

EAST TEXAS OIL HIKED

Clemency For Fall Is Denied PROBE BY JURY IS PROMISED

HOUSE TOLD OUERY WILL BE EXTENDED

Prosecutors Deny Judge Price Was Singled Out for Trial; Fee Approvals to Be Investigated.

MUCH DEBATING

Some Would Drop Case Should Judge Resign; Legality of Impeachment Plan Under Question.

AUSTIN, Aug. 13. (AP)—A grand jury investigation of all circumstances involved in the alleged unlawful issuance of fee certificates in the 1st judicial district will be pushed, the house of representatives, hearing impeachment charges against District Judge J. B. Price of Bastrop, was told today.

The charges against Judge Price alleged negligence and incompetence.

Promise that a grand jury investigation would be sought based on the allegations in the charges against Judge Price, was made by Representative Harry N. Graves of Georgetown, one of the house prosecutors. The house had been asked by R. L. Batts, chairman of the board of regents of the University of Texas and chief defense counsel, why Judge Price had been singled out by the committee.

Graves denied that Judge Price had been singled out, stating he was the first in whose acts the committee had found negligence and that the committee was proceeding as rapidly as it could with the investigation of other officials.

To Seek Indictments
The legislature passed a law at the special session ended yesterday giving Travis county a new district court and Graves said indictments against officials believed guilty of defrauding the state would be sought as soon as possible.

Attorneys for the house and for Judge Price spent the morning debating the right of the house to proceed with the investigation.

Judge Price was alleged in the charges to have negligently signed accounts of certain sheriffs of his district.

Immediately after the investigation opened today, a substitute resolution for the one offered yesterday by Representative John Mathis was introduced. It called for abandonment of the investigation in the event Judge Price submitted his immediate resignation. The Mathis resolution would provide for a reprimand of Judge Price before the bar of the house. It would not provide for his resignation or removal from office.

Differ on Law
Batts argued the house had no authority to proceed with impeachment charges since the charges did not allege any offense for which Judge Price could be indicted. Before Judge Price could be impeached it would be necessary that he be charged with an indictable offense or with treason, a high crime or misdemeanor, Batts said.

Batts cited a decision of the Third Court of Civil Appeals in which he said the court had held that a sheriff could charge mileage for four arrests if made at the same time.

He charged investigation of Judge Price would be crucifixion of a man who admittedly was not guilty of moral turpitude or corruption.

Grady Sturgeon, assistant attorney general aiding in the investigation into the fee system, argued it was not necessary to allege a criminal offense to justify impeachment.

SIGNS APPROPRIATION
AUSTIN, Aug. 13. (AP)—Gov. Ross S. Sterling today signed a bill appropriating \$31,500 for the new child welfare division of the board of control.

I See By Today's Want-Ads:
THAT someone wants to rent a four-room apartment.
THAT a stenographer-bookkeeper with 12 years experience wants a position.
THAT someone wants an equity in Pampa property and has a good automobile to trade.
THAT a person wants to rent a five or six-room modern unfurnished house.
THAT a farmer in Deaf Smith county wants to trade 1,750 acres of improved farming land.
THAT you can buy some good ice refrigerators at a bargain.
THAT you can satisfy nearly any want through NEWS and POST Want-Ads.

"FIRST IN PAMPA"

DROUGHT VICTIMS, ALL RIGHT NOW, AID THEIR BENEFACTORS

Here is one of Arkansas' 13 relief trucks with the driver standing alongside. In the inset at the right is Dr. L. D. Hutchison, who headed the party.

HENRYETTA, Okla., Aug. 13.—Applying the Golden Rule to real life, England, Ark., farmers and merchants have traveled 400 miles to give succor to the scores of destitute miners thrown out of work by the shut-down of coal mines near here.

The Arkansas group has at last found a way to repay its debt of gratitude to Oklahoma for its help a year ago when its citizens rushed food and clothing to England to stave off a near riot as hungry citizens of the drought-stricken Arkansas community marched the streets demanding food.

England is again a prosperous farming community and we are glad of the opportunity to help repay Oklahoma for its wonderful cooperation with the Red Cross a year ago in caring for the scores of near-starving families in Arkansas," declared Dr. L. D. Hutchison, who headed the group that organized the food caravan.

Last year's drought climaxed a second consecutive season of crop failures after the Arkansas river flood spared disaster there the year before and we found ourselves gradually starving. But we are back on our feet again and glad to help these destitute Henryetta miners.

Enough food to care for 1,000 persons, for several days was included in the 13 trucks which made the trip.

Lions Club To Plant Turnips on Vacant Property

Vacant areas of the city would be made to produce turnips or other vegetables for use in warfare work under a plan launched by the Pampa Lions club today.

President C. H. Walker, after a discussion, appointed the following "turnip committee": W. A. Bratton, Judge Ivy E. Duncan, George Briggs. The club plans to sow about an acre.

Miss Catherine Vincent, wearing a sombrero and costume of a Spanish lady, entertained with two Spanish dances. She was accompanied by Mrs. May Foreman Carr, who also gave a piano solo. "The Country Garden" by Cramer.

Three Boy Scouts, accompanied by John I. Bradley, demonstrated methods of first aid. The city's two Eagle Scouts, Mike Chapman and Berton Doucette, performed with Smith Wise as the "patient."

Visitors included C. T. Hunkapillar, Charlie Wooley, and W. J. Smith.

Wiley Pollard of Amarillo Closes Life as Officer

AMARILLO, Aug. 2. (AP)—Wiley Pollard, 62, sheriff of Potter county during the boom days from 1924 to 1928, died at a local hospital last night.

Pollard began his career as a peace officer at Cleburne at the age of 21. He is survived by his widow and two sons and four daughters. Services will be held at the home here tomorrow morning.

Mr. and Mrs. Irvin Cole and Mrs. Cole's sister, Miss Audrey Noel returned the first of the week from a trip to Clay Center, Kans., Kansas City and Oklahoma City.

Mr. and Mrs. J. G. Noel returned yesterday from a vacation trip to New Mexico, Colorado, and Arizona. Their daughter, Mrs. Ruth Frizzel, accompanied them as far as Durango, Colo., where she lives.

CONTRACT IS LET ON RAIL WORK TODAY

Hamilton and Gleason of Denver and Roberts Bros. Get Project.

FORT WORTH, Aug. 13. (AP)—Contract for the construction of the grade and bridge structures on the Childress to Pampa extension of the Fort Worth and Denver Northern railway was awarded here today to Hamilton and Gleason of Denver and Roberts Brothers Construction company of Chicago.

The joint bid of the two firms was lowest among 25 submitted by contracting companies throughout the country. Although the precise figure was not announced, R. C. Howey, chief engineer, said it was in the neighborhood of \$700,000.

The contract calls for completion within 10 months of grading and bridges on the 102-mile stretch from the Red river to Pampa. Orr and Speer of Alford has the contract for grading the line and Childress, approximately 11 miles. Equipment is to be moved to the site next week.

Airport Is Busy Place Recently

The airport has been a busy place this week, and the aviation boom that started here 10 days ago with the purchase of a new plane and the successful flight of a home-made ship, has continued.

The first of the week, R. W. "Dutch" Bartgis made two trips to Wichita, Kans., taking passengers on each flight. Miss Amy Smallwood was a passenger in the Ryan D-7 on the second trip.

Dr. J. C. McKean flew his Stearman biplane to Tulsa Tuesday, accompanied by Dick Graham. He returned today, accompanied by Mr. Clark, official of the Shell Petroleum company.

Ray Shifflet of Mangum and Frank Shaw of Kingsmill dropped down on the local field yesterday in Shifflet's plane.

Bill Kelly of Borger, drilling contractor, flew his Spartan plane to Pampa, Tuesday and was given his physical examination by Dr. McKean.

Inspector J. W. Delaney of the department of commerce, aeronautics division, was here today to inspect Dr. McKean's ship for a new license which was granted. Tomorrow, Mr. Delaney will give Bill Kelly a pilot's test at Amarillo.

Eastland Man Is Fatally Injured in Auto Accident

EASTLAND, Aug. 13. (AP)—S. E. (Bud) Williamson, 25, of Eastland was fatally injured when his roadster left the road and hurtled down an embankment on Highway 1, 15 miles east of Baird, last night. Williamson, en route to the West Texas Druggists' convention in Abilene, was traveling alone.

His neck was broken and he was internally injured. He died in a hospital here at 1 a. m.

Williamson was the son of Mr. and Mrs. W. G. Williamson, pioneer residents of this county. Besides his parents he is survived by his wife and two small children.

MUST SERVE SENTENCE IN NEW MEXICO

Every Opinion Sought Is That Former Secretary Should Serve Term for Taking Famous Bribe.

QUESTION ENDED

President Hoover Will Not Have to Pass on Issue—Move Initiated by His Friends.

WASHINGTON, Aug. 13. (AP)—Executive clemency was denied today to Albert B. Fall, former secretary of the interior, serving a sentence of a year and a day for accepting a bribe.

Attorney General Mitchell announced that the application for clemency would not be granted by President Hoover.

The reason for the denial was given that none of the three prosecutors and judges whose opinions were asked on the petition advised clemency.

Case Is Dropped
A recent executive order signed by both President Hoover and Attorney General Mitchell provided that "when one of the persons so consulted advises clemency the papers shall not be sent to the president," except in exceptional cases.

The attorney general said he had determined there was "no reason to make a special order submitting the papers to the president" and thus the plea in behalf of Fall automatically was denied.

Besides the year and a day sentence, Fall was fined \$100,000. He began serving his sentence several weeks ago in Santa Fe, N. M.

A brief statement handed to newspaper men by Mitchell today pointed out that the application for clemency had not been made by Fall himself, as is ordinarily required, but had been submitted in his behalf, by a number of officials and citizens of New Mexico.

"Careful Consideration"
It was said this application nevertheless had been "given the careful and complete consideration required by the rules governing applications for pardon."

The three men who advised against clemency were Justice William H. Taft of the District of Columbia Court of Appeals, who sat in judgment on Fall; Atlee Pomerene, special prosecutor for the government in the oil trials, and Leo A. Ricker, U. S. attorney of the District of Columbia.

DUNCAN WELL DRILLING

Drilling is going ahead at over 1,000 feet in the Duncan well two miles north of Pampa. A thorough test for oil will be made at the location, it was announced. It was recently reported that drilling was stopped at 980 feet and that the casing was being pulled. Drillers declared this report was erroneous, and that they had no intention of abandoning the location.

Mrs. Ethel Abernethy and daughter Myra, accompanied by Mrs. Abernethy's sister, Miss Louise Smith, left this morning for a motor trip to Carlsbad caverns, Roswell, and other points of interest.

PAMPA, GRAY COUNTY, TEXAS, THURSDAY EVENING, AUGUST 13, 1931.

Gas Ordinance Is Drawn

Proposed Reduction by City Will Be Discussed Tuesday Afternoon.

An ordinance reducing local gas rates has been prepared by the city commission and probably will be adopted at the regular meeting next Tuesday.

The rates to be specified will be inserted in the ordinance after discussions with the Central States Power and Light company officials. It was learned by THE NEWS today that the gas utility officials were invited three weeks ago to discuss the proposed change, but that such a discussion has not yet been held by them. They are expected to attend Tuesday afternoon's hearing, however.

Precedent for such a step by the city was set recently when the McLean city commissioners won approval of an ordinance reducing the gas rates there. The case has been appealed.

Tech Beauty Is Victim of Malady After Honeymoon

BIG SPRING, Aug. 13. (AP)—Mrs. Dorothy Oxshier Schermerhorn, recent bride of Robert S. Schermerhorn, official of an oil company of the same name here, died this morning in Raton, N. M., from an illness contracted in San Francisco recently on the return of the couple from a honeymoon in Hawaii.

Mrs. Schermerhorn was flown to Raton, her mother's home, in an ambulance plane. Burial will be made in Indianapolis, Ind.

The young woman was adjudged one of the most beautiful at Texas Tech last session.

Blast Is Fatal To Five Persons

BATTLE CREEK, Mich., Aug. 13. (AP)—Five persons were burned to death shortly after 10:15 a. m. today in a fire and explosion in a garage on the eastern limits of the city.

The fire started from an explosion which occurred as an employee in the rear of the garage poured gasoline or alcohol into the radiator of an automobile, believing it to be water.

Firemen rescued all persons in the rear of the garage and then concentrated their efforts on the front. There were about 15 persons in the front of the garage before all could escape the roof caved in.

