Mrs. Jim Black Named 'Woman Of The Year'

Woman of the Year honors were bestowed Thursday on Mrs. Jim Black by members of her sorority, Beta Sigma Phi. She was the unanimous choice of the selection committee.

Housewife and mother of two, Mrs. Black is active in community and church activities. She is not a person to say, "Let someone else do it, I don't have time".

"If this person says she will take a job - and she usually accepts - she does it to perfection no matter how distasteful the situation might get at times" said a member of the selection committee.

Involved in many activities with her children, Mrs. Black is a Den Mother for Cub Scouts and is assistant superintendent of the beginners department of the First Baptist Church. She works in Vacation Bible School each year.

She is publicity chairman of PTA and has recently added a new undertaking, teaching elementary physical education. She is also a helpmate in her husband's business, serving as bookkeeper or what ever assignment he might ask. Black is manager of Bob's Farm Supply.

An active member of Chi Psi Chapter of Beta Sigma Phi, she works hard to make every project successful. She served this year as treasurer and will carry out the duties of vice president for the new club year.

The former Elsie Harrison, daughter of Mr. and Mrs. Alfred Harrison of Floydada, she was married to Jim Black in 1958. They are the parents of two children, ten year old Glen and eight year old Janet. The family moved to Hart in 1963.

Try-outs will be held Wednesday for Hart Junior High cheerleaders. Election will be held following the try-outs.

Two Youngsters Tie For Top Spot

There will be two valedictory addresses at this year's eighth grade graduation ceremonies. The unusual commencement is the result of holding identical averages of 93.538.

The two valedictorians are Alberto Guzman and Jim Tucker. Parents of the honor students are Mr. and Mrs. Jesus Guzman and Mr. and Mrs. Lanny Tucker.

Other students with a 90 or more average are Nelda Henderson, 92.115 and Thomas Cunningham, 90.807.

Deryl Clevenger Named 'Man Of Year' By Lions

Deryl Clevenger, Scoutmaster and community leader, was named Man of the Year Thursday night by Hart Lions Club at their annual Ladies Night Banquet.

Master of ceremonies was Elmer Six. Guest speaker was Jimmy Davis, a Lubbock County farmer. Davis showed slides made when he spent some time in Australia.

Invocation was given by Joe Bailey and benediction by Tex Averitt.

Clinton Billingsley, reporting a successful broom sale for the club, presented W. T. King with a check for $350 to be used for the school's band project.

A native of Tulia, Clevenger is a graduate of Tulia High School and Abilene Christian College. He was named ACC Aggie of the Year in 1968.

Serving his ninth year as Scoutmaster of Troop 246, the new Man of the Year has received numerous recognitions in the field of scouting. He has received his Scoutmaster's Key and, in 1964, a National Council Scholarship as a result of his work at Philmont Scout Training Center in Cimarron, N. M.

Delta Tau Alpha, honorary fraternity for agriculture students at ACC, presented Clevenger with a plaque for "Success in the field of agriculture and participation in church and civic affairs."

A lifetime member of Parents-Teachers Association, he has held various local and district offices. He is secretary of the school board and the board of directors of Hart Producers Co-Op Gin. He is also a trustee for Castro County NFO.

Hunting and collecting Indian Artifacts is his hobby and he is a charter member of Hi-Plains Rock Club of Plainview.

Clevenger is married to the former Joan McCasland of Tipton, Okla. They are the parents of three children, Iona, DeeAnn and Duane.

Iona, 19, is a student at Lubbock Christian College. Dee Ann is 16 and a sophomore at Hart High School. Duane, 14, is an eighth grader.

He is the son of Mr. and Mrs. W. J. Clevenger of Tulia.

Active members of the Edmonson Church of Christ, Clevenger teaches a weekly Bible Class.

May 4 Through May 9 Set As 'Clean Up Week'

May 4 through May 9 was proclaimed Clean Up Week in Hart when the City Commission met in regular session Monday evening in the city hall.

In past years, the city has not had very much cooperation on this type project. Commissioners request that each business furnish either a worker or truck for at least one day during the week.

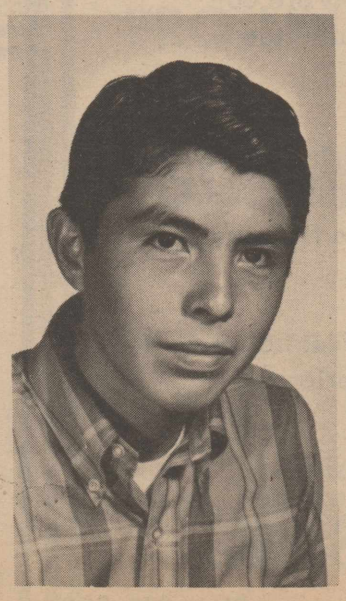

Workers should report to the city hall by 8 a. m. on the day they choose to work.

