NORTH FORT WORTH ROSEN HEIGHTS.

A deal was closed Tuesday by a committee of the school board of North Fort Worth, appointed by F. P. Hopkins—acting in the place of J. D. Capps, who has been ill—and composed of J. J. Lydon, chairman; J. D. Farmer and John A. Dryden, securing land near the new school house.

The purchase includes the property lying on the east side of Main street between Twelfth and Fourteenth streets. The land has been divided in lots of 50 foot frontage and 108 1/2 feet deep. The school board will retain these as school property and later some improvements may be made in the way of beautifying the site for a park.

It is the desire of the school board to keep open this section lying immediately west of the new building, and which now is their option, as owners. The purchase price was \$5,425.

Marriage at School

The marriage of Miss Minnie Ward, daughter of Mr. and Mrs. W. R. Ward, corner Rust and Fourth streets, in North Fort Worth, to Guy J. PROPHECY HAS BEEN FULFILLED

Sale Has Reached Unheard-of Figures

Special to The Telegram.

ST. LOUIS, May 15.—The most interesting feature of the enormous sale of the Cooper preparations, now going on in this city, is what the medicines are actually accomplishing among the people of St. Louis.

At the commencement of his visit here Mr. Cooper prophesied that during the latter part of his stay he would receive hundreds of callers daily who came simply to thank him for what the preparations had done. He also stated that stomach trouble is the foundation for a great many diseases, and that his New Discovery, as it is called, would prove very effective in all cases of rheumatism, simply by getting the stomach in working order.

That this prophecy has been fulfilled cannot be doubted after a half hour spent at the young man's headquarters, listening what his callers have to say.

A reporter who watched to ascertain if possible, some light on the reasons for the immensely of Cooper's success, interviewed about twenty of his callers yesterday afternoon. The statements made by those seen indicate that physicians who claim that Cooper is merely a passing fad, have not looked into the facts.

Some of these statements were as follows: Mrs. Anna B. Hampton, living at 1422 Michigan avenue, upon being questioned, said:

"I have been troubled with general debility, weakness, dizziness, headache, sleeplessness and stomach trouble, for over three years. I had tried a number of medicines and visited several doctors but none helped me. I heard on all sides of these Cooper Remedies and decided to try them. Any one who says that they are not wonderful medicines, does not know what they are talking about. After I used the first bottle, I noticed a decided improvement. I have taken a dozen bottles of the New Discovery and I now feel as well as ever have in my life. I sleep and eat as I have not done for years, and I am happier than I have been for a long time. I have come here to thank Mr. Cooper for what he has done for me."

The statement of John E. H. Ehrndale, living at 927 North Eleventh street, was as follows:

"I have suffered with stomach trouble and constipation for a year or so. When I ate I would have bloating, and over the stomach, fermentation, had taste in my mouth. In the morning I was as tired as when I went to bed. I had a dull pain in the lower part of my back, and had to get up several times in the night. I have almost taken one bottle of the New Discovery and I am so wonderfully improved that I have come down here to thank Mr. Cooper in person and obtain more of the medicine."

Another statement was made by Miss Margaret Jordan, living at 219 Center street, who said: "I have been a sufferer with rheumatism for several years. I have tried many remedies, and have been treated by a number of physicians. Nothing helped me in any way and I despaired of finding relief. I was in a general rundown condition, also, and had stomach trouble. I was told by a friend of the Cooper remedies and decided to try some of them. I purchased some of the New Discovery medicine, although it took me three hours to do so, as the crowd was so dense. This was last Thursday. I was improved almost immediately."

"I have continued to take this wonderful medicine and I am now without a sign of rheumatism. My general health is also greatly improved, and I have not felt so well for years. I would not have believed that there was a medicine on earth that would do what this has done for me. I am so much happier that I am very grateful to the man that has made it possible for me to regain my health. He has the most wonderful medicine that I know anything about."

Another statement taken from those who had previously used the medicines seem to prove that Cooper's success throughout the country is genuine.

\$19,000,000 PER YEAR FOR INS.

Texas Pays Out Neat Annual Sum of Money

Special to The Telegram.

AUSTIN, Texas, May 16.—State Insurance Commissioner Clay yesterday gave out a statement showing a summary of the insurance business in Texas for the year ending Dec. 31, 1905.

The statement shows the risks assumed by all fire insurance companies in the state to be \$409,000,000 and the total premiums received \$6,238,783. The total loss paid by the people for protection of various kinds reached the sum of \$19,347,692. Of this amount \$6,347,714 was paid for protection against fire and \$13,000,000 for life insurance.

In the statement Commissioner Clay says that this is marked evidence of the prosperity of the people of the state, as the sum expended is about \$3 for each inhabitant of the state.

Heavy Rain Does Damage in Ellis County

Special to The Telegram.

ITALY, Texas, May 16.—The heaviest rain that has fallen in this section for many months fell yesterday afternoon. It was almost a water-spout. Crops were in fine condition before this rain, but they will be greatly retarded and washed by yesterday's deluge. A good many people are seeking shelter in storm houses as the cloud from the north and west looked very angry. It is reported that a heavy wind and a small cyclone passed north of here a few days ago. The streets of this city resembled a river and creeks overflowed their banks.

Special to The Telegram.

WACO, Texas, May 16.—Deputy United States Marshal Cliff Torrence returned yesterday from Leon county, bringing S. A. Castles, charged with mailing unmailable matter in the post office, by sending a card to parties who were alleged to owe him. He gave bond here and was released. Discussing the matter, several parties here said they did not know it was an offense to mail a card through the post office on a postal card, which was the method alleged to have been employed by Castles.

RAIN GENERAL ALL OVER U. S.

Low Temperatures Accompany Continued Precipitation

The bulletin issued by the local weather bureau shows that he amount of rain which fell between Tuesday and Wednesday at 7 a. m. was 2.11 inches, the heaviest rainfall reported in the entire country. Precipitation continues throughout the United States and low temperatures prevail. At Fort Worth Tuesday the thermometer registered but 67, the lowest for several weeks. The highest temperature reported was 92 from Phoenix, Ariz. This city usually holds the record for extreme hot weather. Freezing conditions were reported from some sections of the country, and at Landor, Wyo., it was but 32. Showers are still forecast for Fort Worth and vicinity.

Generally partly cloudy weather was reported along the Denver road Wednesday morning, conditions being cool with a light west wind. Showers were falling at some places. Temperatures at 7 o'clock were: Texline, 67; Amarillo, 68; Childress, 60; and Wichita Falls, 62.

The official report of weather conditions is as follows:

"The low barometer area is centered this morning at Denver, resulting in rain in Kansas and Arkansas, and over the upper Missouri valley since last report, thunderstorms occurring in South Dakota, Minnesota and Iowa. About the 'low' center, high winds have prevailed, Dodge City reporting thirty-eight miles maximum.

"The region west of the Rockies is under high barometer influences, resulting in generally fair to cool weather, light frost occurring in Montana and Wyoming, and killing frost in portions of Nevada.

"The cotton belt is partly cloudy, in general, temperatures are generally high, and rainfall has been excessive in some portions of Texas. Rain is falling at Little Rock this morning."

DEATH LOSES HEAVY

W. F. Naber Called to Missouri by Second Bereavement

W. F. Naber of 218 North Cherry street, Wednesday morning, received word of the sudden death of his mother at Fairmount, near Kansas City, the death following that of his father less than a month ago. Mr. Naber had returned but two weeks ago from Fairmount, where he attended the funeral of his father and at that time his mother was in good health. He returned to Fairmount at 11 o'clock Wednesday. Mr. Naber has also lost an uncle and an aunt within the past ten days.

Supt. to Decide School Election in McLennan County

Special to The Telegram.

WACO, Texas, May 16.—A very warm school election campaign is in progress at Eddy, this county, between parties who wish to incorporate for school purposes and those opposed to the step. An election was held and the incorporation advocates won by a small majority, but it is alleged there was an irregularity in the election order and the matter has been passed up to State Superintendent Cousins. There is talk of the matter running the gamut of the courts, as both sides are determined.

COUNCIL MAY OUTVOTE MAYOR

Market Square to Be Settled Monday Night

Indications Wednesday pointed to sufficient votes to override the veto of Mayor Harris on the market square loan, and it is considered likely that step will be taken at the meeting of city council next Monday.

One alderman, it is learned, favors the securing of the site for a farmers' square, though opposing the building of the market house, and will vote for the recent resolution, which calls merely for sufficient loan to secure the grounds needed for this purpose, leaving the construction of the market house to be settled at a later time.

