

HALL OF INDUCTEES -- six former Mustang footballers were named to the OHS Hall of Fame in ceremonies Friday. Shown left to right, Leon George; Delmer Givens; Mrs. Doris Hair who accepted the honor in behalf of her husband, the late Dub Hair; George Huggins; Williard Thomas and Ford Lain. Elmer Moore presented the plaques.

Hall Of Fame Established

Six OHS football stars from yesteryears have been inducted into the OHS Athletes Hall of Fame. Plaques were presented in recognition of their honor at last Friday's homecoming pep rally before a jam-packed gym crowd.

Selection of the six was made by an anonymous committee. Honored were Willard "Limey" Thomas of Clovis, N.M.; Ford Lain of Amarillo; the late W.R. "Dubb" Hair of Hereford, whose plaque was accepted by his widow Doris Lloyd Hair; Leon George; Delmer Givens and George Huggins of Oakland, Calif.

Thomas played offensive and defensive backfield for the OHS football teams of 1927 to 1929.

A half back and defensive back, Lain played with the 1933 and 1934 Mustangs.

Hair, whose brothers Bailey and Lauis are also former Mustangs, was full back and defensive player for the teams 1932 to 1935. His particular achievements were in punting and passing.

George, whose son Tony was a Mustang player of the late 60's, was defensive linebacker and center of the 1934, 1935 Mustangs.

The second inductee to have sons follow his footsteps, Givens was a member of the teams of 1936 to 1939. He was offensive guard and defensive lineman.

Given's son, Dennis was a Mustang gridman of the mid-60's. Son Tim played with the teams of 1970 to 1973.

Huggins' was Mustang quarterback and defensive back from 1937 to 1939.

The OHS Hall of Fame, established only this year, is expected to receive other outstanding athletes of earlier days. The induction will probably be made annually at homecoming events.

Homecoming Parade Winners Announced

Winners of floats in the Bicentennial-Homecoming Parade were announced during half-time ceremonies Friday night.

Of Night Patrolman

Resignation Asked

Four council members went on record as being in favor of asking for the resignation of night patrolman Glenn "Bun" Combest, after one of the councilmen had made a motion that he be fired.

The action came during a regular meeting of the council Tuesday night, after an alleged altercation between Combest and Councilman Raymond Powers earlier this month.

Powers told council members that the night patrolman had "flagged me down and asked what I was doing going to law school". Although Powers said he started to drive on after the discussion began to get heated, he said Combest reached in his pickup and grabbed him by the shirt.

Powers then made a motion to fire Combest. Second was by Billie Norfleet. Voting for the patrolman's dismissal was Mrs. Norfleet and Joe Hall. Voting against his dismissal was Vernon Nixon and Tom Sluder. Powers abstained, which tied the vote. Mayor K.Y. Givens voted to keep him.

At this point, Sluder said he would like to go on record asking for the patrolman's resignation and was joined by Norfleet, Powers and Hall.

Combest was notified by Mayor Givens of the council's decision.

Other action by the council included the discussion of the purchase of a street sweeper. Brochures of certain models of street sweepers were shown to the council, but they took no action, pending the securing of more information.

Meeting with the council were members of SPAG and city engineer Bill McMorries, with information about a possible grant to the city for use in needed areas.

A pre-application, which is due Dec. 15, must be sent into the Federal Government, explaining the work that needs to be done and the reason the city feels it should qualify for the grant.

Council voted to give Mayor Givens authority to draw up the necessary papers for either sewer work or paving.

Phil Hughes, representing the Fire Department, asked about burning old houses that had been condemned. City Attorney Andy Stroebel said that according to the law the old condemned buildings could be burned, provided they were used in the training of firemen. A formal request was made to burn in the southwest part of town during the month of November.

Hughes also told the council that two pumper trucks needed repairs and that he would do the necessary repairs if they would give him permission. Permission was granted.

In final action, the council was asked by Chief of Police James Isabell to define just what authority he had so that he would know how to properly handle his duties.

