"I wholly disaprove of what you say but will defend to the death your right to say it."—Voultaire.

Volume 45. Tahoka, Lynn County, Texas, Friday, January 14, 1949 Number 15

## March of Dimes Campaign Will Start Today

The annual March of Dimes drive will get under way January 14 and last through January 31. Terry Thompson is again county director of the campaign and Wynne Collier is treasurer.

The March of Dimes campaign has a much heavier responsibility in 1949 than ever before in the history of the organization. Last year infantile paralysis struck again with tremendous force throughout the nation less than two years after the terrific epidemic in 1946.

Contributions to the March of Dimes are divided equally between the county and national chapters of the National Foundation for Infantile Paralysis. The county's half of the proceeds is used to treat and care for victims of polio in Lynn county. If local funds are insufficient to care for our patients, the local chapter can call on the National Foundation for the amount of money needed. Thus far Lynn county has been fortunate enough to have sufficient funds to take care of our needs.

Clint Walker, county chairman for the Foundation for the National Foundation for Infantile Paralysis, reports that six polio victims were aided in Lynn county during 1948. Some of these patients will require treatment for long periods before they reach maximum recovery.

Last year's proceeds from the March of Dimes in Lynn county 5c to a 6-cent minimum, and the $558.56 was sent to the National Foundation and an equal amount retained here in the local chapter. This money was raised by contributions at churches, theatres, coin collections in schools, stores, and individual contributions. The same methods will be used again this year and every person is urged to give and give generously to this worthy cause. Your support is needed to fulfill the obligation to the children of Lynn county to provide hospitalization and medical care for all local cases, irrespective of age, race, creed, or color.

Join the 1949 March of Dimes—make your contribution today!

## Happy Smith Is Rotary Speaker

Postmaster W. E. (Happy) Smith was the speaker at Rotary Thursday at noon. He told something of working of the Postoffice Department and the mail service. He emphasized that tht postal department, in spite of the fact that it is operating at a slight deficit at the present time, is the most efficiently operated department of our government.

For the first time in the history of our government, he said, the Post Office Department is headed by a trained Postmaster General. The present Postmaster General has come up through the ranks after a beginning as a clerk. Heretofore the office has been a political "plum" for some politician.

The new mail rates do not affect much of the mail sent out by the average individual, he said. Principal increases, in which the general public is interested, concern air mail, which has been raised from a amounted to $1.17.11 of which doing away of the 1½-cent mail.

Dale Thuren was program chair man for the day.

Last week, Bill Griffin, Tom Gill, Frank Parris, and Dr. W. A. Schaal spoke briefly on "How I Came to Live in Tahoka."

**RECOVER WIRE**

The local sheriff's office last week recovered a quantity of copper wire stolen several weeks ago from Seth Lewis, electrician. The wire was stolen by a negro and sold.

**JUNIORS WILL PLAY**

Coach Jim Foust's seventh and eighth grade junior basketball teams will meet like teams from O'Donnell in the Tahoka gym next Tuesday night. The first game will start at 6:30 o'clock.

## Appreciation Day Starts Saturday

The first of a series of weekly "appreciation days" sponsored by 34 Tahoka business firms will be held this Saturday afternoon at 3 o'clock.

All people of this trade territory are invited to take advantage of the event.

The meeting will be held on the court house square.

## Jaycee Charter Banquet Tonight

The recently organized Tahoka Junior Chamber of Commerce (the Jaycees) will hold its Charter Night banquet Friday night at the Legion Hall. The Lubbock Jaycee chapter sponsored the organization of the Tahoka chapter, assisted by Lamesa.

Melvin B. Evans of Wichita Falls, state Jaycee president, and Bob Brown of Abilene, state vice president, will deliver the principal addresses of the occasion.

Local Jaycee members will be accompanied to the banquet by their wives or lady friends. Quite a few out of town visitors are also expected.

Wilton Payne is president of the Tahoka chapter.

## Bulldogs Playing Better Basketball

Tahoka Bulldogs, playing in the Sundown Invitation Basketball tournament last week end, looked better than an any time this season. Though they won no championship, they came home with the trophy for the best team sportsmanship, which is possibly the highest honor they could hold.

Levelland took first place in the Sundown tournament, Sundown took second, and Idalou third. The boys teams entered were Sundown, Sudan, Littlefield, Levelland, Idalou, Lubbock B, Brownfield A, and Tahoka.

Coach Jacobs' Bulldogs lost their first game, played Thursday afternoon, to Idalou 37 to 35, but came back that night to defeat Littlefield 26 to 21 to remain in the double elimination tournament.

However, Friday they dropped a close one to Sudan 28 to 24. Carter was high point man in each of the three games.

Fans who saw the tournament declare the Bulldogs played a more alert and aggressive game than in any games this season.

A conference game with the Post A. L. Pace's powerful New Home girls team opened the tournament with a 47 to 30 victory over Post on Thursday, but on Friday lost to Meadow in a hair raiser by the narrow margin of 48 to 49. The girls' tournament was single elimination. Crabtree of New Home was placed on the all-tournament mythical team, and McClintock was presented the best individual sportsmanship trophy.

Antelopes at Post, scheduled originally for last Tuesday night, has been postponed until a later date.

The O'Donnell invitation tournament set for Thursday, Friday, and Saturday of this week, was postponed because of the inclement weather. Both the Tahoka A and B teams had been entered in the tournament.

## Congratulations:

Mr. and Mrs. Joe Waldrep of Rt. 3, O'Donnell, on the birth of a girl, weighing 8 pounds 8 ounces at Tahoka Hospital ot 12:45 a. m. on Wednesday, Jan. 12. They have named her Glenda Kay.

Mr and Mrs. Lewis Jordan on the birth of a daughter weighing 6 pounds 10 ounces at 10:10 p. m. in a Lubbock hospital.

Sue Fendt, 13, daughter of Mr. and Mrs. Arthur Fendt, underwent an appendectomy at Tahoka Hospital last Saturday.

JAYCEE WEEK IN TEXAS will be observed from Jan. 14-21 by official proclamation of Governor Beauford Jester (center). In issuing the proclamation Governor Jester praised the Texas Junior Chamber of Commerce for its fine work in training young men and cited the organization's current "Pay Your Poll Tax" campaign as one of its most important contributions toward good government in Texas. Looking on are Melvin Evans of Wichita Falls, left, president of the Texas Jaycees, and John Ben Shepperd, Gladewater, past president of the U. S. Junior Chamber of Commerce.

## Man Is Charged Here With Perjury

Bluford McIntyre, 22, of Slaton, is in jail here charged with perjury, and it is likely that other charges will be filed against him, local officers inform The News, as the result of his recent marriage to a 14-year-old Slaton girl.

McIntyre, it is charged, obtained a wedding licence here last week, claiming that the intended bride was 21, and was married to his niece, aged 14, at Ropes on January 7.

When Sheriff "Slick" Clem and Deputy Meldon Leslie went to arrest him at a house near New Home where he and the girl were staying McIntyre and the girl hid in the attic of the residence and refused to come out when the officers ordered them to do so. Fearing that the man was armed, the officers threatened to throw a tear gas bomb into the attic, and the man gave himself up.

Records show that he had a bad record in the Army and spent time in the U. S. Discipline Barracks at Camp Gordon, Ga.

## *Woodworth Falls And Breaks Leg*

C. E. Woodworth, owner of Woodworth's Barber Shop, received a broken leg just above the ankle at about 6 o'clock Wednesday morning when he slipped on ice and fell.

Mr. Woodworth started to work in his car but could not operate it because of the icy condition of the ground, and set out afoot for his place of business. He had gone hardly a block, when he slipped and fell. Mrs. W. T. Kidwell heard his calls for held, and phoned her husband, who had already gone to work. Mr. Kidwell and others put him in a car and carried him to Tahoka Hospital, where x-ray pictures showed both bones of the right leg to be broken.

## Tax Paying Time Has Arrived

January 31 is the last day that county, state, city and school taxes can be paid penalty free. Also it is the last day that poll taxes may be paid.

Persons becoming 21 after January 1, 1948, are entitled to exemption from payment of poll taxes but must secure an exemption receipt this month. Also, all persons 60 years old on or before January 1, 1948, are exempted from payment of the poll tax.

State and county and poll and taxes of some Lynn county school districts are payable at the office of Frank McGlaun Jr. in the Lynn county court house.

Tahoka school district taxes are payable at the school office of Mrs. Helen Ellis in the Deen Nowlin building.

City taxes must be paid at the City Hall.

## *New Minister For Church of Christ*

Ernest West is the new Minister of the Tahoka Church of Christ, having moved here last week from Levelland, where he served that church for two years. He also was Minister of the Odessa church for two years prior to going to Levelland.

Brother West is a graduate of Freed-Hardeman College of Henderson, Tennessse, and also attended Eastern New Mexico College at Portales one year. He is a native West Texan, his home town being Plainview.

The new pastor is married and has one son, Larry, aged four.

He spoke at the local Church of Christ on Sunday, Jan. 2, but returned to Levelland to preach last Sunday. He will conduct the regular services here next Sunday.

The most famous gift from the people of France to those of the U. S. is the Statue of Liberty.

*This reckless driver and his companion were speeding crazily through a thickly populated residential area, endangering the lives of dozens of people. Fortunately their wild ride ended before they had involved anyone else. The car went out of control on a medium curve and slammed into a gasoline pump, hurling its occupants onto the pavement. The driver was killed; his passenger lived—after many months in the hospital. Speeding was a reported violation in one out of every four motor vehicle fatalities last year. Strict enforcement of speed laws, and aroused public opinion are needed to prevent accidents of this type.*

## Record Breaking Rain, Snow and Sleet Brings 2.74 Inches of Water to County, Breaks Long Drouth On South Plains

Tahoka has been practically isolated from the rest of the world this week by the unprecedented sleet, snow and rain storm which started Sunday and reached its climax Tuesday and Wednesday.

Though much damage has been done to electric and telephone lines, trees, and roofs, everybody is wearing a smile, for the moisture brings to end a long drouth, helps put a stop to blowing farmlands, permits the farmers to list their land, and brightens the prospect for a crop in 1949.

A total of 2.74 inches of moisture was recorded by the Government rain guage kept by The News.

A drizzling rain began falling Sunday, which turned to alternate flurries of sleet and snow Sunday night and Monday. About midnight Monday, the temperature rose some what and rain began falling. Again on Tuesday night rain fell. Temperatures here ranged as low as 19 degrees during the spell, but most of the time the thermometer has stood between 25 and 34 degrees.

Rain turned to ice, piled on the snow and sleet, reached a depth of five to six inches.

Much of the time travel was almost impossible either by automobile or afoot. One man was on the road from Lubbock to Tahoka from six o'clock Tuesday afternoon to nine o'clock Wednesday morning.

Many cars wert stuck in ditches, in drifts and low places, and at curbs in town; many received fender damaged when skidding into objects.

Two accidents of a serious nature were reported in Lynn county. Fred T. Stricklin, 30, of Lubbock was killed when the car he was driving overturned on the highway north of Wayside at 2 a. m. Monday. Levi Noble, former Tahoka citizen, now operating the State Drug Store in Lubbock, received a slight back injury in the wreck, and Mrs. Stricklin was uninjured. C. E. Woodworth Wednesday morning slipped on the icy street in front

(Cont'd. on last page)

## *Date Is Set For Football Banquet*

The annual Tahoka Bulldog football banquet will be held at 7:30 on the night of January 26, according to Coach Jim Foust.

Letter awards will be presented team members, and the principal address will be delivered by Coach Dell Morgan of Texas Tech.

## Jaycee Boxing Meet Scheduled

Tahoka Jaycees are sponsoring an invitation boxing tournament here in the school gymnasium Friday and Saturday night as a warm-up to the District Golden Gloves contests to be held in Lubbock January 31 and February 1 and 2.

The boxing meet is open to all amateur fighters, and entry blanks may be secured from local Jaycee members. A trophy will be awarded the winner of each weight division.

