Daniel, Wilson Win; Runoffs In County

Abercrombie Love Advance

The judge and prosecuting attorney of the 132nd Judicial District were renominated, while runoff races in the county sheriff's race and two county commissioner races as Scurry County Democrats voted in their primary election Saturday.

Incumbent Earl Abercrombie led a field of five in the sheriff's race with 2,186 votes, but he was forced into a runoff with Bill Love, former deputy, who polled 1,686 votes, based on complete unofficial returns.

The biggest race from the standpoint of entries was in commissioners Precinct No. 3, where L. L. Pat Moore, the incumbent, paced a field of 11 candidates with 530 votes. He will face Thane Merane, who received 301 votes, in the runoff.

The second primary is scheduled June 4.

Borden Dems Return One Commissioner

GAIL—Borden County Democrats renominated one county commissioner and gave substantial majorities to District Judge Sterling Williams and District Attorney Wayland G. Holt, in Saturday's primary.

De Burrus, incumbent commissioner in Precinct No. 1, defeated Herbert Walker by a vote of 147 to 62, according to complete, unofficial returns.

In the other commissioner's race the incumbent, Borden Gray, led a field of four, but failed to get a majority. Gray polled 55 votes, while Floyd Buchanan was runner-up with 37. W. C. Coy Ford got 13 votes and Ed Franklin 11. District Judge Sterling Williams rolled up 319 votes, compared to 115 for Arthur Blanchard, his only opponent.

In the district attorney's race, the incumbent, Wayland G. Holt, led Robert R. Patterson by 265 to 150.

Mrs. Ben Weathers was elected county Democratic chairman in a three-way race. She received 211 votes, while R. B. Wills received 73 and G. A. Milliken, the incumbent, received 77 votes.

Borden County voters also gave Gov. Price Daniel a lead of 225 to 195 over Jack Cox in the governor's race, while Waggoner Carr got 204 votes for attorney general, compared to 110 for Will Wilson.

In the lieutenant governor's race Ben Ramsey led Don Yarborough by 233 to 176, and in the land commissioner's race, Jerry Sadler led Bill Alcorn by 235 to 154. Robert S. Calvert led by 274 to 112 over V. L. Ramsey in the race for state comptroller, and Robert W. Calver led by 245 to 155 over Robert G. Hughes for chief justice of the state supreme court. For judge of the court of criminal appeals, Jim D. Bowmer received 133 votes, Lloyd W. Davidson 113 and W. T. McDonald 112.

Wild Rioting In Havana

HAVANA (AP)—Wild shooting broke out at Havana International Airport Saturday as a welcome for a Cuban political leader turned into a riotous anti-Communist demonstration.

At least one person was wounded by the gunfire.

The clash developed between supporters of Aureliano Sanchez Arango, head of a now inactive political organization called AAA, and a group of university students. Some members of pro-Communist squads were identified among the student group.

Sanchez Arango had just arrived here from Venezuela by way of New York. In Venezuela he attended a pro-democracy congress, where some criticism of the Castro government was expressed.

The pro-Castro Cuban press has bitterly assailed Sanchez Arango for attending the congress.

Two Largest Precincts Pass Resolutions For Johnson

Two Snyder precincts which will send a majority of delegates to the county convention next Saturday passed resolutions endorsing the candidacy of Sen. Lyndon B. Johnson for President at their respective conventions Saturday.

However, there was no widespread conclusive action on the presidential race reported in the county.

Precincts 18 and 20 in Snyder, which are entitled to 24 of the 42 delegates to the county convention, adopted Johnson for President resolutions.

However, Precinct 18 will send its 14 delegates to the county convention to vote individually. A motion to bind the delegation with the unit rule was tabled. The motion on the unit rule came after a resolution to endorse Johnson had passed by a 24-15 vote.

Precinct No. 20, which has 10 delegates to the county convention, endorsed Sen. Johnson and instructed its delegation to vote as a unit at the county convention.

Precinct No. 18 is the South-west Snyder box. Precinct No. 20 is Precinct No. 17 (Northwest Snyder) will send its three delegates to the county convention unopposed. R. C. Lunsford was elected chairman and M. F. Bell was elected secretary. They will be delegates, along with Frank Stephenson.

No resolutions were adopted in Precinct No. 1 (Northeast Snyder) where Jerry Jackson was elected precinct chairman. Jackson, along with Ross Williams and C. H. Callis, will be delegates to the county convention.

L. Mark McLaughlin was elected chairman in Precinct No. 20, and Mrs. J. C. Massingill was elected secretary. Delegates to the county convention will be Marvin Gary, McClanahan, J. C. Massingill, Roswell Rigby, Mrs. J. C. Massingill, J. H. Morgan, J. C. Burton Jr., Geraldine Burton, Paul E. Moore and Simon Best.

Sen. Johnson Is Endorsed

By TIM PARKER—Associated Press Staff Writer

Lyndon Johnson's unopposed endorsement in Texas Democratic precinct conventions Saturday.

This is the first step toward a Texas delegation pledged to support the Senate majority leader at the national convention.

Reports from the neighborhood party meetings also made clear the moderates had kept control of party machinery. This is the faction headed by Gov. Price Daniel and aligned with Johnson and Speaker Sam Rayburn.

The precinct meetings elected delegates to next Saturday's county conventions which in turn name delegates to the June 14 state convention. And it is the state convention which names the Texas delegation to Los Angeles.

In the rural areas, where precinct conventions were held in the afternoon, there was almost unanimous endorsement of Johnson.

The picture was mixed in the big cities where precinct conventions were held Saturday night, after polls closed.

With only a third of Tarrant County's precincts heard from, enough had endorsed Johnson to bring him within a few votes of winning support at the county convention.

In Dallas county, a partial count of the 187 precincts showed 37 had adopted no resolution and 33 plumped for Johnson. But party leaders said many precincts preferred to take no stand, leaving that to the county convention.

A partial count in Travis County showed 14 precincts endorsing Johnson and three adopting resolutions favoring Adlai Stevenson.

Of the first 24 Harris County precincts reporting, 10 plumped for Johnson resolutions. Johnson forced

Claim By Sadler Goes Into Lead

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The United States admitted Saturday night that a high altitude American jet plane made an intelligence flight over the Soviet Union as charged by Soviet Premier Nikita Khrushchev.

The State Department said, however, that the flight was not authorized by Washington officials.

The probably unprecedented admission was made in a statement prepared under the direction of Secretary of State Christian A. Herter and cleared with President Eisenhower.

The action apparently hands Khrushchev a major propaganda triumph only a week before the opening of the May 16 summit conference in Paris.

But the State Department bitterly attacked Soviet "Iron Curtain" secrecy as the reason for espionage activities and thus provides a basis for Eisenhower to make a "determined bid" at the summit for an "open skies" policy among the great powers.

The statement also admitted the intelligence flights have been made by the same kind of jets "along the frontiers of the free world for the past four years."

Available officials said they did not know whether such flights had crossed over the frontier into Soviet air space.

The State Department announcement said the aircraft making this flight was an unarmed civilian C-12 plane, a single engine jet which operates at high altitudes.

The key sentence in the U. S. statement bearing on Khrushchev's charge that the aircraft was on a spying mission and was shot down by the Soviet rocket last Sunday was this:

"It appears that in endeavoring to obtain information now concealed behind the Iron Curtain a flight over Soviet territory was probably undertaken by an unarmed, civilian C-12 plane."

The word "probably" was used, officials said, because the officials who drafted the statement did not want to be in a position of confirming every detail of Khrushchev's lengthy account of how the aircraft was shot down and its pilot, Francis G. Powers, captured after parachuting to earth.

Khrushchev said Powers' had admitted he was on a spy mission. He suggested Saturday that Powers may be put on trial as a spy.

Officials declined to say whether an apology would be made to the Soviet government for the admitted violation of Soviet air space.

As to whether the flight the official statement offered no explanation.

Daniel, Carr Are Leaders In Scurry

Scurry County voters gave Gov. Price Daniel a substantial majority over Jack Cox in the governor's race but strayed from state-wide trends in some other races in the Democratic Primary Election.

Gov. Daniel polled 3,064 votes, compared to 2,249 for Cox.

However, Waggoner Carr of Lubbock led Atty. Gen. Will Wilson in this county. Carr received 3,031 votes, while Wilson trailed with 1,925 and Robert Looney got 207.

Incumbent Ben Ramsey got Scurry County's support for another term as lieutenant governor with 3,467 votes. Don Yarborough, Ramsey's only opponent received 2,195 votes.

Jerry Sadler, a state representative and former Railroad Commissioner, led in Scurry County in the race for Commissioner of the General Land Office. Sadler received 2,265 votes, compared to 2,182 for incumbent Bill Alcorn.

Robert W. Calvert was a narrow winner in Scurry County over Robert G. Hughes in the race for chief justice of the state supreme court. Calvert led by 2,548 votes to 2,197.

Lloyd W. Davidson was the Scurry County leader in the race for judge of the court of criminal appeals. Davidson, the incumbent, received 2,825 votes, while W. T. McDonald received 1,136 and Jim D. Bowmer got 721.

Gov. Daniel Highly Pleased With Vote

ATLANTA (AP)—Gov. Price Daniel said Saturday night he was "highly pleased" with the vote which made him only the second man in Texas political history to win three gubernatorial terms.

"I am highly pleased with the early returns which indicate a good majority in this race for reelection."

Claim By Sadler Goes Into Lead

By ROBERT E. FORD

Associated Press Staff Writer

Gov. Price Daniel's political experience and middle-of-the-road policies won him the Democratic renomination Saturday and virtually sent him back to the Governor's Mansion for a third term.

He easily beat off a vigorous challenge by Jack Cox, a conservative and political newcomer who pegged his campaign to a 2 percent sales tax to take the state out of the red.

Atty. Gen. Will Wilson, running on his record, also won a third-term nomination against the surge of House Speaker Waggoner Carr, who offered a stepped-up campaign against criminals. Bob Looney, young Austin attorney, ran third.

Also assured nomination or renomination were Lt. Gov. Ben Ramsey, Comptroller Robert S. Calvert, and Supreme Court Justice Robert W. Calvert, running for chief justice of that court.

State Rep. Jerry Sadler, shooting for the land commissioner job now held by Bill Alcorn, held a narrow lead most of the night and won a comfortable margin in late returns.

A runoff was assured for a seat in the Criminal Appeals Court. The incumbent, Justice Lloyd Davidson, held the lead over Bryan Dist. Judge W. T. McDonald. But a heavy vote for Jim Bowmer-Temple attorney who ran a very good third, forced the runoff.

Six congressmen out of the 21 Democratic House delegation faced opponents and all won renomination by healthy margins except one.

The Rev. Bill Crook, who resigned as pastor of the large Negro churches First Baptist Church to make the race, led most of the night, but a late surge by veteran Rep. John Downdy made it an extremely close verdict.

Democratic nomination means virtual election in this predominantly Democratic state.

The Texas Election Bureau, the unofficial but highly accurate vote tabulating organization, estimated 1,255,000 persons balloted out of a potential of 2,700,000.

Supporters of Sen. Lyndon Johnson, D-Tex., won control of the state delegation to the national Democratic nominating convention by winning endorsement for the senator in precinct conventions Saturday.

This assures Johnson of solid Texas support in his active but unannounced campaign for the presidency.

Returns at 11:30 p.m. from 219 out of 254 counties, 83 complete in contested races.

Gov. Cox 3,149,077; Gov. Daniel 4,958,558.

