell, wife of a wounded Illinois soldier, today was given a sentence of ten years in the penitentiary. The jury, which was given the case shortly before midnight last night, returned its verdict with the opening of court this morning.

When the jury verdict was announced Mrs. Hart, seated at the side of her husband, fainted and was carried from the court room. Hart himself retained his composure. Notice of appeal was formally filed by Hart's attorneys.

Mrs. Pauline McConnell, Hart's victim, was the young bride of Harold St. Clair McConnell of Woodstock, Illinois, a soldier in the 33rd division, killed at Camp Logan. Mrs. McConnell and Hart became acquainted shortly after the departure of the 33rd division for France, and for five months preceding the shooting lived together. Hart having separated from his wife and family of two children.

McConnell did not attend the Hart trial. Hart also has been indicted for embezzlement on several counts.

Telegraph Brevities

By Associated Press. LONDON, April 2.—Sir James MacKenzie Davidson, widely known surgeon, died here today. He was born in 1854.

By Associated Press. PARIS, April 2.—King Albert of Belgium, who arrived from Brussels yesterday by airplane paid a visit to President Wilson today.

FINNISH OFFICIALS RESIGN AS RESULT OF RECENT DEFEAT

By Associated Press. Copenhagen, April 2.—The Finnish government has resigned in consequence of its defeat at the recent election. It is announced in a dispatch received from Helsinki.

In mid-December General Mannerheim, who was leader of the white guard forces in Finland last year and who left the country temporarily while the reds were in the ascendancy, returned to Finland from England. He was chosen premier by the "Eduskunta" and later was elected regent. He announced his purpose to secure recognition of the complete independence of Finland by all the powers and establish a form of government based on the co-operation of all the political parties. Reports of the Finnish election mentioned in the foregoing dispatch have not reached this country.

NOTABLE FEAT OF A FRENCH BIPLANE IN AN ALTITUDE FLIGHT

By Associated Press. PARIS, April 2.—The notable feat of a giant French biplane in reaching an altitude of more than 20,000 feet yesterday was accomplished under the handicap of a load comprising the pilot, Lieutenant Boussolet, four passengers and ballast representing eight others. The record of 20,300 feet, officially determined, is a new one for a flight under such conditions.

BANKERS TO CONCLUDE NEW ORLEANS MEETING

By Associated Press. NEW ORLEANS, April 2.—Election of officers, selection of a 1920 convention city and discussion of relations between city and country banks from the standpoint of the city banker were features announced for concluding session here today of the seventh annual convention of the Association of Reserve City Bankers.

SNEED PLEADS GUILTY TO KILLING HIS WIFE AND GETS LIFE TERM

By Associated Press. FORT WORTH, April 2.—Robert L. Sneed, ranchman in Hamilton county, who killed his wife six weeks ago and who claimed at the time they had disagreed over the war, pleaded guilty yesterday when arraigned at Hamilton and was given a life term. Sneed was not captured for several days after the killing, taking refuge in the hills of Hamilton county.

BELIEVE GERMANY IS YET TO EXPERIENCE REVOLUTIONARY CRISIS

TEXAS COMMISSION MAY APPROVE BONDS FOR THE RAILROADS

By Associated Press. AUSTIN, April 2.—The railroad commission of Texas, during the period of federal control has the power and jurisdiction to authorize and approve the issuance of securities of railroads in pursuance of the stock and bond laws of Texas, conditioned that the president of the United States may first approve the issuance, according to an opinion of the attorney general delivered today.

The attorney general also held that a deposit of a certified check with a bid to become county depository is in the nature of liquidated damages and no portion of the same can be refunded by the county commissioners in case applicant fails to qualify. Neither can same be remitted by the governor.

JAPAN MAY PERMIT FOREIGNERS TO OWN LAND

By Associated Press. TOKIO, April 2.—A bill conferring the right of land ownership upon foreign residents in Japan is reported to be under the consideration of the government. Discussions in the League of Nations have convinced many Japanese that Japan must take steps to open her own doors wide to other countries in order to meet their demands for equal treatment.

For these reasons it is reported that the government is considering legislation giving foreigners right of land ownership, mining rights, and rights of coastwise trade; also legislation for the free admission of Chinese labor.

A law giving foreigners the right to own land in Japan was passed by the Imperial Diet in 1914, but the enforcement of the act, like many other laws, has been "reserved" and never put into operation.

HINES IS RE-ELECTED MAYOR OF IOWA PARK

Special to The Times. IOWA PARK, TEX., April 2.—In yesterday's city election J. C. Hines was re-elected mayor of Iowa Park by a majority of 25 votes over A. C. Golden, there being two candidates for mayor. D. E. Holcomb was elected city treasurer and M. L. McKelvey was elected city marshal. The five aldermen candidates, R. R. Brubaker, Tom Corridon Jr., J. J. Cobb, Earl Knes and J. C. Ralston, were elected with out opposition.

COLONEL VIX RELEASED AFTER BEING INTERNED

By Associated Press. COBLENZ, April 2.—Colonel Vix, chief of the French mission at Budapest, was interned for five days in that city after the government's overturn, a Vienna message states. He was, however, released, the dispatch adds, and has reached Budapest with the other members of the French mission and the British and Serbian missions to Hungary.

MRS. PRESLEY K. EWING DIES AT HOUSTON HOME

By Associated Press. HOUSTON, TEXAS, April 2.—Mrs. Presley K. Ewing, wife of Judge Presley K. Ewing, died last night at her home here. Mrs. Ewing is known throughout the South as one of the leaders in the development of women's influence, having been prominently connected with a score of more organizations in Texas, including the state congress of mothers and the state humane society.

SCURRY COUNTY WANTS MORE TENANT FARMERS

By Associated Press. SNYDER, TEXAS, April 2.—At a citizens' meeting here today plans were set on foot for a campaign to induce tenant farmers to come to Scurry county. As a result of the winter rains the farming outlook was declared to never have been better.

DALHART HAS NEARLY AN INCH OF RAIN

By Associated Press. DALHART, TEXAS, April 2.—Three-fourths of an inch of rain fell here last night and today.

ALLIES REPULSE ATTACK BY BOLSHEVIKI FORCES

By Associated Press. BUCHAREST, Tuesday, April 1.—Bolshevik forces again attacked the Allied positions along the railway near Odzherkalia, widely known as an assault against the line east of Bolshoi Ozera yesterday, but at both places were repulsed. Along the railway front the enemy struck from the right flank, but was met by such a severe fire from machine guns and artillery that he speedily retreated with heavy losses.

In the attack near Bolshoi Ozera the bolsheviks succeeded for a short time in cutting telephonic communication to the Allied outposts along the front two miles east of that village and twelve miles west of Odzherkalia, but were later driven off. The enemy is apparently striving to take Odzherkalia before the thaw, which is rapidly approaching, makes the roads impassable and compels him to withdraw from Bolshoi Ozera, which is a long way from the bolshevik base with which it is connected by a road virtually useless in the spring.

Along the Divina and Vega fronts the situation is reported unchanged.

MILITIA GUARDING COURTHOUSE DURING TRIAL OF OFFICERS

By Associated Press.
Woodstock, Va., April 2.—With a company of state militia closely guarding the jail and courthouse, the preliminary hearing of four agents of the prohibition commission, charged with murder as the result of the killing of Lawrence D. Hudson and Raymond Shackelford, alleged liquor law violators, was begun here this morning.

The prohibitionists, Harry E. Sweet, W. C. Hall, W. B. Dunlavey and J. H. Sullivan, were brought here last night from Fredericksburg where they were arrested. They were accompanied by the military company from Richmond, which had been ordered by the governor to proceed to Fredericksburg and escort them to Woodstock.

Shackelford and Hudson, both of Danville, were killed a week ago on the county road near here. The prohibition agents say they had been informed the two men had left Baltimore in an automobile with a quantity of whiskey which they were bringing into the state. They blocked the road and were attempting to search the machine when the shooting occurred. They had no warrant, it is stated, and when Shackelford, who was driving, learned this he declined to permit the search and started the machine. The officers said as Shackelford started away he began firing at them at close range with a revolver, and they returned the fire in self-defense. Hudson, in a sworn statement just before his death, denied either he or Shackelford had fired at all.

KENTUCKY COUNTY IS DRY BY AGREEMENT

By Associated Press.
Louisville, Ky., April 2.—Prohibition by agreement became effective Tuesday in Christian county, Ky. After an election on the prohibition question had been proposed, the liquor dealers, in view of the approach of national prohibition, consented to discontinue sale of liquor on April 1.

The effect of the novel experiment, which authorities say was never attempted before in America, will be watched with interest.

Under the agreement, the liquor dealers pledged themselves to aid in enforcing prohibition, and to use their influence against the issuance of new licenses by county authorities. If new applicants take action against county authorities to compel issuance of licenses, the old liquor dealers agree to bear fifty per cent of the cost of fighting such suits.

RAILROADS MAY REQUIRE COMPETITIVE COAL PRICES

By Associated Press.
Washington, April 2.—Railroad administration officials intimated today that a return to the old system of competitive bidding for railroad coal contracts might be the outcome of the attempt of mine operators to force the administration to pay the same price for fuel as the public. There was no denial that the price scale agreed upon by the operators and the industrial conference board of the department of commerce was not acceptable to the administration.

During the war the railroad administration, in many instances purchased fuel at market prices because of desire to stimulate production, but now that that necessity has passed the contention is made that the railroads are entitled to reductions formerly given by the coal operators because of the immense purchases and the elimination of a great part of the marketing expense in selling to railroads.

PREMIER ROMANOS TO SUBMIT RESIGNATION

By Associated Press.
MADRID, April 2.—With the industrial situation improving everywhere, it is understood that as soon as quiet is restored, Premier Romanos will hand his resignation to king. It is believed probable that the king will ask the premier to remain in office in view of the success with which he settled the strikes throughout the country without serious disorders.

BRITISH STEAMER IS TOWED INTO PORT

By Associated Press.
WILMINGTON, N. C., April 2.—The British steamer Korona, St. Thomas to New York with cargo and passengers, and disabled as seas were towed here today by the coast guard cutter Seminoles. With the food supply running short, the Korona lay for days helpless in a heavy gale with huge seas breaking over her.

CALOMEL ROBBED OF NAUSEA AND SALIVATION

Medicinal Virtues Retained and Improved—Unpleasant and Dangerous Qualities Removed—New Variety, Called Calotabs, Is Great Favorite With Physicians and Druggists.