'Fatty' Arbuckle and Bride-to-Be

Holding hands, Roscoe Arbuckle, film funny fat man of a decade ago, and the lady of his heart, Addie McPhail, 24, screen actress, who are to be married this fall, are shown here at Los Angeles. She is a native of White Plains, Ky., and was educated in Chicago.

ELECTRICITY RATE CUT OF 10 PER CENT ANNOUNCED

THE WEATHER

WEST TEXAS. Fair, slightly warmer in southeast portion tonight. Friday fair.

AND A SMILE
PORTAFERRY, Northern Ireland. (AP)—Two pairs of flannel yachting trousers have had the townfolk laughing and gossiping. The furor caused no little embarrassment to the Spanish princesses, Beatrice and Marie Christine. They were wearing the trousers when they landed here while on a cruise.

Sixth Reduction in 6 Years Will Be Noted in Next Invoices Received.

An electricity rate reduction averaging 10 per cent will be in effect when the next invoices are sent out, it was learned by THE NEWS today.

The reduction, details of which will be given for publication by the Southwestern Public Service company, will affect all electricity used during the month of August. Ordinary residential uses will note a reduction of about 10 per cent in the average bill, excepting that the cut is less in the instance of those already having a lower rate by reason of having electric refrigerators. Some bills will show less than 10 per cent reduction, and some more than that. The commercial users will have as much as 14 per cent in their saving.

The first proposal to reduce the rates was placed before the city commission by W. H. Curry, manager, on July 21. It was approved, with the figures to be worked out for the various users and announced effective with August invoices.

This will be the sixth rate reduction made by the electric utility company in the last six years, or the length of time the concern has been doing business here.

Convicted Man Is Held By Officers

GALVESTON, Aug. 13. (AP)—George Musey, convicted liquor runner, who has been sought as a fugitive for more than a year by federal officers, was held incommunicado in a hotel here today. He was brought to Galveston last night by federal secret service operatives.

Musey was being questioned today by E. A. Gleason, special agent of the treasury department in charge of liquor law enforcement, and Deputy United States Marshal A. A. Savell, who holds a warrant for Musey's arrest.

The prisoner was believed to have been captured at Lake Charles, La., but officers refused to confirm the report.

FIRST MOVE TOWARD NEW SCALE MADE

Magnolia Posts Flat Rate of 25 Cents per Barrel at Wells; Other Companies Likely to Follow.

SEEK SHUTDOWN

Some Independents Will Not Stop Effort Because of Passage of New Bill By Legislature.

DALLAS, Aug. 13. (AP)—The Magnolia Petroleum company announced that effective at 7 a. m. today, it was increasing its price posting on crude oil in East Texas from 20 cents to 25 cents per barrel at the well. The price is a flat rate on all grades of oil.

OKLAHOMA CITY, Aug. 13. (AP)—Action of the Magnolia Petroleum company in posting 25 cents a barrel flat for East Texas crude was hailed in oil circles as the first step toward bringing normalcy out of chaos.

Was 14.3 Cents
During the week ended Saturday, the average weighted price in the field was 14.3 cents a barrel, which compared with 14.1 cents a barrel for the previous week. Seven-cent crude disappeared from the field last week and most of the oil moved from the district went at 15 cents, with a large quantity moving at 20 cents a barrel.

During the past week, however, Oklahoma producers made a number of contracts in the field at 14 to 17 cents a barrel, with deliveries to start immediately. Shutdown adherents considered this an effort to break the shutdown movement in the state.

HOUSTON, Aug. 13. (AP)—The Humble Oil and Refining company this morning had no statement to make in regard to the price change posted by the Magnolia Petroleum company for East Texas crude. Officials, however, said a statement probably would be made "later in the day."

"Nothing to Say"
Officials of the Texas corporation, Gulf Refining company and Sinclair Refining company had "nothing to say."

NEW YORK, Aug. 13. (AP)—The Texas Pipeline company is beginning construction of a 12-inch pipeline from Gladewater, in the East Texas oil field, to Port Arthur, a distance of approximately 100 miles. The line probably will cost not less than \$3,000,000.

TYLER, Aug. 13. (AP)—Gov. Ross S. Sterling notified a group of East Texas oil operators today that he would not be attending a meeting at Tyler tomorrow night. He said he would talk on problems of the oil industry of particular importance to East Texas.

Governor Sterling had been invited to address the meeting. A group of independent operators gathered at Tyler today declared passage of the oil conservation measure by the legislature will have no effect on the shutdown movement.

Would Stop Flood
W. E. Frost, spokesman for the group, said they were determined that thousands of barrels of cheap oil should not be drained from the East Texas field in the next 10 days before the conservation measure becomes effective. McKinney said he favored placing East Texas field under martial law during the 10-day period and after the conservation law becomes effective, if necessary.

PROSPERITY OR DEFEAT UP TO HOOVER

Hoover, the miracle man of a few years ago, the "big" mind who was to guarantee continuance of prosperity, has played his best cards without success. His failure as a dynamic leader in economics was apparent from the day when he left to congress the responsibility of passing legislation it deemed necessary.

The farm board debacle, the failure to pass an oil tariff, and the ineffective steps toward reducing unemployment have destroyed the country's confidence in the G. O. P. fable of prosperity. Said Senator Walsh "I cannot rejoice at the economic condition of the country, but it is true that this condition has been the means of conceding more power to the democratic party."

United States Senator Tom Connally blames the present business depression upon the gold standard and "the ruinous, unwise, and greedy tariff act of the Hoover administration."

He added:

"Today we face a different world from that which the pioneers and settlers of Johnson county and other portions of Texas looked upon 50 years ago," he pointed out. "They lived upon the frontier. Today we live in a world transformed by invention, new industries and marvelous developments. They lacked many conveniences and comforts we now enjoy but they had a certain greater independence and relied upon their own efforts in a much larger degree than we do at the present time."

"Today we look upon a world which possesses a surplus of useful and necessary things of life and yet find millions of people scattered all over the earth in want and misery. x x x Commerce seems to be seized with creeping paralysis. There must be fundamental and far-reaching sources of the difficulties with which we are surrounded."

"Gold coin is the standard of measurement of values in the greater part of the world. Silver money and silver bullion have shrunk in value. x x x France and the United States have in their vaults approximately 65 per cent of the gold of the world. x x x This great load of gold is depressing our foreign markets. Other countries cannot buy of us without payment in gold or goods."

"The ruinous, unwise and greedy tariff of the Hoover administration is in large degree responsible for much of our economic trouble. x x x Our foreign markets for our surplus of cotton, wheat and other products have been getting worse and worse every day since it became a law."

Only bonehead inclusion of the liquor or religious question into the democratic platform can defeat the party at the next general election.

By RODNEY DUTCHER

WASHINGTON, Aug. 13. (NEA).—The most obvious practical effect of the Wickersham report on deportations is to make it harder for Secretary of Labor William Nuckles Doak to brand all critics of his immigration tactics as bolsheviks, anarchists and underminers of our glorious institutions.

The members of the Wickersham commission are not bolsheviks, anarchists or underminers and yet they adopt conclusions that aliens are often treated constitutionally, tyrannically and oppressively.

Thus the report becomes a sort of a text book for those who are continually protesting some of the allegedly high-handed and hard-hearted acts of the immigration service. It says that the abuses are chargeable to the system rather than the department of labor and that inspectors shouldn't be expected to act satisfactorily as investigators, prosecutors and judges at the same time. But it says enough other things so that Doak is in something of an indignant rage. Doak has been staging a well ballyhooed deportation drive and has maintained that only dangerous characters objected to any aspects of it. Both the commission and Reuben Oppenheimer, who wrote the conclusions it adopted, urged strict enforcement of deportation laws, but they also found some defects in the picture.

Extraordinary powers of the immigration officers are clearly revealed. An inspector apparently can grab anyone and rush him off as a suspected alien. He can

jail suspects without a warrant, searching them and their effects. He can make wholesale raids anywhere, holding a thousand persons at a time until they prove their right to freedom. He can deny prisoners counsel at their preliminary examinations. Comparing methods of cross-examination with the Inquisition, Oppenheimer says: "It is doubtful if anywhere in the entire system of Anglo-Saxon jurisprudence are government officials given similar unfettered rights of private inquiry, or is the exercise of governmental power more often characterized by violations of fairness and decency."

Anonymous letters are one of the chief sources of information relied upon to apprehend aliens. They are often written by personal enemies and sometimes even by members of the suspect's own family who want to get rid of him. Many aliens chagrined at their own apprehension, give the names of others who are subject to deportation, either when arrested or by writing back from the country where they are deported. Some immigration inspectors also use stool pigeons at strategic points, such as large factories employing many aliens.

Inspectors often ask many questions about the suspect's sex history when such matter have nothing to do with the case. In a large proportion of cases the nature and persistency of the questions can "only be described as inquisitorial" and "in such cases the only limits of the scope of the examination are the limits of the examiner's curiosity."

Aliens frequently marry Americans. About nine per cent of the aliens deported in cases studied by Oppenheimer had an American husband, wife or child, so it is estimated that in 1930 more than 1500 Americans were affected by deportations. Records don't show in how many cases the alien couldn't take his or her family along, but they frequently protested that it was impossible. Oppenheimer says: "What happens to the families left in America when the heads are deported does not appear."

Although Doak hates communists with patriotic fervor, Russia is the one country to which we can't deport people unless she is willing to accept them. There are hundreds of Russians against whom deportation warrants have been issued but who remain in the country as long as we have no diplomatic relations with the Soviet government. They are out on bail, detained at public expense or at large. Only in rare cases does Russia consent to receive a deportee.

EAST TEXAS

Continued from page 1
NEWS says contracts have been made this week for 4,000,000 barrels of East Texas crude oil.
The Pilot Oil company was reported to have sold 1,000,000 barrels of East Texas crude to the Mexican Petroleum corporation of Louisiana and to have contracted with a major company to deliver another 1,000,000 barrels.

AUSTIN, Aug. 13. (AP)—Texas today had a new oil and gas conservation law, on which was pinned the hopes of the oil industry for a reversal of the chaotic conditions of the past several months and for a substantial price recovery.

Moving swiftly in the waning hours of a special session the legislature late yesterday passed a bill to strengthen oil and gas conservation statutes.

The bill, a compromise measure that composed the radical differences between the respective bills of the two houses, became a law a few hours after its passage when it was signed by Governor Ross S. Sterling. It had received more than enough votes in both houses to become effective immediately on the signature of the governor.

Simultaneous with the signature of the bill, C. V. Terrell, chairman of the railroad commission, administrators of the conservation statute, announced a hearing would be held August 24 at Austin to consider issuance of new orders governing the East Texas field.

The East Texas field has been

generally regarded as the thorn in the side of the oil industry and has drawn a major portion of the blame for the collapse of the price structure of both the national and world markets. Low crude oil prices have been attributed to the almost unparallel and uncontrolled production of hundreds of thousands of barrels dumped on an already groaning market from the mammoth East Texas field, the largest in the world.

With the passage of the bill, Governor Sterling succeeded in putting over a half of his conservation program. The other half, that would have provided for an appointive commission of three to administer conservation statutes, was killed in both houses last week.

Passage of the bill, however, did not completely dissolve the threat of martial law over Texas oil fields, threatened by Governor Sterling when the outlook for passage of the conservation bill was extremely dark. The governor was asked last night if the martial law threat was obviated by the new law. "Certainly not," he replied. "If those fellows get to cutting up over there, we might send the troops in any time."

The compromise bill was passed in the house, 125 to 12. Only one dissenting vote was cast against it in the senate, the vote being 29 to 1.

The bill was characterized by Governor Sterling as one with "teeth" in it.

Court Test Is Certain
That it would be given a test in the courts was believed inevitable. It was designed to reduce physical waste to a minimum and contained definitions defining virtually all

types of physical waste. Court procedure in cases involving the railroad commission will be accelerated by giving cases attacking the commission's orders the right of way. The lack of adequate court procedure was one of the main causes of the failure of the old law.

Under the bill the commission is expressly forbidden to make any attempt to hold production within market demand. A bill with market demand was recommended by representatives of several major oil companies but argued against by Governor Sterling.

Just what effect the new law will have could not be determined, even from the members of the committee that drafted it. Many varied constructions were placed on its provisions. It suited both prorationists and anti-prorationists alike. Prorationists contended it provided for proration of oil pools and would permit the commission to set an allowable production. Anti-prorationists held it provided for limited proration only and the only way the commission could reduce production was under the waste provisions.

