WACO EXCURSION

Business Men of Dublin Visit the Hub City of Waco and Intermediate Points.

The big excursion of the Dublin business and professional men last Tuesday to Waco and intermediate points proved a great success in every particular.

When the special train of two coaches pulled out from the Central passenger station at 7:30 Tuesday morning there were one hundred and thirty-eight persons on board besides conductor E. Blair of Dublin and Engineer J. S. Matthews and Fireman A. C. Milne of Walnut. The members of the party were all in good spirits and anticipating a fine trip and they were not disappointed. Stops were made at every town on the road including Alexander, Clairette, Hico, Iredell, Walnut Springs, Morgan, Fowler, Whitney and Ross and the party reached Waco about 2:30 p. m., about ten minutes ahead of schedule time.

At each of the towns mentioned the stops were prolonged a sufficient length of time for the party to visit the business section of the town and one or more of them to enter every business house and talk Dublin and the re-union. They did this, too, without coaching and distributed literature as well. Speeches were also made at various places along the line, some of them from the rear of the train and others on the streets of the various towns. Many of these extemporaneous speeches were real oratorical gems and all of them were pointed, well delivered and valuable as a means of carrying out the purposes of the trip. The inimical W. T. Hunt, always in the front of every enterprise, acted somewhat in the capacity of master of ceremonies and chief among the "rough and ready" speakers at all points was Capt. Mc. D. Reil of Stephenville, whose remarks always command respectful attention and to whom the people of Dublin and the re-union commttee is under many obligations for multitudinous courtesies rendered on this trip and many times before. Wherever there is to be a re-union of old soldiers Capt. McD. Reil is a prominent figure and he can always be counted upon to lend his influence for their success as well as for any other good movement.

Dr. W. H. Henthorn also made a number of good speeches, likewise W. T. Hunt and at Hico J. H. Latham, president of the park association, spoke from the rear of the train. The star speakers in behalf of Dublin after arriving at Waco were Dr. W. B. Goodner, Rev. O. P. Kiker, Rev. A. L. Clinkinbeard and Capt. McD. Reil and those for Waco were Homer D. Wade, secretary of the Business Men's club, Editor George B. Robinson of the Waco Times-Herald, Mayor Jas. B. Baker of Waco, Capt. M. R. Davis and attorney O.L. Stribling of that city. The speech of Dr. W. B. Goodner was the most elaborate one made upon behalf of the Dublin people and the doctor occupied more time in his excellent address than any other Dublin speaker. He was applauded from the beginning to the end of his speech and many Dublinites were greatly surprised to find that we had in the doctor such a commander of rhetoric and oratory. The speech of Rev. Kiker was also full of good things and elicited much merriment for the bright and witty remarks it contained as well as sober thought for the gist of his address. The speech of Rev. Clinknibeard was a polished and well received delivery and elicited much appplause and that of Capt. McD. Reil was likewise up to his usual excellent standard. Mayor Baker's speech on behalf of Waco was fine, that ofMr. Stribling was witty, that of George Robinson encouraging, that of Capt. Davis reflective and all were excellent and geatly applauded efforts.

At our sister city of Hico the Hico band joined the party and furnished good music in profusion from that point the balance of the trip and an impromptu reception was tendered at the depot and several Hico citizens gave addresses.

At Iredell the local band met the party and a bevy of ladies headed by Miss Echols of that city and a party of citizens led by Merchant J. C. Phillips met the train and extended greetings and the ladise supplied the entire party with beautiful buttonaires. At other places a welcome was extended by various parties of citizens.

At Waco our party was met by citizens in automobiles and carriages under the direction of the Waco Board of Trade and all were taken for a sight-seeing trip over the city for an hour or more, after which all congregated at the Germania park and were tendered a luncheon interspersed with much speaking by various Waco and Dublin people before mentioned.

At the close of the exercises further drives about the city were had and all went to various hotels to supper, also tendered by the Board of Trade and various citizens and at ten o'clock the special pulled out from the Texas Central passenger station with all safely on board and arrived home about 2:30 Wednesday morning.

The trip to Waco will doubtless prove a valuable one in many ways, for aside from the advertising to be derived from it and the closer and friendlier relations established with the towns along the route and Waco in particular, the pleasant and enjoyable features of the trip were well worth the time of those who gave up the day for this purpose.

The Waco people certainly entertained the party in a most becoming and hospitable manner and the broad gauged people of that city more than ever dwell in the mind's eye of the people of Dublin.

Telephone Service at the Re-Union.

Manager Andruss of the Southwestern Telegraph & Telephone Co. advises us that his company will have a telephone booth on the re-union grounds and give to all free connection with all city and country subscribers to the Dublin exchange. An attendant will be in charge of the booth so that any long distance communication to any point can be sent and at the regular Dublin rates. No extra charges. This will be very much appreciated by those attending the re-union as all those having Southwestern Telegraph & Telephone Co. telephones at home, can without leaving the grounds of the re-union, talk with the home folks, also those connected with the Dublin exchange free and to those further away in any part of Texas at the usual rates.

Meeting of Farmers' Insurance Co.

The regular meeting of the Farmers Mutual Insurance Co. of Erath county will convene at Stephenville on Friday, August 10th, at 10 a. m. All policy holders are requested to be present at the meeting promptly—Sparks Howell, secretary. 11-2t

Carlton For District Attorney.

Judge W. T. Carlton of Stephenville, candidate for district attorney, is one democrat who is not a home man in Dublin who ought to secure a large vote at this place. The judge is one of the ablest attorneys at the Stephenville bar as well as an uncompromising democrat of the Hogg and Bryan type. As a man no one has a fairer record than he and his private character is in all respects unassailable. There is none of the trickster in his make-up and he is a solid, substantial and reliable citizen of the kind that is needed in political offices of trust and responsibility. He formerly resided in the Lingleville country and we are informed the people of that section will go for him nearly to a man, a fact that is always worth while considering.

Eleven Thousand Dollar Deal.

Messrs. G. S. Thompson and John Crawford made a quick real estate deal one day last week involving a total value of eleven thousand dollars. Mr. Thompson had a farm of one hundred and forty-four acres in Van Zandt county which hehad never seen but which was valued at $3,251. Mr. Crawford had a farm of two hundred and seventy-two acres one mile from Dublin which he valued at $8,000. The two gentlemen are engaged in the real estate business and accidently found out about each others property. A proposition was made to trade farms and in less than five minutes a deal was consummated whereby the two farms changed ownership and neither of the parties had ever seen the property they traded for, the deal being made altogether on the strength of descriptions of the property. Forfeits of $500 each was at once put up and the properties will change hands legally as soon as abstracts can be secured and compared.

Philadelphia has been chosen by the Elks for the next grand convention.

Miss Jessie Kirkpatrick, who was thrown from a horse recently near San Angelo, has since died from lockjaw.

Eleven of twenty-one persons alleged to have been implicated in a lynching in North Carolina have been indicted.

WHY FOR BELL?

The Railroad and Other Corporations in Texas for Bell Certainly Have a Reason.

The present net deficit in the state treasury is $190,000, or in other words state warrants are out for that much more than the state has money to pay and those who hold claims against the great state of Texas must wait for their money. The people of Texas are in a more prosperous condition than they have ever been before and they are less delinquent in tax payments than for many years. There is therefore no good reason why the present state of affairs with the treasury department should exist except the incompetency of the present state administration. Certainly the taxes for state purposes are high enough. The present administration desires to be succeeded by Mr. Bell, the railroads are also behind Mr. Bell's candidacy and the democrats in Texas who fought Hogg and voted for George Clark and who fought Bryan and voted for Palmer and Buckner are all the warmest supporters of Bell. This is indeed bad company for a candidate for governor and the worst of it is that these elements are more logical than the general run of people because they never vote for a candidate without a good reason. The question naturally arises: Why are the railroad officials for Bell? Why are the Plamer and Buckner and George Clark democrats for Bell? Why are the big corporations that have been in the habit of running rough shod over the laws of Texas favorable to Bell? Where does the money come from to run special trains for Bell rallies? Why is the present incompetent state administration for Bell? They all say he is "conservative." In what and how is he conservative. At the beginning of the campaign the writer of these lines was for Bell because he was a man from this section. We think it right to vote for a home man always where one can. But these various questions and their logical answers and the fact that Bell has been in office for some twenty years has caused us to change and in changing we find no one we think more competent and more honest than Tom Campbell. Campbell has all the corporate interests arraigned against him and there's a reason for it. They have started various stories about his standing in with the corporations, but they are not so. If he did the corporations would be for him instead of for Bell. Campbell is the Hogg kind of man, voted for Hogg and for Bryan and Governor Hogg expressed himself in a letter in 1905 that he was in favor of Campbell for governor. He had known Campbell for years and was well acquainted with his record. The judgment of the great commoner we believe was sound in being for Campbell.

Eastland District Court.

Joe Davis case was called Monday morning and on account of the absence of five witnesses, three of whom were fined two hundred dollars each, the case was continued for the term and set for the third Monday in January. Davis was granted and made bond in the sum of $2,500 and was released from custody.

Paul Keith case was transferred to Abilene and will come up for hearing next September.

A few civil cases have been heard, some of which are still under advisement.

The grand jury made a report Thursday morning. Thirteen felony and twenty-two misdemeanor cases were reported. It is thought that the grand jury will adjourn Friday evening.

The finance committee composed of H. K. Martin, Will Anderson and J. M. Williamson are checking up county financial affairs.—Bulletin.

There is no question that Maloney is a leading candidate, for the vote for him at Dublin and Alexander, his home boxes, will give him a start in the battle of ballots that will be hard to overcome by a divided vote at other points in the county. All of the gentlemen who are in the race are good men and the Progress has nothing to say against any of them, but they can't all be elected. If they could we would be for every one of them, but as only one man can win we want to see our home man, George Maloney, be that one. He is competent, he is honest, he is conservative and safe, he is of mature judgment, absolutely fair, he is law-abiding, he will enforce every law to the best of his ability and what's more he simply looks like a sheriff anyway. We believe the trappings of high sheriff of Erath county will well become him and we are certain that Erath can well afford to be proud of her sheriff if he is elected. If there can be one single thing urged against him as to why he should not be elected we have never heard it and we don't think there is any.

"WHY WILL YE DIE?"

After Singing This Hymn an Ohio Man Loses His Life.

DUEL TO THE DEATH

H. C. Adams While at Cincinnati on Business, Thought to Have Become Insane, Has Battle With Policeman.

Cincinnati, O., July 25.—After singing the hymn, "Why Will Ye Die?" H. C. Holmes, a merchant of West Union, engaged in a pistol duel with Policeman J. L. Rossiter today.