Council agreed that the police chief was the head of the department, setting his own policies, acting as director of law enforcement personnel who was directly accountable to him. The chief has the authority to hire or suspend personnel in his department with the final decision remaining with the council.

HER ROYAL HIGHNESS, Miss Kathy Ahrens, was crowned 1975 Homecoming Queen during the pep rally Friday. Shown with her are attendants, Sherrie Daubert, left, and Marla Faver.

Grid Contest Is Easy For Winner Of The Week

Guessing proved easy last week for one contestant and not too difficult for four others in the Enterprise football contest.

Manuel Hernandez too the top money for the week with just one incorrect pick - the Frenship defeat by Tahoka. Four contestants missed two games each with the tie-breaker having a difficult time. Carl McClure and Jack Williamson were each five points off the actual score with identical predictions of 28-7. They'll divide second and third place monies equally.

Scott Parker and Mrs. V.J. Trusty also missed just two games and their tie-breaker predictions left them deadlocked although out of the money. Parker picked the Mustangs to win 20 to 6 while Mrs. Trusty picked it 21-7; each missing by 12 points.

A new season leader took over this week. Carl McClure overtook Jim Curtsinger and leads the contest with 73 correct picks for the sixth week. His son, Caleb, trails by one point with Curtsinger one back of young McClure. Contestants with 67 or more points for the season are listed elsewhere.

No contestant should give up trying for the grand prize - this year a check for $50. Standings are subject to change each week. Too, anyone can be a winner for the week.

Select a winner in each of the games listed in the ads of the 15 sponsoring merchants. Circle the number of the teams you pick to be winners on the convenient entry form supplied on the contest page. Predict the tie-breaker score and fill in the entry blank. Deposit entries with any of the sponsoring merchants.

Attorney Hired By School

Meeting with the board of trustees during their regular session Monday night was Paul Lyle, a Plainview attorney.

At the last meeting, a discussion on the hiring of a lawyer for the school was held. Trustees asked that the attorney meet with them at the next meeting.

Lyle, who represents numerous schools in the area, explained to the school that if he was on a retainer fee for the school at a cost of $75 per month, then if the school was called into a court, that would be handled at half the regular cost.

The attorney would keep the school administration abreast of current rules and regulations from state and federal sources, and be on call at any time for advice.

Motion by Jim Brown, second by Floyd Prentice that he be hired was unanimously approved.

A report from Superintendent Joe Turner showed that the lunchroom was operating "in the black" and that attendance was up 19 students over last month.

Discussing the attorney general's ruling on collection of fees for band uniforms, lab fees, etc., Turner told the board that effective Oct. 1, no more fees could be collected, but those that had been did not have to be returned. Also, clubs, such as FFA, FTA, Science Club, etc. will not be allowed to collect dues for membership or any other reason under the ruling.

Finally, Supt. Turner told board members that a total of 14 adults were enrolled in the Adult Education program which is being taugnt by Mrs. Linnie Campbell on Monday nights.

Lunchroom Week To Be Observed Here

Postponed one week because of the busy activities of the Bicentennial-Homecoming celebration, National School Lunchroom Week will be observed locally Monday through Friday.

Persons are invited to stop by for a visit at the school lunchroom at any time but guest diners are given a special invitation for next week. Guest lunches are $1.

Each school day finds the local lunchroom staff preparing "Type A" lunches for some 800 plus students.

New Minister Assumes Duties

Moving into the city last week from Breckenridge, was the Rev. Terry Connally. The Rev. Connally has accepted the call as pastor of the First Church of the Nazarene, and last Sunday began work in that capacity.

Holding an Associate of Agriculture degree from LaJunta College in Colo., he received a bachelor of arts degree and bachelor of theology degree from Bethany Nazarene College, Bethany, Okla.

In addition to the Breckenridge pastorate, he has served as pastor of two churches in Arkansas and two in New Mex.

The pastor's wife, Charlene, is a native of Haviland, Kan., and a graduate of that high school. She has studied at Friends Bible College in that city.

The Connallys are parents of three children, Tammy, Keith and LaDonna, all of whom were born in New Mex. They are now students in the Olton school system.

