Weather Slows City Paving Work; More Blocks Being Lined Up

Twenty-five blocks of paving have been paid for with some twenty blocks already under construction. Collections are in process on an additional sixteen blocks. Some of these blocks in process lack only one or two gaps before they are ready for construction.

Rainy weather has held up construction for the past few days. Mr. Bradley, contractor, estimates that it will require approximately one day to repair the oiled streets and ditches and another day to reshape and roll the base in the other streets ready for oiling. Mr. Bradley pointed out that the rain has caused only minor damage to the oiled streets and ditches. Once these streets are covered with asphalt and rock, much of the problem of rain and dust will be solved.

The Patching Club Board wishes to thank individual property owners who have cooperated with it. Checks to pay for paving that are mailed or brought in save much time and effort on the part of the collecting members. The cooperation of each individual in this paving project along with the help from the County Commissioners and the School Board has made the work move along smoothly and with a minimum of delay. Work can progress much faster if several whole blocks in a continuous line can be collected. This way construction is more easily completed with a minimum of turning and cutting on intersections.

Please continue to contact Mrs. J. R. Porter, Mrs. Lloyd Benson, Mrs. Frank Phelan, Jr. or Mrs. Houston Bell to keep Clarendon Paving Progressing.

STATE CONFERENCE FOR COUNTY AGENTS

The state conference for all county agents will be held at the Texas A&M College at College Station, Texas on the 28th of this month until the 4th of November. County Agent, H. M. Breedlove, will attend this meeting.

The purpose of the state conference is to give all the agents in the state a chance to meet with all the heads of the experiment stations and hear their reports on new types of feeds, cottons, and all types of crops for farming as well as new methods of range improvement and livestock improvement. This gives the agents first hand information to bring back to the people they are serving in their respective counties.

New '56 Dodge Cars On Display Friday

The new 1956 line of Dodge passenger cars will be introduced to the public Friday, October 7, in dealer showrooms throughout the country, and will be featured here at the Bartlett Motor Co.

Viewers of the new cars were promised the first glimpse of an entirely new era in automotive design—both in exterior and interior appearance and in mechanical advancements, by W. C. Newberg, Dodge president.

Outstanding among many mechanical improvements is the revolutionary new "Magic Touch" push-button drive selector which completely eliminates the necessity for any kind of a gear-shift or drive control lever, and brings the automatic driving dreams of yesterday to today's reality.

In the radically new body design for 1956, Dodge has carried the Forward Look into an even bolder, more dramatic form. Unique high-sweep rear fender tail fins lend an aircraft-like effect and mold the flavor of speed into every line of the car, giving it at the same time a pronounced directional appearance.

Four separate series comprise the 1956 line of Dodge Cars: Coronet, offering four-door sedan, club coupe, four-door Lancer hardtop, Lancer hardtop and Lancer convertible; Royal V-8, offering four-door sedan, four-door Lancer hardtop and Lancer hardtop; Custom Royal V-3 with four-door sedan, four-door Lancer hardtop, Lancer hardtop and Lancer convertible. Finally, a new Station Wagon line offers a wide choice of seven Suburban two-door and Sierra four-door models.

Colts Lose To Canadian 34-14

The Jr. High Colts received their second defeat of the season last Thursday night dropping the game 34-14 to the Canadian Jr. High team. Their previous defeat was to Wellington.

The Colts began to find their power late in the game and scored twice in the final period. Lowell Hall scored the first counter and Dennis Bradshaw passed to Wayne Mann for the second.

Coach Christian reported that he was trying to line up a game with McLean at present but has not received anything definite. The next scheduled game for the Colts is Lefors here on the 20th.

MYSTERY FARM NO. 23—Can you identify this farm home? If you think you can and get your guess in to the Leader office by Monday morning you may win a free subscription or free movie ticket. Names of those correctly identifying the Leader Mystery Farm are placed in a box. The first name drawn wins a free subscription for one year to the Leader; the second will receive a movie pass to the Mulkey Theatre good for two people; the next three names will receive a movie ticket for one. Only one subscription will be given per family but you may guess each week and be eligible for the movie tickets. Everyone has an equal chance this way. You do not have to buy anything or be obligated in any manner to participate. Call or come by the Leader office only with your guess any time during office hours.

Rattlers Sink Their Fangs Deep For 46 to 0 Victory Over Bronchos

A salty bunch of Bronchos that made their way to Stinnett last Saturday night, were tamed in a big way by the Stinnett Rattlers by a tune of 46-0.

This big defeat was handed the Bronchos before the largest crowd to pack Rattlers Stadium in the history of the school. It was their home-coming night and they sure celebrated.

Coach Moore stated that "our boys were just not ready for them." Sizing up the entire situation and taking everything into consideration, it was the Rattlers night to rattle. The Bronchos were outmanned and were on the long end of the bad breaks which had a lot to do with their loss of spirit and fight.

The Bronchos battled it out with the Rattlers in the first period allowing only one TD, but when the Rattlers got the wind to their backs in the second period they rolled on for three more. They added one more tally in the third period and with the wind in their favor again in the fourth period they crossed the goal stripe twice more.

