

DEAR ABBY: What Are The Facts About Marijuana?

Don't Make The Mistake Of Doing Nothing

DEAR READERS: Rarely do I devote an entire column to one letter, but the seriousness of this problem has prompted me to do just that. So, if you're looking for a laugh today, better skip DEAR ABBY.

DEAR ABBY: Our son is a junior in high school, and he tells us that any kid in his school who wants "grass" (marijuana) or even "acid" (LSD) knows where he can get it.

He has told us that so far he has never tried any of this stuff, but most of his friends have. When we asked him for the names of some of the kids who have "tried it," so we can track down the people who are selling it, he refused, saying he didn't want to be a "fink."

He also said that we adults are making too big a thing over pot and acid — that it isn't nearly as

dangerous as we think it is.

What are the facts? What can we tell our son? What should we do?

CONCERNED PARENTS

DEAR CONCERNED PARENTS: Tell him that a high school student who experiments with any mind-altering weed — or drug — is taking his life in his hands.

Even in a time when moral absolutes are held to be old-fashioned, in this matter of "pot" or drugs for kicks, thrills, and new sensations, parents should not hesitate to say, "THIS IS WRONG!" Hospitals and mental health clinics everywhere are filled with the evidence. Amateur experimentation with the brain cells makes no more sense than amateur heart surgery.

When your son says marijuana, LSD, and other drugs are freely

available around his high school he is undoubtedly telling the truth. When he says parents "make too big a thing out of it" he is parroting the sales pitch of the pushers.

The sad fact is that parents are desperately ill-equipped to cope with the pot and drug propaganda. For most of them it is something that is simply outside their experience. What are nice middle-aged people expected to know about something which in their childhood was confined to the lowest elements of society?

You are correct in seeking "the facts." But the facts are not easy to come by. Science is just now getting around to serious research on the subject, and for too many kids it is a mathematical certainty that the facts will come too late.

About marijuana, this much is known: It is not physically addictive.

The pot cult capitalizes on this. But all it means is that marijuana does not require constantly increasing dosages to produce its mind bending effects, and that a pot user deprived of the weed does not get physically ill from withdrawal pangs.

However, marijuana DOES tend to become psychologically addictive for some. The evidence suggests that this kind of addiction is to the constant user what alcohol addiction is to the alcoholic. It is something less than a true addiction, as is heroin, but it is something more than a "bad habit."

Marijuana now flooding the country is of varying degrees of potency, and (unlike the standardized toxic content of alcoholic products) the varying potency produces varying effects. It can cause anxiety, confusion, im-

paired judgment, panic, temporary psychosis, and a feeling of well being in the face of real danger. But the greatest threat of marijuana, and I cannot emphasize this too strongly, is that IT PUTS CHILDREN IN TOUCH WITH THE DRUG TRADE, AND ANYONE WHO SELLS MARIJUANA TO CHILDREN WILL SELL THEM ANYTHING. AND THIS CAN BE THEIR INTRODUCTION TO THE HEAVIER STUFF, AND A PRELUDE TO A MENTAL BREAKDOWN, A SERIOUS ADDICTION, OR BOTH.

More recently, young addicts have taken alarmingly to yet another destroyer, Methedrine, known in the jargon as "speed," and taken either orally or by injection. "Speed" is a jolting stimulant which can almost literally burn out the nervous system

and leave the victim a mental and physical wreck.

The chain starts with the marijuana contact and the propaganda about parents "making too big a thing of it." Parents CAN'T make too big a thing of it. Which brings us to Question No. 3: What should you do?

MAKE A BIG THING OF IT! Consult your family doctor on the available scientific information. Have him talk man-to-man with your son, as back-up for your own talks with the boy. By all means talk with the school principal. Find out his attitude and the attitude of his teachers. Whatever else you do, don't make the mistake of doing nothing. Crossed fingers and prayers don't work!

Yours, for a healthier America, ABIGAIL VAN BUREN

COLOR CURTAINS Sky Display May Repeat

BOSTON (AP) — New England, along with most of the rest of the nation, was treated to a brilliant display Sunday night of the aurora borealis, or northern lights. Shimmering curtains of reds, yellows and greens began gracing the northern horizon at about 9 p.m., and the spectacle continued through much of the night.

A spokesman for the U.S. Environmental Science Service Administration said there might be a repeat of the phenomenon tonight.

The display was triggered by a period of eruptions on the sun. The result was the bombardment on earth of a stream of high-energy particles, which collided with the atoms of the upper atmosphere. The collision produced an energy transfer, which became visible as light. The display is seen in the north because the light is polarized there by the earth's magnetic field.

There were reports of the lights being seen as far south as Lake Charles, La. They were bright enough to have been seen from coast to coast, the spokesman said.

Escort For Trudeau

Canadian Prime Minister Pierre Elliott Trudeau was escorted past applauding guests into the East Room of the White House today by President Nixon. In center background is Gen. Earle Wheeler, chairman of the Joint Chiefs of Staff.

U.S. Transferring Guns To Vietnam

SAIGON (AP) — A U.S. artillery battalion has begun transferring its 15 howitzers and supporting equipment to a Vietnamese army battalion in the first, unit-by-unit switch of the war, the U.S. Command said today.

It is part of the U.S. effort to upgrade South Vietnamese support units, which is expected to lead to phased withdrawal of American troops from the war.

A spokesman said the current transfer "will not effect the force levels." The U.S. government has set a ceiling of 550,000 American troops in South Viet-

nam, and there are 540,500 serving now.

"The 6th Battalion, 77th Artillery, is the first in a series of support and service units which will go through the same procedure in the next few months," a command statement said. "One other artillery battalion will be involved. Other units will include transportation, engineer and maintenance units."

About 2,500 troops are involved in this switch.

The 6th Battalion has been attached to the U.S. 9th Infantry Division operating out of Dong Tam in the Mekong Delta, 40 miles southwest of Saigon.

May Take A Year Before Large Troop Withdrawal

WASHINGTON (AP) — Some key U.S. military leaders say it may take a year before substantial numbers of American troops can be withdrawn from Vietnam.

But they stress their judgment is based on military factors and acknowledge agreement at the Paris peace talks or a Nixon Administration decision could start a pullout earlier.

Secretary of Defense Melvin R. Laird said Sunday, "I do not believe that now is the time" to discuss U.S. troop withdrawals. Laird said this is because the enemy is continuing a "very affirmative and strong offensive" and because mutual troop pull-back is a major negotiating issue in Paris.

However, the new Pentagon chief spoke of moving toward "Vietnamizing" the war by modernizing the South Vietnamese forces—ARVN—on "a realistic basis"—meaning at a faster rate than the Johnson Administration's program.

Senior officers said any uni-

lateral withdrawal of U.S. troops will have to be keyed to improved battlefield performance of the South Vietnamese troops, something which involves more than just modernized weapons and equipment.

"We'll know this fall," said one top military leader. "We should have a handle by then on how the ARVN's improvement is going."

U.S. commanders also should be able to tell by then if the elimination of the Viet Cong's deep rooted guerrilla structure is proceeding as expected, he said.

On the premise that these factors go according to plan, it was forecast that U.S. withdrawal could start toward the end of this year at the earliest, and perhaps early in 1970.

There have been discussions about withdrawing a division force, which could run up to 50,000 troops.

The United States now has more than 540,000 troops in Viet-

Rules To Restrict Conferees Killed

AUSTIN (AP) — Joint rules restricting the power of House-Senate conference committees to disregard wishes of the two chambers and write entirely new bills are dead for this session, Speaker Gus Mutscher said today.

Mutscher, who opposes the conference restriction, told a news conference:

"I think it is safe to say the Senate joint rules have been retired in the House."

Mutscher also said the House version of the general appropriations bill for 1969-71 will be balanced by existing taxes, but acknowledged senators are in a more bullish mood on expenditures.

"If they want to spend \$100 million or \$150 million more than we do, I'm sure they will want to tax accordingly," Mutscher said.

Under Mutscher's plan—first enacted last week by Chairman W. S. Healy of the House tax bill—would clearly be attributable to a teacher pay raise and any other special spending measures the legislature might pass.

Mutscher said the legislature could appropriate \$242 million over current spending without exceeding existing taxes.

The Legislative Budget Board bill, which is a base for House spending plans, leaves \$65 million available for expenditures, he said. Within that \$65 million, Mutscher said two medical schools and a dental school can be started, and a "sizeable amount" can be dedicated for planning at least three four-year colleges. Also, he said, state aid to junior colleges can be raised as much as \$12 million.

He said the appropriations bill will be "in good shape" in about 10 days, and "We will be spending a lot of time on taxes

in the next couple of weeks."

He said the advanced studied bill will come out of committee this week, and acknowledged the sponsors have a lot of work to do because the floor vote will be close.

Mutscher also said he has "no objection" to annual legislative sessions, and stated the house probably will vote next week on a proposed constitutional change requiring the lawmakers to convene every year.

Joint rules have been a major source of contention this year between Mutscher and Lt. Gov. Ben Barnes, who believes conferees should be restricted and who pushed such rules through the Senate.

Mutscher said his vote for such rules in 1967, when Barnes was speaker, was cast out of loyalty and friendship for Barnes. House failure to act leaves the legislature without

rules to govern House-Senate relations, but the lawmakers functioned in 1967 without joint rules. Mutscher said there is a possibility of later inserting some limits on conferees, such as a reporting requirement. "If I feel we have some shortcomings about the conferees,"

Mutscher spoke as the legislature reached its halfway mark, with most major issues unresolved and another feud apparently simmering between Gov. Preston Smith and Barnes.

Smith is challenging some of the last-minute appointments of former Gov. John Connally—including some already confirmed by the Senate—and Barnes says it comes at a bad time.

Barnes said it could affect at least 150 appointments.

"This comes at an untimely time for the Senate to handle," said Barnes, who presided over the 31-member body. "The with-

drawal of the Connally appointments would overturn 50 to 60 years of tradition set by Texas governors."

Atty. Gen. Crawford Martin already has ruled, in response to a query from Smith, that Connally had no right to re-appoint Randall Jackson of Abilene to the state Securities Board of Jan. 6. Martin said Jackson's prior term did not end until Smith was installed Jan. 21, and Smith should have had the opportunity to make the appointment.

Smith and Barnes have had their troubles before, including an obvious power struggle over former Legislative Budget Board Director Vernon McGee. Barnes, then House speaker, instigated McGee's removal, and Smith, then lieutenant governor, was openly angry.

McGee is now an aide to Smith.

U.N. Observers Finally Stop Israeli, Egyptian Gun Duel

By The Associated Press

Egyptian and Israeli gun forces blazed away across the Suez Canal today after one of the leading Arab guerrilla organizations reported large movements of Israeli troops into the Sinai Desert.

The firing continued through one U.N. call for a cease-fire at 10 a.m. U.N. observers called for another cease-fire at noon, when the Israelis said they stopped shooting. But Israeli army spokesmen said the Egyptians continued firing in several sectors until 12:30 p.m.

Each army accused the other of firing first. They agreed it began at the southern end of the canal then spread north, all the way to El Qantara at the northern end of the Suez Canal.

Israel said it suffered no casualties or damage. The artillery exchange lasted

five hours and 33 minutes.

Elsewhere, Jordanian and Israeli forces clashed for 70 minutes in the northern Jordan Valley, a Jordanian military spokesman said. He claimed that Israel started that exchange and said there were no Jordanian casualties but that Israel suffered three.