Baptists Slate Evangelistic Services Through Thursday

Five days of evangelistic services have been planned by First Baptist Church, according to the Rev. John Lewis, pastor.

Beginning at 11 o'clock Sunday morning, meetings will be held twice daily through Thursday. Members of the church join the pastor in extending a cordial invitation to all interested persons to attend any or all of the services.

Guest evangelist will be Dr. James E. Coggin, pastor of Travis Avenue Baptist Church of Fort Worth. For several years he was member of the Board of Trustees of East Texas Baptist College. He has served on numerous committees of Texas Baptist Convention, including member of the Executive Board. Currently he is member of the State Missions Commission. He served as first vice-president of the Southern Baptist Convention, 1972-73, and has been presented the Distinguished Alumni Award by Southwestern Baptist Theological Seminary.

Music during the week will be under direction of Richard Campbell. Making a return trip to the city, Campbell was member of the Lay Witness team appearing in First Baptist Church, and was also involved in the music program of the Meet Jesus Crusade more recently.

Campbell, was an All-American football player at Texas Tech University. He has been involved in evangelistic endeavor for several years, but is presently director of music and youth at First Baptist Church of Floydada.

Bookmobile To Visit Here

High Plains Bookmobile will be making area stops in Hart Camp, Fieldton and Olton according to an announcement made by Lorene Sooter, librarian.

The traveling library will stop in Hart Camp and Fieldon Friday, Oct. 17 from 1:45 to 2:30 and 2:45 to 3:30 p.m., respectively. The local stop is slated for 9:30 to 11:45 a.m. Saturday.

Bids Taken On Furniture

Offices supplies and furniture are being offered for sale by Olton Chamber of Commerce. Described in the advertising section of this issue, sealed bids are being taken.

Bids will be opened Wednesday, 22, at 12 noon.

Constitution To Be Discussed

All residents of Olton are invited to attend the program session of Tuesday's meeting of Olton Lions Club and hear Amarillo attorney Jim Blair speak on important factors of the new Texas constitution which will be placed before the electorate Nov. 4.

Meeting in the agricultural community building, the program will begin at 12:30 p.m. and Lions cordially invite all persons to take advantage of this opportunity.

Blair is with the firm, Perdue, Brandon and Blair, specialists in ad valorem tax cases. The firm represents approximately 60 counties, cities and schools in this area.

Persons will be given the opportunity to pose questions concerning the proposed constitution. One issue which will be brought to the attention of those present is that under the new constitution, the law can be so interpreted as to allow the evaluation of Texas farm land for tax purposes to be set by the comptroller of public accounts in Austin.

Some of the other issues which are of concern to all Texans include certain tax exemptions provided under proposition five, article eight. Under this provision, bank stock would not be taxable. If the article is upheld it would nullify any assessment against any intangible personal property.

Also under that proposition, exemptions have been extended so as to exempt even mobile homes. It specifically provides that "personal effects not used for the production of income are exempt from ad valorem taxation." This means that mobile homes, regardless of value, will automatically be exempt from taxation, whereas a residence would be taxable.

Editorial

Bicentennial Thanks

The Bicentennial Planning Committee, working through Olton Chamber of Commerce and Agriculture, wishes to extend a warm and personal message of gratitude to the City of Olton and surrounding territory.

We wish it were possible to name all the scores of people involved in the Bicentennial celebration of last weekend, and to commend each one personally. But it is not feasible to try to mention the hundreds of people involved with Bill Johnston, sponsor of Olton Student Council, and Melvin Rape, Bicentennial Parade coordinator.

Nor could we name all of the gallant men who wore either a scratchy beard or a red, white and blue "band of exemption" to help create the air of festivity and real celebration, and also to help finance needed expenditures. Add to this group all of those loyal patriots who donned tricorn hats, or carried home the timely souvenir Bicentennial trays.

Too, there were dozens of ladies 'mobcaps' made by young homemakers and given to business people up and down the streets to be worn to promote the early day costumes that eventually blossomed throughout all events.

