Prospective Residents Of South Plains Area Show Interest; 4,500 Answer Previous Advertisements

The advertising committee of the Board of City Development, which is managing the campaign of the South Plains Inc., spent practically all of Tuesday in conference with a representative of the Tracy, Locke and Dawson Inc. advertising agency, of Dallas, planning the fall advertising schedule of the organization.

To date over 4500 inquiries have been received in this city in answer to advertising of the South Plains. Hundreds of the inquirers have written the Spokesman stating that they are coming to the South Plains this fall and that the attractive word pictures painted are largely responsible for their decision. Officials of the organization, who have been in communication with prospective residents, state that many of them have money to invest and are looking for a location on the great South Plains of Texas. In fact, the tide has already started this way and only last week several prospective farm purchasers were in this city seeking additional information as to the advantages and opportunities offered in this section.

The staff of the Board of City Development is working on the plan.

Accident Victim Wards Off Death

Condition Of Alvin Risinger Slightly Improved Tuesday As Meningitis Symptoms Appear Less

Last reports from the sanitarium early this morning stated that the condition of Alvin P. Risinger, 20-year-old Texas Tech student, was practically unchanged with symptoms of meningitis apparently less than Monday. His temperature, however, continues high.

Physicians last night held but small hope for him though he has held on to a tiny spark of life since Sunday night by the possession of a strong body strengthened by outdoor labor and clean living.

The condition of Joe Lowmire, also seriously injured in the same accident with Risinger, was said to be somewhat improved. Lowmire was struck by Risinger, who was riding a motorcycle, and sustained a broken leg in three places.

Young Risinger, whose mother died two months ago and whose father has been dead for several years, has been living in Lubbock with his brother, L. V. Risinger, 1906 Avenue O.

Crisis In Hague Conference Shown

The seriousness of the crisis facing the European conference was brought today by the attention of all delegates today by German action in requesting a conference to determine what she must pay after September 1, if the Young plan is not accepted.

It was considered that Dr. Gustav Stresemann, German foreign minister, had served notice that the German government had better come to a quick agreement because, in any case, Germany would not pay more than the Young plan calls for.

Dr. Stresemann addressed his suggestion for a conference to Premier Jaspars of Belgium and it was immediately accepted by the six chief creditor nations to determine what she must pay after September 1, if the Young plan is not accepted.

Eighteen-Month-Old Boy Is Drowned In Tank

(Special To The Avalanche)
LAMESA, Aug. 20.—Funeral services for the 18-month-old son of Mr. and Mrs. E. L. Whimire, living 7 miles west of her in the Ballard community, were held here today with the Rev. S. C. Shipley, pastor of the Key Baptist church, officiating. Interment was in the Lamesa cemetery.

Death came to the child when he was drowned in a small concrete watering tank near the home.

NEW YORK, Aug. 20.

Main Crute, veteran journalist and playwright, died today at the age of 66 years.

Today's Worst Hard Luck Tale

Moral: Get your money's worth or no pay.
Two Lubbock men Tuesday afternoon drove rather hesitatingly up to a shack in Little Juarez, Mexican quarter, and after a few glances around to see that they were not watched, ordered 10 bottles of the home manufactured brew.

The Mexican understood and nodding his head with a wide smile, disappeared into his shack to return shortly carrying a large paper sack. This he put on the ground and one of the men handed him \$2.50.

But — at such an inopportune time, Officer H. B. Brown, of the city police department, happened along and it was the "jail-house now."

The luckless Lubbock men lost their money and after an investigation of the contents of the sack it was revealed that each bottle of "brew" contained only a half portion.

No Clues Develop After Levelland Stations Robbed

Identity Of Burglars Is Still Unknown Although Officers Stage Diligent Search; \$70 Taken

Though officers have searched diligently they have been unable to find a single clue as to the possible identity of the robbers who, early Tuesday morning, looted five automobile service stations and one lumber company's office at Levelland and escaped with items aggregating over \$70.

Authorities are of the opinion local boys are implicated in the robbery, according to information reaching here Tuesday night.

Open Cash Drawers

Securing several tools from the West Side Garage, where about \$2 were stolen from the cash drawer, the burglars used the stolen implements in creating entrances and securing cash drawers or safes in other buildings.

Entering through the side door, the thieves robbed the Houston Motor company's cash drawer of \$54, the biggest haul of the six attempts.

\$40 Overlooked

Five dollars were stolen from the safe at the King Motor company's office, when the money container was beaten with the tools. The burglars overlooked \$40 in a cigar box in the safe, stealing the money which was lying open.

Cash drawers of the Foxworth-Galbraith Lumber company was opened.

Seek Relief For Crowded Prisons

WASHINGTON, Aug. 20.—(AP)—Moves toward relieving congestion in Federal penitentiaries were discussed today by President Hoover and Attorney General Mitchell.

The first, as announced by the president, contemplates the use of three military prisons until completion of the pending \$6,250,000 construction program. Subsequently the attorney general said the budget bureau had received that program calling for a new penitentiary in the northeast, an industrial reformatory in the west and three short-term jails in sections yet to be selected.

President Hoover in conference with Secretary Good and Mr. Mitchell decided that the disciplinary barracks at Fort Leavenworth could be turned over to the department of justice temporarily.

JURY DEADLOCKS

Jurymen Fail To Agree In Civil Suit Here

The case of Mrs. Lula Morris vs. T. C. Galley et al, being tried Tuesday in the court of County Judge Robert H. Bean, resulted in a hung jury.

The case of W. A. Summitt vs. Joe Hilton, a suit pertaining to the sale of an automobile, is scheduled to go to trial today.

Authorities Investigate Air Derby Death

'Spokane Sun God' Completes Flight Across Continent

Pilots Nick Mamer and Art Walker Arrive At Home Port After Making First Non-Stop Round Trip Hop

(By Associated Press)
FELTS FIELD, Spokane, Wash., Aug. 20.—Nick Mamer and Art Walker landed the Spokane Sun God at 5:59:40 p. m. (P. S. T.) tonight, the first fliers to complete a round trip non-stop flight across the continent.

The two men brought their plane to earth after having been in the air for five full days, during which they traversed 7,200 miles, the greatest lineal-mile distance ever completed. The flight was ended about four hours after they arrived over Felts Field from Missoula, Mont., where the last refueling contact was made.

Mamer was at the controls when the plane touched the ground. He taxied down the field for several hundred feet and Walker jumped from the cabin into the arms of a pressing crowd. Nick taxied the ship to a reviewing stand erected on the field before he alighted. Both men appeared to be in excellent physical condition, but both were unable to hear ordinary conversation.

A telegram from President Hoover was read through a microphone. The small Buell sesquiplane, powered with a Wright whirling motor, developing 300 horsepower, left Spokane last Thursday night at 5:58:10 p. m. (P. S. T.) and winged toward San Francisco, near where the first refueling contact was made.

From Mills field they turned eastward on the lighted transcontinental mail route, refueling successfully at Rock Springs, and Cheyenne, Wyo.

Former Ohio Professor Is Sentenced To Die In The Electric Chair November 29 For Slaying Co-Ed

(By Associated Press)
COLUMBUS, Ohio, Aug. 20.—Sentenced to die in the electric chair November 29 for the slaying of Theora Hix, co-ed of Ohio State university, Dr. James H. Snook entered death row at Ohio penitentiary today.

Judge Henry L. Scarlett denied a motion for a new trial and scarcely would be taken under the new Ohio criminal code the bill of exceptions must be filed within 30 days.

The basis for the petition for a new trial was that the jury had not been properly sequestered and consequently was biased. It brought in a verdict of first degree murder after 28 minutes of deliberation. The judge described that charge as based on "vague rumors."

PRISONERS RETURNED

Swindling and Theft Counts Face Two Men Here

Chief Deputy O. B. Conley returned late Tuesday evening from a trip to Big Spring and Snyder where he took charge of two men being held in jails in those two cities for Lubbock county offenses.

One man, Paul Pinkston, brought from Big Spring, was released here Tuesday night on \$250 bond following the filing of swindling charges in connection with the passing of a bad check for \$25.50 to the Cities Service Oil company of this city.

The second prisoner, D. Bolt, negro, arrested in Snyder, was lodged in the Lubbock county jail, charged with theft.

STOLEN CAR FOUND

Roswell Auto Recovered By Local Police Officer

A 1928 model Ford coupe, owner unknown, stolen at Roswell, N. M., Monday night, was recovered in Lubbock Tuesday by Motorcycle Patrolman J. D. Johnson.

The car, when found, was all intact and to all appearances the thief had abandoned it after driving from Roswell. Nothing was reported missing.

