Violence Flares Up In New Orleans

End Is Sudden

Clark Gable Succumbs

By VERNON SCOTT
UPI Hollywood Correspondent

HOLLYWOOD (UPI) — "King" Clark Gable, the he-man actor with the engaging smile and big ears, died Wednesday night of a heart attack several months before the event he most looked forward to in life—the birth of his first child.

Death came 10 days after the 59-year-old reigning star of movies for 30 years was taken to Hollywood Presbyterian Hospital with his first seizure, and only seconds before his expectant wife could reach his bedside.

Mrs. Kay Gable, 42, the fifth wife of the movie star who first gained world acclaim with his role as Rhett Butler in "Gone With the Wind," is expecting his child in March. She was staying in a room across the hall, having moved in the hospital the same day he was admitted—a week ago Sunday.

Mrs. Gable suffers from a heart ailment. Her physician expressed concern about the effects the strain of her grief would have on her.

Gable died without uttering a word. Only minutes earlier he had been chatting happily with a nurse.

There was oxygen by his bedside and doctors available. But attempts to revive the fabulously successful movie star of three decades were futile.

He had dinner four hours earlier with his wife and appeared in good spirits and doctors and

Gable himself believed he was on the road to recovery.

"He was planning for tomorrow," said his good friend, Howard Strickling, vice president at MGM.

"It was his best day," Strickling added. "Only the day after Gable finished his last movie role in 'The Misfits' with Marilyn Monroe on Nov. 4, Gable told a reporter of his emotions at being an expectant father."

"This is a dividend that has come to me late in life," Gable said. "I'm going to take off now and rest. When the baby is born I want to be there."

The next day he suffered the first seizure. It came at his suburban Encino mansion in San Fernando Valley.

The news of Gable's death brought tears, stunned reaction from actors and others around the world. The hospital telephone switchboard was overloaded with calls from across the United States and from Europe.

One of those calling was Gary Cooper. Another was veteran director John Huston who cried on the telephone and said, "Tell Kay if she needs me I'll be right here (at his hotel)."

Mrs. Gable, former wife of sugar heir Adolph Spreckels II, was not given sedatives because of her heart ailment.

She remained at the hospital for less than two hours. Then she went down a backstairs way to elude reporters and seclude herself in her home.

Her brother, Vince Williams, a

TV announcer, and Gable's manager, George Chasen, were with her besides her maid and pediatrician, Dr. Richard Clark.

Born in Cadiz, Ohio, on Feb. 1, 1901, Gable's film career included an Academy Award-winning performance in "It Happened One Night" in 1934 and tremendous success in such other movies as "Mutiny on the Bounty."

His matrimonial record of five wives, like his many mediocre movies, was seldom criticized because of his friendly, honest manner and clean, healthy he-manliness.

The world mourned with him in 1942 when his beloved third wife, Carole Lombard, died in a plane crash on her return to Hollywood from a war bond rally.

Gable was known in Hollywood circles as a loner. Despite his brash movie roles and leonine appearance, the mustachioed actor was a bashful man who was nervous in crowds.

On screen, he made females swoon in the days before anyone ever heard of bobby-soxers. He once said he had received 5,000 marriage proposals by mail.

"They almost always enclose a picture," he said. "And let me tell you, the toughest job a man ever had is saying 'no'—politely—to 5,000 women."

The actor was born the son of William Gable, an oil field worker, and Adeline Hershelman, a

California Vote Goes To Nixon

SACRAMENTO, Calif. (UPI)—Republicans claimed California for Richard M. Nixon today on the strength of a last-minute surge of absentee ballots that wiped out a 35,000-vote lead once held by President-elect Kennedy.

With only a few thousand votes remaining to be counted out of a total of more than 6.4 million cast, Nixon's lead was so slim the final results may depend on an official canvass and certification due by mid-December from the secretary of state's office.

If Nixon finally is awarded California's 32 electoral votes, it will have no bearing on Kennedy's election. But jubilant Republicans hailed Nixon's last-minute comeback as further proof he cannot be overlooked as a presidential prospect in 1964 and possibly a candidate for governor in his home state in 1962.

The loss of California would cut Kennedy's electoral vote total to 300—31 more than the majority of 269 needed for election. The electoral votes will be cast in the 50 state capitals Dec. 15.

In the nationwide popular vote with more than 99 per cent of the

U.S. Lifts Tariff Bar On Poland

AUGUSTA, Ga. (UPI)—President Eisenhower today ended U.S. tariff discrimination against Poland in a move obviously intended to drive a wedge between Polish Communists and the Soviets.

He directed that the "most-favored-nation" clause of the Trade Agreements Act of 1951 be reapplied to Poland starting Dec. 16, after an eight-year lapse.

This means that tariffs on Polish imports covered by trade agreements will be at least as favorable as the duties on imports from other nations.

"The termination of the 1952 suspension of such treatment represents a further advance in the development of economic relations between the United States and Poland," the White House said in announcing the action.

The tariff reductions would not affect Polish canned ham, which accounted for \$21.9 million of Poland's exports to this country in 1959, valued at \$31.7 million. Lower duties would apply to Christmas tree ornaments, wire, nails, casein, poppyseed, and call hides, the White House said.

Churchill's Doctors Are Not Worried

LONDON (UPI)—Sir Winston Churchill may have to spend his 86th birthday in a sickbed but except for his age the doctors were not too worried about the broken bone in his back.

Britain's elder statesman was reported to be suffering some pain and discomfort but still maintaining his cheerful mood.

He was being treated at his Hyde Park Gate home in London's fashionable West End where he slipped on a rug and injured his back Tuesday.

Sir Winston's secretary said today the statesman had "a very good night and is resting in bed."

Churchill, who will be 86 Nov. 30, is no stranger to illness. He has beaten it in one form or another since a bout with pneumonia at the age of eight.

If it comes from a hardware store, we have it. Lewis Hdw. Adv.

PROTESTER ARRESTED — A policeman grapples with a woman who attempted to take away his billy club near the New Orleans city hall. The woman was in a crowd that marched on city hall in protest against integration of New Orleans schools. The woman was arrested and escorted from the area. (NEA Telephoto)

Mayor Explains Water Project

The first of three "town hall" meetings on the Canadian River Dam project was held this morning at the Coronado Inn and heard Mayor Ed Myatt assure the small group present that no levy of taxes can ever be made against property owners to pay off the Authority's debt obligation.

Explaining that the repayment of the \$92,960,000 loan from the federal government will be derived entirely from water sales, the mayor stressed the point that this amount was in no way a gift or a grant; that it was, rather, a regular loan at 2.632 per cent interest, repayable over a fifty year period. The mayor further pointed out that at the end of this period, the Authority, and its member cities, will have unencumbered ownership of the project.

In elaborating on the relationship of the Authority to the federal government, Myatt stated emphatically that there would be no federal control or regulation of any kind since the government was just the lending agent.

The speaker further said that the city officials looked upon this election as one of the most crucial in Pampa's history for approval of the project by the voters this Tuesday is the only way an economical and adequate water supply can be assured the city.

To continue indefinitely depending on the exploitation of underground reserves is both impractical and will be extremely expensive in the years ahead," the mayor stated.

Stressing his view of the gravity of the situation, Myatt said there was little question but that in the not too distant future, water would cost considerable more than the Authority's 13.52 cents per thousand gallons if we continue depending on underground reserves.

Fred Neslage explained the potential that might be realized from the Authority's sale of water for secondary oil recovery projects in the old Panhandle oil field. "Not only would these sales give added revenue to the Authority, and hence reduce the water costs for the member cities, but also help assure the economic future of the area by the vast amounts of oil that could be recovered over the years by water injection."

City manager John Koonitz told the gathering of the increase in water meters in Pampa the last eleven years; from 4,900 in 1949 to 7,994 in 1960. Explaining the magnitude of increased water consumption, Koonitz said that the city could easily be faced with a struggle began.

Schools Mixing Stirrs Bitter Racial Brawls

By JOHN G. WARNER
United Press International

NEW ORLEANS (UPI) — Tension mounted around two newly integrated elementary schools today after police arrested nearly 200 persons in a wild night of racial violence. Carloads of Negroes roamed the streets of the city, shooting wildly at white pedestrians, and an explosive airplane rocket was hurled on the lawn of a white family from a speeding car.

About 15 persons were injured in beatings and stabbings during the night. One white man was shot in the hand by a gang of Negro youths before nightfall.

Police deactivated the airplane rocket before it could explode. Crosses were burned in at least two sections of the city, one by whites and the other by Negroes.

Police reported arresting 230 persons since Wednesday's wild rioting in downtown New Orleans, 191 during the night. A total of 194 were arrested for loitering and 29 for carrying concealed weapons. Most of those arrested during the night were Negroes.

Pedestrians were forced to dash into shop doorways when a car carrying three Negroes careened through downtown streets. Police said shots were fired from the car before it overturned. One of the passengers was arrested.

A Negro woman was arrested for possessing a machete. A group of white boys carrying bottles of gasoline also were taken into custody.

JOHNSON CITY, Tex. (UPI) — President-elect John F. Kennedy and his running mate, Sen. Lyndon B. Johnson, went deer hunting today in the rugged hills around Johnson's Central Texas ranch, leaving until later in the day a continuation of sessions to map plans for their new administration.

The two Democratic leaders left the ranch by automobile about 7:30 a. m. after an early morning breakfast. They were accompanied by two of Kennedy's associates, Kenneth O'Donnell, his special assistant and Rep. Torbert MacDonald, D-Mass.

The hunting party left rainy, overcast weather with thunder and lightning in the hills ringing the ranch. Members of the ranch staff said the men probably would do their shooting in an area 15 or 20 miles from the ranch. The deer and wild turkey season opened in Texas Wednesday.

Kennedy and Johnson's meeting was the first since the election. Kennedy arriving Wednesday night by chartered jet airliner from Palm Beach, Fla.; his vacation headquarters.

They planned to spend the rest of the day, after the hunt, in conference, either in Johnson's 100-year-old white home or motoring around the ranch together.

Today, a Negro with a knife slash across his chest said his attacker was a white youth.

Police armed with riot clubs Wednesday kept surging white crowds from entering City Hall. The crowds, including many teenagers who walked out of their high school classes to demonstrate against racial integration, chanted "we want the mayor."

Police were forced to call on the fire department for assistance. The firemen doused the demonstrators with water to force them to disperse.

Negroes were stoned in cars and buses after the white youths were scattered by the stinging fire hoses.

The rioting, which hospitalized 24 whites and Negroes, apparently

(See VIOLENCE, Page 4)

Many Dependents Are Ordered Home As U.S. Slashes Overseas Spending

WASHINGTON (UPI) — The United States sought today to slow the flight of dollars and gold abroad by drastically cutting its foreign spending and reducing the number of servicemen's families overseas.

A seven-point program, announced by President Eisenhower, was expected to cut U.S. spending in foreign countries by slightly more than \$1 billion a year, substantially improving the problem of America's international payments deficit.

Eisenhower summoned his top advisers to a meeting of the National Security Council today at the vacation White House in Augusta, Ga., to discuss ways of putting the program into effect.

In addition to reducing the number of servicemen's dependents abroad from 484,000 to 200,000, the plan bars the purchase of foreign goods by military post exchanges, orders foreign aid administrators to "buy American" and seeks new ways to increase American exports.

Eisenhower announced the program Wednesday at a hastily called news conference in Augusta. The U.S. international payments, deficit means, in simple terms, that this country is spending more overseas than it is making overseas. This deficit has been steadily draining U.S. gold reserves, is likely to exceed \$3 billion this year.

Defense and Treasury department spokesmen doubted the measures would significantly damage the economies of foreign countries, even those of West Germany and Japan, where the impact will be greatest.

Military sources expressed fear the curb on servicemen's families abroad would hurt morale, although Defense Secretary Thomas S. Gates said he did not think

the order would harm the spirit of American troops overseas.

In announcing the order, Eisenhower said, "Of course, it's a most unhappy occasion." He said servicemen's tours of duty overseas might be shortened to compensate for the absence of their families.

Defense Department officials said the 284,000 reduction in dependents would be accomplished gradually, mostly by stopping the movement of families abroad rather than by bringing back

wives and children immediately.

The normal return of families at the end of servicemen's overseas tours eventually would reduce the number of dependents abroad to the 200,000 limit. Eisenhower ordered a 15,000-per-month rate of reduction.

In 1952, U.S. gold reserves stood at \$23,350,000,000. The latest Treasury figure, reflecting the drain in gold over the past eight years, set the reserve figure at \$18.1 billion. This was down \$1.5 billion from a year ago.

MORE CASH FOR YOUTH CENTER — Epsilon Sigma Alpha Sorority this morning presented to the Pampa Youth and Community Center, a check for \$250, which represents proceeds derived from the sorority's sponsorship of the Jeanne Willingham Dance Revue held last Spring and which brings the sorority's contribution to the Youth Center to \$500. Dr. J. R. Donaldson, president, accepted the check for the Center from Mrs. Parks Brumley, ESA welfare chairman. (Daily News Photo)

Known Sex Offender Admits Murder Of Three Chicago Matrons In Park

OTTAWA, Ill. (UPI)—A muscular outdoorsman with a record of sex offenses today confessed he beat to death three Chicago matrons in a lonely, snow-covered canyon in nearby Starved Rock State Park last March.

The state's attorney's office said Chester Otto Weger, 23, a former bus boy at the park, calmly admitted the triple killings at 1:45 a. m. after several hours of questioning.

Authorities said he showed "no remorse and a complete lack of emotion" as he told them how he killed Mrs. Frances Murphy, 47, Mrs. Lillian Oetting, 50, and Mrs. Mildred Lindquist, 50, all wives of prominent Chicago business and civic leaders.

LaSalle County State's Atty. Harland Warren said he would take Weger to the park for a reenactment of the crime. A special session of the grand jury was called for this afternoon to consider indictments.

Weger, a short but muscular blond father of two, was charged early today with 11 crimes, including the three killings in Starved Rock. They included raping a 17-year-old girl, robbery, and assault with a deadly weapon.

In his oral confession, Weger said he met the three women while out on an afternoon break from his bus boy job in the park lodge. He said he told the women he intended to rob them and a struggle began.

Weger, who described the killings as a "robbery that got out of hand," said he dragged two of the women to a tree and tied them to it. He said when Mrs. Murphy continued to fight back, he hit her with a tree branch and then beat the other two women.

He told police Mrs. Murphy regained consciousness for a time and he struck her again. He then carried the women into a canyon cave about 200 yards away. He said he took them into the cave because he wanted a plane overhead and he wanted to get them out of sight.

He laid the bodies in a neat row, he said, and then searched their purses for money. He neglected to take the jewelry and rings they were wearing, however.