We'd like to mention all of the merchants who so willingly decorated store and windows, and fell quickly in line with every announced plan of action. And the Mayor of the City, with his obliging work crews, who did so much preparatory work. Especially as they worked with members of Olton Garden Club to beautify and dignify the Historical Marker in the center of the city. And, also, as they installed the new flagpole, donated by anonymous friends of freedom.

Appreciation also goes to David Britton and his Boy Scouts for the very proper handling of the special Display Flags, loaned to the city especially for the celebration, and to the Nazarene Church of ringing the historic bell.

Special gratitude also needs to be expressed to Olton State Bank and Sherman Agency for according all visitors a'red carpet' welcome as they arrived for the special events.

To all of the Ex-students and former residents, who came in response to the invitations extended under the supervision of E.J. Moore, we are grateful. It is our sincere hope that every visitor who attended the mass-type after-game coffee was able to find and greet many friends of days gone by.

We are indebted to the Mighty Mustangs,who delivered a fine performance for Coach Edd Miller and his staff, and presented the visiting throng a well earned victory . . . . as trimming on the 200th Birthday Cake.

To the combined bands of Olton High School and Olton Junior High School we all owe a debt of gratitude for a dazzling half-time show, following the earlier afternoon parade march.

To the laymen of various churches who provided a Bicentennial Breakfast, and to the ministers of the city who brought the worship service early Saturday morning in First United Methodist Church Fellowship Hall, we are grateful.

And to the artists of the area, who staged Olton's First Annual Arts and Crafts Show, we are indebted for a great deal of beauty and inspiration.

To The Olton Enterprise we must say thank you. Sue has given unstintingly of news space and free publicity throughout all the weeks of preparation; and unsparingly snapped scores of pictures to record all events. We are truly indebted for her contributions.

To every participant, and to every spectator, we say thank you for exhibiting unusual patience and whole hearted good humor. And for every aching back, for every pounding headache, for every sore muscle and every tired foot, we say . . . . it was worth it all to enter into the great "Spirit of '76".

Thanks Again

BY REX BOYLES

This is just going to be a short ditty today. I need to talk to you about two different things.

First of all, let me say thank-you to everybody that is reading this article today and has read it each week. A special "thanks" goes to all of you lovely people that have at various and assorted times commented on how much you appreciated the articles. With each kind remark you've encouraged me, and I consider those words of appreciation and encouragement as priceless. I really do pray that each article will help somebody, and if that prayer is answered, God should get all of the honor.

Now for the second thing. I need your help. I'm doing some research about our personal attitudes about Christianity. Here is how you can help me: sit down with a blank piece of notebook paper and write a good paragraph or more on what you think Christianity is.

Now be honest with yourself.

Write exactly what you feel about the subject. Try and avoid writing what you think your church or preacher believes. What do you believe? Be honest in your writing. If you have got some complaint against religion, "lay it on the lick line". If you are especially grateful to Christianity, write it down. Be honest!

Don't be concerned (at this point) about whether what you are writing is right or wrong. Be honest! Don't write down what you think you ought to feel . . . write down what you feel. Be honest. Then slap it into an envelope and mail it to Rex Boyles, Box 510, Olton, Tex.

Everybody do it. Get your parents to write one also. You don't need to put your name on the paper unless you just particularly want to but please put your age.

This will help me make progress in my own personal study as well as hopefully help me make our discussions more practical and relevant. Many of you have helped in all kinds of ways . . . . please help yourself and me by dropping me a line on what you think Christianity is. Thanks . . . . Rex.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

"People Are Funny" -- yea, they really are.

Wonder who originated that - - the serpent in the Garden of Eden? Surely it pre-dates the old radio and TV shows of the same name.

Just in case you have plenty of time on your hands and want something "newsworthy" to do or want to get written up in some future record book, get a copy of Guiness' record book and take off.

Driving along this week and listening to the radio, I heard these gems which I could hardly wait to share.

