Along The Waterfront

Taylor Oak fishing: Mr. Ray Bennett, John Ray Bennett and Mr. Berggren fished in the gulf last week and got three king mackerel, one weighed 25 pounds, one 15 pounds, and the other, 10 pounds.

Mr. and Mrs. Les Taylor and son Teddie and friend Jackson Cobb of Fort Worth caught a nice string of speckled trout every night last week, off Hunt's pier. Their catch totaled 189, with 69 on the top night.

Silver Bay Tags Shrimp On Cruise

According to Harvey R. Bullis, director of research and exploration for the U. S. Fish and Wildlife Service in the Gulf of Mexico, the motor vessel Silver Bay recently returned to Pascagoula, Miss., after completing a 12-day cruise in the northern Gulf of Mexico under a charter agreement with the Bureau of Commercial Fisheries Laboratory at Galveston.

The cruise was divided into three phases: Sampling with shrimp trawls along the coast of Mississippi and Alabama in depths of four to 60 fathoms, mesh selectivity studies, with trawls and codends of varying mesh sizes, with and without codend covers, and mortality and migration studies on brown shrimp. As a part of the latter study, 4801 shrimp were captured, stained and released, while more than 1200 were tagged.

Making the cruise were J. B. Rivers and E. Nudi, of the U. S. Fish and Wildlife Service Exploratory Base at Pascagoula, Miss., and a number of biologists from Galveston. Nudi is a biologist, Rivers is a fishery methods and equipment specialist.

The Galveston group included biologists D. Harrington, R. Berry, J. Benigno, and E. Klima, and fisheries aides R. Hass, J. McDonald and J. Reynolds. Also making the cruise was E. Mansfield, an observer.

HENRY WILLIAM SCHMIDT PASSES AWAY AT HOME IN ROCKPORT FRIDAY

Henry William Schmidt, 87, died at his home Friday morning after a short illness. Born in Niles, Mich. he moved to Taft in 1880 and later married Miss Kathleen McMullen, daughter of Dr. and Mrs. W. F. McMullen of Aransas Pass and Rockport.

Funeral services were held at 4 p.m. last Saturday in the First Presbyterian Church in Rockport. The Rev. T. N. Barton, retired Methodist minister, officiated, assisted by Pastor Cecil Lang, Jr.

Burial was in Rockport Cemetery, with Cagle-Marshall Funeral Home in charge.

Survivors are his wife, Kathleen; a son, Dr. Henry W. Schmidt, Jr., of Austwell; a daughter, Miss Wilene Schmidt of Fulton; two brothers, August, of Gregory, and Louis J. Schmidt of Taft; a sister, Mrs. Edith Krites of Taft, and two grandsons.

People from Victoria, Rockport, Gregory, Portland, Taft, Sinton and Tivoli attended the funeral, for Mr. Schmidt was well-known to many people in those towns through his many business interests.

Funeral bearers were William Schmidt, Taft; Ernest Schmidt, Beeville; Walter McMullen, Victoria; Dempsey Duprey, Taft; J. B. Jackson, Rockport; and Judge John Miller of Sinton.

SUMMER SCHOOL FOR NON-ENGLISH SPEAKING CHILDREN TO CLOSE

The summer school that began May 31 to help non-English speaking children entering the first grade this coming September, will close July 26.

The teachers are very pleased with the progress that most of the students have made.

They will present a program in the Rockport Elementary School auditorium at 10 a.m., Friday, July 26. All parents and friends are invited to attend.

HOUSE FALLS ON MAN

Johnny Brown, 37, an employee of Lee's House Moving Co., received a fractured hip here Thursday when a house he was helping move fell on him. He was reported in satisfactory condition at Spohn Hospital in Corpus Christi.

Young People Elect Officers, Plan New Club Name Contest

Faced by possible loss of their club building because of lack of interest for those whom it was intended, young people of Aransas County swung into action this past week, gave a dance that cleared some \$90 for their treasury, and now are planning a new type of bake sale intended to supplement their funds still farther.

The whole thing started two or three weeks ago, when the Aransas County Youth Sponsors Recreation Association, Inc., published a newspaper notice saying that until young people took enough interest in their club building to use it and to pay the bills attendant upon its operation and improvement, the building would be closed until further notice.

At a called meeting last week, thirty or more young people met with the sponsors to see what could be done about the matter and planned a dance for last Saturday night, pending re-organization of the young people's organization. This dance, the first of a series was attended by 164 senior and junior high students, and cleared almost \$100 towards operation of the building and towards amortization of a debt of some \$500, incurred last summer, when an outdoor dance patio was added to the building.

In the meantime, plans were laid for an organizational meeting this week at which officers were elected for the young people's group, and a program worked out for continued use of the building, which is leased from the Aransas County Independent School District.

New president for the young people's group in Abraham Sanchez; Larry Iles is vice president; Julia Fox, secretary; Jill Jeffers, treasurer; and Sherry Lynn Brundrett is press secretary.

