Heavy Red Attacks Strike At South Koreans, By-Pass Yanks

REDS IN ACTION ALL ALONG KOREAN FRONT — Dark arrows show drives by invading North Korean forces on virtually the entire Korean battlefront. Red push in the west has forced U. S. troops to the Kum River's south bank where they hope to make a stand (wedge) north of Taejon, key defense center, until enough material can be brought up to counterattack. Open arrows indicate the main supply route from port city of Pusan to the front. (AP wirephoto).

American Losses Set at 42; Press Reports 'Exaggerated'

TOKYO, July 13. (AP) — Gen. MacArthur's headquarters announced tonight that American losses in the Korean War to date have been 42 killed, 190 wounded and 256 missing.

The announcement said "losses sustained by the American forces have been greatly exaggereated in press reports from the front.

"Many of the missing are undoubtedly men who, in the confusion of the fighting, have lost touch with their own units and will eventually return."

The announcement continued:

"Probably the most flagrant of these exaggerated reports dealt with the so-called 'lost battalion' of the 34th Infantry which was reported as being completely annihilated whereas its actual losses amounted to only two killed, seven wounded and 12 missing."

Reports of American losses have been exaggerated because, the statement said, the army has avoided any military censorship or undue restrictions on the movements of war correspondents.

It said this was the first time in modern war that such an experiment had been tried.

"Sights of warfare are, at any time, grisly and repulsive and reflect the emotional strain normal to those unaccustomed to the sights and sounds of battle," the statement said. "Exaggerated stories obtained from individual wounded or mentally shocked have given a ocmpletely distorted and misrepresentative picture of the public."

The announcement said:

"American ground units in Korea are fighting one of the most skillful and heroic holding and rear guard actions in history. Their excellent peacetime training is reflected in the combat record they are now compiling. They have been overwhelmingly outnumbered, in some instances more than 20 to 1, and the casualties inflicted on the enemy have been immeasurably greater than those they have sustained."

Report First Super Fort Shot Down

Air Force Statement Says Bomber Crew Bails Out Safely

WASHINGTON, July 13. (AP)—The Air Force said today it had received a report that a B-29 superfortress has been shot down by enemy fighters near Seoul, the first reported B-29 loss to enemy action.

An Air Force briefing officer at the Pentagon said the report came from the pilot of a U.S.A.F. F-80 fighter which had been in radio contact with the B-29.

Dispatches from Tokyo told of a strike by B-29 Superfortresses plastering a key North Korean military target with 500 tons of bombs. Tokyo reported, however, that all of the planes and crew members returned safely from that raidw ithout meeting opposition.

NO REPORT

The Air Force gave no indication as to when or how the B-29 reported lost was downed.

The report said the Superfortress was attacked by an unknown number of enemy fighters and the B-29 crew bailed out.

A superfortress normally carries a crew of 11 or 12 men.

Some days ago a B-29 was "ditched" off Kyushu after engine trouble.

The report on the shot-down B-29 made no reference to what happened to the crew after they parachuted out.

Seoul, the capital of South Korea, is now in the hands of the North Korean Communist invaders.

NO DESCRIPTION

Reports received here did not say what type of enemy fighters attacked the superfortress.

Most of the North Korean planes said to have been in action so far have been conventional - engined types such as the Yak-9.

Recently there was a report that Yak-15 jets had appeared in the war zone. An Air Force briefing officer said today that report appeared to have come from an Army sergeant on the ground and to date no similar reports have been made by American airmen.

Yanks Describe Orderly Retreat From Battle Line

By LEIF ERICKSON
AP Staff

AT THE AMERICAN FRONT IN KOREA, July 13.—American troops who covered the retreat from Chochiwon said today "the withdrawal was damn orderly."

"If it wasn't we wouldn't have brought so many back," said Lt. James Bufano, the Bronx, N. Y.

He said the Communists tried to "raise hell with the pull-out" but mortar and artillery fire splashed harmlessly in nearby rice paddies. Only four shells of the fairly heavy barrage fell in the city.

TEXAN COVERS

Lt. Delbert Gates of Joinerville, Tex., covered the withdrawal with a machinegun "until the last man I could see was out."

Gates said some Americans headed in the wrong direction, but they have a chance of working back to their own lines. Many returned to U. S. positions during the night.

The American front was quiet today.

Battle seasoning is building confidence in the American GI. A big morale builder has been American air action even though there have been mistaken strafings of U. S. positions.

"The damned North Koreans are taking a hell of a lot worse of it than we are," said Gates. "Every time the air hits them they get a real bloody nose.

"Every time there's a fight it takes a couple of days for them to straighten themselves out."

DON'T SEE MUCH

A senior front line officer who is a veteran of the European war said, "The guys (infantrymen) getting shot at don't see much of what our Air Force is doing.

"But all of a sudden there is no 'poosh' from the other side. You wonder what's going on. Then you figure it out. The air is getting them."

He said he would like to see the old "Jug Birds" (P-47 Thunderbolts) working over the enemy as they worked against Germans. Jet fighters weren't meant for this kind of business, he said, but "a Jug Bird with 500 pound bombs would really give them a jolt."

First Mass Attack By B-29s Hits Rail Center

American Sector Remains Quiet While Worst of Offensive Shifts to Koreans

TOKYO, July 13. (AP)—Korean Communist troops, severely hammered by the air force but still advancing, shifted the weight of their southern drive to the east on Thursday, away from the American sector.

A dispatch from advance American headquarters said that about 10 a.m. Thursday (6 p.m. Wednesday, C.S.T.) the Reds started two heavy attacks with about two divisions against South Korean forces in the central peninsula area.

The American sector along the Kum River below Chochiwon was very quiet while the Reds shifted their attack against the South Koreans on two flanks.

Airmen reacted quickly, working over the new Red attack zone from dawn to dusk and promising renewed strikes on the morrow. The South Koreans gave some ground but not much, the spokesman said.

ATTACK CHOCHIWON

Chochiwon, given up by the Americans yesterday, was pounded by B-26 bombers which carried six tons each today. Red tanks and a big road junction in the town were main targets.

The spokesman did not pinpoint the area of the new Red attack but the dispatch said it was farther than the penetrations yesterday south of Chunju.

Earlier today the spokesman had reported that Red columns of tanks, infantry and armored cars had moved 15 miles south from Chungju which is in the western battle sector northeast of Chochiwon.

This drive from Chungju leaves a deep dent in the arc across the center of the peninsula which the South Koreans had been holding fast for several days.

The spokesman said there had been "some shifting of armor eastward" by the Reds to support their attack.

U. S. Air Forces threw their first mass B-29 superfortress strike at North Korea today, blasting a rail center with 500 tons of bombs.

The raid was made in daylight against a rail center north of the 38th Parallel by nearly 50 planes. All returned safely to their bases.

On the ground, weary U. S. troops dug in behind the vital Kum River while three North Korean divisions massed to the north for an assault over this natural barrier.

Far to the northeast, the Reds bridged the Han River at Tanyang and sent at least one division, with artillery, to cut the key rail line from the southeast Korean port of Pusan to Taejon, 13 miles south of the Kum River line.

CONTINUE RETREAT

Gen. MacArthur, in a communique covering developments reported earlier in front line dispatches, said American and South Korean forces "continued to withdraw before numerically superior forces to take up defense behind prepared positions and natural barriers."

He apparently referred to the withdrawal south of the Kum. Spokesmen at the front said earlier U. S. troops had blasted several bridges over the strategic stream.

Hurled back by North Korea's Red horde, weary doughboys dug in on the Kum River's south bank for a new defense. They had a new commander, Lt. Gen. Walton H. Walker, veteran tank fighter of World War II.

QUIET FRONT

The front was relatively quiet. Presumably the North Koreans were regrouping for an assault across the vital Kum, last natural barrier in South Korea. Allied warplanes pounded transport and supply routes north of the river throughout the day.

Gen. MacArthur announced the appointment last midnight of Walker, chief of the Eighth Army in Japan, as commander of ground forces in Korea.

The Eighth Army has set up an advanced command post in Korea and taken over the job of U. S. Army forces in Korea (USAFIK). The latter command was abolished.

Walker commanded the famed armored "Ghost Crops" of Gen. George Patton's Third Army in Europe. He was cited by Britain and praised by the U. S. War Department (now the Department of the Army) for his co-ordination of infantry and armored groups.

Walker made a flying visit to the Korean fighting front Saturday. MacArthur did not say if Walker would return to Korea.

Gen. J. Lawton Collins, Army chief of staff, and Gen. Hoyt Vandenberg, Air Force chief of staff, conferred here with MacArthur and, presumably, with Walker.

Adm. Arthur W. Radford, commander in chief for the Navy in the Pacific, was flying from Pearl Harbor to Tokyo to confer with MacArthur.

General Rains in West Texas; Only Tenth of Inch in Snyder

A cold front passed through Snyder this morning, bringing cold mist and north wind. Enough moisture fell to measure .10 inch, making the total rainfall for July 1.30 and the year's total 12.73.

These figures are in excess of the average rainfall of 1.02 inches for July and 10.98 for the first seven months of the year.

A mercury drop in the Snyder vicinity today relieved summer heat as general rains soaked a wide West Texas area.

The experiment station near Sonora was still receiving showers this morning after an early gauge report showed 4 inches.

Sterling City to the north measured 1.12 inches. Most of Sterling County was dampened.

Including yesterday's measurements, Winters had had 2.4 inches and its farms (in all directions) reported soakers.

Barnhart received 1 1-8 inches; Eldorado was flushed with a two-inch fall.

Abilene was drenched with 2.35 inches; Big Spring had .28; Laredo, .07; Ozona, .52; Guadalupe Pass, 1.13; Wink, .01; Midland, .04; Junction, 1.76; and Marfa, .09.

The thundershowers are expected to continue roving around West Texas through tomorrow. Temperatures, which have been ranging below normal, may fall even lower tonight.

Prolific Flow From Discovery In Terry County

Amerada Petroleum Corp. appears to have a prolific flowing oil discovery from a lower Permian lime in Central South Terry County. That is the No. 1 N. W. Willard, which is located 14½ miles south of Brownfield.

This development took a drillstem test for five hours and five minutes at 8,450-8,507 feet. Gas showed at the surface in five minutes and oil started flowing out of the drill pipe in 38 minutes.

The fluid was run to pits for 27 minutes to clean.

The well then flowed to tanks for four hours and it produced 144 barrels of 43 gravity oil during that period. Gas-oil ratio was 431-1. The flow was through a five-eighth inch bottom hole choke and a one-inch top opening on the drill pipe.

There was no formation water in the oil. Operator was pulling the tester at the last report.

Interested observers think the production is possibly coming from the Wolfcamp lower Permian.

This new pay opener is one mile west of the Adair-San Andres Field, six miles west of the Corrigan-Fusselman Field and six and one-quarter miles southeast of Anderson-Richard Oil Corp. No. 1 Beavers, recently completed flowing discovery from a lime reef.

That well was finished for a daily potential of 2,280 barrels of high gravity oil, flowing naturally from pay at 9,712-9,805 feet.

The Amerada No. 1 Willard topped the Sparberry section of the Permian at 7,270 feet, which was on a datum of minus 4,035 feet and correlated 272 feet high to the same marker in the Anderson-Prichard No. 1 Beavers. No lower markers have been picked from No. 1 Willard.

Location of the new Terry County discovery is 660 feet from north and east lines of the northwest quarter of section 6, block C-37, TSL survey.

SET CASING

Casing is slated to be run on the Rutherford and Heep Oil Corp. No. 1 Davis, new reef structure discovery in Southeast Borden County.

Five and one-half inch casing

San Antonio Is Texas's Fastest Growing City

SAN ANTONIO, July 13. (AP)—San Antonio's preliminary 1950 population figure was set today at 406,811.

This makes Texas' third largest city the fastest growing so far of the state's "big four"

The 406,811 is a gain of 152,957 or 60 per cent over 253,854 in 1940.

Fort Worth gained 56 per cent—from 177,662 to 277,047. Dallas gained 46.7 per cent, from 294,734 to 432,805. Houston—the state's and probably the South's largest figure—is yet to be announced.

The preliminary figure for San Antonio was released by James W. Stroud, area census director.

Stroud also announced the Bexar County figure at 496,050, a gain of 157,914 or 47 per cent over 338,176 in 1940.

This leaves only Houston and Harris County in Texas to be announced.

Carrier Not Sunk

TOKYO, July 13. (AP) — A Navy spokesman said today "the United States Navy carrier on duty in the Western Pacific is still very much afloat."

The 27,000-ton Essex Class Carrier Valley Forge had been rumored sunk.

In Washington, the Navy Department also denied the rumor.

Korean Radio Says Reds Agree To Treat Prisoners Humanely

TOKYO, July 13. (AP) — The Pyongyang radio said tonight the North Korean government has agreed to observe the Geneva convention regarding treatment of prisoners of war.