G. W. White and Dub Gurley will be in charge of ring activities, and various other committees are making preliminary arrangements.

Among local fighters who expect to enter are Paul Hill, H. L. McMillan, Van Brookshire, Jack Reid, and Bob McMillan. The Jaycees hope to have several entries each from Lubbock, Plainview, Lockney, Petersburg, and possibly some other towns, as well as several other local contestants.

## Former O'Donnell Editor Is Buried

Mrs. Pauline Campbell Henderson, 45, former citizen of O'Donnell and for several years editor and owner of The O'Donnell Index, died at her home on 1316 17th street, Lubbock Thursday of last week after a long illness.

Burial was in the O'Donnell cemetery Friday following funeral services at 4 p. m. in the O Donnell Methodist Church, with Dr. C. A. Bickley, pastor of Asbury Methodist Church, Lubbock, officiating.

Since leaving O'Donnell several years ago, Mrs. Henderson had been assistant editor of the Echo at Sulphur Springs, Hopkins county. She moved to Lubbock in March, 1948.

Survivors include her parents, Mr. and Mrs. W. H. Veazey, Lovington, New Mexico; a daughter, Mrs. Leo Lightfoot, Lovington; a sister, Mrs. Paul Raley, Wichita Falls; and a brother, Jack Veazey, Lubbock. All are former O'Donnell citizens.

## *Methodist Men Hear Address By Strange*

Thirty two men braved the ice, snow, and cold Monday to attend the regular second Monday night Methodist Fellowship meeting at the church.

Bill Strange Sr. brought the address of the evening, his subject being "Dangers on the Home Front" and his audience pronounced it a most excellent and timely talk.

A quartet was furnished by R. A. DuBose, Calloway Huffaker, Otis Spears, and Dr. Emil Prohl.

President Maurice Bray presided, and an excellent meal was served under direction of R. H. "Hick" Gibson.

**PACE HAS ATTACK**

Superintendent A. L. Pace of the New Home schools is reported ill in Lubbock General Hospital, following a heart attack he suffered Wednesday of this week. The News was unable to learn his condition.

John Yocham and Mr. and Mrs. Dock James returned last week from Hillsboro, where they were called by the serious illness of the father of Mr. Yocham and Mrs. James, J. T. Yocham, who underwent a major operation.

## Farmers Terrace Under AAA Plan

According to Clint Walker, secretary of the Lynn County A.C.A., a large number of farmers in Lynn county are intending to terrace under the 1949 A.A.A. program.

Dry weather has held the terracing down so far this year, but after the moisture the county has had for the past several days, many farmers are expected to begin.

In 1948, nearly 400 miles of large ridge type terraces were constructed under the A.A.A. program. This represents the greatest amount of terracing done in one year under the farm program.

Farmers who intend to participate in the AAA terracing program should proceed in the following manner: Get your lines for the terraces run; secure written prior approval from the A.A.A. office; and get someone to build the terraces unless the farmer intends to build his own.

The payment rate for 1949 is the same as it has been in the past, Walker states, and will be $79.20 per mile. For further information on the terracing program, contact the local A.A.A. office.

## *Schools Are Closed For Three Days*

Because of the fact that it became impossible for school buses to make their runs, Tahoka schools were closed Wednesday for the ramainder of the week.

Classes were held as usual on Monday and Tuesday, but many students were absent because of the bad weather.

Supt. Vernon Brewer states that it will be necessary to make up the teaching days lost, which is a state law requirement.

## *Blowing Winds Damage Soil*

Fort Worth, Dec. 31.— Blowing lands on the Texas and Oklahoma Plains have more than doubled in area in the two weeks ending December 15 and are more than five times as great as the acreage reported blowing on November 15.

This announcement, based on reports from Soil Conservation service representatives to Louis P. Merrill, regional conservator here, also revealed that recent blowing in the sandy Cross Timber lands which border Plains lands on the east have added 568,000 acres to the total now yielding dust and sand to a total of 2,948,000 acres. Of this total 2,629,000 acres are in Texas.

Even more disheartening to Soil Conservation Service observers watching the two-state picture—smaller areas in eastern New Mexico also are involved—is the report that continued drouth conditions and cutting winds have left 5,947,000 acres without enough plant cover, either in residue or new growth, to prevent damaging erosion. This total was an increase from 3,869,000 acres reported without sufficient protection two weeks earlier. Nearly 2,000,000 acres of this increase was in wheat, cotton and sorghum lands of the Texas and Oklahoma Plains.

Merrill said that fields protected by combine sorghum stubble or which had a cover of small grains drilled early enough in cotton or sorghums were holding generally. In many Plains sections young wheat has been unable to furnish protection and both soil and crop have been extensively damaged. Sorghum land on which stubble has been grazed also is blowing. An increasing number of operators have resorted to chiseling or deep plowing to halt the soil movement but this is at best an expensive and only a temporary measure, Merrill pointed out.

In the sandier Cross Timber lands, peanut lands were on the move except where the fields have been wind-stripped with bands of sorghums. Lands on which the crop residue, such as sorghum stubble, had been grazed also are suffering, Merrill added.

District Conservationist W. R. Heizer at Dublin reported 168,000 acres in Eastland, Comanche, Erath, Brown and Mills counties blowing during a windstorm December 4 to 7. It was mostly sandy cultivated land with inadequate strips, late-planted cover crops and poor residue. Sand filled highway drainage ditches, piled high at fences and formed dunes up to three feet high in some fields. However, a rain December 14 brought relief and farmers have been planting rye to give soil cover.

The Cross Timbers soil movement is different from that of the Plains areas farther to the west, the Soil Conservation Service regional head explained. The coarser sands are torn loose by the wind gusts and swept along the surface to form troublesome hummocks at fences and around tufts of grass and weeds. The dust is from the fine sands and "tight lands" of the Plains and is made up of the most valued soil elements.

From Lubbock Monday, December 20, came reports of a true dust storm which carried silt particles from farther west and northwest across the skies. Visibility during the afternoon ranged from zero to several miles. Wind velocity was never more than 28 miles an hour.

In the Kiowa County Soil Conesrvation District of Oklahoma, Henry Dugan of near Altus, a member of the soil conservation district board, stated that more wind erosion was occurring on farms in his area than at any time before in the memory of residents .This was for the most part on sandy lands which had been prepared for wheat.

Farmers in the Big Spring area in Texas were predicting that wind erosion conditions will grow progressively worse if rain does not relieve the drouth.

Jesse D. Jenkins, Soil Conservation Service district conservationist at Lamesa, reported nearly 940,000 acres in his section without sufficient cover, an increase of more than 800,000 acres. Many farmers are listing cotton land. In Gaines county many fields have blown severely in the past two weeks and dunes have formed along ditches and around Johnson grass patches.

J. C. Porter, Soil Conervation Service district conservationist at Jacksboro, said the sandstorm of December 6 and 7 caused damage to winter crops and in most cases killed vetch and rye on land where sorghum wind strips were not left standing strips of four rows of sorghums and eight rows of peanuts, where the sorghum stalks were left standing, are not blowing.

At Vernon, District Conservationist L. W. Harvey said cover crops, good residue, proper grazed range and good windbreaks were effective in preventing wind damage there. Many farmers are deep-tilling bare fields.

District Conservationist George M. Parker at Perryton reported winter wheat in that section in good condition with 27 inches of soil moisture. There is very little blowing there, he said.

---

We are ready to renew your daily! —Mrs. E. I. Hill at The News Office.

---

Here visiting in the home of their mother, Mrs. Ione West, and their brother, Lynn West, during the Christmas holidays were Mr. and Mrs. J. W. Holland Sr. and family of Levelland, Mr. and rMs. Herbert Hunt and children of Claude, Dr. Anne West of Dallas, and Jackson West and family of Idalou. Jackson's little daughter, who was so seriously ill with polio, is now up and about and is re-entering school.

---

Mr. and Mrs. Glen Loyd of Midland, Mr. and Mrs. Carl Hobbs and family of Lubbock, Mr. and Mrs. Jack Alexander of Morton, visited in the home of their parents, Mr. and Mrs. J. A. Loyd.

HELPING BUILD WEST TEXAS SINCE 1927

THIS WILL HELP KEEP

**REDDY . . . READY!**

The new service transmission line from Brownfield to Post brings power to a growing area of the South Plains. But lines alone are not enough. There are the many plants which generate the electricity. And nearer the points of use, are the substations which "step down" the voltage for use in towns or along country roads. This is a substation near Post.

Back of all this equipment stand the men and women, the management and the money which make your electric service possible. Some of our employees are your neighbors. Others are a hundred or two hundred miles away. Wherever they work, they're helping to bring a vital service to you and everyone else on our lines.

This is our contribution to the life of this region. We're here to help it grow. Our expansion program is a big bet on its future—to help keep Reddy ready—for a single switch in your home or a great industry.

## March of Dimes Campaign Will Start Today

The annual March of Dimes drive will get under way January 14 and last through January 31. Terry Thompson is again county director of the campaign and Wynne Collier is treasurer.

The March of Dimes campaign has a much heavier responsibility in 1949 than ever before in the history of the organization. Last year infantile paralysis struck again with tremendous force throughout the nation less than two years after the terrific epidemic in 1946.

Contributions to the Mareh of Dimes are divided equally between the county and national chapters of the National Foundation for Infantile Paralysis. The county's half of the proceeds is used to treat and care for victims of polio in Lynn county. If local funds are insufficient to care for our patients, the local chapter can call on the National Foundation for the amount of money needed. Thus far Lynn county has been fortunate enough to have sufficient funds to take care of our needs.

Clint Walker, county chairman for the Foundation for the National Foundation for Infantile Paralysis, reports that six polio victims were aided in Lynn county during 1948. Some of these patients will require treatment for long periods, before they reach maximum recovery.

Last year's proceeds from the March of Dimes in Lynn county 5c to a 6-cent minimum, and the $558.56 was sent to the National Foundation and an equal amount retained here in the local chapter. This money was raised by contributions at churches, theatres, coin collections in schools, stores, and individual contributions. The same methods will be used again this year and every person is urged to give and give generously to this worthy cause. Your support is needed to fulfill the obligation to the children of Lynn county to provide hospitalization and medical care for all local cases, irrespective of age, race, creed, or color.

Join the 1949 March of Dimes—make your contribution today!

## Happy Smith Is Rotary Speaker

Postmaster W. E. (Happy) Smith was the speaker at Rotary Thursday at noon. He told something of working of the Postoffice Department and the mail service. He emphasized that tht postal department, in spite of the fact that it is operating at a slight deficit at the present time, is the most efficiently operated department of our government.

For the first time in the history of our government, he said, the Post Office Department is headed by a trained Postmaster General. The present Postmaster General has come up through the ranks after a beginning as a clerk. Heretofore the office has been a political "plum" for some politician.

The new mail rates do not affect much of the mail sent out by the average individcal, he said. Principal increases, in which the general public is interested, concern air mail, which has been raised from a amounted to $1.17.11 of which doing away of the 1½-cent mail.

Dale Thuren was program chairman for the day.

Last week, Bill Griffin, Tom Gill, Frank Parris, and Dr. W. A. Schaal spoke briefly on "How I Came to Live in Tahoka."

**RECOVER WIRE**

The local sheriff's office last week recovered a quantity of copper wire stolen several weeks ago from Seth Lewis, electrician. The wire was stolen by a negro and sold.

**JUNIORS WILL PLAY**

Coach Jim Foust's seventh and eighth grade junior basketball teams will meet like teams from O'Donnell in the Tahoka gym next Tuesday night. The first game will start at 6:30 o'clock.