This matter together with the consideration of sprinkling outfit bids, which in view of recent rains will be permitted to go over to the regular meeting, will form the principal topics at the meeting.

Winners at Rink

Miss Washburn and Roy Holden were the winners of the prize couple skating contest at the Fort Worth Skating Rink last night. Both of them were awarded season tickets, including all privileges of the rink. They received the enthusiastic applause of the spectators. Their skating was very graceful.

Considerable interest is being manifested in the race between Will Eaton of Fort Worth and Dowd of Dallas, which will take place at the Fort Worth Skating Rink next Friday night.

This will be the second heat for the championship of the southwest for a purse of \$500. Mr. Eaton has held the championship of the United States for backward skating for the past two years, and Mr. Dowd is the amateur champion forward skater of the southwest, recently having won several races at the Summit Avenue Rink. E. G. Beech, who is backing Dowd, and A. E. Quay, who is backing Eaton, are both confident of the victory of their man.

WHITE ROSE THEATER

White Rose theater opens May 20. The beautiful new theater at the White City will open May 20, presenting an exceptionally strong operatic organization in Gilbert & Sullivan's tuneful opera, "The Mikado." The Beggar Prince Opera Company is composed of some of the best talent on the theatrical stage and carefully selected to present a repertoire of the latest successes; also the most popular of old operas, the stage settings will be accurate in every detail, as the new theater is commodious, every modern convenience for players and audience arranged for. Manager Schwartz has selected this company for the dedication of the new theater, feeling confident that all who attend the opening will be amply repaid. The sale of seats is now open.

The White City has a novelty in store for visitors at this pleasure resort. Next Thursday night at 8:30 p. m. the White City will have a balloon ascension and parachute jump, amidst a grand display of fireworks. It will prove an interesting sight to all who attend the park on Thursday night.

Missionary Lecture

J. D. Stone, missionary to Jerusalem, will give his lecture, entitled, "A Trip to the Holy Land," on Thursday night in the Central Methodist church, corner Lipscomb street and Bellevue avenue. A good deal of permanent road improvement is going on by co-operation of farmers and business men of the city.

MERCURY A DECEPTIVE TREATMENT

Mercury and potash are very deceptive treatments and the blood poison sufferer who depends on them for a cure is sure to be disappointed. These minerals will remove the external symptoms and shut the disease up in the system for a while, but the trouble will surely return and the loathsome symptoms of sore mouth and throat, copper-colored spots, falling hair, sores and ulcers etc., will be accompanied by the disastrous effects of ruin the health and weaken the system to such an extent that the original disease often becomes incurable and sometimes fatal. Mercury and potash eat out the delicate lining of the stomach and bowels, destroy the gastric juices, producing chronic dyspepsia, cause mercurial rheumatism, salivation, and where they are taken in large quantities cause necrosis or decay of the bones. S. S. S. is the only remedy that can cure Contagious Blood Poison surely and safely. This remedy of nature, made entirely of roots, herbs and barks, antidotes and destroys the powerful virus of the disease and by purifying the blood of every particle of the poison and enriching and strengthening this vital fluid it removes every symptom and leaves the body in a strong, healthy condition. When the blood has been purified with S. S. S. the cure is complete, and not a vestige of the poison is left for future outbreaks. Do not waste valuable time, damage your health with the mineral treatment, but cure your case with S. S. S., an absolutely safe remedy. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral. Book with instructions for self treatment and medical advice without charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

CORN SUFFERS MUCH

Damage Reported Heavy Between Here and Mineral Wells

Chief of Police J. H. Maddox returned Tuesday night from a week's stay at Mineral Wells and states that the heaviest storm the city ever experienced occurred there Monday. The storm was accompanied by a strong wind and the inhabitants for a time feared a cyclone.

On his way back Chief Maddox states that from the car window could be seen large fields of corn all along the route laid to waste by the heavy rains. "The corn, which was in splendid condition before the storm between here and Mineral Wells," said he, "is distant of thirty miles, is now lying flat upon the ground and the crop ruined."

"COLOR FIGHT" AT UNIVERSITY

Upwards of a hundred students of Fort Worth university engaged in a color fight on the university campus Tuesday night, and as a result today there are many of them nursing bruises, although no one was seriously hurt in the fun.

The ball was started rolling when the second academics succeeded in flying their colors, yellow and white, from the flagpole, and a scrimmage followed in which the colors were torn down by the first academics and the freshmen.

The second academics are in no wise discouraged, and are more determined than ever to see their colors again at the next head, and say they will put the colors there to stay the next time. The color fight, as it is known, is an annual occurrence at the university, and all of the students look forward to the event in great expectancy with good-natured rivalry.

Malicious Liar Says Bailey

News Published Denounced as Utterly False

Special to The Telegram.

WASHINGTON, May 16.—The United States senate continues to remain a seething cauldron. Senator Bailey added to the intensity today by an attack on the republican press, notably the Washington correspondents of the Chicago Tribune and the New York Tribune, who in their newspapers charged Senator Bailey with conspiracy to defeat the rate bill, and also that Senator Tillman himself was suspicious of the Texan's sincerity. Senator Bailey was white with rage at the slander, as he called the charges, and said he had been led to believe that they emanated from the white house, if not directly from the President, then surely from some sub.

He asked for the "wretch's" official scalp, and, if that should not be forthcoming, he was inclined to believe the President Roosevelt did not possess that high sense of honor usually credited to a President.

The Texas took his stand because both correspondents were intimates of Mr. Roosevelt. Senator Tillman figured in the incident by declaring that he had never had occasion to question the sincerity and purpose of Senator Bailey throughout the long rate bill fight.

The scenes in the senate were also much enlivened by the reading of a letter from ex-Senator Chandler to the question of his truthfulness. The closing words of the letter were as follows:

"If this thing had happened in the olden days, President Roosevelt's friend, Senator Lodge, would no doubt have been ordered to bring my head to the white house on a silver charger, but fortunately, I am still in possession of my tongue, which will never be used again as an emissary for the President between the white house and the democratic party."

Special to The Telegram.

WASHINGTON, D. C., May 16.—The calm of the senators' discussion of the railroad rate bill was disturbed today by a personal interpretation by Senator Bailey of Texas, who rose to a question of personal privilege to make reply to the charge made in a Chicago paper yesterday by its Washington correspondent to the effect that Bailey had been responsible for the failure of agreement between the President and Senator Tillman. Former Senator Chandler was given as authority for the statement that Mr. Tillman had been suspicious of Bailey, who, it was also stated, was really opposed to railroad rate regulation, and also in constant conference with Senator Aldrich, with the purpose of defeating the rate bill.

After this statement had been made, Mr. Bailey took the floor and said deliberately:

"I have never conferred with the President, directly nor with Mr. Chandler.

"The correspondence, I understand, was sent by a correspondent who is very close to the white house, and who, it is presumed, speaks with some degree of authority concerning transactions there. I do not know as to the truth of that, and I don't charge his statement was made with authority, but I denounce the publication as an unqualified, deliberate and malicious lie.

"I denounce that correspondent as an unqualified, deliberate and malicious liar. I denounce the man who inspired the statement, as an unqualified, deliberate and malicious liar, whoever he may be, and however high an office he may hold."

PASSENGER MEN OFFER COMPROMISE

Propose to Redeem Unused Passenger Tickets

Special to The Telegram.

AUSTIN, Texas, May 16.—The railroad passenger men this morning submitted to the railroad commission a proposition looking to the redeeming of unused passenger tickets. It provides that the holder of an unused ticket must make application to the agent within one day from the date of sale, and that the general passenger agent only will redeem tickets the limit of which has expired, within ten days from date the ticket is issued. Satisfactory evidence also must be produced by affidavit, if requested, that the ticket has not been used, etc. In cases where the tickets have been used for baggage only, redemption will be made by deducting 15 per cent of the rate paid for the ticket.

Mr. Robbins of the Houston and Texas Central railroad submitted his reports, showing that his road redeems tickets at the rate of \$400 per month, although there is no law requiring the same. Mr. Crush of the Katy stated that he suspects the non-redeeming of tickets would not amount to 5 per cent.

Mr. Colquitt stated that the proposed order was not acceptable to him, as he wanted the roads to redeem tickets whenever they were presented.

Judge Terry of the Santa Fe said that this would not be right, as the roads should not be forced to keep the people's money when they did not want to do so, and that there should be some limit in which tickets should be presented for redemption.