Battlefield reports have said 18 captive American soldiers were bound and shot to death by the invading Communists.

Foreign Minister Pak Hong Young, the radia said, sent a message to United Nations Secretary-General Trygve Lie agreeing to comply with Lie's request to treat prisoners humanely.

Gen. MacArthur, U. S. and U. N. commander for the Korean war, several days ago promised that allied troops would observe the Geneva convention. He warned North Korean leaders, by radio—both before and after the atrocities against his GIs — that he would hold Red leaders responsible for such "barbarity and murder."

Truck Demolished When Hit by Train

A five-ton truck was demolished last night when it was struck by an eastbound Santa Fe freight train about a mile and a half north of the city.

No one was injured in the accident.

Clarence O. Lee, owner of the vehicle, said today that the machine stalled on the tracks and that his crew was unable to flag down the approaching train.

Lee is owner of the Clarence O. Lee trucking service on the Old Post Highway.

No Added Taxes Seen During This Congressional Session

WASHINGTON, July. 13. (AP)-Chairman George (D-Ga) of the Senate Finance Committee said today he sees no prospect of increasing federal taxes at the present session of congress, even though the Korean situation worsens.

"There will be plenty of time for that in January, if the need arises," he said.

George formally announced the indefinite suspension of work on the house-passed $1,010,000,000 excise tax slashing bill, but he did not write off entirely the chance of some action later on this legislation.

CONCLUDE HEARINGS

He summed up the situation for newsmen as his finance committee concluded public hearings on the House bill.

Military leaders asked the Senate Appropriations Commitee for a $1,900,000 increase in funds to boost the strength of the National Guard.

Sens. Hayden (D-Ariz) and Maybank (D-SC) said the committee decided to wait until President Truman submits an expected request for additional military funds for the Korean fighting before acting on the National Guard item.

MEET WITH TRUMAN

The decision to put the tax cutting bill aside came, George said, after Secretary of the Treasury Snyder, following a conference with the President, advised him that it would not be prudent to cut taxes at this time, in view of the Korean situation.

The United States Chamber of Commerce, national organization of businessmen, applauded the decision to put the bill aside, and foresaw the possibility of higher—not lower—taxes, if things "turn for the worse" in Korea.

Senate Group Seeks Faster Plane Output

WASHINGTON, July 13. (AP)—The Senate Armed Services Committee unanimously agreed today that the armed services should seek faster delivery of several billion dollars worth of combat aircraft now on order.

Chairman Tydings (D-Md.) announced the group had taken that stand at a closed meeting. He said it adopted this resolution.

"In view of the present critical Korean situation and the threatening situation throughout the world, it is the opinion of the Senate committee on armed services that the military establishment should immeditely give consideration to accelerating the delivery of planes on order to the maximum extent necessary."

Tydings said that "several billion dollars" worth of aircraft now are on order for the Air Force, the Navy and the Marines.

A speed-up in deliveries would mean an increase in the present rate of military spending since original plans were to spread the cost of the planes over a long period.

Kashmir Breaking Up Large Estates

SPRINAGAR, Kashmir, July 13. (AP)—The government of the Indian-held section of Kashmir began breaking up large estates today.

Prime Minister Sheikh Abdullah announced that all estates larger than 125 acres would be seized and split among the persons working them.

SMOKS MARKS FIRE—A billowing cloud of smoke rises as the Northwest Oklahoma city of Fairview was threatened for a time by fire from seven exploding gasoline and kerosene tanks. A dozen persons were hurt. One tank exploded and set off the others. Three warehouses and three railroad cars also were destroyed. No estimate of damage or the cause was learned immediately. (AP wirephoto).

Sunray to Build Big Plant North of City

Construction of a large gas conservation project by the Sunray Oil Corp. is expected to begin in three months, five miles northwest of Snyder on the Nolan Von Roeder farm.

The plant, announced in Tulsa, Okla., yesterday, will be completed by the spring of 1951. It will be located on tract 20, section 40, Kirkland and Fields survey, which is between the Santa Fe and the former RS&P tracks.

Sunray said the plant would extract 450,000 gallons of liquified petroleum products from 67,000,000 cubic feet of natural gas a day.

It will serve about 35,000 producing acres, including the North Snyder, Kelley-Canyon and Diamond M fields.

Council Buys New Pick-Up for City

The City Council last night voted to buy a one-half ton pick-up truck from R. B. Sears Oldsmobile Sale & Service Co., following the reading of two bids.

The Sears bid on a G.M.C. truck was $1,370, and the only other bid was offered by the Bickerstaff Motor Co., quoting the price of $1,480 on a one-half ton Ford pick-up.

The council also voted to pay F. A. Green $255 for the painting of the interior of the newly renovated and enlarged police station.

First Texas Draft Call Set Aug. 7

AUSTIN, July 13. (AP) — Physical examinations for the first Texans called by draft boards will begin Aug. 7, state selective service headquarters announced today.

First inductions will be sometime in September.

Registrants selected by local draft boards will be sent to main army recruiting stations in Texas and Louisiana Aug. 7-11 inclusive, Brig. Gen. Paul L. Wakefield, state director, said.

Congressmen Demand Use A-Bomb, Calling Out Guard

WASHINGTON, July 13. (AP)—Congressional demands for threatening the Korean Communists with the A-bomb and for calling up the National Guard served today as an index to the growing seriousness with which lawmakers are treating the world situation.

Members of the House applauded yesterday when Rep. Bentsen (D-Tex) said that Mr. Truman should give the Communists one week to get out of Southern Korea. If they refuse, he said, the President should then supply their commander with a "named list of principal North Korean cities which would be subjected to atomic attacks by our Air Forces."

Another Texas Democrat, Sen. Lyndon Johnson, raised the proposal for immediately calling into active service more than 800,000 National Guardsmen and reservists to stiffen the battle in Korea.

Johnson made his proposal in a Senate speech yesterday, and followed it up by telling a reporter:

"We are going to be forced to do this anyway in time and the sooner the better.

"Unless we move quickly there is a chance that our boys will be pushed clear out of Korea."

Sen. Brewster (R-Me) proposed that it be left up to General MacArthur whether to use atomic bombs on the Communists. He offered this idea of his own:

"The Communists should understand that we are not spending billions for bombs out of scientific curiousity. Presumably they are designed to save the lives of American boys."

POSSIBLE ATTACK

Tracy S. Voorhees, former under secretary of the Army, told a House committee that an atomic attack on the United States itself is now "more than a possibility." He said that if an attack does come, it will doubtless be a big one, aimed at industrial centers.

Senator Humphrey (D-Minn), a down-the-line backer of the Truman "fair deal" domestic program raised some questions about the billions Congress has voted for preparedness. He said:

"I want to know what happened to all that money. I want to know why the delays now? Why the delay in getting our fleet out of mothballs?"

WEATHER

EAST TEXAS: Mostly cloudy, scattered thundershowers except extreme northwest, a little cooler northwest portion this afternoon. A few thundershowers in central and interior south portion, slightly cooler extreme north portion tonight. Friday partly cloudy north, scattered thundershowers south and west central portion. Moderate to fresh southeast winds on the coast.

WEST TEXAS: Mostly cloudy, scattered thundershowers except Panhandle and South Plains this afternoon and tonight. Friday partly cloudy, a few thundershowers east of Pecos Calley. A little cooled Panhandle, South Plains and upper portions of Pecos Valley eastward this afternoon and tonight.

The experiment station near Sonora was still receiving showers this morning after an early gauge report showed 4 inches.

Sterling City to the north measured 1.12 inches. Most of Sterling County was dampened.

Including yesterday's measurements, Winters had had 2.4 inches and its farms (in all directions) reported soakers.

Barnhart received 1 1-8 inches; Eldorado was flushed with a two-inch fall.

Abilene was drenched with 2.35 inches; Big Spring had .28; Laredo, .07; Ozona, .52; Guadalupe Pass, 1.13; Wink, .01; Midland, .04; Junction, 1.76; and Marfa, .09.

The thundershowers are expected to continue roving around West Texas through tomorrow. Temperatures, which have been ranging below normal, may fall even lower tonight.

Prolific Flow From Discovery In Terry County

Amerada Petroleum Corp. appears to have a prolific flowing oil discovery from a lower Permian lime in Central South Terry County. That is the No. 1 N. W. Willard, which is located 14½ miles south of Brownfield.

This development took a drillstem test for five hours and five minutes at 8,450-8,507 feet. Gas showed at the surface in five minutes and oil started flowing out of the drill pipe in 38 minutes.

The fluid was run to pits for 27 minutes to clean.

The well then flowed to tanks for four hours and it produced 144 barrels of 43 gravity oil during that period. Gas-oil ratio was 431-1. The flow was through a five-eighth inch bottom hole choke and a one-inch top opening on the drill pipe.

There was no formation water in the oil. Operator was pulling the tester at the last report.

Interested observers think the production is possibly coming from the Wolfcamp lower Permian.

This new pay opener is one mile west of the Adair-San Andres Field, six miles west of the Corrigan-Fusselman Field and six and one-quarter miles southeast of Anderson-Richard Oil Corp. No. 1 Beavers, recently completed flowing discovery from a lime reef.

That well was finished for a daily potential of 2,280 barrels of high gravity oil, flowing naturally from pay at 9,712-9,805 feet.

The Amerada No. 1 Willard topped the Sparberry section of the Permian at 7,270 feet, which was on a datum of minus 4,035 feet and correlated 272 feet high to the same marker in the Anderson-Prichard No. 1 Beavers. No lower markers have been picked from No. 1 Willard.

Location of the new Terry County discovery is 660 feet from north and east lines of the northwest quarter of section 6, block C-37, TSL survey.

SET CASING

Casing is slated to be run on the Rutherford and Heep Oil Corp. No. 1 Davis, new reef structure discovery in Southeast Borden County.

Five and one-half inch casing

(Coptinued on Page 2)

San Antonio Is Texas's Fastest Growing City

SAN ANTONIO, July 13. (AP)—San Antonio's preliminary 1950 population figure was set today at 406,811.

This makes Texas' third largest city the fastest growing so far of the state's "big four"

The 406,811 is a gain of 152,957 or 60 per cent over 253,854 in 1940.

Fort Worth gained 56 per cent—from 177,662 to 277,047. Dallas gained 46.7 per cent, from 294,734 to 432,805. Houston—the state's and probably the South's largest figure—is yet to be announced.

The preliminary figure for San Antonio was released by James W. Stroud, area census director.

Stroud also announced the Bexar County figure at 496,050, a gain of 157,914 or 47 per cent over 338,176 in 1940.

This leaves only Houston and Harris County in Texas to be announced.

Carrier Not Sunk

TOKYO, July 13. (AP) — A Navy spokesman said today "the United States Navy carrier on duty in the Western Pacific is still very much afloat."

The 27,000-ton Essex Class Carrier Valley Forge had been rumored sunk.

In Washington, the Navy Department also denied the rumor.

Korean Radio Says Reds Agree To Treat Prisoners Humanely

TOKYO, July 13. (AP) — The Pyongyang radio said tonight the North Korean government has agreed to observe the Geneva convention regarding treatment of prisoners of war.

Battlefield reports have said 18 captive American soldiers were bound and shot to death by the invading Communists.

Foreign Minister Pak Hong Young, the radia said, sent a message to United Nations Secretary-General Trygve Lie agreeing to comply with Lie's request to treat prisoners humanely.

Gen. MacArthur, U. S. and U. N. commander for the Korean war, several days ago promised that allied troops would observe the Geneva convention. He warned North Korean leaders, by radio—both before and after the atrocities against his GIs — that he would hold Red leaders responsible for such "barbarity and murder."

Truck Demolished When Hit by Train

A five-ton truck was demolished last night when it was struck by an eastbound Santa Fe freight train about a mile and a half north of the city.

No one was injured in the accident.

Clarence O. Lee, owner of the vehicle, said today that the machine stalled on the tracks and that his crew was unable to flag down the approaching train.

Lee is owner of the Clarence O. Lee trucking service on the Old Post Highway.

Senate Group Seeks Faster Plane Output

WASHINGTON, July 13. (AP)—The Senate Armed Services Committee unanimously agreed today that the armed services should seek faster delivery of several billion dollars worth of combat aircraft now on order.

Chairman Tydings (D-Md.) announced the group had taken that stand at a closed meeting. He said it adopted this resolution.

"In view of the present critical Korean situation and the threatening situation throughout the world, it is the opinion of the Senate committee on armed services that the military establishment should immediately give consideration to accelerating the delivery of planes on order to the maximum extent necessary."

Tydings said that "several billion dollars" worth of aircraft now are on order for the Air Force, the Navy and the Marines.

A speed-up in deliveries would mean an increase in the present rate of military spending since original plans were to spread the cost of the planes over a long period.