## Appreciation Day Starts Saturday

**The first of a series of weekly "appreciation days" sponsored by 34 Tahoka business firms will be held this Saturday afternoon at 3 o'clock.**

**All people of this trade territory are invited to take advantage of the event.**

**The meeting will be held on the court house square.**

## Jaycee Charter Banquet Tonight

The recently organized Tahoka Junior Chamber of Commerce (the Jaycees) will hold its Charter Nigh banquet Friday night at the Legion Hall. The Lubbock Jaycee chapter sponsored the organization of the Tahoka chapter, assisted by Lamesa.

Melvin B. Evans of Wichita Falls, state Jaycee president, and Bob Brown of Abilene, state vice president, will deliver the principal addresses of the occasion.

Local Jaycee members will be accompanied to the banquet by their wives or lady friends. Quite a few out of town visitors are also expected.

Wilton Payne is president of the Tahoka chapter.

## Bulldogs Playing Better Basketball

Tahoka Bulldogs, playing in the Sundown Invitation Basketball tournament last week end, looked better than an any time this season. Though they won no championship, they came home with the trophy for the best team sportsmanship, which is possibly the highest honor they could hold.

Levelland took first place in the Sundown tournament, Sundown took second, and Idalou third. The boys teams entered were Sundown, Sudan, Littlefield, Levelland, Idalou, Lubbock B, Brownfield A, and Tahoka.

Coach Jacobs' Bulldogs lost their first game, played Thursday afternoon, to Idalou 37 to 35, but came back that night to defeat Littlefield 26 to 21 to remain in the double elimination tournament.

However, Friday they dropped a close one to Sudan 28 to 24. Carter was high point man in each of the three games.

Fans who saw the tournament declare the Bulldogs played a more alert and aggressive game than in any games this season.

A conference game with the Post A. L. Pace's powerful New Home girls team opened the tournament with a 47 to 30 victory over Post on Thursday, but on Friday lost to Meadow in a hair raiser by the narrow margin of 48 to 49. The girls' tournament was single elimination. Crabtree of New Home was placed on the all-tournament mythical team, and McClintock was presented the best individual sportsmanship trophy.

Antelopes at Post, scheduled originally for last Tuesday night, has been postponed until a later date.

The O'Donnell invitation tournament set for Thursday, Friday, and Saturday of this week, was postponed because of the inclement weather. Both the Tahoka A and B teams had been entered in the tournament.

## Congratulations:

Mr. and Mrs. Joe Waldrep of Rt. 3, O'Donnell, on the birth of a girl, weighing 8 pounds 8 ounces at Tahoka Hospital ot 12:45 a. m. on Wednesday, Jan. 12. They have named her Glenda Kay.

Mr and Mrs. Lewis Jordan on the birth of a daughter weighing 6 pounds 10 ounces at 10:10 p. m. in a Lubbock hospital.

Sue Fendt, 13, daughter of Mr. and Mrs. Arthur Fendt, underwent an appendectomy at Tahoka Hospital last Saturday.

JAYCEE WEEK IN TEXAS will be observed from Jan. 14-21 by official proclamation of Governor Beauford Jester (center). In issuing the proclamation Governor Jester praised the Texas Junior Chamber of Commerce for its fine work in training young men and cited the organization's current "Pay Your Poll Tax" campaign as one of its most important contributions toward good government in Texas. Looking on are Melvin Evans of Wichita Falls, left, president of the Texas Jaycees, and John Ben Shepperd, Gladewater, past president of the U. S. Junior Chamber of Commerce.

## Man Is Charged Here With Perjury

Bluford McIntyre, 22, of Slaton, is in jail here charged with perjury, and it is likely that other charges will be filed against him, local officers inform The News, as the result of his recent marriage to a 14-year-old Slaton girl.

McIntyre, it is charged, obtained a wedding licence here last week, claiming that the intended bride was 21, and was married to his niece, aged 14, at Ropes on January 7.

When Sheriff "Slick" Clem and Deputy Meldon Leslie went to arrest him at a house near New Home where he and the girl were staying McIntyre and the girl hid in the attic of the residence and refused to come out when the officers ordered them to do so. Fearing that the man was armed, the officers threatened to throw a tear gas bomb into the attic, and the man gave himself up.

Records show that he had a bad record in the Army and spent time in the U. S. Discipline Barracks at Camp Gordon, Ga.

## *Woodworth Falls And Breaks Leg*

C. E. Woodworth, owner of Woodworth's Barber Shop, received a broken leg just above the ankle at about 6 o'clock Wednesday morning when he slipped on ice and fell.

Mr. Woodworth started to work in his car but could not operate it because of the icy condition of the ground, and set out afoot for his place of business. He had gone hardly a block, when he slipped and fell. Mrs. W. T. Kidwell heard his calls for held, and phoned her husband, who had already gone to work. Mr. Kidwell and others put him in a car and carried him to Tahoka Hospital, where x-ray pictures showed both bones of the right leg to be broken.

## Tax Paying Time Has Arrived

January 31 is the last day that county, state, city and school taxes can be paid penalty free. Also it is the last day that poll taxes may be paid.

Persons becoming 21 after January 1, 1948, are entitled to exemption from payment of poll taxes but must secure an exemption receipt this month. Also, all persons 60 years old on or before January 1, 1948, are exempted from payment of the poll tax.

State and county and poll and taxes of some Lynn county school districts are payable at the office of Frank McGlaun Jr. in the Lynn county court house.

Tahoka school district taxes are payable at the school office of Mrs. Helen Ellis in the Deen Nowlin building.

City taxes must be paid at the City Hall.

## *New Minister For Church of Christ*

Ernest West is the new Minister of the Tahoka Church of Christ, having moved here last week from Levelland, where he served that church for two years. He also was Minister of the Odessa church for two years prior to going to Levelland.

Brother West is a graduate of Freed-Hardeman College of Henderson, Tennessse, and also attended Eastern New Mexico College at Portales one year. He is a native West Texan, his home town being Plainview.

The new pastor is married and has one son, Larry, aged four.

He spoke at the local Church of Christ on Sunday, Jan. 2, but returned to Levelland to preach last Sunday. He will conduct the regular services here next Sunday.

The most famous gift from the people of France to those of the U. S. is the Statue of Liberty.

*This reckless driver and his companion were speeding crazily through a thickly populated residential area, endangering the lives of dozens of people. Fortunately their wild ride ended before they had involved anyone else. The car went out of control on a medium curve and slammed into a gasoline pump, hurling its occupants onto the pavement. The driver was killed; his passenger lived—after many months in the hospital. Speeding was a reported violation in one out of every four motor vehicle fatalities last year. Strict enforcement of speed laws, and aroused public opinion are needed to prevent accidents of this type.*

## Record Breaking Rain, Snow and Sleet Brings 2.74 Inches of Water to County, Breaks Long Drouth On South Plains

Tahoka has been practically isolated from the rest of the world this week by the unprecedented sleet, snow and rain storm which started Sunday and reached its climax Tuesday and Wednesday.

Though much damage has been done to electric and telephone lines, trees, and roofs, everybody is wearing a smile, for the moisture brings to end a long drouth, helps put a stop to blowing farmlands, permits the farmers to list their land, and brightens the prospect for a crop in 1949.

A total of 2.74 inches of moisture was recorded by the Government rain guage kept by The News.

A drizzling rain began falling Sunday, which turned to alternate flurries of sleet and snow Sunday night and Monday. About midnight Monday, the temperature rose some what and rain began falling. Again on Tuesday night rain fell. Temperatures here ranged as low as 19 degrees during the spell, but most of the time the thermometer has stood between 25 and 34 degrees.

Rain turned to ice, piled on the snow and sleet, reached a depth of five to six inches.

Much of the time travel was almost impossible either by automobile or afoot. One man was on the road from Lubbock to Tahoka from six o'clock Tuesday afternoon to nine o'clock Wednesday morning.

Many cars wert stuck in ditches, in drifts and low places, and at curbs in town; many received fender damaged when skidding into objects.

Two accidents of a serious nature were reported in Lynn county. Fred T. Stricklin, 30, of Lubbock was killed when the car he was driving overturned on the highway north of Wayside at 2 a. m. Monday. Levi Noble, former Tahoka citizen, now operating the State Drug Store in Lubbock, received a slight back injury in the wreck, and Mrs. Stricklin was uninjured. C. E. Woodworth Wednesday morning slipped on the icy street in front

(Cont'd. on last page)

## *Date Is Set For Football Banquet*

The annual Tahoka Bulldog football banquet will be held at 7:30 on the night of January 26, according to Coach Jim Foust.

Letter awards will be presented team members, and the principal address will be delivered by Coach Dell Morgan of Texas Tech.

## Jaycee Boxing Meet Scheduled

Tahoka Jaycees are sponsoring an invitation boxing tournament here in the school gymnasium Friday and Saturday night as a warm-up to the District Golden Gloves contests to be held in Lubbock January 31 and February 1 and 2.

The boxing meet is open to all amateur fighters, and entry blanks may be secured from local Jaycee members. A trophy will be awarded the winner of each weight division.

G. W. White and Dub Gurley will be in charge of ring activities, and various other committees are making preliminary arrangements.

Among local fighters who expect to enter are Paul Hill, H. L. McMillan, Van Brookshire, Jack Reid, and Bob McMillan. The Jaycees hope to have several entries each from Lubbock, Plainview, Lockney, Petersburg, and possibly some other towns, as well as several other local contestants.

## Former O'Donnell Editor Is Buried

Mrs. Pauline Campbell Henderson, 45, former citizen of O'Donnell and for several years editor and owner of The O'Donnell Index, died at her home on 1316 17th street, Lubbock Thursday of last week after a long illness.

Burial was in the O'Donnell cemetery Friday following funeral services at 4 p. m. in the O Donnell Methodist Church, with Dr. C. A. Bickley, pastor of Asbury Methodist Church, Lubbock, officiating.

Since leaving O'Donnell several years ago, Mrs. Henderson had been assistant editor of the Echo at Sulphur Springs, Hopkins county. She moved to Lubbock in March, 1948.

Survivors include her parents, Mr. and Mrs. W. H. Veazey, Lovington, New Mexico; a daughter, Mrs. Leo Lightfoot, Lovington; a sister, Mrs. Paul Raley, Wichita Falls; and a brother, Jack Veazey, Lubbock. All are former O'Donnell citizens.

## *Methodist Men Hear Address By Strange*

Thirty-two men braved the ice, snow, and cold Monday to attend the regular second Monday night Methodist Fellowship meeting at the church.

Bill Strange Sr. brought the address of the evening, his subject being "Dangers on the Home Front" and his audience pronounced it a most excellent and timely talk.

A quartet was furnished by R. A. DuBose, Calloway Huffaker, Otis Spears, and Dr. Emil Prohl.

President Maurice Bray presided, and an excellent meal was served under direction of R. H. "Hick" Gibson.

**PACE HAS ATTACK**

Superintendent A. L. Pace of the New Home schools is reported ill in Lubbock General Hospital, following a heart attack he suffered Wednesday of this week. The News was unable to learn his condition.

John Yocham and Mr. and Mrs. Dock James returned last week from Hillsboro, where they were called by the serious illness of the father of Mr. Yocham and Mrs. James, J. T. Yocham, who underwent a major operation.

## Farmers Terrace Under AAA Plan

According to Clint Walker, secretary of the Lynn County A.C.A., a large number of farmers in Lynn county are intending to terrace under the 1949 A.A.A. program.

Dry weather has held the terracing down so far this year, but after the moisture the county has had for the past several days, many farmers are expected to begin.

In 1948, nearly 400 miles of large ridge type terraces were constructed under the A.A.A. program. This represents the greatest amount of terracing done in one year under the farm program.

Farmers who intend to participate in the AAA terracing program should proceed in the following manner: Get your lines for the terraces run; secure written prior approval from the A.A.A. office; and get someone to build the terraces unless the farmer intends to build his own.

The payment rate for 1949 is the same as it has been in the past, Walker states, and will be $79.20 per mile. For further information on the terracing program, contact the local A.A.A. office.

## *Schools Are Closed For Three Days*

Because of the fact that it became impossible for school buses to make their runs, Tahoka schools were closed Wednesday for the ramainder of the week.