Charlie Seeds Wins Trip To Hawaii

"I can hardly wait," was the comment made by Charlie Seeds, local Buick Dealer, after receiving a telegram Tuesday from L. E. Campbell, manager of Buick Division of General Motors, Okla. City, stating that he was the winner of a ten day, all expense paid trip to Hawaii. The telegram read: Congratulations. You are the winner in your division of that once in a lifetime trip to Hawaii. Will send you an appropriate going away gift soon. L. E. Campbell.

Mr. Seeds won the trip by selling 37 new Buicks during the months of August and September. His competition was 128 Buick Dealers in towns of 7,500 population or less in the Oklahoma City Division which covers half of Arkansas, half of Texas and the entire state of Oklahoma.

To make it doubly nice, the trip includes Mrs. Seeds also. Mr. and Mrs. Seeds will leave on the trip to Hawaii December 5th. We would like to congratulate Mr. Seeds on this achievement also - and wish we could be included on the trip to the land of the swishing grass skirts, too.

Former Resident To Be Buried Here

L. M. Price, 77, president of the First State Bank of Stratford, died suddenly Tuesday afternoon in an Amarillo hospital where he had gone for a medical check up. Funeral services had not been announced at last account but burial will be in Citizens Cemetery here probably today.

Mr. Price was associated with his father-in-law, T. J. Noland, in the Dry Goods business here for a number of years before going to Stratford. He is the brother-in-law of E. H. Noland of Clarendon. Mr. Price married Miss Bertie Noland here December 6, 1899.

The couple were the parents of three children, two of whom survive. The son, W. N. (Bill) Price is vice president of the Stratford bank. He is also survived by his widow, a daughter, Mrs. Kathryn Anthony Price Murfee, Houston; a sister, Mrs. Margaret McKnight, Oklahoma City; six grandchildren, including Mrs. J. A. Whittenburg III, and Patricia Price Ward, both of Amarillo; and by three great grandchildren.

CANTERBURY TO PREACH AT EPISCOPAL CHURCH

At 11:00 A. M., on Sunday, October 9th, The Venerable Claude Canterbury, Archdeacon of The Missionary District of North Texas, will celebrate Holy Communion and preach in the Episcopal Church of St. John Baptist, Clarendon.

After service, buffet luncheon will be served in the Mission Hall.

BROUGHT HOME

J. N. Weaver was able to be brought home Tuesday afternoon from an Amarillo hospital where he has been recovering from major surgery.

Grand Jury Makes Report

A Donley County Grand Jury for the October term of court, was in session Monday and Tuesday of this week and returned two indictments along with a statement in regard to county affairs.

Richard Edwin Wasson, now serving a 2 year Federal sentence, was indicted for robbery by assault and violence upon Bessie L. Wagner, near Boydston Switch on July 7th. Charles Gore, of Colorado was indicted for forgery. He was charged with giving a forged check in amount of \$20 to Bill Greene Jr. He is in the county jail at present and will be tried the next regular day of district court.

In connection with the investigation concerning county affairs, District Attorney Allen Harp stated that a thorough investigation was made and that all evidence that could be learned about was presented. Approximately fifteen witnesses were questioned in connection with the investigation, he added.

Regarding the county investigation, the grand jury released the following statement for publication:

"We, the Grand Jury, of Donley County for the October Term, 1955, after due investigation, find that there is a lack of cooperation between the County Attorney and the Commissioners' Court which has probably led to illegal practices in making purchases and sales on the part of the Court.

All sales of county property to be legally made must be made on order of the Commissioners' Court. The same is true of county purchases. The use of any equipment, material or product belonging to the county by any person for his individual benefit is a criminal offense.

We strongly recommend that lawful procedures be followed in the future in the handling of county affairs. We can be reconvened at any time during our term and will take action on future violations.

Witness our hands this 4th day of October, A. D. 1955.

W. W. Noblet, Foreman.
W. D. Priest, Clerk."

Mr. and Mrs. Noel Cudd and Phyllis of Corpus Christi visited a few days last week in the Truett Behrens home.

Broncs To Play Panhandle Panthers Here Friday Night - 7:30 p. m.

Soaking Rain Drops 2.69 Inches Here

So far, October has been a wet month with the total for the first five days now standing at 2.69 inches. According to Tommy Saye's records, this brings the year's total to 22.96 inches which is above normal for an entire year and 6.88 inches over the 1954 total precipitation.

The total moisture for October last year was .85 and the total for September 1954 was .08 compared with a total this year of 1.26. It looks like a wet fall if this type of weather continues.

Saye's official record for the month of September revealed that the temperature reached 96 degrees on the 9th; the coolest day was 65 on the 26th; the hottest night was 67 on the 22nd and the coolest night was 49 on the 26th.

The precipitation for October by days was as follows: .73 on the 1st; .10 on the 2nd; 1.54 on the 3rd; .23 on the 4th and .09 on the 5th. Saye's readings are made at 6 a. m. each morning giving the previous day and night figures.

From all reports, the moisture totals from over the county show as much or more for this month than we received here in town. Willard Knox reported a total of 3 inches at Lelia Lake and 4.25 in Windy Valley since Saturday. Ben Lovell reported 4.26 at Ash-tola which gives them a total for the year so far of 20.47.

Farmers over the area were happy to see the sunshine Wednesday morning and hope for several days of drying weather so they can get back to gathering crops. The moisture was ideal for those wishing to sow wheat or other grains for winter pasture.