Lieutenant Governor: Lt. Gov. Ramsey 451,734; Don Yarborough 330,927.

Attorney General: Carr 311,211; Looney 48,667; Atty. Gen. Wilson 494,415.

Land Commissioner: Comm.

Burleson Is Renominated

Rep. Omar Burleson appeared on the way to a majority in Taylor County, the home county of his two opponents.

The incomplete returns at 11:30 p.m. gave Burleson 24,985 votes compared to 8,927 for Wagstaff and 6,445 for Skaggs.

Scurry County gave Burleson an easy majority with 3,322 votes 981 for Wagstaff and 772 for Skaggs.

The incomplete vote by counties

COUNTY	BURLESON	SKAGGS	WAGSTAFF
COMANCHE (INC)	2,380	535	510
EASTLAND (INC)	3,060	1,112	1,088
FISHER (COMP)	1,680	259	305
HAMILTON (INC)	1,986	258	483
PARKER (COMP)	4,123	866	1,275
STURRY (COMP)	2,222	772	381
STEPHENS (COMP)	2,214	316	580
TAYLOR (INC)	6,210	2,367	3,505
TOTALS	24,985	6,485	8,927

Burleson appeared on the way to a majority in Taylor County, the home county of his two opponents.

The incomplete returns at 11:30 p.m. gave Burleson 24,985 votes compared to 8,927 for Wagstaff and 6,445 for Skaggs.

Scurry County gave Burleson an easy majority with 3,322 votes 981 for Wagstaff and 772 for Skaggs.

The incomplete vote by counties

Alcorn 344,994; Sadler 365,697.

Comptroller: Comptroller Calvert 486,483; Bo Ramsey 217,613.

Criminal Appeals Court: Bowmer 170,229; Justice Davidson 262,606; McDonald 245,435.

Supreme Court: Robert W. Calvert 467,604; Robert Hughes 248,000.

Congressional:

Dist. 6: Bill Moore 10,061; Rep. Olin Teague 20,008.

Dist. 7: Crook 14,492; Rep. Downdy 15,809.

Dist. 14: Dudley Dougherty 17,007; Rep. John Young 34,419.

Dist. 15: Rep. Joe Kilgore 10,377; John Westburg 2,737.

Dist. 17: Rep. Omar Burleson 21,769; Roy Skaggs 4,402; Bob Wagstaff 7,225.

Dist. 18: Arthur Glover 8,645; Rep. Walter Rogers 13,915.

Seventh Appeals Courts: James Denton 37,953; Jesse Owens 18,224.

The governor's race turned red-hot in the last two weeks of the campaign.

Gov. Daniel, 49, of Liberty is seeking his third term after previous service as a legislator, state attorney general and U.S. senator.

His opponent, Jack Cox, 38, is a Breckenridge oilman-businessman seeking his first statewide office.

Daniel paid little attention to Cox until Cox began plugging hard at the charge the governor ran the state into debt.

The governor, leaping his campaign into the final two weeks, lobbied lobbyists for special interests prevented passage of his financial program by the Legislature. He also said the spending that put the state in the red came from legislation already on the books before he took office.

Cox proposed a 2 per cent sales tax, earmarked for schools, for two years to cure the state's financial crisis. Later he said he would submit a permanent sales tax plan to voters as a constitutional amendment.

The race for attorney general centered on Atty. Gen. Wilson, 48, of Dallas, and House Speaker Waggoner Carr, 41, of Lubbock.

At issue was the question of whether Wilson enforced state criminal laws with sufficient vigor.

Wilson said many of the laws were not enforced at the local level under state law. But he pointed out that he has strongly attacked loan sharks.

Looney, 35, Austin attorney, was not as vigorous in campaigning as Wilson and Carr. Looney called the other two "corporation candidates."

Ramsey, 56, San Augustine, sought his sixth term as lieutenant governor, and is particularly noted for ferreting out the insurance scandals. But Yarborough, 33, Houston lawyer, says Ramsey remained silent at times when he should have acted during the scandals.

Alcorn, 36, of Brownwood, sought his second term as state land commissioner. He had the unusual task of helping send his predecessors, Ramsey and Gillette, to prison as a result of veterans land irregularities. Sadler, 32, Palestine attorney, state representative and former Railroad Commissioner, had advocated making the land office a central agency for management of all state-owned land.

Robert S. Calvert, 68, of Austin, has been in office since 1930 and asked for a sixth term as comptroller. His opponent, Ramsey, 41, Beckville, is a state representative.

Davidson, 69, Austin, is the only member of the Criminal Appeals Court whose term expired this year. He ran for his second term. Bowmer, 40, is a Temple attorney. McDonald, 45, is district judge at Bryan.

Robert W. Calvert, 34, sought elevation from an associate justice of the Supreme Court to chief justice. Hughes, 45, is an associate justice of the 3rd Court of Civil Appeals at Austin.

In the Dist. 7 appeals court, Denton ran for a full term after being appointed to a vacancy last year.

WEATHER

SNYDER TEMPERATURES: High Friday, 73 degrees; low, 39 degrees; reading at 7 a.m. Saturday, 46 degrees.

North Central Texas: Generally fair through Sunday night. Monday partly cloudy with occasional showers.

Panhandle and South Central Texas: Fair through Sunday night. Partly cloudy Monday, warmer most sections.

Northeast Texas: Generally fair and a little warmer most sections through Sunday night. Monday partly cloudy and mild.

Southwest Texas: Generally fair through Sunday night. Monday partly cloudy and mild.

Oklahoma: Fair with increasing clouds; no Sunday. Warmer in northwest tonight and over state Sunday.

Underground Tests Slated

By ELTON C. FAY
WASHINGTON (AP) — The United States will start a new series of small underground nuclear tests, perhaps before the end of this year. It will be for the dual purpose of developing a workable test-detection system and pushing development of peaceful uses of atomic energy.

President Eisenhower disclosed this Saturday at his Gettysburg farm, where he is spending the weekend.

The fact that the United States intends to resume subsurface testing already has been disclosed in previous official announcements by the Atomic Energy Commission and other agencies. Underground testing, as well as all other types, had been suspended under a moratorium observed by the United States and the Soviet Union, so far as is known, since late in 1958. The new series would release no radioactivity into the air, the White House said.

The White House announcement, augmented by information from the Defense Department, provided more detailed information on plans for the test shots and the experimental monitoring stations which will operate on the principle of seismographic stations for recording natural earthquakes.

One indirect purpose of the presidential announcement Saturday may have been to prepare for a subject which will come up at the summit meetings in Paris May 16 and 17. The official announcement could serve the purpose of putting the U.S. position and intentions on record in advance of the summit session.

The White House announcement said the President had approved a major expansion of the present research and development toward an improved capability to detect and identify underground nuclear explosions.

Press Secretary James C. Hagerty said the President had approved to discuss at the Geneva meeting beginning May 11 the subject of seismic detection, the White House said.

Scientists are in disagreement about whether all underground explosions could be detected. Methods might be used to soften earth shocks from small explosions, some scientists argue. One of the purposes of the U.S. tests will be to check up on that point.

The experiments, conducted under the auspices of Project Vista Uniform, will cost about 75 million dollars. Of that, \$35,000,000 is provided in the present fiscal year budget. Hagerty said about \$6 million more will be needed in the coming year, starting July 1.

Crossed hairs in Defense Department funds and half for the AEC.

The AEC has said that the shaft for the test shots will be about 1,200 feet deep with a lateral tunnel leading off from the bottom to a distance of 1,000 feet. Explosions in that tunnel will provide data, will produce radioisotopes needed in research and medicine, produce heat which can be used in the production of electrical energy in power-generation studies, and provide information on the use of atomic explosions for blasting purposes.

Snow Blocks Many Roads In Michigan

By The Associated Press
Hundreds of autos were stalled in wintry snow Saturday and highway crews mopped plowed along buried roads in upper Michigan and northern Wisconsin.

The Weather Bureau warned of the possibility of night frost or freeze in the upper Mississippi Valley.

The wet weather sloped eastward Saturday in a wide band extending from Canada to the Gulf of Mexico, with snow at the north flank and rain in the south.

Snow up to 8 inches deep accumulated in the Ishpeming area of upper Michigan, and northern Wisconsin had 4 to 7 inches. Phelps, Wis., near the northern Michigan border measured 7 inches. Rhineland counted 5 inches.

To the south, a cold front loosed rain from the Great Lakes to the central Gulf Coast and the Southeast. Amounts were heavy in some localities. Crossed hairs in Tenn. got 1.20 inches in six hours.

To the west, there was an area of off-and-on rain and showers from the Pacific Northwest and northern California into Montana.

A few contracts, notably May wheat, fluctuated in fairly broad ranges but most prices finished a little higher than a week ago. The outstanding exception was May wheat which declined rather steadily after climbing to its highest peak of the season Monday.

A good deal of bearish talk went the rounds on soybeans but it was largely ignored as prices held steady to firm on most days. Private advisers said soybean nearly all stocks still held on farms are certain to move to market before the end of the month on all May.

At the end of the week, wheat was 2 cents a bushel lower on May to 4 higher on new crop months. May \$2.02 1/2 corn 4 lower to 1 cent higher. May \$4.17 1/2 oats 3/4 higher. In 4 lower. May 76 1/2 rye 3/2 higher. May \$1.23 1/2 soybeans 1/2 cent higher. May \$2.13 1/4.

Most Grain Futures Are Some Higher

By The Associated Press
Influences in the grain futures market this week were generally of a minor nature with most interest centering on a policy of intention to deliver on May contracts in the pits.

A few contracts, notably May wheat, fluctuated in fairly broad ranges but most prices finished a little higher than a week ago. The outstanding exception was May wheat which declined rather steadily after climbing to its highest peak of the season Monday.

A good deal of bearish talk went the rounds on soybeans but it was largely ignored as prices held steady to firm on most days. Private advisers said soybean nearly all stocks still held on farms are certain to move to market before the end of the month on all May.

At the end of the week, wheat was 2 cents a bushel lower on May to 4 higher on new crop months. May \$2.02 1/2 corn 4 lower to 1 cent higher. May \$4.17 1/2 oats 3/4 higher. In 4 lower. May 76 1/2 rye 3/2 higher. May \$1.23 1/2 soybeans 1/2 cent higher. May \$2.13 1/4.

Hoffa Tells Fight Plans

CHICAGO (AP) — Teamsters' President James R. Hoffa Friday night told some 10,000 cheering Teamsters in the circus-like atmosphere of the Stockyards Amphitheatre of his plans to fight what he called a "gigantic conspiracy" to destroy organized labor.

Complete with brass band, high wire and song-and-dance acts, the Teamsters rallied to kick off Hoffa's new movement, Team Volunteers in Politics, and hear Hoffa's big promises.

Hoffa is fighting a non-criminal action by court-appointed monitors to oust him from the union presidency charging he misused union funds. He vowed revenge on all three branches of the government which he said were perpetrating the conspiracy against labor.

"Just as sure as we have organized over 1,600,000 Teamsters we will have a political machine that will treat the politicians as they treat us," he said.

A PERSONAL MESSAGE FROM

E. J. MOORE

The friends of E. J. Moore are extended a very sincere invitation to attend the series of Gospel Meetings now in progress at 37th Street Church of Christ.

JOHNSON Burrows To Enroll In Seminary

(Continued from page 1)
... control in Victoria County and also at Bryan.

