New Court Term Opens Here On Monday Morning

The new term of district court will be opened in Wellington Monday morning, November 1, by Judge A. S. Moss of Memphis. A light docket was predicted by Sheriff Paul Bell. Only eight charges are now slated for investigation by the grand jury when it meets Monday morning, he said.

One of the major cases to come up for investigation will be that of Ralph H. Campbell and his wife, Claudine Campbell, who have been charged here with theft, Sheriff Bell said. The couple was arrested in Amarillo recently and a vast amount of stolen goods and a vast amount of stolen goods recovered, including a large quantity of clothing, household linens and other articles stolen from the home of Mr. and Mrs. James Donoghue here more than a year ago.

It is likely that the Campbells will be indicted for burglary and possession of stolen goods as well as for theft, the sheriff said. This case can be tried at Wellington as soon as the court is ready, Amarillo officers promised Mr. Bell.

Also to be investigated will be a charge of murder against a local negro, two bigamy charges, two rape charges, and a charge of theft.

Only 18 civil suits have been filed since the opening of the last term of court. This too, it was explained is an unusually light civil docket.

In addition to the grand jury session, non-jury cases will also be tried next week.

Under the continuous session plan, this term of court will continue for the next six months, and cases will be tried as soon as they are ready. Under this plan, two terms of court are still held, but each continues until the opening of the next.

Pastor Conducts Missouri Revival

Rev. H. H. Kinkeade, pastor of the First Baptist Church, is conducting a revival meeting at Wayland, Missouri, the town in which he was reared, and in which members of his family still reside. Mrs. Kinkeade accompanied him there.

Guest preacher at the church here for both morning and evening services Sunday will be Rev. J. O. McKinney of Amarillo, district missionary for this district.

Rev. and Mrs. Kinkeade are expected to return home Tuesday.

Rockets Confident Of Victory Over McLean

Another in the series of out of town games for the Skyrockets is scheduled for Friday night, October 29, when they play the McLean Tigers on the Tiger Field.

Wellington's opponent this time is a team that thus far has not been too successful. Week before last they lost a conference game to the Memphis Cyclone 13 to 7. Last week they failed to score against the Phillips Blackhawks, who rolled up 31 points.

This game won't be any push-over for the Rockets, however, Superintendent Logan Cummings warns. On the other hand, it is not expected to be as difficult as some that the Rockets have already played and will play later on.

At stake for the Rockets is their chance at the District crown for the second consecutive year. The only other contender for this place just now is the Shamrock team. Neither team has lost a conference encounter.

The Rockets are in good condition, Cummings declared. "They are looking more like a ball club than at any time so far this season," he added.

Backfield stars Melton and Kendrick are showing their old finesse and smoothness that won them places on last year's all-district

War Fund Drive Is \$1300 Short Of Goal

Three thousand and two hundred dollars of this county's \$4,500 United War Fund quota has been raised Wednesday at noon, Deskins Wells, county chairman reported after a check of all deposits made up to that time.

Reported up until this time are the collections from the business and part of the residential sections of Wellington, that section of the independent school district outside the city limits, Midway, Swearingen, Bean Hill, Quail, Fresno, Lillie, Houselog, Samnorwood and Lutie.

Of the funds turned in, approximately \$2,100 came from Wellington and the remaining \$1200 from the rural sections.

Several communities have been worked, but the collections have not yet been turned in to B. W. Beard, who is chairman of the community collections.

"Every community worker, whether he has made a report or not, should check carefully every family in his section to be sure that they have been given an opportunity to give to the United War Fund drive. If any families have been missed, we urge the workers to go back and contact them. This should be a county-wide drive in every sense of the word," Mr. Beard declared.

Efforts will be made to wind up the drive this week, Mr. Wells said, but he pointed out that any worker who has not completed his campaign will have through next week to do this.

The United War Fund drive, the chairman reminded, is the one drive that will raise funds for the 17 different agencies rendering assistance to men in the armed forces at home, those overseas, prisoners of war, and allies of this nation, both those who are fighting and those who are conquered countries.

A list of those persons in the county who have given to the United War Fund from the sections reported include:

J. H. Hobbs, Bert Starkey, Cicero Gulley, J. A. Gordon, Dr. James M. Wattam, J. B. Castleberry, Ritz Theatre, Clay Produce, Jack Gibson, Myrett Henry Tire Shop, R. A. Williams, Wellington State Bank, Temple Slay, O. B. Raburn, Wells and Wells, Wellington Leader, Lee O'Neil, J. C. Woodriddle Co., Wellington Gin Co., Lee Fortenberry, James Donoghue, Bryan Denley, Cicero Smith Lumber Co., Nowlin Wholesale, I. O. Ruby, Pruden Drug, Lewis Brothers, S. K. Parsons, Sr., George Shadid, Warrick Mill, Tindall and Bevers, Frank Eikenburg, John D. Glenn, H. F. Cunningham, Idus Smith, L. A. Dickey, Mat Johnson, J. J.

Group Attends Church Assembly

Seven delegates from the Church of the Nazarene in Wellington are attending the annual District Assembly of the Church which is being held from Monday through Friday of this week in Denton.

The delegates include Rev. Dickerson, pastor of the church, Rev. and Mrs. Amos Meador, Mr. Mrs. Carl Newsom, Mrs. Ervin Brewer, and Elmore Dodson.

This meeting is one of the highlights of the year for all churches of the district.

Skyrocket Player Out Due To Foot Injury

Quince Fulton, a member of the Skyrocket football team, received a deep cut on his right foot Sunday when the horse he was riding ran into a barb-wire fence. The cut went to the bone at one point.

Fulton is on crutches this week and will probably be out of the next two games, he said Monday.

Rain And Hail Fall On County Friday Night

Rain that was general over most of the county, and hail in several communities fell Friday, October 22. This moisture, while it halted cotton harvesting through the county, came just in time to save wheat and other small grain in many sections of the area.

Six tenths of an inch of rain was recorded in the official rain gauge in Wellington, J. M. Strong said.

Heavy rain, along with considerable hail was reported from the Dozier community. Other sections reporting hail were along the eastern edge of the county, around Dodson and north through the Shinnery community. While some damage has been reported to cotton still in the field and to feed still standing, it is generally regarded as not as bad as at first believed.

Rain in the northern part of the county was heavier than around Wellington, with approximately an inch and a half reported near the county line.

Approximately three-fourths of an inch of rain, with no hail was reported from the Lillie, Salt Fork, Cottonwood and Quail sections, although the fall was lighter beyond Buck Creek.

Rain southeast of town was approximately the same as that here.

The rain was lighter south and southwest of town, although the sections around Rolla and Swearingen received about one-half inch.

A heavy rain was reported from Samnorwood.

Norwood Man Dies In Well Accident Friday

D. W. Granger, 58, of the Samnorwood community was killed instantly Friday morning, October 22, about 11:30 in an accident while working on a well in that community.

The accident occurred when Mr. Granger and Theo Parker were helping J. L. Alexander pull the pipe of the latter's well. Friends of the family stated that the pipe came loose and fell the length of one joint, causing the handle of the jack wrench to fly up and hit Mr. Granger on the side of the head. He was rushed to Wellington by Mr. Parker and Mr. Alexander but was pronounced dead upon their arrival.

Mr. Granger and his family had lived in this county since 1919, but only recently had moved to the Theo Parker farm, three miles south of Samnorwood.

The body lay in state at the Granger home from Friday night until Tuesday afternoon awaiting the arrival of his son, Cpl. Clarence Granger of Camp Young, Los Angeles, Calif., and his son-in-law, Pvt. Jim Hightower of Camp Pickett, Va.

Funeral services were conducted from the Dozier Methodist Church with Rev. R. L. Porter, pastor of the Baptist Church at Lela, in charge, assisted by Min. W. H. Riley of Dozier. Interment was in the Dozier cemetery.

Dozier Weal Granger was born August 31, 1885, in Eastland County. His parents died when he was five years of age, and he was reared by an aunt, Mrs. Mealy Anderson of Ranger. On March 9, 1913, he was married to Miss Velma Gracie Kiser at Charlie.

