President Explains Non-Aggression Pact

GOVERNOR SIGNS REDISTRICTING BILL

PANHANDLE IS GIVEN NEW DISTRICT

ROOM IS MADE FOR 21 TEXAS CONGRESSMEN INSTEAD OF 18

(By The Associated Press)

AUSTIN, May 16.—Governor Miriam A. Ferguson today signed a bill redistricting Texas to make room for twenty-one congressmen instead of eighteen. Because the state had only eighteen districts it had been necessary to elect three congressmen from the state at large last November.

The senate yesterday passed a bill that would have made alterations in the groupings as proposed in the bill signed by the governor. It would have removed Liberty county from the second district and placed it in the seventh district, Kaufman county would have been shifted from the fourth to the seventh district, and Panola county would have been taken from the third and put in the second district.

19th District Counties: Bailey, Lamb, Hale, Cochran, Hockley, Floyd, Lubbock, Crosby, Dickens, King, Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Haskell, Gaines, Dawson, Borden, Scurry, Mitchell, Andrews, Martin, Howard.

Under the bill signed by the governor, East Texas will get a new district, central West Texas a new district and the Panhandle a new district. Make-up of all the other districts was materially changed from their former grouping.

IS CANDIDATE

Simultaneously with Governor Ferguson's approval of the new 19th congressional district of which Lubbock is practically the center, Judge Clark M. Mullican, below, of 99th district court today announced his Democratic candidacy for congress from the new district.

MULLICAN OUT FOR CONGRESS

DISTRICT JUDGE SAYS HE WILL SEEK NEW DISTRICT POST

The governor's signature creating the new 19th congressional district today brought an announcement of the first candidate for the new office in 1934.

Judge Clark M. Mullican, district judge here for the past ten years, this morning told a Journal reporter he had definitely decided to become a Democratic candidate for congress from the new district.

Makes Announcement

Knowing that the judge had been considered for the race for some time, the reporter interviewed him briefly at his office in the county courthouse and gained consent to announce his candidacy.

"Yes, you can say that I will be a candidate for the congress from the newly created 19th district," Judge Mullican said. He had been most prominently mentioned for the past several months as the leading candidate for the post but had refused to give any expression of his plans.

FDR GIVES HIS REASONS FOR PROPOSAL

CLAIMS STABILITY IS BEING THREATENED BY SELFISHNESS

(By The Associated Press)

WASHINGTON, May 16.—President Roosevelt told congress in a special message today that he had proposed a world non-aggression pact "because it has become increasingly evident that the assurance of world political and economic peace and stability is threatened by selfish and shortsighted policies, actions and threats of actions."

Notifying an enthusiastic congress of his direct message that had gone to 54 world leaders early in the morning, the president declared the overwhelming majority of the nations "faces the danger of recalcitrant obstruction by a very small minority."

"Time For Understanding"

"It is high time for us and for every other nation," he said, "to understand the simple facts that the invasion of any nation, or the destruction of a national sovereignty, can be prevented only by the complete elimination of the weapons that make such a course possible today."

His text follows:

"To the congress:

"For the information of the congress I am sending herewith a message I have addressed this morning to the sovereigns and presidents of those nations participating in the disarmament conference and the world monetary and economic conference.

"Peace Threatened"

"I was impelled to this action because it has become increasingly evident that the assurance of world political and economic peace and stability is threatened by selfish and short sighted policies, actions and threats of actions.

"The sincere wish for this assurance by an overwhelming majority of the nations faces the danger of recalcitrant obstruction by a very small minority, just as in the domestic field the good purposes of a majority in business, labor or in other cooperative efforts are often frustrated by a selfish few.

SINO-JAP WAR MAY CEASE

COMPROMISE SEEN AS POLITICAL REGIME EFFECTS CHANGE

(By The Associated Press)

The possibility of a cessation of Japanese hostilities south of the great wall in China as the result of a Chinese-Japanese compromise is seen at Tientsin following a change in political conditions.

Arrival in the north of General Hwang Pu, representative of the national government at Nanking, in conjunction with a statement Monday by Field Marshal Nobuyoshi Muto, Japanese military head in Manchuria, is interpreted as evidence of the compromise.

Agree To Withdraw

The Japanese will withdraw, Marshal Muto said, as soon as Chinese troops leave the great wall.

Hwang, believed friendly toward Japan, ostensibly is slated as Nanking minister to North China.

More than 70 American children are evacuating the North China American school at Tungchow, conducted by the American board of missions. The United States legation advised evacuation of the town, 13 miles east of Peiping, after rumors the Japanese intend to occupy it.

Rengo (Japanese) new agency reports tell of the occupation of Tsunha by the 14th infantry brigade of Maj. Gen. Heijiro Hattori, who continues westward, meeting no resistance.

RULERS OF NATIONS ASKED TO REDUCE ARMS AND ELIMINATE WEAPONS OF AGGRESSION

PRESIDENT APPEALS FOR SPECIFIC STEPS AT ONCE IN PLAIN-SPEAKING MESSAGE WITHOUT DIPLOMATIC PRECEDENT; RECOVERY IS AIM

(By The Associated Press)

WASHINGTON, May 16.—President Roosevelt appealed directly to the rulers of the nations today to reduce armaments, eliminate entirely the weapons of aggression, refrain from sending any armed force whatsoever beyond their own borders, forget "petty" national aims, and join sincerely to assure peace and economic recovery.

In a plain-speaking message, without diplomatic precedent, the president asked for specific steps at once, and declared if any nation interposed obstructions, the civilized world would "know where the responsibility for failure lies."

He mentioned no nation by name, but his words rang through the diplomatic world with dramatic significance at a moment when certain leaders in Germany are asking for greater armament; when Japanese troops are marching deeper into the territory of China; and where other peoples are suspected of harboring aspirations to acquire new territory by force.

Gives American Position

For the United States, the plain words of the declaration point to abstention from further incursions by American marines into any Latin-American country. They hint at a status quo with respect to the American forces now stationed, by treaty, in portions of China.

As an immediate goal, the president asked success for the Geneva arms conference and the economic conference soon to met in London. He proposed:

Adoption at Geneva of the MacDonald plan to reduce the armaments of France, stabilize those of Germany, and set up a consultative pact to promote peace.

Agreement upon the time and place of a later conference to carry these steps still further.

Would Limit Arms

An agreement meantime that no nation shall increase its existing armaments.

And a promise by all nations, provided the terms of arms limitation are faithfully kept, "that they will send no armed force of whatsoever nature across their frontiers."

"Common sense points out that if any strong nation refuses to join with genuine sincerity in these concerted efforts for political and economic peace, the one at Geneva and the other at London, progress can be obstructed and ultimately blocked," said Mr. Roosevelt.

"In such event the civilized world, seeking both forms of peace, will know where the responsibility for failure lies.

"I urge that no nation assume

TEXAS CLAIMS RELIEF FUND

STATE UNEMPLOYMENT BOND ISSUE ACTION COMPLETED MONDAY

(By The Associated Press)

AUSTIN, May 16—Texas was prepared today to lay renewed claim for her share of reconstruction work incident to distribution of federal unemployment relief funds.

Lawrence Westbrook, director of the Texas Rehabilitation and Relief commission, recently created by an act of the legislature, planned to leave tomorrow, accompanied by three engineers, for Washington to discuss probable reconstruction projects for Texas.

To Consider Problems

E. M. Noyes of Dallas, advisory engineer of the Reconstruction Corporation; J. A. Norris, chairman of the state board of water engineers, and B. F. Williams, state reclamation engineer, will accompany Westbrook to Washington, where they proposed to discuss flood control and park projects with the R. F. C. officials.

The legislature yesterday completed passage of a resolution submitting a $20,000,000 unemployment relief bond issue, and the governor approved it, thus restoring the state's standing with the federal agency.

Federal relief funds, which had been withheld from Texas pending passage of the bond issue submission proposal, will be restored at once, Westbrook announced after a telephone conversation with Washington officials.

To Attend Conferences

Meanwhile, E. O. Siecke, state forester, and N. S. Butler, soil erosion engineer with state experiment stations, both of Texas Agricultural and Mechanical college, planned to attend a conference in New Orleans on Wednesday concerning establishment of additional forest and soil erosion camps.

Westbrook said that of the 11,750 men allotted to Texas for emergency conservation work, only about 900 had been recruited to date. The rest must be enlisted before May 25, he said. He expressed confidence the full quota would be obtained, since restrictions to eligibility had been materially liberalized.

Germany Awaits Hitler's Address

NATION IS TENSE AS LEADER PLANS TO TELL INTENTIONS

(By The Associated Press)

BERLIN, May 16. — Chancellor Adolf Hitler today called Count Rudolf Nadolny to get the latest information from Geneva preparatory to facing the reichstag and the world with a declaration of Germany's international political intentions.

The chancellor at 3 p. m. tomorrow will outline before the reassembled Reichstag Germany's position in the face of the deadlock in the world disarmament conference which followed German disagreement with articles of the British disarmament plan.

Delegates Recalled

The count, chief delegate at the conference, and Dr. Alfred Rosenberg, chief of the foreign division of the Nazi party, were recalled to Berlin over the week-end for conferences. The latter had been in London.

The situation in Germany was most tense as government leaders sought to check the drift which rapidly was carrying the country into political isolation.

Newspapers generally blamed France for the Geneva impasse and expressed surprise that the speech last Saturday night of Vice Chancellor Franz Von Papen, in which he compared the present situation with that existing in 1914, had received a cool foreign reception.