The firing across the canal finally stopped after two requests by U.N. observers.

It was the first artillery duel along the canal in six days. Sporadic fighting has been going on across the 193-mile water way for a month. Six Israelis and the Egyptian army chief of staff have been killed and 25 Israelis wounded.

Two recent hulls lasting several days were attributed to sandstorms in the area.

An Israeli army spokesman scoffed today at the report of Israeli troop movements into Si-

nai made by the Al Fatah guerrilla organization. "We regard all Fatah claims as largely imaginary," he said.

Egypt in recent weeks has been reporting Israeli bulldozers along the canal as justification for artillery attacks the Egyptians have made across the waterway.

Al Fatah said Israel appeared to be moving almost all its forces on the Jordanian front to the Sinai in what appeared to be "more than just another exercise."

In Jerusalem, an Israeli military court imposed a life sentence on a 17-year-old Arab youth convicted of throwing a hand grenade that wounded 45 praying Jews in Hebron last Oct. 3. The grenade was hurled into the cave of Machpelah, which is said to house the tomb of Abraham and is sacred to both Jews and Moslems.

Help Name Top Youths

The nomination blank for the 1969 Zale-Herald Youth Achievement Award appears today on Page 8-B. Anyone is invited to name a senior or junior from any or all of the three high schools in Howard County — Big Spring, Coahoma and Forsan — to receive this high honor. You must use The Herald form, completely filled in, but you also may attach a supplemental letter if desired. A winner will be named this year from each of the three schools, and will receive a handsome trophy and engraved watch.

This program is designed to give recognition to young people who are exhibiting leadership and good citizenship. You can help recognize them, also, with a nomination.

City Impounds Eight Cars

Eight cars were impounded Saturday under provisions of a new city ordinance. The recently adopted city law states any car in an unoperative condition, left parked in the street or on public right of way more than 24 hours can be impounded.

A city crew Saturday morning picked up the vehicles, which will be stored until either the owners claim them or the tow charge and storage fee total more than the value of the car, according to Administrative Assistant Larry Smith.

"The cars we picked up Saturday all fell under the 'limited parking' ordinance; however, we plan to extend the operation in the near future to cars abandoned on private property," he said. "There are still many cars in the city covered by the new ordinance. We intend to get them first."

Rifai Assumes Jordan's Helm

AMMAN, Jordan (AP) — Prime Minister Bahjat Talhoumi resigned with his Cabinet today and Foreign Minister Abdel Moine Rifai, the veteran pro-Western diplomat, has been asked to form a new government.

The government change comes as King Hussein prepares for a visit early next month to the United States for a meeting with President Nixon and U.N. Secretary-General U. Thant. He is expected to take Rifai with him.

Talhoumi, 55, has headed the government since October 1967. It was the third time he has been prime minister. His successor has handled Jordan's foreign affairs throughout Talhoumi's premiership and previously held several important diplomatic posts. He was Jordan's ambassador in Washington 1954-1957 and later ambassador in London.

Rifai, 52, distinguished for his Arabic poetry as well as his politics, also was Jordan's representative at the United Nations 1959-1965.

No official explanation has been given for Talhoumi's resignation, but he recently has complained of poor health and reportedly expressed a wish to quit two months ago.

Snyder Man Dies Of Injuries

Injuries received last Thursday night when his pickup collided with another on SH 350 east of here caused the death Sunday of Audie Lee Allison, 43, Snyder.

He died at the Cowper Clinic and Hospital where he and five other victims of the two vehicle collision had been taken.

Allison's body has been taken to the Bolger Funeral Home in Snyder where arrangements are being made for his burial.

The accident which took Allison's life and made him the second rural road traffic fatality of Howard County for 1969, occurred at 11 p.m. Thursday, 14 miles east of Big Spring on SH 350.

He was alone in his pickup going west. Mrs. Alva Stanton, Andrews, was driving a second

pickup travelling east. The two vehicles crashed head-on.

Mrs. Stanton was seriously injured. Less seriously hurt was her husband, Alva Stanton, and their three children, Deborah, Alton and Wanda.

Mr. Allison was born July 16, 1925, in Rule. He and his family had lived in Snyder for the past 18 months.

Survivors include his wife, Glennie Allison; one daughter, Brenda Kay Allison; two sons, Johnny Lee Allison and David Allison, all of Snyder; his parents, Mr. and Mrs. Emmitt Allison, Abilene; five brothers, E. E. Allison, San Angelo, Norris Allison, and Lynnie Allison, both of Abilene, Arlie Allison, Nederland, and Elvis Allison, Clyde.

Kasavubu Dies

Joseph Kasavubu, 52, ousted as president of the Congo in Africa in 1965 in a coup, has died after a long illness, police officials announced in Kinshasa, the Congo, today. Kasavubu had been living in the village of Bema in the central Congo ever since the coup.

Rattler Roundup Winners

Winners in the 1969 Big Spring Jaycees Rattlesnake Roundup which closed here Sunday were, left to right, standing, Jay May and Greg Burwick, both of Sweetwater, first; Judy Fletcher, Miss Diamondback who presented the awards; Del Hutchings, Big

Spring, and Bob Silvers, Odessa, third; kneeling, left to right, Tilbert Willmar, Roscoe, fourth; and Ira Hardin, Colorado City, third. Not pictured is Marris Sewell, Big Spring, fifth.

Champ Snake Snarers Listed

One of the biggest Big Spring Jaycees Rattlesnake Roundups drew to a close Sunday with the Sweetwater team of Jay May and Greg Burwick taking the 1969 snake snarlers title.

May and Burwick led the three-day competition with 218 pounds of rattlers, and also captured the longest snake of the meet, a 5-foot 3/4-inch reptile.

Others who placed in the hunt were Del Hutchings, Big Spring, and Bob Silvers, Odessa; Ira Hardin, Colorado City, third; Tilbert Willmar, Roscoe, fourth; and Marris Sewell, Big Spring, fifth.

More than 40 registered hunters brought in more than 650 pounds of rattlesnakes in three days of searching. Clouds Saturday and high winds Sunday kept the snakes under cover and out

of reach of the hunters. Jaycees also purchased snakes from persons not in the hunt to bring the total over 1,400 pounds.

The roundup itself, snake handling demonstrations by Pat Burchfield, professional herpetologist from Columbus, Ohio, an antique car show, carnival and battle of bands Saturday brought more than 4,000 persons through the turnstiles in three days.

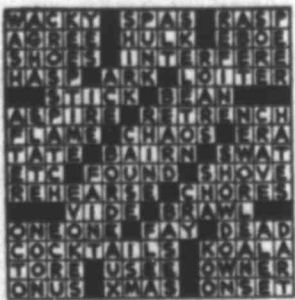

Don Horton, chairman of the hunt, said this year's event was one of the biggest since the hunt was initiated in 1961.

May and Burwick received a trophy and \$50, while May also received \$5 per foot and trophy for the longest snake. Hutchings and Silver, with 141 pounds, got \$35 and a trophy, and Hardin received a trophy and \$25 for 139 pounds. The fourth and fifth place hunters received trophies.

MAINE CRAG TAKING PLACE ALONG LAOTIAN BORDER

Operation Aimed At Red Threat

SAIGON (AP) — More than 3,000 U.S. Marines and South Vietnamese infantrymen backed by an American armored column are pushing another major counter offensive south of the demilitarized zone.

Operation Maine Crag is aimed at a growing North Vietnamese threat to allied bases along the northern frontier. Marine officers at Da Nang said in the past month patrols have sighted as many as 50 enemy tracked vehicles and trucks carrying war materials toward allied bases. Some were believed to be big artillery guns.

BAD WEATHER

It was the second big American drive announced in the past two days and the third within a week, as the Viet Cong's spring offensive rolled into its fifth week.

Maine Crag was launched March 15 but has been slowed down frequently by bad weather. The U.S. Command did not announce it until today for security reasons.

The Marines said the allied force had killed 43 enemy troops so far and captured two prisoners and 129 rifles. Ten Americans were reported killed and 64 wounded. But the allies' main purpose is to cut North Vietnamese supply lines from Laos into South Vietnam.

Maine Crag is taking place along the Laotian border, about 25 miles south of the western flank of the DMZ and just south

of the old Khe Sanh combat base, where U.S. forces held off a North Vietnamese siege for 2½ months last year.

BIG GUNS

One of the Marines' objective is to cut Highway 926 from Laos into South Vietnam. U.S. patrols have sighted North Vietnamese self-propelled artillery guns along the highway, which leads toward the Marines' Vandegrift combat base, the major allied

operations base on the northern frontier.

Field commanders think these big guns could be used to turn Vandegrift base into another Khe Sanh, which was pounded daily with enemy artillery until the siege was lifted. Khe Sanh was later abandoned, a policy of greater mobility was announced, and Vandegrift, 20 miles from the Laotian border and out of range of North Vietnamese artillery inside Laos, became the major Marine combat base along the frontier.

Maj. Gen. Raymond Davis, commander of the 3rd Marine Division, said that Highway 926 was particularly important now because the Marines had cut off other enemy access routes in Operation Dewey Canyon, a

two-month drive that has just ended.

SECURITY WRAPS

On Sunday, the U.S. Command took the security wraps off another offensive, Massachusetts striker, which sent more than 2,000 American paratroopers into the A Shau Valley, 35 to 40 miles south of the Maine Crag operational area. The valley is the biggest North Vietnamese supply base and staging area in South Vietnam's northern quarter.

Helicopters landed troops of the U.S. 101st Airborne Division in the valley on March 1 for the third major allied invasion of the area in less than a year.

But contact has been light and sporadic since the offensive kicked off, indicating that the paratroopers have encountered only rear guard and supply troops. U.S. headquarters reported that 61 North Vietnamese soldiers and 23 American paratroopers have been killed so far and 53 paratroopers wounded.

I can a woman find happiness at a service station?

Is she lost in the man's world of gears, grease and gas? Does she need special help with those baffling decisions, decisions about the care of her car?...Chevron is first to face this age-old problem with a new kind of "Yes, Ma'am!" Service that accentuates the feminine, adds a woman's touch to Chevron Island Service, and gives women's rights the right-of-way.

To induce you to try it, we're launching a first-of-its-kind gift program, starting Mar. 25 for 10 weeks. On Tuesdays only and while they last, there'll be

a free gift for each woman who purchases 8 gallons of gas at any Chevron Island displaying the "Ladies' Day" sign.

You'll receive a different gift each week. Gifts with famous brand names like Helene Curtis, Alberto Culver VO-5, Jergens, Scott, Argenta, Lander and the creators of popular perfumes. And with each gift, a customer opinion card on which to tell us how we can make our "Yes, Ma'am!" Service even better. So have your say on Ladies' Day, and stop for your first free gift this Tuesday.

Every Tuesday is

Rank Tops In 4-H Club Food Show

Shown at one of the table settings during Saturday's 4-H Club Food Show are the four top winners in the junior division competition. From left, they are Kayla Gaskins, Mary Kaye Hunt, Patty Peugh and Betty Lee.

McIlvain. Shown below are the senior winners. Seated are Sandra Bridge and Martha Couch, and those standing are Carolyn Crawford and Linda Crawford.