Among other matters discussed at this organizational meeting were type and frequency of dances, a contest for a new name for the youth organization, a new type of bake sale to raise money for various projects, and admittance of individuals over 21 to dances.

The building will, eventually, acquire a new name, and to choose one that has the necessary brevity and appeal, a contest is to be held. Any member of the junior and senior high school groups may enter this contest. Simply write the name you suggest on a sheet of paper, with your name, and mail it to Box 997, Rockport, Texas. Deadline for entries is the Thursday morning mail, July 25.

The entries will be collected Thursday morning and turned over to officials of the young people, and there will be a mass meeting Friday night, July 26, at which time a new name will be chosen. Prize for the new name will be two tickets to the senior high dance.

Senior high dances will be every other week throughout the rest of the summer, with the building used by the junior high group on alternate weeks. Senior high dances will be with a dance band as long as attendance continues to warrant it.

The question of admitting individuals over 21 to the dances was discussed, and the group arrived at the conclusion that only those boys or girls who were dated by a member of the youth organization could attend, and that the member would be responsible for the conduct of his or her guest. No stags are to be allowed.

CITIES SERVICE ASKS ENGINEERS' PERMIT FOR COPANO BAY

The Cities Service Oil Company has asked for an engineers permit from the U. S. Army Corps of Engineers to operate in Copano Bay on State tracts 94, 95, 115, 116, and 117, approximately eight miles northwest of Rockport.

The company proposes to install a 2 1/2 inch pipeline at the above location. The proposed pipeline would be laid from existing well No. 2, located in State Tract No. 95 southwesterly across State Tracts No. 95, 94, 115, 116 and 117 for approximately 11,000 feet to the southwest shore of the bay. The pipeline would be buried 1 1/2 feet below the bottom of the bay except through shell beds or reefs where it would be buried one foot below.

The pipeline would be jetted, plowed, disced or placed by other similar methods whereby there would be a minimum displacement of the bed and no spoil deposit would remain.

SINTON PRO-AM TO BE SUNDAY

There will be a Pro-Am Tournament sponsored by the Sinton Golf Association, at Sinton Golf Course, Sunday, July 21.

Entries must be in by 12:30, and tee off time is 1 p.m. The entry fee is \$5.00. All area golfers are invited to participate.

Rockport Yacht And Supply Signs Contract on Shrimper

A local shipbuilding firm has signed a contract to build its seventh deep water shrimper of a new type, designed for the rougher kind of weather, with a Brownsville ship owner.

Rockport Yacht and Supply will construct a 72-foot trawler for John Hardy, III, of Brownsville. It is a sister ship to the "Marlin," now in final stages of hull completion, and will have structural timbers of yellow cedar and planking of cedar from Honduras.

These shrimpers are patterned after boats developed in the Bering Sea, where fishing weather is often terrible, and are designed to shrimp in heavy weather and deep water for as long as 52 days at a time.

Others have been built earlier this year that operate out of Port Isabel; one with a steel hull is almost completed for the Clegg fishing fleet at Port Lavaca, where it is designed to fish for deep water royal red shrimp, and the yard recently signed a contract to construct seven similar vessels for a Japanese firm, which presumably, intends to use them in the Gulf and along the coast of South America.

They are all designed and constructed to fish under very adverse weather conditions and to travel far from their home ports.

Navigation Board Meets, Elects Officers

As is customary after each Navigation Commission election, members of the Board met in special session Wednesday afternoon for reorganization. Raymond Owens was elected chairman of the board, Ted Little was elected vice chairman, and Charles Schindler, secretary.

Engineering phases of the district's program were discussed along with other general topics. Schindler asked what steps were necessary to increase the Board's membership to five or seven members, and the District's Attorney, Ellis L. Clark replied that the district could not initiate such action, as a special action of the legislature was required.

ARANSAS FIND 112 BARRELS

Cities Service Oil Co. No. 1 State Tract 115, Aransas County M-4 sand discovery in the Copano Bay South Fault Block "B" Field two miles east-southeast of Bayside, completed on the upper tubing side for a daily flow of 112.3 barrels of 4.7 gravity oil.

Flow was through 10 5/8-inch choke from perforations at 8,474-80 feet in 7 1/2 inch casing at 9,011 feet, with total depth 9,750 feet. Gas-oil ration was 2,578-1 and flowing tubing pressure was 1,100 pounds.

In the same area, Cities Service No. 1 State Tract 94 completed on the upper tubing from M-4 sand perforations at 8,476-85 feet for 256.4 barrels of 4.4 gravity oil. Gas-oil ration was 1,064-1 and flowing tubing pressure was 1,450 pounds. With total depth 9,750 feet, the well has 7 1/2 inch casing at 8,882 feet.

GULF COAST GEM SOCIETY TO MEET

The Gulf Coast Gem and Mineral Society will meet at 7:30 p.m. Thursday, July 18, in the Green Room at the YWCA in Corpus Christi.