France Is Blamed

The Wolff news agency subsidiary, Deutsche Diplomatische Politische Korrespondenz, spoke of ceasless French "sabotage" and blamed France for the crisis in the Geneva deliberations. The subsidiary usually reflects official opinion.

"Hitler wants no war," the Duetsche Allegemeine Zeitung declared in belittling talk of war. "He could not want it without jeopardizing his lifework and his ideology. He wants peace, security, equality and gradual revision of the Versailles treaty."

Slayer Of Public Enemy Identified

CHICAGO, May 16 (AP) — Rose Malone, a cabaret girl, identified Charles Kunowski today as the killer of "Public Enemy" Rocco Belcastro.

The young hoodlum was found dead in an automobile yesterday, his body trussed with wire, shot through with bullets and wrapped in a burlap sack.

Kunowski and three companions were arrested in a speakeasy yesterday, and this morning Chief William H. Schoemaker of the detective bureau said the Malone girl had named him positively as the slayer.

Filled "Tummies" Trap Small Boys

AMARILLO, May 16 (AP)—Many a boy has found that he could not fill his hand with cookies and then withdraw it from the cookie jar.

But it remained for a group of small boys in Amarillo to learn that after they had filled their "tummies" with hot soda water they could not crawl out of a warehouse through the hole which admitted them.

Police found the boys trapped inside the building, crying.

"They had shapes like brownies," remarked a cop who had read fairy tales.

TWO QUAKES IN CALIFORNIA

RESIDENTS FLEE FROM HOUSES; NO SERIOUS DAMAGE REPORTED

(By The Associated Press)

SAN FRANCISCO, May 16.—Two sharp earthquakes awakened residents throughout the San Francisco bay area at 3:45 a. m.

Street lights went out in Santa Rosa, 50 miles north of here, when the shocks disrupted the electric system. A few clocks were stopped and windows broken in San Francisco. No other damage was reported.

Held "Minor One"

Although Professor P. Byerly, University of California seismologist, described the shock as a "minor one," many people fled from their homes. Professor Byerly said he was certain the epicenter was some distance from San Francisco. He did not consider the quake of sufficient importance to consult his seismograph before the usual hour.

Old time residents in Oakland and San Francisco, however, termed the quake "the worst in years."

The shocks, each of several seconds duration, came in quick succession. The second, by far the stronger, awakened sleepers to the sound of the rumble of the earth, rattling windows, and creaking furniture.

In some sections of San Francisco people ran from their houses. Hundreds of students poured out of dormitories on the Stanford university campus.

Sacramento, 125 miles northeast of here; Stockton 75 miles to the east, and peninsula towns to the south reported feeling the shocks. It was not felt in Southern California.

Razed City Faces Rebuilding Problem

AUBURN, Maine, May 16. (AP)—Restoration of a gaping hole in its new Auburn section, where 249 buildings, including the homes of one twelfth the city's population, were destroyed by fire yesterday with loss exceeding $1,000,000 was the problem facing this city today.

The homeless, most of whom were workers in the mills of Lewiston across the Androscoggin river, were estimated by City Manager Frederick W. Ford to number between 1,400 and 1,600.

MITCHELL FACES CHARGE OF FRAUD

NEW YORK, May 16 (AP)—Charles E. Mitchell, former chairman of the National City bank, was charged in federal court with having defrauded the government of $850,428 taxes on an income of more than $4,000,000 by spurious sales of securities.

In his opening address to the jury United States Attorney George Z. Medalie asserted that these were not in reality sales at all, and referred to the financier's actions as sham and pretense undertaken with the purpose of deceiving the government.

Senate Committee Favors House Bill

AUSTIN, May 16. (AP)—The senate committee on departments and institutions last night voted a favorable report, four to two, to a house bill to reorganize the state government by reducing the number of departments from 138 to 19.

Passage in the house of a bill to divorce oil pipe lines from other units of the oil industry was dimmed when the house refused to consider the proposal. Two efforts to adjourn the house and place it on the suspension calendar, on which the divorcement bill was the first order of business, failed.

Thousands Of Sheep Dying Of Exposure

SAN ANGELO, May 16. (AP)—Thousands of shorn sheep over West Texas were dead or dying today from exposure due to the cold rains over the week-end. One ranch west of San Angelo is reported to have lost a thousand head and smaller losses were numerous.

Losses which were reported to run into the thousands were reported from Coleman county.

Counterfeit Charge Filed Against Man

Hubert Pippin, arrested Monday at Post, was charged with possession and passing of counterfeit five and 50-cent pieces before Victor H. Lindsey, United States commissioner here, this morning.

Commissioner Lindsey set Pippin's bond at $1,500. Pippin was transferred to Lubbock county jail late Monday.

Six Thousand Will Be Sent To Bullis

SAN ANTONIO, May 16 (AP)—Six thousand tree army recruits are to be sent to Camp Bullis before June 7, it was learned at Fort Sam Houston today.

Orders were issued cutting the annual maneuvers now going on at Camp Bullis and sending the second division troops back to San Antonio.

The 6,000 tree army recruits are to come from all parts of Texas south of Waco.

GUARDSMEN ROUT STRIKE PICKETS

MILWAUKEE, May 16 (AP)—National guard cavalrymen, as civilian deputies, today routed milk strike pickets at Shawano where strikers yesterday overwhelmed deputies and closed several dairy plants. In a few hours they cleared the highways after two brushes with strikers.

About 200 pickets east of Shawano were dispersed. The strikers then assembled near Bonduel, where a tear gas battle was fought yesterday, but again were diven away.

CHEERFUL VOICE FROM GRAVE TELLS OF DARK DEEDS DONE IN THE NIGHT

(By The Associated Press)

NEW YORK, May 16. — A cheerful voice from the grave phoned the press of the metropolis before dawn today to tell of dark deeds done in the night at Denville, N. J.

"It's Ray Richards, speaking from his grave at Denville," said the voice. "I wish to announce that dastards have just tried to murder me in my grave."

"Oh, yes?" said the press. "You're the lad who's buried in a seven-foot casket nine feet underground. And Joe Greenberg, who keeps a hot dog stand just above you, charges the folks a dime apiece for a peep down a tube at you. Oh, yes. And then he sells the folks hot dogs."

"This," said the voice hurriedly, "is the truth. About 3:30 a. m., as I lay peacefully in my grave after a hard day, I woke up suddenly because my pillow case and my right cheek was on fire.

"Then I heard voices up above. I hollered for my watchman, Carl Russi, but there was no answer. Three thugs, as I later found out, had gagged him and tied him up in the office (hot dog stand to you.) They must have dropped a

American School In China Is Suspended

PEIPING, May 16. (AP)—Officials of the American Board of Missions at Tungchow, 13 miles east of here, today ordered immediate suspension of the North China American school acting on the advice of the United States legation to evacuate the town.

Between 70 and 80 American children attend the school. They began the evacuation immediately the order was issued. Most of them are from the homes of missionaries.

TO NOMINATE OFFICERS

AUSTIN, May 16 (AP)—The Texas Federation of Labor in annual convention here planned today to nominate officers for the ensuing year. They would be elected tomorrow. Many of the delegates expressed the belief J. W. Parks of Dallas would be re-elected president.

HOLIDAY UNIT TO BE FORMED HERE

Formation of a unit of the National Farm Holiday association is the object of a county-wide mass meeting which will be conducted Wednesday night, beginning at 8 o'clock, in the district criminal courtroom here.

W. B. (Bart) Denton, a holiday association representative, of Littlefield, who spoke on the courthouse square here Saturday, will address the assembly. Although less than a year old, the National Farm Holiday association, according to its spokesmen, is organized in 36 states and has a membership of more than a million. Women are recognized in the movement.

Organization structure of the Texas Farm Holiday association calls for a separate unit in each county. Withholding of farm products from markets until the cost of production with a reasonable profit shall be secured is a major object of the association. National and state legislation to stabilize agriculture, staying of foreclosure of mortgage liens until that adjustment is effected, prevention of deficiency judgments, establishment of a marketing program, and abolishment of "gambling exchanges" are listed as other objects.

Repeal Favored In Wyoming Election

CHEYENNE, Wyo., May 16. (AP)—Mounting totals pointed today to overwhelming sentiment for repeal of the 18th amendment in the Wyoming precinct convention held yesterday.

The results appeared to have placed the state definitely in the repeal column along wtih Michigan, Wisconsin and Rhode Island.

With 196 precinct conventions heard from 397 delegates had been selected to vote for repeal in county conventions May 18 against 40 delegates pledged to vote for retention of the amendment.

McNAMARA ENDORSED

WACO, May 16. (AP)—A message from Senator Tom Connally said today that Guy McNamara, former Waco police chief, had been endorsed for United States marshal of the western district of Texas.

Tenth Annual Free School Of Cookery Opened This Afternoon; Mrs. Leona Ihrig Is Supervisor

Many Features Are Added To Lectures

With indications of a good crowd early this afternoon, the tenth annual Avalanche-Journal free school of cookery opened at the Uptown Dance palace under the supervision of Mrs. Leona Rusk Ihrig.

Classes will open promptly at 2 o'clock on Wednesday, Thursday and Friday afternoons. This school is to be known as the Happy Kitchen school. Women of the town and vicinity are invited to attend.

While no attempt will be made to make each meal balanced, Mrs. Ihrig is to include enough dishes for an entire meal in each day's program. This afternoon she is lecturing on "The Most Popular Room in the Home" and is preparing a one-dish meal, a meat dish, frozen desserts and vegetables.

