PIEDRAS NEGRAS IS EVACUATED

CONSTITUTIONALIST TROOPS LEAVE BORDER TOWN AND HEADQUARTERS MOVED.

REFUGEES CROWD BRIDGE

Rebel Leaders Say Troops Are Being Mobilized South of City to Battle Federals.

MESSAGE FROM GEN. CARRANZAS

Piedras Negras, Oct. 1.—A message just received from Jesus Carranzas by United States military authorities says that the capital has been abandoned temporarily and the constitutionalists are concentrating their forces 25 miles north of Sabinas for a last desperate stand against the federals.

By Associated Press.

Piedras Negras, Oct. 1.—Confronted by the implied ultimatum that United States soldiers would be used to prevent the destruction of the International bridge as well as property of Americans in Piedras Negras, all of the responsible chiefs of the revolutionary movement disappeared from Piedras Negras, their military capital, leaving the town at the mercy of the federals should they decide upon a filibustering attack from the American side.

After deserting the city constitutionalists sent a message to Major Caldwell of the Fourteenth United States Cavalry, telling of the desertion and requesting that troops be used in preventing filibusters crossing the river. In the meantime a spirit of anarchy which was apparent was sternly repressed by the few remaining constitutionalists left in Piedras Negras, and several looters were shot down in the streets. At noon today the constitutionalist headquarters were closed and word was passed that dynamite had been planted under the foundation and that it was dangerous to attempt to enter.

Thousands of refugees are attempting to cross the bride, fearing the approach of the federals, and the bridge was blocked today. An effort was being made to bring order out of chaos. In explanation of the abandonment of the city, the constitutionalist officials, still on the scene, assert the entire available fighting force is being mobilized to meet the federals at a point south of the city.

Many Cross Into the United States.

Terror has gripped this city, the provisional capital of the constitutionalists, with the victorious northward march of the federals and the arrival of hundreds of refugees from the surrounding devastated country.

A steady stream of people poured across the international bridge Tuesday afternoon, many carrying on their backs what they had been able to bring with them when they fled from their homes. Many Americans were among them, following two official warnings to proceed to Eagle Pass, on the American side. Rioting and pillaging is feared as the disorder grows worse.

Failing to obtain assurances that the property of foreigners will not be molested, after formal protests of the United States department of state were lodged with the constitutionalist chiefs through Consul Blocker, it is understood that an ultimatum will follow the first attempt to interfere with foreign property. What form this will take has not been made known.

Major Caldwell of the Fourteenth cavalry has requested reinforcements for the American garrison at Eagle Pass.

Fighting Expected Soon.

Reports from the front assert that fighting is expected to start at Sabinas Wednesday morning. The constitutionalists are short of ammunition, and it is feared here that they will be forced to fall back on Piedras Negras or Matamoros.

Seventy-three Americans crossed the international bridge. W. W. Vaughn, a well known engineer, and Alford Williams, druggist, were peremptorily ordered to vacate their homes with their families, on constitutionalist notification that the property would be destroyed despite any protest to the American government on the ground that it was owned by federal sympathizers.

Many Refused Admission.

Many Mexican refugees and a large number of Japanese were refused admission to the United States. It was said that the Mexicans were likely to become public charges and that the Japanese had not made proper application. An appeal to Washington for exception in the latter case will allege that the Japanese are in danger of death from the federals for having aided the constitutionalists.

Whether the wounded constitutionalists will be barred has not been decided. Freight cars have been placed in readiness at the hospital to remove them to safety should the federals get in striking distance of the city.

DEPORTED MEN JUMP INTO THE HUDSON

Take Chance With Death Rather Than Be Deported to Country From Where They Came.

By Associated Press.

New York, Oct. 1.—Four men who were to have been deported on the steamer France, obtained liberty or death today by leaping forty-five feet from an upper deck of a steamer to the Hudson river, as the vessel lay at her pier. All trace of the men were lost, but the finding of two lifebelts in the river led to the belief they had perished. The men were confined in a cabin adjoining the hospital cabin. They escaped by cutting a hole through the wall.

SOLID WALL 40 FEET THICK HIS PRISON

Rescue Party Working Furiously to Reach Miners Entombed Since Friday.

By Associated Press.

Centralia, Pa., Oct. 1.—The rescuing party at the Continental mine of the Lehigh Valley Coal Company, which is trying to reach Thomas Velosky, who has been imprisoned since Friday, arrived at a point this morning which showed that forty feet of solid coal and rock would have to be cut through before the imprisoned man could be reached.

Velosky is undergoing the terrific ordeal bravely in his prison one hundred feet below the surface. Frequently members of the rescuing party conversed with him during the night, his remarks being heard very clearly through the fifty feet of tubing penetrating the coal from an adjoining chamber.

TRIED TO LYNCH ACTORS IN PLAY

"TAKING OF SCUTARI" WAS TOO REALISTIC FOR IMPRESSIONABLE MONTENEGRINS.

AUDIENCE WAS VIOLENT

Made Rush for Stage With Intention of Lynching Actors Representing Turk Characters.

By Associated Press.