Seventeen Girls In Cotton Festival Queen Contest

Seventeen beautiful girls appeared on the stage of the Hedley Theatre Monday night of this week as the contestants in the fourth annual Cotton Festival queen contest. Each girl is being sponsored by a Hedley business firm and voting is expected to become very competitive before the closing date, October 20th at 6 p. m. The winner of the contest will be crowned at the Cotton Festival Coronation ceremonies the first night of the festival at Hedley.

The Broncs meet their next conference foe, the Panhandle Panthers, here Friday night in Broncho stadium. Game time will be 7:30 p. m.

Local fans are eager to see what the outcome will be Friday night after going over the top against Lefors two weeks ago and then having the bottom completely fall out from under them at Stinnett last Saturday night.

Coach Moore reported that the Broncs were showing more hustle this week and seem to be ready to play ball again. We will have all the squad back in the lineup this week and should be able to give the Panthers some real competition, he added.

The Panther eleven is topped off with Jones Hedrick, 170 lb. fullback, who is said to be the main wheel in the Panhandle attack. To date the Panthers have two conference wins to their credit, the first over McLean and a one-sided affair over White Deer last Friday night.

The probable starting line-up for the Broncs as released by coach Moore is as follows beginning at left end: Eddy Joe Baten, Chester Mann, Claude DeBord, Keith Pittman, Billy Mack Hicks, Kenneth Evans and Carl Evans. Robert Mills will be back in at right half, Jimmy Phalley at left half, Jerry Behrens at full and John Payne at the quarterback slot.

The probable starting lineup for the Panthers will be as follows beginning at left end: Charles Starr, Jere Don Mohon, Kent Eagle, Coy Don Mitchell, Charles Miller, Wayne Mohon, Pat Hamilton, Larry Hironos at right half, Teddy James at left half, Jones Hedrick at full and Monty Bell at the quarter position.

Remember the new game starting time and be out Friday night to help them get back on the winning side of the ledger again.

Extra Salk Polio Vaccine Available

There has been extra Salk Polio vaccine made available for the first graders of all the schools of Donley County free of charge. This must be used immediately. Authorization slips will be sent home by your child. Please sign and return to your child's teacher today, Thursday, October 6th. The shots will be administered Friday, stated Miss Ruth Richerson, county School Supt.

Donley County Leader, \$2.50 year

General K. L. Berry, State Chairman for the 1956 March of Dimes, and Maurice Heath, veterans in the fight against polio, point the way to the 1956 March of Dimes planning for Texas. Maurice, age 7, after 5 years of treatment hopes to discard braces and crutches soon. General Berry again leads the fight against polio in 1956.

PRISON RODEO FEATURE

A favorite of the West Coast, where she has been appearing at horse shows and rodeos the past 1 1/2 months, Mrs. Fay Kirkwood and her horse Crown Jewel will be one of the top specialty acts appearing between convict riding events at each of the five big performances of the 24th Annual Prison Rodeo, each Sunday afternoon in October, at Huntsville this year.

set up under the number on the individual worker's social security card.

No earnings, whether from wages or from self-employment, can be posted to a worker's account unless his correct social security number is given. Wages or self-employment income reported without a number, or under an incorrect number, can never be posted unless the correct number is obtained.

John R. Sanderson, Manager of the Amarillo Social Security Office, urges that employers examine each new employee's social security card when he goes to work, copying the employee's name and number exactly as they are shown on his card. Getting this information correctly before the tax return is made will save the employer's time in answering correspondence and personal contacts to try to get the information later. Employees who are not asked for this information should volunteer it when they go to work for a new employer, Sanderson says.

As a final reminder, Sanderson urges employers who receive correspondence from the Social Security Accounting Division concerning missing or incorrect social security numbers to answer the correspondence promptly. A prompt reply to such correspondence, he says, will save the expense of follow-up correspondence and personal contacts by his office.

A representative from the Amarillo of the Social Security Administration will be in Clarendon, on Monday at 9:30 a. m. on October 10, at the Court House.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Joe Hall announce the engagement and approaching marriage of their daughter, Netty Lee, to A2c Fred Kyser of the Amarillo AFB.

Javan Tucker, son of Mr. and Mrs. Tom Tucker, is in Shreveport, La., where he is working with Geo Marine Service International, Inc. as a computer trainee.

MAX JOHNSON IS FEATURED IN TWC OPENING ACTIVITIES

Max Johnson of Brice, son of Mr. and Mrs. J. C. Johnson, participated in the traditional New Student-Old Student Wedding in the Fine Arts Building on the campus of Texas Wesleyan College in Fort Worth, recently, during the opening school activities.

A T.W.C. freshman, he was chosen by the Student Council of Religious activities to be one of the groomsmen in this annual ceremony which dates back before the year 1919.

Traditionally, a representative freshman girl, whose identity is kept secret until the wedding, is "married" to the president of the student body, representing the old students, thus symbolizing the bond of friendship made between the first year students and upper-classesmen.

Dr. Law Sone, president of the college, united the couple in friendship, officially making the freshman class a part of the TWC

family. Lloyd Martin of Fort Worth was the bride and Jack Sanders, student body president from Grand Prairie, was the groom.