Talks On Bargains

Her lecture Wednesday afternoon is to be on "What Is A Bargain."

Co-operating with the Avalanche-Journal in this school are a number of local and national concerns. These include the Coca Cola Bottling company, Fletcher Electric company, Texas Utilities company, West Texas Gas company, Lubbock Poultry and Egg company, Bell Ice Cream company, Lubbock Bakery company, M- System stores, Montgomery Ward and company, Sherrod Brothers Hardware company, Hodges Brothers, Levines, Blossom Shop, Lubbock Laundry company, Hotel Lubbock, Kuykendall Chevrolet company, Wylie-Jarrett Drug Drug company and Anderson Brothers Jewelry company.

In connection with the school this afternoon, a table has been set for a dinner. There will be talks by Mrs. Marion Belcher on Wednesday and Thursday afternoons on correct table service, care of silver and etiquette.

May Ask Questions

There is to be a question box at the front of the auditorium and those who wish may ask questions during the classes.

Dishes are to be prepared in the presence of the audience each day. Mrs. Ihrig will dictate recipes and then show how the articles are prepared. She has arranged a model kitchen on the platform at the palace for her demonstrations.

Music, prizes, a style parade and other features have been arranged for the four days of the school, which is to close with a baking contest on Friday.

Thirteen women attended a meeting of the Calvary Baptist Women's Missionary society Monday afternoon at the church and heard a program from Royal Service, church periodical, led by Mrs. C. J. McCarty.

Mr. and Mrs. T. W. Jones and children Rheua Nell and Thomas, have returned to their home in Dallas after spending the week-end with Mrs. Jones' mother, Mrs. T. B. Morrel, and with her sister, Mrs. Gorden Flenniken.

Home Missions Are Studied By Society

Mrs. Tom Campbell was leader of a program on home missions from Royal Service, church magazine, Monday afternoon when the First Baptist Women's Missionary society met at the church.

Mrs. A. C. Sailors sang. Talks were made by Mesdames H. C. Burrus, J. H. Hankins, J. R. Weiss, and A. M. Leftwich. Mesdames M. L. Shepherd and J. E. Alexander read.

Eighteen Women In Society At Meet

One new member was received Monday afternoon when the Central Baptist Women's Missionary society met at the church. There were 18 regular members in attendance. Mrs. J. D. Welch taught a lesson.

How Do YOU make coffee?

To begin with, a clean coffee pot is the way of wisdom.

Boiled coffee is spoiled coffee. Percolating coffee over five minutes gets neither coffee nor pot any praise.

Drip Coffee is modern. It is as clear as the Fountain of Youth and has an aroma that tantalizes.

Admiration blend plus the drip method equals perfection.

Admiration Coffee is the only coffee you can buy that is ground by the modern, patented DRIPKUT process.

Buy a can of DRIPKUT Admiration and use it in any drip coffee-making device. You'll agree it's the best cup of coffee you ever drank.

Price Of Building Material Increased

Building material price quotations received by the City have begun to climb slowly, W. H. Rodgers, city manager, commented Monday.

The city was advised that price of copper wire had advanced one half a pound or 50 cents a hundred pounds.

"We have had increases reported on lumber, cement and other materials that the city buys," Mr. Rodgers added. "It shows that conditions are coming back. I would rather see these increases and know that conditions are improving, than have the low prices."

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

SENIORS HEAR REV. HAYMES

ANNUAL HIGH SCHOOL GRADUATION SERMON DELIVERED MONDAY

Rev. J. O. Haymes, pastor of the First Methodist Episcopal church, last night delivered before 225 Lubbock High school seniors and hundreds of their friends and relatives in the high school auditorium an annual graduation sermon, "Clues to Victory." Commencement exercises will be conducted Wednesday night.

Taking his text from Paul's letter to the Philippian church, "God also hath highly exaulted Him by giving Him a Name which is above every name," the speaker divided his thought into three phases or paradoxes. They were: 1—the way up is down; 2—hindrances may be helps; 3—life comes by death.

Themes Illustrated

Each theme was illustrated by references to characters in story, both biblical and secular.

"This principle works out in all life," he said referring to the "way up is down"—To be a scholar, one must sit humbly at the feet of master minds. It is as true of every other kingdom as it is the Kingdom of God, that to enter it one must humble himself and be as a little child. This is true of scholarship, art, music and science.

Achieving Success

"Some achieve success in spite of hardships; others because of them. This latter is illustrated in the life of Helen Keller," he said in referring to "hindrances that may be helps." One cannot say that he failed because of difficulties in his way. One may say that he failed because he did not have the fortitude to go against difficulties.

"Some of the greatest achievements of history have been made in the face of what seemed insuperable difficulties. Jesus triumphed in His life because He used the very means that were taken to defeat him.

"That life comes by death is true in the vegetable as well as the animal world. 'Except a grain of wheat fall into the ground and die, it cannot produce other grain.'

"Every privilege which we enjoy today was purchased by life, either plant, animal or human. We enjoy the freedom of this country because rivers of blood were shed for that freedom. Many do not succeed because they are not willing to surrender the lower life in order that the higher life may come to full fruition. Jesus practiced all these principles in His life and His is described as the most successful ever known."

Two hundred and twenty-five seniors will receive their diplomas on Wednesday night when Dr. Bradford Knapp will deliver the commencement address. Twenty-three will finish in August and receive their diplomas.

Program Last Night

Following was the program: Invocation: hymn, "Come Thou Almighty King," scripture reading, Philippians 2:3-11, Opal McGraw; prayer; "O, My Soul, Bless Thou Jehovah," by mixed chorus; sermon by Rev. J. O. Haymes, pastor, First Methodist Episcopal church; baritone solo, "Rock of Ages," Harry E. Blocker, with band accompaniment.

JOINT STATEMENT IS ISSUED BY HEADS OF COLLEGES

The scheduled track and field meet between Texas Tech and West Texas State Teachers college, set Saturday night at Canyon, has been cancelled by order of the presidents of the two institutions.

A joint statement, issued Monday by President Bradford Knapp of Texas Tech and President J. A. Hill of West Texas Teachers college said that "on account of the fact that the meet was set without their (the presidents') knowledge and at a time when it will interfere with the final examinations of the two institutions, they have decided to cancel that engagement."

Move to cancel the meet was first instigated by Coach S. D. Burton of West Texas, who, in a letter to Coach Pete Cawthon of Tech, further requested that athletic relations between the schools be terminated following the brief fisticuffs between Tech and West Texas athletes at the annual spring football game here April 28.

Make Joint Statement

After a conference and investigation of the "difficulties" between the athletes, Presidents Knapp and Hill yesterday released the following statement:

"It is their conclusion that this whole situation has arisen out of mistakes made by both institutions and their conviction is that both parties are somewhat to blame.

"Both presidents state that they are fully in favor of fine, high-class, sportsmanlike intercollegiate contests. They are both anxious to see most cordial relations existing between these state institutions and they both announce their determination to work the whole situation out so as to bring about that end, hoping and expecting that some of these days the two institutions may establish a record for the promotion of the very best spirit in intercollegiate athletic contests in this area of the state.

"It is their sincere feeling that whatever differences may have existed in the past can and will be corrected, and that contests can be held of a high standard, capable of bringing cordial support of all the people of this section of Texas. Each of them has registered his determination to take an active and personal interest in athletic affairs at the two institutions and to absolutely eliminate all objectionable practices.

"The two presidents have considered the matter of the track meet, scheduled between the two coaches to occur on May 20, and on account of the fact that this meet was set without their knowledge and at a time when it will interfere with the final examinations of the two institutions, they have decided to cancel that engagement."

The "differences" mentioned in the statement grew out of a slight mauling about of various players following the football game in which several Tech athletes were more or less severely pummelled by the visiting athletes.

The indignant Tech players allegedly made a move as if to settle the argument after the game, but whatever riot or free-for-all that threatened was quickly nipped by coaches and game officials.

In his letter to Cawthon, Coach Burton requested that all athletic relations between the schools cease "so long as the schools retain their present coaching staffs," and said that "feeling was so intense on the West Texas campus following the football game that it was advisable to call off the scheduled track meet."

Until yesterday, Coach Pinkey Lowrey and his Matador track and field men were working out and practicing in preparation for the meet Saturday at Canyon, not having been notified that the meet would be cancelled.

WEST SPRINGS A SURPRISE

CLUBS REVEAL POWER AGAINST EAST IN AMERICAN LOOP

BY ORLO ROBERTSON
Associated Press Sports Writer

With the first round of the intersectional clashes in both leagues complete and the second scheduled to start today, a review of the results show the strength of the National league to be in the western half of the circuit, as expected, but contrary to pre-season predictions the western clubs of the American league virtually held their own against the powerful eastern outfits.

In the National league, the western clubs won 24 and tied one of the 42 games played on the Atlantic seaboard. The invasion of the west by the Yanks, Senators, Athletics and Red Sox in the American league netted only 18 victories, however, as compared 17 defeats.

Yanks Spring Surprise

Failure of the world champion Yankees was the biggest surprise of the intersectional battles. They failed to break even, winning only four of their nine games. Only the lowly Red Sox made a poorer showing and they dropped five out of eight.