The program for the evening is a talk by Harry E. Maskey, of 1525 Tenth Street, Corpus Christi, on "Showing General Rock Slab Transparencies With the Aid of a Slide Projector."

Lapidary equipment and supplies will also be on display.

All members and others interested are cordially invited to come.

A Rock Swap will be held in Sinton on Aug. 18.

Library Says That Borrowers Must Show Cards

Due to losses of books that have been improperly charged at the Aransas County Public Library, it will be necessary for those wishing to borrow books to have their cards, so that the librarian can obtain proper information in order that books may be traced.

New librarian, Mrs. Calgene Eaton, has been instructed by officials of the Library Board to require these cards as in the past, due to the fact that numbers have frequently been omitted in charging out books, it has been exceedingly difficult to determine which members of a family may have borrowed volumes.

There is no charge for a card, for the library wants the fullest use to be made of the library. However, losses of books, and particularly of juvenile books, have amounted to such a figure that they almost overshadow the purchases.

As the library operates on an extremely limited budget, officials pointed out that some such measure is necessary, to stop this loss of books that are so badly needed.

The procedure will be no different than it is in other libraries. The person wishing to borrow a book or books can do so on presentation of his or her borrowers' card, just as they can in other libraries. But, no books can be borrowed without this card, so officials ask that no such request be made of Mrs. Eaton.

An additional rule may become necessary, unless some of the long-past due books are returned. In such instances, it may be necessary to refuse to lend new books until those the person has are returned. Members of the Library Board said they did not wish to do this unless forced to by necessity.

Property Owners Fight Sewage Disposal

The Texas Water Commission Control Board took an afternoon of pro and con testimony under advisement Wednesday after concluding a public hearing on an application by American Liberty Oil Co. for permission to discharge "treated effluent" into the waters of Copano Bays.

The oil company seeks the permit for operation of a new motor hotel and marina — the Sea-Gun resort hotel — in Lamar townsite, Aransas County.

The seven-member pollution control board listened to testimony from three witnesses and discussed a large volume of correspondence received from private citizens concerned about pollution of the bay. Chairman Joe Carter said late in the afternoon that the agency might take some action on the application during Thursday's session.

Carter said all the correspondence to date has expressed approval and pleasure concerning the construction of the motel and marina in Aransas County.

But he added that at least 20 landowners writing to the board have expressed doubt as to the desirability of sewage disposal in the immediate area—"even though highly treated."

The only in-person testimony on behalf of landowners was given by Mrs. Joseph T. Kenny, who claims both Aransas County and San Antonio as her residence. She was representing herself as well (continued on page 8)

FALL KINDERGARTEN RESERVATIONS ACCEPTED BY MRS SOMER SMITH

Mrs. Somer Smith is now taking registrations for the September session of the Presbyterian kindergarten. She may be reached at SO 4-6025, or through the secretary of the Presbyterian Church by those who wish their children to attend this school.

Four Local Boys On All-Star Baseball Teams In Two Leagues

Four Rockport ball players were chosen for the All-Star teams of the Intracoastal Pony League and the Coastal Colt league, and have scheduled a three games series as the season winds up.

Chosen for the Pony League All Stars were Mike Jeffers and Larry "Blue" Samora from Rockport; Frank Fogg, Bill Bounds, Bobby Glover and Mike Campbell from Ingleside;

Floyd Ray Spears, Winfred Spears, Earl Guilbeau, Jay Attaway, Wayne Gilden, Jimmy Patterson, Mike Sullinger, Tommy Sullinger and Gary Gum from Aransas Pass; Managers are W. N. Spears, Jr., manager, Aransas Pass, and Bob Gaines, assistant, Ingleside.

Chosen for the Coastal Colt League All-Stars were Bobby Edwards and David Nava, Rockport; Slide Dell Harvey, Rodney Spears, Marcel Gallender of Aransas Pass, with Allen Rector as an alternate; Wayne Wright, Bobby New and Victor Cortinas, Gregory-Portland; Butch Riley, David Whitney, Willie Kuecera and Bennue Fregia, Ingleside; Hank Lewis, Harold Ray Gibson and Neal Dichie, Refugio. Manager is Ben Fregia, Ingleside, and assistant is Lewis Pernigan, Aransas Pass.

In the Pony League the three game series starts Thursday night, July 18, at Aransas Pass, when the Intracoastal players take on Robstown and Coastal players play Beeville. The first game starts at 6 p.m., the second begins at 7:30 p.m.

On Friday, July 19, game time for the Intracoastal league, at Aransas Pass is 7:30 p.m., and the Coastal league game played at Beeville, starts at 7:30 p.m., also.

Saturday's game for the Intracoastal if one needs to be played, will also start at 7:30 p.m. in Aransas Pass, while a third game needs to be played in the Coastal league, it will be at Beeville.

