## Persian Gulf oil producers debate price

RIYADH, Saudi Arabia (AP) — OPEC oil ministers from four Persian Gulf countries met privately today to consider matching or undercutting price reductions by three other nations trying to beat an international oil glut.

A Saudi newspaper reported the Arab oil producers planned to slash their prices by as much as \$7 a barrel.

Today's emergency meeting was supposed to include all six members of the Saudi-led Gulf Cooperation Council states, according to a council announcement. But only oil ministers of Saudi Arabia, Kuwait, the United Arab Emirates and Qatar attended. Bahrain and Oman, which are not OPEC members, did not show up.

The absences sparked predictions of an immediate price cut.

Such a move could ignite a worldwide price war, lowering gas prices for American motorists but making it harder for Third World oil-producers to repay their foreign debts.

To be competitive, industry analysts say, the Organization of Petroleum Exporting Countries must drop its price of \$34 a barrel. The 13-nation cartel controlled international oil prices in the 1970s but has lost some clout since then because of internal rivalries and a smaller market.

Nigeria was the first OPEC member to break ranks when on Sunday it lowered its price by \$5.50 to \$30 a barrel.

Its decision came after non-OPEC members, Britain and Norway, cut their price to \$30 a barrel for North Sea Crude, the African nation's main competitor in the European oil market.

The state-run Saudi Press Agency reported that ministers of the Gulf Coordination Council meeting here would discuss "current trends in the petroleum market" because of the action taken by Nigeria, Britain and Norway.

Saudi sources said the official announcement that the entire council would meet clearly indicated a price cut is planned.

The council includes four OPEC members — Saudi Arabia, Kuwait,

Qatar, and the United Arab Emirates — as well as Bahrain and Oman.

Without saying when the action would take effect, the authoritative Saudi newspaper Asharq al Awsat said the council's ministers would cut prices between \$5.50 and \$7 per barrel "to maintain competitive levels after the North Sea and Nigerian reductions."

"The present structure has been debilitated after Nigeria violated it in a manner that surpassed all expectations," the newspaper said.

The report also said OPEC's troubleshooting committee — composed of Algeria, Indonesia, Venezuela and the United Arab Emirates — might meet soon "to define a general framework

for OPEC's future movements, since its present price structure has become vulnerable to total collapse as a result of Nigeria's decision."

The looming price war would help U.S. consumers because each \$1 drop in the price of a barrel of crude oil represents a 2½-cent drop at the pump. Third World oil-producers, however, would be hurt by price reductions because income from petroleum sales are used to pay off foreign debts.

In Mexico, the state oil monopoly Pemex said it would announce official prices no later than Friday after negotiations with its oil customers. Mexico, not a member of OPEC, set its price for its lighter crude at \$32.50 a barrel.

## Reagan asks withdrawal

WASHINGTON (AP) — President Reagan says the United States is ready to "take all necessary measures" to guarantee the security of Israel's northern borders if the Israelis withdraw their forces from Lebanon.

At the same time, the president is urging Arabs to accept Israel's right to exist and to let Jordan negotiate the future of the West Bank.

Reagan made the statements in a speech reviewing his foreign policy at midterm, prepared for delivery to the American Legion today. The White House made several excerpts of his remarks available in advance.

In the speech, the president contends past U.S. policy-makers "had lost touch with changing world realities," and "ignored our responsibility to work for constructive change, not simply to try to preserve the status quo."

He also declared that the "ultimate Soviet goal in Europe is to force the nations to accommodate themselves to Soviet interests on Soviet terms."

On the heels of allegations that U.S.-Israeli relations have worsened substantially over the situation in Lebanon, the president pledged:

"This administration is prepared to take all necessary measures to guarantee the security of Israel's northern border in the aftermath of the complete withdrawal of the Israeli army."

He was referring to U.S.-led efforts to get the Israelis and all other foreign forces out of Lebanon, which Israel invaded last summer. So far, Israel has refused to set a timetable for withdrawal.

Reagan also repeated his call for Arabs "to accept the reality of Israel and the reality that peace and justice are to be gained only through direct negotiation."

"King Hussein (of Jordan) should be supported in his effort to bring together a joint Jordanian-Palestinian team to negotiate the future of the West Bank, Gaza and Jerusalem," Reagan said.

Reagan has long urged Hussein to enter talks with Israel, and Secretary of State George P. Shultz said last week he sees a "reasonable possibility" the Jordanian leader will do so.