The Pirates took the measure of the Phillies 5 to 4 yesterday to climb back into the National league leadership with a half-game advantage over the idle Giants while the Athletics trimmed the Indians 1 to 0 in a pitching duel between Merrit "Sugar" Cain and Willis Hudlin. Although defeated, the Indians retained a half-game advantage over the Yanks.

Freddy Lindstrom was the main factor in the Pirates' triumph. His triple with the bases loaded in the second inning scored three runs and they were needed for the Phillies broke loose with a two-run rally in the ninth that Heinie Meine managed to stop with the tying and winning runs on base.

Hudlin had a "heart breaker." He allowed the A's only four hits but the Mackmen bunched two of them, one a single by Cain, with a walk in the fifth inning to score the only run.

FELLED BY TAX

SUBOTISTA, Jugoslavia (AP)—A tax of $16 a year on every street sign and door plate has made doctors, lawyers and other professional men hard to wind in this taxridden city. All except the largest business houses have removed external evidence of their existence.

SPAIN'S POPULATION GROWS

MADRID (AP)—There were 388,895 deaths in Spain in 1932, or 19,715 fewer than in 1931. Births totaled 670,525, an increase of 21,459. This made the net increase in population from natural causes 282,630, a gain of 41,175 as compared with 1931.

Bewteen 1915 and 1930, 750,000 more boys than girls were born in the United States, and 1,175,687 more men than women died in the same period.

BUFFS REGAIN LEADERSHIP OF LEAGUE

OILERS DEFEAT BUCS AS HOUSTON DOWNS OKLAHOMA CITY

(By The Associated Press)

A hard-earned victory over the last place Oklahoma City Indians enabled Houston Monday night to regain a definite lead in the Texas league. The Buffs won, 5-4 despite the fact that the Indians outhit them and played errorless ball.

The Indians collected 14 clean smashes off Cvengros and Fisher. Flaskamper, Indian second baseman, poled out three of the safe blows in four times at bat. Houston touched Matuzek and Kennedy for 9 hits.

Oilers Beat Bucs

Galveston's Buccaneers, who climbed up almost even with Houston in league standings Sunday night, lost a tight game to Tulsa, 1-0. In the ninth inning Herb Kelly, newcomer from Kansas City, broke up the game by pounding a home run over the left field fence.

Up to that point, Chief Euell Moore had held the Oilers to a lone hit, which in itself was something of a freak. Darrow and Seward collided trying to reach Hale's long fly to right center and the blow went for three bases.

The Dallas Steers, playing at home, lost a queer game to the Beaumont Exporters, 6-3. The Steers' defeat was their fourth in succession and left them with but one percentage point advantage over Beaumont in league standings. Dallas stands in fifth place and Beaumont just below them.

Cats Down Missions

At Fort Worth the Cats piled up an early lead and finished with an easy 7-2 win over the San Antonio Missions. Harry White held the Missions to eight hits. The Cats hit Bob Cooney for the same number of safeties.

The biggest crowd to witness a Fort Worth ball game this season, estimated at 5,500, turned out to see the home club turn back San Antonio's strong aggregation.

LARGE WOOL CLIP BEING GATHERED

SAN ANGELO, May 16 (AP)—West Texas ranchmen, who have seen the price of wool soar, are busy harvesting a clip said to be not only larger than last year's by 5,000,000 pounds but to have been produced at a cost one-third less than in 1932.

A year ago the Schreiner Wool and Mohair company of Kerrville sold a large wool clip at eight to 11 cents a pound and set the market for spring wool in 1932. In 1931, the top price on Texas wools was 16 1-2 cents and many clips sold far below that figure. The average in 1930 was 26 1-2 cents a pound.

The first Regional Agricultural Credit corporation wool has been sent from San Angelo to Draper & Company, Boston, one of the approved firms on the Federal Farm administration's list. It is estimated that 40,000,000 of Texas wool will be controlled by government agencies, leaving 20,000,000 pounds of "free wool." About half of this has been sold at prices ranging from 14 to the new peak of 21 cents.

E. O. Oglesby, regional representative for the National Wool Marketing corporation, says the country is lower on wool today than in years, that stocks are down and, while wool prices have been raised almost to the point where the clips can be imported over the tariff walls, inflation may rush prices even higher.

The silver dollars issued under the act of Feb. 12, 1873, and July 22, 1876, were known as Trade Dollars. Of these, the 1876 dollars were never legal tender though the others were up to the value of $5.

Golfers Qualify For Open Match

21 AMATEURS AND 130 PROS TO COMPETE AT CHICAGO

BY HERBERT W. BARKER
Associated Press Sports Writer

NEW YORK, May 16 (AP)—The field which will set out in pursuit of the National Open golf championship at the North Shore club in Chicago June 8 will consist of 130 professionals and 21 amateurs.

That much was determined when 99 professionals and 19 amateurs survived the annual sectional qualifying round and joined the 31 pros and two simon-pures who automatically qualified for the Chicago grind by finishing among the first 30 and ties in the 1932 championships.

Few Surprises Develop

Play in the 36-hole qualifying test, played in 20 districts, developed few surprises although perhaps a dozen well-known figures failed to make the grade. Among these were Chick Evans, former amateur and open champion; Jock Hutchinson, once holder of the British open crown; George Sargent, who won the National Open in 1909, Emmett French, Alex Ayton, Charley Hall and a scattering few young but formidable amateurs such as Gene Homans and Jack Westland, runners-up respectively, for the national amateur championships of 1930 and 1931, and Charley Yates, Georgia state titleholder. Roland Mackenzie, former Walker Cup player, withdrew just before play began in the Denver district.

On the other side of the picture, two former holders of the open title, Johnny Farrell and Cyril Walker, successfully qualified as did a number of other leading professionals including Horton Smith, member of the 1933 Ryder Cup team; Al Watrous, Johnny Golden, Willie Klein, Tony Manero, Joe Turnesa, Al Espinosa, John Revolta and Roland Hancock.

Moreland Qualifies

Among the amateur qualifiers were Gus Moreland, Walker Cup player, Neil White, California amateur title-holder, George Dawson, who set the scoring pace in the Chicago district, Lester Bolstad, former Big Ten champion, and Maurice McCarty, former intercollegiate king.

Francis Scheider of Dallas and Leonard Dodson of Springfield, Mo., turned in the best scores. Scheider qualified at Dallas with 139 and Dodson equalled that figure in the Kansas City trials. Bolstad, Scheider and Tom Talbot, who qualified at Kansas City, all posted 18-hole scores of 68, the best reported.

An oddity came in the St. Louis sector where brothers, Bill, Francis and Ray Schwartz, took three of the four qualifying positions.

The exempt list, headed by Champion Gene Sarazen, includes Bobby Cruickshank, Phil Perkins, Leo Diegel, Wiffy Cox, Bill Burke, Harry Cooper, Olin Dutra, Walter Hagen, Clarence Clark, Vincent Eldred, Paul Runyan, Henry Ciuci, Ed Dudley, Johnny Goodman, Fred Morrison, Denny Shute, MacDonald Smith, Craig Wood, Tommy Armour, George B. Smith, Joe Kirkwood, Charles Lacey, Mortie Dutra, Jack Patroni, John Fischer, Bob MacDonald, George Von Elm, Al Zimmerman, Herman Barron, Tom Creavy, Francis Gallett and Charley Guest. Of these only Goodman and Fischer are amateurs.

GUS MORELAND AND SCHEIDER QUALIFY

DALLAS, May 16. (AP)—A pair of crack Dallas golfers, Francis Scheider and Gus Moreland, have qualified from the southwestern region to enter the National Open championship tournament beginning at Chicago June 8.

Scheider, professional at Brook Hollow Country club, blazed a subpar score of 139 to lead in the 36-hole qualifying test yesterday at his home club. He played the morning round in 71 and came back in the afternoon with a sensational 68. Par over the course is 70.

Moreland Consistent

Shooting consistent Golf, Moreland turned in cards of 72 and 73 for an aggregate of 145 to easily cinch the other place and maintain his ranking as the outstanding amateur linksman of the southwest.

Moreland holds the Texas, Trans-Mississippi and Western championships and was a member of the United States Walker Cup team in 1932.

Two places were allotted players from the southwestern region and of the 20 who tried for them, only 12 completed the 36-hole orderal.

Others who turned in cards were:

Byron Nelson, Texarkana, 73-78—151.

Howard Estep, Dallas, 80-72—152.

Levi Lynch, Dallas, 75-78—153.

Dick Grout, Fort Worth, 75-79—154.

Dudley Bell, Houston, 76-79—155.

Jack Grout, Fort Worth, 77-79—156.

W. R. Long, Austin, 77-79—156.

Harvey Penick, Austin, 81-79—160.

Hugh Carpenter, Dallas, 82-82—164.

John Bredemus, Houston, 89-76—165.

NINETY-SEVEN WOMEN START MATCH PLAY

32 IN CHAMPIONSHIP FLIGHT IN TEXAS WOMAN'S MEET

BY BILL PARKER
Associated Press Sports Writer

GALVESTON, May 16 (AP)—Ninety-seven players in the annual Women's Texas Golf association tournament started match play today in five flights. Thirty-two were in the championship flight where Mrs. Dan Chandler of the Dallas Brock Hollow Golf club is defending champion.

That Mrs. Chandler's title was in danger was proven yesterday when Miss Aniela Gorczyca, twice Fort Worth champion, paced the field, touring the course in 40-36—76, the lowest medal round in the history of the association. Mrs. Chandler's 81 last year at the Fort Worth River Crest course was the previous lowest.

