A Few News Spots. We Don't Know Kemal. Learn From Flatheads. Easy To Live Longer.

BY ARTHUR BRISBANE

(Copyright, 1927, By Star Co.)

Spots in the news that will interest you are these:

It looks like arbitration in Mexico. Almost anything is better than war. Buying all the slaves at $1000 each would have been cheaper than the Civil war.

The senate is trying not to admit Senator Smith of Illinois to its exalted membership. But Senator Smith represents the people of Illinois, not the senate of the United States, and the people of Illinois knew all about him when they voted.

* * *

Charles Chaplin, never very heavy, has lost 18 pounds since his latest worries began, the worst illness is mental illness. Chaplin, who has made millions happy and never made anybody unhappy, would seem to have a just complaint against fate.

Britain won't give up Chinese and other Asiatic markets without displaying some of that "bulldog pluck". More marines, more ships are sent to remind the Chinese that British factories need outlets.

* * *

The senate rejects the Lausanne treaty, so this country remains cut off from official acquaintance with Turkey and that energetic dictator, Kemal Pasha. The treaty is rejected because it doesn't provide adequate protection for Christians, or any solution of the eternal Armenian question.

The rejection of the treaty is largely a triumph for Christian missionaries.

The Missouri legislature considers a bill to prevent teaching any doctrine of evolution that might contradict "the first and second chapters of Genesis."

A fundamentalist clergyman whose son is entering the ministry, announces that he is watching him closely to make sure that no modernist ideas enter his brain.

That conscientious father might get an idea from the Flathead Indians. They fasten a board against the baby's head when it is born, keep it there, and make sure the head stays flat.

The Soviet government approves a new dance, a dignified "Lancers," danced to a gallop tune. Still young bolshevikl practice the forbidden Charleston secretly. If you can't keep youth from picking up new dance steps, how will you keep it from picking up new philosophical ideas? You can't do it, luckily.

Mr. D. G. Reid's estate amounts to "only" $5,000,000—pitifully small sum for one called "rich." His daughter will draw the income on his property until she is 50 years old, and then get the principal.

Fifty is the age at which women, if ever, learn to keep what they have. With men, that age comes later.

* * *

Twenty was the average age at which men died in the year 1650. In 1850 the average age was 40. In 1875 it was 45, and now it is 58.

The able Dr. Mayo supplies those figures. With the right kind of living, 10 years can be added to present average, and we begin wise living at the right age. The famous Luigi Cornado, however, given up to die after 40, lived wisely and passed 100.

* * *

American business men, Dr. Mayo says, "lack girth control." Too much fat means shorter life. The dangerous age for woman is 19 to 18. The dangerous age for man is from 50 to 55. At that age he becomes foolish.

* * *

Little things are important in big things. Mr. Blume, president of the Western Electric company, tells you that telephoning across the Atlantic ocean is made possible by a small object manufactured from rochelle salts.

And now the British manual for royal air force pilots orders them to chew gum as they come down from high altitudes. Chewing gum creates saliva, and that keeps the flier swallowing. The act of swallowing relieves pressure on the ear drums.

PRINCE LIKES AMERICA

NEW YORK, Jan. 19.—Prince William of Sweden likes us so well that he is almost inclined to take out first citizenship papers. And as for reporters: "That reminds me — when I first met gorillas in Africa I was inclined to shrink a bit, but soon I found they were not so bad."

SOLONS FAVOR NEW COURT OF APPEALS HERE

Senate Committee Votes For Creation of Wichita Appeals District

MINORITY FIGHTS IT

Two Reports Will Be Filed Before Senate On Measure

AUSTIN, Jan. 19.(AP)—A majority of the senate's committee on judicial districts Wednesday afternoon voted to report favorable for passage of a bill by W. D. McFarlane of Graham, providing for the creation of a court of civil appeals at Wichita Falls.

Unfavorable recommendation will be made by a minority.

The committee on civil jurisprudence also met but failing to have a quorum, no reports were prepared.

AUSTIN, Jan. 19.(AP)—Proposals were made from the house floor late Wednesday that the entire body of 150 representatives visit the central plants of the state prison system for information to guide action on presenting bills providing concentration and administrative reform.

The question probably will be threshed out Thursday afternoon when Chairman Lee Satterwhite of the house penitentiary committee will explain his reason to send the committee on an inspection trip.

No session was held by the senate today, which will reconvene Thursday morning.

A bill introduced recently by Satterwhite proposed relocation of the system in some manner to be approved by the legislature, but specified no particular place. Another measure by Rep. Claud Teer would concentrate the system in central Texas and appropriate a million dollars to execute the program.

AMNESTY REPORT SOON

AUSTIN, Jan. 19. (AP)—Report of the senate committee on criminal jurisprudence on the bill introduced by Tom Love of Dallas to repeal the Ferguson amnesty act will be made early next week, W. C. Woodward of Coleman, chairman, said Wednesday.

The committee probably will meet Thursday morning but will not discuss Love's bill, he said.

Archie Parr of Benavides has been added to the committee at the unopposed request of I. D. Fairchild of Angelina.

PERU UNDER ARMS

Chile Makes Charge of War Against Rival

SANTIAGO, Chile, Jan. 19.(AP) The charge that Peru after refusing "to enter any form of settlement of the Tacna-Arica problem" is arming against Chile is made in the editorial columns of La Nacion.

The paper says the problem has ceased to be one, only between neighboring countries and now affects the tranquility of the whole continent.

'BONNER NOT DAD'S SLAYER,' WIFE SWEARS

Accused Youth With Her In Austin At Time Bomb Was Sent

STATE RESTS CASE

Character Witnesses Defend Bonner's Previous Reputation

CORPUS CHRISTI, Jan. 19. (AP)—A heavy cross-fire at the state's chain of circumstantial evidence with which it hopes to convict Frank H. Bonner of the murder of J. A. Barnes and Jesse Barnes in a bomb explosion, and testimony designed to build up an alibi, featured the day in the bomb murders trial here today.

The state rested its case at 3:15 o'clock and the defense moved for an instructed verdict. The motion was overruled, and the defense plunged into its testimony, introducing in a short time two witnesses who stated positively that Bonner was at Austin at 9 and 11 o'clock on the morning of Nov. 13, 1923. The bomb was expressed from San Antonio at about 10:30 o'clock on the morning of November 13, previous testimony had brought out.

Wife Swears for Him.

Mrs. Dorothy Barnes Bonner, wife of the defendant and daughter of the bomb victim testified that she had seen and talked to Bonner at 9 o'clock and gave her reasons for remembering the date. A friend, G. C. Hengey, had intended to take some pictures of her dancing class that day and she was concerned about them. She said she asked Bonner to arrange for taking the pictures and he said he would see Hengey at 11 o'clock class.

Hengey testified that he saw Bonner at the class at 11 o'clock; that he did not take a quiz which was given the class on that date, and that he took the pictures of the dancing class on November 13. "I never showed those pictures to Dorothy," he said. "I finished the pictures on November 14 and learned that Dorothy and Bonner had left for San Antonio. He said Bonner's reputation was excellent, that he had no bad habits and that he was popular with his classmates.

Classmate Uncertain.

Henry Bolton of Houston, former classmate of Bonner, was unable to say definitely whether Bonner was at the electrical engineering class in question. "We were the best of friends," Bolton said. He praised Bonner's reputation and character.

Three Men and Woman Jailed As Leaders of Chicken Theft Ring

Officers of the city police and sheriff's department combined forces Wednesday in a drive against chicken thieves who have operated on a wholesale scale during the last few weeks, and at the end of the day had lodged three men and one woman in the county jail.

The three men and woman are being held in connection with thefts which have caused heavy loss to chicken fanciers in Wichita Falls and Northwest Texas.

Wednesday night Sheriff W. G. Bralley and Chief of Police George Hodgins both expressed the opinion that evidence collected by city and county officers had ended activities in this section for some time.

Investigations of officers Wednesday resulted in the identification of 61 birds, stolen at Bellevue Tuesday night, and sold in Wichita Falls Wednesday. The sale of 139 other chickens was also traced by officers, as well as the sale of 24 blooded birds to another produce merchant.

Two trucks, both believed to have been used in the transportation of chickens, and numerous coops and crates, were also found in a raid on a Wichita Falls residence. A dozen or more thefts are being investigated. Theft of chickens is a felony under a new state law.

Both city and county officers have been working on the cases since early in the week, it was revealed. Officers taking part included Cliff Kelsey, W. W. Belcher and Dick Morris of the sheriff's department, and Detective Bill Lay of the city police department.

Y. M. DRIVE TO OPEN TODAY?

"Time About Ripe" For $425,000 Goal, Leaders Say

By BLONDY CROSS

A city-wide drive to finance a $425,000 Young Men's Christian association building for Wichita Falls will begin early in April, it seemed likely Wednesday, according to statements by members of the Y. M. C. A. finance committee body, chosen several years ago to select a campaign date and take care of details of the drive.

Decide Today

Special session of the committee has been called for Thursday afternoon to vote on whether or not immediate action will be taken toward raising funds to finance construction of a fully equipped Y. M. C. A. building with club rooms, residence quarters, a gymnasium and swimming pool. The committee has been in correspondence the past several days with Urban Williams, state Y. M. C. A. secretary, with headquarters at Dallas, who stands ready to aid in raising funds for the project.

J. H. Allison, member of the committee, Wednesday received a telegram from Williams urging quick action on the matter. A meeting was then called at Kemp hotel at 1:15 today for purpose of arriving at decision whether or not "the time is ripe," a phrase the committee apparently has been in love with over a span of several years. The committee, since its selection in 1923, has made it a custom more or less to gather annually and arrive at verdict that another year must pass before "the time is ripe."

Ready For Action

But this year, this particular Thursday afternoon, if the general trend of committee opinion expressed is not misleading, it will be decided, at last, "the time is ripe" and "the pot has begun to boil," another favorite committee expression coined when various city finance drives bounced to the fore and shoved the intended Y. M. C. A. project into the background.

J. H. Allison declared Wednesday night that he is very much in favor of getting down to business in April and unlimbering the heavy artillery in bombardment for the half-million dollar project. J. W. Culbertson, member of the committee, intimated to The Record News that he is in favor of delaying no longer. Walter Cline, also a member, is not in the city. R. E. Shepherd has expressed himself as favoring quick action. The remainder of the committee is composed of J. C. Mytinger, W. B. Hamilton and J. C. Hunt.

NORRIS VICTIM HAD ESCORT IN FATAL VISIT

Doc Redmond, Employe of Norris Paper, Was With Chipps

REDMOND TO TESTIFY

Jurors Are Told of Threat On Norris by Chipps Over Phone

By 'GENE FOWLER
Universal Service Staff Correspondent.

AUSTIN, Jan. 19.—Dexter E. Chipps, slain last July 17 by the Rev. J. Frank Norris, had a companion as he climbed the stairs leading to the Fort Worth pastor's study. The lumberman, then on his way to his death, was accompanied by a man called "Doc" Redmond.

"Doc" Redmond is said to be D. L. Redmond of Fort Worth. He is connected with the advertising department of "The Searchlight," it is said. This, however, was not brought out in today's testimony.

The "Doc" Redmond phase, testified to by R. B. Ridgeway here this afternoon, injected another witness into a case that is becoming surfeited with beholders and near-beholders of the strange tragedy. Ridgeway is a deputy game commissioner—formerly he practiced law in Fort Worth. His wife is connected with the Rev. Norris' church publication, "The Searchlight."

Redmond on July 17, had parked a Ford sedan near the entrance to the stairway of the Norris church business offices. He was in the back seat. He could see half way up the stairway.

In testimony intended to refute the eye-witness story of Mrs. Roxie Parker for the state, Ridgeway was positive he had seen neither men nor women pass up or down the stairway—with one exception. That exception occurred after Ridgeway had been sitting in his car for an hour.

He Saw Two Men

Question by Marvin Simpson of defense counsel: What attracted your attention before you heard shots?

A.—I saw two men going up the stairs.

Q.—How long was that before the tragedy?

A.—I'll have to use my best judgment—between three and five minutes.

Q.—What had attracted your attention before to the men—what was said or done there by the men?

A.—One of them, a large man in a dark suit and the other a younger man in his shirt sleeves came up the street. The large man was walking fast. When they were opposite me the large man wheeled and faced the young man.

Q.—What, if anything, did he say?

A.—He spoke in a large voice. He said: "How in the hell will I know him if I see him?"

Q.—What did the young man say?

A.—I can't recall his exact words. My impression, my best recollection is he said something like, "come on."

Q.—Do you now know who the men were?

A.—Yes. The big man was D. E. Chipps. The young man was "Doc" Redmond.

Q.—Do you know where Redmond is now?

A.—Yes. Here in the witness room.

Men Go Upstairs

The two men went up the stairs. When he heard the four shots, Ridgeway got out of his car. He paused at the foot of the stairs. Then he went up and saw the body of Chipps. He found the Rev. Norris in the main business office—Norris said: "I hated to, but I had to do it."

Special Prosecutor W. P. (Wild Bill) McLean brought out in cross examination that Ridgeway's pastor is Norris; that his wife draws a salary from the Norris church.

Although the defense's chief eye-witness is L. H. Nutt, Fort Worth banker, Ridgeway did not see Nutt in any of the Norris offices. Yet he admitted, he knew Nutt for 10 years.

HAMBONE MEDITATION

Chaplin Must File $1,000,000 Bond To Get Control of Cash In Wife's Suit

By Universal Service.

LOS ANGELES, Jan. 19.—Against the strenuous protest of Charlie Chaplin's attorneys, Judge Walter Guerin in superior court fixed $1,000,000 as the bond for the Chaplin Studios, Inc., when he lifted the receivership from that organization late today.

Chaplin's counsel argued so persistently against the huge sum that Judge Guerin was compelled to cut them short.

Receiver Herman Sittel read in court his report of what was found yesterday at the Chaplin studio when three vaults and an office safe were opened.

Bank books showed that Chaplin and various companies in which he is supposedly practically the sole owner, have approximately $1,000,000 cash in various banks. More than $500,000 is on deposit in New York and there are accounts in London and Paris.

Federal officials said today that Chaplin must file a bond of approximately $1,000,000 within 10 days as the result of the government's $1,073,721.47 income tax suits against him.

Services by publication was begun against Chaplin today in a local legal paper. At the end of 20 days the trial of the divorce case can proceed, though Chaplin is not present.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.—Adv.