The encounter, which took place in front of the government building, resulted in the death of Holmes. The latter is believed to have become suddenly insane. He fired several times at the officer, and when Rossiter stooped over him in an attempt to help the wounded man the latter shot again just before his death, the powder burning the officer's face.

Holmes was prominent in this part of the state and had come to this city to purchase goods. He left his hotel early in the day singing and complaining of not feeling well. The officer tried to quiet him and the shooting followed.

BROADSIDE BATTLE.

British Claim Our Two New Ships Will Not Equal Dreadnaught.

Washington, July 25.—The publication in the "White Book," at London, giving some information concerning the main fetures of the large British battleship Dreadnaught caused some discussion among naval officers, but the facts made public are already known by officers of the navy who are interested in naval architecture. There is no great enthusiasm among many naval officers in regard to the construction of a ship which will equal the Dreadnaught as a sea fighting machine. It is pointed out the United States is now constructing two ships, the Michigan and the SouthCarolina, which will be equal to the Dreadnaught in broadside batttle. These two ships can fire eight twelve-inch guns on either side, and that all can be doneby the Dreadnaught. The latter, however, could fire six twelve-inch guns head ahead, whereas the Michigan and South Carolina could fire but four. It is pointed out, however, that very little fighting is done head-on, and the effective fighting of a battleship is her broadside. Another difference between the latest types of American and English battleships is that in broadside action all twelve-inch guns of American ships can be utilized while twelve-inch guns of the British must be inactive. The advantage of the British ship is in greater speed, but she has the disadvantage in larger target surface.

DEBATED SOME TIME.

Resolutions Were Then Adopted by Interparliamentary Union.

London, July 26.—The conference of the Interparliamentary union, after prolonged debate, adopted the following resolutions:

The Interparliamentary union now assembled in London to express its views on the second The Hague conference should, first, by treaty define contraband of war as being restricted to arms, munitions of war and explosives.

Second—Reassert and confirm the principle that neither ship carrying contraband of war nor ther goods aboard such ship not contraband of war may be destroyed.

Third—Affirm that even between belligerents private property should be immune at sea as it is on land.

The conference adopted a resoltnion in favor of discussion by The Hague conference of means to cut down "intolerable expenditure armaments."

Another resolution provides that each national group shall apply to its own government grant funds to air future conferences of Interparliamentary union.

GOT MUCH BOOTY.

After a Chase of Thirty Blocks Police Officials Got Them.

Rockford, Ill., July 25.—After a chase extending thirty blocks and followed by a hand-to-hand fight on the Rockford college grounds at daylight Wednesday Policemen Graham and Quinn arrested two men who, it is alleged, had robbed nearly every safe and vault in the Brown building, a six-story office structure. The prisoners, who were well dressed, gave their names as Edward Williams and George Everette and residence as Chicago. Nearly $1,000 in bills and a large number of checks, drafts and other valuable papers were found on the prisoners. All of the offices robbed were those of the city clerk and other municipal officers.

PERSIA'S PERIL.

Political Discontent Is Assuming a Decidedly Acute State.

Teheran, July 25.—Political discontent here is again assuming an acute phase. People are loudly demanding the dismissal of the grand vizier, return of Mullahs and modification of laws. The Mullahs, who recently left the great Mosque, are now assembled at Kum, in the great Shaih palace. There are now over 5,000 refugees under the protection of the British legation here.

Stabbed to Death.

Warsaw, July 25.—Colonel Selamatoff, a gendarmerie, was stabbed to death here. The assassin escaped.

DESPERATE BATTLE.

Pulajanes Attack Negro Troops and Former Lose Fifty Men.

San Francisco, July 25.—A detachment of the Twenty-fourth (negro) infantry, says a special cablegram to the Examiner from Manila, and a company of native constabulary were attacked Tuesday by hundreds of Pulajanes

GENERAL MA.

while on the trail between the towns of Toloss and Domami, Island of Leyte, and a desperate battle took place, resulting in the route of the Pulajanes with a loss of fifty killed and more than sixty wounded. There was only one American casualty. One sergeant of the constabulary was wounded.

MANILA ACCOUNT.

Dead and Wounded Pulajanes Number One Hundred and Fifty.

Manila, July 25.—Later estimates place the number of Pulajanes dead and wounded at 150. The fight took place i a thick underwood and lasted thirty minutes. The Pulajanes, who are said to have numbered 500 men, armed with guns and bolos, charged the American column three times. The latter, composed of fifty constabulary, commanded by Captain Neville, and twenty-six negro soldiers of the Twenty-fourth infantry, was commanded by Captain McMaster.

SEPARATE ADDRESS.

Appeal to People to Quietly submit to Dissolution.

St. Petersburg, July 25.—County Heydon, Prince Lyoff and M. Stakovich, three members of parliament who refused to sign the parliamentary address to the country, issued at Viborg, July 23, issued a separate address appealing to the people to quietly submit to the imperial decree dissolving parliament, to prepare for election of members to the new parliament. The address points out the emperor acted within his constitutional rights and under fundamental law and says the signers of the address in offering this advice act from profound conviction that "it would be a crime, in the midst of present dangers, to attempt to shake the power of the sovereign."

After firmly setting forth the views of the signers of the address regarding the soltuion of agrarian and other questions and their dissent from the government programme, which made co-operation between parliament and the government impossible, the address says the emperor only exercised his rights.

JAPS GAVE ENOUGH.

Have Been Asked to Contribute No More to San Francisco's Relief.

Washington, July 25.—Through the state department the American Red Cross sent a dispatch to the Japanese government asking that no further contributions be made by Japan to the San Francisco relief fund. This action was taken by the Red Cross officials because they believe all funds necessary for relief of California earthquake sufferers can be raised in this country among persons better able to give than many Japs who contributed to the San Francisco fund. A total of $146,000 has been received by the American Red Cross from Japan for the earthquake sufferers.

LAND SINKS.

Farmers Are Alarmed and Afraid to Make an Investigation.

Chicago, July 25.—A dispatch to the Tribune from Sheboygan, Wis., says: Thirty-seven acres of cultivated land on the border of Long Lake in Fond du Lac county sank and now are covered with deep water. The sinkage is supposed to be due to a slight earthquake shock. Farmers in the neighborhood are alarmed and afraid to go near to investigate.

Castle In Flames.

Milau, Russia, July 25.—Rempter castle, situated near Tukumone, the finest and most ancient in Courtland, is in flames. Armed Revolutionists are again in possession of the surrounding country. Two columns of troops are advancing.

Not Permitted to Land.

Reval, Russia, July 25.—A steamer loaded with Finnish workmen arrived here, but the authorities would not permit them to land. The vessel departed, the men singing the "Marseillies."

Jews Arrested.

Odessa, July 25.—On suspicion of belonging to self-defence organizations about seventy Jews have been arrested.

Holland's Queen Better.

The Hague, July 25.—Queen Wilhelmina was better Wednesday morning.

MORE SENSATIONS.

How Love Letters Were Secured Will Be Interesting Feature.

Pittsburg, July 25.—From the statement made by Assistant District Attorney Robb Tuesday there are more sensations indicated in connection with the Hartje divorce case than have heretofore been disclosed.

It is rumored that if any one gets on the stand in the Hartje case and testifies that he broke open Madine's trunk, arrests will follow, and in all probobality they will be made in the court room.

It is also expected that a great legal battle will take place when Hartje's attorneys endeavor to show how the Madine love letters were secured.

Br. Smith, an insurance agent, swore that he found Silas Canady, a negro from Washington City, testified that Blanche Ashby, the negress and former servant of the Hartjes, who, in her deposition, says she never observed anything improper about Mrs. Hartje's conduct, had told him that she lied. Canady said that when he learned Blanche Ashby was going to get a lot of money for lying he wrote to Mr. Hartje to find out if he could not get some money for telling the truth.

Attorney E. G. Hartje, brother of the libellant, was cross-examined, and asked by Attorney Freeman why he had not told the court of the finding of the letters alleged to have been written by Miss Helen Scott in the room of Madine. Mr. Hartje said he did not know, and that he had not been asked in particular about that.

One of the alleged Helen Scott letters was made public Tuesday, although it had not been read in court. It was a letter to the coachman correspondent in the case, Madine, and purporting to show that she "coached" him as to the testimony he was to give in court concedning the allegation that Madine had driven Mr. Hartje to Schenley park while Mrs. Hartje was at Memphis, and where he met a strange woman, an incident that has figured in the case heretofore.

Prof. Drake, a handwriting expert of Chicago, swore that in his opinion Mrs. Hartje wrote the exhibited letter, known as the "Susie Wagner letter," which she first admitted was in her writing, and later repudiated.

EVEN TOOK SHOES.

S. H. Beard of Dallas Stripped of Valuables at Hot Springs.

Hot Springs, July 25.—While sitting in an invalid chair, S. H. Beard, of former police officer of Dallas, Tex., was stripped of his valuables, even his shoes being stolen. He is a helpless paralytic, and was robbed while his attendant was absent. His watch, eye glasses, money and an Eagle badge were taken. Sam Levett, a negro, was arrested.

JOINT MEETING.

Mining Engineers of United States and Great Britain Assemble at London.

London, July 25.—The joint meeting of the members of the American Institute of Mining Engineers and British Iron and Steel Institute opened at Institution of Civil Engineers' hall here with a large attendance.

Root Honored.

Rio de Janeiro, July 25.—At Tuesday's session of the Dominican conference Baron de Rio Branco, the Brizilian minister of foreign affairs, and Secretary Root were elected honorary presidents.

Bryan May Visit Tulsa.

Tulsa, I. T., July 25.—W. J. Bryan has assured Tulsa Democrats that he will visit Tulsa on his return from Europe, providing he can get time off from a campaign tour of Indiana this fall to visit Indian Territory. He will be the chief speaker at a big Democratic rally.

New Orleans Doctor Hurt.

Salt Lake City, July 25.—Dr. J. V. Bonnette, a tourist from New Orleans, was severely injured in a collision on the Salt Air railroad, his shoulder being dislocated, ribs crushed and a hip hurt.

Destroyed by Fire.

Canadian, I. T., July 25.—The mercantile establishment of W. B. Dunn & Co., located at Massey, nine miles southeast of this place, was completely destroyed by fire. Loss is $6,000; insurance, $4,000.

Two Hundred Arrests.

Paris, July 25.—The St. Petersburg correspondent of the Journal telegraphs that despite the prevailing calm in that city, there were 200 arrests Tuesday night, and that four newspapers were seized.

Car Repairers Strike.

New Orleans, July 25.—Five hundred car repairers of the Southern Pacific railway in this state are on strike. Recognition of their union is demanded.

May Support Hearst.

New York, July 25.—C. F. Murphy, Tammany's chief, says Tammany may support Hearst in an effort to secure gubernatorial nomination of Democrats.

Ice Water Causes Death.