The latest triumph of modern pharmacy is the new nausealess calomel known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines, has entered upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache, and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the only successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of all medicines to take. One Calotab on the tongue at bedtime, with a swallow of water, that's all. No salts, no griping, no nausea, no danger of salivation. A good night's sleep and the next morning you are feeling fine, with a clean liver and a big appetite. Eat what you please.

Calotabs are sold only in original, sealed packages, price thirty-five cents. Your druggist offers to refund the price as a guarantee that you will be thoroughly delighted with Calotabs. (adv.)

CLEMENCEAU NOT TO INDULGE IN LUXURY OF A NEW OVERCOAT

Associated Press Mail Correspondent.
Paris, March 26.—"While clothes are so expensive I am not going to indulge in the luxury of a new overcoat just because a fool shot a few holes in my old coat," Premier Clemenceau is reported to have said.

The Tigers jacket and overcoat, both showing bullet holes were pieces of evidence that had to be produced at the trial of his would-be murderer, Emil Cotton. M. Clemenceau, however, happens to be particularly fond of those garments and he asked M. Lignace, under secretary of state for war, to let him have them back quickly. M. Lignace replied in tone of gentle reproach that the articles were in the hands of the judiciary and that under the rules it would be quite impossible to part with them until the case was past the appeal stage. Then M. Clemenceau, who is an enemy of red tape, did what in French is described as an "efficacious act," the nature of which is not specified, but may be summed up as follows: His garments came back the same day. The French are a thrifty race and expert clothes menders. The bullet hole can be "stopped" so as to defy detection and the coat will be as good as ever. This is Clemenceau's opinion.

The Bible Class of the M. E. Church, South, will meet at the home of Mrs. P. W. Nolen, Thursday afternoon.

W. R. Duke of the Old Hickory oil companies, left Tuesday for Kansas City.

INVESTIGATION IS BEING MADE INTO CAPT. FRYATT CASE

By Associated Press.
BERLIN, Tuesday, April 1.—An investigation into the case of Captain Charles Fryatt, of the British mercantile marine, who was executed by the Germans in 1916 after his conviction by a German court martial of having attempted to ram the German submarine U-33 with his vessel, was begun today by a national court martial. Representatives of various governments attended and a large number of witnesses, including Captain Danzer of the U-33 appeared for examination. At the opening Attorney Rochel for the commission gave a description of the Fryatt case. According to this report, the English steamer Brussels, under command of Lieutenant Captain Gauffier on March 23, 1915, eight miles west of the Maas lightship off the coast of Holland.

It was alleged that Captain Fryatt attempted to ram the submarine, Captain Fryatt and the Brussels were captured by the Germans in June, 1916. The captain was first ordered

confined at Ruhleben. Later he was brought before a court martial at Bruges, found guilty and executed.

Statements made by Captain Fryatt and several British officers at the court martial were then read. Fryatt maintained that he tried to get away from the submarine. German officers testified, however, that the log of the Brussels contained this entry: "When I saw him, I steered directly for him."

Protests Were Made.

British and American notes of protest against the decision of the court martial were read. The attorney explained that Great Britain had complained that the United States had not been permitted legal representation at the court martial. Attorney Rochel read this excerpt from the testimony at the court martial:

"The first witness, Danzor, testified that the U-33 sighted a steamer while about to submerge and signalled it to stop instantly on pain of a shot from a submarine. The Brussels, however, he said, evidently had seen the submarine first and made directly for it, getting up steam as it advanced. Danzor said he tried to get the submarine out of the way without submerging again. It was impossible to discharge a torpedo because the steamer was only 150 yards away. Another officer saved the order to submerge and the U-boat sank 30 feet in two minutes. The crew, it was testified, saw the shadow of the British vessel overhead."

Experiments by the United States bureau of fisheries have shown that certain fish oils can be used in the manufacture of margarine and lard.

VERNON ELECTS KING AS CITY COMMISSIONER

Special to The Times.
Vernon, Texas, April 2.—Harper Reed was defeated by T. A. King as city commissioner yesterday by a vote

of 10 to 15. E. L. Witty was re-elected without opposition. Little interest in the election was displayed, only about sixty per cent of the city's voting strength participating.

APRIL 5 TO 13 TO BE PLANT DAYS FOR THE CIVIC LEAGUE

Representatives from each of the branches organized were present at the meeting held by the Civic League Tuesday afternoon at the library. Talks were made by representatives from the district in North Wichita, the Factory branch, the San Jacinto school branch and the Washington school branch, each telling of the work of the League, what has been accomplished, and what is expected to be accomplished soon.

Saturday, April 5th and April 19th, have been designated as Plant Days, and each member of the League is requested to bring plants of all kinds—flowers, shrubs, trees, or any kind of plant, to Mrs. Smock's office for the benefit of members who wish to beautify their homes and yards. And any member of any of the branches who desire plants and shrubs for their premises are requested to get them at Mrs. Smock's office on these days.

Another matter taken up by the League and endorsed by all the members was an appeal to the school children of the city to run up on the terraces of the lawns. The beauty of many of the larger lawns is being almost entirely destroyed by the school children, playing on the terraces and "cutting across" the corners. The parents and teachers are asked to appeal to the children's sense of duty and love of beauty to stop this thoughtless destruction of property.

REVISION OF ELECTION LAW BY JAPANESE

Associated Press—Mail Correspondent. Tokyo, March 26.—A revised election law, having been approved by the Privy Council, has been introduced in the House of Representatives. Mr. Tokunami, the home minister, introduced the bill with an explanation that the government's motive in doing so was to meet the altered conditions of the times as well as the nation's advancement in political thought.

Public interest in the bill centers in the clause extending the franchise. The number of voters under the existing law is 1,460,000 or 2.6 per cent of the total population, the minimum tax requirement being \$5. The proposed bill would give the vote to 2,500,000 persons with the payment of at least \$1.50 in taxes as the standard.

The proposed new law also provides smaller electoral districts by the use of which the government hopes to reduce the election expenses incurred by candidates. On the other hand the number of members in the House of Representatives would be increased from 381 to 464.

The opposition is expected to introduce a universal suffrage bill for which there has been much agitation. It is expected that the government bill will pass the lower house by a large majority.

ABANDON PLAN TO STAGE EXHIBITION GAME OF BASEBALL

The proposed exhibition ball game in Wichita Falls between the Chicago White Sox and the Dallas club of the Texas League has been called off, owing to inability to have the local ball park ready in time. Harry Grubner, secretary of the White Sox, who are training at Mineral Wells, wished to stage the game here April 10, but it is doubtful if the committee handling the affairs of the Wichita Falls Park Association will be able to have a ball park in shape for play before the latter part of May.

AT THE THEATRES

"TODD OF THE TIMES" AT THE EMPRESS THURSDAY

"Todd of the Times," of told in written story with the art with which Frank Keenan gives it to the screen, would be one of the character masterpieces of fiction. A keen-minded old newspaper man, concealing under a gentle, kindly front the qualities of bigness, which his home life and his office routine had well nigh strangled. Theobald Todd is a most interesting screen personage. How he rises from the chair of the city editor, after long years of dreaming, to the commanding height of the managing editor is only one of the deeply appealing sides of a first-class, moving comedy drama. It will be shown at the Empress theatre on Thursday and the continuous humor of it will sweeten the evening of the most confirmed dyspeptic. The play, which is by Jack Cunningham and John Lynch, is a pleasing unfolding of a series of faithfully drawn small town characters, who are not, however, commonplace in their actions—for the story is a well-knit high speed narrative of both laughs and surprises.

Mr. Keenan gives a perfect portrait of Theobald Todd, the side-tracked city editor and home-sick husband, who ceases to become both in a way that furnishes splendid entertainment. Aggie Higgins, capable veteran actress, with a fine sense of humor, interprets the role of Mrs. Todd, the wife of the city editor, with the keenness of the other roles upon the bill of which excellent prices as Herschel Mayall, Joseph J. Dowling, Arthur Millette, Irene Rich, George Williams, Jay Morley and Buddie Post.

The New York Evening World says:
"One of the most graphic pieces of filming ever seen on the screen."

A story of the love that passeth all understanding—a great romantic picture that you'll never forget. Bring your whole family to see it.

MAJESTIC
STARTING MONDAY

—TODAY—

RETURN DATE OF THE GREAT PICTURE THAT MADE THE FAMOUS STAGE STAR THE GREATEST OF SCREEN FAVORITES

"Revelation"

THE STORY:

Adapted from Mabel Wagnall's Novel, "The Rosebud of a Thousand Years"

"In the courtyard of a monastery years ago a pious monk planted a rosebud. In spite of his tender care it never blossomed. The gentle priest brooded over it, considering it an evidence of divine displeasure. One day, as the legend runs, he prayed at the side of the bush that it might bloom. In the midst of his supplication a gentle voice bade him, 'Be at peace, and looking up he saw the Holy Mother standing before him—and, lo, a miracle—the rosebush had burst into bloom.' Joline, 'a daughter of joy,' is a dancer in the Cabaret of Three Delights—Wine, Women and Song—in the Latin Quarter of Paris. She is an artist's model, and vividly and beautifully she poses."

LA BACCHANTE—SALOME—SAPPHO—THE SPHINX and SIN

And now the artist is inspired by the old legend above and must paint the Madonna of the Rosebush. Joline, the blonde little grizette, as the model? How ridiculous! How amusingly absurd!

But Joline, fascinating, capricious, willful as a summer storm, in alternate tempests of anger and pleading, refuses to permit another model to take her place! She is selfish, mad, passionate, but as her soul is laid bare in love and sorrow she is tender, noble and self-sacrificing.

The Sun of Revelation strikes the heart of the madcap firefly, and as the gay, mad music of the Paris cafe gives way to the still, sweet voice of peace, a mighty miracle is wrought!

AND THE ROSEBUSH BLOSSOMS IN THE HEART OF JOLINE!

THE STAR:

The Great NAZIMOVA

Born in Russian Crimea, in a village by the Black Sea, Alla Nazimova studied violin and drama and was a noted child prodigy. Famous already in every country of Europe, she came to the New World, and in New York, speaking only Russian and giving only Russian plays, she made a furor and was acclaimed one of the world's greatest tragediennes.

Waldheim Building, Kansas City

THREAT NOT TAKEN SERIOUSLY.

Eugene V. Debs, convicted under the espionage act and whose motion for rehearing of his appeal before the supreme court has been over-ruled, is threatening to call a general strike of his party throughout the country.

As a result of the attitude of a number of its leaders the number of socialists, that is, members of the Socialist party, has greatly diminished in this country and even if they went out on a strike, it would not seriously affect the industries of the country. A good many of the professional socialists don't work anyway.