Classes were held as usual on Monday and Tuesday, but many students were absent because of the bad weather.

Supt. Vernon Brewer states that it will be necessary to make up the teaching days lost, which is a state law requirement.

**REDWINE H. D. CLUB**

The Redwine Home Demonstration Club met in the home of Mrs. Texas Owens January 6 with nine members present. Miss Hard gave a talk on the arrangement of bedroom funiture.

The next meeting will be in the home of Mrs. T. I. Tippit on February 3.

The hostess was assisted by Mrs. Elmer Hugh Owens as she served dainty cricken sandwicres, cookies, and fruit punch.—Reporter.

"Fifty-four forth or fight" was the slogan advocating the U. S.-Canadian boundary in the West.

Mt. Everest, 29,302 feet above sea level, is the highest mountain in the world.

**AIR FORCE NEEDING TRAINED PERSONNEL**

M-Sgt. A. W. Carnes and Sgt. Bobbins, in charge of the U. S. Army and U. S. Air Force recruiting station at the court house, Brownfield, stated today that there are a few enlised MOS vacancies at various Army installations and Air Force Bases throughout Texas.

"If you hold the MOS of an Airplane and Engine Mechanic, Clerk-Typist, or Information Specialist," said Sgt. Carnes, "and are in good physical condition, you will be eligible for enlistment for Goodfellow Air Force Base, San Angelo, Texas; Biggs Air Force Base, El Paso, has openings for a camera technician, Radar observers (Sea Researcr) and for a Crane operator."

Camera repairmen, combination welders, and administrative NCO's are needed at Fort Bliss, while Camp Hood has vacancies for motor inspectors, medical NCO's, and full track drivers.

Further information may be obtained at your local U. S. Army and U. S. Air Force Recruiting Station at the court house in Brownfield, which is open daily except Sunday, from 8 to 5.

## Changes in Stove Design Help Double Production

Thousands of tons of steel and millions of dollars in cost to the consumer have been saved since the end of the war by the stove and heater industry as a result of what amounts to almost a revolution in design and manufacturing techniques for such products.

This was revealed by a Detroit industrial research organization which has made a survey of the industry. The survey reveals that by scrapping tradition in the design and production of stoves and heaters and adopting the most modern techniques available, the industry has been able to accomplish the following:

1. Virtually double production capacity as compared with prewar.

2. Greatly restrict cost-rises and resulting price increases, today's standard models—which compare favorably with the de luxe models prior to the war—being little higher in price, despite the sharp rise in materials and labor costs.

3. Materially reduce the amount of iron and steel required per stove, while actually increasing structural strength and reliability.

Principal of the changes which have swept the industry since the war is the adoption of 'redesigning for welding.' Nuts, bolts and rivets have been eliminated wherever possible. Heavy and costly castings have been replaced by lighter and stronger stampings, the various parts being assembled by "resistance welding."

## New Chemicals Aid Britain In Great 'Battle for Food'

A "war" factory is working full blast in the weald of Kent, the 'garden of England' about 40 miles southeast of London.

Day and night shifts keep the plant going at full speed. The factory is manufacturing deadly weapons to be thrown into a world-wide battle against man's oldest enemy. Ammunition for this fight is a series of powerful, newly discovered weed killers and insecticides.

Manufacture of chemicals for plant protection is one of Britain's newest industries. Besides supplying urgent home needs, one-third of its production is already being exported — to the United States, Canada, South America, Europe, Africa and India.

But unlike most British industries today, exports are not the No. one priority in this industry. The more food Britain can grow on home soil, the less she need draw from dollar sources. An example of how vital these chemicals are in the Battle of Food is the fact that one of them — an insecticide to deal with worms — has swelled yields of wheat by as much as 30 per cent.

The plant set amid the orchards of Kent is a formulating factory. Basic chemicals are manufactured at large chemical plants in other parts of Britain and shipped here to be 'wrapped up.'

Technicians dilute the formulas or mix them with fillers like Fuller's Earth, china clay, sulphur or ground limestone, so that farmers can use them safely.

**Can Black-Draught Help Physical Fatigue?**

Yes, Black-Draught may help physical fatigue if the only reason you have that listless feeling is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental haziness, bad breath — and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today.

Adam Smith is considered the founder of English economic theory.

## ENTRY BLANK

MY NAME IS _____; Will you please list it on your Entry List for the GOLDEN GLOVES JUBILEE BOXING TOURNAMENT to be held in Tahoka Gymnasium on Friday and Saturday, January 21 and 22. (Please return this blank to Junior Chamber of Commerce, Tahoka, Texas, by Thursday, January 20.

My age is ✓. I have had approximately _____ fights in the ring.

Circle the weight you desire to enter:

102 to 112 112 to 118 118 to 126 126 to 136 136 to 146 146 to 160 160 to 176 Over 176

Each boxer must take a physical examination on Friday afternoon, January 21, in the Tahoka gym. The physicals will start at 5:00 p. m. and last until 6:00 p. m. The Tahoka Jaycees are in no way responsible for injuries received during this boxing tournament.

A trophy will be awarded the winner of each weight division.

Entry blanks must be in Tahoka not later than January 20. If a team is short of entry blanks, they may use plain paper, giving the information on this blank.

PARENT'S PERMISSION: This is to certify that my son, namely _____ may box in the Tahoka Boxing Tournament.

Signed: _____

## U. S. Spectator Nation

Baseball games at big league stadiums regularly draw well over 50,000 fans. When the colorful Army-Navy football games are played at municipal stadium in Philadelphia, they attract more than 100,000 rooters from every section of the country. Across land and sea, fight fans travel thousands of miles when the world heavyweight boxing title is at stake. With the rapid increase of interest in athletic and sports contests of every kind, the American people have demanded more and better seating accommodations at the scene of action. As a result, stadiums and grandstands have been built to seat the crowds comfortably and rapidly. Virtually every community has or plans to have its own facilities as a matter of civic pride. The "sandlot" is becoming a thing of the past in even the smallest community. Thus, the United States has become the great spectator nation of the world.

## *Soil Conservation Chief Reports On Agriculture Goals*

H. H. Bennett, chief of the Soil Conservation Service, said in his 1948 fiscal year report today the margin between land deterioration and land conservation in the United States has been so narrowed that the goal of a permanent agriculture is in sight "if we but speed up our efforts."

Contributing to the progress of the Service's work, he reviewed during the past 15 years in his report to Secretary of Agriculture Charles F. Brannan was still another record year of farm and range land conservation treatment in the farmer's soil conservation district. That was 21½ million acres on which soil conservation measures were applied to meet the needs of tre land, or about 7 percent more than in the previous record year of 1947.

The report pointed out that during each of the 15 years of the life of the Soil Conservation Service, more conservation work was done per employee than during the preceding year.

"Moreover," the soil conservation chief observed, "increased experience on the part of Service technicians, together with increased experienced and efficiency of the soil conservation district and cooperating farmers . . . collectively have made it possible for the Service to increase the work load per man each your without sacrificing quality or thoroughness of the conservation work done."

The 1948 accomplishments with a staff reported at 17 percent less per soil conservation district than the year before brought to 571,163 the number of active conservation plans made in the district since August, 1937, covering 157,751,642 acres. The 1948 year's 109,673 plans covered 31,484,947 acres. The 21,576,654 acres treated in the last fiscal year brought the total acreage treated in districts since the first ones were organized to 82,824,431. The figures do not include other work done during the demonstrational phases of Service activities, mainly on private lands.

The report showed there were 2,033 conservation districts in the 48 states, Hawaii, Puerto Rico, and the Virgin Islands as of June 30, comprising 1,114,003,200 acres, and including about three-fourths of all the farms and two-thirds of the farmland in the country.

Chief Bennett also reported a considerable spread of soil conservation to other countries, with 49 now carrying on some work patterned after that of the Soil Conservation Service, and with 378 scientists or officials of 67 countries having come to the United States since 1942 to study soil conservation methods.

"A prosperous and lasting agriculture utterly depends on an adequate supply of productive land, properly used and so protected that it will remain permanently productive," the report emphasized. "Without this solid foundation, there can be no real hope for a continuously successful agriculture anywhere. And, too, without this foundation, there can be no assurance of economic stability and social progress: there can be no assurance of adequate nutrition, prosperity, happiness, or peace anywhere on earth. . . . The solution of our land problem can be stated simply: Use each acre of land under adequate safeguards from erosion and other impoverishing forces for the type of production to which it is best suited by nature."

By sharply increasing present conservation operations on the land, he said, the United States can over come and control erosion with 20 to 30 years. To this end he advanced seven recommendations for getting the conservation job done on time:

1. Set up a timetable for the establishment of those basic measures needed for the conservation of our soil and water resources, according to capability of the land and availability and need of water.

2. Adjust research in conservation to specific problems encountered in field work and intensify research on those problems.

3. Encourage and promote a comprehensive program of conservation education through all available educational agencies and institutions.

4. Complete land capability surveys of the country and analyze the information to provide land facts needed for future farm planning and action.

5. Recognize and use land capabilities in making production adjustments and in developing other agricultural program.

6. Encourage continued organization of soil conservation districts, in order to develop conservation programs with local leadership and direction.

7. Improve the conservation credit structure.

## Magi Were Priests Of Persian Religion

Along about this time of the year there's a lot written, said and sung about the Magi. Just who were the Magi, anyway?

The Magi were priests of an ancient Persian religion called Zoroastrianism. The Greek historian Herodotus gives a very favorable account of them and their influence in a society which existed four hundred years before Christ's birth.

According to Herodotus the Magi were powerful in public and private affairs. They conducted the education of the young princes, and were in constant attendance upon the king as counselors.

This description of a Magi appears in the sacred writing of Zoroaster: "Thou shouldst call him priest, who sits the whole night thru and yearns for holy wisdow that enables man to stand upon death's bridge fearless and with happy heart, the wisdom whereby he attains the holy and glorious world of paradise."

The three Magi, or Wise Men, who followed the Star of Bethlehem and brought gifts of gold, frankincense and myrrh to the Christ child remain nameless, but they were the first to recognize the importance of the birth of the Prince of Peace.

## Mayor Tom May, Brownfield, Dies

Tom May, 59, mayor of Brownfield and a prominent pioneer South Plains citizen, died of a heart ailment in a hospital there at 3:00 a. m. Sunday. He had undergone a minor operation Saturday, but his condition was not considered to be serious at all.

Funeral services were held in Brownfield Tuesday.

Mr. May was well known in Lynn county, and several times he had attended the annual Lynn County Pioneers' reunion. Also, he was a frequent visitor at Tahoka Rotary Club.

He was born in Hope county, Arkansas, Feb. 26, 1890, moved to Lubbock in 1927, and to Brownfield in 1916. His wife is the daughter of another plains pioneer, the late M. B. Sawyer of Terry county.

Mr. May was a 33rd degree Mason, immediate past potentate of the Khiva Temple of the Shrine at Amarillo. He was serving his first term as mayor of Brownfield. Also, he was a past president of Brownfield Rotary Club, past president of the Chamber of Commerce, a member of the Methodist Church, and was active in various other civic and church affairs. For 30 years he had been agent for an oil company, and also was engaged in stock raising and farming.

**Top Producer of Fluorspar**

For many years the United States has been the world's leading producer of fluorspar. It accounted for 37 per cent of the total in prewar years. Germany was second with 27 per cent, followed by Russia, 12 per cent; France, 9 per cent; United Kingdom, 6 per cent; Chosen, 2 per cent; Italy, 2 per cent, and Newfoundland 1.6 per cent. The rest of the world combined produced only 0.4 per cent. Prior to World War II the bulk of the United States' meager imports of acid grade fluorspar came from France, Germany, Newfoundland, Tunisia and the Union of South Africa. Since World War II the shipments have come chiefly from Mexico, Canada, Newfoundland, Spain and the Union of South Africa.