Mr. Granger was of a quiet, modest disposition and was loved and respected by those who knew him best.

He became a member of the Baptist Church in early manhood.

Immediate survivors include his widow and two children, Cpl. Clarence Granger of Camp Young, and Mrs. J. N. Hightower of Samnorwood. A daughter, Mrs. Shorty Sechrist, died on May 28, 1942. Other survivors included two grandchildren, the infant daughter of Cpl. and Mrs. Clarence Granger and 16-month-old Narville Sechrist; his two sons-in-law and daughter-in-law; and these brothers and sisters, L. W. Granger of Mountain View, Okla., Theodore Granger of Oklahoma City, Mrs. Bessie Kirby of Eastland, Mrs. Tempie Wheat of Eastland, Mrs. Pollie Yaw of Medicine Park, Oklahoma.

Out-of-county relatives and friends who were here to attend Mr. Granger's rites included Mrs. Clarence Granger and baby daughter of Fritch, Mr. and Mrs. Levi Granger of Mountain View, Okla., Cpl. Clarence Granger of Camp Young, Calif., Mr. and Mrs. R. H. Dowdy of Duncan, Okla., Frank Kiser and Kenneth Kiser of Duncan, Okla., Mr. and Mrs. Winstons Trostle and sons, Earl and Joe Dean of Pampa, and Mr. and Mrs. V. A. Henderson and sons, Carol and Dean, of Dumas.

Draft Board Still Seeking Four Men

The County Selective Service Board is still seeking the address of four men registered here who have moved and failed to report their new location.

These men are: Woodrow Thomas Wilson, Claude Leaylor Essman, James Earl Armon (colored), Irwen Key (colored).

These men, it was pointed out by J. M. Strong, clerk of the local board, are subject to reclassification and immediate induction into the armed forces if their present addresses are not reported by November 1.

Waiting Is Hardest

Local Sailor Home After Losing Ship To Torpedo

After having the ship he was on dive bombed and later torpedoed and sunk, Junior Young of the U. S. Navy is home on leave to visit his parents, Mr. and Mrs. Jess Young. He is one of the first of the former Skyrocket football stars to come back after actual combat with the Japanese.

Young, a seaman first class, has been on a merchant ship. He has a pointer's rating, which he explained means that he points and fires one of the ship's guns.

He was on watch on deck when the first of the two torpedoes sent into his ship struck. Fired from a submarine, it was first seen as it ricocheted out of the water and was thought by the man sighting it to be a porpoise. Another crew member, who had been torpedoed by German submarines, recognized it for what it was, but before he could give the alarm, the ship was hit.

The torpedo struck the engine room, destroying it and cutting off all power.

"That torpedo couldn't have missed us," Junior declared. Another fired at the ship, however, did miss.

"We knew we'd get another one, but we didn't know when," he said. The first torpedo struck at 1:20 in the afternoon, and from then until the second one hit at 9:00 that night, the ship drifted.

That eight hours of waiting was one of the hardest things the crew had to do. Forced to abandon ship in the darkness, Young and his companions were in life boats for between an hour and a half and two hours before they were rescued by a destroyer, to which a call for help had been sent earlier.

At various times during the afternoon the submarine's periscope had been sighted, and each time the guns of Young's ship blasted away, until 27 shots had been fired. Young explained that submarines sometimes carry larger guns than the merchant ships, and

Freedom Of Initiative Made US Great--Robbins

Freedom of initiative made the United States great, Raymond Robbins of Athens, district governor, told Wellington Kiwanians Tuesday night at their annual ladies night meeting.

Gov. Robbins took as his subject: "What Made America Great and What Will Keep America Great." Mr. Robbins briefly traced the struggles of the Pilgrim fathers and asked his audience rhetorically what was the dream of these people. "It was," he said, "the dream of a land they could call home, a land where they could walk down the street unmolested, a land of freedom and personal initiative where people could worship in their own church. Such was the dream, the hope and the prayer of the people who first settled on the rocky New England coast.

"Later the people pushed south and southwest to form the thirteen original colonies. They made advancements, but for 150 years these people labored under a tyrannical rule from the mother government. In time it became insufferable and these people wrote the declaration of independence and rose up in arms to carry it out.

"Having won their freedom, they wrote a constitution; wrote it so they thought no one would usurp the power of the people. As a result of this system of free enterprise and individual liberty, this nation has carved the greatest civilization the world has ever known in 300 years and most of the progress has been made in the last 150 years since we gained our freedom.

"What does this mean in concrete terms?" Governor Young asked. "It means that the United States has one-sixth of the land area and one-sixth of the world's population, but it has 30 per cent of all the wealth. We have 80 per cent of all the automobiles; 75 per cent of all the telephones, 95 per cent of the bathtubs. Our farmers number only 4 per cent of the agricultural people of the world but they produce 50 per cent of the world's food.

"What made it so—that made such a high standard of living for

Church Brotherhood To Hold Meeting Tuesday Evening

The Men's Brotherhood of the Methodist Church will meet Tuesday night, November 2, Hugh Longino, president, announced this week.

A program is being arranged. Dinner will be served in the church dining room at 8:00 p. m. All men of the church are eligible to belong to the Brotherhood and those desiring to join should contact Mr. Longino or Rev. Hubert Thomson, the pastor.

Norwood School Opening Postpone

Regarding postponement of the opening of the Samnorwood School, Superintendent Earl Ponder has made this announcement.

"At a school board meeting Monday night, October 25, it was decided to postpone the opening of school from November 1 to November 8. At the regular board meeting Monday night, November 1, the board will decide whether to delay another week the opening. It is possible that school will not start until November 15. Watch your newspaper for news of the opening date. Scarcity of cotton pickers is causing the delay."

Mr. Ponder also announced that

First Local Pre-Pearl Harbor Fathers Taken

First of the county's pre-Pearl Harbor fathers drafted into the armed services were accepted at the induction center at Lubbock Thursday, October 21. Along with them were a group of 18-year-olds and several others who had been deferred for occupational reasons.

Seven of the men accepted by the Army, four by the Navy, two by the Marine Corps, and one was held over at Lubbock. One 18-year-old was deferred to complete his high school work, and four men were transferred to other boards.

Accepted by the Army were James Maurice Dickson, now living at Memphis; Ocie Lee Scott; Willie Vernon McGee, transferred here from Fort Smith, Arkansas; Cleo L. Robinson; Denzil Homer Ingram, now living at Houston; and Willard H. Edmondson. This

While crops are shorter than last year, financial conditions in the county are just as good, it was learned when the reports of the four banks were made public this week. These were in accordance with a call by the Federal Reserve Bank and Banking Commissioner on October 18.

No report was made at the close of the third quarter's business in 1942, but the figures of this year's report vary little from those made at the close of business December 31, 1942, after the bulk of the crop had been gathered.

Combined assets for the two years are almost identical. The October 18 figure is \$3,070,473.75. That for 1942 was \$3,070,344.38. This is more than a million dollars above the assets two years ago. It is also over the June 1943 report of \$2,928,962.65.

Deposits are \$2,727,250.95, just \$20,000 under those of December 31 last year, and approximately a million above the deposits of two years ago. Of the deposits reported this year, \$2,361,450.28 is in demand deposits of individuals, corporations and partnerships, while the remainder is made up of time deposits, United States Government deposits, deposits of states and political subdivisions, deposits of banks, and other miscellaneous deposit items.

Loans and discounts are higher than last year, with \$1,675,931.98 as compared to \$1,034,236.33. They are approximately \$100,000 below the June 1943 figure.

Undivided profits have reached \$90,751.36, as compared to \$84,925.74 for June, \$69,066.83 a year ago, and \$52,991.15 two years ago.

Quail School Opening Changed

Opening of the Quail School has been postponed until Monday, November 8, due to bad weather during the last week, Supt. Noah Cunningham announced this week. The opening had previously been announced for November 1.

"It is very essential that we have all students in regular attendance, and we are urging all parents of children attending the Quail School to cooperate with us to the extent of seeing that their children attend when school reopens," Mr. Cunningham said.

"Bad weather is something that cannot be helped, and it is for this reason we are postponing the opening."