Cities Restriction
Representative J. C. Duvall of Fort Worth, a member of the conference committee, claimed it provided only for proration of wells in a common pool that were attached to a common intra-state pipeline. No authority over a well tied into an interstate pipeline from a common pool can be exercised, he said.

R. D. Parker, chief of the oil and gas division of the commission, would make no prediction on the effect of the bill.

Senator Frank Rawlings of Fort Worth, chairman of the conference committee, said he law would not reduce production but that wasteful production and the wastage of gas energy would be eliminated.

The law contains a stringent provision giving the commission authority to fix an oil and gas ratio. Wastage of gas has been a sore spot for many months.

Senator Walter Woodward of Coleman, and Representative R. M. Wagstaff of Abilene, authors of the administration sanctioned bills, estimated the law would permit the commission to reduce production by 50 per cent. Their estimates were based on the waste provisions, it being claimed the present production, in excess of 600,000 barrels daily, was causing water encroachment and trapping of oil.

The last order of the commission set the East Texas allowable at 250,000 barrels.

Another bill favored by the Governor was cast by the wayside by the legislature. It would have levied an occupation tax on oil production and was aimed at stabilizing the general revenue fund. A bill levying a graduated tax on oil was passed by the house but killed in the senate. The present tax is levied on the value of oil at the well, the state income fluctuating with the price.

A bill strengthening the pipeline laws was passed by a two-thirds majority in each house and will become effective immediately if signed by the governor. It would put "teeth" in the common purchaser and ratable takings law.

Another safeguard in the conservation law was a provision giving a trial court the right to require complaints against the commission's orders to post bond to indemnify adjoining property owners against damage. The court would determine the amount of the bond and the amount that parties could recover on it.

Details of Bill
AUSTIN, Aug. 13. (AP)—High spots in Texas' new oil conservation law: Empowers the state railroad commission to reduce or otherwise adjust oil production in areas where waste occurs and prorate the adjusted production among wells in the oil-bearing area.

Makes the commission's anti-waste orders prima facie valid until otherwise proved.

Sets up fines of \$1,000 for each

day of violation of a commission order.

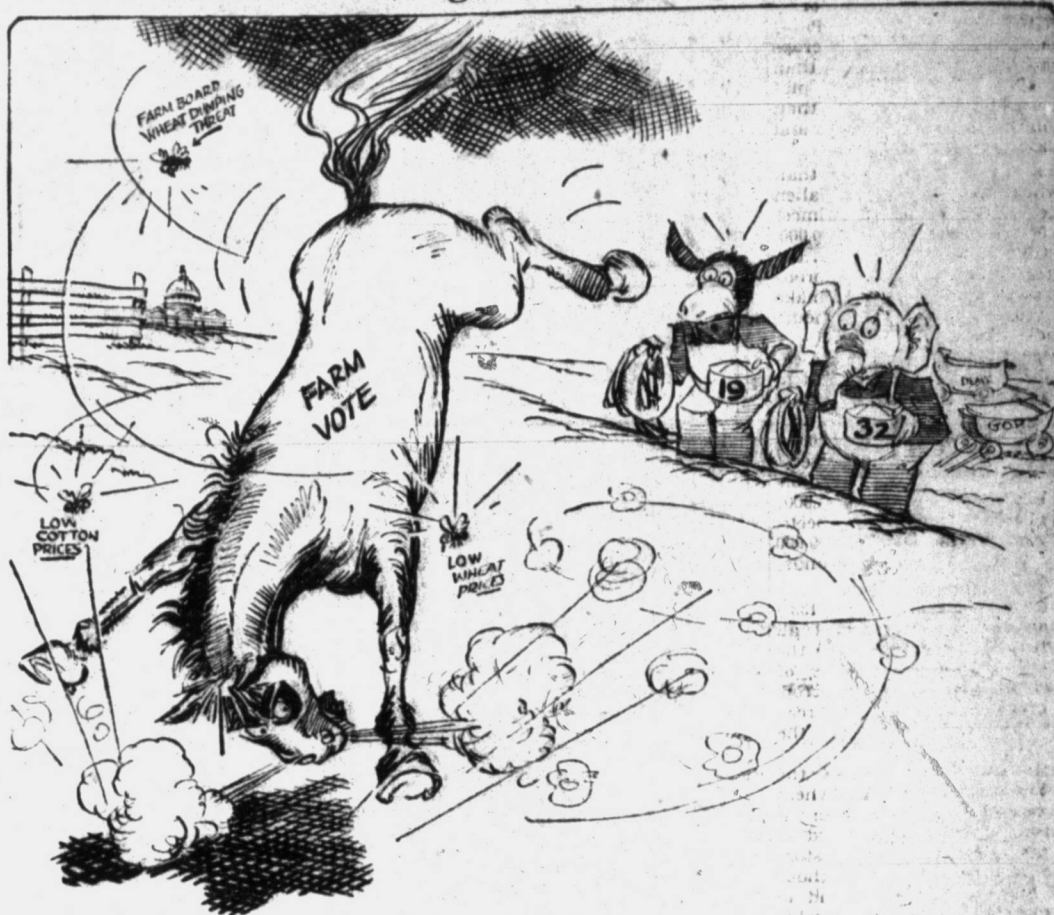

Requires complaints of the commission to sue in Travis county and not elsewhere, and to post bond sufficient in the judgment of the court to protect all the complainant's neighbors against any excessive or wasteful drilling or production.

Permits the commission to fix, and enforce the gas-oil ratio for any well—that is to say as to how much natural gas may be utilized in lifting a barrel of oil.

Sets up broad and wide definitions of waste, which the commission is charged, with preventing waste occurring in drilling, producing, transportation or storage of oil.

Prohibits the commission from any attempt at balancing supply and demand, and from any consideration of market demand in its orders.

By FRANK I. WELLER
Associated Press Farm Editor.

WASHINGTON, Aug. 13. (P)—More than a dozen great farm crops are promising yields smaller than those of 1930—A far different picture of American agriculture than the calamitous supplies of wheat and cotton have popularized.

Corn, a much larger crop than either wheat or cotton, has fallen from the July forecast of almost 3,000,000,000 bushels to 2,775,000,000, only 1,000,000 bushels more than the 1925-29 five-year average and probably not more than enough to make up last year's short crop should stock feeding become normal.

The department of agriculture estimates the yield of durum wheat to be 34,000,000 bushels below last year's crop; other spring wheat, 99,000,000 bushels below; oats, 88,000,000; barley, 114,000,000; flaxseed, 7,600,000; rice, 1,100,000; dry edible beans, 1,200,000; peas, 5,500,000; tame hay, 200,000 tons; sugar beets, 2,200,000 tons; tobacco, 24,000,000 pounds; hogs, 1,300,000 pounds; grapes, 48,000 tons.

Statistically, the reduction of 133,000,000 bushels in the yield of all spring wheat does not even up the increase of 163,000,000 bushels of winter wheat over the 1930 crop. That is offered as one of the reasons for "two-bill" wheat in the plains.

Drought caught much of the spring wheat but the winter wheat country cannot recall a bigger or better crop. The yellow flood is backing up in every available storage place or streaming out in thousands of bushels on the ground to await a market. The "prairie gold" of a few years ago has lost its luster.

There was a time when this greatest of all winter wheat crops would have been worth \$1,500,000,000 to the southwest. With the world full of wheat and more coming it indicates a farm value not much in excess of \$310,000,000.

The big blow to agriculture is cotton. Whereas only about 500,000 of the nation's 6,000,000 farmers raise wheat, almost 2,000,000 of them grow cotton. A prospective crop of 15,500,000 bales, the fifth largest yield of record, plunged prices down more than \$6 a bale, a loss of almost \$100,000,000 if the decline holds all through the crop.

High yields and surpluses have produced a reaction which argues there is little use of large crops if they bring nothing. It is met by the theory that big crops mean the erosion of wealth, work for many people, and the surest cure for depression.

Forgiveness Is Denied Shield

HUNTSVILLE, Aug. 13. (P)—A father's plea for the forgiveness of his two children remained unanswered today as the state made ready to execute Joe Shield.

A 15-day stay of execution granted by Governor Sterling on July 29, three hours before the scheduled execution hour, expires at midnight tonight.

Shield was convicted in Brown county of the fatal shooting of his wife at Brooksmith and given the death penalty.

Information that Shield sought the forgiveness of his two children and had not heard from them prompted Governor Sterling to grant a stay of execution. Shield had told his sister he did not want to die until he obtained forgiveness from his children.

Governor Sterling said yesterday he did not expect to interfere further with Shield's scheduled execution.

Dedistricting Is Again Failure

AUSTIN, Aug. 13. (P)—Another attempt at congressional redistricting had failed today.

After working hours yesterday and until a few minutes before adjournment of the special session last night house and senate delegates to a free conference reported they were unable to agree on a compromise bill.

It marked the second time this year that congressional redistricting had failed of realization. Committees worked two weeks during the regular session in an attempt to obtain a suitable bill. The bill was passed by the house but killed in the senate by two votes.

Both the house and senate committees were adamant and refused to yield ground in the last hours. The house bill provided a new district for the Panhandle; another for West Texas and the third for the South Texas coastal area.

The senate bill would have given East Texas a new district; and placed one in the Panhandle and another in the south coastal area.

Under the 1930 census, Texas is entitled to three new congressmen, increasing the number to 21. Failure to redistrict will result in the election of three congressmen-at-large.

Bridge Closing Draws Protest

LAREDO, Aug. 13. (P)—Vigorous protest against closing the international bridge between Laredo and Nuevo Laredo, Mexico, from 9 p. m. until 8 a. m. had been made today by the board of directors of the Laredo Chamber of Commerce.

The protest was filed yesterday with the secretary of the treasury and Congressman John M. Gagner. The directors claimed tourist traffic into Mexico would be lessened and that such action would be detrimental to established trade relations between the two countries.

Roy Campbell, customs collector, received orders yesterday to close international bridges at eight border points between the hours of 9 p. m. and 8 a. m.

Held For Assault Nacogdoches, Aug. 13. (P)—

Jeff Riddle, 24, was held in the county jail here today charged with criminal assault.

Cornwallis To Surrender Again

YORKTOWN, Va., Aug. 13. (P)—Cornwallis will surrender at Yorktown again in October.

After weeks of controversy over whether the capitulation of the British Revolutionary war commander should be depicted this fall at the 150th anniversary celebration, the United States Yorktown Sesquicentennial commission announces the surrender scene will be re-enacted.

A tentative plan to deplete it from the pageant program brought forth a vigorous protest from Representative Sol Bloom, of New York, associate director of the Washington Bicentennial commission, and others who declared the omission would make the pageant meaningless.

A variety of reasons was given for the proposed deletion: That the scene might be offensive to British visitors, that difficulties would be encountered in training a large body of troops in 18th century tactics, that it was against the tradition of the army to re-enact the surrender of a foreign foe and that the scope of the pageant might be limited by its depiction.

FORMER AGENT IS CONFINED
HUNTSVILLE, Aug. 13. (P)—D. R. Cheatham, former Houston prohibition enforcement officer, was listed among the prison population today.

Cheatham came unaccompanied to Huntsville yesterday to begin service on his two-year sentence imposed by the federal court in Houston after he was convicted in connection with the filing of an alleged frame-up liquor charge against W. L. Edwards in May, 1929.

NEWS NOTE
The airship, U. S. S. Akron, recently christened at Akron by Mrs. Herbert Hoover, is the largest airship in the world and has a lifting capacity of nearly twice that of the famous Graf Zeppelin.

This is one of the many airships which the Goodyear-Zeppelin corporation has built for the United States Navy. Hundreds of thousands of people have seen these great ships in construction and in flight.

The same rigid standards of workmanship and quality of materials which the United States government demands in its airships are put into the Goodyear tire, even to the lowest priced ones, which car owners of the Panhandle use.

Why Take Second Choice in Anything... —if First Choice costs no more?

IF the first-choice tire costs no more, there's not much point in buying the second-choice, is there?

Well, Goodyear Tires are the first choice—by millions—more sold every year. And they cost no more!

You owe it to yourself to know the reasons why—and we'd like to show you.

Here, too, you can name your price and still get THE leading make—because we have Goodyears in all types at all prices.

The last whisper in style, mileage, value.