Eight 4-H Girls Will Enter District Show

The annual Howard County 4-H Food Show was held Saturday in the fellowship hall of First United Methodist with eight girls winning the right to participate in the District Two Food Show slated March 29 on the campus of Texas Technological College in Lubbock.

The first place winners in the senior division and their entry group were Martha Couch, meat; Linda Crawford, milk; Sandra Bridge, fruit and vegetable; and Carolyn Crawford, bread and cereal.

Taking first places in the junior division were Betty Lee McIlvain, bread and cereal; Kayla Gaskins, fruit and vegetable; Patty Peugh, meat; and Mary Kaye Hunt, milk.

All eight winners will compete in the Lubbock show, and senior winners at the district show will participate in the 4-H State Food Show in June at Texas A&M University at College Station. The state winner in each of the four food groups receives a \$500 scholarship from the Fannin Milling Company (Gladiola) of Sherman. Kathy Shaw, a former 4-H Club member from Howard County, received the first award for the top in the milk group in 1967.

OTHER WINNERS

Other senior winners in the meat group were Nancy Phillips, alternate; Mollie Adkins and Dianne Billingslev, blue awards; and Terry Bull, red award. In the milk group they were Phyllis Wynn, alternate; and Brenda Jackson, Marta Prado and Janette Nichols, red awards; in the fruit and cereal group, winners were Joan Crawford, alternate; Carla Hunt, blue award; and Annette Couch and Linda Biesle, red awards; and taking top spots in the bread and cereal groups were Debra Buchanan, alternate; Sherry Phillips, blue award; and Linda Tindol, red award.

In the junior division bread and cereal group, Daria Buchanan, was the alternate. Other winners were Daria Harrington, Gloria Webb and Kelly Zant, blue awards; Lisa Easterling, Dale Mitchell, Becky Snell, Glenna Cornett, Tova Banks, Patsy Furlong, Laura Bull, Jan Reed, Linda Bull and Anita Jones, red awards; and Marilyn Helman and Terry Biesle, white awards.

Fruit and vegetable group placings were Valrae Best, alternate; Robyn Daniel, Susan Nixon, Cindy Fryar, Connie

Hughes and Linda Williams, red awards. In the junior meat group they were Mary Dee Adkins, alternate; Kathy Bull and Dona James, blue awards; Laurie Snell and Sherry Jackson, red awards; and Janet Helman and Diane Armstrong, white awards.

The last junior classification was the milk group in which Ann Nichols was the alternate and the other ranking were Rene Roman and Jeanine Brady, blue awards; and Tricia Jackson, Patricia Fryar and Sherry Griffin, red awards.

The first place senior girl in each food group will be awarded a medal and cookbook, and each of the other senior contestants will receive a certificate for a Gladiola product. The first place junior girls in each group will receive a product certificate from Gladiola, and other junior entries will be presented a project completion certificate.

JUDGING

Judges for Saturday's show included Miss Ruby Butts, home

demonstration agent from Scurry County; Miss Janice Miller, home demonstration agent from Mitchell County; Miss Kathy Shaw, a Food and Nutrition major at Texas Tech; Mrs. James W. Shaw, a 4-H leader from Big Spring; and junior leaders from Scurry and Mitchell counties. Mrs. Walter Wheat, home economist for Texas Electric Service Company in Big Spring, was judge for the girls' menus and recipes.

There were 60 contestants, all of whom had to be actively participating in a 4-H Club and a foods and nutrition group during the current year, or have a self-determined project in foods and nutrition. The girls must be between the ages of 14 and 19 and must have completed three years of 4-H Club work. An estimated 150 or 200 persons attended to view the exhibits. Mrs. Delaine Crawford is the Howard County home demonstration agent.

Bridal Tea Honors Mrs. J. C. Jones II

The Big Spring Country Club was the setting Sunday afternoon for a bridal shower honoring Mrs. James Chapman Jones II, the former Miss Candice Carter of Garland. The couple was married March 15 in the Western Heights Christian Church in Garland.

Hostesses for the complimentary affair were Mrs. Helen Harris, Mrs. Oliver Cofer Jr., Mrs. Bill C. Coleman, Mrs. Jo Bright, Mrs. Mary Cochran, Mrs. Dudley Jenkins, Mrs. C. E. Johnson Jr., Mrs. H. O. Hudgins, Mrs. W. W. Lansing, Mrs. Robert Clark, Mrs. Charles Neefe, Mrs. J. D. Cauble, Mrs. Don Anderson and Mrs. J. W. Dickens. Their gift to the honoree was an electric buffet warmer-skillet.

The bride was attired in a linen dress fashioned with pink bodice and brown skirt as she received guests with her mother, Mrs. Paul L. Carter of Garland, and her husband's mother, Mrs. James C. Jones of Big Spring. The honoree's corsage was an orchid, and the mothers were presented white carnation corsages. The hostesses' corsages were small white wedding bells tied with avocado ribbon.

Matching green cloths covered the gift display table and the refreshment table, the latter centered with an arrangement of yellow carnations and daisies interspersed with greenery. Yellow napkins were used, and the white cake was

CHEVRON

AT CHEVRON ISLAND

This Man has something to say to you

In fact, he has something to say to all of us who sometimes get confused by things which are happening all around us now.

He has some good news to tell us that can change the outlook not only for our lives personally, but for all the Americas.

Won't you take time to hear Dr. James J. Cooper, pastor of the Oak Cliff Baptist Church at the First Baptist Church tonight thru Friday at 12 noon and 7:30 p.m.? This could be the most important thing you will do all of your life. Won't you take time???

FIRST BAPTIST CHURCH—705 W. MARCY

A LOVELIER YOU Pretty Feminine Arm Adds To Loveliness

By MARY SUE MILLER

A pretty feminine arm is trim and firm. Possessing those qualities, the arms become an adornment to the figure.

In lesser states of perfection the arms are distracting. When too heavy, they broaden the top of the figure by many inches. Flaccid arms are just plain aging.

Either way, recontouring is in order. The following routines effect speedy improvement:

1. (A Slimmer) Stretch out on floor, back down, extend arms overhead and clasp hands. Roll onto right side, pressing arm to floor, now rock back and forth, just a little, and "massage" upper arm against floor. Continue for several minutes, turn onto left side and repeat.

2. (A Slimmer and Trimmer) Stand erect, arms extended at shoulder level in front of body with backs of hands touching. Briskly swing arms apart until they reach as far as possible

Group To Observe 74th Anniversary

The Royal Neighbors of America will observe its 74th anniversary Tuesday in the home of Mrs. W. M. Gage, 1200 Nolan. The organization has been active locally for approximately 60 years. Mrs. Maude Marshall of Abilene, deputy, will be principal speaker. A covered dish luncheon will be served, and members are reminded to bring items for the white elephant sale slated that afternoon.

Shrubs Donation For 'Big Spring'

Thirty shrubs of assorted varieties, donated to the project to beautify the area in the vicinity of the old "big spring" by T. G. & Y. store at College Park are to be planted under the supervision of Johnny Johansen, city horticulturist.

Mrs. J. E. Hogan, who is a leader in the program to improve the big spring area, said the manager of the store gave the committee carte blanc in selecting the shrubs from the store's extensive stock.

Juniper, cherry laurel, crape myrtle and pyracantha were some of the varieties Johansen selected.

Use Colorful Tile Vinyl For Windows

Perk up a gloomy entryway or a dark, dull hallway with modern, colorful ceramic tile. This multiple-unit surfacing lets you create distinctive patterns and designs on walls and floors.

Vinyl For Windows

The use of rigid vinyl — which is practically impervious to weather and wear — has helped create a maintenance-free window.

BSP Pledges Honored At Tea

Pledges of Beta Omicron Chapter of Coahoma, Beta Sigma Phi were honored with a tea Sunday in the home of Mrs. Don Cunningham of Sand Springs.

The refreshment table was covered with a white lace cloth and accented with an arrangement of yellow roses, the sorority flower. Mrs. Mackie Hays presided at the silver tea service. Pledges attending were Mrs. Jim DeVoccal and Mrs. Buddy Owens. The next regular chapter meeting will be April 7.

Engaged

The wedding of Miss Susan Stephens of San Antonio and 1st Lt. Philip H. Parks of Fort Hood will be an event of June 8. The bride-elect is the daughter of Mr. and Mrs. H. H. Stephens, 1507 Eleventh Place, and the prospective bridegroom is the son of Mr. and Mrs. C. W. Parks, 800 W. 15th. Miss Stephens is a second grade teacher in the San Antonio Public Schools.

Loop Thread Over Yarn For Speed

You can thread yarn into a needle much more easily if you loop a piece of thread over the yarn, then pass the two ends of thread through the needle eye. The yarn will be pulled in after the thread.

Five Persons Die In Airplane Crash

SAN ANTONIO, Tex. (AP) — Investigators for the National Transportation Safety Board are looking into today the airplane crash Saturday night that killed five persons including the nephew of Rep. Henry B. Gonzalez, D-Tex.

The five were in the Beechcraft Baron which crashed 10 miles northwest of San Antonio International Airport into a hilly area.

Killed were Leonides Carlos Gonzalez III, 37, his wife, Billie, 35; their daughter, Ruth Ann Gonzalez, 12, and her friend, Cecilia Garcia Narro also 12.

All four were from Saltillo, Mexico. They were on their way to San Antonio when the crash occurred.

The pilot of the plane, owned by Gonzalez, was A. L. Rich of Laredo. An aide to Rep. Gonzalez said Rich was hired in

Laredo after it was learned an instrument landing would have to be made in San Antonio.

The accident investigation is routine, a safety board spokesman said.

Spending Spirals

NEW YORK (AP) — Federal, state and local governmental spending will top the \$300 billion mark in fiscal 1969, Tax Foundation, Inc., a nonpartisan research firm said Sunday.

An estimated figure of \$310 billion for the period breaks down to \$1,542 for every American, representing a 130 per cent increase over \$135 billion spent in 1958, the foundation added.

Two Firemen Injured In Four-Alarm Blaze

DALLAS (AP) — Two firemen were injured Sunday as they fought a four-alarm blaze at the Fixture Exchange Corp. in the Fair Park area.

Fireman W. A. Dodd of Mesquite suffered a broken left arm from falling debris. R. C. Giffis bruised his knee trying to help Dodd, but remained on the job.

Eleven employees of the corporation which makes kitchen

and 100 men were rushed to the scene as gusty winds fanned the flames toward an empty warehouse to the east of the building.

The blaze was tapped out at 12:19 p.m.

Fire Chief C. N. Penn placed a preliminary estimate of damage at \$100,000.

Pulitzer Prize Winner Expires

ARLINGTON, Va. (AP) — Bernadotte E. Schmitt, 82, winner of the 1931 Pulitzer Prize for history, died Saturday at his home in Arlington after a long illness.

In addition to his prize-winning book, "The Coming of War, 1914," Schmitt wrote a number of textbooks.

Deputies Searching For Fourth Victim

AUSTIN (AP) — Travis County deputies are set to mount a search today for a fourth person who drowned Sunday when a boat overturned on Lake Travis, 20 miles northwest of here.

The bodies of three persons were recovered Sunday.

The boat overturned Sunday afternoon dumping five persons in the water. One of them, Bob Taylor, 23, of Austin, swam to shore.

