One-half of the Activity fee goes to the Student Council and one-half goes to pay for our Southern Assemblies.

NOTICE TO ALL SENIORS: Your rings should be here at this time so please bring final payment and get your ring.

All other students will register Friday, August 31 at their respective schools.

Principal A. W. Coltharp at Junior High School said that students may register there between the hours of 8:45 and 12:00 noon.

At Andrews Ward School Principal W. P. Nicholson says that registration will start at 9:00 a.m. on August 31. Students will be dismised as soon as they have completed registering and have received their books.

Nicholson asked that all parents and students who have moved into the district since school was out and all first graders who have not received room assignments come to the school on Tuesday, August 28, between the hours of 9:00 and 12:00 and receive room assignments for their children. This will speed their registration on Friday when they report for that purpose.

For the first four weeks of school first graders will be dismissed at noon and parents may pick them up at that time if they desire. School buses will start running on Monday, September 3, but will not make the afternoon run until all grades are dismissed. Nicholson said that first graders who were not picked up at noon would be taken care of and supervised until the buses thake them home.

Della Plains School will register students on Friday, August 31 starting at 9:00 a. m. according to report from Principal Farris Wilson.

All Floydada schools will start the regular fall term on Monday, September 3.

City Water - Sewer Rate Will be Raised

The City Council this week announced new water and sewer rates that will go into effect starting September 15. The action passed and got final approval from that group on Tuesday, August 14, at the regular council meeting.

Mayor S. W. Ross and Water Commissioner Henry Willis said they felt the city had no choice but to make the rate raises. Outstanding bonds and warrants against water revenue must be met, the new $100,000 in warrants for the two new wells and lines and system connecting them to the city mains had to be approved and the system installed.

Water Department Superintendent Charles Horton said the city water supply has been dangerously low. On Monday of this week the demand for water was the highest in the city's history and one of the new wells was put on the lines with manual control in order to keep the city from running completely out of water. The new well was in operation for some 10 hours on Monday and was again pumping at 9:00 o'clock Tuesday morning.

Horton said that the new wells and lines are complete and ready except for automatic electric control switches. As soon as these arrive both can be put to use and the situation will be under control again.

"The need for more water, the outstanding warrants coupled with rising costs, and the need for maintaining equipment has made it necessary to raise rates so that these obligations can be met", said Mayor Ross.

New Rates in Line

The new rates are pretty well in line and do not bring about too big a change. For residential water there is a first 1000 gallon minimum for $1.50; this will actually help the small user that stays within this bracket since the old minimum was $3.00 for 2000 gallons. The second thousand gallons is also $1.50 and this leaves the bill for 2000 gallons just like it was at $3.00 for the month.

From here on the change begins to take effect. The next 8,000 gallons are at 50c per M where it had been 30c per M on the next 10,000 gallons.

Past this point the next 10,000 will be at 40c where it was 25c and the bottom rate will be 30c where it was 25c.

There are also some raises that will cover meter connections on pipe of 1 inch or larger.

Sewer Rates Up Some

The Sanitary Department also got some rate raises that seem to touch larger users for the most part. Laundries are $4.00 per month up from $3.75. Wash traps are $5.00 up from $1.50.

Garbage disposal and pick up service was left at $1.50 for residential and $2.25 for business houses.

New Wells Tested

The two new wells the city had drilled recently have been developed set and tested. Each is capable of producing well above the 560 gallons per minute required of them. Horton said that the arrival of cooler weather or of the automatic switching equipment would take the pressure off the water department. One of the wells now operating with manual control is meeting the present need, but it is not known just how long this would be so under extended hot drouth conditions.

The complete ordinance covering water and sewer rates appears in this issue of The Hesperian.

Preston Watson Named QB Club President Mon.

PRESTON WATSON

In their first meeting of the 1962 season the Whirlwind Quarterback Club named Preston Watson as president of that organization. Elected to serve with him were vice-president Doyle Moore, secretary Russell King, treasurer Weldon Harris.

Named to the board of directors were Jack Stansell, Gordon Hambright, Jimmy Willson, Charles Tyer and Kenneth Rimmer.

The club met on Monday night at Wester Field to organize and to enjoy a cold watermelon feed. Some 30 or more club members and several football boys turned out at the gathering.

The group heard the coaches tell of the coming season, looked over the new scoreboard at the field and discussed club projects that will be undertaken. It was decided that the QB club will again handle the football programs for this year. Members are at present selling advertising space on the program.

Price of the programs was set at 25c as this was believed to be more in line with prices charged at other towns.

The club voted to again film all the football games and to buy a reaction blocking dummy for use of the team.

Next meeting night was called for Monday night, September 10, when films of the Spur game will be shown.

SOS Is Name Given Fight Against Polio

A community wide effort to wipe out polio in Floyd County will be launched by Floydada Lions Club and the Floyd County Chapter of the National Foundation for Infantile Paralysis. The program has been named SOS (Sabin Oral Saturday) and is scheduled to take place on Saturday, August 25, starting at 1:00 p. m. and continuing through 6:00 p. m.

Sammy Hale, chairman of the Floydada Lions Club SOS committee, said this week all details have been worked out. The oral polio vaccine station will be set up in the First National Bank in Floydada. The bank will furnish sugar cubes, paper cups and such items for the mass immunization program.

Dr. A. E. Guthrie will be attending physician and School Nurse Mrs. Wesley Carr will be another member of the professional staff on hand to administer the vaccine.

Hale urged all citizens from infancy to aged 90 to turn out at the immunization station Saturday to receive their first dose of the new Sabin oral vaccine. The vaccine will be free to all comers, but a 25c donation will be asked of those who would like to help out with the project.

"While there has been a dramatic decline in the number of cases of paralytic polio," Hale said, "the disease is not yet defeated. In the United States, there were more than 1500 cases of polio in 1961. More than 800 of these suffered either death or some sort of paralysis from the disease.

"The Sabin vaccine may be the final answer to the fight against this dreaded disease. The vaccine is easy to administer — no injection; it provides rapid action — in about one week, and it helps break the chain of transmission by stimulating intestinal resistance to future infection.

"Recent licensing of the Type III vaccine," he added, "means that the possibility of wiping out polio as a threat to our children or to their parents is closer than ever before. We have the tools. Now it's up to the community to use them."

Polio is caused by any one of the three types of virus. The government last year licensed an oral vaccine against Types I and II and recently granted a license for distribution of oral vaccine against Type III. All three of the oral vaccines were developed by Dr. Albert B. Sabin of the University of Cincinnati School of Medicine.

Hale said that the sponsoring organizations have purchased the three types of Sabin vaccine from Pfizer Laboratories, division of Chas. Pfizer & Co., Inc. through Arwine Drug in Floydada. He added that the vaccine will be distributed in a special community project.

Adjoining on this page is a registration and authorization slip that will be filled out when the vaccine is given. If you will take the time to clip this slip and fill it out for your family then it will speed up the operation on oral vaccine day. Hale said, "please print or write clearly, and bring the slip with you — this will free workers and keep the line moving swiftly."

Make up date for those who miss the Vaccine on Aug. 25 will be Wed., Aug. 29.

Lakeview School District Will Vote On Consolidation Saturday

School patrons of the Lakeview Common School District and those of the Floydada Independent School District will go to the polls on Saturday, August 25, to vote on a proposed school consolidation of the two districts.

The measure, to pass, would need a majority vote in both the districts involved.

Polling places will be at Lakeview school house where Holt Bishop has been named as election judge and at the county court room in the court house in Floydada where O. P. Rutledge will serve as election judge.