New Type Bake Sale Planned For Saturday

A quest for funds to aid young people of the community with their Youth Club took an unexpected twist when members voted against asking for cash without giving something in return, with the result that a new type of bake sale has been planned for Saturday, July 20.

Anyone making a donation to the youth center will receive in exchange a pie or cake as a concrete expression of the young people's thanks. And those people who call before Friday night at 10 p.m. with news of their donation will have the cake delivered to their doorstep on Saturday.

Chairman Joe Carter said late in the afternoon that the agency might take some action on the application during Thursday's session.

All such calls will be honored on Saturday morning, and for those who did not call but still want to make a donation to the center, junior and senior high students will also establish a booth in front of West's Supermarket, starting at 9 a.m.

In the meeting at which plans were laid, there was a strong sentiment expressed against soliciting for funds without giving value received.

"If we don't have to work for what we get," one said, "we don't appreciate it."

The funds will be used for operation of the youth center and to amortize the debt incurred last summer when an outdoor patio for dancing was added to the building which the group leases from Aransas County Independent School District.

TED LITTLE TO PREACH SUNDAY

Rev. and Mrs. Cecil Lang are out of town for the rest of this week. Ted Little will fill the pulpit next Sunday at the First Presbyterian Church, in place of Rev. Lang.

June Shrimp Catch Is 2,000,000 Lbs.

Domestic shrimp landings for Texas in June amounted to 2,000,000 pounds, or 446,000 pounds above landings in May, according to Orman H. Farley, U. S. Fish and Wildlife statistician, who said this was 100,000 pounds below June, 1962.

In the Port Arthur-Sabine area, 93,900 pounds of tails were landed in June this year, compared to

85,200 pounds in May and the 53,100 in June a year ago.

In Galveston, in the same order, figures were 323,800 pounds, 148,700 pounds; 370,800 pounds; Freeport, 477,600 pounds, 128,300 pounds; Matagorda-Palacios, 30,300 pounds, 33,500 pounds; 41,000 pounds; Port Lavaca-Port O'Connor-Seadrift, 78,800 pounds, 50,900 pounds, 76,900 pounds; Aransas Pass-Rockport-Corpus Christi, 494,000 pounds, 393,300 pounds, 451,600 pounds; Port Isabel, 229,500 pounds, 306,400 pounds, 431,900 pounds.

In the Aransas Pass landings were 623 pounds of deep water royal red shrimp.

Long range trawlers from Texas ports continued to arrive from the Gulf of Campeche through June, Farley said. Many of them completed extended final trips in that area for the season and will not return to the pink shrimp fishery there until October or November. Trawlers working waters adjacent to the Texas coast made very good catches of 51/65 brown shrimp, all the way from the Louisiana border to Corpus Christi.

Farley said small brown shrimp moved from bay areas in mid-June as local heavy rainfall received drought conditions and altered the salinity of the major bay systems. The volume of small brown shrimp landed for bait was not necessarily indicative of the available population, he said, but was curtailed somewhat by the price of eight to 12 cents a pound paid for bait shrimp. White shrimp catches were sporadic along the entire coast, with several short-lived runs off the major passes.

The ex-vessel price for large shrimp (20 count and under) was good throughout June, with from 94-96 cents being paid for the first two counts. However, the market demand and value of the smaller shrimp especially above the 36 cent size was indifferent. Fishermen were receiving about 28 cents per pound for 51/65 headless shrimp, with a 10 to 12 cent increase for larger-sized categories.

Blue crab landings for processing amounted to 330,000 pounds in June, 77 pounds less than in May, and 80,000 pounds less than in June, 1962.

Farley said finfish landings amounted to about 130 pounds in June. Landings from the Gulf accounted for about 70% of the total volume, with red snapper and grouper catches about normal for this season of the year. However, he said, the persistent small size of the red snapper landed was phenomenal. In most catches, the fish seldom exceeded three or four pounds in weight.

Schindler Elected To Navigation Board

The Aransas County Navigation Board met Monday afternoon to canvass results of the election Saturday, and declared Charles Schindler elected to the place left when Ted Atwood's term expired.

The vote was 240 for Schindler against 176 for Atwood and 167 for Jack McCready, the other candidate for the place. Total votes cast amounted to 583.

Schindler got three absentee votes, 23 in Precinct 1A, 60 in Precinct 1, 69 in Precinct 2, 84 in Precinct 3, and 1 in Precinct 4. Atwood polled one absentee ballot, 3 in Precinct 1A, 62 in Precinct 1, 74 in Precinct 2, 30 in Precinct 3, and 6 in Precinct 4. McCready received no absentee votes; 6 in Precinct 1A, 31 in Precinct 1, 75 in Precinct 2, 49 in Precinct 3, and 6 in Precinct 4.

Commissioners met Monday afternoon to declare Schindler duly elected. He qualified and was sworn in Tuesday.

MISS EVELYN McDONOUGH HONORED BY SHOWER

Miss Evelyn McDonough of Rockport, bride-elect of Pepper Cole of Talco, Texas, was complimented with a bridal shower Saturday evening at the Calvary Baptist Church annex.