The question was taken under advisement.

The proposition to compel railroads to honor first class passenger tickets at any time after they are issued, was discussed yesterday.

PROFITS, BUT NO WAGE DIVIDEND

Special to The Telegram.

FALL RIVER, Mass., May 16.—The textile council meets tonight as a result of the discontent among the employees, because no wage dividend has been declared during the past fortnight, owing to the high price of cotton, with the failure of manufactured goods to raise accordingly. The operatives are worked up in view of the fact that the mills are making handsome profits, the Tecumseh mills having declared a stock dividend of 50 per cent.

The things that might happen are what keep some people from being happy.

Millions Spent to Make Good Beer

Cleanest Manufacturing Process Known is That of the Leading American Brewery.

We regard beer as a food and the business of brewing beer one of our most important industries. When we tell our readers that without exception there is no other brewery in the world so absolutely clean in its process of manufacture as Pabst, we speak from exact knowledge of conditions. The monster Pabst Brewery at Milwaukee represents an outlay of millions of dollars and many of those millions have been expended to make the Pabst exclusive process absolutely clean. Pabst Beer stands alone today, the only food product that from the beginning to the end of its manufacture is absolutely beyond reach of even the contaminating germs of the air.

Doctors boil their instruments in water to sterilize them. Pabst boils his brew in closed kettles and then sterilizes it. From there it passes through sterilized pipes to sterilized hermetically sealed tanks where it is fermented. Then through more sterilized pipes it goes to sterilized hermetically sealed storage tanks and when bottled it is pasteurized. Throughout the entire process it never is touched by human hands and comes in contact only with sterilized air. No other food product known can show such a record of positive cleanliness.

This process of manufacture is the exclusive Pabst process. It is one reason for the "always the same, always the best" reputation of Pabst Beer.

The cleanest beer and the richest beer, Pabst Beer has no equal as a mild, refreshing, healthful beverage.

DIVORCE CASE ASKS DIVISION

Over \$100,000 Involved in the Evans Suit

An interesting divorce involving a large amount of property is on trial before a jury in the Seventeenth district court. The style of the case is Mrs. A. E. Evans vs. Mark Evans Jr. Both parties are well known in Fort Worth, the defendant being prominent in business circles, and the plaintiff, Mrs. Evans, sues not only for divorce but for a division of property that is valued at over \$100,000. The property involved includes the Mark Evans elevator, the Evans building, and the Evans residence, and also the Evans automobile, and also the Evans real estate.

Mrs. Evans was on the witness stand all Wednesday morning and went through a rigid cross-examination as to statements of ill-treatment, the grounds on which the suit is based, and an examination as to the property affairs of plaintiff and defendant.

Mr. and Mrs. Evans have grown children.

READY TO PASS RAILROAD BILL

Senate Expected to Soon Dispose of Measure

Special to The Telegram.

WASHINGTON, May 16.—Hope that the rate bill will be passed by the senate seems likely to be realized today, though discussion of pipe line and anti-pass amendments is expected. It probably will be late this afternoon before the senate will be ready to act, finally, but when the vote is taken it will be almost unanimous for the bill. Senators Morgan and Pettus of Alabama, it is understood, will vote no, on the ground of interference with state rights. With the passage of the bill will end one of the most important discussions in the history of the modern senate and the debate will be terminated which for oratorical brilliancy, close analytical reasoning and remarkable display of legal lore has seldom been equaled. At the same time it will be the first step toward enacting law by which effective regulation of the railroads is possible and by which the people may be protected from corporate discrimination and oppression. The bill passed the house Feb. 8 with but seven negative votes. It was taken up by the senate March 12. Thirty-six set speeches have been made in twenty-six days and over one hundred amendments offered.

Dedication of Church Sunday

Broadway Baptists to Enter New Building

The new church building of the Broadway Baptist church at Broadway and St. Louis avenue will be dedicated next Sunday, May 20.

The services will be held at 3 o'clock that afternoon, Rev. G. N. Truett, D. D., of Dallas, preaching the dedication sermon and Rev. C. W. Daniel, pastor of the First Baptist church of this city, will offer the dedicatory prayer.

The new church building which has just been completed is a handsome edifice, constructed of red brick trimmed with white stone. The outside measurement is 80x90 feet. The church auditorium is one of the finest in Fort Worth. Eight Sunday school class rooms are entered from this main room. From next Sunday services will be held regularly in the new church by the pastor, Rev. C. A. Stewart.

Members of the building committee are: M. B. Harris, A. D. Hodgson and E. L. White. Mayor W. D. Harris is a member of the finance committee.

AN EVERY-DAY STRUGGLE

Men and women of every occupation overtax the kidneys and suffer daily miseries when the kidneys begin to fail.

Any work that is a constant strain on the back is bound to hurt the kidneys. The lifting, digging and planting of farm work, the constant bending over a desk or sitting at a sewing machine, working for hours on jarring, jolting wagons or railroad trains; the stooped positions and the reaching, pulling and heavy lifting of a hundred different trades—all these are hard on the back and must wear, weaken and injure the kidneys, because the kidneys are in the very part of the back that feels the strain. When the kidneys are sick, every exertion sends a sharp, stinging pain through the back or loins, and you are weary and tired all the time.

Many tasks, like housework, that do not require great physical strength, are very trying on the back and kidneys. That is why backache is so common. That is why the main difficulty being too frequently, naturally weak and tired and sleepless.

Doan's Kidney Pills have cured thousands of working men and women—have given them strong backs for their daily work. Doan's Kidney Pills help

the kidneys to do their duty—to eliminate the liquid poisons from the blood, and to send pure, health-giving blood to the muscles and organs. We would, sincerely advise every man or woman whose work is hard on the back to take an occasional dose of Doan's Kidney Pills. It will keep the kidneys well and the back strong, and keeping the kidneys well is half the task of keeping the body well.

Fort Worth Proof

Henry Johnson of 210 Jones street, Fort Worth, Texas, says: "I have not used any of Doan's Kidney Pills in over a year, as I have had no occasion to take any kidney remedy during that time. Their use in 1903 removed the trouble which annoyed me for several years. I did not have much backache, the main difficulty being too frequent action of the kidney secretions and they were also scanty. After this was corrected the other pains soon ceased. I am pleased to say that the statement I gave some years ago telling of the benefit I received from your medicine."

ENGINEER IS INJURED

Sam Clifton May Die as Result of Accident

Special to The Telegram.

KENNEDALE, Texas, May 16.—As a result of an accident while bringing the eastbound Houston and Texas Central passenger train into Kennedale this morning, Sam Clifton, of Ennis, engineer, is probably fatally injured. The train was about one mile from Kennedale when a side bar attached to the driving wheels on the engineer's side of the engine broke. The bar was whirled around, striking the cab and tearing the part where Clifton was seated to pieces. Clifton was seriously injured, and it is believed was injured internally. He is about 45 years old.

THE 3d DOCTOR SAVED HIM

The following letter was unsolicited:

Brotherhood Railroad Trainmen, Now or Never Lodge, No. 517, Brooklyn, N. Y., Aug. 11, 1905.

J. L. Fulton Co., San Francisco.

Dear Sirs: I feel it my duty to write you of your wonderful Renal Compound for Bright's Disease. It is the most wonderful thing I ever knew of. I had Bright's Disease in a most critical way, and two doctors gave me up as a goner. So my wife called a third. He said the only hope I had was in your medicine. It was gotten for me at once at 200 Broadway, N. Y. In seven days the dropsy left me and my eyes got so I could see quite plain and I have been on the improve ever since. I am on the eighth bottle, and am able to walk around and feel so much like myself that I expect to go to work next Monday. I am a steam R. R. conductor, so you see I must feel pretty good to be able to handle a train. I shall continue with the Renal Compound till I am sure it has made my wonderful cure permanent. Trusting that all will do as well as I have.

Yours, F. BLISS.

BOOTH OF DRAKE

Last week John Booth of Drake university, Des Moines, won the interstate oratorical contest at Topeka, Kan.

And thereby hangs a tale.
Two years ago Booth represented the university in the state contest. The judges on comparison threw his oration out, charging that he was guilty of plagiarism as to some of his sentences. Booth had followed a habit of his high school days in appropriating literary matter and did not realize what he had done. The public disgrace of the exposure brought him up with a short turn.

But Booth was plucky.
He made a speech to the students at chapel in which he pledged himself to live down the mistake. And he vowed to them he would yet bring credit to the school that had backed him.