The same issue was defeated on March 31 of this year when Lakeview voted 52 to 40 against consolidation. The Floydada district gave an affirmative vote of 79 - 15.

The vote at Lakeview is expected to be a big one since the measure touches about everyone in the community. Supporters of the consolidation move who prefer that their students go to school in town are faced with the problem of paying a tuition on transfers. Opposition to this move is from those who want to maintain their community school and find some other answer to the problem.

The tuition charge on transfer students coming to Floydada was a move taken last spring by the local school district. Opinion of board members was that this was necessary to meet rising school costs.

The petition calling the election was filed on July 23.

Many New Rule Changes For High School Sports

Last spring when school representatives from over the state voted on rules and regulations covering high school and junior high sports and training periods they made some big changes.

They are not game rule changes that the fan will see on Friday night, but changes that get at the basic roots of the training of athletes.

This fall for the first time there can be no scrimmage sessions between schools after school starts. If a school fields a B team in football, it must play a regular game and boys who play in that game can participate in no other game of football during that week. This same thing is true for the freshman teams as well.

In past years many schools that had only about 30 to 35 boys out for football in high school could keep them busy scrimmaging with other school teams. They would hold out their starters on Thursday night and give the first line reserves a work-out in a B scrimmage. On Tuesday night they could leave a few more boys out of uniform and let the freshmen have a scrimmage session with a neighboring town, and then suit out the entire squad on Friday night and use as many of the boys as suited their fancy. This can be no more.

Some are asking what this will do to the coaches and to the younger, less experienced boys. If the school has a big football program with some 60 to 70 boys out for training then the new rule will change things very little.

The coach can suit out 30 boys for the big game on Friday night, he can use another 18 to 20 boys in a B game on Thursday night and let a freshman squad of 18 to 20 more kick up its heels on Monday or Tuesday night and almost everybody will get game experience. This looks like an ideal situation for the larger schools that lean heavily toward football. The only drawback being that A squad boys who do not get to go in and play on Friday night may be sitting on the bench and watching all week from the side lines since the coach must hold some reserve strength to back up possible injuries.

For the smaller school this is a staggering blow. Say a school has only 28 boys out for football and the coach feels he has a tough schedule and wants to have every single one of his squad suited out and eligible to enter the Friday night game — to do this without breaking the rules he cannot allow any of the boys to play in a B game or freshman game all week — saving the eligibility for Friday's big outing. The Friday game turns out to be a rough one and only 14 boys see service — the other 14 may be warming the bench from September 1 to mid November with next to no chance of getting to play in a game.

After a few years of this — along with graduation skimming off the players with game experience the small school team winds up with inexperienced players except for the few returning lettermen. Their program would be hurt the first year and would be riddled by the end of the second season under the new setup.

Big Squad Only Answer

For Floydada a big 65 to 70 member squad of high school football candidates would be the answer. With that number the coaches could round up some kind of schedule with larger towns and play three complete schedules without robbing the A team. Graduation of lettermen would not present too much of a problem because the varsity could continually feed on a fresh supply of experienced B and freshmen players. Floydada actually has had about this situation for a number of years and it is for that very reason the Whirlwinds are always considered a title threat and local fans usually pick them as the favorite.

Junior High Hit Too

The junior high boys football program will be hit some too, but this will not have any bearing on the games they play. Only change at this level was that of doing away with spring training in football.

Change Hits Basketball

In basketball the change starting on September 1 will be that of doing away with spring and summer training. The girls team cannot work out until October 15 and the boys cannot start until about mid November. These dates are for class AA schools. In class B the teams can start about two weeks earlier than the above mentioned dates.

This change will hit the small one sport basketball schools that play the year round and slow them down quite a bit. The basketball change in the Floydada schools will not be too hard to take as long as the locals can keep an even start with their rival teams.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN — When Jim Leonard, executive secretary of the Republican Party in Texas, asked Atty. Gen. Will Wilson to impound ballots in Duval, Zapata and Starr counties, after the general election in November — the Fall political campaign immediately got under way.

It was a quaint, but telling, legal order of impoundment that Wilson filed in the 98th District Court in Austin. It cited the vaults of Duval County's district and county clerks as "not as adequate, accessible and safe" as the vault of the Corpus Christi State Bank.

Same charge was levied against county vaults in Starr and Zapata counties.

Court order instructs election judges and officials in the three South Texas counties to turn ballots, poll lists and all other election records over to a Texas Ranger. He then would deliver them to the Corpus Christi bank for safe keeping until the 98th District Judge, or his appointed representative, could examine them.

With this sort of preamble, it looks like the Fall campaign might be a little more exciting than the democrat-dominated ones in past years.

TEXAS IN TOP THREE — Texas returned to the No. 3 spot among the "Top Ten" states, in industrial expansion, as the Texas Industrial Commission announced the addition of 28 new industries.

Although the big Houston and Dallas areas captured 17 of the new plants, 11 companies picked non-metropolitan towns as industrial sites: Bushland, Comfort, Crockett, Denton, Jacksonville, Kaufman, Lewisville, Malakoff, Marfa, Mount Pleasant and Quanah reported new industries.

TIC is a state agency dedicated to stimulating more business in Texas by cooperating with chambers of commerce and other local-level groups in bringing more industries to the state.

Allen Searight, commission's community coordinator, will speak at several industrial development meetings over the state during the next month.

DOUBLE TAXATION — Texas Commission on state and local tax policy has suggested that virtually all intangible personal property held by Texans be exempt from taxation. This includes taxes on bank accounts, securities, mortgages and similar financial assets.

HIGHWAY COSTS LOW — Texas is building its Interstate Highway system for almost $400,000 a mile less than the national average, according to the Texas Highway Department.

U.S. Bureau of Public Roads figures show Texas will complete its portion of the Interstate system at an estimated $600,000 per mile, compared to the national average of about $1,000,000.

MENTAL HOSPITALS CROWDED — County judges are blamed for cramming state mental hospitals by committing too many old people, who really just need rest-home care.

Board for State Hospitals and Special Schools reports that some mental institutions — especially the Kerrville state Hospital and the Confederate Home at Austin — are so crowded with old people there isn't enough room to care for the state's mentally ill.

Board member W. G. Kirklin of Odessa said he has been told that some juvenile delinquents, who aren't mentally ill, are also being routed into mental hospitals by judges.

Corrective legislation is being studied.

Dr. C. J. Ruilman, director of mental health and hospitals, says facilities for 9,000 elderly people would be needed if the Legislature decides to care for them somewhere other than the mental hospitals.

PARKS PLAN DEBATED — State budget officials and parks experts differed on the popularity of the state's 50-plus public parks.

Parks Board told the Legislative Budget Board it wants $2,100,000 to improve four parks and increase funds for others.

Reese Martin, vice-chairman of the board, claims record attendance. His optimism about public use of state parks was shared by Elo Urbanovsky and Charles Doell of Texas Tech, who are working on a master plan for Texas' recreation facilities.

But Jess M. Irwin Jr., governor's budget director, and Vernon A. McGee, director of the Legislative Budget Board, were reluctant to recommend the Legislature's approval of a plan to:

Spend $600,000 to improve the newly-donated Wheatley Ranch in Blanco County (which already has a state park); $550,000 at Lake Whitney State Park; $650,000 for a new park in the Big Thicket; and $300,000 for a new park at Falcon Lake.

WILDLIFE FAIR FARES WELL — State Game and Fish Commission's wildlife exhibit is such a prized attraction at fairs, sport shows and other community events that it's being booked on first-come, first-serve basis so everyone will have a chance to see it.