Four-and-forty waxwings

Sharing a perch on a tree stripped of its juicy red berries — a unique version of the nursery rhyme feast — is a flock of cedar waxwings. They and hundreds of companions descended on San Angelo Monday.

## Libyan plane hijacked

VALLETTA, Malta (AP) — Three Libyan hijackers today released a stewardess carrying a request for medicine for a sick boy, nearly 44 hours after the Libyan Arab Airlines plane was forced to land on this Mediterranean island, airport officials said.

The stewardess got off the Boeing 727 at 2:30 p.m. (8:30 a.m. EST) and walked about 50 yards to a command post. Airport officials said supplies of food and water aboard the plane were exhausted.

The hijackers, who pirated the Libyan domestic flight en route to Tripoli on Sunday, have demanded to go to Morocco. The North African country has refused to give them asylum, saying it does not want to encourage air piracy.

Prime Minister Dom Mintoff said the plane would not be refueled until the hijackers freed the remaining 161 captives, Maltese officials said.

Mintoff told the hijackers that he had a message for them from the Moroccan government but he would not release its contents until they released all the hostages.

The hijackers had no immediate reaction to the news of Morocco's rejection.

The plane's 156 passengers and five other crew members were without food or water for a second day today, and Mintoff said none would be sent.

Maltese negotiations with the hijackers resumed this morning via two-way radio that was monitored by Libyan officials who flew in from Tripoli, authorities said.

Western diplomats said Morocco had not responded to an invitation to send a representative to the talks.

Some medical supplies were brought to the plane overnight, but the hijackers refused to open the door. Authorities said nothing indicated any violence had happened inside the jetliner.

Police buses, trucks and a tractor blocked part of the abandoned runway where the jet was parked. Dozens of riot police, with submachine guns cocked, patrolled the remote corner of the airport. Entrances and exits were closed at Luqa International Airport, four miles south of here on this tiny Mediterranean island.

## Reagan spokesman feels like 'middle man in war of words'

By MAUREEN SANTINTI  
Associated Press Writer

WASHINGTON — As President Reagan's chief spokesman, Larry Speakes says he sometimes feels like the middle man between two warring factions — the press and the White House.

"You're in no man's land," the deputy press secretary said. "Sometimes you're caught in the crossfire."

Unlike Jody Powell, who was President Carter's confidante when he served as White House press secretary, Speakes has the added burden of being outside Reagan's inner circle.

In a recent interview, Powell said Speakes' role is tougher "because reporters generally will make your life more difficult if you don't have a lot of information to impart than if you do."

Some reporters believe Speakes' distance from Reagan affects the kind of information he is privy to, as well as his performance. They say he's simultaneously trying to gain the approval of his superiors while trying to convince reporters he knows more than it may appear.

Lou Cannon of The Washington Post suggested top White House officials were using Speakes as a "kamikaze pilot" and maintained it will backfire in the long run.

As an example, Cannon cited a speech Speakes delivered recently calling for a "good news" segment on television news shows.

"I just think that's so overblown and unlike Speakes," Cannon said. "The senior staff — they are just using the guy up that way. I think he's doing it to win their approval because he's not in the inner circle."

Larry Speakes

### And when Speakes speaks...

WASHINGTON (AP) — Vintage Larry Speakes: "You don't tell us how to stage the news and we don't tell you how to cover it." October 1982.

"Look, Sarah. Look, look, look. I'm not the president. You can't sit here and badger me like you did him," Speakes said to Sarah McClendon, famous for jousting with presidents, who kept trying to ask a question. August 1982.

"This is the price you have to pay for bringing down inflation," he said in response to the news that the November 1981 unemployment rate was 8.4 percent. His remark was directly contrary to White House policy at the time. December 1981.

Regarding a Reagan remark on a lower minimum wage for teen-agers: "He didn't mean what you thought he said." February 1983.

And recently, trying to play down Reagan's suggestion that the corporate income tax be abolished, Speakes accused reporters of "licking your chops and clapping your hands and doing back flips" over the story. Later, he happily reported that Reagan shook his hand when he learned of the crack.

Speakes, 43, says he's not simply trying to curry favor, and he says he sometimes appears unimpressed because he's not able to talk about what he knows.

"There are a lot of things I'm fully aware of and know

why I'm doing it but I'm not at liberty to reveal," he said. "You choose your words very carefully because you know the goal you are trying to achieve for the president."

For instance, Speakes said he could not disclose the details of the administration's \$4.3 billion jobs package last week — though reporters pressed him for them — because the White House had adopted a tight-lipped strategy until it heard back from Democrats.