Debs announced that the strike would start with the coal miners of Indiana, his own state. In this announcement Debs voices rather his own hope than a probability for officials of the United Mine Workers in Indiana say they know nothing of plans for a strike.

ATTENTION, MR. BURLESON!

The attention of Postmaster General Burleson is directed to the results in the Dallas City election. Captain Wozencraft, the successful candidate for mayor, declared that if he was elected mayor the telephone company would be permitted to raise its rates only after the proposal had been carried to the highest court in the land. His declaration, it is believed, had much to do with Captain Wozencraft's success.

Mr. Burleson may read in it disapproval of government control of the telephone systems of the country.

PROMOTER OF PREJUDICE.

An oil promotion company starts off its advertisement in a New York paper as follows:

"Following our expressed intention to present the public the true facts about this company," etc.

A paragraph or two below it mentions its leaseholds in Archer county located in the midst of big production in Archer county, Ranger district, Texas."

Still some folk wonder why there is prejudice against oil promotions.

As was fitting and proper, William H. Thompson has been elected mayor of the "sixth German city."

COST OF LIVING FOR WORKINGMAN DOUBLED

By Associated Press.

London, April 2.—The cost of living for a workingman's family in England was nearly doubled during the war, according to a statement issued by the Ministry of Food. The ministry bases its estimate upon that of a committee headed by Lord Buxton which reported that in 1914 the average weekly expenditure for food for a working-class family of six persons was the equivalent of \$6.12. The ministry estimates that the cost has now advanced to \$11.81 a week.

The ministry echoes the statement of Premier Lloyd George forecasting that the workingman's cost of living would be reduced about \$1 a week this summer.

Bedtime Stories

(By Howard R. Garis)

Uncle Wiggly and the April Shower.

Uncle Wiggly, the bunny, the busy rabbit gentleman, stood one morning on the porch of his hollow stump bungalow and looked off through the woods.

"I am going to hop along and see if I can find an adventure," he said.

"But not that way, I hope!" cried Nurse Jane Fuzzy Wuzzy, his muskrat lady housekeeper. "Not that way, Uncle Wiggly!"

"What way?" asked the bunny.

"What do you mean?"

"Oh, don't go hopping off looking for adventures in your tall silk hat," went on Miss Fuzzy Wuzzy. "You know this is now April, and we will have rain showers almost any time. If you silk hat gets wet it will look like a cat that has fallen into the bath tub."

"What you say is very true," spoke Uncle Wiggly. "It may rain, and then again, it may not. I'll take an umbrella."

"But don't wear your nice shiny silk hat," boomed Nurse Jane.

"Oh, I must wear that," said Uncle Wiggly. "I always have worn it, and if I take it off now, if children would hardly know me. Oh yes, I'll wear my tall silk hat, but I'll be careful of it."

So Uncle Wiggly, after telling Nurse Jane he would not wear his shiny silk hat, he had an adventure, started to hop over the fields and through the woods. He looked here and there for the had the pipewash and for the worse. Skeezicks, but he saw neither one. They had not come back since the March wind blew them away.

"And I hope they never come back," said Uncle Wiggly to himself. "They made trouble enough for me."

And just as he said that, Uncle Wiggly felt something hit him on the tip of one of his long ears.

"Ha, ho!" cried the bunny. "Maybe that's the pipewash throwing little stones at men now."

But it was something wet that had dropped on Uncle Wiggly's ear, and he soon felt another drop.

"Why, it's raining!" he cried. "That was a rain drop I felt! Gracious me, makes alive and some apple dumpling butter cakes! I'll have to run to get out of this April shower!"

So, tucking his red, white and blue striped rheumatism crutch under his paw, and putting his tall, silk hat on his head, so it wouldn't come off—so his hat wouldn't come off, I mean—Uncle Wiggly, hopped through the woods as fast as he could hop.

The rain came down harder and harder, and at last it was such a storm that Uncle Wiggly stopped under a tree and said:

"I must look for a place to stay until this April shower is over. I wish I were back in my hollow stump bungalow."

Just then, off through the trees, he saw a little house. It was not a very nice-looking place, but it was better to be there than out in the rain.

Uncle Wiggly hopped toward it, opened the door and hopped in.

And all curled up in one corner of the little house, which was made of cornucobs, was a sleepy old cat gentleman—no relation at all to the lively Jole, Tommie and Kittle Kat.

"Oh, Mr. Yowlie, may I stay in your house until the shower passes?" asked Uncle Wiggly.

"You may stay, and welcome," said the sleepy old cat, whose name was Mr. Yowlie because he howled night.

"But, as you can see, my roof leaks, and you won't be much drier in my house than out of it. I have the only dry place."

And, truly enough, the roof did leak. A big stream of water was running through a hole, and making a big puddle on the floor, so Uncle Wiggly could stop nowhere without getting wet.

"Why don't you fix the leak in your roof, Mr. Yowlie?" Uncle Wiggly asked of the cat.

"Oh, well, when it rains I can't get up to fix it, you see, and when it doesn't rain it doesn't leak, so doesn't need fixing," replied the cat.

"Oh, but it is very wet here!" cried Uncle Wiggly. "I know what I'll do. I'll turn my tall silk hat upside down on the floor under the leak and let the water run in that. The floor will be dry."

So that's just what he did. His big, tall silk hat caught the water from the leak as well as a dishpan could have done, and when the hat was full Uncle Wiggly emptied it and let it fill again.

And pretty soon the rain stopped.

and Uncle Wiggly didn't have to use his hat to catch water any more. So he let it dry, put it on his head and hopped home.

"Did you get wet?" asked Nurse Jane.

"Not very," replied the bunny, and he told the muskrat lady about the funny leaking roof cat. And, if the feather pillows don't fly off the bed and go sailing in the bath tub and bite the cake of soap, I'll tell you next about Uncle Wiggly and his umbrella.

JAPANESE ARE NOT UNANIMOUS ON THE QUESTION OF ISLANDS

Associated Press Mail Correspondent.

TOKIO, March.—Public opinion in Japan is not entirely unanimous on the question whether Japan shall retain possession of the Marshall and Caroline Islands which she took from Germany and now holds. The Osaka Mainichi sets forth the attitude of many Japanese thinkers in an article in which that newspaper insists that the islands shall be retained. The Mainichi declares that, if America was allowed to seize and fortify Hawaii, and thus to greatly threaten Japan; if she was permitted to occupy Guam and the Philippines, making them not only a source of wealth to herself but also a great menace to Japan, China and the British and Dutch possessions; if Australia and New Zealand have similar control over New Guinea and Samoa; it is certain that Japan shall possess the Marshall and Caroline Islands, exercising the same right and rule over them.

And, in so doing, the paper asserts, "Japan will be only acting the part of a small watch dog faithfully protecting its own house, in a very different manner and spirit from the American wolf whose wolfish ambition is indeed to be feared. If Japan is not to be allowed to fortify the islands she took from Germany, and which of right belongs to her, then the defenses of Gibraltar, the Suez Canal and other points should be razed."

"Racial discriminatory treatment in these respects, too, should be abolished, and these islands not be left to white man's domination."

The opposite view was expressed by Yukio Ozaki, former minister of justice, in an address delivered in Tokyo a few days ago in which he said:

"It is, indeed, a great honor for Japan to occupy the position of a stockholder in that great international corporation, the League of Nations. The honor is far greater than Japan will obtain by the possession of the Marshall and Caroline Islands."

"Notice"

PREDICT REVOLUTION IN BRITISH TRANSPORTATION

Associated Press Mail Correspondent.

London, March 7.—A revolution in the British transportation system is predicted if the proposed ministry of ways and communications is created. It is hailed by the Socialists as the passing of the country into the domain of public services. On the same ground it is bitterly attacked by others.

Another element opposes it with the argument that "the effect of the bill will be to put our roads under the control of the railway magnates, who will ruin the roads in their own interests just as they ruined the canals."

Sir Eric Geddes, minister without portfolio, who introduced the measure in the House of Commons, will head the new ministry if the bill is passed.

It is proposed that the minister of ways and communications shall take in hand not only the railways and the roads, tramways, canals and navigable waterways, harbors and docks, but also motorcars, and aircraft. It is understood that eventually the postal, telephone and telegraph service will be concentrated in the same ministry.

Under the bill the new ministry is charged, using all available technical experts, to reorganize the whole railway system as a united public service of transport, and to develop its connections with ocean ports and fishing harbors and with subsidiary canal, city tramways, and motor-roads on country roads.

One of the first tasks of the ministry will be the creation of super-power stations for the generation of electricity. These are required not only to reduce the price of electricity for lighting, but also for the supply of cheap power for industrial concerns, and perhaps for the gradual electrification of a large part of the railway system.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping in the "knots" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

OIL DEVELOPMENT

TEXHOMA OIL AND
REFINING CO. HAS
MADE LOCATIONS

The Texhoma Oil and Refining Company has made a location on the Burnett and Lloyd tract, L. C. Stubbs survey in the Beaver Creek district, 1500 feet west of wells of the Gulf Production Company. The well is to be drilled with cable tool.

The same company has a new location in Stephens county, No. 1 I. T. Ledbetter, W. B. Hamilton, the general manager, is now in Stephens and Shackelford counties making arrangements for the summer operations of the company.

This company's well, offsetting the L. R. Crowell, Cropper, No. 1, which found a very rich sand on Tuesday, in the Burk Burnett shallow field, but at a depth below 1200 feet, is drilling at 700 feet.

Casing has been set in the Hardin Black 1, No. 1 well and No. 2 is drilling at 1500 feet. No. 3 is drilling at 1600 feet.

The No. 2 well on Block 36, townsite, owned by the Texhoma and the Block Thirty-Six Oil Company, is drilling at 1300 feet.

**THORNBERY OIL CO.
PREPARING TO DRILL
ON GODFREY FARM**

The Thornberry Oil Company, recently organized with \$50,000 capital stock subscribed at organization, is preparing to drill the first well on its 1023 acre tract, lying between Burk Burnett and Petrolia, lumber being on the ground at present at the first location. The first well is to be drilled on the R. H. Godfrey farm, and there are several other tests going down in this locality.

Vaughn T. Jones is president of the company, S. Grauman is vice president, and C. B. Feltner is secretary and treasurer. Directors and others interested in the company are: W. E. Ramsey, L. P. Hamming, F. M. Prechel, W. M. Murray, Joseph Colonna, Perry Roop, G. C. Jensen, C. W. Reid and C. J. Shumake.