T. D. Carroll, G & F Commission's coordinator of information, said the exhibit — made up of live birds, mammals, reptiles, and fish of Texas — will go on the road September 4. First showing is scheduled for the Floyd County Fair on September 6-8.

Exhibit will travel west from Floyd County; then move to East Texas for October dates; and to South Texas in November.

A & M GETS REPRIEVE — "For Men Only" apparently will continue to be the policy, for at least one more year, at Texas A&M College. The touchy matter of admitting women students has been temporarily side-stepped by the Texas Commission on Higher Education.

On the Commission's July meeting agenda, the issue was suspended when the Commission staff pleaded more time was needed for the study. Another school year will be underway before the matter can be given any further consideration.

AMENDMENTS STIR CAMPAIGNS — At least two of the 14 proposed constitutional amendments Texas voters will consider on November 6 appear to be firing campaigns.

Proposal No. 14 appears to be stirring opposition from the Texas Municipal League which asserts that this amendment as presently written "could virtually destroy municipal government in Texas, except for certain of its police powers."

Proposal No. 4 on the ballot would permit the state to buy conservation storage in locally or federally-owned reservoirs. Gov. Price Daniel has called a special meeting of his statewide water advisory committee for September 10, for the express purpose of organizing support for the amendment.

SCHOOL PRAYER RULING — Atty. Gen. Will Wilson has been asked to advise Texas public schools regarding the U. S. Supreme Court's highly controversial prayer opinion.

Request for an interpretation from Wilson came through Dr. J. W. Edgar, commissioner of education, on a query from school officials at Port Arthur.

Wilson was asked:

1. Whether a school board can permit a student or teacher to say the blessing before meals in a public school, without running afoul of the Supreme Court decision?

2. Whether school may authorize "a period of silent meditation" during the meal period?

3. Whether Bible-reading is permissable in homerooms or on assembly programs?

4. Whether the court's opinion permits public prayers at football games involving public school teams, or at other school-sponsored events?

WHOPPER DROUGHT — Texas will have another mighty drought by 1970, is the prediction of Judge J. E. Sturrock, of the Texas Water Conservation Association.

Gigantic sunspots, many months old, still are raging at the center of our solar system, says Judge Sturrock.

When the great gusty winds of the universe die down, and the solar tumbleweeds stop tumbling, about 1970, Texas will have another mighty drought.

Meanwhile, Texas' rains and its "little droughts" like the current one, will follow each other in their normal seasons, says this leading authority on Texas water.

COTTON PICKING MONEY — Cotton picking is brightening the outlook for a lot of people who are concerned with the State's budgetary problems — especially those in the Texas prison system.

Dr. George F. Beto, director, reports that fair weather for the next month during harvest would mean a $2,000,000 crop from the system's 10,000 acres of cotton.

TEXAS OR MEXICO — Gov. Price Daniel says it will be up to the officials of El Paso whether the claim of Mexico to a section of El Paso will be honored.

The dispute over a section called Chamizal involves about 400 acres of land, and stems from a change in the course of the Rio Grande which flows through El Palso.

GOLD PLUSH — House members returning to the Capitol this winter will be walking softly in the House chamber whether they intended to or not.

A plush new gold carpet is replacing the old tattered and threadbare one.

Plyboard was laid over the 1,000 square feet of floor to add strength and provide a smooth, even base for the new carpet.

In addition to the carpets and fresh paint, the ancient oak paneling has been restored to its natural finish.

CUT LEG WORK — Some of the hustle, bustle and leg work of next spring's State Legislative session may be replaced electronically if the idea of one delegation catches on.

Rep. Don Garrison of Houston and his cohorts are experimenting in the capitol with compact transistorized walkie-talkies. "We intend to use it mainly for liaison between delegation members to announce committee meetings, phone calls, etc.," he said.

MORE ROAD FUNDS — Contracts for building Texas highways may be stepped up by by $5,000,000 a month under an order unfreezing $1,900,000,000 from a backlog in the federal highway trust fund.

J. C. Dingwall, assistant chief highway engineer, estimates that $91,000,000 more federal funds will be released to Texas as a result.

NOT A FAIR DEAL — Land Commissioner Jerry Sadler opposes renewing the state lease of Matagorda Island to the federal government for a bombing range.

Of the 15,250 acres the U. S. Corps of Engineers has leased through condemnation since 1950 (for a rental of 6c per acre), the Air Force has subleased 13,842 acres of the tract to an individual for 19c per acre.

Short Snorts

Gov. Price Daniel has appointed Mrs. Florence Fenley of Uvalde and Bracketville as a member of the Texas Civil War Centennial Commission. She is a former member of the Texas House of Representatives.

Board of Pardons and Paroles has granted a year's leave of absence to its administrative director, Vincent O'Leary. He has been appointed head of a nationwide program for the establishment of institutes for parole board members at various universities in the U. S.

A civil suit has been filed in Austin district court seeking to restrain State Treas. Jesse James from paying all salaries to the Attorney General, Comptroller of Public Accounts, House Speaker, Land Commissioner, Pres. pro tem of the Senate, and Ex-pres pro tem of the Senate, on the grounds that the legislative redistricting of Texas does not afford equal representation to all.

Orman Family Enjoys Reunion At Lorenzo Center

By Mr. and Mrs. P. L. Orman

Another enjoyable yearly reunion day was spent Sunday in Lorenzo by the children and relatives of the late Mr. and Mrs. R. L. Orman, Sr. The spacious Lorenzo Community house was the gathering place for this enjoyable occasion.

This was the second time the family has met in this beautiful and commodious building. It was so nice to be able to visit with each other in a nice air-conditioned building and at such a nominal price. Of course you have to speak ahead of time for the building but this is usually possible. The people of Lorenzo say there is hardly a day or night that passes by without having some group or organization to rent either one or both party rooms.

Each group is responsible for leaving the building clean and in just as good condition as it was when they used it. everything except the food is furnished. They have two large rooms and a large kitchen which is well equipped with a stove, refrigerator, dishes, silver, roaster, and cooking utensils. There are chairs and tables for games or for serving meals which accomodate over a hundred guests. We were impressed by this when we met there last year on the third Sunday in August and again we were impressed Sunday.

We still wonder why Floydada's enterprising young men don't get behind a move like this and put up a similar building on our City Park. If Lorenzo can do it, why can't we?

Those present were R. L., Pauline and Dixie Orman, Lorenzo, Mr. and Mrs. W. L. Orman, Mr. and Mrs. P. L. Orman, Mr. and Mrs. Howard Bishop and Greg, Mr. and Mrs. T. S. Brown, Mr. and Mrs. Bill Orman, Mrs. Everett Collier and friends, Mr. and Mrs. Vick McRee and Mrs. Clarence Ginn, Floydada, Judy Graves and William L. Porter, Allen, Mr. and Mrs. L. L. Meek, Mr. and Mrs. T. H. Orman and Mr. and Mrs. Kenneth Orman, Borger,

Also Mrs. Bobby Ragland, Ronnie and Hal, Sundown, Mrs. Harry Ragland, Mr. and Mrs. T. L. Callaway and Sheryl, Mr. and Mrs. H. B. O'Neall, Mr. and Mrs. R. J. Teal, Robert and Judy, Mr. and Mrs. Winston Brown, Mr. and Mrs. H. B. O'Neal, Jr., Stephen, Bryon and Connie, Lubbock, Mr. and Mrs. Jack Calahan and son, Lockney, Mr. and Mrs. Rex Orman, Clovis, N. Kitchen And Field Report

From Lighthouse Electric Cooperative, Inc., by Nancy Morckel Home Economist.

School Days, School Days, Dear Old Golden Rule Days, Reading and 'Riting and Rithmetic, all taught to the tune of a hickory stick.