The bride-to-be's chosen colors of blue and white were carried out in arrangements of white roses, periwinkle, and lilies of the valley. Punch, coffee, and cake were served from the large table laid with a white cloth and centered with a white and blue arrangement.

Mrs. Vernon Humphries registered the guests in the bride's book which was on the opposite end of the table. The honoree was presented an apron by the hostesses and many useful and lovely gifts were received.

An out of town guest was Mrs. Ida White, the honoree's grandmother, from Alexandria, La.

This clipping when presented at the Cove Drive in box office will admit DeLo Caspary and guest to attend the show on Sunday, Monday or Tuesday, of this week, free of charge.

Mrs. Jackson Remembers Rockport's Boom Town Days in the 1890's

In an interview with Sue Smith of the Corpus Christi Caller-Times last Sunday, Mrs. S. F. Jackson remembers when Oklahoma was seven miles from Rockport and tales of a deep water port were the talk of the town.

Weekend excursions were "the thing," bringing hundreds of people from all over South Texas to Rockport.

"Rockport was a boom town in the 1890's with one main street and no paving, horse drawn buggies were used as transportation. Rockport also had one mule-drawn streetcar. It ran from Oklahoma to Rockport. Oklahoma was a small settlement about seven miles from Rockport. It no longer exists," she said.

Born in 1891, Mrs. Jackson has

lived all her 72 years in Rockport. "My parents moved from Goliad to Rockport in 1889 on the first railroad that came here. My father was the agent for the old SA&AP railroad," she said. He was the railroad for the weekend excursions.

"People flocked to Rockport to spend the weekend. The train fare to Rockport from San Antonio was \$2.50. At that time we had two large hotels. One was the Aransas which had four stories and could accommodate 100 couples on the dance floor," she said.

But two hotels were not enough. "The crowds were so large, people stayed in homes on any spare bed or couch they could find. Beds were 50 cents for the weekend.

"The people fished, swam and danced on the big bathing pavilions that were built out over the water. They were destroyed by the 1919 storm," she said.

Mrs. Jackson was a member of the first graduating class from Rockport High School in 1907.

"There were six in my graduating class—two boys and four girls. Since there was no auditorium at the school, we had our graduating ceremonies at Bailey bathing pavilion," she said.

After graduation, Mrs. Jackson went to school at San Antonio Female College, now Trinity University.

"How we hated the word female in the school's name. The school faculty was very strict. When we went anywhere, we marched in a group and were chaperoned.

"When we were out in a group we couldn't speak to anyone we knew without permission from our

chaperones," she said.

Dating was unheard of—"we couldn't even cut our eyes at a boy."

"There were three boys' schools in San Antonio then and three or four times a year, our school had a reception and invited the boys. Sometimes the boys gave us the insignia patches off their uniforms.

"We had more fun wearing them around the school. Of course we were not supposed to and if we were caught, the patches were taken away from us," she said.

Mrs. Jackson majored in English and minored in history at the two year school. After finishing, she returned as a graduate student and studied piano for two more years. In 1913, she married Mr. Jackson who was in the seafood business with his brother in Rockport.

After her marriage she began working in the community. She organized the Rockport and Fulton Parent-Teacher Associations.

"I was president of the Rockport P-TA five different times. I always took the job when no else wanted it," she said.

She was on the board of the old tenth district for seven years and organized P-TAs in several counties and boosted other groups. Mrs. Jackson received state and national life memberships in the parent-teacher associations.

"I still install officers and attend the meetings of the Rockport P-TA's," she said.

She is a charter member of the Woman's Club of Aransas County and the first president of the United Church Women. She organized the High School Alumnae Association.

In 1935, she began writing for Corpus Christi Caller-Times as the Rockport area correspondent.

"I wrote everything from weddings to wrecks. I went to many fires and one tavern brawl, but I stayed outside the tavern," she said. She was a correspondent for 24 years.

Mr. and Mrs. Jackson have five children. Norvell F. Jackson and James B. Jackson of Rockport, Mrs. E. F. Corbin of Ingleside, Mrs. Maynard L. Abrahams of Taft and Mrs. Bruce G. Davis of Houston.

The have 17 grandchildren and one great grandchild.

"I have one hobby—keeping records and scrapbooks about my grandchildren. That keeps me busy," she said.

Mrs. Gary L. Andrew and daughter Stacy and Miss Patricia Andrew of Guilford, Conn., arrived Sunday for a visit with Mrs. Andrews' parents, Mr. and Mrs. Malcolm Bocquet.

Mrs. Billy Burns of Bandera is visiting her sister, Mrs. Minnie Edmondson and other relatives this week.

This clipping when presented at the Cove Drive In box office will admit E. H. Carter and guest to attend the show on Sunday, Monday or Tuesday, of this week, free of charge.