LUBBOCK, Aug. 20.—A dangerous tension continued today in Manchuria without the slightest indication of a truce holding any prospect for reopening the suspended negotiations between China and Russia on the Chinese Eastern railway.

Diplomatic advice today said all was quiet in the vicinity of Manchuria, so much so that Japanese residents who had fled at the prospect of war were returning.

Charges Made

Charges and counter charges brought by both China and Russia are increasing in bitterness but are thought to be intended largely for foreign consumption and to justify in the eyes of signatories of the Kellogg Anti-War pact their refusal to resume negotiations.

TOKYO, Aug. 20.—(AP)—Charges and counter-charges of invasions and other provocations in the Russo-Chinese situation today were brought to the official notice of the Japanese government when the Chinese minister, Wang Yung-Pao, laid a full account of Russia's alleged aggressions before H. Artil, chief of the Japanese Asiatic bureau. Wang asserted that the Nationalist government had launched a campaign of border aggression August 16.

Melvin E. Hill, 7-months-old son of Mr. and Mrs. J. M. Hill, 1402 Avenue E, died Monday morning at 10:30 o'clock at a local sanitarium following an illness of several days.

Funeral services will be held this afternoon at 4 o'clock at the home of the child's grandmother in Brownfield with arrangements in charge of Bynum Brothers of Lubbock. Burial will be in the Foster cemetery.

The father and mother are the only survivors. Mr. Hill is an employee of the Sanitary Barber shop.

TANOKA, Aug. 20.—Lynn county received the first bale of 1929 cotton today, brought in by J. A. Propst, of Grassland. It weighed 500 pounds and brought 20 cents. A premium of \$50 was given by Tanoka business men. The bale was broken by C. A. Braxfield, manager of Forrest Lumber company.

Three Are Forced Down, One Killed By Motor Failure

Sixteen Women Pilots Are Safe At Douglas After Covering Third Lap Of Race; Mrs. Thaden First

(By Associated Press)
DOUGLAS, ARIZ., Aug. 20.—While sixteen fliers covered the third lap of the Santa Monica-Cleveland women's air derby today authorities investigated motor failures which caused the death of one racer and forced three others down.

Mrs. Louise Thaden, of Pittsburgh, Tenn., led the two classes of fliers into Douglas.

Mrs. Thaden had an unofficial elapsed time for heavy craft at 5 hours 13 minutes and Miss Omile led the light craft with 6 hours 24 minutes and 27 seconds.

Fall Causes Death

The death that gave an aspect of tragedy to the race was that of Miss Marvel Crosson of San Diego, whose plane fell late yesterday in the wilds near Wellton, Arizona.

Sheriff William Shea, of San Bernardino, acting on the request of Cleveland race officials, started an inquiry to determine if any of the planes had been tampered with there.

Arrivals Given

The other arrivals at Douglas were: Gladys O'Donnell, Long Beach, Calif.; Florence Barnes, San Marino, Calif.; Ruth Nichols, Rye, N. Y.; Amelia Earhart, Boston; Ruth Elder, Los Angeles; Blanche Noyes, Cleveland; Neva Paris, Great Neck, N. Y.; Margaret Perry.

Thrill Of Life Time Given Lad

MINNEAPOLIS, Aug. 20.—(AP)—The thrill that comes once in a life time was enjoyed today by Marshall Newton, son of Walter H. Newton of Minneapolis, secretary to President Hoover.

Mrs. Hoover made the thrill possible for Marshall on his ninth birthday as he lay on a cot at a hospital here recovering from amputation of a leg crushed in an accident recently.

A large package bearing the official mark of the White House at Washington was brought to Marshall by a nurse. Opened, the box revealed a big piece of cake, a strange looking board with some pegs stuck in a design formed by holes and a letter.

The letter was a personal note from Mrs. Hoover and explained the piece of cake was from President Hoover's birthday cake and the board and pegs were a puzzle which kept Col. Charles Lindbergh guessing for most of an afternoon.

New Highway Seen For Lubbock With O'Donnell Confab

Commissioners Of Borden, Lynn, Gaines and Lubbock Gather Tuesday To Talk Over Road Problem

(By AL HILL)
O'DONNELL, Aug. 20.—Work was accomplished here today towards strengthening another spoke, leading into the "Hub of the Plains" when about 50 men, representing chambers of commerce and county commissioners of the counties of Lynn, Gaines, Borden and Lubbock met to discuss road matters and later to motor over the proposed route of another state highway.

The projected state highway now exists as several units of several county roads, ungraded and unkept, but leading towards Lubbock from Gall, Borden county, for a saving of some 25 or 30 miles over present designated highways.

As proposed, the new highway would lead from Gall, for eight miles west over highway number 83, running northward up over the cap rock through the community of Freeway, Borden county, and Draw, Lynn county, continuing straight northward through the eastern part of Lynn to intersect highway number 7 at a point between Slaton and Southland.

Another branch of this highway is proposed to be two counties west from the one outlined above, to O'Donnell.

Hundreds Combat Oklahoma Flames

BROKEN BOW, Okla., Aug. 20.—(AP)—Approximately 100 men today fought against more than a score of scattered forest fires in LeFlore and McCurtain counties, with no relief in the form of rains, in sight.

Thousands of acres of second growth timber have been stripped in the pine forests, and five new blazes were reported today.

Of the many fires scattered throughout the two counties, only 11 were considered major conflagrations, and of this number some either were under control or were expected to be under control by tomorrow.

The most serious of the new fires reported today was northeast of Eagle Town, where the blaze swept through two sections of timber, and still was raging out of control tonight.

NO CLUES FOUND

Burglary Of Local Home Is Still Unsolved

No clues had been discovered last night by local police as to the identity of the robbers who, sometime during the week-end, broke into the residence of Mrs. M. C. Bruce, 1914 Avenue M, and stole clothing valued at \$56.

No one was awakened when the burglary, the fourth in this city, during the week-end, occurred at the Bruce residence. All the clothing was the property of Miss Edith Bruce.

Kurt Luescher And Oscar Kaesar, Scarcely More Than Boys, Disregard Navigation Ignorance

French Land Plane Is Last Seen Over The Azores On Tuesday Afternoon; Will Burn Beacons All Night

(By Associated Press)
NEW YORK, Aug. 20.—Two Swiss fliers, scarcely more than boys were overdue tonight in their attempt to conquer the westward crossing of the north Atlantic.

Blithely disregarding the fact that they knew next to nothing of navigation, Oscar Kaesar and Kurt Luescher took off from Lisbon early yesterday morning and headed their white monoplane for the far coast across the waves.

Passed Azores
They flew over the Azores at 1 o'clock, Eastern Standard Time, in the afternoon. After that no ship at sea sighted them and today passed without any report of their whereabouts. It was foggy along the coast and if they reached New Foundland and Nova Scotia they were not seen.

Judging from their speed as far as the Azores, the Swiss fliers should have reached New York at 4 o'clock this afternoon.

Slight Hope Held

Field officials decided to burn the beacons all night, but there was small belief that the fliers would arrive.

The plane was a French land plane with no equipment for landing on the water.

Graf Zeppelin To Takeoff Thursday

Giant Dirigible Is Being Refueled In Preparation For Flight Over Pacific To Los Angeles

(By Associated Press)
TOKYO, Aug. 20.—Illuminated by great lights by which more than a hundred Japanese naval mechanics refueled her, the Graf Zeppelin was almost ready tonight for its trans-Pacific flight to Los Angeles.

The dirigible's departure remained fixed for 4 a. m. Wednesday, E. S. T. Reports tonight from the Japanese weather bureau were that favorable conditions would reign for several days.

If the Graf averages as fast a passage over the Pacific as over Europe and Asia, she should reach American territory Saturday and sail over Los Angeles early Sunday.

It was officially indicated that Dr. Eckener intended to follow the Great Circle Steamship route.

It was revealed tonight that in view of the Graf's impressive and unexpected speed record from Lakehurst to Tokyo her officers were hopeful of beating the record for traveling around the world held by J. H. Mears and C. B. D. Collyer with 23 days and 15 hours.

Society Girl Returns To America Penniless In Borrowed Clothing

MOSCOW, U. S. S. R., Aug. 20. (AP)—Miss Mary Van Rensselaer Cogswell, New York society girl, has arrived here temporarily penniless and in borrowed clothing after a series of adventures in which she tilted with European officialdom with true American abandon. With her was Mrs. Mabel Ingalls, also of New York, who had shared most of the adventures. The climax came when Miss Cogswell was thrown into jail as a spy.