**R. H. VENABLE PAYS
FOR ALL DAMAGE TO
FREAR AUTOMOBILE**

Settlement in full for the damages claimed by W. A. Frear growing out of an automobile accident last Friday evening, was made this morning by R. H. Venable, driving the car at the time of the accident, but which had been instituted against Mr. Venable was withdrawn after the damages to the Frear automobile had been appraised by a representative of the Cadillac agency, and Mr. Venable paid the full amount adjudged as damage.

**MISS ROBERTA WILFONG
DIES AT NOON TODAY**

Roberta Wilfong, 16-year-old daughter of S. A. Wilfong, prominent business man of this city, died at noon today after being seriously ill for several weeks. Death was due to a complication of diseases.

Miss Wilfong had been an invalid for a long time. Six weeks ago her illness became serious, and grew steadily worse, the child's weakened condition offering little resistance to the disease.

Funeral services will be held tomorrow afternoon at the Wilfong home, 506 Tenth street. Interment will be in Riverside cemetery.

**MEETING IS CALLED TO
DISCUSS COAL AND STEEL**

By Associated Press.
WASHINGTON, April 2.—Members of the cabinet and heads of the government purchasing agencies were called by Secretary Glass to meet at the treasury today to consider whether the plan of readjustment prices through the industrial board will be adhered to by the government.

The meeting is an outgrowth of the dispute arising from the alleged refusal of the railroad administration to accept the prices agreed upon for steel and coal.

President Wilson, appealed to by Secretary Redfield to adjust the controversy, has not yet replied to the secretary's cable.

**CROPS ARE DAMAGED
BY LOW TEMPERATURES**

RICHMOND, VA., April 2.—Damage to crops by low temperature in many Southern states was reported today. Orchard experts said indications pointed to virtual killing of the Virginia peach crop. The vegetable crop was slightly harmed.

Some Alabama points reported heavy frosts and ice a quarter of an inch thick with damage to early vegetables.

The temperature of 24 degrees was the lowest ever recorded for any day in April.

Wanted!

JARRELL WELL IN
RANGER DISTRICT
IS SHOWING GAS

Special to The Times.
EASTLAND, TEX., April 2.—One of the most important recent developments in the Ranger territory was the report Tuesday that the C. Jarrell well of the Mid Kansas Oil and Gas Company, two and one half miles northwest of the Parack well of the States Oil Company, is showing gas at 2075 feet. If this comes in a producer it will prove a long northwestern extension of the Ranger field.

SUN COMPANY HAS
300 BARREL WELL
IN RANGER DISTRICT

Special to The Times.
EASTLAND, TEX., April 2.—The Sun Company's McMeen No. 3 in the Caddo field was brought in Friday with an initial production of 300 barrels at 2180 feet. This is located one mile northwest of the big Mid Kansas well. The Sun Company's Rust No. 2, four miles west of Ranger, is on top of the sand at 324 feet and the boiler is being moved back preparatory to bringing in a well in within the next few days.

The Texas and Pacific Coal and Oil Co.'s Brewer No. 17, four miles south of Ranger, reached the sand a few days ago with an estimated production of 800 barrels. This well is being drilled deeper into the sand with indications of a considerable increase of production.

ELMER MCCREARY RETURNS
FROM SERVICE IN FRANCE

Elmer McCreary, son of Mr. and Mrs. W. W. McCreary, living about two miles east of the city, returned yesterday from France. Mr. McCreary received his discharge late Monday evening at Fort Worth, having come in with the 133rd Field Artillery. He brought his helmet and gas mask with him, but was not allowed to retain his rifle.

Mr. McCreary saw action at the front with the 11th Ammunition Train of the 36th Division, and his sleeve bears the gold chevron signifying six months service overseas. He says he likes France fine, but would rather be in Texas.

WELDON AND CURLEE
ARE NEW ALDERMEN

J. F. Reed, J. M. McCall and H. Finley Weldon were elected aldermen, full term, at the city election Tuesday, and W. S. Curlee was elected to fill the unexpired term of C. E. McCutchen who resigned recently. Reed and McCall succeeded themselves on the city council, while Weldon will fall heir to the position formerly held by J. L. Lee.

H. J. Anderson was elected city tax assessor and collector without opposition. Mr. Anderson was recently appointed to that position to fill the vacancy caused by the death of Harry Robertson.

BACK ACHE

Limber Up With Penetrating
Hamlin's Wizard Oil

A harmless and effective preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You have no idea how useful it will be found in cases of every day ailment or mishap, when there is need of an immediate healing, antiseptic application, as in cases of sprains, bruises, cuts, burns, bites and stings.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.
Ever considered or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents Guaranteed.

OLD HICKORY WELL
IN SHALLOW FIELD
MAKES 25 BARRELS

The Old Hickory Oil Producing Association's No. 1 J. A. Kemp, in the Watkins shallow district south of Iowa Park, struck the sand at 665 feet Tuesday, according to reports from the field, and oil is now oozing from the well. The well will be completed and put on pump as soon as possible, and from indications will be about a 25-barrel producer, officers of the company state.

WICHITA VANCELEAVE CO.
ELECTS OFFICERS TUESDAY

At a stockholders meeting of the Wichita-Vanceleave Oil Company, W. M. Priddy was elected president; A. S. Tucker, of New Orleans, vice president, and W. W. Frazier, secretary-treasurer. Trustees for the company were elected as follows: Lloyd Lehrbas and W. M. Priddy of Wichita Falls, A. S. Tucker of New Orleans, J. F. Gribble of Shreveport and John A. R. J. of Galveston. Drilling operations will commence in the very near future.

POSTPONE PIPE LINE
ORDER NUMBER 3
FOR HEARING APR. 25

By Associated Press.
ANSTON, TEXAS, April 2.—As a result of a conference held today by representatives of the leading pipe line companies of Texas with the railroad commission, the latter suspended its pipe line order number 3 and set the matter for hearing on Friday, April 25. The order required pipe line companies to furnish the commission on the fifteenth day of each month with copies of all division orders and transfer orders and division of interest of all producing companies. These companies are also required to furnish the commission with a statement of the amount of oil gathered and run into their pipe lines from each county in the state; amount of oil delivered and much other information. Representatives of the pipe lines told the commission that it would be impracticable to comply with the order.

DEPARTMENT ANSWERS
TWO ALARMS DURING DAY

Fire Chief McClure's "strawberry wagon" as one of the firemen facetiously calls the Chief's bright red chemical roadster, doused two small fires this morning. The first call came from Holiday and Thirteenth streets, where a minor blaze had started in one corner of an old barn.

About twenty minutes later the firemen were called out by burning gas from a leaking main of the Texas Petroleum company at Mississippi and Pecan. The "strawberry wagon" again handled the job successfully, without the necessity of strapping a line of hose.

HEAVY RAINFALL IS
REPORTED AT VERNON

Special to The Times.
VERNON, TEXAS, April 2.—Rain has fallen here since 10 o'clock last night and the streets are flooded. Creeks and rivers are rising rapidly. The flood will hurt wheat and wash land where seed is planted.

Marriage Licenses.
Marriage licenses have been issued at the county clerk's office as follows:
W. E. Chiam and Mrs. Mollie Arwint.

THEY STAND THE TEST
OF HARD WEAR

4275 miles is the distance walked by H. M. Foreman on one pair of Neolin Soles. Mr. Foreman, who is a postman in Allentown, Pa., says "The shoes with Neolin Soles gave me continuous service for 954 miles, during which time I averaged 18 miles a day. Ordinary soles last me about one month."

If you are hard on shoes, follow Mr. Foreman's example and buy them with Neolin Soles. These soles are created by Science to be especially tough and durable. Therefore, Neolin-soled shoes wear a long time, and so cut your shoe bills down. Good shoe stores carry them in many styles for men, women, and children.

And have your old shoes re-bottomed with Neolin Soles. Remember—they are comfortable and waterproof, also. Neolin Soles are made by The Good-year Tire & Rubber Co., Akron, Ohio, who make Wingfoot Heels—guaranteed to outwear all other heels.

Market Report

COTTON MARKET

By Associated Press.

NEW YORK, April 2.—The cotton market showed renewed firmness during today's early trading. Private cables attributed strength in Liverpool to small offerings and an increased spot demand, notwithstanding the fact that Manchester mills using American cotton will be closed for 14 working days beginning April 10. This, with reports that the blockade of German-Austria had been lifted, rather a more optimistic view of early peace prospects, and reports that ocean freight room as offered more freely, was reflected in the opening advance of 15 to 25 points on new style cotton. Liverpool was a good buyer here and there was a good demand with May selling up to 25.5 and October to 21.07 shortly after the call, or 19 to 20 points net higher. Old style positions remained very quiet, opening at an advance of one to 10 points.

Reports that the peace conference had received proposals from the Russian government for a cessation of hostilities were followed by a further advance late in the morning on which western buying was a prominent feature. New style May sold up to 25.75 and October to 21.24 with new style months generally showing net gains of 4 to 51 points.

A flurry of Wall street selling followed reports that a local stock and cotton exchange house had suspended, but it was generally understood that the firm had very little interest in cotton and reactions of 10 to 15 points were followed by renewed firmness during the early afternoon. May contracts sold at 25.75 and new style October at 21.30, or 44 to 53 points net higher.

New Orleans Cotton

NEW ORLEANS, April 2.—Better cables than due and continued colt in the market caused a rise of 28 to 29 points in the new contract months in the cotton market today during the first half hour of business. It was a quiet but steady market.

Rumors of a better situation in Russia increased the demand and in the trading up to noon prices were sent 52 to 56 points above yesterday's final.

LIVERPOOL, April 2.—Cotton spot in fair demand; prices firm. Good middling 16.97; middling 16.00; low middling 14.56; good ordinary 12.91; ordinary 12.38.

Sales 4,000 bales, including 330/5 American.

Receipts 6,000 bales, all American.

Future closed quiet: April 16.25; May 14.84; July 14.24; September 11.58.

NEW YORK STOCKS

NEW YORK, April 2.—Speculative sentiment was again favorably influenced at the opening of today's stock market by foreign and domestic developments, near shares, adding substantially to yesterday's gains. Shipbuilding, leather, tobacco and copper led the movement, but industrial Al-vol retained its place as the most conspicuous specialty extending yesterday's material advance by almost three points. Investment rails gave promise of throwing of their long pre-empting apathy and motors and oil joined in the broader dealings of the first half hour.

Many accessions to the early gains were made during the mid-session, despite moderate reaction among shippers and some realizing. Strength was shown by Mexican Petroleum, Texas Company, American Woolen and minor food and chemical shares. Medvaco Steel was not affected by a reduced dividend.