At Waco, traditionally a reservoir of liberal strength, most precincts endorsed Johnson. One which did this also praised Mrs. Frankie Randolph, the Democratic National Committeewoman who is a leader among party liberals.

Texas Republicans also held precinct conventions, most of them endorsing Richard Nixon for the GOP convention on making clear this formality will be taken care of at the county convention next week.

Thirteen counties surrounding Abilene, including Taylor County, adopted resolutions endorsing Johnson. In Haskell County a resolution to ban any party member who bolted to Eisenhower in 1956 was voted down.

Greene County precinct conventions also unanimously adopted the Johnson-for-president resolution. Republicans in five precincts made clear their support of Nixon but said the formal resolution endorsing him for the GOP presidential nomination will come at the county convention next week.

The Johnson sweep in Midland County was not complete. A liberal group walked out of one precinct convention, held a rump meeting and probably will challenge the conservatives at the county convention. Bill, the conservative and Johnson forces were in clear control in the county.

Republicans' precinct conventions in Midland County endorsed Nixon. Endorsement for the GOP vice presidential nomination included New York Gov. Nelson Rockefeller, Treasury Secretary Robert Anderson, and Sen. Barry Goldwater of Arizona. Goldwater also won endorsement for vice president at GOP precinct conventions in Hidalgo County in the Lower Rio Grande Valley.

Brezhnev Becomes Soviet President

By STANLEY JOHNSON
MOSCOW (AP) — Leonid Illich Brezhnev, regarded as one of the brightest rising stars of the Communist party, took over the presidency of the Soviet Union Saturday.

Aging and full of honors, President Klementi Y. Voroshilov, 79, resigned in Parliament that he be relieved of his duties for health reasons. He had been president since Stalin's death in 1953.

Premier Nikita S. Khrushchev himself nominated Brezhnev, 53, a dynamic member of the party hierarchy who got his start in Khrushchev's party machine in the Ukraine. Khrushchev's old henchman was deputy chief of political indoctrination in the armed forces and then became first secretary of the party in Kazakhstan, where he was a chief driving force in Khrushchev's scheme to develop the virgin lands.

All this is in contrast to Voroshilov, an old Bolshevik and intimate of Stalin, whose glories are mostly in the past.

Brezhnev, a swarthy, dark-haired man with heavy black eyebrows, is a noted trouble shooter as well as executive.

September Owens is an Amarillo attorney.

In the congressional races Teague, 50, College Station, sought his seventh full term in Dist. 4. Bill Moore, 42, Bryan, is a state senator, whose term runs to 1962.

In Dist. 7, Doudy of Athens asked a fifth term. Crook, 34, was pastor of the First Baptist Church of Naacogoches. Crook resigned as pastor to make the race.

Young, in Dist. 14, ran for his third term. He lives in Corpus Christi. Dougherty, 38, of Beville is a wealthy oilman, rancher and publisher.

Kilgore, 41, of McAllen, has been congressman four terms. His opponent in the 15th district, Dr. Westburg, 41, Edinburg, is a professor of political science at Pan American College.

Burleson, 54, of Anson, has held the Dist. 17 office for seven terms. Wagstaff, 67, is an Abilene attorney and rancher. Skaggs, 56, is an Abilene mutual fund manager.

Rogers, 51, of Pampa ran for his fifth term. Glover, 42, is an Amarillo attorney and certified public accountant.

Sen. Johnson had no opponent in the primary. Sen. Ralph Yarborough's term did not expire this year.

Of the 21 Texas Democratic representatives, 14 had no opponents. The other Texas congressmen, Republican Bruce Alger, will be nominated by GOP convention. He will be opposed by Joe Pool, who won Democratic nomination without opposition.

A large number of Democrats won election without opposition. John White, Agriculture commissioner; Jesse James, treasurer; Ernest Thompson, railroad commissioner; Clyde Smith and Joe Greenhill, associate justices of the Supreme Court; and civil appeals justices and associate justices Ewing Welein, Thomas Renfro, Roy Archer, William Murray, Claude Williams, Matt Davis, Jim Langdon, John Anderson, W. T. McNeill, Frank Wilson and Cecil Collings.

Incumbent Congressmen Holds Leads

By CLAYTON HICKERSON
Associated Press Staff Writer
A former Baptist pastor from Naacogoches forged ahead of the incumbent Saturday night in East Texas' 7th Congressional District, but five other incumbents had comfortable leads over their opponents shortly before 10 p.m.

The Rev. Dr. William H. Crook, pastor of the First Baptist Church of Doudy of Athens, 3,573 to 3,077, with incomplete returns from 7 of 13 counties.

Other returns to the Texas Election Bureau gave Reps. Olin E. Teague of College Station, John Young of Corpus Christi, 3,573 to 3,077, with incomplete returns from 7 of 13 counties, and Walter Rogers of Pampa goods leads.

In the 8th District, embracing 11 Central Texas districts, Teague led State Sen. William T. Moore of Bryan, 4,963 to 2,437 for Dr. John Westburg of Edinburg in South Texas' Dist. 15, made up of 13 counties along the Mexican border.

Burleson had 5,950 votes to 1,217 for Roy Skaggs of Abilene and 3,955 to 1,437 for Dr. Westburg of Robert M. Bobb, Waco, 4,800 to 2,400.

Methodists Comment Students

By GEORGE W. CORNELL
AP Religion Writer
DENVER, Colo. (AP) — America's largest Protestant body, the Methodist Church, commented Saturday the "dignified, spontaneous" behavior of students involved in recent sit-in demonstrations against segregation.

But the denomination's quadrennial general conference also left a question about its religious authority for the action, first of its kind, in the country.

In complimenting the students' conduct, the church applauded what it termed the good performance of police forces in preventing chaos in those cities where the demonstrations have occurred.

The picketing of lunch counters and other segregated facilities, the church said, serves as reminders that "many citizens of our country are denied basic human rights, and are a means of awakening community conscience."

But moments after adopting the resolution, delegates also voted to refer to the church's judicial council for a ruling on whether it is in keeping with religious discipline.

The question concerned the church's laws in regard to civil disobedience.

Cuba Re-Establishes Ties With Soviets

HAVANA (AP) — The Cuban government announced Saturday night the resumption of diplomatic relations with the Soviet Union.

Prime Minister Fidel Castro's ministry of foreign relations said the diplomatic ties, suspended when Cuba was ruled by Fulgenio Batista, were being re-established at the embassy level.

Castro and Soviet First Deputy Premier Anastas Mikoyan agreed during the latter's visit to Cuba in February that the two countries would again exchange diplomatic missions "at a convenient time."

Bullet Taken From Head

By RICHARD KASISCHKE
PRETORIA, South Africa (AP) — Two revolver bullets fired by an assassin into the head of South Africa's Premier Hendrik Verwoerd a month ago were removed today.

Pretoria General Hospital said Verwoerd's condition was satisfactory but that he will not be allowed visitors for the next few days.

David Pratt, wealthy middle-aged white farmer, is being held in Johannesburg jail for shooting Verwoerd with a small-caliber revolver. The shooting occurred April 8 before thousands of witnesses at the Johannesburg Trade Union Square. Pratt, 47, is the only one of the recent racial clashes.

Many Areas Still Need Rain

COLLEGE STATION (AP) — Heavy downpours have halted field work in some areas, but good general rains are still needed in West, Southwest and Northeast Texas. Director John Hutchinson of the Texas Agriculture Extension Service reports.

Field work was stopped in most of the eastern half of the state by rains that were heaviest in south central counties, where some damage was reported by washing and hail. The moisture will improve planting conditions, give crops a good start and keep ranges coming. District farm agents reported.

Cattle and range conditions in most areas improved. In far Southwest Texas, range conditions became critical due to the extended dry period.

Moisture is needed in the Panhandle to maintain the bright prospects for wheat. Scattered showers relieved the situation. Some wheat in northeast and upper Panhandle counties was damaged by winds and hail. Cattle and range conditions were good.

Most of the wheat in the area has headed and that planting of grain sorghums and cotton continued. Livestock and ranges were good but rain in most counties would help.

General rains over most of North Central Texas stopped field work. All crops needed the moisture. A considerable acreage of cotton is up. Low soil temperatures plagued farmers. Cattle and range conditions were good.

Moisture is still short in most Northeast Texas counties and a general rain is needed. Oats have been slow to head because of a sorghum and hay planting is complete. Livestock are in good condition. Sheep shearing was in full

planting and sweet potatoes are being set in the fields.

Rain is needed for ranges and for dryland farming in far West Texas. Small grain has headed and is in good condition. Cotton planting is being completed and peanut planting started in East Texas. General conditions are good but added.

Recent rains have helped all crops and pastures on the upper coast. Field work has been delayed but the moisture will improve planting conditions. Cattle improved. Vegetables made good growth.

Only the coastal and Valley counties in far South Texas received good rains last week. Other counties in the district remain dry with range and pasture conditions becoming critical. Most crops were up to a good stand and planting was generally complete.

The onion harvest in the Winter Garden area is now nearing the peak.

Scattered showers to heavy rains fell in Central West Texas but a general rain is needed. Sheep shearing is past the half-way mark. Livestock and ranges continue to improve.

Crops and pastures are making rapid growth with the return of favorable weather and cotton planting is being completed and peanut planting started in East Texas. General conditions are good but added.

Recent rains have helped all crops and pastures on the upper coast. Field work has been delayed but the moisture will improve planting conditions. Cattle improved. Vegetables made good growth.

Only the coastal and Valley counties in far South Texas received good rains last week. Other counties in the district remain dry with range and pasture conditions becoming critical. Most crops were up to a good stand and planting was generally complete.

Between You And Me

By Jerry Jackson

Joe Kirkwood thoughtfully unzipped his monstrosity of a golf bag, which was a big, bulky, multi-colored bag of tricks. The leather of which it was composed was stained in various rainbow hues, all diamond-shaped so that the bag took on the semblance of a ridiculous court jester's costume. Which is no more than appropriate, in that he is no slouch himself when it comes to putting on "looks like Walter Hagen's bag during prohibition days."

Oh, So There You Are!

SEEMINGLY GAINING full cognizance of his gathered audience for the first time, he scanned the somewhat sparse and huddled group, grinned and commented, "Well, it's nice to see so many few people here today."

And from that point on there, "no stopping" as he proceeded to amuse and baffle his on-lookers with his well-stocked storehouse of golfing wizardry and antics.

He ribbed the weekend golfers, the lady linksters, and even himself throughout the lazily-learned demonstration. Also, the game of golf came in line for some playful flings.

"Golf's a simple game for simple people," he philosophized, squinting toward a low-hanging sun. "Brute force and ignorance come in handy in playing the game, too."

And further, "The trouble with

he quipped, as he fumbled through the dark inner recesses of the dormant leather hulk. "Any of you folks remember Hagen?" he asked, still peering into the bag and talking to nobody, just everybody.

He glanced up to see one gentleman nod assent. He eyed him and went on, "Guess you're a little bit older than I am, 'cause I don't!" He smiled a sexagenarian smile to himself.

a lot of golfers is that they take entirely too much time and then flub the shot. Don't fuss around with it. If you're going to miss it, miss it quick and be done with it."

His takeoff on a lady golfer preparing for a shot was nothing short of hilarious, along with the exaggerated multitude of primpings, adjustments, and what-not which he pantomimed. "They move everything but the ball," he ad-libbed as he daintily addressed an imaginary ball, fidgeted temporarily, uncoiled a pronounced and hippy hula-hoop maneuver, then clumsily swung an unseen club.