School time is almost here again! Where, oh where, has our summer gone? Just can't realize it has passed. Nevertheless September is nearly here again and it is time to get back into the old routine.

The hot lunch program in our school has eliminated most of our needs for "lunch packing". But just in case you do find a need for packing some lunches it need not be a bothersome task if you have a food freezer.

The foundation or "main-course" of almost every lunch packed is the sandwich. Instead of preparing the lunches on a day-to-day basis you may prepare them for a week-or-so ahead all at one time - - - or as long as you want to store them.

Here are some suggestions that might be helpful if you are preparing some frozen foods for lunch box packing:

During the fresh fruit season, freeze fruit in half pint containers to include in the lunch box at a later date.

Cupcakes, pieces of cake, individual pies, a wedge of pie, and cookies may be frozen individually and used as needed.

Wrap all items individually in moisture-vapor-proof material, label and freeze as complete lunches or individual items.

Pack sandwiches from freezer to lunch-box. They will thaw in time for lunch.

DO NOT freeze lettuce, celery, tomatoes, or carrots as they will lose their crispness when frozen. Add these to the lunch box after it has been taken from the food freezes. Diced peppers may be added to fillings, providing you do not object to the fact that they lose their crispness when frozen.

Avoid hard-cooked egg whites in sandwiches as they are apt to develop off-flavors and become tough and rubbery in texture.

Former directors and their families, members of the annual meeting planning committees and their families and employees of the Lighthouse and their families gathered at the Floydada Country Club at 6:30 Monday afternoon for their Second Annual Picnic. Each family brought a picnic lunch. The long table under the trees "groaned" with the delicious fried chicken, salads, desserts and many, many goodies it held. After supper a film was shown "The Story of REA", after which games of "42" and "84" and visiting were enjoyed by the group until a late hour.

Among those enjoying this delightful occasion were: Miss Kathey Cherry of Lorenzo, Mr. and Mrs. J. L. Suits and Mr. and Mrs. Wm. Finkner of Petersburg, J. S. Lackey of Plainview, Mr. and Mrs. Oliver Harmel of Halfway in Hale County,

SOMETHING TO THINK ABOUT:

It has been said of the Bible: "This Book reveals the will of God, the state of man, the way of salvation. Its teachings are true; its precepts binding. It contains light to direct you, food to sustain you, and comfort to cheer you. It is a sufficient rule of faith and practice. It is the traveler's map, the pilgrim's staff, the pilot's compass, the servant's teacher, the Christian's charter. Christ is its grand object, our good its design; the salvation of all mankind its end. It should fill the memory, rule the heart, and guide the life."

Broadway News

By Mrs. T. E. Thornhill

BROADWAY, August 20 — Sunday School and Church attendance was small Sunday due to so many taking advantage of these last days before another school year begins, to take a vacation, since the boys who play football will begin practice Monday of this week.
Goodness gracious where has the summer gone? Anyway it is almost time to begin another school term. It surely doesn't take the three months of summer vacation to go by.
Mr. and Mrs. A. D. Whalen have been visiting their daughter and family, Mr. and Mrs. Joe Dutton and children in Odessa. Perhaps we should say that is where we think they were as they had planned to go there, and they were gone somewhere over Sunday.
Donald Wayne Thornhill of Denver City spent the weekend with his folks, Mr. and Mrs. T. E. Thornhill and Tommy.
Mrs. Homer Smith and daughters Bessie of Crosbyton and Mrs. Patsy Parsons and three sons of Ft. Worth, Mrs. D. D. Thornhill and Gary and Mrs. T. E. Thornhill were all Saturday night callers in the home of Mr. and Mrs. M. R. Givens and boys.
Scotty Moore, son of Mr. and Mrs. Charlie Mack Moore visited Saturday with his grandparents, Mr. and Mrs. Arvis Moore and children, Fern, Robert L., and Kitty Joyce.
Miss Fern Moore was honored with a birthday supper in the home Thursday night of last week. Fern, we wish for you many more happy birthdays.
Mr. and Mrs. Ben Beckham of Hobart, Oklahoma spent Thursday night of last week in the T. E. Thornhill home going on from here early Friday morning. They were visitors in the R. M. Spence home in Floydada.
Mr. and Mrs. M. R. Givens and boys, Teddy, Preston and Mickey enjoyed a camping and fishing trip to Burleson Lake Thursday, Thursday night and Friday. They were joined Friday by Mr. and Mrs. D. D. Thornhill and Gary. Tho they say they didn't catch so many fish they really did have a good time.
Sunday dinner guests in the A. L. Winegar home were Mr. and Mrs. W. T. Winegar and boys, Kenneth and Richard, of Levelland, Mr. and Mrs. Kelton Winegar and Karen, Mr. and Mrs. L. R. Rainbolt, and Marcia and their houseguest Karen Wesela of Ft. Worth, Mrs. Lizzie Winegar, Mr. and Mrs. T. E. Thornhill and boys, Tommy and Donald Wayne. Afternoon callers were Mrs. D. D. Thornhill and Gary.
The A. L. Winegars were among a group who were skiing and fishing at Buffalo Lakes near Canyon last week. Seems they really caught the fish. But the trip was made so sad when the young man drowned there when he fell while skiing. Tragedy is lurking around every corner. Seems we can not be careful enough. Of course, they were not acquainted with the young man but that did not keep from making them very sad, and also A. L. Winegar and C. F. Flemmins helped drag the lake for the body. D. D. Thornhill accompanied Homer Robinson to Jacksboro where they attended a reunion.
Mr. and Mrs. M. R. Givens and boys were Sunday visitors with the Ray Givens in Lubbock.
Tuesday afternoon of last week Preston and Mickey Givens rode horses with Preston Weaks. Late in the afternoon Mr. Weaks barbecued supper for them and Mr. and Mrs. M. R. Givens as well as Mrs. Weaks.
Mmes. Lizzie Crausbay, Minnie Crausbay and Lillie Marley visited relatives and friends in Floydada one day last week.
Grandmother Berry is visiting relatives in Hillsboro and down that way while the Cecil Berry's are on vacation.
Among others who were on vacation last week were the Harold Trulls, Harman Morrises, Billy Websters. We hope each has a safe and enjoyable vacation.
Sunday visitors with Mr. and Mrs. Paul Ely were Mrs. Pauline Martin and children, Vicki, and Rolan, Mr. and Mrs. Bill Ashley and children, Chris and Mark, all of Cone.
We are glad to report that Don Wall is home from the hospital and is able to be up and going again. We are so glad that he didn't have Polio, as was first suspicioned when he entered the hospital.
Mrs. Biddie Wall and Don drove over to Lubbock Saturday afternoon.
Mrs. Willard Richardson is to take the evening flight today, Monday, for California to attend funeral services there for her nephew, Ronald Bennett Davis, who was killed in a car crash there Saturday night. Our very deepest sympathy to all of the family. Ronald was a grandson of Mrs. J. M. Bennett of Crosbyton, and the son of Mrs. Kathryn Bennett Autrey of California. He was born in our community and lived with his grandparents, Mr. and Mrs. J. M. Bennett for several years.
Seems many enjoyed the Old Settlers Reunion at the Memorial Building in Crosbyton last Friday. The parade was not very long but very good, tho Mr. C. O. Spence and his little riders, Karen Winegar and Bessie Smith didn't get to make the whole parade as the little pony shied at something and upset the little two wheel cart they were riding in. They said no one was injured very much, tho they all seem to have bruises here and there.