Cettinge, Montenegro, Oct. 1.—A riotous outbreak almost resulting in the lynching of several actors representing Turk characters marked the first performance of King Nicholas' play, "The Taking of Scutari," last night, when the actor who played the role of Essed Pasha, the Turk commander, came on the stage, a youth sprang to the platform, brandishing a revolver, and with difficulty was prevented from shooting the actor. When a member of the cast began to describe the assault of Parabosh, several veterans seated at the front of the audience denounced him as a liar.

When the third act showed the Turks in retreat the audience rushed for the stage with the intentions of lynching the wearers of the fez and the police were compelled to use force to restore order.

WOULD HAVE RED MEN CHECK BEEF SCARCITY

Washington, Oct. 1.—The latest effort of the government to check the present scarcity of beef consists in enlisting the aid of the red man to raise cattle for the market. Not only is Commissioner of Indian Affairs Sells stocking the big Indian reservations with large herds of fine breeds of beef cattle, but is mapping out plans for improving and developing the livestock of the Indians. In many instances the Indian has shown considerable aptitude for handling livestock and to encourage him the commissioner has authorized the purchase out of Indian funds of beef cattle herds for a number of reservations.

Commissioner Sells has issued advertisements calling for bids on 9,000 head of cattle for the Crow Indian reservation in Montana.

Conference Report Passed In House.

Washington, Oct. 1.—The report of the conference committee on the democratic tariff bill passed in the house of representatives late Tuesday by a vote of 254 to 103, a majority of 151 votes. On May 8 the House passed the Underwood bill by a vote of 281 to 139, a majority of 142. This shows that the conference report was adopted by nine more majority than was the bill itself last May.

This was due mainly to unpaired absentees. Four progressives, Cary of Wisconsin, Kelly of Pennsylvania, Kent of California and McDonald of Michigan, and three republicans, Mahanihan of Minnesota, Rupley of Pennsylvania and Stafford of Wisconsin, voted for the conference report. On the other hand, four democrats, Donohoe of Pennsylvania, Broussard, Morgan and Lazaro of Louisiana, voted against the adoption of the conference report.

WOULD APPLY RECALL TO SIN KILLER GRIFFIN

Some Believe There Has Been Enough Rain for Present—Would Stop Negro Evangelist.

The suggestion that the "recall" be applied to "Sinkiller" Griffin was made this morning. "Sinkiller" brought the rain that broke the drought and he has brought several others since then, including the one this morning, according to his own admission. Those who believe that this raining business has gone far enough are planning to see if the new charter cannot be brought into use.

The morning's rain was not heavy in the city, but was quite heavy at other points in the county. Downtown there was not much more than a heavy drizzle. The rain appears to have been local in txtent.

THE PROSECUTION RESTED AT 2:30

OPENING OF GOVERNOR SULZER'S DEFENSE IS EXPECTED TO START IMMEDIATELY.

ESTABLISH A CONNECTION

Governor's Go-Between Opened Mysterious Account "100" With Wall Street Firm.

PROSECUTION RESTED AT 2:30 TODAY.

Albany, N. Y., Oct. 1.—Counsel for the board of managers rested their case in the Sulzer impeachment trial at 2:30 o'clock this afternoon.

By Associated Press

Albany, N. Y., Oct. 1.—Direct connection between "account by 100" and Governor Sulzer was established today when J. B. Gray of the Wall street firm of Fuller and Gray who handled the account testified before the impeachment court that Frederick L. Cowell was the person from whom he received orders in the stock transaction. Cowell was the alleged "dummy" for Governor Sulzer in his Wall street transactions.

"Did you have a conversation with Cowell in October, 1912 in respect to opening an account?" Attorney Brackey asked Gray.

"Yes he asked me to get a quotation on Big Four. I quoted it and he gave me an order to buy 100 shares. He made two payments against the stock when it was delivered one of $1500 and one of $1000."

Gray said on October 28, $500 more was paid for the stock. On October 31, $8,825 was paid, all in currency. This amount, he said, was paid by Cowell to the witness personally and to his employer Frederick A. Coe, who delivered the stock to Cowell. It was this stock which the board of managers claimed and which the witness testified was bought for Sulzer.

He then proceeded to another room where he killed his employer's mother, then killed Nabit's three children, sparing a fourth, lying by their side. The lad then went to bed and slept calmly until this morning, when the bodies were discovered.

After his arrest he made a complete confession.

DARING ROBBERY ARKANSAS BANK

EIGHT ROBBERS IN BATTLE WITH CITIZENS OF DARDANELLE EARLY WEDNESDAY.

GET AWAY WITH LOOT

Sixteen Charges Nitroglycerine Exploded While Gun Battle Is In Progress Outside.

By Associated Press.

Fort Smith, Ark., Oct. 1.—One of the most daring bank robberies in the history of the state took place at Dardanelles, 65 miles east of here early today when a gang of men estimated to be composed of eight members looted the vaults of the First State Bank, and escaped with several thousand dollars after a gun battle with citizens. Posses are in pursuit.

The robbers were discovered at 1 o'clock when half the town was awakened by a loud explosion. The yeggmen had cut all telegraph and telephone wires. Sixteen explosions in all were heard, the robbers wrecking the vault with nitro glycerin.

Of the funds stolen $700 deposited by the local postmaster belonged to the government. The bank has declined to make known the amount of robbers' loot.