New Teacher Named For Samnorwood Grade School

Mrs. Edith Hardin has been elected to the faculty of the Samnorwood School, Superintendent Earl Ponder announced Tuesday. She will teach the fifth grade, taking the place of Miss Ola Mae Vanhose, who was transferred to high school.

Mrs. Hardin has had three years experience in teaching. She taught at Shinnery last year. Her college work was done at West Texas State College, Canyon.

Group Will Report For Duty at Fort Sill, Okla., November 11

One colored man, Charlie Jones, was accepted for the Army on October 12 and will report at Fort Sill November 4.

Taken by the Navy were Ralph Wade Dent, now living at Plainview; Elbert Ross Royal; Joe Junior Childress; and Jack Warren Allen.

Marine Corps enlistees are H. L. Duncan and Lloyd J. Brown.

Hugh Meredith Hull was retained at Lubbock. John Franklin Scott was transferred to the board at Fort Worth; Dewey Dane Sisk was transferred to Indianapolis, Ind.; L. E. Potts to Angleton, and Cullen Harvey Finch to Pomona, Calif. Dale Monroe Scott was deferred to complete his high school work.

Panhandle Area Shows Spotted Wheat Condition

In the Panhandle of Texas, a very spotted wheat condition exists on the 1943-44 crop at this date. This past Spring, Summer, and Fall has been one of the driest periods that the Panhandle of Texas has experienced in a good many years. The only reason that our 1943 wheat crop produced much of any grain at all was that crop made on a good quantity of sub-soil moisture. Without this sub-soil moisture during the past season, it is very doubtful if the Panhandle would have harvested a third as much grain as was finally harvested.

With continued drought after harvest and on through the present seeding period for the 1944 crop, a crop season with very little sub-soil moisture and an extremely dry surface moisture is being entered. Thus, the prospects for a good 1944 wheat crop as of this date are rather poor. However, a few areas in the Panhandle have a rather satisfactory condition. North of the Canadian River, and particularly in the north central part of the Panhandle, scattered rains have been received that have allowed farmers to get their wheat seeded and up to fair to good stands. The sub-soil moisture in most of the fields, even in this more favored area, is only fair.

In an area extending from Pampa south and west to Vega, there is a spotted area of wheat that is coming up to some fair stands in spite of the fact that very little moisture has been received and the sub-soil in this area is mostly deficient. Practically the entire South Plains area south of Amarillo is very dry and little wheat is showing at this time.

It is estimated that about 80 percent of all the wheat has been seeded. Much of this seeding has been "in the dust" with no chance of germination until rain comes. Probably not over 20 percent of all the seed that has been planted at this date is up. A 15 to 20 percent increase in the Texas wheat acreage has been expected but this increase may not be realized if the drought continues much longer. With better moisture conditions throughout the seeding period, even a larger increase in acreage for

"Git along, little cowboy, git along," is probably the gist of this Brahma bull's thoughts as it unceremoniously unseats bull-dogger Gerald Roberts at the rodeo in Madison Square Garden, New York.

the 1944 crop could have been expected.

Immediately below the Cap Rock extending eastward to the cross-timber country just east of Wichita Falls, the wheat condition at this time is somewhat discouraging. Probably not over 30 to 40 percent of the wheat is seeded. Many prospective wheat fields have not been prepared into a good seed bed. This condition is due to a shortage of moisture that did not allow the farmers to work up their seed beds in good shape and to get their seed planted. Probably not over 5 percent of the wheat that is seeded in this particular area is up to a good stand.

Charles Jones On Dean's Honor Roll At Kemper School

BOONVILLE, Mo.—Charles B. Jones, Jr., son of Dr. and Mrs. C. B. Jones, 15th street, Wellington, Texas, was named to the Dean's honor roll for the first grade month at Kemper Military School here, Maj. F. J. Marston, Kemper dean, announced today. The honor roll is made up of cadets whose average in all academic work is 87 or better.

CARD OF THANKS

We wish to express our deepest thanks to the people of Wellington, and especially to the members of the Methodist Church, for the many kind and thoughtful acts shown my father, Henry Hopman, when he lived here. He rejoiced to have been with you, and some of the happiest years of his life were spent among you.

May God bless each of you.

His daughter,
Mrs. Lillie Helbert Sar-ratt of Pampa.

Who Is This MAN?

HIS NAME doesn't matter, for he goes by many names. His size doesn't matter, for he is lean and stout and tall and short. His age doesn't matter, for he is young with the enthusiasm of unhurt youth and old with the calm and the wisdom of mellowing years. His location doesn't matter, for he is on the corner of a village square, at the intersection of writhing thoroughfares in a teeming city, on the main street of a patient town in the midst of the middle west.

HE HAS it in his power to heal a wound, to stifle a pain, to save a life. Behind his every act lies a drama. On the steadiness of his hand, on the accuracy of his eye, of the soundness of his knowledge, millions of people in thousands of places rely. He is the friend of the child who begs a glass of water, the man who is worried about hard times, the woman who can't do a thing with her daughter.

HE SPENT years acquiring the professional education which the law demands. He spends his few leisure hours in the pursuit of newer knowledge. Your health and beauty and general well being are his every day concern. He is the right hand of the doctor, the haven of refuge for the injured, first port of call for the stranger in distress. He labors long and his rewards are meagre; but out of his long vigil in behalf of humanity of which he is a part, he finds in a corner of his heart the bit of happiness which is his compensation.

OUT OF each year one week is set aside for the purpose of bringing you and him closer together; of giving him an opportunity to demonstrate to you that he is more than he seems and all that he should be.

"The heart of our drug store is its prescription department, and at the head of this is the pharmacist."

Servant to Humanity

DOWN through all of the pages of history are marked the feats of medicine—and yet, the unsung heroes who have borne the burden of dispensing, if not discovering, the medicaments with which to cure ill, are men of Pharmacy, mentioned seldom or not at all.

THAT'S as it should be, because no man ever entered Pharmacy for fame or fortune. The pharmacist is the long-suffering servant of mankind, charged with responsibility of accuracy both by doctor and public. He is the check and the balance on the concoctions prescribed and administered. He is the guardian of the physician's reputation—the public's welfare.

FOR HIS niche in life he never expected great pay, being drawn to the mortar and pestle by a deeper, perhaps unexplicable, desire to serve. Without regard to temperament, no pharmacist was ever really selfish, with the unbounded hours given to serving his fellow-man. No pharmacist owns a genuine grudge even when surface evidences prevail, because there is tenderness in any soul given to the constant watch-care of human life and health.

BY THESE tokens is a pharmacist rich—richer than all the wealth of which he might be capable of amassing. Surely no greater pleasure may come to any man than that which he derives from a knowledge that he is necessary—a valuable and vital part of the world in which he lives.

HIS IS an art which may never be encroached, actually, by the imposters who would substitute an inferior quality for every worldly value. His profession will be weakened by those spasmodic efforts of smaller-minded men whose first consideration is the dollar, but it will never be eliminated.

THE pharmacist's prescription case is his fortress against elimination in a competitive world—a guarantee to his clientele that he is professionally-trained to care for their needs.

PHARMACISTS must more openly appreciate their profession, because a gullible public is being led away from its best friend to the detriment of both.

Medical Group Meets At Memphis

Wellington members of the Childress-Hall-Collingsworth Medical Society and the Hattie Hunt Auxiliary attended the regular monthly meeting of those groups in Memphis Thursday evening, October 21.

Following a joint dinner of the two groups, the doctors met at the offices of Dr. J. A. Odom and O. R. Goodall, while Auxiliary members conducted a business session at the home of Mrs. Odom. Reporters for each of the counties were named, with Mrs. J. W. Harper chosen for Collingsworth.

Guest speaker before the medical society was Dr. W. C. Dines of Amarillo, who spoke on "Common Heart Ailments."

The next meeting will be at Childress in November.