FAULTY WARRANT

Date Omitted, Judge Instructs Jury To Free Man

Because the search warrant used by officers in raiding the place was not dated, an instructed verdict of not guilty was returned Wednesday in the case of the state vs. J. L. Pipes, charged with possession of whiskey for the purpose of sale.

Pipes was indicted after officers had raided his place. Defense attorneys, however, when trial was started moved for an instructed verdict that the search warrant under which Pipes was indicted had not been dated by the justice issuing it. It was therefore held to be invalid — a contention which Judge E. G. Thornton of the 30th district court sustained.

POPULATION NEAR 60,000

Meter Installations Show Heavy Increase

Wichita Falls, according to the meter forecasts of the city, has a population of about 55,000.

Meter installations of the utilities companies show that there are 11,000 water meters in the city; 10,365 telephones, 9597 light meters and 10,431 gas meters.

An average of five persons per meter is figured in computing populations on this scale. Thus, using the water meters which have a maximum of 11,000 and the 55,000 figure would be arrived at.

As a matter of fact, however, the population here is figured at nearer 60,000 by the chamber of commerce, city officials and private surveys made recently.

The meter and telephone figures are as of Jan. 1.

1000 MEN TO LAY NEW LINE

Work On Denver Into South Plains Opens Soon

By Universal Service.

WELLINGTON, Jan. 19.—A move for a north and south railroad through the East Panhandle, running north from either Memphis or Wellington, was launched at a meeting here today with representatives from Memphis, Wellington, Canadian and Spearman present.

No specific route was proposed. However, it would run from either Memphis or Wellington to either Spearman or Canadian where it would connect with the Santa Fe railroad.

What is described as being the largest piece of railroad construction in the United tSates in recent years is to be started in the next two weeks when the major drive begins on building the new Fort Worth and Denver South Plains line from Estelline wesward to Plainview and Lubbock.

Contracts for the work were signed Tuesday by Frank E. Clarity, vice-president and general manager of the Fort Worth and Denver railway. Over $3,000,000 is involved in the work just authorized, although the total expenditure involved in the South Plains line will be near $7,000,000. The exact amount will not be known until all orders for material have been placed.

Two grading and track construction contracts were let by Clarity in Fort Worth. One went to Peterson, Sherley and Gunther of Ohama, Neb., who will grade and build the line from Estelline 62 miles westward to the caprock. A tunnel 700 feet long will probably go in as a part of this, although a deep cut may later be decided on.

This firm, it is announced will have 1000 men in camps on the grading and will use 200 or more on track laying six weeks after the grading starts. Going through the caprock will be an extremely difficult task.

Sprague and Nisely of Beatrice, Neb., were awarded the work from the caprock on. Their contract is for approximately $1,000,000 and they will build the main line from Quitaque to Lubbock, Silverton and Plainview.

Dr. Grieder stressed in his talk the point, self expression as a means of salvation and said that self expression triples our capacity to live. The speakers were introduced by Mrs E. A. A QUESTION

After reading a few of Machiavelli's essays on chicanery, one wonders how long he would last as a modern used car dealer. It would give him a great laugh, we know, to see how conscientiously we recondition our Used Cars before offering them for sale. But the proof of a principle is in its success—and the laugh would be on him, after all.

Making Modern Menus

Something a little different in the line of meats is always appreciated by the woman who wishes that there were more ways of preparing the main dinner course. In beef and ham roll the housewife may use left-overs to good advantage or she may make it from meat bought particularly for the purpose.

BEEF AND HAM ROLL.

Take half a pound of lean beefsteak, two ounces of lean ham, two tablespoons of bread crumbs, one tablespoon of flour, one egg, a little milk, one-half a nutmeg and pepper and salt. Mince the beef and ham very finely, mix thoroughly with the bread crumbs, flour, grated nutmeg, pepper and a very little salt. Mix with well beaten egg and if this is insufficient to bind the mixture, add just a little milk. Make into a roly poly pudding shape, wrap in waxed paper which has been well-greased and then in a pudding cloth, fastened securely. Put into a sauce pan with enough boiling water to cover, turn the gas very low and let it simmer for two hours. Cover a plate with crumbs made from bread nicely browned in the oven, turn the roll out of its coverings into the crumbs and move it gently until it is well covered. Serve cold.

TEACHING A NATION TO AVOID SEVERE COLDS

FOLKS used to wait until a cold got *big*. Now they stop a *little* cold before it becomes big.

And the very same treatment used for stubborn *big* colds is most effective in stopping *little* colds.

The whole secret is in *quick action*—without "dosing."

At the very first sign of a cold, the *safe, quick* way is to apply Vicks VapoRub.

Safe, because being an external treatment, Vicks can't upset the stomach. *Quick*, because of its famous *double* action.

Rubbed on throat and chest Vicks acts

2 Ways—At Once

(1) The medicated vapors (released by body heat) are inhaled with every breath, direct to the inflamed air-passages, loosening phlegm and easing difficult breathing.

(2) *At the same time*, the medicated *salve* stimulates the skin like a plaster or poultice, combining with the inhaled vapors to break up congestion.

You have used Vicks for *big* colds—now use Vicks to *keep little colds from becoming big.*

Make sure there is a full jar of Vicks in the house. Better look. (By the way, many business men and women have a jar of Vicks in the office, for prompt treatment of *little* colds.)

It's the first few hours that count. Be prepared, at home and office. Don't *have* that next severe cold.

VICKS VAPORUB

OVER 21 MILLION JARS USED YEARLY

Quick-as-breath Tent

Melt some Vicks in a bowl of boiling-hot water. Inhale the vapors. Quick-as-breath you feel the soothing medication through the air-passages, right down into the lungs.

Dorothy Dix Articles Daily--Advice To Women

Don't Humor Sulky Husband, He'll Just Get Worse, Young Bride Told

Dear Miss Dix—What would you do with a husband who sulks? My husband is a good man and gives me a generous allowance, more than I need, but if anything displeases him he will sulk sometimes for a week at a time. He will kick over furniture; sit up all night in a chair, and refuse to eat or speak, but if I agree with him about everything he is as nice as can be. I am not a dumbell and was a very successful saleswoman before I married. MABEL.

ANSWER:

Well, Mabel, I think that the wise thing for you to do will be to sit down and balance your book of life, so to speak.

On the asset side of your ledger you can write down that your husband is a good man, who loves you in his queer, selfish way, and who is generous.

It's a big thing for a woman, especially as she gets along toward middle life, to have a good home and a good provider and some man to stand between her and the world. It wouldn't be so easy for you to be a saleswoman now as it was in the days when you were young and peppy and eager and interested. And it would take a long time for you to work up to the place where you could make enough money to live as comfortably as you are living now.

Also, after a woman has been married she is seldom satisfied to live alone. She has got used to companionship and to being necessary to some one, and she finds it pretty dreary not to have any one to look out for nor any one to cook for.

And, strangely enough, this is true even when the husband hasn't been very amiable and pleasant. She even misses not having anybody to quarrel with.

Thus, even as matters stand, you've got a good deal to put down on the credit side of your ledger. On the debit side you've got an unreasonable, grouchy man, and that sort of a husband does come pretty near to being a total loss.

So, having considered what you get out of matrimony and what you have to endure, you can decide if your husband's good qualities outweigh his bad ones, and whether he is worth putting up with or not.

I don't believe there is any cure for sulkiness. It's just ingrowing selfishness and childishness, and those who indulge in it need to be turned across somebody's knee and given a good spanking. Unfortunately you can't do that to grown men and women and so the only thing you can do is just not to notice it.

Sulking is a cowardly weapon which both husband and wife use in order to get their own way, so the more you give in to it, the more your man will indulge in it.

Therefore, don't be weak enough to apologize all over the place for things you haven't and try to cajole him out of his blue devils. Just put on your hat and tell him you can't stand living with anybody so disagreeable, and that you are going away to stay until he gets in a good humor and he can telephone you when his spell has passed. By the time he has cooked himself a couple of meals he will decide that it doesn't pay to grouch.

But if you can keep your husband in a good humor by agreeing with him on every subject, why start arguments?

DOROTHY DIX.

There are many who are tired of the eternal chicken a la king and chicken patty, without which no wedding or luncheon used to be considered complete. The oyster makes a nice change at this season of the year when served in patty shells, and other sorts of fish may be substituted for chicken in many creamed dishes.

SALLY'S SALLIES

A hard-boiled egg becomes "soft" when a "chicken" takes notice of him.

MODISH MITZI — By JAY V. JAY

Polly comes in to find Mitzi painting paper dolls for a new little art shop for the benefit of somebody or other. They might be ordinary paper dolls if anyone but Mitzi were making them. As it is they are the giddiest most fashionable paper dolls imaginable.

This is Joan Paper Doll. She wears a dress of black and beige—the frock itself of silk, the yoke and godets of chiffon. Her coat is beige, too, and is trimmed with wolverine fur. The smart small hat is made to match the coat and trimmed with a narrow strip of fur.

Meet Louise Paper Doll who has a turned-up nose and a dress of sheer crepe trimmed with velvet flowers. Her cape ("No, it isn't an evening cape. What difference does it make?" asks Mitzi) is of plain and plaid woolen with a bushy fur collar. Her hat is felt and velvet.

Clotilde Paper Doll is going south. That explains her wide straw hat and the lace and georgette dress for very special afternoon affairs. The evening dress she is wearing is made of two tones of orchid. ("Bother—I forgot about her fan!" says Mitzi.)

Tomorrow—New Fashions Just From Paris.

Favorite House Colors.

Bright blues, such as ultramarine and royal are favorite colors house painting in London at the present time. The colors are particularly prominent in more fashionable sections of the city. Painting your house blue is supposed to brng good luck to those who live within.

Just AMONG US GIRLS

by Kathryn Kenney

WHERE THERE'S A WILL THERE'S A WAY

"THE SAVIN G GRACE"

The money that used to go into the china dog, now goes to the dogs. When children are given savings banks they break them open from force of habit. Everything but the bank catches our interest. The only reason we notice it at all is because it has "Four Per Cent" on the windows.

Some old-fashioned people still believe in saving for a rainy day, but most of the umbrella stands are filled with roses. You can't save for your old age any longer. Unless it's to have your face lifted. Those who are aged in the "wood" may still be nimble in the feet!

The high cost of living makes many a man feel low. When you climb to the price peak you see a lot of goats along the way. A man used to be able to raise a family on his salary, and raise them out of sight, too. It used to be that he could get a house for twenty-five a month, now it's that much a head.

Some member of his family has to die before a man can get married, because where there's a "will" there's a way. No boy enters college "on a shoe string" nowadays; if he does, it's covered with spats. If you get in on your looks, remember it costs to keep your looks up.

Everything has its price, but the wise man waits until it's marked down. Pocket money doesn't stay there long enough to deserve the name. Somebody with an income of fifty-thousand a year plans a budget for the three-thousand-a-year man. Just so he saves half of it, the bank doesn't care how extravagantly he lives on the remainder.

Those who live beyond their incomes should be so far ahead that they can't be caught. The man wh olives on his budget is like the man who fasts for 40 days, wins a silver wish-bone, and dies. For one thing, you have to be certain that you're going to be healthy because the amount allowed for the doctor wouldn't wash his thermometer.

If you should need an operation you'll have to wait for another month before you can cut much of a figure. The amount allowed for music will just about buy you a mouth organ. You get three dollars a month for travel so at the end of the year you can all go on an excursion provided the clothes allowance covers everything!

You don't have to worry about education because the only thing you learn on $13 a year is that it's an unlucky number. We live but once, and then come out $100 short. You can't even spend your youth if you're too saving. And when you shoot the wad it's the only time you don't have to shoot straight!

WHEAT PLANTING IN THE WEST

WHEAT planting in West Texas is an indication that the farmers of that section are not going to plant or rather place all their eggs in one basket. It is announced that 500,000 acres of farm land in the Wichita and Red river valleys and other lands contiguous to the Wichita Falls farming sections, have been planted to winter grain crops.

An equally large acreage on which no reports have been received, chiefly due to late planting, will be devoted to grain production it is estimated, with a resultant reduction in cotton acreage. Grain acreage on which specific reports have been received by The Wichita Falls Record News, totals 393,000 acres in wheat and 140,800 acres in oats.

Planting of approximately 5000 acres of barley and several hundred acres of rye is also reported by farmers interviewed by the correspondent of this newspaper. Unusually good crop conditions are reported from most points in northwest Texas and the Panhandle and the Plains sections, with the season in the ground classed as the best in years.

A general increase in acreage devoted to winter grain crops, is reported from practically all sections, the addition ranging from 10 per cent in some sections to 100 per cent in other sections.

Texas farmers are wise to produce their own food stuffs. They are wise to produce their own feed stuffs. They are wise to produce their own meat stuffs.

Great dividend makers are the cow and the sow and the hen. Great dividend makers are sheep and goats A man with a well stocked farm who produces his own food stuffs and feed stuffs is never terrorized by the low price of cotton or a bumper crop of cotton.

COOLIDGE AND THE ACID TEST

PRESIDENT COOLIDGE was the idol of his party when he stepped from the chair of vice-president to that of the president. This happened when Warren G. Harding died, died of a broken heart, died for the reason that men whom he had trusted betrayed his confidence.

President Coolidge has had plain sailing ever since. Now Borah of Idaho, the thunderer of the senate, is assailing the Mexican policy of the president and Secretary of State Kellogg is on the rack. Thunderer Borah is assailing the Nicaragua policy of the president and Borah is some thunderer.

President Coolidge turned down the McNary-Haugen bill at the regular session of the Sixty-ninth congress. Just the other day Senator Curtis of Kansas and Congressman Crisp of Georgia introduced the farm relief measure that bears their name. This was said to be acceptable to the president and his advisors.

This bill was repudiated by the house committee on agriculture and the old McNary-Haugen bill was endorsed and will be given a favorable report by a house committee dominated by republicans.

All the presidents faced the same acid test. All the presidents were idols when inaugurated. All the presidents in their closing years of administrative life walked upon thorns.

This was the fate of Woodrow Wilson. This was the fate of Harding. Will it be the fate of Calvin Coolidge, the cautious New Englander and erstwhile proclaimed by the multitudes "a silent man of destiny?"

CANADA A COMING COUNTRY

A TRADE JOURNAL declares the Dominion of Canada experienced one of the best years ever known in 1926, and the people of the United States have benefited in consequence, for the reason that commerce, industry and trade of Canada are strongly linked with that of this country, not only because more than $325,000,000 of American capital went into Canadian enterprises in 1926, but because of the export and import of Canadian and American goods across the border.