At the start of the recently concluded American tour of the Soviet Union, Miss Cogswell gained a small niche in the hall of fame by being the first person ever to pass openly a Russian visa. She had started without going through the formalities rather than miss the tour and succeeded in wheedling entry out of border officials.

Both women left the delegation at Tiflis, Georgia, and made their way into Armenia with the intention of becoming the first of their sex to climb Mount Ararat, a 7,000 foot peak that few men have succeeded

in surmounting. They were saved their strength, however, by the refusal of both Turkish and Persian governments to permit them to try it.

They attempted to make their way through the Caucasian mountains, in the main Caucasian range in Southern Russia, on horseback. But were arrested by the political police in Kutais for taking photographs without permission. They were detained two hours until the police established they were members of the American party.

Their horses being exhausted after a 50-hour journey, the women hired a motorbus for \$75 to take them to Vladikavak. To offset this expense they picked up passengers on the way and collected \$55 in fares. Miss Cogswell acted as conductor and Mrs. Ingalls as chauffeur.

The only real tragedy of their Odyssey came when they were journeying to Moscow on the regular railroad train from Vladikavak. Miss Cogswell's passport, jewels and several hundred dollars in currency were stolen.

Everyone is looking today for a comfortable "place in the sun." It means something—that expression that has been used so long as a synonym for ease and prosperity. Sunny places are warm, friendly, and grow strong after a few weeks spent in the sunlight and open air.

It's a proven fact that sunlight is one of the world's best tonics for the body; that it fills it with strength and energy. Children with rickets, whose lives have been spent in sunless city tenements, flourish and grow strong after a few weeks spent in the sunlight and open air.

Anemic people, with low blood pressure, consumptives and tubercular patients grow well in open-air sanitariums where they are exposed to the sun's direct, health-giving rays each day. Physicians the world over are realizing anew each year the marvelous curative and hygienic values of sunlight—plain, ordinary sunlight that used to be so taken for granted.

Like all good things, excess is unwise. Strong sunlight is dangerous—over-exposure to the burning violet rays destroys skin tissue by its violent, painful burning. But a moderate amount of general exposure is good for health and good for beauty.

Outdoor, sun-kissed people seem to hold within themselves some of the warmth and good cheer and energy of the sun. They radiate wholesomeness, happiness and comfort. And recently these things have come to be recognized as important phases of beauty. There is a new ideal of beauty—grown up quite lately. It is based almost entirely upon the glow of health and richness of personality. Languorous, indoor, sheltered

Indies are quite out of date as beauty. The modern beauty may not be "wealthy," but she must be "healthy and wise."

One kind of beauty bath that has not received half enough recognition is the sun bath. Sun baths bake out the body's poisons, cleanse it of fatigue, fill it with new vitality. If you've never tried it before, begin to bathe in the sun this summer. Put olive oil or a protective skin and lie out in the sun. Shade your eyes, too, from the glare. Lie on the beach or on a grassy lawn in the country, or on your rooftop in the city. But lit in the sun—and soak up health and beauty.

John T. Whiteley, who recently died at Barmley, England, had served 60 of his 73 years as chorister of the parish church.

Relief from Gas Stomach Pains Dizziness

The doctors tell us that 90 per cent of all sickness is due to stomach and bowel troubles. You can't be well if your digestion is bad; you are likely to get sick unless you eat food and digest it properly.

Tanlac has a wonderful record as a relief from digestive troubles, even those of years' standing.

Mr. James F. Campbell, of 1112 W. Fifth St., Little Rock, Ark., says: "I had bloating after eating. My rheumatism was so bad I could hardly raise my arms. Now I can eat anything and do a good day's work."

If you suffer from gas, pains in the stomach or bowels, dizziness, nausea, constipation, or torpid liver; if you have no appetite, can't sleep and are nervous and all run down, you need Tanlac. It is good, pure medicine, made of roots, herbs and barks. Get a bottle from your druggist today. Money back if it doesn't help you.

The Woman's Day

Women are the impulsive sex, they say, also the least well-informed on matters of general information. But the other day one of the Deans of Fort Worth, Texas, read in the papers of a divorce granted a woman of the same name as his wife, Estelle Evington Dean. He killed himself. His widow learned that another woman by the same name had obtained the divorce.

GRAND OLD LADY

Madame Putzcaro defied the French government when it begged her husband, the former premier, to reconsider his plea to resign because of his health and age. He has done so, but freedom from responsibility in his later years.

"A wife has a right to some of her husband's life," ultimatum the madame to the criticism of many who urged that a really great wife would yield up her personal life to her country.

This is just some more of the trunk women have been fed from time immemorial so that the male could do as he pleased. It's in the same category as "I could not love more" so much loved I not honor more."

I'm glad the old lady showed her vim feathers!

MOGLI'S NAMES

Anna Pennybacker, daughter of the former governor of Pennsylvania, was arrested in a strike demonstration the other day which reminds us of the many famous persons arrested in Sacco-Vanzetti demonstrations. A big name is sure-fire publicity stuff for the workers cause, being a bit inconsonant with our general belief that big game never get arrested.

TRIANGULAR DIVORCE

Truancy is one great result of divorce and broken homes, according to the attendance director, as the modern truancy officer system is being tried in one of our large city school systems.

The other day after months of bitter wrangling between her maternal and paternal grand-parents little nine-year-old Irene Vivian Bever heard a judge decree that she set of grand-parents should have her during the school year and the other set for summer vacations and all holidays.

Tales of how one grandmother criticized the other grandmother to the child even refusing to let her appear in any of the rashes she wore when she came and so on, were told.

EASY WAY OUT

Because an early modern adults are caught in the grip of divorce, human sophistry finds a refusing to find flaws in it. Our modern viewpoint coming to the fore more and more is that children really suffer very little from the broken home, and that all our hogboons on that subject are needless.

But more often we realize how true this real argument against divorce really is!

Pensioners Under Seventy-Five Not To Receive Funds

State Will Not Give Check At Expiration of Present Quarter On August 31, Announcement Says

AUSTIN, Aug. 20. (AP)—Confederate pensioners under 75 years of age will not get a check from the state at the expiration of the current quarter on August 31.

Veterans placed in the "preferred class" by the 41st legislature will get \$7 for the quarter instead of \$5, which the new law stipulated they should receive, because there are insufficient funds available under the seven cents constitutional limit level to go around, State Comptroller E. H. Terrell said.

Skip Younger Vets
Wearers of the Gray who are not 75 will get nothing. Widows of veterans who are 75 years of age and over will get the same amount as men in the preferred class, but younger widows will get nothing for the quarter.

The attorney general had held the available funds must be prorated among those on the preferred list, when the balance in the treasury is insufficient to pay the favored ones the full \$5 monthly for the quarter. Those not on the preferred list can participate only when there is money left after the 75 year olds have been paid off.

New Tariff Rates Cause Criticism

WASHINGTON, Aug. 20. (AP)—Accompanied by fiery criticism on the part of democrats as well as some republican independents, and minority threats of another attempt to keep the revision limited to agriculture, the house tariff bill rates as revised by the senate finance committee republicans tonight were made public.

Carrying approximately 360 increases and reductions from those adopted by the house, the committee document, two months in the making, simultaneously was submitted to the senate finance committee democrats.

Under an agreement between party leaders the measure will not be taken up in the senate until September 4, as additional time will be required by the committee to make changes in administration provisions.

The more important rate changes proposed by the eleven republican members included a reduction in the house sugar duties, although still an increase over present rates; increase to \$1.50 in the \$1.12 1-2 a ton rate on pig iron and restoration of the present 31 cent duty on raw wool, which the house raised three cents a pound.

PRODUCER INDICATED

Second Heavy Well Likely In Pecos County

SAN ANGELO, Aug. 20. (AP)—A second heavy producing shallow oil field in Pecos county was indicated today when Taylor-Link Oil Company's No. 2, University flowed 135 barrels of oil hourly from 1,825 feet, ten feet in the pay. It is the third producer in Pecos county's fourth pool twenty miles west of Yates field. It was opened June 1 by Taylor-Link's No. 1, University, but today's well is the first big producer. The discovery well is pumping an average of only 115 barrels daily. The new well is in the northwest corner of section 31, block 16, and is a south offset to the discovery well.

TO OPEN OFFICE

Western Union Will Locate In Canyon Soon

(Special To The Avalanche)
CANYON, Aug. 20.—Boone Jenkins of Amarillo, district manager of the Western Union will open a down town office in Canyon within a very short while. Mr. Jenkins was in Canyon Friday and made a survey of the city. He stated that approval must be made of the general offices in New York before definite action would be taken, but he expressed himself as highly pleased with the result of the survey, and felt confident that there would be no hitch in the plans.