Fairview News

By Mrs. Clyde Bagwell

FAIIRVIEW, August 20 — This reporter is back on the job again after making the second trip this summer to California. I arrived home Saturday morning from Lubbock where I spent Friday night with my cousins, Mr. and Mrs. Leon Rasco.

When I returned home the 4th of July from my first trip out to Santa Ana, Calif. my mother returned with me for a two months stay. After we were here less than three weeks we received a wire of the death of my mother's sister so we returned at once to California. I remained there three weeks the last trip.

The day I left for home my nephew and family, Mr. and Mrs. Preston L. Joiner and three children, of Eugene, Ore., arrived for a visit with my mother. They arrived about three hours before I had to take the train. They are on vacation and are making the trip through several states and may show up here in Floydada some time this week.

We all know we live in a modern age and it is getting more modern every day. While in California we saw a new way, at least it was new to us, to move a house. The space was needed for a parking lot so large machinery moved in and started to beating the house to bits and in almost less time that it takes to tell it the home of someone was a pile of very small pieces of lumber and glass and was loaded on a truck and hauled away to be buried. It was a good house too. They don't burn trash in California. They bury it. Burning causes smog.

Mr. and Mrs. E. W. Walls returned home Tuesday from El Porvinier, N. Mex. where they spent several days attending the Percy family reunion.

Roys Walls, of Plainview, came Thursday to spend a week here with his parents, Mr. and Mrs. E. W. Walls.

Walton Wilson, Leonard Wilson, Harvey Allen and Bill Tye left Thursday on a fishing trip to the mountains of Colorado. They will return today.

Mrs. Harvey Allen and son, Mike, spent the time with her mother, Mrs. Walton Wilson.

Mr. and Mrs. Lee Rushing went to Lubbock Saturday night to hear Paul Harvey speak at the City Auditorium. Others from here going over to hear Mr. Harvey speak were Mr. and Mrs. Lyndal Carey.

Mr. and Mrs. Jake Hines, of Odessa, Mr. and Mrs. Kenneth Billington and sons, of Tulia, and Mr. and Mrs. Shirley Irwin and family spent Saturday evening with Mr. and Mrs. R. R. Waller in Floydada. Mrs. Hines had the misfortune of burning her hands some time back but she is improving now and Sunday when she was here she had both her hands out of the cast they were put in.

Mr. and Mrs. L. F. Irwin and family, of Lubbock, were Sunday dinner guests here of Mr. and Mrs. Shirley Irwin and family.

Mr. and Mrs. A. L. Curry, of Matador, visited Friday with Mr. and Mrs. Galen Holland.

Mrs. A. S. Mize is home now convalescing from surgery that she had last Wednesday in a Plainview Hospital. Visiting in the A. S. Mize home Saturday were Mr. and Mrs. W. N. Anderson, Mr. and Mrs. Sid Brown, Mrs. Myrtle Yeary, Mrs. Ethel Graham, Mrs. Walton Wilson, Mrs. Judy Allen and Mike.

On Sunday, July 22, Mrs. C. D. Thacker, of Levelland, Mrs. Ira Bobo, of Seminole, Mrs. Bill Pierce and children, of Muleshoe, visited Mrs. C. L. Joiner and Mr. and Mrs. Clyde Bagwell. Also caling that morning in the Bagwell home was Mrs. W. E. Lackey.

July 18 Mr. and Mrs. Clyde Bagwell and Mrs. C. L. Joiner visited in Muleshoe with Mrs. Joiner's granddaughters and their families, Mr. and Mrs. Leo Bartley and Mr. and Mrs. Bill Pierce. Mrs. Bartley and three children left July 19 for Eugene, Oregon where she spent a month visiting her parents, Mr. and Mrs. P. L. Joiner and other relatives.

Mr. and Mrs. W. E. Spears, of Exeter, Calif. came Sunday to spend several days here visiting in the homes of his sister, Mrs. Galen Holland and Mr. and Mrs. W. M. Spears.

Mr. and Mrs. Cecil Payne arrived home last Monday from Stamford Lake where they spend a lot of their time now since they have a trailer house.

C. J. Payne, son of Mr. and Mrs. Cecil Payne, returned home August 6 with his discharge from the service. C. J. will soon be back on his job at Consumers.

While the Cecil Payne's were at the lake they enjoyed having all four of their sons visit them one weekend. They were Mr. and Mrs. Winfred Payne and children, James Truitt Payne, of Muleshoe, Mr. and Mrs. Gene Payne and children, of Knox City and C. J. Payne, of Floydada.

Mrs. M. O. Stapleton, of Plainview, visited Thursday with her sister, Mrs. Jim Stewart.

We were sorry to learn of the passing of Mrs. J. A. Arwine and Mrs. J. R. Maddox. Both were long time residents of Floydada. We wish to express our sympathy to both families.

We were also sorry on our return home to learn of the illness of Mrs. C. O. Wise, mother of Cargile H. Wise. We hope Mrs. Wise will soon be up and around again.

Mrs. Lee Burgett spent last weekend in town at the home of her daughter, Mrs. Carl Nelson.

Mrs. Burgett spent some time down state visiting in Ft. Worth with her son, Travis, and family and also attended the Teel-Moore family reunion at Commerce on August 5. Shirley and Carla Nelson made the trip down state with their grandmother. Mrs. Burgett got to see two new great grandchildren while she was in Ft. Worth, one the tiny daughter of Mr. and Mrs. Mitchell Burgett and the tiny son of Mr. and Mrs. Richard Folley, both babies were born the latter part of July.

The ladies of the community are busy canning these days and the men are busy with farm work. We have not seen the crops around Floydada, except on the southwest side, since our return but all the way from Texico to Lubbock and then into Floydada the crops were beautiful.

Mr. and Mrs. Cecil Payne went to Glenrio, N. Mex. August 5 to visit her brother and wife, Mr. and Mrs. George Lotspiech.

Mr. and Mrs. C. W. Payne went to Clovis the weekend of August 12 to visit his mother, Mrs. W. W. Payne and his sister, Mrs. Pelham Graham.

Sunday Mr. and Mrs. Bill Green and Mr. and Mrs. Bill Nichols and children went to Palo Duro Canyon on a picnic.

Outdoors In Texas

Like to fish where fish bite the year 'round?

Then consider Alcoa Lake!

When Alcoa Lake was opened to public fishing in July of 1954, there were many skeptics who claimed that fishing there wouldn't stand up for two years. Fishing pressure, they said, would kill off a lake that small in nothing flat.

However, by the fall of 1960, more than 215,000 game fish had been taken from Alcoa. Today it still shows no sign of wilting under the pressure.

Where is Alcoa Lake?

Alcoa is located about 60 miles east of Austin. Built by the Aluminum Company of America, it serves as a giant "radiator" for the firm's big plant near Rockdale.

Actually, the lake is in two parts, separated by a dike and conncected by a mile-long canal. Water from the "cool" side is pumped through the plant to keep the machinery from overheating. It comes out in what is called the "hot" side.

In total, Alcoa Lake is about 850 acres in size. Only the cool side, or about 650 acres, is available for public fishing.

No fee is required to fish at Alcoa. You can fish from sunrise to sunset. But for safety reasons no fishing is allowed at night.

This is one lake strictly for fishermen! No motor larger than 15 hp. is permitted. Water skiing is banned.

There is no natural inflow of water into Alcoa. That's one reason why Alcoa usually remans clear and fishable, even during the hardest of downpours.

Water for the lake is pumped through a pipeline some 12 miles from the junction of the San Gabriel and Little rivers.

Although only the cool side is opened to fishing, biologists point to the hot side as the real key to Alcoa's success. They believe that fish spawn in the hotter side the year round, and that many fish migrate down the canal to be caught by fishermen in the cool half.