Now if you have the time and the inclination, you might try what one fellow is doing in order to best a record already written up in the heretofore book. Seems some fellow is collecting dominoes (I'm not positive about the number but think it's one million) which he plans to set up (remember the old game you played by standing dominoes on end and then letting them knock each other over?).

Well, it's going to take space for that little project -- 3.5 acres to be exact. Know how long it'll take for them to knock themselves all down? Four and a half hours. That's one of the bits of wisdom I heard on my little wireless.

The other two valuable pieces of knowledge are not from a record book -- just reports that I'm sure you're dying to discover.

Have you heard about the handwriting expert (a graphologist) who has studied and determined that the Declaration of Independence was signed by only one person? Bah, humbug!

The other bit of malarky is the kind of news, in this gal's opinion, we could do without. Seems that we now have a radio program that is "X-rated". For the "benefit" of blind persons who do not wish to wait until the book can be printed in braille or who couldn't afford it if it were, there is now a radio program beamed just to blind listeners. It's the reading of erotic literature.

You'd be surprised at what you can hear on the radio. You know what you can see on the tube and you're aware what you can buy on the news stands.

Guess it's good that grown-ups have their own built-in "censors" and can tune in or tune out. What about little eyes and ears of the world?

Lunchroom

Continued from page 1

September records show that an average of 822 were fed that month.

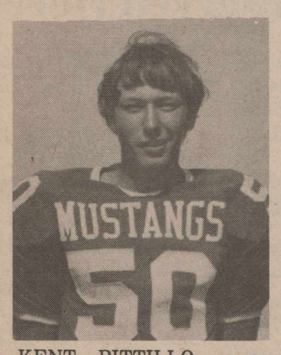

Type A lunches consist of three ounces of edible meat or meat alternate, three-quarters cup fruit and or vegetables, one slice bread or one roll, 1 teaspoon butter and one-half pint milk. Dessert isn't required but is usually added to the menu.

Lunch tickets sell for a very nominal fee; 60 cents for junior high and high school and 55 cents for elementary.

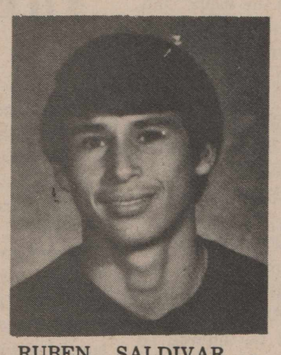

Full time employees are Norma Lively, supervisor, Merle Sharp, Margaret Gallagher, Sandy Kersh, Pauline Jones, Mary Austin, Mary Sanchez, Mildred Caudle, Alice Sherry, Mabel May, and J.D. Lively.

Part time employees and substitutes are Jewell Huggins, Jewell Long, Dorothy Holt, Edisey Hackler, Wanda Hillhouse, June Reaves, Swen Smith, Ozia Brothers and Lydia Ross.

SMALL GRAINS
by using Ammo-Phos

A little Ammo-Phos goes a long way toward higher small grain yields.

Why is Ammo-Phos so good for small grains?

Partly because it dissolves so quickly. All of it. So your plants get faster feeding.

And partly because each pellet of Ammo-Phos contains the same amounts of nitrogen, phosphorus and potash. Not separate granules of each but chemically combined equally in each pellet. In the exact ratio you order.

Another thing is that Ammo-Phos contains sulfur, which is getting hard to find. The exclusive process Olin originated to make Ammo-Phos Fertilizers not only chemically combines the plant foods. It also puts the sulfur found in raw materials into the finished product.