More than 1,000 students have registered for the 65th session at Texas Wesleyan College.

Clarendon Chapter Retains Trophy

Thirteen members and Sponsor of Mu Gamma, Beta Sigma Phi Sorority, journeyed to Amarillo October 2nd to attend Area Council Meeting. The Clarendon Chapter won for the third consecutive time the Traveling Trophy presented by the Borger Council in 1953. The beautiful trophy will remain in the possession of Mu Gamma Chapter permanently.

The Trophy is to be on display in one of the business houses window soon.

One hundred thirty six members representing 29 chapters of the Panhandle registered.

The day was spent listening to lectures, attending Church and a delightful and inspiring address by Mavourneen Rustel, Division Chairman from International Office, Kansas City, Missouri. Luncheon was served at 12:30 P. M. Members of the Amarillo Chapters presented several cute skits on the "Good Ole Days", theme for the convention.

The Convention was closed with an informal seated tea with a very impressive Closing Ritual.

Those attending from Clarendon were: Mrs. Lena Morris, Jennie Aten, Kay Bain, Carolyn Ballew, Jane Bownds, Bert Garland, Freida Gray, Frankie Henson, Louise Lamberth, Juanita Phelps, Anne Reeves, Lois Schollenbarger, Edna Smith and Dee Williams.

Delaware was the first state to join the union. It ratified the Constitution on December 7, 1787.

from the County ASC Committee

RELEASE AND REAPPORTIONMENT OF 1956 FARM WHEAT ALLOTMENTS

Questions have been raised on whether instructions will be issued for the release and the reapportionment of 1956 farm wheat acreage allotments. There is no legislative authority for the Department to issue regulations governing the release and the reapportionment of 1956 farm wheat allotments. On August 28, 1954 Public Law 690, 83rd Congress, was approved and read in part as follows: "Any part of any 1955 farm wheat acreage allotment on which wheat will not be planted and which is voluntarily surrendered to the county committee, etc." The language makes it clear that the Congress intended that only 1955 farm wheat allotments could be released and such released allotments could be reapportioned.

The Congress did not write any farm legislation during the session ending this summer. Therefore, 1956 farm wheat allotments may not be released.

Trench Silo Will Keep Feed For Years Says County Agent

County Agent Breedlove says that this fall might be a good time to put in a trench silo and can some of the feed that will not make grain but will sucker out after the recent rains. The trench silo will keep the feed for years and give you good feed at any time that you might need it. All you have to do is dig the trench with a bulldozer or some type of digger and cut the feed with a silage cutter and dump in the pit and really pack it down and it will keep a long time.

Remember the trench silo is a cheap way to store feed; it is free from fire, rodents and will keep for a good many years, Breedlove stressed. The oldest trench silo known is over twenty years and the feed in perfect condition.

Any one wishing information on the trench silo can call by the county agents office.

GM To Support Dealers' High School Driver Training

DETROIT—A plan whereby General Motors will lend financial support to its dealers' program of loaning automobiles to high school driver training classes throughout the nation was announced today by Harlow H. Curtice, GM president.

The plan, under which a special allowance of \$125 will be made to dealers for every new car loaned by them to schools for driver training classes, is designed to help GM dealers meet the growing need for high school driver training cars.

The plan will go into effect immediately, according to the GM president.

"Our dealers already are making a substantial contribution to high school driver training programs in many ways," Mr. Curtice said, "but there is an urgent need for expansion of this work. We believe that our new allowance plan will greatly encourage such expansion and allow General Motors a further opportunity to demonstrate its own interest in supporting this highly constructive traffic safety activity."

Under terms of the plan, any GM dealer who loans a new car to a high school or board of education in his community for student driver instruction throughout the school year will be entitled to the allowance. The allowance will help offset costs incurred in providing special equipment, reconditioning the cars upon return, and absorbing depreciation.

The plan will be administered by the participating GM car divisions—Chevrolet, Pontiac, Oldsmobile, Buick—in cooperation with their dealers.

During the 1954-55 school year, more than 4,000 of the 8,000 driver training cars used in the United States were loaned by General Motors dealers.

"We are proud of the part played by our dealers in this important project," Mr. Curtice explained, "and we are hopeful that the financial support offered under our new plan will encourage even further participation in the project by GM dealers."

The GM president pointed out that General Motors and its car divisions for years have been supporting driver training and safety programs in various ways, including the production of films and booklets and grants to research and development programs.

He added that GM dealers have donated training film kits to more than 3,000 high schools in recent years.

"We feel that high school driver education is one of the most

promising phases of today's highway safety promotion program," Mr. Curtice said, "and we wish to support fully our dealers' participation in the program."

CARD OF THANKS

We wish to thank our many friends for your kindness, sympathy and beautiful floral offering in the loss of our loved one, May God bless each of you always.

ATTEND HOMECOMING

Rev. and Mrs. Ernest Phillips attended a homecoming at White Face, Texas last Thursday. Bro. Phillips held his first pastorate there from 1934 to 1936. They reported a very enjoyable day.

Mr. and Mrs. George Garrison and their daughter and family, Mr. and Mrs. Charles Soderberg and Pamela of Escondido, Calif. arrived Sunday to visit this week in the home of Mr. and Mrs. Frank Whitlock.