Nevertheless, Speakes, who also served in the Nixon and Ford White House press offices, is open about the fact that

he does not get as much information as he believes he should have.

Powell said a press secretary is most vulnerable when he briefs reporters on a topic he believes he knows about — only to discover he hasn't been told everything.

"If I were dealing — not with the facts with the bark off — but with what someone thought the 'line' ought to be, I was seriously in danger of saying something misleading without even intending to," he said. Those are the times, according to Powell, when a press secretary runs the greatest risk of embarrassing the president.

Speakes said he asks for the full story. And about 25 percent of the time he's bound by "strict guidelines" as to what to tell reporters. The rest of the time he's free to improvise a bit more.

"There are two sins in this job," Speakes said. "One is lying. And that's a cardinal sin. Unforgivable. The other is not knowing. It's almost as bad, (but) it's forgivable."

"The only currency you've got in this business, the only thing that counts, is credibility and I'll do what I have to do to preserve credibility because once you lose it you're no longer any good to the press or to the president."

Speakes said he often knows more than he makes public in large briefings.

"What you say in the briefing room and what you say privately on a guidance basis are always two different things," he said. "You realize when you say something on the podium and your name is attached to it... it's got an impact to it."

The "good reporters" call him every afternoon to get private guidance, said Speakes, who inherited his job when White House press secretary James Brady was shot in the head during the attempt on Reagan's life March 30, 1981.

## Infanticide on rise throughout China

By VICTORIA GRAHAM  
Associated Press Writer

PEKING — The murder of female babies, a frequent practice long ago in rural areas, is on the rise again in China, where government policy restricts families to having one child.

China's new family policy — aimed at keeping the population under 1.2 billion in the year 2000 — is enforced by fines as high as \$2,000 for an extra child.

Although no government statistics on infanticide are available, the official press is filled with grisly tales of the killing of hundreds of girls by parents determined to have a son.

Sons work in the fields, take care of their parents in old age, inherit property and bring wives home to work. Daughters cost money to feed, need dowries and are married off into other men's families.

Girl babies are drowned, strangled, tossed down public toilets and left to die in the wilderness, according to the news reports, which say some local authorities "look the other way" if a little girl toddles off, trips into a well or dies of exposure.

Such reports reveal that the feudal preference for sons was not swept away by socialism. They also reveal a widespread disregard for Communist China's legal system.

More than 210 girl babies were murdered shortly after birth by their parents last year in two cities in southern Guangdong province alone, according to the Feb. 13 edition of the Canton newspaper Nanfang Daily.

In some villages, the newspaper said, a bucket of water is kept ready by the mother's bed as she gives birth. If the baby is a girl, she is plunged into the bucket and drowned. If it is a son, she nurses him and the family rejoices.

Because of centuries of female infanticide, certain rural areas, like Anhui province, face a serious imbalance in the sex ratio. In some places men have difficulty finding brides.

"In their keen desire to have sons, some men still torment their wives who bear daughters and worse still, they kill the baby girls through neglect or outright murder," the English-language Peking Review said last January.

Chinese reports say the problem is "relatively small" in a country of 1 billion people, but foreign observers say it is probably larger than acknowledged.

Premier Zhao Ziyang thought the problem of female infanticide was severe enough to denounce it in his report to the National People's Congress last December.

"We must protect in particular infant girls and their mothers," Zhao said. "The whole society should resolutely condemn the criminal activities of

female infanticide and maltreatment of mothers. The judicial apparatus should resolutely punish the offenders according to law."

Mothers suffer if they bear daughters because many of China's 800 million peasants still believe the mother determines the sex of the child. The official press also is filled with stories of women who are persecuted, beaten or driven to suicide because they bear girls, despite the government's effort to publicize the fact that the father determines a child's sex.

In northeast Shandong province, Liu Chunshan threw his 4-year-old daughter down a well last December, smoked a cigarette as she struggled and screamed "baba!" — father!

He had planned the murder after his pregnant wife was told by a sorcerer that their next child would be a son.

Iran ready to resume drive into Iraq

By The Los Angeles Times-Washington Post News Service WASHINGTON — Iran is poised to resume its drive toward central Iraq this week, despite growing signs that the new thrust will fail and further deepen the military stalemate in the Persian Gulf war, according to analysts in the State and Defense departments.