Shoots Fine 79

Mrs. Chandler, playing the qualifying round with the medalist, had a fine 40-39—79, which was a supreme bid for the medalist but not enough to offset a 76 that was one over the women's par of 75 and four over the men's par of 72.

A score of 96 was required to make the championship flight, and eleven of the players shot in the eighties or lower, another record for the association.

In the championship flight first round matches Miss Gorczyca, in the upper bracket, faced Mrs. W. L. James of Galveston. The Fort Worth champion was an overwhelming favorite.

Champion Favored

In the lower bracket, Mrs. Chandler opened defense of her title by playing Mrs. T. B. Brazelton of Waco, who qualified with a 44-49—93. Like Miss Gorczyca, Mrs. Chandler was a top-heavy favorite.

The strongest competition in Miss Gorczyca's upper bracket probably will be Miss Hilda Urbantke of Austin who meets the Fort Worth star in the second round should both win today. Miss Urbantke played Mrs. Harry Croft of Dallas.

Mrs. R. E. Winger, former Fort Worth champion, and Miss Betty Jameson, Texas municipal champion, were in the lower bracket with Mrs. Chandler. Miss Jameson, 14-year-old Dallas girl, shot a fine qualifying round of 4-42—83 to the for fourth place with Mrs. Scott Hill of Waco.

Two Local Golf Tourneys Begun

EXPECT ABOUT EIGHTY GOLFERS TO ENTER 2 TOURNAMENTS

Approximately 40 golfers have signified their intentions to play in the Country Club President's Cup tournament this week, and a like number probably will play at Meadowbrook in the annual championship tournament there this week.

Qualifying for the Meadowbrook tournament is due to end today, with match play beginning tomorrow. All members are urged to play the 18-hole qualifying round and take part in match play for the rest of the week.

The President's Cup tournament consists of 72 holes of medal play. Members are given all this week and through Sunday to play the full quota, but there is no limit to the number of holes a golfer may play per day. Scores are to be turned in to Professional Paul Denson at the completion of every day's play.

Ted Tipps is defending champion in the President's Cup tournament.

Dalhart Breeders To Set High Mark

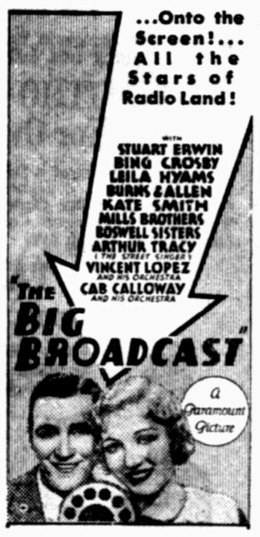

DALHART, May 16 (AP)—Coon & Culbertson, Dalhart Hereford breeders, this year will set a new high mark in Hereford registations, announces W. O. (Bill) Culbertson. The number this year will run from 1,600 to 1,800, he said. Last year it was around 1,300.

For years these breeders either topped or were near that position in Hereford registrations for the world, says the American Hereford Journal. Most of the time it has been at the top.

Ham And Art

NEW YORK—Diego Rivera, mural painter whose work at Rockefeller Center was halted after he had painted a picture of Lenin on a wall, has a new simile for art. He says it is like ham—it nourishes people.

"When there is no food, when war is desolating a country, the theaters are kept open and the people live on art."

In A Predicament

CHICAGO—At the age of six Joan Bishop's problem is to decide which of her half dozen accomplishments to pursue as a career.

Recently she was the youngest toe and tap dancer to appear before the national convention of dancing masters.

Besides that, she's a pianist with a fondness for Beethoven, Liszt and Brahms, and can compose and translate music; sings from memory more than 30 songs; is an impersonator with a repertoire of monologues, and reads and writes.

His Lucky Day

PHILADELPHIA — Sunday was Policeman Michael McGolderick's lucky day. In a running battle with a negro six bullets came near him—but not too near. Half an hour later the man slipped from behind a parked car, aimed a pistol at McGolderick's face and pulled the trigger three times. Each time the weapon jammed. McGolderick knocked the man out.

Cycle Ahoy!

LISBON, Portugal—A sea-going motor cycle has been built by two sailors, Armindo Pereira and Jaime Silva, for a trip around the world.

It consists of a motor cycle, around which they built a water tight vessel. The travellers say it will take them over land and water and round the world in a year.

ELEPHANTS AT SET PRICE

SINGAPORE (AP)—A reasonable fee for killing rogue elephants is $225 a head a court here held in the suit of a hunter to recover money for services. One planter testified elephants had caused $45,000 damage to his estate.

Farmers Plan To Mow, Bale Wheat

ELECTRA, May 16 (AP)—Many farmers in the Red River valley area north of Electra are said to be preparing to mow and bale their wheat for feed. Drouth and hot winds have inflicted such serious injury to the fields the owners say they have no hope of making enough grain to warrant harvesting in the usual way. Many patches of grain will be plowed under to make way for cotton and late feed stuff.

Less than two inches of rain have fallen in the north part of Wichita county since March 1. Truck patches and gardens are suffering for rain. More than 150 families obtained garden seed from the Red Cross and the relief station here. Many gardens planted early are ruined from lack of rainfall and seed planted late has not sprouted.

Perjury Charged—A charge of perjury was filed against Willie Fantroy, a negro, in Justice of the Peace J. S. Connell's court this morning. Bond of Fantroy, arrested Monday, was set at $250 until his appearance in court at 2 o'clock this afternoon. Fantroy was charged, in a complaint signed by Constable L. H. Holt and filed by County Attorney Vaughn E. Wilson, with falsely swearing he was worth $500 as a bondsman for Jessie May Wright, a negro woman, whose $100 appearance bond he posted pending her trial on a vagrancy charge.

Declaration of Principles

A Pledge to the People of This Community

CONFIDENCE is the basis of every purchase you make in a jewelry store. Unless you are an expert, you must depend upon the advice and recommendations of the jeweler when you buy. In these days of false bargains and cut prices on jewelry merchandise of unknown value, we again declare our principles, as a note of reassurance to the people of this community.

1. This is a reputable jewelry store, owned by a professional jeweler.
2. We sell only merchandise that belongs in the jewelry store—precious stones, precious metals, fine watches, etc. Every article must pass rigid tests before we offer it to you, except the cheaper Costume Jewelry.
3. We do not offer you "bargains." For the only true bargain is full value for your money.
4. Our prices are fair. But we will not lower our standards to meet low prices of inferior merchandise, except the Cheaper Costume Jewelry.
5. Our expert advice on any purchase costs you nothing. We would rather tell you the truth and lose one sale than lose you as a customer for good.

Thought For Today

Who can bring a clean thing out of an uncican? not one—Job 14:4...

* * *

Cleanse the fountain if you would purify the stream. — A. Bronson Alco.tt

New Social Order

Slowly but steadily the pieces of that gigantic jigsaw puzzle at Washington are falling into place; and as they do it begins to be possible to get an idea of what the outlines of our new society are going to be like.

Those words, "new society," do not go beyond the facts. Almost without realizing it, we have swung off from our old course at something like a right angle. If we have not swung nearly as far as some radical leaders would like, we have certainly swung a great deal farther than anyone thought possible as recently as six months ago.

Whether we like it or not, we seem to have put rugged individualism in the grave and patted the earth down smooth. We are switching from an unrestricted capitalism to a controlled economy. The social responsibilities of the men who employ labor and control money and guide industrial and agricultural production are in the process of getting written into law.

* * *

That means a change as tremendous as any that has come to us since we won our independence from Great Britain.

It means that American soil will no longer nurture the picturesque and reckless autocrats of the past—the Jim Fiskes, the Jay Goulds, the Bet-a-Million Gates and the Sam Insulls. Such industrial wars as the ones Andrew Carnegie waged, such financial battles as the Hill-Harriman struggle early in this century, are out of the picture henceforth. A closely integrated and infinitely complex society like ours simply cannot stand them.

Such things are inevitable in a society resting on a capitalism in which the profit motive is the only thing that lights the fires under the boilers. Unrestricted capitalism cannot operate in any other way.

* * *

If we now are demanding that the welfare of the nation as a whole be taken into account from top to bottom of the business and financial structure—which is precisely what the developing program at Washington amounts to—we are not going radical; we are merely trying to adapt capitalism to the requirements of modern society.

The wife of Lubbock business man called unexpectedly at his office this morning, slipped up behind him and put her hands over his eyes.

* * *

WALTER Woodul, state senator from Houston and a Sterling administration leader, practically admitted at the Big Spring West Texas Chamber of Commerce convention that he would be a candidate for lieutenant-governor next summer.

He was introduced in that manner at a newspaperman's luncheon by Max Bentley, of Abilene, and although the Houstonian said "I am not running for lieutenant-governor yet", he didn't say he wasn't going to make the race.

* * *

That means Edgar Witt will likely run for the governorship.

He has been lieutenant-governor for several terms now and it is no secret in Austin that he feels like he has earned a promotion at the hands of the Texas electorate.

Governor Witt is a dandy fellow and has some fine kinfolks in Lubbock, but in spite of his personal attributes he is likely to find the sledding pretty tough along about a year from July.

* * *

THERE will be lots of competition for the governorship the next time the boys line up at the barrier.

Jimmy Allred, who is a campaigner from away back and who has the habit of making friends, support and votes, is almost certain to run and some other West Texans, such as Walter Cline, of Wichita Falls, Clint Small, of Amarillo, have been toying with the idea of getting in.