Shortly afterward the bodies of Ernest Charnley, 28, his son, Keith, 7, and Scott Davis, 3, were recovered. Still missing was the Davis child's father, Donald Davis, 24. All four persons were from Uvalde.

James F. Beard, 62, Austin, suffered an apparent heart attack and died while searching for the bodies of the drowning victims.

Ray Fixed \$150,000 Fee, Lawyer Foreman Insists

NEW YORK (AP) — Percy Foreman, the lawyer who advised James Earl Ray to plead guilty to the Martin Luther King Jr. assassination, said today an offer of \$175,000 has been made for the movie rights to the story.

Foreman said the offer was made by Carlo Ponti, film producer and husband of Italian actress Sophia Loren, to William Bradford Huie, Ray's official biographer.

"And I'll get 60 per cent of it," Foreman said in an interview in his New York hotel.

In addition to the flat fee, Ponti would pay 13 per cent of the gross receipts of the movie.

Foreman, of Houston, Tex., said Look magazine had guaranteed another \$35,000 for Huie's series of articles on

Ray's life, and that he was entitled to 60 per cent of that also.

The attorney said that his 60 per cent share of the movie, book and magazine rights might total \$400,000 or so, but that he would take only the \$150,000 agreed upon with Ray.

Foreman said he would put anything above that figure into trust for Ray's family.

"I didn't fix the fee, he (Ray) fixed it," Foreman said.

He said he advised Ray to plead guilty "because I believed he would be electrocuted if he didn't."

Ray was given a sentence of 99 years in the Tennessee state penitentiary. He has since signified his intention of asking a rehearing at which he could withdraw his guilty plea and elect to stand trial by jury.

Ray's brother, Jerry, was

quoted by the Nashville Tennessean Sunday as saying that the accused slayer was placed under financial pressure by Foreman to plead guilty and take a prison sentence.

"Foreman said he would take \$150,000 if my brother pleaded guilty, but he wanted everything he would ever earn if he didn't," the Tennessean quoted Jerry Ray as saying.

Foreman described this as "a bunch of —"

In Savannah, Ga., Ray's latest lawyer, J. B. Stoner, said his Ku Klux Klan connections would help Ray's case.

"They show I'm a loyal white man and the white people of Shelby County are for white supremacy," Stoner said. Memphis, where the murder occurred, is in Shelby County.

Stoner asserted that King

"brought about his own death with his activities across the country" and added:

"He was a troublemaker."

Commented Robert B. James, chairman of the Memphis City Council: "He's just making a lot of trouble that we don't need. He's certainly not welcome around here when he talks like that."

Horoscope Forecast

FOR TOMORROW

—CARROLL RIGHTER

GENERAL TENDENCIES: This is no day to take any chances! Don't let your emotions control you — avoid arguments and self-doubt, for you could drive yourself of benefits they could otherwise be yours. Do your job well today and this evening.

ARIES (March 21 to April 19): Be more willing to do what your family expects of you. Stop getting impatient when others are moving more slowly than you. Use tact, be wise and rid yourself of pent-up emotion that is causing dissension.

TAURUS (April 20 to May 20): Infinite care must be taken to avoid arguments where you have to deal with others. Remember, everyone's tempo is different. Be calm and gentle when others lose their tempers. Show that you have wisdom instead of getting angry, too.

GEMINI (May 21 to June 21): Don't panic if you do not have enough money or the things you want right now. Just busy yourself planning how to increase

your fortune shortly. Practice economy. Try refurbishing and repairing at home and you might get big ideas.

MOON CHILDREN (June 22 to July 21): Just remember that others' insults are merely reflections of their own problems and say nothing. Stop being so sensitive. Steer clear of that party. The people there are not worth your time.

LEO (July 22 to Aug. 21): Take care of your personal affairs since the business part of your life may not go too well today. Assist one who is really in need and you can enlarge this person's consciousness. Be smart.

VIRGO (Aug. 22 to Sept. 22): This is not the right time to get the favor you want from an executive or friend of long standing. Ride your time. Be wise, cautious. Avoid that group affair that could become quite contentious.

LIBRA (Sept. 23 to Oct. 22): Make certain you are precise where your vocation or credit is concerned today. Keep

promises you have made. Don't be forceful in any civic matters or you get into serious trouble with officials.

SCORPIO (Oct. 23 to Nov. 21): Forget all those plans to dash around spending much money for recreation. Keep busy with important work. Welcome new comers and gain their good will.

SAGITTARIUS (Nov. 22 to Dec. 21): You have made a fine detailed plan; to avoid serious trouble later, be sure to carry it through. Impress creditors with your reliability. Make yourself as charming as possible as you can.

CAPRICORN (Dec. 22 to Jan. 20): Be careful what you say to an associate who is acting emotionally right now or you could get into an unnecessary

disagreement. Keep some promise you have made to the letter. A bit of witicism could lighten some unhappy situation.

AQUARIUS (Jan. 21 to Feb. 19): Get busy and handle your own work efficiently without trying to get others to do it for you. Do something to improve your health. Stop being a slow-broke or a nervous wreck.

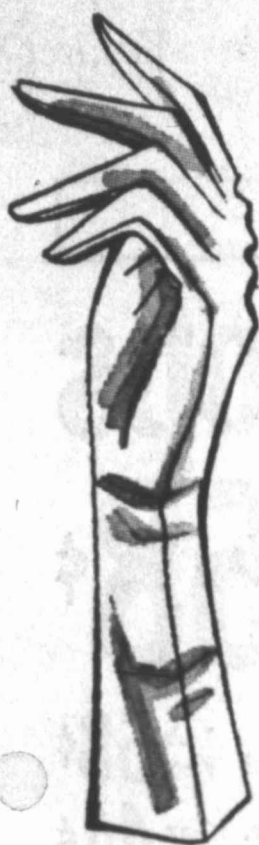

PISCES (Feb. 20 to March 20): Don't try to push others into entertaining you lavishly or you will cause much resentment. Be willing to do even more than is expected of you. Gain the respect of co-workers who think you have been shirking your duties.

CRELON KID GRAINED NYLON GLOVES

... the perfect touch to your Easter ensemble ... they have the look of fine leather, the tailoring of custom made kid ... but they're nylon and are machine washable ... white, bone or black

Wrist length shorty with button or scallops, 3.50
Mid Arm length, 4.00

BIG SPRING, TEXAS, MONDAY, MARCH 24, 1969

SECTION B

TEEN WILL SPEND HIS EASTERN VACATION ENTERTAINING PATIENTS There's 'Good News' In America

Editor's Note: The big international and national news is usually on the grim side. But for beyond the headline focus, there are some cheerful stories. Here's a roundup on some happier occurrences in recent weeks.

Andy Jacobson probably will spend his Easter vacation singing and playing the guitar for the patients at Philadelphia's University Hospital.

Gordon Scott, paralyzed from the neck down, hopes to visit the zoo in Portland, Ore., for the first time because a lot of people are making it possible.

That's not the kind of things that headlines are made of. Good deeds, little bits and snips of cheer and humanity, unfortunately, get lost in the rush of news about the ABM, the Middle East, Vietnam, crime and the other sad tidings.

I LIKE PEOPLE

Andy, 14, who gets to the hospital whenever he can, was asked why he makes the visits.

"Well," he answered, "I guess I just like people."

That says it for a lot of people, like the kind who are making life a little more enjoyable for Gordon Scott.

In Danville, Ill., four teenagers leaped from their automobile and chased off a masked man attempting to attack a woman. Boasted a policeman: "It's really good to know we have people like this in Danville who aren't afraid to go to the aid of someone in trouble."

Mary Moore got a certificate of distinguished service from the Dallas Fire Department for her "unselfish and heroic acts." This 10-year-old girl led seven younger children from a burning house to safety.

BRINGS FOOD

In South Paris, Maine, a good neighbor is a fellow who walks five miles in the teeth of a wind-

driven snowstorm to fill grocery orders for snowbound people along his road. And delivers their mail in the afternoon. "I was getting cabin fever," said Alfred Proctor, a 28-year-old carpenter, "and we needed some groceries, so I just asked some other people in the neighborhood if they needed anything."

Not all is unrest on the campus: The Lambda Chi Alpha fraternity at Pennsylvania State

University collected \$1,600 for charity while its members staged a 48-hour basketball bounce-in.

Students at Northwestern University, Evanston, Ill., volunteered to donate blood to save the life of Danny Noonan, 14-months, who is stricken with hemophilia.

Heskiah D. Stewart, 23-year-old student leader of a drive to raise \$100,000 for predominantly Negro Allen University, in Co-

lumbia, S.C., said the campaign is progressing "fairly well." So far it has raised \$30,000 and the deadline was pushed back to May from March 8.

RACIAL GOODWILL
Students at the University of Missouri at Rolla are spending their spare time on Operation Assist, a joint project of the university, the Urban League and the St. Louis Junior Chamber of Commerce. The idea is to fix up, without charge, a block of

houses in St. Louis that need repair—and to learn something about the inner city.

The 1,500 pupils of New Brunswick, N. J., High School and city and school officials marched arm-in-arm around the school singing as a demonstration of racial goodwill.

NEW LIFE

Eight years ago Carlos Arboleya left his native Cuba with his wife and baby and only \$50 in his pocket. Ask him about opportunities in this country and he will tell you, "Anybody can make his success in this country if he works hard."

He is now a bank president, heading the Fidelity National Bank of South Miami. The bank, incidentally, is not Cuban-oriented. Arboleya did it on ability.

In Chicago, Irma Rodriguez is building a new life after a fire swept her apartment. Mrs. Rodriguez didn't ask for help, but it came anyway. When she reported for her job as a waitress she was handed a list of 20 names of customers who had offered assistance. "I've never had anyone help me so much in my whole life," she said. "I want to cry, but I can't—I just don't cry any more."

More than 100 people who have received kidneys in transplants at the University of California Medical Center at San Francisco said "thank you" en masse. They presented the center with a \$7,000 van equipped with an organ preservation machine.

Trudeau Will Question Nixon About ABM Deal

WASHINGTON (AP) — President Nixon, still fighting to convince Congress of the need for a missile defense system, faced pointed questions on the matter today from one of the United States' closest allies—Canada.

Canadian Prime Minister Pierre Elliott Trudeau, who is making his first official visit to Washington, has confronted the same sort of critical debate in Parliament that has plagued Nixon over the proposed anti-

ballistic missile — ABM — program.

In addition to the ABM discussions, the two days of talks are expected to involve Canada's role in the North Atlantic Treaty Organization and other matters of continental defense.

Trudeau, who reportedly left Ottawa undecided about the ABM situation, was urged earlier in the week by some members of Parliament to try to persuade Nixon from positioning missile defense sites near the Canadian border.

While refusing to do so, Trudeau said, however that "we do not have all the information" on the ABM system to convince him such defenses are necessary.

During a special four-hour debate in Parliament Wednesday, opposition members quizzed Trudeau's government on whether Canada's cities would be endangered by fallout from ABMs.

Trudeau was also quizzed on whether the ABM's would not violate Canadian airspace and to what degree Ottawa had been consulted on the system.

Some questions suggested the decision by the United States to go ahead with the program would heat up the East-West arms race.

The prime minister answered that he will discuss these matters with Nixon and "if we are convinced the ABM system is necessary though regrettable, we shall have to decide whether or not we shall participate in the operation of that system."

Closely related to the ABM question is the matter of continued Canadian military participation in NATO and the North American Air Defense—NORAD—agreement.