GRAIN AND PRODUCE

By Associated Press.
CHICAGO, April 2.—Sensational up-

turns in the value of corn took place today and were accompanied by an excited rush to the bull side of the market. Notices that exports of wheat had been stopped by the food administration was chiefly responsible as corn would therefore be expected to come into greater request for shipment to Europe as a substitute. Besides the election outcome in Chicago, a victory for the "wets" was held to imply an increased demand for rye and barley by interests that still looked for the defeat of prohibition.

Opening prices for corn showed a jump of 1 1/2 to six cents with May \$1.41 1/2 to \$1.44 and July \$1.35 to \$1.38 1/2. July made an advance of an entire cent, but then the market eased back somewhat as a result of profit taking.

Oats rose with corn. After opening 1/2 to 1 1/2 higher with 55 1/2 to 56 1/2 the market continued to harden.

Provisions tended to the maximum limit for one day. Strength in the hog market together with the sensational bulge in grain furnished the reasons.

In the later dealings May delivery took the lead and at one time showed a gain of 7 1/2 cents Monday. The market closed nervous 4 1/2 to 6 1/2 net higher with \$1.57 1/2 to \$1.57 1/2 and July \$1.45 1/2 to \$1.45 1/2.

THE STATE OF TEXAS
To the Sheriff or any Constable of Wichita County, Greeting:
You are hereby commanded to summon Marie Reese by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in the County of Wichita for four successive weeks previous to the return day hereof you summons Marie Reese, a non-resident of the State of Texas, to be and appear before the Hon. District Court, in and for the County of Clay, 30th Judicial District, at the next regular term thereof, to be held in the County of Clay at the Court House thereof in Henrietta on the 21st day of April, 1919. The number of said cause being 4226 then and there to answer the petition of W. H. Myers, Plaintiff filed in said court on the 11th day of September, A. D. 1918 against the said Marie Reese, defendant and alleging in substance as follows:

That on Aug. 26th 1918 plaintiff and defendant entered into a written contract by the terms of which defendant agreed to convey to plaintiff lots 2, 4 and 5 in Block 7 of the Wigham Addition to the town of Burk Burnett in

LEGAL NOTICES.

Interested in said cause and plaintiff agreed to pay defendant said sum for said lands as soon as defendant furnished an abstract showing a good title to said lands in defendant and deliver to plaintiff a deed conveying said lands to him. That in making said contract defendant acted by his duly authorized agent F. E. Squires and said agent immediately notified defendant of said sale and requested him to send deed to the Wortham Bank at Henrietta, Texas, where the plaintiff had deposited the money to pay for said land.

That defendant refuses to carry out said contract and refuses to execute a deed conveying said lots to the plaintiff and has wholly breached said contract and refused to carry out same. Plaintiff prays for judgment specifically performing said contract and divesting the title to said lands out of the defendant and vesting the title in the plaintiff, for costs of suit and general relief, and tenders in court the sum of \$500.00 as the purchase money for said lands in accordance with said contract.

HEREIN FAIL NOT, but have you then and there before said Court this writ, with your return thereon, showing how you have executed the same. Given under my hand and Seal of said Court, in Henrietta this 21st day of January, A. D. 1919.

To the Sheriff or any Constable of Wichita County, Greeting:
You are hereby commanded to summon Marie Reese by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in the County of Wichita for four successive weeks previous to the return day hereof you summons Marie Reese, a non-resident of the State of Texas, to be and appear before the Hon. District Court, in and for the County of Clay, 30th Judicial District, at the next regular term thereof, to be held in the County of Clay at the Court House thereof in Henrietta on the 21st day of April, 1919. The number of said cause being 4226 then and there to answer the petition of W. H. Myers, Plaintiff filed in said court on the 11th day of September, A. D. 1918 against the said Marie Reese, defendant and alleging in substance as follows:

That on Aug. 26th 1918 plaintiff and defendant entered into a written contract by the terms of which defendant agreed to convey to plaintiff lots 2, 4 and 5 in Block 7 of the Wigham Addition to the town of Burk Burnett in

Interested in said cause and plaintiff agreed to pay defendant said sum for said lands as soon as defendant furnished an abstract showing a good title to said lands in defendant and deliver to plaintiff a deed conveying said lands to him. That in making said contract defendant acted by his duly authorized agent F. E. Squires and said agent immediately notified defendant of said sale and requested him to send deed to the Wortham Bank at Henrietta, Texas, where the plaintiff had deposited the money to pay for said land.

That defendant refuses to carry out said contract and refuses to execute a deed conveying said lots to the plaintiff and has wholly breached said contract and refused to carry out same. Plaintiff prays for judgment specifically performing said contract and divesting the title to said lands out of the defendant and vesting the title in the plaintiff, for costs of suit and general relief, and tenders in court the sum of \$500.00 as the purchase money for said lands in accordance with said contract.

HEREIN FAIL NOT, but have you then and there before said Court this writ, with your return thereon, showing how you have executed the same. Given under my hand and Seal of said Court, in Henrietta this 21st day of January, A. D. 1919.

DISPOSITION OF THE U. S. ARMY SUPPLIES ABROAD IS PROBLEM

Associated Press Mail Correspondent

LONDON, March 31.—Disposition of American army supplies in England will be a big and complicated task. Owing to the nature of certain contracts and an agreement with the British government, the army cannot begin selling material for at least a month yet in the opinion of army officers, but they are preparing the way now. Some material still is being delivered to the army, while other contracts are held in abeyance pending settlement.

When the United States entered the war it was agreed that all contracts for supplies should be made through the British government. It also was agreed that at the termination of hostilities the United States should not sell material without consent of the British government, nor could any of the contracts arranged through the British be cancelled except by negotiations through that government.

Even if there are some delays in the United States doubling will profit on many of its sales. No agreement could be reached with the firm which held a contract to deliver to the American army about 200 huge gasoline tanks for use in France. Delivery is continuing, but it is not worrying quartermaster officers as the army already has been offered more than the contract price for the lot. With some other materials the same situation obtains.

The work of settling unfinished contracts is progressing, but British officials are unwilling for a huge amount of material to be suddenly dumped on the market, notwithstanding there is an insistent demand for some of it at inflated prices. British officials say there is no desire whatever to deprive Americans of an advantageous market, but they argue that they also must consider the disposal of the enormous amount of British army supplies stored in England.

The American Red Cross had no agreement with the British government and recently disposed of a lot of motor transport equipment for approximately \$27,500. The purchase price was \$24,500 and the equipment had been in use a year. Any kind of a motor in great demand in England.

No record has been kept of the total amount of contracts allotted for the American army in Great Britain, but, like everything else in the war, it was measured in huge figures. It is estimated, however, that the ordinance contracts alone amounted to about \$500,000,000. Much of this, of course, will not bring as good returns as the materials coming under jurisdiction of the quartermaster's department.

CROP ACREAGE OF NATION INCREASED BY MANY MILLIONS

By Associated Press

WASHINGTON, April 2.—More than 55,000,000 acres have been added to the country's aggregate crop acreage in the last ten years. Statistics just announced by the Department of Agriculture show the country's aggregate last year to have been 367,735,000 acres, or 605,840 square miles. That is more than one-fifth of United States, almost two and one-half times the size of the state of Texas and about ten times the land area of the entire New England states. The number of farms in the United States is estimated at 6,717,000.

Texas has the largest aggregate crop acreage with 25,328,000 acres, or a little more than one-sixth of her total land area.

Kansas is second with 22,588,000 acres, or almost one-half of her entire land area.

Illinois is third with 21,727,000 acres, or about three-sevenths of her land area.

Iowa in fourth place is very close to Illinois with 21,513,000 acres, which is about three-sevenths of her land area.

DEPOSE DYNASTY AND PROCLAIM A SERBIAN REPUBLIC

By Associated Press

LONDON, April 2.—The newspaper Vetcherini Listy of Agram, Jugo-Slavia, according to a wireless dispatch from Rome, announced that the dynasty of Karageorgevitch has been deposed and a republic proclaimed with Belgrade as the capital of Serbia and Jugo-Slavia.

Agram or Zagreb is the capital of Croatia which forms one of the three parts of Jugo-Slavia, or the kingdom of the Serbs, the Croats and Slovenes. Crown Prince Alexander has been acting as regent of Serbia for several years for his father, King Peter I. Reports have been that King Peter was in very poor health and he would soon abdicate the throne in favor of Alexander. The Serbian crown prince left Paris March 2 for Belgrade.

The Karageorgevitch dynasty, which had the throne of Serbia many years, was expelled in 1909, but returned again in 1903 after the murder of King Milan of Obtenovitch dynasty.

There have been no recent reports of disorders in Belgrade.

NEARING THE END OF CASUALTY LIST SAYS SEC. BAKER

By Associated Press

WASHINGTON, April 2.—In informally announcing today the discontinuance of the war department's system of telegraphing casualty lists to San Francisco and Chicago for mail distribution by the press associations, Secretary Baker made this statement: "It is with profound gratitude that we approach the end of the American expeditionary force casualty lists, grateful that the price of victory, in human life and limb was not greater. The war department has been conscious of the splendid public service the newspaper press has been rendering to the people by the prompt and accurate publication of the casualty lists from day to day, that the sacrifices made by officers and men of our forces abroad might be known to their friends and relatives at home."

Twenty-eight names appeared in the killed in action section of today's casualty list. They include Lieutenant Albert F. White, St. Louis.

Marine Corps: Gunnery Sergeant David Lambert Buford, Frankston, Texas.

As coal deposits in Iceland have been satisfactorily developed, scientists are investigating deposits on the Bear islands, between Norway and Spitzbergen.

CLUB LUNCHEON IS FEATURED BY TALKS OF MUCH INTEREST

By Associated Press

The West Texas chamber of commerce and legislation were the subjects discussed at the luncheon of the Wichita Club today.

Walter I. Moody and Robert T. Nelson, irrigator financiers, and Vernon L. Sullivan, chief engineer for the Wichita project, and Judge Starley of Pecos, author of the present Texas irrigation bill, discussed irrigation. Chester Crowell, publicity manager, and Mr. Miller of Mineral Wells and Mr. Briggs of Lubbock discussed the West Texas chamber of commerce, while Hon. J. D. Parnell, representative from the 101st district in the Texas legislature discussed legislation affecting the oil industry.

The meeting was well attended and was one of the most interesting ever held by the Wichita Club.

Moody is a speaker. J. A. Kemp introduced Mr. Moody as having handled the financing of more successful irrigation projects in the West probably than any other or all other men. Mr. Moody said that of all the irrigation projects of which he knew, in Montana, Utah, New Mexico, Arizona and California that the project here appeared to offer the best possibilities and was surrounded with the best safeguards.