Kashmir Breaking Up Large Estates

SPRINAGAR, Kashmir, July 13. (AP)—The government of the Indian-held section of Kashmir began breaking up large estates today.

Prime Minister Sheikh Abdullah announced that all estates larger than 125 acres would be seized and split among the persons working them.

Sunray to Build Big Plant North of City

Construction of a large gas conservation project by the Sunray Oil Corp. is expected to begin in three months, five miles northwest of Snyder on the Nolan Von Roeder farm.

The plant, announced in Tulsa, Okla., yesterday, will be completed by the spring of 1951. It will be located on tract 20, section 40, Kirkland and Fields survey, which is between the Santa Fe and the former RS&P tracks.

Sunray said the plant would extract 450,000 gallons of liquified petroleum products from 67,000,000 cubic feet of natural gas a day.

It will serve about 35,000 producing acres, including the North Snyder, Kelley-Canyon and Diamond M fields.

Council Buys New Pick-Up for City

The City Council last night voted to buy a one-half ton pick-up truck from R. B. Sears Oldsmobile Sale & Service Co., following the reading of two bids.

The Sears bid on a G.M.C. truck was $1,370, and the only other bid was offered by the Bickerstaff Motor Co., quoting the price of $1,480 on a one-half ton Ford pick-up.

The council also voted to pay F. A. Green $255 for the painting of the interior of the newly renovated and enlarged police station.

First Texas Draft Call Set Aug. 7

AUSTIN, July 13. (AP) — Physical examinations for the first Texans called by draft boards will begin Aug. 7, state selective service headquarters announced today.

First inductions will be sometime in September.

Registrants selected by local draft boards will be sent to main army recruiting stations in Texas and Louisiana Aug. 7-11 inclusive, Brig. Gen. Paul L. Wakefield, state director, said.

No Added Taxes Seen During This Congressional Session

WASHINGTON, July. 13. (AP)-Chairman George (D-Ga) of the Senate Finance Committee said today he sees no prospect of increasing federal taxes at the present session of congress, even though the Korean situation worsens.

"There will be plenty of time for that in January, if the need arises," he said.

George formally announced the indefinite suspension of work on the house-passed $1,010,000,000 excise tax slashing bill, but he did not write off entirely the chance of some action later on this legislation.

CONCLUDE HEARINGS

He summed up the situation for newsmen as his finance committee concluded public hearings on the House bill.

Military leaders asked the Senate Appropriations Commitee for a $1,900,000 increase in funds to boost the strength of the National Guard.

Sens. Hayden (D-Ariz) and Maybank (D-SC) said the committee decided to wait until President Truman submits an expected request for additional military funds for the Korean fighting before acting on the National Guard item.

MEET WITH TRUMAN

The decision to put the tax cutting bill aside came, George said, after Secretary of the Treasury Snyder, following a conference with the President, advised him that it would not be prudent to cut taxes at this time, in view of the Korean situation.

The United States Chamber of Commerce, national organization of businessmen, applauded the decision to put the bill aside, and foresaw the possibility of higher—not lower—taxes, if things "turn for the worse" in Korea.

SMOKS MARKS FIRE—A billowing cloud of smoke rises as the Northwest Oklahoma city of Fairview was threatened for a time by fire from seven exploding gasoline and kerosene tanks. A dozen persons were hurt. One tank exploded and set off the others. Three warehouses and three railroad cars also were destroyed. No estimate of damage or the cause was learned immediately. (AP wirephoto).

Congressmen Demand Use A-Bomb, Calling Out Guard

WASHINGTON, July 13. (AP)—Congressional demands for threatening the Korean Communists with the A-bomb and for calling up the National Guard served today as an index to the growing seriousness with which lawmakers are treating the world situation.

Members of the House applauded yesterday when Rep. Bentsen (D-Tex) said that Mr. Truman should give the Communists one week to get out of Southern Korea. If they refuse, he said, the President should then supply their commander with a "named list of principal North Korean cities which would be subjected to atomic attacks by our Air Forces."

Another Texas Democrat, Sen. Lyndon Johnson, raised the proposal for immediately calling into active service more than 800,000 National Guardsmen and reservists to stiffen the battle in Korea.

Johnson made his proposal in a Senate speech yesterday, and followed it up by telling a reporter:

"We are going to be forced to do this anyway in time and the sooner the better.

"Unless we move quickly there is a chance that our boys will be pushed clear out of Korea."

Sen. Brewster (R-Me) proposed that it be left up to General MacArthur whether to use atomic bombs on the Communists. He offered this idea of his own:

"The Communists should understand that we are not spending billions for bombs out of scientific curiousity. Presumably they are designed to save the lives of American boys."

POSSIBLE ATTACK

Tracy S. Voorhees, former under secretary of the Army, told a House committee that an atomic attack on the United States itself is now "more than a possibility." He said that if an attack does come, it will doubtless be a big one aimed at industrial centers.

Senator Humphrey (D-Minn), a down-the-line backer of the Truman "fair deal" domestic program raised some questions about the billions Congress has voted for preparedness. He said:

"I want to know what happened to all that money. I want to know why the delays now? Why the delay in getting our fleet out of mothballs?"

WEATHER

EAST TEXAS: Mostly cloudy, scattered thundershowers except extreme northwest, a little cooler northwest portion this afternoon. A few thundershowers in central and interior south portion, slightly cooler extreme north portion tonight. Friday partly cloudy north, scattered thundershowers south and west central portions. Moderate to fresh southeast winds on the coast.

WEST TEXAS: Mostly cloudy, scattered thundershowers except Panhandle and South Plains this afternoon and tonight. Friday partly cloudy, a few thundershowers east of Pecos Calley. A little cooled Panhandle, South Plains and upper portions of Pecos Valley eastward this afternoon and tonight.

Car Industry Faces Strikes And Short Supply of Steel

DETROIT, July 13. (AP) — Supplier strikes and a shortening of steel gave concern today for the booming production of the automobile industry.

Two strikes already have slowed assembly lines in some plants.

The steel supply problem, however, loomed as more serious. Heavy production in industry generally has cut into steel stocks. The auto industry itself has been producing at all-time record rates. President Truman was said to be considering a request by Congress for stand-by power to allocate steel and other critical materials because of the Korean War.

FORD ON FENCE

The Ford Motor Co. thought for a brief time yesterday it might have to eliminate Saturday overtime work because of reduced steel supplies. But after rechecking the problem, the company said it would continue overtime production at 10 of its 15 Ford assembly plants this week end. It has operated from seven to all 15 of these plants each Saturday on overtime this year.

Ford said its only curtailment would be a reduction from five to four days a week for the remainder of this month at its Metuchen, N. J., and St. Louis Mercury plants.

At the same time Ford said a strike at the Budd Co. plant in Philadelphia would force a 20 per cent cut in truck production starting today. Ford depends on Budd for truck doors and other stampings.

SHUTDOWN

In Toledo, O., Willys-Overland said a strike at the Warner gear division plant of Borg-Warner Corp. in Muncie, Ind., would force a shutdown of its final assembly lines today.

At Willow run near here, Kaiser-Frazer Corp. already has halted one of its two final assembly lines because of the Warner strike. Warner makes transmissions for both Willys and K-F.

The Warner strike was also a threat to Chrysler, Nash, Studebaker and other auto firms. It forced Ford for the past several days to make all its Ford and Mercury cars without overdrives, which are optional equipment obtained from Warner.

Oil News

(Continued from Page 1)

will be set at 6,766 feet, 15 feet of hole bottom. The Canyon reef was topped at 6,768 feet on a minus datum of 4,519 feet.

Electric surveys verified the samples, which showed new discovery to be 19 feet below the water level of the Von Roeder Field two miles to the north.

On a 12-minute drillstem test of the reef section at 6,744-81 feet, the No. 1 Davis flowed an estimated rate of 50 barrels hourly for a period of six minutes.

This new discovery is 467 feet from north and east lines of section 68, block 25, H&TC survey.

EXTENDER DRILLING

Spartan Drilling Co. and Associates have spudded and are drilling below 300 feet in a one and one-half mile offset to a recent one and three-fourths mile southeast extension to the Salt Creek-Canyon pool of West Central Kent County.

It is the No. 1-116 J. W. Young, 660 feet from north and east lines of section 116, block G, W&NW survey. Drill site is one and one-half miles west of the Estil S. Heyser, Jr., and others No. 2 L. T. Lohman, the extension producer in section 114 and one and five-eighths miles southwest of the nearest producer in the pool proper.

STEPOUT IN KENT

Gier-Jackson Inc. of Dallas has staked a three quarter miles west stepout to its recently completed No. 2 Feldman and Pardo extension to the Cogdell in Central South Kent County.

The stepout is the No. 2 Feldman and Pardo, 852.4 feet from west and north lines of section 703, block 97, H&TC survey. Sixteen and three quarter miles north of Snyder. It will be rotary drilled to an estimated 7,500 feet.

Chapman and McFarlin Producing Co. has staked two locations in South Kent County, 22 miles northeast of Snyder, drilling to start immediately. They are the No. 16 and No. 17 D. M. Cogdell.

No. 16 is 2,043 feet from east and 1,709 feet from south lines of section 716, block 97, H&TC survey. No. 17 is 1,850 feet from west and 1,787 feet from south lines of same section, block and survey. Both projects are to be rotary drilled and are projected to a 7,000 feet depth.

Rosser and Pendelton Inc. and others No. 1 Ida Montgomery wildcat in Central East Kent County passed through the top of the Pennsylvanian lime at 6,429 feet, datum of minus 4,431 feet and is now drilling below 6,454 feet in lime.

No shows have been developed and geologists have not definitely established the age of the lime.

The project is one and one-half miles west of the town of Jayton, and approximately 14 miles from production in the Clairemont Pennsylvanian Field, which is producing from the Strawn.

The No. 1 Ida Montgomery is 1,213 feet from west and 2,170 feet from north lines of section 78, block 98, H&TC survey. It is projected to 7,500 feet.

MORE PAY

George Brown No. 1 Lloyd Branon, Northeast Howard County Pennsylvanian lime reef discovery, has found more pay section.

The prospector ran a one-hour drillstem test at 7,336-61 feet. Gas showed at the surface in three and one-half minutes.

Oil started flowing at the top in 40 minutes and the flow continued for 20 minutes. The tool was then closed.

When the tester was pulled it was found to be partially plugged with cavings. Interested observers think that condition caused the oil flow to be slightly irregular and of a smaller amount than it would have been had the tool been completely open.

The flow during the 20 minutes was estimated at between three and six barrels per hour. There was no formation water.

A five-eighths inch bottom hole choke and a one-inch top opening were used.

Gravity of the oil was 44.5 degrees. Operator is now running electric log surveys and will follow by running 5½-inch casing.

Exact point at which the casing will be set had not been determined. It is possible that after the casing is in the hole the well will be drilled a little deeper.

This important discovery is 16 miles northeast of Big Spring and 667.3 feet from south and 652.7 feet from west lines of section 18, block 27, H&TC survey.

It is one and one-half miles south and one-quarter of a mile east of Sunray Oil Corp., (Barnsdall) No. 3 Wilson, East Vealmoor field, along the Howard-Borden county line.

The Sunray No. 3 Wilson is bottomed at 7,476 feet and is running casing to make production tests. It has shown on preliminary investigations that it probably will be completed as a producer.

The Brown No. 1 Branon topped the reef lime at 7,296 feet, to give it a datum of minus 4,759 feet. Some geologists correlate it to be 210 feet high to the Sunray No. 3 Wilson.

The first show for production in the Brown No. 1 Branon was in a drillstem test at 7,297-7,336 feet. The tool was open 45 minutes.

Gas came to the surface in four minutes and continued in a strong blow throughout the remainder of the period.

No fluid came to the top while the tester was open. However, after seven stands of gas filled pipe had been pulled drilling mud started unloading.

When 44 stands of the pipe had been pulled oil started flowing out. The flow continued most of the time while the rest of the drill pipe and the tester was being pulled.

Total recovery was 3,300 feet of clean oil. There was no water. Good pressures developed.

IN STONEWALL

Roark & Hooker and A. G. Hill No. 1 C. L. Williams, prospective Pennsylvanian Bend conglomerate discovery in Northeast Stonewall County, flowed 542 barrels of oil and fresh water on a 15-hour production test.

The test was made after casing had been set and plug drilled. Operators displaced mud with water, then flowed production to pits to clean out. Flow was then turned to tanks for the 15-hour gauge.

According to reports, there was no formation water. About 10 per cent of the production was fresh water, used to displace the mud.

Flow was through a three-fourths inch choke. Casing pressure was 500 pounds, and flowing tubing pressure was 550 pounds.

During the last hour of the test, the new discovery flowed 44 barrels of oil. The No. 1 Williams was shutin to clear storage, preparatory to potential test.