Critics of the military alliances charge Canada is too much dominated by the United States by these commitments and should move to a more independent position.

It's Party Time In San Francisco
SAN FRANCISCO (AP) — Some doomsayers and prophets have predicted most of California will be destroyed in earthquakes next month, and in honor thereof the San Francisco Municipal Court staff is having a party.

The event scheduled April 13 features end of the world cocktails, earthquake fizzes and catastrophe royals at 69 cents each.

The Muni Quartet, led by clerk Al McDonald, will sing "Nearer My God to Thee," as others hand out life preservers and black armbands.

MAPS DIXIE DRIVE

HHH Says: We're Going To Pay Off Our Bills

WASHINGTON (AP) — Hubert H. Humphrey, whose liberal civil rights record helped lead to a Southern rejection of his presidential drive, says the national Democratic party in the south must be rebuilt on a racially-integrated basis.

The former vice president

said in an interview he is going to Mississippi next month to help further this goal and restore Democratic strength in the deep south where he carried only one state last year.

"We Democrats have no intention of sacrificing the South to the Republicans or to a third party," he said. But "our party rules require an integrated party and that is what we are going to build in the South as well as elsewhere."

Humphrey's trip to Mississippi, his first to the Deep South since losing the election to President Nixon, is the result of an invitation from the Mississippi Democratic party, an integrated group headed by Negro civil rights leader Dr. Aaron E. Henry.

The Mississippi Democratic party does not represent the state's regular Democratic party, which is all white and opposed Humphrey last year.

Although Humphrey said he is keenly interested in returning to public office he indicated the Mississippi trip wasn't to further his own political fortunes.

"I'm determined that the 1972 nominee shall not inherit a party as divided as that which nominated me," he said.

Humphrey also reported the Democratic party debt from last year's campaign already has been reduced from \$6 million to about \$4.5 million "and that's not too bad."

"We Democrats don't intend to be the paupers of politics," he said. "We are going to pay off our bills and raise money for congressional and Senate candidates in 1970."

Attempt To Find Out Why He Killed

LOS ANGELES (AP) — A specialist who has hypnotized Sirhan Bishara Sirhan eight times in an attempt to find out why he killed Robert F. Kennedy was recalled to the stand by the defense today.

Grant Cooper, counsel for the Jordanian-born, 25-year-old Arab, says Sirhan was "out of contact with reality, in a trance in which he had no voluntary control over his will, his judgment, his feelings or his actions" when he fired the fatal shot last June.

Sirhan professes not to remember planning the shooting, pulling the trigger or his police interrogation afterward. A psychiatrist said last week Sirhan's memory had been erased like

the tape on a tape recorder. To retrieve the details from Sirhan's subconscious, Dr. Bernard L. Diamond, a prominent doctor - lawyer - criminologist, hypnotized Sirhan in his jail cell in a series of sessions beginning last December. He was on the witness stand as Sirhan's murder trial went into its 12th week and was recalled for today.

Diamond, 65, is a professor in the schools of medicine, law and criminology at the University of California at Berkeley. Testimony to date has portrayed Sirhan as a Jew-hater and Arab zealot who was so incensed at learning about Kennedy's long standing support of Israel that he became obsessed with the idea of assassinating him.

Wandering Ocelot Dart Gun Victim

PHILADELPHIA (AP) — A wandering ocelot, prowling Philadelphia suburbs for no one knows how long, died Sunday after being tranquilized with a dart gun.

The 23-pound, yellow and black cat, covered with soot and

grime, was surprised in a patio-habitat on a Delaware County estate by a 65-year-old caretaker who telephoned police.

A sergeant dropped the ocelot with a tranquilizer dart, then rushed the animal to a local veterinarian. Dr. George Huggler said the tranquilizer probably was too much for the ocelot.

Huggler said he thought the animal had fled domestication long ago or never had been a pet.

Stereo Stolen

L. C. Williams, 708 Douglas, reported to police that someone had taken a stereo tape player from his car Saturday while it was parked in the 400 block of W. 17th.

A Devotional For The Day

See what love the Father has given us, that we should be called children of God. (1 John 3:1, RSV)

PRAYER: How grateful we are, Father, for Thy love to us, which delivers us from being casualties of sin along life's road. This day set our hearts upon new paths leading to victories, through Christ, our Savior. Amen.

(From the 'Upper Room')

King Can Do Some Wrong

Despite opposition from local governmental officials over the state, spearheaded by the Texas Municipal League, the Legislature probably will this session remove governmental immunity from tort claims (damage suits) in accidents involving motor vehicles and equipment. It is time that this old doctrine inherited from the king-can-do-no-wrong sovereignty be abandoned.

Under present law, state and local governmental agencies have this immunity when performing governmental functions, such as firefighting, police action, road work, and similar works and services. There is no immunity when performing "proprietary" functions, such as operating a city-owned bus company, certain public utilities, revenue-supported recreation facilities, and the like.

The citizen, however, should have redress to damage compensation for personal injury or property loss incurred through negligence in governmental operations. And it seems better to handle such cases through the courts, as are private tort actions.

The so-called torts claim bill has now passed the House, and a companion bill has Senate committee approval. The House bill, possibly with constructive amendments, probably will pass in the Senate.

Taxpayers, however, should also have protection against exorbitant jury awards. A House committee set damage ceilings at \$200,000 per person and \$500,000 per accident. That was obviously excessive and a bargaining gimmick. The House-passed bill reduced those limits to \$100,000 and \$300,000, which still seems too high.

Required civilian vehicular liability insurance is \$10,000 and \$20,000 (with \$5,000 on property damage). Governmental liability should be higher, but not without reasonable and realistic limits. The TML, aware the immunity doctrine can hardly be sustained, is urging \$25,000 and \$50,000.

The Legislature should keep in mind the disturbing trend to excessively high jury awards in damage cases and consider that whatever maximum it sets will likely be commonly applied. Successive legislatures will have to keep an eye on consequences needing correction.

No Agreement But Understanding

President Nixon seems to have a clear idea of the understanding between Hanoi and Washington which led to the bombing halt of North Vietnam last Oct. 31.

"The understanding was to the effect that continued shelling or attacks on the cities, the major cities of South Vietnam, would be inconsistent with talks toward peace which would be productive in Paris," Nixon told a press conference. "Now, we are examining this particular offensive (by the Viet Cong and North Vietnamese), examining it very carefully, to see whether its magnitude is in violation of that understanding. Technically, it could be said that it is in violation. Whether we reach the conclusion that the violation is so significant that it requires action on our part is a decision we will be reaching very soon if those attacks continue at their present magnitude."

Further light on the nature of that understanding has been shed by Stuart H. Loory, writing for the Los Angeles Times. There is no question that North Vietnamese negotiators in Paris were completely briefed by Cyrus Vance, deputy to chief negotiator, Averell Harriman, on the U.S. position. Loory wrote, "But there is no evidence that the North Vietnamese did any more than acknowledge that they understood the U.S. position."

This does not constitute, in the generally accepted terms of the words, an agreement. Nevertheless, it may be used as a means of prompting frank, private talks between North Vietnam and the United States delegates. In this sort of exchange, shielded from propaganda pronouncements, it might become reasonably clear if there is indeed any hope of a negotiated settlement.

It Is Working?

Movie Classification

By BOB THOMAS

AP Movie-TV Writer

HOLLYWOOD (AP) — G-M-R-X. A new discovered chromosome factor? No, G-M-R-X is the movie industry's formula for classifying films in this era of frankness concerning matters of sex.

Last Nov. 1, the business leaders of American films instituted a classification system such as those which have existed in many other countries, either by government decree or on a voluntary basis.

FOR THE FIRST 60 years of its existence, the American cinema offered its wares to all audiences, regardless of age. Now movies are lumped into one of four categories which designate their acceptability to age groups of filmgoers.

The classification system, long opposed by the major studios and pressed through by producers' head Jack Valenti, has aroused ire from some producers and theater men and confusion from the public.

Billy Graham

I am 80 years old and perfectly contented and happy. I can't believe what you preach about spending eternity in hell. A.R. My own personal opinions have nothing whatsoever to do with my preaching. I believe with all my heart that God has given us the Bible to tell us the things we all should know and believe. The Bible states again and again that all of us are afflicted with a terrible disease of the soul called sin. It also teaches that the wages of sin is death. This is described as spiritual death with eternal separation from God. But the Bible tells us more than this. It tells us that God loves us so much He sent His own Son into the world to die for our sins, in our place. All that we have to do is to accept that which Christ has already done for us. If we do, we are what the Bible calls "born again." We become new people because Christ transforms our hearts and lives. These are some of the simple facts of the Gospel message and I am acting simply as a messenger, to tell people what the Bible says. It may be that you already believe these things and refer to some minor differences which exist between Christians. But, if you have never received Christ as the Savior of your soul and the Lord of your life, let me urge you to do so right now. This is not the opinion of a man, it is God's holy and inspired word and the issue involved is one's eternal destiny. The Bible says: "How shall we escape if we neglect so great salvation?"

Editorials And Opinions

The Big Spring Herald

2-B Big Spring (Texas) Herald, Monday, March 24, 1969

'I'M WAITING TO SEE THE REAL NIXON'

John Cuniff

Nixon Hasn't Stopped Inflation

NEW YORK (AP) — Some of the widely followed consultants to business are beginning to raise questions about the effectiveness of the Nixon administration's anti-inflation policy.

This policy, as expressed by the President's economic advisers, is for a hold-down on government spending in hopes of creating a budget surplus, and cooperation with the Federal Reserve in a restrictive monetary policy.

DIRECT interference in the market mechanism, through guideposts for example, has been all but ruled out.

But, says Lionel D. Edie & Co., "There is a direct contradiction between federal government policies to contain inflation and its expenditure plans." The contradiction, it says, is that some spending will rise.

"Spending for public housing and other social programs will increase under the fiscal 1970 budget," Edie said, "and federal workers are scheduled to receive a \$2.8 billion pay increase effective July 1, 1969."

IN ADDITION, it notes, "President Nixon just recommended an additional \$1.2 billion pay increase for military personnel."

This government spending, combined with an expected rise in consumer income that might stimulate more buying, and indications that business is planning a spending spree, can mean serious trouble.

It means, for example, that at the very time the Nixon administration is committed to dampening inflation because of its serious threat to the nation's economic security, inflationary pressures continue to rise.

THE THREATENED spurge of business spending was first spotted by independent economists and consultants, most accurately by Pierre Rinfret, well before the government itself uncovered the same evidence.

When Rinfret's report was re-

leased nearly a month ago it was considered little less than alarming, for it indicated that corporations planned to spend 14 per cent more than a year ago on plants and equipment.

This percentage was about twice what had been foreseen a few months earlier, and so mixed with the alarm was a good deal of skepticism regarding the report's accuracy.

TWO WEEKS later the Commerce Department and the Securities and Exchange Commission released figures that confirmed the Rinfret survey. Their

study showed American business planned a 13.9 per cent increase in spending.

In explaining the huge increase, Rinfret said bluntly: "The President goofed."

He added: "When Mr. Nixon abandoned the guidelines he set inflation on a more heady course than it had before he made his announcement."

"Why? Because everyone now knows that they can raise prices without fear of government reprisal. In short, when Nixon abandoned the wage and price guidelines he stimulated inflation."