Lookouts armed with rifles were strung about the bank for a block, while two men worked at the safe. As soon as citizens appeared on the street they were ordered back into their homes. John B. Conover, president of the bank and others armed with rifles engaged in a battle with the yeggmen for over an hour and hundreds of shots were exchanged. One robber was injured but escaped.

The robbers stole $3,500 of the bank's funds, according to a statement issued at noon by President Cunover. The bank fixtures were damaged to the extent of $2,500.

SOUTHLAND LINE NOW OPEN ALL THE WAY

Twelve-Minute Schedule Now In Operation on the New Car Line.

Street cars are now running all the way on the new Southland line, two cars being in use, with a twelve-minute schedule. For the present the cars pass each other at the corner of Thirteenth and Lamar, but a turnout is being constructed at the corner of Seventeenth and Lamar, and the cars will pass at that point as soon as it is finished.

The last half mile or so of the line runs through prairie land uninhabited save by the gangs that are building sewers and laying pipe for Southland addition, and the cars do not go all the way to the end unless there is somebody to carry.

Cars now run to the lake only every hour, the first car after each hour being the lake car; the last car goes to the lake at 8 o'clock, and this arrangement will continue through the winter. During the summer when traffic to the lake was heavy, a twenty-four-minute schedule was maintained.

UNION RAILROAD STATION FOR ALTUS

Altus, Okla., Oct. 1.—Cage Beach, mayor of Altus, has received word from one of the members of the Oklahoma corporation commission that the Frisco, Orient and Northwestern railroads will be ordered to erect and maintain a union passenger station at Altus. While the formal order has not yet been issued, it will be in a few days, and has only been held up because of the absence of one of the commissioners from the state. A hearing on the matter was held at Altus several months ago, at which all the railroads were represented by officials and counsel.

Citizens petitioned for the union passenger station because of the distance of each of the three stations from the business part of town, the nearest one being six blocks, and for the further reason that all of the stations were inadequate to accommodate the traveling public. The railroads did not seriously oppose the order, and the new station will stand on the site of the present Wichita Falls & Northwestern building.

DISCRIMINATION AGAINST REBELS IS CHARGED

Claimed Federals Allowed to Buy Provisions In U. S. From Which Rebels Prohibited.

By Associated Press.

Washington, Oct. 1.—Senator Morris Shephard of Texas took up with Assistant Secretary of the Treasury Hamlin a complaint received from H. L. Beach of the San Antonio Light, that the government was discriminating against constitutionalists in favor of the federals in the decision relating to the neutrality laws.

Mr. Beach says the federals are buying horses, saddles and forage at San Antonio and that the assistant secretary has ruled these purchases not in violation of the neutrality laws as the supplies are not manufactured for military purposes. On the other hand Mr. Beach declares, that Col. Ortego of the constitutionalists has been prohibited from exporting provisions for constitutionalist troops, and that the treasury department has arrested merchants at Eagle Pass and Laredo for buying overalls on a treasury department ruling that they were for military purposes.

SENATORS BECOME OBSTREPEROUS

DEMOCRATS DISAGEE ON CONFERENCE REPORT AND ANOTHER CAUCUS IS CALLED.

SEN. REED IN REBELLION

Missouri Solon Wants to Be Shown About Agreements of Conference Committee.

By Associated Press.

Washington, Oct. 1.—The entire conference report on the tariff bill was laid aside for 24 hours in the Senate today because of a pronounced disagreement among democratic senators which resulted in the calling of a party caucus to go over the conference report before it should be finally acted upon in the Senate.

A hurriedly called caucus assembled at 11 o'clock but when the Senate had met at noon no progress forward an agreement on the disputed points had been reached and the democratic leaders agreed to postpone the afternoon session.

The caucus resumed work at 3 p. m.

The so-called insurgent forces led by Senator Reed of Missouri, insisted there were too many compromises and amendments agreed to by the conference committee which demanded further careful study of the bill as reported to the Senate.

FORMER TEXAN ENTERS OKLAHOMA GUBERNATORIAL RACE

Oklahoma City, Oct. 1.—F. E. Herring of Elk City announced his candidacy for the democratic nomination for governor. It has been known for some time in local political circles that he would be a candidate. Mr. Herring is the only so-called "outsider" to announce, the others being included in the present State administration. This brings the list of definite entries up to three, the other two being Secretary of State Ben F. Harrison and Judge Robert L. Williams of the supreme court.

Mr. Herring is a native Texan. He has been a resident of Oklahoma twenty-nine years, coming to Oklahoma in 1884, locating on what was then the Comanche Reservation, now Comanche county. He was one of the organizers of Greer county, where he located in 1886, and was a member of the constitutional convention. At 60 he is engaged in cattle raising and farming, mercantile and banking business in Western Oklahoma, having a chain of department stores in Roger Mills and Beckham counties. His home is at Elk City.

Mr. Herring's announcement says: "I take the position that State government is nothing more nor less than a great corporation in which every taxpayer is a stockholder. I believe that I will be able to systematize and economize the affairs of the State to such an extent that it will reduce very materially the burden of taxation.

GIDEON HELD UP AS AN EXAMPLE

REV. ONDERDONK URGED HEART-SEARCHING AND CONSECRATED WORK BY HEARERS.

BURD[redacted]

Victory Going to Be Won Not In Pulpit But In Prayer Room, He Declared.