The young man went to work on a new oration, "The Power of Conviction." It was every bit his own. He wrote and re-wrote. He inserted, cut out, polished and perfected his composition. And he practiced constantly in its delivery. After two years of hard labor on this speech he again offered himself as a candidate to represent his school.

Booth's new oration was not an ordinary effort. By some means there was woven into it something of the travail of a proud spirit cut to the quick, something, too, of the fire of his boyish determination to redeem himself. There was in it the potency of manliness. It rang true on the anvil of human hearts.

The young orator easily won his chance to go again to the state contest. When it came to that contest this light-haired, slender fellow with his soul in his face was in a class all by himself. And meantime he worked, practiced and longed for his greater chance.

Last week at Topeka came the supreme test of the boyish vow. Nine state representatives had spoken. Booth of Iowa was the tenth, next to the last. It was midnight. The audience was worn and tired. But who is this young man different from the others? There is a subtle winsomeness in his boyish presence, something that appeals. The people sit up straight. Booth sways them, wins them, captures them and holds them in the hollow of his hand. Power, poise, pathos, magnetism! His peroration is like a storm moving over the swaying reeds. "Booth of Iowa, first in thought, first in composition, first in delivery."

Bully boy, Booth.

Because you have won your battle as the world wants men to win.

You have taught again that, 1. The best way to correct a mistake is to make a frank confession of it. 2. Against him who treasures up an honorable vow no power outside of himself can ever avail.

BOB TAYLOR IN THE SENATE

It is a blessing to the nation when such men as Robert L. Taylor of Tennessee are elected to the United States senate, and it is a great pity that more of them do not succeed in their senatorial aspirations. Bob Taylor is the living disciple of laughter and sunshine, and his popularity is only measured by the metes and bounds of our common country. Three times governor of his native state, he is the idol of his people, and it may well be added that he deserves to be.

Governor Taylor is not without congressional experience, as he served in the lower house before his election as governor, giving up the position to accept the call to the governorship. And during all the years of his public life about the only serious allegation that could be brought up against his statesmanship was that he was the possessor of a heart and a little too free in the exercise of the pardoning prerogative when he was Tennessee's executive. It is said that a woman's plea for the forgiveness of some malefactor was one

of the things that always went straight to Bob Taylor's heart.

And granting that this accusation was true, it stands infinitely more to his credit to have erred on the side of mercy than on the other extreme. It were better, he is reported to have once said, that the Tennessee penal institution be emptied of its contents entirely in order that one innocent man might be free, than to continue full and that one denied the principles of justice. And that sounds just like Bob Taylor. It is just what the world would expect from the great heart of the man.

The austerity of the United States senate will be immeasurably relieved by the presence of this genial and soul inspiring son of the south. The frigidity of Fairbanks, the coldness of Henry Cabot Lodge, the sordidness of latter day commercialism so strikingly exemplified in the grave and reverend body must be greatly relieved by the rift made in the clouds by the appearance of genial and sunny Bob Taylor. He will carry sunshine and laughter into one of the nation's darkest corners, and his election must be regarded as almost in the nature of a benediction.

He defeated the fiery and ironical Carmack, who was one of the brightest of the southern senators, and a man who soon won and commanded respect among the nation's lawmakers. There are many who will lament the brilliant Carmack's retirement, but they will soon find solace in the reflection that he is succeeded by Bob Taylor.

Senator Taylor has many friends throughout Texas, and they are not confined to the Tennessee colony by any means. Through the medium of his public lectures he has made himself well known in this state, and no man is more universally popular. "The Fiddle and the Bow" have made many Texans happy, and there is general rejoicing over the fact that this fine and many character has been called to the highest position that can be bestowed by the people of his native state. In sending Bob Taylor to the senate "Sunny Tennessee" has done herself proud.

THE GREAT AMERICAN HEN

While the politicians of the nation are wrestling with one another and imputing a lack of veracity and other things in many political leaders, it is refreshing to the tired mind surfeited with such things to turn in the direction of more peaceful things and calmly survey a point of true American greatness. While these Americans are flying at one another's political throats and raising pandemonium in the halls of congress, the great American hen is getting down to business just as if there were no railways to be regulated and no Standard Oil trust to be investigated.

The annual report of the secretary of agriculture shows that last year the eggs of the United States were worth more than the cotton or the wheat, more than all the potatoes, barley, the tobacco, the sugar cane and the rice. They just about equal the dairy product and are surpassed only by the corn crop of a bumper crop year.

The cackle of the great American hen does not make as much noise as is engendered by the politicians, but there is more behind it. Her eggs for six months are worth more money than is embraced in the capital stock of all the banks embraced in the New York clearing house. In two months she lays more value than all the gold output from every mine in the United States. Every three months she produces more than the year's production of pig iron.

In less than two years the great American hen could pay off the entire national debt.

According to a New York paper, there were received in that city one day recently over 40,000 cases containing 15,125,000 eggs. The business of the great American hen for one day in that city amounted to more than \$250,000.

Is it any wonder that the thinker of today is taking his hat off to the great American hen? Is it any wonder that she is about to put the great American eagle out of business?

The United States needs a new coat of arms. This eagle business has about played out. Give us the great American hen, rampant upon a grain strewn field, singing of a tuneless lay that is adding much to the nation's prosperity.

THE MENACE OF MORMONISM

The Sunday papers of one week ago told of the arrival at Boston on the preceding Saturday of 110 Mormons, proselyted in Europe and brought to this country to recruit the ranks of the faithful out in Utah. These recruits were mostly girls, brought from Sweden, Norway, Denmark, Holland and other countries in Europe. These girls were in charge of three or four Mormon elders, who made a trip across the water to bring in these sheaves, and it is a story that is constantly being repeated at every port of entry in this country.

The immigrant inspectors, no matter what they may suspect, are compelled to admit these girls, as they are liberally provided with money and the address of alleged friends. The Washington authorities, no doubt fearing the powerful political influence that has up to this time prevented action in the Smoot case, have never investigated this Mormon immigration, and as a consequence the future of these peasant girls has been left to the mercy of the so-called Mormon church.

Occasionally a despairing letter from one of these girls comes to light complaining as to the life she is compelled to lead, but the disciples of Joseph Smith know how to silence such complaints, and although repeated efforts have been made in years past to get at the real motive for bringing girls into this country by the Mormon church, nothing has yet come of it.

Every few weeks it is said these girls arrive at American ports on their way to Utah—and what?

Is it not about time for the real Christianity of this boasted free government of ours to ascertain?

Members of congress allege that Uncle Sam is working a graft game in the aluring pictures pasted upon the walls to entice young America into the navy. Perhaps so, but as long as the system answers its purpose it is hardly probable that it will be changed on account of disappointment. The young men who join the navy should know from common report that they are going up against something that will admit of no foolishness.

There is so much improvement going on in Fort Worth and the streets are so littered with building material that the unsophisticated sojourner in our midst might imagine himself in the earthquake district of California. But it is only Fort Worth's way of spreading herself.

The penalty suits against Fort Worth institutions have not yet come to trial, but have been delayed about one week in order that they may be tried under the jury system.

It is clearly evident that the Big Stick stiff has no terrors for Ben Tillman. The pitchfork is still in action.

TEXAS PRESS

"Prominent, if not paramount, among the political evils that confront us," said Secretary Shaw in a speech at St. Louis, "I count the trend toward the obliteration of party lines." He cautiously refrained from naming names of any person or persons who are generally suspected of being largely responsible for the aforesaid obliteration.—Galveston Tribune.

The obliteration of party lines cannot always be regarded as an evil. The fact that the people can rise above party bosses occasionally and smite them hip and thigh is a good thing for the entire country. It is the only safeguard against corruption.

Fame is but a fleeting, empty thing, after all. The Fort Worth Telegram calls him "Little Red-Headed Funston."—Sherman Register.

Well, is he not little and red-headed? The truth never hurts, and some great martial spirits have been wrapped up in frames that were very diminutive.

Judge Parker advises the south to take a more prominent part in politics. It is true that a southern ticket could get at least as many electoral votes in the north as Parker and Davis, namely, none.—Galveston Tribune.

The experience of the democratic party under the Parker leadership has paved the way for southern leadership. That experience demonstrated the party's ability to accept defeat by failure to carry a single eastern state, and we can do the same thing any election by nominating a southern man.

Hydrophobia is scattered broadcast over Texas. The terrible disease is in Corsicana and Navarro county and yet there are hundreds of dogs absolutely without value or merit to be seen every day on the streets of Corsicana and along the county's public thoroughfares.—Corsicana Sun.