Mexico And U. S. Lawyers Will Aid

MEXICO CITY, Aug. 20. (AP)—The lawyers of Mexico and the United States are called upon to steer the mutual relations of the two countries along a path of justice and cordiality. Dwight W. Morrow, American ambassador, stated in a speech at a luncheon tendered him by members of the Mexican bar prior to his departure today for the United States on a vacation trip.

Law is the basis of relations between peoples, as well as individuals, the ambassador said, and therefore the lawyers, as experts in this field have a large responsibility on their hands.

Jenaro Fernandez MacGregor, president of the Mexican bar, voiced the hope that the good relations between Mexican and American lawyers, which have been furthered by Mr. Morrow, would lead to a close union of the two professional groups.

The new air service connecting Panama, Nicaragua, Honduras, British Honduras and Cuba is said to be a success, and will be extended to Trinidad and San Juan.

The president of the United States' flag consists of his seal in round, upon a blue background, with a large white star in each corner. The design of this seal may be seen in the floor of the entrance corridor of the White House.

Dog Aids Master Burglar Caught After Hold-Up

NEW YORK, Aug. 19. (AP)—A policeman's dog helped his master catch a burglar today.

Patrolman Leo Williams, off duty and in civilian clothes, saw the robber run from an Astoria delicatessen after holding up the proprietor. Williams had his dog, a Collie, with him and together they took up the pursuit. The robber ran down an alley, turned, and levelled his gun at the policeman. The dog sprang at the robber and threw him off balance. Williams then tackled him and seized the pistol.

"LOVE POTION" GIVEN

Mexican Held In Jail When Sweetheart Goes Insane

MEXICO CITY, Aug. 20. (AP)—Adelberto Patino Gomez, according to a confession he is alleged to have made to police, administered a "love potion" obtained from a fortune teller to Dominga Paredas, to make her care for him. The girl became insane and Adelberto was placed in jail after police had questioned him.

Despite the havoc caused by the tornado last year nearly as many automobiles are being sold in Porto Rico this year as last.

Ruling On Women's Salaries Expected

Fate Of Two Hundred Workers In State Eleemosynary Institutions Will Be Affected

AUSTIN, Aug. 20. (AP)—R. B. Walthall, chairman of the state board of control, today expected a ruling from the attorney general's department which will determine the fate of 200 women workers in state eleemosynary institutions, whose salaries were slashed from the 1929-30 budget through reductions in the budget by Governor Moody.

Walthall has asked for an opinion as to whether general maintenance funds for eleemosynary institutions may be used as salaries for the women workers.

In a recent statement the board of control head said reductions would cause 12-hour shifts to be resumed in insane asylums and other state operated institutions in violation of the 54-hour law. Women now are employed eight hours daily.

When the labor department brought suit against superintendents of eleemosynary institutions 18 months ago as a result of alleged violations of the 54-hour law, the difficulty was adjusted by a ruling from the attorney general permitting the board of control to use maintenance funds for the hire of additional women employes.

Airport Sites To Be Selected Soon

FORT WORTH, Aug. 20. (AP)—Sites are to be selected and selection to be started at once on two government landing fields between Fort Worth and Waco, G. C. Miller, airway engineer for the United States department of commerce here to superintend the work, said today.

In addition, he said, nine beacon lights of 2,000,000 candle power each, were to be established at intermediate points on the route to Waco.

The two landing fields will be established at points dividing proportionally the distance from Fort Worth to Waco, he said, and will be equipped with beacons and boundary and obstruction lights.

Because of high charges for electric current, Pekin, China, business men plan to organize a Chinese company and build their own power plant.

THE New BUICK

The Greatest success in all Buick history

More people have purchased New Buicks during the past two weeks than in any similar period of any previous year

The New Buick with Body by Fisher has met with a veritable landslide of public demand. Many purchased before ever seeing the car—many thousands of others placed their orders the first few days it was on display—other thousands have been taking demonstrations and then making Buick their choice.

More Buick owners have entered orders—more men and women who owned other cars have turned to Buick—more people who formerly paid from \$1000 to \$2000 higher for their automobiles have purchased Buicks—than ever before during a similar period in Buick's twenty-six year history.

The total demand during these two weeks is from three to five times as great as that for any other automobile priced above \$1200.

Popularity so overwhelming carries an unmistakable message to every prospective motor car buyer: See the new Buick—drive it—compare it—and you'll quickly discover that it's the greatest dollar-for-dollar value in the entire quality field.

ALLISON, VAN RYN BEATEN
NEWARK, N. J., Aug. 20 (AP)—shortly after meeting each other today, Phil Neri of Portland, Ore., and Bruce Barnes of Austin, Texas, overhauled Johnny Van Ryn and Wilmer Allison, who defeated Henri Cochet and Jean Borotra in the recent Davis Cup play with France. The scores today were 6-4, 1-6, 6-3. Van Ryn and Allison also held the Wimbledon doubles. Barnes seemed to thrive against the supposedly unbeatable opposition.

Big Bill Tilden and Frank Hunter were barely able to nose out a victory in their thrilling extra set match with Edward Jacobs of Baltimore and Tanno Abe of Japan 9-7, 6-3, 6-1. John Doe received his first serious setback of the current season when he was defeated by Paul Dertou, young French player, 6-3, 1-6, today.

Bush Loses Third Game Of Year In Opener By 4 To 1

Hal Carlson Blanks Giants In Nightcap, 1-0; Phils Make It Three Straight Over Pirates

NEW YORK, Aug. 20 (AP)—The New York Giants and the league leading Chicago Cubs split a pair of two brilliant pitching duels today. Gray Bush lost his third game of the season for the Cubs in the opener, bowing 4 to 1 before Freddy Fitzsimmons' splendid pitching. In the second game Hal Carlson blanked the Giants 1 to 0 in an even prettier duel.

Carl Hubbell was almost as good as Carlson in the second contest. The shutout was the second plastered on the Giants by the Cubs in three games. Malone turning back the New Yorkers by the same score Sunday.

ROBINS BREAK EVEN
With St. Louis Cards
BROOKLYN, Aug. 20 (AP)—Brooklyn and St. Louis broke even today in a double header studied with smart pitching and opportune hitting. Wee Willie Sherdel shaded Dazy Vance in the opener to give the Cards a 3 to 2 victory but Ray Moss, young Dodger right-hander, was supreme in the second contest, blanking the Red Birds 4 to 0.

Moss allowed but four scattered hits in the night cap. Johnny Frederick scored the final dodger run in the eighth with his 21st home run of the season.

Washington Again
Defeats Tribe, 6-2
CLEVELAND, Aug. 20 (AP)—The relief pitching of Myles Thomas, after Burke had been knocked from the box in the first inning, gave Washington a six to two victory over the Indians today.

Thomas came on the scene with the bases filled and nose out and retired the side with no further scoring. He allowed only six hits.

The Nationals batted Shoffner hard in his first time as a starting pitcher on a major league team. Sam Rice collected two doubles and a single.

Sarah Palfrey Is Sensation Among Tourney Stars
Brookline, Mass., Netter Steals Glory From More Famous Individuals In Forest Hills Meet

By TED VOSEBUCH
Associated Press Sports Writer

FOREST HILLS, N. Y., Aug. 20 (AP)—When Sarah Palfrey of Brookline, Mass. stole the spotlight from other feminine tennis stars on the courts of the West Side Stadium this afternoon.

Not even the straight-set victories of such famous international figures as Helen Wills, Helen Jacobs and Betty Nuthall could compare with the dramatic match in which the smiling Sarah outplayed the British veteran, Mrs. Dorothy Shepherd-Barron, 5-10, 6-0, 6-4, to reach the third round of the national women's championship.

Helen Wills gave an impressive exhibition of hard hitting and accurate shooting in trouncing Mrs. Charlotte Hosmer Chapin of Springfield, Mass., 6-1, 6-0.

Helen Jacobs, speedily eliminated Eleanor Goss of New York, 6-0, 6-4, and Betty Nuthall, the principal English threat, accounted for Gertrude Dwyer, of New York 6-3, 6-1.

Efforts to teach natives of British Malaya to apply for medical attention when necessary are reported to be only partially successful.

German Heavyweight, Suspended By Boxing Commission, Says He Will Return Here In September

NEW YORK, Aug. 20 (AP)—Max Schmeling, German heavyweight whose victorious campaign in America has been clouded by almost continual controversies with boxing authorities, booked passage today to sail for Germany Saturday.

The New York State Athletic Commission has suspended him and his manager, Joe Jacobs, and revoked their licenses, because of Schmeling's failure to go through with a match here against Phil Scott of England. Schmeling said he planned to return in September.