Present at the Memphis meeting were Dr. and Mrs. S. H. Townsend, Dr. and Mrs. P. R. Jeter, Mrs. J. H. Jernigan, Dr. Henry C. Wilson, Dr. Fred Carreker, and Lieut. Col. Wilkerson of Childress, Dr. and Mrs. John W. Harper, Dr. E. W. Jones and Dr. C. B. Jones of Wellington, Dr. and Mrs. J. A. Odom, Dr. and Mrs. R. E. Clark, Mrs. W. Wilson, Dr. O. R. Goodall, of Memphis, Dr. Varday of Estelina, and Dr. Dines and son of Amarillo.

Can Vitamins Change GRAY HAIR?

Impartial investigators have found vitamin Calcium Pantothenate of some value in changing gray hair, where a deficiency of this vitamin may have caused gray or graying hair. For example, one test conducted by Good Housekeeping magazine on a number of people, showed 88% of those tested (all ages were included) had positive evidence of a return of some hair color. The new GRAYVITA contains not 10, but 20 mg. of Calcium Pantothenate. Absolutely harmless. This gives you TWICE the former Calcium Pantothenate potency and value in each tablet. Or by using one-half the tablet you cut your cost one-half yet still get the same potency of ordinary brands. Each new GRAYVITA tablet also contains Brewer's Yeast, a natural source of B-Complex, PLUS 450 I.U.S.P. units of vitamin B₁₂—necessary for healthy nerves. Try GRAYVITA. See what a difference it may make in the way you look. 30 day supply, \$1.50; 100 day supply, \$4.00.

Home Repairs To \$200 Made Without Permit

If your home needs repairs, you can make them without authorization, under WPB's Construction Conservation Order L-41, provided they are necessary and do not change the structural design of the property. The work must not exceed \$200 or involve the purchase of critical materials.

Pointing out that wartime restrictions on building new houses permits new construction only for war workers in certain areas, Federal Housing Commissioner Abner H. Ferguson recently said: "In view of these necessary restrictions, it is all the more imperative that the present supply of homes be kept in adequate repair, conforming to decent standards of health and sanitation. For the great majority of American families, these properties represent the only supply of housing that will be available for the duration of the war."

Because critical materials must be conserved for direct war production purposes, new home building is restricted to war industry areas, and there only in such numbers as is absolutely necessary to meet the housing needs of essential workers.

Loans to maintain present home properties in sound condition will be insured by the Federal Housing Administration under Title I. Those repairs must be necessary for sanitation or health, or for preventing decay and deterioration. Luxury repairs or improvements that are designed merely to beautify or enlarge a home without providing additional living units are not approved.

Loans to finance essential repairs under FHA's Title I program are available in amounts up to \$2500 for approved private lending institutions. These loans are repaid in regular monthly installments and are subject to the usual credit rules of installment buying.

Loans may be secured under the same plan to finance the conversion of oil burning heating equipment to the use of coal, as well as the installation of insulation, weather-stripping, storm doors and windows, and other heat conserving devices.

Poultry Hints

CLEAN THE HEN HOUSE OFTEN THIS WINTER

"Your chicken house is no cleaner than its floor," says Mr. Clay of the Clay Hatchery. The chickens spend more than half of their time on the floor, he explained, so unless this part of the chicken house is cleaned often and otherwise is kept in a sanitary condition, disease outbreaks are likely to occur.

In his opinion, the chicken house should have a thorough cleaning, scrubbing, and disinfecting in the fall when the new flock of pullets is put in and then cleaned and disinfected as often as necessary during the winter.

"A practical way to clean your poultry house in winter," he suggested, "is to dry clean it. This is done by simply removing all of the old litter and spraying the floor and lower walls and sills with a general farm disinfectant and putting in new dry litter to a depth of eight to ten inches. If you use a pleasant-smelling disinfectant, this inside winter job is not disagreeable.

"If you are following a plan of building up your litter instead of removing it every time it becomes dirty, it is important to spray the entire floor area and lower walls with the disinfectant at frequent intervals. This keeps the old soiled litter in a more sanitary condition. Following this chore, new litter is placed on the old mat of litter.

"The usual practice in this area," he stated, "still is to remove all of the old litter and put in new litter. If it becomes necessary to clean the poultry house on stormy days, clean half of the house at a time, disinfect this portion, put in new litter and then put the hens in the cleaned portion of the house while the other half is being cleaned," he suggested.

In 1837, the first known water-color of San Francisco, then hamlet of two houses, was painted by California's first land surveyor, Jean Jacques Vioget, whose burial place was recently identified, at San Jose, Calif.

Check List No. 5

YOUR LAYING HOUSE SHOULD BE KEPT CLEAN

CHECK THE FOLLOWING SUGGESTIONS AGAINST YOUR POULTRY RAISING METHODS

Clean Out Damp Litter

Damp dirty litter is frequently the beginning of serious disease troubles. How often it has to be replaced depends upon the ventilation and condition of the building; but the best rule to follow is to clean it out as soon as it becomes dirty or damp and thus unhealthy for the birds. Cleaning should include a thorough sweeping of the floor after litter has been removed.

Disinfect Laying House at Each Cleaning

At the time litter is changed disinfect the laying house with Dr. Salsbury's PAR-O-SAN diluted 1 to 100 in water. Spray all parts of the house THOROUGHLY making sure to reach all cracks and crevices. Birds can be rehoused immediately — PAR-O-SAN is not only pleasant smelling but kills germs on contact. That is also the time for applying Dr. Salsbury's NIC-SAL to the roosts if birds are troubled with lice.

Replace Clean Dry Litter

After you have disinfected the house, put in a thorough covering of clean absorbent litter. We recommend _____ which has proved very satisfactory for many poultry raisers in this section. We have supplies in stock — Price _____

Rockets Down Cyclone 27 To 0 In Friday Tilt

Coach Al Duncan's Skyrockets gave the Memphis Cyclone another pasting last Friday night by 27 to 0 to remind the old Memphis football experts of the man they overlooked in their own county while searching for a coach who could build a team that would win a few games.

Former friends of the Wellington coach were there from Turkey to root for his Rockets while the realistic man who guides the boys who wear the red and white, appreciated this gesture from old friends, it was evident that he was thinking of another and a tougher game. For the Rocket-Cyclone game was another index of the comparative strength of the Rockets from Wellington and the Irishmen from Shamrock.

Wellington's first touchdown came after both teams had wrestled in midfield on a muddy ground and Wellington took possession of the ball after Memphis had kicked out on the 30 yard line. Running plays with Covey, Melton and Kendrick advanced the ball to the 46 yard line. A long pass from Melton to Scott put the ball on the Memphis 5 yard line and Melton carried it over from the five.

The second touchdown came when the Cyclone kicked out of the end zone and the ball was brought back to the 20 yard line. Kendrick on one sweep ran the ball to the 40 yard line. Covey picked up nice gains on straight bucks and Kendrick skirted end two more times to place the ball on the Cyclone 25 yard line when a few plays before it had been on the 20 yard line of the Rockets on the other end of the field. Melton then went through the line for the second score, making the score 14 to 0.

Melton also carried over for the other two touchdowns after his teammates had advanced the ball down the field into scoring position.

Wellington's defense was as pleasing as the offense and it gave no particular comfort to the three Shamrock scouts who were out to get the dope on the game. On defense halfback Covey had been shifted to end and I. D. Russell and Dan Austin were assigned the position of linebackers. Scott, Burns, Leach and Harrison turned in a stout defensive game, but the line play of Hobbs and Winters was not far behind.

The Rockets made fourteen first downs and the Cyclone made 1.

The line-up follows:

Wellington	Pos.	Memphis
Russell	LE	Robertson
Burns	LT	Bruce
Harrison	LG	McMillan
Leach	C	Lamkin
Winters	RG	Ballew
Hobbs	RT	Mauck
Scott	RE	Sargent
Melton	QB	Hanvey
Austin	LH	Smith
Kendrick	RH	Miller
Covey	FB	Sherley

Mrs. May Self and daughter, Marie Self, of Melrose, New Mexico, visited friends and relatives here over the week end.

LILLIE

By MRS. G. D. THOMAS

The rain and some hail Friday night hurt the cotton some in the Lillie community.

Sunday School was well attended Sunday. Yet we need every child in our community every Sunday.

Mr. and Mrs. Gaytha Rodgers of Paris, Texas, visited Mrs. Finis Hall in the William Squires home Monday.