"SUNNY JIM" BOTTOMLEY IS SLUGGING HARD AND OFTEN

HIS RETURN TO FORM AIDS CARD TEAM

St. Louis Stays 8 1/2 Games Ahead of Cubs, Who Move Into Second.

By HUGH S. FULLERTON JR., Associated Press Sports Writer.
A season or two ago Sunny Jim Bottomley was the slugging idol of St. Louis fandom. A brilliant first baseman and an effective hitter, he had things almost his own way with the crowds. Then he went into an almost total eclipse as a slapper in his batting was followed this season with the rise of the Rochester recruit, Jim Collins, and "Sunny Jim" became a bench warmer.

But Bottomley is back on the job now and he apparently means to hold it. He didn't get into action until a week ago when Collins was hurt but since then he has been playing with all his old time dash and hitting harder than ever. In nine games since his return to action, Bottomley has made 17 hits, climaxing his swatting spree last Wednesday when he rapped out six straight in the second half of a double-header.

He Helps 'Em
"Sunny Jim" was right in there back of Jess Haines and Flint Hake yesterday to help the Cardinals take a double victory over the Brooklyn Robins. In the first clash he hit a home run and two singles and he added a triple in the second. Aided by this clouting, the Cardinals won the opener 5 to 0 as Haines turned in an eleven-hit shutout then pounded out an 8 to 5 triumph in the second game, although Johnny Fredrick hit two homers and Freddy O'Doul one.

The double victory enabled the Cards to remain 8 1/2 games ahead of the Chicago Cubs, who went into second place by winning two from the Phillies. The Cubs had to go ten innings before they hammered Sheriff Blake from the mound with five runs to win the first game 7 to 3, but the second was easy as they piled up 18 hits to win, 12 to 1.

The New York Giants slid back to third when they could get no better than an even break with Pittsburgh's Pirates. Remy Kremer checked all the Giants except Mel Ott in the first clash and Pittsburgh won, 6 to 4. Ott drove in three of the Giants runs with two homers. He hit another four-sacker in the second game while Bill Walker held the Pirates to three hits for a 9 to 0 triumph. The double-header between Cincinnati and Boston was rained out.

Lots of Hits, Runs
The New York Yankees and Cleveland Indians supplied the American league program with some comedy but they each managed to gain a half game on Philadelphia and Washington by splitting a twin bill. New York piled up 18 hits behind Lefty Gomez' effective pitching to win the first slugfest 18 to 1, but the Indians made 13 hits good for 13 runs in the second and won out 17 to 7 as Sarge Connally checked an early New York assault.

Philadelphia's Athletics and Washington's Senators each lost a game. George Earnshaw failed to hold an early Philadelphia lead and Detroit finally won by a 7-6 count in the 12th inning. Washington went down in the regulation time before Vic Frasier and the Chicago White Sox. Frasier held the Senators to six hits while the Sox, after 22 scoreless innings pounded Crowder, Hadley, Fischer and Liska for 17 hits and an 11 to 1 triumph.

Boston's Red Sox made it two straight over the St. Louis Browns, 6 to 5.

Denies U. S. Has Hand in Pangburn's Affair in Japan

WASHINGTON, Aug. 13. (AP)—Acting Secretary Castle of the state department denied officially today that Hugh Herndon Jr. and Clyde Frisborn, American fliers held in Tokyo for violation of Japanese rapine laws, had been acting for the American government.

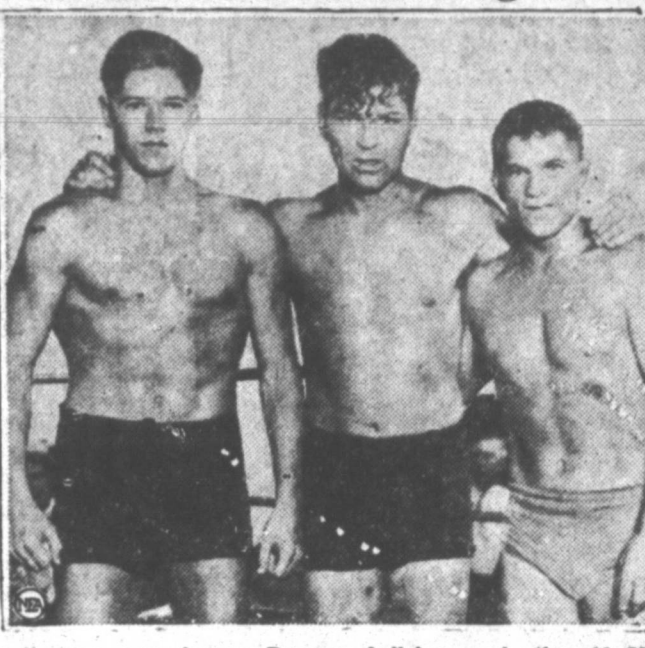

The acting secretary made the denial after newspaper men called his attention to rumors that the two fliers in taking pictures of Japanese fortifications had been acting for the American government. Mr. Castle added he had asked the American embassy in Tokyo for further details of the case after the department had informed the state department it was employing its good offices on behalf of the fliers.

Patman Suggests Relief Session to Set Cotton Price

AUSTIN, Aug. 13. (AP)—Congressman Wright Patman of Texas today told the house agriculture committee that President Hoover should call an immediate special session of congress to enact a law fixing the minimum price of cotton at 20 cents a pound and wheat at \$1 a bushel.

Patman said the suggestion of the Federal Farm Board that every third row of cotton should be plowed up did not appear reasonable to him. If that is done, the farm board should destroy one-third of the cotton, and other holders of the surplus and foreign countries should do likewise, Patman stated.

Comeback Trial Is Rough One

Is it some more famous Dempsey ballyhoo or is the old Manassa Mauler sincere in his plans to attempt another comeback? Some may demand more proof than this picture, which shows Jack after his first workout preparatory to a string of four-round exhibition bouts. Those who gave the old Mauler his first workout were wrestlers, Louis Miller, left, and Vic Christensen, right. And isn't that a tired expression on Jack's face?

Honduran Flier Tells Story of How He Survived Landing on High Seas

SAVANNAH, Ga., Aug. 13. (AP)—Swathed in bandages and weak from exhaustion, Captain Lisandro Garay, of the Honduran army air corps, was brought to Savannah today after clinging for 35 hours to the tail of his wrecked plane in a choppy sea 16 miles off Cape Lookout, N. C.

With him aboard the American-Brasil line steamer Biboco, which rescued him at 10:30 a. m. last Tuesday, came the wrecked monoplane in which he left New York last Sunday afternoon on an attempted non-stop flight to Honduras.

Garay told a dramatic story of his unsuccessful flight, forced descent into the sea, and his rescue. "I left New York about 5 o'clock in the afternoon (Sunday) for a non-stop solo flight to Tegucigalpa, Honduras," he said. "My plane was a Beaneau equipped for long distance flying."

"I flew straight down to Cape May, then to Suffolk and south to Bellhaven and thence by Wilmington, N. C.

Faced Hard Winds
"At this stage of the flight, winds became so strong I had to try different levels to see if I could avoid bad weather. I aimed at 10,000 feet, but when I reached 7,000 feet, I realized the speed I was getting out of the plane, slowed down by bad weather, was not sufficient to enable me to reach my goal."

"I kept my head and by the cities passed on the coast I was able to know my position. I knew what I was doing and I prepared my ship for an ocean landing."

Captain Garay said he had experienced extensively in the methods of bringing a land ship down on water, and that little damage was done by his forced descent.

"After landing," he continued, "I found I could not get the door open and I had to break a window in the plane. The wind was blowing 50 miles an hour and as I broke the window, fragments of glass were blown into the cabin, cutting my face and hands."

"Blood from the gashes was sprayed on the tail of the plane 20 feet away by the wind."

English Tanks
Alone in the choppy sea, Captain Garay kept the plane afloat by releasing gasoline from the tanks, which, when empty, acted as buoys. He stood on the tail, through the remainder of the night, all day Monday, and Monday night, to make certain he would not be blown off by the wind, he ripped a square of covering from the fuselage and worked himself partly inside the tail.

Officers of the Biboco said they found him thus when they found the ship about 10:30 Tuesday morning.

Chief Officer Charles J. Hurley manned a lifeboat and took the exhausted flier from the plane which constant battering by the waves had reduced to wreckage.

Garay denied he faced possible court martial in Honduras for his attempted flight. He said he will return to Honduras with no fear of adverse action.

"My privilege of trying his flight," he said, "I owe to the good people of Honduras who sponsored it."

Governor Bill Avoids Nonsense On Texas Visit

OKLAHOMA CITY, Aug. 13. (AP)—Governor Murray left at noon today for Texas where he will speak at Weatherford tomorrow and Dallas Saturday. He was accompanied by Mrs. Murray, Hugh Jones, member of the state board of affairs, and Mrs. Jones.

The governor's party will be at Fort Worth tonight where the governor said he hoped to obtain some sleep. He will go to the Knights of Pythias Orphans' home near Weatherford tomorrow, then to Weatherford.

Returning to Dallas, the party will stop at Fort Worth for an informal luncheon Saturday. A formal reception is scheduled at Dallas for 3 p. m., with a dinner in the evening and an address at night.

"I will make no speeches at Fort Worth," the governor said. "I will not attend any watermelon cuttings, baby shows or banquets."

Pecan Crop Is Nearly Normal

AUSTIN, Aug. 13. (AP)—A statement saying the current Texas pecan production probably would be "only slightly below," the record crop of 1926, when 41,900 pounds were produced, was issued today by Carl H. Robinson, senior agricultural statistician of the United States department of agriculture here.

The condition of pecans on Aug. 1 was 60 per cent of normal. A year ago it was 35 per cent and the average over a seven-year period is 47 per cent.

"In the area extending northwestward from the Gulf to Tom Green, Brown and Eastland counties," said Mr. Robinson, "prospects are very promising, particularly in the group of counties within a radius of 50 miles of Wharton county."

Conditions in Central Texas are spotted, averaging from fair to excellent. In the western pecan area from Uvalde to Eastland counties, conditions are generally very good but some localities report serious case bearer damage. In the north central area prospects are from poor to fair. Spring freezes and case bearers have caused heavy damage in that area."

Drier Weather But No Drought

WASHINGTON, Aug. 13. (AP)—Paradoxical as it may seem, it has been drier this year than last when drought swept the country and crops are faring decidedly better.

The answer is, J. B. Kinser, weather bureau meteorologist said today, there has been a more even distribution of moisture through the growing months.

Records show only a few states have had as much rain this year as in 1930. The agriculture department's crop report issued this week told of practically all crops being affected during July. Generous yields of the most important crops still are assured.

Rains in the last two weeks generally relieved dry conditions, Kinser said, and the prospects are that late crops will show much improvement.

BEAUMONT EXPORTERS HIT DEAN TO STAY IN SERIES

Bufs Are Defeated in Fourth Game 2 to 0; Next Big Tilt Is Tonight.

BY BILL PARKER
Associated Press Sports Writer
The tradition that a man may be down but never out holds true for baseball clubs. Until last night the Beaumont Exporters were two down and almost out to the Houston Buffaloes in their battle for the first half pennant. Today, the Exporters are only one down and very much on the up and coming as a result of their 2 to 0 victory in the fourth game of the series.

And just to make it sweeter, the Exporters regained their pennant feet by sweeping aside Jerome "Dizzy" Dean, the young fellow who has won 22 Texas league games this season and leads the league in strikeouts with 225. The fifth game of the series will be played tonight in Beaumont. If the Exporters win, the series will stand at two-all with a sixth game necessary. The second game of the series was a 15-inning 4 to 4 tie.

The good right arm of Whitlow John Wyatt turned aside the Houston offense last night. Wyatt, sent to the Exporters by Detroit a month ago to get his arm in condition, proved that his salary win is in fair working order by stopping the Buffaloes cold. Until Wyatt stopped Houston, the Buffaloes had won 20 of their last 22 games, and the 2 to 0 defeat last night terminated their consecutive winning streak at 11.

Many Runless Frames
The game was runless until the first of the ninth. With two out, Tommy Hughes beat out an infield hit down the first base line. He raced to second when Sturdy tossed wild to Dean on the play, the pitcher covering first. Paul "Pound" Em Easterling stroled up and walloped Dean's first pitch into the right center field crowd for a double, scoring Tommy Hughes. Ray Fritz followed with a double into the right field crowd, scoring Easterling.