Mr. and Mrs. Orgie Behrens of Seattle, Washington visited last week with his parents, Mr. and Mrs. F. L. Behrens, and brother and family, Mr. and Mrs. Truett Behrens, Elaine and Jerry. They left for their home Sunday morning.

Mr. and Mrs. Herman Cross and Annette returned last week after a few days visit in New Mexico. They visited in Brownfield, Texas with friends and relatives. Then on through Carlsbad Caverns; spent the weekend in Albuquerque with relatives; returned home by way of Santa Fe, Taos and Red River.

A/2c Virgil and Frances Geopfert are the proud parents of a baby boy, Paul Eugene, born Sept. 24th. He weighed 6 lbs., 8 oz. He is the grandson of Mr. and Mrs. James Tolbert of Ash-tola and Archie Geopfert of Fort Dodge, Iowa. His great grandmother is Mrs. J. R. Mace of Clarendon.

Veterans Administration today gave three helpful tips to the thousands of veterans planning to start training this fall under the Korean GI Bill.

First, VA said, GI application forms should be filled out fully and completely. An incomplete application can only cause delay, because VA will have to write to the veteran for the missing information.

Second, veterans should be sure they enclose a photostat or certified copy of their service separation paper, along with their completed application form. Without this paper, VA will be unable to act promptly on the application.

Third, applications should be sent to the veteran's nearest VA Regional office, and not to VA headquarters in Washington, D.C. Any applications received in Washington merely will have to be referred to the appropriate regional office—a time-consuming process.

VA said it expects two-thirds of a million veterans to be in training this fall under the Korean GI Bill.

Veterans starting school this fall under the Korean GI Bill can avoid financial troubles by taking along enough money of their own to see them through their first two months of training, Veterans Administration said today.

Under the law, it takes about two months for their first GI allowance checks to reach them, VA explained. Once the allowances start coming, they will cover every month of training completed, as long as veterans make sure their schools file monthly attendance certificates with the VA.

VA gave these reasons for the length of time required to make the initial GI allowance payments:

First, under the law, the allowances must be paid after the end of each month of training completed, and not before. Therefore a veteran could not possibly receive his money the day he enters school.

For veterans who begin training after the 20th of the month, the GI allowances usually are not paid until some time after the end of the following full month of training.

These factors accounts for at least one month's delay, VA said. Second, after the close of the month, the veteran must sign a certification stating he was attending class during the month. The school sends this certification to VA. Usually, a veteran's check should go out within 20 days after the time VA receives the certification.

That accounts for the remainder of the two-month waiting period, VA said.

VA explained that under the Korean GI Bill, a veteran receives a single GI allowance check to cover each month of training. With the help of that check, he must meet all his own training expenses—tuition, books, fees, supplies and the like. VA does not make separate payments to schools, as it does in the case of veterans training under the original World War II GI Bill.

For veterans in school full-time under the Korean GI Bill, the monthly allowance rates are \$110 with no dependents; \$135, with one dependent, and \$160 with more than one dependent.

AUSTIN—Almost everyone is talking about farm prices. In Austin before a meeting of 200 Texas Farm Bureau officials, the Indiana Bureau's president predicted a "depression that will make the 'thirties look like a picnic" if present farm policies continue.

At his Gillespie County ranch U. S. Senator Lyndon Johnson

said the Republican sliding scale of parity lets "prices slide down and mortgages slide up."

In Houston Secretary of Agriculture Ezra Taft Benson retorted in a speech before Texas Citrus and Vegetable Growers. Democrats, he said, left him a "neat package of carefully fused bombs"—falling prices and accumulating surpluses.

Substantial progress has been made, nevertheless, Benson said.

Major strategy to help low-income farmers, he promised, is in the offing.

Drought Aid Announced

Farmers in 22 South Texas counties are eligible to buy surplus feed grain at lower prices. President Eisenhower designated the counties as drought disaster areas at the request of Gov. Allan Shivers.

Applications for relief grain will be taken through Oct. 15. Distribution through supervised retail outlets will continue until Nov. 15.

Insurance Overcharges Hit

A Texas Insurance Commission report claiming "millions of dollars" in excess charges collected by a New York automobile insurance company may touch off a nation-wide investigation.

Commr. J. Byron Saunders reported Texas' findings at a zone meeting of insurance commissioners from six states. All indicated they would start inquiries.

Service Fire Insurance Company of New York overcharged, Saunders said, by putting policy holders in a higher rate bracket than necessary. He reported that so far the company had refunded \$89,000 on the policies checked by the commission.

Attorneys for the company said that if there were excess insurance charges, they were offset by an undercharge on financing.

Service Fire Insurance Company handles policies for Universal C.I.T., finance company with which it is affiliated.

Vaccine Priority Changed

Texas children under five have been added to the priority group for Salk polio vaccine. In other states only five to nine-year olds are eligible.

State Health Department officials obtained special approval from federal authorities, as some 44 per cent of paralytic polio in Texas hits tots under five.

School Inquiries Set

Legislative subcommittee reports on school squabbles at Houston and Irving are due Oct. 21st. Investigations are being made by two-member groups of the house general investigating committee. Rep. Wade F. Spilman, Jr. of McAllen is chairman. Suspension of a school administrator was the origin of difficulties in each town.