The natural lay of the land and the type of the soil offered many advantages over most irrigation projects, he said. The lay of the land, he said, was such as to provide natural drainage. The silt carried by the water would continually fertilize the soil, the waste of the water would be small, the district was close to the railroad, no pioneering would be necessary to bring the land under cultivation and immediate production. Having his statement on the reports given by Mr. Sullivan, Mr. Moody declared that the foundation for the diversion dam could not be excelled. "The safe and sure future of Wichita Falls," he said, "lies in your irrigation project."

Mr. Nelson, who is a bond broker of Chicago, said that from a financial standpoint there was small question as to the success of the project.

Mr. Sullivan predicted that the more Mr. Moody and Mr. Nelson investigated the project the more they would be impressed with its possibilities.

Mr. Crowell, discussing the West Texas Chamber of Commerce, pointed to the need of an organization to act as a clearing house of information and as an instrument for united effort. He mentioned for one thing that through united effort would be possible to have the federal government make surveys of the rivers of West Texas and locate sites for irrigation dams.

Representative Parnell spoke. Hon. J. D. Parnell reviewed all legislation by the Texas legislature at the regular session recently adjourned. He told of the efforts of those friendly to the oil industry to prevent initial legislation. "Out of 21 bills affecting the oil industry that were introduced," he said, "we killed 20 of them and amended the other so as to suit us."

He pointed out, however, that \$38,000,000 had been appropriated against estimated revenues of \$28,000,000, and

said that there was a strong disposition to enact legislation to take the ten millions needed out of the mineral industries of the State. Such legislation, he said, would be proposed of the special session of the legislature that would convene probably in June.

He said the people of Texas took too little interest in politics, but declared that it was recognized at Austin that people of his district, the 101st, took more interest in State affairs than the people of any other district. He said that he had better co-operation from the people of the district than was given any other representative at Austin.

AFFIRM SENTENCE FOR VIOLATION OF STATE LOYALTY ACT

By Associated Press

AUSTIN, TEXAS, April 2.—The court of criminal appeals today affirmed the lower court decisions in the cases of Garret Davis and Tom Banks, both of whom were given the death penalty for shooting into a freight train in Polk county, September 29, 1918, and killing a negro brakeman.

The lower court decision in which Joe Meyer of Travis county was given a two year sentence for violation of the state loyalty act, was also affirmed by the court of criminal appeals.

DISPOSITION OF THE RHINE VALLEY CONSIDERED TODAY

By Associated Press

PARIS, April 2.—Consideration of the question of reparations and the disposition of the Rhine valley was continued by the council of four, comprising President Wilson and the premiers of France, Great Britain, and Italy, when the session of the council was resumed today. It is understood to be probable that at least three more days will be occupied with these subjects. American financial experts were called into the session today.

fended Themselves for a
Month in 1900.

Washington, D. C., April 2.—Tientsin, scene of recent disorders in which Americans and Japanese were involved, is described in the following bulletin from the National Geographic Society:

"To walk about Tientsin is to travel an afternoon's stroll from the native to the British, French, Italian, Russian and other foreign quarters, gives the sensation of a magic tour through Peking, London, Paris, Rome and Petrograd. And the windmills among the salt mounds just outside the city add a touch of Holland.

"This panorama city has had a tempestuous history. There a group of American and other foreign residents—Herbert C. Hoover among them—defended themselves for a month against the fanatic Boxers in 1900.

"Since then the native city has been known as Chengli, or 'Town without Walls,' because the ancient barriers were demolished during the siege. Of the 500 doughty foreigners more than fifty were killed, and many others wounded before military aid came.

"Tientsin was the scene of another famous siege, that of the Taiping rebels in 1853. Followers of Hung Sin Tuan, who had professed Christianity and set himself up in Nanking as the 'Heavenly King,' marched toward Peking. But the Waterloo of the long-haired rebels, so called because they could not plait their queues and thus signify loyalty to the Manchus, came at Tientsin.

"The success of the campaign against the revolutionists was due principally to the gallant Chinese Gordon, General Charles George Gordon, and his 'Ever-Victorious Army.' But the fact would not be suspected from reading the imperial edict, issued by the former concubine who had elevated herself to Empress Dowager. The edict set forth that 'this glorious victory is entirely due to the bountiful protection of Heaven, to the ever present help of our ancestors, and to the foresight of the Empress Regent. A tribute is paid to the Chinese generals who have been combed by the wind and bathed in the rain, and one of them was awarded the decoration of the double-edged peacock feather, Mongol General Commands.

"Commanding the native force at Tientsin was Seng-ko-fu-sin, a Mongol general, who later distinguished himself less creditably. In 1899 he sought to defend Tientsin against foreign expedition by erecting an immense mud rampart outside the city. Tientsin was captured and held for

two years by the British and French, and the crude defense is known in the foreign quarters as 'Seng-ko-fu-sin's folly.'

"The region about Tientsin was known as Chi-chou under the Hsia dynasty, whose rulers, 4,900 years ago, already had court astronomers who could predict eclipses. Later it was called Ya-chou, in the Chou dynasty, marked by the western war waged by Mu-Wang against the 'Dog Barbarians,' thought to have been ancestors of the Huns. Tientsin dates back at least to the fourteenth century.

"Noted for Salt Industry. The salt industry in the neighborhood of Tientsin is prodigious. Windmills are used to pump salt water into the fields along the Hsiao river, where the widely known Chang-hu salt is made. Before the war nearly 20,000 tons were produced annually. But Tientsin is important commercially in many respects. It is a rice market, and Siberia's tea formerly was shipped through there. Exports were as varied as the needs of the dozen or so nations which had separate settlements along the five miles of the river front, and its imports were as diverse as the commodities those nations had to exchange.

"The Peiho and Hsiao rivers converge at Tientsin. From the latter to the Qiantze-Kiang extends the Grand Canal, that remarkable specimen of ancient engineering, mentions by Confucius, which originally was more than 1,000 miles long.

"Tientsin has more people than Boston. It is the principal city of Chi-hi, and is 86 miles southwest of Ueking by rail."

PRACTICALLY ALL LABOR FORCES IN GERMANY STRIKE

By Associated Press.
BERLIN, Tuesday, April 1.—Almost all the labor forces of Germany are either striking or threatening to strike as a result of agitation carried on by independent socialists and their partisans who are succeeding in their efforts to make workers to make increasingly impossible demand. The situation everywhere is considered serious and it is said the aim of the Spartacists is purely political, having as its object the overturning of the present government and the establishment of bolshevism. Sanguinary engagements have occurred at Kassel in Westphalia, according to the Tagblatt. A procession of miners which was on its way to the office of the Kassel Anzeiger clashed with public security guards and several were killed and wounded on both sides, it is said.

Notice of Shareholder Meeting of the Moonshine Hill Oil Co.
The shareholders of the Moonshine Hill Oil Co. are hereby notified that a meeting of the shareholders of the company is hereby called to meet in room 11, Ward Bldg., at 2 p. m., the first Tuesday in April, 1919, the same being the first day of April, at Wichita Falls, Texas, for the purpose of electing officers of said company and such other business as may come before the meeting.

W. T. CARLTON, President.

NOTORIOUS GUNMAN BACK FROM FRANCE WITH WAR RECORD

By Associated Press.
CAMP UPFON, N. Y., April 2.—"Monk" Eastman, gunman, notorious leader of gangsters who once terrified New York's east side now is Private William Delaney, veteran back from France with an enviable war record. He was honorably discharged from the 10th Infantry today, and within a few days there will be forwarded to Governor Smith a petition signed by his commanding officers, asking that he be restored to citizenship.

"Monk's" life history is the story of a "come back." In the old days he was an opium addict, burglar, creature of the slums with ever a "gun" on his hip. In 1917 he finished a term for burglary and in October of that year enlisted, no questions asked. To the war, which has made heroes out of cowards, strong men out of weak, went "Monk." When the 27th division

took its place in Flanders "Monk" was there. When the gallant New Yorkers swept forward against the Hindenburg line—and cracked it—"Monk" was in the first wave. When comrades fell and stretcher bearers were needed, "Monk" volunteered. When carried to a British hospital wounded in the head while leading a bombing squad into the face of machine guns, "Monk" escaped to mount once more the firing step.

These and many more are the facts recounted in the petition signed by Colonel Franklin W. Ward and other officers.

CONGRESSMAN HARDY TO ADDRESS A. & M. STUDENTS

Special to The Times.
College Station, Texas, April 1.—Hon. Rufus Hardy, congressman from the Sixth district, will address the students of A. & M. College Friday evening, April 4, on the covenant of the League of Nations. Mr. Hardy has distinguished himself as a champion of the League. He has made a thorough study of its constitution and will give an interpretation of the document.

Notice.
Owing to the demolition of the building we have been occupying and our inability to secure suitable quarters immediately, we have soon to announce our new location. Wichita Studio, J. W. Nossett, Prop. 268-1

THOMPSON ELECTED MAYOR OF CHICAGO BY SAFE PLURALITY

By Associated Press.
CHICAGO, April 2.—Complete returns today from yesterday's municipal election showed that William Hale Thompson, republican, was re-elected mayor for a term of four years by a plurality of 17,600 over Robert M. Sweitzer, democrat, his nearest competitor and that the city voted "wet" by a majority of 247,228. Four other mayoralty candidates were in the field: Maclay Hoyne, Independent; John Fitzpatrick, labor; John M. Collins, socialist; and Adolph S. Carm, socialist labor.

The total vote for mayor was 688,361 out of a registration of 792,000. At the mayoralty election four years ago Thompson defeated Sweitzer by more than 17,000 votes.

Analysis of the vote for mayor indicates that Hoyne drew heavily from the normal republican vote while

Fitzpatrick cut into the democratic vote and that in west side democratic wards Sweitzer failed to poll the usual party vote.

INTER-ALLIED RED CROSS CONFERENCE IN SESSION

By Associated Press.
CANNES, FRANCE, Tuesday, April 2.—The first Inter-Allied Red Cross conference opened here today, the first session being addressed by Hon-

or P. Davison of New York, chairman of the American Red Cross, was coun-
cil.
The conference will continue for two weeks.

"RIGHT NOW" Banking Service Wins

The "swinging" of an oil deal oftentimes hinges upon the banker who is handling the finances. He must know immediately what his action in the case should be, for delay or hesitation might mean a loss of a fortune to the parties concerned. Specializing, as we do, in banking service for oil men, it is not only natural that we are best able to handle this peculiar banking business in the most satisfactory way. Some of the largest producers in the Burkburnett field are entrusting their finances to our care. Your account, too, will be greatly appreciated.