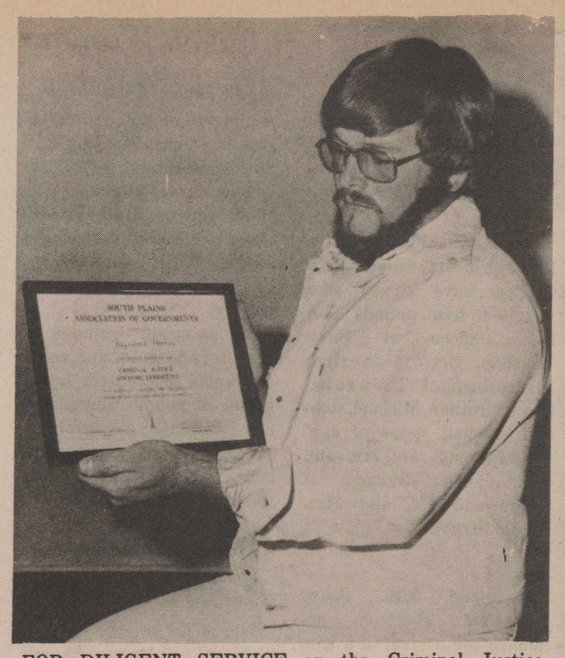

Ammo-Phos is good for small grains because the pellets are uniform in size. They distribute evenly, without clogging. Even distribution means even feeding. This stimulates growth and promotes earlier maturity.

You can grow more small grains by using Ammo-Phos, made only by Olin. For all the details come see us today. We're at this sign:

JANA MANDRELL

Cook Of The Week

Four-H'ers across the land have been observing their "special week" and recipes are shared this week by a local member, Jana Mandrell.

Jana, daughter of Mr. and Mrs. DeVurn Mandrell, is in her third year of 4-H membership. Her primary projects have been with calves.

A seventh grader at Olton Junior High School, Jana likes history. Her hobbies are reading and playing the piano. She has been taking piano lessons about five years. She also likes the outdoors and enjoys riding horses.

Jana admits that she likes to cook "sometimes" and prefers to bake rather than the other categories of cooking. She and her mother have improvised on the "Tunnel of Fudge" cake, substituting other butter cream frosting flavors and coming up with an entirely new cake.

She has an older brother, Jimmy, and attends the Assembly of God Church.

TUNNEL OF FUDGE CAKE
1½ c butter
6 eggs
1½ c sugar
2 c flour
1 pkg milk chocolate butter cream frosting mix (or other flavor)
2 c nuts, chopped

Cream butter in large mixer bowl at high speed. Add eggs one at a time, beating well after each. Gradually add sugar, continue creaming at high speed until light and fluffy. By hand, stir in flour, dry frosting mix and nuts. Bake in greased bundt pan for 60-65 mins. in 350 degree oven. Let cool two hours before removing from pan.

PEANUT BUTTER FUDGE
1½ c sugar
½ c milk

Boil to soft ball stage. Remove from heat and add 1 t vanilla and butter the size of an egg. Add ½ c crunchy Peanut Butter. Beat and pour into buttered pan.

GERMAN CHOCOLATE BARS
14 oz pkg caramels (light ones)
⅓ c evaporated milk
1 pkg chocolate cake mix
1 T water
½ c margarine, softened
1 c nuts, chopped
6 oz pkg chocolate chips

Preheat oven to 350 degrees. Melt caramels and milk over low heat, stirring constantly until caramels melt. Keep warm. Combine in large bowl remaining ingredients except chocolate chips. Stir with fork till dough is crumbly but holds together. Press half of dough into pan. Reserve remaining dough for topping. Bake in 350 degree oven for six minutes. Sprinkle chips over baked crust. Spread caramels over all. Spread reserved dough over caramel mixture. Bake 15-20 mins. Cool completely and cut into bars.

Senior Citizen Club To Meet

Arts And Crafts 'Show & Sell' Successful, To Be Annual

Last weekend's Arts and Crafts "Show & Sell" proved to be a successful highlight of the bicentennial-homecoming celebration and plans are already "in the making" for the event to be held annually.

Tammy McCoy of Spade and Cody Carson were first and second place winners in the youth division art show. Winners in adult competition were Teri Sodd of Lubbock, Jean Green and Jo Helen Harrell. Honorable mentions were given to Alan Glasscock, Neva Prestridge and Debra Hairston of Spade, who received two such awards.

Miniature division winners, for works 5" by 7" or smaller, were Jean Green and Evon Oliver of Spade.

"Peoples Choice" went to Jessie Rector of Tulia.