Be Prepared When Report Of Hurricane Comes In

Hurricane season is here again and the National Board of Fire Underwriters urges coastal residents and summer vacationers to keep an eye on the weather forecast in the months ahead.

The United States Weather Bureau defines a hurricane as a tropical storm in which the wind velocity exceeds 75 miles per hour. Fortunately, there were no destructive hurricanes last year. The Gulf Coast was not so lucky two years ago when hurricane Carla swept Texas and Louisiana in September causing more than \$100,000,000 in insurance losses.

While late August and September are the most likely times for hurricanes to strike, the National Board points out that June and July are also potential hurricane months.

In June 1957, hurricane Audrey slammed into the Gulf States and did damage totaling more than \$32,000,000.

Thanks to the United States Weather Bureau, hurricanes today are spotted when they are baby tropical storms and tracked until they no longer are a threat. You can find out whether a hurricane is threatening your area by dialing in on the weather news each day.

If you are residing or vacationing in a coastal area this summer and a hurricane threatens your immediate locality, there are certain precautionary measures you can take which may save your life and protect your property, the National Board says.

The Board offers the following safeguards for dwelling residents.

Occupants of waterfront buildings should seek shelter away from the sea upon being warned of an approaching storm.

Evacuate immediately if there is a threat of roadways being washed away or flooded. High winds and rising waters may maroon waterfront residents. Travel at the height of a storm is exceedingly dangerous.

A well-built house, anchored to strong foundations and with its roof securely fastened is possibly the safest place during a hurricane if it is located a safe distance from the ocean.

Move all loose material and unsecured objects such as garbage cans and porch furniture to a safe place before the storm hits. Raise awnings and tightly fasten them or take them down.

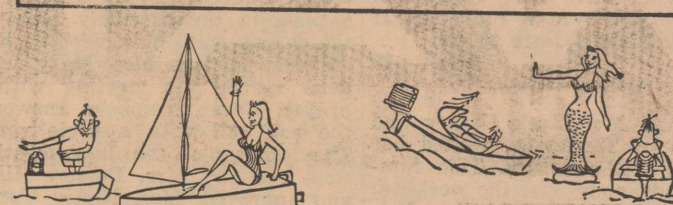

Securely fasten shutters and board up windows carefully with good wood. An improper or makeshift job could do more harm than good.

In all buildings open one or more windows on the side opposite the wind direction to offer some ventilation. This also may help to prevent wind damage. Only small openings are advisable as long as the windward side remains intact. However, as soon as any windows are broken by the storm, additional openings should be provided at the opposite side of the house to help equalize the pressure.

Since the water supply might fail, sterilize jugs, bottles and pots and fill with fresh water. Fill the bathtub for an additional supply.

Boating Tips...

BOAT WITHOUT MOTOR HAS RIGHT OF WAY OVER POWER CRAFT

BOAT ON THE RIGHT HAS THE RIGHT OF WAY

WHEN MEETING HEAD ON, BOTH BOATS TURN RIGHT

FISHING BOATS AREN'T ALLOWED TO OBSTRUCT TRAFFIC

CRAFT BEING OVERTAKEN HAS THE RIGHT OF WAY

KEEP TO THE RIGHT, ESPECIALLY IN NARROW CHANNELS

Knowing the rules of the road is vital for safe and competent small boat handling. Since they are based on common sense, these rules are easy to learn and remember. Mercury boating authorities say the following are among the most important: keep to the right in narrow channels and when meeting another craft head on. And "commit" yourself early by turning off a collision course when there is still considerable distance between your boat and an oncoming one. Give way to any boat approaching in your danger zone—your right-hand side from dead ahead to slightly more than a right angle. Sailboats have right away over powerboats. Craft being overtaken and boats leaving docks also have the right of way. Observing these rules will enable you to meet any water-borne traffic situation with confidence.

other emergency lighting is essential.

Keep on hand a food supply that can be eaten with little or no cooking. Since the storm may disrupt electrical power, keep emergency cooking facilities in safe working condition.

When the storm has passed, stay at home unless qualified to give emergency assistance. Do not hinder first aid and rescue work.

Driving is particularly hazardous after a storm. It one must drive, be on the alert for fallen wires and branches, washed out and flooded roads.

Do not touch wires knocked down during the storm. Contact could be fatal.

Even after services have been restored, boil or sterilize drinking water until the Board of Health advises otherwise.

During and after a storm the threat of fire is ever present. Because of disrupted communica-

tions and hazardous driving conditions, fire fighting is particularly difficult. Reduced water pressure represents another threat to effect fire fighting. Employ the utmost caution against fire.

Mrs. Z. Roberson of Dallas is visiting with her daughter and family, Mr. and Mrs. Henry Camehl.

Mrs. Ida White of Alexandria, La., is spending the summer with her daughter and her husband, Mr. and Mrs. Lloyd Branch.

Mr. and Mrs. David Moon and daughter Lindsay, of West, were recent visitors of Mrs. Moon's parents, Mr. and Mrs. D. T. Adams.