Actually, one of the most popular spots to fish is where the blockade cable is stretched across the mouth of the canal at the cool end. The cable is there to keep boats from moving up the canal and disturbing the fish.

There are two public fishing barges at Alcoa. Many people fish off these barges, which have baited waters beneath them. But many more go out in boats to probe the shoreline weeds for catfish, bass and crappie.

Alcoa is one lake that doesn't fit the pattern of others. It offers fishing spring and fall, summer and winter. It stays good! Perhaps the flow of cool and warm water between the two parts has something to do with it.

Crappie fishing at Alcoa reaches its peak during the two hottest months, August.

Many big bass are ta ing the dead of winte ly near the mouth of To date the large taken from the lake pounder. Several fla low cats in the 30 have been taken. All tackle. No trotline fis lowed.

Thus far, no really have come from Alc ever, a couple of plus specimens hav caught. Ironically, b were taken the same Jack Lewis of Flo the distinction of ha the largest bass to Alcoa to date. But that his record won't for long.

Fertile soils produce citizenship in any county, state, or nation.

Like to fish where fish bite the year 'round?

Then consider Alcoa Lake!

When Alcoa Lake was opened to public fishing in July of 1954, there were many skeptics who claimed that fishing there wouldn't stand up for two years. Fishing pressure, they said, would kill off a lake that small in nothing flat.

However, by the fall of 1960, more than 215,000 game fish had been taken from Alcoa. Today it still shows no sign of wilting under the pressure.

Where is Alcoa Lake?

Alcoa is located about 60 miles east of Austin. Built by the Aluminum Company of America, it serves as a giant "radiator" for the firm's big plant near Rockdale.

Actually, the lake is in two parts, separated by a dike and conncected by a mile-long canal. Water from the "cool" side is pumped through the plant to keep the machinery from overheating. It comes out in what is called the "hot" side.

In total, Alcoa Lake is about 850 acres in size. Only the cool side, or about 650 acres, is available for public fishing.

No fee is required to fish at Alcoa. You can fish from sunrise to sunset. But for safety reasons no fishing is allowed at night.

This is one lake strictly for fishermen! No motor larger than 15 hp. is permitted. Water skiing is banned.

There is no natural inflow of water into Alcoa. That's one reason why Alcoa usually remains clear and fishable, even during the hardest of downpours.

Water for the lake is pumped through a pipeline some 12 miles from the junction of the San Gabriel and Little rivers.

Although only the cool side is opened to fishing, biologists point to the hot side as the real key to Alcoa's success. They believe that fish spawn in the hotter side the year round, and that many fish migrate down the canal to be caught by fishermen in the cool half.

Actually, one of the most popular spots to fish is where the blockade cable is stretched across the mouth of the canal at the cool end. The cable s there to keep boats from moving up the canal and disturbing the fish.

There are two public fishing barges at Alcoa. Many people fish off these barges, which have baited waters beneath them. But many more go out in boats to probe the shoreline weeds for catfish, bass and crappie.

Alcoa is one lake that doesn't fit the pattern of others. It offers fishing spring and fall, summer and winter. It stays good! Perhaps the flow of cool and warm water between the two parts has something to do with it.

Crappie fishing at Alcoa reaches its peak during the two hottest months, August.

Many big bass are caught during the dead of winter, usually near the mouth of [illegible]

To date the largest taken from the lake weighed a pounder. Several flathead (yellow) cats in the 30-pound class have been taken, also on tackle. No trotline fishing allowed.

Thus far, no really big ones have come from Alcoa. However, a couple of nice strings plus specimens have been caught. Ironically, [illegible] were taken the same day.

Jack Lewis of Roscoe has the distinction of having the largest bass to [illegible] Alcoa to date. But he says that his record won't stand for long.

Fertile soils produce [illegible] citizenship in any [illegible] county, state, or nation.

Fairview News

By Mrs. Clyde Bagwell

FAIIRVIEW, August 20 — This reporter is back on the job again after making the second trip this summer to California. I arrived home Saturday morning from Lubbock where I spent Friday night with my cousins, Mr. and Mrs. Leon Rasco.

When I returned home the 4th of July from my first trip out to Santa Ana, Calif. my mother returned with me for a two months stay. After we were here less than three weeks we received a wire of the death of my mother's sister so we returned at once to California. I remained there three weeks the last trip.

The day I left for home my nephew and family, Mr. and Mrs. Preston L. Joiner and three children, of Eugene, Ore., arrived for a visit with my mother. They arrived about three hours before I had to take the train. They are on vacation and are making the trip through several states and may show up here in Floydada some time this week.

We all know we live in a modern age and it is getting more modern every day. While in California we saw a new way, at least it was new to us, to move a house. The space was needed for a parking lot so large machinery moved in and started to beating the house to bits and in almost less time that it takes to tell it the home of someone was a pile of very small pieces of lumber and glass and was loaded on a truck and hauled away to be buried. It was a good house too. They don't burn trash in California. They bury it. Burning causes smog.

Mr. and Mrs. E. W. Walls returned home Tuesday from El Porvinier, N. Mex. where they spent several days attending the Percy family reunion.

Roys Walls, of Plainview, came Thursday to spend a week here with his parents, Mr. and Mrs. E. W. Walls.

Walton Wilson, Leonard Wilson, Harvey Allen and Bill Tye left Thursday on a fishing trip to the mountains of Colorado. They will return today.

Mrs. Harvey Allen and son, Mike, spent the time with her mother, Mrs. Walton Wilson.

Mr. and Mrs. Lee Rushing went to Lubbock Saturday night to hear Paul Harvey speak at the City Auditorium. Others from here going over to hear Mr. Harvey speak were Mr. and Mrs. Lyndal Carey.

Mr. and Mrs. Jake Hines, of Odessa, Mr. and Mrs. Kenneth Billington and sons, of Tulia, and Mr. and Mrs. Shirley Irwin and family spent Saturday evening with Mr. and Mrs. R. R. Waller in Floydada. Mrs. Hines had the misfortune of burning her hands some time back but she is improving now and Sunday when she was here she had both her hands out of the cast they were put in.

Mr. and Mrs. L. F. Irwin and family, of Lubbock, were Sunday dinner guests here of Mr. and Mrs. Shirley Irwin and family.

Mr. and Mrs. A. L. Curry, of Matador, visited Friday with Mr. and Mrs. Galen Holland.

Mrs. A. S. Mize is home now convalescing from surgery that she had last Wednesday in a Plainview Hospital. Visiting in the A. S. Mize home Saturday were Mr. and Mrs. W. N. Anderson, Mr. and Mrs. Sid Brown, Mrs. Myrtle Yeary, Mrs. Ethel Graham, Mrs. Walton Wilson, Mrs. Judy Allen and Mike.

On Sunday, July 22, Mrs. C. D. Thacker, of Levelland, Mrs. Ira Bobo, of Seminole, Mrs. Bill Pierce and children, of Muleshoe, visited Mrs. C. L. Joiner and Mr. and Mrs. Clyde Bagwell. Also caling that morning in the Bagwell home was Mrs. W. E. Lackey.

July 18 Mr. and Mrs Clyde Bagwell and Mrs. C. L. Joiner visited in Muleshoe with Mrs. Joiner's granddaughters and their families, Mr. and Mrs. Leo Bartley and Mr. and Mrs. Bill Pierce. Mrs. Bartley and three children left July 19 for Eugene, Oregon where she spent a month visiting her parents, Mr. and Mrs. P. L. Joiner and other relatives.