Hal Boyle

On The Government Payroll

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Nearly one out of six employees in the United States now holds a government job.

Some Alaskan fishing villages are so dependent upon dog sleds for land transportation that the canine population of a typical village may outnumber the human population by 140 to 100.

OUR TEENAGERS aren't lazy. A poll showed that three-fourths of high school juniors and seniors plan to hold summer jobs.

The penalty of shoes is foot disorders. Such ailments are almost nonexistent among primitive races that go barefoot.

IS YOUR child a bedwetter? A study by a Canadian physician indicated that among one-fourth to a third of such children the probable cause was an allergy to such common foods as milk, eggs, citrus fruits and juices, or soft drinks.

Quotable notables: "Never grow a wishbone where your backbone ought to be." —Clementine Paddleford.

Diabetes appears to be more prevalent among people who

work with sweets and pastries. A check for the disease among four million Germans recently found diabetic signs among two per cent of the general population but nearly 9 per cent among bakers.

TIME HAS taken a heavy toll of the work of Antonio Stradivari, famed Italian violin maker who died in 1737 at the age of 93. Of the 3,000 stringed instruments he laboriously handcrafted over his long career, only 540 violins, 11 violas and 50 cellos are known to have survived.

Smoking can damage more than your lungs or heart. Last year it was the leading cause of fires in the home. Other top causes: defective electrical wiring and malfunctioning heating systems.

PROSPERITY NOTE: Has your income gone up 130 per cent in the last 10 years? Well, the total spending of federal, state and local governments has — from \$130 billion to \$310 billion. Yet most governments are deeper in debt than ever.

Worth remembering: "The mystery of love is that the more love you give, the more remains in your heart."

To Your Good Health

How To Combat Trench Mouth

By G. C. THOSTESON, M.D.

Dear Dr. Thosteson: My husband has been trying to rid himself of trench mouth for a month. Our dentist thinks he got the infection from a cup in the cafeteria where he works. He thinks my husband's very careful oral hygiene, brushing the gums and rinsing the mouth with salt after meals whenever possible, but at least before going to bed every night, should rid him of this dirty pest.

He has not succeeded, however, and now we believe he has infected me, although I wash all our common utensils and glassware carefully, and refrained from kissing so long as he thought he had the infection.

How can we stop passing it back and forth? And how can we get rid of it once and for all? I've wondered if the germ remains in his toothbrush. — M.B.S.

This is a touchy subject for me, since the problem is essentially a dental one, and there is a limited amount that a physician can do. From experience, I know that some (not all) dentists are ready to pounce on anything that is said about dental problems. Others, bless 'em, have been kind and

constructive in their letters and comments to me.

But the critical ones don't agree among themselves. One said that a person without teeth can't get trench mouth and insisted that kissing has nothing to do with it. Others contradict him.

For what help it may be to you, I'll offer what I believe to be useful suggestions.

First, the germs causing Vincent's angina (a technical name for trench mouth) are present even in healthy mouths, and at least four types of germs which can cause the trouble have been reported in the literature.

It would appear that other conditions must play a part in the infection's flaring up. Certainly the germs flourish in diseased gums.

Local irritants, food impaction and overhanging fillings all have been suggested as contributing factors. Tartar should be removed from the teeth, which must be done by your dentist. You can't do it yourself. Use of vitamin A, in moderate doses, to perk up the resistance of mucous membranes, has been recommended by some, scorned by others. At least it will do no harm.

Possibly a dilute peroxide or

perborate mouth rinse would be more effective than salt. Painting with a weak gentian violet solution may help the gums.

If your husband's gums have receded, one of the devices using a jet of water may be more effective in cleaning between his teeth.

I would doubt that the infection is continuing because of germs remaining on your husband's toothbrush, as the germs should not remain viable when the brush dries. Anyway, they would be only a sampling of germs that are more prevalent in his mouth.

If the trouble is not beginning to clear up, I would go back to the dentist and see whether further attention — removal of tartar, repair of fillings, etc. — is required.

Acne is one of the most terrible problems of growing up. If you are afflicted with this aggravation, or if you have children who are, write to Dr. Thosteson in care of The Herald for a copy of his helpful and comforting booklet, "Acne — The Teen-Age Problem." Please enclose a long, self-addressed, stamped envelope, and 25 cents in coin to cover cost of printing and handling.

Around The Rim

The Vanishing Handyman

One thing and another:

One of the men I admire most in this world — the jack-of-all-trades — is fast disappearing from the scene.

He's vanishing because the modern business world insists on specialization — which, in reality, is a bane of society.

THE MODERN home owner needs a man who, on short call, can clear a drain pipe, get a cat out of a tree, raise a stubborn window, keep a garage door in working order or replace a pump on an air conditioner.

He should hold an honored spot in our society — the equal of the professional man, the parson or the insurance vendor. Regrettably, he doesn't, because he never had much of an appetite to fight that kind of fight.

THE FACT that the handy man is disappearing into the sunset is changing the life of the average householder, making him more self-sufficient.

The man of the house is taking care of many a chore he never dared to tackle before. He's become a self-trained do-it-yourselfer. A man educated through trial and error.

He may have a scar or two to show for it but he begins to wear confidence and self-assurance like badges of honor after he undertakes some difficult chore he never knew

he could do before and at least gets a passing grade on it.

THOSE WHO would have a state or a community force the citizenry to issue permits for all firearms might think again, if they consider the costs of such an undertaking.

The city of New York now has such a statute on the books. An independent survey conducted there recently for the National Commission on the Causes and Prevention of Violence, revealed that the cost to process each application for a pistol permit was \$72.87.

A New York police officer, testifying at a hearing on the matter, told reporters that in some cases, where there was special checking for a new applicant, the cost soared to \$500.

REGULAR READERS of the Holy Bible might contend the point but the best read book today is the telephone directory.

The local directory invariably comes free — its cost is included in the service charge. However, if you want directories from other communities — and many individuals and business concerns do — there are charges of varying amounts.

Because people are ever on the move, a telephone company has to devote a sizable part of its budget and its personnel to keep the telephone directories up to date.

—TOMMY HART

Move Against College Disturbances

WASHINGTON — The American people at last are going to see something done about the "law and order" problem which became a dominant issue in the last presidential campaign. President Nixon now has

authorized his attorney general to go ahead and prosecute the persons responsible for conspiracies which have resulted in disturbances on college campuses or the street "demonstrations" that have produced numerous riots across the country.

THE FEDERAL government has the right, under a law passed in 1967, to punish the conspirators. But, for one reason or another, the preceding administration didn't get started on the path of prosecution, even though the Federal Bureau of Investigation had collected considerable data on the subject.

Attorney General John N. Mitchell frankly states that the campus disorders have gone beyond the pale of student demonstrations. In a television interview last week he said:

"THESE ARE active militants who are entering upon a conspiracy. There seems to be no doubt, as any one can read in the newspapers, that there have been lines of communication between some of the parties involved and some of the foreign governments. This has, of course, been established in the press, and I think they are accurate."

"These people are primarily not students. They're militant activists who appear on college campuses. They are not students as such."

"WE HAVE AN obligation under the existing statutes to investigate the commission of crime, and that is what we are doing in these instances. . . . and to the extent and when it's appropriate, we certainly will use all of the resources of the Bureau of Investigation and this department to bring these people to justice."

"When a party such as we are

talking about — these militant, radical activists — cross a state line with the intention of creating a riot, and the riot is created under a conspiracy, that is a commission of a federal crime."

THE STATUTE, which was attached to the Civil Rights Act of 1967, provides that anyone crossing state lines with intent to incite, organize, promote, encourage, participate in, or carry on a riot may be prosecuted and sent to jail for five years, or fined up to \$10,000, or both.

Local governments have been reluctant to take action in connection with campus rebellions and have waited for vacillating and reluctant authorities in the colleges to bring in the police. But with the steps now taken by the federal government, it is probable that law-enforcement agencies of states and cities will be encouraged to move into the situation on their own initiative and begin making arrests on a wider scale than heretofore.

IT SEEMS CERTAIN that there at least will be exposure of the activists who have managed to stir up or intensify disturbances in various colleges. Representative Richard H. Ichord of Missouri, Democrat, who heads the House Committee on Internal Security, has announced that an intensive investigation on the subject is being conducted. He said recently:

"Prominent citizens have been prevented from speaking on campuses and public buildings have been commandeered . . .

"OUR CONCERN is with the nature and extent of what may be organized, unlawful subversion. We do not intend to impinge or infringe upon academic freedom but we do feel that the committee should know all that it is possible to know about what is going on in order to discharge its mandated responsibilities."

Holmes Alexander

The 'Path To Responsibility'

WASHINGTON — If you had to pick the administration's Nearest-to-Nixon Man, the description would be that he's 65, silver-haired, an easy conversationalist, an honors-laden economist, a traditional conservative, a relaxed worrywart about the future of his country, a writer who doesn't spark with slogans and who would like the Nixon program to be known by such a bland term as The Path to Responsibility.

DR. ARTHUR F. BURNS, presidential counselor, gets called upon for his advice often by anybody at or near the White House. He's not assigned to foreign policy, but he rates with or above Dr. Henry Kissinger on international affairs. He is not specifically oriented to urban studies, but he has more influence in this field than Dr. Daniel Patrick Moynihan, the urban affairs director. Dr. Burns is more generalist than specialist.

DR. BURNS, though he speaks kindly of no person and no party, is intellectually staggered at the Republican task of cleaning up behind the New Frontier and the Great Society. His orderly brain begins to swim when he contemplates some 400 aid-and-grant subagencies in the government structure. He is dismayed at the host of Welfare State camp-followers who have turned welfare into a \$9 billion industry. Men and women should do a day's work for a day's handout, he believes. He's as concerned as Sen. McGovern and other bleeding-hearts about "hungry" Americans, but he can see giveaway food-stamps as perhaps the worst Stamp Act since King George III.

A DIFFERENT sort of man might have a card-index file of quickie palliatives or jack-in-the-box panaceas. Not Arthur Burns, who is probably the reason President Nixon so often disparages "instant" solu-

tions. But in order to start beating this Path to Responsibility, Burns holds that the Nixon administration must make sure that its vaunted "openness" is not just a phrase, not just a pose. A beginning at credibility was to abolish hack-politician patronage at the Post Office. A stronger move is to establish a volunteer Armed Force, not because the draft isn't much cheaper and more efficient, but because it's unfair and unacceptable to American youth.

YOU CAN'T GET a jazzy interview out of a sage like Dr. Burns, nor make a glory road out of a pedestrian subject called the Path of Responsibility. But you can find insights into the reasons why President Nixon is something less than a speed-demon in taking us Forward Together.

At the end of February, the first full month in office, Dr. Burns coordinated a list of 94 directives sent out to the Cabinet and agency heads. Directive 75 instructed Mr. Moynihan to review the welfare of welfare programs. Number 76 apparently asked the Budget Bureau to find a sensible way of getting food to the wretched but not to the racketeers. Number 77 seems to say that persons asking for public assistance must prove they need it.

THERE IS A pending inquiry, proposed in number 46, which could make it harder for non-workers to complain about the shortage of jobs. There is another in number 27 which can be read as the beginning of a Federal birth control policy for the slums.

The common feature of these ideas is that they are too startling to be thrown at the country in a Hundred-Day blitz.