Al Johnson, son of Mr. and Mrs. Chester Johnson, returned Sunday after visiting with Mr. and Mrs. Harry Dowdy in Bay City.

8 Ways to Stretch Your Air-Conditioning Dollar

Your air-conditioning units will be working extra hard these days to keep you cool. And though most of us agree that comfort is well worth the price, CPL engineers pass along these suggestions for savings on operating costs.

1. CHECK THE INSULATION of your walls and attic. The cost of adequate insulation is small, compared with the savings it can give you.
2. Install your air conditioner AWAY FROM THE HOT AFTERNOON SUN if at all possible. Shade helps keep your unit cooler.
3. KEEP THE OUTSIDE AREA CLEARED OF SHRUBS around the unit. DO NOT PROP WINDOW SCREENS OVER WINDOW UNITS. Hot air is blown from the inside and should be allowed to escape quickly.
4. KEEP CLEAN FILTERS in your air conditioner. Dirty filters slow the passage of air and make the unit much less efficient.

5. INSTALL AN ELECTRIC RANGE in your kitchen. Electric Cooking is cooler, so your air conditioner has less work to do.
6. VENETIAN BLINDS or shades of various kinds will keep out the direct rays of the sun.
7. DRAPERIES across large areas of glass will help keep the heat out.
8. SHADE TREES OR SHRUBS—anything which shields the home from the sun—will reduce the work load of your air conditioner.

CHRIST NOT COMING BACK

So Christ was once offered to bear the sins of many and unto them that look for Him He shall appear the second time without sin unto salvation. Prove your own selves, know ye not how that Jesus Christ is within you, except you be reprobates.

Yes, the same Christ that the apostles found is here now and should be millions of times more so. Yes, the same old Devil is here now. Paradise is the Earth and the fullness thereof.

This scripture was spoken almost 2,000 years ago: "I will put my laws into their mind, and write them in their hearts: and I will be to them a God, and they shall be to me a people."

11. And they shall not teach every man his neighbour, and every man

his brother, saying Know the Lord: for all shall know me, from the least to the greatest." Read - Ja. 5 to 7.

We don't have Free Speech or Press — not even a Fair one. If you would live - Dare to die.

MEETING IS HELD BY PRESBYTERIAN CIRCLE 3

Circle III of the First Presbyterian Church met on July 8, at 8 p.m., in the assembly room of the church, with Mrs. Fred Clobert as hostess. Mrs. Mary Juergens opened the meeting with a prayer. Seven members answered the roll call with a Bible verse. The minutes of the June meeting were read by Mrs. Delmar Hiller and approved. Mrs. Nancy Currie gave the treasurer's report. There were 16 visits made by six persons and 10 cards sent during the month.

A motion was made and seconded to take \$5.00 out of the circle fund, plus \$1.65 collected in the circle, to buy Metrical, as a dietary supplement, for missionary work overseas.

Mrs. J. W. Ingersoll gave the lesson entitled, "The King Arranges for His Reparatues," taken from the book of Matthew.

Circle III will meet on Aug. 12, at 8 p.m., at the home of Mrs. Gene Bird, with Mrs. Currie as moderator.

The meeting closed with the Mizpah benediction, after which refreshments were served by Mrs. Clobert.

Mr. and Mrs. Jim Walls and son Clay of San Marcos, visited her aunt and uncle, Mr. and Mrs. Roy Rogero and family, and aunt, Mrs. Minta Lancaster early this week.

PROPERTY OWNERS FIGHT—

(continued from page 1)

as appearing on behalf of 12 other area landowners.

"We strongly urge that you deny this permit as being contrary to the best interest of the surrounding property owners and to the waterfront owners of the adjoining district."

Mrs. Kenny went on to say that "the least they (the motel group) can do is invest a little bit more—and properly take care of their own sewage."

The Kenny statement was signed by Mrs. J. H. Johnson of Refugio, Mrs. Marguerite Hausmann of Refugio, Mrs. H. E. Wise of Rockport, and Cyrus L. Heard, trustee for the Heard and James B. Jacks and B. B. Jacks estates, San Antonio.

Other waterfront property owners who "should be notified" of the problem, according to Mrs. Kenny, were A. H. Brundrett of Refugio, Miss Emma Huddleston of Refugio, Patrick J. Horkin of Corpus Christi, the Most Rev. M. S. Garriga, Bishop of the Corpus Christi Diocese, Sam Chamberlin of Refugio, the Sisters of Mercy, Rockport, and the Schoenstatt sisters of Rockport.

"We also protest any pollution of the water . . . surface or underground, that will affect our wells in the immediate area," she said, adding that the proximity of the disposal area also threatens Goose Island State Park and the new state park fishing pier.

Speaking in behalf of the American Liberty Oil Co. and endeavoring to give assurance of effective

sewage control in connection with the motel permit Ed Munson, consulting engineers for the firm of Lockwood, Andrews and Newnam, (designers of the treatment plant) and Liberty attorney H. F. Parks of Dallas.