Miss Irene Lowe returned home Thursday from Caldwell, Kansas, after a visit in the home of Sgt. C. R. Wilson.

Mr. and Mrs. Mac Horton visited in the Clyde Brown home at Rolla Sunday.

Miss Joe Farmer, Miss Nila Woodman and Miss Lorene Lowe were Sunday guests of Miss Jane McMinn.

We are glad to report that Miss Opal Hall, who had an appendicitis operation at the hospital in Wellington Monday, is doing fine. Miss Letha Lowe, Mrs. G. D. Thomas, and Mrs. William Squires visited her Saturday evening.

Miss Letha Lowe returned home from Pampa Saturday where she had been working.

Mrs. Tom Woods, formerly Miss Velma Sheppard, and son Tommy Gene, of Wichita Falls were in Wellington last week to attend the funeral of Walter Hyde. They also visited Mrs. D. W. Maddox while here.

Mrs. W. L. Hancock of McLean visited her sister, Miss Opal Boyles, over the week end.

Rites For T. W. Hyde Conducted Here October 20

Funeral services for Thomas Walter Hyde, a former Wellington resident, were conducted from the Church of Christ in Wellington Wednesday afternoon, October 20, with Minister Will M. Thompson in charge.

Mr. Hyde died in Amarillo October 18. At the time he was employed as a nursery salesman.

Pallbearers for the service were J. W. Loter, Paul Starr, Ben Burden, H. M. Longino, R. S. Montague and J. S. Dorn. Hymns included "Sweet Bye and Bye," "The Old Rugged Cross," and "Where We'll Never Grow Old." Burial was in the Wellington cemetery with the Kelso Funeral Home in charge.

Mr. Hyde, a native of Missouri, was born December 16, 1877, and at the time of his death was 65 years, 10 months and 2 days of age.

Thirty-seven years ago, he came to Collingsworth County from Willow Point, and six years ago he moved to Odessa.

Mr. Hyde was a member of the Church of Christ, having become associated with the Odessa Church six years ago.

Survivors include one daughter, Mrs. Ott Sisk of Amarillo, his son-in-law, and one grandson, R. O. Sisk, Jr., of Amarillo, and three step-brothers, Henry Armstrong of Fort Worth, Bob Armstrong and Luther Armstrong of Wellington.

Haiti's Rubber Helps Allies

Haitian rubber and fiber are playing a vital part in helping the Allies. The rubber production program in Haiti calls for planting up to 100,000 acres of cryptostegia, a latex-producing vine, to yield at least 100,000 tons of natural rubber a year for tank treads, combat tires, and other uses to which synthetic rubber alone is not adapted.

The sisal agreement calls for delivery of 25 million pounds of fiber for naval and other uses during the next two years. Production figures show that both programs are well ahead of schedule.

Russia Thanks U. S. Farmers

The sincere appreciation of the Russian people for American seeds sent to aid Russian farmers in the war-devastated areas recaptured from the enemy was recently expressed by Russian officials, the Department of Agriculture has reported.

As of July 1 this year, nearly one million pounds of vegetable seed and 2½ million pounds of field seed had been contributed to the Russian war relief agency through the efforts of United States seed improvement associations, extension services, and thousands of individual farmers and seedsmen.

Henry Hopmann Dies At Pampa

Henry Hopmann, 79, for approximately 17 years a Wellington resident, died in Pampa Wednesday, October 13. For the last year Mr. Hopmann had made his home there with a daughter, Mrs. Lillie Sarratt.

For a number of years Mr. Hopmann was caretaker of the Methodist Church in Wellington. During that time he won the respect and friendship of that congregation, as well as of many others of the town.

Funeral services were conducted at Pampa Friday morning, October 15, with Rev. J. Edmund Kirby of Borger, former Methodist pastor here, and Rev. E. L. Naugle, pastor of Harrah Methodist Church of Pampa, in charge. Burial was at Pampa.

Mr. Hopmann was born in Germany and spent his childhood there. When he was 17 years of age, he came to the United States and for a number of years lived near Bartlett. He and Mrs. Hopmann came to Wellington in 1925.

He was married to Miss Louise Miller more than 50 years ago. They reared eight children, five of whom survive. She preceded him in death on June 26 of this year.

Mr. Hopmann had been a devout member of the Methodist Church for more than 60 years.

Surviving children include Alfred Hopmann, Minall Hopmann, and Mrs. Anna Singleton of Houston, Mrs. Lillie Sarratt of Pampa and Mrs. Nola Crossland of Brownwood.

Have a Coca-Cola = Na Zdravi

(HERE'S TO YOU)

... or how to greet a visiting Czech

Everyone knows that the way to make friends is to be friendly. Have a "Coke", says the American airman, and Here's to you, replies the Czech flyer with instant understanding. This simple gesture is a world-wide high-sign of good intent. Around the globe Coca-Cola stands for the pause that refreshes—has become the symbol of welcome among the kindly-minded.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

Deck's DID ACTICS

—By Deskins Wells

The contributions to the United War Fund are coming in. On the town section of Wellington \$2,300 has been raised and it will be \$2,500 before the drive is over. Some communities have matched this, but others apparently did not understand what the drive was for. It is up to them to raise their sights.

Some of this was my fault. Either I did not have time or else I did not take time to explain the need and uses to which this money will be put. Here in Collingsworth, we prefer to let your heart tell you what to give. We still have a long way to go.

As a measure of giving you might compare your gift with that of I. T. Goodnight. He gave \$50 and he is not a rich man. How does your own generosity compare with this gift?

But the question for you to answer is how does your gift compare with your wealth.

U. S. ARMY BATTLE CASUALTIES

7 DECEMBER 1941 THROUGH 30 JUNE 1943
TOTAL CASUALTIES, BY ARM OR SERVICE

Bureau of Public Relations, U. S. War Department
AMERICAN BATTLE LOSSES IN THE VARIOUS SERVICES—Total casualties in battle suffered in the United States Army from Pearl Harbor until June 30, 1943, and the percentage of distribution between the Air Forces, the Infantry, Artillery and other arms or services, are graphically shown in the above chart.

Zook Thomas had to go to Temple recently for a check-up. While there he went through a hospital where wounded and maimed men from the African front were being treated. He says that one look will cure you of all desire to argue about giving to worthy causes.

Writing back from North Africa, Capt. Wood R. Cole-

man says: "I hope the people don't think the taxes are excessive. I got the returns on my wool and the Government had deducted 22 percent of the value for handling charges. At first glance I didn't like it, but rather than live like these people over here I would gladly give everything I possess."

Also had a talk with Ed Roark, who was given a medical discharge from the Navy. He volunteered about the same time that R. V. Estes did; but he entered service sooner. He saw action at Midway, which many Naval men consider the turning point in the Pacific war just as Stalingrad and El Alemein were the turning points in other battle zones. He says that the Japanese had the largest task force assembled in the Pacific advancing on Midway, but they were turned back by air power.

Farmers tell me that good bundles are now selling for 10c each. Maize and other headed grain sell for \$30 a ton. Isn't this getting somewhere near the record?

Cottonseed are also bringing a high price, but there is some debate as to how much cotton will be planted next year. The price of picking is so high that a lot of the farmers are thinking that they can make more clear money out of grain sorghums, wheat, peanuts, etc.

And I found out the reason why Bob Keller's land that was planted in peanuts the year before is making better feed this year. Peanuts are just like peas, alfalfa and other legumes. They put nitrogen in the soil. However, strip planting is essential to keep the

land from blowing when you plant peanuts. I am of the opinion that with peanuts, strip planting, a cover crop of rye in the winter or a constant burr hauling in this county could be brought back to heavy production. And with the price of peanuts what it is, there would be money in it.