Wyatt had a superb night against the second half leaders. He limited them to four hits and struck out 9. It was a spectacular mound duel, however, for the estimated crowd of 13,285 saw Dean strike out 12 and pitch a game that would have won under most any ordinary conditions. It was Wyatt's sixth victory in 7 starts.

The Fort Worth Cats picked up a full game on the second place Dallas Steers with a 13-inning decision over Wichita Falls, 5 to 4. Dick Whitworth and Bob Cooney tied up in a sound duel in which both allowed plenty of hits but managed to keep them from coming in the pinches.

Doubly Heroic
Whitworth was a double hero. His mound performance kept Wichita Falls from scoring after the sixth inning, and in the 13th frame, it was Whitworth who slid across home plate with the winning run on Jimmy Dalrymple's double to center. Two were out when Whitworth scored the winning run. It was Whitworth's 14th victory this season.

The Dallas Steers lost valuable second place ground when they dropped the opening series game to Shreveport, 5 to 4. Shreveport committed eight errors in the first five innings to give Dallas a 4 to 1 lead, but after this, the Sports settled down and rallied enough to triumph.

A three-run stampede in the seventh spoiled Dallas' chance for victory. The Sports outlived their opponents 9 to 5.

Andy Bednar uncovered a six-hit game last night to give his Galveston Buccaneers a 3 to 2 verdict over San Antonio. Hobo Carson, San Antonio mound ace with 16 victories this season, was pounded for 10 hits by the Buccaneers.

Havana Houses Cleared of Arms

HAVANA, Aug. 13. (AP)—With reports from yesterday's clashes between government forces and rebels bringing the unofficial death list in Cuba's revolution to more than 60, national police today were prepared to start searching Havana houses for arms in an effort to prevent the uprising spreading here.

All buildings in the capital will be searched and persons found with arms sent to Cabanas fortress. It was announced after police chiefs conferred with Dr. Octavio Zubizarreta, interior secretary.

Twenty-three fell in combat yesterday in Pinar Del Rio province, scene of all important fighting thus far. A three-hour battle at Cajas Del Negro accounted for 15 fatalities, while eight students were ambushed by soldiers near Artemisa. The rebels lost 26 prisoners.

In Pinar Del Rio province troops were looking for General Mario G. Menocal, former president, who is reputed to be leading the movement.

New Bank Rumor Is Declared False

A report heard frequently on the streets this week that a new bank was to be established here was believed to have no basis in fact at the present time.

Names of prominent financiers of this community were connected with the report. Interviews with those persons brought vigorous denials.

"How such gossip gets started is always difficult to learn, but when it is not denied many people are inclined to believe it," one of the persons whose name figured in the rumor said. "We have no intention of establishing a bank in the near future."

The report was started Monday after the First National bank announced that it had purchased the Pampa National bank. All this week will be required by officials of the latter institution to transfer its business to the First National, it was said today.

Says Westbrook Story Prejudiced

DALLAS, Aug. 13. (AP)—R. J. Murray, general manager of the Texas Cotton Cooperative association, today described as "largely a personal controversy" the charges made in the Texas legislature yesterday by Rep. Lawrence Westbrook of Waco. Murray issued the following statement:

"Representative Westbrook, on August 12, before the Texas legislature, made certain charges against former officers of the association which resulted in a motion to investigate the Texas Cotton Cooperative association."

"There is nothing new in the attitude shown by Mr. Westbrook toward former officers of the association and the cotton member of the federal farm board which deserves public interest or discussion, as it is largely a personal controversy on the one hand and internal organizational matters on the other hand."

"A fuller legislative investigation will be welcomed by the association. In the meantime the regular pre-season membership conferences will be utilized to make known to the membership every phase of the organization's business and future plans. The association has nothing to fear from the sensational accusations and charges made by Mr. Westbrook, a former employee of the association."

Wichita Falls Man Is Killed

VERNON, Aug. 13. (AP)—An automobile struck Henry F. White, 43, of Wichita Falls, while he was walking along the highway four miles east of Vernon last night, fracturing his skull.

Claude Anderson, of Oklahoma City, the driver, said he was blinded by the lights of an approaching car and failed to see White. Anderson took White to a hospital, where he was expected to recover.

Osage Indians Here for Game At Gulf Park

Hot, copper-colored Osages, members of the Osage Indian baseball club that will play the Pampa Oilers at 3:30 o'clock this afternoon at Gulf park, arrived in town this morning and pitched their tent on East Third street. They paraded the streets and drew a lot of attention this morning.

In charge of the team is Yellowstone, formerly with the Pittsburgh Pirates. Members of the club include graduates of Haskell college, famed Indian school.

Just before the game starts, the Indians will put on an Indian war dance. Many of them were never off their reservation until they began playing baseball.

Manager William Latch of the Oilers will start Lefty Dillon, rated as the best hurler in the Panhandle, on the mound.

ASSAILANT SOUGHT

LAREDO, Aug. 13. (AP)—Sheriff Ignacio Sanchez today led a posse of 15 men in search of Federico Cuellar, who allegedly shot M. G. Menke through the neck with a pistol bullet in Menke's cafe at Zapata last night. The dispute between Cuellar and Menke preceded the shooting. Menke's condition was serious at a Laredo hospital today.

WOULD PLOW FARM BOARD

Dallas Market Chief Is Bitter On Speculating On Crop Futures.

DALLAS, Aug. 13. (P)—M. H. Wolfe, general manager of the Farmers' Marketing Association of America, in a communication to Gov. Ross S. Sterling of Texas, declared today that the Federal Farm Board is in no position to ask the farmers to destroy one-third of their cotton crop to boost prices. He said: "Regarding the farm board's proposal to plow up one-third of the cotton crop, I would suggest that it would be better to plow up the farm board. As long as the farm board gambles in futures and demoralizes the markets of the world, the board is in no position to ask the farmers to destroy one-third of their property to help the price."

WASHINGTON, Aug. 13. (P)—The White House regards the proposal of the farm board to destroy one-third of the present cotton crop and to establish a stabilization corporation holding for a year to a matter entirely up to the board. It was said at the executive offices that Mr. Hoover was not instrumental in drawing up the proposal and that its carrying out was a matter between the farm board and the governors of the cotton growing states.

BATON ROUGE, La., Aug. 13. (P)—Commissioner of Agriculture Harry D. Wilson today strongly disapproved of the farm board plan to destroy every third row of cotton in an endeavor to boost prices.

"The United States has been noted for production and construction," he said, "it seems now that we want to change to destruction." NEW ORLEANS, Aug. 13. (P)—The proposal of the federal farm board that a third of the cotton crop be destroyed to improve prices was generally frowned upon in official and cotton trade circles of Louisiana today.

Gov. Huey P. Long declined comment on the proposition but Harry D. Wilson, state commissioner of agriculture and president of the National Association for Increased Use of Cotton, stated opposition to the plan impractical.

WASHINGTON, Aug. 13. (P)—Chairman Stone and Carl Williams, cotton members of the farm board, said today the financial salvation of the cotton farmer depended entirely upon the attitude of the governors of the southern states towards the board's proposal to destroy one-third of the crop. The crop destruction plan was suggested on the board's own initiative. It was said at the White House today that President Hoover was not instrumental in drawing it up.

If the suggestion meets with approval, both Stone and Williams foresee a gain of millions of dollars for the south. The details of instituting the plan, Stone said, would be left entirely with the governors. What their reaction will be is not yet known. Stone said their replies would not be made public here until they were all in.

Women Staging Airplane Race

DALLAS, Aug. 13. (P)—Three women fliers were en route to Santa Barbara, Calif., today in an informal air race to test their planes for entry in the national air races.

Mrs. Ruth Stewart of St. Louis, took off from the Dallas airport at 9:40 a. m. Mrs. Debie Stanford of Houston, took off at 10 a. m. Miss Jean Le Rene, of Dallas, took off at 10:35 a. m. Refueling stops were made at Abilene and Midland en route to El Paso, where they planned to spend the night. Unofficial time was to be recorded on the flights.

STOCKS ADVANCE. NEW YORK, Aug. 13. (P)—The stock market advanced moderately along a broad front today. The upturn started in the oils, and spread to merchandising issues during the afternoon. Some profit-taking cropped out in the last hour, and final prices were somewhat under the best. U. S. Steel lost part of a 2-point rise, and Case lost most of an extreme gain of 3 1/2. Issues finishing a point or two higher included General Electric, American Telephone, Sears Roebuck, Montgomery Ward, Woolworth, Kroger, General Motors, Standards of New Jersey and New York. Auburn made an extreme gain of nearly 9. The closing tone was firm. Sales again exceeded a million shares.

Markets

LIVERPOOL ADVANCES. NEW ORLEANS, Aug. 13. (P)—The cotton market had an active opening, owing to a sharp advance in Liverpool as a result of the farm board's recommendation that farmers destroy a third of their crop. First trades showed gains of 27 points. This was hardly a full response to the advance in foreign markets. October traded up to 7.10 and December to 7.30. At these levels there was considerable profit-taking and prices eased off to 7.01 for October and 7.21 for December, a decline of 9 points from the earlier highs.

The market became quieter after the first hour and gradually eased off during the rest of the morning on profit-taking and selling on the belief that the proposition of the farm board to cut production was rather impracticable. October traded down to 6.93 and December to 7.12, or 17 to 18 points under the early highs but still 9 to 10 points above yesterday's close.

Around mid-session the market was quiet and steady but near the lows. The British board of trade statistics for July issued this morning were considered rather better than expected. A fresh storm warning for disturbance somewhere south of Cuba apparently had little effect on the market.

GRAINS LOW AGAIN

CHICAGO, Aug. 13. (P)—Grain prices for July issued this morning. Liverpool reported large shipments of wheat from Black Sea ports, 4,680,000 bushels for the week, compared with 3,080,000 last week and \$1,944,000 a year ago. Increased figures on the big domestic carryover of wheat also attracted notice.

Opening at a shade to 5-8 cents off, wheat later continued to sag. Corn started unchanged to 5-8 cents lower and afterward showed set-backs all around.

KANSAS CITY LIVESTOCK

KANSAS CITY, Aug. 13. (P)—(U. S. D. A.)—Hogs 3,000; 140 direct; uneven, steady to 10 higher; top \$7.00 on choice, 190-200 lbs.; good and choice 140-250 lbs. \$6.15@6.90; 250-290 lbs. \$5.75@6.50; 290-350 lbs. \$5.25@5.90; packing sows 275-500 lbs. \$3.50@5.00; stock pigs good and choice 70-130 lbs. \$6.75@7.65. Cattle 2,000; calves 500; native fed steers and yearlings strong to 25 higher; better kinds western strong; other classes steady; top 60-lb. yearling steers \$9.75; steers 600-1,000 lbs. \$7.50@9.85; common and medium 600 lbs. up \$4.25@7.75; heifers 550-850 lbs. \$7.25@9.50; cows \$3.75@5.50; vealers (milk fed) \$4.50@8.00; stocker and feeder steers, \$5.50@7.50. Sheep 3,500; lambs around 25 higher; odd lots sheep steady; top Kansas lambs \$7.60; lambs 90 lbs. down \$6.75@7.65; ewes 150 lbs. down \$2.00@3.25.

Wheat closed easy, 1-4 to 7-8 cents lower, corn unchanged to 1 1-4 down, oats 1-8 to 3-8 off, and provisions showing 7 cents to 77 cents set-back.

Wheat in Pampa today was quoted at 23 cents.

AUSTIN, Aug. 13. (P)—Governor Ross S. Sterling left here early today for Palacios, where he will inspect the Texas National Guard in regular annual encampment. He will go from there to his home in Houston, returning here Monday.

Lindberghs Are Delayed by Fog In Nome Vicinity

NOME, Alaska, Aug. 13. (P)—Lowering clouds and rain today delayed the departure of Col. and Mrs. Charles A. Lindbergh, flying vacationers, for the Orient.

Lindbergh said it was "very doubtful" if the take-off for the Siberian coast would be made this morning as planned. The storm and rain continued unabated through the night. The unfavorable weather yesterday also prevented a photographer's plane from leaving for the east.

In commenting on the change of their plans, for Lindbergh had announced after arriving here Tuesday afternoon that they "must be on their way" Thursday morning, he said they were in no great hurry and could well await clearer skies for the hazardous 1,067-mile flight from Nome to Karaginsk, across the Bering sea.

Mechanics have gone over their speedy monoplane in its berth, on the waters of Safety bay, 21 miles to the east, and the gasoline tanks have been filled to capacity, more than 500 gallons. The Lindberghs are ready to start on short notice.