Mr. and Mrs. W. E. Spears, of Exeter, Calif. came Sunday to spend several days here visiting in the homes of his sister, Mrs. Galen Holland and Mr. and Mrs. W. M. Spears.

Mr. and Mrs. Cecil Payne arrived home last Monday from Stamford Lake where they spend a lot of their time now since they have a trailer house.

C. J. Payne, son of Mr. and Mrs. Cecil Payne, returned home August 6 with his discharge from the service. C. J. will soon be back on his job at Consumers.

While the Cecil Payne's were at the lake they enjoyed having all four of their sons visit them one weekend. They were Mr. and Mrs. Winfred Payne and children, James Truitt Payne, of Muleshoe, Mr. and Mrs. Gene Payne and children, of Knox City and C. J. Payne, of Floydada.

Mrs. M. O. Stapleton, of Plainview, visited Thursday with her sister, Mrs. Jim Stewart.

We were sorry to learn of the passing of Mrs. J. A. Arwine and Mrs. J. R. Maddox. Both were long time residents of Floydada. We wish to express our sympathy to both families.

We were also sorry on our return home to learn of the illness of Mrs. C. O. Wise, mother of Cargile H. Wise. We hope Mrs. Wise will soon be up and around again.

Mrs. Lee Burgett spent last weekend in town at the home of her daughter, Mrs. Carl Nelson.

Mrs. Burgett spent some time down state visiting in Ft. Worth with her son, Travis, and family and also attended the Teel-Moore family reunion at Commerce on August 5. Shirley and Carla Nelson made the trip down state with their grandmother. Mrs. Burgett got to see two new great grandchildren while she was in Ft. Worth, one the tiny daughter of Mr. and Mrs. Mitchell Burgett and the tiny son of Mr. and Mrs. Richard Folley, both babies were born the latter part of July.

The ladies of the community are busy canning these days and the men are busy with farm work. We have not seen the crops around Floydada, except on the southwest side, since our return but all the way from Texico to Lubbock and then into Floydada the crops were beautiful.

Mr. and Mrs. Cecil Payne went to Glenrio, N. Mex. August 5 to visit her brother and wife, Mr. and Mrs. George Lotspiech.

Mr. and Mrs. C. W. Payne went to Clovis the weekend of August 12 to visit his mother, Mrs. W. W. Payne and his sister, Mrs. Pelham Graham.

Sunday Mr. and Mrs. Bill Green and Mr. and Mrs. Bill Nichols and children went to Palo Duro Canyon on a picnic.

Mrs. W. B. Wilson spent ten days recently at Claude with her daughter, Mrs. Bill Beedy and Mr. Beedy. Mrs. Wilson returned home Wednesday and since that time she has had the misfortune of spraining her knee. Mrs. Bill Tye is spending most of her time right now with her mother. Other Sunday visitors with Mrs. Wilson were Mr. and Mrs. Weldon Pruitt and Greg, Jim Tye and James McNeill.

A&M Reports Net Income On Farm Is Down

COLLEGE STATION, August — Farmers, like other businessmen, in recent years have increased their gross sales but have received less net income, reports C. H. Bates, extension farm management specialist.

The nation's farmers have increased gross sales since 1945 by 46 percent but their net income has declined more than 9 percent, Bates adds. Gross income in 1945 was $25.7 billion and production expenses were $12.9 billion. Net income equaled $12.8 billion. By 1960, gross income was up to 37.9 billion but expenses had jumped to 26.3 billion, leaving a net of only $11.6 billion.

Farmers have sought to improve their situation, says Bates, by shifting the inputs or "mix" of production resources. They have substituted machinery for labor. In 1940, U. S. farmers spent $1.75 on machinery and buildings for each dollar spent on hired help. By 1960, they were spending $2.77 on these items for each dollar spent for hired labor.

Another effort to boost efficiency is reflected in the amounts spent for fertilizer and lime. By 1960, U. S. farmers were spending 4.8 times more for these items than was spent in 1940. This means a great increase in quantity since prices for fertilizer and lime have increased only 50 percent.

Although comparable figures are not available on farmer expenditures for pesticides and herbicides, the trend has been sharply upward, says the specialist. These inputs have tended to keep down the cost of food to consumers, he adds.

The question is often raised, points out Bates, why do farm units continue to increase in size? A major factor behind the pressure for larger units is the use of machinery and the narrower margin received on products marketed, explains the specialist. Today's farmer must invest three to four times as much capital in fixed assets as was needed in 1940 to obtain net returns on a comparable level and the price-cost squeeze is continuing, he adds.

Sue Thomas spent last week in Petersburg the guest of a cousin, Linda Ellard. Mr. and Mrs. Thomas went for her Sunday afternoon.

Mr. and Mrs. Buck Ragsdale, of Baileyboro, spent the weekend with her parents, Mr. and Mrs. R. C. Ross.

Mrs. Ross' brother and wife, Mr. and Mrs. Bob Guffee, of Hale Center, visited in the Ross home this Monday.

Mr. and Mrs. Doyle Sandifur were in Quanah Saturday and brought to her home at McCoy his sister, Mrs. Joy Nell Fuston, who had surgery recently. Mrs. Fuston is convalescing at home.

Mr. and Mrs. O. C. Vinson were hosts at a party in their home Friday evening honoring a former neighbor, Mrs. Charles Denning, who now lives in Central Texas. Others present were Mr. and Mrs. Burl Huckabee, Mr. and Mrs. Frank Dunn, Mr. and Mrs. Oliver Allen. They visited a great deal, also played some 84.

Mrs. Evelyn Edmondson, of Harlingen is visiting her parents, the O. C. Vinsons. She will take home her daughter, Gay, who has been visiting her grandparents and other relatives on the plains this summer.

Mr. and Mrs. Mankins visited the Ross' this Monday morning.

The Mankins and the J. E. Greens were among the many who called to express congratulations to Mr. and Mrs. Henry Love, Floydada, who were celebrating their golden wedding anniversary.

Mrs. K. J. Matthews and a daughter, Mrs. Ruby Stone, of Phillips, visited over the weekend with the J. E. Greens. Sunday afternoon Mr. and Mrs. Claude Denham, of Lubbock, came and took Mrs. Matthews back with them for a visit. Mrs. Stone returned home Sunday.

Mrs. Stone and the Greens visited in the D. I. Bolding home Saturday afternoon. Mrs. Bolding was ill and was taken to the local hospital this Monday for observation, etc. Seems improving.

The J. E. Greens reached home Friday morning from a trip to Del Rio where they went last Monday to see Mr. Green's brother and wife, Mr. and Mrs. Tom Green.

Tom has been ill for several months. The visit seemed to help all concerned. The J. E. Greens had a nice brief visit during the bus "rest stop" in Big Spring with their son, Don Clark, on the way down Monday afternoon. It was hot also down state.

May I share with you this poem which was framed with a picture of a son in our room at the Tom Greens?

Someone Had Prayed

The day was long, the burden I had borne
Seemed heavier than I could longer bear.
And then it lifted, but I did not know
Someone had knelt in prayer.
Had taken me to God, that very hour,
And asked the easing of the load, and He
In infinite compassion, had stooped down
And taken it from me.
We cannot tell how often as we pray
For some bewildered one, hurt and distressed
The answers come, but many times those hearts
Find sudden peace and rest.
Someone had prayed, and Faith, a reaching hand
Took hold of God and brought him down that day
So many, many hearts have need of prayer
Oh, let us pray.

Dougherty News

By Mrs. W. J. Ross

DOUGHERTY, August 20 — Farm activities are varied at this date. Irrigation is still in progress. Hoe hands are busy. A limited number of fields of cane have been cut and a few fields of early grain have been combined.