Our officers are experienced in oil business banking. The directors are influential men of Wichita Falls, and deeply interested in some way or another in the Burkburnett field. The combination is ideal to serve the oil men who desire complete banking service in this field—oil bankers plus men who know oil conditions here.

PLAIN ATTITUDE OF DEPARTMENT ON WHEAT GUARANTEE

Special to The Times.
WASHINGTON, D. C., April 2.—Several statements have recently appeared in daily and grain trade papers indicating that the Department of Agriculture is anxious to take charge of the work of carrying on a guaranteed price on the 1919 wheat crop. These statements misrepresent the attitude of the Department of Agriculture.

The Department of Agriculture, at this country entered the war, took a position that emergency food activities of a commercial nature should be directed by an emergency agency, and therefore participated in framing the Food Control Act giving the President power to create such an agency, food administration and its grain corporation were set up under law and they have handled the wheat guarantee from the best of their ability.

The secretary of agriculture has assumed until recently that these agencies could, without question, continue to handle the wheat guarantee until the emergency passed and the law ceased to be in operation. He still believes that it would be desirable for the grain corporation to continue to function and close out the matter. The corporation has gained much valuable experience during the war and should be able to deal with the problem as effectively as any other establishment. The recent wheat guarantee act seems to contemplate that the agency would continue to act. Among other things, it authorizes the President to use any existing agency or agencies and to utilize any department of the government, including, of course, the food administration grain corporation. It would be difficult for any other existing agency now to set up the requisite machinery, especially in view of the short time intervening before the 1919 crop movement begins; and even if it were to undertake to do so, some embarrassment would undoubtedly result, because two agencies, over a part of the period, would be dealing with wheat.

The task is one of great magnitude and the time is short. The secretary of agriculture recently, called to the President, pointing out the necessity for immediate action and urging that the present machinery, that is, the food administration grain corporation be maintained and utilized. As a matter of course, if the President should designate the department of agriculture as the agency to handle the 1919 guarantee, it would assume the task and discharge it to the best of its ability.

TO ASK CONGRESS TO PASS BILL FOR HOME LOAN BANKS

Special to The Times.
WASHINGTON, D. C., April 2.—The next congress will be asked to enact legislation necessary to the establishment of a system of federal home loan banks. A tentative bill has been prepared and has been mailed to all officers and committees of the U. S. League of Building Associations and copies can be obtained from the Division of Public Works and Construction Developments of the U. S. Department of Labor.

In its campaign to stimulate building activities the U. S. Department of Labor, in January, invited representatives of the U. S. League of Building Associations to a conference in Washington for a discussion of ways and means of increasing the usefulness of the building and loan associations. It was realized that these associations played an important part in the home building activities of the nation and it was the hope of the department of labor that their field of usefulness might be enlarged. Out of this conference came the movement in favor of a national system of home loan banks through which these associations might rediscount their securities and make available for further loans a greater portion of their assets.

The chief work of the building and loan associations is lending money to home building association representatives, in the Washington conference, suggested that congress enact a law, permitting these associations to organize regional banks, capitalized by the associations and operated by them under government supervision. The purpose of this was to provide a regional bank which would perform for building associations a service similar to that performed by the federal reserve bank for the commercial banks, and by the federal land bank for the national farm loan association.

Owing to the congestion in important legislative matters in the last congress it was impossible to obtain consideration for the federal home loan bank project. The building and

THIRD TERM AT A. & M. IS FEATURED BY CHANGES

Special to The Times.
College Station, Texas, April 2.—Transfer to new dormitory quarters made necessary by the beginning of the work in the new Field Artillery unit and Signal Corps unit of the R. O. T. C. featured the opening day of the third term of the school year at A. & M. College. These new units have been in the course of organization for some time, but actual work in them just began yesterday. The majority of the students, however, are still cared for in the infantry unit of the R. O. T. C. A large number of new students have registered for the new term and ten additional former soldiers have been sent here by the War Department to refit them for civilian occupations following injuries received while on duty in the world war.

COMPENSATION ACT UPHELD BY COURT IN CLARENCE RAY CASE

By Associated Press.
HALLETTVILLE, TEX., April 2.—The power of the state workmen's compensation act was upheld by a jury in the district court here in the suit of the Southern Surety Company to set aside the findings of the industrial accident board in the case of Clarence Ray, an oil driller.

Ray was injured in June, 1917, while working as assistant well driller for the Star Oil Co. near here. He was insured under the workmen's compensation act by the Southern Surety Co. At a hearing before the industrial accident board Ray was awarded a lump sum settlement for his injuries. The Southern Surety Co. appealed the case to the district court, and the case was tried before a jury.

The questions were whether or not Ray was totally permanently incapacitated by his injuries and whether

or not settlement should be made in a lump sum or a weekly award. The amount of his average yearly earnings and for how many weeks not exceeding a certain number, he should be allowed compensation.

The jury returned a verdict that Ray was totally permanently incapacitated and that he should be awarded a lump sum settlement instead of a weekly award; that his average yearly earnings were \$1248, which would make a weekly average of \$24, and that he should receive payment for 400 weeks.

AUSTRIAN IS DENIED CITIZENSHIP PAPERS

By Associated Press.
PORT WORTH, April 2.—Jacob Sabat, Austrian, is a man without a country today. United States District Judge Wilson refused to admit him to citizenship yesterday, though Sabat, five years ago, swore his allegiance to Austria. Judge Wilson, however, was told in court that Sabat escaped military service for Uncle Sam by claiming he was an alien. His questionnaire was filed out to that effect, though he had applied for American citizenship. Sabat is a miner.

An English electric fan intended to provide intermittent air current has blades which turn on their axes as they are revolved.

PLANNING TO SPEED-UP GOOD ROADS BUILDING

By Associated Press.
Washington, April 2.—Adoption of the plans to expedite highway construction under the enlarged program recently authorized by Congress, are expected to result in more miles of roads being constructed this year than in any previous year in the nation's history. Secretary of Agriculture Houston announced in a statement

issued today. If all states take advantage of the opportunity offered and make available for road buildings sums equal to those apportioned by federal road officials, a total of \$843,800,000 may be expended.

BORDER GOVERNORS TO HAVE MEETING AT LAREDO MONDAY

By Associated Press. LAREDO, TEX., April 2.—Matters of international importance, principal among them being the betterment of conditions along the Texas-Mexican border growing out of the recent bandit troubles, will be discussed at the meeting here of the governors of Texas, Nuevo Leon, Coahuila and Tamaulipas, to be held on Monday, April 7.

The object of the meeting of the executives of the four states will be of manifold importance as an endeavor to bring about a more comprehensive understanding between the people of Mexico and Texas.

At this time the merchants of Mexico are trying to re-establish the business relations with the manufacturers and wholesale dealers of the United States, which existed between the two countries several years or before the revolutionary movement started in Mexico.

May Change Passport Rules. Unless some action is taken in the meantime, the governors of the Mexican states will urge Governor Hobby to use his influence in securing a change in the passport regulations which will permit of the Mexican merchants or their representatives crossing the border at will in their commercial intercourse with this country.

It is understood by those who are arranged for the meeting that the governors from Mexico will attend the meeting empowered with authority to act in any agreement made between the governors.

A report will be made on the activities of the Mexican government in putting a stop to the bandit troubles along the border, at the conference.

Bandit raids decreased to a minimum recently, the result of activities of the Carranza forces in an effort to drive those responsible for the trouble from the border.

SAVINGS SOCIETIES IN PUBLIC SCHOOLS OF ELLIS COUNTY

Special to The Times. DALLAS, April 2.—There is a War Savings Society in every room of the Waxahachie public schools and Ennis will be able to make the same report soon. Mrs. C. E. McDuffie of Ennis, chairman of the Women's Section, Ellis County War Savings Division, said the other day. Mrs. McDuffie was in Dallas conferring with Frank M. Smith, Federal District Director of War Loans, and D. W. Hume, Assistant District Director of the War Savings Division, on the progress of the Savings Campaign.

"Waxahachie is ahead of Ennis so far this year on War Savings societies," Mrs. McDuffie said, "but Ennis will also have a society in every school room in the near future. War Savings societies are also being organized among the older people as the 1919 savings campaign is an All-American movement—for every man, woman and child.

"One of the best organized schools in Texas is that of the little town of Garrett in Ellis county. Every child in that school is saving. The principal had special savings cards printed so that each child can keep account of what has been saved. There are four 'S' and 'A' stamps to show that enough has been saved to buy a Thrift Stamp. As the child deposits his nickels in the school bank, the 'S' on his card are punched.

"Children in rural communities are being urged to practice systematic saving. Those children owning chickens can use a regular percentage of their egg money to buy Thrift Stamps and soon have a good start towards a savings account. Others might ask their parents for one egg out of every dozen laid by the hens, sell them and buy Thrift Stamps and get started in that way. This is just a suggestion. If the boy or girl living in the country will think right hard, it will be easy to evolve ways of savings."

"WETS" JUBILANT RESULT OF VICTORY IN CHICAGO TUESDAY

By Associated Press. CHICAGO, April 2.—The pronounced wet vote in the election here yesterday was said by "personal liberty" leaders to mark the actual beginning of a campaign to repudiate national prohibition.

The wet vote was 291,260; the dry 144,022. From out of every five men voted wet and three out of every five women did the same.

The 35th ward returned the tremendous wet majority of 11,673 out of a total vote of 25,565. The trades union liberty league issued the following statement:

"Through the overwhelming defeat of the dries, Chicago has spoken in tones that will ring in the ears of those subservient law makers who have so cravenly surrendered the liberty of American citizens at the dictation of a clique of paid prohibition lobbyists.

"There will now be no let-up in the protest against prohibition tyranny until the freedom of the people has been fully restored to them. This is the message Chicago sends to congress."

On the other hand, E. J. Davis, Chicago superintendent of the anti-saloon league, said:

"I am not surprised at the result. We made no fight and asked no one to vote for a dry Chicago. To have done so would have been to dishonor the acts of congress. The efforts of Chicago wets to use Chicago results in effort to terrorize congress and the supreme court is little short of seditious."

The wet and dry election was planned for two years ago but court proceedings delayed it until yesterday. Meanwhile the presidential proclamation and the prohibition amendment

LONGHORNS TO PLAY CHICAGO WHITE SOX

AUSTIN, TEX., April 2.—On April 7 the University of Texas Longhorns will meet the Chicago White Sox on Clark Field. As has been announced the Sox have practically the same line-up as that of last year when they defeated the University squad by a score of 13 to 1. Coach William J. Disch is preparing his team for this second game with the hopes of doing nothing more than keeping the scoring as low as possible. The Longhorns are in fair shape, but are very weak on fielding and hitting. The pitching staff is considered a little better on the average than it was several days ago, because practically every man has been given a chance to show his worth.