## Jaycess Embark On Program of Action

The Tahoka Jaycees are a busy lot these new days of 1949. As this is the first organization of its kind in Tahoka, they feel there is much work to be done in making our community a better place in which to live. And, as a new organization, they are very anxious to get some worthy projects accomplished.

One of the present projects under way is compiling a blood donor list, available at both clinics and to the public. Any community should be proud of a service like this, as the need for blood is often an emergency with a person's life at stake.

Larger cities have blood banks and professional donors. Blood banks require a substantial sum to keep in operation, as pro donors sell their blood at fixed prices.

As our community has neither of these services, it is wonderful to have a list of friends and neighbors to refer to for the needed blood type.

The Jaycees blood donor list is made up of volunteers strictly, receiving no pay for the blood donations.

There is no time to waste. Get your name on the donor list today. Contact Sheriff Boland Clem or Frank McClaun Jr., or any Jaycee for further information.

## Too Good to be True?

But it is true. Through the new Franklin JUNIOR INSURED SAVINGS PLAN you can create an immediate insurance estate for your child at rates one-half or one-third of what you are now paying . . . an estate that grows with his responsibilities and matures in cash for retirement at age 55.

1. Insurance protection at no cost—full return of all deposits plus face amount of contract if death occurs at any time from issuance to age 55.
2. Insurance protection automatically triples at age 21 at no extra cost and with no evidence of insurability required.
3. At age 55 the savings plan matures as an endowment for full face amount.
4. Cash emergency and educational fund available if needed.
5. Available to children from age 1 day to 14 years.

## Wemple Is Named Highway Chairman

Fred Wemple of Midland, well known to a number of Tahoka people, last week was named chairman of the Texas Highway Commission by Governor Beauford Jester. He has been a member of the body for about two years.

Wemple was district governor of the 127 district of Rotary International when the local club was organized, and has visited the club here on several occasions.

Other member of the commission is A. F. Mitchell of Corsicana, and the Governor has announced that he will soon appoint R. J. Potts of Harlingen as the third member.

## Farmers Have Stored Much Grain Sorghums

Over 300 farmers in Lynn county have take out Government loans on 9,892,294 pounds of grain sorghum thus far under the 1948-49 loan program, reports Clarence Church, chairman of the Lynn County Agricultural Conservation committee.

Farmers still have until February 28, 1949 to place grain under the loan, and it is thought that well over 10 million pounds will be put in the loan by the closing date.

### MARY BETH FENTON WILL GET DEGREES IN JOURNALISM AT TEXAS

Austin, Jan. 13.—Miss Mary Beth Fenton, daughter of Mr. and Mrs. R. W. Fenton Jr., will receive the degree of Bachlor of Journalism from the University of Texas at mid-term graduation exercises to be held in Austin on January 31.

Three hundred and twenty-five students in the College of Arts and Sciences are candidates for degrees at mid-term.

### World's Biggest Dams

Superlatives are common as a bucket of concrete when reclamation engineers go to work. Arrowrock dam, just east of Boise, was the highest dam in the world when completed in 1915. This barrier, 354 feet high and 1,150 feet at crest, impounds 286,500 acre feet. Another "biggest in the world" is Idaho's Anderson Ranch dam near Boise on the south fork of the Boise river. This giant, almost complete, is the highest earth-filled dam on earth. Anderson is 456 feet high and 1,350 feet long at crest. But more impressive is the fact that, because it is an earthen fill, the dam is 2,900 feet thick at its base—more than half a mile.

### War Gas for Glaucoma

Glaucoma, an eye disease that often causes blindness, has been treated successfully with a German war gas which in larger doses drives its victims mad. Discovery by German chemists of a series of synthetic compounds containing phosphorus and fluorine received little attention elsewhere until the beginning of World War II, when British researchers re-examined the scientific literature and found reports on marked toxicity shown by certain of these chemicals known as esters of monodisophesphoric acids. These compounds have since been identified as the noterious German "nerve war gases and gases that drive men mad."

PANHANDLE PRESS ASSOCIATION

### IT'S THE TEXAS CHILDREN'S OIL

The News predicted editorially last week that the Truman administration would make an effort to steal the coastal oil lands from the State of Texas. The paper had not been distributed until Attorney General Tom Clark filed a suit in the Supreme Court for this very purpose. The Truman administration knows pretty well that it will be whipped if such a bill is proposed in Congress, and therefore is going to the courts to try to do through judicial action that which it cannot do by process of legislative action.

It is to be remembered that we have a new deal court.

FDR attempted to stack the Supreme Court for the benefit of the new deal program. Death made it possible for Roosevelt to do the thing which Congress and the people denied him.

The oil under these lands belong to the school children of Texas. If the Federal Court makes it possible for the Federal Government to step in and take this oil away from Texas, you can begin to figure up just what it is going to cost you to finance the schools of Texas.

Just think it over.—The Canyon News.

### YOU WOULDN'T HAVE BELIEVED IT!

The News, like most other newspapers, has a policy which opposes the printing of "poetry" or "verse." However, since we were a little short on live copy early this week, we are suspending the rule for this week and publishing the following doggerel written by a local citizen who wishes to remain anonymous:

We read of mighty men of old,
Of police on their beat;
The best of all has not been told—
Of him across the street.

Right here in North Tahoka,
The place op which I'm sold,
Are kings within the making
And diplomats quite bold.

You've heard of Henry Morgantheau,
His load was hard to tote,
He waited on Long Island
Till our Walter signed his note.

Enroute to Casa Blanca,
His craft on Buzzard bay,
A line from our own Happy Smith
Told Marshall what to say.

And there was Henry Wallace—
Three ears on every stalk;
It took our own Bill Griffin
To make him walk the chalk.

Now, that Atlantic Charter
Cost Churchill a lot of sweat—
For Hegi and Coy Fielder
That would have been an easy bet.

We are told of Cleopatra,
How she sailed upon the deep—
An Olds from Winston Wnarton's
Would have put her off to sleep.

We read about old Gettysburg,
Abe Lincoln and his speech—
Our Calloway was coaching,
He stayed in easy reach.

Flat boats on the Mississippi,
Mulattoes in the bottom,
It taxed the port of New Orleans
To handle Buster's cotton.

The lightning played up in the sky,
The thunder sure did rattle;
It'll take a train just two miles long
To haul old Grover's cattle.

We read about old Paul Revere,
As he rode out in the night;
Our "Booger" put the saddle on
And pulled the cinches tight.

The ocean liner cleared the docks,
She steamed down Chesapeake bay;
Said Borden to his little bud,
"These cattle saved the day."

Old Henry Ford, he scratched his head,
His burdens hard to bare.
He stopped the boys at Willow Run
Till he talked to our Joe Heare.

We remember Uncle Daniel Boone
As he left for old "Kaintuck"
He stopped at Woody's for a shave
And borrowed Irvin's tux.

The Brooklyn Bridge she stood her ground,
The barge, it gave a shrug,
Loaded down with rare perfume
For our Tahoka Drug.

The harvest moon peeped through the pines,
The Bulldogs made some gains,
Said Vernon Brewer to Fred Mc,
"Let's call old Travis Hanes."

We read of old Bill Cody,
Had them Powder River Blues,
He'd have stopped J. Edgar Hoover
For our Lynn County News.

And now, old North Tahoka,
Apart we'll have to be;
I got to find that wagon,
These shoes is killin' me!

William Henry Harrison, president of the U. S., was the grandfather of Benjamin Harrison, a later president.

### METHODIST WOMEN MEET MONDAY

The Woman's Society of Christian Service will present its special program of Advance Monday, January 17, at 4 p. m. at the Church. This program was to have been presented last Monday but on account of the weather was postponed until next Monday. The women of the Methodist Church are cordially invited to be present.

### DISTRICT METHODISTS MEETING TODAY

Methodists are urged to attend the special District Advance meeting to be held at 2:30 p. m. and 7:30 p. m. today, Friday, January 14, at the First Methodist Church in Lubbock.

Dr. E. T. Iglehart, who has given more than thirty years of his life as a missionary to Japan and who knows as much about Japan as any man, will be one of the speakers.

Rev. Harold Marcus Hilliard, who has spent many years in promoting and extending Methodist work among the Mexican people in the Southwest, will tell of his experiences in Home Mission territory.

The entire program of the Methodist Advance for Christ and His Church will be explained at this meeting.

### Hunting Season Accidents

According to the National Safety council, three causes lead to almost two-thirds of the accidents reported during the hunting season. They are: Human beings in line of fire, mistaking another hunter for game, and hunting with the safety catch off. The good sportsman uses common sense in handling guns and shows consideration for others. He uses the right gun for the right game, hunts only in season, and does not take the limit unless he can use the meat or trophies. For bird hunting, he takes a trained dog to retrieve cripples. He puts out cigarettes carefully and breaks matches before dropping them.

### Simple Clothes for Baby

Dressing up baby in fancy frills may be fun for mother, says Levice Ellis, API extension clothing specialist, but baby's comfort and freedom for exercise and growth should be considered. She recommends that clothes be short, lightweight, and loose in style. For daytime wear, use simple slips rather than dresses. Slips should be no longer than toe length to allow the baby to kick and develop leg and body muscles. Roomy raglan-style sleeves give freedom for arms and shoulders. Miss Ellis emphasizes the fact that simple clothes with few seams are both becoming and comfortable for babies.

# Electrically

REMEMBER when grandmother sighed over the wisdom in the old saying "Man works from sun to sun . . . woman's work is never done?" It's not like that today...thanks to electricity.

In a home where electricity is used, woman's work can be done much more easily, and rapidly than in the old days. Too, it's done economically, because the cost of dependable electrical service is so low.

Look around your home and notice in how many ways electric service is making it easier for you to be a real homemaker. You'll be surprised and pleased, and odds are you'll soon be shopping for more electrical appliances to take even more work off your hands.

# Former Citizen Dies at Lubbock

William G. Adkisson, 81, one time citizen of Tahoka, a retired grocery salesman, died at his home at 1912 16th street, Lubbock, at 7:10 p. m. Wednesday. He had been living in Lubbock the past 26 years, but was well known to many old timers in Lynn county.

Funeral services will be conducted by Rev. Jack Lewis at the First Presbyterian Church in Lubbock on Saturday afternoon.

Besides his wife, Mr. Adkisson is survived by six daughters, Mrs. Flossie Butler, Mrs. Tom Everhart, Mrs. Mary Michael, and Mrs. Edna Crowder, all of Lubbock; Mrs. Martha Edwards, Glendale, Ariz.; and Mrs. L. E. Baff, Alameda, Calif.; [illegible] H. Lubbock; Edward, Richmond, Calif.; and Alfred J., Belton; and eighteen grandchildren and six great grandchildren.

# Drouth Broken . . .

(Cont'd from front page)

of the W. T. Kidwell home and broke both bones of his right leg just above the ankle.

Hundreds of trees, weighted down with ice were snapped off or stripped of their limbs. A number of residences and business houses had leaky roofs as a result of the spell.

Worst damage, however, was to telephone, telegraph, and electric light lines and poles. For a time Tahoka had no telephone communication to the outside world. Also, several times Tuesday and Wednesday Tahoka was without electric power due to lines breaking under weight of ice. Many Lyntegar rural electric lines were out of service.

However, service crews worked all day Wednesday, all that night, all Thursday, and were still at work Thursday night when The News went to press fighting to restore electric and telephone service.

A crew of men from Lubbock, where the ice damage was not nearly so bad, worked all Wednesday and until Thursday morning at 7:30 on Southwestern Public Service lines in Tahoka. Another crew took over early Thursday and were still on the job Thursday night climbing ice-coated poles to restore broken lines. Most of their work had been completed, however by nightfall.

Southwestern Public Service Company also had a crew at work, as did Lyntegar.

W. S. Anglin of Southwestern Public Service, brought a sample of ice taken from one wire to The News office which weighed three pounds to a foot in length.