They are proposals for radical reforms, but paced by the White House for gradual acceptance.

Standing For Decency

An estimated 30,000 persons turned out in Miami Sunday at a rally for decency in entertainment at the Orange Bowl football stadium. Name entertainers who donated their time appeared on the stand in the middle of the field.

'Decency In Entertainment' Teen Rally Lures 30,000

MIAMI (AP) — A teen-age "Crusade for Decency in Entertainment" which drew 30,000 hand-clapping supporters to the Orange Bowl Stadium Sunday may become a permanent organization.

"We far surpassed our goal and we definitely plan to continue," said Kevin O'Connor, spokesman for the 10-member executive board which organized the rally. "We hope it will grow into something permanent, and we believe it will."

"This was not a protest rally at all. We're not against something; we're for decency. The response was just overwhelming. We raised enough to meet expenses before the rally went on, and have \$1,500 left over."

Teenagers organized the rally after Jim Morrison, lead singer of The Doors, was charged with indecent exposure during a Miami concert March 1. Six warrants have been issued for his arrest.

Big Red One Please Call

Anyone serve in the 1st Division—"the Big Red One?" Dr. Halvard Hansen, commander of the American Legion post, wants to hear from someone who served in this division and asks that they call him at 263-3324. The reason has to do with a presentation.

Bridge Test

ANSWERS TO BRIDGE QUIZ

Q. 1—As South, vulnerable,

you hold:

AK74 KJ 103 6 AK852

The bidding has proceeded:

East South West North

1 0 Dble. Pass 1 0

Pass ?

What do you bid now?

A.—Inasmuch as partner has

been forced to bid and may be

completely lacking in values, a

single raise is as much as you

can do at the present. In support

of hearts your hand is worth 17

points. If partner has as many as

nine you will hear from him

again if you give him a single

raise.

Q. 2—Both vulnerable, as

South you hold:

AK7 KQ 1082 KJ7542 AJ

The bidding has proceeded:

North East South West

1 0 1 2 2 2

3 3 3 3 3 3

What do you bid now?

A.—Four diamonds. You have

already made a free bid at a

high level, and another free bid

will do justice to your holding.

If you jump to five diamonds,

partner may be induced to con-

tract for slam in the expectation

that you have the ace of hearts.

Q. 3—Partner opens with

two spades, and you hold:

AK42 1095 KQ6 AKJ43

What is your response?

A.—This is a very strong hold-

ing opposite a two demand bid

and a jump to three no trump

describes such a holding.

Q. 4—As South, vulnerable,

you hold:

AKKQ10764 A43 A62

The bidding has proceeded:

South West North East

2 3 Pass 3 3 Pass

3 3 Pass 3 3 Pass

What do you bid now?

A.—Pass. Partner's bidding has

described a hand containing a

powerful self-sustaining club suit

but probably no other values (else

he would have taken time out to

describe them). If you insist upon

spades, you may never reach his

hand. Your hand will prove to be

a useful dummy.

Q. 5—Neither vulnerable,

as South you hold:

AKJ97 1053 0983 AKJ8

The bidding has proceeded:

North East South West

1 NT Pass Pass 2 0

Pass Pass ?

What do you bid now?

A.—Double. Yes, this is a

penalty double, and West isn't

going to make it by at least a

trick or two, and perhaps more.

You have seven points and partner

has at least 16. That's 23 to

17, in your favor, and partner

likely has three trumps.

Q. 6—East-West vulnerable,

as South you hold:

AKJ94 1075 082 AKJ63

The bidding has proceeded:

West North East South

1 0 Dble. Pass 1 3

Pass 2 NT Pass ?

What do you bid now?

A.—Three no trump. Partner's

double followed by a jump to two

no trump describes a hand which

is practically as good as a two

no trump opening. He could

hardly have less than 21 points

and you have six.

Q. 7—As South, vulnerable,

you hold:

AKQ984 10KQ93 0A742 AJ

The bidding has proceeded:

South West North East

Pass 3 3 Dble. Pass

? ?

What do you bid now?

A.—Four clubs. There can be

doubt that your side has a game

and conceivably even a slam. But

which suit? You might guess the

wrong one. The best bet is to

make your partner select the suit.

Your bid amounts to saying, "We

have game in hand, partner, in

any suit you choose to play."

North should then make the

selection.

Q. 8—Both vulnerable, as

South you hold:

AKQ94 1063 0AQ7 AKQ853

The bidding has proceeded:

North East South West

1 1 Pass 2 3 Pass

2 0 Pass ?

What do you bid now?

A.—Three no trump. Naturally

a jump bid is obligatory at

this point, but a jump in spades

is not recommended inasmuch as

you have only three trumps.

There is the additional considera-

tion that you should strain to be

declared to protect your diamond

tenace against immediate attack.

Q. 9—Neither vulnerable,

AKKQ10764 A43 A62

The bidding has proceeded:

powerful self-sustaining club suit

but probably no other values (else

he would have taken time out to

describe them). If you insist upon

spades, you may never reach his

hand. Your hand will prove to be

a useful dummy.

Q. 5—Neither vulnerable,

as South you hold:

AKKQ10764 A43 A62

The bidding has proceeded:

South West North East

2 3 Pass 3 3 Pass

3 3 Pass 3 3 Pass

What do you bid now?

A.—Pass. Partner's bidding has

described a hand containing a

powerful self-sustaining club suit

but probably no other values (else

he would have taken time out to

describe them). If you insist upon

spades, you may never reach his

hand. Your hand will prove to be

a useful dummy.

Q. 5—Neither vulnerable,

as South you hold:

AKKQ10764 A43 A62

The bidding has proceeded:

South West North East

2 3 Pass 3 3 Pass

3 3 Pass 3 3 Pass

What do you bid now?

A.—Pass. Partner's bidding has

described a hand containing a

powerful self-sustaining club suit

but probably no other values (else

he would have taken time out to

describe them). If you insist upon

spades, you may never reach his

hand. Your hand will prove to be

a useful dummy.

Q. 5—Neither vulnerable,

as South you hold:

AKKQ10764 A43 A62

The bidding has proceeded:

Gibson And Lolich Tangle

St. Louis Cardinals pitcher Bib Gibson, left, and Detroit Tigers Mickey Lolich, right, are shown as they pitched during spring exhibition game between the two teams in Lake-

land yesterday. Gibson allowed three hits and gave up two runs in the five innings he worked. Lolich also worked five innings, giving up five hits and three runs.

Johnson Hitting Long Ball For Philadelphia

By The Associated Press

Deron Johnson, who traveled downhill for the last three National League seasons, appears to be setting back into his old long-ball groove with the Philadelphia Phillies.

Johnson, who drove in 130 runs for Cincinnati in 1965 but delivered only 33 for Atlanta last year, continued to sparkle for Philadelphia in exhibition play Sunday, slamming a pair of two-run homers and a run-scoring double in a 5-2 victory over the Los Angeles Dodgers.

The 29-year-old slugger, sold outright to the Phillies after batting .208, with eight home runs, for the Braves in 1968, has connected for three homers in the last three days. He homered

against Detroit Friday and unloaded Sunday off the Dodgers' Claude Osteen in the fourth inning and John Purdin in the eighth.

Jerry Kosman, the New York Mets' sore-shoulder southpaw ace, hurled three scoreless innings in a 7-3 victory over Boston, but Red Sox right-hander Jim Lonborg worked only two full innings before his pitching shoulder tightened up.

Lonborg, who finished at 6-10 for the Red Sox last season after undergoing knee surgery following a winter skiing mishap, suffered a "slight strain at the base of the right shoulder blade," according to Boston trainer Buddy Leroux.

Detroit edged St. Louis 7-6, Dave Campbell scoring the winning run in the ninth on an obstruction play. The Tiger base runner, caught in a rundown between third and home, was waved in when Cards catcher Jim Hutto interfered with him.

Washington spotted Houston a 6-0 lead, then struck for four runs in the seventh inning and six more in the eighth to down the Astros 10-6. Gary Holman drove in three Washington runs with a homer and single, keying the comeback. Frank Howard, who picked up his first hit of the spring, and Del Unser, delivered two more apiece.

Second baseman Marty Martinez made a leaping catch of Graig Nettles' base-loaded liner and turned it into a game-ending double play as Pittsburgh nipped Minnesota 5-4 with the help of Bob Robertson's three-run homer.

Sal Bando, Danny Cater and Dick Green tagged left-hander Mike Paul for homers, powering Oakland to a 7-4 victory over Cleveland. The Indians' "B" team bowed to San Diego 17-10 in a 35-hit slugfest despite six Cleveland homers, two of them by Zoilo Versalles.

The Chicago White Sox capped

talized on two errors by shortstop Jackie Hernandez for four unearned runs in the eighth and a 4-2 verdict over Kansas City. Dave May's two-run single in a three-run seventh swept Baltimore past Atlanta 4-3.

Lee May slammed a two-run homer and Alex Johnson and Johnny Bench each hit one with the bases empty, pacing Cincinnati to a 6-3 victory over the New York Yankees.

San Francisco posted California 10-1, with Gaylord Perry scattering six hits through the first seven innings.

Two ninth inning errors by shortstop John Kennedy helped the Chicago Cubs score twice and shade Seattle 7-6 in the second game of a doubleheader after the Pilots took the opener 5-4 on Wayne Comer's triple and Larry Haney's infield out in the 11th.

Big Spring Cardinals will begin baseball training at 5:30 p.m. today at Lakeside School. Teenagers desiring to play may contact Benny Marquez Sr.

The Cardinals, who had a 22-10 record last year, will open the 1969 season April 13 against Ballinger. All players off the 1968 squad will be returning this year, Marquez said.

Coach Marquez said that he has been to Mexico this winter to schedule games with teams from below the border.

Assisting Marquez as coaches this year are Domingo Rubio and Francisco Rubio, general manager. Raul Rubio is president of the team, and Jose Hernandez is treasurer. Rudolph Calveran is secretary.

McGregor Takes Shot Put Place

ACKERLY — Johnny McGregor of Sands High School placed fourth in the shot put event at the Imperial track meet Saturday. His name was not included on the original list of winners from the meet and thus not reported. He heaved the shot 46 feet and 3/4 of an inch, and Coach James Blake observed "we thought he did well, especially since this was his first toss of the season."

The event was won by Jim Fryar, Sands, with 50 ft. 4 inches.

Blake will take 24 boys to Sundown Friday to take part in the district meet. Fourteen schools will be competing.

Lamar turned back Big Spring Runnels 15-8, and 15-1 in the eighth-grade finals. Earlier Runnels clipped Sands 15-1, 15-2 and Snyder Travis, 15-2, 15-11. Big Spring Goliad took consolation, losing first to Lamar, 15-10, 15-10, then nipping Big Spring Runnels B, 15-4, 15-10. In the final round, Goliad turned back Snyder Travis.

The ninth grade tournament was a repeat of the Snyder invitational the previous week when the Big Spring Blacks and Big Spring Goliad tangled in the finals. The Goliad drew a bye in the opening round, then nipped Lamesa. The Blacks vanquished Snyder Lamar, Kernit, a victor over Snyder Travis after having lost to Lamesa, went on to beat Snyder Lamar for consolation honors.

Lupe Mendoza (Runnels A) was named outstanding set of the tournament, and Shields (Snyder Lamar) was outstanding spike.