Sheriff Ray Eutsey said Weger, who now works as a painter in the little nearby community of LaSalle, went back to the lodge after the killings and worked as if nothing had happened.

The sheriff said, however, that Weger had long been a suspect in the case, and had been questioned several times and given two lie detector tests with inconclusive results.

The sheriff said the decision to arrest him was made "after much deliberation as to time and gathering of evidence."

The three women disappeared March 14 while on a winter hiking trip in the picturesque park, one

of the most beautiful in Illinois. Two days later, their bodies were found lying side by side in the cave.

Bank Robber Caught At San Antonio

SAN ANTONIO (UPI)—The FBI in San Antonio said they have captured Lawrence C. Pope, 42, the former bank president who robbed two Texas banks and took obscene pictures of some of the bank employees.

Pope is wanted for robbing a bank at Schulenburg, Tex., last Saturday, and the bank at Thornton, Tex., the Saturday before.

During both robberies he forced female employees to partially disrobe and pose for lewd photographs.

The FBI said its agent arrested Pope in a motel on the northeast outskirts of San Antonio. He offered no resistance and was not armed, the FBI said. The FBI was notified after a motel keeper recognized him from newspaper photos.

Pope escaped with \$1,744 from the First State Bank at Thornton, and took \$4,880 and some \$11,000 in government bonds from the Farmers State Bank at Schulenburg.

Club Profits Will Go Toward Cemetery Fence

LEFORS (Spl) — Lefors Lions Club has labeled profits from its recent turkey shoot for fencing of the local cemetery.

Promoters of two club activities were cited during the recent meeting—Aubrey Carlton for his direction of the turkey shoot, and Ray Degray, Jack Thacker, Walter Elliott and George Duncan for their construction of storage cabinets in the Civic Center.

A barbecued chicken dinner and a musical program presented by a Pampa quartet composed of Larkin Miller, Jimmy Barrow, Robert Miller and Elmo F. Hudgins, were the highlights of the meeting.

Members present included: Bill Teel, Bob Bright, J. R. Sparkman, John Archer, Edl Atkinson, Boyd Beck, Fred Blackwell, J. P. Russell, Carlton, Arlie Carpenter, A. T. Cobb, W. R. Combs, Degray, Duncan, Elliott, C. H. Gustin, Jerry Jacobs, R. E. McDonald, G. N. Mounger, D. T. Pleil, Charles Roberts, David Robinson, J. E. Sparkman, Jeff Stuebfield, Raymond Jordan, Alex Swenn, Thacker, B. D. Vaughn, J. W. Walls, Bill Watson, Carl Barber and Jack Pool.

At this time of year, many landlords and tenants are thinking about farm rental arrangements for 1960. While some operate from year to year on the basis of verbal agreements regulated largely by local custom, written leases are better and may save disagreement and hard feelings between the parties.

Farming is a business and should be conducted in a business like manner for best success. Rental contracts involve a full year's work by the tenant and possibly thousands of dollars for both parties. A few dollars spent on a properly drawn lease is good business economy.

A farm lease is not a simple paper. Printed lease forms often turn out to be traps if not understood, or if not properly executed. A farmer-tenant contract is intricate and of such importance to both parties concerned that amateur draftsmanship is risky.

Fixing of cash rent or designating the length of term are relatively simple. Yet, even in these matters, ambiguity or incompleteness can cause bitter disputes and expensive lawsuits.

A loosely drawn property description may have consequences entirely unintended by either landlord or tenant. Where rent is to be based on acreage, an accurate description is doubly important.

In addition, there are legal rules to substitute for some omissions in written leases. For example, a holdover by the tenant may automatically renew the contract if the lease is silent on the subject. It is as important to know the results of omissions as to know the courts' interpretation of the language used.

There are many matters which should be covered by a properly drawn lease. For instance, if a tenant is to farm on a share basis, care should be taken to define what expenses are to be paid by the parties as well as what shares are to be taken out. A lease should cover such things as who is to make repairs, what land is to be cropped, whether the tenant can cut timber, whether loss of a building by fire or other cause frees the tenant, or whether the landlord must accept a sub-tenant.

One great cause of difficulty with leases is blind faith on the part of the persons involved that all differences of opinion can be worked out. Poor memories as to verbal agreements can cause disputes between persons even though they are both honest and generous.

Many of the possibilities that should be covered by a properly drawn lease will not occur to inexperienced persons. The renting of land deserves a written contract, and it is a contract too important to be entrusted to anyone other than an expert.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Walter Rogers Reports

Election Method Due Discussion

On November 8, 1960 the people of the United States exercised their right of franchise; a right enjoyed by very few people throughout the world; a right indispensable to the preservation of a government by law rather than by man; a right, the proper exercise of which is the keystone of democracy.

The result of the exercise of that right by well over 60 million Americans is indicative of many things. Pollsters, lawyers, editorial writers, columnists, political experts, and others will be analyzing that vote for many months and years to come. These analyses will produce as many meanings attributed to the votes and the voters as the number of people who undertake to treat the subject. Many will say that the system in this country is wrong; that it is unfair, that it does not permit the true reflection of the feeling of the majority of the people. Others will say that the system should be retained as the most perfect system yet devised by man. The electoral college method of electing a president has been under fire for a long time. Many attempts have been made to change it, but none have been successful. No doubt other attempts will be made in the future, near and far, but I seriously doubt that the system will be changed until there is definite proof that an alternative is better.

I would like to submit my feeling as to the real meaning of what happened on November 8, 1960. In my opinion the most significant fact was the closeness of the election, regardless of who won. It reflected the wealth of strength in the democratic process and it contained a mandate from the people to the elected officials that should and must be honored. The people said, in effect, that they want a

balanced, sound, and honest government, free of extremist policies in either the direction of statism or monopolism, properly tempered so that the fullest strength can be realized. The people of this country from all walks of life; the farmer, the laborer, the professional, the housewife, the corporate representative, the butcher, the baker, and the candlestick maker, all spoke to make up the one voice that constituted the voice of the people. To all who would hear, that voice had the same clear, rich tones of the voice in 1787 that said to the world:

"We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of liberty to ourselves and our Posterity, do ordain and establish this CONSTITUTION for the United States of America."

With that preamble, the Constitution of the United States of America, one of the greatest documents ever struck off by the hand of man, was commenced. The people of this country in this election have truly evidenced that we are jealous of our rights and liberties, and that those entrusted with them will be held to full account.

Our government, like a fine watch, is made up of many, many parts, without any single one of which an imbalance could be created; but with all of which performing the service for which they were designed, true balance is attained. Our government and our philosophy will survive, so long as none of us forgets the presence and necessity of others.

Walter Rogers

18th District of Texas

Foreign Commentary

By PHIL NEWSOM
UPI Foreign Editor

Current unrest in Southeast Asia illustrates one of the ever-present, natural risks facing those responsible for U.S. foreign policy.

South Viet Nam President Ngo Dinh Diem apparently has weathered an army revolt against his iron-fisted regime. But the 3,000 paratroopers who rebelled and held the streets of Saigon temporarily, brought to the surface underlying unrest against his government which has been ardently supported by the United States.

In neighboring Laos, in which the United States also has a heavy stake, three factions battle for national control.

Between them, South Viet Nam and Laos have received in the neighborhood of \$2 billion in U.S. aid. Their armies have been supported, supplied and paid by the United States.

Should either or both eventually fall to communism, their loss not only would be a heavy blow to the Southeast Asia Treaty Organization, of which the United States is a founding member, but would also vastly increase the dangers to the rest of Southeast Asia.

A major risk facing U.S. policy planners is the danger of domination by association.

This support of an Ngo Dinh Diem for the sake of a fleeting stability in the face of militant

world communism, might simply result later in his sins being visited upon the United States.

It is not an unheard of position. In Cuba, Fidel Castro rallies anti-U.S. support with the cry that it supported the dictatorship of Fulgencio Batista.

U.S. silence on the revolt in Algeria leads to the charge that it supports colonialism in Africa.

U.S. association in the Baghdad Pact with deposed King Faisal of Iraq helped Nasser crystallize anti-U.S. sentiment in the Mideast.

In South Viet Nam, for better or for worse, the United States is linked with Diem who is militantly anti-Communist and who, so far, appears to have the backing of most of the army.

On the grounds that the Communist threat requires it, Diem's is a one-man rule.

Members of his own family occupy top government positions and favoritism is charged in the matter of army promotions.

A manifesto drawn up by a group of anti-Communist leaders six months ago charged that he had "only oppressed the people, not protected them from communism."

Original manuscript of the diary of Samuel Pepys, in six volumes, is at Magdalene College, Cambridge, England.

● Nixon

(Continued From Page 1)
votes tallied, it appeared that neither Kennedy nor Nixon had won an absolute majority. Kennedy was leading Nixon by 247,579 out of 67,989,394 votes counted, but he had only 49.87 per cent of the total vote. Nixon had 49.50 per cent, and others 0.63 per cent.

A UPI tally lacking only about 20,000 absentee votes but including a semi-official final count from heavily populated Los Angeles and County gave Nixon 3,223,059. Kennedy 3,209,567. Nixon's lead was to help rehabilitate prisoners.

Clark Gable Dies

(Continued From Page 1)

farm girl, who died when Clark was one year old.

He had no survivors besides his wife, Kay.

When he was 15, Gable took a job in a rubber factory in Dayton, Ohio, and there he saw his first play, "The Bird of Paradise."

He was stage-struck at once. He gave up his night course in medicine at the University of Akron and got a job as a call-boy in the theater, at no salary.

He slept in the wings and ate with the money the actors tipped him.

He was doing walk-on parts when he was called home because his stepmother was dying.

After her death, Gable and his father went to the Oklahoma oil fields to work. His father died seven years ago.

Against his father's wishes, Gable left the oil fields after two years to take a \$10-a-week job with a stock theater company, which folded in Butte, Mont., on a sub-zero night in 1922.

In 1924, Gable repaired a wire at the Little Theater in Portland. There he met the stage director, Miss Josephine Dillon, who hired him and later helped him join the Forest Taylor Stock Co.

A Broadway actress who was several years his senior, she tutored Gable. When she returned to her Los Angeles home, Gable followed and they were married on Dec. 13, 1924.

Gable tried pictures but made no progress. He did a bit in "The Great Diamond Robbery" for Twentieth Century-Fox in 1925. He next took to the road in Jane Cowl's "Romeo and Juliet" as a spear-carrying soldier. He attracted some attention as Ser-

geant Quirt in "What Price Glory?"

After months in stock companies, he tackled New York, but the Great White Way withstood his invasion. Touring separately, he and Josephine drifted apart, and she obtained a divorce on April 1, 1930.

A month later he returned to Los Angeles and was a hit as "Killer" Mears in "The Last Mile." Pathe offered him the part of a cowboy in "The Painted Desert," and later he signed a two-year contract with MGM at \$350 a week.

Later, he would earn 20 times that much in a week.

On March 31, 1931, he married Mrs. Rhea Langham, a wealthy Texas widow who was 11 years his senior. They separated in 1935, and she got a Las Vegas divorce on March 7, 1939.

Meanwhile, he was skyrocketing as a star. He appeared with Jean Harlow, Greta Garbo and other leading sirens of the screen.

He was among the first 10 money-makers at the boxoffice for 10 years before World War II. He was No. 1 on the list from 1936 to 1938, and his 41 pictures grossed more than 63 million dollars.

In addition to "Mutiny on the Bounty" and "Gone With the Wind," his films included "Red Dust," "Night Flight," "Man in White," "Too Hot to Handle" and "Honky Tonk."

In 1939, Gable married Miss Lombard, former wife of William Powell. It turned out to be the great love of Gable's life. The striking couple was one of Hollywood's happiest for three years.

Then, on Jan. 16, 1942, Miss Lombard and 21 other persons perished in the crash of a Trans World Airlines skyliner into the face of Table Rock Mountain near Las Vegas, Nev.

Gable never quite got over the loss of Miss Lombard. They were pals as well as lovers—had gone hunting in Mexico and shot quail in South Dakota together.

Seven months after Miss Lombard's death, Gable who had lived almost entirely in seclusion, joined the Army as a private. He rose to the rank of major and flew many combat missions from bases in England before being discharged.

In 1949, Gable took his fourth plunge in marriage—a plunge that took friends by surprise. He eloped with Douglas Fairbanks Sr.'s widow, Lady Sylvia Ashley. It didn't last very long. The divorce was made final in 1952.

Gable wed his fifth wife, blonde actress Kay Williams, in July, 1955, climaxing a 13-year old friendship between the actor and Miss Williams.

When he married Miss Williams, he acquired two stepchildren, Joan and Adolph, by the actress' former husband.

Damaged Tower Promptly Rescued

BEDFORD, Mass. (UPI)—The Air Force said today it evacuated all but a minimum number of personnel from a Texas Tower radar station 80 miles off the New Jersey coast because the underwater foundation was damaged.

The men were taken off Wednesday after deep-sea divers discovered the underwater bracing was damaged, evidently in Hurricane Donna. Normally the tower has a complement of 100 men.

The early warning radar station will continue to operate with a skeleton crew until repairs to the under structure can be made.

The station, Texas Tower Fort, is one of three offshore radar outposts located in shoal water 80 to 100 miles off the east coast. They are called Texas Towers because their construction is much the same as that of offshore oil drilling rigs.

'Loaded' Medicine Interrupts Trial

LAREDO, Tex. (UPI)—Judge E. James Kazen had to postpone the burglary trial of Lopez Aguilar because of Aguilar's cough medication.

He was tipsy when he arrived in court Wednesday. Sheriff Porfirio L. Flores explained Aguilar had guzzled the whole two-ounce bottle of cough syrup, and it contained 35 per cent alcohol.

Kazen told the sheriff to take Aguilar back to jail, and from now on make sure he takes just one teaspoonful every four hours, like the doctor prescribed.

Mexico Receiving Cuban Pamphlets

MEXICO CITY (UPI)—The Cuban Revolutionary Front, an anti-Castro organization, says "subversive and Communist propaganda originated in Cuba is being sent to Mexico in diplomatic pouches and parcels addressed to commercial firms."

A spokesman said Red propaganda includes a pamphlet on how to wage guerrilla war by former Republican Spanish Army Commander Bayo. "Anti-Mexico literature has also been sent to Cuban diplomats here, the front said.

Amorous Driver Taken For Ride

MILWAUKEE, Wis. (UPI)—Jerome Lesperence, 23, was so taken with a young lady he saw aboard a bus that it cost him \$10. Lesperence pulled his car alongside the bus, tooted his horn and beckoned the young lady to join him.

When the lady, Mrs. Joyce Cesar, 24, got out after about a mile, Lesperence stopped her and asked for her address.

He was then arrested by police who had been tipped off by the bus driver, who happened to be Mrs. Cesar's husband.