If Mrs. Ferguson does not run again there will be somebody in there carrying the Ferguson colors and it might be Speaker Coke Stevenson or T. H. McGregor.

Either one of them will command a lot of votes, especially with the Ferguson support.

In spite of the trouble we're passing through,
In spite of the Notes and Interest due,
In spite of the Income cut in two,
In spite of the Stock that fails to pay,
In spite of the Dividends gone astray,
I still believe in the U. S. A.

In spite of the Gang and Racketeer—
Hectic whiskey and weak-kneed beer,
In spite of the Lawyer that knows the Way,
To serve the crooks by the Law's delay,
I still believe in the U. S. A.

In spite of the Banks and Foreign Loans,
Frozen as hard as the Arctic zones,
In spite of the cotton we hold today,
In spite of the wheat we've stored away,
I still believe in the U. S. A.

In spite of the trouble we're passing through,
There's still a fight in me and you.
It may be hard, but we'll find a way;
It's bound to helf if we grin and say,
"I still believe in the U. S. A."

In spite of all the bombastic junk
From this and that pea-Brained klunk,
I find if I work eight hours a day
In the old-fashioned, sweaty way
I can still get business in the U. S. A.

Natural Outcome Of A War To End War

New Radical Third Party Appealing To Labor, Farmers May Be Born From Recent Continental Congress Meeting

By RODNEY DUTCHER
NEA Service Writer

WASHINGTON, May 16.—A new third party—a radical party appealing to labor and the farmers—may be born from the recent Continental Congress for Economic Reconstruction which met in the capital.

Dutcher

Leaders of the Socialist party and other moderate left wing groups which operate in the large field lying between the major parties and the conservative labor and farmer organizations on one hand and the Communists on the other, are distinctly hopeful.

Old-timer Socialists thought the congress was the most impressive convention their party had ever had. They recognized a stronger militancy among the country's dissatisfied elements. They were surprised that the meeting actually drew nearly 4000 delegates from all parts of the country.

Manifestations of such new revolutionary spirit as has been created by the depression were not alarming, since the Socialists who dominated the meeting continue to place their faith in the ballot box and in democracy, parliamentary government.

The Disputed Label

The leaders, however, are going to seek a broader political base for American radicalism. They want to organize among the millions of unemployed, millions more of the employed workers and millions of hard-pressed farmers. The Socialist Party has had little success at this job. Now many of its members are perfectly willing to change the party name and drop some of their shibboleths in the hope of building quickly an organization which might begin with the political proportions of the LaFollette independent progressive movement of 1924. There would surely be a fight over that point, however, as many old-line Socialists prefer to retain the party label at all costs.

Among the larger organizations which met with the Socialists were the Farmers' Union, the National Farm Holiday Association, the Amalagmated Clothing Workers of America and a couple of dozen state farmer and labor federations.

Although the Socialists and their friends demonstrated an increased militant determination, the most pronounced radical expressions came from the farmers. The protests of city workers against unemployment were far from as bitter as those of the farmers against evicitions and destitution.

Farmers Most Radical

A. C. Townley of the Holiday Association, head of the old Non-Partisan League, received a much more vociferous ovation than any other among dozens of speakers when he promised that farmers would "keep possession of the land," organize their own food distribution systems and urged labor unions to set up agencies for the exchange of "'coal, overalls and farm machinery" for farm produce. He was applauded for six minutes.

Utterances of other farmers indicated a feeling of desperation not found among the unemployed delegations, and it was the sons of the soil who spoke most frequently of "direct action."

Communists were scattered about, urging an advanced program including $10 a week relief for each unemployed worker and a $15,000,000 public works program as well as a militant campaign embracing strikes, demonstrations and "struggles at relief bureaus." But they were also demanding a "united front" and didn't try to create any unpleasantness.

The tendency of many delegates toward the left was most obviously demonstrated when a proposal to include a tribute to the "workers' republic" in the resolution calling for Russian recognition was defeated by no very large majority.

What will become of this attempt to create a real third party is anybody's guess. Even its promoters aren't at all sure they will succeed, although they are convinced that this is the time, if ever.

Much depends on the success of President Roosevelt's "new deal," concerning which the dissatisfied elements represented at the Continental Congress are skeptical. Most radicals, of all creeds and degrees, firmly believe that the United States is headed toward fascism. Incidentally, representatives of the fascist movement in this country were interested spectators at the congress.

West Virginia mountain delegates to the Continental Congress for Economic Reconstruction waved banners aloft as they assembled in Washington for meetings which will make recommendations for national reform. Five thousand delegates are expected, most of them representing organizations of the unemployed.

DARLING FOOL

BEGIN HERE TODAY

MONNIE O'DARE is secretly engaged to DAN CARDIGAN, heir to a local fortune. He does not want his parents to know of the engagement because they oppose the marriage. Monnie and Dan plan to elope in January when he will come into some money of his own.

Dan is jealous of CHARLES EUSTACE, handsome newcomer, who shows Monnie marked attention. BILL O'DARE is engaged to ANGIE GILLEN whose divorce is still pending. MRS. O'DARE is much distressed because of this situation.

NOW GO ON WITH THE STORY

* * *

CHAPTER XXI

Angie stammered, "Pleased to—," and then, thinking better of it, went on hurriedly, "Bill's told me a lot about you."

Mrs. O'Dare said, "I'm glad he brought you. We've been wanting to meet you." She smiled to show she meant it and, in spite of the sinking of her heart, was glad to discover that Bill's girl was, as Kay had described her, "not a bad sort." If her bright sweater fitted the curves of her rounded figure a trifle too candidly, still the big eyes framed in mascaraed lashes had a likable honesty about them. All Belvedere—that is all that part of it which knew the O'Dares well enough to observe their comings and goings—would gossip that night about Angie's call on Bill's mother. "What's the world coming to?" old ladies would ask, with upraised hands. "Time was when that sort of woman was shown the door."

No, the trouble was, Mrs. O'Dare reflected, that Angie wasn't what the old ladies meant when they said "that sort of woman." Angie was fundamentally good. She had been trapped by nature into an unwise marriage. Now, at 21, she was struggling to get out of that trap. It was injudicious — surely nothing more—of her and Bill to have "got engaged," as they naively put it, before Angie's divorce was final. But then people did that kind of thing nowadays.

The conversation languished. Angie admired the ferns in the hanging pots, admired the burst of phlox under the windows. Uneasily, under her chatter, she was observing Bill's mother, wondering what was behind all this apparent simplicity and friendliness. Poor Angie, she wasn't much used to kindness! She was a bit suspicious of it.

"I made some iced tea, Bill. You bring it in—and the cookies from the pantry," his mother commanded, conscious of her son's fidgeting attention.

The quiet of Denny street on Sunday afternoons brooded over everything and when the two women were alone together silence fell like a blanket on both.

Mrs. O'Dare broke it, "Bill tells me you plan to be married as soon as—the divorce goes through."

Angie stared at her, with just a hint of truculence. "Yes, that's what we were thinking."

"When — when will that be?" Mrs. O'Dare could not quite keep a tremor of anxiety out of her tone.

* * *

Angie started at the curtains, flutering in the breeze.

"We don't exactly know," she said, almost sullenly. "Stan is seeing to things. He's got a lawyer in the city. He'll let me know."

"I see." Mrs. O'Dare considered this. "I think—somehow I have the feeling you'd be better off starting in some new place," she said bravely. "This is such a small place. You know how people are—"

Angie winked suddenly. She hadn't expected this reception. Unconsciously she had braced herself for tears, reproaches, pleas. She had expected to be looked over coldly, snubbed, dismissed. This quiet little woman with the graying chestnut hair and the fine eyes seemed actually to be accepting her.

She gulped. "Yes'm—I mean certainly, Mrs. O'Dare. That's what I was telling Bill only the other day. He doesn't exactly see it my way." Her defenses down, she plunged forward, voluble, excited. Bill and she could get a little flat in the city. She could get another job—she always did—and there were so many big garages there. Bill would be sure to find work. She forgot to be careful of her grammar.

"She does love him," the mother thought. "She's really a good little thing. If only—" Even in her own mind she couldn't finish the sentence. If only Angie weren't so palpably the product of the wrong sort of training, or rather the lack of training, her rebellious heart cried out! Well, it couldn't be helped. You didn't choose your son's wife. In Mrs. O'Dare's simple code, you made the best of it.

Bill came back in, awkwardly balancing a tray. He glanced anxiously from Angie to his mother, relieved at what he saw.

"I'll have to be taking Angie back now, mother," he said after an interval, glancing at his watch. "I promised Harnett I'd be back at 6. He's got to drive his wife to the Springs."

He was relieved, she could see, that everything had passed off so smoothly. Poor boy, he had probably dreaded the ordeal! She kissed him, smoothing his roughened fair hair. Poor Bill, toil-hardened at 22, anixous, in love with the wrong girl! Well, it couldn't be helped. She sighed, watching the flash of Angie's sweater through the greenery. She would do the best she could. She simply would not think what the loss of Bill's earnings would mean to the little family. Kay was beginning to help now. That meant a lot. And poor Monnie! Well, there was no use looking ahead, borrowing trouble. You had to live each day as it came. It was the only way.

* * *

She went about, straightening cushions, picking up glasses. Kay came in, hair dripping wet from a swim. She had gone with Rissy down to the river.

"Well?" Kay challenged her.

"They've just gone." Mrs. O'Dare sat down, sighing. "She's really a good little thing, Kay. Only so—so —' she hesitated for a word.