All out cooperation will not only result in a much cleaner town but will also be helpful in controlling the mosquito problem.

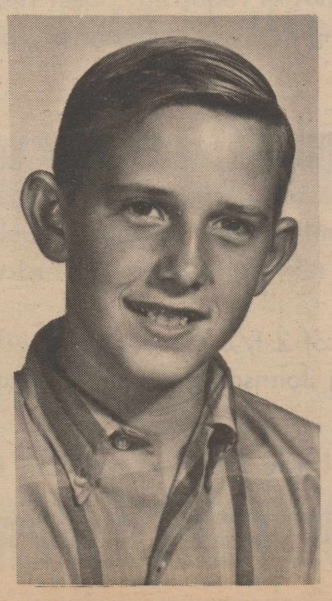

Residents who have rubbish or trash to be hauled away are asked to leave it by trash barrels so that it may be picked up by trucks Friday or Saturday.

In other business Monday, the commission passed a motion that all bicycles be off city streets after sundown unless they are equipped with a light and reflector of at least three inches in diameter.

The action was taken in order to prevent a serious accident.

Lucky Me, I Am An American

BY DIRK RAMBO

We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this constitution for the United States of America.

The preamble to the Constitution of the United States, the document that legally declared this nation on which we, the people, preside, a united government under God.

Many countries, bound in the chains of tyranny and autoracy, were and are being hindered in advancement. Yet, the United States, existing only one-hundred and ninety-four years, has a more stable government and has progressed more than any other country, some of which have existed for more than two-thousand years. This progress is due to democracy.

The privilege of voting and electing an officer, who will represent us fairly, and, as we see fit, was not bought at a low price. This privilege cost the United States and its inhabitants the lives of millions of men and women, and more than twenty-five years of war. I am thankful to the men and women who showed their patriotism by dying for the above privileges.

The most important of the many privileges I have is the privilege to believe in the religion of my choice. Whether Baptist, Methodist, Church of Christ, or Atheist, I can believe the way I want. A man can be abandoned by fellowmen and still have something - his religion. Faith keeps men happy, and the right to assemble and worship fulfills this happiness.

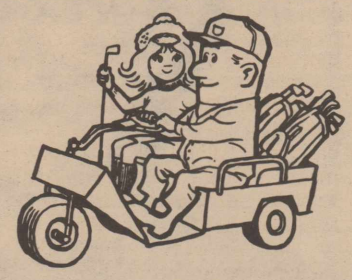

Where but in America can a person grow up in poverty and yet live in luxury during his later years? Quoting Jesse Stuart: "America is a poor boy's country." However, opportunities such a these are not given but are won throu_h hard work.

America is not a system of life or government. America is people. People who think and act. America is not a tangible object, but it is a place where Americans live. As Hal Borland said, "America is Americans."

Men are fighting all over the world to keep America free. The blood of these men is keeping me free, and, if necessary, I shall spill my blood on some foreign soil to keep my posterity free to enjoy the happiness I am experiencing in Ameria. I can truly say that I am lucky to be an American!

Tournament - Man and Woman selective shot, May 2, time 1 p. m., entry fee $4.00 per couple. This tournament will be sponsored by the O.R.C. We would like to have all the ladies who are interested in playing golf to turn out for this tournament. For those who are not familiar with this type of tournament: If you are a woman, your name will be placed in a cap and a man will draw you for a partner. Each player will play his or her own ball for each shot or putt, but will choose to play the best of the two (2) balls from their lie. So golfers turn out for some fun Saturday, May 2.

Repair on the course got under-way Monday with Pro Wayne Allen vertia-cutting each green and with the help of several members has been able to finish top-dressing the greens. We would like to take this opportunity to thank each and everyone for their help and use of their equipment. The greens will be in good shape shortly and we are hoping they will be as pretty as ever.

Bill Smith informed me that the swimming pool will be opened in May so boys and girls get ready for a dip in the old pool again.

Due to high winds this week we have not had too good of scores to talk about, but keep trying; the wind will surely calm - sometime.

Well that's golfing again from O.R.C. Hope to see you out for the Tournament. Ladies do come.

SENSING THE NEWS

By Thurman Sensing

EXECUTIVE VICE PRESIDENT

Southern States Industrial Council

Once again there is serious talk in Congress of beginning impeachment proceedings against Supreme Court Justice William O. Douglas. This time, such proceedings may carry.

In 1953, impeachment proceedings were started because of Douglas' role in staying execution of atomic spies Julius and Ethel Rosenberg, but the attempt died in committee.