Lesperence paid the \$10 fine for "mashing auto involved."

Cuba's Jurists Refuse To Act

HAVANA (UPI)—Two thirds of the members of Premier Fidel Castro's hand-picked Supreme Court were in hiding today, trying to avoid the necessity of branding two refugee fellow justices as "traitors."

Only 10 of the court's 30 members had signed a government-sponsored "joint declaration" denouncing Chief Justice Emilio Menendez and Associate Justice Jose Morell Romero, who sought asylum in embassies here Tuesday.

The 20 others could not be located immediately, although there was no indication any of them had sought to leave the country.

Cheap Postage

WASHINGTON (UPI)—Defense Secretary Thomas S. Gates Jr. has received a letter that traveled more than a million miles on a seven-cent air mail stamp before reaching him.

Gates said Wednesday the letter was postmarked in Sunnyvale, Calif., and was carried 31 times around the earth in the Discoverer VII satellite capsule which was successfully ejected and recovered in the Pacific Monday.

● Violence

(Continued From Page 1)

was touched off by the urgings of segregationist leaders to "civil disobedience."

The deep-seated feeling against integration all but emptied William Franz and McDonough No. 19 schools where the four Negro first graders are enrolled. Twenty-one white pupils were reported in attendance at the schools Wednesday out of a combined enrollment of 1,043.

Presidential press secretary James C. Hagerty said in August, Ga., that he knew of no plan of the President to send troops into New Orleans. But Hagerty said President Eisenhower is keeping in close touch with the situation.

Americans Turning To Private Schools To Educate Children

By LOUIS CASSELS
United Press International

Americans in increasing numbers are turning to private schools for the education of their children.

Enrollment in non-Catholic private elementary and secondary schools has increased 600 per cent since the end of World War II, according to statistical records of the U.S. Office of Education.

During the same period, Catholic school enrollment has increased 110 per cent and public school enrollment 68 per cent.

The term "private school" is used here in the same way it is commonly used in conversation—to designate a highly-diverse group of institutions which are not associated with either the public school system or the Catholic school system.

Some private schools are related to the Episcopal, Lutheran or other Protestant churches. Many are independent. The category includes day schools, boarding schools, military schools, "finishing schools" for girls and "prep schools" for boys.

One thing they all have in common is that they are fairly expensive compared to public or parochial schools. Tuition charges at private schools range from a minimum of about \$360 a year in some elementary day schools to as high as \$3,000 a year at some big-name prep schools.

In 1946, private schools were widely regarded as an affectation, or at least a luxury, of the rich. Their total enrollment was about 200,000.

Today they are educating more than 1,200,000 students, and many of them are swamped with far more applicants than they can handle.

What has brought about this dramatic shift in popular attitudes toward private schools? Interviews with many educators and parents indicate that four major factors are involved. They are:

1. The overcrowding of public and parochial schools in many communities. The relatively low teacher-student ratios that prevail in private schools are a strong attraction to parents whose children have been placed on split shift schedules, or in classes with 35 or 40 students.

2. A belief that private schools do a better job of teaching basic subjects, such as reading in ele-

mentary school, math, science and English in secondary school.

Parents who are disenchanted with so-called progressive educational philosophies, or who feel strongly that reading instruction should be based primarily on phonics, are heavily represented among the new patrons of private schools.

3. The "got-to-get-him-into-a-good-college" complex which seizes ambitious parents almost as soon as their children are out of diapers. An increasing number of Americans are convinced that graduation from a "prestige" private school will be an important asset to their children in the intense competitive struggle for admission to big-name colleges and universities.

4. Actual or impending racial integration of public schools. This has been a particularly significant factor in the South, where a large number of new private schools have been established since the Supreme Court issued its 1954 decree.

Today they are educating more than 1,200,000 students, and many of them are swamped with far more applicants than they can handle.

INFLATABLE ROAD SIGNAL — This inflatable plastic marker is a new version of the triangular metal signal that all Italian motorists must carry in their cars. They are set in the road when cars break down. The markers, shown in Rome, are illuminated at night by a battery-powered light.

Foreign News

By PHIL NEWSOM
UPI Foreign Editor

President Charles de Gaulle has taken a first, dramatic step toward an early ending of the Algerian war—and thereby once again placed his great prestige among the French people on the line.

His announcement that the people would be asked to vote on his plan for a semi-independent Algeria in a national referendum meant that he was counting on his own immense popularity to win over forces which toppled the French Fourth Republic and on Armistice Day took to the streets again to shout, "De Gaulle to the gallows."

Early this month it became apparent that De Gaulle planned to move decisively to break the Algerian stalemate.

In a speech on Nov. 4 he declared that the time might come when the French army in Algeria could put aside its arms except in cases of "legitimate defense."

From this came a prediction, denied by French officials, that De Gaulle soon would order a cease-fire, opening the way for political talks. De Gaulle's success or failure depends upon the French army.

Aligned against him would be the French rightists, the one million European settlers in Algeria and a hard core of army professionals.

With him would be civilian draftees in the 500,000-man French army in Algeria, approximately 100,000 Moslem troops in the army and the 12 million Moslem inhabitants of Algeria.

Under these pressures and with the added fact that the only alternative to De Gaulle seems to be civil war, the army is expected to yield.

Then would come a political roundtable paving the way for Algerian self-determination.

Represented at the roundtable would be all phases of Algerian opinion, including the leftist-leaning rebel provisional government led by Ferhat Abbas, Moslem members of the French Parliament and possibly other members of the French African community lending their good offices.

Almost from the day he took office, De Gaulle has been making it clear he believed in the inevitability of the rise of an Algerian republic. Equally, he believes that the majority of Algerians, given a free choice, would elect to retain close ties with France.

Relying upon his strongman position in the government, he has cracked down swiftly and hard on his critics.

Other factors were prodding De Gaulle. One was Communist "de facto" recognition of the rebels and the possibility they would be bolstered soon by a flow of Communist weapons. Another was the belief that, with the inauguration of the Kennedy administration, new pressures might be brought by the United States to end the war quickly.

Cotton Firm Executive Succumbs

HOUSTON (UPI)—Robert W. Henderson, 73, who rose from a Corsicana cotton son to become head of a multi-million dollar cotton firm in Houston, died late Wednesday at Memorial Hospital.

Doctors said an infection proved fatal. Services will be held at 2 p. m. today at St. Paul's Methodist Church.

Henderson was chairman of the board of Henderson Cotton Co., which he founded shortly after coming to Houston in 1914. He was president of Houston Farm Development Co., which owns 47,000 acres of rice and cattle grazing land in Brazoria county.

He also was president of Brazoria County Rice Co., was a director of the First City National Bank in Houston, the city's largest, and was a director of Houston Lighting and Power Co.

Survivors include his wife and a daughter, Mrs. Joe C. Wessendorf of Richmond, Texas.

Navy's Book 'Reader' Gets Job Done Fast

WASHINGTON (UPI)—The U.S. Navy has acquired a new machine which can scan and reproduce about 10 pages of a book in less time than it is taking you to read this paragraph.

In the time it took me to write the paragraph, the machine could transmit coast-to-coast some 30 pages of the same book. And in the time it took me to think of what I was going to write, it could have copied the entire book.

I am not certain that I grasp the significance of all this, but it certainly seems to prove something. If nothing else, it provides another indication of how rapidly we human beings are falling behind in our race with automation.

The Navy machine is called, for reasons not immediately apparent to me, a "document retriever." I assume it was given this name because it was designed to function as a sort of bureaucratic bird dog.

Developed by the Hogan-Faximile Corp. of New York under sponsorship of the Navy's Bureau of Ships, the "retriever" is being publicly demonstrated in the Pentagon this week.

It was only two weeks ago that I attended a demonstration of the Post-Office Department's new "speed mail" system, which I thought would stand as the ultimate in electronic transmission for at least a month.

And yet I was told that the "retriever" is four times faster than the postal device. Heaven knows what December will bring.

The Navy said the machine is expected to overcome a serious problem in the distribution of dia-

grams and plans for ships. It said the blueprints for a big ship, such as an aircraft carrier, weigh as much as 300 tons.

An aircraft carrier itself weighs about 70,000 tons. So you can see what the Navy is up against.

Using the "retriever," it would not be necessary to load some poor yeoman down with 300 tons of blueprints and send him off to the shipyard.

The prints would simply be copied on microfilm and then transmitted to several shipyards simultaneously.

The "retriever" is capable of transmitting 4,320 square inches of copy every minute. In terms of the printed word, this is equivalent to transmitting a 240-page book every four minutes. Or it can send ten 18-by-24 inch drawings every minute.

I don't wish to continue to stagger you with comparisons, but more than 500 teletype machines, which usually operate at 60 words a minute, would be needed to keep up with it.

After explaining all of this at the Pentagon demonstration, a company official turned on the machine and we all rushed over to have a look. Rolling out of it, silently and relentlessly, was a four-page press release, complete with cartoons.

Far be it from me to knock scientific progress. But when I think of some of the uses that can be made of science, it sort of gives me the willies.

Approximately 100 million acres of the United States have never been surveyed.

HIGH COST OF LOVING—Carol Rogers slips a \$100 Valentine into its envelope in Cleveland, Ohio. American Greetings is marketing a limited number of the expensive cards, each an original watercolor by a nationally known artist. A love message is hand lettered inside.

KEEP ROLLING ALONG—This metal device shown in Rome is designed to replace the usual chains on auto tires. It will give added traction in sand, mud or ice.

Guatemala's President Heads Troops

By MARIO RIBAS MONTES
United Press International

GUATEMALA CITY (UPI)—Troops under the direct command of President Miguel Ydigoras Fuentes struck southeast from Puerto Barrios today, pursuing scattered rebel bands fleeing toward Honduras.

Barrios, principal port on Guatemala's short Caribbean coastline and last stronghold of the rebels who rose against the government Sunday, was recaptured by loyal troops Wednesday. The government announced the insurgents had been "totally defeated."

Ydigoras, accompanied by 700 airborne troops, took off for Barrios half an hour after word of its capture reached here, to take personal charge of the task of mopping up the surviving rebels.

Other government forces were advancing up the highway used by the rebels in their advance northeast from Guatemala City Sunday, apparently hoping to cut off the insurgents' escape route.

"The government has recaptured all of the communities that were held by the rebels," a communique said. "The rebels still at large... are seeking a way out (of the country)."

Although no detailed casualty figures were published, radio reports from Barrios said a number of rebels—many of them wounded—had been captured in the city.

The airfield at Barrios, pitted by rockets and bombs in repeated air raids, was repaired quickly to accommodate the planes bringing the president and his flying reinforcements to the city.

The revolt began with an attack early Sunday on Guatemala City's Matamoros barracks. Rebels captured a sizeable quantity of arms and enlisted some recruits.

Three Years Without

WASHINGTON (UPI)—Roy Sievers, now with the Chicago White Sox, was the last player on the Washington Senators to bat over .300. In 1957 Sievers hit .301.

Ex-Potter Deputy Is Due Trial

AMARILLO (UPI)—Curtis Travis, the former Potter County chief deputy sheriff accused of lying to a grand jury conducting a gambling investigation, will be tried on perjury charges in Dallas.

Travis, indicted after a Legislative Crime Committee held a series of hearings on Amarillo gambling and vice last March, was accused of lying about free food and drinks he received at a supper club owned and operated by a well-known Amarillo gambler. The Amarillo district attorney's office announced Wednesday that Travis' trial would be heard by Dist. Judge J. Frank Wilson in Dallas, and also said that it expected the trial of former sheriff's Capt. Dick Bufkin would also be transferred to Judge Wilson's court.

Bufkin was accused of offering a bribe to another deputy as protection money for an Amarillo gambling den.

There are nearly 550 trade unions in Great Britain.

Rural Vote Swung State To Kennedy

AUSTIN (UPI)—The Texas Farmers for Kennedy-Johnson Steering Committee said the rural vote is responsible for the Democratic victory in Texas and serves today as a mandate for "full speed ahead" in the farm program outlined in the Democratic national platform.

John C. White, state agriculture commissioner, served as chairman of the committee.

"As far as the rural areas and the farm vote of Texas were con-

cerned, there was no hanging back in their whole-hearted endorsement of the Kennedy-Johnson approach to the farm program along with a repudiation of ruinous Republican farm policies of the past eight years," a committee report states.

"We feel that it need hardly be observed that without the Texas farm vote, any hope of Democratic victory in our state would have been extremely doubtful. Many of our rural precinct boxes were credited with majorities of two or three to one for Kennedy-Johnson. In a few instances, the majorities went as high as seven to one."

Checkwriter Thief Repents

HOUSTON (UPI)—Three nights ago a checkwriter was stolen from the office of Van Cleave Construction Co. Such a theft usually is the prelude to a wage of forged check passing.

Wednesday the checkwriter was left at the firm's door with this note attached:

"Sir: I am returning the machine I took from your office. I have had a constant struggle with my conscience since I took it. I can only plead desperation. If you have it in your heart, please forgive me. The machine has not been used."

Cotton Use May Exceed Production

WASHINGTON (UPI)—The Agriculture Department said today U.S. cotton consumption during the 1960-61 marketing year may be larger than production, currently estimated at about 14.2 million bales.

In such an event, the carryover on Aug. 1, 1961, would be about seven million bales, compared with the 7.6 million bales this year, the department said. The

1961 carryover probably will be less than 50 per cent of the record high 14.5 million bales of 1956. Consumption in 1960-61 was expected to be around 15 million bales, compared with 16.2 million bales in 1959-60. Despite this decline, the 1960-61 consumption will be the third largest since 1928-29. Domestic mill consumption probably will be no larger than 8.5 million bales compared with about nine million in 1959-60. Exports still will be substantial at about 6.5 million bales, about 700,000 bales less than the very large shipments in the preceding season. The department said the decline in domestic mill consumption was indicated by a steady rise in the

SONS OF WHERE?

BISMARCK, N.D. (UPI)—The new president and vice president of the Bismarck Sons of Norway lodge are Demos Ginakes, a Greek, and Ben Meier, a German. The outgoing president is Irvn Smith, an Irishman.

Earth, Stars and Man (19) Charcoal and History

by Don Oakley and John Lane

One of the new tools being used in the search for man came out of World War II research into the atom.

In 1946, chemist Willard F. Libby theorized that carbon-14, a radioactive form of ordinary carbon (familiar as charcoal), is manufactured in the upper atmosphere by bombardment from cosmic rays. It mixes with the carbon dioxide breathed by plants and passes into the animals which eat them. Since carbon-14 decays at a certain rate, it should be possible to measure the amount still left in once living things and determine their age. (The process is complicated, but basically involves counting the ticks on a Geiger counter.)