Few refiners in the whole world have under control such a tremendous supply of petroleum from which to select their manufacturing requirements.

Now eight refineries are making CONOCO Motor Oil and CONOCO Gasoline to meet rigid CONOCO specifications, each refinery being supplied with the crude oil which is CONOCO'S own first choice for its market needs.

Every oil well does not produce the same grade of petroleum. Some fields yield ideal oil for making gasoline. Others produce oil best suited to make lubricating greases. Still others... and these are fewer... afford an output which can be refined into an exceptional motor oil.

The Greater Continental Oil Company now can choose the best... and only the best will be sold under the Sign of the Red Triangle.

AIR MAIL'S FUTURE

Some hint of the probable future cost of air-mail transportation is afforded in the offer of the Varney Air Lines to carry mail between Pasco, Wash. and Spokane, Portland and Seattle at nine cents a pound.

Such a bid can only mean that passenger and express business is expected to provide the chief revenue of the contemplated new routes...

In the beginning of air mail transportation that is exactly what happened. Air mail pay was a subsidy to encourage aviation...

But the rates will hardly itself. Passenger patronage is rapidly increasing. Air express business is on the increase...

Yet the time will undoubtedly come when all long-distance first class mail transported over this country will move by air and when parcel post business will be thus handled.

HONORING POE

The Edgar Allan Poe society is of the opinion that part of the Antarctic region which the Byrd expedition is busy exploring should be named for the American poet...

To that request a reply has now been received. A radiogram from Commander Byrd in the far and frozen south sets forth that he will be glad to "name something" for the famous American...

And here we have indication of one of the minor worries of a prominent explorer. For the places he finds he is in honor bound to find names among those who have helped him financially and otherwise.

A Southern Poe Land might present some geographical intricacies, but a Cape of Edgar Allan Poe has a graceful air about it. And assuredly it will not find the world colder than did the poet while he lived.

Wences McDougal may make that American moon trip in October. Just in time for the World tour.

On the Firing Line at the Nation's Capital

SIX LITTLE-KNOWN BOARD MEMBERS WIELD MORE POWER THAN CONGRESS

BY CHARLES P. STEWART Central Press Staff Writer

WASHINGTON, Aug. 20.—Who ever heard of R. A. Young, Edmund Platt, A. C. Miller, C. S. Hamlin, E. H. Cunningham and G. R. James?—and except professional financiers?—and the sextet's former old home townsmen?—and each of the group's little circle of strictly personal acquaintances?

Out of any crowd of 100 persons, drag-netted at random anywhere in this country, it is doubtful if more than a scant half-dozen could correctly identify Messrs. Young, Platt, Miller, Cunningham and James.

A few days ago they shook a billion dollars out of stock values on the New York market in just one day's trading. They shook out several billions, counting the markets throughout America and Europe—for their power by no means stops on this side of the Atlantic. It is world-wide, in fact.

The sextet did it with the mere scratch of a pen—the change of one figure—a 4 instead of a 5 in the Federal Reserve's New York rediscount rate.

Yes, Roy A. Young is governor of the United States Federal Reserve board, Edmund Platt is vice governor and Adolph C. Miller, Charles S. Hamlin, Edward H. Cunningham and George R. James are their fellow members, plus Secretary of the Treasury, Andrew W. Mellon, and Comptroller of the Currency, J. W. Pote, ex-officio.

Congress too can produce stock market convulsions but only after a tremendous amount of argument, no end of speech making weeks or months of effort and prolonged roll calls—and even then only with the president's indorsement.

The Federal Reserve board does it without a word out loud, at any rate, and refuses to talk about it afterward either.

And yet the Federal Reserve board members are hardly known even here in Washington. They make no splash in official society—not as much as an ordinary member of the house of representatives, not nearly as much as a senator, nothing remotely to compare with a member of the cabinet.

Even when the Federal Reserve board does something that jars the stuffing out of the stock market, although the entire country knows it has been done, it fails to visualize the individuals who did it—merely attributing it to an impersonal body known as the Federal Reserve board.

The Federal Reserve board members occupy a suite of offices in the Treasury building where they look exactly as if they were a part of the treasury department, but they are not.

The board is not really a full-fledged branch, even of the government, except as a national bank is.

The government does not so much as support it. The reserve banks of the board assesses them for its maintenance. If the government tries to dictate to it, it can give the government itself the laugh—subject only to Secretary Mellon's and Comptroller Pote's ex-officio influence.

True, the board is responsible to congress, but some congressmen declare the law so elastic that this does not amount to much.

There undoubtedly will be an attempt to tighten it up when congress meets next month—for plenty of people resent the recent market slump. Such attempts have been made before, however, and failed.

In the meantime the board does what it thinks best and is scared by nobody. Its nerve is admirable.

An oligarchy unto themselves as they are the Federal Reserve members are about the most potent folk in Washington.

Nevertheless, it is no secret that they threw their latest trump into the stock market deliberately—advancing the rate with the cold-blooded intention of making cash more expensive to borrow for speculation, and thereby forcing would-be speculators to do less of it.

Whatever Bishop Cannon may think it is the board members' opinion that Wall Street lately has been using up money needed to give a flip to autumn industries and crop movements.

The oxygen in the air must fall below 12.5 of an atmosphere before the breathing center is affected. Frederick has pointed out that the Mount Everest expedition of 1922 and 1924 showed that after acclimatization, men can live for days at an altitude of 29,000 feet, where the oxygen pressure is 9.5 per cent of an atmosphere and can perform muscular work at 28,000 feet.

SLAVERY DEBATES

On Aug. 21, 1858, Abraham Lincoln and his great rival, Stephen A. Douglas, began their series of seven debates on the question of slavery.

The seven places, one in each Illinois congressional district, and the dates were Ottawa, Aug. 21; Freeport, Aug. 27; Jonesboro, Sept. 15; Galesburg, Oct. 7; Quincy, Oct. 13 and Alton, Oct. 15.

In the famous Freeport debate Lincoln asked "Can the people of a United States territory in any lawful way, against the wishes of any citizen of the United States, exclude slavery from its limits prior to the formation of a state constitution?"

If Douglas answered No, he would deny his pet doctrine of popular sovereignty. If he answered Yes, he would antagonize the dominant politicians of the south led by Jefferson Davis...

Douglas answered in the affirmative and tried to wriggle out of the trap by declaring that although slavery might be legal in a territory it could not actually exist for an hour or a day where the people enacted legislation unfriendly to it.

In 1928 the U. S. war department announced methods of curing rubber which extend its life to 35 years.

One hundred and sixty girls are studying farming at Studley College, Warwickshire, England, often setting out to work in the fields at dawn.

LAST SONNET

Bright Star! Would I were steadfast as thou art— Not in lone splendor hung aloft by night, And watching with eternal lids apart, Like Nature's patient, sleepless Eremit, The moving waters at their priest-like task Of pure solution round earth's human shores, Or graining on the new soft-fallen mask, Or snow upon the mountains and the moors— No—yet still steadfast, still unchangeable, Pillowed upon my fair love's ripening breast, To feel for ever its soft fall and swell, Awake for ever in a sweet unrest, Still, still to hear her tender-taken breath, And so live ever—or else swoon to death.

STORM WARNING MADE

Tropical Disturbances Are Reported Tuesday

BIG SPRING, Aug. 20.—Efforts to throw some light on the death of W. H. Douglas, whose body was found at the Gulf tank farm at Wink yesterday, were fruitless today.

It was learned the man deposited \$100 in a bank on July 24 and that it was withdrawn about August 7. Officers checked oil field construction offices after learning Douglas was a pipe-fitter.

That her husband had for seven years gone to bed on Thursday and remained there until Monday, when he got up to sign for unemployment pay, was the testimony of a London woman recently.

Sells Cheap

Lincoln's Buggy Brings \$3.25

NEW YORK, Aug. 20.—The buggy used by Abraham Lincoln in his campaign in 1858 brought only \$3.25 when it was put up for sale.

H. K. Tabler, a farmer near Plymouth, Ill., bought it and placed it on exhibition in the courthouse here. Recently he refused a \$500 offer.

HEARING POSTPONED

No Action Taken On Application of Depositors

BELTON, Aug. 20.—Hearings in the application of depositors in failed banks to restrain the state banking department from refunding the portion of the old state bank guaranty fund still in the state's hands have been postponed indefinitely. The depositors requested a postponement yesterday when the case was called in district court here. No date was set for the hearing.

The SHINING TALENT

By ELEANOR EARLY © 1929 By NEA Service Inc.