Production is from open hole at 5,873-86 feet.

The No. 1 Williams is eight miles northeast of Aspermont, and 467 feet from south and west lines of section 6, block C, AB&M survey.

Guilty Verdict In Fitch Case; Suspended Term

A jury returned a verdict of guilty last night in the district court criminal trial of John B. Fitch, 42, of Monahans, with theft of a welding machine in April, and assessed his punishment at five years suspended prison sentence.

Fitch, a trucking company operator, was charged by grand jury indictment with stealing a welding machine he had found in the Clairemont road and removing it to Monahans to appropriate it to his own use.

The machine was lost off the bed of a truck owned by the May Welding Service and driven by M. C. Smart, an employee of the company. Both Joe May, owner of the company, and Smart testified that the machine bounced off the truck and was later removed before they returned to recover it. A winch was required to lift the 1,000-pound machine.

The defendant claimed he took it to Monahans for safe keeping until the true owner claimed it. He was represented by H. J. Brice and Garrett C. Whitworth, Snyder attorneys. The state was represented by Eldon Mahon, district attorney, assisted by Ben Thorpe, county attorney.

Trial began this morning in the case of Leonard H. Dickerson, 36, of Snyder, formerly of Eagletown, Okla., charged with sodomy by force against a 13-year-old boy here May 7. This case is brought by one of two indictments for sodomy returned against Dickerson by the grand jury at its last session.

Questioning of witnesses began immediately after selection of a jury was completed about 10 o'clock. The defendant is represented by Frank Sentell, Snyder lawyer, and prosecuting the case is Eldon Mahon, district attorney, assisted by Ben Thorpe, county attorney.

An appearance bond of $1,000 for Willis Bates, Snyder Negro, was ordered forfeited early this morning when the defendant failed to appear in court. Bates is charged with assault with intent to murder his wife. This was the third bond ordered forfeited since criminal trials began Monday. The others were for Forrest T. Bilderback, 35, of Wichita Falls, charged with swindling by worthless check, and Warren D. Weatherred, 38, of Snyder, charged with removing mortgaged property from the state.

Tax Cutting Bill Considered Dead Because of Korea War

WASHINGTON, July 13 (AP)—The Korean war, with its growing costs, has ditched the $1,010,000,000 excise tax slashing bill.

On advice from the White House that "it would not be prudent in the light of developments in Korea" to cut any taxes now, the Senate Finance Committee put the bill aside, postponing action indefinitely.

Sen. Byrd, (D-Va), a finance member, said: "In my opinion this tax bill is dead."

Many in Congress expect that the Treasury Department will ask for higher taxes, rather than lower, if the Korean situation does not improve. However, it was said at the treasury that no decision on such a request has been made.

LITTLE HOPE

Technically, if the situation improves swiftly, the tax cut bill can be taken up later. Few, if any, lawmakers now hold any hope for action this year, however.

It looks as though the excises, many of them imposed in World War II, will stay at least until the Korean war is over.

The House-approved bill would have repealed or reduced excises —sometimes called sales or nuisance taxes — on scores of items.

To offset a greater part of the revenue loss from excise cuts, the measure would have put $433 million additional taxes yearly on big corporations, plugged loopholes and made other tax law revisions.

PERSONAL VISIT

The finance committee decided informally to shelve the bill after Secretary of the Treasury Snyder yesterday personally visited Capitol Hill. After this call, the Treasury Department issued a formal statement saying:

"After consultation with President Truman, Secretary of the Treasury John W. Snyder today in conference with Chairman George of the finance committee of the Senate and Chairman Doughton of the Ways and Means Committee of the House advised them that it would not be prudent in light of developments in Korea to proceed with further consideration of the tax bill now before the Senate."

Communist Underground Puts Heavy Load on FBI

WASHINGTON, July 13. (AP) — U. S. Communists have increased their underground operations during the past year, FBI Director J. Edgar Hoover said today. The result, he said, is the heaviest work load his agency ever has handled.

In an annual review of FBI activities for the fiscal year which ended June 30, Hoover said the number of investigations involving internal security and national defense is at a record level, exceeding the volume of similar work during the World War II years.

"The increased work load," the report said, "stems from the activities of the Communist Party and the expanded orbit of their underground operations.

"Increased security consciousness on the part of the party leadership has brought about decentralization of party administrative machinery and transferal of previously open operations to an underground apparatus.

"These developments have complicated the FBI task of maintaining coverage of Communist activity."

The FBI director recently asked Congress for more than 300 additional agents, saying they were required principally for internal security investigations.

The annual report showed 8,921 convicions in FBI cases of all kinds during he 1950 fiscal year, a six per cent increase over 1949.

Change in Army Rules

PRAGUE, Czechoslovakia, July 13. (AP) — Communist President Klement Gottwald today issued a decree wiping out all prewar Czech army regulations and replacing them with new ones inspired by Soviet experience.

Philippine Drive

MANILA, July 13. (AP) — Philippine ground forces today began a major offensive against 500 Hukabalahaps reported hemmed in near Batangas in southern Luzon.

The next time you serve green snap beans, add a little savory to them along with the butter or margarine, salt and pepper. Another herb that is particularly delicious with tomatoes is basil.

After roasting a duck use the leftover fat to pan-fry meats in a highly-seasoned sauce, or in a savory vegetable dish.

Texas Census Figures May Show More Than 7,500,000

All that is necessary is for Harris County—which includes bustling Houston and its populous suburbs—to exceed 620,000.

Harris County is expected to pass that figure. The preliminary nose-counts for Harris County and Houston are expected to be announced in a few days.

Here's the way the situation sizes up:

Bexar (San Antonio) county's preliminary 1950 population was announced today as 496,050.

Add that 252-county cumulative total of 6,387,188 to Bexar County's 496,050 and you get 6,883,238. That's just 616,762 short of 7,500,000.

There is another factor: The preliminary figures for counties are revised from time to time, always upward, as "missing persons" are corralled by the Census Bureau. Further, all figures now being announced are preliminary. The final, official figures will come much later from Washington. Additional revisions which show up in the Washington announcement are much more likely to show additions than subtractions.

U. S. JET PLANE ATTACKS RED TANK —A U. S. F-80 jet fighter sprays the ground around a North Korean tank, circled, with machine gun fire in the area south of Suwon in this picture taken by Photographer David Douglas Duncan of Life Magazine. The plane carries two 5-inch rockets, one under each wing. The tank was blown up by the rockets which were released on a second pass over the Red vehicle. Duncan flew on the jet mission in the front seat of a T-33, a plane designed for training jet pilots. The F-80s carry only a pilot. (AP wirephoto).

U. S. Agents Awaiting Ochoa In Mexico City

MEXICO CITY, July 13. (AP)—Federal agents waited at the Mexico City airport today for George Ochoa, arrested in Mexicali to face indictments.

An extradition request for Ochoa is now being translated in the foreign office. Meanwhile, the Mexican attorney general asked Baja California territorial officials to turn him over to federal authorities while the extradition process continues. Ochoa was reported en route here from Mexicali by plane, indicating the federal agents already have him.

Ochoa, a Laredo, Tex., customs broker, is accused of having shot two men in Laredo last fall.

Shooting Erupts Again in Near East

TEL AVIV, Israel, July 13. (AP)—One Israeli water patrolman was reported killed and another wounded by Syrian gunfire on the Sea of Galilee yesterday.

An army spokesman said Syrians opened fire on the Israeli vessel while she was assisting a second patrol boat whose propellors were caught in Syrian fishing nets.

He added that three of the second craft's crew were missing, apparently arrested by Syrians.

The National Geographic Society estimates the population of Lhasa, capital of Tbie ta,t perhaps 50,-capital of Tibet, at perhaps 50,-000.

Walter Ellerd Platform Is Completion of Father's Work

The youngest figure on the county political scene is Walter Ellerd, candidate for commissioner of Precinct No. 4.

Ellerd, 24 years old, was born in Abernathy, Tex., April 3, 1926. His family moved to Scurry County in 1927 and he has lived here ever since. He attended school at Dunn, graduated from Snyder High School, and attended Texas Technological College. He is a veteran of overseas duty during World War II.

Never married, he is living on a farm southeast of Snyder with his mother. He has had four years experience in office work and business administration. He has been a member of the Masonic Lodge for the past three years.

Ellerd's father, the late Henry Ellerd, was commissioner of Precinct No. 4 at the time of his death, in May of this year.

In announcing his candidacy, Ellerd submitted his father's record and said that he would attempt to finish the work that his father had started.

He said that his father had planned to build caliche roads in the black land districts of the precinct, particularly on school bus routes and mail routes, and that if elected he would attempt to complete the work. He said his father asked him shortly before his death to see that his plans for Precinct No. 4 were completed.

"If elected," he said, "I will feel that the people of Precinct No. 4 will have paid a great tribute to my Dad in granting him one of his last requests. And if elected, I will work as diligently and as carefully as any man could possibly work at any job."

Ellerd said that although Scurry County has one of the richest oil fields in the world, oil companies are sapping the county of its richest resource and that if elected he will join the other commissioners in keeping a careful watch to see that their property is rendered at a fair value.

"I hope that every voter will remember that a higher valuation on oil property will mean lower taxes for the farmers and business property owners to pay," he said.

He says that he does not believe the county has been given a fair portion of the farm-to-market roads in the past, but that he thinks that by hard work on the part of the commissioners it will get a fair portion in the future.

Ellerd's opponents are Doyle Parmer, recently appointed to complete the late Henry Ellerd's term, Wayne Rogers and Simon Best.

Candidate for commissioner from Precinct No. 4 — Walter Ellerd.

Lt. D. C. Gates of Joinerville, Tex., above, was the first to report finding the bodies of U. S. soldiers with their hands tied behind their backs and shot through the head in territory recaptured from the North Koreans. Gates, an officer in the Pacific during World War II, reenlisted in the army and was re-commissioned after going to Japan three years ago. (AP wirephoto).

Forty Injured In Train Wreck

PAYNESVILLE, Minn., July 13. (AP) — A SOO line special train carrying 225 eastern vacationists to Canada sideswiped a freight train here today, injuring approximately 40 persons.

Preliminary examination indicated only five or six were injured seriously. All were treated aboard the train or in doctors' offices here. Arrangements were made to take the passengers to Minneapolis.

The 15-Pullman train had left Minneapolis at 1:30 o'clock in the morning. It carried Ohio and Atlantic seaboard hardware men and their wives, bound for Banff, Canada, en route to the National Retail Hardware Assn.'s convention in Seattle.

C. A. Pope, SOO line vice-president, said an eastbound freight train was backing into a siding near Paynesville when the vacation special arrived, that about four feet of the freight locomotive had failed to clear the main line, and that the passenger train ripped along the side of the freight.

FOR SALE

To the discriminating person who wants a larger home and doesn't want the nervous strain and worry of building during these times of too high costs on inferior materials and workmanship, I have a lovely 2 story brick house, with 4 bedrooms and bath upstairs, living room, dining room kitchen, breakfast room, et cetera down stairs. Has a double garage with quarters over the garage for servants. This home is situated on ½ block of ground, has 300 feet of frontage. Due to the fact that owners have not lived in house but very little during past several years and during that period it was rented out the house is in need of repairs. Home is within a block of high school and junior high school.

For the investor, this house can be easily converted into four apartments and has ample grounds on either side to build additional large rental units.

This property will be sold at a bargain price because the owning family lives elsewhere and are desirous of getting it "off the books". Will show this home by appointment only. No curiosity seekers or agents please.

Equalization Board Hearings July 24, 25

Hearings on city tax valuation will be held July 24 and 25, Lloyd W. Berry of the city tax office announced today.

Taxpayers will be asked to meet with the board of equalization to discuss valuation of their property and determine whether is should be adjusted.

Berry said the first day would be devoted to out-of-town property owners and the second day to local taxpayers. If more than one day is needed, the hearings will continue until work is complete.

Last year's valuation was $2 million. The city's tax rate is $1.50.

RED TANKS KNOCKED OUT—Two thirty three ton North Korean Russian-made tanks knocked out somewhere in the American sector on the Western sector of the front in South Korea. It is believed these tanks were disabled by Allied air attacks. (AP wirephoto via radio from Tokyo).

Navy Estimates Russian Fleet Of 800 Vessels in Pacific

By ELTON C. FAY
AP Staff

WASHINGTON, July 13. — Russia is believed to have an assorted collection of about 800 naval craft deployed near the Korean war area—including between 70 and 80 submarines.

Naval sources here figure htat perhaps a third of this school of submarines are the new XXI snorkels.

Although the 800 total estimate is numerically big, there is no present evidence that it comprises anything like a balanced naval force. Those studying the situation believe many of these vessels are small craft of various types and that certainly nothing bigger than cruisers are in the area.

NO CARRIERS

So far as can be determined, the Russian navy still possesses no aircraft carriers.

