We welcome everyone to our community Friday for the Christmas opening. Besides the usual events -- parade, pancake sale, etc., there will be several bazaars and rummage sales held by local clubs. What better way to shop on a budget?

bk
Although winter won't officially arrive until December 21, we have had a touch of the coming season. The colder weather is welcomed by many, but the mild days are to be enjoyed while they last.

bk
We have had a change in plans. Our annual Christmas edition of the NEWS is now scheduled Christmas week.

We currently plan to publish the paper a day early so that most patrons will receive their issue before the Christmas holiday.

Housing Survey For Information For Block Grant

The Pecan Valley Economic Development District will be conducting a housing survey in Santa Anna during the first part of December. This survey is a part of the preparation necessary for a Community Development Block Grant application and the Energy Impact Project.

Through two public hearings recently held in Santa Anna, it was determined that housing was the highest priority in local community needs. Therefore, this survey will be completed in order to get an overall view of the local housing market and determine the specific problems related to housing. The results of the survey will be useful in documenting those problems and possibly in helping to alleviate any negative situations related to housing.

A member of the Santa Anna High School civics class will contact your household in the near future. A short questionnaire on housing needs will be given. Information will be strictly confidential and used only for statistical purposes. These surveys are being conducted with the guidance and permission of local elected officials.

Boy Scout Rummage Sale At Civic Center Saturday

The annual Boy Scout garage sale will be held all day Saturday at a new location -- the Civic Center (former Armory). Due to the large amount of merchandise donated this year, the sale was moved to the larger quarters.

Hundreds of good used items have been donated for the sale, and others are welcomed. Most of all, the Boy Scouts will appreciate local people stopping by to shop from the many good items that will be for sale at a very low price.

Doors will open at 7 a.m. Saturday morning for "early bird" shoppers, and remain open until 5 p.m. The sale offers something for everyone, with items from a refrigerator, toasters and a hair dryer to games, toys and clothing.

The Boy Scout Troop has appreciated help of Mr. and Mrs. A. G. Brewer and Pearl

Wilson who helped sort and price merchandise during the past weeks.

Funds from the sale will be used to build "chuck" boxes for storage of cooking equipment, with each box to cost about \$35. Dutch ovens will be purchased for each patrol at a cost of \$25 each, and other money will be put into savings for future troop expenses.

Those wishing to donate items for the sale should contact Scoutmaster D. D. Wright if you need items picked up for the sale.

Any boy in the community aged 11 to 16 who is interested in Scouting is welcome to meet with the group each Monday at 7 p.m. at the Civic Center. All are welcome.

Center Our Thoughts in Christ

And be renewed in the spirit of your mind. Eph. 4:23.

The youth of to-day may be educated for the fulfillment of high and holy purposes.... They are pupils in the school of Christ, learning from day to day lessons of the divine Master.

It is in youth that the affections are most ardent, the memory most retentive, and the heart most susceptible to divine impressions; and it is during youth that the mental and physical powers should be set to the task in order that great improvements may be made in view of the world that now is, and that which is to come.

The amount of valuable knowledge that can be acquired by young men and young women can hardly be estimated; but to reach a high standard, they must close the door to the debasing thoughts that Satan would thrust into the mind, and refuse to yield to his temptations. The youth may acquire that which gold cannot buy, by cherishing a pure, strong purpose in endeavoring to be all that God designed they should be. The mind should be trained to dwell upon right themes of thought. They should study the Scriptures, and bring into daily life the divine rules which God has laid down for their guidance. He who has grown old in the service of God may find his mind a blank in regard to the things that are happening about him, and recent transactions may soon pass from his memory; but his mind is all awake to the scenes and transactions of his childhood. O that the youth may realize how important it is to keep the mind guarded, pure and clean, from corrupting thoughts, and to preserve the soul from all debasing practices; for the purity or impurity of youth is reflected upon old age.

The truths of the Bible, received, will uplift the mind from its earthliness and debasements. If the Word of God were appreciated as it should be, both young and old would possess an inward rectitude, a strength of principle, that would enable them to resist temptation.

Another Appeal is Heard On Stacy Dam, Reservoir

The appeal of a district court decision upholding the Colorado River Municipal Water District's permit to build the Stacy reservoir was argued last week before the Court of Civil Appeals in Austin.

Frank Booth, Austin, representing the CRMWD, and Tim Brown, assistant attorney general representing the Texas Water Commission on behalf of the state, argue that TWC acted properly and correctly in issuing the permit for the 554,000-acre lake 25 miles southeast of Ballinger on the Colorado River.