Trade in Canada is said to be better than at any time in six years. Much of this demand is being supplied by American producers. In the year ended October 31, 1926 the total foreign trade of the dominion amounted to $2,299,000,000, a gain of $223,000,000 over the preceding 12 months.

Imports from the United States were $96,000,000 larger than for the corresponding time of 1925, while imports from Great Britain gained only $4,000,000.

Thousands of Canadians returned from their states to the dominion and 17,000 Americans settled in the Dominion. Why should there be trade barriers between the States and the Dominion?

WHERE AMERICAN TOURISTS GO

VALUE of the farm crops of Canada has increased from $32,000,000 to over $700,000,000 in the last 26 years, and Canadian manufactured products in 1926 closely approached $3,000,000,000 in value.

Some $4,000,000,000 of new wealth was added to Canadian resources in the last year. Canada lead the United States in wheat exports by 170,000,000 bushels.

Canada spent $100,000,000 on good roads in 1926 and completed more than 2600 miles of paved highways.

Canada is said to have benefited in consequence from the large increase in American tourist traffic, which proved most profitable. Over 3,000,000 automobiles entered the Dominion from the United States during the year. Is Canada to be the summer garden of America?

RAIL RECORD OF LAST YEAR

AMERICAN railways ordered 1301 new locomotives, comparing with 1055 the year before, in 1926 they ordered only 67,029 freight cars as against 92,816 in 1925, and the demand for new passenger coaches was less. American railways also ordered 158 rail motor cars. Capital expenditures for improvement and expansion during 1926 approximated $375,000,000. According to railway trade journals the capital expenditures in 1927 may go beyond $1,000,000,000. Texas has approved new mileage projects that indicate the state will again lead during 1927.

"Sell a Dirty Diamond," Advised Monica

READ THIS FIRST:

BOBBIE RANSOM a demure little blond school teacher of 22, is anything but the flip sort of girl you'd expect to be "movie mad." However, she is. For years she has dreamed of going to Hollywood to break into pictures.

The only drawback to her ambition is lack of money, for she spends all she makes. Both her widowed father and aunt who brought her up refuse to lend her a cent to go on "such a wild goose chase." Finally she borrows $500 from the WIDOW PARKINS, who is to marry her father; and she sets out for Hollywood with a full purse and a high heart.

At MRS. MANGAN'S boarding house she meets STELLA DELROY, an extra in the movies. Through her, Bobbie gets two or three days' work at the Magnifica Studios, where ROY SCHULTZ, a famous director, gives her a special part in a picture. The assistant director, GUS M'CLOUD, falls in love with her and Bobbie finds herself thinking about him most of the time. He tells her he can help her go to the top of filmdom, as he himself goes upward. MONICA MONT, another extra girl who comes to live at Mrs. Mangan's, tells Bobbie not to take him seriously. Monica hints that she has had a love affair with Gus, and that he still thinks a lot of her. Bobbie sees for herself that he is selfish, egotistic and fickle in his affections, but nevertheless she remains deeply infatuated with him.

She goes home for her aunt's funeral, and her father announces his intention of selling their home and marrying the Widow Parkins. Andy pleads with Bobbie to marry him, but she insists upon returning to Hollywood, sure that she is started upon a great career. She finds Monica triumphant with a comedienne's part in Roy Schultz's new picture. On her new job, she has bought a trunkful of new clothes, but she pays nothing toward the rent of the room she shares with Bobbie. Monica is a born gold-digger.

Mrs. Mangan tells Bobbie that she has been seeing a good deal of Gus MacCloud; but on a day when Bobbie leaves the hospital where she has been visiting Stella Delroy, who has been burned in a studio fire, she meets Gus and goes for a drive with him. He tells her he loves her but will never marry anyone.

NOW GO ON WITH THE STORY

CHAPTER XXV.

On Monday morning of the next week Roy Schultz began work on his new comedy called "You Should Worry."

And on Monday morning bright and early, Monica yawned, stretched herself, and finally got out of bed to dress for her part in it—the part of a comical scullery maid.

"This is my big chance, darlingest. So pray for me," she said to Bobbie as she put on her funny red wig and patched blue apron before the mirro rin their room.

"Of course, I will," Bobbie answered drowsily from the pillow where she lay, still rosy and dreamy-eyed from her night's sleep.

"Thanks, honey-bunch." Monica was all sweetness and syrup these days. It was "Lovey this" and 'Dearie that" every time she spoke to Bobbie.

She pretended great friendliness, as a girl often will when she is mortally jealous of another girl. She was like a tiger kitten with her claws hidden. But Bobbie was not fooled by her. She knew that Monica had claws, and that she would certainly use them when the time came!

With narrowed eyes she stood at the window of the bedroom and watched Monica climb into her car and drive away.

"In a few minutes she'll see my Gus," she said to herself. "She'll probably have lunch with him this noon, and say nasty things about me whenever she gets a chance."

She knew that Monica was not above that sort of cattiness, and she disliked her for it.

But at the same time she admired Monica, too. She admired her because she knew how to get things for herself—how to graft, and fight, and bite and claw her way to the top.

And Bobbie didn't. She knew that, compared to Monica, she had no sharpness and no worldly wisdom. She didn't know how to ask for what she wanted in this world—and then insist upon getting it.

She didn't know how to talk "cold turkey" to people. Neither did she know how to flatter and coax and cajole things from men the way Monica did.

When strange men stared at her on the street she didn't know how to beat down their half-insulting look with her eyes, as Monica knew how to do it.

"Here she is without looks or manners or charm—and she lands a good part in a good picture!" Bobbie thought with bitterness. "I have real looks. Everybody says so. Yet here I sit and twiddle my thumbs. If only Gus would get a picture to direct—he'd give me my chance!"

But five days went by without a word from Gus. Five days without a 'phone call from Magnifica or any other studio.

Bobbie began to feel as if the whole world had forgotten her. Then on Saturday morning, at 10 o'clock, the telephone rang and Mrs. Mangan called Bobbie to answer it.

"It's your Mr. MacCloud," she said. "My I wish he could see you right now. You do spend an awful sight of time prinking and fixing up, but you certainly do pay for it!"

Her curranty eyes were full of admiration. She worship Bobbie's bodily beauty with the starved passion of those who have no looks at all.

Her own life was dull and drab, and so she took the liveliest interest in the affairs of the two girls. Bobbie was sure that she was listening on the extension telephone downstairs, when she picked up the receiver now.

"Hello, Gus," she said.

"Hello, Baby. What are you doing?"

"Nothing special." Bobbie answered. Her heart broke into a run at the sound of his voice, even over the telephone.

"Want to go to Montmartre for lunch?" He didn't wait for her to answer, so sure did he seem of her. "I'll drop by for you about 1 o'clock. By-by."

Then she heard him hang up the receiver, and a second afterward came another click—Mrs. Mangan hanging up the receiver on the downstairs phone!

In a minute she came bustling up the stairs.

"Going out?" she asked in her thin voice, for Bobbie had her hair pinned up and was lathering her face with cold cream.

She sat down on the very edge of a chair inside the door, balancing her dustpan on her knees.

"With Mr. MacCloud, I suppose," she chirped. "Isn't that lovely! But how do you suppose Monicker feels about it?" Mrs. Mangan always called Monica "Monicker."

Bobbie shook her head. Her eyes were wide and child-like under smooth silver-white lids.

"How should I know, Mrs. Mangan?" she asked. "But I shouldn't wonder if she feels the way I do when she goes out with him. A little bit jealous, maybe."

Mrs. Mangan shook her head with its dusty hair.

"I always do say it's a pity when two young ladies fall in love with the same man — and trouble's bound to come of it. The newspapers are full of such cases. Shooting and the like!"

Bobbie felt like saying "Don't be a sill, Mrs. Mangan!" But, of course, it would never do to be rude to a woman who had only said what was on her mind.

So instead she took Aunt Gertrude's old diamonds out of her top dresser drawer and handed them to her.

"What do you think of these?" she asked, hoping they would take Mrs. Mangan's mind off Gus MacCloud.

They did, too.

"Now, aren't they pretty and old-fashioned!" Mrs. Mangan cried, squinting at them. "My mother had a pair of old ear drops like them when I was a child. I've often wondered whatever became of them. I suppose my oldest sister got them when mother died. She got everything."

Bobbie laughed. "Well, you know what Monica says, Mrs. Mangan—'always take everything you can get!'"

She wondered if Monica was going to get Gus MacCloud or not.

It certainly didn't look much like it that afternoon at the Montmartre restaurant.

For Gus was all hers that day. He sat and looked at her with such love in his blue eyes that four fat women at the next table could hardly eat their lunch for watching him.

Bobbie was always worth looking at, but today she was prettier than ever. Her eyes were almost black with excitement, and her lips went up in a soft smile as she looked around her at the room with its hurrying waiters, its gay well-dressed crowd, its dance floor with an orchestra playing on the platform beyond it.

A little group of people were waiting in the doorway for a table. Among them Bobbie caught a glimpse of a familiar face—a dark winsome face with a flashing smile. Leatrice Joy all in pale-yellow organdy.

A second afterward Vilma Banky and Norma Shearer came in. Then presently Noah Beery.

"Oh, isn't this wonderful!" Bobbie was as thrilled as a little girl might have been, in spite of her 22 years and her background of school teaching.

All this was the whipped cream and the silver-gilt of life! To be here with the right man in the right place! Beside it, home and Andy Jerrod seemed about as romantic as a ham sandwich.

And yet she did not feel comfortable with MacCloud—not the way she did when she was with Andy. That, however, she said to herself, was the difference between being in love with a man, and feeling friendly toward one. She knew she never could feel anything for Andy except warm friendliness. Never.

"You lovely little thing," Gus was saying. His foot found hers under the table and pressed it softly, persistently. "You're like a Gloire de France rose."

He could talk like a poet at times. It seemed unbelievable when Bobbie remembered how he could roar and rant in the studio!

But, anyhow, he was a wonderful lover when he wanted to be. He knew exactly how to please a woman—if he happened to care about pleasing her.

He and Bobbie spent the rest of the foggy afternoon shopping. They bought chocolates—the expensive kind that is covered with candied rose-petals and violets. A five-pound box of them.

They bought a big lacquered box of cigarettes that had little bright-colored silk tips, and a long cigarette holder of ivory trimmed with narrow bands of gold.

Last of all, they went to the perfume store across from the Hollywood hotel and MacCloud bought Bobbie a make-up box. A wonderful one that had a big mirror in the lid, and all sorts of cunning boxes and tubes for grease paint and such things.

"We'll leave it here to have it marked with your initials," he said and so they did. When they left the shop, the early autumn dusk had come down over Hollywood.

'And now where do we go?" Bobbie asked gaily, as they started across the street.

MacCloud pressed her arm with his fingers. "And now," he said, quietly, "it's dark enough to do what we've been waiting to do all afternoon. We're going up to my house, and I'm going to put my arms around you—"

"Hello, you poor palukas!" a shrill voice hailed them, and they swung around to see Monica coming out of a beauty shop. Her hat was off, and little dark shiny ringlets covered her head. Bobbie knew that she had been having a French "paper curl." She looked very bright and snappy and "chuck full of pepper," as she herself would have said.

"Where are you going? Home?" she asked brightly, and started off with them along the sidewalk. "If you are, I'll just hook on to you."

After that there was nothing for Bobbie to do but go back to Mrs. Mangan's with her—or else let her go up to Gus' house with them.

"Yes, Gus was just taking me home, Monica," she fibbed, and even to her own ears her voice sounded flat and dull. "You come right along with us."

Monica did.

* * *

Stella was at home when they got there.

Her face was whiter and thinner than ever, and there were faint pinks scars on her neck, her breast and her bony arms.

"The doctors say they'll disappear after a while," she told the two other girls when they sat down to a supper of toast and tea and strawberry jam in Mrs. Mongan's cozy kitchen. "But until they do little Stella won't have any chance in the pictures, at all."

She picked up the evening paper and opened it to the want ad page.

"I suppose I'll have to go back to manicuring for a few months," she said with a hopeless sort of sigh. "I'll have to get something to do anyhow. My pocketbook looks like a collapsed balloon."

"Mine, too" remarked Bobbie, dropping a lump of sugar into her tea. "I've earned $15 in the last six weeks, and I've been spending right along."

Monica smiled a little secret smile at them. Then from the pocket of her flowered silk kimono she drew a brown envelope. She opened it, and shook four $50 bills out upon the tablecloth.

"Mama's salary for the week!" she remarked, and folded them all back into the envelope. "Pretty soft for six days' work, eh, wot, kids?" That's the first real money I've made since I've been in Hollywood."

Bobbie began to do some mental arithmetic. Let's see, Monica had been sharing her room for five weeks. Five weeks at $4 a week. That was $20 that Monica owed her!

She smiled at Monica hopefully. "I hate to say anything about it," she began, "but now you can pay me your share of the room rent. Twenty dollars, isn't it, Nicky? I wouldn't say a word about it, but I'm down to my last fifty bucks."

Monica stared. Her eyes dropped to the old brooch that Bobbie wore at the opening of her blouse. Aunt Gertrude's brooch, set with the three big dull jewels.

"Why don't you sell a dirty diamond?" she asked insolently, "if you're so hard up? Or take back those cigarettes and candy that Gus bought you this afternoon? Maybe the shop people would give you the money he paid for them."

Monica was shoving her claws, at last.

(TO BE CONTINUED)

Monica sets herself up in a housekeeping flat, and sails on toward a gold-digger's success in the next chapter.

And why wilt thou, my son, be ravished with a strange woman and embrace the bosom of a stranger?

For the ways of man are before the eyes of the Lord, and he pondereth all his goings.

His own iniquities shall take the wicked himself, and he shall be holden with the cords of his sins.

He shall die without instruction; and in the greatness of his folly he shall go astray. —Proverbs 5:20-23.

Lyrics of Life

BY DOUGLAS MALLOCH

HOW AM I?

While down the busy street I sped
A friend I met today
Who slapped me on the back and said,
'How are you, anyway?"
How am I? Well, the truth to tell,
Until that hearty slam
I really hadn't stopped to think
Just how I really am.
How am I? First, I have my health,
And that is quite a lot;
And some might say that I had wealth,
And some that I had not.
If wealth is just a heart you trust,
A home when home you need,
And children glad to see you come,
Then I am rich indeed.
How am I? Let me thank you, man,
For asking that of me.
I find that I am richer than
I ever hoped to be.
Although I ought, I hadn't thought
Of blessings that are mine;
But, come to think about it, friend,
How am I? Why, I'm fine.