Further along, he intentionally heeled a right-angle shot into the number nine hole "drunk," remarking himself with, "Whoops! There go the profits!"

Pulled Wool Over Lamb's Eyes

HE COAXED an oguarded Ted Lamb out of the on-lookers as he placed a ball on the turf and had Lamb to practically see his foot on same. Next with a tee constructed from modeling clay he perched still another high ball a-top-the-tee of Lamb's shoe, then stepped back to view his handiwork. Satisfied, he pulled out a wood, casually raised his foot to a mighty swing, and sent the ball of a sphere merrily on its way straight down the middle, a 200-yarder.

The phenomenal part about it, though, was that he sent the **ROTTEN** ball flying—the one on which Lamb's foot had therefore been resting. The toe-tee top one remained as such.

An amazing display of precision

bolstered confidence which he brushed off with the comment that, "It's not always good for the 'spleen'."

He debunked the old theory of "always keeping your eye on the ball" as he "hit a few from memory," to use his terminology. This particular oddity found him seeing up four balls approximately five inches from each other and hitting each in succession with a hummilying gaze over across the horizon, never once looking down in order to get his bearings. Three of the four flew straight and true, while he pushed one to the right with a knowing "Doo, that was a bad one!"

Houdini! He'd have to take a back seat to this guy Kirkwood.

TEETOTALLY TOE-TEED—Ted Lamb grins resignedly as Joe Kirkwood, well-known trick shot artist, takes careful aim at a ball perched loftily over his good right index toe during a recent exhibition at the Snyder Country Club. A "slip" brought out Kirkwood's slammung the one below, however, a 250-yarder that sailed unwaveringly down the middle. (Photo by Jackson)

Venetian Way Gallops To Victory In Derby

By JOHN CHANDLER

Associated Press Staff Writer

LOUISVILLE, Ky. (AP)—Venetian Way wrestled the lead from the front-running Bally Ache coming off the final turn at chilly Churchill Downs Saturday and went on to victory in the \$100,000 Kentucky Derby as the favored Tompion struggled home fourth.

It was a case of perseverance for Venetian Way, his happy owner, his jubilant trainer and jockey Bill Hartack.

Last September at Chicago, Venetian Way beat Bally Ache a half-length in the \$100,000 Washington Park Futurity. But this season in three meetings Bally Ache had finished in front of Venetian Way from the Sunny Blue Farm of Isaac Blumberg, Chicago machinery manufacturer.

One was the \$100,000 Florida Derby at Gulfstream Park in early April but Bally Ache prevailed by a nose.

This time, Venetian Way, Chestnut son of Royal Coinage-Firefly by Papa Redbird, was well-placed throughout.

Then when Hartack gave the word Venetian Way pulled away to score by 3/4 lengths.

It was not the type of track night being rain-soaked Friday night that Trainer Vic Sovinski wanted for his free-striking star. But it was the race he wanted. Two years ago Sovinski saddled Blumberg's Lincoln Road in a surprise second to Tim Tam.

Bally Ache, owned by Leonard Fruchman of Toledo, Ohio, has 7 lengths ahead of Canada's big horse, Victoria Park, owned by E. P. Taylor of Toronto.

Victoria Park came from far off the pace to beat the facing Tompion by 2 1/2 lengths. Tompion carrying the silks of the even-money choice of the estimated crowd of 75,000.

In the years past the turnout has reached around 100,000 but Saturday it was mighty miserable for humans and horses at the Downs.

The thermometer registered 52 degrees. It was the fourth coldest day in the 86 years of running of the classic race for 3-year-olds.

Tompion, with Willie Shoemaker trying for his third derby, barely lasted to get fourth money.

He managed to make it by a nose over Mrs. Adele L. Rand's Bourbon Prince.

Thirteen 3-year-olds started in the nation's greatest horse-racing spectacle, and it was again an exciting number for Whitesey, international sportsman who has now tried 11 times since 1935 to get into the winner's horsebox of red robes.

The victory was Hartack's second derby triumph. He took the 1957 race for the Calhoun Farm's Victoria number for Whitesey.

Andrews set a national record in the 440-yard relay Friday night, doing the distance in 41.5 seconds—the only national mark of the meet. However, there were some other outstanding marks.

Records set Saturday were:

Class AAAA—890-yard run, Larry Rhodes, Ahilene, 1:53.7, pole vault—Steve Gyving, Grand Prairie, 13 feet 7 inches.

Class AA—mile relay, Iowa Park, 3:25.5.

Class A—440-yard relay, Iowa Park, 43.4, shot put, Bobby Evans, Thorndale, 57 feet 11 1/2 inches, 40-yard dash, Bobby Gilbreath,

slight cold for several days. Shoemaker, starting from the extreme outside, must have had instructions to take off after Bally Ache.

He swiftly swung into third position, a half-length behind Henrian.

Bally Ache whirled into the clubhouse turn followed by Henrian, Tompion and Venetian Way. When they left the back stretch with about a half a mile to travel, Bally Ache still led by a length or so.

But Hartack had Venetian Way charging up on the outside and into second place.

It was apparent midway around the final bend that the pace on the off-track was taking its toll of Bally Ache and that Tompion was not going to get a chance to smell the roses.

Just before they straightened for home, a quarter of a mile from pay dirt and right where the race was started, Venetian Way showed who was boss.

The colt, named for a Miami thoroughbred as was Lincoln Road, purrped into the stretch like a finely tuned sports car and a few seconds later the derby was history.

Henrian had been feverish with

passing the finish line the first time with a mile to travel and the crowd in an uproar. Bally Ache led by a head over Henrian, the California colt who was a doubtful starter until shortly before post time when a track veterinarian pronounced him fit.

Henrian had been feverish with

Eagles Take Home Class 4A Crown

By HAROLD V. RATLIFF

AUSTIN (AP)—Ahilene repeated as Class AAA champion Saturday and became the second school to win straight titles. Two overall records were set in the smothering climax of the Texas schoolboy track meet.

The Eagles wrapped up 51 points to take the championship over Baytown, which had 45 1/2. Midland was third with 42.

Class B—Mile relay, Bangs, 3:28.1, shot put, James Hoard, Fort Worth Masonic Home, 55 feet 1 1/2 inches.

Iowa Park, 50.2 (100-mile), Jay Schmidt, Yorktown, 4:35.7.

Class A—Mile relay, Bangs, 3:28.1, shot put, James Hoard, Fort Worth Masonic Home, 55 feet 1 1/2 inches.

Andrews won the Class AAA title Friday to become the first school to take four track titles. Bowie won Class AA.

Larry Rhodes of Ahilene sped the 880 in 1:53.7 for one overall record—wiping out the oldest mark in the books—and Steve Gyving—of Grand Prairie—pole vaulted 13 feet 7 1/4 inches for the other overall record.

Twenty records and one tie were set in the two days and one night of running, jumping and throwing.

Eight records and a tie were set Saturday in the final session of the huge track carnival.

Records set Saturday were:

Class AAAA—890-yard run, Larry Rhodes, Ahilene, 1:53.7, pole vault—Steve Gyving, Grand Prairie, 13 feet 7 inches.

Class AA—mile relay, Iowa Park, 3:25.5.

Class A—440-yard relay, Iowa Park, 43.4, shot put, Bobby Evans, Thorndale, 57 feet 11 1/2 inches, 40-yard dash, Bobby Gilbreath,

slight cold for several days. Shoemaker, starting from the extreme outside, must have had instructions to take off after Bally Ache.

He swiftly swung into third position, a half-length behind Henrian.

Bally Ache whirled into the clubhouse turn followed by Henrian, Tompion and Venetian Way. When they left the back stretch with about a half a mile to travel, Bally Ache still led by a length or so.

But Hartack had Venetian Way charging up on the outside and into second place.

TRYOUT DATES GIVEN

Foundation For Farm Loop Laid

Heading up the agenda of a recent Farm League meeting was the selection of officers and managers and the setting up of try-out dates for those boys wishing to take part in the program.

The newly-elected president of the National Farm League is Hugh Nance. The American Loop has not as yet named its president, but specified as managers H. L. Todd,

Bill Rushing, and Dub Wright. Managers chosen for the National League were Horace Bostick, Harold Lack, George Ator, and E. N. Richie.

Tryout dates have been set up as follows: 11 and 12 year olds—May 9; 10 year olds—May 10; 9 year olds—May 12, and 8 year olds—May 13. The American League tryouts will be held at the old rodeo grounds, while those in the National will be at Stanford Elementary.

An encouraging note was struck for those boys who are not able to make the Farm League clubs, when it was announced that the 8, 9, and 10 year olds who are not named to one of the clubs will be able to participate in a pee wee league which will be formed at a later date.

Longhorns' Streak May Be Snapped

FORT WORTH (AP)—Texas 6-year streak may be snapped next weekend in the Southwest Conference track meet here—and Baylor could be the team to do it.

The Bears, terrific in the sprints, relays, weights and high jump, a year capable of removing the Texas domination and winning their first title in history.

At least four records are likely to fall when the eight conference schools meet Friday and Saturday. John Fry of Baylor has already eclipsed the shot put mark of 55 feet 3/4 inches. Ray Dyck of Arkansas has done 1:49.0 in the half-mile against the record of 1:51.6 Dexter Elkins of SMU and Baylus Bennett of Texas have gone over 14 feet in the pole vault comparing with the record of 13 feet 11 1/2 inches. Jan Ahlberg of SMU and Bob Mellen of Baylor have done the 2-mile in under 9:14.0 against the record of 9:18.7.

Baylor has run the 440-yard relay in 40.4 and the record is 40.0. Texas has done the mile relay in 3:12.0 and the record is 3:11.6. Billy Hollis of Baylor and Ralph Alspaugh of Texas have run the 100 in 9.5 and that's the conference record.

Baylor also is favored to win the freshman division of the meet and at least seven records should be bettered.

Bill Kemp of Baylor has eclipsed the 220-yard standard of 20.7. Mike Kelly of SMU has run the low hurdles in 23.4 against the record of 23.5. Jim Tomlinson of SMU has vaulted 15 feet 6 inches and the record is 15:4. Texas has equaled the mile relay record of 3:14.5.

Baylor has bettered the 440-yard relay record of 41.5 by a full second and Bob Johnson of SMU has run the high hurdles in 14.4 against the record of 14.7.

Chisox Nudge Sens Again

WASHINGTON (AP)—Jim Kast's first-inning wildness and Billy Conso's fifth-inning error boosted Chicago to a 6-4 victory over Washington Saturday and gave the White Sox a sweep of the three game series.

Dick Donovan, with help from Frank Baumann and Turk Lown, nailed down his first victory of the season although the Senators out-hit the Sox, 9 to 7, and had the benefit of a three-run homer by Jim Lemon.

Little League Moms To Meet On Monday

A meeting of all Little League mothers has been set for Monday afternoon at 1:30 in the junior high cafeteria.

All mothers of Little League players are urged to be in attendance at that time so that plans may be made for the upcoming season's activities.

Church Loop Is Planned For Summer

Formation of a men's church league softball program for the coming summer is now in the offing, and an urgent call goes out to all of those churches which would be interested in fielding a team to contact W. L. Cleveland and inform him of same so that some idea of the number of teams on call may be gained.

He may be contacted at HI-3-9496.

The league will be composed of local church aggregates exclusively. Each individual church will be required to furnish its own playing equipment such as bats, balls, and catcher's regalia.