It was first verified that carbon-14 is present in all living things in equal amounts all over

SOME CARBON-14 DATES:

EGYPTIAN BOAT—5,621 YEARS

CHARCOAL FROM CAVE MAN'S FIRE IN FRENCH CAVE—15,516 YEARS

CHARCOAL FROM CASPIAN SEA CAVE—43,000 YRS.

DEAD SEA SCROLL—1,917 YEARS

INDIAN SANDALS FROM OREGON—9,053 YEARS

SEA SHELLS: FOSSIL THERMOMETERS OF ANCIENT OCEANS TEMPERATURE

the world. Then dead matter, whose age was known, was tested (for instance, a piece of wood from an Egyptian burial boat). The method was found to work with close accuracy.

Archaeologists at last had a calendar that could take them back far beyond recorded history. Unfortunately, carbon-14 dating is limited to not much over 50,000 years. There is still a tremendous time gap between it and the uranium method of dating rocks. Men are constantly searching for other natural calendars to fill that gap.

Another form of measuring has been developed by another chemist, Nobel Prize-winner Harold C. Urey. He found that a radioactive form of oxygen—oxygen-18—is absorbed into the shells of sea creatures. The rate varies

with the temperature. With this method, it has been possible to measure the temperature of the ocean millions of years ago. Somewhat like the rings on a tree, the yearly growth of the fossil shells records that year's temperature for all time.

Fossil seashells are brought up in the order they were laid down by means of deep-sea borings. By drilling into the sea bottom, man is learning more about the history of the world. One of the most ambitious projects is the "Mohole," the plan to drill through the earth's crust into the zone of floating rock known as the mantle. Preliminary borings may be made in 1961. One possible result may be clues to the secret of how life began.

Cuba Rejects U. S. Note On Executions

HAVANA (UPI)—Cuba "completely rejected" today a U.S. note protesting the execution of three Americans by Premier Fidel Castro's firing squads, saying it was "disrespectful and infamous."

The U.S. note protested the summary treatment accorded Anthony Zarba, 28, of Somerville, Mass., Allan D. Thompson, 36, of Queen City, Tex., and Robert O. Fuller, 25, of Miami, shot last month as participants in an "invasion" of Cuba said to have taken place Oct. 5.

The State Department complained that the men were tried in a "circus atmosphere" and that their appeals were rejected after only a few minutes' consideration.

The U.S. note, delivered last Friday, accused the Castro regime of "inhuman behavior" in refusing to release the bodies to relatives for burial.

The Cuban reply, signed by Acting Foreign Minister Carlos Olivares, was delivered to U.S. Charge d'Affaires Daniel M. Braddock early today. The text was made public at 4 a.m.

Mercury Dip Chills Dalhart

By United Press International

A mild cold front that dropped the mercury to 26 this morning at Dalhart covered Texas today but a mass of warm air from the Gulf was expected to create a slight warm-up by tonight.

The U.S. Weather Bureau forecast temperatures mostly in the mid 60s today with lows in the Panhandle expected to fall into the mid 30s.

As the warm air flowed northward, it set off intermittent showers over most of South Texas while the northern half of the state had generally fair weather.

The Weather Bureau said cloudiness and rain would spread slowly northward across East and Central Texas and into the lower South Plains by Friday.

Rainfall recordings for the 24-hour period ended at 6 a.m. included Brownsville .08, Corpus Christi .41, Victoria .28, Houston .28.

Farm-City Week Observance Slated

By United Press International

Farm-City Week will be observed in Gray County and the nation Nov. 18-24, following a proclamation by President Eisenhower.

This is a part of the program to point up the common needs of farm and city residents and especially the benefits derived from Social Security, Hal Geldon, district manager of the Amarillo Social Security office, pointed out.

Geldon noted that in the beginning Social Security covered only industrial and commercial workers. However, an amendment to the law governing Social Security brings farmers under the old age retirement assistance plan.

The hour period ended at 6 a.m. included Brownsville .08, Corpus Christi .41, Victoria .28, Houston .28.

Apple Pandowdy Brings Back Traditional Dish

Few cooks in modern kitchens would want to make three gallons of applesauce for a barn raising. Yet cooks of another day did just that, without modern conveniences. In addition, they provided 115 lemon pies, 500 doughnuts, 15 large cakes, 3 gallons of rice pudding, 3 gallons of cornstarch pudding, 16 chickens, 3 hams, 50 pounds of roast beef, 300 light rolls, 16 loaves of bread, 6 pounds of stewed prunes, one large crock of stewed raisins, a 3 gallon stone jar of white potatoes and the same amount of sweet potatoes, to feed friends and neighbors who came on one occasion to help build a new barn.

This list of food for a barn raising was discovered in a quaint old handwritten recipe dating back to great grandmother's day. She estimated that it would feed the 175 men expected. And she must have prepared every bit of it in her own old fashioned kitchen.

Barn raisings used to be quite an event in the apple-growing section of Virginia. Barn raisings are a thing of the past now, but the apple orchards are bigger than ever and produce some of the finest-flavored apples in the world.

Apples, of course, were the principal ingredient of many a simple yet distinctive dessert enjoyed by our forefathers. But today, where will you find such vigorous old fashioned delights as apple pandowdy, apple roll-ups, or fried apple pies?

If you would discover what you've been missing in an age of packaged mixes and convenience foods, try this old recipe.

Virginia Apple Pandowdy

Butter a deep earthenware baking dish. Pare and core apples enough to fill it. Do not slice the apples, but place them whole in the dish. Fill the holes in the apples with sugar, sprinkle with cinnamon and dot with butter.

Add on-half cup of water for every 6 apples and a small pinch of salt. Cover with a rich biscuit crust rolled out about one-third of an inch thick, pressing the edges to the edge of the dish to make a tight seal. Cut several slashes in the center of the crust to let out the steam. Bake in a hot oven, 450 degrees F., for 15 minutes, then reduce heat to moderate, 350 degrees F., and bake about 45 minutes more.

Old fashioned cooks used to bake this confection overnight in the hearth oven, then its crumbly buttermilk biscuit crust was cut into the pie, which was served with rich cream.

Better Breakfast Create New 'You'

With a Better Breakfast, the new "you" will emerge. Get yourself out of the organ orange juice and coffee rut and on the healthful road to breakfast variety. Here's a tip for a new treat for your family:

FRENCH TOAST

- 2 eggs
- 1 cup milk
- 1 tablespoon sugar
- 1 cup sifted all-purpose flour
- 9 slices day-old bread
1. Combine eggs, milk, salt, sugar; beat.
2. Add flour; beat until smooth.
3. Cut bread slices in half diagonally. Trim off crusts if desired.
4. Dip each piece of bread into batter mixture, allowing excess to drain.
5. Fry a few pieces at a time in deep, hot fat 375 degrees F., about 2 minutes of until golden brown.
6. Drain on absorbent paper.
7. Sprinkle each piece liberally on both sides with a mixture of confectioner's sugar and cinnamon.
8. Yield: Six servings.

Butter Turkey For Sumptuous Feast

A butter baked turkey with all the trimmings is truly a sumptuous Thanksgiving feast. Flavor some butter adds its own goodness to the fowl, but it also prevents the meaty juices from drying out. For a decorative and tasty touch, just before serving your golden browned bird, place a large pat of butter on the breast. As the butter melts, it will leave a lustrous glaze down the sides.

BUTTER BAKED TURKEY

Shallow roasting pan and rack. Preheated 325 degree oven. 1 10-12 lb. turkey. 1 cup (2 sticks) butter. Wash and drain turkey; pat dry with paper toweling. Fill with Nipsey Sour Cream Stuffing. Truss

opening with skewers or stuffing nails and clean cord. Pin neck skin to backbone. Bind legs together and tie wings close to body. Place turkey on rack in shallow pan, breast side up. Soften 1/2 cup (1 stick) butter, spread over entire turkey covering breast, drumsticks and wings well. Melt remaining butter for basting. Roast, brushing occasionally with melted butter and drippings. Roast 6 to 8-pound bird 3 1/2-4 hours, 8 to 12-pound bird 4-4 1/2 hours and 12 to 16-pound bird 4 1/2-5 1/2 hours. Turkey is done when meat at thickest part of drumstick feels very soft when pressed with protected fingers or when an internal temperature of 185 degrees is reached.

Food Page

New And Different Desserts Will Star As Delicious Show-Offs

If you're looking for something just a little bit different for your Christmas Dessert Dish, may we suggest an extra fast trick, Peanut Brittle Cake Treat or Strawberry-Coconut Tarts, which will star as dessert show-offs.

PEANUT BRITTLE CAKE TREAT

4 slices pound cake
1/2 cup finely broken peanut brittle
1/2 cup whipped cream

Place cake slices on shallow baking pan. Sprinkle 2 tablespoons peanut brittle over each cake slice. Place under low broiler heat for four minutes, or until candy melts. Serve immediately with whipped cream garnish on each slice.

Yield: 4 servings.

STRAWBERRY-COCONUT TARTS

1 package strawberry gelatin
1 1/2 cups boiling water

1 (3-ounce) package cream cheese
1-3 cup milk
1 cup crumbled coconut cookies
8 sponge cake shells
1 pint fresh strawberries
1/2 pint whipping cream
2 tablespoons confectioners' sugar

Melt gelatin with boiling water. Chill until just slightly thick. Meanwhile, combine cream cheese, milk and crumbled coconut cookies. Spread 2 tablespoons of this mixture in bottom of each cake shell. Top crumbs with fresh strawberries. Ladle slightly thickened gelatin over filled dessert shells. Chill until firm. Whip cream and add confectioners' sugar. Garnish with whipped cream, squeezed through a pastry tube, along outer edge of cake shells.

Yield: 8 Strawberry-Coconut Tarts

Nice Idea For Serving Guests Of Distinction

If you like really good food but think creative cooking won't fit your time budget, take a tip from the experts and give yourself a head start. The experts in this case are the home economists at the Ann Pillsbury Home Service Center, and the head start is refrigerated biscuits. They're versatile; these ready to bake fresh doughs — and they're real time-savers when it comes to, say, turnovers. Yes, you can even turn out turnovers with these biscuits.

Just roll two of the biscuits to a seven inch circle. Fill with tuna, fold over and bake for a main dish of distinction. Or use blueberry pie filling and fry the fold-overs for a dessert course as delectable as it is quick to fix. Nice ideas for Sunday night supper or bridge club treats or something good whenever you have unexpected company.

You'll notice even the toppings are effortless — Cheese Mushroom Sauce for the turnover is based on a can of soup, and the whipped cream to top your fried pie comes out of another can these days. Feeling creative? Then here are more details on how-to-eat-well-though-hurried:

TASTY TUNA TURNOVERS

1 can Ballard or Pillsbury Refrigerated Biscuits
1 can (6 1/2 oz.) tuna, drained
3 tablespoons mayonnaise
2 tablespoons pickle relish
2 tablespoons chopped pimiento
1 tablespoon chopped green pepper

Combine tuna, mayonnaise, relish, pimiento and green pepper. Press 2 Biscuits together on well-floured surface. Roll to a 7-inch circle.

Place about 3 tablespoons filling on half of circle. Moisten edge and fold other half over, sealing. Prick top.

edges by pressing together with fork. Prick top. Repeat with remaining Biscuits.

Bake at 425 degrees for 8-10 minutes until golden brown. Serve hot with Cheese Mushroom Sauce. Makes 5.

CHEESE MUSHROOM SAUCE

Combine 1 can (10 1/2 oz.) cream of mushroom soup, 1-3 cup milk and 1/2 cup shredded American cheese. Heat thoroughly.

BLUEBERRY FRIED FOLDOVERS

1 can Ballard or Pillsbury Refrigerated Biscuits
1 can (1 lb.) blueberry pie filling Whipped cream

Roll each Biscuit to a 4-inch circle on well-floured surface. Place 1 tablespoon filling on each circle. Moisten edge, fold in half and seal by pressing together with fork. Prick top.

Timid Nibblers Will Love These Fruities

To tempt the most timid of nibblers are Chocolate Fruities, baker's fruit cake cubes coated with luscious milk chocolate. Why not get on early start with these on your Christmas baking?

CHOCOLATE FRUITIES

1/2 pound sweet, milk or semi-sweet chocolate
2 dozen fruit cake cubes, 1-inch
3 tablespoons finely chopped pecans or walnuts

Melt chocolate in top part of double boiler. Using a sharp-tined fork, dip each cube into melted chocolate. Place on a greased cookie sheet and sprinkle immediately with about 1/2 teaspoon chopped pecans. When finished, place Fruities in refrigerator until chocolate hardens.

Yield: 24 Chocolate Fruities

Rock Cornish Hens Will Add Festive Note To Dinner For Special Guests

Rock Cornish Hens are no longer a novelty—and they are available in most parts of the United States. However they still add a festive note to a company dinner. Roast them if you wish, stuffed or unstuffed, using the one pound size or buy the one and one-half pound size and split it in two. In this recipe the halves are brushed with brown bottled sauce used to give gravy a rich brown color and flavor, then browned in a skillet in butter and cooked tender in a delicate sauce based on wine or chicken broth. Serve with a colorful vegetable — perhaps quick-frozen carrots and peas and hot cooked rice. Add another festive touch by heating a six ounce can of broiled mushroom crowns in their own broth and serving them as an accompaniment.

ROCK CORNISH HENS AU VIN

3 Rock Cornish hens (about 1 1/2 pounds each)
1 Tablespoon kitchen bouquet
1 Tablespoon butter

1/4 Cup onion, minced
3/4 Cup Muscatel or chicken broth
1 1/2 Cups well seasoned chicken broth
2 Tablespoons cornstarch
1 Cup cold water
3 Cups packaged precooked rice

Cut hens in half with sharp kitchen shears. Brush entire surface with kitchen bouquet. Then melt butter in large skillet and add hens, skin side down, and onion. Sauté until hens are browned and onion is tender, about 15 minutes. Remove hens, reduce heat, and add stir in cornstarch and water which have been blended together and cook until liquid begins to thicken and become clear. Return hens to pan, cover, and cook over low heat for 30 minutes until hens are tender. Serve with hot rice prepared according to package directions. Makes 6 servings.

Delicious Answer For Light Supper

After the family has had its various innings with the holiday turkey, you have only to salvage two cups of diced meat to produce this delicious Cherry Topped Salad Wreath—a perfect highlight for a luncheon or light supper.

CHERRY-TOPPED SALAD WREATH

1 No. 303 (1 lb.) can water pack red cherries
1 3-oz. package cherry flavored 1/4 cup slivered almonds
1/4 cup cold water
1 cup hot chicken broth or bouillon
1/4 cup salad dressing
1/2 cup evaporated milk
1/2 teaspoon salt
1-3 cup chopped celery
2 cups diced cooked turkey or chicken

Drain cherries. Add water to juice to measure 1 1/2 cups, and heat. Add cherry gelatin; chill until partially set. Fold in cherries and almonds. Pour into a 6-cup ring mold and chill until firm.