Among those making all-tournament team from here were: Eighth grade — Kate Bradshaw (Runnels B) and Leslie Jones (Runnels A), Debbie Irwin (Goliad), spikes; Letricia Trevino (Runnels A), and Nan Cranford (Goliad), sets; ninth grade — Lottie Ellison outstanding spike, and Vicki Annen, outstanding set; Beverly Peters (Goliad) and Denise Bryant (Blacks), spikes; Sylvia Rodriguez (Blacks), and Debbie Addy (Gold), sets.

There, Lockney, 6-4, 6-4; Rod Adomson, 6-1, 6-0; Keith Grayson-James Knit, Big Spring, over Danny Curves-Randy Lockney, Lockney, 6-1, 6-1; Fred Church-Charles Lamar, Monterrey, over Grayman-Knight, 7-5, 4-6, 6-1.

Some Realignment Sure Following Football Meet

PALM SPRINGS, Calif. (AP) — American Football League owners weren't about to stage a sit-in or even a swim-in at this desert resort at the foot of the San Jacinto Mountains last week. But they went home a

much more unified and militant band of millionaires than ever before.

Their new militancy is reflected in the new realignment committee they named at the end of their week-long winter meetings with the National Football League.

Oakland's Al Davis, who as league commissioner spearheaded the signing war that culminated in the 1966 merger, is the chairman of the four man

group that replaces the trio of owners who, with their NFL counterparts on the joint study committee, had unanimously recommended retention of the present setup for 1970.

The other three members of the new committee are Paul Brown of Cincinnati, Lamar Hunt of Kansas City and Gene Klein of San Diego. Hunt was retained from the original group, but Buffalo's Ralph Wilson and Boston's Billy Sullivan were not.

Brown is the most interesting name among the quartet. In the league for only one year, the former NFL owner-coach has emerged as one of the AFL's strongmen.

He did it by going to the meetings determined to gain realignment for 1970 and convincing some of his more moderate colleagues that they should buy what the NFL was selling — the two leagues as they are now plus some inter-league games.

He, and those who thought as he did, particularly Gerald Phipps of Denver, wound up turning the meetings around and sending all 26 owners home with the knowledge that there has to be some form of realignment.

During the meeting the AFL owners made it clear to the NFL what their goals are in a realignment. They listed them as follows:

He, and those who thought as he did, particularly Gerald Phipps of Denver, wound up turning the meetings around and sending all 26 owners home with the knowledge that there has to be some form of realignment.

Bass Already Taking Charge At Tech By Remote Control

LUBBOCK, Tex. (AP) — Bob Bass won't assume his duties as head basketball coach at Texas Tech until April 1, but he's already taking charge of the situation by "remote control."

Bass was named Saturday to succeed Gene Gibson in a joint situation at Denver concerning a log-term contract. Bass was coaching under a one-year pact.

Bass did say, however, that college basketball was his first love.

"Pro basketball is fine but there is so much travel involved and so little home life. When I first went into the ABA, I knew

exactly what I was getting into. I knew there would be 60 nights away from my family and 50 Saturdays and Sundays. What I didn't know is that I wouldn't have any time off in the summer.

"You can't buy that kind of time—this is what prompted me to look into something else—and Texas Tech proved to be that something else."

Bass declined comment on the situation at Denver concerning a log-term contract. Bass was coaching under a one-year pact.

Bass said in Dallas Saturday that recruiting is already under way at Tech and indicated he would lend help by remote control while continuing his Rocket duties.

Bass, who resigned from the Rockets amid rumors of dissatisfaction in the Denver organization, said he would seek top notch junior college transfers, if needed to regain Red Raider prestige in Southwest Conference and national collegiate ranks.

Bass also said the naming of an assistant coach at Tech—a position now held by Charlie Lynch—"was in the mill," but would not elaborate.

Bass has been highly successful in both college and professional coaching. He has built up a string of 15 consecutive post-season playoff berths—13 at Oklahoma Baptist and two at Denver.

"I am going to do all I can to keep that string going," Bass said. "The basketball program at Texas Tech obviously has been built on a solid foundation,

and I intend to continue this."

SIX DIE IN PLANE CRASHES, SEVEN SHOT TO DEATH Traffic Mishaps Claim Dozen Lives In Texas

By The Associated Press
Violence took 35 lives in Texas over the weekend with six persons dying in plane crashes and four in one boating accident. Five persons, including the nephew of a Texas congressman, died in a plane crash Saturday in San Antonio. Traffic mishaps claimed 12 lives; seven persons were shot to death, one suffocated, four died in fires and five drowned. The tabulation began at 6 p.m. and continued until midnight Sunday. The San Antonio crash Saturday night killed L. C. Gonzales, 37, of Saltillo, Mexico, his wife, Billie, 35, their child, Ruth Ann, 12; and the child of a Saltillo friend, Cecilia Garcia Narro, 12. **HITS RAILING** Also killed in the crash was the pilot, identified by the Bexar County Sheriff's office as A. L. Rich of Laredo. Porter O. Woods, 67, of Eastland died Friday night when his automobile and a Texas and Pacific freight train collided. The accident occurred at an intersection of Farm Road 570 and the T&P spur to the Texas

Electric Service Co.'s Leon Power Plant. Robbie Elbert Nabors Jr. of Dallas died shortly after midnight Friday when his car hit a bridge railing on Texas 199 near Springtown north of Weatherford. Two Odessa men died in a two-car collision in the West Texas city early Saturday. They were Porter M. Garner, 56, and Gary R. Stroud, 19. Delisa Johnson, six-month old daughter of Mr. and Mrs. DeWayne Johnson of South Dallas, was found dead in her bed Saturday morning with a sheet

wrapped around her head. Authorities said she died of suffocation. **SHOT IN HEAD** Lester Robinson, 41, of Lindale drowned when his car ran off Farm Road 2011 into Lake Cherokee near Henderson Saturday. Donald Goins, 19, of Dallas died Saturday after he was shot once in the head with a .38-caliber pistol. Police said they have a man in custody in connection with the shooting. Lt. (j.g.) Edward H. Herdrick of Phoenix, Ariz., 25, was killed in the crash of his jet trainer

plane near Beeville late Friday. An investigation was being conducted. Two children in South Dallas perished Saturday when flames filled their bedroom. They were Terry Sue Curlin, 2, and her brother Lucas, 3, children of Mr. and Mrs. Willie Howard Gurin. Harry Baldwin, 67, died Saturday in a fire at his Arlington home. Fire officials said the fire was caused by smoking in bed. George E. Fritzsche, 22, of Cypress died Friday night when his car collided with a truck on US 290 west of Cypress. Two Houston men were shot

to-death Friday night in separate incidents. Police said Redo Vicent Liotta, 24, was killed by a shotgun blast at an apartment. Shot to death at a resident, police said, was Bobby Joe Johnson, 31. Refaela Felan, 71, of San Antonio was killed in that city Saturday when she was struck by a car. **MIDLAND SHOOTING** A fire on San Antonio's north side at an apartment duplex claimed the life of Odessa Johnson, 43, Saturday. Two persons were killed when a Volkswagen bus and a car collided on an access road to Loop 410 in San Antonio Saturday. A man and a woman in the Volkswagen were burned to death. William H. Dumas, 49, of Amarillo died following a one-car accident Sunday on US 287, three miles west of Bowie. Investigators said he ran off the road and hit a utility pole. Ruby Hoakum, 38, of Hooks, Tex., was killed and five others injured in a one-car accident Sunday near Carthage in East Texas. The car in which they were riding apparently went out of control on US 59 and plunged into a creek. Roy Gene Bennett, 29, of Houston was shot to death outside a Houston tavern Saturday when the pickup truck he was driving overturned on a night, police said. They have

charged Roger Lee Bachman, 27, with murder in the case. Joe Herbert Hoskins, 38, of Dallas was shot to death outside a Dallas bar early Sunday, police said. A 30-year old man was being held in the case.

WONG DEATH A San Antonio man, Chester Wong, drowned Sunday when a small boat capsized in the Laguna Madre near Corpus Christi. Two other men in the craft managed to swim to shore. A boating accident Sunday afternoon on Lake Travis took the lives of four Uvalde residents. Sheriff's deputies have recovered the bodies of Earnest Charnley, 28, and his son, Keith, 7, and also that of Scott Davis, 3. They were still searching Sunday night for Donald Davis, 24, the father of the three-year-old. A fifth person in the boat managed to swim to safety. William H. Dumas, 49, of Amarillo died following a one-car accident Sunday on US 287, three miles west of Bowie. Investigators said he ran off the road and hit a utility pole. Ruby Hoakum, 38, of Hooks, Tex., was killed and five others injured in a one-car accident Sunday near Carthage in East Texas. The car in which they were riding apparently went out of control on US 59 and plunged into a creek. Roy Gene Bennett, 29, of Houston was shot to death outside a Houston tavern Saturday when the pickup truck he was driving overturned on a night, police said. They have

Justice Department To File Antitrust Suit Against LTV

WASHINGTON (AP) — The Justice Department will file an antitrust suit against one of the nation's supergiant corporations in an effort to curb what an official terms the "dangerous merger-mania" of conglomerates. The Department Sunday announced court action will be sought to force Ling-Temco-Vought Inc., the nation's 14th largest corporation, to "divest itself of all of its interests in the Jones & Laughlin Steel Corp."

The Justice Department suit will set the stage for a test of whether current federal antitrust legislation is effective in controlling acquisition-minded conglomerates — corporations which hold power over several usually unrelated businesses. LTV responded to the government announcement by saying it will vigorously defend its takeover of Jones & Laughlin, the sixth biggest steel producer in the country. Asst. Atty. Gen. Richard W. McLaren said the suit, under the Celler-Kefauver Amendment to the Clayton Antitrust Act, is

being filed now because the situation is too urgent to wait for new legislation. If unchecked, McLaren said, such mergers as between LTV and Jones & Laughlin will result in ever-growing concentrations of economic power by fewer and fewer persons relatively uncontrolled by government or competition. LTV said it was confident the acquisition of J&L did not violate "existing antitrust legislation" and that "the courts will vindicate LTV's action."

Youth Achievement Nomination

PLEASE COMPLETE ALL ITEMS
For The Zale-Herald YOUTH ACHIEVEMENT AWARD, I Nominate:

Name

Address

High School Attending

(Check one) Boy Girl

(Check one) Senior Junior

His or her activities include:

Outstanding school work

Extra curricular activities at school

Activities in Church and religious groups

Activities in special volunteer work

You may attach a note if desired detailing full report on various activities of your nominee, to demonstrate his or her meriting the YOUTH ACHIEVEMENT AWARD.

Clerks Needed At Webb Base

Clerk-stenographers are needed at Webb AFB, the civilian personnel office at the base announced today. Officials there said individuals employed will begin with a GS-4 rating and earn \$5,145 annually. The position requires applicants to take a written test, based in part on the ability of the individual to take dictation at the rate of 80 words per minute. Further information on taking the test to obtain register standing and employment can be obtained by either phoning or visiting the Webb personnel office, building 230 on base, or visiting the Big Spring Post Office.

Swartz Millinery Dept.

Just The Right Touch
The impeccable traveler, the city-side delight. In two-tone Dacron® Polyester that doesn't wrinkle, zips through suds, and never needs an iron. The double breasted bodice with contrast scarf and buttons, accent the pleated skirt.