Tulia Farmer Is Cited For 'Yieldmasters Club'

Tommy Womack of H. & W. Farms at Tulia was recently cited by the DEKALB YIELDMASTERS Club for producing 39.97 bu. of wheat per acre with a protein content of 13% and test weight of 60.8 lbs.

Womack's yield was mechanically harvested from a field measuring 150.7 acres. The yield, based on 12% moisture, came from a field of Dekalb Brand 593.

Womack planted the field on Sept. 29 at 55 lbs. per acre and harvested it on June 26. His fertilizer program included 100 lbs. of nitrogen and 46 lbs. of phosphate. He also used Parathion for insect control.

The yield was recorded on irrigated land. The field was irrigated one time totaling 4 inches. Cattle grazed the wheat from Dec.1 to Feb. 15 at a stocking rate of 1.5 head per acre.

Womack farms 740 acres of wheat, 600 acres of sorghum and 150 acres of cotton. Concerning the yield, he says, "My 593 is good grazing wheat and I like its height at harvest."

The purpose of the club is to promote an exchange of ideas among the nation's leading grain producers and to recognize them for their outstanding accomplishments as well as their important role in helping feed the world. Through the sharing of this information, the program also encourages farm management and cultural practices that will aid farmers in obtaining maximum profit from each acre.

Farmers, from across the country, submit more than 1,000 corn, sorghum, wheat and silage yields to the club each year.

Merlin the Magician
on how to solve
your heating problem

"Those drafty old castles are notorious even today for being dreadfully hot in summer and frigidly cold in winter. We didn't have the heat pump in those days, of course. I think what I like best about the heat pump is its simplicity. One unit provides heating and cooling . . . complete comfort in any kind of weather with one setting of the thermostat. And the heat pump is environmentally-sound . . . when heating, it actually provides more energy than it uses. Yes, if I'd had a heat pump, I wouldn't have been so cranky about passing on my magic secrets . . ."

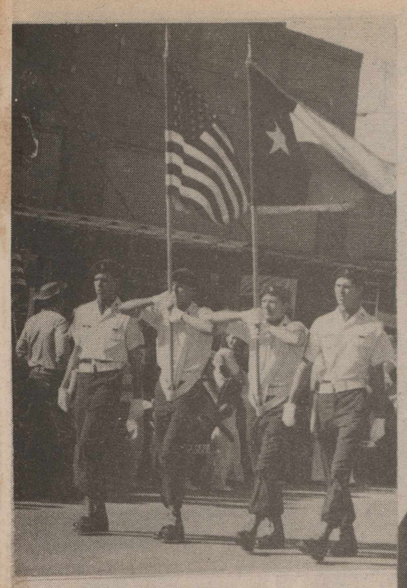

BE SWITCHED TO ELECTRIC HEAT

You've got Merlin the Magician beat when it comes to conjuring up a heating system that answers all your needs. Just call us this week and we'll show you how to have complete comfort in your home with our FREE electric heat cost survey. Electric heat. It's not magic . . . it just acts that way.

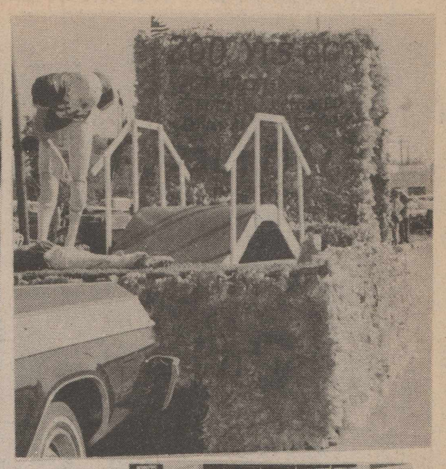

ENERGY EFFICIENCY ALLOWANCE
We, at Southwestern, are interested in your getting the most for your energy dollar. That's why we're offering an Energy Efficiency insulation allowance to our customers in existing homes who install electric comfort heating. Ask us about it.

Big Second Half Ices Homecoming

Don't under estimate the Idalou Wildcats. They can play; as they showed the first half before the Olton Mustangs flexed their muscles to take a 32-6 victory. The win highlighted a successful Bicentennial Homecoming and was played before a capacity crowd.