No Federal Interference

Federal authorities do not intend to interfere with Texas policing of racial problems. Such assurance was sent by an assistant U. S. attorney general to

Texas' Attorney General John Ben Shepperd.

A Houston Negro organization had requested U. S. Attorney General Herbert Brownell to investigate the Texas Citizens Council. Shepperd sent a telegram advising that Texas enforcement agencies are able to take care of any Texas situation.

Water Problems Studied

Inform the people about Texas' water problem and money to solve it will be forthcoming. Max Starcke, manager of the Lower Colorado River Authority, so advised more than 100 experts at a Water for Texas Conference at College Station.

It will be a lengthy, costly proposition, he said.

Land Buyers Cleared

Honest deals sought under the veterans land program are gradually being cleared. A suspense order, invoked when investigations began, has been moved from 111 accounts. They were "made in good faith," according to Land Commr. J. Earl Rudder.

Another 1,400 accounts, representing a \$3 million investment, still are being checked.

The Right Oil for Right Now is Right Here

TROP-ARTIC ALL-WEATHER MOTOR OIL

- ✓ EASIER STARTING
- ✓ UP TO 45% LESS OIL CONSUMPTION
- ✓ 40% LESS ENGINE WEAR
- ✓ LONGER GASOLINE MILEAGE

At this time of year your motor may be quite cold when you start it, but moments later burning gasoline creates high engine heat. It takes a special kind of motor oil to protect your engine at such opposite extremes.

TROP-ARTIC All-Weather Motor Oil gives this full range protection. It's a winter and summer oil in one. It resists thickening when it's cold... resists thinning when it's hot. It lets you start easily, always... and compared to older types of oils it can even double engine life!

PHILLIPS PETROLEUM COMPANY

IT'S GUARANTEED! Change to TROP-ARTIC All-Weather Motor Oil and use it for ten days or up to 1,000 miles. If you aren't completely satisfied that TROP-ARTIC lives up to all the claims made for it, go to any Phillips 66 Dealer and he will drain and refill your crankcase with any other available oil you prefer. That's how sure we are that you'll be delighted with the performance you get from TROP-ARTIC All-Weather Motor Oil. We guarantee it!

John White Raps
Sending Farm Surplus, Machinery To Russia

State Agriculture Commissioner John C. White claims, in his current newsletter to citizens, strong public support for his stand in a Pleasanton speech, opposing the sending of American agriculture machinery to Russia. White also said he is opposed to marketing our surplus farm products in Russia when millions of people in the free world are hungry.

"Russia apparently is being slowed in military preparations by the failure of collective farming to produce enough food and fiber," White said. "We should give the matter some mature consideration before we aid in building up their agricultural potential. After all, food and fiber are as basic to warfare as guns and planes. Until we are certain of Russia's intentions, I think we should proceed with extreme caution."

White's view is realistic. When we were at war with Germany and Japan, no one came forward with plans to aid the Germans and Japanese, which in turn would have aided Hitler and Hirohito in their conquests. We are engaged in a cold war with Russia, which may break into a shooting war at any time that Russia feels she can win. Communists are engaged in world conquest.

Obviously one of the compelling reasons for Russia's making peace overtures now is to gain time to quell the restlessness of her people at home. The Russian people are restive because of the shortage of consumer goods. Are we to provide the machinery for light industry to rescue Russia before we even know what the Communists are planning? As White said, caution is best until we know their intentions. These intentions must be proved by acts, not by propaganda.

—Editorial page, Houston Chronicle, Sunday Sept. 4, 1955.

DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

There was a wane in the irrigation fever in the Donley District starting with the rains about the first of May this year. How-

ever as farmers watched their prospects of an excellent crop diminish for the lack of a good rain in August or early September, that irrigation fever has returned. Evidence of this is the number of farmers either drilling test holes or making plans to drill tests.

Some of those who have drilled tests recently are: Slaton Mahaffey—three holes, but not a suitable formation. However he

hasn't given up yet. Lee Muse—three holes. One location looked promising enough that Lee has put down a well and is now developing it. Lee is also putting in 1400 feet of underground pipe to make more efficient use of his water. D. F. Miller drilled a test, but did not have a promising enough formation to drill a well. Others who have either drilled test holes or who plan to drill are: T. E. Jones, George A. Shoop, Andy Brown, D. L. Vaughn, Roy Blackman, Harrison Hall, and W. W. Wiggins.

For those who obtain water, the services of irrigation engineers of the Soil Conservation Service are available through the Donley Soil Conservation Dis-

trict. For those who request the services of the District, a progressive irrigation plan can be worked out with them which will allow more efficient use of the water pumped and higher yields at less expense. In line with this plan, engineering services are available for putting it in effect. The cost of these services could run several hundred dollars, if an engineer had to be hired to do them but are free to District co-operators.

Local Boy Admitted To Scottish Rite Hospital

Billy Lynn Rampy, 13 year old son of Mr. and Mrs. J. F. Rampy of Clarendon, was admitted on Wednesday, September 14, to the Scottish Rite Hospital for Crippled Children in Dallas.

Texas Scottish Rite Masons founded the hospital more than 30 years ago in an effort to provide a chance at a normal life and a useful place in society for the handicapped child.