Union City, Okla., July 25.—John Johnson, a boy, of Duncan, died here from cramps caused by drinking ice water.

Railroads Busy.

Denison, July 25.—All Texas railroads report business unusually good this summer.

Hirt Elected Mayor.

Pawhuska, Okla., July 25.—C. M. Hirt was elected mayor.

School For Farmers.

Durant, July 25.—A school for farmers will start here Aug. 1.

HEALTH BETTER.

William Rockefeller Has Returned From His Trip to Europe.

New York, July 25.—William Rockefeller returned from Europe a few days ago by way of Quebec, which

route he took for the advantage of the shorter trip. His health is rather better than when he went away. He is at present at his place at Tarrytown.

VICTIM OF MISTAKE.

Resident of a Chicago Flat Shoots One of His Neighbors.

Chicago, July 25.—While making a mistake not uncommon to residents of flat buildings, Joseph Wolfstein was the victim of another mistake Tuesday night. He was mistaken for a burglar and shot by E. D. Norton, a member of the board of trade. Mr. Wolfstein was not fatally hurt, but the manner of his shooting was curious.

Mr. Norton and Mr. Wolfstein had flats in the same building at Fifty-fifth Place and South Park avenue. Both men occupy the first flats in their respective entrances to the building, which has two separate doorways. Mr. Wolfstein's family is visiting in Cincinnati.

It was dark when Mr. Wolfstein, returning from town, absentmindedly turned into what he thought was his doorway on Fifty-fifth Place. He produced his key and thrust it into the keyhole of Flat No. 1. Inside the flat Mr. and Mrs. Norton, who belong there, were preparing for bed. Mrs. Norton heard the scraping of the key in the lock. Not long ago burglars entered the house and Mr. Norton frightened them away by shooting through the door. Mrs. Norton jumped to the conclusion that another attempt was being made to rob the house and called her husband's attention to the scraping sound. Mr. Norton found his revolver and went to the door, inserted his own key in the lock from the inside and quickly pulled the door partly open, sticking his revolver in the face of Mr. Wolfstein.

"Don't try to run or I'll shoot!" commanded Mr. Norton.

Mr. Wolfstein's mind began to work actively, and he concluded that he himself was being held up by a burglar who was robbing his house. He started to run. Mr. Norton fired and a bullet entered within Wolfstein's side inflicting a flesh wound. When Mr. Norton bent over the prostrate figure of the ticket broker he became apprised of his mistake. He was not arrested.

FOUND NO GOLD.

Denison Man Is Out About Four Hundred Dollars.

Denison, July 25.—Henry Osman has arrived from the Province of Ontario. He went there on the strength of alleged gold discoveries. Several thousand people are there. Not an ounce of gold had been found. The scheme was worked up by land boomers, he alleges. He saw nothing but mica, not worth 10 cents an acre. His experience cost him $400.

HULEN OFFERS MEDAL.

To Be Given the Best Marksman in Texas National Guard.

Austin, July 25.—Attorney General Hulen has offered a gold medal for the best marksman of the Texas National guard, to be contested for at the coming encampment. The contest will be open to both officers and men.

A. C. Wilson of Dallas has been appointed assistant paymaster in the Texas National guard by Governor Lanham with the rank of captain.

JOLLY "UNCLE JOE."

Saw the Sights and Insisted on Being One of the People.

New York, July 25.—"Uncle Joe" Cannon of Illinois, spaeker of the house of representatives, went to Coney Island Tuesday night, saw all the sights and insisted on being "one of the people," standing in line and taking his turn with the rest of the crowd. He declared that the big show place would have no more enthusiastic booster than himself hereafter and entertained his friends by many droll speeches.

Not Offered Position.

St. Paul, July 25.—President Stickney of the Chicago and Great Western railroad, when asked by a representative of the Associated Press in regard to reports that he had been or would be offered a place on the interstate commerce commission, said: "I have not been offered such position."

Will Need Many Hands.

Winnipeg, Man., July 25.—A. J. Black, minister of agriculture, says more than 20,000 harvest hands will need to be imported this year to handle the crop. The harvest will probably be started early in August.

MIND AND MUSCLE.

Influence of Former Upon the Latter Plainly to Be Seen.

In all feats of skill the influence of the mind is most important. To perform in thoroughly good style any difficult feat of skill it is absolutely necessary that the mind must be free from fear, anxiety or nervousness. I knew once, years ago, a man who had been a bullfighter in Spain. During one of his glowing accounts of the sport I expressed my surprise that he should have left the life. His reply was: "One day I was about to enter the ring and I had a little creepy feeling of fear. Then I stopped for good. The man who feels fear is sure to be killed."

And it is equally true that the man who fears is heavily handicapped, no matter what the contest may be. Anxiety and nervousness are closely akin to fear, and both are so powerful in their effect as to render it almost impossible for one to perform perfectly any difficult or delicate feat of skill. The man who is afraid or anxious or nervous is almost sure to fail.

All emotions when intense have a powerful effect on the muscles. This is plainly seen in the tension of the muscles, clinching of hands and arms, as well as of the face, in anger, in the spasmodic breathing of excitement, in the muscular weakness and trembling of fear, and in many other conditions that might be mentioned. Now, in feats of skill of whatever nature, whether balancing, juggling, marksmanship, tumbling or shot putting, it is necessary that just the right muscles must be used at just the right instant and to just the right degree. When, however, the muscles are disturbed by emotional excitement, such delicate adjustment is impossible and the probable result is failure.

The mental state most conducive to success in games of skill is confident calmness. And by practice this state of mind may be made a habit—a habit most valuable in all games of skill, even in that game of skill called life.—Dr. W. R. C. Latson in Outing.

The Badge and the "Star"

The badge that distinguishes the best chew made and secures the right of way into the mouth of every particular chewer is the little "Star" tag on every plug of

STAR

PLUG CHEWING TOBACCO

The immense sales of "Star" are simply due to the high standard of quality which it introduced over forty years ago and has since maintained against all sorts of competition.

No chew so good—no chew so economical—no chew so popular. The wholesome, sweet, waxy leaf in "Star" gives an elastic chew that holds its substance until every bit of the rich juice is chewed out of it. Lasts twice as long as "cheap" chews.

200,000 acres of improved and unimproved land ranging in prices at from $7.00 to $12.00 per acre.

HARTLEY AND OLDHAM COUNTIES.

We have to offer to our customers 250,000 acres of land in Hartley and Oldham counties, at prices ranging from $5.00 to $12.00, consisting of a rich chocolate colored and dark sandy loam soil, with gentle undulation of knolls and valleys. **To appreciate is to see.**

The average annual rainfall amounts to twenty-four inches, copiously supplemented by a sub-surface supply of water so ample and unfailing as to warrant the statement that it is the best watered large body of land in the Panhandle. From twenty to seventy-five feet below the surface, sheet water can be obtained anywhere. A large number of springs are scattered here and there, sending forth their streams of water in brooks and rivers that wend their way through a hundred valleys sub-irrigated and ready for the plowshare. The elevation of the springs suggests this to be an artesian belt, and this is to be considered as one of the greatest advantages when thinking of a new country. A review of the Weather Bureau reports show the precipitation to be well distributed, beginning in April and ending in September with dry clear winters. The United States Department of Agriculture regards a **precipitation of sixteen inches, well distributed, as ample for raising the leading cereals.**

There is all in all not a more agreeable and healthy climate to be found in the United States. The purity and quantity of water and the absence of malaria make every condition conducive to health.

The leading cereals peculiarly adapted to this section are Corn, Wheat, Oats, Rye, Barley, Millet, Kaffir-corn, Sorghum and allied varieties; such fruits as Berries, Pears, Plums, Prunes, Apricots, Peaches, Apples, Grapes and small fruits of this latitude, together with the Irish and sweet potatoes, Beets, Melons, table vegetables of all kinds are grown with little labor and in great abundance. Alfalfa, Timothy, Clover and other domestic grasses flourish. Hog cholera is unknown. This tract is situated along the main line of the Chicago, Rock Island and Pacific Railway, between Chicago and San Francisco, giving to the farmer for himself and products cheap and quick transportation to both eastern and western markets. These lands possess all inherent elements of value. What they lack is the hand of industry to convert them into fruit-laden orchards and golden grain. The prices and terms are such that this is now the Paradise of the homeseeker with small means as well as of the one with large estate.

The western border of the Panhandle is the boundary of cheap agricultural lands of the Southwest. Like Oklahoma twenty years ago, her vast domain has been undeveloped, inhabited only by herds of cattle; but the demand for agricultural land has forced these lands on the market, and today we are offering the last of the cream of the great Southwest. **North Texas today offers better opportunities for the investment of capital and labor than any other section of the United States.** Many a man will be saying when Panhandle land is worth $50.00 an acre, "Oh, had I only gone to the Panhandle when land was cheap."

With the increasing demand for poultry and dairy supplies, this section of the country will forge rapidly to the front. The absence of cholera and diseases that infest the lower altitudes, together with the high prices and proximity to northern and eastern markets is proven by the few dozen who have already embarked in this profitable business that it is a great success. Cows are healthier, feed and grass more plentiful, and the air freer from germ and diseases than any of the adjoining States or Territories. The medical profession is authority for the statement that surgical operations performed at Denver and Amarillo are more successful than those performed in eastern states, and bears out the statement that the air is freer from bacteria and other germs than most any other section.

Prominent Citizens Endorse the Reference to Mr. Maloney's Candidacy for Sheriff of Erath.

We the undersigned citizens and voters of Dublin heartily and gladly endorse the below article from the Progress of July 20th, relative to the candidacy of our fellow townsman, Geo. B. Maloney:

R. B. Spencer	J. R. St. Clair
B. M. Utterback	Jno. G. Harris
J. M. Jordan	T. J. Farmer
A. L. Cole	C. W. Day
W. Y. Reid	M. C. Witcher
W. H. Henthorne	B. W. Lafferty
H. H. Andrew	W. H. Key
L. R. Mayfield	J. S. Daley
J. B. Waldo	W. T. Daniel
N. D. Smith	W. T. Hunt
P. K. Cline	

"The story is being sent throughcut the county, or at least is in circulation over the county, that Geo. B. Maloney, candidate for sheriff from Dublin, will not receive practically all the votes cast here in the primaries on the 28th, in fact that he is likely to be beaten at his home box. Whether the statement has been intentionally and maliciously circulated in order to injure Mr. Maloney's candidacy over the county or whether it has been simply the result of honest but misguided information and motive we are not aware. In either case the story is a grave injustice to Mr. Maloney and to the people of Dublin who recognize in him one of the best, most conscientious and most conservative citizens that Dublin has ever had; rigidly honest, altogether unassuming, endowed with more than ordinary talent and a giant in morality and good citizenship. There is probably not another man in Dublin as popular and with as few enemies as George Maloney and it is safe to make the broad statement that when the election rolls around he will receive at least two-thirds of all the votes cast at Dublin and a large percentage of the few here who do not vote for him will fail to do so only because they had pledged themselves before he was even spoken of as a candidate or because of the application of the discreditable and disreputable policy of unworthy candidates and their partisans to take advantage of the ever present fierce prejudice on the local option question to lash the unsuspecting voter into casting their ballots for them. We say unworthy candidates advisedly, for we do not consider any candidate a worthy or deserving one who attempts to take advantage of prejudice to foist himself into office, regardless of how fit he may be for the place in other respects. It is a dishonest act, breeds dishonesty and we do not consider a man as a dependable man or official who will resort to such questions methods. This sort of an effort is as far below George Maloney as the mole that digs in the ground to destroy the farmers' crops is below the eagle that soars above the mountain peaks. Even because of the fierce partizanship it engenders, Maloney's conservatism has for years prompted him to have nothing to do with local option fights and he has acted upon these promptings and remained out of them.