The U. S. Navy sent a short wave radio set and operators to Tahoka, which was set up at the West Texas Gas Company booster station west of town as an emergency communication means.

West Texas Gas Company had no trouble in supplying sufficient gas during the spell to consumers of the area. Howtver, the City of Tahoka water wells were shut down by broken lines Wednesday, and had the storm lasted another day, the city would have been precariously low on water.

Moisture from Sunday morning until Monday morning at 10:30 totaled .95 of an inch, from then until Tuesday night, 1.09, and from Tuesday night until Thursday morning .70, a total of 2.74.

The way in which the moisture came, most all of it will go into the soil where it fell, as there was practically no runoff.

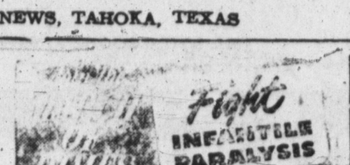

In several respects, the spell set new records in this area. It was the heaviest precipitation of any single wet spell in January in the memory of oldtimers or recordtd by The News gauge. More damage was done to trees tran during any other spell—also, to light and telephone lines. Rain followed by snow and sleet and then more rain on Tuesday night made the top crust during the night Tuesday and early Wednesday about as slick as anything could possibly be.

Thursday highway department and city maintainers were busy scraping the ice off highways and streets, and unless more moisture comes, life in Lynn county will soon be back to normal.

There may have been worse snow storms, but there has never been a worse ice storm—or one more welcome—than that which visited old Lynn county this week.

### THE DIABETIC CAN NOW LIVE A NORMAL LIFE

Austin, Jan. 13.—Despite the fact that modern medicine makes it possible for the diabetic to live out a normal life span in comparative comfort, Dr. Geo. W. Cox, State Health Officer, says that diabetes continues to take the lives of hundreds of Texans every year.

"The death rate from communicable diseases such as typhoid, malaria, diphtheria and smallpox are decreasing throughout the country," Dr. Cox said, "but diabetes continues to bring about a tragic number of deaths each year, especially in the middle-aged group."

The State Health Officer said that until recent years diabetes was not noted as a major health problem, but it became acknowledged as such when the development of medical laboratory procedures made the disease more easily diagnosed.

Diabetes is generall recognized as a class disease, since it seems to attack the "white collar" class of indoor men and women much more frequently that it does the outdoor person whose work is more vigorous and calls for more exercise. Vocational and economical conditions apparently are predisposing factors in the incidence of the disease, since it is a fact that those persons whose occupations call for manual labor and simple living are not frequently affected.

Dr. Cox recommended simple, wholesome diets, sufficient sleep and exercise and other general health protections as being beneficial in preventing diabetes, and stressed the importance of annual physical examinations so that if the disease is present, competent treatment can be instituted at the earliest possible moment.

## Grassroots . . .

By Bill Griffin, County Agent

An achievement program for 4-H Club members and their families will be held Monday night, Jan. 17, at 8 p. m. at Tahoka High School auditorium. Twenty-two 4-H Club boys will be honored and will receive county award medals for outstanding work done during 194.

A program of entertainment and free coffee and doughnuts will be furnished by the Tahoka Jaycees.

* * *

It's early but not too early to start thinking about pruning and shaping your fruit and ornamental trees. I have some excellent information on pruning trees that I will mail to anyone who makes a request for it. Just ask for Bulletin B-115 Pruning Rural Lanscapes.

* * *

Now is the time to plant your fruit trees if you are planning to revive or start an orchard. With weather like we have had this week, the trees might be frozen in transit. Should you receive some frozen, bury the tree completely (tops and roots) in a moist soil so that they may thaw slowly. When completely thawed, remove them and set them out.

---

### WELLS H. D. CLUB

The Wells Home Demonstration Club met January 4 in the home of Mrs. T. B. Barton with seven members and the agent present.

Miss Hard gave a very interesting demonstration on bedroom furniture arrangement.

Refreshments were served to Mrs. R. G. Grogan, Mrs. M. L. Webb, Miss Ina Ledbetter, Mrs. Andrew Jordan, Miss Myrtie Ledbetter, Mrs. Mrs. J. W. Gordan, Miss Graham Hard, and Mrs. Barton.

Our second meeting for this month will be January 18 in the home of Misses Myrtie and Ina Ledbetter.—Reporter.

---

Virginia Jones, student in Southwestern State, San Marcos, and Mary Ann Jones, student in Texas Technological College, spent the Christmas holidays here with their parents, Mr. and Mrs. Vernon Jones.

### JAMES B. WARD STATIONED IN JAPAN WITH ARMY

With the Eighth U. S. Army in Takeyama, Japan.—Recently arriving in Japan to serve with the U.S. Army in the occupation, Recruit James B. Ward, 19, son of Mr. and Mrs. Jim Ward of Tahoka, was assigned to Troop D of the Fifth Cavalry Regiment of the 1st Cavalry Division.

Recruit Ward's new duties will consist of security guard, patrolling and general occupational requirements, in the densely populated Tokyo-Yokohama area.

The 5th Cavalry Regiment, one of the oldest units of the U. S. Army today, was formed by an Act of Congress in 1855, and is a vital unit of the 1st Cavalry Division, on occupation duty with the Eighth U. S. Army.

Recruit Ward enlisted for service July 27, 1948, undergoing basic training at Fort Ord, California.

Prior to enlisting Recruit Ward worked as an auto mechanic for the Ward Battery & Electric company.

### WILSON GIRL IS MEMBER OF H-SU A CAPPELLA CHOIR

Abilene, Jan. 13.— Wanda Baker, Hardin-Simmion University Junior from Wilson, is one of the sixty members of the H-SU A Cappella Choir for the fall semester. Miss Baker, second soprano with the organization, is the daughter of Mr. and Mrs. B. W. Baker of Wilson.

A graduate of Wilson high school, Miss Baker is majoring in piano and minoring in theory and French at Hardin-Simmons.

The H-SU choir is directed by Euell Porter, made a week's tour tour in November which carried them to ten Texas cities and the opening of the Texas Baptist General Convention at Houston. The choir, which uses no musical instruments, has made several appearances before civic, church, and school groups during the semester and was heard over the radio in November.

### FORMER CITIZENS BABY IS FIRST 1949 CHILD BORN IN BIG SPRING, WINS PRIZES

Rita Joy Vaughan, 7 pound and 5 daughter, born in Sander Clinic in Big Spring to Mr. and Mrs. A. H. Vaughan. was the first Howard county baby of 1949, and received almost a score of gifts from merchants of the city.

Gifts included a baby blanket, a baby comb and brush set, fork and spoon set, scales, dishes, bracelet, photograph, bassinet, three dozen diapers, bed spread, shoes, a gold ring, baby book, etc.

Grandparents are Mr. and Mrs. W. A. Vaughan of route 2, Tahoka, and Mr. and Mrs. Lester Parker of O'Donnell. The parents moved to Big Spring about five months ago.

---

Miss Joan Henderson, Sophomore student in Texas Tech, spent last week end here with rer parents, Mr. and Mrs. Harley Henderson.

*WEEKLY NEWS ANALYSIS*

# Truman Asserts Red Aims Split As Some Leaders Desire Accord; Dutch Firm on Indonesian Stand

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

## COLD WAR:
### *Someone Tiring*

If Harry S. Truman were right, then possibility of war with Russia was less than many Americans imagined. In a "surprise" statement during an unheralded appearance at a luncheon in Kansas City, President Truman declared bluntly that "certain leaders" in Russia "are exceedingly anxious to reach an agreement with the United States to end the cold war."

THEN THE PRESIDENT lashed out with an accusation that the Soviets have violated "sacred" agreements and said their government "has a system of morals that are not moral."

Deliberately or not, President Truman was baring some closeted secrets when he said during that speech that the Russians had not kept important agreements made at Yalta and Potsdam. By that statement, the President was conceding charges of long duration that certain commitments were made at these two parleys with the Russians which were not generally known, and results of which led to accusations that American diplomacy had failed miserably in negotiations with Russia's Josef Stalin.

The President's position was far from an earlier expansive statement that Stalin was a "nice old fellow."

He did not identify the Red leaders who prefer an "understanding"—as he put it—with the United States, but he asserted that there are Soviet top men who have no desire for war. Neither did the President say whether any overtures had been made by such Russian leaders.

The President said frankly: "I made certain specific agreements at Potsdam, none of which have been kept. Certain agreements were made at Yalta, none of which have been kept."

He reiterated that "all the United States wants is peace."

## INDONESIA:
### *Dutch Stubborn*

Stubbornness is a characteristic trait of the Dutch—and Holland was running true to form. Despite announcement by the United States, from which she is receiving Marshall plan aid, that the invasion of Indonesia must stop, the Dutch said, in effect, they'd think the order over.

THE UNITED NATIONS was concerned, but a Russian step to the fore in demanding a cease-fire order and troop withdrawal in 24 hours did the Indonesians no good. This time, the U. S. abstained, from voting and the Russian proposal lost.

However, the American position was difficult of understanding, and the statement of American delegate Philip Jessup did little to clarify it.

"I decline to be put in a false position by other delegations," he said. "The record of the United States on Indonesia is before the world."

BUT ALSO BEFORE the world was the issue of American prestige and the integrity of the Marshall plan. America stood for help for Indonesia; America controlled the powerful weapon of economic aid to the Dutch. Yet, America, as yet, had delivered no ultimatum to the nation whose foray into Indonesia was being helped by American dollars. And the American delegate had declined to vote for a cease-fire order in the Indonesian fighting — joining Great Britain in the vote declination.

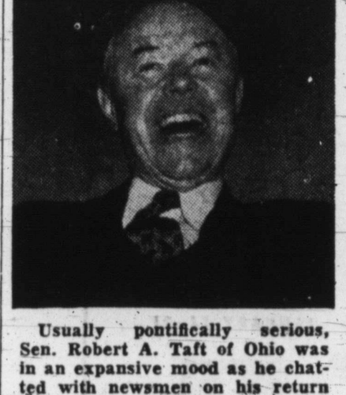

Whatever else was true, and regardless of motives, the assertion of the Soviet Ukranian delegate appeared to be true. He charged: "Without United States financial help, the Netherlands would have been unable to wage war in Indonesia."

### Operation 'Tactful'

Sociology was looking up. The Australian Legion of Ex-Servicemen and Women had taken up the task of helping young veterans and their wives with "in-law" troubles. They started a scheme to enable veterans forced by housing shortages to live with parents-in-law to exchange homes with others.

Spokesmen for the legion said many English marriages had been saved from disaster by a similar scheme operating in Britain. They found couples could live happier with strangers where they were paying guests.

## Taft Laughed

**Usually pontifically serious, Sen. Robert A. Taft of Ohio was in an expansive mood as he chatted with newsmen on his return to Washington following a tour of Europe. He praised the operation of the economic cooperation administration (Marshall plan).**

## FOR CHINA:
### *Watch and Wait*

U. S. policy on China, for the time being at least, appeared to be one of watching and waiting, coupled with a resounding diplomatic silence.

America had two good considerations upon which to base that policy:

1. THE UNITED STATES stood convinced that nothing other than direct intervention in the military situation in China would change the course of events, and that the government is not prepared to intervene to that extent.

2. There is, in the United States, an inaccurate assumption that American economic aid is a foolproof solution to the difficulties of other countries; that this aid, if put into a given country as raw materials are put into a machine, would suddenly be processed into an effective, finished product. Life was not precisely like that—especially in China.

To all of which might be added these two additional factors:

1. The United States was caught in this dilemma: If it issues a statement supporting the Nationalists, as Mme. Chiang Kai-shek urged, it might merely associate itself with the collapse of the present Chinese regime without preventing that collapse.

2. On the other hand, if it explains why it is not granting further aid to Chiang, and publishes what has happened to previous aid, it might hasten Chiang's collapse.

Hence, the attitude of watchful waiting.

## MARSHALL:
### *How Long?*

The question of who would be President Truman's secretary of state was concerning official Washington and the diplomatic centers of the world.