Disclaiming that he was a professional evangelist and declaring that he had no especial methods by which he could work up his hearers to a frenzy of enthusiasm, Rev. Frank Onderdonk in the meeting at the First M. E. Church, South, Tuesday night made a simple and straightforward but none the less strong and urgent plea for a heart searching and a consecrated effort to bring a genuine revival.

He declared that he himself was unable to bring to the town or to the church such a revival as was needed.

"There must be co-operation," he said, "your hearts must become burdened."

He took the story of Gideon as his sermon lesson to emphasize the value of a full consecration. "And they stood every man in his place," was the text.

He said God's hopes chosen people had fallen into the worship of idols and even Gideon's father had erected idols to Bael and had planted a grove for the worship of these idols. He then pictured the faith and consecration of Gideon and told of his efforts to bring about reformation in his own home; how he had cut down the grove his father planted and had destroyed the idols.

He compared the consecration and the faith of Gideon with that of a simple, unlettered, poor Mexican woman in the mission at San Louis Potosi. He said that every great revival in that town had been traced to this woman. This woman was so consecrated and had such faith he said, "that she seemed to have her hand on the lever of the very forces of God."

"Where are you tonight?" the speaker asked, "don't bother about the other fellow but settle the question 'Where am I spiritually?'"

Gideon continued the work in his own home, was an example for his hearers, the speaker said. "I don't suppose Gideon had the face," he said, "to go out among his neighbors and try to reform them while the idols still stood in his father's grove?"

He declared that one great test of a man's character was that his own family believed in him. "A man is what he is at midnight in his own home," he said.

Anything we love more than we do God and immortal souls, the speaker said, is an idol in our grove.

Gideon had not sought to take any of the glory of the victory over the Midianites upon himself; he had given it all to God. We must do this, Rev. Onderdonk declared, if we are to have a real revival. "How much vain glory is there in our worship?" he asked. "So often we say 'praise the Lord' when we mean Not I."

"It took faith and faithfulness for Gideon to go out with 300 to meet the mighty hosts of the Midianites. He had gotten victory in his soul. If we are to have a true revival it will not be a victory of the pulpit, it's going to be God's victory and its going to be won in the prayer room."

The meetings are being opened each night with a song and prayer service beginning at 7 o'clock. The sermon begins at 7:30 and the meetings are being closed promptly at 8:30.

IT HAPPENED IN WICHITA FALLS

And is Happening to Wichita Falls People Every Week

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

Mrs. Mary Beck, 712 Seventh St., Wichita Falls, Texas, says: "For years I suffered from kidney trouble, having pains in my back and side and irregular action of the kidneys. I steadily grew worse and about three years ago the trouble reached a climax, when I had to take to my bed. For three months I was helpless and six local physicians said that I had Bright's Disease. I was discouraged. A friend suggested that I try Doan's Kidney Pills and I took them. I began to improve and by the time I had taken the first box, I was much better. Four boxes cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

FRISCO RAILROAD WITHDRAWS FROM NEW ORLEANS

New Orleans, Oct. 1.—The Frisco today withdrew from New Orleans. According to announcement some time ago the road removed all of its soliciting representatives and will have no office here of any kind. Hereafter Illinois Central solicitors will do whatever freight soliciting is done for the Frisco under a traffic agreement with Receiver Biddle at St. Louis. In this case the freight will be shipped via Memphis in care of Frisco lines. Retirement of the Frisco strengthens the impression among railroad men that the Santa Fe system is soon to take over the New Orleans, Texas & Mexico lines and it is even said that a deal is on between the Santa Fe and the Edenborn interests for the purchase of the Louisiana railway and the navigation company so the Santa Fe will have a direct line into New Orleans from Shreveport as well as Beaumont.

RINGLING'S PARADE THREE MILES LONG

Nearly Hundred Nations and Races Represented In Great Pageant October 15.

Something entirely new in the way of circus parades will be seen in Wichita Falls on Wednesday, Oct. 15, with Ringling Brothers' world's greatest shows. The peoples of a hundred nations and tribes will be observed. A large menagerie will be displayed in open dens, fifty corps of musicians from savage tom-tom players to modern brass bands, will furnish the music and teams of camels, llamas, elephants and zebras will be driven like horses. An endless panorama of world wonders will be unfolded before the eyes.

In originating and building this year's street spectacle, the Ringling Brothers have far surpassed all former records. Hundreds of Italian and French artists and property builders worked last winter in the foreign shop of the show at Stoke-on-Trent, England, to turn out this parade. Only the best materials were used. The wagons, dens, chariots and floats are hand-carved. The costumes were designed in France. The flags, banners, scarfs and standards are from the looms of Japan.

The parade is three miles long. It displays 650 horses and two-thirds of the elephants in America. There are 1,280 men, women and children in the line. Among them are Oriental rajahs, ameers, pashas, caliphs, shieks, barbarian chiefs and savage despots. The grandeur of empires and kingdoms is reflected by retinue in regal floats, sumptuous coaches of state, gorgeous chariots, and palanquins and richly decorated howdahs.

In the children's section there are pumpkin carriages, floating bubbles of silken netting and metal clouds, peopled with the characters of fairyland. All the myths of Mother Goose-land are to be seen. There are golden barges, ships of war and aeroplanes. The fete-day scenes of quaint countries are reproduced.