Though firm in all his convictions he is not the sort of a man who continually criticises others because they do not agree with him and he numbers among his best friends many of those with whom he disagrees on various political questions. This conservatism has not been prompted either by the idea of being a candidate, for the writer has known him intimately more than twenty years. He has been the same honest, reliable and conservative citizen all these years and has never thought of becoming a candidate for anything until the past year and then the idea did not originate with him but with a number of good citizens of this county who agreed among themselves that the county needed such a man for sheriff and after agreeing undertook to get him to make the race, an idea which he was slow to take up and which he considered well before doing so. Then the chief personal reason that caused him to decide as he did was the fact that business reverses have overtaken him in the past few years in which he has lost the entire sayings of an industrious life. The only office he ever held was that of school trustee for several years in Dublin, a position to which there is no pecuniary emoluments but which is an honor to any citizen and even to this position he was elected without asking for it and purely and only because such a man was needed. No man in Dublin stands fairer than George Maloney and his standing is a test, not of a few years, but a life time, for he was born and raised in the vicinity of Dublin and has for more than twenty years been an honest citizen of Dublin. Those who may be deluded into thinking that he will not get the vote of Dublin in the primaries of July 28th are destined to be shown they are mistaken when the vote is counted. This we make free to say without his knowledge or request or the request of any other person, but simply as a matter of justice to a citizen who is worthy the support of every voter and upon whom it appears the stigma is being circulated that he does not stand well at home. We even venture the assertion that there is not a citizen in Dublin of any standing who will deny that George Maloney is just such a man as we say he is."

PROCTOR.

From Comanche Exponent.

July 18th.—There is considerable demand for houses to rent.

L. A. South has moved his business into the old drug store.

Miss Pearl Johnston is visiting her sister, Mrs. Hicks Stevenson.

J. B. Dial is building a residence on the block he bought near the Baptist church.

Mrs. M. E. Jenkins and her son, Frank, contemplate adding to their residence to make a seven room house.

The Christian church has been moved back far enough from the street to admit a room in front in the form of a T, and will be built soon.

Will Miller rented the W. O. W. building and bought Ed Kerby's meat market. Mr. Kerby moved back to the farm.

Prof. Russell has been disappointed about his catalogues, but will have them ready for distribution in a few days.

The protracted services at the Baptist tabernacle will close tonight. There has been several conversions and the membership very much edified by the forceful and scriptural preaching.

R. W. Gray and Prof. Russell organized a Presbyterian Sunday school at the arbor on Mr. Gray's farm on the Leon last Sunday evening. Mr. Gray was elected superintendent and Prof. Russell a teacher. It is to be hoped they will be able to accomplish much good among those people, many of whom are Mr. Gray's tenants.

The farmers of our community have been turning their attention to business outside the farm for the last week on account of the continuous rains. The young grass is springing up on the lands that were perfectly clean before the rain began. The cotton crop will have to be plowed as soon as the land gets dry enough. While the corn crop is not first-class, yet what corn is made will be well matured and heavy. The rains will make a good sweet potato crop. The sorghum crop is very poor, but the land is in condition to make a fine second crop.

DE LEON.

Regular Correspondence.

July 25th.—Miss Norvelle Pittman of Stephenville is spending this week with friends and relatives here.

Gould Whaley of Hamlin was here Sunday and Monday.

H. L. Harris of Dublin was here two or three days this week on business.

Miss Mary Souter of Cleveland, Okla., is a guest of the Misses Streety this week.

Several parties went to Cisco Wednesday to attend the big picnic at that place.

C. C. Gaines was here Tuesday in the interest of his candidacy for the legislature.

J. B. Hilliard took advantage of the excursion and spent a few days in Galveston.

The Teddy Bros. left Saturday for Romney, where they will begin teaching a class in vocal music.

"Grandma" Walker, who has been spending some time with her son near Desdemona, came home last week.

A. M. Shelton, who has been preaching at the Christian church for several days, left for his home in Eastland Sunday night.

The corn crop is better in the De Leon country than it has been for several years. So much rain has put the farmers behind with their work. Watermelons are getting to be very plentiful and cheap. Fruit, except grapes, is very scarce in this section.

Mrs. W. H. Moore and two youngest children left on Monday morning's train for Oklahoma. Mr. Moore and the remainder of the family will follow in a few days and will make the trip by private conveyance and expect to make Oklahoma their future home.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand you will never see anything else but smiles on his face. Mrs. S— of Blackwell, Okla., writes: "My baby was peevish and fretful; would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by Overton Drug Co.

POINT LOOKOUT.

Regular Correspondence.

July 23rd.—We are having plenty of rain. Corn has come out and will make a full half crop. Cotton is fine for this season of the year. Insects have killed most of the cantaloupe and cucumber vines and damaged the water melon vines to a great extent. The peach crop is very short and inferior. Gardens have also come out and vegetables are plentiful. Sweet potatoes will soon be large enough to market. Grass and water are plentiful and stock in good condition.

Matt Johnson of the Oak Dale community visited J. W. Stephen Saturday.

J. V. Stephen is able to be up on crutches and will soon be able to attend to his farm duties.

Mrs. J. Walter St. Clair and children are comfortably domiciled in ther camp and enjoying the fresh air.

Mrs. May Stephen and Mrs. St. Clair visited Mrs. Sam Davis Saturday. We are sorry to note that Mrs. Davis is still confined to her bed.

L. M. and W. G. Stephen and their wives attended church at Heavenly Branch Sunday. They report a good meeting in progress at that place being conducted by Rev. Jones of Mississippi. The meeting will continue ten days.

We were glad to see our editor come out and denounce the report now in circulation as to George Maloney not carrying his home box. G. B. Maloney will duplicate the votes of all his opponents at Dublin and various other places. While we have good men running for sheriff we can't elect them all. It is our opinion that G. B. Maloney is the coming sheriff. However, any of them will suit us but of course we have our choice. So let every man on the 28th vote for his choice regardless of this or that report. We will have an opportunity to elect a good set of officers.

Do You Want to Know What You Swallow?

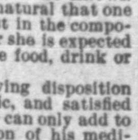

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed *free* to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away 680,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Bowel Complaint in Children.

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy as it promptly controls any unnatural looseness of the bowels. For sale by Overton Drug Co.

GUSTINE.

From the Gazette.

July 20th.—Billie Hill has returned from a stay of a few weeks at Mineral Wells.

A. N. Honea of Throckmorton arrived Wednesday to spend a week with home folks.

W. L. Butler went to Dublin Wednesday to meet Rev. Lee of Gorman, who came to assist Rev. Ellis in the revival meeting.

Prof. M. J. McDonald and wife have been employed to teach the public school at Lamesa and will not return to Gustine as they contemplated when they left here.

Mrs. G W. Toby and children left Wednesday for Snyder to visit relatives and to join Rev. Toby, who is doing revival work in that part of the country.

There was an interesting meeting of the local Farmers Union Tuesday night. The membership of the union is increasing and an interest being manifested that indicates a continual growth. Along educational lines the union may accomplish splendid results.

We learn that J. E. McDonald has purchased three hundred and twenty acres more of Dawson county land, which means that he is pleased with the west or is doing all this to deceive some of his friends here, some of whom were beginning to look for him to return to Gustine.

B. M. Franks, who went to Comanche Monday to present the commissioners court the matter of grading the Gustine-Comanche road, reports that the commissioners promised to meet soon and give the matter due consideration. He thinks they will act favorably if those most interested will prove a willingness to help.

Only 82 Years Old.

"I am only 82 years old and don't expect, even when I get real old, to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson of Dublin, Ca. Surely there is nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable length of time. Guaranteed by Overton Drug Co. Price 50c.

COMANCHE.

From the Exponent.

July 20th.—N. L. Clark and family spent Sunday near Dublin, where he had an appointment to preach.

J. C. and Jim Campbell have returned from Mexico, where they bought a bunch of horses and mules.

Dick Oxford, formerly county attorney of Erath county, but now living in southwest Colorado, was here this week visiting his sister, Mrs. J. H. McMillan.

The commissioners court met Monday and canvassed the returns of the school superintendent election. There were one hundred and thirty-nine voths for and nine hundred and ninty-three against the proposition.

Mrs. Leslie Gillette and children moved to Dublin this week. Leslie has been there for several weeks. Mrs. Gillette's sister, Miss Pearle Childers, accompanied her and will remain until after the re-union.

The Comanche concert band has been employed to furnish music at the Dublin re-union. This is quite a compliment to this band of young musicians and they are to be congratulated. They won many words of praise anent the music furnished at the fourth of July picnic here and at the picnic at Eastland.

At the recent session of the commissioners court the assessments of the Frisco railroad were placed at $6,000 per mile on trackage, etc., and forty per cent on its intangible assets, making its total assessment $9,859.20 per mile. The Texas Central's was put at $6,000 per mile and forty per cent on intangibles. The tax agent of the Frisco, Herbert Morris of Fort Worth, informed us that his road believes the assessment entirely too high and will probably contest the intangible assessment in the courts. In Brown county, where the road has round houses, fine depot and extensive terminals, the assessment is $6,000 and twelve and one-half per cent; In Erath county the assessment is $5,500 per mile. He thinks the Frisco and Central's should be the same.

OUR HOBBY

I have always believed—a sort of hobby of mine—that the way to success consisted not so much of cheapness as of quality. A dollars worth for every dollar spent with me. And this was the idea uppermost in my mind when selecting a modern stock of groceries.

The Wedge Wood Can Goods; The Golden Gate Coffee, Teas and Spices; The Wedge Wood Flour and the White Swan Syrups; the very best money will buy.

I guarantee every article of high class merchandise that goes out of my store. Premium stamps and Prompt Delivery are special features.