BO BROADWAY ..... By Joseph Van Raalte

NEW YORK, Jan. 19.(EFS)—The Duchess says she's thinking of moving to Venice where vaudeville performers and popular song writers never heard of the girl who "walked back" from the automobile rides.

The head of the firm was leaning across one of the desks in the general office, consulting a telephone directory when the office boy stepped up and handed him a note.

"Honored Sir," it read, "your pants is ripped."

Pay was immediately jacked from $3 to $3.50 per week.

And once upon a time the copy boy in a Park Row sanctum having requested and obtained a dollar-a-week raise, indited a note of grateful acknowledgement, addressed to the managing editor:

"Dear Boss," he scribbled. "Thank you very much for the raise. I will do as much for you some time."

In her magazine story, "The Portrait of a Lady With Red Hair," Leslie Carter writes of her debut in "Maryland, My Maryland." She says:

"After the second act there were 20 curtain calls, after the third act, 26. It was the first time I was ever to see an audience flare like tinder to its emotions and pandemonium broke loose. High on its tiptoes it shouted, it clapped, it bravoed.

"When David Belasco came to my dressing room his face was ivory white. He took me by the wrist, pulling me gently toward the door.

"'You hear that!' he said with a deadly calm. His face transfigured, 'You hear that! Do you know what it means? It means that never—never—never will we have to eat on Third avenue again!'"

That's what success meant to Belasco.

Which reminds me of what Mr. Goldwyn, or Goldfish, or whatever his name is—the moving picture magnate—once told a newspaper man in an interview.

"I would rather,' said the Worthy Brother, "produce a good play than—than—well, what'll I say? Than eat a good meal!"

Following the death of Frank L. Stanton, Georgia's poet-laureate, the New York newspapers made lengthy comment, editorially, on his rare ability and every one of them mentioned "Mighty Lak' a Rose," the verses that prompted Ethelbert Nevin to match the poet's mood with a scale that has encountered wide appeal.

The verses are mediocre compared with some of the stuff Stanton ground out in the course of his daily toil. I remember, dimly, a few lines about "Bees a-sippin' honey from the roses, wet with dew—a humming bird, breast deep in bloom, singin' sweet to you!"

He also wrote a thing called "Let Miss Lindy Pass," that was a gem. Again, only dimly I recall a few lines: "Wild rose in de gardon wid a dew-drop lookin glass—brush dat dew-drop off yo', an' let Miss Lindy pass!"

Probably all wrong; but that's the tenor of it.

There is small doubt that Don Marquis got his cue for the "Old Soak" from a line of stuff Frank Stanton used to write about just such a character as Marquis' friend, whose life had resolved itself into a series of exploits based on the difficulties he encountered in getting enough to drink in a prohibition town.

Bob Dean, Marquis and a lot of Big Leaguers used to travel in those days in the wake of "Uncle Remus." Most of them came no'th and won fame and fortune. But Frank Stanton stuck to the old ha'nts; and the other day, when he dropped in his tracks, they raised him gently, to lift the harness off.

He was very human, in many ways; and as Henry James said of F. L. S.: "Missing him will be a perpetual ache."

ODELL BANDIT GETS 15 YEARS

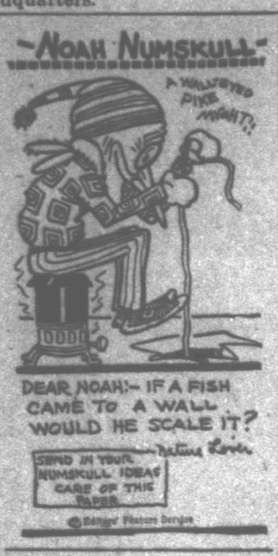

James Hairston Convicted For Robbery

VERNON, Jan. 19. (AP)—James H. Hairston was found guilty on a charge of robbery with firearms in connection with the robbery of the Bank of Odell, December 18, and was sentenced to 15 years in the penitentiary by a jury in the 46th district court this morning. Defense counsel has not indicated whether a new trial would be asked.

Hairston entered a plea of guilty at the opening of the trial. Clyde Stratton and Lyter Huffman, also indicted for the robbery of the Odell bank, were arraigned in court this morning. Stratton plead guilty, Huffman plead not guilty and counsel asked for a change of venue. The action was overruled by the court, and the counsel immediately asked for continuance.

The three men are alleged to have looted the Odell bank of $7600 and escaped after locking two employes and a patron in the bank vault.

The jury in the Hairston case deliberated about 15 hours.

The court overruled the motion in the case of Lyter Huffman charged with robbery with firearms in connection with the robbery of the Bank of Odell, December 18, and the case was called for trial.

PERAMBULATIONS OF A SPORTS WRITER
(One method, sans labor, of partially filling a column).

Up, as usual, bright and early at 10:30. Then, again as usual, a rollicking rush in the Stutz to town for morning chow, avoiding two motor police and, setouring a brace of stop signal bumps. Noticed Art Salmon's hash house suddenly had grown from a hole in the wall to an adult restaurant.

* * *

The same old "beans in it," a slap on the back by Frank Ramsey, custodian of the Conoco cagers, causing us to spill java on the vest. If the Conoco girls' team is as rough as its coach 'twill be curtains for the rest of the flapper league.

* * *

After having dined not so well, but having dined, headed for the electric company with no bill-paying intentions but to return Charley Spragins' basketball. It had been borrowed the night before as a side-line ---ifier for several husbands who were wanting for something to do while their more imposing halves indulged in cage practice with the Whippets.

* * *

The ball returned, Charles, three of the girls and myself trekked to a photo studio, donned gym suits, the fems did, and had our pictures took, Charles and the girls did. But Charley balked at taking off his hat. Nope, not baldheaded. Photographer registered a couple of thrills upon beholding the Amazons in athletic attire.

* * *

Then corralled another pair of athletes and shot them. Great stuff, this trying to pose a gel for an action picture and look natural with the camera set for a still snap. It can't be done.

* * *

After which, a little frayed and fagged, repaired to a civic club luncheon. Heard one guy elaborate on the history of foot wear and watched Charley Bunnenberg's brother put the boys to sleep with a discourse on German beer, bowling and saber duels.

* * *

To the office where the hired hands were making a great show of heavy work but very little production. Raised the slaves a bit and then ambled over to baseball headquarters. Learned Jabez Gardner was out somewhere trying to earn enough money to pay expenses of running a ball team, so there was nothing in the way of athletic enlightenment forthcoming at that sector. Guy Airey procrastinating as is custom. Bill Yount checking 1926 Spudder pitching averages and wondering out loud why Spud flingers won no more.

* * *

Down the hall a distance to discover they're still arguing that case of Jim Curtis versus C. C. Cabiness, T. O. Shappell and several others anent the Christmas exposure, purloined sox and (it's said in a stage whisper) the disappearance of two jugs of egg nog ingredient. Curtis, we were informed on fair authority, is willing to settle the matter out of court, forget the hose, exposure, mental agony and the rest if the missing jugs be returned untampered with. Tell that to the cop commish or the county constabulary.

Back to the grind again and found M'Guire had been up to his old tricks. Clipped off a New York date-lined dispatch and plastered it on the managing editor's desk. It read:

"New York, Jan. 19.—Advice to executives by David A. Schulte: 'When you fire a man, unless his successor is at least 25 per cent better to start with you've hurt yourself because it takes the new man time to fit into the picture.'"

* * *

Yes. Yes.

A couple of pecks at the Underwood. A run for the Palace to see the tin-cars perform. The melee finished, returned and sparred with long distance telephone operators, telegraph men and the composing room foreman—the same old nightly struggle to get in all the doings of the noble basketball athletes. Great sport. Home again to do that which we do the best—sleep.

Burk Faculty And Bulldogs Drop Fast Games

By NORMAN D'OLIVE

Wichita Falls' Junior college Indians took two games Wednesday night on the Burkburnett court, by scores of 27-18 over the Burkburnett high school Bulldogs and 25-18 from the Burkburnett faculty quintet. Wagenfuehr, Indian forward, stepped out as high point individual in the Bulldog-Indian clash with five field goals and one free one, totaling 11 points. Crites, Junior college center, registered 10 points for top honors in the Faculty-Indian contest.

A preliminary game between Electra Junior high and Burk Juniors resulted in 19-4 win for the Electra squad.

Ludgate's bunch went against the Bulldogs in the second game with a fast and furious floor play, both teams rushing the ball and sinking goals in a nip and tuck fashion, tying the score 14-14 at the end of a half. Hickman, Indian center, featured the attack in the second half, which continued with the floor play, breaking up passes and sinking close shots into the basket.

Burk Faculty presented a stronger attack on the Indians, when Ludgate ran in fresh men, and the fight reached a hot point when the half ended, 14-15, with the Indians on the big end. Hogg, Burk center, was completely covered, but Hill got his eye glued on the hoop and sank six goals from the floor before the final whistle, but the Indians increased their lead to register a score of 25-18 over the Teachers.

Horned Frogs Nip Baylor, 31 to 24

WACO, Jan. 19.(AP)—The Baylor Bear basketball team lost its third consecutive conference tilt of the season tonight when it bowed to the brilliant T. C. U. crew by a score of 31 to 24, and in hanging up the victory, the Frogs moved back to the .500 per cent mark in the southwestern conference basketball race, and in doing so the T. C. U. team got back into the championship race.

Matty Bell brought a team to Waco which is perhaps superior to any seen on the local floor this season, and while the battling Bears put up a valiant fight, they were outplayed all the way through, and did not come nearly so close to victory against the Frogs as they did against the Mustangs Saturday evening.

$3,000,000 TRACK

Nuevo Laredo to Be Site of Big Sport Resort

SAN ANTONIO, Jan. 19. (AP)—The Laredo Downs Jockey club will begin work within the next 30 days on its $3,000,000 project near Nuevo Laredo, Mexico, John W. Choate, president, announced upon his arrival in San Antonio Wednesday. Mr. Choate said the Mexican government had promised to build a million dollar paved highway from international bridge to the club.

Horse racing, steeple chases, boxing and numerous other sporting events will be brought to this section of the country as soon as the land is developed and numerous buildings, including a large hotel, are constructed, Mr. Choate reported. President Choate said that stables will be built and the race tracks and steeple chase hazards constructed. The hotel and club house, he said, will have between 500 and 1000 rooms.

Texas U. Heads Silent On Report That Gwynn Henry Will Succeed Stewart

AUSTIN, Jan. 19. (AP)—Texas university officials refused Wednesday to comment on the report from Columbia, Mo., that Gwinn Henry, Missouri university football and track coach, was leaving there Thursday to come here for a conference with athletic officials.

E. J. (Doc) Stewart, former Nebraska university and Oregon A. and M. football coach, is an applicant for re-election, but the athletic council has considered a number of other mentors, among them Glenn Thistlethwaite, who recently went from Northwestern university to Wisconsin.

Dr. D. A. Penick, athletic council chairman, said he had no knowledge of Henry's coming and referred questioners to J. H. Hart, chairman of the council football committee, who said Dr. Penick was the only one authorized to discuss the coaching situation.

Moriarty Highly Pleased To Land McManus

Deal With Browns Gives Detroit One Of Best Infield Combinations In Majors

By GEORGE MORIARTY
Manager Detroit Tigers

The deal that brings Marty McManus to the Detroit club for O'Rourke and Mullin has been hanging fire for the past few months.

I say frankly that I am glad to put over this deal that makes McManus a member of the Detroit Tigers, because I have always admired his style of ball playing.

For this reason when I found out that St. Louis would consider a trade for McManus I was immediately interested.

He is the type of baseball player who loves the game and would rather play it than eat and that is one of the reasons I am glad to have him. In my opinion he is one of the best second-basemen of the present day. And any one will agree that there are some beauties doing business at the keystone place.

* * *

The McManus - O'Rourke - McMullen exchange is one that figures to strengthen both the Tigers and Browns. McManus joins the Detroit club after a long residence in Mound City baseball happenings and as a change usually works to a player's advantage, I look for him to show renewed confidence and pep in the coming race. When Melillo joined the Browns last season he was given access to the keystone position on account of his great showing with Milwaukee club the previous season.

* * *

With the changed order McManus was shifted to third base for the Browns, and while he played good ball at the far corner I am satisfied that it is not his proper place.

The former St. Louis player is a natural second baseman and with little Jackie Tavener on his right side the Detroit fans may look for some sparkling performances in the territory, particularly in the execution of double plays, and smooth teamwork.

* * *

Tavener, who I consider the best shortstop in the American league, is likely to have a remarkable year with a player of seasoned ability like McManus at his side. You may also agree that the ex-Browns gives the Tigers another right-handed batter of undisputed slugging ability.

In McManus and Gehringer the Detroit club displays double strength at second base that is difficult to exceed as young Gehringer looks like he is headed for stardom in the majors. On the other hand Dan Hawley, in acquiring O'Rourke, has one of the smartest infielders in the big show. The Browns are strongly fortified at second base with the Melillo-O'Rourke combination and McMullin has a chance to hit his stride as a star performer at third base for the Browns after a long uphill fight for recognition in the minors. Both of these players worked for Hawley at Toronto and he told me at the minor league meeting at Asheville several weeks ago that he would like very much to have them.

New Scandal Charges Against Cobb And Speaker by Ban Johnson Flop

George Young, Mr. Wrigley's $25,000 fish, demonstrates the advantage of tireless youth against the many years of experienced opponents.

Aside from that, he possessed the greatest of confidence in himself. Not many would have made a trip across the continent for a good swim with all the reverses of comfortable traveling.

Champions of the day, who have been thoroughly schooled in all the tricks of distant swimming, felt there was nothing left to do but take a long rest on the way to the start and be in condition to finish.

They didn't have to finish if they didn't want to. They could coast along and take a nice train ride back home. But George Young had to win or swim all the way back home by the way of the Panama canal.

Swimming to Catalina Island would be nothing to the swim home, so he filled himself with confidence and determination. It is this condition of mind that will win for him in the future. He shouldn't slow up to the comforts of a champion.

* * *

Every once in a while a fighting youth comes across with a startling, sensational, double-crossing punch. This youth is as surprised, nine times out of ten, as his opponent.