TEACHERS GOOFED

SOUTHERN PINES, N.C. (UPI)—Air Force Maj. Gen. William P. Fisher brought his old school report card to a "Bill Fisher Day" celebration at his old high school Wednesday as an object lesson for students with poor grades.

Fisher, a 1928 graduate of the high school, read off the grades he had received. They were mostly C and one was a D.

"This will show you you need not despair," he told his audience.

ROCKS FOR LAUGHS—Foibles of modern day living, particularly suburbia, come in for good-natured ribbing in "The Flintstones," a TV comedy offering each week on ABC. Bill Hanna and Joe Barbera, above, produce the animated cartoon about Fred Flintstone, a stone age character, and his Bedrock home in Coblentz County.

Kasavubu's Recognition Is Foreseen

UNITED NATIONS, N.Y. (UPI)—Western diplomats predicted today that Congo President Joseph Kasavubu would win his battle to gain recognition for his delegation to the General Assembly.

The showdown between Kasavubu's delegation and one sent by Patrice Lumumba, the deposed pro-Soviet premier, is expected to come Friday at an all-day debate on the Congo.

Secretary General Dag Hammarskjöld's 18-nation Congo advisory commission pressured Assembly President Frederick H. Boland of Ireland to postpone the debate but Boland was expected to go ahead with it.

Hammarskjöld's advisory committee met Wednesday night. It decided tentatively that a 15-member conciliation commission, comprising African and Asian countries contributing to the U.N. Congo force, should leave for Leopoldville next Tuesday.

CRASH KILLS COUPLE

QUANAH, Tex. (UPI)—Two persons died and a third was critically injured in a head-on crash two miles east of Quanah Wednesday on U.S. 287. The victims were George Condon, 45, Chillicothe, driving alone in one car, and Mrs. H. C. Wilkins, Quanah, who was in the second car with her husband.

WACO MAN DROWNS

CLIFTON, Tex. (UPI)—Two hunters in a pickup truck plunged into Neil's Creek near Clifton Wednesday and one of them, Henry Everett Moore, 49, of Waco, drowned. Archie Solburg, also of Waco, pulled Moore out of the creek, then passed out.

Obituaries

PASS CHRISTIAN, Miss. (UPI)—Rear Adm. Ernest Lee Jahncke, retired, 83, assistant secretary of the Navy from 1929 to 1933 and close friend of former President Hoover, died Wednesday.

NEW YORK (UPI)—Emil Cooper, 82, operatic conductor and director who had served since 1942 as director of the Montreal Opera Guild and since 1951 as director of the Baton Rouge, La., Symphony Society, died Wednesday.

ST. MATTHEWS, S.C. (UPI)—Funeral services were held today for Bertram C. (Stumpy) Banks, 62, considered one of the greatest football players produced at Clemson College. Banks, who began his football career at Clemson in 1911 and once scored five touchdowns in one game, died Tuesday.

WASHINGTON (UPI)—Mrs. Virginia Todd Venneman, 54, responsible for many government statistical studies before her retirement this year after 17 years with the Bureau of the Budget, died Wednesday.

YOUTH WOUNDED FATALY

DALLAS (UPI)—Julian Gomez, 16, died early today from two bullet wounds in his throat. Police said he and John Ewing Jr., 17, were looking at a .22-caliber pistol in the storeroom of a supermarket and it discharged. Ewing was being held for investigation.

FATAL TRAFFIC ACCIDENT

DALLAS (UPI)—Robert Brown, 73, Negro, was struck down by an automobile as he stepped off a bus in a residential section Wednesday night, and he died early today at St. Paul's Hospital. Police questioned the driver of the automobile, but did not immediately file charges.

A television with 750 parts, has four times as many parts as a fine precision built watch.

NOW! THE GREATEST SHOW ON WORTH!

Bel Air Sport Coupe. With 4- to 5 inches more head room, more leg room, too—front and rear.

NEW-SIZE YOU-SIZE SIXTY-ONE DERFUL CHEVY

No needless bulk or overhang here. This '61 Chevy is built on the principle that the place you want space is inside. We put it there, too. Actually trimmed the outer size to give you extra inches of clearance for parking and maneuvering, and still worked wonders with inner space. Door openings are as much as 6 inches wider. Seats are as much as 14% higher. We've thought of everything. Increased rear foot room by slenderizing the driveshaft tunnel. Worked in sensible new ideas all the way back through that huge bin of a baggage compartment. See how thoughtful this one is! Full of good new things. Full of good old things, too, like Chevy's well-known thrift and dependability. The new '61's at your Chevrolet dealer's right now.

CHEVROLET

Impala Sport Sedan. All 5 Impalas feature the deep-well trunk—the floor's recessed a full 7" to hold things that have never been inside a trunk before.

Brookwood 9-Passenger Station Wagon. One of 6 for '61. Each features a case-size cargo opening nearly 5 feet across and a new concealed compartment under the floor.

Biscayne 4-Door Sedan—with the same sensible design you got in all the usable, livable, likable '61 Chevies.

★ For big-car comfort at small-car prices ★
★ '61 CHEVY BISCAYNE 6 ★
★ The lowest priced full-sized Chevy! ★
★ Look over the '61 Biscaynes — 6 or V8. ★
★ They give you a full measure of Chevrolet quality and comfort — yet they're ★
★ priced right down with many cars that ★
★ give you a lot less! ★

See the new Chevrolet cars, Chevy Corvairs, and the new Corvette at your local authorized Chevrolet dealer's

Take The High Road To Happy Holidays By Putting Pantry In Apple-Pie Order

To keep freshly cut paper from curling on the shelf, put a few short strips of double-faced sticky tape along the shelf edge.

BY KAY SHERWOOD
Staff Correspondent

Newspaper Enterprise Assn.

Holiday entertaining (and the strain it puts on kitchen facilities) is one compelling reason to get pantry shelves and cupboards in apple-pie order now.

I don't know any fast and easy way to clean a kitchen cupboard or to check supplies. Every cup, casserole, can, cereal box, spice jar and utensil right down to and including the shelf paper has to be cleared from shelves.

If you can remove the shelves, do so. This simplifies cleaning in the corners. A bottle brush or long-handled sponge is a useful gadget for reaching deep into cupboard corners.

Mrs. Jackson Feted At Lullaby Party

The Grayson Tennis Circle was recently hostess to a Pink and Blue Shower with Mrs. Ray Jackson as guest of honor. The party was given in the home of Mrs. Eunice Hunt, 906 E. Browning.

Party games were played after which the honoree was presented with gifts.

Lime sherbert punch and cake decorated in pastel greens, pinks and yellows were served from a table appointed with a pink damask cloth.

Attending or sending gifts were Misses Jim Maple, Henry Maple, Jimmy Fowler, A. B. Reed, Ronald Scott, Carroll Boud, Ida Moore, R. E. Stroud, Johnny Dawes, Felix Fisher, Morris Belote, Harry Muns, L. F. Karlin, S. O. Epperson, M. B. Smith, Ira Gilleland, Durwood Tracy, R. E. Winggeart, M. Butler, Bob Bonsal, Carroll Pettit, Carl Leflin, Challie Atchley and W. M. Stein.

Basic Human Needs Are Discussed By Speaker At William B. Travis PTA

The November meeting of William B. Travis PTA was held in the school auditorium on Thursday at 2 p.m. with a program on "Basic Human Needs, What Are They?" presented by guest speaker, Dr. M. McDaniel.

Dr. McDaniel gave the three basic human needs as reproduction, food and shelter. "But the needs peculiar to the individual are need for a family; education in the school; and a Christian way of life."

He stated, "None of us is perfect and the educated teacher can help us as parents to correct mistakes we have made."

In concluding remarks, Dr. McDaniel said, "For the primitive man there were not many needs, but for the highly civilized man, the needs are so great. The most necessary are a good home, family, school and a Christian way of life and then we can live in harmony for time to come."

Ben Ogden, of the Chamber of Commerce Speakers' Bureau, gave questions and answers concerning the Canadian River Dam Project and urged the group to vote for the project in the Nov. 22 election.

Preceding the program, Stephen McGrady, exceptional child instructor, gave the invocation.

Mrs. Brantley Hudson Jr., president, conducted the business meeting as reports were given by Mrs. W. G. Rogers on the PTA City Council meeting.

Mrs. L. G. Hamilton, goals committee chairman, asked for suggestions for a gift to be purchased for the school.

Mrs. Odell Strickland, hospitality chairman, reported that a total of \$405.46 was made from the Family Night project.

The door prize, a cake baked by Mrs. W. S. Runyon Jr., was won by Mrs. B. M. Jones.

Room count was won by Mrs. Jack Parker's first grade room.

Girl Scout Troop 4 provided help for the nursery and the school children were shown a full-length Walt Disney movie, "Treasure Island," while parents attend the meeting.

Preceding the general meeting, an executive board meeting was held in the office of the school principal, Wendell Altmiller.

Mrs. Jack Hood gave the treasurer's report.

Mrs. L. G. Hamilton, Richard Crews, Lucian Young, John Dunith, Brantley Hudson, Miss Stella Kier and Mr. Altmiller were appointed to a committee to consider what gift to purchase for the school.

Homemakers plagued by an unusual number of insect invaders ask if it is necessary to spray cleaned cupboards with insecticide. Whether to spray or not depends, I'm told, on the type of bug that's bothering you.

Often the presence of bugs in a cupboard has been traced to infested flour or cereal which has been sitting on the shelf all summer. Removing the source of the trouble plus a thorough cleaning usually solves the problem. Other bugs, like box-elders, are pests for a short time, then disappear.

If you do decide to spray, remember to follow directions faithfully to avoid contamination and permit the spray to dry before restocking the cupboard.

A freshly papered shelf, clean empty and waiting for its contents, is a rewarding sight. Some shelf coverings are re-usable. Rubber mats, for example, can be washed and re-used many times. I find them awfully good on deep shelves where heavy utensils are stored. They deaden the clatter and they don't slip and tear.

Oil cloth, adhesive-backed plastic and crisp paper are also favorites. If paper curls, try this trick: put short strips of double-faced tape on the shelf edge.

As I restock a shelf, I am apt to find more than one dab of the same spice, two opened sacks of noodles or an oatmeal box with nothing in it. These are the space grabbers which can be quickly eliminated.

I also get reacquainted with what's in the back of the cupboard and bring it forward to be used up. Separating and arranging pantry foods according to their kind (soup, canned vegetables, etc.) saves valuable time later.

First Baptist Church Circles Convene For Mission Study In Members' Homes

First Baptist Church Women's Missionary Union met recently for circle study in the homes of members with the following reports:

OLETA SNELL CIRCLE met with Mrs. N. J. Ellis with Mrs. Lida Ramsay offering opening prayer. Mrs. Bob Williams conducted the business meeting, which preceded the program given by Mrs. Ida Mae Price. Closing prayer was offered by Mrs. J. H. Massey. Eight members were present. Mrs. W. B. Franklin, 911 E. Fisher will be hostess for the Nov. 16 meeting.

JACKIE SHAW CIRCLE met in the home of Mrs. Tommy Burns with opening prayer offered by prayer offered by Mrs. Jerry Lunsford. Mrs. Pernal Scoggins conducted the Bible study. Mrs. Weid Knight was welcomed as a visitor. Closing prayer was given

by Mrs. Scoggins. Mrs. Jerry Lunsford, 518 Ward, will be hostess for the Nov. 16 meeting at 9:30 a.m. in her home. Nine members were present.

DORNE HAWKINS CIRCLE met with Mrs. V. L. Dickinson with Mrs. Lewis Tarpley offering opening prayer. Mrs. V. L. Hopp led the mission study with Mrs. W. R. Morrison in charge of the business meeting. She dismissed the group with prayer. Mrs. M. Austin was welcomed as a new member. Seven members were present. Mrs. Clayton White, 1900 Faulkner, will be hostess for the Nov. 16 meeting at 9:30 a.m. in her home.

Mrs. J. P. Heath was hostess for the meeting of the **BETTY SPIEGEL CIRCLE**. Mrs. Bob Triplehorn offered opening prayer. Mrs. Paul Turner conducted the business meeting followed by the program of study led by Mrs. Henry Stephens. Mrs. L. B. Hollar offered opening prayer. Eleven members were present. Mrs. Henry Stephens will hostess the next meeting on Nov. 16 to be held in her home 120 S. Nelson at 9:30 a.m.

FRANK GILLIAM CIRCLE met with Mrs. Manuel Bennett with opening prayer led by Mrs. Owen Johnson. Mrs. Don Denham gave the devotion and read the prayer calendar. Mrs. Wes Langham was in charge of the mission study. Mrs. R. L. McDonald conducted the business session. Closing prayer was offered by Mrs. R. W. Tucker. Mrs. H. D. Moran of Skellytown and Mrs. Owen Johnson, WMU president, were welcomed as special guests. Ten members were present. Mrs. Brady Davis, 1001 Fisher, will be hostess for the circle meeting on Nov. 16 at 9:30 a.m. in her home.

Mrs. Bob Andis was hostess to the **KEZZIA MAE SEAWRIGHT CIRCLE** with Mrs. T. B. Lane opening the meeting with prayer. Mrs. C. L. McKinney was in charge of the business meeting. Bible study was presented by Mrs. Rufe Jordan, special guest, who also offered the closing prayer. Seven members were present. Mrs. Alvie French, 2243 Duncan, will be hostess for the Nov. 16 circle meeting.

ANNE MITCHELL CIRCLE met with Mrs. Floyd Barrett with opening prayer by Mrs. G. L. Wilson. A Royal Service program "The Woman's Witness" was studied by the group. Mrs. John Gikas dismissed the four members present with prayer.

Dear Abby... Genius Needs ...Horse Sense

ABIGAIL VAN BUREN

DEAR ABBY: The company psychologist told my husband that he has an I.Q. bordering on "genius." Consequently, no one can live with him any more. Every one else, in his opinion, is now "stupid," "infantile" or "lame-brained." (I am included.) He belittles me in front of the children. Ninety per cent of the time he is a wonderful husband and loving father. He has a brilliant future with a well-known company and we have all the material things I could hope for, but his mental "superiority" is causing me heartaches.

CAN'T SIGN MY NAME
DEAR ABBY: A person's "I.Q." (intelligence quotient) alone will not carry him safely through the rough waters of day to day living. If he's as smart as he thinks he is, he'll forget his "I.Q." and concentrate on his "C.S." (Common sense).

DEAR ABBY: I made a bet with a guy but we didn't shake on it. If I lose, do I have to pay?

BRUNG
DEAR BRUNO: You do. Your word should be as good as your grip.

DEAR ABBY: I have a problem. I am known to all my friends as "DEAR ABBY" because I am able to solve all their problems. But when it comes to my own, I draw a blank.