Local people receiving Bachelor of Arts or Bachelor of Science degrees at college commencement exercises this week are Mrs. Dale Smith, of West Texas State College, Canyon, Mrs. Jim Dewese, of Wayland College, and Bill Hunsucker of Texas Tech.

Mrs. Smith has shown a lot of courage and perseverance in studying for her degree. She married early in her college career and has been a home-maker, worked in an office in Amarillo while her husband completed his college work. Then they have lived on the Smith farm near Dougherty and she has driven to and from Tech at Lubbock two semesters and several semesters drove from home to Canyon daily to complete the college course. She has a young son, Shawn, who has spent his days with his grandmother, Mrs. G. W. Smith, while his mother pursued knowledge. Mrs. Smith estimates she has driven approximately sixty thousand miles while attending college.

She is quite appreciative of the family cooperation which has made it possible for her to achieve this goal. She plans to devote her time to being a home-maker and mother for the next few years but is hoping for a teaching career in the future.

Mrs. Dewese has also overcome difficulties while pursuing her college course. After she was left a widow with two daughters she returned to college to prepare herself for a teaching career. In addition to her home duties and studies she was employed as recreational director at the Baptist Church in Plainview. In December of 1961 she married the Rev. Dewese. At latest report she hadn't accepted a position but she plans to teach.

Bill's college days were more of the typical youthful college student. He graduated from Crosbyton High School and entered Tech that Autumn. He had intervals of office work and during his senior year graded papers for a professor. He married in June of 1961. He completed the college course in mid July and since that time has been employed with the Pan American Oil Company at Ft. Worth.

Bill and Jenny Lou are expected home this weekend so he can participate in the graduation exercises and will visit in the homes of her parents, Mr. and Mrs. Miller, of Crosbyton, and his parents, Mr. and Mrs. Noble Hunsucker, of Route 1, McAdoo.

Mr. and Mrs. L. B. Gowan, of Temple, were recent house guests in the home of Mr. and Mrs. J. E. Newton. The ladies are sisters.

Mr. and Mrs. B. F. Priddy, of Ralls, were supper guests in the W. J. Ross home Sunday.

Mrs. B. A. Russell, grandmother of Mrs. Dale Smith, and a friend of Mrs. Beth Burrett, of Sherman, will visit in the Dale Smith home this week and attend commencement exercises at Canyon.

Mrs. J. R. Thomas and Mr. and Mrs. Edward Adams, of Smithfield, and Mrs. Warren Carter and family were house guests of Mr. and Mrs. Howe Hines over the weekend. Saturday evening and Sunday the Hines family and their guests attended home coming at Dumont.

Hal Dean Hines is home after spending several weeks at Naval Officer Candidate School at Newport, R. I. Hal Dean will be a junior at Tech this year.

Mr. and Mrs. Jim Morrison and daughter, Mrs. Harlen Cage, are visiting relatives in the vicinity of Waco.

Mrs. Mattie Davis, of Burleson, accompanied by Mr. and Mrs. Billy Davis and Billy, Jr., of Ft. Worth, have visited in the homes of Mr. and Mrs. C. A. Caffee and Mr. and Mrs. Bill Poole. Mrs. Mattie Davis is visiting with her sisters while the Billy Davis family are vacationing in Colorado.

Talmadge Lynn, of Memphis, Tenn. was a house guest in the home of Mr. and Mrs. Johnny Cates last week. Ray Crumpler, of Abilene, was a house guest over the weekend.

Friday evening Mr. and Mrs. Greer McClesky, of Bartlesville, Okla., were guests in the Johnny Cates' home. She is Johnny's sister.

Sunday guests in the home of Mr. and Mrs. Johnny Cates were Mrs. Check Kelso, Nancy and William Howard, of Wichita Falls, the James Burke family, of South Spring, S. Dak., Mr. and Mrs. Jim Tye and family, Mr. and Mrs. Leslie Fawver and family, Mr. and Mrs. D. W. Burke, of Floydada, Mr. and Mrs. Lawrence Burke, of Plainview, Mr. and Mrs. J. D. Cates and family, of Lubbock, Linda Clark, of Abilene, and Buddy Earl, of Childress.

Mr. and Mrs. R. C. Bullock and children were dinner guests of Mr. and Mrs. Robert Ward

Mr. and Mrs. J. W. Womack and family of Dallas, are house guests of her parents, Mr. and Mrs. Claud Ring and will visit other relatives in this area before returning home.

Mrs. H. H. Hazelton and daughter, Athenia of Baytown, were guests in the Claud Ring home last week. On Thursday Mrs. Ring accompanied her guests to Plainview to attend the Webster family reunion.

HOMEMAKING HINTS

How to Select a Mixer

If you are shopping for a mixer, list your needs and wants, then check for these convenience features.

CONTROLS AND SPEEDS — both right and left handed people find control switches on top easier to use than those on the side. Is the speed range adequate for all mixing jobs, and does the speed control increase or decrease smoothly as you change the speed control?

STABILITY WITH LIGHT WEIGHT — the mixer should be wide and heavy enough at the base so as not to be easily knocked over, yet as light in weight as possible for portability.

POWER HEAD — Should be firmly fastened to the stand, yet easy to remove and attach if designed for use as a portable unit. The motor should have a radio-interference eliminator.

RESERVE POWER — should be enough to handle heavy batters, with a motor built to last. The motor should have a sealed-in lubrication for cleanliness and convenience.

BEATERS — should be easy to insert and remove. Automatic ejectors save the messy job of pulling out beaters coated with batter.

ATTACHMENTS — that are easy to insert and remove.

BLADES — that are easy to clean. Smooth blades are more easily cleaned than ridged ones.

BEATERS AND BOWLS — that are designed to feed the food into the beaters with the least manual aid. Most mixers are designed with the bowl off center in relation to the beaters so the action of the beaters on the mixture makes the bowl revolve unless the moisture is thin.

4-H Records Judged

Nine Senior 4-H Records were judged at district last week to determine records to be entered in the State record judging. 4 of these will be judged at State. Junior records entered were those of: Donna Fowler, Jim Kropp, Phil Kinslow, Neil Mitchell, Ricky Kellison, Bill Bollman, Larry Scott, Lindsay Lovell. Beverly Pierce and Linda Abbott.

"We're glad daddy bought us a dishwasher," say Mrs. Kenneth Ware and daughter, Carrie, 208 EAST 21st LITTLEFIELD, TEXAS

Mrs. Ware's experience is most interesting — and enlightening. She had heard tales about dishwashers — untrue tales, of course, but how was she to know. Well, despite her objections at the time, her husband had a dishwasher installed in her new home. She says, "Now, I'm sure glad he did. I'll admit that I was completely misinformed, as I understood each dish had to be hand-washed first — this simply is not true. My electric dishwasher does the complete washing job for me."

Air Conditioning experts agree...

WATER cooling is BEST!

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple . . . 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you CONSTANT EFFICIENCY, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating COSTS REMAIN CONSTANT, while air cooled equipment operating costs rise as much as 23%.

KING-SIZED FILTER — double Sun Valley's double filtering capacity STOPS ALL HOUSEHOLD ODORS! It even tames cigar and fish odors, giving your home Spring-like freshness all year long.

NO MOVING PARTS — . . . in the heating or cooling cycles of the Sun Valley . . . nothing to wear out or break down! Sun Valley is year-around comfort for the mortgage life of your home!

CONSTANT EFFICIENCY — Sun Valley has no comfort-robbing friction to run up your operating costs. It doesn't cost a penny more to operate the Sun Valley for an hour when it's 115° than it does when the temperature is 90°.