The performance in the main tent is in keeping with the street spectacle. The acts take place in three rings, on two stages, on the race course and in the dome of the tent. The talent of the world is there assembled. There are 375 artists. Of these 300 were selected last winter by the foreign agents of the show from the amphitheaters of Asia, England and the European continent. There are fifty clowns among them. They are as funny a band of fellows as ever cracked a merry jest.

The two performances to be given Wichita Falls will be exactly the same as those presented in the Coliseum at Chicago and will open with the newly added $500,000 spectacle of "Joan of Arc," with 1,200 people, 600 horses, a ballet of 300 dancing girls and a trainload of special scenery and properties. The spectacle retells a wonderful story that every man, woman and child should hear—a true story from French history with a stirring appeal to the heart.

BOBBY MYERS SAYS GIANTS ARE PICKED TO WIN.

Bobby Myers, who was with the "Drillers" last season and the season before and who has just returned from Charleston, West Virginia, where he ended the season, says that the opinion is current in baseball circles nearly everywhere that the New York Giants will defeat Philadelphia for world's championship honors.

Myers is owned by Toledo and was farmed out by them to the Charleston team, which won the pennant in the West Virginia-Ohio league by the narrow margin of three points. He pitched three games for Toledo and will probably be given another trial next season.

ALABAMA MINSTRELS COMING OCTOBER 6

The famous Alabama Minstrels are to play here in their big tent theatre Monday, October 6th. In speaking of their performance the Paris Advocate has the following to say:

"The Alabama Minstrels appeared last night on the FitzHugh lot under tent. The entertainment was one of the best that has been witnessed here in some time and the specialties were all good and the jokes fresh and very interesting. On account of the weather conditions the crowd was not as large as it would have been, but those present were well paid for their time and price of admission. 'Little Willie' responded to a number of encores and was as clever as some of the old timers in his specialties."

Wichita Falls, Texas, Oct. 1, 1913.

Any time you want an attentive and apprehensive audience, just start something regarding the adoption or rejection of our proposed aldermanic city charter.

The non-enforcement or ignoring of any law, state, county or municipal, places those who are placed temporarily in charge of affairs in a position to be criticised. If the law is bad its enforcement will cause its repeal. When anyone rises above the law he then and there places himself in a position to be classed as an outlaw. This is done sometimes by those entrusted with the enforcement of law and right there they violate their oath of office. At least, that is the view The Times has always taken of matters of that character.

Wichita Falls is regarded by many as the only town in Texas, in the class with Temple, which is in reality doing things in way to threaten Temple's supremacy. Wichita Falls has just rejected the commission form of government, by decisive vote of the citizenship.—Temple Telegram.

Wichita Falls is progressive. She does not want to experiment with a fad—a kind of government that gets the people of a progressive city divided and keep them fighting each other, instead of pulling together. Other cities can have it if they want it, but as for Wichita Falls she is willing to compare notes with any city under commission or boss-rule and give them odds, and even then beat their records for doing things.

The scholastic population of Wichita Falls for the year 1913-14 exceeds the combined increase of seven enterprising cities of its class. They are Amarillo, Abilene, Corsicana, Cleburne, Greenville, San Angelo and Temple. This shows to what extent Wichita Falls is growing, and nothing must be done to clog the busy wheels of progress. All the cities named are good ones, and, therefore, the fact (as substantiated by the scholastic enrollment) that Wichita Falls gain during the past year has been more than all of them combined is an evidence of progress that every citizen of Wichita Falls should feel proud.

DOES IT PAY TO RAISE COTTON BY IRRIGATION.

Just why more cotton is not planted and cultivated on land that can be irrigated is a puzzling problem to The Times. It has been demonstrated every year since the irrigation ditch was put in that as much as a bale per acre of cotton can be produced on the land that is irrigated when properly cultivated, while cotton planted on the same kind of land without being irrigated could not be made to produce more than half as much.

C. A. Combs, one of the cotton farmers in the irrigation district, who has a tract of land rented that is located about one-half mile below Lake Wichita, planted to cotton last year fifty acres, and picked and marketed forty-nine bales of cotton of an average weight of 500 pounds. This year Mr. Wright has in seventy acres. So far he has picked and marketed six bales of cotton, and is confident that he will get at least sixty bales from the seventy acres. He says he has on his place some cotton that will make at least two bales of cotton per acre.

The Times has no particular object in urging that more cotton be planted on irrigable lands except for the good of the country. As The Times understands it, this irrigable land can be rented on the same terms as dry lands, excepting that an annual water rental of $2 per acre is charged up to the tenant, and that seems reasonable enough.

AUTOMOBILE STRIKES BUGGY ON SEVENTH STREET TODAY.

An automobile occupied by R. F. Simpson struck a buggy occupied by Attorney W. F. Weeks this morning on Seventh street between Indiana and Ohio. Mr. Weeks' buggy was standing in the only open part of the street, the rest being torn up to make repairs in the pavement. He was not injured, but the shafts were knocked loose from the rig and there was other slight damage.

WEAVING ANCIENT INDUSTRY IN INDIA

Some of Muslins There So Finely Woven as to Seem Not Work of Human Hands.

By Associated Press.