Abby, I like a boy who is in my study hall. I am a junior and he is a senior. He smiles at me.

but that is all. How can I get him to notice me?

"DEAR ABBY NUMBER TWO"
DEAR "DEAR ABBY NUMBER TWO": You've been helping your friends with their problems, now turn to one of them for help with yours. That "smiling senior" must have a buddy. Have one of your friends "buddy up" to HIS buddy, and gently hint that you have noticed the smiling senior. Then he will REALLY notice you. All some boys need is a little encouragement. (P.S. Better case the situation first. He might have a girl.)

DEAR ABBY: I disagree with your statement that "it is not the custom anywhere for an overnight guest to bring his own bed linen." In Sweden it is considered quite proper. Considerate guests frequently carry their own linen on trips. They don't want to give the hostess extra trouble with laundry, which is a bigger problem in Sweden than in your country. Sincerely, SWEDISH IMMIGRANT

For Abby's pamphlet, "What I Want To Know," send \$1.00. Teen-agers Want To Know, send 25 cents and a large, self-addressed, stamped envelope in care of this paper.

If you want a personal reply from Abby, write to her in care of this paper and enclose a stamped, self-addressed envelope. She answers ALL letters.

French Poodle

PEPPY, a toy-size poodle, is fun to crochet in simple stitches, and when completed, measures 14 inches tall! (Make extras for Christmas gifts!)

Pattern No. 2656 has crochet directions; material requirements; stitch illustrations.

St. Charles Club Has Social Eve

The St. Charles Club of St. Vincent de Paul Altar Society met Thursday evening in the home of Mrs. Charles Cauthorn for a dessert-bridge.

In the Bridge games, Mrs. Earl New tallied high score for the evening with Mrs. Jerry Kotara low.

Coffee and dessert were served by the hostess.

Members attending, in addition to those previously mentioned were Mrs. Charles Casey, Kenneth Dunn, Robert Rumsey, Leonard

White and Gene Harris. It was announced that the club will meet again on Dec. 8 in the home of Mrs. Leonard White.

By Art Mayhew

A year ago this time the Lefors Pirates were through with football and had only a 1-8-1 record to show for it. Today, they are preparing to meet the state's number one Class A team — Stinnett — in a first-round playoff game.

But Coach Ed Lehnick's crew, the Cinderella team of the Panhandle, feels that they have as good a chance as anyone of stopping Stinnett from advancing on to state play. For a team that was supposed to finish last in District 2-A, it has comprised a pretty good record.

Lefors opened the season with a 26-0 win over Panhandle, but then fell, 34-12 to Shamrock and 33-6 to White Deer before getting back on the victory train. They mopped up Wellington, 32-0 and Stratford, 38-6, before bowing to Stinnett 33-0, in a non-conference game.

Clarendon Turning Point

With a 3-3 record and heading into district action, Lehnick feels that at this point his Pirates became a winning team.

"Clarendon was the turning point," Lehnick said. "We had taken a beating the week before against Stinnett and I was afraid the boys would let down." They didn't and Lefors won, 14-8, and were off and running for the district title.

"We did something in the Clarendon game that I hadn't seen before. We won the toss and chose to have the wind against us and we ran 23 plays that used up 11 minutes and 40 seconds of the first period to score.

"We didn't fumble once nor draw a penalty and when we kicked off after our touchdown, Clarendon

Stinnett Heavier

For those who find joy in statistics, Lefors starting unit will average 142 pounds, with the two "big" boys being End James Blair, 160, and Halfback Scott Dunnam, 160. One of the starting tackles, Gene Shipman, tips the scales at a soaking wet 138.

Stinnett, on the other hand, will average around 180 with its two tackles, Red Meador (210) and Billy Dodd (185) holding down the front line.

Stinnett and Lefors have met before and Lehnick feels that it would have helped his club more than the Rattlers except for one thing:

Groom Tackles Lazbuddie '11' In Class B Tilt

Groom, hoping that the third time will be a charm, takes on potent Lazbuddie at 2:30 p.m. tomorrow in a Class B bi-district game in Canyon.

For the Tigers, tomorrow's game will be the third time Groom has represented District 1-B in the playoffs in as many years. Both times they have fallen to Happy, which beat Groom, 12-6, last year and went on to win the regional crown. Class B football plays to regional titles only.

Tiger Coach Ken Miller, in his second year as Tiger "trainer," guided his forces to a 5-4-1 record and his second championship

Celtics Win As 'Coach' Cousy Stars

By United Press International

Bob Cousy, standout shooter, playmaker and sparkplug of the Boston Celtics since 1950, is adding something new to his amazing repertoire.

The pride of the Hub not only contributed a game high of 30 points as Boston whipped the St. Louis Hawks, 124-106, Wednesday night, but he also stepped in to coach the Celtics for the final 18 minutes of the game.

Cousy was called on to perform this unusual task—even for him—when regular coach Red Auerbach was evicted in the third period for arguing too vehemently with referee Dick Powers. The Celtics, who were trailing at this point, came on under Cousy's direction to take an 89-82 lead at the end of the third quarter and roll it up in the final period.

this year and would like to add the bi-district title to his laurels.

Lazbuddie, 8-1, and champions of District 2-B, may have other ideas. Miller speaks of Lazbuddie in almost hushed tones, hoping that his running offense and better-than-average defense can keep it off balance.

"Lazbuddie has a real fine team," Miller said in discussing the important game. "Their backs have real good speed and their line will average about 165, which is big for B football.

Groom's hopes will rest on the backfield of Quarterback Wesley Cornett, Halfback Elroy James and the halfback-fullback brother tandem of Lloyd and Leroy Littlefield.

Miller rates Cornett as a "fair" passer, but with the running of the Littlefield boys, Groom has needed few pass plays in wrapping up its district crown.

Of the backfield foursome, only Lloyd Littlefield is a senior; the rest are juniors, which should give future Groom foes food for thought.

In the line, another pair of brothers — John and Herman Koetting — hold down the guard spots. Both are quick and could prove to be twin thorns in Lazbuddie's attack.

Elsewhere in the forward trenches, Wayne Kotora will hold down one of the tackle spots and Don Case the other; Bobby Bergin and Jimmy Conard will be at ends and Jimmy Hudson will open at center.

DON CASE
... Groom tackle

Hogs Work Late On Raider Plays

By BRYCE MILLER
United Press International
It's gotta pay off for the Porkers today.

And this final practice session of the regular season for Arkansas could be the biggest of the year. An upset at Lubbock this

weekend against tougher than ever Texas Tech (an eight point underdog), would spoil the eighth-ranked Razorbacks' race for the conference crown and give someone else the host spot in the Cotton Bowl.

"We're not ready," Coach Frank Broyles said. "We really need today's practice to get ready. The big problem is we've got to get familiar with Tech's defensive setups because they run a lot of them."

Broyles said he isn't particularly afraid of Tech, nor that the Razorbacks will be in a slump for this game after the rugged schedule of Saturdays just past, but he's plenty respectful.

Defensively, the picture was a bit brighter. Assistant coach Doug Dickey said pass defenders were catching on to Tech pass patterns, but some of the men were still having trouble recognizing the Red Raider shifts.

The Porkers will fly to Lubbock Friday afternoon.

It's the fourth time the two teams have met, and Arkansas has won all three, but had the most trouble in Lubbock where the Porkers settled for a 14-8 decision in 1958. Arkansas won 47-26 in 1957 and 27-8 last year, both times in Little Rock.

Weaver said Wednesday that it looks like guard Dick Stafford, hospitalized with a virus infection, will be able to play the season finale after all. He has been released from the infirmary and was expected to be in today's drills.

At Fort Worth where Texas Christian is getting ready for Rice, Abe Martin's assistant, Walter Roach, was particularly pleased with Frog defenders. "They were especially sharp (Wednesday) against Rice's sweeps and the fullback traps," Roach said. These are two of the Owls' favorite offensive maneuvers.

Rice ran through a short, but unusually heavy scrimmage at Houston. Center Boyd King, still bothered with a bruised ankle, took part in only the light work.

Upset-Minded Pampanos Put Stress On Passing

Knowing full well that a win Saturday afternoon will knock Borger out of the District 3-4A championship ship, Pampano's Harvesters unlimbered their passing arm yesterday afternoon in an attempt to find the key that will unlock the thus-far closed victory door.

Coach Babe Curfman had his three quarterbacks, Roy Don Stephens, Butch Crossland and Mike Stewart, throwing pigskins all over the practice field and if workouts are any indication, Pampano may give Borger's Bulldogs a run for their money Saturday.

Crossland and Stephens looked good on roll-out passes against the green shirts and Stewart hit four of five, three good for touchdowns, to wind up practice.

Borger, which leads the district in most statistics, is on the bottom in pass defense and Pampano is hoping it's not a typographical error.

Fullback Steve Dobbin, hurt in the Plainview game, was held out of contact except for one play when he scored from about 20 yards out on a play that was supposed to be a pass.

Curfman plans to keep Dobbin out of the rough stuff the rest of the week in hopes that the rest will mend his back sufficiently to play against Borger.

Randy Matson, the original hard luck boy, is through for the season after re-injuring his foot — which was broken six weeks ago — in Monday's workout. Matson was out in street clothes yesterday watching practice.

Harry O'Neal, a powerful running sophomore, has joined the Harvesters this week for the Bulldog game. Since the Shockers have finished their season, Curfman brought O'Neal up in case Dobbin can't go full speed Saturday.

Borger coach Gene Mayfield, according to reliable reports, is having his troubles getting the Bulldogs up for Pampano. Borger has its eyes set on Wichita Falls, its first round Class 4A foe, and can't seem to work up interest in winless Pampano.

Borger, 5-1 in district play, and Amarillo, also 5-1, are tied for the title. Should Pampano beat Borger and Amarillo win, the Sandies will win the crown. If both win, Borger will represent 3-4A because it beat Amarillo in a district game.

Most Valuable Award Goes To Bucs' Groat

BOSTON (UPI)—Dick Groat, the "thinking man's" shortstop and captain of the world champion Pittsburgh Pirates, today was named most valuable player in the National League.

Groat, the National League's batting champion with an average of .325, received 16 first place votes from the 22 baseball writers voting.

Third baseman Don Hoak, Groat's teammate, had five first place votes and came in second, 114 points behind Groat's total of 276. Pittsburgh outfielder Roberto Clemente received the other first place vote.

"It's a wonderful thrill, of course," Groat said when notified of his selection. "But I honestly feel it wouldn't have been possible without the fabulous year enjoyed by the Pirates. Just to play on the club was great, just great. It was a wonderful team effort and I was just a part of it."

Groat was the first Pittsburgh player to win the award since it was originated in 1931. He almost had a tragic season. On Sept. 6 he was hit by a pitch of the Braves' Lew Burdette but recovered in time to play in the final week of the season and to play a leading role in the World Series.

The selection of Groat ends a two-year reign of another shortstop, Ernie Banks of the Chicago Cubs. Banks got one second place vote this year and was mentioned on 20 of the writers' ballots to give him fourth place. Willie Mays of the San Francisco Giants was mentioned on 21 ballots giving him third place. He had two second-place votes.

Stinnett Puts Up Top Ranking

Deadly Rattlers Await Pirates

BENNY KARR
... Rattler pivot

In mid-October of this year, superintendents of schools in Class 1-A recommended that Stinnett's Rattlers be put on probation for five TIL rule infractions.

That's as close as the Rattlers have been to losing anything all year long.

Going into Friday night's bi-district game with Lefors in Pampa, Stinnett is 10-0 and the top Texas team in Class A football by every poll and predicted by many to be the next A champion.

Individual stars are many and manifold. In the backfield, Quarterback Larry Anderson (175) guides the team with precision and has thrown for eight touchdowns passes.

Another Anderson boy, Donnie, holds forth at halfback where he has been the team's leading rusher with an astounding 1,581 yards on 198 carries and a whopping 180 points.

Fullback Jerry Laster (175) is the team's second leading rusher (1,102 yards on 142 carries) and has rolled up 80 points. Mainess Gibson (190), who opened the season at end, is the other halfback replacing Dude McLean who broke his foot against White Deer.

As a team, Stinnett has rolled up 3,846 yards on the ground while holding their 10 opponents to 1,365 yards.

Stinnett's forward wall perhaps is the biggest reason for the Rattlers' prior successes. At ends are Don Hazel (160) and Larry Wolfe (150); at tackles, Red Meador (210) and Billy Dodd (185); at guards, Steve Jenkins (170) and Robert Ballard (150) and Benny Karr (160) is the center.

Lefors and Stinnett are no strangers to each other. They met previously and Stinnett came out on the long end, 33-0. Lefors managed only 3 yards total yardage and three first downs as the big Rattlers stopped every Pirate offensive dead in its tracks.

But, Coach Don Light feels that Lefors has improved greatly since their first meeting and foresees a much closer game than the first score or season records of the two teams would indicate.

AFL Plans Partial Draft. DALLAS, Tex. (UPI) — The American Football League will hold a "partial" player draft this weekend when the loop club owners get together for a long-distance telephone meeting.

AFL Commissioner Joe Foss said the draft would be conducted through his office with results to be announced Monday. Each club will make six selections.

Although the draft will be conducted before the closing of the collegiate football season, Foss said he had warned club owners not to sign players who have not completed their college eligibility.

"I personally will void any AFL contract signed before the player has completed his collegiate football eligibility," Foss said. "And this includes bowl games."

International Winners. LAUREL, Md. (UPI) — Five former winners of the Washington, D. C. International turf classic at Laurel have been retired to stud in five different countries — Wilwyn (South Africa), Worden (France), Fisherman (United States), El Chams (Venezuela) and Mahan (Canada).

JERRY LASTER

Three Hunters Die

Tragedy Mars Start Of Texas Deer Season

AUSTIN (UPI)—Tragedy marred the opening day of deer season in Texas.

It was still too early to tell whether or not the first day kill would top last year's opening day. Reports were still coming in, the State Game and Fish Commission said.

But at least three hunters died on opening day.

Herrell Lloyd Sexton, 26, Fort Worth, was shot and killed in a hunting accident near Junction, and Norman J. Josey, 48, of San Antonio, collapsed in a field near San Antonio while stalking deer and died of a heart attack.

Henry Everett Moore, 49, Waco, was on his way to hunting grounds when his pickup truck plunged into a creek near Clifton and he drowned.

Capt. E. M. Sprout, enforcement officer for the commission, said reports have been too scattered yet to accurately determine the number of deer taken, but he said there were "plenty of kills."

Sprout said a slight touch of cooler weather helped the opening day's hunt, but that it would take a real norther to provide the best situation. Game and Fish officials have predicted an "ideal" season because food supplies for the deer have been lush from good sum-

Lefors-Stinnett Tickets On Sale

Murray Sealy, chairman of the Pampa Chamber of Commerce sports committee, reminded area football fans again today that tickets for the Lefors-Stinnett bi-district football game Friday night here are on sale at the chamber office.