He has found himself, and with the punch he learns his left hand is his greatest instrument for a K. O. Eddie Roberts found that in his match with Dundee, Wallace found it when he knocked out Kaplan and Tunney found it when he fought Harry Greb; but Gene Tunney had a hard time getting his right across.

He will, against other opponents, win with a knockout, from that right, and be a champion for a long, long time.

The average fighter must use his left but forget it and constantly concentrate on his right. When he has found this trick he will win by a K. O. and never lose, even on points.

* * *

In conversation with an old-time champion the other evening we learned something in golf (that's not impossible, even for a champion).

"Golf," he tells us, "is only a putt, and when you have found your putting touch you are winning.

"It takes two to get to the green and one to get in, if you are putting; if you aren't, then four or five, and generally five, is your score for the hole.

"When we played the game 15 years ago there was no such thing as great distance. We had not the advantage of the modern clubs of today, but still we turned in scores equally as good or better than the present-day siege gunner.

"We had to be content with getting on, and above all, down on the putt. The most remarkable putting in golf was done 10 years ago. We'll even say 20. That was golf then, and the game will never live to see the day when putters could putt like Travers, Herd, J. H. Taylor and men whose touch was beyond the average fine golfer.

"Don't swim—putt your way to score."

ELKS DANCE

Members of the Wichita Falls Elks club entertained with a dance Wednesday night at the club at which 93 couples were present. Music was furnished by Artie Colline' radio orchestra, which will also play at a dance at the Kemp hotel Friday night.

A luncheon of sandwiches and coffee was served Wednesday night. It was announced that another dance will be given by the Elks next Wednesday night.

Miss Eva Barry, who has been in the Hargrave-Walker hospital for treatment, was able to return to her home at Alpine Wednesday.

RIVAL CITIES BID FOR STAR

Golden Harvest Offered For Catalina Conqueror

LOS ANGELES, Cal., Jan. 19. (AP)—Rival cities, almost a continent apart, today tugged at the heart and the purse strings of George Young, 17-year-old victor of the Santa Catalina channel swim and winner of the $25,000 purse of the ocean marathon.

Toronto, Ontario, his home town where his mother lives, held forth to the youthful champion the acclaim of home folks, respect of the city and dominion officials, hero worship by his erstwhile chums and playmates and a more substantial reward in the report that a $60,000 contract for appearances in the district awaited.

Los Angeles and the neighboring movie studios also promised him a golden harvest. The $25,000 purse was just the appetizer for the lavish feast spread, in promise at least, before the lad. His first adventure brings him $1000 a night for a brief series of appearances at a Hollywood theater.

An offer of $50,000 for a film contract is being considered, his manager, trainer and financial partner, Frank "Doc" O'Bryne, said. Plans for stage appearances, endorsements of chocolate and countless schemes for cashing in on his now famous name are being studied by O'Bryne, assisted by William Wrigley Jr., millionaire donor of the channel prize, who has volunteered as financial adviser to the pair. Decision on these offers is expected within the next day or two.

O'Bryne is opposing any return of his protege to Toronto at this time, confident that for him to do so would be a financial sacrifice. Himself a Canadian and former resident of Toronto, O'Bryne yesterday announced that he will not claim his 40 per cent of the swim prize provided in his contract, but will give the entire $25,000 to Young. This is in line, he said, with his original intention. He will claim his percentage on the remainder of the first year's earnings of the swimmer, however.

BOOST BARROW

Yankee Secretary Boomed for Ban Johnson's Job

NEW YORK, Jan. 19. (AP)—The New York World says Wednesday that the New York American league club will vote for Edward G. Barrow, general secretary of the Yankees, to succeed President Ban Johnson of the American league if the latter is forced out of office by Commissioner K. M. Landis.

Balloting for a successor to Johnson, who has "talked himself out of a $40,000 a year job," possibly will begin Tuesday, the paper says.

Record Crowd Expected to See Crucial Cage Test

FAYETTEVILLE, Ark., Jan. 19. (AP)—Arrangements are being perfected by University of Arkansas athletic officials to handle one of the largest crowds that ever jammed its way into the local gym when the Razorbacks engage in a two-game basketball series with the Texas Aggies Friday and Saturday night which must break the perfect record of at least one of the leaders of the southwestern conference.

Tris Hopes to Play If He Is Given Clean Bill

CLEVELAND, Ohio, Jan. 19. (AP)—Tris Speaker, former manager of the Cleveland Indians, expects to be in top form for the opening of the baseball season in case he is exonerated of game "fixing" charges. He has joined his former teammates, George Uhle, Joe Shaute and Steve O'Neill, in workouts at a gymnasium here and plans to continue training during the winter months.

Francis Leads Victory Rush With Six Goals

ABILENE, Jan. 19.—Wichita Falls high school defeated Abilene here tonight in a rough-and-tumble basketball game, 17 to 13. Francis, Wichita Falls center, led the invaders' attack, scoring 12 points by sinking six field baskets.

The defense work of Mills, Allred and Powell was near-sensational and held the Eagles to long shots at the goal.

THRIFT WEEK

The Building & Loan Associations of Wichita Falls Call Your Particular Attention to These Days of National Thrift Week—

Today Is "Own Your Own Home" Day!

Approximately 2675 homes are being successfully owned through these three associations. The average monthly payment to do so is less than $30.00. More than FIVE AND A QUARTER MILLION dollars are loaned by these associations to help their members own homes. Is this not sufficient evidence that the Building & Loan way is the best way to own a home in Wichita Falls? Nationally, the building and loans last year made loans on 455,000 homes! Resolve now that TODAY, January 20th, you will go to the office of one of the three associations and learn from it how extremely easy it is to own a home with the financial assistance of the Building & Loan Association.

Friday—

Safe Investment Day

More than $5,225,000 is invested by thousands of shareholders in the three Wichita Falls Associations. These funds are as safe as it is humanly possible for an investment to be. Every safeguard that nearly 100 years of building and loan association experience has developed is thrown around this money. These funds are invested in first mortgage real estate loans, conservatively valued at approximately 50 per cent of the value, by boards of directors composed of leading business men of this community. No Wichita Falls' Association has ever lost a dollar.

On Safe Investment Day your particular attention is called to a form of shares issued by each of the three associations that pays 7 per cent cash interest each July and January by check. These shares may be obtained in even multiples of $100. Nothing could be safer and they are very convenient and may be withdrawn at any time on thirty days notice with accrued interest. Your money invested in them provides the funds to lend to people who want to own homes in Wichita Falls by building or otherwise. This builds up the community in which you live. It provides employment to workmen, sales of materials, a new house for taxation, in fact, in endless ways it helps to build Wichita Falls. Please think of this when you invest in some company remotely situated from here. Your money invested here does double duty and serves you just as well. Decide now that on Friday, January 21st you will call on one of the three associations and learn how you may safely invest your money on a cash interest return of 7 per cent.

Saturday—

Building & Loan Day

In 1831 Building and Loans were founded in Philadelphia. There are now more than 18,000 associations, having more than 10,000,000 individual members and with total assets of nearly SIX BILLION dollars. In Texas there are 117 associations with more than SIXTY MILLION in assets. In Wichita Falls there are three associations with more than FIVE and a QUARTER MILLION in assets. There are very few representative business men of this community who are not shareholders in one of these three associations.

Just here is the great problem of the Building and Loans. HOW TO GET THE SMALL INVESTOR TO SAVE MONEY EACH MONTH. It is easy to get a check for $5,000 or $10,000 from a business man for investment in these companies, but the shareholder that is really wanted is the salaried man or woman, or wage earner who should put away ten or fifteen or twenty-five dollars a month. Our experience has been that too many of them do not seem to grasp the vital significance of SYSTEMATIC saving in small amounts. Any of these associations can show you actual accounts that have several thousand dollars in them that have been accumulated easily by the shareholder in small monthly amounts. EVERY MAN AND WOMAN WHO EARNS A LIVING IN WICHITA FALLS SHOULD OWN SOME OF THESE MONTHLY INSTALLMENT SHARES. No other form of investment at all compares with them in SAFETY, EARNING ABILITY and CONVENIENCE.

Resolve now, we earnestly ask of you, during THRIFT Week or particularly on Saturday, January 22nd, NATIONAL BUILDING AND LOAN DAY, to call on a building and loan association and learn from its officers the wonderful story of systematic THRIFT as exemplified by the greatest thrift medium in the world, the installment Building and Loan Share!

Woman Heard Chipps Tell Meacham, Fort Worth Mayor, That He Would Kill Norris

Chipps Cursed Norris Over Phone Girl Operator Testifies At Trial

COURTROOM, AUSTIN, Jan. 19 (AP) — Two men mounted the stairway leading to Dr. J. Frank Norris' office on the afternoon of last July 17, and one of them went to his death, according to testimony in the Norris murder trial here today. The other man sat in the witness room today waiting to tell his part of the story of the death of Dexter E. Chipps, who was killed by Norris.

This other man is D. L. Redmon of Fort Worth who emerged today as "the surprise witness of the defense. He is said to be one of the three men who last saw Chipps alive. The other two are Norris and L. H. Nutt, eye-witness. There were rumors shortly after the killing that a man directed Chipps to Norries' office, but his identity until today was not publicly known. The court awaited with expectancy the testimony of Redmon which may come tomorrow.

Ridgeway Testifies.

R. B. Ridgeway, an attorney of Fort Worth and a member of Norris' church, testified he sat in his automobile near Norris' office on that afternoon waiting for his wife, who works on the Searchlight, the Norris church publication.

Two men passed him, he said, just a few minutes before Chipps was shot. Ridgeway was in a position where he could see about halfway up the stairway leading to the church offices on the second floor of the building adjoining the First Baptist church at Fort Worth.

"One man was large and was dressed in a dark suit," Ridgeway testified. "The other man was smaller and he was in his shirt sleeves. The smaller man appeared to be giving the other one directions. When they got opposite me near the stairway the larger man said:

"'Well, how in hell will I know him when I see him?'

"The large man was D. E. Chipps and the other was D. L. Redmon."

Asked by defense counsel Marvin Simpson where Redmon was at present the witness said he was waiting in the jury room.

This testimony was the high spot of a day devoted to presenting further details of the killing. One of these details was a telephone conversation Chipps is alleged to have with Dr. Norris just before the lumberman went on his fatal mission to the pastor's study.

Mrs. Fannie Greer former telephone operator at the Westbrook hotel in Fort Worth said that she made the connection at her switch board.

Chipps Called Norris.

Chipps called Norris and according to the witness the following conversation ensued substance:

Chipps—Hello.

Norris—Who is this?

Chipps—It doesn't make a damn bit of difference who it is. Are you going to be in your office for about 30 minutes?

Norris: I can be here two hours and thirty minutes if necessary.

At this point Mrs. Greer said she was called away from the wire for a few minutes, and when she again listened in, Chipps was talking in such an angry voice she couldn't understand what he was saying. She said Norris' voice was calm.

Another alleged telephone conversation and an additional threat to kill Norris is said to have been made by Chipps, figured prominently in today's testimony.

Mrs. Lena Chick of Fort Worth said she was in an elevator in Mayor H. C. Meacham's department store when she overheard a conversation between Meacham and Chipps. Chipps had a copy of the Searchlight and called Meacham's attention to an attack on the mayor printed in the publication. The witness related the following as the substance of the conversation:

Meacham Saw Trouble

Meacham: Norris causing more trouble for me.

Chipps: He'll stop it or I'll kill him.

Meacham: You're liable to get killed.

Chipps: I can take care of myself.

Meacham then told Chipps, the witness said, to call him.

Mrs. Greer then recalled, told of the alleged telephone conversation between Meacham and Chipps. Meacham asked Chipps to come down to the store because the Searchlight was being circulated in the store. Chipps said he'd go to Norris' office if Meacham would say the word. The mayor, according to the witness told Chipps to come to the store a moment.

Ridgeway further testified that he went immediately up to Dr. Norris' office as soon as he heard the shot, and that Norris said to him: "I hated it mighty bad, but I had to do it."

There was apparently an attempt by the defense to impeach testimony of Mrs. Roxie Parker, star state witness, who testified she saw the killing from the door of Norris' office.

Ridgeway testified he did not see a woman go up or come down the stairway, although he was on the stairway within "a minute and a half or two minutes," after the shots were fired.

Saw Blood Spot.

He said he saw a spot of blood on the floor of the ante-room and that there was an object in the blood. Under cross examination he testified it might have been a large comb case.

Mrs. Phoebe Gilliam, wife of the manager of the Searchlight was near the stairway on her way to the Searchlight office and she followed Ridgeway up the stairway immediately. She said no other woman went up or down the steps.

W. H. Lee, chief of police of Fort Worth, testified he arrived at Norris' office shortly after the shooting of Chipps on July 17 last. Defense asked him why he left so quickly with Norris and Attorney William McLean objected that the question was irrelevant and the objection was sustained after conference among attorneys and Judge James R. Hamilton.

"Didn't you tell me you didn't want to testify because of your bosses, Mr. Carr and Mayor Meacham being in this case?" Marvin Simpson, for defense, shouted.

"Marvin, I told you I wanted to do just what was right," Chief Lee answered.

Chipps Assailed

Mrs. H. D. Meek, formerly employed in the cafe of the Westbrook hotel in Fort Worth, was asked if she had seen Chipps in the cafe frequently, but state objected and attorneys again were called to the judge's bench so defense could tell without informing the jury what they intended to show by the evidence. Objection was sustained, the judge ruling the witness could not relate isolated instances of Chipps conduct, but could tell only of his general reputation. Many personal experiences of witnesses with Chipps were excluded by the ruling, defense being confined to the general reputation question.

Mrs. Fanny Greer of Fort Worth, former telephone operator at the Westbrook, testified she heard Chipps talking to Dr. Norris and also to Mayor H. C. Meacham on the day Chipps was killed.

"Tell what the conversation was," Simpson said.

State objected and defense withdrew the question until later.

Simpson Swerves

Simpson switched to the conversation with Norris, which witness said, came about two hours after the Meacham conversation.

"Chipps called from his room and asked me to get Dr. Norris on the line and I called Dr. Norris at the church. Some girl answered first and then Dr. Norris came on the line.

"Chipps said hello," Dr. Norris said, "who is this?" Chipps said, "It didn't make any difference and cursed. He asked if Norris was going to be in for about 30 minutes and Dr. Norris said he could wait two hours and 30 minutes if necessary. Norris again asked Chipps who he was and Chipps told him."