According to specifications before the board, the motor hotel plant would serve the area between Copano and Aransas Bays near the northeast end of the Copano Bay Causeway. The "point of discharge" for the treatment plant is proposed to be into bay waters about 600 feet east from Copano Causeway and from the end of the new marina or pier extending some 1,000 feet from the shore.

The board's staff study recommended approval of the permit but qualified it on the point of requiring certain minimum chemical treatments in operation of the treatment plant. The staff report also noted that "consideration might be given to moving the point of discharge to a point (more) acceptable to adjacent landowners."

CHURCH OF CHRIST HAS MANY VISITORS

The local Church of Christ has had many visitors this past week. Among them were Pete Gomez, Kingsville; Mr. and Mrs. L. E. Hilbert and their son, James Lee, Temple; Mr. and Mrs. C. O. Colley and Johnny Hilbert, all of Corpus Christi; Mrs. May Lunday, Dallas; Mr. and Mrs. Preston-Parsons and their son, David, from Kenedy; Inez Anderson, Houston; Mr. and Mrs. Joe Kyser, San Antonio; Mr. and Mrs. J. G. Kyser, Hope, Ark.; Mr. and Mrs. Dan Deboil, San Antonio; C. E. Hilbert and family, Temple.

Mr. and Mrs. Richard Happener visited in Lake Jackson and Texas City last week.

MOCKING BIRD QUEEN OF WILLIAMS BACK YARD

Mrs. Bert Williams out on Cactus Street is the proud possessor of the toughest mocking bird we've heard of in a long time—or maybe the bird possesses the Williams.

At and rate the mocker has a nest in one of the little oak trees on the Williams' lot, and three babies that she is going to protect against anybody and anything.

If Mrs. Williams goes out to work in the garden, the mocker harasses her; if Mr. Williams dares to go in the back yard, he gets the bird.

There is a Williams' Siamese cat that don't win, either, as well as a Chihuahua dog that long ago gave up and let the bird have the place.

"Any time the dog or cat go out," Mrs. Williams said, "that bird dive bombs them, and comes up with a beak full of hair. I used to worry about cats getting the baby birds but I quit that long ago. Now I worry about the bird getting the Williams' and their dog and cat."

TAYLOR OAK NEWS

The guests of Taylor Oak Trailer Park had a fish fry for their weekly get-together dinner on Tuesday, July 16. Ray Bennett caught some king mackerel in the gulf.

Those present were: Mr. and Mrs. Jim Stansell, Bill Savoie, Mr. and Mrs. Ted Giese, Mr. and Mrs. Al Smith, Mr. and Mrs. Ray Bennett and John Ray Bennett.

Special guest was Maud Schanofeld of Santa Anna, Calif.

Miss Evelyn McDonough and Pepper Cole, students at East Texas State College, Commerce, Texas, were weekend guests of her parents, Mr. and Mrs. Loyd Branch.

MR. HARRY CARTER OUT OF HOSPITAL AND EXPECTED HOME SOON

Mr. Harry Carter, lay minister of St. Peter's Episcopal Church called this morning to say that he had been released from Spohn Hospital Monday, after three weeks illness, and was staying with Mr. and Mrs. Otis Johnson of 141 Maple, in Corpus Christi.

Mr. Johnson, a senior lay leader in the Church of the Good Shepherd, Corpus Christi, will conduct the 9 a.m. services Sunday at St. Peter's, assisted by Mr. Carter.

Mr. Carter, in his phone conversation said, "I feel a lot like the new recruit that joined one of the old time cavalry regiments, in the days when armies still used horses. It was his first day as the mounted troop lined up for drill in the riding school."

"The first order from the drill sergeant was 'Walk' and the next was 'Trot' and the recruit managed to hang on. The third order, 'Canter' made him question his own wisdom in joining the cavalry. Suddenly the sergeant shouted 'Gallop' and the hapless horseman sailed over his mount's head to land on his back in the arena. It was then the sergeant bellowed 'Who told you to dismount?'"

"The bishop gave me no orders to take three weeks off to spend time in Spohn. That was just as involuntary as the recruit's dismounting, and the time was long. I do want to thank all those many friends whose visits, cards, flowers and good wishes helped pass the days."

"I hope to be with you Sunday and to aid Mr. Johnson as he conducts the services Sunday at 9 a.m. for morning prayer and sermon, even though it will be some time before I am strong enough to do it myself."

EASIEST, SUREST WAY TO
RECORD TAX DEDUCTIONS

The butcher, the baker, the candlestick-maker . . . pay them all by check and you'll have an accurate record of expenditures, and legal proof of payment!

At income tax time your cancelled checks are especially important. For example, you can't deduct the actual cost of your food, but you can deduct a certain portion of what you paid, because it was tax. With cancelled checks you can accurately figure that deduction — and prove it's valid!