One unknown factor seems to be how many of the smaller Soviet vessels may be landing craft or types that could be used in emergency for an amphibious operation.

The presence in the Far East of any sizeable number of landing craft could be of grave concern to American forces. They could be used to provide an amphibious "lift" for North Korean flanking operations down the South Korean coast lines. Or they might some day be used in an attempted operation against the American defense bastion in Japan, should Russia and the United States fall into gloves-off war.

However, it is the Russian submarine force that is drawing most U. S. attention.

MAIN JOB

As deployed, the Red sub fleet in the Far East seems to have as its main job the potential duty of cutting the Asiatic - Indonesian lifeline along which the United States would send help in event of general war in the Orient.

An almost equally important mission is to carry on reconnaissance of American and British naval ship, transport ship and air movement in the Western Pacific and the inland seas bordering eastern Asia.

If there have been any sightings of suspicious actions by Russian submarines in those waters, the Pentagon has kept it secret.

The Red navy apparently is basing its Far East submarine fleet at few major ports, in the Soviet-con- a number of ports, rather than a trolled areas.

The reason for this may not be dictated entirely by strategy. The dispersal probably is caused in part by the fact that harbor facilities are limited at any one port.

HARBORS

The bases used by the Red subfleet are believed to include the excellent ports of Darien, in Manchuria, on the Yellow Sea; harbors on Sakhalin Island, directly to the north of Japan; the big base of Vladivostok; Okhotsk, a port in the northwest corner of the sea of same name; naval installations along the Kamchatka Peninsula and to the north along the Siberian mainland.

The latter two areas face, at easy cruising range, the United States' Aleutian Islands, the outermost of which Japan seized easily at the beginning of World War II.

Russia's far eastern submarine fleet is part of a total force estimated to run as high as 350 submersibles of types ranging from old wartime models to the latest snorkels.

(A snorkel is capable of running underwater with its diesel engines swiftly and for long periods by use of an extended "breathing" tube to the surface.)

The United States has indicated plainly it is thinking seriously about the submarine menace in the Western Pacific. Within the last few days the Carrier Bataan left for that area. The Bataan had been converted from a strictly combar carrier to a specialized type for launching submarine-hunting planes.

Town's Only Policeman Says No To Swing Shift Proposal

JAMESBURG, N. J., July 13. (AP) —Police Chief Harry L. Hubbs — the only full-time policeman in the borough — was fired last night for refusing to work the midnight-to-9 o'clock morning shift.

But he can stay in his apartment, which is in the Borough Hall, until November — provided he or his wife or children answer the police telephone.

The telephone is in the apartment.

They didn't take his badge away.

He owns it. He also owns the police car and the police department revolver and billy club.

Hobbs, a grandfather who has been most of the Jamesburg police department since 1935, was ordered April 5 to go on patrol duty nightly for five hours starting at midnight, in addition to taking phone calls during the 19 hours.

He stayed in bed and transferred wee-hour police calls to the mayor's house.

So a month later they suspended him and took away his $42 weekly salary.

This week end Hubbs had a hearng in which he told how endless are the duties of a one-man police force (they include helping the dog-catcher) but they said he wanted his job back anyhow.

But the three Democras on the borough council voted to find him "guilty" of not being on the job. Two Republicans voted for acquittal.

Last night, with the same split in the council, he was voted out of his job. Hubbs is the Republican candidate for sheriff of Middlesex County.

Long Delays In Plane Production Are Foreseen

NEW YORK, July 13. (AP) — The delays in plane production —worse than in World War II—lie ahead if the heat is turned on.

The progress of science is the cause.

"If the aircraft manufacturing industry of the United States were called upon now to start an all-out production effort," the Times said, "it would take 10 months longer to reach an annual output rate of 50,000 planes than it did in World War II."

The story, written by Frederick Graham, said "it took exactly 24 months to reach the goal after the late President Franklin D. Roosevelt in May, 1940, called for a total plane production of 50,000 units a year."

"If a similar effort were started now," the story stated, "it would require 34 months to reach the target figure."

This situation exists, Graham wrote after a survey, "despite the ready availability of more than a score of stand-by aircraft manufacturing plants built for World War II, a vast store of machine tools now in 'mothballs,' a huge stockpile of materials and a reservoir of trained personnel."

The story added:

"Key men in the aircraft manufacturing industry say the longer time required now to build up to 50,000 planes a year is easily explained: The modern warplane is about twice as heavy as its World War II counterpart, and because it is infinitely more complex, it requires about twice as many manhours to build. . ."

TRAFFIC JAM ON NARROW KOREAN S TREET—Typical of the narrow, dirt roads which have slowed down movement of U. S. motorized equipment to the Korean battle-front is this muddy street through a South Korean village. Vehicles are virtually at a stand-still in this picture taken by Photographer Carl Mydans of Life Magazine. (AP wirephoto).

Monahans Officials Check Admission of 1931 Robbery

MONAHANS, July 13. (AP) — A blond man's tale of bank robbery was being checked today.

The 38-year-old man turned himself over to Sheriff W. B. McNerlin in Monahans yesterday and said he was wanted for a bank robbery in Havana, Ark., 19 years ago. Sheriff McNerlin identified the man as Stanley E. Hedrick.

"My conscience has been hurting me all these years. And I'd do anything to get something done about my eyes, even if it means going to the pen," he told the sheriff.

He said he had been blind for 13 years from an inherited disease.

The sheriff and Hugh P. Cooper, editor of the Monahans News, heard his story.

He said he and another fellow gained $900 from the bank robbery in Arkansas late in 1931; he didn't remember what month. He also said he was involved in post office robbery at Quitaque, Briscoe County, Tex., in 1932 when he and another fellow got $300.

Sheriff McNerlin held him in jail while he checked the story.

Hedrick said he was born in Paris, Tex.; that he was married to a girl from Quitaque in 1933, and that his wife and two children—six-year-old and 10-year-old boys—now live at Pyote.

He told the sheriff he had been acquitted in the slaying of Harvey Bolin of Plainview in a trial at Portales, N. M., in 1931.

For 19 years, he said, he has worked in Texas at various jobs—as a truck driver and mechanic. For the past six weeks, he said, he had been working as a mechanic at a garage in Pyote, near here.

Passengers Unloaded From Grounded Cunard Franconia

QUEBEC, July 13. (AP) — Tugs and launches shuttled the St. Lawrence River early today removing 780 passengers from the 20,000-ton liner Franconia which rammed into a shallow reef during the night one mile out of Quebec.

The veteran Cunard-Donaldson cruise ship hit the shallows at Pointe Ataurea at 8:45 p.m. (EST) 45 minutes after clearing Quebec port en route to Liverpool. A company spokesman said no details could be given as to what caused the accident, but that a statement would be made soon.

NONE HURT

Passengers, many of whom were attending a movie when the big ship hit, said there was a "terrifying jolt," but no one appeared to be injured.

The Franconia's lights glittered as the flotilla of small craft played back and forth unloading passengers.

Wittnesses said her plow was tilted up on shore, with more than 15 feet of her hull beneath the normal water line showing.

The big ship grounded within plain view of many summer residents on the Isle of Orleans.

BIG NOISE

"It seemed as if suddenly the ship was swung at starboard away from the island to avoid the crash," said Joseph Gregoire, manager of the Bellevue Hotel at Belair's wharf, "but then it happened. The ship ploughed aground with a terrific roar."

Some witnesses said that at the time of the grounding the ship was passing another vessel.

Other witnesses said that soon after the crash they heard the ship's orchestra strike up a tune and those aboard began singing.

Veteran Visits All 280 Buddies

DOYLESTOWN, Pa., July 13. (AP) —Gunther (Joe) Pretsch of nearby Blooming Glen is satisfied today that he visited his wartime buddies—all 280 of them.

He left home 28 months ago in a battered army jeep.

To talk with 280 of the men who had served with him in Eutre rpe,s chat relevd5m iles8,000o rope, Pretsch traveled 58,000 miles into 39 states, Canada and Mexico.

Pretsch said he picked apples, drove trucks, cooked, sold fishing equipment, cantaloupes and watermelons and shoveled 80 tons of salt to help defray expenses.

He estimated the visits cost nearly $5,000.

C. Francis Jenkins, who pioneered in television research in the 20's, gave his first demonstration in 1925.

Hospital Notes

Admitted to Snyder Hospital clinic yesterday were:

Margaret Nell Steel, Dermott.
W. L. Clawson, Clarks Trailer Court.
Gene Mason, Redwood Courts.
William Franklin Stovall, Central Hotel.
Mrs. Norman Vicars, 3108 Avenue B.
Mrs. Pat Malone, Tourist Hotel.
Mrs. D. B. Ringena, Magnolia Products Camp.
John Russell, 1306 Thirty-first.
Mrs. R. E. Caraway, 2706 Avenue M.

Discharged yesterday were.
Gene Mason, Redwood Courts.
Margaret Nell Steel, Dermott.
Frankie William McDonald, Sweetwater.

Last Defendant Of Scottsboro Case Goes Free

DETROIT, July 13. (AP) — The last of the nine Negro defendants in the Scottsboro (Ala.) rape case of two decades ago will be given his freedom today.

The government decided to ask dismissal of a fugitive charge against Haywood Patterson, 38. A hearing on the charge was scheduled before U. S. district Judge Arthur F. Lederle.

Asst. U. S. Dist. Atty. James S. Sqltesz said Alabama authorities told him they would drop proceedings against Patterson in view of Gov. G. Mennen Williams' refusal to allow extradition.

The FBI had picked up Patterson here on a charge of fleeing Alabama to avoid imprisonment.

Gov. Williams, in refusing extradition yesterday, said " all of the others involved in the Scottsboro case were released from prison some years ago." He added, "I can see no justifiable reason for returning Patterson to prison."

Patterson and eight other Negroes were arrested aboard a freight train at Paint Rock, Ala., in 1931 on charges of raping two white women. One woman later repudiated her story. The United States Supreme Court twice reversed the death sentence given Patterson and affirmed a 75-year term.

Legion Can't Make It Work

MILFORD, Conn., July 13. (AP) —The American Legion said today it isn't going to put on any more Fourth of July fireworks displays here unless the spectators show more appreciation than they did this year.

The Legion passed the hat among an estimated 5,000 persons at its display last week and this, it said, is what we got:

Eighty-nine dollars in cash; 93 bus tokens, no good since bus fare went to a straight 10 cents more than a year ago; as sorted nuts and bolts, and four and a half pounds of pebbles.

YONKER RESURFACED

YONKERS, N. Y. — (AP) — The half-mile harness track Yonkers Raceway, has been resurfaced and will be in good condition for the 22-night summer meeting scheduled for August 15-28.

Mr. and Mrs. Harold Heath returned this week from a tour of the Western states and Canada. They planned to leave Snyder tonight for Seattle where they will live. Mr. Heath formerly was connected with the Snyder Hospital.

Phils and Cards To Start Important Series Tonight

By The Associated Press

The chips will be down tonight when Philadelphia risks its hard won first place in the National League against the second place Cardinals in the opening of a vital three-game series at St. Louis.

This is the big game of the day as the majors return to family feuding after the all-star melodrama, although an important series opens tonight also at Yankee Stadium.

INDIANS CHALLENGE

Cleveland's Indians, a game and one-half back of the second place New York Yankees in the American circuit, have a three-game job at the stadium. The injury-riddled Yanks are three games back of the league-leading Detroit Tigers, who meet the Senators at Washington in another night tussle.

But the Phillies vs. Cardinals affair dominates the scene, and upon the outcome rests temporary leadership in the National loop. The amazing Phillies, holding a one-game edge over St. Louis, are expected to shoot Curt Simmons (10-5) against Howie Pollet (9-5) in a battle of southpaws.

Both the Phils and Cards have to take into consideration the fast-stepping Boston Braves, slamming along in third place only two games out of the lead.

Billy Southworth's boys are in Cincinnati for a night game with the Reds, and Johnny Sain with a 12-5 record is due to be on the mound for the Beantowners.

The Brooklyn Dodgers, in fourth place four and one-half games back of Philadelphia, meet the ever-troublesome Cubs in Chicago.

Preacher Roe, with a 10-4 mark, is scheduled for duty against the Cubs. For Brooklyn, it brings up a major mid-season question. Can the Bums bounce back after sticking up near the top for most of the first half of the season?

In the American League, the hospital list is drawing as much attention as the schedule, which sees the four Western clubs in the East.

WILLIAMS OUT

The loss of Ted Williams, who may be out for the season because of a left elbow fractured in Tuesday's All-Star game at Chicago, is a stiff blow to the Boston Red Sox. They meet Chicago in Boston tonight.

The Yankees also are consulting the physicians, with Joe DiMaggio, Yogi Berra and Hank Bauer doubtful starters against Cleveland.