It is very possible that Irwin Gillet, who made a name for himself last year in the box will be back on the first of April. If so, it is also a probability that he will be used in the White Sox game, and if not then

against a number of stiff intercollegiate teams to follow immediately after the contest. Frank Baker, who attended the University several sessions ago, has returned from the army, and is expected to be in condition before many days.

Raymond Murray has re-entered school, and will add another man to the catching staff. He was a second string catcher last year.

CONSTITUTIONALITY OF THE ALIEN LAND LAW QUESTIONED

By Associated Press. AUSTIN, April 2.—Governor Hobby has asked the Attorney General to give an opinion on the constitutionality of the alien land law passed by the recent session of the legislature.

The constitutionality of the law was questioned while it was being considered by legislators. It proposes that no alien who has not declared intentions of becoming a citizen may acquire land in Texas, and that alien now owning lands must become citizens in order to retain it.

You Can Truthfully Say That Some Things Are High In Wichita Falls But You Certainly Cannot Say It About Lots In SCOTLAND ADDITION

—WHY complain about the high cost of living when you can purchase a beautiful Lot—50 x 140 feet—within eight blocks of the Court House in the great Industrial Center of the Lifest City in Texas? We have surely solved the rent problem for you and now offer you nice, level, smooth Lots within seven minutes walking distance of the Business Center for the small sum of \$400—on good, easy terms. The lumber men have come out with a full page Ad telling you that they have Plenty of Lumber and are selling it cheaper than you can have it shipped in. Now you can readily see that with a small investment you can soon own a brand-new Home of your OWN and within less than a mile of the Post Office.

—YOU are certainly standing in your own light if you pass up the opportunity of getting one of these Cheap Lots. We defy any person to go on this beautiful Addition and state that the Lots are not Priced CHEAP. With the new Burnett Street Bridge, we are positive above High Water to and from the Addition, and our Lots are four feet higher in elevation than the business district. You can save \$300 on the construction of your Home by reason of the fact that there is no sewerage there at the present time, but REMEMBER, we Guarantee two miles of six-inch water main to be laid through the property, and all other modern conveniences will naturally follow the construction of houses. Contracts are already let for TEN NEW RESIDENCES, and in less than one month there will be over THIRTY Houses under construction in this Addition.

Scotland Addition Lots

are sold on the following terms: All Inside Lots \$400; all Corners \$500—One-third Cash, balance on or before Six, Twelve, Eighteen and Twenty-four Months, Eight Per Cent Interest. Five Per Cent Discount for all Cash.

—SEE us at once or call on your Real Estate Agent to show you the Unsold Lots as they are going FAST.

PROPOSE PLANT FOR CURING AND STORAGE OF SWEET POTATOES

A plant for the curing and storage of sweet potatoes is being considered as an industrial addition to Wichita Falls, the matter having been referred to the agricultural committee of the Chamber of Commerce with authority to act. If such a plant is established, it is generally believed it will bring a profitable investment to the city and at the same time create a buying source that will be welcomed here.

H. H. McConnell, South Carolina representative of the Southland Sweet Potato Curing and Storage association, presented the matter to the chamber Tuesday, offering an estimate of costs and profits on a 50,000-bushel, interlocking tile curing and storage plant, to be used in connection with the "Well's system." J. B. Wells, of Longview, Tex., is the inventor of a system of curing sweet potatoes and storing them in such a manner that they can be kept in good condition from 60 to 90 days after shipment. There are already 17 of these plants in operation in East Texas and Western Louisiana, and without exception they have returned big profits on the money invested.

Value is Urged.

Inasmuch as the United States department of agriculture issued a special bulletin last May declaring that the proper storage of sweet potatoes is one of the most important food conservation measures that can be put into effect in the Southern states, and adding that "no perishable product produced in the South is of as great importance as the sweet potato, and none so poorly handled," it is easy to realize the value of a modern plant to Wichita Falls.

A better idea of the financial value of the plant suggested by McConnell can be obtained from a study of the following table of costs and profits submitted to the agricultural committee of the Chamber of Commerce:

Purchase price, turnkey job, ready for operation.....	\$30,000
Estimated cost, 50,000 bu. potatoes at digging time, \$1.00 per bu.....	50,000
Total investment.....	\$80,000
Operating Expenses:	
10 laborers, \$3 per day, 20 days, to fill same.....	600
10 laborers, \$3 per day, 20 days, to unload same.....	600
10 cords wood, artificial heat, \$5 per cord.....	50
Electric bill, motor to pull fan 30 days.....	500
Insurance on plant 12 months.....	2500
Insurance on 50,000 bu. stock 5 months.....	2500
Manager 6 mos. of year, \$150 per month.....	900
Loss from rot and shrinkage.....

A WHOLE LOT IN A NEW LOT OF CANDY

Not only a new lot of candy but a whole lot of it. So important is our candy trade, so big is the candy demand, that we are continually buying because we want it always new, and now we are buying bigger than ever before because we want enough to supply you all.

In Crane's and Elmers, we certainly have the two best lines of candies that it is possible to produce.

TRY SOME ELMER'S PRALINES. ALWAYS FRESH.

First Attention to All
Orders for the Sick.

Palace Drug Store

Special Attention Given
Our Prescription Dept.

50,000 bu. 5 per cent..... 2500
Interest on \$50,000 at 8 per cent for 6 months..... 2000
Interest on \$30,000 at 8 per cent for 12 months..... 2400

GRAND TOTAL.....\$4,550
Wholesale price sweet potatoes as per Dallas News, March 30, 1919, 7 cents per lb., or \$3.85 per bu., f.o.b. Dallas.
Conservative estimated selling price 50,000 bu. sweet potatoes in March, April or May, 8 cents per lb., or \$4.00 per bu.
Total plant, stock and curing costs.....\$4,550

Net profits.....\$42,950
If the plant is established here, it will provide not only a market for local farmers but will deal directly with Louisiana growers. On the selling end of the plan the state of Colorado alone is an annual market for sweet potatoes that has never been satisfied, owing to inability to ship the production with any guarantee of good condition.

BOARD MEETING OF Y. W. C. A. POSTPONED

Postponement of the regular monthly meeting of the Young Woman's Christian Association Board from Thursday morning, April 3, to Tuesday morning, April 8, is announced today by Mrs. W. W. Silk, president. The postponement is made necessary because of the delay in arrival of Miss Kirk, the secretary from Chicago. The meeting will be held next Tuesday morning at the library, and at that time Miss Kirk will have important reports of the cafeteria, which is to be opened immediately, and also on the home, which the association is preparing to build in this city.

LLOYD GEORGE WILL NOT LEAVE PEACE CONFERENCE

By Associated Press.
PARIS, April 1. (Havas.)—Notwithstanding the delay in reaching an agreement on the preliminary peace treaty, Premier Lloyd George, the Paris edition to the London Daily Mail says, does not intend to return to England before the questions are adjusted in spite of his desire to attend the closing meetings of the labor conference.

BANKER DIES FROM NERVOUS BREAKDOWN

By Associated Press.
LOUISVILLE, Ky., April 1.—Frank Getz, vice president of the Citizens' United National Bank of Louisville, died at his home here last night, the indirect result of a nervous breakdown. He was well known throughout the south.

OVER EIGHT INCHES OF RAINFALL SINCE FIRST OF JANUARY

Nasty weather, isn't it? Vile, neighbor, perfectly vile; nothing but rain, rain, rain, morning, noon and night. But, Oh brother! think of the bumper crops that will be gathered from the soil of West Texas in the glorious, peaceful year of 1919! If it doesn't rain another lonely drop between now and labor day, there is enough moisture now in the ground to produce splendid crops, according to W. A. Allen, district weather forecaster.

Mr. Allen was correlated today in the Kemp & Kell building, and asked to produce the rainfall statistics for the first three months of this year: "Dum," he mused, poring over the records. "In January we had three and five-tenths inches of rain, in February one and two-tenths and last month three and five-tenths inches again; a total of eight and two-tenths inches of grand old rainfall thus far in 1919. The rains of last fall, however, are what fixed the soil for the farmers of West Texas; got right down into the ground, coddled the wheat and fixed everything in bully shape.

"Oil is great stuff, but there's nothing that makes the old world run any smoother than bumper crops of the things that man puts into his stomach. Any weather forecaster may fall occasionally as a prophet of the weather, but I'll stake my reputation on the prophecy that the farmers of West Texas are going to have a big year in 1919."

For choice close up leases out of block 102, Vancleave lands, see W. M. Priddy, 408 Kemp & Kell, Phone 71. Residence phone 1756.

AUSTIN RAISES FUND TO MAINTAIN THE U. S. EMPLOYMENT SERVICE

By Associated Press.
AUSTIN, April 2.—A fund has been raised by subscription in Austin to maintain the United States employment service here during the months of March, April, May and June. Owing to the failure of congress to pass appropriation bills for the support of the service, and the failure of the Texas legislature to meet requests for an appropriation to maintain the service in Texas until congress reconvened, the raising of funds developed upon citizens and city organizations.

The director of the bureau here says that several other cities have also raised funds to continue the service.

ARCHANGEL, Sunday, March 30.—Four officers and 18 men of the Ameri-

can forces in northern Russia have been decorated by the British government for gallantry in action in the campaign about Shengkursk in January and in the fighting about Kadish. Most of the men are from Michigan and Wisconsin.

Sergeant V. B. Roger of Plainview, Texas, received a meritorious service medal for valuable services throughout the campaign along the Dvina.

The Daily Times Want Ads Do Double Duty

COFFEE THE STAFF OF LIFE

DURING the hacking struggle the French found Coffee the most sustaining stimulus food.

IT WAS the "staff of life" in the trenches, and the whole West Front where the Allies performed such immortal deeds to save Freedom and Civilization. Shells, poisons, and Coffee saved Verdun.

COFFEE is winning its way through the world as the benevolent autocrat of the breakfast table.

TO NOURISH, sustain, uphold the zest of life, the fighting edge, nothing approaches this favorite beverage, of the World's Greatest Brain Workers, from Napoleon, Balzac, Zola, to Joffre and Foch.

AS COFFEE comes in Alcohol goes out.

IT IS THE cheapest food product—at little over a cent a cup.

THE EVER increasing demand causes great improvement in culture and blends. The Coffee of tomorrow will be real ambrosia.

FRANCE is shaped like a Coffee pot and saved the World. It is a Symbol.

Sergt. of Ord., RALPH P. BALZIC,