Now, many members of Congress -- not to speak of the general public -- are gravely concerned about Justice Douglas' endorsement of violence in his new book, "Points of Rebellion." He said in this volume that "violence may be the only effective response in dealing with the establishment." Such a statement would not be remarkable for a Black Panther or some New Left kook marching on the Berkeley campus of the University of California. But it is shocking and scandalous for violence against our free society to receive endorsement from a member of the U. S. Supreme Court. This endorsement may well be regarded as coming under the constitutional grounds for impeachment.

The procedure is for the House of Representatives to propose impeachment and for the Senate to serve as jury. Demands for impeachment proceedings have circulated since 1969 when investigative reporting turned up the fact that Douglas was employed by a charitable foundation with links to Las Vegas gambling casinos. Many Americans also were outraged in 1969 when they learned that Douglas had written an article for a magazine whose publisher had been convicted of violating federal obscenity laws.

Whatever the fate of the moves in the Congress, the country has ample reason to be appalled at the way a member of the high court has abused the constitutional system and free society of the United States.

One of the most telling chastisements he has received came in mid-April from Dr. Sidney Hook, a retired professor of philosophy at New York University and a liberal. Dr. Hook, who has expressed alarm at the anarchist influences on many campuses, took Justice Douglas to task for gross irresponsibility. He declared in a Brooklyn Law School symposium that Douglas' book was a "sheer caricature" of the situation in the country today, saying it reflected a "profoundly disquieting" confusion between legitimate dissent and violence, which showed a willingness on the Justice's part " to sacrifice democratic due process" even though that might mean "opening the doors to anarchy."

The professor warned: "Those who resort to violence or write apologies for rebellion are preparing the way for the very police state they fear. Exaggeration, thy name is Justice Douglas!"

Perhaps the most disturbing aspect of the Douglas situation is that he wasn't removed from the Supreme Court years ago. Here is a man who opposes everything the United States stands for, who expresses contempt for its way of life, who abuses those who wear the uniform of their country, and who, finally, makes a blatant, open endorsement of violence -- terrorization of the country. If our standards of belief and conduct had not been so terribly eroded by years of liberal permissiveness, Douglas would have been impeached long ago and stripped of his pension.

It is shocking to think that a man who endorses violence against the institutions of American life is still sitting on the nation's highest court, still casting votes on vital constitutional and legislative matters Douglas is in a position to interpret the Constitution which he regards as unjust. The shame of having Douglas on the Supreme Court is deepened when one realizes this is a jurist who, as Senator Strom Thurmond pointed out a year ago, was involved "in a mobster operation" in his former association with Las Vegas Casino interests.

One of the most devastating indictments of Justice Douglas was made by Rep. William Scherle (R-Iowa), an influential member of the House Education and Labor Committee. "As a member of the highest tribunal of the land," he said, "his (Douglas') sworn duty is to uphold obedience of law. Instead, he openly advocates the flouting and breaking of law." Calling Douglas the "self-appointed messiah of the hippies and yippies," Congressman Scherle declared, "this is the kind of mentality and morality that is now sitting on the highest court of the land handing down decrees momentously affecting the lives and affairs of tens of millions of citizens throughout the land."

Clearly, the time has come to remove a stain from the nation's court by impeaching Justice Douglas. This important task is long overdue.

Financial Facts

By Willis A. Hawkins, Jr.

Do you know the origin of the pawnbroker's three brass balls? Originally it was the traditional emblem of the Medici family.

The name Medici is derived from the art of medicine. The early members of the Medici family were physicians. A pill was their trademark.

In Medieval times pills were gilded to appeal to the rich. The Medicis adopted three gold pills as their coat of arms.

The Medicis introduced money lending into England. This continued up to Edward III's reign.

To indicate their place of business, they displayed the three gold-covered balls. And so the crest of a family of nobility became a wordly symbol of lending, a symbol quickly recognized wherever displayed.