The Scottish Rite Hospital has accepted almost 100,000 children for treatment since 1925. An expert staff plus unique physical facilities and dedication to the welfare of the child, make it an outstanding treatment center which serves the entire state. It is supported by public contributions and bequests.

HEALTH NOTES

Texas State Dept. of Health

AUSTIN — Pharmacists and physicians are key people in the State Health Department's intricate plan for insuring fair distribution of still-scarce polio vaccine.

The plan moved into high gear this week as Texas' 2,700 pharmacists were sent "vaccine usage" forms to be filled out and returned at weekly intervals to state health officials as a means of keeping tabs on every dose of the vital vaccine that is administered to a child of priority age.

"Priority age" is under 10, and pregnant women. It means that only persons in these categories will be eligible for shots. Health Commissioner Henry A. Holle said the priority group was extended from the 5 to 9 bracket because health department records show that the younger age group is most susceptible in Texas.

Best estimates of the number of eligibles set the figure at 2,185,095. Of that number 1,942,645 are children under 10. Both figures based on a statistical analysis of the state population as a whole.

Here are the mechanics of the plan as established by Dr. Holle on recommendations of the State Polio Advisory Committee:

Vaccine manufacturers, by mutual agreement, will sell only to retail and wholesale pharmacists, rather than directly to physicians. Physicians will requisition from druggists or forms supplied by the State Health Department.

The forms, together with a summary of all vaccine distributed to local purchasers, will be forwarded each week to the Communicable Disease Control Division at the State Health Department. Division personnel will use the information to keep a running check on where the vaccine is going, and to do epidemiological studies on polio.

For the present, health department planners have decided to retain 17 percent of vaccine shipments for public use, while 83 percent will be released into normal commercial channels. These percentages are subject to change as conditions warrant, Dr. Holle has stressed.

Limited amounts of vaccine,

part of the 17 percent being held for public use, have already arrived at the State Health Department. Distribution to local health officials will begin after October 1st, upon local request.

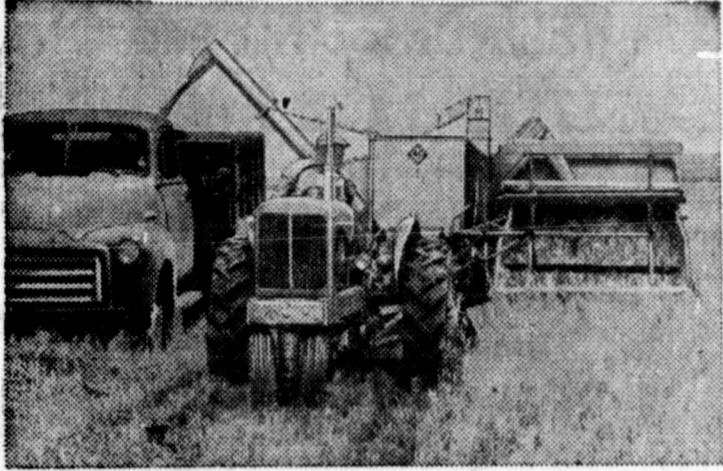

National authorities anticipate that the necessity for tight controls over the vaccine will end this winter.

"But until it does," Dr. Holle said, "cooperation between physicians, pharmacists, state and local health officials and the general public is imperative if vaccine is to go to those who need it most."

Folks who won't get down to business seldom get up in the world.

From where I sit . . . by Joe Marsh

Shades of Tom Sawyer!

Hack Willis had just stopped the tractor so's he could cool off at the pump, when a young insurance salesman came up the drive.

Hack was tired of plowing, and needed insurance on his new barn. But he also needed to get that winter rye in fast. The salesman, an eager kid, noticed hesitation. "I come from a farm," he said. "Why don't you look at these booklets—get all the dope—and I'll take that plow a couple of rounds for you."

Young fellow laid off a pretty straight furrow, too. It was almost dark before Hack—sitting

in the shade—was able to decide just what kind of policy to get.

From where I sit, to be a good salesman—or a good citizen—it always helps to "put yourself in the other man's place." He may have a different sort of job with different problems . . . he may prefer to close a deal over, say, a friendly glass of beer while you might prefer something else. But both of you can co-operate if you make it a "policy" to try.

MINES AND MINING

Another item of prime interest in the coming year will be the domestic mines problem. This is a subject on which we have several schools of thought. Most of the experts are in agreement on a list of approximately seventy-seven raw materials, including mineral and material resources, which are classed as strategic and critical materials, and which have been acquired primarily

from imports from abroad; they are also in general agreement that a substantial part of these materials, most of them mineral in character, are indispensable and essential to peacetime economy and in maintaining preparedness for defense of the nation. The records (and these are public) show that 80.1 per cent of the present stockpile of strategic minerals and materials have been secured from Africa, Asia, South America and other foreign countries. Most experts agree that these sources would be closed to permanent access in the event of international war. The major disagreement lies in whether the United States — until now the greatest producer of mineral wealth in the world—is a "Have

or Have-not" nation which must depend upon foreign nations for strategic minerals and materials. The fact seems to be that this country does not know what it has or does not have in mineral resources. This statement can be supported by the established facts that mineral resource utilization comes about only after (1) prospecting; (2) exploration; and (3) development. Although the U. S. Geological Survey service has been engaged in mapping activities since 1880, as of January 1, 1954, less than 1 per cent of the land area of the United States has been included in geological investigations; only 12.7 per cent has been geologically mapped; and only 31.1 per cent has been topographically mapped by the U. S. Geological Survey.