Atlantic City, N. J., Oct. 1.—An interesting talk on the manufacture of Indian muslins, particularly the finer weaves of the district of Dacca, was made today to the National Association of Manufacturers, in session here, by E. N. Murti, of Mandapaki, India, who described at length the primitive methods of manufacture still in vogue there and the wonderful results attained by the native weavers, whose ancestors for centuries have been equally adept in the art.

He contrasted the lot of the Indian and the English workers, saying that the freedom of the former from the struggle for existence that crushes the soul of his English brother left him free to give to his work the contentment of mind and leisure and pride and pleasure in it, which is essential to all artistic excellence.

He said in part:

"Neither tradition nor history can give any precise information about the time when cotton first appeared as an important article in the domestic economy of our Indian household. But as geology has preserved early forms of life upon the earth, so has our Indian society preserved in its different strata the manners and customs of prehistoric ages, side by side with the highest type of modern civilization.

"While the greater part of the world was in such a low state mentally, morally and physically and while they were dressing in skins of animals or in coarse cloth made from grass, flax or wool, there were people living in India who were dressing in fine cottons and beautifully colored fabrics. It is the showy things that first attract the attention of the very primitive people and when the beautifully colored fabrics of the civilized portions of the world were brought to Europe they excited much admiration."

Some of the finer weaves were named by the speaker, among them the "Mulmulkhas," of which a piece ten by three yards weigh slightly over three ounces and may be drawn through an ordinary finger ring. This is made and reserved for the private use of the king. The "Jhuna" a thin net, is worn only by Indian dancers and singers and ladies of the wealthiest classes and the "Subnam" (evening dew) is described as being so flimy that when spread on the bleaching field it can scarcely be distinguished from the dew on the grass.

"As regards the fineness," he continued, "many travelers to India bear testimony. Some of their muslins might be thought the works of fairies or of insects, rather than of men, but these were seldom exported to the foreign countries. Mention is made in the Mahabharat, which has proved to be over 3,000 years old at least, at all events, it was in evidence 1400 B. C., of the presents brought to Udhisthir as the paramount Lord, these included muslins from Gurjar, Karnatic and Mysore.

"The most ancient statutes commonly depict female figures draped in such materials that the form is completely revealed and only lines given to indicate drapery or the pattern of the border. Megasthenes, the Greek ambassador from Alexander the Great, speaking of the customs of the people of India, observed that they wore flowered muslins."

GOODS WILL BE THROWN ON MARKET WHEN BILL IS SIGNED

New York, Oct. 1.—A practical demonstration of one result of the new tariff law will be given almost as soon as the bill is signed by President Wilson. Huge quantities of foreign made merchandise, already imported, will be thrown on the markets in New York and other large centers throughout the country.

For the last two months importers have been storing goods in bonded warehouses, to be held there until they may be admitted under the lower rates to be provided in the new law. The merchandise has accumulated to an extent which has tested the capacity of bonded warehouses everywhere.

Figures compiled by the Journal of Commerce show that goods in bond in New York alone Aug. 31 were valued at $67,301,000.

Keen competition exists among importers to be first in the market with goods brought in under the new law. While it was said that in some cases decided changes would be made in wholesale prices, no estimates were obtainable as to the probable retail effect.

Statistics of the goods on hand in New York bonded warehouses show that the largest amounts of money are represented in linens, hats, silk dress goods, tobacco, wool, champagne and sugar.

CONCLUDES BOVINES ARE IN GREAT DEMAND.

"How much will it cost me to give notice that I have sold my cow?" was a telephone inquiry received at The Times office from E. G. Hill this morning.

Mr. Hill advertised a milk cow for sale several days ago and sold her readily. Since inserting the ad, however, he has been answering about twenty telephone calls a day about the cow. From the number of inquiries he has received Mr. Hill concludes bovines are in strong demand in Wichita Falls.

Wichita Falls Shows Greatest Increase in Scholastic Population

The forthcoming report from the department of education will show greater growth in Wichita Falls than in any of the smaller cities of Texas.

We give below the scholastic census of seven cities in Texas, besides our own, showing scholastic census for 1912-1913 and 1913-1914, respectively.

City—	1912-1913	1913-1914	Increase
Abilene	1,461	1,473	12
Amarillo	1,932	1,932	None
Corsicana	2,406	2,418	12
Cleburne	2,525	2,735	210
Greenville	2,132	2,205	73
San Angelo	1,891	1,958	67
Temple	2,376	2,370	*6
Wichita Falls	1,904	2,539	635

*Decrease.

In other words, the increase for Wichita Falls alone is 267 more than the other seven cities combined. Temple actually decrased six, while Amarillo barely held her own, neither gaining or losing, the only change being one more white child and one less colored. Outside of Wichita Falls, Cleburne makes next best showing, and being the only one of these named above whose scholastic population still exceeds Wichita Falls, although all except Abilene and San Angelo were ahead of us last year.

Fashion Hints
From the Bischof Style Show

Suits that Give New Figure Lines

In the new silhouette, the most striking note is the tapering effect—the width just below the hips and the narrowing down about the feet.

Skirts are longer this season—as long as they can comfortably be worn—and must be draped close to follow the lines of the figure. Many of the most elegant new costumes show drapery at the front, but the skirt that is draped at the side vies for favor. Much of this new drapery flows down from the waistline, swelling somewhat below the hips; again it is introduced in plaits or gathers at the belt with the folds swinging off to right or left or caught in at the sides—styles which maintain the indispensable narrow effect about the ankles.