Those churches interested in supporting a team are asked to contact Cleveland as soon as possible so that playing field arrangements may be arrived at and a schedule drawn up.

Cleveland Nudge Baltimore, 3-1

BALTIMORE (AP)—Rookie pitcher Chuck Estrada of the Baltimore Orioles suffered one spell of wildness Saturday and lost him a pitching duel with Gary Bell and a 3-1 decision to the Cleveland Indians.

The Indians scored two runs in the fifth inning with the benefit of only one single by Walt Bond. Estrada's control left him completely and he hit George Strickland and Woody Held, first two batters.

Ladies Tournament Set At CC May 20

All local lady golfers are cordially invited to take part in the upcoming Snyder Ladies' Tournament which will be run off May 20 at the Snyder Country Club.

The tournament, which will feature strictly "local talent," is to be a one-day, 18 hole meet, and all ladies—regardless of their adeptness at the game—are urged to participate. A Callaway handicap system will be utilized throughout, so that beginning golfers will not be at a disadvantage and will have just as good a shot at the prizes being offered as those ladies who are more skilled at the game.

The Callaway system affords

those entrants a chance to play even though they do not have an established handicap beforehand.

Six prizes of silver will be awarded in two brackets of play.

Ruth Bookout is the defending champion of the tournament and will be returning for the defense of her title. Boots Shaw, another of the better local lady linksters, is thought to be the most likely entrant who might upset her.

All those wishing to enter the tournament are requested to register by contacting Mrs. Glen Wilson (HI 8-9546) by May 16 in order that pairings may be drawn up.

Yanks Hold First Place

NEW YORK (AP)—New York retained its grip on first place Saturday as Ralph Terry hurled a five-hitter to give the Yankees their fourth straight triumph, 4-1, over Kansas City.

Bill Skowron and Roger Maris drove in three of the Yankee runs. Skowron walked with the bases loaded in the first inning and drove in another in the third with a single. Maris, who finally was stopped after reaching base nine straight times, six via hits, drove in the Yankees' final run with a sacrifice fly in the eighth. Elston Howard batted in the other New York run, also with a sacrifice fly.

Jerry Barber Takes Lead In Las Vegas

LAS VEGAS, Nev. (AP)—California's Jerry Barber knocked out a six-under-par 66 Saturday for a third-round total of 201 to hold the lead in the \$42,000 Tournament of Champions.

Barber, of Los Angeles, at 44 the oldest and weighing 135 the smallest golfer in the field, goes into the final round Sunday with a lead of two strokes over his nearest challenger, big Julius Boros of Mid Pine, N.C.

The 40-year-old Boros also had a 66 for a 54-hole score of 203.

The scene is the Desert Inn Country Club, a 7,000-yard course with par 36-36-72. The weather again was hot and clear with a few breezes prevailing.

Barber, who spends most of his time as a club professional, went into this round with a one stroke lead over the field. Ken Venturi and Jay Hebert his nearest challenger.

Boros and Arnold Palmer were two strokes back of Jerry.

Barber shot the course in 33:33 for his second 66 in a row, and when the firing was over for the day Hebert was in third place with his third straight 68 for 204 and Palmer, with a 70, was back at 207.

U.S. Open Champion Billy Casper moved into contention with a 66 for 206 and a tie with Venturi, who had a 70.

"At least two other earlier threats fell back. Art Wall Jr. and Mike Souchak each took 72 blows to get around-and-into 212 with Doug Ford, who had a 69.

Tigers Drop 10th In Row

BOSTON (AP)—Boston right-hitter Bill Monbouquette held Detroit hitless after giving up a double in the second batter of the game for a superb 5-0 victory.

Neil Chirley, formerly a Red Sox player, got the lone safety off Monbouquette when his drive off the left field wall went for two bases. Fielder Gene Stephens had no chance for the ball.

It was the finest game of his brief major league career. Monbouquette struck out five and walked only two. A Fenway crowd of 11,610 sat entranced by the masterful control and amazing breaking pitches by which he held the Tigers who now have lost 10 straight.

THE BRIDGES AT TOKO-RI—Grace Kelly and William Holden star in "The Bridges at Toko-Ri" which shows as part of a double feature with "Country Girl" beginning Sunday, May 15, at the Canyon Drive-In Theater here.

Movies Help Keep Couple Together

By JAMES BACON
AP Movie-TV Writer
HOLLYWOOD (AP)—Movie careers often get blamed for parting married couples in showbusiness. Here's once when the movies rate an assist in keeping a couple together.
Singer Patti Page and choreographer Charlie O'Curran were married in 1956.
Patti, veteran of the saloon circuit and television, worked away from Hollywood much of the time. O'Curran's work kept him mostly here.
Last summer producer Joe Pasternak saw her at Las Vegas and enthused over her night club pose.
"He said he would talk to producer Richard Brooks, who was looking for someone to play the chair singer in "Elmer Gantry" with Jean Simmons, Burt Lancaster and Shirley Jones.
"Joe had nothing to do with the picture. He was just a friend of Brooks, but he delivered And I got the part."
The movie is Sinclair Lewis' famous story about sadist trail evangelism in the 1920s. Studios long have shied away from making it into a movie because of expected pressure from the Bible belt.
For Patti, the movie marks her debut as an actress and puts her in the company of some of the top professionals.
"I'm all through the picture," she says, "and it's all dramatic."
She wears a severe middle, with her golden hair wrapped in a tight bun, and she had to change her whole way of life — go to bed 9 p. m. and get up at 5. And it cost her plenty of money — her nightclub price far exceeds her movie price.
"But it was worth it, Charlie and I have been together now for four months straight. And if I make it as an actress, maybe we can live like normal married folks."

THE BROADWAY HIT "Visit To A Small Planet" now the screen's craziest lark opens at the Palace Theatre May 15 and runs through May 17. Bring the whole family to see this big first run in Snyder.

Exercise Zealot Has Stars As Fans

By BOB THOMAS
AP Movie-TV Writer
HOLLYWOOD (AP)—Bette Davis says he changed her whole life.
The Gary Coopers and Merle Oberon meet at each other's houses to exercise before the TV set.
Gilbert Roland, Francis X. Bushman and many other stars swear by him.
"The man who exacts this hour is a hard-muscled, waxy-haired health zealot named Jack Lalane. His exercise show appears seven days a week on local KTTV and 12 other big-city stations, and his following is avid.
"The Gary Coopers and Merle Oberon meet at each other's houses to exercise before the TV set.
Gilbert Roland, Francis X. Bushman and many other stars swear by him.
"The man who exacts this hour is a hard-muscled, waxy-haired health zealot named Jack Lalane. His exercise show appears seven days a week on local KTTV and 12 other big-city stations, and his following is avid.
"Take Bette Davis," he suggested. "She let herself get fat and sloppy; her career slid and she didn't care. One morning she was turning the TV dial and happened upon my show. Somehow, I talked her into taking part."
"She swears that I made her whole life over. She got her figure back and now she looks terrific. She's interested in life again."
Bette's fan letter was one of the thousands Lalane has received. "TV got 25 girls who do nothing but answer letters." Exercise shows are not new to TV, but the quality of Lalane's pitch apparently is.
"I do everything I possibly can to get the viewer up out of his chair and down on the floor," he said. "I spend much of my time trying to think of new ways to cajole them, plead with them even intimidate them to rebuild their bodies. I even have the children drag their mothers out of the kitchen."
Lalane is convinced Americans eat miserably and exercise too seldom. Having gotten his message to the housewives, he now wants to corral the indigent males with a nighttime show.
"Most men are active in sports

Fired MGM Chief Now A Hit Writer

By BOB THOMAS
A Movie-TV Writer
HOLLYWOOD (AP)—How does it feel to be fired from a top industry job?
"I had two feelings. I was bewildered and I was humiliated," said Dore Schary. "But I think I avoided the pitfall of becoming bitter."
Schary can now look back in candor at his ousting as head of MGM production 3½ years ago. Since then he has blossomed as writer of a hit play "Summer at Campobello," director of another one "Majority One" and coproducer of both. Now he is producing the FDR saga for the screen.
"Back in the Hollywood where he was once a top power, Schary looks thinner and happier. He confirmed that he is leading the life he likes. In such a mood, he discussed what had happened to him at MGM.
"My friends urged me at the time to make a statement," he recalled. "I decided against it. The damage had been done, and I saw no profit in trying to make excuses."
"I was bewildered because the whole thing happened unexpectedly. I was given to understand that things were going well with the studio. I was humiliated in the way that the thing was done."
"They asked me if I would announce my resignation. I refused. I told them I wasn't going to get into one of those tripe things Dore Schary announced his resignation today and it was accepted by MGM. I thought I had been pretty honest in my dealings, and I wasn't going to change to make appearances. Besides, the studio itself had put out stories that I was on the way out.
"What hurt me most were the accounts of my leaving that mentioned only the flops we had had. Now I was always willing to take responsibility for the studio's flops, but I did think someone might have mentioned the hits that were made too."
"Though he disliked the way that it was done, Schary had no regrets at leaving the job. "As you know, I had been planning to leave anyway," he said. "My work had ceased to be a creative one and became strictly an administrative post, which didn't interest me."
Instead of nursing his wounds, he pulled up stakes. He and his wife now make their home in New York.

Newlyweds Relax Aboard Royal Yacht

By COLIN FROST
LONDON (AP)—Relaxed on a gently swaying sea, Princess Margaret and Antony Armstrong-Jones Jazed in the sunshine Saturday aboard the royal yacht Britannia "taking them on a honeymoon."
"Just before 11 a. m. the glass doors of the royal suite swung open and the bride of a day and her handsome husband stepped out on the sundeck.
Margaret wore a red sweater and a red skirt. Tony, in best nautical fashion, sported a blue blazer and white slacks.
"Clearly, they chose their outfits to match their honeymoon yacht. Britannia, dipping gracefully into the swell, made a magnificent picture in her blue paint with red at the waterline.
"Even the deck chairs matched the color scheme—a blue upright chair for Tony, a red chaise longue for Mex. In between stood a table for drinks.
"As this reporter's plane flew overhead, five flags streamed bravely in the breeze. Britannia plunged on toward the Caribbean at 20 knots.
"The Union Jack flew at the bow, the Royal Navy's ensign at the stern. Margaret's personal standard, flown wherever she happens to be, had the place of honor on the mainmast.
"Despite the ship's complement of about 250 men, the royal honeymooners had all the privacy they could wish for.
"The sundeck is screened from the rest of the ship. And it seems that Britannia's crew spends most of its time below decks.
"Back in London, people seemed to be waiting for the honeymooners to arrive. The wedding at Westminster Abbey.
"Immense crowds lined up to file through the Abbey sanctuary and gaze at the altar decked in priceless gold and silver plate.
"They had one unexpected thrill: Britannia's modest bridal bouquet of tiny white orchids. Margaret gave it to the abbey dean. Dr. Eric Abbot, at the wedding reception and asked him to place it there."

Deer Raising Is Profitable In State

AUSTIN (AP)—Deer raising is more profitable than cattle raising in some areas of Texas.
Net return per animal was \$16.29, considerably higher than livestock on the same area in the Kerr Wildlife Management Area, management of the area reported to E. A. Walkers, director of wildlife restoration of the Game Commission.
"The net return from 162 animal units in livestock was \$4,669.60 compared to \$3,747.61 from only 87 animal units in deer," the report states. "These findings indicate that deer are a potentially important asset to ranches."
The Kerr area is about 30 miles west of Kerrville at the headwaters of the Guadalupe River.