All tickets are general admission only and will be put on sale at the gate prior to the game. Ducats are \$1.50 for adults and 75 cents for students.

PICTURE NEWS

AROUND THE WORLD

ARMED MIGHT—The might of Nationalist China is drawn up in neat patterns as members of the various armed forces stand at attention in Taipei, Taiwan (Formosa). Surrounded by cheering crowds, the troops were there for inspection by Generalissimo Chiang Kai-shek at a giant outdoor ceremony.

DOCUMENT OF FREEDOM—Near the United Nations building in New York, U. S. Representative to the U.N. James J. Wadsworth (right) received the original copy of the Coatesville Declaration. It was presented by Charles L. Huston Jr., president of the Lukens Steel Co. of Coatesville, Pa. The document was signed by chief executives of 50 large U. S. corporations and contains 10 freedoms that are the essence of economic liberty.

DOUBLING UP—Bill Daniels, Piper Laurie and Jo Van Fleet (left to right) each portray two different roles in "Rosemary" and "The Alligators." The two plays are scheduled for an off Broadway opening in New York, and rehearsals of the double bill are still taking place.

AUTUMN LEAVES—Growing through the roof of a furniture store, this maple tree is an odd sight in Landshut, Germany. When the store was built, the owners got permission for construction by agreeing to build around the old tree. In background is the city's picturesque town gate.

THE MODERN METHOD—With no oars, seamen propel their lifeboat in unusual style during a drill on the Hudson River in New York. Members of the German liner Bremen man the craft by pulling on upright bars which turn the boat's propeller.

MISS HIGH SIGN—Wanda Bryan, a dancer in Las Vegas, Nev., is flashing the "high sign" for the Sahara Hotel's towering new 128-foot electrical marker. It's the tallest, self-supported sign in the world and is visible for miles around the ever-popular desert resort playground. Wanda is also something to see.

GREAT GROWTH—In Dallas, Tex., Mrs. Wallace R. Tucker and her five-year-old daughter Kimberly Jean are somewhat astonished by the height of their giant, wine-colored cockscomb plant. The amazing flower, planted five months ago, is 40 inches around, and the stalk towers above all the other flowers or plants in Mrs. Tucker's garden.

NOSYBODY—A big-nosed snooper, the Army's new all-weather battlefield surveillance drone, the SD-4 Swallow, is readied for an engine run-up test at Farmingdale, N. Y. The pilotless craft had a half-hour test in which its YJ-60-P2 engine ran from idling speed to 99.6 per cent of full military power.

YULE TIED—This strange pattern may not look like much of anything, but it is a strong reminder that Christmas will soon be here. These spools of yarn in Chicago are ready to be spun into gay Yuletide ribbon for gift-wrapping. The American public is expected to spend about \$120 million this year for Christmas wrapping paper and ribbon.

SOLUTION—For driving about in an open car, singer-dancer Gretchen Wyler wears this face-framing suburban-turban. It is made of green wool jersey with a lush fake fur border to keep ears warm and hair in place.

HITTING A HIGH NOTE—A star is borne in Leopoldville, the Congo, where American jazz star Louis Armstrong rides on the shoulders of jubilant fans after a concert triumph. The famed Satchmo performed in the tense Congo capital as part of his African good-will tour.

ALL OVER AGAIN—The Pilgrims are landing again at Plymouth, Mass., but this time for an educational movie. Lining the rail of the replica of the Mayflower, costumed actors go through their paces for "Plymouth Colony; The First Year." To be released to the nation's schools in the fall of 1961, the film shows hardships endured by the Pilgrims.

TAKEN IN HAND—The long arm of the law gets trained in the unusual salute of Britain's Metropolitan Police Cadet Corps at the Hendon, England, Training School. An instructor at left is inspecting a group of recruits in the new cadet program for youths between 16 and 17½. From the present training class of 120, it will grow to 1,500.

Entered as second class matter under the act of March 3, 1879.

CRMWA Deserves Support

The election Tuesday, November 22, on whether or not Pampa votes to approve joining with eleven other cities to form the Canadian River Municipal Water Authority is a decision with long term consequences to Pampa.

The forming of the Authority to exploit the only surface water available to the Panhandle and North Plains areas pretty well places the issue on a "now or never" basis as far as Pampa is concerned, for rejection of the proposal would probably forever prejudice any claim our city would have to this resource.

We are informed by engineers that the extrapolated water consumption of Pampa over the next few decades indicates greater and more expensive pressures on the present program of underground water development. With the advent of rapidly increasing irrigation and the subsequent depletion of underground reserves, water rights are more difficult and costly to obtain, while the cost of lifting water increases in ratio to the lowering of the water table. The combining elements of availability, increased lifting costs and further city growth are the essential factors which face us in deciding whether or not to participate in the Canadian River Dam project.

The formula worked out for allocating the costs of the project between the participating cities appears to rather well fit the rules of equity with the cost of the dam itself being allocated on the basis of proximity to the lake, on the concept of greater recreational utility, and the cost of the aqueduct depending on the distances to the respective cities.

Pampa's rate per thousand gallons has been set by the Authority at 13.52 cents. This, when compared to the present cost of about 10 cents per thousand, might appear, on a percentage basis, quite a jump, but such is hardly the case when it is realized that by the time we begin getting Authority water, the cost of water from our own wells will probably be approaching the Authority's figure. Also, when we think in terms of fifteen or twenty years, under-

ground water could be easily costing 18 cents to 20 cents per thousand while the Authority's rate will remain constant over the life of the 50 year contract.

The only city to pay less for their water than Pampa will be Borger at 12.90 cents, the lower rate due to its proximity to the lake, while the highest rate will be borne by Lamesa which will pay 29.10 cents per thousand gallons.

The rates charged the various cities are structured so as to assure the retirement of the debt of \$2,960,000 solely on a revenue (i.e., use) basis. Pampa's share of the total indebtedness, incidentally, will be \$5,997,000.

The only objection we have to this venture is that the money to finance this project will be borrowed from the federal government at the less-than-market rate of interest of 2.62 percent.

When the feasibility of this project was first considered and placed before the city commission in 1957, it was on the basis of private financing over 40 years at a market interest rate in excess of 5 percent. In rejecting this proposal, largely because it was thought the water would be "too costly," the commission was really saying that at that stage, the prospects of underground water development did not make a privately financed Canadian River project feasible.

This, in no way, meant that the water would not be worth the free enterprise method in the years ahead as water became a dearer commodity and, frankly, we would rather see the project postponed until it could carry its full justification on the basis of private financing and a going market rate of interest.

The choice, however, is being put to us now with no logical alternative but to support the project as planned, for Pampa's exclusion could very easily mean a severe hardship in the years ahead with the increasing problem of scarce water rights and a lowering water table.

We urge you to go to the polls Tuesday and vote "yes" on the Canadian River Project.

Looking Sideways

By WHITNEY BOLTON

NEW YORK—This ought to be called A Short Primer On How to Produce a Play and it might save someone a lot of money, but I doubt it.

Some months ago, a lady born and brought up near the sheltering palms of Hollywood decided that she wanted to become a producer of plays on Broadway. She came East, set up an office, sent out the word and the scripts began to come in. She read herself high blind and, finally, found a new play she liked enormously, called the author's agent, made a deal and now she was a producer.

She met the author and together they went over a temporary, sort of Let's Think About The casting of the play. Then they wrote down a list of directors suitable for the play and, after a lot of discussion, sent for one. He read it and told them, yes, he felt he could do justice to this play, them and himself. Then the three entered into the serious phase of casting and came up with a superb cast. One of the stars was the author's wife, but she did not read anything into this. She is a fine actress, a slick comedian, has starred in many other plays and the fact that her husband wrote this one was more coincidence than bleak arrangement. Casting her was justified.

Rehearsals began, sets were designed and made, costumes were sewn and the play opened in New Haven. It was in dire need of attention. Since the author was in London, his wife, a sagacious woman as well as actress, suggested certain cuts and telescoped. The director said he would not even think of doing such things to the play. It would be presented as he directed it or not at all. Some directors are obdurate this way.

After three wan days the show moved on to Boston, where the critics were less than enthusiastic about it. Now the showman meeting came. The author's wife said that not only must these cuts and rearrangements be made to save the show but, also, there was nothing personal in this, she did not feel that this director could give anything more to the play, particularly he could not give it the light touches it needed. It had been too heavily directed for the little thing it was.

This caused the director to say that since he could not agree to all this he'd better withdraw. No one stayed him.

Now we cut to your humble reporter, who had and has nothing at all to do with the play in any way at all. My telephone rang at 11:30 at night and the wife of another of the stars involved told me the sad tale and asked me if I had any suggestions at all for a director who could bring the light touch to the occasion. I said give me a minute and achieved four suggestions of available names, none of whom she said would be acceptable. They, too, did not have the light touch.

"All right," I said, "I'll tell you something: there is a young American director who has just gone back to Paris after launching his third smash success movie here. His name is in conversation now, he is at the crest and I have his private telephone number in Paris. Call him, tell him the sad story, offer to fly him back here and if any man alive can save this thing he can. Providing he wishes to—he hasn't a movie at hand for five months."

She slipped. Of course, the very man and she'd call me back to tell me if they made a deal. I said, no, it's 11:30 here now, you won't get him until early morning, he may be out on the town in Paris, or who knows what, and I have no interest in the play. Why wreck my sleep? She agreed not to call.

A day passed and at breakfast I picked up a morning newspaper. After reading Page One I skipped to the drama page and there it was: a certain director had been engaged to take over and direct the play in Boston which would entail a three-day delay in its New York opening.

The new director is not noted for comedy, for blitheness, for subtlety. He is noted, if anything, for being even more somber than the man who withdrew.

So, having mixed up television, radio and newspapers into an indeterminate glob, he whirled about within the confines of four books, which he has apparently read, and emerges from this sweaty task precisely at the point where the ball was put into scrimmage.

Since the task he set out to perform remains unperformed, we will assay the chore ourselves. It can be done briefly.

The press of our day has failed the American people. But this is not because it has been free.

Rather, it has been overshadowed and almost overruled by such horrendous growth of government on every hand that it exists in the twilight realm of a quasi-free enterprise. If no longer, in the main, is a private business operating for profit, in city after city it has become a meaty-mouthed extension of the privilege of office.

It has failed in many places to have either ideas, ideals or principles. It has aided from time to time in cutting down the "giants" and in replacing them by conformists of the most limp and unctuous sort. But all that we need to complete the death knell and the full burial

Minority Race

The Allen-Scott Report

ROBERT S. ALLEN

PAUL SCOTT

KENNEDY BRIEFED ON CRITICAL DEVELOPMENTS IN LAOS; TO CONFER ON EMERGENCY ACTION TO PREVENT RED TAKE-OVER

WASHINGTON — President-elect Kennedy is gravely disturbed over a highly alarming report on the chaotic situation in Laos. It's in dire danger of falling into Communist hands before he takes office.

Congressional foreign affairs leaders, who have informed Kennedy of this menacing development, are being consulted by him on possible emergency measures to avert the threatened catastrophe in this small but strategic Far Eastern country, into which the U.S. has poured some \$300 million in military and economic aid in recent years.

This pressing problem is among those that will be discussed by Kennedy and Vice President-elect Johnson when they confer at his ranch today.

Graphically illustrative of the bewildering Laos situation is the fact that aid funds recently released by the State Department are being used to pay military leaders and troops who are definitely under Communist influence.

In other words, the U.S. is supporting the Red elements that overthrow the pro-Western government and are seriously menacing the independence of Laos.

The State Department's explanation for this extraordinary action, the congressional leaders have told Kennedy, is that U.S. funds are being used to pay other Laos forces and it is deemed inadvisable to exclude the Communists.

And that isn't all. These congressional advisers have also informed Kennedy that the State Department is "actively encouraging" negotiations between the present neutralist government and the Communist-dominated Pathet Lao, who control northeastern Laos that adjoins Red China and its North Vietnam satellite.

Aim of neutralist Prime Minister Souvanna Phouma is to form a so-called "united front" government that includes Communist Pathet Lao officials.

Strongly backing that is Captain Kong Le, commander of the 2nd Paratroop Battalion, whose successful coup against the pro-Western regime in August led to the neutralist rule of Prince Souvanna Phouma.

Captain Kong Le is increasingly displaying Communist leanings. A State Department memorandum states he staged an effusive welcome for the Russian Ambassador when he arrived in Laos.

DISTURBING DETAILS — The revealing memorandum was written by Assistant Secretary William Macomber, who has transmitted it to President-elect Kennedy. In this disturbing report, Macomber admits the situation in Laos is extremely critical and the outcome highly doubtful. He states that Kong Le's "influence" is still powerful, and all indications point to his being under Communist domination.

Publishable highlights of this grim State Department document are as follows: "The immediate problem is to keep the Communist-led Pathet Lao guerrillas from exploiting the split among the non-Communist elements, and expanding their influence throughout the country and in the government. . . Kong Le's coup drew strong support from his Battalion because of disillusion-

ment and bitterness over its having been used continuously in combat under difficult conditions; while senior officers enjoyed a much better life in Vientiane (the capital).

"Kong Le and the other coup leaders insisted that Prince Souvanna Phouma head a new government. He has consistently held that the independence of Laos could not be secured by military means, but only through strict neutrality and negotiation with the Pathet Lao. He is convinced that only the hard core of Pathet Lao is Communist, and the bulk of these guerrillas and their sympathizers would welcome the cessation of fighting and integration into the national community.

"At present, the southern part of the country is under the control of General Phoumi Nosavan and Prince Boum Oum, who are anti-Communist, while the legally constituted government of Souvanna Phouma controls only the Vientiane area.

"Negotiations with the Pathet Lao, to which Souvanna Phouma is committed, are now underway. Captain Kong Le's influence in Vientiane is still considerable, and his activities, such as staging a warm rather spectacular reception for the Soviet Ambassador when he arrived in Vientiane, lend considerable credence to the view that he has fallen under Pathet Lao influence.

"We were heartened by the formation of a united government in late August. But that hope faded when some of the right-wing elements found it impossible to join the government in Vientiane. To help strengthen the government of Souvanna Phouma we released funds destined to pay all troops under that government (including the dissident 2d Paratroop Battalion and Pathet Lao forces.)

"We are continuing to urge the non-Communist patriotic elements in the country to unite."