Lafayette M. Hughes is in Wellington this week making preparations for the sale of bull calves that will be sold at Cottonwood November 1. This may not mean anything to you, but it does to men who know registered Herefords. In the Hughes herd are five sons of Colorado Domino E-10 one of the greatest bulls of the nation. The get of such proud bulls as Colorado Domino 697 and Colorado Domino F-360 as well as 31 other herd bulls will be sold at prices ranging from \$125 to \$200. Registered Hereford breeders tell me that some of these bulls would sell for much more, but Mr. Hughes intends to sell them at a set price. His aim is to provide herd bulls that will appeal to commercial cattlemen, and he intends to sell them at a low price. To say the least, this is something different from what you see at the average sale of registered Herefords. The oth-

er aim of Mr. Hughes is to develop the largest herd of registered Herefords in the world. The Government has warned newspapers that a 52 per cent reduction in the use of newspaper print may be necessary. Thus far the large dailies have been the ones that suffered. Newspapers like The Leader got off light, but if this drastic reduction comes about it will affect the weekly papers. Not as a scare warning, but simply to notify you, I suggest that you renew your subscriptions promptly. In particular does this apply to dailies.

This week Mrs. Lena Miller gave me some salmon that her daughter caught in Canada and it was delicious. Every since the Jack Lamb picture showed in Wellington I have been hungry for fish. Mrs. Miller's daughter is Mrs. Wilbur Upchurch who formerly lived here. They also killed an elk and sent Mrs. Miller a whole hindquarter, but the refrigeration is sidetracked somewhere and to date the game has not reached Wellington.

Jeeps Good For Use In Farming

American farmers may find the army jeep a handy thing to have on the farm after the war, according to tests made by the National Institute of Agricultural Engineering in England. In preparation for the post-war period of beating swords into plowshares, the institute has been testing various war machines that might be useful in agriculture. The tests show the jeep is capable of pulling a two-furrow plow and is particularly successful with a disc harrow.

Get Adlerika from your druggist today. Palace Drug Store, Parsons Drug Company, and Pruden Drug Co.

WHAT DO YOU LIKE ABOUT COFFEE?

TRUE ENOUGH— for it's vitally important! Freshness preserves the various qualities that are blended into a fine coffee. Admiration's robust, delightful fragrance, always pronounced when a package is opened, is achieved by careful blending. This type for aroma, that for strength, another for richness, and so on. Together they produce the mellow, exquisite flavor you enjoy so much in Admiration and in Admiration alone. Moisture, varying temperatures, absorption of odors, handling, and delay from roasting oven to coffee pot—all cause deterioration in freshness. To prevent any such losses, Admiration provides two strong, fail-proof safeguards—Thermal-Roasting and The Lamofilm Package.

In these days of intense activity and extra effort, a cup of Admiration at mealtimes, in-between periods, parties, or on other occasions gives just the right lift to appetite and spirit! The piquant, lingering flavor, the taste of richness, the elusive aroma, combine to make a beverage that's truly the Cup of Southern Hospitality. Here's coffee satisfaction that never varies! One cup after another and each is always a good cup.

Editorial

The veterans of the first World War were quite in order and also in line with history, when they adopted this resolution at their convention last week:

"Our own national interest must ever be our first concern, and we believe that our nation can best serve and protect its national interests, commensurate with its power and responsibilities, by participation in the establishment and maintenance of an association of free and sovereign nations, implemented with whatever force may be necessary to maintain world peace and prevent a recurrence of war."

The American people considered that problem at the end of the last war, but failed to act on it because of a bitter controversy in the United States Senate. Technical progress and tragic events have now swept this nation beyond partisan and provincial consideration. Statesmen realize clearly now that, whether we like it or not, the world is a unit, and modern civilization must rise or fall as a whole. In such a situation it is inevitable that this powerful nation face the facts and play a leading part.—The Amarillo Times.

It is an awful thing to think about but while we are enjoying comparative plenty, with only slight annoyances, more than half of the world's population is slowly starving to death—some of them not so slowly. The situation is particularly acute in large portions of China and from some points inside of Europe comes underground stories indicating that the situation is quite grave. This latter situation we cannot help until such time as our fighting men can crack the stone wall set up by the Hitlerites and their satellites. But authorities are said to be making every possible preparation, with the assistance of the food distributors and the Red Cross to take care of these populations just as quickly as possible. This is one reason, so we hear, why the Burma campaign is being prepared for, so as to clean the Burma road for a route to supply starving Chinese as well as to give the fighting men needed armament and other equipment.—Homer Steen in the Floydada Hesperian.

There really isn't any difference between your friends and your good friends. They're all good ones. The rest are just old acquaintances.

We read that enemy countries are very tense these days. Slowly but surely we'll change it to past tense.

• Soldiers And Italy

Back at home the folks are beginning to get the news that the boys in the service across the seas are not particularly happy to have the Italians, wearing medals for pot shots they took at Americans and British men only a few weeks ago, now taking the side of the Allies since the latter have the upper hand in Italy, talking in terms of "us" and "we." The Italian government and the Italians people have had a chance since 1939 to be idolized in the eyes of the world, a chance which they completely muffed. Americans and British now in Italy and in the Mediterranean are fighting a grim war, when they might have been at home going peacefully about their own affairs, all on account of a people who permitted such men as Mussolini to take over their affairs and help plunge the world into slaughter, are not going to get very enthusiastic about their new brothers-in-arms. Disgust and distrust are good words to use in this connection.—Homer Steen in the Floyd County Hesperian.

• Political Prospect

With only three gallons of gasoline a week the candidate for state office certainly is not scheduled for much traveling next year, neither are his workers. It may mean a hard year for the loud speaker wagons, and incidentally a noiseless one for the populace.—Burt Lockhart in The Pittsburg Gazette.

• No Butter For The Bread

There is little country butter coming to Quanah as families who have produced this butter have a misunderstanding of the regulations covering it. Retailers say that there is much milk and butter being thrown away in the country because the producer is fearful of selling it on the public market.

The government people have many rules that seem ridiculous, but there are none which call for waste of food and no attempt is made to keep anyone from getting plenty of it. The rules have been set only to regulate price and distribution and not to destroy.—J. A. Koch in the Quanah Tribune Chief.

• Casualties

A lot of casualties have been reported among ration board members. While none of them have been actually killed a considerable number have been reported as missing in action. No one really wants to serve on a ration board. Those who are serving are doing it from a sense of duty.—The Tulia Herald.

• Business To The Front

In my opinion, a local business man remarked yesterday, the country is going to have to depend a good deal upon business and industry to help bring the country back to normal. It is business and industry that are going to furnish the employment and work unceasingly to create markets for its products. For the past several years business has been persecuted as though it were an outlaw at large in the country seeking whom it might rob and oppress. Business and industry have their faults, but their shortcomings are not nearly so serious as the demagogues and starry-eyed reformers would have the country believe. In the recovery program business and industry are going to play a large part. They have made this country what it is and will continue to be its source of wealth.—T. B. Klepper in the Foard County News.

The basis of all literature is wonderment—perception of the miracle that "nature sends up violets and paints them blue." As Kipling said, "I saw naught commonplace in Thy world." Tennyson marveled at a little flower in a crannied wall. The Savior declared, "Except ye become as a little child, ye shall in no wise enter the Kingdom of Heaven."

What some of the editors are saying:

L. C. Kirgan's Fairfield Recorder: I note, a local man said yesterday, that we now have to guess on what our income will be and if we miss it, we will be fined an extra assessment. This makes the whole thing a matter of guesswork. Congress has been guessing about everything else for the past 10 years and now we must guess about what our income will be. . . . If I had been a member of Congress that passed the present pay-as-you-go income tax law, I would have been afraid to come home on a vacation and face my constituents.

Kerrville Times: We have held to the view, and still have that opinion, that those in charge of affairs at Washington are in far better position to be informed as to the real situation in the global war in which we are engaged than outsiders could possibly be. Our war leaders at Washington not only have inside information far surpassing that of the ordinary citizens but upon their shoulders rests the responsibility of waging the war so as to win a complete victory. The man on the street does not have the responsibility of making decisions vital to the war effort. To our way of thinking, that fact makes a vast difference between him and our leaders, who almost sweat blood over difficult problems that confront them.

A. J. Stricklin, Sr., in Terry County Herald: When and if we pipe all our oil and natural gas out of Texas, East Texans will have nothing else to do except squirrel hunt and West Texans can get caught up with their coyote hunting. All our big reserves will be used to further industrialize the East.