As evidence the recent arrest of the Iranian Communist Party leader. — Moves by Iran's revolutionary Islamic regime to reduce human and civil rights abuses, to achieve greater stability and to promote economic recovery inside Iran.

The battlefield focus, once on the southern end of the 300-mile front, has moved to an 18-mile central section since Feb. 7, when the fourth and latest offensive in the last year was kicked off by Iran.

whose capture would cut the main north-south road between Basra and Baghdad as well as the Tigris waterway, although the Iranians could resume the attack farther to the north as well, the officials said.

Mattox calls for health spa regulation

AUSTIN (AP) — Texas Attorney General Jim Mattox says he has been cheated twice by health spas and now wants the Legislature to pass tougher laws governing their operation.

quate to complete the facilities, so the spa never opens." The bill would also ban lifetime memberships or memberships longer than one year.

Drought endangers Morocco 'breadbasket' region

By The Los Angeles Times-Washington Post News Service AGADIR, Morocco — From the air, it looks like a landscape painted in broad strokes — wide green belts of fertile farmland giving way to drought-browned expanses that surrender in turn to the yellow sands of the desert.

closest allies in Africa, suffered its worst drought in history. It lost 54 percent of its grain crop and 35 percent of its sheep; it had to spend \$350 million from its dwindling reserves of foreign currency to import food.

that the stability of Hassan's throne depends on the health of the Moroccan economy. Undeniably, the patient is not in good condition, and for most Moroccans the memory is still fresh of the 1981 food riots in Casablanca, riots that Hassan's forces suppressed with a high death toll.

Agriculture — wheat, barley and citrus fruit — accounts for 18 percent of Morocco's gross national product. The most important export, though, is phosphate, and despite reduced prices on the world market Morocco has announced a \$4 billion, five-year expansion plan for the industry.

Correction

The Midland Reporter-Telegram inadvertently listed the wrong menu for Trinity School in Sunday's edition. The correct menu for the remainder of the week is: Wednesday: Hamburgers, soup, salad, sandwiches, vegetables or fruit, juice and ice cream.

Times Beach residents want government to buy homes

TIMES BEACH, Mo. (AP) — Gov. Christopher S. Bond met with angry residents chanting for the government to buy their homes amid reports that dioxin contamination in the town was almost three times worse than at first thought.

When I get that check into my little hot hands, I'll leave." Unpaved roads in Times Beach were sprayed more than a decade ago with waste oil containing dioxin as a dust control measure.

Thomas said health safety issues and options for residents of Times Beach, the home of 2,400 residents before December's floods, would be discussed at the EPA briefing.

The United States and the Soviet Union both produce more phosphate — a commodity used for fertilizer — than Morocco, but Morocco is the world's largest exporter and has 60 percent of the world's known reserves.

Democrats' politicking troubles AFL-CIO leaders

By MERRILL HARTSON AP Labor Writer BAL HARBOUR, Fla. (AP) — Grass-roots campaign organizing by Democratic presidential hopefuls is making it harder for AFL-CIO leaders trying to unify labor behind just one candidate, say top union officials.

director John Perkins said, is that Democratic White House aspirants — whom he did not name — want unionists to become precinct soldiers. That is at odds with the leadership's quest to keep the troops in step during the march to the hoped-for national labor movement endorsement, he said.

A meeting of the federation's general board, consisting of the heads of about 100 affiliated unions and leaders of state and central labor federations, will be called to see if such a consensus can be found.

Former Florida Gov. Reubin Askew is scheduled to enter the fray later this week. And Sens. John Glenn of Ohio and Ernest Hollings of South Carolina are coveting the 1984 Democratic nomination, although neither has yet committed himself to a candidacy.

The AFL-CIO's 35-member executive council was to meet privately today with Cranston, who has spent several days campaigning for the labor endorsement.

The traditionally hawkish labor board did not call for cutting the defense budget or freezing it at fiscal 1983 levels. But it did say it could support hiking the Pentagon budget only by a range of 5 percent to 7 percent, after inflation, instead of the 10 percent "real" increase sought by President Reagan.

Big boom foreseen by lunar explorer

By Hearst Feature Service The American economy has stopped growing and many economists pessimistically see this development as a product of permanent weakness in American society.

Lane Kirkland, President of the AFL-CIO speaks at a press conference following yesterday's opening meeting of the labor organization's 35-member executive council. The union will meet all week.

No more swallows for labor leader

By MERRILL HARTSON AP Labor Writer BAL HARBOUR, Fla. (AP) — AFL-CIO President Lane Kirkland, claiming the Reagan administration too quickly embraced "one little up-tick" in economic indicators, says he sees no signs of a business turnaround.