"The fundamental question in the case is whether West Texas shall be deprived of water for its future while the lower Colorado River basin enjoys a surplus of water," Booth argued in his brief submitted to the appeal court.

The chief opponent of the

permit, the Lower Colorado River Authority which operates a chain of lakes above Austin, argued that the sum of the water permits on the Colorado River already equals its yield, hence there is virtually no unappropriated water. Both Booth and Brown argued that unused water is wasted water, under the state's conservation statute, and that it is unreasonable to say there is no water available when 2,115,000 acre feet a year flow past the Columbus gauge into the Gulf. The CRMWD is asking only for 113,000 acre feet a year. CRMWD filed for the permit in October 1977 and the permit was granted in 1979. LCRA then appealed to the district court where the Texas Water Commission ruling was upheld.

Visiting by phone Thursday were Col. and Mrs. Bond Womack of Phoenix, Ariz. and Tom Robin of Houston.

SDA Students Bring Cheer To Local Family

After being admitted to the home, the children sang songs, a scripture was read by Stephanie Starr and prayer offered by Earle Cabansag.

Other children participating were Tammi Starr, Johnny Stewart, Linda Young, Eva Marie Perales, Darla Amunson, John Watrous and Rhonda Osburne.

The children's group will be delivering more food baskets before Christmas.

State Comptroller Notes Gas Consumption Nosedive

State Comptroller Bob Bullock Thursday said during the past year gasoline consumption in Texas took a nosedive at a time when the number of vehicles on the state's roads increased.

He said during the state's past fiscal year, which ended August 31, Texas motorists consumed 8 billion gallons of gasoline.

Figures for the 1979 fiscal year show that more than 8.5 billion gallons of gasoline were sold in Texas and about the same amount sold in 1978.

Bullock put total vehicle registration in Texas for the 1980 fiscal year at 11.9 million vehicles, compared to 10 million vehicles on Texas roads during 1979.

"A half billion gallon drop is significant at a time when the state's car and truck population is skyrocketing," Bullock said.

Texas motorists used between 600 and 700 million gallons of gasoline a month, Bullock said.

Bullock said his office collected \$399.4 million in gaso-

line taxes during the past year, compared to \$417 million turned into the state during 1979.

He said three-quarters of the tax goes to the highway fund and one-quarter is put into the Available School Fund.

Gasoline is taxed at five cents a gallon and diesel fuel is taxed at six and a-half cents a gallon, according to Bullock.

Diesel fuel tax revenues amounted to more than \$78 million during fiscal 1980, compared to \$70.7 million during 1979.

Mr. and Mrs. Wells went to Abilene Friday when notified of her death. Mr. Wells remained in Abilene with Mr. Carter until Mrs. Wells went for him on Sunday. Christmas Seals Provide Healthy Lungs

Wigwams on a snowy plain. Santa on a surfboard. A grinning angel flashing golden wings. These are some of the striking images on this year's Christmas Seals, created by young children across the country.

In a world of turbulent change, traditions like Christmas--and Christmas Seals--reinforce lasting values. Peace, health, concern for others.

Way back in 1907, a woman called Emily Bissell, who was

deeply concerned about the plight of TB patients, created the first Christmas Seal to save one treatment center. The Seals proved such a success that they have provided a direct way ever since for Americans to support lung associations in the fight for better lung health for everyone.

When Emily Bissell designed the first U.S. Seal, TB and other infectious diseases cut life brutally short for most

children met in the home of a son, Mr. and Mrs. Elvis Cozart in Round Rock.

Mr. and Mrs. Don Dossett and family of Grand Prairie were guests of Mr. and Mrs. Floyd Morris on Friday.

Mr. and Mrs. Hilary Rutherford of Coleman came by and visited his parents, the Tom Rutherfords, Friday afternoon enroute home from transacting business in Brownwood.

Mr. and Mrs. Jason Bennett of Pasadena and their daughter who is a stewardess with an air line were guests with Mrs. Bennett's sister, Mr. and Mrs. Riley McFarlin, in Santa Anna during the holi-

days.

Mrs. Riley McFarlin reports her sister-in-law, Mrs. Carl (Elvia) Smith, formerly of Coleman and now of Cayuga, Texas, entered a Tyler hospital November 14 and had a pacemaker installed. She was in intensive care for five days, then hospitalized several days but is now home and doing well. Mr. and Mrs. Smith resided in Coleman until recently when they moved to Cayuga to be closer to their children since either Mr. or Mrs. Smith's health was very good. Carl Smith has recently been hospitalized but received a good report following that.

people. The average life span was 47 years. Today the span has been stretched almost three decades longer. That accomplishment represents a miracle made possible by astonishing medical advances, including drug treatment of TB, along with drastic changes in the way people protect their own health.