DiMaggio aggravated a groin muscle in the All-Star accident ward contest. Berra banged his knee at Boston 10 days ago and has been limping since. Bauer has a jammed ankle. In addition, the Yanks have had only spot service from Tommy Henrich for weeks due to his trick knee.

Detroit's Freddie Hutchinson (9-5) is scheduled to oppose Sid Hudson (8-7), at Washington, where the Tikers hope to make some pennant hay before coming in to Boston and New York later next week.

Odessa Smashes Roswell 9-2 To Increase Lead

By The Associated Press

The Odessa Oilers did all the good last night in the Longhorn League — they smashed second place Roswell, 9-2, to stretch their lead to two and one-half games.

The Big Spring Broncs, in third place, handed Midland an 11-4 trouncing on a muddy diamond. Vernon blanked Sweetwater 11-0, and the San Angelo-Ballinger game was washed out.

The Oilers collected four runs in the first frame on five hits and an error, from there on it was easy. Al Sokolowski scattered nine Roswell hits to post his 13th victory against four losses.

Big Spring spotted Midland three runs and then roared back with a 12-hit attack. Jim Prince homered for Midland.

Dick Tross gave Sweetwater a stingy three hits as his Vernon mates picked up 11. The Dusters made four runs in the fourth on four hits and Cotton Russell's three-run double highlighted another four-run outburst in the fifth.

Corpus Moves On Top Of Harlingen After Whipping Del Rio 8-5

By The Associated Press

Corpus Christi pulled out a full game ahead of the Rio Grande Valley League field last night as it mauled Del Rio, 8-5.

Harlingen, previously in a virtual tie with Corpus Christi, took a 10-9 lacing from last place McAllen. Laredo Blanked Brownville, 4-0.

The Aces pounded out 11 hits and made three double plays in their victory over Del Rio. Tony DiPrimio hit a homer for the Aces with two on.

McAllen pounded three Harlingen hurlers for 10 hits and an equal number of runs. Harlingen collected 14 hits, but failed to make them produce the tallies. Hal Jackson received credit for the victory.

Pio Valdez, 19, hurled the whitewash job for the Laredo Apaches. He gave up only five hits while his mates collected seven. Laredo Catcher Suarez homered.

Roughnecks Edge Fort Worth 3-1 In Extra-Innings

By BILL HITCH
Associated Press

Those third place Beaumont Roughnecks showed little respect for Texas League leading Fort Worth last night as they whacked them, 3-1, in 10 innings.

The San Antonio Missions edged past Oklahoma City into fourth place with a 4-3 win over Tulsa. Houston thumped Oklahoma City, 6-2, and Dallas overpowered Shreveport, 12-1.

The Roughnecks and the Cats battled on horse collar terms until the top of the eighth when Dick Williams homered to put the Cats in front. Beaumont tied the score in the bottom of the ninth on two singles, a hit batsman, tallying on a double playball.

Zeke Melignano, who relieved Ernie Nevel to start the tenth, came up in the bottom of that frame with Jess Landrum on first. Melignano stroked a 345-foot homer over the palings to take the victory—his eighth of the season.

The Missions blew a three-run lead and then came back strong in the eighth to score a run and edge the Oilers. Jim Dyck scored the winning run on Charlie Grant's infield out after tripling. Angelo Nardella set the Oilers down with only five hits for his second victory against two defeats. Bob Curley went the distance for Tulsa, giving up 10 hits.

The Houston Buffs hung up their second straight win as they belted two Indian hurlers for eight hits and put down a belated Indian rally.

The Dallas Eagles got hit happy at Shreveport—slamming out 16 hits as Wayne McLeland garnered his 13th victory against three defeats. Lynwood (Schoolboy) Rowe started for the Sports but was shelled from the mound in the second as the Eagles grabbed a six-run lead in the first two frames.

The same teams play again tonight.

Maxwell Still The Favorite In Jr. State Meet

SAN ANTONIO, July 13. (AP)—Second and third rounds of the 24th annual state Junior Golf Tournament were scheduled today with medalist Billy Maxwell still the favorite.

The Odessa golfer yesterday turned back Aureliano "Bud" Urrutia of San Antonio, 3 and 2.

A couple of minor upsets in the first round were Wesley Ellis, Jr's 4 and 3 victory over Joe Conrad of San Antonio and J. C. Goosie's 3 and 1 decision over a fellow San Antonian, Billy Erfurth.

Frank Wear, Jr., of Paris, whipped Bert Weaver, 1 up; Sammy Reynolds of Wichita Falls downed Julian Oates, Waco, 3 and 2, and Bob Moncrief, Houston, beat Ken Burnette, San Antonio, 3 and 1.

John Weaver of Houston needed five extra holes to oust Stanton Mosel, San Antonio.

DAUGHTER LIKE FATHER

SUNBURY, O. — (AP) — Carole Southworth, manager of the Boston girl in her first year of high school She has won cheer leader letters for football, baseball and basketball at Sunbury High. She also plays shortstop on the school's girls team. Her father is Billy Southworth, manager of the Boston Braves.

DROPO IS TAGGED OUT ON RUN-DOWN—How Walt Dropo (3) of the American League All-Stars was trapped, run-down and tagged between third base and home plate in the fourth inning of the game played in Chicago is shown in this series made by a sequence camera. At left National League catcher Roy Campanella (39) runs, tosses ball (arrow) to Willie Jones, National League third baseman. At the right Jones tags Dropo as latter tries to evade him. Umpire is Babe Pinelli. The National League won, 4 to 3, in 14 innings. (AP wirephoto).

LaMotta To Fight Robinson After Easy Win Over Mitri

NEW YORK, July 13. (AP) — Another Jake LaMotta-Ray Robinson fight was in the making today following the middleweight champion's easy conquest of Italy's Tiberio Mitri.

La Motta was due to step in to the offices of the International Boxing Club some time this afternoon to pick up a check of around $33,700 and to discuss plans for a sixth scrap with the welterweight king.

The Bronx bull paved the way for that encounter by belting out a 15-round unanimous decision over Mitri in Madison Square Garden last night.

It was like old times in the palace of sock as a surprisingly large turnout of 16,369 paid $99,841 and rocked the roof with cheers. It was the biggest Garden fight gate in a couple of years. There was no radio or television broadcast.

La Motta will cut into a richer pot than that if he signs to take on Sugar Ray outdoors in September.

Abe Greene, commissioner of the N.B.A., said the champ had agreed in writing months ago to defend his crown against Robinson within 90 days.

"Of course Robinson has his own title fight with Charlie Fusari in Jersey City Aug. 9, but if he gets by that, La Motta and Robinson should be able to get together by September," said Greene.

La Motta won only one of his five bouts with Robinson but all except one were very close.

There was no doubt about last night's decision. You could almost see La Motta, a shrewd businessman, counting the house as he started with Mitri. He hasn't looked that good in years. Making 159 pounds (Mitri weighed the same) didn't bother the champ at all.

He won just about as he pleased over the previously unbeaten invader. He made the handsome, 24-year-old Italian fight the La Motta way and the end result was a pair of unhandsome shiners for Mitri and hardly a scratch for the bull.

The officials voted for the 29-year old La Motta this way: Referee Mark Conn, 12-3; Judge Joe Agnello, 9-6; Judge Bert Grant, 8-7. The AP scoreboard had the champ in front, 9-5-1.

Mitri will get around $11,500 to console him for his shiners and broken record.

The bull, making his first defense since he won the crown from Cerdan 13 months ago, was a 5 to 8 1-2 choice.

TWO ACES

STATE COLLEGE, Pa., — (AP) — Jim O'Hora, a member of the Penn State football coaching staff, has joined his former chief, Bob Higgins, in the college's hole-in-one club. Jim's ace came on the 170-yard No. 3 hole. Higgins holed his tee shot four years ago on the 15-yard No. 6 hole.

Shirley France Starts Training At Dover Beach

DOVER, Eng., Jul 13. (AP)—Shirley May France slipped into the English Channel today for her first big workout of the season.

The 17-year-old Somerset, Mass., high school girl had fine weather and a calm sea for her 18-mile training swim. She is here to train for another try at swimming the channel from France to England — 19 miles as the crow flies — sometime next month.

She tried and failed last September.

"Today's will be quite a good swim, considering she hasn't had much training," her coach, Harry Boudakian, said before Shirley, lightly greased, plunged into the sea from a rowboat about four miles off the Dover cliffs.

Boudakian manned a rowboat while Capt. John Burwell, Dover pilot and channel swim expert, and Shirley's manager, Ted Worner, chugged along in a motorboat.

Lamesa Takes Over First Spot From Hubbers

(By The Associated Press)

The Lamesa Lobos forged into first place in the West Texas-New Mexico League last night as they whipped the Lubbock Hubbers 6-5.

The defeat put the Hubbers in second place, one-half game behind the fast-moving Lobos.

The Lobos snuffed out Hubbers threats in the eighth and ninth innings to gain the victory. Lamesa took a 2-0 lead on Jodie Beeler's homer in the first, but Lubbock scored three times in the third to go ahead. The Lobos tallied three times in the fifth to regain the lead and give Eulis Rosson his 15th mound win of the season.

Political Office Announcements

The News is authorized to announce the following candidates for office, election to be subject to action of the Democratic Primary Saturday, July 22.

For State Representative, 118th District:
STERLING WILLIAMS
N. C. QUTLAW

THE SNYDER DAILY NEWS

VOL. I—No. 55 SNYDER, TEXAS, THURSDAY, JULY 13, 1950 SECTION TWO

It's picnic time again, and hundreds of Snyder residents are braving the insects and the numerous other disadvantages of eating out of doors in order to enjoy the summer ritual. Shown above, left to right, are Lloyd Gilbert, Tommy Watson, Mrs. Tommy Watson, Mrs. Gilbert, and their children. (J. Lawrence Devers photograph).

TALK OF THE TOWN

BY FRANCES BIOW

HERB INGRAM, with admirable taste and timing, built a western restaurant east of town, planted some prickly pear cacti in the window boxes, and brought French-fried onions to Snyder. Sage and Sand made an instant hit. The crisp curliques went down mighty easy with that zesty sauce washed over barbequed ribs. You kept seeing more and more of your friends. Finally, after one more satisfactory repast there, I screwed up my courage to ask for the popular onion recipe. I got it, and here it is.

Mr. Ingram warns that he cooks in quantities, using a large, expert fryolator, and for a quiet foursome at home you won't go in for such a batch. He cuts slices approximately ½ inch thick. An onion, he explains lovingly, is like a tree; it has circles in the grain of it. These circlets he, or a helper, painstakingly "ring." This process leaves the circular curls you like to crunch on. The batter he dips the rings into is made of 4 quarts of milk, 10 cups of flour, 3 cups of sugar, and 1 dozen eggs, beaten. After dousing the ringlets gently into this batter, he flips the onion through flour again and into the furiously boiling grease (400-450 degrees) in the fryolator. This electrical gadget holds 2 pounds.

* * *

"We use between 150 and 200 pounds of onions in the raw daily at the place," he said. Where did he come by this much-appreciated dish? This question launched him on tales of his wanderings with Mrs. Ingram. They've been about everywhere. They were sitting in Sanborne's, the famous restaurant in Monterrey, Mexico, which attracts gringoes from New England to Eagle Pass. The fried onions were served. That dit it! Back to the kitchen he flew and had wrangled the recipe from the chef in really very short order, considering its value and the fact that he didn't speak Spanish.

"I am always looking for something new in cookery, wherever we travel," Mr. Ingram went on. "We dined at the Waldorf Astoria (you don't eat there, you DINE), and that dessert caught my fancy. It's called Bird's Nest, and I have plans of importing it to Sage and Sand, giving Snyder a break." The chef in the kitchen at the Waldorf apparently took the recipe request in his stride, as Mr. Ingram now has it in his possession. The best I can describe it, as he described it, is this.

* * *

Mr. Ingram says you spin some maple or brown sugar. (If you need to ask how one spins sugar, then this recipe is way out of your league.) This dessert treat should be served in a silver container or at least a deep, fanciful bowl. Nest all the rest to follow in your spun sugar. You drop in black cherries, applying a generous heaping of ice cream atop it all. THIS is Bird's Nest. Watch for it, Sage and Sand!

* * *

At Kiwanis luncheon, Country Club dining rooms, yesterday, FRANK STEVENSON demonstrated the ingenuity which has sold radiators for him through the years, I guess. Passing around a piggie bank, brought over by La-mesa Kiwanis brothers, he said, "Everybody wearing shoes put a dime in it!"

* * *

Mr. and Mrs. E. J. Richardson, Sr., and son, George Richardson, have just returned from a trip to Del Rio, Uvalde, San Antonio and parts of Mexico. Mr. and Mrs. Richardson are both on vacation from their posts at the Fair Store.