St. Johns doing something about problems

By ANDREW JAFFE Hearst Feature Service George St. Johns, a longtime Reagan loyalist, is what you might call a "cynical idealist" — someone with a romantic vision of what might be and not much confidence the U.S. government will work to bring it about.

affairs. Nixon chose Oklahoma football coach Bud Wilkinson. St. Johns was too proud to ask a second time. Instead, he worked during the next six years for a string of unsuccessful Republican candidates.

The trouble with all this worthy effort is that just about everything he and the association does is duplicated to some extent by the Commerce Department.

Braniff decision appealed

# DRILLING REPORT

## WILDCATS OPERATED BY MIDLAND-AREA FIRMS

Scouted by  
**THULA COX**  
and  
**SHARON SPRWAK**  
February 21

## ANDREWS COUNTY

**Callaway Production Co. No. 1 Nobles "A" PD 11,800**  
Potentialized 37 barrels oil, 27 Mcf of gas daily, final report.  
**Callaway Production Co. No. 1 Cowden "A" PD 11,800**  
Total depth 4,350 feet, top out of hole, prepped to run intermediate casing.

## BORDEN COUNTY

**Delta Drilling Co. No. 1-466 Don A. Jones PD 8,500**  
production testing perforations.  
**Delta Drilling Co. No. 1-466 Don A. Jones PD 8,500**  
work over, plugging back, open new perforations.  
**Delta Drilling Co. No. 1-409 T.B. Shafer PD 8,500**  
drilling 7,110 feet.  
**Dorchester Exploration Inc. No. 1-22 Good PD 10,000**  
testing.

## CROCKETT COUNTY

**C.F. Lawrence & Assoc. No. 1 Todd "Y" PD 2,200**  
drilling 2,143 feet.  
**Henry Petroleum Corp. No. 1 1682 PD 9,200**  
drilling 8,156 feet.  
**C.F. Lawrence & Assoc. Inc. No. 2 Trapper PD 1,800**  
testing pumping.

## DAWSON COUNTY

**Henry Petroleum Corp. No. 1-482 Stuart Estate PD 8,500**  
running 4 1/2 inch casing.  
**Hillard Oil & Gas Inc. No. 1 E.O. Barron PD 7,900**  
swabbing.  
**J.M. Huber Corp. No. 1 Brown PD 12,000**  
drilling 5,100 feet.

## ECTOR COUNTY

**Argo Petroleum Corp. No. 1 Pasken "32" PD 13,800**  
Total depth 13,800 feet, testing.  
**Cities Service Oil Co. No. 1 Federal X Com PD 12,700**  
running casing 9,000 feet, sand and shale, ran to 3/4 inch casing to 1,967 feet.  
**Gulf Oil No. 1 Booth "3P" Federal PD 6,500**  
contractor Cactus Drilling No. 87. Total depth 6,395 feet, plug back 5,286 feet, pumped 17 barrels oil, 124 barrels water in 24 hours, gas to small to measure, 170 barrels oil, 1,615 barrels water.

## GAINES COUNTY

**Dovling Petroleum Inc. No. 1 Jones Estate PD 12,500**  
drilling and perforating.  
**Hillard Oil & Gas Inc. No. 1 McKinnon PD 13,400**  
swabbing.

## GLASSCOCK COUNTY

**Beach Exploration No. 2 Houston "A" PD 11,300**  
drilling 8,972 feet.  
**William E. Hendon No. 1 Clark "12" PD 11,300**  
shut down.

## HALE COUNTY

**David Fasken No. 1 Lone Wolf PD 10,000**  
drilling 848 feet.

## HOCKLEY COUNTY

**Cities Service Co. No. 1-4 Daxams PD 9,800**  
Total depth 9,900 feet, plug back 9,170 feet, ran 5 1/2 inch casing at 9,499 feet.  
**Texas-Cude Exploration Inc. No. 1-13 Divan PD 10,300**  
moving in completion unit, shut down for Sunday.

## LEA COUNTY

**Great Western Drilling Co. No. 1 State 82 PD 11,000**  
testing.

## LOVING COUNTY

**Sundown Petroleum No. 1 Malcolm Madera PD 5,033**  
well opened in one week.

## MARTIN COUNTY

**Flag-Radler Oil Co. No. 1 Robb "34" PD 11,100**  
tripped at 9,952 feet time, shale, progress 157 feet.

## MIDLAND COUNTY

**Texaco Inc. No. 8 C. Scharbauer "D" PD 11,320**  
total depth 11,382, plugged back 11,175, ran 5" liner 9,870 - 11,390 - swab 5 barrels oil, 55 barrels water w/gas ahead of swab - 10 hours, 267 barrels water, complete.