"Ordinary." Kay finished the sentence for her.

"Yes." Bill's mother shrugged her shoulders. It shouldn't matter, I suppose, what she does with the language, but somehow it does."

"Of course it does. Silly to pretend it doesn't," said practical Kay. "We're all a little snobbish, really. What I can't understand is why she doesn't bore Bill to tears. He's smart, really. Likes to read and he's always been so ambitious."

"I know. That's the sad part. In two years—or less perhaps—I'm afraid Bill will be wondering what he ever saw in Angie. You can't make him understand now. No use trying."

"Not a bit in the world." Kay glanced at herself in the mirror.

Her voice sounded grown up, Mrs. O'Dare reflected. Something had happened to Kay this summer. She refused to go back to high school, since Charles Eustace had managed to get this post at the library for her. Kay was old for her age. She would have been in her final year at school but she proposed instead to go to night sessions and study when she could in the daytime.

"I'm old enough to start helping," she had said practically. Last year at this time Kay would have raged and stormed at Bill for having dared to shirk his responsibility

She gave her slick golden locks a final pat and turned to smile at her parent. "Well, that's that!" she observed.

"That's that!" Her mother echoed dryly.

* * *

Kay rushed upstairs to change her dress. She was invited to Dr. Waterman's house for tea. There would be older people there, Kay thought, but that wouldn't really matter. They were going to talk over plans for some amateur theatricals to be put on before Christmas. Kay was terribly excited. The Waterman's house was one of the finest in town. The doctor was Charles' uncle. Not even Geraldine Cardigan had ever been invited there. Sandra was asked ocassionally when Lansing, the young son of the house, was home from college.

Kay smiled at herself in the mirror, remembering how stunned Rissy had been when she had told her about the invitation — to Sunday night supper, of all things. Sunday night supper meant you belonged to the inner circle in Belvedere society.

"But they'll all be as old as Methuselah," Rissy had said, pretending she thought it was a terrific bore. Rissy had made her voice very disdainful. "Better call them up and say you can't come. Johnny Link's coming over in his Chevvy and he'll get a boy for you. Come along," Rissy coaxed.

Kay had shrugged her shoulders quite in the grand manner. Rollicking through the country lanes with a raw youth's arms around her seemed positively revolting.

"No, thanks," she had said distinctly. Rissy had tossed her head and turned away.

Kay dressed with care, making her hair a demure frame of her ivory-tinted face, ever so faintly sun-touched. Out of this frame her gentian blue eyes glowed.

Things were better these days. She was in favor at home, Monnie was proud of her—they all were. Who knew what these amateur theatricals might lead to? Kay could see a great producer leaning forward from his seat in the back row, asking eagerly: "Who is the young lady playing the lead? Marvellous!"

Someone would answer, "Kay O'Dare."

Or maybe she wouldn't get the lead. Maybe she would distinguish herself in a small part—a maid or something likt that.

"Small Town Girl Startles Broadway!" She could see the headlines. Idly, staring at her reflection in the mirror without really seeing it, Kay dreamed on. Yes, much depended on the outcome of the evening.

(To Be Continued)

Woman stood up in the House gallery the other day and yelled "You can't spend what you haven't got." That never bothered Congress—they can spend what the rest of us have got.

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, May 16. (AP)—Cotton opened barely steady, 1-6 lower under liquidation owing to nervousness over the foreign political situation. May unquoted; Jly 8.55; Oct 8.85; Dec 9.03; Jan 9.10; Mch 9.23.

Houses with Liverpool, continental and Japanese connections were among early sellers and there was considerable liquidation but prices stiffened after the call. July after selling off to 8.55 at the start, rallied to 8.71, with active months generally showing net advances of 5 to 6 points at the end of the first half hour.

The market was quieter later and prices fluctuated irregularly within a few points either way of the previous closing levels. July reacted to 8.64 and at midday was quoted at 8.66 with the general market net unchanged to 2 points higher.

NEW ORLEANS REPORT

NEW ORLEANS, May 16. (AP)—Cotton had an irregular and rather easier opening. July opened 3 points up but later months showed opening losses of 2 to 5 points. The tone continued easy on overnight hedging and July dropped to 8.58, October to 8.80 and December to 8.97, or 4 to 7 points down from yesterday's close.

As stocks started rather steady, cotton rallied, July moving up to 8.65, October to 8.90 and December to 9.05, or 7 to 10 points up from the lows to levels 3 to 5 points above yesterday's close.

Later in the first hour the market eased again, losing 2 to 4 points of the recovery.

Following the early dip, the market continued to improve steadily during the morning, supported by moderate trade buying and price fixing and by firmness in stocks. July advanced to 8.68, October to 8.94 and December to 9.08, or 10 to 14 points up from the lows and 6 to 7 points above yesterday's close.

Around mid-session the market was steady, at the highs and showing an upward tendency.

Grain Market

CHICAGO REPORT

CHICAGO, May 16 (AP) — Grain underwent early setbacks today owing to absence of aggressive support from buyers. Trade was the smallest in some time. Opening unchanged to 1-2 lower, wheat afterward declined all around. Corn started 1-8 to 5-8 off, and subsequently held near the initial limits.

Stock Market

WALL STREET REPORT

NEW YORK, May 16 (AP)—The stock market threw off its reactionary tendencies today, and pushed ahead once more, at the expense of shorts who had sold in anticipation of a sharp reaction.

American Telephone was a leader, and non-ferrous metals, sugars and miscellaneous industrials made substantial progress, with several advances of 1 to 4 points. Commodities were somewhat reactionary early, but wheat stiffened after a sag of about a cent, and cotton fully recovered a moderate early setback.

Issues up about 2 to 4 points included American Smelting, American Sugar, American Telephone, Allied Chemical, U. S. Smelting, Union Pacific, National Distillers, and a few others. In the "wet" group, Crown Cork was bid up more than 4. Issues up about 3-4 to 1 1-2 points or more included American Can, Great Western Sugar, Union Carbide, Case, U. S. Steel, Santa Fe, New York Central, PPublic Service of N. J., North American, Dupont, and others. General Motors, Chrysler, and Radio rose fractions.

Prohibitionists To Convcne In House

AUSTIN, May 16. (AP)—The convention of Texas prohibitionists to select a slate of delegates for the August 26 election, when Texas will vote on ratification of the 18th amendment, will be held in the hall of the Texas house of representatives.

A resolution offering use of the hall was adopted today.

Reprepresentative Weaver Moore of Houston, anti - prohibitionist, supported the resolution, saying the house hall "won't be big enough for the anti-prohibitionists anyway."

"He asked for the day's receipts, which he thought I had in the casket, which I didn't. He said that unless I handed them up pronto, he'd pull up the tube and suffocate me in the grave. He said that would save me dough because, being already buried, no funeral would be needed.

"And oh, I forgot to tell you the first thing I done was telephone Chief of Police Benjamin Kinsey, who rushed over in his motor car. The thugs heard the siren and drove away, with the chief right behind them, firing his gun, but they got away. He said it's a case of attempted murder. They was awful tough mugs, which I would recognize them a week from today, or a year even."

Chief Kinsey, interviewed, said it really was a case of attempted murder.

"Publicity stunt, no sir, I don't think so," he said. "They were all too excited when I got there. If it was it's tough on somebody's car, because I fired three shots at it and I seldom miss."

At Least 17 Dead In Flooded Region

MEMPHIS, Tenn., May 16. (AP)—A new torrent of water swept southward today, leaving at least 17 dead and heavy property damage in the upper regions and threatening new anxiety along tributary streams in Mississippi, Arkansas, Tennessee and southeast Missouri.

Two deaths were reported in Missouri yesterday. Charles La Bruyere, 11, was drowned at St. Louis when he fell into the river Des Peres, swollen from Mississippi backwater, and Walter Brooks, 25, bridegroom of a week, toppled from a boat into the swirling Black river near Poplar Bluff. Fifteen other deaths were credited to floods in the upper Ohio river basin.

BLAMES U. S. FOR TRADE PARALYSIS

PHILADELPHIA, May 16. (AP)—Owen D. Young, author of the reparations payment plan, held the United States responsible in an address last night for having "ruined the currency and banking systems of the world," with the resultant paralysis of international trade, through its insistence upon collecting war debts in gold.

Young declared a failure to temper "the letter of the bond" with a realization and acceptance of the obligations of relationship, both among individuals and nations, had aggravated the worldwide economic crisis.

Young spoke at the annual conference of the Association of Junior Leagues of America.

JUDGE MULLICAN

(Continued from Page One)

an unqualified demand for men in public office who properly reflect and honestly represent the individual and business interests of our communities," Judge Mullican said. "Such demand is for men who are physically strong, mentally alert, educated and experienced, with honesty of purpose, the will to do, and whose opinions and judgments are formed without regard for political effect.

"With this yardstick of service before me as a citizen of Texas, I have tried to measure my individual self, mindful, as always, that personal ambition should not allow anyone to assume a station in life justifying his fellow man to declare him a misfit in our governmental affairs," the judge continued.

Left Up To Voters

"After full deliberation, I feel that I possess these qualifications in a measure sufficient to offer my candidacy to the people of this district. Whether I do so possess, is left to the final deliberate judgment of those who cast the deciding vote for this high and responsible office."

Judge Mullican declared he intended to present a more full and complete statement of his views with reference to national affairs at some future date. He said he was making announcement of his candidacy at this early date so that interested voters may have full opportunity for investigation of his fitness for the office.