The Mustangs started the first battle as Buster Lloyd returned the opening kickoff to the 29. But the Wildcats, not looking like the Wildcats of the past few years, immediately stopped the Mustangs on three straight plays and forced them to punt.

Michael Franks' punt carried to Idalou's 37. Then Gary Galloway quickly picked up a first down for the Wildcats by carrying the ball to Olton's 46 yard line.

The Wildcats, playing sound football, methodically picked at Olton's defense, picking up two more first downs. This drive though, went for nothing because of a fumble that was recovered at the 18 by Olton.

The Mustangs then started a drive of their own. Runs by QB Jimmy Parker, FB Leslie Gary, and TB Glenn Johnson, who was almost back at full speed, netted 22 yards. This put the ball on the 40 with a fourthdown and six situation. Parker tried to Franks on a quick pass but Galloway was there to break it up and the Wildcats took over.

This kind of play continued during the second quarter with each team driving the ball but not being able to cash in. At this point, it looked as if the two teams would go to the locker room with no score on the board.

Then suddenly, Idalou QB David McKensie connected on a pass to Lad Harris, who came out of nowhere to catch it, and Harris went untouched into the endzone. The PAT was no good and with 1:11 left in the half, Idalou had jumped out to a 6-0 lead.

The Mustangs decided that this just wouldn't work, so on the first after Idalou's kickoff, Parker connected on a perfect strike to Mark Stroebel, for 69 yards and a touchdown. Parker was trapped on the try for two and the halftime score was 6-6.

Olton came out of the locker room determined to play. As the Wildcat defense began to break, the Mustangs started a scoring spree to take charge of the game. Midway through the third quarter, Jimmy Parker capped a 63 yard drive with a run around left end to the corner of the endzone. Running the exact same play, Parker converted the PAT to make the score 14-6.

The defense held the Wildcats to nothing to regain possession of the ball on Idalou's 49 yard line. This drive proved to be another payoff drive, with Parker rolling in from the 14. The two key plays on this drive were two Parker-Stroebel passes. The thirty yard(?) PAT try by Kevin Workman was high enough but not long enough and the Mustangs surged out to a 20-6 lead.

As the game turned into a rout, the Mustangs put 12 more points on the board before time ran out. One of these was a two-yard plunge by tailback-tight end Michael Franks. This was set up by a Parker pass to tight end-tailback Franks. The Mustangs walked off the field with an easy 32-6 win.

BOTTLE GARDENING -- Bottle gardening can be fun for busybodies, contends a landscape horticulturist for the Texas Agricultural Extension Service. All that is needed is a waterproof container, tap water and cuttings of some favorite plants. Beverage bottles, vases, canning jars, fish bowls and aquariums make good containers. Use cuttings from any plant with a thick stem, such as a myrtle, geranium, oleander, wax begonia, coleus or hibiscus. Change the water monthly and wash the container with hot water and detergent. Also make a fresh cut on the plant stem to improve water uptake. Any cuttings that develop roots can be planted.

FRIDAY CALLERS

Friday evening callers of Mrs. Era Mae Walthall were her daughter and family, Mr. and Mrs. Jack Coleman and M'Lee of Hereford.

RECENT VISITORS

Recent guests of Mr. and Mrs. Dick Watson were C.C. Caussey of Fort Worth and Chuck Mitchell of Little Rock, Ark.

FROM DALLAS

Bob Poteet left for his home in Dallas Monday after visiting his mother, Mrs. Lee Poteet.

PREPARATIONS FOR THE HUNTER -- Preparing for the fall hunting season means getting into good physical condition as well as getting your equipment in shape, says a wildlife specialist for the Texas Agricultural Extension Service. All firearms should be cleaned checked and sighted in. Knives, hand axes and bone saws should be sharpened and wearing apparel should be in good repair to add to the comfort of the hunt. Good footwear is essential. Exercising such as walking or jogging helps get the body in shape for hunting. Dieting off a few pounds will also help.