But, says the American Lung Association of Texas, those changes have not been drastic enough. Cigarette smoking kills 300,000 Americans every year and inflicts crippling disabilities on thousands more. Environmental hazards and dirty air are major threats to the lungs.

Children deserve healthy lungs and a pollution-free future, says the American Lung Association of Texas.

FmHA Announces Goals For 1981

Approval of the Farmers Home Administration state management plan for fiscal year 1981 which began October 1, was announced recently by W.H. Pieratt, State Director for Texas. National FmHA Administrator, Gordon Cavanaugh had recently notified the state office of final approval.

The state management plan establishes the FmHA goals and policies for the use of over \$800 million of loan and grant authority in Texas. The plan addresses targeting of FmHA resources to assist distressed communities and disadvantaged persons and outlines methods of coordinating with other agencies to better

serve rural Texas. Goals for assisting citizens and communities most in need have been established for each FmHA program.

Farmer Home Administration is an agency of the U.S. Department of Agriculture and is charged with the responsibility of providing rural credit to families and communities. FmHA provides loans and grants for farmers, housing, water and sewer, community improvement and business and industry.

In addition to the state office, there are District and County offices in Texas to serve rural citizens. "Rural" usually means places of less than 10,000 persons, with the exception of the Business and Industry program which may serve communities up to 50,000 population.

Last year in Texas, FmHA provided 16,043 loans and grants to families and groups totaling over \$826 million. Group loans include rental housing, business and industry, water and sewer and community facilities. These loans are repaid with interest and provide a means for rural people to help themselves improve their lives and conditions.

Summaries of the Texas Management Plan can be obtained from the District or County FmHA offices. T. Duane Jones, at 625-3035, is local Asst. County Supervisor and Harold Kennedy is the County Supervisor located in Brownwood, telephone number 643-1585, and Mr. John D. Wolf, Jr. is District Director serving the area. He is located in the Federal Building, Abilene, and his phone number is 672-7897.

Tis the Season To be Prudent

A white Christmas can turn into holiday blues if you overspend and go into debt. But it doesn't have to be that way.

Christmas needn't mean worrying how to pay for it. It just means making a budget, using the principles that make sense the rest of the year.

First, figure available funds. How much money can be squeezed from normal operations? Any end-of-year bonuses or tips? If so, write them down.

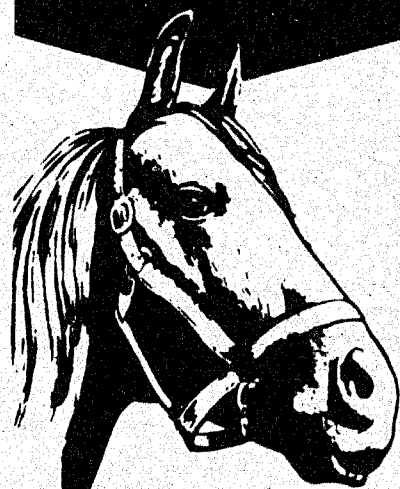

Presents will probably take the lion's share of expenses, so list recipients with gift ideas and a price range for each. Then figure holiday costs for food, entertaining, travel, decorations, Christmas cards and postage.

Now you can tell if there's enough to cover estimated costs. If so, carry out your plan. If not, go back to the drawing board—or into savings.

If you can't afford Christmas, how can you afford to finance it? It's a question seldom asked. But if you borrow for Christmas, it costs more than cash. It can cost your holiday happiness.

Notice how the cost of not saving keeps going up? When you need cash and haven't saved it, you have to borrow. You have to pay top dollar to use someone else's money. That's why it makes so much sense to put a few dollars away each month in the Payroll Savings Plan or in a Bond-a-Month allotment.

Professor gives energy-saving tips for summer weather

COLLEGE STATION — Homeowners and apartment residents can take two relatively inexpensive steps to reduce summer utility bills and save energy and dollars, says an architect and engineer.

Professor William H. Kellett advises checking doors, door thresholds, windows, wall outlets and soleplates for air leaks. Caulk, weather stripping and foam gaskets for electrical wall plates provide the cure.

Air conditioner filters should be cleaned or replaced at least once a month, Kellett recommends. Major savings can also be obtained by cleaning the outside unit.