## MITCHELL COUNTY

**Anadarko Production Co. No. 1 Ellwood Trust PD 7,500**  
plugged, abandoned.

## PECOS COUNTY

**Cities Service Oil Co. No. 1-A Loper**  
drilling 6,724 feet time, shale, chert, ran 9 5/8" casing at 4,501 feet.  
**C.F. Lawrence No. 1 McComb "9" PD 3,200**  
drilling 712 feet.

## RUNNELS COUNTY

# SWCID pleas possibly falling on deaf ears

By PATRICK DEAREN  
Staff Writer

BIG SPRING — Their cries for acceptance and understanding often go unheard in a world of sound.

They are 107 hearing-impaired students, seeking education, training and knowledge at Southwest Collegiate Institute for the Deaf.

Now, the very institution which has helped them better cope in a seemingly alien society is itself handicapped by the deaf ear of the Legislature.

Trustees of Howard County Junior College District requested a budget of \$11 million for SWCID. Only \$2 million was granted. Unless \$5 million in additional funds are received, the facility could slam its doors on the deaf by summer.

But SWCID officials and community supporters are not going to give up without a fight.

"WE PROBABLY won't know (SWCID's fate) for sure until final appropriations are passed," said Dr. Charles Hays, president of HCJC District. "We're getting some positive responses but nothing you can put your finger on. We still have an uphill battle."

The first hurdle to clear will be the March 8 meeting of the Budgets and Oversight Committee, a subcommittee of the House Higher Education Committee. "We're hoping they will include us in their consideration," said Hays. "We're doing lots of visiting right now with members of the House and Senate."

A major problem, said Hays, will be to surmount a dearth of perception by lawmakers. "Some legislators believe (SWCID) is a local community effort and should be funded by the community," he explained. "But this is not true. We think it is a statewide project and should be funded by the state. There's a lack of understanding on their part."

In an effort to alleviate that problem, almost 5,000 Big Spring residents have banded together via petition, letters and telephone calls.

"WE ARE TRYING to reach out into other communities in the state to get other legislators aware and interested in the need for the institution," said Sharon Andrews, who is spearheading the drive. A former SWCID registrar who resigned to assume a ministry of music at First Christian Church, she regards her attempts to save SWCID "not so much

as a Christian responsibility but as a joy...There is a great need for an institution such as this."

Within the past two weeks, 4,543 persons have signed petitions supporting SWCID and asking the Legislature to reconsider its budget. "People pretty generally are in agreement they want SWCID to stay," said Ms. Andrews. "Local response has been tremendous."

Cries to save SWCID also have echoed to the far corners of Texas. "We're getting calls from legislators from various places across the state," said Hays, "and it's because of the interest we're generating in different constituents."

Both Hays and Ms. Andrews suggested that SWCID supporters express their concern to their respective state legislators.

Out-of-state tuition increases also have concerned supporters, who are petitioning for a more equitable tuition policy. This year, a student from outside of Texas was forced to pay approximately \$4,350 a semester — a development which resulted in a drop in enrollment of almost 25 percent from the spring semester of 1982.

"WHEN IT created SWCID, the Legislature said that out-of-state students would pay the actual cost of education," explained Hays. "Legislators believed it was time Texas stopped paying for the education of persons from other states."

That ruling was the first of its kind implemented for any state-supported institution, and SWCID thus far is alone in dealing with it.

"I don't believe in any way (legislators) were trying to pick on the hearing impaired — it just turned out that way," said Hays. "It was the last institution they created...I agree with their philosophy for a matter of fact, but if we do it for one group we're going to have to do it for all."

When the first SWCID classes were held, existing buildings at old Webb Air Force Base were used. But increased emphasis on vocational-technical programs have rendered the facilities inadequate and spawned a need for additions — the very root of SWCID's budgetary problems.

"We've got to have at least \$7 million, and a big part of that is for construction," noted Hays. "Howard County Junior College District just doesn't have the money to build the kind of facilities SWCID needs."

## Holiday chores

Taking advantage of the Washington's Birthday holiday, Frank Melendez, 200 W. Cowden Ave., uses a

roto-tiller Monday afternoon to prepare his yard for spring planting.