Attended "Wolf Dance" Meanwhile, they have "thoroughly enjoyed" the Alaskan variety of entertainment given them by the citizens of this historic "gold rush" town.

Last night they were guests at an Eskimo "wolf dance" after having seen a few hours before an Eskimo blanket-tossing and wrestling exhibition.

In the afternoon, on the water front, Eskimo Kyak racing a far more primitive method of transportation than by plane, was shown the films. In trail skin crafts, one man to a boat, several Eskimos put out half a mile into the Bering sea and raced back to the beach. A prize of \$10 was given the winner, with awards of \$5 each for second and third places.

The races were certainly interesting, Lindbergh commented, and his wife described them as "unique." See Gold Fields Early in the day, despite the rain, a visit was made to the historic gold fields, still operated, and the huge dredges were seen at work. In a brief tour of the community, other historic points were visited, with their hosts, Mr. and Mrs. Grant R. Jackson.

Territorial Senator and Mrs. Alfred J. Loman gave them a typical Alaskan dinner of roast reindeer meat in the evening. During the day Lindbergh disclosed that before leaving Ottawa he had conferred with the Canadian government about visiting and watching a big reindeer drive being made to the Canadian Arctic.

The next hope of the flying couple will take them over the northern and western tip of St. Lawrence Island to Cape Navarin, on the Siberian coast and then down the peninsula. The longest over-water hop will be between St. Lawrence Island and Cape Navarin, about 250 miles.

Injunction May Not Be Pushed

AUSTIN, Aug. 13. (P)—Assistant Attorney General T. S. Christopher said today it might not be necessary to go through with injunction proceedings against L. E. Bigger and other Corpus Christi truck line owners.

Christopher said he had been advised by counsel the defendants stood ready to comply with the law, and added the action against them would be dropped when they did so.

The suit was brought for alleged failure of the line owners to have sufficient and proper permits to operate trucks in the Rio Grande valley section. A temporary restraining order has been issued in the Travis county district court, and a hearing to determine whether an injunction shall lie has been set for Aug. 22.

The truck law with reference to the number of bales of cotton that legally may be hauled has no connection with the bigger action. That law recently was struck down by a three-judge federal court in Houston.

WOMEN STARS PLACED

NEW YORK, Aug. 13. (P)—A new draw, made today for the women's national tennis championships at Forest Hills next week placed Mrs. Helen Wills Moody and Betty Nuthall in different halves of the draw giving the possibility of a meeting in the finals between the former and present American champions.

LEAVES NOTES

MERCEDES, Aug. 13. (P)—Funeral services were held here today for Ysidro Ariza, who shot and killed himself last night on the school grounds. Ariza left notes to members of his family.

Perjury Charge Filed as Stories Related Differ

SANTON, Aug. 13. (P)—J. S. Shelton, Aransas Pass restaurant proprietor, was indicted by the grand jury here today on a charge of perjury in connection with testimony he gave relative to the investigation into the death of Miss Dorothy Doris Symons, 18.

He allegedly told conflicting stories concerning the whereabouts of Newton Yarberry, who has been indicted on a charge of murder for the girl's slaying.

It was charged that on Aug. 1, when Miss Symons' body was found near the Aransas Pass breakwater, Shelton told a number of persons that Yarberry had been in his restaurant on the night of July 30 in a noticeably nervous condition.

He later testified before the grand jury that it was the preceding Saturday that Yarberry had been in his restaurant.

Miss Symons was last seen alive on the night of July 30. She was alleged to have had an engagement to meet Yarberry that night after attending choir practice. Yarberry told officers that he did not meet her.

Tom Conner, who was held for investigation in connection with the case, was released from custody today on a writ of habeas corpus. Attorneys said they had no evidence to implicate him.

Yarberry, who also filed a habeas corpus petition, was to be given a hearing today or tomorrow.

NACOGDOCHES, Aug. 13. (P)—Joe Stribling, 83-year-old confederate army veteran, died here today. Funeral services will be held at Fairview tomorrow afternoon.

Co-Op Probe Is Up to Attorney

AUSTIN, Aug. 13. (P)—Investigation of charges against officers and former officers of the Texas Cotton Co-operative association today was in the hands of the attorney general's department and the legislature's efficiency committee.

The charges, including malfeasance and misuse of the organization's funds, were made on the floor of the house yesterday by Representative Lawrence Westbrook of Waco, former Texas representative of the American Cotton Co-operative association. The house voted that they be investigated. No date for the start of the inquiry had been set.

The first charge alleged that Lynn Stokes of Ballinger, president, and Harry Williams of Dallas, former general manager, "had in 1929 used over \$400,000 of money, due to members for cotton, gambling on cotton purchased outright from the farm bureau's gin company, and that they had lost this money and could not have paid it back if they had not."

Mexican Towns Are Inundated

MEXICO CITY, Aug. 13. (P)—A dispatch today to the newspaper El Universal from Tampico said 16 villages, averaging 500 each in population, had been inundated along the River Panuco by a cloudburst. The loss of life was unknown but was believed to be great.

The majority of the people fled to the hills where it was reported they are almost starving.

The dispatch says Miravegas is entirely surrounded by water and the people have nothing to eat. Twenty bodies were seen in the water.

Civil and military authorities have undertaken relief measures. Williams was "utterly unfitted" for the high position "given him by the accident of politics."

Of course women prefer them
they're FRESH!

NOTHING in a cigarette has ever appealed to women so swiftly and truly as the fresh mildness of Camels in the Humidor Pack.

To the delicate feminine throat the suave, cool fragrance of this perfectly conditioned cigarette comes as a genuine and welcome boon.

Now women smokers as well as men are learning what a throat-friendly joy a fine cigarette in prime, factory-fresh condition can be!

Now they can relish the satisfaction of expertly blended fine Turkish and mild Domestic tobaccos free from the scratch-and-sting of parched and dusty dryness.

Camels in the Humidor Pack are just what

good cigarettes should be—fine tobaccos kept fine, no matter where or when you buy them.

The scientific germ-safe wrapping—not plain ordinary Cellophane, but moisture-proof Cellophane which costs nearly twice as much—seals in all the factory freshness and aroma, seals it so tightly that wet weather cannot make Camels damp, nor drought weather make them dry.

If your taste is jaded with the heat and sting of fast-burning dried-out cigarettes, try cool, humidor fresh Camels for a grateful change.

Give your throat a vacation—try Camels for just one day; then quit them—if you can.

CAMELS

Mild . . . NO CIGARETTE AFTER-TASTE

Tune in CAMEL QUARTER HOUR
featuring Morton Downey and
Tony Wons—Columbia Broadcasting
System—every night except Sunday

Smoke a
FRESH
cigarette

Don't remove the moisture-proof Cellophane from your package of Camels after you open it. The Humidor Pack is protection against perfume and powder odors, dust and germs. It delivers fresh Camels and keeps them right until the last one has been smoked.

FEMININE FANCIES

We urged Tuesday the preparation in August for winter comfort. Maybe this was superfluous. At least it was for women in the Gray County Home Demonstration club. Canning seemed to be the chief activity of many of the women this week when they were visited by Miss Myrtle Miller, Gray county home demonstration agent. In addition to having delicious home-grown food for their families this winter, it is expected they will have some splendid specimens for the Gray County Fair in September.

For instance, Mrs. W. A. Glass of Alameda has canned 100 cans of corn, and T. A. Sanders, editor of the McLEAN NEWS, announced that his family had canned over 150 quarts of black eyed peas. Mrs. Reep Landers of McLean also has done considerable canning. Mr. and Mrs. Norman Johnson and Mr. and Mrs. Herman Roberson of McLean have canned grape juice, plums, and peas.

While in Alameda Miss Miller learned that Mrs. W. W. Whitwell was canning pickles. Mrs. Oliver Elliott was canning peas, and Mrs. A. B. Word was canning beans and peas. Mrs. R. S. Sanders of McLean is preparing to serve home-canned chicken this year.

Mrs. S. W. Rice, one of Gray county's pantry demonstrators, is busy canning cucumber pickles and black eyed peas.

Gardening is also occupying considerable interest of the Garza county residents. From Post comes the following statement:

"Gardening was chosen by 49 out of 63 4-H club girls in Garza county as their productive demonstration in 1931. The story of Ruby Tipton of Close City is told by Miss Madge Wagner, county home agent, as being typical of the work the club girls are doing all over the county. Ruby has gathered nine and one-half pounds onions, 17 pounds English peas, 15 pounds lettuce, 10 1/2 pounds beets, one-fourth pound radishes, and 20 1/2 pounds spinach. The family has not been able to eat all the spinach so far because she has canned nine quarts of it. She has 17 varieties of vegetables in her garden. Ruby says, 'Gardening is lots of fun because you have something for the table that is your own for the family to eat, and then if you keep a record it is more fun because you will work all the harder to have something good to put in your record book and you know just how much you have had and what results you have had.'

"The seed for Ruby's garden cost her \$1.30 and she has worked 10 hours, counting her time at 25 cents an hour, makes her garden cost her \$5.85. The nine quarts of spinach canned are valued at \$2.25, and in addition she has had all the fresh vegetables for the table that she has used.

"It has not all been easy going for Ruby; because of the freeze, wind and sand, she has had to plant some cabbage over four times. Then just as her bean vines were full of little beans the hail came and killed them all. But she has started all over again each time and does not give up."

Although much of the food raised in summer gardens is canned, we must eat in the summer as well as in the winter; hence recipes for fresh food and new ways to prepare fresh vegetables are in demand.

Salads prepared with "the egg yolk salad dressing," the name that has been given to El Food salad dressing because of its high egg yolk content, will prove a delicious addition to any noon or evening meal.

The makers of El Food salad dressing assert that it contains twice the usual amount of fresh egg yolks, which are known to be rich in vitamins essential to sturdy health. And the vacuum whipping process used insures a smooth texture, full weight, and many other advantages.

Here is an excellent salad recipe which, when prepared as indicated with El Food salad dressing, will tempt the most jaded palate:

- 4 large carrots, peeled and grated
 - 1 bunch of celery, diced
 - 1 apple, peeled and chopped
 - 1-2 cup of cheese, diced
 - 1-2 cup of chopped pecans
 - 1-4 teaspoon of celery salt
- Mix well with El Food dressing for salad and serve on lettuce leaf with the same kind of dressing on top dashed with paprika.

COMANCHE WOMAN HERE

Mrs. T. F. Smalling has as her guest her mother, Mrs. G. A. Chilton of Comanche, who will remain during August.

Fat Girls! Here's A Tip For You

All over the world Kruschen Salts is appealing to girls and women who strive for an attractive, free from fat figure that cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat and brings 'that Kruschen feeling' of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure."

Get an 8c bottle of Kruschen Salts at Fatherson Drug Stores, Richards Drug Inc., Pampa Drug Co. or any drug store (last 4 weeks)—you must be satisfied with results or money back. adv-4

VISITOR FROM WICHITA FALLS IS GIVEN Central Baptist Young Folk Have Picnic Supper at Pasture

YOUNG PEOPLE ARE GUESTS IN SMALLING HOME

Miss Margaret Sue Shanklin of Wichita Falls, who is visiting Miss Sussie Bell Smalling, was complimented Wednesday evening when Miss Smalling and Miss Catherine Vincent joined in entertaining at the T. F. Smalling residence.

Dancing was enjoyed throughout the evening and punch was served on the lighted lawn.

The guest list follows: Claudine Pope, Mary and Martha Sneed, Beth Blythe, Mary Jo Harmon, Etha and Oletha Jones, Cleora Stanard, Jean Burson, Ouida Cycle Chappell, Jennie Stennis, Aileen Cook, Ruth Wakeman, the hostesses and the honoree.

Jack Foster, Harold Wakeman, Houston Doswell, Russell Kennedy, Leon Cook, Thomas Clayton, Sam Mahaffey, Robert Dougherty, George Chappell, Floyd Voss, Franklin Montgomery, Max Marbaugh, Burnham Briggs, Billy Hyde, and George Glover.

BIBLE OUTLINE IS STUDIED BY BAPTIST WOMEN

With Miss Mary Burks as instructor, a study of Beauchamp's "Bible Outline" was begun by the Central Baptist Women's Missionary society at a meeting Wednesday afternoon at the church.

A study of the creation was featured at the Wednesday meeting. Other lessons will be taught every two weeks.