At this point Mrs. Greer said she left the line and when she returned Chipps was talking so angrily she could not make out what he was saying.

Defense again offered the Meacham telephone conversation and state's objection again was sustained.

Mrs. Greer said she and her mother were in Hot Springs, Ark., when summoned in the trial and that she made a written statement there to some one about the case.

Attorney McLean, reading from grand jury testimony, asked Mrs. Greer if she did not deny before the grand jury that Chipps cursed Norris on the telephone. She replied she had testified she didn't hear Chipps curse Dr. Norris, simply heard him curse some one.

"Didn't you testify there was no cursing of any kind in that telephone conversation?" McLean asked, still referring to the grand jury record.

"I may have," she answered.

Testimony Conflicts

The record as read by McLean showed Mrs. Greer had testified that she heard nb cursing of any kind in the Chipps-Norris conversation.

Mrs. Greer said Chipps and Norris were talking calmly at first.

"When Norris said he couldn't understand Chipps' name wasn't that when Chipps raised his voice?" McLean asked.

"Not at first, but later," the witness said.

"You are very friendly to Dr. Norris, aren't you?"

"I'm a member of his church."

"That's not the question."

"Yes, I'm friendly."

Mrs. Greer said a Hot Springs attorney advised her to return to Texas to testify but didn't know who had hired this lawyer.

"Now let's see whether you ran off or not," said Attorney Simpson, when the witness turned back to the defense.

"Did you slip off and go to Hot Springs or did you get on the train and go with your mother?"

"I went with my mother."

"Did you try to dodge service?"

"No."

Attorneys Argue

Attorneys argued about a statement Henry Milton, Tarrant county detective, was said to have obtained from Mrs. Greer at Hot Springs. Defense wanted to go into circumstances of how the statement was obtained. McLean objected because he said the state was merely laying a predicate to impeach the witness and the evidence of the circumstances was inadmissible. Attorney Dayton Moses said the statement had been obtained by intimidation and that a part of the statement already had been admitted and that all the circumstances should be admitted.

Another alleged threat by Chipps to kill Norris was related by Mrs. Lena Cheek of Fort Worth. She testified she was in the elevator in Mayor H. C. Meacham's Fort Worth department store when she heard Chipps tell the mayor "he'd kill Norris if the pastor didn't stop attacks on Meacham.

State's objection to going into the circumstances of the statement was sustained.

Talked to Husband

Mrs. Greer said she telephoned her husband from Hot Springs "because of the way Harry Hamilton had talked to me and I wanted advice."

When McLean objected to a purported conversation by Mrs. Greer with Attorney Simpson over the telephone Judge Hamilton sustained the objection.

"With all respect to your honor, I think you're wrong," Simpson said.

"Well, I'm running this court and not you. Sit down!" said the judge, rapping determinedly with the gavel.

Mrs. Lena Cheek testified to a conversation alleged to have occurred between Chipps and Mayor Meacham in the elevator in Meacham's department store.

She said she was in the elevator when Chipps and Meacham entered. Chipps held a Searchlight, Norris' church paper, in his hand. He called Meacham's attention to an article attacking the mayor.

"Norris is causing more trouble for me," the witness quoted Meacham as saying.

"He'll stop it or I'll kill him," Chipps replied.

"You are liable to get killed," Meacham said.

"I can take care of myself," Chipps replied.

Meacham then said he'd call Chipps on the telephone, the witness said.

Mrs. Greer was recalled. She told of the conversation between Chipps and Meacham.

Meacham Called Chipps

"Mr. Meacham telephoned Mr. Chipps at the Westbrook and told him to come down to the store because Norris' Searchlight was being circulated in the store.

"Chipps said he'd go up to Norris' office and stop him (using an oath) if Meacham would give the word. The mayor said: 'No, you'd better come down here a moment'."

C. D. Bush, former Fort Worth detective, identified a bullet found on the floor of the ante room to Norris' office. He testified as to the location of a bullet hole in the ceiling of the pastor's private study, stating in his judgment the person firing the bullet into the ceiling must have been standing about five feet from the door which would place him near Dr. Norris' desk.

Mrs. Roxie Parker, star witness for the state, said she saw Norris standing in the doorway when he shot Chipps.

G. H. Harris, manager of the Westbrook hotel, said Chipps was under the influence of liquor "practically all the time," that Chipps lived at the hotel.

Detective Testifies

W. B. Hinkle, Fort Worth detective, was asked about an incident in which he was said to have taken a pistol from Chipps, but the state objected because the incident had not been communicated. The ruling was that such information as had been communicated was admissible. Fred D. Holland, former Fort Worth detective, had previously testified that he had told Norris of this pistol incident. The court excluded evidence as to whether the pistol was taken from his hip pocket.

Hinkle said the pistol was discharged while he was taking it from Chipps and that the latter was drunk.

State objected to testimony that Hinkle heard some one say something about picking up an object from the floor. They insisted such testimony would be hearsay.

Wife Testifies To Aid Bonner

(Continued From Page One.)

tion. Juan Morales, Santiago Mendoza and Raul Fernandez attempted to identify Bonner as the man in the Ford coupe, but beyond that he "favored the man in the coupe" could add little to the state's case. All three described the circumstances surrounding the shipping of the package, telling in detail how they had been approached by the man in the coupe, and directed thei ractions. Mendoza said he shipped the package at the International-Great Northern express station in San Antonio, receiving therefor a quarter.

He said he signed the name Juan Morales, which appears on the express company's copy of the receipt, because he was "scared," thinking the box contained whiskey. He thought of the name on the spur of the moment, he testified.

Defense Confident.

Lon Curtis, chief defense counsel, said he was confident of a favorable verdict, and said he would finish the introduction of defense testimony early tomorrow.

Mrs. Harry Barnes, whom the state earlier had indicated was one of the chief witnesses, arrived in Corpus Christi this morning but was not called to the stand.

Records of the University of Texas and the recollections of classmates were presented today as circumstantial evidence in the prosecution's attempt to prove that Frank Bonner, murdered his prospective father-in-law in 1925 with a charge of dynamite.

Instructor Testifies.

E. M. Gafford, an instructor in electrical engineering at the University of Texas testified that he gave a quiz on the day on which the state alleges Bonner came to San Antonio to put the infernal machine addressed to J. A. Barnes in the express office.

Bonner, Gifford said, did not turn in a paper for that examination. Gafford refused to say, however, that Bonner was absent. He said that he was not marked absent, but that that was the only day during the course in which Bonner's name was followed by a blank in the column where the grades were recorded.

Joe Macken, a contractor who built the biology laboratory at the University of Texas testified that the tool house used in constructing the building was broken open a few days before the murder and that 35 or 36 sticks of dynamite were taken and about a box and a half of dynamite caps. His testimony was corroborated by an Austin detective.

James Clark, son of Bonner's landlady, while Bonner was at the university testified that he and Bonner had experimented in 1920 or 1921 to discover a method of exploding dynamite caps and that they succeeding in accomplishing this by using an ordinary dry cell.

G. B. Cone Called.

The Clark home, he said, was about two blocks from the biology laboratory. Previous witnesses have testified that the package supposed to have contained the bomb was delivered to the office of the express company in San Antonio by a Mexican boy, Juan Morales. The package bore the name of G. M. Cone as the sender, and gave his address as 1713 S. Flores street, San Antonio.

G. M. Cone of Lubbock was called to the stand today to testify that he had roomed in the house in which Bonner lived in Austin for two months in 1922. He said that while he and Bonner were not very friendly, they never had any trouble. He testified that he had never been in San Antonio, that he did not know Barnes and had never sent a package to him.

The prosecution then called Father John Robling, a Catholic priest of Fredericksburg to the stand. Father Robling testified that he lived at 1713 S. Flores, San Antonio, at the time of the murder, but said that he was not acquainted with Barnes and had never sent him a package.

LAWYERS ROW AS COURT RAPS

Norris Trial Marked Daily By Squabbles

By BESS CARROLL
Universal Service Staff

AUSTIN, Jan. 19.—The old law of "tit for tat"—you kill my dog, I'll kill your cat, has been revived in Texas.

Men will be boys, even when they're so grown up that the high doors of criminal district court in Austin—where the Rev. J. Frank Norris, fundamentalist chief, is being tried for murder—almost bump their tall legal heads.

Court Gets Jolt

And the dignity of a high court rocks as two armies of attorneys, like little boys fighting an alley war, shout at each other hotly—"Bing! You're dead—go on and die."

"I'm not dead—you are!" the other side comes back. "Don't you know when you're shot? 'Bing' yourself!"

It is logical that Texas, sprouted from a musketball, should have the battle of the hour; for blood and thunder are part of the past. But aside from its grim, stern issue—the life of J. Frank Norris, which hangs in the balance—this historic fracas is a decided echo of bygone back-yard "revolushions."

"Wild Bill" Roars

"Wild Bill" McLean, roaring state's attorney, doesn't need the make-up of a tin soldier to make him suit the part. A lion of a man with a pug nose, "Wild Bill" dominates the Norris battle as a bullet-scorning, hell-defying doughboy was on the soul of Flanders field. He scraps for every inch of the ground; and the old-time Texan, looking on, murmurs "Ride 'em, cowboy"—one rugged man's admiration for another—as "Wild Bill" fights. For this "Wild and Wooly" Bill, bearing the nickname of a famous westerner who was bred on powder-smoke and died to the requiem of six-shooters, carries that name well.

Jesse Martin, prosecuting attorney, was a United States Marine in the war that made marines unpopular down Argonne-way.

Red-Headed Marvin

On the other side of the big melee is a red-headed man—blazing Marvin Simpson, known to have no fear for buzz-saws or their buzzes.

And as they pug away at each other, each insisting that the other is the "remains" and therefore dead, a peace-loving judge, hammering away for "order" sometimes loses his judicial patience and the mallet of his gavel.

It's a big fight—somebody's Waterloo; whose, nobody knows.

Norris To Call Surprise Witness

(Continued from page one.)

by the defense to have stooped over as though to pick it up again was referred to today. Ridgeway said he saw the "something" beside a blotch of blood in the study ante-room. The inference is that the defense would make a weapon out of this "something."

Ridgeway, cross examined, admitted that the "something" might have been a large comb case.

Woman's Testimony Vague

Mrs. P. B. Gilliam, wife of the manager of the Rev. Norris' church magazine testified she had seen a mysterious stranger pick up that mysterious "something" from the ante-room floor. She was most indefinite about who the man was or where he went with the "something."

From W. B. Hinkle, a detective, McLean succeeded in wresting information that Hinkle and not the pastor's secretary, Miss Jane Hartwell, called an ambulance for Chipps—also that Hinkle never had told Officer Holland that Chipps had been a "pistol packer" and that in 1919 Hinkle had taken a pistol away from the drunken Chipps. Holland is the officer who testified he had heard Chipps declare he would kill the pastor and so warned Norris the day before the shooting.

Norris, still suffering from a cold and a sore throat, said his yesterday's respite from court had not benefited him a great deal. He indicated he was confident he would be completely vindicated by the end of next week.

He Searched Chipps

On cross examination Officer Hinkle, who said he had searched Chipps admitted he found no weapons on the fallen man. Chipps was still living when Hinkle arrived.

Ridgeway had seen a Miss Gillam near the stairway entrance when he came down from Pastor Norris' study. Mrs. Gilliam's husband is manager of "The Searchlight." She said she saw Ridgeway go up stairs after the shots.

The Norris defense made two major moves in the morning.

1. To show definitely on the day of the slaying that Chipps was in a murderous frame of mind; that he indicated he would kill Norris if the Fort Worth fundamentalist did not quit attacking H. C. Meacham, dry goods merchant and mayor of Fort Worth.

2. To lay a foundation for a claim that Chipps was armed when he went to the death-interview in Pastor Norris' study July 17, 1926.

An interview between Chipps and Meacham was testified to by Mrs. Lena Chick, formerly a saleswoman in Meacham's store. Chipps, as testified to by Mrs. Fanny Greer, a former telephone operator at his hotel, had been invited early in the afternoon to the stage to discuss Pastor Norris' attack on Meacham in the First Baptist church magazine, "The Searchlight."

Meacham Meets Chipps

The interview occurred on the third floor of Meacham's store. Mrs. Greer saw Meacham and Chipps walking from the former's private office to the elevator. Meacham had a copy of "The Searchlight" in his hand, the witness added.

Questioned by Marvin Simpson of the defense: Did you hear any conversation between Meacham and Chipps?

A.—Yes.

Q.—Did Mr. Meacham have anything in his hand?

A.—Yes.

Q.—What was it?

A.—He had a "Searchlight." It was rolled up. He was holding it so I could see the red letters.

Spoke of Norris

Q.—Did the conversation have in it any reference to Dr. Norris?

A.—Yes.

Objection by Special Prosecutor McLean was overruled.

Q.—Tell the jury what that conversation was.

A.—Mr. Meacham was saying: "Here's more trouble for me!"

Chipps said: "There'll be no more trouble from Norris. I'm going up there and either he will stop it, or I'll kill the——."

Meacham said: "Be careful. If you need me, I'll either be here or there." Chipps said:

"Oh, I can take care of myself."

They shook hands and Chipps went out.

Mrs. Greer testified that Chipps called Norris through her hotel switchboard on July 17 and that she had listened in on parts of the conversation. She said Chipps at first had refused to let the Rev. Norris know who his caller was. Later he revealed his name, Mrs. Greer added, and made a date to call at the study.

"Will you be there for half an hour?" Chipps was said to have said.

To this the preacher answered: "I'll be here for a half hour or two hours and a half if necessary. What is it you want to talk about?"

"Oh, everything in general," was Chipps' alleged answer.

Mystery Bullet

Detective C. E. Bush of Fort Worth, testified he had found a bullet hole in the ceiling of the Norris study. That hole was made at an angle and did not seem to the witness to have been discharged from a pistol held by a man directly under it—later, continued the witness, he picked up a blunted bullet near a settee in the ante-room next to the study. It was not the same bullet, he thought, that had been fired into the ceiling. This testimony was taken to predicate a theory that Chipps had been armed and had fired on the pastor.

THRIFT WEEK

TODAY IS

"Own Your Home Day"

Perhaps there is no truer saying than, "There is no place like home," for even the person in the grip of wanderlust welcomes the time when he can return to the place he calls home. But putting aside the sentimental aspect of the question, its practical side cannot be questioned. Large corporations whose profits depend upon thrifty management set a good example by owning their own buildings—from the largest down to the smallest—the home owner can save money.