Ailing Gen. George C. Marshall was ordered to rest, observe strict dietary instructions. Evidence was largely at hand that the President was reluctant to trust the touchy problems of international policy in less experienced hands, yet the chief problem persisted: Could Marshall carry on effectively despite his serious ailment—loss of a kidney through operation?

THE PRESIDENT appeared committed to a policy of letting Marshall stay on, or, rather, keeping Marshall on the job despite any desire of the latter to give up his post.

A close associate of the President was quoted as saying the chief executive was willing to wait until Marshall recovered sufficiently to do a full-time job, even if that should require months. Robert A. Lovett, said not to "gee" as well with the President as Marshall did, would continue to act for Marshall while the latter rested.

SOME OF THE President's friends declared that if he should finally decide that Marshall can't carry the load, he probably would like to have Chief Justice Fred Vinson take over.

To do so would mean a great personal sacrifice for the Kentuckian, for his position on the court is permanent, while an administration change might leave him out in the cold—and Vinson is no young man, either.

*ALL MUST PROVE STATUS*

## Army Checking Newcomers for Red Taint

The army is looking closely to the political integrity of its inductees and applicants for commissions. Army spokesmen have released an announcement that existing regulations now require all inductees and applicants for commissions to certify whether they have been members of subversive organizations. If they had been such members they are barred from service.

The affidavit requires enlistees or officer applicants to state whether they have membership in any organization advocating overthrow of the government.

Draftees also are required to sign such affidavits when they appear for induction.

## PROBERS:
### *Want More Law*

Probers looking officially into the activity of foreign espionage agents in the United States were becoming irked. Too many witnesses had fallen back on the constitutional guarantee of immunity to questioning by claiming the possibility of self-incrimination.

The probe group would put an end to that — they would provide stiffer penalties for contempt of such groups.

REPRESENTATIVE MUNDT, of South Dakota, and Nixon, of California, Republicans, authors of the proposal, did not specify just how much stiffer they would make the penalty for persons convicted of contempt of congress. They did comment that "offenders should be severely and appropriately punished."

Existing law provides a maximum penalty of one year's imprisonment and a $1,000 fine.

Among "reforms" suggested for probe group procedure was protection of the right of all witnesses to counsel in both closed and open sessions; right of the accused to testify in open session; right of the accused to submit questions.

The new congress was to be given the proposals.

## MEDICINE:
### *U. S. on Pan*

Plans for socialized medicine received a rough setback when the Hoover committee reported it had found "waste and extravagance" in the present federal setup, which it described as without "any central plan."

FINDINGS of the committee—a "task force" of the Hoover commission on organization of the executive branch of the government—were sure to be hailed with delight by members of the American Medical association battling against enactment by congress of a program of socialized medicine.

The investigating group, however, made it plain in its report that compulsory health insurance was outside the scope of its inquiry.

But, even so, its declaration that governmental medical agencies and its program were inadequate and inefficient was certain to be construed as whistling over two strikes on the compulsory health insurance adherents.

THE FACT-FINDING group recommended a sweeping reorganization of federal medical services, and urged channeling of federal subsidies to the upbuilding of medical schools and community and private hospitals, with a minimum of supervision by the government.

The report asserted the government is assuming uncalculated obligations without any understanding of their ultimate cost, the lack of professional manpower to carry them out, or their adverse effect on the hospital system of the country.

## BEST COWBOY:
### *No Film Star*

The small fry could bellow and complain all they liked—the best cowboy was not Gene Autry or Roy Rogers.

Instead he is Gerald Roberts, Phoenix, Ariz., who was top cowboy—world's champion, to get technical—for 1948. The Rodeo Cowboys association announced Roberts was the best all-'round cowboy of the year, and they had the records to prove it.

ROBERTS won top honors by leading the 2,100 professional cowboys who were scored in the association's system for 575 rodeos in the U. S. and Canada.

The scoring system was based on one of the most impressive factors in any American competition—the dollar. One point was scored for each dollar won in competition, and Roberts ended the 1948 season with winnings of $21,866 in cash awards. There was no arguing with that sort of record.

## Prodigal's Return

**Jimmy Dykes, former third baseman of the Philadelphia A's and manager of the Chicago White Sox, gets welcome handshake from Connie Mack after Dykes signed up as coach of the Athletics.**

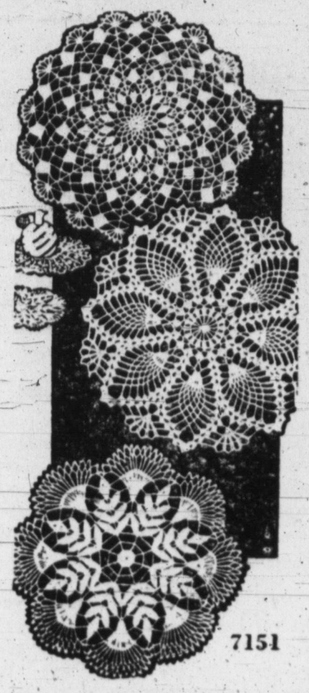

## WOMEN:
### *Fewer Home*

Fewer American married women were staying at home. In a complete reversal of the war years, married women workers in the nation topped single women holding jobs.

A report by the federal census bureau showed that there were in the labor force—those working and looking for work — about 8,300,000 married women and 5,900,000 single women.

Quick, order now and have these ready for gifts. Pattern 7151; crochet directions for three.

## Household Hints

**Always remember** that dark colors are slimming and a dark skirt will minimize large hips.

—•—

**Pieces cut** from an old felt hat or slippers and glued to the bottom of table legs will help prevent scratch marks on kitchen linoleum.

—•—

**You can improvise** shoulder covers to hang over dresses, in the closet with old pillow cases. Just make a slit in the closed end and slip over the hanger.

—•—

**Save the peels** of oranges and tangerines, dry them in the oven and store in glass jars. They give puddings and custards a delicious flavor.

—•—

**To line cake pans** easily with wax paper, grease pan lightly, cover with a piece of waxed paper and insert another pan identical or nearly so. Trim off the edges.

—•—

**In sewing** braid or rick-rack on any kind of fabric, use scotch tape to hold firmly in place. When the machine work is done, simply peel off the tape.

—•—

**Many people believe** breakfast just isn't breakfast without a bowl of steaming hot cereal every morning. Dried fruits added to the cereal while it cooks gives it a most pleasant flavor.

—•—

**To save frosting** a butter cake, sprinkle the batter with finely chopped filberts before baking; do not use on sponge type cakes since the batter is not heavy enough to hold the nuts and they will sink to the bottom.

EASY! EASY!
**Luscious Bran Muffins ... with Raisins!**

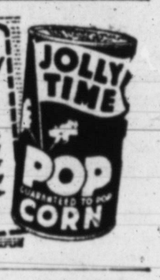

Tasty Kellogg's All-Bran and luscious raisins . . . a mouth-watering flavor combination!

2 tablespoons shortening
¼ cup sugar or molasses
1 egg
1 cup Kellogg's All-Bran
¾ cup milk
1 cup sifted flour
2½ teaspoons baking powder
½ teaspoon salt
½ cup raisins

Blend shortening and sugar thoroughly; add egg and beat well. Stir in Kellogg's All-Bran and milk. Let soak until most of moisture is taken up. Sift flour with baking powder and salt; stir in raisins. Add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full. Bake in a moderately hot oven (400°F.) 25 to 30 minutes. Make 9 marvelous muffins.

**WOMEN Who Need HELP!**

At last! There is something you can do to help relieve suffering through "difficult days!" When excessive loss of blood causes you to feel tired, nervous, cranky, try W. H. Bull's HERBS AND IRON, famous stomachic, appetizer and iron tonic. Already, thousands of women—who suffered just as you do—have discovered the amazing benefits of building up their blood iron with this famous tonic. Get a bottle of Herbs and Iron from your druggist today—in tablets or liquid.

**W. H. BULL'S HERBS and IRON**

**CHANGE of LIFE?**

Are you going through the functional "middle age" period peculiar to women (38 to 52 yrs.)? Does this make you suffer from hot flashes, feel *so nervous,* highstrung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic tonic effect!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

**When Your Back Hurts -**

**And Your Strength and Energy Is Below Par**

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use *Doan's Pills.* It is better to rely on a medicine that has won country-wide approval than on something less favorably known. *Doan's* have been tried and tested many years. Are at all drug stores. Get *Doan's* today.

**DOAN'S PILLS**

**Like melted cheese and creamy potatoes? They'll be even better when you add some flavor to them with celery, onions and frankfurters and place in potato shells to serve for a supper or lunch.**

## Winter Vegetables Need Pepped-Up Seasonings For More Meal Appeal

ARE YOU LACKING ideas for the preparation of winter vegetables? Glance through this column for really solid inspiration for I've packed it full of practical ideas and suggestions which you're certain to find helpful.

It's true that we don't have as many vegetables during these cool months as during the summer, but this is the time to dress and glamorize what you have with interesting seasonings as well as different methods of cookery.

Bake instead of boiling all of them just for the sake of interest and you'll save vitamins as well. Bring out the herbs and sauces to add new flavors to common vegetables. Make appetizing color and texture combinations and see how the family eats them up!

• • •

Here's a new way with carrots, good to use when you have an oven meal:

**Baked Carrots**
**(Serves 8)**

- **18 small carrots**
- **⅓ cup butter**
- **½ cup sugar**
- **1 teaspoon salt**
- **⅓ teaspoon cinnamon**
- **⅓ cup boiling water**

Scrape or pare carrots and place in a casserole. Cream butter, sugar and cinnamon together; add water and blend. Pour over carrots and bake in a moderate (350 degree) oven for one and one-half hours.

**Spiced Red Cabbage**
**(Serves 6 to 8)**

- **2 tablespoons mixed spices**
- **3 quarts water**
- **1 teaspoon salt**
- **2 pounds red cabbage, shredded**
- **4 tablespoons brown sugar**
- **4 tablespoons vinegar**
- **3 tablespoons butter**

Place spices in a small cheesecloth bag. Heat water and salt to boiling, add cabbage and spices and cook 30 minutes. Drain. Dissolve sugar in vinegar, add butter and combine with cabbage.

In place of plain vinegar in the above recipe, you may use basil vinegar for an interesting variation.

• • •

HERE'S A COLORFUL vegetable dish which will be a delight to bring to the table. Inexpensive tomato sauce comes in a can, ready to heat and pour over the vegetable.

***Cauliflower With Tomato Sauce**
**(Serves 6)**

- **1 medium head cauliflower**
- **1 8-ounce can tomato sauce**
- **2 tablespoons butter or substitute**
- **4 tablespoons grated cheese**

Soak cauliflower in cold, salted water for 15 minutes. Drain. Place in a large pan of rapidly boiling salted water. Cook, covered, for 20 to 25 minutes or until cauliflower is tender. Drain. Place cauliflower in baking dish. Cover top with canned tomato sauce. Dot with butter and sprinkle with cheese. Bake in a moderate (350 degree) oven for 15 minutes.

***Wax Beans O'Brien**
**(Serves 6 to 8)**

- **6 tablespoons chopped pimiento**
- **6 tablespoons chopped onion**
- **4 tablespoons fat**
- **¼ teaspoon salt**
- **4 cups cooked wax beans**
- **¼ cup water**

Cook pimiento and onion in fat for two to three minutes. Add salt and beans and cook five minutes longer. Add water and heat to boiling.

**LYNN SAYS:**
**Use These Hints to Make Vegetables Appetizing**

Hollow out the halves of eggplant. Stuff the shells with a combination of cooked eggplant mixed with sauteed mushrooms, onion and cream sauce. Cover with crumbs and bake in a casserole in a hot (400°F.) oven for 20 minutes.

Onions may be hollowed out and filled with mushrooms and cheese sauce, then baked in a covered casserole in a moderate oven for an hour.