Mr. and Mrs. Don Green recently married, are now established in their new home on the premises of the Economy Builders Co., La-mesa Highway. Mr. Green, with his father, Tom Green, owns Economy Builders, and will be directly associated with the business now.

* * *

MRS. MYRON ROE, at 3107 Avenue U, offers better advertisement than her husband's business, Roe's Home & Auto Supply, could get from radio, newspaper, or sky writing. She simply had installed one of the air conditioners he sells. It cools the house with a gusty energy that is most welcome on a brow-mopping day. You're almost tempted to go down and buy one like it.

D. A. McClatchy, who owns the McClatchy Bros. Trucking firm here, was in town on business this week. He lives in Wink, Tex.

Mrs. C. M. Phillips, of Levelland, was in town this week, visiting with her mother, Mrs. Gladys Matheson.

Newcomers' Club To Meet Next Week

The Newcomers' Club will meet July 21 with all branches of the club present to hear a speaker and engage in business discussion. Mrs. Jack Morgan, program chairman, announced.

Meeting at 2:30 o'clock at 1111 Thirty-first Street, all members are reminded that dues are to be turned in and also a charge of fifty cents will be made for refreshments.

Speaker for the event has not yet been announced.

Miss Joyce Harrison, daughter of Mr. and Mrs. R. A. Harrison, 2208 Twenty-eighth Street, has returned from a short vacation trip to Austin.

End of U. S.-Mexican Trade Pact to Affect Whole World

WASHINGTON — Termination of the trade agreement between the United States and Mexico on Dec. 31 will affect traders all over the world and raise import duties on many things bought by American consumers—such as gasoline and tomatoes.

When any trade agreement lapses, all of the American import duties which had been lowered by that agreement go back up to the rate established in agreements with other countries. If the rate on a particular import has not been set by some international agreement, the rate which will then control is that one established in the U. S. Tariff Act of 1930.

When the U. S.-Mexican agreement was signed in 1942, the U. S. lowered its rate on about 40 classes of items on which Mexico sought concessions. When the rates went down, all countries in the world got the benefit of the new low duties. That's a part of the "most-favored nation" policy, under which tariff reductions are made to apply to all nations.

When Mexico found that its dollar balance was dwindling it decided it needed higher tariffs to protect home industries. Mexico and the U. S. tried for two years to work out some new trade agreement which would be mutually satisfactory, but they finally gave up and announced a joint denuciation of the treaty on June 23.

Then the U. S. Trade Commission went to work revising upward all of the duty rates which had been lowered by the 1942 Mexican agreement. The chief items in the United States' $231,000,000-a-year import trade with Mexico are lead, petroleum, zinc, cocoa, fibers for cordage and tomatoes and other fresh vegetables. These were the principal items in which Mexico was interested when it negotiated the treaty in 1942. Other nations, however, exported to the U. S. as much or more of some of these items. And they too got the benefit of the tariff reduction.

The item creating the most excitement now among foreign traders is petroleum. Under the Mexican agreement, the import tax was only ¼ cent per gallon on a quantity of petroleum equal to 5 per cent of the total U. S. refinery production for the previous year. This amounted to about 97,000,000 barrels in 1949. The remaining import, of about 109,000,000 barrels, was taxed ½ cent per gallon. Now all petroleum imports will be taxed ½ cent rate. This rate was established in the next most liberal trade agreement—that with Venezuela in 1939.

Hardest hit will be Venezuela, which in 1949 sent to the U. S. 51.06 per cent of all U. S. petroleum imports. Other oil importers, in the order of their importance in the U. S market, are the Netherlands West Indies, Kuwait, Saudi Arabia, Colombia, Mexico and Iran. Mexico accounted for only 3.66 per cent of the total.

On the other big item, lead, the import duty will rise 100 per cent. Lead bearing ores, of instance will rise from 3-4 cent per pound to 1½ cents per pound. Canada contends with Mexico for first place among lead exporters to the U. S. So Canada is greatly concerned about this.

More will be heard of these import duties when the leading nations of the western world gather at Torquay, England, in September to spend the winter writing new trade treaties. The net effect of the termination of the U. S.-Mexican agreement will be to strengthen the bargaining position of the U. S. at Torquay, since several nations, such as the oil and lead importers, will be eager to sign new agreements with the U. S. which will at least restore the duty rates in effect during the life of the Mexican agreement.

Lobbyists Regulated

Chicago (AP)—Lobbyists now are regulated in 38 states. This was brought out in a survey made for the 1950-51 Book of the States, published by the Council of State Governments. The study showed:

"Twenty-nine states provide for the registration of all compensated legislative agents and counsels. In nine others, regulatory laws are limited to improper lobbying practices. Seventeen of the states requiring registration also require that lobbyists file statements of expenses paid, incurred or promised in connection with promotion of legislation."

All states have laws in force against offering or receiving bribes.

PERSONALS

Elwyn Weathers, son of Mrs. Alfred Weathers, 1011 Twenty-seventh Street, spent a few days this week in Lubbock, visiting his cousin, Jim Bob Cary.

Miss Violet Bradbury, who has been visiting here with Miss Thelma Leslie all week, returned Wednesday to her home in Abilene.

Mr. and Mrs. Burgess Wilson of Pecos, Tex., have been here visiting with Mr. Wilson's parents, Mr. and Mrs. B. F. Wilson, 2211 Twenty-seventh Street.

Mr. and Mrs. Hulon Stanfield are visiting in Texline and Amarillo with relatives. Mr. Stanfield is a pumper with Pan-American.

Mr. and Mrs. John Langford, Mrs. R. W. West, Miss Mary Moore, and Miss Mozelle Moore went to Sweetwater yesterday.

Attending a conclave of Texas school administrators in Austin this week are M. E. Stanfield and his family, superintendent of the local schools; T. D. Wiman and family, principal of the schools; and Elmer Taylor and family, business manager of the schools. Mr. and Mrs. Stanfield will continue on into East Texas for a two weeks visit.

Mr. and Mrs. Jim Moss, 3749 Avenue V, went to Big Spring Tuesday. Mr. Moss received some treatments for his eyes.

Mr. and Mrs. Norman Vicars, 3108 Avenue B, are parents of a baby boy born last night. Dr. Ward was the physician. Mother and son are still in the Snyder Hospital.

Mr. and Mrs. B. B. Regina who live at the Magnolia Camp, had a baby boy this morning at 2:14 o'clock, Dr. Ward attending.

Visitors in the home of Mr. and Mrs. M. H. Roe, 3107 Avenue U, are Miss Jo Rutherford, from Howard Payne University, Brownwood, and Miss Betty Adair, from East Texas Baptist College, Marshall. The girls are members of the Invincibles, sent by the Southern Baptist Sunday School Department to hold vacation Bible schools. Miss Rutherford and Miss Adair are having great success with their school, now being conducted at the Henry G. Spraggins Tent.

C. T. McLaughlin left yesterday for Fort Worth and Austin. He plans to return Sunday.

Mrs. Shelton Holmes, and children, 1303 Avenue R, went to Abilene this week visiting her parents, Mr. and Mrs. D. H. Goodnough. Mrs. Holmes also plans a trip to Baxter Springs, Kans., next week. She will remain there a week, visiting her aunt and uncle, Mr. and Mrs. A. G. Cook. Mr. Holmes, employed with Grimmett Sand & Gravel Co., will probably be unable to leave his duties to accompany the family.

Mrs. Lyman Yoder and Mrs. W. W. Adcock write their families that they are enjoying their trip to Galveston.

Miss Mary Frances Alford and Billy Alford, whose parents, Mr. and Mrs. E. P. Alford, 1506 Twenty-sixth Street, drove them to Colorado Springs to visit relatives, will be back to Snyder soon.

Mrs. Roland Bell, Jr., and Miss Kay Weaver left Snyder Tuesday, driving to Houston for a business and pleasure trip. They are expected back home tomorrow.

Mr. and Mrs. Loyce McCravey, 907 Twenty-seventh Street, have just returned from Yellowstone National Park and Malad City, Idaho, where they spent two weeks visiting Mr. McCravey's sister, Mrs. Edna Crane. Mr. McCravey is back at his job at Snyder Bakery. Mrs. McCravey at Bryant-Link's.

Miss Zaida Brown, high school teacher, has been attending the National Education convention in St. Louis, Mo., and has gone on to visit with relatives and friends in Illinois. Miss Brown will return to Snyder in August.

Mr. and Mrs. J. R. Joyce, 2805 Avenue M, have visiting them this week their daughter, Mrs. C. R. Templeton, from Tulsa.

Miss Alma Rollins, the consultant nurse from the State Department of Public Health, Austin, is in Snyder this week, working with the local city-county health unit according to Miss Leah Davis, health nurse.

R. B. Noble spent last week end in Wichita Falls on business. Accompanying him was his brother, O. B. Noble of Dallas.

Mrs. John Taggart, 2526 Avenue R, is now home again after a two weeks' trip to Wills Point, Tex., where she visited her sister, Mrs. G. W. Boswell.

Mrs. Warren Sturgeon returned by air Monday morning from Salt Lake City, after a three and one-half weeks' visit with her daughter and family, Mr. and Mrs. Lou Roberts and grandson, Fred Warren Roberts. Mr. Robrets has been ill, but has improved.

Mr. and Mrs. Floyd Gilchrist went to Abilene last week end, their former home. Mrs. Gilchrist is cashier at Snyder Drug. Mr. Gilchrist works at Burton-Lingo Lumber Co.

NEWS FROM FLUVANNA

BY MRS. C. A. DAUGHERTY

Leslie Surginer, of Washington, D. C., an engineer with the Rural Electrification Administration, spent Saturday in Fluvanna on business. Accompanying Mr. Surginer were his parents, who live in Floydada, Tex.

Mr. and Mrs. Walter Smith of Hereford, are visiting his mother, Mrs. Ruth Smith, and the John Glover family.

Mrs. L. W. Edwards of Hillsboro, Tex., is visiting in the J. M. Glass home.

Young people attending the First Baptist Church vacation Bible School had a hayride Thursday night.

Mr. and Mrs. E. C. Huckaby and daughter, Jan and Mrs. Freddy Peterson, of Lamont, Calif., visited Friday with Mr. and Mrs. Sandy Holder and family.

Mr. and Mrs. Herschell McIntyre of Abilene visited last week end with Mr. and Mrs. Bogue Forehand.

Mr. and Mrs. Glen Toombs of Lamesa visited with the Cullen Toombs over the week end.

Mr. and Mrs. R. B. Wills, Jr., of Lubbock, visited Mr. and Mrs. R. B. Wills, Sr., on the week end.

Mrs. Paralee Patterson is doing well since her return from Snyder Hospital.

Mr. and Mrs. E. P. Hedrick of Turkey, Tex., spent Sunday with Mr. and Mrs. C. A. Daugherty and Robert. Mrs. Daugherty and Robert returned with her parents for a week's visit.

BUSY BOY

NEW YORK—(AP)—Johnny Raueh, ex-Georgia star with the New York football Yanks, explains his delay in writing Coach Red Strader recently by pointing out that "I've been sort of busy attending classes at Georgia, coaching freshman baseball, running the Athens Country Club swimming pool, having a cyst removed, and helping my wife get organized after her appendectomy."

First pepper imported into the United States was landed at Salem, Mass., in 1795.

NOOR'S SIRE HERE, TOO

NEW YORK — (AP) —As though things weren't tough enough for America's thoroughbreds!

Nasrullah, Irish stallion purchased by an American syndicate from the Aga Khan for $372,000, has arrived in this country for breeding purposes.

The son of Nearco out of Mumtaz Begum is the sire of Noor, four-time conqueror of Citation, 1948 Kentucky Derby winner and the world's leading money winning thoroughbred.

Nasrullah is stationed at the Claiborne Stud at Paris, Ky.

Members of the syndicate include A. B. Hancock, Sr., and Jr., William Woodward, John D. Hertz, H. F. Guggenheim, George D. Widener and Mrs. Marion du Pont Scott.

How Hudson's exclusive recessed floor brings you

America's Roomiest Car!

HUDSON

Recessed floor ("step-down" design) brings the space between frame members, which is wasted in other cars, into Hudson's passenger compartment. This result in America's lowest center of gravity (and full road clearance), while providing more head room and seating room than any other car.

OTHER CARS

Floor is on top of the frame, so the vital space between frame members is not available for passenger use. The result is a higher center of gravity and either a high roof line or insufficient head room. Seats are narrower; passenger space is reduced.

WHAT a wonderful difference Hudson's exclusive recessed floor makes! Among other advantages, it provides more room than in any other car!

Hudson seat cushions are *up to 12 inches wider* than those in cars of greater outside dimensions. You'll find the most head room in any automobile. Even door and window controls are recessed for more elbow room!

Won't you accept our invitation to see Hudson—to discover how this new way to build automobiles makes a greater share of over-all size available for passenger room and comfort than is possible in any other car.