To be really in the height of the mode, the skirt must be slashed. The slash, as Bischof uses it, is generally the unstitched end of a deep lapped seam and is designed only to relieve the narrowness of the new skirt.

The coats, too, show the tapering effect. The important part the cutaway plays is seen everywhere in connection with the elongated panel back.

The sleeves also accentuate the long, sloping shoulder lines, most of them being of the Mandarin type set low on the arm. As these sleeves are long and fit the forearm closely, they are set into a large, pear-shaped armhole. In every Bischof garment a tiny gusset under the arm insures comfort, freedom and good service.

Come in and see how cleverly Bischof uses every one of these new style features.

You will find a wealth of suggestions—for he has thought out all your needs for Fall and Winter in garments that combine the most fashionable effects with moderate price. Come in and see this interesting collection now; make your selection before the choicest models are taken.

"Bought and Paid For."

Next Wednesday night, Oct. 8, William A. Brady's production of George Broadhurst's "Bought and Paid For," will be presented here. It would not be possible to have a play that had been better received or more highly praised.

To every man is given the ability to create a masterpiece. To some, the ability to create a number of things so utterly fine that each is a masterpiece, apparently. Such a man is called a genius. Such a man is George Broadhurst, and "Bought and Paid For" is the acme of his genius.

When Broadhurst wrote "The Man of the Hour" it was thought he had written himself out. But he followed with that terrific indictment against man's selfishness, "The Price."

And now he offers us "Bought and Paid For" doubtless one of the most superb efforts at character drawing of this or any age. "Bought and Paid For" is a human drama with a terrific "punch." It is an ideal play perfectly acted. Not a superfluous line has been written in it. Not an extra scene has been created to give some particular player a chance to display a particular ability. It is an honest drama, beginning logically, moving smoothly, swiftly and correctly through climax and anti-climax to a hopeful and satisfatcory conclusion.

There is so much natural comedy occurring from first to last that one is almost at a loss to properly classify the play. Of course, it is a comedy, but the humorous relief almost forces one at times to call it a very light comedy, which "Bought and Paid For" is surely not. Just as pathos grips one's heart and that peculiar dry clutch is felt at one's throat, betokening tears, "Jimmy" appears, makes one of his naive speeches and all is changed in an instant. Laughter, good honest, wholesome laughter, banishes all unhappiness. Jimmy is the rainbow in this dramatic rainstorm. Any Jimmy is ever present.

"Bought and Paid For" ran for over fifteen months at the Playhouse, New York; six months in Chicago, at the Princess theater, and over six months at the New theater in London, Eng.

BABY SAVING SHOW SAID TO BE A GREAT SUCCESS.

Philadelphia, Oct. 1.—The "Baby Saving Show" which has attracted such wide attention not only of residents but also visitors and delegates of the many conventions which have met here during the summer, was removed from the city hall today. Officials of the Child Hygiene Association which has had charge of the exhibit were elevated over the success of the exhibit and declared that the results prove that the knowledge gained by mothers in caring for little ones already is having results in decreases of infant mortality. The show will be permanently installed later on in a distant section of the city.

CHARTER READY FOR SUBMISSION

CHANGES MADE IN PUBLISHED DRAFT BY COMMITTEE TUESDAY.

NOW READY FOR COUNCIL

That Body Expected to Order Election at Thursday Night's Meeting for Submission.

The charter committee yesterday afternoon made several minor changes in the aldermanic charter, made formal request of the city council to submit it to the people and finished its labors, so far as the present work is concerned. Incidentally, it declined to adopt a number of amendments offered by Judge Felder and voted him down cheerfully, courteously and unanimously on practically everything he asked for. The Felder amendments defeated were:

Division of city into wards, providing for election of one alderman by people of each.

Division of city into wards, providing of election of one alderman from each by people at large.

Striking out of provision giving council authority to acquire ground outside of city limits for park purposes.

Striking out of provision giving the park board authority to regulate tree planting along sidewalks.

Striking out of provision giving people the right to vote waterworks and lighting plant bonds.

On the third amendment, W. J. Bullock voted with Judge Felder but on the others he was alone. Some member of the committee would second his motion to amend, so as to get the matter before the committee, but that was the extent of his support.

Judge Felder also opposed the motion to ask the council to act this week, saying there was no necessity for such prompt action. Members of the committee replied that he had ample opportunity to study the document.

Saloon Regulation.

The changes made by the committee related to the publication of ordinances and to saloon regulation. On the former, it was decided that franchise ordinances should be published at the expense of the party or corporation desiring the franchise. The saloon amendment provided that no additional tax should be fixed by the city council and practically limited the city's regulation of saloons to the right to forbid their doing business outside the fire limits.

I. R. R. Provisions Inserted.

The initiative, referendum and recall provisions were inserted, and considerable time was spent in getting the sections worded so as to make them clear. They are the same as provided in the commission charter; that is, to recall an official the petition must be signed by a number of qualified voters equal to thirty-five per cent of the total vote cast for mayor at the next preceding election; of this thirty-five per cent, a number equal to ten and a half per cent of the total vote for mayor must have voted for the man whose recall is sought. On initiative and referendum petitions, twenty-five per cent of the number voting for mayor is required. T. B. Noble, J. M. Bell and W. J. Bullock voted against the initiative, referendum and recall provisions.