# Beware winds of March

'Tis the season for property owners to be wary of potential fire hazards, according to the president of the Texas Fire Chiefs Association.

Chief Tom Foster, Lubbock's fire chief and president of the TFCA, cautions Texas homeowners that while fire safety should be a year-round concern, the dry and windy days of February and March are especially notorious for producing potentially hazardous conditions.

"People are normally more conscious of fire safety in the summer after a long dry spell," said Foster, in a news release issued recently. "But February and March, which normally have long periods of low humidity combined with strong winds, create almost ideal conditions for fires to start."

"Since most Texans do not feel the dry heat of a summer drought during these two months, they are probably not as alert to the potential threat of a home fire as they could be," Foster said.

Jerry Petree, Midland's fire marshal, concurred with Foster's assessment and said the whistling winds of a West Texas winter are especially dangerous.

Petree said the dry conditions during February and March nurture grass fires, which may be spread quickly by gusty winds.

"In total, this time of the year is a bad time of the year for grass fires," Petree said.

Foster said people whose homes are roofed with untreated wood shingles, or who live in neighborhoods where such roofs are common, should be especially wary because a fire fed by dry material and spurred by high winds could hopscotch through a neighborhood.

"These weather conditions can make combustible building materials such as untreated wood shingles highly susceptible to fire," Foster said.

To help Texas homeowners avoid problems with fire, the TFCA offers several suggestions:

- Cut and trim back dry, dead grass and other dead foliage near the house. Although the lawn is dead, the TFCA also recommends watering the lawn to create a "buffer fire zone" around the house.

- Do not pile combustible material near the house.

- Change or clean furnace filters. A poorly maintained heater can overheat during winter months, when thermostats are kept at higher temperatures.

- Allow ashes from fireplaces and stoves to stop burning before depositing them in the trash. Ashes can be watered down, or stored in a metal container, until extinguished.

- Extinguish all smoking materials before tossing them aside.

# Eugene Fodor to perform

By GEORGIA TEMPLE  
Entertainment Writer

He began playing the violin at the age of 5. At 16, he was a student at the Juilliard School of Music in New York. By the time he was 23 years old he had won the Paganini International Competition and the Tchaikovsky International Competition.

Tonight Eugene Fodor plays the Tchaikovsky Concerto and the "Witches Dance" by Paganini in an 8 p.m. performance with the Midland-Odessa Symphony at Lee High School

Auditorium. Single admission tickets will be sold at the door.

After Juilliard, this Colorado native attended Indiana University, where he studied under Josef Gingold and Harry Farban, for two years.

Then he transferred to the University of Southern California, where he studied under Jascha Heifetz. As Paganini was to the 19th Century, Heifetz is to the 20th — this century's premiere violin virtuoso.

In an interview made brief because of his terrible cold, Fodor summed up his numerous performances by saying,

"I have performed with major orchestras in every state in the Union. I've played internationally in Eastern and Western Europe as well as all of Latin America, the Republic of China, Korea and Japan. And I played at the White House for (President) Ford."

In addition, he has recorded six albums for RCA. When asked what he feels has had the most impact on his career, Fodor said, "Six records for RCA distributed worldwide made a big difference. And playing at the White House."

Getting a push through the river of water at Garfield and Wadley streets Monday afternoon is Bessie Vogel, whose car stalled at the intersection. Pointing

her to dryer ground is Jeff Rauls, while employees of Key Enterprises push. The river was caused when a water main at that intersection broke.

# Alcohol abuse seminar topic

The effect of alcohol abuse on the family, children and the elderly will be among the topics discussed Friday during the 10th annual Regional Institute of Alcohol and Drug Abuse Studies at the Region 18 Education Service Center at Midland Regional Airport.

Workshop topics include the role of chemical abuse in child abuse, alcohol abuse among the young and old, legislative issues concerning alcohol and battling the problem of drunken drivers.

Topics to be presented and speakers include:

- Alcohol-related legislation before

the state Legislature, State Rep. Jay Gibson of Odessa. Robert S. Morris, Martin County Attorney, will offer a lawyer's opinion of the legislation.

- Mothers Against Drunk Drivers (MADD), Milo Kirk, vice president of the Dallas chapter of MADD.

- "Substance abuse: A contributing factor in child abuse," Miriam Nisenbaum, director of Dallas' Suspected Child Abuse and Neglect.