Named Judge In 1923

Judge Mullican has been district judge in this area since February, 1923. He was named judge of the 72nd district court comprising Lubbock, Crosby, Hockley, Cochran, Garza, Lynn, Terry, Yoakum, Dawson and Gaines counties by Gov. Pat Neff on the death of Judge W. R. Spencer. He was elected to the bench in the 1924 election. In 1926, the 106th district was cut out and when the 99th district was created in 1927, Gov. Moody asked Judge Mullican to resign his office in the 72nd and take the 99th court comprising Lubbock county alone.

In 1928, Judge Mullican was elected to the 99th district post and again in 1932.

Served In War

Judge Mullican served in the World war as major, lieutenant-colonel and colonel of the 144th infantry, 36th division and saw active service in the Muese-Argonne sector in France. Since the war he has been in command of the 358th infantry of the U. S. army reserve corps.

The judge has been practicing law since 1912.

Is Native Texan

He is a native Texan, having been born in Ellis county. He moved with his parents to Dallas county where he was reared and educated. He attended school at Texas Christian university in Waco and received his law education at the University of Texas. After graduating in law, he returned to Dallas county and served as district attorney. He was in private practice when the war broke out.

He moved to the South Plains in 1919 after the close of the war and his return to the United States.

New York's Protest Against Hitlerism

In the biggest demonstration yet registered against Nazi persecution of German Jews, 100,000 New York Jews and sympathizers paraded from Madison Square to the Battery protesting Chancellor Hitler's policies with banners, songs and shouting. Here's a part of the vast throng as the parade formed.

FDR MESSAGE

(Continued from Page One)

and for the avoidance of war is shared by mass humanity in every country.

"As a means to this end, I have in the message to the various nations, stressed the practical necessity of reducing armaments.

"It is high time for us and for every other nation to understand the simple fact that the invasion of any nation, or the destruction of a national sovereignty, can be prevented only by the complete elimination of the weapons that make such a courage possible today.

"Such an elimination will make the little nation relatively more secure against the great nation.

"Furthermore, permanent defenses are a non-recurring charge against governmental budgets while large armies, continually rearmed with improved offensive weapons, constitute a recurring charge. This more than any other factor today is responsible for governmental deficits and threatened bankruptcy.

"The way to disarm is to disarm. The way to prevent invasion is to make it impossible.

"I have asked for an agreement among nations on four practical and simultaneous steps:

"First, that through a series of steps the weapons of offensive warfare be eliminated;

"Second, that the first definite step be taken now;

"Third, that while these steps are being taken no nation shall increase existing armaments over and above the limitations of treaty obligations;

"Fourth, that subject to existing treaty rights no nation during the disarmament period shall send any armed force of whatsoever nature across its own borders.

"Our people realize that weapons of offense are needed only if other nations have them and they will freely give them up if all the nations of the world will do likewise.

Cooperation Cited

"In the domestic field the congress has labored in sympathetic understanding with me for the improvement of social conditions, for the preservation of individual human rights, and for the furtherance of social justice.

"In the message to the nations which I herewith transmit I have named the same objectives.

"It is in order to assure these great human values that we seek peace by ridding the world of the weapons of aggression and attack."

FINAL PLANS FOR CONVENTION MADE

With the state Lions convention less than a week away, members of the Lions club busied themselves today noon at their luncheon at the Hilton on reports of various committees preparing for the convention. Final plans for the convention will be made in a meeting of the general convention committee Friday night.

C. A. Sanford presided as chairman today and reports were heard from: H. C. Pender, barbecue; Wm. H. Evans, reception; Joe Bowman, transportation and horse show; and S. J. McFarland, general arrangements.

Keys were presented to Lions W. C. Diamond, W. H. Carpenter, M. E. Heard, Joe Harris, Ed Allen and President Ben Condray and master keys to McFarland and Vic Lindsey. Keys are given for enrollment of two new members into a club and master keys for ten new members. E. L. Pitts made the presentation.

Former County Dad In Crosby Succumbs

CROSBYTON, May 16. (Special) — L. W. Tomlinson, 64, a former Crosby county commissioner, died at 8:10 o'clock this morning at his home near Cone. Born in Chambers county, Ala., he had lived in Crosby county since 1909.

A widow and a daughter, Gladys, of Cone, survive Mr. Tomlinson, who was a retired farmer and who had a long career of public service in Crosby county.

Funeral services will be conducted at 1:30 o'clock Wednesday afternoon at the home. Burial will be at Cone.

Stormy Fight Over New Taxes Hinted

WASHINGTON, May 16 (AP) — A stormy fight in congress over new taxes to finance the government's $3,300,000,000 public building program was indicated today.

Powerful opposition already massed against proposals for a general sales tax led to the belief that such a levy would meet with almost certain defeat. However, the problem is one for congress to settle. President Roosevelt will send up his message on public works-industrial control tomorrow. He will suggest several methods of taxation, but he will not recommend any particular one.

LARGE COTTON CROP SEEN

RIO GRANDE AREA TO PRODUCE MORE THAN LAST SEASON

BROWNSVILLE, May 16. (AP)—The lower Rio Grande valley will produce a cotton crop of approximately 55,000 to 60,000 bales this season, as against 32,000 last year, according to the latest estimates of ginners.

The valley which starts the nation's cotton season each year, is getting ready now to start the 1933 season. It promises to be more favorable than last year both in acreage, yield, and price.

Acreage Increased

Last year the valley's acreage was about 100,000, as against 125,000 this year. The cotton acreage of this section in some past seasons has been as high as 225,000 and the yield as high as 160,000 bales.

The cotton is said to be in good condition notwithstanding absence of rain of any quantity for two months. The dry weather has helped keep down the weevil and other insect pests. Cotton is a little earlier than it was last year.

Attention is beginning to turn to the first bale of new cotton of the season, which is produced every year in the valley. This bale will probably move around the middle of June. It rolls out any time from the last week of May on to July.

PRE-MARITAL ADVICE URGED OF CLERGYMEN

ROCHESTER, N. Y., May 16 (AP)—Not only the spiritual but the physical, emotional, social and economic aspects of marriage need to be included in the pre-marital instruction which Episcopal clergymen are obliged to give, a national officer of the Protestant Episcopal church told a social service conference here.

The Rev. C. Rankin Barnes, executive secretary of the social service department of the denomination's national council, said that rectors, in advising couples about to be married, might well go into such subjects as the relative ages of the two parties, their mental attainments, how to spend the honeymoon and the relative merits of buying or renting a home.

"Childishness disturbs married life more than does childlessness," he said, discussing the emotional factors.

"It is well to raise the question as to whether the applicants for marriage have a mental maturity sufficient to promise a successful marriage."

Recommending a frank discussion of sex, he suggested that "the priest might well begin by giving practical counsel in regard to the type of honeymoon which the couple are to enjoy."

Shackelford Sells Over 3,500 Cattle

ALBANY, May 16. (AP)—Shackelford county cattlemen report sales of more than 3,500 head of cattle during April, a large part bound for northern grass and feed lots. It is estimated that one-half the sales were two and three-year-old steers and the remainder steer and heifer yearlings bred and raised on Shackelford county ranches. The heaviest yearlings weighed out were 820 pounds each, grown by Ledbetter brothers and sold to W. H. Green. Col. T. G. Hendrick sold nine cars of aged steers, reputedly the heaviest ever to leave the county, to J. R. Edwards of Fort Worth for his Aledo feed lots. Another shipment of 2500 cattle have been sent to Kansas and northern grass.

Missouri Beer Law Is Upheld By Judge

JEFFERSON CITY, Mo., May 16 (AP)—Missouri's 3.2 per cent beer law and the emergency clause which made it operative coincident with modification of the Volstead act on April 7, were upheld Monday by Circuit Judge Nike G. Sevier.

Gus O. Nations, St. Louis attorney, who represented prohibition organizations which sought to restrain state officials from carrying out provisions of the act, said he would carry the case to the supreme court.

Unless the emergency clause is declared invalid, the beer law cannot be submitted to a referendum.

THE CAPITOL WHIRLIGIG

INTERESTING NEWS, COMMENT FROM AUSTIN

BY R. W. BARRY

AUSTIN, May 16. (AP)—The general impression around the capitol is the 43rd Texas legislature will not cease its labors until after Governor Miriam A. Ferguson disposes of the two remaining major appropriation bills.

R. W. BARRY

The legislators are said to be especially interested in the departmental bill. They had expressed fear the governor might strike from it some of the items they are interested in. The other is the educational bill.

Has Ten Days

The constitution gives the governor ten days from receipt of bill at her desk to dispose it. Sundays are not counted. Should the governor disapprove of a bill or any item in an appropriation bill, she shall notify the legislature within ten days and the matter of passing it over the executive's veto than may be considered. It would require a two-thirds majority vote to enact a bill into law after the governor had vetoed it.

Any bill presented to the governor less than ten days prior to adjournment of the legislature may be considered for a period of twenty days from adjournment. Bills unsigned on the governor's desk twenty days after the legislature has quit become law automatically—without the necessity of the governor's signature.

Two Bills Favored

The governor found no trouble in approving the judiciary and eleemosynary appropriation bills as sent to her by the legislature. There was speculation what her attitude would be toward some items authorized for the Texas highway commission, a department of state antagonistic to her.

Comparatively, however, all the appropriation bills are at "rock bottom" having been materially reduced at all possible points. All hands agree the legislature did a good job in reducing expenditures.