Most every attempt to aid and promote the domestic mining industry is met with cries of governmental subsidies. Yet we find that the availability of minerals and materials from foreign source has been brought about by our foreign aid programs, stockpile and defense production procurement contracts, lowered tariffs, and the assistance of government mining engineers, metallurgists, and geologists sent abroad to stimulate foreign production. These activities have resulted in a choking off of the domestic production of a number of minerals and metals, including lead, zinc, antimony, and fluorospar. The domestic production of tungsten, manganese, chromite, mica, beryl, and asbestos will be in the same category as soon as government purchase programs for these minerals and metals are terminated.

Some feel that the fight against the domestic mining industry finds its source in the fact that

some big money in this country is invested in foreign mining activities. It might be pointed out that the best way to make this country vulnerable would be to make it dependent upon foreign sources for any indispensable mineral or metal.

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

We had ordered Loula Grace Erdman's recent book, "The Far Journey," several weeks ago, but we did not receive it until this week. This novel has its setting in the Panhandle of Texas.

There are several books for boys and girls that were received this week but they are replacements of worn out copies.

Our Fall issue of Readers' Digest Condensed Books came this week. These always contain excellent stories that vary in the type of books. One of the most widely discussed condensations is Herman Wouk's recent book, "Marjorie Morningstar." Dr. Norman Vincent Peal has his indorsement of these condensations with this copy.

Our October magazines are ready for our patrons. We have quite a variety of them, "National Geographics," "Arizona Highways," "Post," "Presidio" (put out by Ft. Madison prison, Iowa)

all the favorite magazines for women for stories and home life, some Detectives, "Illustrated Mechanics," "True," "Field & Stream," "Western Horseman," "Texas Architect," etc. Our friends are generous to give us their copies, and also have given us numerous subscriptions. Just read as well as watch television—as we make an effort to give you enjoyment.

The zinnia was adopted as the state flower of Indiana, by the General Assembly on March 3, 1931.

WTSC Homecoming Set For Oct. 22nd

CANYON — Homecoming for ex-students of West Texas State College has been set Oct. 22, when annual festivities will again draw thousands of West Texans back to the campus. A program of events has been drawn and preparations are already underway.

Among top features for the day is the silver anniversary reunion of the Class of 1930, which will receive special recognition and honor.

Schedule opens at 8 a. m. with registration in the Administration Building, and a general assembly, climaxed with the crowning of WT's Homecoming Queen, will be at 10:45 a. m. From noon until 3:30 p. m., campus organizations and clubs will honor exes at teas, smokers and parties. The big parade through Canyon is at 4 p. m., and the barbecue, which last year drew nearly 3,000 persons, is to be at 5:30 p. m.

Football attraction at 8 p. m. in Buffalo Stadium will pit the Buffs against arch rivals, the Hardin-Simmons Cowboys. A dance following the game will close the Homecoming celebration.

"Western Days," when cowboy attire is in vogue on the campus, will be opened Oct. 19 and continue through the 21st. Students will have a Western Dance and their traditional Homecoming Assembly on Oct. 20, and a bonfire and pep rally on Oct. 21.

LORENE GUNTER

Lorene Gunter Joins KGNC-TV Staff

PLAINVIEW — Miss Lorene Gunter resigned Sept. 10 from the Wayland College staff to accept a position in the film department of KGNC-TV, Amarillo, and was honored by a number of courtesies by staff and students. This new position is a step forward in an ambition of long standing.

Miss Gunter's record is already remarkable since she suffered an attack of polio when she was only four years old and the W. C. Gunters lived in Claude. She was prevented from attending Hereford High School some years later because of her inability to go up and down stairs but in 1948 she entered Wayland College by taking examinations in lieu of the missing high school credits. In between grammar school and

college, she took a business course and worked in Clarendon and in the post library at the Amarillo Army Airfield during World War II. While working in Groom in 1948 she decided that she would go to Wayland College. Four years later, following her graduation with the B. A. degree, she began her work as receptionist for the college. She has also studied at the University of Southern California.

As a student she won top honors in many student activities, including the presidency of the Senior Class and recognition in "Who's Who in American Colleges and Universities." Both during and since her students days, she has been in demand as a speaker before student and church groups over the Panhandle Plains area and in New Mexico. She has been presented on a number of programs on Station KVOP, Plainview, and KHBL, the college radio station. Since her graduation she was elected to membership on the Executive Committee of the Former Students Association of Wayland College.

Now her major in speech and

her interest in radio has led her to Amarillo, where she will be working in the field of her choice, radio, as she has joined the KGNC-TV staff.

The safer car wins... and Chevrolet's the winning car

Every checkered flag signals a Chevrolet victory in official 1955 stock car competition—not only against its own field but against many American and foreign high-priced cars, too!

Let's translate these victories into your kind of driving. You've got to have faster acceleration to win on the tracks. And that means safer passing on the highways. You've got to have better springing and suspension. For you: safer and happier motoring. You've got to have big, fast-acting brakes and easy, accurate steering. More things that make your driving safer! Come in and drive a Chevrolet yourself.