The motion that the committee adopt the charter as a whole, with the above changes, was made by W. J. Bullock, Judge Felder casting the only negative vote.

CITY OF CLEVELAND GOES INTO BUSINESS

Will Undertake Establishment of Model Village of Homes For Workingmen

By Associated Press.

Cleveland, Ohio, Sept. 30.—The city of Cleveland, home of the 3-cent street car fare and other similar successes along progressive, municipal government lines, today is contemplating another venture which will greatly benefit the "ordinary person" if it works out as planned. Cleveland is going into the real estate business.

When Cleveland gets down to work under the new city charter, which has been called the last word in progressive principles, the city will undertake the establishment of a model village or a community of homes for workingmen that will stand as a great American model of the ideal American home. The city owns a 93-acre tract of land near the outskirts. This will be laid out in lots and streets to form what is hoped by the planners to be a perfectly mapped out city in embryo. Arrangement and naming of streets, parkage, sanitation and every detail that goes to make up the "perfect city" will be planned by the best experts. Homes that would be sold by a private real estate corporation for at least $3,000, will be erected on the plots. They will be sold to 500 Cleveland workingmen for $2,000 and the terms of payment will be within reach of any steady, industrious worker. It has not yet been decided whether title to the land will remain with the city or be turned over to a stock company. Mayor Baker favors the former idea.

Two town planning experts of national fame—Shurdless of Philadelphia and Schmidtlap of Cincinnati—have been engaged to start the project. Architects, landscape artists and "model village" experts all over the country will be asked for competitive suggestions. The best of these ideas will be chrystalized into the Cleveland "model city."

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emery, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work.

I began taking Cardui, the Woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

CITATION BY PUBLICATION

The States of Texas, To the Sheriff or Constable of Wichita County—Greeting: You are hereby commanded to summon C. C. Young by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Wichita County, to be holden at the Court House thereof, in Wichita Falls, on the first Monday in December, A. D. 1913, the same being the first day of December A. D. 1913, then and there to answer a petition filed in said Court on the 12th day of May, A. D. 1913, in a suit numbered on the docket of said Court No. 4612, wherein John Threadgill is Plaintiff, and C. C. Young is Defendant, and said petition alleging that on or about the 5th day of April, 1912, your plaintiff and those under whom he claims were the owners in fee simple and entitled to the possession of the lands hereinafter described which said lands are situated in the counties of Archer and Wichita within the State of Texas, to-wit: That on or about the 1st day of January, 1913, C. C. Young unlawfully and with force in arms entered upon the said lands and ejected plaintiff therefrom, and now unlawfully withholds from plaintiff the possession thereof, to plaintiff's great damage $2,000. That the land so unlawfully entered and withheld from plaintiff are described as follows:

1st. The North on-half of block 8, League 3, Denton County School land, being 77 acres.

2nd. 94 77-100 acres being all of block 9, League 3, Denton County School land, north of Wichita Valley railway.

3rd. All that part of Blocks 1, 11 and 2, League 3, Denton County School land, which lies north of the Wichita Valley Railway Company's tracks.

4th. All of block 24, and all that part of block 19, and 10, League 4, Denton County School land which lies south of the Wichita Falls and Seymour road.

5th. All that part of blocks 12, 3, 2, and 1, League 4, Denton County School land which lies north of the Wichita Falls and Seymour public road.

6th. Blocks 1 and 2 out of the west one-half of the Margaret Ramsey Survey.

7th. All of block 4 and all that part of block 11, League 4, Denton County school land north of the Wichita Falls and Seymour public road being the same land conveyed by C. C. Young to W. J. Price by two deeds of even date.

Wherefore plaintiff sues and prays for citation by publication for judgment for possession and title to said land for writ of restitution and for general and special relief.

And your plaintiff further complaining of C. C. Young, defendant, says, that heretofore to-wit on or about the 5th day of April, 1912, the land hereinafter described was conveyed to one J. M. Hines, and that afterward by mesne said land became the property of your plaintiff. That after making such deed by W. J. Price to J. M. Hines on or about the 12th day of April, 1912, W. J. Price unlawfully and fraudulently executed and delivered to C. C. Young a certain oil and gas lease and pretended conveyance. Your plaintiff says that such oil and gas lease and conveyance above described was void and fraud upon plaintiff's rights and is a cloud upon the title of your plaintiff.

Wherefore, palintiff sues and prays for citation by publication to the defendant, and upon final hearing hereof for judgment against C. C. Young for the cancellation of the said oil and gas lease and for the removal of the cloud upon plaintiff's title and for general and special relief, costs of suit, etc.

Herein Fail Not, but have before said Court, at is aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Wichita Falls, this the 17th day of September A. D. 1913.

BRAIN AND BODY

Alike crave a stimulant and the perfection of all stimulants is a cup of pure unadulterated, honest coffee. That is a brew fit for the humblest toiler or the loftiest king. It stimulates; never intoxicates. Our coffees are the very finest selections, well aged, perfectly blended and fresh roasted, good to drink. You owe it to yourself to try them.