CHEAPER FARES — The Civil Aeronautics Board will authorize long-sought cuts in coach fares on flights to South America and Japan. These rate reductions, up to 35 percent, will be announced before the end of this year. Examples of the new fares are: Round-trip jet flight from New York to Buenos Aires \$399 instead of \$834; on a propeller plane \$538 down from \$878. New economy round-trip fares from San Francisco to Tokyo will be \$435 on jets and \$405 on propeller planes. . . Automobile touring in Mexico is being made a lot more comfortable and trouble-proof. The Mexican Tourist Department has put into operation a fleet of so-called "Tourist Guardian Angels" to assist motorists in traveling about that country. These "Guardian Angel" crews consist of jeeps equipped with mechanical, medical and "moral boosting" supplies. The crews speak English, are trained mechanics, and are qualified to render help and first aid if needed. They also can supply useful information about Mexican history and advice on hotel and other accommodations.

Neighbor — Were you nervous when you first asked your husband for money?

Bride — Oh no, I was calm — and collected.

Everybody's Money

By MERYLE STANLEY RUKEYSER

The over-emphasis of politics during a quadrennial presidential campaign exaggerates the impact of selection of governmental leaders on business prosperity and investment prospects.

On the cool dawn of the morning after Election Day, there should be a reawakening as to the pivotal importance on family well-being of self-help and individual decision-making.

Be this as it may, the new administration will have perceptible influence on the psychological climate in which business and investment operate.

The index of confidence during the Eisenhower years has been high because of Ike's personality and policies. As a result, there was a tendency to make long-term decisions affecting corporate expenditures for capital improvement and research and development. This high level of confidence reflected itself at the Stock Exchange in a dramatic increase in the multiplier by which current per-share corporate earnings were evaluated. At times when such price-to-earnings ratios seemed extravagantly high in the light of long-term historic experience, Wall Street undertook to rationalize that a new measuring rod had been found in a price-to-future earnings ratio. In recent months, such fantastic exaggerations have been in part at least corrected. When stock prices were highest, this writer warned that the dwelling on price-to-future earnings ratios were a pretext whereby the security buyer was willing to give all the anticipated benefits to the seller.

The opposite of confidence-building at the White House is to indulge in crisis mongering. As a matter of fact, during the cold war, with Khrushchev saying: "I will bury you," there is a tendency toward hysteria, and the man in the White House should consider the effect of his decisions and abstentions on the existing war of nerves.

Despite Marxian propaganda at the White House, the great contribution which politicians can make to business and investment is to preserve the peace — for experience shows that consumer goods (and the capital goods required to produce it) generate continuing cycles of productive demand. On the other hand, the armament industry tends to become essentially ephemeral in character, and is unproductive and a continuing threat to the soundness of the currency.

This springs in part from the technical fact that, while armament making pays out dollars to workers and suppliers, the recipients of such dollars are unable to use them to purchase the (military) goods produced, which, in the nature of things, are reserved for a single customer — the government. Thus, as long as global conditions make it prudent for the United States to make peak peace-time expenditures for military hardware, there is a continuing threat, however latent, of inflation.

In the circumstances, countermeasures are indicated, and it is especially untimely for Keynesian economists and their followers to pressure against tight money and other monetary devices for keeping the currency sound.

Thus the attitude of candidates toward monetary and fiscal prudence is of pivotal importance. During the present campaign, with both major candidates trying to be all things to all men, it is difficult for the literal minded to choose. Both personalities have given lip service to fiscal integrity (a balanced federal budget). But Sen. Kennedy has given a clue to the direction of his financial thinking by attacking the Federal Reserve System and the Eisenhower administration for letting interest rates rise. Likewise, on a "Meet the Press" appearance, the Massachusetts senator created doubt as to his devotion to the concept of the Federal Reserve System as an independent agency. The senator has denied advocating changes in the legal set-up, but has expressed the view that the President, by dint of his prestige and leadership qualities, can influence the governors of the Federal Reserve System.

Likewise, both candidates have expressed a desire for a balanced budget. Both party platforms, however, veer in the direction of greater federal spending for "welfare state" purposes. The Democratic platform goes further than the Republican one. But even more important as a guide to the direction of thinking is the quality of economic advice sought by each. Sen. Kennedy listens to a school of economic thought at Harvard, led by J. Kenneth Galbraith and Seymour Harris, who advocate expanding the governmental segment of the national economy at the relative expense of the private sector. On the other hand, Mr. Nixon's prin-

Hankering

Thanksgiving Pretty 'Unhappy' Abroad

By HENRY McLEMORE

ROME, ITALY — Fate seems to make it its business to see to it that I am always out of the United States on Thanksgiving, and so I never have a turkey on our big eating day.

On previous Thanksgivings Days, I can recall — and without too much pleasure — eating mutton curry in New Delhi, K rations in Leyte, steak and oysters in Sydney, shrimp tempere in Japan, and jellied eels in England.

Now, with Thanksgiving coming up (or has it come and gone? I've never been sure of the date since FDR changed it), I am in Italy where, if there are any turkeys around, I haven't seen or heard them. Nor have I seen turkey mentioned on any menus.

Veal is the national bird over here. It flaps even higher on the Italian diet than does spaghetti and pizza. A menu without veal isn't a menu, and Italians are said to know more than 10,000 ways to prepare the stuff. That means I have 8,000 more ways to go, having eaten veal in only 2,000 ways.

Veal's all right, but it isn't as easy to carve as spaghetti, so I think we'll settle for either spaghetti or pizza for Thanksgiving. Even the most inept carver can manage those two. Neither has bones — or shouldn't have — and it doesn't matter much where the carver starts to work on them.

Pizza and spaghetti have another advantage, too. They're all the same. There's no dark meat, no light meat, no drumsticks, no breast. That should save argument.

These two dishes are not with out their faults as a Thanksgiving meal, however. Just about the best part of the turkey is the stuffing, but how would one go about stuffing spaghetti? It would be worse than trying to put toothpaste back in a tube, or stuffing a green pea. I'm not about to try it.

And that's not the only drawback spaghetti and pizza have as a Thanksgiving dish. Neither goes well with sweet potatoes, creamed onions, turnips, cranberry sauce, green peas, or broccoli, and neither gives off much gravy.

There's the aroma given off while cooking to be considered, also. One of the splendid things about a turkey is the way it perfumes the house when it is in the oven and gets one's mouth to watering as far away as the living room.

The more I think of spaghetti for Thanksgiving, the more faults I discover. Spaghetti has no crisp hot, tender, juicy skin. It has no left-over value either.

While noting differences in direction of thought, this writer stresses the fact that government in our society represents social overhead. The means of payment for the services of government come from giving incentives to the private sector at which goods and services are produced for American families.

(Mr. Rukeyser will be pleased to receive inquiries from readers concerning their financial problems. Letters with stamped, self-addressed envelopes should be sent in care of this newspaper. Questions of general interest will be answered in the column.)

Can you imagine opening the refrigerator just before going to bed and helping yourself to a midnight snack of cold spaghetti, or a wedge of chilled pizza?

That settles it. I am going to have a turkey.

I have just looked up turkey in my Italian-English dictionary and know what to search for and ask for.

It is a "tacchino."

I am going to search Italy from the toe of the boot to the top of the boot, in quest of a "tacchino." There must be one somewhere.

I don't care how old and scrawny it is. It can be B. C. or A. D. for all I care. Just so it can go "gobble-gobble," a little bit, and has long legs and a red wattle.

Physical-Emotional-Mental Line Graph Follows Your Entire Life

THOMMEN, Biorhythmer
By WARD CANNEL
Newspaper Enterprise Assn.

NEW YORK — (NEA) — What actually happened up there to U-2 pilot Francis Powers? How did actor James Dean really die? And basically, what about you — should you drive the car tomorrow, or take that airplane, or even get out of bed?

Well, a fellow here with a computer and a ruler says it's all a matter of easily calculated mathematical cycles — the "biorhythm" of your life. He says that when the

cycles are at a certain point, watch out.

He says he's no crackpot because figures don't lie and researchers who have checked on the life cycles of thousands of cases are right 80 per cent of the time at least.

For example, the biorhythmic chart for actor James Dean shows conclusively that death came on a critical day in his cycles.

And furthermore, U-2 pilot Powers made his fateful flight on a very bad day in his cycles. So did the pilots and co-pilots of several passenger planes that crashed recently. Even 8 out of 10 deaths from normal causes occur on critical biorhythm days according to computations.

The man with the charts and computers is one George Thommen who learned the science of biorhythm during many trips to Europe where it has been practiced in one form or another for generations. It is ridiculously simple, like most gigantic ideas; it works like this.

On the day of birth, we begin three important cycles which will follow all the rest of our lives. There is the physical cycle (endurance, energy, confidence, etc.) which takes 23 days. There is the 28-day sensibility cycle (nerves, feelings, intuition, creativity, etc.). And there is the 33-day intelli-

gence cycle (memory, logic, ambition, etc.).

Each cycle begins at zero, climbs to its peak, falls to zero and on downward to its full depth, climbs upward to zero and then begins again.

"Each time the cycle crosses zero," Thommen explains, "it is at its critical point. Zero is like a light switch turning a bulb off or on. When two of the three cycles are critical, be very careful. This is where natural death occurs, or propensity to accident or the chance of hasty decisions."

Now, until quite recently Thommen was an importer by trade and a life cyclist by hobby. But when he began to apply the tools of biorhythm to people in the news, he saw at once what a secret had unlocked.

"I knew immediately," he says, "that Ingemar Johansson would have to lose the heavy-weight championship to Floyd Patterson as soon as the date of the rematch was announced. Calculations showed that biorhythmically Ingo was either critical or low."

By and by, Thommen sold out his importing business and has now put his assets and acumen to the (oh dear) cycle wheel. The score

so far: one thousand charts made and delivered several hundred computers sold with demand far exceeding the supply.

At an average of \$35 per computer — a three-way, circular slide rule — Thommen may have a good thing going. And if he can just convince the air lines, football coaches, doctors or marriage counselors that they need master computers for assigning pilots or players, helping patients or clients — why there's no telling how life in the U.S. will be changed.

This reporter, for example, faced with double-critical cycles by Thommen's computations, has already asked for next Friday off.

YOU CAN MAKE A CHART of your own monthly biorhythmic cycles like this typical graph. Merely make a chart of straight lines (one for each day in your life) and draw a zero line through them. Each cycle starts upward from zero on the day of birth, falls back through zero half-way through complete span, and finally climbs back through zero to end on cycle and begin next. Complete physical cycle (thick line) takes 23 days, emotional (thin line) 28 days, intellectual (dotted line) 33 days. Danger points: when cycles cross zero line.

Lefors Personals

By Mrs. Charles Roberts

Leahwana Nowlin, accompanied by her mother, Mrs. W. O. Nowlin, attended the Gray County 4-H Achievement Dinner in Lamar School cafeteria at Pampa, last Saturday, where she was presented a clothing award by Bill Skaggs. She was the only 4-H girl from Lefors to receive an award.

Mr. and Mrs. Ed Buehrer of Burkburnett, and baby Donella, visited her parents, Mr. and Mrs. Charlie Lisenbee, last weekend.

Mr. and Mrs. Robert Klein and family went to Stillwater, Okla., last weekend to visit her parents, Mr. and Mrs. Jinks Rogers.

Mr. and Mrs. Ronnie Davis visited her grandmother, Mrs. Anna Patton, last weekend.

Mr. and Mrs. Milton Miller and Bryan, of Boys Ranch, where Milton is a teacher, were weekend guests of his parents, the A. M. Millers.

Mr. and Mrs. Ralph Caruth accompanied his parents, Mr. and Mrs. G. O. Caruth, to Wellington, Sunday, where the elder Caruth has entered the Smith Rest Home.

Mr. and Mrs. Marlin Carrol of Dumas, accompanied by her par-

ents, Mr. and Mrs. B. J. Leining, attended the Kurtz family reunion, recently at Gary, Okla. Fifty-two members of the family were present.

Mr. and Mrs. C. B. Grendstad returned to Corsicana last week after an extended visit with her sister and family, the B. S. Vaughns.

The A. M. Dickersons and O. O. Bishops attended the Gray County singing convention at Pampa last Sunday.

The A. M. Dickersons have returned from a two-week vacation with their son and family, the Thurman Pinkertons, and also visited their daughter and Mr. and Mrs. R. L. Kysar, at Houston.

Charles Dickerson, ministerial student at Springfield, Mo., was home last week-end with his parents, the A. M. Dickersons.

D. Y. Oualline of Oklahoma City, visited his sister and family, Mr. and Mrs. Boyd Griffith, last Thursday.

Andy Reed, of Wyoming, recently visited the W. B. Griffiths.

The L. E. Welborns are on vacation, and will visit the R. M. Williams of Snyder, and relatives at Conroe before returning. Beulah Oualline, plans to return home.

Mrs. Ed Ross visited her daughters family, the Dean Higgins of Big Springs, last week. Mrs. W. C. Breining accompanied her and went on to Midland to visit her son's family, the B. M. Breining.

Mr. and Mrs. Charles Roberts were dinner guests Sunday of her parents, Mr. and Mrs. C. B. Ver-

nor, of Shamrock.

New Market Opens Sunday

The newest market in Pampa's expanding business locations is Talley's Market, Alcock and Hobart streets, which opened on the weekend.

The "minute mart" is operated by John Talley and his wife, and offers many varieties of grocery, medicinal and delicatessen items one may need of the "spur of the moment."

The mart is open from 7 a.m. until 11 p.m. daily, and the Talleys invite residents to stop by and look over the merchandise they have to offer at moderate prices.

The owner plans a grand opening with numerous gift items in the near future.

Divorced and widowed men are the most likely victims of homicide in the United States, according to a survey.

Financial Review

NEW YORK (UPI) — The recent earnings and stock price trends of leading sales and consumer finance companies once again offer evidence of the "recession resistant" strength of this industry.

Profits of major companies in the installment financing and direct lending fields in the third quarter this year showed significant gains over the like 1959 period, a sharp contrast with the performance of most other key groups.

Typical year-to-year earnings gains were reported by General Motors Acceptance Corp., from \$10,912,000 to \$12,824,000; C.I.T. Financial Corp. from \$10,822,000 to \$11,801,000; Commercial Credit Corp. from \$7,464,000 to \$7,549,000; and Household Finance Corp. from \$4,657,000 to \$6,582,000.

G.M.A.C. is the auto financing arm of General Motors Corp. C.I.T., largest of the publicly owned sales finance companies, and Commercial Credit, second largest, also are prominent in auto financing but have widely diversified interests in other fields. Household finance is the biggest of the so-called consumer finance companies whose business is devoted mainly to the extension of short-term personal loans.

The overall earnings trend of big business in the September quarter was downward. Such lines as autos, automotive parts, building materials, farm machinery, chemicals, distilled products, electrical

equipment, machine tools, rubber textiles, railway equipment and rail transportation, department stores, radio and television, drugs, tobacco and pulp and paper products, all reported declines from year ago.