Hydrophobia is a terrible disease, but many sins are annually committed in its name against the canine family. All dogs are not afflicted with rabies that have to pay the price.

The newspaper reports for several days have given Jeff Davis' majority at ten thousand. The actual figures show that Berry was beaten by only 998 votes, and the Times hastens to correct the statement before libel proceedings are instituted by the two gentlemen who were so grossly, yet unintentionally, slandered.—Clarksville Times.

Governor Davis made a hard fight for the senatorship and won in an appeal directly to the people. That he was able to do this shows the people of Arkansas have confidence in their executive, and believe he will represent them properly in the senate.

The English cotton manufacturers who are now touring in this country will visit Sherman and investigate this section as a possible and profitable point for manufacturing. Texas is attracting attention from all over the world as a place for investment and as a field for industrial development she has no superior on the face of the globe. Texas is a state of wonderful possibilities.—Sherman Register.

It is understood the Englishmen are more interested in the matter of acquiring lands for the production of cotton than they are in locations for manufacturing enterprises. The attitude of the producer in demanding exorbitant prices is going to have a very bad effect on foreign consumers, and it will soon be squarely up to the producer to devise methods for himself.

WASHINGTON LETTER

WASHINGTON, May 16.—The democratic party had a narrow escape in the senate the other day. The incident shows how an honest and genuine man like Tillman lacks the qualifications for party leadership, according to accepted notions of political astuteness.

La Follette had moved his amendments providing for a fine up to \$20,000 or imprisonment at hard labor for not more than five years. To this Lodge moved his amendment making the limit \$5,000 and two years' imprisonment. The democrats all voted with La Follette against the Lodge amendment. Vice President Fairbanks promptly put the question on the main amendment as modified and declared it adopted. This disposition of the matter would have left the democrats on record before the country as having voted against putting the imprisonment clause back in the law, while the virtuous republicans had voted solidly for it. Tillman and Bailey, Rayner and Daniel, and all the rest of the democrats except Bacon were unconscious of the faux pas. Aldrich, Spooner, Foraker and the republicans generally sat like owls and never cracked a smile, hoping that Tillman would push on to the next amendment and not discover the hole into which he and his colleagues had hurried themselves. But Bacon, the malcontent and conservative, who is at odds with Tillman, and Bailey and the radical men on his side, alone saw what had occurred and insisted on the yeas and nays on the main question.

The other democrats looked on him in amused tolerance and declined to rise, saying: "No, we don't want them." The vice president was just about announcing that a sufficient number had not arisen when "Yacon turned and hissed at them in a tone in which 'you chumps' was plainly suggested.

"We don't want them! Get up! If you don't we'll go on record as voting against the imprisonment clause!"

There was a sudden dropping of jaws, and the whole democratic side bounced up as if shot out of catapults, and the yeas and nays were ordered.

One of the Washington correspondents has worn a face of deep grief for several days, but has refused all offers to pour his woes on friendly bosoms until today. He unbent this afternoon and said: "Well, if you don't know, it's this: When the President consented to the Allison amendment I was filled with deep grief, for at heart I am a patriot and am with the common people. I wrote a dispatch so hot that it sizzled. I showed wherein the President had fallen from that high plane whereon he had been enshrined, and as a climax I wound up with a paragraph in which I said with bitter irony: 'His action has given great satisfaction to all the conspirators and corruptionists here.'

"The next day I picked up my paper, and what do you think I read? Here it is. Does not this account for my careworn brow?"

And he pointed to his own dispatch, which concluded in these words: 'His action has given great satisfaction to all the conspirators and correspondents here.'

NOBLE MR. FORAKER

Consider Senator Foraker's disinterestedness, his generous nature, his willingness to work hard to prevent legislation that might have a disastrous effect upon the people. And he is doing it all for \$5,000 a year.—Chicago Tribune.

VERIFIED THAT RING

OUR FATHER LOVES US STILL

When the sunshine, which has cheered us
With its bright and genial ray,
Has departed and the shadows
Gather thickly round our way,
Let us trust amid the darkness,
With no fear of coming ill,
Knowing this, whatever befalls us,
That our Father loves us still.

When the friends in whom we trusted
Have grown cold and cease to love,
Or perchance they may have left us
For that happy home above,
Let us try to be submissive,
And may peace our spirits fill,
While we have this blest assurance,
That our Father loves us still.

Then with childlike faith, believing
What we cannot understand,
Let us cling more closely to Him,
And more firmly clasp His hand,
He will daily keep and guide us,
And his promises fulfill.
For we know what'er betide us
That our Father loves us still.

Fort Worth Life Insurance Company

FORT WORTH, TEXAS.

Hereby Assures the Public

That it is now ready for business and offers Policies that are unequalled in their advantages and cost.

IT IS THE AIM of the Fort Worth Life to build up a Company that will be the pride of the citizens of our state because of its achievements as well as by reason of its fair treatment of the public in general and its Policy Holders in particular. A glance at the names of the men composing its management will convince you that, if Ability, Business Experience and Integrity count, this aim is as good as achieved.

THE FORT WORTH LIFE is prepared to meet the wants or needs of every Man or Woman desiring Life Insurance, be it for Protection for the Family, as an Investment, or as a Provision for Old Age.

BECAUSE IT IS A YOUNG COMPANY, the affairs of the Fort Worth Life will have the Personal Attention of its management, who will devote to the Profitable Investment of its funds their wide experience (and where can you find a better field for Safe and Profitable Investments?); and its Mortality will be low, for during the first years of a company deaths are few. These and other advantages that might be enumerated make the Fort Worth Life the Ideal Policy Holders' Company.

ELECTIONS ORDERED

County Commissioners Take Up School District Matters

At the session of the county commissioners Tuesday afternoon an election was ordered for Pleasant Run school district No. 24, on June 9, for school trustees. Dr. Colley, Robert Averett and John Weber were appointed judges.

An election was also ordered for Wyatt Chapel district No. 75, to decide whether or not a special school tax of 20c on the \$100 should be levied. J. W. Dalton, A. A. Collier and J. W. Pool were appointed judges to conduct the election.

NEW BUILDING PLANNED

Two-Story Office Building for Thirtieth Street

L. B. Weinman, 711 Main street, is working on plans for a two-story brick store room and office building to be erected on Thirtieth street, between Jennings and Throckmorton streets. Mr. Weinman recently purchased this property from Sandilge & Furman, owners, for \$2,000. Work on constructing the building will commence in about two weeks.

FORT WORTH CLUB HOLDS ELECTION

"Commercial Club" Ceases to Be at Annual Meeting

Carrying out resolutions adopted at the meeting in May, 1905, the Commercial Club Tuesday night changed the organization name to "The Fort Worth Club." Necessary legal steps were ordered taken to begin official use of the new designation.

The change is made because of confusion caused by the former name, mislending as to the nature of the body, which is purely social. Much mail properly belonging to the Fort Worth Club or Board of Trade came to the Commercial Club as a result.

Annual election of directors was also held at the meeting, those chosen being: L. D. Cobb, James D. Collett, Ben W. Fouts, L. C. Hutchins, Ben H. Martin, W. G. Newby, Ray Nixon, B. B. Packlock, John E. Quarles, J. R. Sandilge, Ed. Stohel, George Thompson and H. C. Walker.

The secretary's report showed a good financial condition. Membership is the greatest ever reached. The organization owns the building occupied at Sixth and Main streets. The lower floor is rented for bank purposes, the second devoted to club rooms and the magnificent library and the upper floor to living rooms for members.

OLD DEED FILED

Transfer Executed in 1882 Entered by County Clerk

A deed was filed in the county clerk's office Monday that was executed in 1882, conveying \$12,500 worth of Fort Worth real estate. No record of the transfer ever having been made before. The property conveyed was the old Louis Schorn mill, located in the northern part of the city, just north of block 13, original plat of the city. The purchaser was Mark Evans, who twenty years ago was the leading miller in Fort Worth.

Louis Schorn, who sold the property to Mark Evans, was a baker in Fort Worth for a long time, and made bread for a large number of the old-time people here. Later he quit the baking business and built a small mill on the property mentioned above, adding to it at times until he sold the mill and land to Mark Evans, who made the mill a big proposition later on.