Fair, Mild Weather Prevails In State

By The Associated Press
Temperatures warmed up in Texas Saturday as northerly winds which had whipped the state for 24 hours subsided.
Skies were clear except for some clouds along the coast from Beaumont to Galveston.
The thermometer dipped to a low of 41 at San Angelo early Saturday, a record for so late in spring.
Early afternoon readings varied from 63 at Wichita Falls to 81 at Laredo.
The forecast was for generally fair weather through Sunday.

Radioactive Rain

VENICE, Italy (AP)—Radioactivity increased recently in rain falling in and around this old city of canals, Venice Hospital reports.
No explanation was given for the rise, but Croatto said radioactivity levels in Venice were still far below danger.
The Boston Celtics of the National Basketball Assn. scored 100 points, or more in 74 of their 75 games during the 1959-60 season.

Independents Taking Import Problem Back To Washington

By MAX B. SKELTON
HOUSTON (AP)—Independent oil operators take their imports problem back to Washington Tuesday.
Not all independents agree on the matter but a conference is on schedule at the departments of commerce, treasury and interior.
Practically all small operators would like to see quotas under the mandatory oil imports control program reduced. But there is not complete agreement on the timing and planning behind the conference.
The meeting initially was requested by the Texas Independent Producers & Royalty Owners Assn. (TIPO). Several other state and regional groups joined in the plan but the Independent Petroleum Assn. of America (IPAA) has indicated it will not take part.
IPAA officials indicated time was too short for preparation of material.
"Considerable" behind-the-scenes maneuvering to get IPAA, largest of the independent groups, to change its mind and take the lead took place this week at TIPO's convention at Tyler.
Alvin Hope, IPAA president from San Antonio, spoke on co-

Stardom Has A Drawback

HOLLYWOOD (AP)—Eric Fleming is a Broadway and movie actor who made a good living in both fields until someone decided he looked like a Western hero.
He was made the star of the "Rawhide" TV series. It has given him more fame and more money than any other acting job, but it has one drawback.
"You earn every cent of it because you eat, sleep and work like a real cowboy. I'm up with those cows at 4:30 a. m. every morning and they get to bed earlier than I do at night."
This summer Fleming is looking for a good movie role.
"I'd prefer a drawing room comedy—without cattle," he comments.
The Tyler convention, however, adopted a resolution endorsing the mandatory controls program in principle as the first and only concrete step toward restoring health to the domestic industry.
The Tyler convention, however, adopted a resolution endorsing the mandatory controls program in principle as the first and only concrete step toward restoring health to the domestic industry.

Presbyterian U. S. Shows Gain In Year

AUSTIN (AP)—Presbyterian church, U. S. gained 3,017 new members in Texas last year, swelling denomination ranks to a new high.
A report prepared for the Texas Synod's 1959th annual meeting shows membership has increased to 115,324. The gathering will be May 24-26 at Austin College, Sherman.

Dr. Blocker Advanced By Medical College

GALVESTON (AP)—Dr. Truman G. Blocker Jr. will become chairman of the department of surgery of the University of Texas medical branch July 1, succeeding Dr. Robert M. Moore.
Moore has expressed a desire his administrative responsibilities be reduced.
Blocker, 50, will be the fourth man to occupy the position in the 70-year history of the medical branch.
He has been chief of the medical branch's division of plastic and maxillofacial surgery since 1945. For 10 years before that he was an assistant and associate professor in general surgery.

18 Billionth Bag Of Sugar Is Coming Up

AUSTIN (AP)—One of the oldest industries in Texas, the Imperial Sugar Co. of Sugar Land, has been supplying Texans with refined cane sugar for their sweet tooth since 1843.

This year Imperial, the only cane sugar refiner in Texas, will produce its 18 billionth pound of sugar. The story of the rapidly expanding plant was told in the Texas Business News by Joe Carroll Rust.

Imperial has been in continuous operation since its founding, even during the economically slack years following the Civil War. Since 1947 it has carried on one of the state's most extensive industrial expansion programs, increasing plant value to some \$15 million.

Imperial furnishes direct employment to about 600 and has an annual direct payroll of approximately \$2.5 million.

Most of the sugar now refined at Imperial is imported from Hawaii to Galveston, then brought to Sugar Land by rail. Thus the shaky Cuban sugar situation has not substantially affected the plant. However, smaller shipments are brought from Cuba, Puerto Rico and Louisiana.

'Peace' Exhibit Set

THE SNYDER DAILY NEWS

SECTION B

SNYDER, TEXAS, SUNDAY, MAY 8, 1960

VOL. 11, NO. 7

MAYOR PROCLAIMS—Mayor John Hamblen enjoys a piece of pecan pie and a cup of coffee after proclaiming May 8-14 Nurses Week in Snyder. Pictured with him is Opal McCloskey (left) publicity chairman for the local Registered Nurses Club, and Marilyn Lewis, president of the Future Nurses Club of Snyder.

NURSES WEEK

TO BE OBSERVED

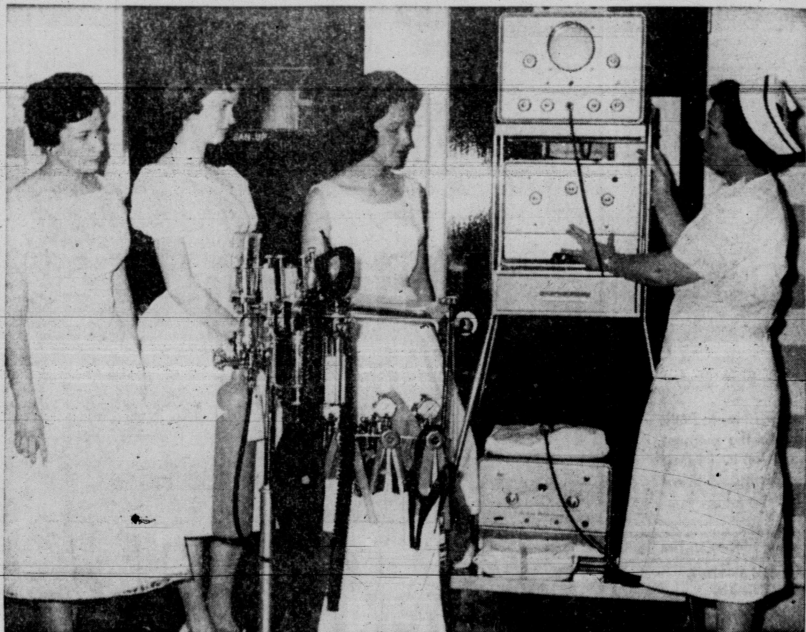

IN SCURRY COUNTY

MAY 8 - 14.

This week is dedicated to all the Nurses in Scurry County for their many long and tedious hours of caring for the sick, infirm or assisting the doctors of our community in our every time of troubles. They have chosen a career that holds the utmost respect in every country in the world.

DOCTORS WIVES—These doctors' wives play an important part in our everyday living. They are not only wives and mothers, but have continued in their career as nurses, and are active in the local Medical Auxiliary in sponsoring nursing scholarships. Mrs. Jones is out-going president of Scurry County Registered Nurses Club and also the Medical Auxiliary. From left: Mrs. Edna (C. R.) Cockrell, Mrs. Edythe (Wilton N.) Jones and Mrs. Jo (Robert B.) Pierce.

LATEST EQUIPMENT—Ruby Lee explains the operation of the cardioscope, used at the Cogdell Hospital. The machine, one of the latest and best in its field is rare in these parts, but Snyder has one. Ruby is anesthetist at the hospital and also shows Beverly Black, Monette Lewallen and Marsha Hurst the fundamentals of the anesthetic machine.

OFFICE NURSES—These Registered Nurses are possibly well known to many people of this community as they perform various duties in local doctors offices. From left they are: Pansy Ray, Elaine Crowley, Opal Robinson and Betty Seeker.

Gamma Upsilon Sorority Observes Founder's Day

The Gamma Upsilon Chapter of ESA held their annual Founder's Day program and installation of officers ceremonies Thursday evening.

Norma Thompson presented Joyce Williamson and Jamie Boren with 10-year pins, representing 10 years of active service in Epsilon Sigma Alpha.

New officers installed were: Isasu Minor, president; Ida Stokes, recording secretary; Sharon Mearse, corresponding secretary; and Billie Springer, treasurer. Joyce Williamson, outgoing president was the installing officer.

Delores Minor brought the Founder's Day message titled "Let Your Light So Shine." She said: "Recently I read this quote: 'It isn't necessary to blow out the other person's light to let your own shine.' How true this is. The deeds of others before us have been a shining light to guide us and to inspire us. Thirty-one years of continuous service to the world's community is to be reflected upon at this, the beginning of ESA's 32nd year of existence. The growth and expansion of our beloved sorority during these years is symbolical of our everlasting vows.

"Let our love for all that is good and noble in womanhood be our inspiration to attempt new endeavors. Let our personal lives be a beacon of divine influence to all we meet. May each of us, in our quest for truth, knowledge, and the good things of life, lead our lives in such a manner that it will encourage others to follow our footsteps. We know not when a word or deed can be dominating influence in the life of a younger person. So let's all live up to the ideals as set forth by our founders, and in so doing, we shall truly let our lives be a shining example of the ultimate in womanhood."

Billie Springer gave the candle-light thought for ESA. She said in part:

"Let us light our ESA candles one by one as a devotion to our love for ESA ideals. As you see each brightly burning candle, a love all to thine own self be true. Do your best quality. Water them with your effort to bring them into bloom, thus bringing to you the ultimate-ESA ideal. Maximum of womanhood, that you may help to build a better world."

Wanda Ritchie gave the Founder's Day prayer.

Shirley McDonald and Jamie Boren were hostesses at the home of Mrs. Tom Boren, 1804 Thirty-seventh Street. They served refreshments to Billie Springer, Betty Brown, Norma Thompson, Dolores Jones, Sharon Mearse, Delores Minor, Isasu Minor, Joyce Williamson, Ida Stokes, Wanda Eike, Adreanna Sparks, Wanda Ritchie, and Neida Reneau.

Mrs. Huckabee Speaker At Acacia Club

The Acacia Study Club met Wednesday afternoon at the Martha Ann Clubhouse with Mrs. Bill Lee Jr., president, presiding at the meeting. Mrs. Charles McCaleb presented the current event on spring gardening and the care we should take of our flowers.

For the program Mrs. Jay Huckabee, National Garden Judge, presented an enlightening program on table arrangements. Mrs. Huckabee had several flower arrangements and two table arrangements, one formal and informal which were explained to the members, which included the blending of the table clothes, dishes and flowers used in the centerpiece.

In part Mrs. Huckabee said: "There is much satisfaction and fulfillment in working with flowers. You may be truly an artist with flowers and plant a living picture to ex-press yourself, but make it a good picture and this is usually attained only through observance of some rules and a little study. An arrangement is the art of organizing your plant material, container, and accessories used according to the principles of design. These six designs included, balance, dominance, contrast, rhythm, proportion and scale."

Before you can start an arrangement Mrs. Huckabee pointed out that you must know how to properly handle plant material. She explained the proper cutting of flowers, the time of day when cutting is best and the best way to keep your flowers fresh after cutting. In closing she stressed the importance of the container used for your arrangement. Certain types of arrangements are not well designed in improperly shaped containers.

Refreshments were served by the hostess, Mrs. Harold Lack, to 27 members and ten guests: Mrs. John O'Bannon and Mrs. Bill Williams.