Mrs. G. C. Stark, president, presided for a brief business session, and during the social hour which followed members of the Anna Bagall Circle served lemonade and cookies.

Those present were Miss Mary Burks and Mesdames O. L. Bealy, S. L. McAlister, R. M. Mitchell, D. L. Lunsford, L. L. Brewer, Ray R. Hunsate, Frank Hopkins, Walter Kirby, G. D. Holmes, W. J. Perkins, G. C. Stark.

The Lottie Moon circle will be hostess at the next week's meeting, to be held Wednesday afternoon at 3 o'clock.

Cannon Inquiry To Start Soon

WASHINGTON, Aug. 13. (AP)—Chairman Nye of the senate campaign funds committee announced today the inquiry into the use of political funds in 1928 by Bishop James Cannon Jr. would be resumed this month.

The District of Columbia Supreme Court yesterday denied an attempt by Bishop Cannon's attorneys to halt the committee's proceedings.

Senator Nye was in communication today with other members of the committee to fix a definite date for resumption of the inquiry.

Representative Tinkham, republican, Massachusetts, has charged that the Southern Methodist churchman failed to account for all of the \$65,300 entrusted to him as chairman of the Anti-Smith committee in Virginia in 1928.

Girl Scouts Will Have Early Meal

Girl Scouts of Pampa will leave the First Methodist church tomorrow morning at 6 o'clock and go to Harvesters park, where a sunrise breakfast will be prepared.

It will not be necessary for the girls to carry water as was formerly announced, said Mrs. Catherine Wilkerson.

PRIZE FOR GIRL BABES

SPRINGAR, India, Aug. 13. (AP)—Owing to an alarming decrease in the number of female children in the state, the maharaja of Kashmir today offered an acre of land to every father of a new-born baby girl.

Dish Towels Now Are Gay In Both Color and Weave

BY MARGERY TAYLOR
Interior Decoration Editor, McCall's Magazine. Written for Pampa Daily News.

Now comes the glorified kitchen towel.

Since the designer's magic first touched the kitchen, everything in it has been transformed—and now the artist's touch has come to what used to be about the lowest form of still life.

To harmonize with the pots and pans and to make interesting contrasts with the walls and trim of the kitchen, the new dish towels are gay with plaids and checks and motifs in many delightful colors.

A band down the center of the towel is one of the unusual designs, modernistic in its artful simplicity. The band may be anywhere from two to seven inches wide.

And to show how the humble kitchen towel has arisen, these banded towels may also grace the table as runners and the windows as curtains.

The simple banded towel is only the beginning. Designers have become more daring and to the bands have added pictures which tell the story of some particular service which the towel may perform.

There is, for instance, the towel with the words "glass cloth" woven in the linen and with illustrations of a bunch of grapes, a pitcher and a glass.

Also interesting is the design showing a colored horn of plenty, overflowing with fruit, and some graceful glasses.

There are colors for every kitchen. The most popular are blue, pink, red, green, yellow, and — for the moderns — black.

Nor has been satisfied merely with putting on colors. The very weave of the old towels seems to have annoyed the designers.

And so they have developed new designs in weaves which not only add to the decorative effect, but also are useful on fingers made sensitive by dish water.

These new towels have come at the right time, in these days when the kitchen is so popular an annex to the living room.

Now the dish towel need not hide in a corner when the guests troop into the kitchen for the refreshments at an informal tea or buffet meal or a gay Sunday night waffle supper.

Runnels County Is Seeking Title To 'Vacant' Land

BALLINGER, Aug. 13. (AP)—Plans for filling a suit to recover an assertedly vacant strip of school land in Pecos county, now part of the famous Yates oil pool, had been completed by Runnels county today.

The suit, to be filed in Pecos county, involves a 4,328 acre tract of land sold by the county in 1917 to Ira G. Yates.

A surveyor-staked lines purporting to show there were 4,700 acres in the tract and an excess of approximately 300 acres should revert to Runnels county it is claimed.

The acreage contains a number of producing oil wells.

Hunts Accident Policies And Has Real Accident

COUNCIL BLUFFS, Ia., Aug. 13. (AP)—Mrs. Bernice McCurry, searching for an old trunk for her accident insurance policies to see if the premiums had been paid, found an old revolver.

Picking it up with one hand as she reached for the policies with the other, the gun went off.

Mrs. McCurry lost a finger. At the hospital, attendants found the insurance documents still clutched in her hand.

The premiums were paid.

American Fliers Told To Remain

TOKYO, Aug. 13. (AP)—Clyde Pangborn and Hugh Herndon Jr., American fliers held for questioning because they allegedly took photographs of fortified areas while flying over Japan, were ordered today by government officials not to leave Tokyo, pending decision of their case, under penalty of imprisonment.

The order was issued at the conclusion of a long period of questioning by the public procurator, who will determine whether court action shall be taken against the aviators who flew here from Siberia to start a trans-Pacific flight after abandoning an attempt to circle the globe, started in New York.

BRIDGE PLAYED BY TRIPLE ACE

Triple Ace Bridge club members were entertained Tuesday evening in the home of Mr. and Mrs. L. M. Williams.

At the close of a series of games, favors were presented to Mr. and Mrs. L. R. Hartell for high score and Mr. and Mrs. Joe Berry for second high among members.

The guest prize was presented Mr. and Mrs. O. K. Gaylor.

A light luncheon was served at 11:30 o'clock.

Those attending were Messrs. and Mesdames L. R. Hartell, Frank Robinson, Joe Berry, E. T. Broughton, O. K. Gaylor, and the host and hostess.

PICNIC ENJOYED AT ENCAMPMENT BY LOCAL FOLK

A number of Central Baptist church members enjoyed a day of recreation and study at the Baptist encampment near Canadian Tuesday.

Those making the trip were Mr. and Mrs. W. C. Brown and children, Mrs. Sowell, Miss Margaret Long, Mrs. W. B. Barton, Miss Louise Barton, Mrs. S. L. Anderson, Miss Kate Anderson, Mrs. John Black, Miss Ouida Coburn, Mrs. G. C. Stark, Miss Esther Stark, and Miss Mary Burks.

The group heard the Rev. J. J. Cowart, returned missionary from Brazil, discuss Dr. Love's book, "America's Supreme Challenge," and heard Dr. J. C. Hardy, president of Baylor college, Belton, speak on Christian education.

Picnic lunches were spread at noon, and in the afternoon swimming and games were enjoyed.

Wounded Bandit Critically Low

GILMER, Aug. 13. (AP)—Johnny Williams, 22, of Miami, Fla., who was wounded near Rhonshoro in an exchange of shots with Cliff Johnson, was reported in a critical condition today.

Johnson followed two men who bound and robbed his father, Joe B. Johnson, at his store near Rhonshoro late yesterday.

Williams was said to have opened fire on Johnson. A charge of shot from a shotgun struck Williams between the shoulders.

Williams' companion, who gave his name as "Brown," surrendered to ohnson. Johnson surrendered both men to officers.

Ardmore Man Is Seeking Children

Habes corpus proceedings to obtain the custody of his two small daughters were instituted in 114th district court here this week by Joe Gordon of Ardmore, Okla. The mother of the girls, Mrs. Emma Lee Gordon, was named defendant. Mrs. Gordon and the two children live in Pampa.

Other suits recently filed were as follows: Roberta Brandt vs. Merle Brandt, divorce; Mark Huebly vs. W. B. Saulsbury et al, suit on note; Ida Stubblefield vs. H. W. Stubblefield, divorce; Charlotte Moore vs. Lee E. Moore, divorce.

TEXAS BOY SURPRISES CULVER, Ind., Aug. 13. (AP)—Henry Holden of Houston upset the national junior singles tennis championship today by eliminating Raney Donovan, of New York, seeded number two, in the quarter-finals, 6-4, 2-6, 7-5. The other favorites, survived the round.

DALLAS MAN HERE

Abner Gilliam of Dallas is visiting his nephew, J. Odell Gilliam of Pampa.

WILL VISIT IN ABILENE

Mrs. W. B. Barton and children, T. B. Barton and Miss Louise Barton, will leave tomorrow for Abilene to spend the week-end. They will be accompanied by Mrs. F. Ewing Leech and Joyce Turner.

GAMES PLAYED AT GATHERING ON WEDNESDAY

The young people's Sunday school class of the Central Baptist church and the teacher, D. M. Scalet, entertained with a picnic supper at Green's pasture Wednesday evening.

A bounteous meal, served with cold drinks, was terminated with ice cream.

After supper, old-fashioned games were directed by Miss Kate Anderson.

Special guests for the occasion were Miss Lela Scalet, Miss Bernice Castelli, Miss Maxine Howell of Waynoka, and Miss Lottie Morris.

The following others were present: Esther Stark, Pauline Thomas, Lillie Mae Batteff, Magdalene Chamblee, Merietta Gustin, Kate Anderson, Roberta Buzbee, Opal Eldridge, Mona Robinson, Louise Kenneth Irwin, Ernest Taylor, John Buzbee, Alton Sewell, D. M. Scalet, E. M. Chamblee, and Mrs. G. C. Stark.

REV. SUMRALL TO PREACH AT PAMPA CHURCH

The Rev. D. D. Sumrall, pastor of the San Jacinto Baptist church of Amarillo, will supply at both services Sunday at the Central Baptist church.

The Rev. W. O. Cooley, pastor of the Baptist church at Estelline, is expected to take up his duties at the local church the first Sunday in September. Mrs. Cooley, who has been very ill in the Quana hospital, is better this week.

ONE OIL BUYER TO PAY DOLLAR

OKLAHOMA CITY, Aug. 13. (AP)—The first definite sign of success has come in Governor W. H. Murray's fight for a price of \$1 a barrel for crude oil.

Five days after the governor had chided down flush wells in the state, and had called out national guardsmen to enforce the order, one refining company yesterday advised Governor Murray it was in need of crude and would pay \$1 a barrel to obtain it from wells now closed.

The offer was made by Rex H. Winget, on behalf of the Cushing Refining and Gasoline Co., of which he is secretary and general manager. Governor Murray told Winget he was leaving for Texas tomorrow and asked the oil man to return Monday.

The governor, it was said at his office today, expects other companies to agree to pay \$1 per barrel for oil within the next week.

Earlier in the day, Governor Murray had flayed what he termed "propaganda to scare me" in his martial law shut down of flush pools and intimated there might be "such a thing as the state taking charge of pipeline companies."

HERE FROM WAYNOKA

Miss Maxine Howell of Waynoka, Okla., is visiting Miss Bernice Castelle here.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calabates, —once or twice a week for several weeks— and see how Nature rewards you with health.

Calabates purify the blood by activating the liver, kidneys, stomach and bowels. In 10 cts. and 35 cts. packages. All dealers. (Adv.)

Picnic Is Given For Class Today

The Baptist Junior Sunday school class taught by Mrs. F. M. Baker is spending today at Green's pasture on a picnic.

BRIDGE PLAYED IN BRALY HOME ON WEDNESDAY

Judge and Mrs. Clifford Braly entertained the social club of which they are members with an evening of bridge Wednesday.

At the close of the games, Mr. and Mrs. W. A. Braton were announced as making high score, and daily refreshments were served.

Special guests were Mrs. T. J. Constance, Mr. and Mrs. John Sturgeon, and C. H. Walker, while members attending were Mr. and Mrs. W. A. Braton, Mr. and Mrs. George Walstad, Mr. and Mrs. Charlie Thut, and Mr. and Mrs. R. W. Mitchell.

Clouds Prevent Charting Of Dust

WASHINGTON, Aug. 13. (AP)—Overcast skies last night prevented astronomers of the United States naval observatory from viewing the Perseids, the shower of cosmic dust through which the earth passes each August.

They will be forced to postpone for another year their efforts to chart the positions of the streaks of light that appear in the night sky when the dust particles are heated to incandescence by the friction of the earth's atmosphere. Officials at the observatory said the best nights for observing the Perseids would be this year, although the earth will continue to move through the dust clouds until Saturday.

By charting the position of the Perseids, astronomers hope to check the theory that they are moving in the orbit of Tuttle's comet, which was last seen in 1862 and is scheduled to make its next appearance about 1984, it was explained at the observatory. The stream of Perseids is estimated to be about 30 million miles wide, and the particles are believed to be travelling at approximately 40 miles per second.