HOUSE MOVERS ARE BUSY MEN

Industry Plays Prominent Part in City's Growth

HAUL LARGE BUILDINGS

Old Cattle Exchange and Church Are Among Structures That Have Changed Locations

A unique industry which has played a prominent part in the building of every town into a city is that known as "house moving"—the simple lifting up a house from its foundation and rolling it to a new location and setting it down on a new foundation there prepared. Today brick and stone structures can be moved as readily and apparently with as little danger of collapse as can a frame building.

The origin of the house or structure moving science probably is found in the days of cliff dwellers, when huge rock layers were dragged up the incline to be used as door gates, or perhaps, in a later day during the pioneer settlement of this country, when huge boulders were hauled from the farm to be on crudely constructed rafts or boats. So much for the origin. This craft has, nevertheless, been developed into a well valued art and the moving contractor is a man in great demand in all cities, especially those where the march of progress is expanding the business districts.

Three years ago in one of the middle western cities the building of a new and larger court house was inevitable. The business district had grown around the court house square, and the vacating of this site had to be accomplished. Contracts were let and the two-story brick court house was raised, turned and moved to one corner of the square, and left facing the opposite street. This building was afterwards occupied as the city hall, a handsome stone and marble court house being built on the site of the old one. Similar feats have been accomplished here.

Cattle Exchange Moved

Several years ago, before the packing plants came to Fort Worth, the cattle exchange building stood where Swift & Company's office building now stands. Many will remember the tedious task that J. M. Stewart undertook when he moved and successfully located the old frame building just north of Central avenue. This was accomplished by means of moving trucks or block wheels about two feet in diameter, the tire being eight to ten inches wide. The exchange was a heavy building, being 150x68 feet, and two stories high, and of course a traction engine was necessarily used for motive power.

The most common method used in moving ordinary buildings where paved streets may be used is to raise the corners on jacks so that rollers may be placed in proper positions. The moving power is then furnished by horse teams in sufficient numbers to wind a wire wound around the foot ahead of the building and carried forward as the work advances.

Whole Town Moved

About a dozen years ago the whole town of Paradise, Texas, was moved on wagons across country to the railroad. Two years ago a small town named Chicago, in Dawson county, Texas, was moved two and a half miles across the plains and joined with Lawrence in the privileges of the postoffice.

In cases like these two long trips, each building must be raised in order

ANNUAL PARK OUTING

Christian Volunteer Army Announces Event For June 6

June 6, the Christian Volunteer Army of this city will give a free outing for the poor women and children of Fort Worth. The affair will probably be given at the city park. Refreshments will be served and everything possible will be done to make those in attendance enjoy themselves. This is to be the fourth annual outing given by the volunteer army. This is something of a companion function which the annual Thanksgiving dinners which the army gives to the poor. The work is supervised and promoted by Colonel and Mrs. James Mayfield.

AMUSEMENTS

Additional Car Service

The Northern Texas Traction Company announce that beginning Wednesday, May 15, and continuing through the summer season, a thirty minutes service will be maintained between 2nd St. N. and continuing until midnight. Cars will leave the corner of Third and Main on the even hour and thirty minutes after the hour. Returning will leave Lake Erie eight minutes after the hour and thirty-eight minutes after the hour. This service is in addition to the regular through service and will not conflict with it in the least, but is put on to improve both.

to be rested on several wagons. For instance, in the case of a light weight house, a wagon should be stationed at each front corner and one, or possibly two, at the rear.

Late Moving Feats

Last month the North Fort Worth Methodist church building was moved from Central avenue and Lake street to Rosen Heights, a distance of about one and a half miles. The building is of frame construction and in moving it was raised and placed on low moving trucks.

Difficulties Grow

Contractors in moving work within the thickly settled parts of the city are confronted with many difficulties. Many times electric wires are necessarily cut down and trees must be trimmed in order that they may be passed. But despite all these obstacles, house moving must go on. Values of land are increasing while the worth of the house as rapidly depreciates. A new and cheaper location must be found and way given to the modern building.

Contractors in this city state that house moving conditions were never before so active as right at the present time. Several have worked for one and two months ahead of them.

The condition in Fort Worth is only explained in one way. Every spring she has grown a little larger, and her many facilities are so enhancing her property values that any lot near the center of the city is too valuable for a common building or dwelling.

STORM SEWER NOW CONSIDERED

Plan to Relieve Flooding of the Central Streets

COMMITTEE IS TO MEET

Large Opening at Main and Seventh Streets Is Unable to Carry Off All Surface Water

That storm sewers would be of great advantage to the city, especially in the down town districts, was made evident Tuesday during the heavy rainstorm. There is but one of these storm sewers laid, that opening at Seventh street, the others being of smaller dimensions. At some corners of Main street there are no sewers at all. When such a storm strikes Fort Worth as the one Tuesday, Main street is soon a flowing river and the water rushes past the small sewer entrances, which take in but a small portion of the flood. By the time it gets to Seventh street, even the storm sewer is taxed to its utmost and does not carry off all the flood. The big Seventh street sewer was put in five years ago.

Chairman Armstrong of the sewer committee, stated to a representative of The Telegram Tuesday that he was aware of the need of storm sewers about the city, especially in Main and Houston streets, and said that this only would relieve the situation when a heavy storm occurred. Said he: "Neither the city council nor the committee on sewers has so far considered the matter of installing storm sewers and there has been no pressure brought to bear by merchants. No person or persons have petitioned the council to put in the larger sewers which may be one reason why action in this regard has not been taken. To put in the system would involve several thousand dollars expense and the council would not feel like taking the matter up until satisfied there was a strong sentiment in favor of the proposition."

Committee to Act

"There is always a certain amount of damage to stores down town during these storms, because of the overflow of water, and the present sewers are unable to carry away the flood. Before the next council meeting, which takes place next Monday night, the committee on sewers will meet and I will be brought up for consideration. I would like to see these sewers put in and believe it would be of great benefit to the city and a saving to the merchant and citizen."

Eighth Ward Sewer

At the last council meeting a number of residents of Eighth avenue made a request that they be allowed to tap the main sewer pipe, complaining that pools gathered on property near that section and when not drained by the council and tabled, the reason given for such action, as stated by Chairman Armstrong, was that the petitioners lived without the city limits and paid no city taxes and were therefore entitled to no privileges. Chairman Armstrong stated that the council would not of its own accord reconsider the matter, although if the residents made a second and similar request, further consideration would be given. It is said that the Eighth avenue residents have not dropped the matter and will make another attempt to win their object at the council meeting Monday night.

AMUSEMENTS

Additional Car Service

The Northern Texas Traction Company announce that beginning Wednesday, May 15, and continuing through the summer season, a thirty minutes service will be maintained between 2nd St. N. and continuing until midnight. Cars will leave the corner of Third and Main on the even hour and thirty minutes after the hour. Returning will leave Lake Erie eight minutes after the hour and thirty-eight minutes after the hour. This service is in addition to the regular through service and will not conflict with it in the least, but is put on to improve both.

HOUSE MOVERS ARE BUSY MEN

Industry Plays Prominent Part in City's Growth

HAUL LARGE BUILDINGS

Old Cattle Exchange and Church Are Among Structures That Have Changed Locations

A unique industry which has played a prominent part in the building of every town into a city is that known as "house moving"—the simple lifting up a house from its foundation and rolling it to a new location and setting it down on a new foundation there prepared. Today brick and stone structures can be moved as readily and apparently with as little danger of collapse as can a frame building.

The origin of the house or structure moving science probably is found in the days of cliff dwellers, when huge rock layers were dragged up the incline to be used as door gates, or perhaps, in a later day during the pioneer settlement of this country, when huge boulders were hauled from the farm to be on crudely constructed rafts or boats. So much for the origin. This craft has, nevertheless, been developed into a well valued art and the moving contractor is a man in great demand in all cities, especially those where the march of progress is expanding the business districts.

Three years ago in one of the middle western cities the building of a new and larger court house was inevitable. The business district had grown around the court house square, and the vacating of this site had to be accomplished. Contracts were let and the two-story brick court house was raised, turned and moved to one corner of the square, and left facing the opposite street. This building was afterwards occupied as the city hall, a handsome stone and marble court house being built on the site of the old one. Similar feats have been accomplished here.

Cattle Exchange Moved

Several years ago, before the packing plants came to Fort Worth, the cattle exchange building stood where Swift & Company's office building now stands. Many will remember the tedious task that J. M. Stewart undertook when he moved and successfully located the old frame building just north of Central avenue. This was accomplished by means of moving trucks or block wheels about two feet in diameter, the tire being eight to ten inches wide. The exchange was a heavy building, being 150x68 feet, and two stories high, and of course a traction engine was necessarily used for motive power.