**LYNN CHAMBERS' MENU**

Braised Pork Shoulder
*Wax Beans O'Brien
*Cauliflower with Tomato Sauce
Molded Cabbage-Grapefruit Salad
Hot Biscuits Jam Beverage
Orange Chiffon Pie

• • •

THERE ARE MORE than creamy potatoes to the following recipe. With the additional ingredients used to glorify them, you may use them for a light lunch or supper.

**Stuffed Idaho Surprises**
**(Serves 6)**

- **3 Idaho potatoes, baked**
- **6 frankfurters, diced**
- **1 cup diced celery**
- **1 small onion**
- **2 to 3 tablespoons shortening**
- **½ pound quick-melting cheese**

Saute the frankfurters, celery and onion in shortening; add a little water and steam until celery is done. Allow water to evaporate. Cut baked potatoes lengthwise and remove potato from skin. Mash the potato, adding seasoning and milk until they are creamy and smooth. Fill potato shell with frankfurter mixture; then a thin slice of cheese and top with the mashed potato. Place in a moderate (350 degree) oven until tops are lightly browned, about 15 to 20 minutes.

**Escalloped Spinach**
**(Serves 10)**

- **2 eggs, well beaten**
- **2 cups milk**
- **2 cups cracker crumbs**
- **4 tablespoons melted butter**
- **¼ teaspoon salt**
- **2 cups cooked spinach**

Mix all ingredients thoroughly, reserving about ½ cup of buttered crumbs for the top. Place in a buttered casserole and cover with crumbs. Bake in a slow oven (325 degree) until crumbs are browned and the mixture is set in the center, about 25 minutes.

**French-Fried Cauliflower**
**(Serves 6 to 8)**

- **4½ cups cooked cauliflowerets**
- **2 eggs, slightly beaten**
- **1 cup dry bread crumbs**

Dip cauliflower into slightly beaten eggs, roll in bread crumbs and let stand at least one-half hour.

**Cauliflower will look prettier and taste better when you serve it with canned tomato sauce and a bit of Parmesan cheese as a pep-up touch. This may also be used as an idea for a vegetable platter, adding green beans or peas to surround the cauliflower.**

Fry in deep, hot fat (350 degree) until brown. Drain on absorbent paper.

**Broccoli Souffle**
**(Serves 4)**

- **3 eggs, separated**
- **½ cup hot, thick white sauce**
- **1 cup chopped, cooked broccoli**
- **2 tablespoons grated Parmesan cheese**

Beat egg yolks and add to white sauce. Add broccoli and cheese. Fold in stiffly beaten egg whites. Pour into a buttered baking dish and bake in a moderate (350 degree) oven for 50 minutes. Serve with cheese sauce: make two cups thick white sauce with three tablespoons butter, three tablespoons flour and two cups milk. Season with one-half teaspoon salt, one-eighth teaspoon pepper and add one-half cup grated American cheese. Cook in double boiler until cheese melts.

**Fried Brussels Sprouts**
**(Serves 6)**

- **1 onion, chopped**
- **3 tablespoons butter**
- **4 cups cooked Brussels Sprouts**

Cook onion in butter until tender, add sprouts and toss gently until heated thoroughly.

Released by WNU Features.

Beets will be zippy if you cut cooked beets into thin strips and heat with ⅓ cup top milk, 2½ teaspoons horseradish and 1 teaspoon salt.

Cauliflower leaves should not be discarded. Cook, covered for 15 minutes and add them to white sauce.

Wax beans will be appetizing when served with toasted, slivered almonds.

Chives or mint, chopped and added to melted butter will do flavor some things to cooked carrots.

# Star Dust
## STAGE SCREEN RADIO

Released by WNU Features.

By INEZ GERHARD

JOIN the Bob Hope show and see the world! Returning from his Christmas-time jaunt to Berlin, Bob is off on a month-long tour of this country, planning to start in the south and work his way up to Washington in time for the inauguration.

BOB HOPE

There's money in those tours. Hope thinks he may exceed the $500,000 made on a similar tour two years ago.

Reminder: The "Dr. Christian" script contest is on again, till March 2. The $2,000 award is given for the best script suitable for the program. For details write the Dr. Christian Award, 17 State street, New York 4.

Edith Head, top dress designer for Paramount, came to New York "on a spying trip," as she put it. She covered the haunts of young business women as Betty Hutton's clothes for "The Broadway Story" must be just right. Delightful, dynamic Miss Head, commenting on the costumes for "Samson and Delilah," said she couldn't let Delilah's be too authentic or the censors would never pass them. But those for "The Heiress" are historically perfect right down to the underwear.

**According to the Motion Picture Herald, the top-grossing pictures of the 1947-48 season, September to September, are "The Bachelor and the Bobby Soxer," "Cass Timberlane," "Green Dolphin Street," "Life With Father," "Mother Wore Tights," "Road to Rio" and "Unconquered." A list the country's motion picture critics would never have compiled.**

U. S. Attorney General Tom Clark makes his film debut in Universal-International's "Illegal Entry." He and Commissioner Watson B. Miller appear in the prologue. The first documentary film made with the cooperation of the immigration department, it is dedicated to the 43 immigration officers killed in the line of duty.

Helen Craig, featured in "They Live by Night," became a star in a Broadway play in which she spoke no lines. After years of studying diction, she was cast as the deaf mute in the stage's version of "Johnny Belinda."

Robert Cummings and his family plan to live three months in Paris, three in Rome, while he makes two pictures. He expects to come home to find his new house ready—with a diving board from his bedroom overhanging the pool.

Memories of '48—Having Ray Milland "borrow" an oyster from me at lunch, before his arrived—and forgetting to pay it back. Having John Lund tramp blocks through the driving rain to find me a taxi. Riding on a crowded subway with Irene Beasley, who was carrying a canary. Hearing Scott Brady tell about the prayer that carries him over bad moments and brings success.

**Betsy Drake was afraid RKO would make her pluck her eyebrows too thin and change her name before she made her film debut in "Every Girl Should Be Married." So she ate a lot of candy, to calm her nerves.**

Henry Hull can't believe it. Two years ago he rented his California home to the Joel McCreas who have two young sons. Henry expected to find everything much worse for wear when he moved back recently. But everything was in perfect condition, and the house had been polished from cellar to garret. Henry says he's going to join a McCrea fan club.

*ODDS AND ENDS . . . Danny Kaye's picture, "The Kid From Brooklyn," is playing in Rome under the title "I Prefer a Cow." . . . Glenn Ford, who has taken or given a beating in every picture he's ever made, wishes Columbia would assign him to just one peaceful one. . . . Busy though she is, Penny Singleton found time to learn to fly, now takes her family on regular week-end flights. . . . Frankie Carle's crew will appear in five pictures this year, made during a four-months' stay in California. . . . Eleanor Powell will sail in February to do a command performance for the king of England.*

## Coffee Table Used In Variety of Ways

THE FULL size patterns now available provide a quick, accurate, easy and inexpensive method of making many handsome articles of furniture and household equipment. The Salisbury table and tray illustrated above is cleverly designed and is as much in demand for use indoors as out. The table legs are collapsible and easily stored. Used by themselves, they make an ideal luggage rack.

Build this table from the pattern offered below and you will find how very easy it is and lots of fun too. The pattern is merely traced on the lumber. The lumber is then sawed and assembled exactly as and where the pattern indicates. No special tools or skill are required. All materials can be purchased at any lumber yard. Paint it for use on porch or lawn, stain it for use indoors.

Send 25c for Salisbury Coffee Table Pattern No. 52 to East-Bild Pattern company, Dept. W, Pleasantville, N. Y.

**Splendid Cough Relief Is Easily Mixed at Home**

To get quick and satisfying relief from coughs due to colds, mix this recipe in your kitchen. Once tried, you'll never be without it.

First, make a syrup by stirring 2 cups granulated sugar and one cup of water a few moments, until dissolved. A child could do it. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Then get 2½ ounces of Pinex from any druggist. This is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations.

Put the Pinex in a pint bottle, and fill up with your syrup. This makes a full pint of splendid medicine and you get about four times as much for your money. Never spoils. Tastes fine.

And for quick, blessed relief, it is surprising. You can feel it take hold in a way that means business. It loosens the phlegm, soothes the irritated membranes, and eases the soreness. Thus it makes breathing easy, and lets you sleep. Money refunded if not pleased in every way.

**Pinex Is Swift Acting!**

**Getting Deaf?**

Thousands now know there is no excuse for letting deafness kill the joy of living. An amazing new radionic* hearing device has been perfected in the great Zenith® Radio laboratories—so simple—so easy to use it can be sent to you for 10-day free trial.* Ready to wear, no individual fitting necessary. Accepted by the American Medical Association, Council on Physical Medicine. Come out of that world of silence. Write today for full details to Zenith Rad[illegible], Hearing Aid Division, Dept. 19-DL, 5801 Dickens Ave., Chicago 39, [illegible]. Made by the makers of world-famous Zenith Radios.

*Trial offer available on direct sales by Zenith Radio Corporation or its subsidiaries.

**AN ORDINANCE**

**Dispensing with the Office of City Marshal and imposing the duties of said office upon the Chief of Police.**

WHEREAS, Article 999, Revised Civil Statutes of Texas, gives the governing body of a city or town having less than 3000 inhabitants, at the last preceeding Federal Census, the power by ordianace to dispense with the office of marshal and confer the duties of said office upon any peace officer, NOW THEREFORE:

**Be IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF TAHOKA**

Section 1. That the office of City Marshal is hereby dispensed with and the duties of said office are hereby imposed upon the Chief of Police of the City of Tahoka, Texas.

Section 2. All records of the City Marshal shall be transferred to the Chief of Police on the effective date of this ordinance.

Section 3. The effective date of this ordinance shall be the 5th day of April, 1949.

Passed and approved this the 3rd day January, 1949.— K. R. Durham Mayor of the City of Tahoka, Texas.

The world won't beat a path to your door even if you have a wonderful trap—if you keep it rattling all the time.

A man with a burning ambition is seldom fired.

It amazes us to see girls dancing with girls. We didn't think any woman would stand being pushed around by another woman.

**MISS VERNA LEE PARRISH WEDS E. J. MATHIS**

Miss Verna Lee Parrish, daughter of Mr. and Mrs. J. A. Parrish of the Garnolia community, and Mr. Edwin James Mathis, son of Mr. and Mrs. Jack R. Mathis of Grassland, were united in marriage Saturday evening, Jan. 1, at 7 o'clock.

Rev. J. E. Peters, pastor of the Methodist Church of Grassland, performed the ceremony.

The bride wore grey with black accessories. The old tradition of something old, something new, something borrowed, and something blue was carried out.

The couple will reside west of Grassland, where Mr. Mathis is to be engaged in farming.

Figures reveal that women are wearing fewer clothes these days.

W. C. Carver, long time farmer resident of Lynn county, has moved to Muleshoe, where he recently bought an irrigated farm.

# New Chevrolet for '49

*Tested and Proved...*

ON THE WORLD'S TOUGHEST PROVING GROUND!

Proved on the toughest grades . . . the new Chevrolet takes hills in its stride. Its power will thrill you.

The punishing granite blocks of this "torture trail" PROVED Chevrolet's ability to absorb punishment!

This is where Chevrolet for 1949 was PROVED to be weatherproof and waterproof!

At the General Motors Proving Ground there are men who are experts at *ruining cars!* "Find the flaws . . . get the facts" is their motto. And so, when Chevrolet for 1949 was delivered to their "tender" mercy, they put it through its paces so vigorously and so thoroughly that there was no chance for basic weaknesses to go undetected. *What a break for the buyer . . . instead of an experimental or untried car, he gets a car that has PROVED economy, PROVED stamina, PROVED comfort, PROVED handling-ease!* Only Chevrolet, in the low-priced field, has passed through the rigors of the "World's Toughest Proving Ground" and comes to you thoroughly TESTED, thoroughly PROVED and thoroughly APPROVED!