A good old preacher who was visiting in a home dropped his set of false teeth through a grating on the porch. Neither he nor his hosts could devise any way to get them out as the bars were too close together to reach through and too firmly embedded to be removed. But the small boy of the family said: "Wait a minute." He returned in a little while with a string, with a chicken bone tied on one end. He lowered the bone through the grating and the teeth, through force of habit, clamped down on the chicken bone and he drew them out!

To Provide More Soap

An increase of about 9 percent in the nation's soap supply, without using additional fats and oil, is expected under adjusted soap formulas recently prescribed by the War Food Administration. The formulas call for a larger use of domestic non-fat materials, principally rosin, as a substitute for fats.

Still Can Send Some Gifts

Christmas packages for soldiers overseas which have been returned to the sender because of an improper address still may be mailed, according to the War Department. The original wrapper, bearing the endorsement, "Return To Sender, Insufficient Address," must be submitted with the correctly addressed package to prove that it originally was mailed before the October 15 deadline. Christmas packages also may be mailed to soldiers going overseas between now and Christmas. When the sender presents his package to the post office for mailing he must bring the Change of Ad-

Mr. Jones said, "American farmers are doing the greatest food production job in history. However, if we are to insure ample steel for wartime production, millions of tons of scrap iron and steel must come from our farms in the next six weeks."

Tire Help For Truckers

Truck owners who have tire rationing certificates but are unable to get tires because local quotas are used up and those operators unable to get ration certificates because of depletion of quotas soon may get help through the Office of Defense Transportation. Instructions on procedure for reporting such cases soon will be issued to the 142 ODT district managers. Former Teacher Publishes Book

Copy of a book dealing with the race question, written by an early day school teacher of the county, was received last week by Miss Katherine Boverie, county librarian. Entitled "Why Nations Fall," the book was written by Wm. R. Baker, now justice of the peace at Levelland.

Mr. Baker is better known among the old-timers here as Bill Baker. He taught in the Lillie, Aberdeen and Wellington schools and moved from the county about 35 years ago.

R. F. Curry, first to read the book, described it as a series of short essays, each dealing with the rise and fall of some nation, and all built around Mr. Baker's be-

lief that a mixture of races diminishes the vitality of a nation. This is Mr. Baker's first book. It was printed in August by the Hobson Press in Cincinnati.

Hallowe'en Carnival Slated For Saturday Night At High School

Entertainment galore is in store for you at the annual Hallowe'en Carnival next Saturday night at the high school gymnasium. A negro minstrel, a womanless wedding and a Zeigfeld Follies chorus will be outstanding entertainment in the early part of the evening. Climaxing the event will be the crowning of the high school and junior high school queens.

Suspense is running high as the week draws to a close for the four high school classes who are running the following candidates: Miss Jeanne Wilson, senior class; Miss Helen Young, junior class; Miss Jondal Dix, sophomore class; and Miss Joyce D. Armstrong, freshman class. Votes are being sold throughout Friday at a penny a vote with the total money raised to go to the Junior class to use in entertaining the senior class.

Winner of the coveted place of queen of the high school will not be revealed until the coronation ceremony at 10 o'clock Saturday night following the carnival. The other candidates will attend the queen as duchess; and each duchess and the queen will select their escorts.

Sponsors of the Junior Class, Miss Kathryn Schellenberg, Miss Hattie D. Wells and B. O. Wilson were enthusiastic in discussing the carnival plans. They explained that the classes in the high school and in junior high were making plans for booths which will include food stands, fortune telling, the spook house, ring the goose and many others. Sponsors stated that sixty percent of the carnival funds will go to the Juniors to pay for the annual Junior-Senior banquet held in the spring.

Mrs. Morgan Painter Shower Honoree In Whisenant Home

Mrs. Dolly Whisenant of Dodson was hostess last Tuesday evening, October 19, at a bridal shower honoring Mrs. Morgan Painter. Mrs. Painter was before her recent marriage, Miss Zella Welch. A pink and white color motif was used in the floral arrangements and refreshment plate.

The guests arrived at eight o'clock and were entertained with a short program and the display of lovely gifts. Mrs. E. J. Smith read an appropriate reading and Mrs. Doris Sue Painter, Mrs. Dorothy June Duvall and Mrs. Jo Hunt entertained with songs.

After the gifts were opened refreshments of pie and coffee were served to the following: Mmes. E. J. Smith, Dewey Malone, Mattie Deahl, Hattie Scott, Doris Sue Painter, Dorothy Duvall, Margaret Birchfield, Bessie Davis, Mabel Scott, Zela Tisdal, Virgie Crowder, Claudie White, Jimmie White, Jo Hunt, Helen Howell, LaVerne West, Oris Hudson, Pete Nipper, Myrtle Henderson, Aaron Welch, Edith Painter and hostesses, Mrs. Dolly Whisenant and Mrs. Margaret Baker.

Gifts were sent by Miss Merle Hays, Miss Bonnie Hall, Wellington; Mmes. Ila Mae Wilson, Mary Rollins, Jean Martin, Dean Teutch, Janette and Jo Ann Bowling, Z. McKinney, O. D. Hill, Winnie Mae White and Miss Allene McKinney.

C. Clement.

Junior High School students selected Miss Marian Long of the eighth grade by popular vote to represent the Junior High School as Queen at the Annual Hallowe'en carnival to be held Saturday night at the high school auditorium. Walter Johnson was chosen by the queen to serve as king.

Candidates from the various grades were nominated as follows: Patsy Harper, fifth grade; Patsy Robinson, sixth grade; June Ann Robertson, sixth grade; Joy James, seventh grade; Veda Mae Kiker, seventh grade; Diane Wells, seventh grade; Margaret Vaughan, eighth grade; Peggy Jean Yarbrough, eighth grade; and Marian Long, eighth grade.

In the first run-off Patsy Robinson, Diane Wells and Marian Long were the three high candidates. In the final vote Marian Long won over Diane Wells by sixteen votes.

Prior to crowning the queen at the carnival, the entire student body of all the local schools will enjoy the fun booths which will be erected in the gymnasium for the occasion. Fortune telling, apple bobbing, hall of horror and many other booths will furnish a gay evening for the school children of Wellington.

LETTERS FROM MEN IN SERVICE

September 29, 1943 Somewhere in the Pacific

Dear Deck: Just a line to say hello to everyone, and to tell you how much I enjoy your paper. I just received the Sept. 9 paper, and they couldn't move me till I read it all, clear down to the ads. It is the best paper that comes to this island.

It's been a long time since I was home and there are lots of new names in the paper but I enjoy reading about them anyway.

I sure enjoy reading about the boys in the service and about where they are. Some of them seem to be pretty close to where I am, but I haven't run across any of them yet; hope to before long. Red Williams and I are still together. Sure good to shoot the bull with him about what we used to do back home and what we plan to do after we are home again. I can't tell you where I am but I am on an island that formerly had Japs on it, but none now. The weather isn't very good. It rains most of the time and the wind really blows. Harder than I ever saw it there, even when we got one of those terrific western winds in the spring. From what the paper says, you could use some of the rain we have had here. Hope you have it by now.

Well, there isn't much more to say except to keep up the good work and keep the paper coming. As ever, Forest Ryan.

Dear Deskins: Just a short letter of thanks to tell you how much I appreciate your sending me The Leader. I have received two copies in the last two weeks.

Am now in the same squad as Sgt. Roan from Quail, his parents are Mr. and Mrs. C. L. Roan. It is very nice to know someone from the old home town in your same outfit. We are both crew-chiefs on a fighter airplane and spend a lot of our time on the line discussing Collingsworth County and its residents.

Sincerely hope you and family are in the best of health. Give my love to Cynthia Watkins and my kindest regards to all in Wellington.

Tell Fatty I expect to be home in time for the 1945 Kentucky Derby, so to be sure and reserve me a seat. Ha! Ha!

Tell that Wellington football team that they can have one hell of a rooter for them in England and that if the rest of the G. I.'s all over the world praise them as much as myself, that the Wellington Skyrockets will be world famous after the war. I sincerely hope them a successful season. Cheerio for now.