The advantages found in a permanent dwelling cannot be too highly emphasized. The portion of happiness, contentment and peace of mind to you and your family is but a just reward for the comparatively small investment you are asked to make. As a home owner you are introduced into an ideal circle of friends, whose circumstances and interests are similar to your own.

Thus, thrift, practicality, sentiment, all urge you to own your own home. On every side there are offers of assistance which makes the final ownership easy of attainment. All the methods are equally worthy—choose one and work, thriftily toward the goal of a permanent home.

The firms on this page have attractive Homes to offer with prices and terms arranged within reach of all. "OWN YOUR OWN HOME."

Marland-Consolidated Test May Reveal New Pool In Archer County

Another oil pool in the shallow pay district of south Archer county is expected to be opened up with the completion of the joint test of the Marland and Consolidated Oil companies on the Ward Brothers land in section 1379, T. E. & L. company survey.

This test encountered a sand at 1018 feet and drilled six feet of the pay when the Halliburton test was run and the hole filled 700 feet with oil in a short time. The last two feet of the sand showed salt water and the hole was being plugged back Wednesday, it was reported.

This well is approximately four miles northwest of the Benson pool, the nearest production, which produces from a 900-foot horizon. The location is described as 150 feet each way from the northeast corner of the west 40 acres of the south 120 acres of section 1379.

Although several dry holes have been drilled near this "strike," acreage prices on the small amount of "loose" land in the vicinity is soaring. Most of the tests which have been put down near this location have been abandoned at a depth of 1000 feet. The Major pool, eight miles to the north, contains several wells which produce from a 1000-foot horizon.

NEW WELL IN AT SEMINOLE

Sinclair's No. 1 Fixico Makes 3290 Barrels Initial

TULSA, Jan. 19.—The Seminole field's outstanding feature the beginning of the present week, was a good well brought in by the Sinclair Oil and Gas company and Transcontinental Oil company their No. 1, Fixico, in the northeast corner of the southwest of the northwest of 23-9-6, which extended the producing area one location to the north.

The new well, is 86 feet in the Wilcox sand topped at 4107 feet, the total depth in sand being 4142 feet, and produced 3290 barrels in 24 hours. It came in Sunday morning.

Barnsdall Oil corporation shot its No. 6, Carter, in the southwest corner of the northwest of 24-9-6, after which the hold bridged. It had a hole full of oil and made one flow, from the Wilcox sand topped at 4125 feet, and drilled in to 4165 feet.

Barnsdall's No. 3 Carter, in 24-9-6, was shot with 35 quarts in the Wilcox from 4099 to 4151 feet, and also bridged. This will had a hole

Barnsdall's No. 5 Carter, in the southeast corner of the southwest of the northwest of 24-9-6, which has been in for some time, developed 26.3 barrels daily for the past week.

Two Producers In Brown Extension

Sherk Area Given Extension By T.-P. Well

Special to The Record News.

SAN ANGELO, Jan. 19.—Drilling in Saturday of two Brown county producers by George A. Henshaw Jr., and company, of San Angelo, increasing its daily yield to 5500 barrels; a half-mile southern extension of the Sherk area in Upton county, through T. & P. Coal and Oil company's No. 1-B Lane, and purchase by the Texon Oil and Land company from the Republic Production company of a lease on 320 acres in Winkler county for $92,500 cash were principal week-end developments in oil in this area. Before completion, the T. & P.'s No. 1-B Lane pumped 90 barrels of oil in 12 hours. In beginning pumping Sheaffer and others No. 1 University in section 9, block 47, Crockett county, made 10 barrels of oil Friday night.

T. & P. company's Lane, in its incompleted state, was considered good for 150 barrels daily. It had only touched the pay at 2206 feet. The location is in the northeast quarter of section 1, G. C. & S. F. Ry. Co. survey, a half mile south of Wentz Oil corporation's No. 1 Sherk, which extended the main Upton field three and one-half miles to the east. While engines were being changed, Wentz's No. 1 Sherk flowed 35 barrels of oil late in the week. It is five feet in the pay to 2236 feet and is making no water, as did No. 1 Sherk. It averaged 180 barrels daily in five days pumping before the shut down to change engines.

Cotton--Latest Market Quotations--Cattle

Cotton

NEW YORK COTTON.

NEW YORK, Jan. 19.(AP)—A further advance in the cotton market today met increased offerings from one source or another, and after selling up to 13.56, or 10 points net higher, March reacted to 13.48, closing at 13.41. The general market closed steady at net declines of five to nine points.

The opening was steady at an advance of three to eight points on reiterated reports of an expanding demand for cotton goods in the Lancashire market continued firmness with large spot cotton sales in Liverpool, and reports of a steady spot situation in the south.

Considerable southern selling and realizing was absorbed on moderate setbacks in early trading, the market working up to 13.77 for May and 14.17 for October during mid-day, or about nine to 11 points net higher. With little more southern selling reaching here, the afternoon market eased under realizing or liquidation by recent buyers, who seemed inclined to even up their commitments in advance of the ginning figures.

Recent reports from the southwest have been regarded by local traders as pointing to larger ginning returns than talked of previously and brokers attributed part of the afternoon selling to liquidation of long accounts in view of uncertainty as to the showing of the census report next Monday, or of a private report expected tomorrow.

Prices reached the lowest levels of the day in late trading, May selling off to 13.40 and October to 14.00 or about six to 10 points net lower. The close was within a point or two of these figures.

Spot sales in the Liverpool market were reported at 10,000 bales, including 10,000 bales of American cotton.

Exports for the day were 28,928 bales, making 6,245,591 so far this season. Port receipts 45,150; U. S. port stocks 2,916,416 bales.

NEW ORLEANS COTTON.

NEW ORLEANS, Jan. 19.(AP)—The cotton market was again fairly active today but prices were two sided and sensitive, among afternoon influences being more bearish. Liverpool cables were decidedly better than due with spot sales there of 10,000 bales. After gaining three to five points in the early trading the market later eased off four to five points on selling by ring traders to force a reaction. The market soon rallied, however, on scattered buying in expectation of comparatively moderate ginning totals for Monday next, prices gaining 10 to 11 points from the lows. In the early afternoon prices turned downward again and made new lows, 13 to 15 points down from the highs mainly on ginning. Prices continued to ease off on a rumor that ginnings for the last period would reach a million bales and the lowest showed losses of 17 to 18 points. The close was a shade above the lowest, showing net losses for the day of five to eight points.

First trades here showed gains of two to three points which was a poor response to the strength of Liverpool. Prices gained a little additional right after the opening but soon eased off to 13.41 for March, 13.62 for May and 13.78 for July.

The market later rallied to 13.54 for March, 13.72 for May and 13.89 for July, but in the afternoon a fresh reaction set in which carried prices down to new lows at 13.43 for March, 13.60 for May and 13.78 for July. The market continued to decline in the late trading, March touching 13.36, May 13.55 and July 13.72. The close was a shade up from the lowest.

Exports for the day totalled 28,928 bales.

CHICAGO GRAIN REVIEW.

CHICAGO, Jan. 19.(AP)—Wheat turned downward today affected chiefly by apparent discrediting of reports that the Argentine government would artificially sustain values. Closing quotations on wheat were heavy, ¾ to ⅞c net lower, corn ⅝ off to ⅝c up, oats ¼c down to ⅛c advance and provisions varying from 10c decline to 60c gain.

Corn and oats reflected wheat weakness and larger country offerings of corn to arrive.

In the provision market, meats showed the influence of smaller hog receipts than expected. Lard, however, showed weakness.

FOREIGN CHILL HURTS WHEAT

Weak Overseas News Hits Wheat Price Blow

BY CHARLES J. LEYDEN.
Universal Service Staff Correspondent.

CHICAGO, Jan. 19.—A weak turn in foreign markets chilled bullish fever in the local wheat pit today, prices dragging lower in a quiet trade. The close was on a recovery from the bottom. Conflicting reports as to the probability of the Argentine government taking any steps to stabilize native wheat prices, and claims that Gulf premiums in the country were easier had depressing effect, and there were rumblings of a let up in the milling trade southwest. Holders were inclined to reduce rates rather than add to them.

May wheat opened at $1.40⅝@⅝, dropped to $1.39⅝, recovered to $1.40¼, dipped to $1.39⅛, rallied to $1.40, dipped to $1.39⅜, and closed at $1.39⅝@⅞. Corn opened at $1.02⅜, sold off to $1.00¾, and closed at $1.01⅜@⅝. Oats was easier with oats and rye irregular. Wheat trading was largely local.

The seaboard confirmed only a small export trade in wheat. Rye sales totaled 100,000 bushels. Liverpool finished ¼ to ⅜ pence lower.

Locally wheat closed ⅝ to ⅞c lower, corn ⅝ to ¾c lower, oats ⅜c lower to ⅛c higher and rye ⅜c higher to ⅝c lower.

Corn started steady to firm but met local selling as support failed to develop. The market declined steadily thereafter. The movement of corn from first hands shows little change, although late reports suggested that farmers downstate in instances were ready to sell more freely.

May oats were reactionary with scattered commission house selling in evidence, but the deferred months met a better class of absorption.

Rye was independently firm compared with wheat on reports of better export business.

Both at Crystal City and Laredo cash buyers advanced the market to 75@80c per bushel, although the wire inquiry from the outside was not overly brisk. Beets and carrots held their recent advance at 50c per bushel on wire order sales and 30c per bushel cash to the grower in the field. Cabbage brought farmers $12.50 and better per ton for their wagonsite and sales of carlots on telegraph orders were reported around $25.

N. Y. Stocks

NEW YORK, Jan. 19.(AP)—Stock prices displayed a more uniformly upward tendency today coincident with a lowering of call money rates. Leadership of the market shifting frequently, the rails, oils, equipment and merchandising issues all occupying the spotlight at intervals throughout the session. Trading while fairly broad was only moderate in volume.

Outside of easier credit conditions, there was little in the day's news to influence the price movement.

The technical position of the market, particularly as regards industrials, had been strengthened by the recent liquidation in that group, so that it was quick to respond to the appearance of large buying orders. Shorts covered freely, especially in the high priced industrials. It was apparent, however, that several stocks were being distributed under the cover of strength in other sections of the list. For instance, when the oils became strong and active towards the close, the steels, motors, equipment and some of the other earlier strong spots began to sell off from their highs.

While a good investment demand was still apparent for several of the high grade rails, chief speculative interest continued to center in the shares of roads with merger possibilities. Lehigh Valley after selling down to 119½ suddenly spurted to a new record high at 125 and then quickly sold down to 121¾ up 1¾ net. St. Louis-San Francisco, common, touched a new high at 106⅞. Baltimore and Ohio moved up to 112, the highest prices since 1916.

Heavy buying of Timken Roller Bearing, which recently entered the railroad field, featured the equipment group, the stock touching a new high at 88¾. U. S. Steel common advanced 1⅛ points to 137½. Motors snapped back quickly when selling pressure was lifted, General Motors and Hudson showing net gains of about two points each.

Pan-American issues, with gains of three points each led the late rally in the oil shares. Sinclair was heavily traded in, the preferred stock touching a new high.

Call money renewed at 4½ per cent, and then dropped to 4. Time money and commercial paper rates were unchanged.

Foreign exchanges in general were slightly easier, although demand sterling and French francs held fairly steady around $4.84⅞ and 3.96⅛ cents, respectively.

Livestock

TEXAS LIVESTOCK.

FORT WORTH, Jan. 19.(AP)—Lambs advanced a quarter, hogs were fully steady, best of the day, stock with slaughter yearlings and heifers and bulls steady. Beef steers were to sell lower if at all and calves declined a quarter to 50 cents. This was the situation in the livestock trade at Fort Worth at noon Wednesday.

Beef cattle had found no owners at 1 o'clock, bids being a quarter lower and nobody anxious to sell.

Sheep stock received lower bids on all below the good beef grades and here the selling was about the same as on Tuesday. Top at $6.00 for the choice and $5.50 to $5.90 for eight to decent corn. Butchers, cutters and the most desirable among the canners had to take off something. Looked like a quarter.

U. D. C. HONORS LEE, JACKSON

Wichita Falls Joins Observance of Anniversary

Wichita Falls united with other cities of the south Wednesday and paid homage to two great southern leaders, Robert E. Lee and Stonewall Jackson, observing the birthday of Lee which falls on January 19 and Jackson on January 21, in a meeting at the home of Mr. and Mrs. P. P. Langford on Tilden last night. John Marrs, attorney, recounted briefly the life history of Lee, and Harwood Stacy reviewed the life of Jackson. Southern music with singing of old-time songs, and brief talks from Confederate veterans featured the program for the evening.

Sponsored by U. D. C.

The observance of the birthdays of the two generals, beloved throughout the south for their valor, was sponsored by the W. R. Scurry chapter of the United Daughters of the Confederacy, and Mrs. C. C. Hagmann, president of the chapter, presided.

She told of the work the U. D. C. is doing, and especially how it is helping descendants of Confederate veterans by giving scholarships. She also mentioned the Jefferson Davis highway starting from Richmond, Va., and ending at San Francisco, passing through south Texas. The local chapter is building a scholarship to be used in the Wichita Falls Junior college.

The program opened with Mrs. Hagmann's address of welcome and was followed by a solo, "Carry Me Back to Old Virginny," by Miss Mary Virginia Barron with Miss Elizabeth Langford at the piano. A string quartet composed of Mrs. C. R. Eyssen, Mrs. T. E. Greenwood, Stanley Raub and M. A. Ellis played two numbers, "Old Black Joe," and an Irish cradle song.

Southern Songs

Mrs. Beverly Wortham of Roanoke, Va., soprano soloist, entertained with a group of southern melodies including "Way Down Upon the Suwanee River," "Dixie," and several numbers by request.