Last Saturday Dred McKinney narrowly escaped losing his life by a terrible electrical shock, which proved very painful and considerably burned his left arm, but which it is not believed will transmit any lasting injury. Mr. McKinney is engaged as engineer at the light plant and in passing through the room where the electrical dynamos are located he accidently struck his bare left arm against an electrical switch carrying eleven hundred volts of electric current. He was knocked down and for a time was unconscious and it was believed that he might die, but he soon rallied and during the afternoon was again back to work, though suffering considerable inconvenience from the burn on his arm and from the effect of the shock on his system and blood vessels. The latter were considerably enlarged the following day and gave him some pain and for a number of hours it was feared the left arm had been paralized.

Politics make strange bed-fellows. Ten years ago C. H. Jenkins of Brownwood made the race against C. K. Bell on the populist ticket and if he had been given a fair count would in all probability been given Mr. Bell's seat. During the campaign Jenkins pictured Bell and the democratic organization in very lurid colors. Now Jenkins is running for the legislature on the democratic ticket and throwing all kinds of sweet scented boquets at Bell.—Italy News-Herald.

L. E. Howard, late of Durant, Miss., is in the vicinity of Dublin for a visit with relatives and incidentally prospecting with a view of locating at some point in this section of the state. Mr. Howard is a druggist and was for six years engaged in the drug business at his Mississippi home. He expects shortly to go to Mineral Wells to attend the meeting of the state board of medical examiners to procure license under the state law as a pharmacist.

James Mounce, who was for a long time fireman on the Texas Central and who lived here for many years, says the Walnut Springs Hustler, was pretty badly hurt in a wreck on the Santa Fe about two miles from Belton recently. When he saw a wreck was inevitable he jumped from the engine and fell against a culvert and received several cuts and bruises about the face and head.

Early last Tuesday morning L. F. Sensabaugh painfully injured his left arm by accidently penetrating the wrist with a knife. Mr. Sensabaugh was trimming the branches of a tree and the knife slipped, the point striking the wrist and passing entirely through it. It is not thought that the arm wil be rendered stiff on accout of the accident.

W. M. Barton returned last Friday from a three months' visit with his aged father and other relatives in north Alabama. He reports his father in excellent health at the age of eighty years and says he had a most enjoyable visit. He reports crops fine in that country this year and says there is a big demand for corn.

The up-town office of the Wells-Fargo Express Co. will be open for business on the fifteenth of the coming month, after which time all the express of both the railroads here will be handled through the uptown office. A gentleman who is no agent for the Santa Fe at some point east of here will have charge of the express office.

Messrs. N. W. Kiker, W. E. Lee, J. O. Latta and Mr. Thompson of the Green's Creek country, accompanied by their families, left Wednesday to spend a couple of weeks near Bronte in Coke county on a fishing trip and incidentally a visit with relatives. They were also accompanied by Fred and Ernest Kiker.

The republicans will hold their precinct conventions all over Erath county tomofrow and elect delegates to attend the county convention at Stephenville on August 4th, to elect a county chairman, and also to elect delegates to the judicial, senatorial, congressioual and state conventions.

The first rural route out of Gustine has been ordered and bids for carrying it are now being received by Postmaster Speed of that place. The route runs west and southwest of Gustine and serves a total distance of about twenty-two miles.

We are requested by Messrs. Joe Devenport and F. S. Kennedy of Bunyan to say that on account of the protracted meeting in progress there the fifth Sunday singing has been postponed to the fifth Sunday in September.

Rev. O. P. Kiker will leave tomorrow for Lorena, where he goes to hold a ten days' revival meeting. Mrs. Kiker and children will visit in Fort Worth, north Texas and on the plains during Rev. Kiker's absence.

E. A. Powell wants a few more good teams for the re-union. 'Phone all bus calls to the park. Price bus ten cents to town and fifteen cents anywhere.

Burton Under Arrest.

P. J. Burton, late cotton broker of this place and who left Dublin under circumstances that are somewhat familiar to a great many people of this place, was arrested at Fort Worth Wednesday on a charge of bigamy and is now in jail at Stephenville. Burton claimed here to be a single man and inveigled a respectable young lady of this place into a marriage, which is said to have been preformed by the county judge at Stephenville. Later developments were that he had a wife and three children in north Texas and today the young girl whom he betrayed is at the home of her mother in this city in a precarous condition.

IS FOR CAMPBELL

Speech of Lawyer McCarty in Refutation of an attack by Lawyer George of Stephenville.

The Progress takes pleasure in reporting a speech made by our fellow townsman, J. E. McCarty, last Saturday evening in the interest of Tom Campbell for governor, which is as follows:

"My address will be chiefly directed in answer to a speech made in behalf of Judge Bell by one Collin George, a railway attorney who lives in Stephenville and who parts his name and hair in the middle.

"J. Collin tells us that Mr. Campbell was lifted from porverty and obscurity by being made general manager of the I. & G. N. and says now he has proven an ingrate like the serpent that fastened its poison fangs in the breast of the man who warmed it into life.

In that way Mr. Campbell has proven himself an ingrate, he was not lifted to that position by the Goulds and the railroad magnets, but was appointed receiver of the I. & G. N. Ry. Co. by Felix McCord, one of the district judges in the Tyler district, and through the influence of Governor Hogg. He served this corporation well and faithfully but in 1896 he severed his connection with it.

J. Collin warns you that Tom Campbell, if elected governor, will turn the state bodily over to the railroads. What about J. Collin? Has he not the past fifteen years fattened off of the railroad practice and is today the attorney and serving not one but two? Is he not ungrateful by calling the peoples' attention to the railroads cherished hopes of electing Mr. Campbell. Then again it is said, and I believe truthfully so, that in the event of Bell's election, he, J. Collin, will be assistant attorney general. Then if appointed to this place will he serve the people or show his gratitude by serving the railroads?

Look into the Bell political band wagon and who do we see? Paddock, Lane, McDonnell & Co., at the Fort Worth Bell rally. This man Paddock was the whole thing. Who is Paddock & Co? Why they are corporation adherants who have opposed Jim Hogg, Bryan and every candidate who stood for the people. I would as leave turn over my herd of goats to a band of coyotes to be protected from the ravagees of other wolves as to turn over the interest of the people to J. Collin and this band of politicians to be protected from corporate greed.

Once upon a time a Jew was trying to sell a boy a pair of corduroy pants. Finally the boy declined to take the pants and when pressed for his reasons he replied: "they stink." thereupon the Jew replied, "its not de pants which stinks its de Jew which stinks." It may not be Bell which stinks but J. Collin and Paddock and that crowd in Bell's political band wagon.

We are told that Bell has held office one after another for about thirty years and they argue because Bell has had his head in the public crib for thirty years is a further reason for perpetuating him in office and they pointed with pride to the fact that when Bell gets his lips wrapped about the public tit that he does not have to be choked lose but would always turn loose (for a fatter one) and because every time Bell opened his mouth the people shook the political plum tree and a nice juicy plum fell, therein showing conclusively his eminent fitness for the present job. They go upon the principal that he who hath plenty give more unto him, but he who hath but little take even that from him.

Bell, in supporting Wynne for governor in 1900 said, "it is well to go among the people for your candidate for governor at least once in every twelve years" and instead they elected Joe Sayers, who had been a political pap sucker for twenty-five years. This was followed up by electing Governor Lanham, another office holder with a record of twenty-five to thirty years and now they want to follow up that with Bell with a record of thirty years. If, as Bell said in 1900, there was a crying need for governor from the common people, then is there not a greater reason for it today?

Now after boasting that Bell has held office for thirty years they feel like that they should show that he has done something to recompense the people for all this political preferment and what does J. Collin point to with pride. He tells you that Bell was senator in 1887, was the autohor of our local option law. Why, we have had a local option law upon our statutes since 1876. It is true the law was revised or amended in 1887 and abou ten times since. The law of 1887 was no credit to any one. It proved ineffectual. What does Mr. Bell say about being for or against local option personally. He says in Hamilton county he is in favor of local option but in Tarrant he is against it, so it is owing to his geographical situation at the particular time as to whether he is an anti or a pro. How do you suppose the geographical situation of Austin would make him feel about this proposition?

During the memoriable Bryan and McKinley contest those favoring McKinley were called gold bugs, those favoring Bryan silver bugs and those on the fence straddle bugs, so upon this question Mr. Bell is a straddle bug.

How about the other candidates? They are all on one side or the other, Mr. Colquit declaring himself an anti and Brooks and Campbel pros.

J. Collin tells us that when in congress Bell defeated a gigantic steal and kept congress from bodily giving the Union Pacific railroad one hundred million or more of the peoples' money.

Lee Young, another Bell adherent, tells us that Bell prevented an extension of a debt for about one hundred million at a small interest and Bell defeated this, so you see looking at this through Young's glasses it dwindles to an insignificant mole hill.

But they tell you Bell when attorney general brought more anti trust suits than all other attorney generals put together.

It is claimed he recovered something over one hundred thousand by anti trust suits. The bulk of this about ninety-five thousand was recovered in the brewery suits, but did you know before these brewery suits were brought that a suit to mandamus Attorney General Bell was brought to force him to bring these suits? (see 63 S. W., page 622)

It is true the supreme court held that it was within the direction of the attorney general to bring these suits and dismissed the pocreedings. Then soon after an attorney by the name of Faulk brought these suits. Some say that it is not true that Bell brought these suits. Then why did the state of Texas allow Faulk that splendid fee of about $20,000 or more for bringing these suits.

Senator Presler says that he has a copy or has seen a letter from Faulk stating these suits were instituted without the consent or knowledge of Bell. Of course Bell afterward cooperated with Faulk, "but what else could the poor girl do."

They say Tom Campbell opposed the fellow servants act. The fellow servants act was for the relief of men who work around dangerous and ponderous machinery. This has been denied by Mr. Campbell and proven false, yet some parties opposing Mr. Campbell use it still. The parties sent to Austin by the several labor organizations to urge the passage of this bill say Mr. Campbell did not oppose it but in fact favored the passage of a better bill for the working men than the one which did pass. The following leaders of the labor organizations say Mr. Campbell did not oppose the fellow servants act: E. P. Curtis, O. R.C.; J. S. Myers, B. L. F.; H. G. Wagoner, B. R. T.; C. D. Johnson, B. L. E.; Walton Peteet, Texas Federation of Labor, all signed members Joint Legislative Board of Texas. It is true Mr. Campbell advocated, and so did these members of the various organizations above referred too, a better bill, for the one that passed was very limited in its scope and to that extent he did not favor the bill that became the law and upon such flimsy stuff is the foundation for this false report. Mr. Presler, who was our senator at the time of the passing of this bill, verifies all these statements. The other candidates for governor do not make these charges any more against Mr. Campbell but some of the speakers who are not so well informed are making this time-worn falsehood do service yet. They charge Mr. Campbell with giving rebates when general manager of the I. & G. N. but Mr. Campbell says that he was not aware that rebates were being given. The bills showed upon their face regularly. Mr. Galbraith, the general freight agent of the I. & G. N., says these rebates were secret and not known to Mr. Campbell. That Mr. Campbell's instructins to him was to track the law. These statements were made by Mr. Galbraith and known to the public prior to the commencement of the governor's race. Mr. Galbraith further says that he received instructions to give rebates from Geo. Gould, president of the road. The other candidates now admit this to be true but say that Mr. Campbell should have known this.