THIS HAS HAPPENED MOLLY BURNHAM, pretty and prosperous, has undertaken the care of little RITA NEWTON, the child of her dead friend, who has died. Rita's father, BOB confesses to Molly something of the details of a sordid romance he has had with a girl named ELISE SMITH, who has met a violent death. Bob seems calloused and hard, and Molly is disgusted with him.

Molly has written two successful plays. The newest one, called "Sacrifice," has been attacked by the censors. Molly's sensibilities are hurt, but the producer is delighted. The activities of the censors assure the success of the play. Molly, to avoid the hateful controversy, leaves New York, and returns to the apartment in Boston which she shares with little Rita, a nurse and a housekeeper.

NOW GO ON WITH THE STORY CHAPTER XXXIII Molly had never realized there were so many reporters in Boston. They all wanted to know what she would do if the censors padlocked the theater.

"But the censors couldn't do that!" she protested. "They'd have to get a court order. And it's not a kind they liked it very much."

"But what did the censors say?" demanded somebody. "They said it was all the six deadly adjectives—'obscene, lewd, lascivious, filthy, indecent and disgusting—that's what the censors said.'"

"Damn the censors!" exclaimed Molly. And some of the papers led by a screaming banner: "Damn The Censors!"

MOLLY BURNHAM CONDEMNEDS VIGILANTS Boston Playwright Will Fight Efforts to Padlock Second Sensational Play

The story was wired to New York, and appeared on Broadway almost as soon as in Boston. Mr. Durbin, delighted, telephoned his congratulations to Molly.

"Molly dear," he began, without preamble, "you were an awfully sweet little girl to send me that stunning ring. And I want to thank you. It was mighty nice of you."

"I'm glad you liked it," she faltered. "I suppose you're having a fit about the play?"

"That was one reason I called," he admitted. "Can you do something about it, Molly?"

"About what?" she asked blankly. "The play, of course. What did you think I was talking about?"

"What can I do?" "Lord I don't know! But it's a pretty mess for a nice girl to be mixed up in."

"Did you think the play was indecent, Jack?" "Now, Molly, be your size, dear. I thought it was a peach of a play. Mrs. Bulwer-Eaton thought so, too. Anybody with any sense would. But you know what these reformers are. What's the sense of playing into their hands? How do you think it sounded to hear you'd told them to go to hell?"

"Oh, I didn't," she broke in. "Not really. That is not intentionally."

"Well, that's what the newsboys are yelling about," he retorted. "I'm awfully sorry," she insisted. "I never meant to say anything of the sort."

"Why don't you take the play off?" he demanded. "Take it off!" she cried. "I guess you don't know, Jack, how much it costs to put a play on."

"Well, you'd be better off if you did. It's a success and a sensation, and all that. But a rather dubious one, I'm afraid. For three years now, Molly, nice people have been cutting you."

"Jack Wells," she cried. "You're the most provincial creature that ever lived."

Purposely, she slammed her little pink telephone on her little pink table. But, presently, it was ringing again.

"I only wanted to be sure you knew I liked the ring," said Jack. "I just thought I'd thank you again for it—that's all. You were awfully sweet to get it for me, Molly."

"Then the receiver on his end was also up." A little later a telegram came from Red.

"ATTA GIRL STICK BY YOUR GUNS EVEN OTTAWA HAS FALLEN FOR YOUR PICTURE IN ALL THE EVENING PAPERS GREAT STUFF CARRY ON FOR FRANKNESS AND FREEDOM."

What a difference between Jack and Red. Difference enough to keep Molly awake all the night. At three a. m. wide-eyed and sleepless, she conceived an idea. She would compile an anthology of dark and desperate love verses. Tragic, mournful things, for women in love with the wrong men. To be read on sleepless nights, after lovers' quarrels.

She would have it bound in purple. And she would write a preface with beautiful and words. She would dedicate it to "Women—Women Everywhere."

Fired with the notion, Molly put on her bed light, and propping herself up on her pillows, reached for the pad and pencils she kept on her bedside table. She would begin immediately writing from memory all she could remember. She scribbled as one inspired—a mournful thing of three lines: "The gift of love is this— A crown of thorns to thy head, And vinegar to thy kiss."

Then there was that wistful little verse of Jessie Fitzhugh: "You came again, but silence Had fallen on your heart, And in your eyes were visions

TEMPERATURE, HUMIDITY CHIEF FACTORS IN POOR VENTILATION

BY DR. MORRIS FISHBEIN Editor Journal of the American Medical Association and of Hygieia, the Health Magazine

The human being must have a supply of air fulfilling certain minimum conditions or he will die.