MOON OF DELIGHT

by Margaret Bell Houston

SYNOPSIS: The marquessa, hoping to prevent a love affair between Juanita and Kirk Standard or Adrian Fouche, tells Kirk's grandmother, Nelly Belaire, and Adrian's mother that the girl is engaged to a Spaniard. Juanita, though posing as Senorita Flores, is unaware of this deception and of the marquessa's plans to rob their new friends. She falls in love with Kirk, who tells their hostess, Nelly, they are engaged. At Adrian's shore dinner, the guests talk of mysterious veiled cigar girl in Divitt's New Orleans gambling parlors, whom Eric Ledbetter calls "Moon of Delight." They do not know that she is that girl, forced by Divitt into her present deceptive role. Happily, Ledbetter, who once had lifted her veil suddenly and kissed her, is not present.

Chapter 26

WHAT DOES KIRK KNOW? Juanita's eyes were on the marquessa and the crowd gathered around her in the gay atmosphere of Steve's place. Moon of Delight—Divitt's—she could not put the thoughts aside.

But someone was breaking into them. It was Emmy Jean, who had come to Adrian's party with young Errey. She was leaning toward Juanita, her earrings swinging each side her small pale face. She had light, limpid eyes that shone a clear green like aquamarines. Juanita found herself wondering what the world must look like through such clear blue eyes.

"Isn't Phyllis Carver awful?" said Emmy Jean, crinkling her lashes, "bringing up the Moon before Naida Preston and Dick? Naida is jealous as the devil of the Moon, and Dick Preston is jealous of Eric Ledbetter. Dick's been drinking himself crazy ever since Naida got back. He'd already had too much when he came here tonight."

"Everybody knows how Eric feels about Naida. And Naida... Well, no woman could resist Eric. The way he spends money, you know. And then he's been everywhere, and speaks all sorts of languages, and had a harem in Turkey, and throws such gay parties."

"You see," settling down to her job of enlightening Juanita—"You see, Eric left one day and Naida the next. Naida's been in New York, and nobody knows where Eric is. But now that Dick knows Eric's away, nothing will convince him they weren't together. I think Eric was with the Moon. You must see her when you go back. It's interesting to see women like that. Phyllis is awful to Naida. Because Dick was engaged to her—to Phyllis—before Naida broke it up. Phyllis would ram that big poker into Naida if she dared. I think myself—"

"Dance with you, Berry? Sure. 'Scuse me, Juanita."

Kirk came back, said to Juanita, "Dance once with Adrian so that you can dance with me. I've something to tell you."

The PATH to the DOOR...

...of the Better MOUSE-TRAP BUILDER is Producing a Crop of WEEDS!

Queen Mary of England herself recently told a charity organization in which she was interested, "Advertise! It pays to advertise." Indeed times have changed. When Queen Mary must talk of advertising, what must the poor mouse-trap builder do? No longer will the world make a beaten path to his door, however wonderful his mouse-trap. Because his competitors are out telling the world about their products in advertising. The world is listening. And buying!

For Best Values Read the Pampa Daily News and Morning Post

There's the situation, sad as it may be to some. The most direct, effective, time-tested, an economical way of reaching the public is through the medium of a daily newspaper. In Pampa, the buying public reads the News and Post and uses their advertising columns as a shopping guide. Therefore, if you are trying to sell what the public needs and wants, be it a better mouse-trap or a better pound of cheese, let the News and Post be your salesman.

READ THE ADS—MAKE YOUR BUYING DOLLAR BIGGER

Arcturus to Work At World's Fair

CHICAGO, Aug. 13. (AP)—Arcturus is going to work for the 1933 world's fair.

Rays of light from the star, which is estimated by scientists to be a 100 trillion miles from the earth, are to be focused on an electric cell through the 40-inch telescope of Yerkes observatory at Williams Bay, Wis., to furnish an impulse which will turn on switches, opening the fairgrounds gates, starting machinery and turning on lights.

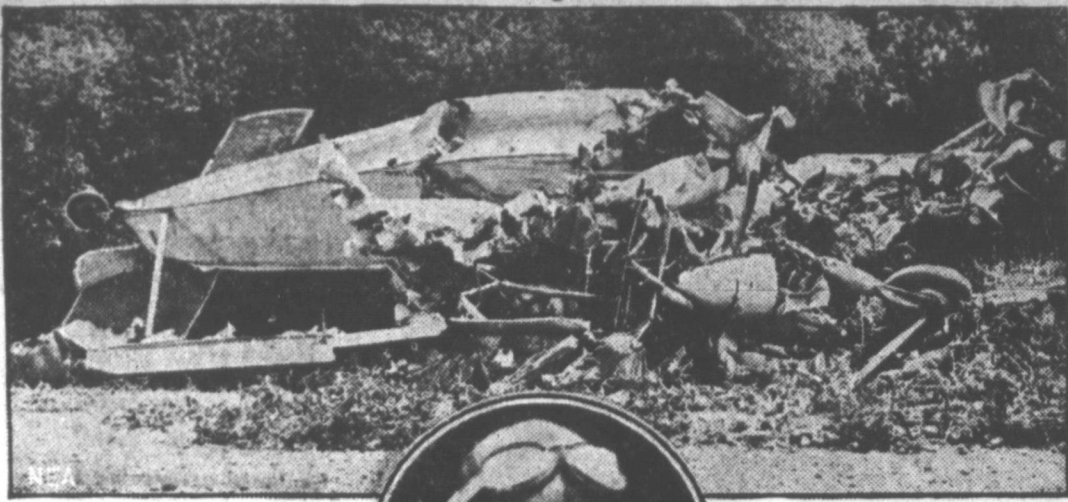

It takes the light of Arcturus 40 years to reach the earth, which means that the rays to be used to start the exposition will have started their earthward journey back in 1893, the year of the world's Columbian exposition.

SLAYER IS SOUGHT

LAREDO, Aug. 13. (AP)—Officers today searched the Zapata section for a man wanted in connection with the shooting of M. G. Menke, Zapata cafe owner, dangerously wounded there last night.

Menke and the man's brother were said to have had trouble over a check.

Where Six Died As Propeller Flew Off Tri-Motor

All that remained of the tri-motor airplane which crashed at Cincinnati killing six is shown here. Pilot Marvin Odell, shown in center, one of the six dead, made a dramatic struggle to bring the ship down

safely after a propeller flew off as the ship took off for Atlanta. The terrific speed of the motor, caused by the loss of the propeller, caused the motor to be torn loose and fall out.

Constable Has Doubtful Status—Under Charge

LONGVIEW, Aug. 13. (AP)—Deputy Constable B. T. (Shorty) Mapes, who had always considered himself a peace officer and as such entitled to bear firearms, today found himself charged with impersonating an officer and carrying concealed weapons.

Mapes is a functionary of precinct No. 1. He agreed to assist T. A. Lewis, state health officer, in investigating sanitary conditions in Greer county. Entering a barber shop at Willow Springs, they requested a barber for what they considered violations of the state code.

County Commissioner J. H. Jones was sitting in a chair nearby, getting a shave. The commissioner arose and challenged the authority of Constable Mapes to investigate sanitation outside his own bailiwick. The constable was taken before a justice of the peace at Willow Springs and two complaints were filed against him. He posted cash bonds of \$100—for impersonating an officer and carrying concealed weapons.

"I wonder," mused the constable, "what they wanted me to carry."

Will Organize To Buy Buffaloes

AUSTIN, Aug. 13. (AP)—Fred Haskett of Wichita Falls announced today a meeting would be held at Goodnight, Armstrong county, Texas, September 7 to form an organization to seek funds to buy the Goodnight ranch for use as a state game preserve.

Mr. Haskett said Governor Ross S. Sterling, Lieutenant Governor Edgar Witt and a number of state senators and representatives had been invited to attend.

A bill was passed in the legislature, which adjourned yesterday, empowering the state game, fish and oyster commission to condemn for state use the herd of buffaloes on the Goodnight ranch. It is planned to make of the ranch a preserve for the buffaloes.

Haskett said he understood Governor Sterling would sign the bill Monday and that the pen he used would be given to the Panhandle Historical society at Canyon.

GOSHEN, N. Y., Aug. 13. (AP)—After two successive postponements, the prospects seemed slim today that the third attempt to hold the sixth running of America's richest light harness racing stake, the \$60,000 Hambletonia, would be successful. Continued wet and cold weather last night brought few signs of improvement to the muddy track at Good Time park and it was expected that the race would be put over again until tomorrow.

Bank Robberies End In Failure

CHICAGO, Aug. 13. (AP)—Midwest bank robbery attempts yesterday were 100 per cent failures.

In one instance, a cow helped to prevent a robbery, while in another, a loon-day factory whistle proved the undoing of two would-be robbers.

At Camp Point, Ill., a gunman called at the home of Newton Pierce, father of Earl C. Pierce, cashier of the Farmers State bank, saying he intended to kidnap his son and rob the bank. The elder Pierce told the intruder he had to milk a cow. His visitor let him go.

Outside Pierce telephoned the sheriff. Becoming suspicious, the stranger fled.

A factory whistle tooted just as

two men ordered the cashier of the Fennville State bank of Pennsylvania, Ind., to surrender the bank's money. Mistaking it for a burglar alarm, they fled, but were captured by passersby.

Donley Farmers Trading Produce To Get Wheat

CLARENDON, Aug. 13. (AP)—Donley county farmers are bartering garden products for wheat.

This county, where little wheat is grown, has an abundance of vegetables, canteloupes, and watermelons, and County Agent T. R. Brown has announced that the farmers will trade their products for enough wheat to provide them with a winter supply of flour and to feed their cows, chickens, and hogs.

Claude, on the edge of the wheat belt, may become the center of exchange where the truck growers will meet the wheat farmers.

Miss Juanita Thompson of Granite, Okla., is visiting Mrs. Ruby Hartins.

Pneumatic Tires On Railroads Are New Achievement

PARIS, Aug. 13. (AP)—French authorities hope to revolutionize their railroad traffic by placing pneumatic tired coaches on secondary lines.

Two different kinds of carriages have been tested with pneumatic tires, a commercial car carrying 18 passengers with a top speed of 62 miles hourly, and a faster car for 12 passengers only but capable of a speed of 78 miles an hour.

The cars were tested on the ordinary railway track running from Saint-Arnould to Coltainville near Paris. No noise could be heard when the car started and the feeling was that of a plane travelling in calm weather. The acceleration was great. In less than two hundred yards a speed of 60 miles an hour was attained. The bends were taken at 60 miles an hour without the slightest discomfort and on straight lines over 70 miles was achieved.

Seated in comfortable arm chairs, passengers conversed with ease. There was no shock and one could not detect where the rails joined. Brakes took hold within 110 yards and the cars stopped as easily as motor coaches. Level crossings were passed at a low speed. The fuel consumption was low.

RETURN FROM COLORADO
Mr. and Mrs. J. H. Lutz returned Monday after a week's visit with relatives in Colorado Springs. They were accompanied to Colorado by their niece, Betty Jane Dussy of Kansas City, who joined her parents there.

Protests Sales of Munitions of War to Enemy

TOKYO, Aug. 13. (AP)—Eugene Chen, foreign minister of the new insurgent government seated at Canton, China, announced here today he would file a protest with President Hoover against the sale of arms from America to the Chinese nationalist government, rival of the Canton regime.

Chen who has been here several weeks as a "tourist," said when arms exports from America were first permitted, the nationalists government was struggling against bandits and other odds, and had no well organized political position, but that the situation now was changed.

"My contention to Washington," said Chen, "will be that since that time Chiang Kai-Shek, nationalist president, has become a virtual dictator, and has run China more as a private individual selfishly in his own behalf and in the interests of the Soong family."

"Now that a regular, organized nationalist government has declared its independence at Canton, the arms sales should be resumed. I cannot conveniently cable from Japan, but will file a vigorous protest as soon as I reach Canton."

INDIANS BACK DOWN
BOMBAY, India, Aug. 13. (AP)—The Indian National congress today decided definitely not to participate in the second round table conference on Indian affairs at London

"TOASTING" expels SHEEP-DIP BASE naturally
(Black, biting, harsh irritant chemicals)
present in every tobacco leaf

"They're out—so they can't be in!"

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia, and the Carolinas—the Cream of many Crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip*, as well as a powerful spraying solution for fruits, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.

*U. S. Dept. of Agriculture, Bureau of Animal Industry, Order No. 210

"It's toasted"
Including the use of Ultra Violet Rays
Sunshine Mellows—Heat Purifies
Your Throat Protection—against irritation—against cough