KNAPP NEWS

Several parents of the community attended the May Day Spring festival at Gail school Friday night.

Mr. and Mrs. Ben Weathers visited Sunday in the home of B. T. Graham near Midland.

Misses Dorothy Rowles and Francis Weig of Lubbock were weekend guests in the D. L. Rowles home.

Seniors of the Gail High School Neida Steadman of this community are to leave May 3rd, on their senior trip to Colorado Springs, Colo.

Speedy recoveries are wished for Melissa Sterling and Debbie James.

NEW BRITE is a solvent rubbing solution of a brightening agent which makes whites whiter and colors brighter by reflecting now visible ultra-violet sunlight as visible blue. Most new fabrics have been processed with the same brightening agent before they are made into garments, draperies, curtains and other household articles which are later submitted for drycleaning wear, exposure to sunlight and repeated drycleaning removes the original brightener. The use of NEWBRITE in drycleaning process enables the drycleaner to maintain or restore the lost brightener.

Extremely small amounts of the active agent in NEWBRITE are taken up by the fabrics. It has no harmful effect and does not change the body and feel of the cloth, prolonging rinsing will not remove it.

Sorority Holds Final Meeting Of Fiscal Year

The final business meeting of the year for Iota Psi Chapter of ESA was held Monday evening in the home of Avanel Corbell, 2303 Forty-first Street.

The business session was presided over by the outgoing president, Margaret Wood. Last year's president, Anita Payne, on behalf of the chapter, presented Mrs. Wood a president's gavel for her faithful service during the past year.

The chapter held election and installation of officers for the new year with Mrs. Parry as president, as installing officer. New officers are: Shirley Bowers, president; Avanel Corbell, vice president; Jean Robinson, recording and corresponding secretary; Marlene Stokes, treasurer; Wanda Adams, parliamentarian; Ann Kimbra and

Anita Payne, hostesses. The group also had the jewel pin and pledge ceremony with Ann Kimbra and Jean Robinson receiving the jewel pin, and Sue Mahood the pledge pin.

Refreshments were served by the hostess and co-hostess, Marlene Stokes to Faydon Hart, Wanda Adams, Ann Kimbra, Margaret Wood, Mary Kate Bird, Anna Stephens, Janell Beasley, Sue Mahood, Anita Payne, Jean Robinson and Rita Johnson.

A city's suburbs may be 20 degrees cooler than its downtown business center, says the National Geographic Society, because business buildings store solar energy.

Pine Invasions

All Summer Long

A persistently landscape pest that suckers at a set Sulfamer in-vasion timetable is the larva of the pine sawfly. This insatiable chewer may start whittling away your favorite pines any time from May through September.

There's no telling just when. Many species of pine sawflies have more than one brood. Best thing to avert a disastrous outbreak is to keep a larvaeye peeled on prized pines from springtime through summer.

The alert weekend gardener can control the situation — before he gets the needles in more ways than one. The larvae are easily curbed by sprays of arsenate of lead or DDT.

Left unmolested, it will be off with the old, up with the new, as far as the infatigable sawfly offspring are concerned. They'll dine on the older foliage and completely devour it before moving on to the succulent young growth. Kind of saving the best for last. It is not unusual for them to completely defoliate a tree. In cases where some severely denuded trees sur-

vive case histories show that they are able to succumb later by attacks by secondary enemies that sweep in to weakened branches.

The female of the pine sawfly has a sawlike appendage in her abdomen which she uses to cut slits in host plants. Eggs are deposited in these.

Shopping For That New Face?

By KATHRYN JOHNSON
ATLANTA (AP)—What man hasn't heard the familiar feminine cry, "I haven't a thing to wear!" Now the girls are coming up with: "I need a new face to match my new outfit."

Today that new face can be acquired as simply as leaning over the cosmetic counter of any large department store.

A familiar sight at cosmetic counters is a woman standing with her face bare and a beauty consultant skillfully applying facial makeup.

An Atlanta saleswoman trained in beauty science says: "If a woman has a new pink outfit and wants makeup to match, we can blend her powder, lipstick, rouge, eye shadow and even mascara to match."

"If a woman is wearing a blue dress, the ingredients, though blended for her individual look, will have a different color tone altogether."

"What's more," says Mrs. Pearl Morgan, another beauty expert, "we have a machine which analyzes a woman's skin-tone and comes up with the perfect shade for her."

"First of all you remove your makeup. Then you put your chin up against the lens of the machine, and the wheel turns up to match her skin-tone."

The minute the lens selects the right color chart, Miss Morgan then carefully applies the ritual of beauty makeup. She begins with a foundation cream. She then powder, lipstick, rouge, eye shadow, mascara—even a "hideway stick" to erase those dark under-eye shadows. Or she can reduce that puffiness around the eye if that's a woman's beauty problem.

"I came in here for a lipstick and left with a new face," remarked one woman as she walked away from the counter, looking transformed.

MRS. RAY DEVERS, Tri-Color winner.

MRS. DILLARD POPE, Horticulture sweepstakes winner.

BEAUTY AUTHORITY RETURNS

Mrs. Ruth Kruse has just returned from the Charles of the Ritz training school in New York with the very latest in fashion and beauty trends. Equipped with the most up-to-date techniques of skin care and make-up, she is ready to discuss your personal beauty problems with you at Stinson Drug, Snyder, Texas. Best of all, you will enjoy watching her hand-blend the shade of made-to-order face powder most flattering to your skin tones.

Rep. Kilgore Disagrees With AF On Flying School Pacts

By **TEX EASLEY**
AP Special Service
WASHINGTON, AP — Rep. Joe Kilgore (D-Tex.) thinks the Air Force is wrong in closing five private contract flying schools because the expanding use of missiles is reducing the need for pilots.

One of the five schools—Moore Air Base—is located in the Rio Grande Valley near Mission, Tex. Kilgore, a B-24 bomber pilot in World War II who received his initial training at a private contract flying school, says that the training such schools provide saves money and turns out better pilots.

Rep. Gen. Joseph T. Kingsley Jr., USAF, in a letter to Kilgore explaining the Pentagon's views said:

Due to the advances in weaponry the Air Force is transitioning from a force composed almost exclusively of manned aircraft to one in which a large proportion of our force will be missiles.

With the introduction of jet aircraft into primary training and increasingly complex jet equipment into the other phases of training, and with the drastic reduction in numbers to be trained, we now plan to conduct all phases of the undergraduate pilot training program at each Air Force operated training base. All flying instruction will be conducted by military personnel.

Moore field is the only one of the five private schools where the Air Force wants the base. The other schools are Bantbridge and Spence Air Bases in Georgia and Bartow and Graham air bases in Florida. What will become of Moore field if the Air Force closes out all contract training there in December?

Kilgore and the other congressmen, in whose districts the other schools are located, will try to persuade the government to make

some use of the bases, which represent an investment of millions of dollars each.

One observer, noting that each is located in an area of mild climate—especially Moore Field—suggested the property might be divided up into a township. Homes could be developed to meet the demand of Northerners who retire and head south for balmy weather. Under the normal procedure, Moore Field would first be offered for sale to any other federal agency if declared surplus to Air Force needs. Should state and local governments decline the opportunity to acquire the property, it be put up for sale to the public.

AROUND THE CAPITAL:
A Civil Service Commission report shows that Texans are entitled to 2,953 civil service government jobs in metropolitan Washington area based on a recent apportionment by state populations. The report states that only 882 of these positions are occupied by Texans however. By contrast Virginia is entitled to only 1,106 but Virginians hold down 4,862 of the positions. Maryland is entitled to but 779, but Marylanders occupy 4,081.

The Agriculture Department's April report on farm income shows that cash receipts from farm and ranch marketing in Texas during the first two months of this year were down sharply from the same 1959 period.

Barge Built To Service Atomic Ships

HOUSTON, AP — They call the stubby little craft a barge. It looks like a barge.

But it costs 13 times as much as such conventional vessels.

It is the Atomic Servant, designed to serve atomic vessels. Soon it will undergo tests.

The Atomic Servant is being constructed at the Todd Shipyards here for the U.S. Maritime Administration at a cost of \$1,300,000.

The unique barge is 129 feet long, 36 feet wide and has a displacement of 650 tons.

Philip Scordino, a marine engineer, is construction representative for the government for the project.

The Atomic Servant, forerunner of other nuclear servicing vessels, is non-propelled. It must be towed to rendezvous with atomic ships.

The barge probably will have a crew of about 10 or 12 specialists.

These men will have no sleeping quarters on the vessel but will disembark after serving jobs.

The barge gets its first servicing assignment with the NS Savannah now under construction at Camden, N.J.

Its purpose is to service the reactor plant of the Savannah and provide nuclear service systems for handling processing, packaging and disposal of its radioactive byproducts.

The lower hull of the vessel is subdivided by two longitudinal and eight transverse bulkheads and a double bottom.

Above the inner bottom level are the waste processing compartment, laboratory and fuel pit area, which are designated as contaminated spaces.

On the same level are storerooms, a cement area, maintenance workshop, machinery space and switchboard rooms, all of which are non-contaminated areas.

A large deckhouse is on the main deck and contains the decontamination workshop, supply room and a small galley area on the deckhouse also.

Fabulous Church Attracts Tourists

SAN JUAN, TEX. (AP)—Highly authorized in San Juan, and over this Rio Grande Valley town, stands a replica of the famous Mexican statue of Our Lady of San Juan, of San Juan de los Lagos 60 miles south of the Rio Grande Valley in the Mexican State of Jalisco.

Driving to Mexico to obtain the replica, the car in which the father and two choir boys were traveling left the road and plunged down a steep precipice. As death seemed imminent, it came to a complete stop, undamaged and with its occupants unharmed.

As an act of thanksgiving, Father Joe vowed to erect a beautiful shrine in honor of Our Lady of San Juan in the little city that bore her name.

The sanctuary, dedicated in 1954 with more than 25,000 people attending is built of Austin limestone as are all the other buildings. The main altar was made in Spain and shipped here to be set up by a crew of Spanish workmen.

Two side altars flank the central one. Metal work, around them is silver with gold leaf. The railing are of brass, with gold leaf.

Meals are served from a large modern kitchen in the pilgrim house at cost.

And all this has taken place in only 11 years.

Father Joe first thought of some suitable image or statue for the new parish church which the bishop

JOE PALOOKA

Home Should Not Look Like Department Stores

By VIVIAN BROWN
AP Newsfeatures

The most ridiculous thing a woman can do is buy a chair just because it happens to be on sale, says Zelma Brunschwig, artist, interior designer, fabric coordinator. But that is the way many people shop.

"Every room must be planned before you make a single purchase. It is vital to know how to coordinate furnishings," she explains.

"You don't put a half-dozen different colors and textures in your wardrobe. You should know what you can wear and how to coordinate your clothes with good accessories if you are well dressed. The same should be true of your home."

Mrs. Brunschwig, with her designer, niece, Murray Bartlett, plans and coordinates fabrics. When a sample from their work rooms is sent to decorating establishments, it is accompanied by a complete color plan, she says.

"Women should be educated to avoid using too many fabric textures in the same room. The room will have no repose if too many colors are used. It will look more like a department store display."

"A room must be planned to produce a pleasing effect on the eyes," Mrs. Brunschwig explains.

"A good general rule is to slipper your sofa and the two large upholstered chairs in the living room fabric, otherwise you divide up the room. Many people break up this seating unit with different fabrics. The same feeling of unity should exist where the living and dining room are one unit. Curtains should be the same and dining room chair seats could be the same color or compatible with other colors, so they can be used in the living room in case of necessity—for extra guests or card playing. A room will seem larger if not too many fabrics are used."