Ben Ramsey Speaks Out For Air Pollution Control

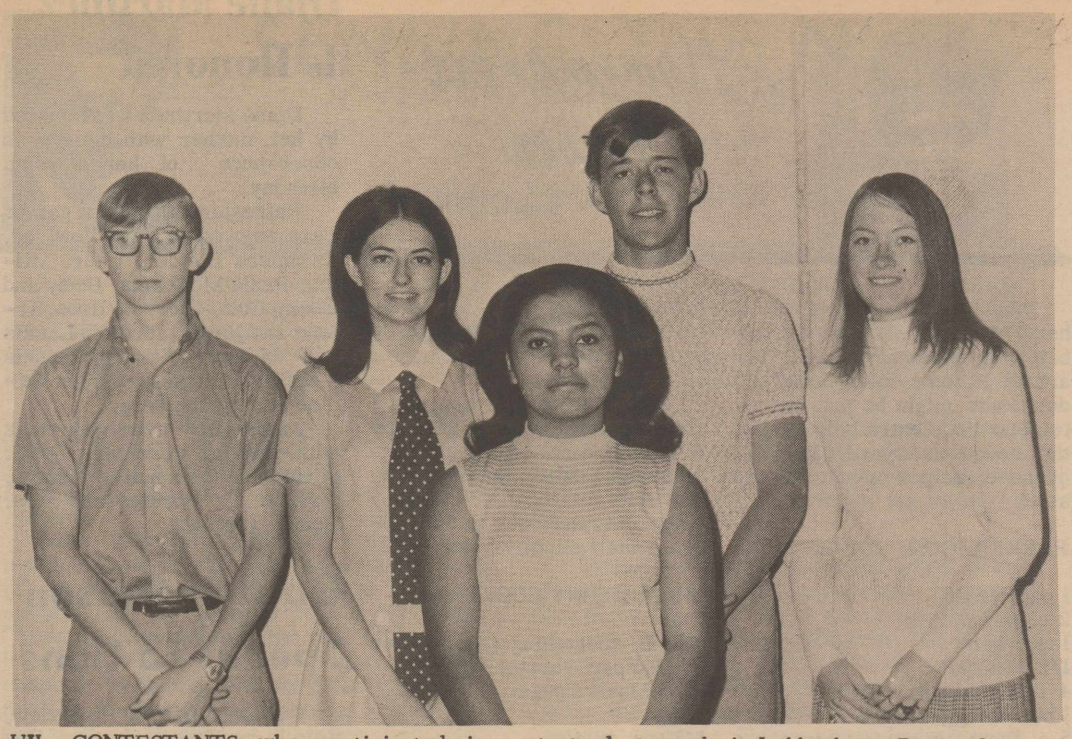

Railroad Commissioner Ben Ramsey said here today propane, butane and mixture fuels of liquefied petroleum gases appear destined for an important role in the continuing fight to control air pollution.

Ramsey is seeking a second full term as a member of the three-member Commission in the primaries May 2.

The ever increasing demand for liquefied petroleum gases as fuel for internal combustion engines, space heaters, and central heating units, Ramsey said, constitutes one of the most dynamic segments of the growing market for petroleum products. These light, pure hydrocarbons burn cleanly and efficiently, he explained, and do not contain the solid particles nor the lethal gases that state and federal authorities have found to be harmful and dangerous to humans, plants and other animal life.

Ramsey said the Commission, responsible for protecting the public health and safety in the transportation, storage and use of these gases, has recently adopted revised requirements tailored to help maintain liquefied gas as one of the safest fuels available to the consumer.

The Commission, Ramsey added, also has moved to help improve the supply and demand situation that has plagued the propane and butane markets in recent years. The said Commission acknowledgment of jurisdiction over the underground storage of these products is designed to help smooth out the erratic supply and demand fluctuations that propane has been experiencing due to its dual role as a fuel and product supply for the chemical industry.

Bureau Begins Count Over

Were you counted in Census '70?

With the 1970 Census of Population and Housing virtually completed locally, District Manager R. L. Butler announced the beginning of a "Were You Counted?" campaign to insure that no resident of the area has been overlooked.

If you think you or your family might have been missed, you are urged to notify the census district office by means of a "Were You Counted?" form. Area newspapers are printing these forms in their current editions as a public service. Prompt mailing of the "Were You Counted?" forms will speed up the compilation of preliminary population figures for the area.

Preliminary figures giving the total population of incorporated places of 10,000 or more population, and for counties, will be issued as soon as the District Manager is convinced that a complete count has been made. Final, detailed population figures will be issued from Washington later this year after returns have been tabulated by the Census Bureau's electronic computers.

The importance of a complete count was stressed by the District Manager. He pointed out that the population figures compiled in the current census must stand as official until the next Federal census.

"Representation in the U. S. Congress and the State Legislature is determined by the population county as ascertained in the census. Federal funds are allotted to States and State funds, in turn, are allotted to counties and municipalities on a per capita basis. So a short count means under representation in the Federal and State law-making bodies and under allottment in government funds. Thus, it is imperative that we have a complete count. The help of every resident of the area is needed to reach this goal," he said.

Growing up

Look at your lanky, teen-age son! It's hard to believe that he once wore these shoes. It seems only yesterday that he was a baby, yet he himself is the best testimonial that the years have passed. Now he stands almost as tall as you. He is a fascinating maze of contradictions—an eager, lovable youngster one minute, a scowling, angry adolescent the next.

It takes patience to understand a teen-ager—patience, and a lot of love. Though he strives to be adult, he is still a boy. Though he clings to childhood, he is almost "grown-up." You may not always be aware of it, but he still looks to you for many things. And he sees in you an example that he will, almost unconsciously, follow in many ways.

Are you setting a good example? How about church, for instance? If you haven't been going lately, start again next Sunday for your son's sake, as well as your own. And don't forget to take him with you!