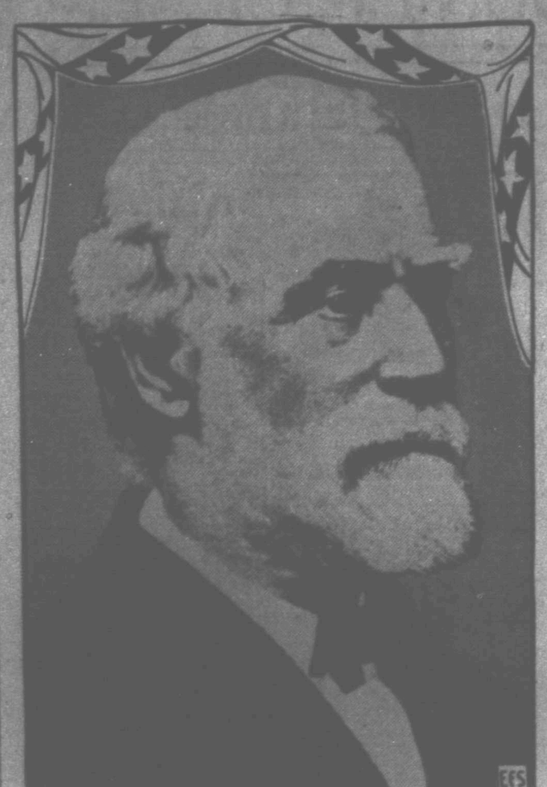

Mrs. Vesta Hastings Bryan of New York City and Wichita Falls played two piano numbers.

Mrs. E. W. Bounds of Fort Worth, past state president of the U. D. C. was present and made a brief talk and urged the help of the organizations on the Stone Mountain memorial.

Guests were greeted by Mesdames Hagamann, F. L. Shackleford, J. L. Jackson, H. O. Newton, William B. Smith, H. B. Patterson and Mrs. Langford.

Among the 150 guests present were the following Confederate veterans: J. T. Woodhouse, A. V. Lane, George Simmons, Judge Edgar Scurry, J. H. Russell, and from Electra, W. H. Miller, J. C. McCracken and Col. Ed C. Wilson.

His Birthday Observed

The 120th anniversary of Robert E. Lee, patron saint of the south, was observed Wednesday night at the home of Mr. and Mrs. P. P. Langford when more than 150 guests, members of the United Daughters of the Confederacy, Sons of Confederate Veterans and veterans were present. His birthday was jointly celebrated with that of Gen. Stonewall Jackson who was born January 27.

Wichita Falls
Folks, Facts, Fancies

C. H. Featherston has returned from Houston and Brownsville. While away he also visited his fruit farm at Harlingen.

Miss Annie Laurie Long, visiting secretary of the First Methodist church, has been presented a 1927 model Ford coupe from the First Methodist church to be used in her work for the church, it was announced yesterday.

Building permits in Wichita Falls Wednesday continued at an unusually low level, three being issued. The combined valuation was only $2400. After a record mark of over $10,000,000 in 1926, the present year has apparently settled down to a vastly more conservative building program. Permits for the entire month have not yet reached the $100,000.

TAX SURVEY

City Clerk Completes Report On Southwest Cities

Wichita Falls' total tax burden, in which all assessments made against property owners in this city are figured, ranks as a little higher than average when compared with other communities of approximately the same population in the middle and southwest.

A tabulation compiled by City Clerk W. E. McBroom shows that a Wichita Falls resident owning property valued at $1000 pays, in all, $45.70. This includes city, school, county, state and irrigation tax. This $45.70 is the assessment figured on the 65 2-3 valuation basis used here.

Out of 14 cities on which figures were compiled, Galveston was found to have the lightest maximum tax burden with $23.10 on the $1000. Fort Worth's was the highest with $51.10.

FIRE STATION

McClure Seeks Temporary Station For City Department.

As soon as some minor legal matters are cleared away, work will be started on moving fire station No. 4, now at Seventh and Bluff streets, to a new site at 3rd and Wofford. Contract for the work has already been let.

Fire Chief J. L. McClure is still attempting to find a temporary home for the station while the change in location is being made. He feels that a station should be maintained in the vicinity of the Seventh street site in order to afford a large, densely populated section of the city protection against fire.

If a suitable building cannot be found, however, the apparatus and men at No. 4 will be split up between the other stations until the new station is ready for use.

CLUB HEARS GIRLS' LEADER

Optimists Told of Work And Ideals of Camp Fire

What the Camp Fire Girls organization is and is not was explained to the Optimist club Wednesday in a talk by Miss Ruby Lattimore, national field secretary of the organization who is in Wichita Falls for a two-day visit with the local organization.

Quoting the law of Camp Fire, "Seek beauty; give service; pursue knowledge; be trustworthy; hold on to health; glorify work; and be happy," the secretary explained how the organization touches a girl's life and provides a wholesome outlet for her energies during the adolescent period.

Many Purposes.

"The name of Camp Fire is misleading, for many think that its purpose only is to get around a camp fire for a good time," and then she explained the instructive and educational work of the seven crafts: Home, health, hand, nature, camp, patriotism and citizenship and business.

Bert King spoke briefly on the "Optimist Creed." "Forget the mistakes of the past," he declared, as he explained that most of the troubles are magnified and people "wonder if so and so had not happened, how things might be."

"Be enthusiastic about the success of others as you would be of your own success. The only way to have a friend is to be one.

Aid Chest Drive.

S. R. Featherston, president, announced the reopening of the community chest campaign, and 20 workers from the club were announced to start with the group Saturday.

Announcement was also made of the Optimist district convention to be held in Wichita Falls, April 25, when representatives from Oklahoma, Arkansas and Texas will be here.

A spirited singsong was led by Joel H. MacGregor.

Lions Drill For Inter-City Meet, Hotel Opening and Chest Drive

The entire Lions club active membership was drafted upon motion by Joe B. Matchitt Wednesday at weekly meeting of the organization to assist in raising the community chest budget deficit of $12,000 in one-day campaign scheduled Monday. The Lions are to meet with the rest of the budget campaigners Saturday noon at the Kemp to lay plans for the drive.

Joe Dickey told his brother Bengals they are to assist Lion A. W. McCoy in the opening fiesta of the Marchman hotel Monday evening, all Lions dressed in bellboy regalia, "which should make Bailey Curd and some of the rest like him feel at home."

The club, led by E. F. Bohmfalk, practiced songs and collegiate yells to be staged at the inter-city club session carded Tuesday in Burkburnett at which Vernon, Electra, Wichita Falls and Burk Lions are to be present.

Glenn Groves opened the entertainment program which was directed by Dr. R. B. Welford, with a biographical discourse on the shoe. Groves told the audience all about the half-soling business, the tannery pursuit and said that leather-working was done back in the prehistoric ages fully 20,000 years B. C.

Harry Bunnenberg addressed the assemblage about experiences of his on recent sojourn in Germany. The club learned that Germans drink beer, many high schoolers and collegians indulge in saber by-play and that Bunnenberg had won first place in a bowling tournament or match.

Miss Ruby Lattimore, field worker of the Camp Fire girls, spoke briefly on the ideals, purpose and scope of the organization.

Miss Evelyn Cushman entertained with two vocal solos. The "power behind the throne," Mrs. R. E. Shepherd, did the accompanying act on the ivories.

Today { At the Theaters
By Ruth Morrison

Majestic: Five acts of Interstate vaudeville; Johnnie Hines and Mary Brian in "Stepping Along;" comedy and Pathe News.

Olympic: Richard Barthelmess and Patsy Ruth Miller in "White Black Sheep;" comedy and news.

Strand: "Private Izzy Murphy" with all-star cast; comedy.

Mission: "Man of Quality," and comedy.

Gem: Richard Talmadge in "The Better Man" and comedy.

Garden: "That Girl, Oklahoma," with Ruth Mix; comedy.

Miracles. Night life of London, Paris and New York. Cures for ills. Such is the ensemble of vaudeville attractions at the Majestic today and tomorrow. Sounds like a quack doctor advertisement! But it really is a promise of a good bill for the bored, blase theater folk who have been going to the movies for six days and literally eat up vaudeville every Thursday night.

Speaking of doctors—Bud and Jack Pearson offer a clever singing skit, "Don't Tell the Doctor," which is the "kill or cure" of the entire program. Their professional interest is not confined to medicine at all, but to good humor and songs. You see them in a later act, too. In fact, they can't keep out of anything.

"London, Paris and New York" is an extravaganza act of snappy cast, beautiful scenery and a typical representation of the night life in the under and upper worlds. Bud and Jack, appearing where they should not be, claim the attention of the eight Fifth avenue girl gendarmes, bobbies, cops, taxie drivers and what have you! The cast includes 17 people.

Will Ferry is the proof of modern miracles when he performs the seemingly impossible twistings and turnings of the boneless contortionist that he is.

There was a Roger Williams who played quite an important part in American history long ago and there is also a Roger Williams who plays a decidedly important part in this vaudeville bill as comedian. He is known as "The Boy from Dixie" and, like a certain breakfast food, "there is a reason!"

Jack Kraft and Elsie Lamont ing." It was Dick's first beard or mustache.

Dick had to wear the garb of an "Put Up the Lights" in their comedy skit.

The screen attraction is "Stepping Along" with Johnnie Hines and Mary Brian.

* * *

Richard Barthelmess encountered new experiences of make-up during the filming of "The White Black Sheep," which comes to the Olympic theater today.

As a British soldier in Palestine who disguises as the beggar of Kefr Saba, Barthelmess was required to first grow a full-fledged beard. Then for his later shots he had to shave it, leaving a trim mustache, which in turn came off during the first week of "shoot-

Arab beggar for several weeks during which time he was chased by Arab troops, beaten up by a Greek cafe owner, imprisoned in a dreary dungeon, and buried in sand up to his neck as a target for spear-throwers in a hair-raising torture scene.

Aside from these physical tribulations undergone by Barthelmess, the story itself inflicted upon him such mental trials as discovering his fiance dishonest; being ejected from home by his father, and being branded a deserter.

Of course, all are mistakes.

Advance reports claim for Barthelmess new historical achievements in "The White Black Sheep" which Sidney Olcott directed. The cast is of exceptional proportions with Patsy Ruth Miller playing the leading feminine role.

$2500 BLAZE

Oil and Gas Tanks Threatened In Refinery Fire.

Loss estimated at about $2500 was sustained Wednesday morning at the Miller refinery north of Wichita Falls when fire of undetermined origin broke out in a gasoline tank. The vat, which held 500 gallons of gas, was full at the time but about 400 gallons were pumped out from the bottom while the fire burned at the top.

H. T. Smart, superintendent at the plant, estimated the loss at approximately $2500.

City firemen were called and after laying about 3000 feet of hose played two streams of water on surrounding tanks of oil and gasoline. These were saved.

Seniors Open Round of Festivities As Gong End Long School Period

When the gong sounded at the close of school yesterday at Junior college, the mid-year graduating class started commencement festivities that lasted far into the night. The treasure hunt which has been looked forward to with interest started early in the evening from the college building, and ended at 5:30 o'clock when the class separated into groups, the girls going to the home of Faire Murphy for a slumber party, and the boys to the First Southern Presbyterian church for their "stag" party.

The beginning of the class parties was easy compared to the full day Thursday. Alarm clocks are set for 5 o'clock this morning, and the class is to meet at the Lake Wichita pavilion at 6 o'clock for a sunrise dance and breakfast. From 9-11 o'clock, the group will go for a boat ride on Lake Wichita and then go to the Junior Coffee shop for dinner.

A Majestic party is planned for the afternoon when, at 3 o'clock, the class will meet at the theater where places will be marked in ribbons of the class colors. The evening is to be concluded with a weiner roast at Scotland park and a dance at the Episcopal parish house. Ira L. Cain Jr., is president of the class.

"One of the big things about Camp Fire is that it interests girls in doing things about the home," Miss Ruby Lattimore, national field secretary of the organization said in an interview Wednesday shortly after her arrival here for a two-day visit. "It helps to glorify work and to interest the girl in that which she ordinarily does not want to do."

Miss Lattimore was guest of honor in a meeting of guardians and assistant guardians Wednesday night at the home of Miss Edna Kay. She was the guest of the Wagito group of Camp Fire Girls on her arrival here Wednesday morning.

Rheumatism Can't Be Rubbed Away

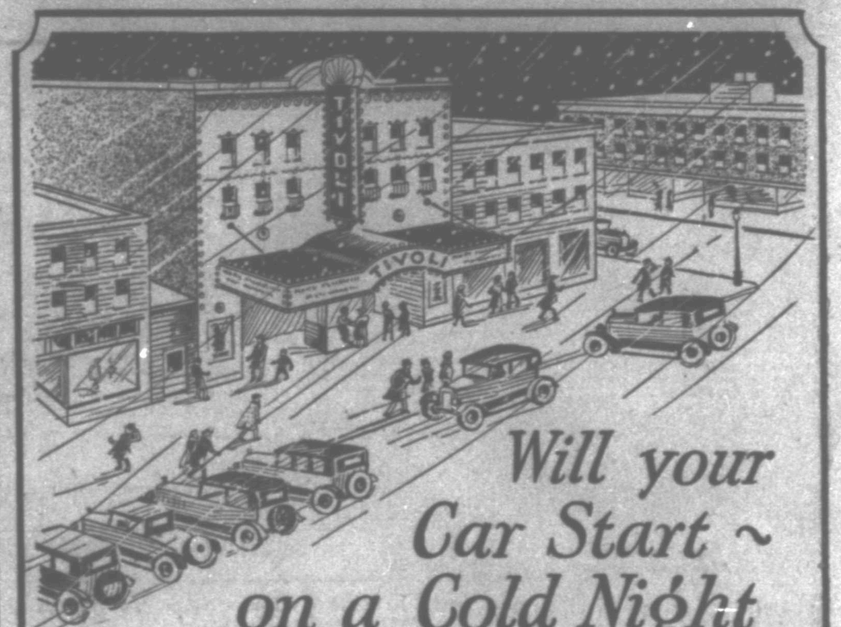

Are you one of those unfortunates who suffer with pains in your muscles and joints, making you miserable, less efficient, interfering with your working hours, ruining your sleep?

You may have tried many things without relief. Why not try S. S. S.? For more than 100 years it has been giving relief in thousands of cases, as testified to in unsolicited letters of gratitude.

"I suffered from rheumatism for a good many years. At times my joints would swell so, I couldn't walk. I tried most everything. Went to Hot Springs and finally I decided to try S. S. S. I took a course. In a short time the rheumatic pains entirely left me. I also had a breaking out on my hands for years that nothing would heal, but now this has disappeared, and I am sure that it was S. S. S. which removed the cause. I am now in perfect health, and want to add that I have tried all kinds of medicines but I think S. S. S. is the best." Carl C. Campbell, 115 West Main Street, Johnson City, Texas.

S. S. S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.—Adv.