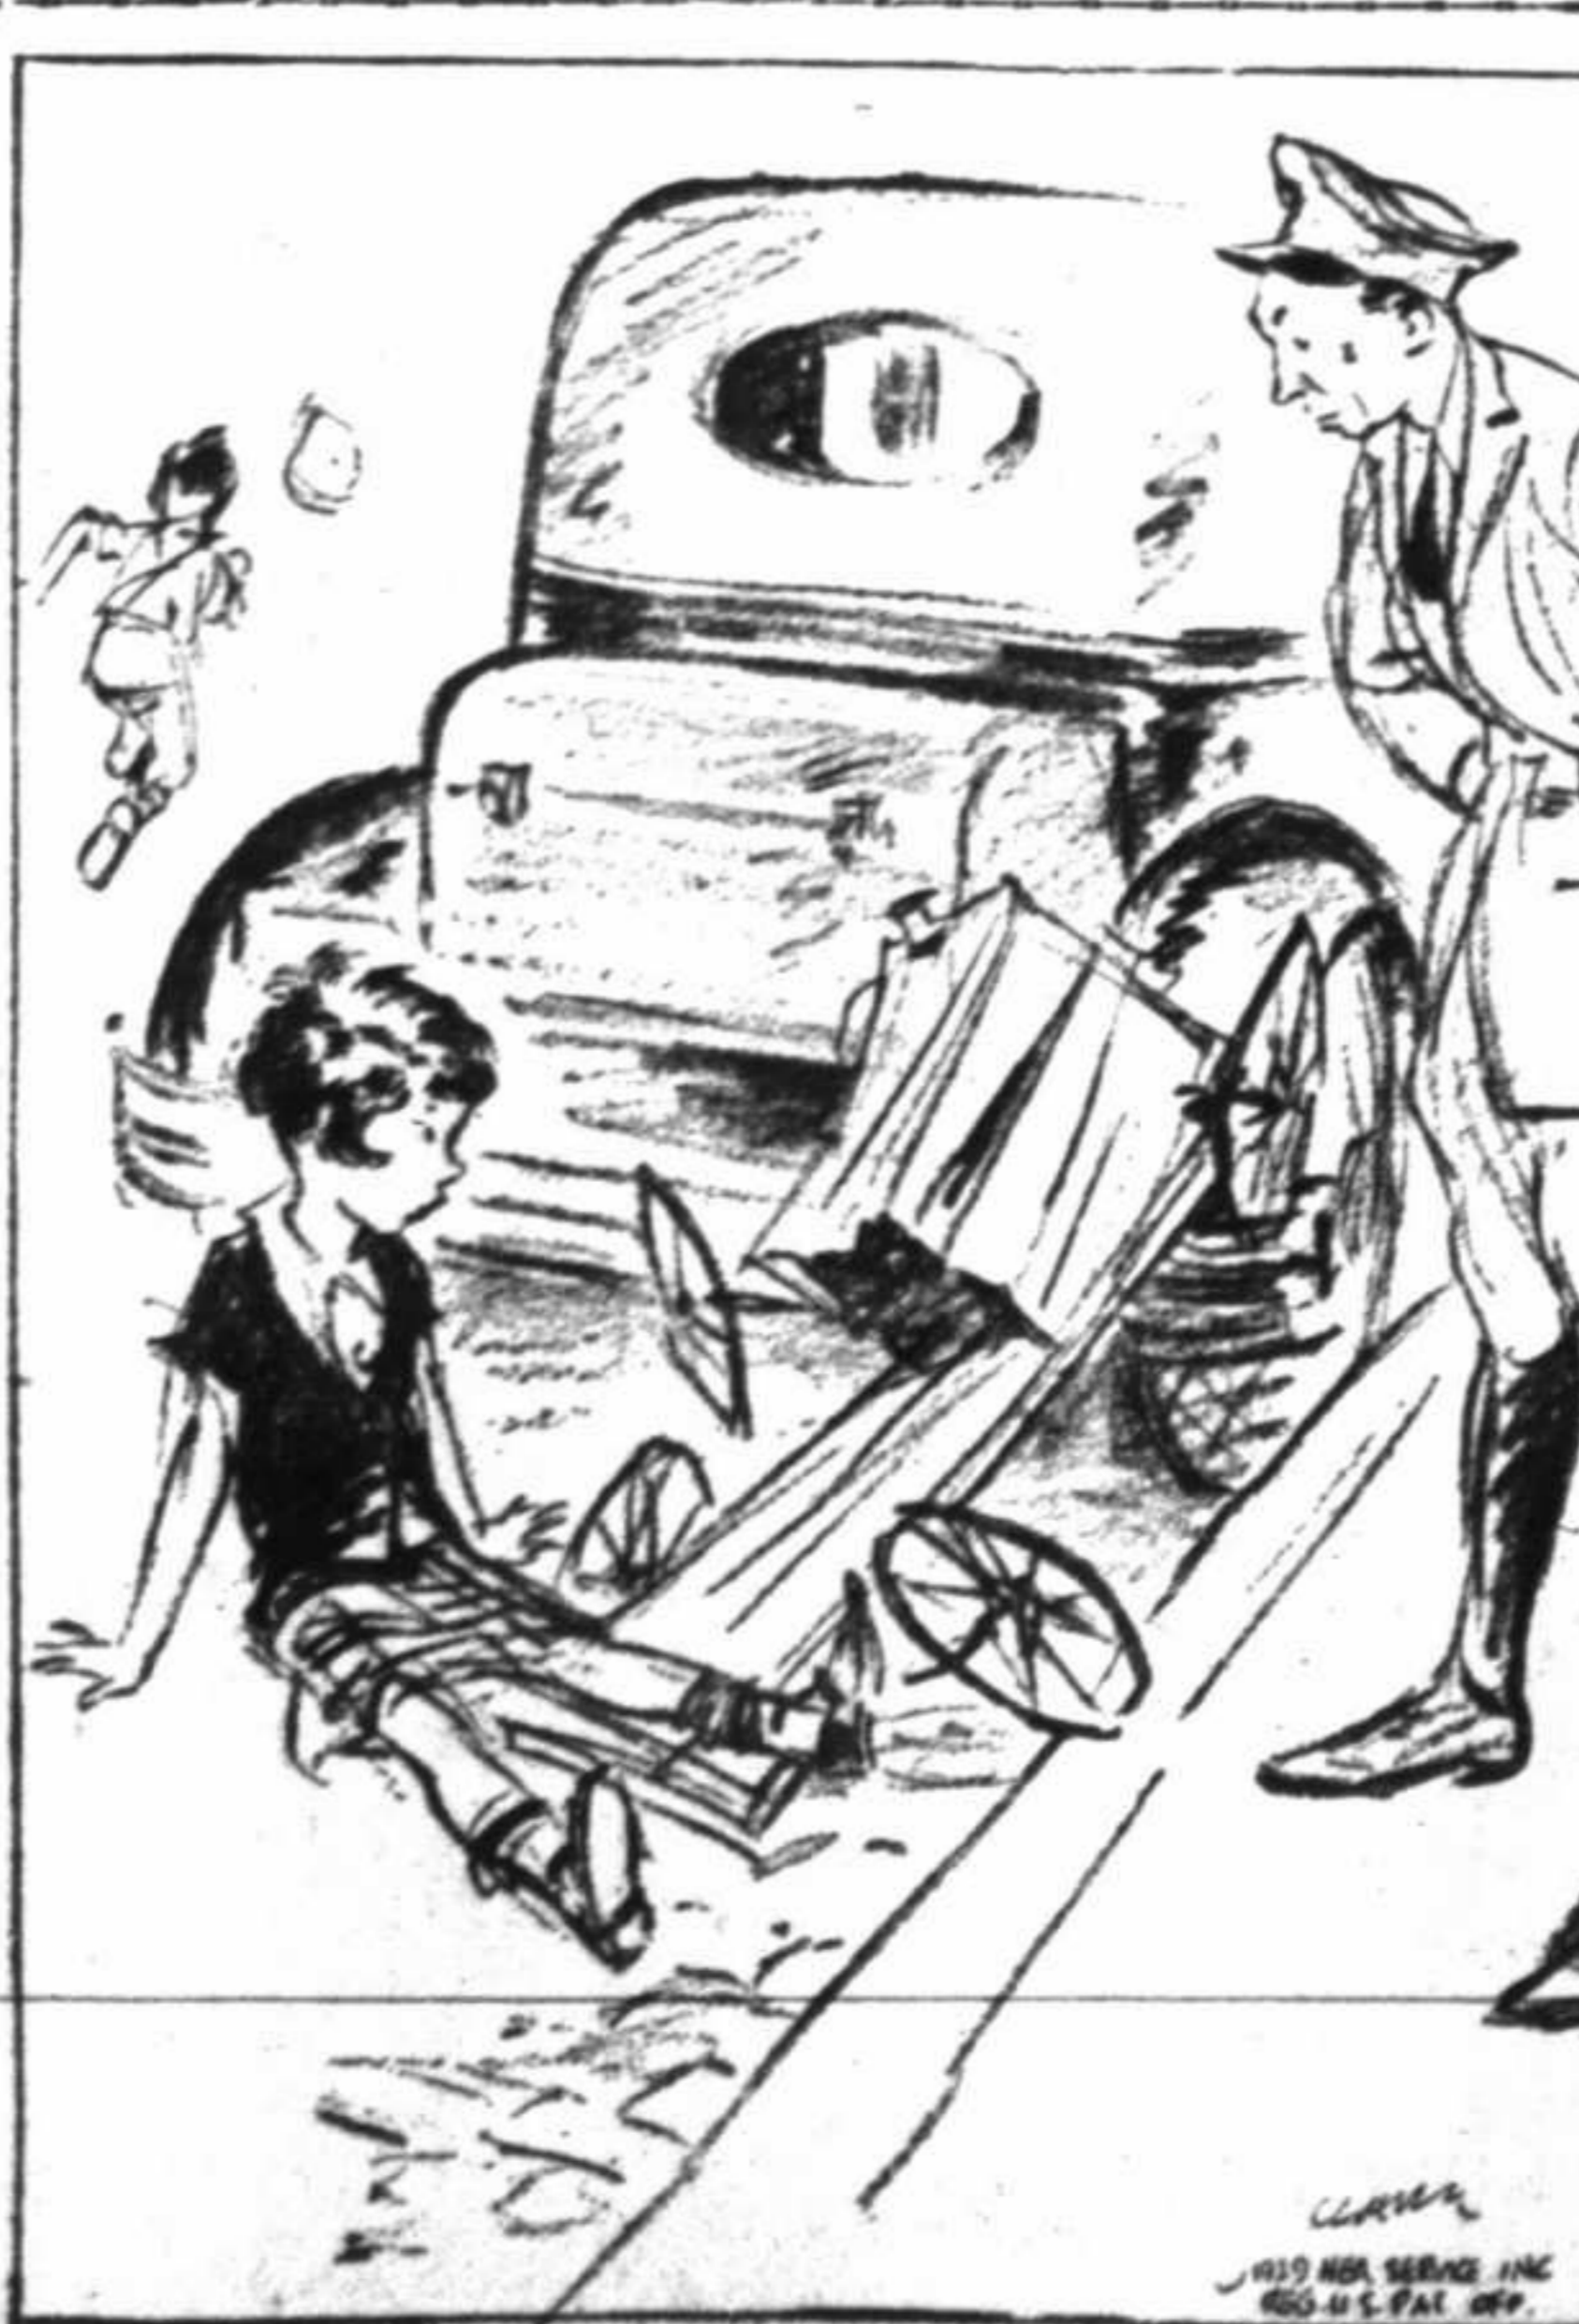

Even a century ago it was believed that air could carry some mysterious agent of destruction called miasm. It was believed to be a poison gas that arose from marshes.

As human beings in a room breathe the air and exhale the materials developed in the body the composition of the air in the room gradually changes. Whereas the normal air is almost wholly oxygen and nitrogen the breathing of the human being gradually adds to this carbon dioxide and slightly increases the amount of nitrogen, while the oxygen is being considerably decreased.

At the same time the humidity changes through the evaporation of moisture from the body; the temperature is brought nearer to that of the body and occasional germs and droplets of moisture from the body containing germs get into the air.

In the past great quantities of nitrogen, due to the chemical changes that take place, to the increase of carbon dioxide and to the lessening of oxygen. We now know that the amount of carbon dioxide produced and the amount of oxygen removed are not significant, since the former is not sufficient to poison and since the latter is quite sufficient for sustaining life in the vast majority of cases.