It was stated at the beginning of this campaign that Mr. Campbell had a letter written by Governor Hogg indorsing him for governor. Some of Mr. Campbell's opponents said those who believe this believe in witches. Mr. Campbell produced the letter, a fac-simile of which has been printed and circulated all over the state.

J. Collin said it is true Hogg wrote the letter but he did not know Campbell's record at the time and that the letter was ancient. It was dated May 17th, 1905, the beginning of this campaign. Governor Hogg did not know of Mr. Campbell's opposing the fellow servants act because he did not do it. This rebate matter occurred in 1896, the prosecutions were had and the fines paid in 1897. Hogg then lived in Austin and was still taking a lively interest in railroad legislation, prosecutions, etc., and of course knew all the facts then much better than most people understand it now. Mr. Campbell had severed his connection with the road at the date of these prosecutions.

Mr. Bell when attorney general compromised all the trust suits, except the brewery suits, at ridiculously low figures and turned them loose to ply their nefarious vocation upon the people again. The corporation could raise the price a fraction and the people would settle the bill in the long run. I once knew a man who worked a good many negroes and when provoked would thrash one occasionally. If the negroes reported him and he was fined he charged the amount of the fine to the negro's account and at settlement took it out of the negro's wages. This was Bell and the corporations. It has been asserted on the streets of Dublin that Mr. Campbell rendered, or caused to be rendered, the I. & G. N. Ry. property for taxation at ridiculously low figures.

The renditions during his administration show an average of about $9,000 per mile. The present average all over the state is a little over $8,000 per mile and the railroads are all rendered higher now than then. I'll make the assertion that the railroads running through this county did not render their property for more than $2,500 per mile when Mr. Campbell was manager of the I. & G. N. Do you know the valuation of taxes of the two railroads running through Erath county for 1905; Texas Central $4,500 per mile, Fort Worth & Rio Grande $5,500 per mile, just about one-half of what the I. & G. N. was rendered at ten years ago. These two roads are beating Erath county out of about $7,000 of taxes annually by rendering their property at this ridiculously low valuation (and I beg you remember that J. Collin represents these two roads.) Mr. Campbell says that you can't buy these various railroads for less than forty to fifty thousand dollars per mile. Their value as fixed by their stocks and bonds averages $34,822 per mile and he says, "make laws to force one valuation." If the railroads in Texas are worth $30,000 per mile for the purpose of collecting from the people freight charges then they should be worth and are worth $30,000 per mile for the purpose of assessment and payment of taxes.

Let the people tax the railroads on the same valuation that the railroads tax the people, yet J. Collin has all kinds of sinking spells over Campbell's proposition to reduce taxes for state purposes on homesteads actually occupied by the owner. He is terribly disturded over the idea that the people who own their little homesteads will not pay most of the taxes as they have in the past and let railroad companies and people who have money in the banks escape or as Mr. Campbell says, render coppers where they have dollars.

"In Fort Worth alone statistics show a deposit in bank on the first day of January of over nine millions of dollars, yet the assessors' books show about three million assessed in the entire country for taxation and probably one-half of this amount is not part of that in the bank. Mr. Campbell belives the little homes of the actual settler who has paid the bulk of taxes for years and years should be given a rest and let the stock and bondholders of the railroad companies and the man with cash in the bank dance to the music a while even though we do have to get out, the smelling salts for J. Collin and Paddock & Co. J. Collin says Campbell is wealthy and Bell is poor, that the woods are full of two by four squirrell head lawyers being paid by Campbell's campaign managers and he discussed at length a twenty-five cent expenditure, a telephone message, paid by the Campbell club. The daily papers are full of news about special trains being run in the interest of Bell free to all. If the railroads are doing this gratuitously then surely Mr. Bell is the railroad candidate. If Mr. Bell or his campaign managers are paying for this, then Mr. Bell is not so poor. You no doubt have heard of the magnificent building in Fort Worth called the Bell building. You've never heard of the Campbell building have you?

Iam informed every great daily paper in Texas is against Campbell and most of them for Bell. To test this pick up the daily papers and see column after column devoted to Mr. Bell. It takes cash and plenty, too, to gain the favors of these great distributors of daily news. How gladly they print every slander on Campbell in box car letters. It is generally understood that Sayers was brought into the governor's office by railroad money. That the anti pass, double header and all railroad platform demands were under the Sayers administration defeated, in fact it is asserted more railroad legislation in favor of the people and against railroads was defeated under Sayers' administration than all the other governors. More mergers that unloaded fictitious bonds upon the Texas end of the road which willbe collectedback from the people in unjust freight rates and I beg you to remember it was Sayers' administration under which the famous Waters-Pierce Oil Co. transaction took place.

When Tom Smith died Joe Sayers was looking around for a more suitable attorney general. Whom he did pick but Bell? and I judge Bell was acceptable to that crowd, who foisted Sayers into office or else Sayers would not have appointed him.

They tell you Bell is conservative, they say do not disturb present conditions or you will do the state an injury. We heard this same talk about Hogg and Bryan. Did you ever notice the fellow who is getting some kind of unlawful graft bellows "don't disturb things." Conservatism! Campbell is too radical. When you see all the daily papers against a certain candidate and column after column about the big things of a certain candidate, before you climb into the political band wagon of this Goliath scrutanize the faces of the occupants and if you see Paddock & Co. and J. Collin George its a safe proposition to let it pass. J. Collin! I wonder if he flatters himself that he is fooling anybody. If really he is taking himself serious, then when he has gone to that shore from whence no traveler has ever returned we'll not plant at the head of his last resting place a pecan tree, nor will we erect a massive shaft of marble but a colossal pyramid of jackass skulls emblematic of his monumental stupidity and as a remembrance of what a donkey he made of himself during this campaign."

BACK TO PULPIT

What Food Did for a Clergyman.

A minister of Elizabethtown tells how Grape-Nuts brought him back to his pulpit: "Some five years ago I had an attack of what seemed to be the la grippe which left me in a complete state of collapse and I suffered some time with nervous prostration. My appetite failed, I lost flesh until I was a mere skeleton, life was a burden to me, I lost interest in everything and almost in everybody save my precious wife.

"Then on the recommendation of some friends I began to use Grape-Nuts food. At that time I was a miserable skeleton, without appetite and scarcely able to walk across the room; had ugly dreams at night, no disposition to entertain or to be entertained and began to shun society.

"I finally gave up the regular ministry, indeed I could not collect my thoughts on any subject, and became almost a hermit. After I had been using Grape-Nuts food for a short time I discovered that I was taking on new life and my appetite began to improve; I began to sleep better and my weight increased steadily; I had lost some fifty pounds but under the new food regime I have regained almost my former weight.

"I feel that I owe much to Grape-Nuts and can truly recommend the food to all who require a powerful rebuilding agent delicious to taste and always welcome." Name given by Postum Co., Battle Creek, Mich. A true natural road to regain health or hold it is by use of a dish of Grape-Nuts and cream morning and night. Or have the food made into some of the many delicious dishes given in the little recipe book found in packages.

Ten day's trial of Grape-Nuts helps many. "There's a reason."

DANGER IN DELAY

Kidney Diseases are Too Dangerous for Dublin People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Dublin.

W. L. Wood, farmer, living a mile and a half west of Dublin, Texas, says: "Doan's Kidney Pills, which I procured at the Overton Drug Co.'s store some six months ago, did me more good than any medicine I ever used. I have no hesitation in recommending them to persons in need of a remedy for the kidneys and back. For more than two years I suffered from heavy bearing down pains across the loins and in the region of the kidneys. They were particularly severe if I brought any strain on the muscles of the back from lifting. Doan's Kidney Pills relieved me entirely of the backache and corrected the action of the kidney secretions which had been more or less irregular at times."

HEALTH AND HABITS.

Tissue Income and Expenditure Must Be Made to Balance.

The day must come at some future period of sociological development when the instinct of self preservation will overrule the pernicious habits and customs of the present day fashions and necessity. Men will come to learn that tissue income and expenditure must be adjusted to a better balance if the human machine is to be kept in smoothly working order; that excess of either is a physiological sin which nature will surely avenge either on the individual or on his descendants; that sustained work of the best quality can only be performed when effort is kept well within the margin of accomplishment; that luxurious idleness and artificial excitement, when carried beyond the limits of a healthy counterpoise to the daily routine of active duty, bring about their neurasthenic nemesis as surely as overstrenuous endeavor, and that the coming generation can be fitted to battle with the increasing complexities of life only if endowed with bodies that are structurally perfect and with nervous centers capable of producing throughout an average duration of life sufficient energy to enable the machine to perform satisfactorily the work whereto it has been set.

A more vigorous public sentiment, fostered by an example of greater self denial and more rigid adherence to simplicity of life on the part of those who set the pace and lead the fashions of the day, would do much to arrest the downhill rush of the multitude; pronounced social disapproval of the immoderate use of alcohol and tobacco and the stern forbidding of both under the age of puberty would shield the nervous centers from two of their most deadly enemies, and, though it might at first grate against popular feeling, the introduction by the legislature of an enactment whereby some form of compulsory military service was exacted from every healthy young man would materially contribute to the preservation of active minds in vigorous bodies to those who are destined to make or mar the future history of their fatherland.—Guthrie Rankin, M. D., in Detroit News-Tribune.

CHILDREN'S GAMES.

The game of hare and hounds originated in England about 1640.

Leapfrog is mentioned in the works of both Shakespeare and Johnson.

The game of hide and seek came from Europe about the beginning of the seventeenth century.

Blind man's buff found its origin with the Greeks, among whom it was often indulged in by adults.

Skipping rope is a childish pastime of ancient origin. In place of rope a vine stripped of leaves was originally used.

The spinning of tops came from the Greeks. Records show that this kind of fun was in vogue at the time of Virgil.

Kite flying is about two centuries old in Europe. Probably it originated in China, where the practice of flying kites is very ancient.

The game of seeing who can hop the longest on one foot came from the ancient Greeks, among whom it was practiced by the youths for wagers.

Cathedral's Title Chain.