HUDSON

MOST ROOM! BEST RIDE! SAFEST!

The new, lower-priced Pacemaker brings you all of Hudson's great advantages for Just a Few Dollars More Than The Lowest-Priced Cars!

Hudsons, with recessed floors, their great array of high-quality, long-life features, and advanced design, are leaders in resale value, as shown by Official Used Car Guide Books!

Scurry Gets 36 Locations In Week, Leads in West Texas

Locations for 134 tests for oil, including 10 wildcats, were listed during the week June 25 to July 1 in 25 West Texas Counties. The preceding week listed 113 tests, including five wildcats, in 23 counties.

Totals for the first 26 weeks in 1950 became 2,241 in proven areas and 308 for wildcats, a grand total of 2,549. This is a weekly average of 98, up from 96.6 through the twenty-fifth week.

Garza County gained two wildcats, Andrews, Crockett, Reeves, Runnels, Scurry, Sterling, Terry and Tom Green Counties one each.

For the thirty-ninth consecutive week Scurry County led in field starters with 36, Pecos added 17, Runnels 12, Mitchell nine, Gaines seven, Cochran and Ector five each, Andrews, Hockley, and Kent four each, Garza and Midland three each, Borden, Crane, Crockett, Howard, and Winkler two each, Coke, Loving, Tom Green, Upton and Yoakum Counties one each.

ANDREWS COUNTY

Magnolia No. 1-K Cowden, 660 from south, 550 feet from west lines of northwest quarter of section 18-A52-psl; 8,700 feet, rotary. Dollarhide Silurian field.

Pure No. 71-C-A E. P. Cowden, 661 from south, 510 feet from east lines of section 16-A52-psl; 7,000 feet, rotary. Dollarhide Clear Fork field.

Pure No. 72-C-A E. P. Cowden, 661 feet from south and west lines of section 17-A52-psl; 7,000 feet, rotary. Dollarhide Clear Fork field.

Garret M. Smith No. 1 McWhorter, 660 feet from south and west lines of northwest quarter of section 8-A29-psl; 8,000 feet, rotary, wildcat, 10 miles northeast of Eunice N. M.

Stanolind No. 2-J David Fasken, 660 feet from north and west lines of northeast quarter of section 6-42-1n-T&P; 5,000 feet, rotary, Midland Farms field.

BORDEN COUNTY

Magnolia No. 2 H. H. Toombs, 660 feet from south and east lines of northwest quarter of section 52-25-H&TC; 7,000 feet, rotary, Reinecke field.

Rutherford-Beep No. 2-A T. L. Griffin, 467 feet from south and west lines of southeast quarter of section 59-25-H&TC; 9,000 feet, rotary, Reinecke field.

COCHRAN COUNTY

A&P Development Co. No. 9 Thrush, 467 from south, 440 feet from west lines of labor 4, league 61, Midland CSL survey; 5,000 feet, rotary, Levelland field.

A&P Development Co. No. 10 Thrush, 467 from south, 840 feet from east lines of labor 5, league 61, Midland CSL; 5,000 feet, rotary, Levelland field.

A&P No. 11-15 Thrush, 440 from north, 1,080 feet from east lines of labor 5, league 61, Midland CSL; 5,000 feet, rotary, Levelland field.

Alma McCutchen No. 25 Estelle Whaley McWhorter, 1,388.8 from north, 1,488.9 feet from east lines of labor 11, league 63, Midland CSL; 5,000 feet, rotary, Levelland field.

Skelly No. 3 F. O. Masten, 440 feet from north and east lines of labor 1, league 132, Carson CSL; 5,100 feet, rotary, Levelland field.

COKE COUNTY

Atlantic No. 4-AA Block 31 Joint Operation, 660 feet from south and west lines of northwest quarter of section 27-31-U, rotary, Block 31 Devonian field.

Humble No. 6-B Jax M. Cowden, 3,105 from south, 467 feet from east lines of Juan Cordona survey; 5,500 feet, rotary, Cordona Lake field.

CROCKETT COUNTY

Anderson & Starr of Midland No. 1 Stanolind-University, 330 feet from south and west lines of northeast quarter of section 22-42-Frank riend survey; 1,550 feet, cable tool wildcat, 13 miles north of Ozona.

Maleo Refineries, Inc., and others No. 2-A Isabel Vaughan, 330 from south, 1,093 feet from west line of section 6-UV-GC&SF; 1,500 feet, cable tools, Vaughan field.

Oliver & Kotyza No. 1 Blanks, 330 feet from north and west lines of section 24-Q-MK&T, abstract 4,818; 2,500 feet, cable tools, Shannon field.

ECTOR COUNTY

Amcan Oil Corp., Inc., No. 1-E B. H. Blakeney, 560 from north, 1,980 feet from east lines of section 22-44-1n-T&P; 6,500 feet, rotary, Goldsmith Clear Fork field.

Atlantic No. 2-N TXL, 660 feet from south and east lines of southwest quarter of section 31-44-1s-T&P; 5,600 feet, rotary Goldsmith 5,600-foot field.

Shell No. 14-D University, 1,990 from north, 1,500 feet from west lines of section 7-35-U; 5,400 feet, rotary, Jordan-Tubbs field.

Stanolind No. 3-A Cora Longbotham, Royalty Account A, 660 feet from south and east lines of southeast quarter of section 39-43-2s-T&P; 4,800 feet, rotary, South Cowden field.

Stanolind No. 86 J. M. Cowden, Royalty Account B, 1,980 from south, 2,130 feet from west lines of section 27-43-1n-T&P; 5,400 feet, rotary, North Cowden Deep field.

GAINES COUNTY

Atlantic No. 3-A J. O. Jones, 1,200 from south, 330 feet from east lines of section 6-C31-psl; 4,850 feet, rotary, Adair field.

Christensen & Matthews of Houston No. 2 Thomas Riley estate, 1,980 from south, 660 feet from east lines of section 367-G-CCSD&RGNG; 7,500 feet, rotary, North Riley field.

Israel Tightens Travel Regulations

TEL AVIV, Israel, (AP) — That big question—"Is this trip really necessary?"—so often used during the last war now is getting a thorough workout in Israel. It has been determined to put a stop to exit permits for Israelis who go abroad for fun and take a lot of foreign currency with them.

David Horowitz, director-general of the ministry of finance, told a news conference that 8,956 Israelis went abroad the first four months this year. That represented an increase of 176 per cent over the 3,297 persons who traveled in the corresponding period of 1949.

That meant, too, that the Israeli travelers, by converting pounds into dollars at banks in this country, took a lot of badly needed foreign currency with them. Now the ministry of finance has decided that foreign currency may be obtained only by those Israelis who are making "essential journeys" abroad.

From 1892 to 1949 a total of 5,268 elk were shipped from Yellowstone National Park to foreign countries for exhibition and establishing of herds.

Newspaperman Tells Story Of Rise of Southern Town

DECATUR, Ala. — This is the town that newspaperman Barrett Shelton says came from "nothin' to somethin' "in 15 years.

The story goes back to the depression year 1933 and Decatur was without hope.

But let Shelton, editor and publisher of The Decatur Daily tell it:

"The one major industry we had, which had kept 2,000 men at work, closed. Another industry which in earlier years we had subsidized and brought from New England went bankrupt.

"A third industry, manufacturer of full-fashioned hosiery, went to the wall from poor management and bad times. Seven of eight banks in our county closed.

"Our farm situation: We had only one crop—cotton—and cotton was five cents a pound. Lands were selling for taxes. The people were ill-housed, ill-clothed and out of hope.

"Into this dismal setting came David Lilienthal, then a member of the Board of Directors of the Tennessee Valley Authority. Four of our citizens who had been hopeful of improving conditions met him. We were almost hostile, for he represented another way of thought and another way of life.

"Our conversation might be summarized thusly: 'All right, you were not invited, but you're here. Now what are you going to do?'

"Dave leaned back in his chair as he said gently and firmly, 'I'm not going to do anything. You are going to do it.'

OUTLINED A FORMULA

"He went on to tell us something we never knew before; that TVA would provide the tools of opportunity—flood control, malaria control, navigation on the river, low cost power, test demonstration farming to show how our soils could be returned to fertility.

"Our townspeople needed jobs, our farm people needed a month-by-month payroll, rather than a once a year income from harvesting one crop.

"Our first step was to form a chamber of commerce and we decided a packing plant would be the

Barrett Shelton

first venture. We persuaded the local ice company to put in packing facilities when there wasn't as much as one wagon load of hogs in our whole county. We are now producing our own livestock to meet the demands of this market.

"We then turned to milk, formed a little corporation with paid-in capital of $15,000 telling every stockholder to forget his investment. The first week the plant was in operation, there was a total supply of 1,800 pounds of milk.

"Today the milk production peaks at 60,000 pounds and we have just started. The stockholders never failed to receive six per cent and just recently that little plant paid a 100 per cent dividend.

"Along about that time we got some help from the outside. Navigation on the Tennessee River made it possible.

"The impact was tremendous. Farmers could grow grain because there was now a daily market.

"These industries, land builders and man builders, could never have been pictured in the minds of a defeated people, of a people who in the year before TVA saw an uncontrolled river wash away the best soil.

MARKET FOR EVERYTHING

"Today there is a market for all farm products in the area surcotton, corn, wheat, livestock, milk, timber, small grains and truck crops. Fifteen years ago we were dozing in the sunshine waiting for that once-a-year payroll brought by cotton.

"By 1940 there were 61 firms manufacturing a product in Decatur, employing 2,834 people with an annual payroll of $3,159,000.

"By 1948 the industries numbered 87 and employment was 5,204 with an annual payroll of $12,605,000."

Officer Dies In Mineola Shooting

MINEOLA, July 13. (AP) — Two feuding peace officers shot out their differences on a downtown street yesterday. One was killed, the other critically hurt.

Killed was Constable Will Whittle Injured was Acting Police Chief Wesley Taylor.

Police Chief C. M. Barnett, who had turned his office over to Taylor in order to run for the office of sheriff, said the two officers had argued over a minor traffic case.

Barnett said the two men met yesterday morning in the business district and scuffled briefly. A bystander separated them and took a gun from Whittle.

Later — at about 11:15—they met in front of the justice of the peace office, which was closed. The shooting followed.

$20,000 RACE FOR DENVER

DENVER — (AP) — The feature event of this year's inaugural race meeting at Centennial Park, Denver's new two-million-dollar plant, is the Colorado Mile on Aug. 26. It will be a $20,000-added event for three-year-olds and up.

The meeting, which brought horse racing with legal betting back to Denver for the first time in 36 years, winds up Labor Day.

NEW SCHOOL BUILDING—This 18-classroom elementary school building is nearing completion just outside the northwest city lim its. The building will have three wings, one for primary classrooms and administrative offices, one for elementary classes and one for cafeteria, kitchen and utility rooms. All entfances and the corridor connecting the wings will be constructed of cut stone. Von Frellick Construction Co. of San Angelo has the contract for the building.

Tuberculosis X-Ray Plans At P.-T.A. Meeting

The county Parent-Teachers Association Council, which will meet at 2:30 o'clock Friday in the High School Auditorium, will make further plans for bringing a mobile tuberculosis chest X-ray unit to Snyder in August, according to Mrs. Raymond Sims, chairman of the council.

The mobile unit, a phase of the tax supported and state sponsored fight against tuberculosis, will be here for one week, beginning Monday, Aug. 21, and will operate under the direction of Phil Gauss, Jr., official of the Tuberculosis Division of the state health department.

All persons 15 years old and over may be X-rayed free of charge, and reports of the examination findings will be mailed to them a few days later. The work is paid for by the state tax funds and money received from the sale of Christmas seals.

Local arrangements for the mass X-ray program are being made by the P.-T. A., in charge of publicity and education concerning the program as well as plans for setting up the unit here.

Members of the association chosen to inform the public of the program through a telephone and house-to-house committee are Mrs. Nolan von Roeder, Mrs. John Lynch, Jr., Mrs. Joel Hamlett, Mrs. V. V. McGrew, Mrs. Joel Hodges, Mrs. B. L. McKinley, and Mrs. Myron H. Roe.

Other committee members appointed for creating interest and otherwise helping to make the program successfully thorough are urged to attend Friday's meeting.

The city-county health unit, directed by Dr. Fred Dinkler, is assisting in sponsorship and direction of the program. "Every person over 15 in the county should take advantage of the chest X-ray and be safe from tuberculosis," Dr. Dinkler said. "It will only take about two minutes to be examined, and no undressing is required. All reports are kept confidential."

HAIRCUT PROTOCOL

ELMIRA, N. Y. (AP) — Barber Lee Rowley is taking no chances with irate mothers. He has this sign in his shop: "Boys under 12 years must bring note from home for a brush cut."