I remain your friend, Sgt. Jim Abel. P. S.—Give my love to my sister and brother-in-law, Mr. and Mrs. Bob Leggett.

(The following letter was received by Mr. and Mrs. J. L. Shields of Wellington from their son, Bill Shields.)

Seattle, Washington October 11, 1943.

Dear Folks: Well it has been a long time since you heard from me I guess, but I have been in a place where I couldn't mail a letter for quite some time. We just got here so I don't know just what the score is yet. I may be here for quite a while.

I have been up in the Aleutian Islands practically ever since I've been aboard ship. I've been on a troop transport all the time. We

were at the island of Attu from start to finish of the battle. In fact we were there so long we ran out of food and had to live on Army Field rations, Japanese rice and what fish we could catch until we got back to base where we could get supplies. Then we dashed down to Frisco and got another load of troops and back again so you see why I haven't been writing so often.

I hadn't even had time to take an examination for Gunners mate. You see we have to take written examinations in the States before we are rated as we are not on Navy ships. I could have been Gunner's mate 2nd now very easily if I had been lucky as some fellows whose ships just make short runs but I can't kick because I've had plenty of excitement and of course that's what I like. I hope, however, that I never have to go back to that miserable fog-bound hell-hole called the Aleutians. On the last trip back we came back by an island down south and I'm hoping to go back that way soon. I don't care about staying on land too long. You see there are sea-going sailors and then the other kind. Of course they all want to go to see—I guess. That reminds me; have W. W. and Pat gone to sea yet? I'll have to write them sometime—after the way, maybe. I got all my mail in a bunch and I've lost the letter that you mentioned Roy Childress in. I sure want you to get his address and send it to me. I lost the address of Mary's that you sent me, too, before I ever got back to the States so I don't know if she lives in San Francisco or not.

I guess I got all the pictures you sent. I sure was glad to get them. Marie sent me a large picture of herself.

I should get a leave home next time I come in but you never know.

I guess I'll send a picture now. I just haven't had time to have any made; maybe so soon.

Adios, Bill.

P. S.—I don't look I weighed 203 pounds, do I? The grass hut and palm trees are the real McCoy.

U. S. Naval Training Station Norfolk, Virginia October 19, 1943

Dear Deck: Well I have moved again, and I think this town is one of the worst that any of the fellows were ever in, but I guess that some of the fellows have to come here and I might as well be one of them. I wish you would send me the

Wellington Leader. I really do miss it. When I got it I could keep up on the fellows, and I got to look some of them up.

We work at night here and we don't have very much to do, but just after I came here we really did have to work.

Thanks for sending The Leader to me.

Sincerely, Dennis Holland.

Oct. 22, 1943 Camp Roberts, Calif.

Dear Deck: Have just received a copy of the Leader and enjoyed it very much. I am in the Field Artillery here at Camp Roberts, Calif. It is quite dusty here and especially

dusty where we have been holding maneuvers for the last two weeks. There are quite a number of old Spanish missions here built back in the last of the 18th century. One of them is over 150 years old. They are rather interesting.

Well, I must close now as I must get ready for field inspection tomorrow.

As ever, Pvt. Murrell Carmack,

I am in North Africa. I haven't seen a paper in so long that I was afraid the War Department failed to send you my change of address, which I filled out before I left the states. However, I realize that sometimes it takes months for the

mail to come from the States Army Way. If mail is addressed to me at the above address I will get it some time.

I haven't heard as to how the crops are there. I hope they are good and that the farmers can get it gathered and get a good price for it.

I hope the people don't think the taxes are excessive. I got the returns on my wool and Government had deducted 22 per cent of the value for handling charges. At first glance I didn't like it, but rather than live like these people live over here I would gladly give everything I possess.

Best regards, Wood R. Coleman.

Discovery From Panhandle Vital In Dental Work

CHICAGO.—Discovery of a resistant that makes humans immune to dental decay was reported recently in the Journal of the American Dental Association by Dr. S. G. Harootian, D. M. D., of Worcester, Mass. He said a "striking" decrease in caries (dental decay) was noted in patients at the Worcester state hospital who were given flour made from the bones of beef animals, which contain great quantities of calcium, phosphorus and flourine. The experiment lasted nine months.

Use of the bone flour, Dr. Harootian said, resulted from an investigation made in Deaf Smith county, Texas, where the population was found to have a low incidence of caries.

"It was found that long-time residents of this district were free from decaying of the teeth," said Dr. Harootian. "It was further noted that people who had moved into this area from other parts of the country soon experienced an arrest of any caries that they might have had, and thereafter were immune to caries."

Investigators seeking the reason for the high resistance to dental decay found Deaf Smith county, situated on a high level plain, had a top soil of dark sandy loam overlying a clay stratum which contained a high percentage of assimilable calcium and phosphate, Dr. Harootian said.

"Correspondingly," he added, "The vegetation growing on this soil showed a high percentage of these mineral constituents. As a result, the meat and vegetable products grown in this district could be expected to contain a relative abundance of calcium and phosphorus."

The investigation also disclosed that the drinking water of the county contained a high percentage of the two elements in addition to flourine.

Believing that the calcium, phosphorus and flourine were responsible for arrest of dental decay, Dr. Harootian said he learned there was available in almost unlimited quantities flour made from the bones of beef animals.

that when such an enemy sub is able to surface, it can sit back out of range of Allied guns and fire away. For this reason, the sub was fired on before it had surfaced enough for the gunners to have much chance of hitting it.

Young declared he felt safer on deck than he would have below when the torpedo hit. Submarines, he pointed out, aim their torpedoes to hit a ship just below the water line, where the engine room is located. A goo hit here can render a ship helpless or cause the boilers to explode, splitting a ship in two.

The dive bombing of the ship on which Young was stationed came at Guadalcanal. His own ship was undamaged, but one United States vessel was lost.

The Japanese Tojo's son was killed at Guadalcanal on the 13th of a month, and the war lord swore that he would bomb Allied held positions on the 13th of every month following, Young said. This time he was a few days late, but when the Japanese came, they came with 120 planes. Allied intercepter planes went out to meet them and downed 97 before the enemy could get to their objective.

One of the biggest thrills Junior Young has had since coming home was watching the Skyrockets down the Memphis Cyclone Friday night. He hopes to be able to

stay for the big game of the year—the one against the Shamrock Irishmen November 11. He will leave that night to return to his ship on the west coast.

Freedom Of -

(Continued from Page One)

each individual possible as compared to the people in other nations? The answer is that freedom under law, freedom to use our own initiative in a country that lets you want more than you have and gives you a right to strive for it. Freedom and opportunity made the United States great.

"But today," Mr. Robbins observed, "those very rights that made this country great are being taken away from us. There is a concerted movement in Washington," he charged, "to regulate our lives and our business activities to the minutest detail. If we had the love of freedom of the Colonists, we would write another declaration of independence.

"There are in Washington today," Mr. Robbins said, "105 bureaus working on post-war plans and over 80 per cent of those are working to destroy free America."

The speaker went on to bring another picture of the two million federal employees who are working in various bureaus. He gave the picture for Texas by saying that there were 168,000 federal employees drawing 27 million dollars annually while there were 140,000

state employees drawing 13 million dollars annually.

Mr. Robbins declared that Kiwanis did not stand for monopoly in any form, but that also meant that Kiwanis did not believe in monopoly by the government.

In closing he called for a return to spiritual values, which was one of the cornerstones which made this nation great. Regardless of how much the law may allow us to follow the honored right of free enterprise and individual initiative, our nation will decline unless we recreate the moral and spiritual values which made the Pilgrims strong.

"Our forefathers were devout enough that they put on each coin this reminder: 'In God We Trust,'" Mr. Robbins said. "But today too many of us trust not in God but in the dollar itself. Seventy-five percent of the broken homes are among those who never go to church. There must be individual responsibility and a rebirth of spiritual values if individual initiative is to survive."

In addition to the Governor's speech, the program also included musical numbers by Kathleen Holley Gray and Irma Jeanette Karnes Garner, each of whom were called back by encores.

Each fighting pilot must have the support of about 20 men on the ground, and each pursuit or bombing plane requires the services of at least that many ground vehicles.