There is one thing in particular in St. Patrick's cathedral in New York that you cannot see in any other building in the city, if indeed in the country. It is a framed sheet of paper hanging on the wall of the southern entrance that contains the complete chain of title of the property on which the edifice stands from the time it was first sold until the church authorities bought it. The only reason for its being there so far as any one knows is to put a stop to the old story that the property was originally purchased by the church for a dollar. To settle this point the chain of title shows how much was paid for it in the beginning, and from that point on each change of ownership is accompanied by the price it was sold for.

Arabian Snuff.

Snuff in Arabia is not used as it is with us, although one occasionally sees a snuffer, but the snuff is ordinarily made into a pill of about the size of a robin's egg and is placed between the lower front lip and the teeth. This manner of using snuff is common among the laboring class, and almost every cooly that is met in the street has his lower lip puffed out by a ball of snuff behind it. Arabian snuff is prepared out of the ordinary powdered tobacco, unrefined sugar and potash.

Sneezing.

Sneezing is the best brain clearer known. Many persons conclude an attack of faintness or fainting with a violent sneeze. Our ancestors took snuff from a belief in the efficacy of sneezing. But tobacco so taken is in part absorbed into the blood and hurts the system. Tickling the nostrils with a feather or straw will act as well as taking snuff. Try it when you feel faint. It cannot do harm.

After the Race.

DIFFERENT VIEW.

Defense Thinks Mrs. Holman's Letter Will Materially Aid Thaw.

New York, July 25.—The defense in the case of Harry Kendall Thaw has placed an entirely different construction on the meaning of the letter written by Mrs. Holman, Evelyn Nesbit's mother, made public on Sunday. Instead of conceding that Thaw's case had received a hard blow, the opinion of the counsel is that the letter will aid Thaw materially.

It is understood that the defense interprets the letters altogether differently from the prosecution. Whereas the prosecution holds that Thaw was placed in as unenviable light as possible, the defense holds that White is more injured than any one else. The fact that Mrs. Holman accepted money from him, and also asked him for money in the letters is one ground given.

Mrs. Holman, the defense holds, was cognizant of her daughter's behavior at all times, and when Thaw succeeded in gaining Evelyn's affections she pleaded with White to try to win her away from Thaw. The letters, the defense believes, verify this doubht.

Mrs. William Thaw, Harry K. Thaw's mother,; his sister, Mrs. George L. Carnegie, and his wife paid another visit to the tombs Tuesday. The three women were together for some time before going to Thaw's cell.

Much speculation was caused at the district attorney's office late Tuesday afternoon by the appearance of a new witness in the Thaw case, whose identity none of the officials concerned would make known. She was a woman past forty years of age. She came to the criminal court building with P. L. Bergoff, the detective whom Stanford White employed when he is said to have feared injury from Thaw. The detective and the woman went to the office of Assistant District Attorney Turnbull, where they were closeted for an hour, a stenographer being in attendance. A great deal of attention seemed to be paid to the woman, as her appearance so late in the day was taken to mean that she had something of importance to contribute to the district attorney's case. When she went out she was escorted not only by Bergoff, who came with her, but by a policeman attached to the district attorney's staff.

The order issued by Supreme Court Justice Blanchard, at the request of Thaw's attorneys, restraining the district attorney from issuing further subpoenas in the investigation, does not aparently affect the examination of voluntary witnesses such as this woman appeared to be.

SPEEDY ARDELLE.

Detroit, July 25.—In the presence of the largest crowd that ever went to a harness race meeting at Windsor, a new world's record was hung up Tuesday. Ardelle, the Chamber of Commerce stake candidate of Gers, won the opening mile in 2:05 1-4, which is faster than the big stake was ever won at Grosse Point, and the fastest mile ever made by a mare in her first racing season in July.

Ardelle was a favorite over a big field, and beat them as she pleased, winning the first heat, coming from behind, and the others being in front.

SUBMERGED IN LAKE.

Frightful Calamity In Which Several Persons Are Drowned.

Spokane, Wash., July 24.—The engine expresscar and smoking car of the Great Northern fast train, westbound, are submerged in the deep waters of Diamond lake, one and one-half miles west of Camden, about twenty miles west of Spokane. Nine men who went down in the smoking car were drowned, and also engine crew. When the train came through the tunnel the rails spread, and the engine plunged down a sixty-foot embankment into the lake, followed by the express car and smoking car. The remainder of the train kept the track. The wreck caaoishrdleutaoincmfwyp the couplings remaining unbroken. The wreck caught fire from illuminating gas, but the flames were extinguished. One man in the day coach was fatally injured by the explosion of the gas tank.

Quality Did It!

The fact that SCHNAPPS is so widely imitated only proves that it is the best chew—the standard flat plug. Other plugs are made to imitate the size and shape and color of SCHNAPPS—other tags are made to look like SCHNAPPS tags—yet there are more pounds of SCHNAPPS chewed annually than all other similar tobaccos.

Schnapps

SCHNAPPS is made of only choice selections of well matured, thoroughly cured leaf, and in factories as clean as the cleanest kitchen, situated in the very heart of the greatest chewing tobacco growing country, by men of life-long experience in tobacco manufacturing, and who have directed the R. J. Reynolds Tobacco Company since 1875.

SCHNAPPS has the pleasing, appetizing aroma which created and popularized the fondness for chewing. Expert tests prove that it requires and takes a smaller amount of sweetening than any other kind—and has a wholesome, stimulating and satisfying effect on chewers.

Internal revenue statistics show that SCHNAPPS and other of the Reynolds brands won enough chewers in one fiscal year to make a net gain of six and a quarter million pounds, or one-third, of the entire increased consumption in the United States on chewing and smoking tobacco.

With Less Sweetening Than Any Other

PEPYS AND EVELYN.

Difference In Methods of These Two Famous Diarists.

Pepys' narrative is always dramatic—himself being the center of the play—while Evelyn is historical, pathetic or didactic, as the mood seizes him. Pepys gives us the comedy of his time, as Plautus and Terence gave us the comedy of theirs. Evelyn, on the other hand, has something of Livy in his composition and not a little of Cicero. Compare, for instance, their treatment of the great fire, and you may measure the distance between them. Thus it is that Pepys' account begins: "Some of our maids, sitting up late last night to get things ready against our feast today, Jane called us up about 3 in the morning to tell us of a great fire they saw in the city. So I rose and slipped on my nightgown and went to her window." And now turn to Evelyn and see the temper in which he views the destruction of the city. "The clouds of smoke were dismal and reached upon computation near fifty miles in length," he writes the day after the fire. "Thus I left it this afternoon burning, a resemblance of Sodom or the last day. It forcibly called to my mind that passage, 'Non enim hic habemus stabilem civitatem,' the ruins resembling the picture of Troy. London was, but it is no more!"

Pepys sets the scene before you like a man; Evelyn reflects upon the tragedy like a writer, ingenious in reference and quick with allusion. We need not discuss which is the better method, but it may surely be said that the world will produce another hundred Evelyns before it fashions a fitting rival for Pepys.—London Spectator.

DIDN'T BELIEVE

That Coffee Was the Real Trouble.

Some people flounder around and take everything that is recommended and finally find that coffee is the real cause of their troubles. An Oregon man says:

"For twenty-five years I was troubled with my stomach. I was a steady coffee drinker but didn't suspect that as the cause. I took almost everything which someone else had been cured with but to no good. I was very bad last summer and could not work at times.

"On December 2nd, 1902, I was taken so badly the doctor said I could not live over twenty-four hours at the most and I made all preparations to die. I could hardly eat anything, everything distressed me and I was weak and sick all over. When in that condition coffee was abandoned and I was put on Postum, and the change in my feelings came quickly after the drink that was poisoning me was removed.

"The pain and sickness fell away from me and I began to get well day by day so I stuck to it until I now am well and strong again, can eat heartily, with no headache, heart trouble or the awful sickness of the old coffee days. I drink all I wish of Postum without any harm and enjoy it immensely.

"This seems like a long story but I would refer you to the First National Bank, The Trust Baking Company, or any merchant of Grant's Pass, Ore., in regard to my standing, and I will send a sworn statement of this if you wish. You can also use my name." Name given by Postum Co., Battle Creek, Mich.

Still there are many who persistently fool themselves by saying "Coffee don't hurt me." A ten day's trial of Postum in its place will tell the truth and many times save life. "There's a reason."

ANCIENT BELLS.

Well Known to the Egyptians Before the Jewish Exodus.

Bells were well known to the Egyptians before the time of the Jewish exodus. In the description of Aaron's sacerdotal robe mention is made of the fact that upon the hem of the garment there were bells of gold alternating with pomegranates of blue, of purple and of scarlet: "A golden bell and a pomegranate, a golden bell and a pomegranate upon the hem of the robe round about. And it shall be upon Aaron to minister, and his sound shall be heard when he goeth into the holy place before the Lord and when he cometh out, that he die not."

Hand bells were in common use all over the ancient world. The earliest use of bells in churches was for the purpose of frightening away the evil spirits which were believed to infest earth and air, and the earliest curfew was rung at nightfall to rid the neighborhood of the village or town and church of demons. Most old churches of Europe have a small door on the north side, and at certain points in the service this door was opened and a bell was rung to give notice to the devil, if he chanced to be present, that he might make his exit before the elevation. By the command of Pope John IX. church bells were rung as a protection against thunder and lightning.

The monument of Porsena, the Etrurian king, was decorated with pinnacles, each surmounted with a bell, which tinkled in the breeze. The army of Clothaire raised the siege of Sens on account of a panic occasioned among the men by a sudden chime from the bells of St. Stephen's church.

No Time For Surgery.

The average woman thinks the sun and stars would cease to shine sooner than that she could interfere with the regular routine of household duties. A Sabetha woman was recently informed by her physician that she would have to have an operation performed. She said she didn't see how she could; that Monday was washing day, Tuesday ironing day, Wednesday the missionary society met, Thursday was the day to clean up, Friday to bake, Saturday to give the children their baths and mend. If he could get it in Sunday after dinner and before evening services perhaps she would try it.—Kansas City Journal.

Confederates, Attention!

All Ex-Confederates now living who were on the original roll of the Erath and Comanche Ex-Confederate Association and all Ex-Confederates within the two or adjoining counties who may not have since joined the association, are earnestly requested to attend our annual reunion at Dublin, August 1st, 2nd and 3rd, mingle with their comrades and have themselves enrolled. The veterans are rapidly passing away from among their fellow citizens and each year sees our ranks invaded more by the grim reaper. A pride in the battles that we fought and the heroic manhood which the world recognizes we showed forth makes us more than ever desire to see the rolls of our membership carry the name of every veteran, officer or private, who was enlisted under the Confederate banner and under this banner gave to his country some of his noblest efforts and his best years. The association is to be re-organized at the annual meeting in Dublin in August and the rolls revised and a list of deceased comrades kept faithfully. This will be an important annual meeting and we want every veteran to be present and take a part in this re-organization and we believe that they will enjoy the occasion greatly. —J. D. Paul Jones' Promise.