Approve Plans On Texas' Structure

Architect's Drawings For New Chemistry Building At University Are Favorable To Regents

AUSTIN, Aug. 20. (AP)—Architect's plans for a chemistry building which will cost approximately \$1,000,000 when equipped were approved today by the board of regents of the University of Texas. The contract for the building will be let October 14.

Appointment of Dr. H. J. Estlinger, acting director of athletics at the University, as head of intercollegiate athletics, was another feature of the meeting.

Coaches Retained

All present members of the present coaching staff were retained. H. Y. Benedict, president of the institution, said, Fred Walker will remain as basketball mentor, Marty Karow and Bill James as assistant football coaches, and C. J. Alderson as freshman coach. Selection of Clyde Littlefield, head football coach and William J. Dusch, baseball coach were previously affirmed.

The physical training department which was divorced from intercollegiate athletics, will operate under supervision of I. Theodore Bellmont whose aides will be Berry Whitaker, S. N. Ekdahl, Roy B. McLean and Wiley Glaze, the latter formerly business manager of athletics. The salary budget for athletics during the year will be approximately \$50,000, the board decided, of which \$35,000 will be devoted to intercollegiate sports.

But Bob's were white, white and horrid.

Suicide Is Theory In Death Of Woman In Dallas

DALLAS, Aug. 20. (AP)—The body of a woman, found in a creek here Sunday, has been identified by friends as that of Mrs. Ellen Koonce Elliott, 69, widow of a San Antonio judge. Mrs. Elliott had been acting as a governess for some time. A verdict of suicide was returned.

FIRE BREAKS OUT

Forest Blaze New Menace In Eastern Oregon

SEATTLE, Aug. 20. (AP)—While Western Washington had been momentarily freed from forest fires by rains over the week-end, eastern Oregon today became a new sector in the northwest fire menace. A few major fires in eastern Washington and several in Idaho and Montana still were out of control. In British Columbia, the general situation appeared improved. Several conflagrations continued to eat through valuable timber stands. Forestry headquarters at Portland reported 42 new blazes.

 LUBBOCK REAL ESTATE
 Is just as fine an investment as it was ten years ago, and you know how fine that was. Those two unnumbered lots we have to trade for unnumbered land at \$20,000 carry a great opportunity. Ten years from now they will be worth \$50,000 and you will hear somebody say "Yes sir, I remember when those lots sold for \$20,000. How often we hear expressions like that."
 Those two lots in Highland for \$650 are also wonderful little bargains. They are worth not less than \$900.

Lubbock Repairman Talks About Recent Troubles

Brown Couldn't Sleep Or Eat To Any Good Before Taking Orgatone. In Fine Shape Now

W. P. Brown, 560 Avenue K, household repairman, is another well known Lubbock citizen who feels it nothing but right to tell others of the benefits he derived from the use of Orgatone. In a recent interview with the Orgatone representative in Bowen's Drug Store, Mr. Brown said:

"I had gotten to the point, before I began taking Orgatone, where I couldn't eat or sleep to do any good and you may know I was going down hill fast. I had been troubled with indigestion and rheumatism for over five years. I would be up on my feet, sour, and undigested and could retain and digest enough of what I ate to give me any strength. I had to cut out everything with grease in it and be very careful about my diet. I would have severe aching pains from rheumatism which hurt me all the time. The gas on my stomach made my heart flutter and I was often very dizzy. I was in such a condition I would just roll and tumble at night and couldn't sleep and consequently I got no rest scarcely at all."

It was influenced by local testimonials and the advice of a friend to try Orgatone and now I feel like a different man. I had the best treatment and took all kinds of medicines, but I was getting worse every day, but Orgatone just seemed to do exactly what I needed and has pulled me right out of my troubles. I eat just any and everything I want now and digest it and sleep fine. I have no more gas on my stomach, no palpitation of the heart or rheumatic aches. I had very little faith in Orgatone, but when I did start I made up my mind to take a full course and give it a fair chance. Well, I have now taken two of my six bottles and I am ready to say I don't doubt a moment anything it has done for me, for it certainly has done the work for me. It's a pleasure to endorse such a medicine and I gladly recommend it to anyone suffering as I did."

Immediate Aid To Cotton Farmers Seen As Result Of Federal Farm Board; Associations Will Benefit

Fritz Englehard Action To Be Of Great Value Entire Year In Securing Better Prices On Cotton Yield

Fritz Englehard, director of organization of the Texas Farm Bureau federation, views the recent action of the Federal Farm Board as a measure which will be of great value in securing better prices throughout the year. The board agreed to make financial advances to cotton co-operative associations to assist in movement of this year's crop.

Immediate benefit of the Farm Board loans will come to members of the co-operative organizations, said Mr. Englehard. "But the stabilizing influence of gradual marketing by the cooperative associations will steady the market, and to some extent violent price fluctuations on the cotton exchanges, with the result that all cotton farmers will be helped by the higher price levels."

Membership Growth Seen
"The farmer marketing organizations will certainly have a large growth in membership and cotton receipts because the increased number of co-operative associations will enable them to give much better service to their members. The loans made by the Farm Board will make it possible to advance to members early in the season as much as 90 per cent of the value of the cotton, instead of 50 per cent, as at present. The crops also will be made final payments on the loans until the crop is marketed."

Mr. Englehard said the cooperative organizations to hold cotton in the market when prices are satisfactory. The loans also will be used to make final payments on the loans until the crop is marketed.

Body Of Halsell Sent To Decatur

Aged Amherst Man, Widely Known Throughout Both Texas And Oklahoma, To Be Buried Thursday

Funeral services of O. D. Halsell, 71, will be held in Decatur next Thursday afternoon with burial in the family cemetery plot there, following his death in a local sanitarium Tuesday morning.

Mr. Halsell, for the past five years a resident of Amherst, was widely known in Texas and Oklahoma and was one of the founders of the first grocery concern in Oklahoma, the Williamson, Halsell, Frazier company with headquarters in Oklahoma City. Mr. Halsell served as president and general manager throughout the 33 years between 1889 and 1922. The company was founded in Guthrie, Okla., during the first year of territorial rights and with six stores in Oklahoma now is one of the leading firms of that type in the Sooner state.

Moved To Amherst.
Five years ago he moved to Amherst where his uncle, W. E. Halsell, of Kansas City, was colonizing the Mashed-O ranch, and building the town of Amherst. The deceased has been active in Amherst and Lamb county affairs ever since.

Surviving in the immediate family are Harold Halsell, Oklahoma City, and Louise D. Halsell, Amherst; sons, H. H. Halsell, Lubbock, and F. T. Halsell, Amherst, brothers; his uncle W. E. Halsell, Kansas City and his former wife, Mrs. A. J. Prevost, of Oklahoma City.

New Wells Added To Lamesa Plant

LAMESA, Aug. 20.—The city air-made wells were put on test here and according to engineers 300 gallons per minute is being made by the two wells. This added to the three city wells already supplying the city gives Lamesa 400 gallons per minute, or 576,000 gallons per day.

According to R. L. Meyers, city water commissioner, other wells will be located and drilled and a substantial reduction in water rates will be made in the next few months. E. B. Warren is mayor, Judd Watson and R. L. Meyers are city commissioners. The Air-Made Well company, Kansas City, has just completed the two wells upon which the test was made here today.

BURGLARS ACTIVE

LAGRANGE, Aug. 20.—Burglars were active last night at Ward, Fayette county. They obtained the balance of a saw mill payroll after entering the postoffice and the store of C. A. Fuike. Some dress goods also were taken. Only meager clues had been found by officers.

"Still greater benefits will come from the Farm Relief bill in the future. The law permits other activities by the board which will be gradually put in operation. Perhaps the most important of these is the provision permitting loans for co-operative to build or buy plants and facilities for handling, storing

and processing farm products. Under this provision money will likely be provided to enable the cotton organizations to build and operate gins, compresses, warehouses and other plants for the handling and storing of the crop.

Normal Crop For County Predicted

Present Outlook On 20,000 Acres Of Cotton Forecasts Fair Yield; Gins Preparing For Harvest

Lubbock county's 200,000 acres of cotton are forecasting a normal crop this year, with the general picking season but a few weeks away notwithstanding dry conditions of the last two months and prevalent rumors of presence of leaf worms in some portions, according to present outlook.

Seasonable showers between now and picking season will virtually assure a fair yield, many predict.

All gins of Lubbock county are being put in condition for harvesting period. Several farms of the county are showing prospects for the first bale of the season, and the season's starter is expected to arrive in this city within the next ten days.

Hardware and dry goods stores of the city have assembled all the accessories in preparation for the busy harvest.