The most common method used in moving ordinary buildings where paved streets may be used is to raise the corners on jacks so that rollers may be placed in proper positions. The moving power is then furnished by horse teams in sufficient numbers to wind a wire wound around the foot ahead of the building and carried forward as the work advances.

Whole Town Moved

About a dozen years ago the whole town of Paradise, Texas, was moved on wagons across country to the railroad. Two years ago a small town named Chicago, in Dawson county, Texas, was moved two and a half miles across the plains and joined with Lawrence in the privileges of the postoffice.

In cases like these two long trips, each building must be raised in order

Can You Cut Out the "Yellow" Streak?

All got one, you know. Some small, some large. The more "yellow" in your make-up, the less yellow gold in your character and pocketbook.

Is your yellow streak the coffee habit? Does it reduce your working force, kill your energy, push you into the big crowd of mongrels, deaden what thoroughbred blood you may have, and neutralize all your efforts to make money and fame?

It does that very thing for thousands who don't suspect it. Languid, half sick with stomach and bowel troubles, heart weak and hardly half alive, you cannot succeed under such fearful handicaps nowadays, when the world only yields the crown for the best efforts of keen people.

Try leaving off coffee for 10 days. Build back to a clear-out mind and healthy body by Postum Coffee. That's the true route to health, and with bounding, exuberant health you acquire "Energy plus."

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In its early and correct treatment is applied, the weary patient seldom arrives.

Being fully aware of this, Lydia E. Pinkham, early in her career, gave exhaustive study to the subject, and in the process, discovering the remedy for woman's ills, Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to combat of that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such troubles as pain or weight in the back, backache, bearing-down pains, urinating or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling around the eyes or sharp pains in the back, running down the groin, she is in danger, and if she delays, she should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how Lydia E. Pinkham's Vegetable Compound cured Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

"I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with the doctor's dose of kidney trouble and congestion of the female organs. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling from my kidneys that I could not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say that I feel better than I have in my own work, have no more backache and all the bad symptoms have disappeared. I have recommended it to all my friends, and would advise all women suffering with kidney trouble to try it."

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

Dear Mr. Pinkham:

"I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound cured kidney disease, and I began to take it; and it has cured me when everything else had failed. I have recommended it to lots of people and they are all very happy."

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness, are invited to promptly communicate with Mrs. M. W. Frake, of Prospect Plains, Mass. That Mrs. Pinkham's daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

"Fact is, I was packing, Dickie," he said. "I've got to go back to New York today to look after some investments. I'd like to stay, old man, but I really can't—"

Something in the faces of his auditors stopped him, and he changed color.

NEW YORK STOCKS

Copper Shares Still in Good Demand. Anasconda Leads Advance—Other Issues Are Neglected

Special to The Telegram.

NEW YORK, May 16.—Today's session of the stock exchange was dull and uninteresting, the volume of business being light and trading confined almost entirely to the professional crowd. However, there was no selling pressure to speak of and the list as a whole held steady at a higher level than that of yesterday's closing. As usual recently, Copper shares attracted the greater share of attention and were in fact about the only issues, with the exception of American Sugar, which showed important price changes during the early session.

Anasconda was again the leader, and after opening a full 2 points higher on the next sale, dropped 5 points, recovering before midday under good buying brought on by reason of an extra dividend, and selling 3 points above the previous high. The high price of yesterday by a fraction, Amalgamated Copper was also in fair demand and sold more than a point above yesterday's figures.

Among the other industries, Sugar was a conspicuous stock by reason of its strength, a net gain of 3 1/2 points being recorded before midday.

Reading, St. Paul and Union Pacific were the favorites among the rails, and all exhibited good undertones. Neither, however, sold as much as a point above yesterday's final.

The afternoon session was entirely void of features, the market being very dull.

However, the undertone remained good, and early gains in all instances were maintained, and in some cases grew to greater proportions.

The market closed dull but firm with prices near the best of the day.

Sales to 11 a. m., 201,800; to 1 p. m., 112,000.

Call money ruled easy at 3 1/2 per cent.

WOULD BUY PIG IRON OF STATE

Foundrymen Want to Purchase Surplus Output

Special to The Telegram.

ST. LOUIS, Mo., May 16.—A delegation of the foundrymen of the state are attending the meeting called for the purpose of organization from different parts of the state, appeared before the state penitentiary board today for the purpose of trying to effect an arrangement whereby they could buy the surplus output of pig iron manufactured at the Rusk iron foundry.

The matter was thoroughly discussed and finally an arrangement was reached whereby the Texas foundrymen will buy the output and thus, to a considerable extent, keep the state from being in the market with the finished product. This appeared to be satisfactory to the foundrymen.

The delegation was headed by W. S. Mosher of Mosher Manufacturing company of Dallas, who is president of the Texas Foundrymen. Mr. Mosher said that, since the state began the manufacture of pig iron, it has been experienced by corporations in the state that are engaged in the same business.

He said that the purpose of seeing the state was to ask if the state would not buy the output of the foundry, and thus, to a considerable extent, keep the state from being in the market with the finished product. This appeared to be satisfactory to the foundrymen.

NEW YORK COTTON

Day's News Favors Bulls—Prices Advance—Sharp Bidding For May Contracts a Feature

Special to The Telegram.

NEW YORK, May 16.—The cotton market exhibited strength throughout the session today in response to the day's developments, which were mostly of a bullish character.

There was no sensational price movement, but simply a steady upward trend which eventually carried prices up half a dollar a bale for the May option and 7 to 8 points for fall months.

Probably the most encouraging feature of the news was the report of a continued excellent demand for the actual cotton in Liverpool, sales there aggregating 15,000 bales, and private reports stating that continental and private exporters were good buyers, then, too, the weather favored the longs, and shorts were rather good purchasers.

The market opened firm with prices 3 to 5 points higher. There was no selling pressure and barring a recess half hour from which the market quickly recovered, no reaction.

Sharp bidding for May contracts by prominent bulls was a feature of the trading. The high point was touched in the last hour at a net gain of 5 to 11 points.

The market closed steady and practically at the day's best level.

Spots were quiet with prices 5 points higher at 12c for middling. Sales, 75 bales.

New York Cotton

NEW YORK, May 16.—The cotton future market ruled as follows:

	Open	High	Low	Close
May	11.44	11.50	11.44	11.49-50
July	11.22	11.28	11.20	11.27-28
October	10.70	10.75	10.69	10.74-75
December	10.70	10.75	10.69	10.74-75

New Orleans Cotton

NEW ORLEANS, May 16.—The cotton market was as dull as usual today despite the fact that the day's news as a whole favored the bulls. There was no outburst of trading and prices advanced simply in sympathy with the New York market, where manipulation of the May position imparted strength.

Opening prices were 5 to 7 points higher in response to higher prices than expected on the foreign market.

A recession during the first half hour carried back 2 to 3 points from the opening figures and they being around this level for the remainder of the session, when some scattered covering by shorts and a little buying by the local crowd carried another upward movement, which continued until the close, ending the session with a net gain of 10 points for all options. The close was steady with prices 1 point below the best.

Spots were firm at unchanged prices on a basis of 1 1/2-7c for middling. Sales, 1,700 bales on the spot, and 1,750 bales f. o. b.

New Orleans Cotton

NEW ORLEANS, May 16.—The cotton future market ruled as follows:

	Open	High	Low	Close
May	11.23	11.28	11.23	11.27-28
July	11.03	11.08	11.03	11.07-08
October	10.63	10.67	10.59	10.66-67
December	10.59	10.63	10.57	10.65-66

Liverpool Cotton Cable

LIVERPOOL, May 16.—The predominating and sustaining influence of the future market at 11 1/2c for the May option, and the fact that the extremely favorable position of the actual staple and the excellent demand now in existence for spot cotton. So far there is no evidence of cessation of the demand for 15,000 bales, 15,000 American, were taken today at 2 1/2c for American middling; 3,000 bales went to exporters. Receipts were 1,000 bales with none from America.

Stimulated by the conditions in the spot market, contracts opened steady with prices 2 points lower. Instead of 2 to 3 points higher.

Trading was not more than usually active, but covering by shorts resulted in a recovery and the close was very steady with prices unchanged to 1 point higher.

Following are the opening and closing prices for futures:

	Open	Close
January-February	5.75	5.78
February-March	5.76	5.79

JUSTIN, Texas, May 16.—The grocery store of T. J. Wood here was broken into last night and several articles of value taken. There is no clue to the robber.