After the great fight in which John Paul Jones in the Bonhomme Richard made splinters and shreds of the British vessel Serapis the English government generously decided that, though vanquished beyond a question, the captain of the lost vessel had behaved with becoming bravery and deserved promotion to the rank of commodore. John Paul Jones heard of this promotion and its cause and said, "Well, by George, if I ever meet that chap again I'll make him an admiral."

TRIP TO CANADA

Editor Mays of the Brownwood Bulletin Writes Interesting tLetter on Canadian Trip.

In a write-up of his recent trip with the National Editorial association through Canada, Editor Will H. Mayes of the Brownwood Bulletin among other interesting things says:

"Quebec is the oldest city of any size on this continent and is therefore historically the most interesting. On account of the extreme cold winter the houses have always been substantially built, and therefore they stand a long while. Perhaps more old buildings can, for that reason, be seen in and about Quebec than elsewhere in this country. I saw a residence in course of erection at Chicoutimi, and examined it closely to note how well it was being built. It was a small house of five or six rooms, none of which were large. The outer walls were of granite, two and one-half feet thick, this granite wall being lined on the inside with a nine inch brick wall, making the total thickness of the outer walls three feet and three inches. Every partition wall was of brick and nine inches thick on a heavy stone foundation. The ceilings were low, possibly not over eight feet. Such a building is practically indestructible. There are many of that kind in the province of Quebec. The architecture of Canada is monotonous. It is true that the new buildings are somewhat modern in style but farm houses and city homes are mostly alike. The buildings are squares or parelielograms with no break save the invariable and numerous little roof gable windows projecting from the roof both back and front like so many little port holes. Until within the last few years the professional architect would have been a needless business factor in Canada, for every Canadian builds just like his heighbor and forefather. Wherever you go in Canada you see respect for the royalty. Every city has its King Edward hotel, The Queen, The Crown and the like and every tradesman would have you believe that he is a caterer to royalty.

More people go to Quebec to visit St. Anne's than for any other purpose. There is a legend that centuries ago a number of shipwrecked sailors prayed to the Good St. Anne, the grandmother of Jesus, to interpose for them, promising that if she would have them saved they would erect a temple for worship on the very spot where they landed. This they did, and while that house has been destroyed another has been erected on the same spot, all the old material being used in the new structure. This temple became a temple of healing and thither thousands of pilgrims go every year both for spiritual and physical relief. A most magnificant basilica has been erected, rich in garnishings and paintings, in relics and in jewels. Several priests were detailed to accompany our party in divisions through the building and to explain what we saw. On entering the church we were shown great stacks of crutches and canes reaching to the high ceiling which we were told were left there by parties who had been healed through the interposition of Good St. Anne. We were shown a bone beset with $3,000 worth of diamonds donated by a young lady who had been miraculously cured, which we were told was a bone from the wrist of St. Anne and is a priceless relic. This bone is enclosed in a case. The pilgrims, sick and crippled, kneel before this bone and kiss it, offering prayers to the Good St. Anne for her interposition for their healing. The priest said that while all were not cured many miraculous cures had been effected instantly on kissing this bone. We were shown a case in which were thousands of dollars worth of jewels, watches and valuables which had been donated by people who had receievd gifts, spiritual or temporal, through St. Anne, and many costly paintings and much statuary donated for the same reasons. Just outside the basilica is the "Holy Well," where we were informed similar cures had been effected by drinking the water, which is nothing else than pure well water. In the little church built from the original is a broad stairway of twenty-seven step intended to represent those up which Christ went before his trial before Pilate. At the head of the stairway is an altar. Up this stairway in the season of pilgrimages hundreds of the maimed, the halt, the blind and the sick go daily on their knees, uttering a prayer on every stairstep to the Good St. Anne to pray for them that they may be healed. Some receive healing on the tedious and often painful ascent, while others are blessed at the top before the alter. Many go through this ordeal and these prayers day after day, week after week, seeking the aid of St. Anne. It is stated that the cures made are more often instantaneous, and there is not a particle of room for doubt that hundreds of cures are obtained at the places and in the ways I have stated. The readers can draw their own conclusions as to the causes of the cures. I have merely stated the teachings, the beliefs and the results. This basilica and the surrounding grounds and buildings are supported entirely by free-will donations and by the sale of souvenirs, neither of which are urged upon visitors. Last year there were over $175,000 pilgrims to this shrine, some coming to St. Anne, others to seek her prayers for their healing and many others merely as visitors attracted by the fame of the shrine.

The Tribunes Version of the Hanging.

Bob Johnson was executed today in the new jail. An immense crowd of people, dressed in gala-day attire, filled the space in the new jail with hopes that the prisoner would make a confession for the killing of Alfred Berry in the seed room of the cotton seed oil house at Dublin, but they were disappointed for, the prisoner declined to talk. The prisoner's heart was in bad condition and he suffered from what physicians termed tobacco heart, and it was necessary for Dr. Estes to administer hypodermic solutions of strychnine. This was given at 11 a. m., and just after he had taken his dinner, of which he ate rather sparingly, and it was truly a very tempting meal. The prisoner wore a neat black suit, white vest and white necktie, and was scrupulously neat and clean. His wife was with him up to the time he ate his dinner and both seemed to bear the trying ordeal with remarkable fortitude.

When the prisoner finished dinner he bade good bye to Ben Palmer, expressed kindly sentiments for Messrs. J. G. Salmon and Walter Moore, Sheriff Creswell and all whom he had been with, and at 12:20 p. m. started for the death trap, remarking as he arose to go, "Fate is against me boys and I must meet my doom." When placed over the trap by Sheriff Creswell he asked to have his shoes removed, and then announced ready to have the thing over with, having previously declined to make a speech. His arms were then pinioned by Will Fulkerson, while his feet were tied by Sheriff Creswell. The sheriff then tied a neat white handkerchief over his eyes and adjusted the black cap. It was now 1:52 p. m. and the noose was gently placed over his neck by Sheriff Creswell who remarked, "Bob, you've got pretty good nerve all right." The prisoner replied, "good-bye to you all," and the trap was sprung by the sheriff and Bob Johnson shot down to his doom, to death to meet the spirit of the man whom he had so foully slain. The rope was a trifle too long and the drop from the trap to the floor below is a trifle too short—not great enough to break the prisoner's neck, hence death was by strangulation. After hanging twelve minutes his heart and pulse were still beating. Seventeen minutes later the pulse was gone from the wrist, but his heart still throbbed slightly; nineteen minutes later the heart beat was still to be distinguished. After twenty-three minutes there was still a slight heart action, being prolonged no doubt by the strychnine which had been hypodermically administered. After the body had swung twenty-five minutes from the time it sped from the trap Bob Johnson was pronounced by Dr. Keith to be a dead man, and the officers began to arrange his body to be turned over to his wife, who will ship it to Belton. There were in the city perhaps as many as six thousand people to witness the execution and the speech from the new jail, but they were all disappointed. In the dense crowds there were hundreds of women who had come many miles to see poor Bob start on his long journey to eternity. It resembled a great picnic crowd, and jesting and laughter and jollying kept the crowd amused. However, in the cell where Bob Johnson and his wife, a few friends and a number of physicians and the Tribune man were awaiting a fatal moment, the scene was one of considerable solemnity, for they were close to the shadow of death, with the principal actor on the very brink of eternity ready to make the fatal leap. The Tribune man has witnessed death many times but he has never seen a man hold his nerve better than did Bob Johnson. —Stephenville Tribune.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be far below what he felt sure the gun would accomplish. ADDRESS IS ISSUED.

Parliament at Viborg Makes an Appeal to Russians.

IT IS REVOLUTIONARY

Document Holds the Government to Be Entirely to Blame For Parliament Not Being Productive of Results.

Viborg, Finland, July 24.—The curtain dropped Monday on the final act of the drama of Russia's first parliament when, under the spur of the threat of Governor Rechalberg to use military force to end the session, and with troops already converging on Hotel Belvediere, where the meeting was held, the assembled members of the lower house, 186 in number, hurriedly adopted and signed an address to the people, which is thoroughly revolutionary in its nature, elected a perpetual legislative committee, headed by Prince Paul Dolgoroukoff, vice president of the house, to carry on the work of liberation, and adjourned amidst characteristic Russian embracing and kissing.

A few members, including President Mouromtsoff, M. Petrunkevitch and Count Heydon, returned to St. Petersburg by evening train. The Constitutional Democratic consorts stated they would go to St. Petersburg in a body, but many of the Radical members, fearing their arrest on their arrival at the capital, will remain for the present in Finland, or return by roundabout routes.

The address, which bears a remarkable similarity to the manifesto framed by the Council of Workmen last November, which landed its authors and editors of eight St. Petersburg newspapers in cells of the Fortress of St. Peter and St. Paul, strikes the government in its most vulnerable point by declaring that the administration, and not parliament, is responsible for the delay in settlement of the agrarian question, and by proclaiming a cession of payment of taxes and of militsation of payment of taxes and military service and repudiation of future loans.

APPEAL TO PEOPLE.

Copies of the Same Were Given Every Set. Petersburg Newspaper.

St. Petersburg, July 24.—The great news Monday was the adoption of an address to the people by the deputies to parliament, assembled at Viborg, the language of which, with its revolutionary demands that the people cease to furnish money and troops to the government and repudiate further loans, affords pretext enough for the government to lodge its authors in the fortress if it feels strong enough. A rumor was spread that this course had been decided upon.

A large crowd gathered at the Finland station, where the deputies were expected to arrive, but only a few appeared, and these were not molested, and neither was there a popular demonstration. Among the arrivals were President Mouromtseff and Ivan Petrunkevitch. The former came on a local train entirely unattended. He was plainly downcast, and responded to the salutation of the Associated Press correspondent by the mere raising of his hat, and hurried on to escape an interview.

Mr. Petrunkevitch, filled with the revolutionary spirit, claimed for the Constitutional Democrats the credit for the text of the appeal.

Copies of the appeal to the people are in the hands of all St. Petersburg newspapers.

The dissolution of the Russian douma by the imperial ukase brings Russia face to face with what may prove to be the most stupendous revolution in the history of the country. The emperor's autocratic act also brings down the curtain temporarily, at least, on the late stand, and one of the most interesting attempts in history to give a national form of representative government.

Judged by its positive achievements, the douma will not rank high as a law making assemblage, but as giving voice to a people's sense of wrongs, its brief existence has proved of momentous importance. The circumscribed nature of the douma's proceedings and the dearth of legislation that might be of benefit to Russia may be attributed to two causes:

The lack of harmony among the strangely diverse elements that went to make up that body, and the fundamental law that might be considered by the parliament.

The douma's one piece of legislation that has become a law is a bill appropriating $7,500,000 for the relief of famine stricken peasants.