Young homemakers must be aware of the modern age. Murray reminds us. "The mother of a 5-year-old, she says.

"The new contemporary homes are stark, need big injections of personality to offset their type of architecture. Then, too, children

must be considered when you select furnishings."

Murray did her own New York apartment in washable natural linen, covering "everything" with it, she says. She adds colored accessories in season—dining room seat covers, cushions, table cloths.

It gives you a whole new look even though you can maintain your basic neutral plan."

Brown coordination is not new to Mrs. Brunschwig or to Murray who started playing with her aunt's fabric swatches at age two, went on to study in Paris and joined her aunt in the New York fabric house. Mrs. Brunschwig explains.

"I was an interior designer when I took over the management and styling of our firm when my husband, Cal Brunschwig, joined General De Gaulle in London early in World War II. It didn't take long to become fascinated with the fabrics."

Although the Brunschwigs began designing their own fabrics when it seemed impossible during the war to get French fabrics, they still comb France for every exclusive fabric.

"I was an interior designer when I took over the management and styling of our firm when my husband, Cal Brunschwig, joined General De Gaulle in London early in World War II. It didn't take long to become fascinated with the fabrics."

"Slip covers can be changed for an inexpensive new look when ever you get bored with them," she points out. "It is a better idea for young people to put their imagination into easy-to-change motif."

Olives Pop Up Mild Cheese Dish

When a cheese dish is on the menu instead of meat, accompany it with fruity, nut-flavored olives to brighten the serving plates and add additional satisfying qualities to a meal.

Serve the firm Spanish green stuffed olives that have most distinctive flavor. With cheese souffle you might serve onion stuffed olives. With Welsh rabbit you may prefer the salty anchovy stuffed olives. With cheese omelet serve pimiento stuffed olives.

Low Calorie Yogurt High Protein Food

Yogurt, a soft, smooth, tangy cultured milk food, is a nutritious protein snack for dieters. One serving of plain yogurt yields only 120 calories. It contains all of the nutrients of a cup of milk, minus half the fat content.

Beauty Tips from ME to YOU

By Jessie Hampton

No woman should be satisfied for long with a mediocre, poised carriage to be truly attractive.

How well you stand affects how well you work. Many things come from posture.

Even though your proportions may be satisfactory, poor posture may ruin the overall effect.

More on posture. Both alignment means lining up your body so that all parts from the top of your head to your toes fall into a balanced position.

Test your alignment, now. . . . Weight one end of a tape measure with a large spool of thread—stand before a long mirror so that you can see the profile of your right side—hold the unweighted end of the tape in your left hand to the tip of your ear—arrange the tape to rest lightly on your shoulder and let rest fall to the floor—relax your shoulders and stand tall—don't rearrange tape but check these points.

Tape should rest on these spots: middle of shoulder joint—top of thigh joint—back of knee and middle of foot—Be honest and any spot that does not measure up is a danger point—start to work on it right away for better carriage.

Need help in your desire for better posture? One of the biggest boosts to be found is located at Jessie's Beauty College in the form of the coin-operated Slen-dette reducing machine. The exercises that will surely help you. If it's a posture problem, don't forget Jessie's Beauty College.

Most of the world's supply of multi-element comes from a mine in a metal used in high quality steel alloys.

Vary Flavors, Textures Of Good Meals

Include something sweet and something sharp, something crisp and something soft, if you are planning a special dinner soon.

That's the basic pattern for the ideal menu. And it holds just as true during the season when many fresh foods become plentiful as at other times of the year.

After planning the main course of your dinner, which might include a clear consommé, baked ham, fresh asparagus with hollandaise and sweet potato puffs, be sure to consider the crunchy relishes and tangy salads that best round out a festive meal.

Often, these are the extras that make the main part of the dinner most satisfying.

Don't neglect dessert, however. Nearly everyone will agree that it is the high point.

At this season, it might well be a refreshing fruit concoction served with steaming coffee. To appease the sweet tooth pass a dish of after dinner mints, peppermint, lime lemon and wintergreen are the well known mints with which you probably are familiar.

Remember these little touches and it will be easy to serve a festive dinner that literally has everything from soup to mints!

ENGAGEMENT ANNOUNCED—Mr. and Mrs. James Simpson, 2113 Forty-first Street, announce the engagement of their daughter, Sandra Lou, to Lonnie Neal Dennis, son of Mr. and Mrs. Lonnie B. Dennis, 502 East Fourth, Denver City. The vows will be exchanged in the home of the bride-elect's parents, June 17th, with Rev. Marvin Rogers officiating. (Photo by Craft Studio)

Here's Way To Glamorize Succotash

Most of us love succotash—that wonderful combination of lima beans and corn—but we do get tired of it served in the same plain-lane way. But here's a different recipe which enriches the natural flavor.

School Menu

- MONDAY**
Hamburgers
Pinto Beans
Onion Rings & Pickle Slices
Potato Cnips
Fruit Cup
Sweet or Chocolate Milk
- TUESDAY**
Spaghetti with Meat Sauce
English Peas
Hot Rolls
Carrot & Cabbage Salad
Cookies
Sweet or Chocolate Milk
- WEDNESDAY**
Grilled Cheese Sandwiches
Green Beans
Potato Salad
Lettuce Wedge w-French Dressing
Devils Food Cake
Sweet or Chocolate Milk
- THURSDAY**
Fried Chicken and Gravy
Whipped Potatoes
Hot Rolls
Garden Salad
Whipped Fruit Jello
Sweet or Chocolate Milk
- FRIDAY**
Salmon Croquettes
Buttered Spinach
Macaroni and Cheese
Corn Bread
Relish Dish
Strawberry Short Cake
Sweet or Chocolate Milk

of the two vegetables and brings them to the table in an appetizing, cheese-dressed casserole.

Because of its company airs, the recipe was developed for eight servings enabling you to serve six to eight portions generously.

Succotash Special
(Eight servings)

- 2 10-oz packages frozen succotash, cooked
1/2 cup butter
1/4 cup flour
1 teaspoon salt; dash pepper.
2 cup milk
1/2 teaspoon soy sauce
1/2 cup grated process American cheese
8 tomato slices
1/2 cup buttered bread crumbs
1/4 cup chopped parsley
Place succotash in a buttered 12 by 7 1/2 by 2 inch baking dish. Melt butter, stir in flour, salt and pepper. Add milk and soy sauce gradually, cook until smooth and thickened, stirring constantly. Add 1/2 cup grated cheese and stir until cheese is melted. Pour cheese sauce over succotash. Place tomato slices over casserole. Top with bread crumbs and parsley. Sprinkle with remaining 1/4 cup grated cheese. Bake at 350 degrees for 25-30 minutes.

MRS. MARCEL JOSEPHSON, with some of her paintings to be shown in her art exhibit at Lubbock.

Josephson Solo Art Show Opens In Lubbock, May 15

Mrs. Marcel Josephson will be honored with an opening exhibit of her paintings at the YWCA, 910 Texas Street, Lubbock, on Sunday, May 15. Members of the South Plains Art Guild and the YWCA will host an open house from 2 to 4:30 p.m. on the opening day, with the public invited. The pictures will hang for one month.

Having styled herself the proverbial Sunday painter, she took interest in art several years ago strictly as a hobby. With no formal training in this field, she has made every effort to avail herself of training by competent instructors.

She has had either private or work-shop study with Frederick Taubes, Ted Egri, Rena Mazza, Roderick Parkinson, Harry Wortham, Arnold Leondar, Mrs. Gaiter Bell, Mrs. Addie Miller and Clarice Hollaway.

Mrs. Josephson is a member of the TFAA, West Texas Art Association, Las Artistas Club of Big Spring, and is president of the local Palette Club. She has won several awards both in local and regional shows, along with selling a number of her paintings.

Her works are currently on exhibition tour with both the West Texas Art Assn. and the Texas Fine Arts Assn. Her work last fall was selected best in the show at the annual exhibition at the Spring Art Club and recently received a Merit citation for some of her paintings, "Turbulent Waters", which will be in the show.

Marcel Josephson, has been in the grocery business for 28 years. They have a married daughter, Sandra Jean who lives in Houston, three children at home, Barbara, a senior at Snyder High School, Frederick, a junior high student, and Alan, 2-years-old.

Hertzer Leaves Athens

Mrs. Nettie Webb spent Sunday with Mrs. Des Bryant and Louie.

Green Cabbage, With Cheese Sauce

INGREDIENTS: 6 cups knife-shredded packed-down green cabbage; 1/4 to 1/2 inch strands; 1/4 cup boiling water; 1/2 teaspoon salt; 1/2 milk; 2 tablespoons butter, or margarine; 2 tablespoons flour; 1/4 teaspoon white pepper; 1 cup grated cheddar cheese; 1/2 of a hard-cooked egg if desired.

METHOD: Cook cabbage rapidly in medium-sized saucepan covered with boiling water and 1/2 teaspoon salt until just tender-crisp—about 5 minutes. Lift cover a few times and turn cabbage over with a long-handled fork. Turn into colander and drain liquid into a measure. Add enough milk to make 1 cup. Melt butter in saucepan over moderate low heat; stir in flour. Add milk mixture, remaining 1/2 teaspoon salt and pepper; cook and stir constantly until thickened and bubbly. Add cheese; stir over very low heat until cheese is melted. Add cabbage and reheat but do not boil. Turn into serving dish. If egg is used, put into a small strainer and press with a spoon over cabbage for a pretty effect. Makes 6 servings.

Final Plans For Senior Day Activities

Senior mothers and the student planning committee of the Snyder High School are to meet in Mr. Wiman's office at 4 o'clock Friday, May 13. Final plans will be completed for the senior day activities to be held, and all members are urgently requested to be present.

Invention Keeps Your Puffs Clean

By VIVIAN BROWN
AP Beauty Editor

RUTH MISCHEL SUSSELMAN decided to make a powder puff just as you would a cake—in layers. Her 12-layer puff is a dream-come-true which took her more than three years to develop. Says she:

"It wasn't easy, but once I got the idea, I stuck with it. I worked with chemists and we had to develop machinery to do a large enough production to make such a small item pay off. But we did it. Now the puff is on its way to Sweden, Hawaii, Canada, Cuba, South Africa, and on cosmetics counters all over America."

"The puff is about one-quarter of an inch thick, and when you use it for a day or two, you just peel off a layer and throw it away."

"Some girls use it three days, some two days. It depends on your own fastidiousness," Mrs. Susseisman points out. "But it is a development that has pleased dermatologists. They are always touting the clean puff for clean skin theory, so we don't have to sell them on the idea."

This sanitary new powder puff is for use in compact. Each soft layer of cotton adheres to another layer. It is gently pulled away.

"Some of the problems to be solved included getting a thin enough layer of cotton so that the powder wouldn't seep through the cotton. Another was getting a heavy enough layer of cotton so that the powder would adhere to the cotton. There were delicate points to be worked out before we could proceed," she explains.

The puff is designed to last one month, if one layer is used every three days.

"I was always unhappy when going out to dinner in the evening to discover a dirty puff in my purse and to worry about this inconvenience bothered me," says Mrs. Susseisman. "I decided one day to do something about it, and that's how the idea was born."

Her teen-age children are very understanding and considerate, and her husband is a lawyer who takes care of patent problems, account, books and other legal advice.