CHICAGO GRAIN

Wheat Market Strong—Prices Advance on Covering by May Shorts—Other Cereals in Good Demand

Special to The Telegram.

CHICAGO, Ill., May 16.—The wheat market had a strong undertone from start to finish of the session today and despite the fact that the volume of business was light and weather conditions more favorable than recently for the progress of the crop, price gains were substantial on all options. The contest between longs and shorts in the May option is still the keynote to the situation and at present the scales are in favor of the longs. Covering of shorts in the May had much to do with the strength of the market today, an advance of over a cent in that option attracting some buying of July and September contracts, which came from southwestern quarters.

Opening prices were 1/2 to 3/4 higher and without a reaction the gain was actually increased to a total of 1/2 to 3/4 for September. There was some profit taking during the final hour, but the market closed firm with prices at a net gain of 1/2 to 3/4. Local receipts 8 cars, 1 car this day last year. One car is expected tomorrow.

Corn

Corn traders were more active than usual and the good buying demand, coupled with the strong wheat market and covering by shorts, resulted in a strong market at all times during the session. Final figures were the best of the week and showed net gains of 1/2. Local receipts 44 cars vs. 32 this day last year. 66 cars are expected tomorrow.

Oats

Oats, like the other cereals, were in good demand and the market exhibited strength throughout. Commission houses were good early buyers of the May option. Final figures showed a net gain of 1/2 to 3/4. Local receipts 84 cars vs. 84 last year. 73 cars are expected tomorrow.

Provisions

Provisions were again in good demand and prices advanced. Packers were the best buyers. Closing prices showed gains of 2c to 5c for pork, 3c to 5c for lard and 10c to 11 1/2c for ribs.

Chicago Grain and Provisions

CHICAGO, Ill., May 16.—The grain and provision markets ranged in prices today as follows:

HORSE THEFT CHARGED

Deputy Sheriffs Make Arrest Tuesday Afternoon

J. W. Westfall was arrested by Deputy Sheriffs T. W. Wren and Nate Wilson Tuesday afternoon and charged with the theft of a horse from him in Justice Terrell's court.

The attention of the officers was called to Westfall by Gus Zimmerman, to whom Westfall had tried to sell three horses and as the man could not give a satisfactory account of himself or of how he came in possession of the horses, he was placed under arrest and locked up.

Officers of the neighboring towns were communicated with by the sheriff's office and Wednesday morning City Marshal J. P. Adams of Bowie and Constable J. W. Wolf of Monticello arrived in Fort Worth and identified the three horses as the property of L. T. Page of Sunset, Monticello county, from whom they were taken the night of May 1.

The officers from Monticello county desired to take Westfall back to Bowie for trial, but were not permitted to do so by County Attorney Jeff D. McLean, as there is a charge of horse theft pending against him in the courts of this county. The papers in the case will be submitted to the grand jury which is now in session.

CATTLE AND HOGS

Big Run of Steers—Early Sales About Steady—Cows Lower—Calves Steady—Hogs Steady

The cattle run today reached 120 cars before noon, totaling 3,250 cattle and 641 calves.

Steers were largely in excess of all other receipts, grassers made up twenty-five cars of the total run. Of these, nineteen cars were on through billing with market privileges here.

Though steers had a great preponderance in receipts, buying began fully steady, but the late heavy arrivals had the effect of weakening first bids somewhat. Orders seemed to be liberal and there was a fairly active movement to the scales, beginning early. The latter end of the trading was somewhat dull. Fed steers did not sell to as good advantage as grassers, the latter ranging from \$3.30 to \$3.75.

Sales of steers:

Butcher Stock

Cows were again scarce, only a half dozen loads coming in. Buyers kept up the determination to scale the market under that was evinced earlier in the week, and prices are quotable 5c to 10c lower, or a full cent below the close of last week. Cows sold from \$2.60 to \$3.25.

Sales of cows:

Calves

Calves had a full run for the day, showing up to the number of nearly 600. They came mostly from South Texas and were largely of good quality. The market was steady at \$4.50. The best Oklahoma market was \$4.50. New Orleans buyers were paying higher prices for heavy, thin heifers. Sales:

Hogs

The hog run reached 1,700 and the New York market opened firm, with a few loads of light range hogs and pigs. Northern market came in 5c lower, but prices here held firm with yesterday's closing. The best Oklahoma market was \$6.37 1/2, with quality not equal to the \$6.40 hogs on yesterday's late market. Pigs sold steady, with the bulk at \$5.

G. S. Hamby Has Narrow Escape at Austin

Special to The Telegram. AUSTIN, May 16. - Sensational shooting occurred in the Crystal saloon here Tuesday morning. Dud Moore, the proprietor of the saloon, is the proprietor of G. S. Hamby, a well known man about town.

Hamby had walked into the saloon and began talking to Moore, shortly afterward the firing began. Hamby is said to have been unharmed and escaped.

Weather Bulletin. GALVESTON, Texas, May 16. - Following is the summary of weather for Texas for the week ending May 14.

Neither is it like Castor Oil, Glycerine, or other Oily Laxatives that simply lubricate the Intestines for transit of the food.

These emergency drugs relieve the immediate trouble, but do not relieve its Cause.

The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels.

Caracats are practically to the Bowel Muscles what a Massage and Cold Bath are to the Athletic Muscles.

Caracats act like exercise. If carried in your Vest Pocket, (or carried in My Lady's Purse), and eaten just when you suspect you need one, you will never know a sick day from the ordinary life of leisure.

Because, nearly all these ills begin in the Bowels, and partial Constipation paves the way for all other Diseases.

HARDWARE MEN IN SESSION HERE

Eleventh Convention of Job-
bers' Association

WILL DISCUSS RY. RATES

Conference With Railroad Representa-
tives Regarding Texas Tariffs
to Be Held Thursday

The eleventh annual convention of
the Texas Hardware Jobbers' Association
convened in this city Wednesday
morning. The convention will be in
session three days, May 16, 17 and 18.
The opening session was called to order
at 11 o'clock by James Maroney of
Dallas, president of the association.
The president's address was followed
by the annual reports of officers and
various committees, all of which
showed the association to be in a pros-
perous condition, making the prospects
bright for the ensuing year. The pro-
gram as arranged for Wednesday

RAILROAD RUMBLINGS

Comparatively little damage was
suffered by the railroads as a result
of the heavy rains of Tuesday. Though
in most places tracks are soft, rail-
roads are reported to be in good con-
dition. But one washout has been reported
to headquarters in this city, that of
Big Bear Creek on the Dallas branch
of the Rock Island. The washout, how-
ever, suffered no damage, all being
clear to the north.

Heavy showers fell along the Den-
ver, but no damage is reported.

The Rock Island train, due at Fort
Worth from Dallas Tuesday at 4 p.
m., did not arrive until 1 a. m.
Wednesday morning. The morning
the Rock Island train had been de-
toured over the Texas and Pacific track
to Dallas and over the same track from
Dallas to Fort Worth.

South on the International and Great
Northern to below Maypearl there was
heavy rain. Tuesday morning, cutting
the track in bad shape and causing
land slides in deep cuts.

East on the Texas and Pacific track
conditions called for a slow run. A
thin skin formed over her body and
under it was watery blood, and when
she was washed it would burst and
break—suffered for weeks—
Now Sound and Well—

CURED IN ONE WEEK BY
CUTICURA REMEDIES

"When my little girl baby was one
week old she had a skin disease. A
thin skin formed over her body and
under it was watery blood, and when
she was washed it would burst and
break. She was in that condition for
weeks and I tried everything I could
think of, but nothing did her any good.
When she was three months old I took
her to San Antonio to see a doctor, but
the doctor we wanted to see was not
at home, so my sister gave me a cake of
Cuticura Soap and half a box of Cuti-
cure Ointment, and told me to use
them, which I did in time. I used
them three times, and the humor began
to fade, and in one week she was sound
and well, and it has never returned
since. I think every mother should keep
the Cuticura Remedies in the house.
Yours truly, Mrs. H. Aaron, Benton,
Texas, July 8, 1905."

WEeping ECZEMA

"I have used the Cuticura Remedies
for some years past. The Cuticura
Soap we are never without, and the
Ointment is the best in the world.
It has done wonders in curing my little
girl of weeping eczema. Respectfully,
Mrs. J. E. Merdoff, 310 W. 3rd St.,
Madison, Ind., June 27, 1905."

SLEEP FOR BABIES