- "A pastor's approach to intervention," the Rev. Brad Calley, pastor of Odessa's Lutheran Church of the Risen Lord.

cal abuser," Bob Lynch, Lynch and Associates of Austin.

- "The elderly, alcohol and prescription drug abuse," Marcia Friedman, director of Women and Prescription Drug Abuse Project in Dallas.

- "Alcoholism — a family disease," LaDonna Brazell, education consultant, Texas Commission on Alcoholism.

- "Texan's War on Drugs," Beverly Barron, regional coordinator of Texan's War on Drugs.

DEATHS

James E. Evans

Services for James E. "Ed" Evans, 88, of 2501 Bedford will be at 2 p.m. Wednesday at the First United Methodist Church in Monahans with the Rev. Max Browning and the Rev. Kenneth James, associate minister of St. Luke's United Methodist Church of Midland, officiating. Burial will follow in the Monahans Cemetery under the direction of Newlie W. Ellis Funeral Home.

He died Sunday at his home. Evans was born Aug. 20, 1894, in Eastland County. He grew up in Snyder. He worked in the oil fields in Breckenridge with Gulf Oil Company in 1922. He married Ethel Shepherd in 1924 in Midland. He was transferred to Wickett in 1937 and to Monahans in 1954. He moved to Midland in 1980. He retired in 1959. He was a member of the First United Methodist Church of Monahans and a member of the Breckenridge Lodge No. 492.

Survivors include his wife, Ethel Shepherd Evans of Midland, and a number of nieces and nephews.

Bernie Orson

ANDREWS — Services for Bernie Orson, 59, of Andrews were to be at 4 p.m. today in Singleton Chapel of the Chimes. Burial was to be in Andrews Cemetery.

Mrs. Orson died Sunday in an Andrews hospital following an illness.

She was born Feb. 24, 1923, in Baird, grew up in Cisco and moved to Andrews from Baird three years ago.

Survivors include two sons, Robert Orson of Andrews and William Orson of St. Martinville, La.; a sister, Mattie Griggs of Baird; and 11 grandchildren.

Chris Riddle

Services for Chris Riddle, 27, of Route 4, Box 50 KA, were Monday at Newlie W. Ellis Funeral Home chapel with the Rev. David C. Baker of Hope Lutheran Church officiating. Burial followed in Fairview Cemetery.

Riddle died early Saturday in a Midland hospital from injuries suffered in a traffic accident.

Pallbearers were Gut Riddle, Jeff Kimball, Steve Price, John "Slack" Addy, Daffy Daughtery and Randy Simmons.

Mrs. Harry Krist

Mrs. Harry (Vera Sue) Krist, 76, of 2504 Cuthbert Ave. died Saturday at a Midland hospital following a lengthy illness.

Services were Monday in the First United Methodist Church sanctuary with Dr. Charles Lutrick officiating. Burial followed in Resthaven Memorial Park under the direction of Newlie W. Ellis Funeral Home.

Pallbearers were F.H. Mills, William Warrich, Jerry Dunn, Harvil Weller, William Newmann and Richard Morrisson.

A.K. Thorn

Services for A.K. Thorn, 79, of 713 Cuthbert Ave. were to be at 11 a.m. today at the Newlie W. Ellis Funeral Home chapel with the Rev. Bob Porterfield, pastor of the West Kentucky Baptist Church, officiating. Burial will follow at Resthaven Memorial Park.

He died Sunday in a Midland hospital.

Thorn was born Aug. 16, 1903, in Bandera County, where he grew up. He lived in Port Arthur and Vernon. In 1924 he worked as a superintendent of the refinery at Rock Crossing. He moved to Duncan, Okla., in 1942 and worked for Fred Reek Construction. In 1944, he moved to Midland, where he worked for Texaco. He was transferred to Fort Stockton and returned to Midland in 1951. He retired in 1962. His wife, Aline Thorn, died in 1954. In April 1956, he married Fern Kelley in Lovington, N.M. He was a member of the Christian church and a member and past master of the Masonic Lodge No. 655.

Survivors include his wife, Fern Thorn of Midland; a daughter, Mrs. A.R. (Ann) Snider of Midland; a sister, Kate Peoples of Lufkin; four grandchildren and three great-grandchildren.

Oscar Pierce

LAMESA — Services for Oscar Pierce, 63, of Lamesa and formerly of Odessa are pending at the First Baptist Church in Jacksboro.

Pierce died Sunday in a Big Spring hospital following an illness.

He was born in 1919 in Ringgold, was married to Nell Jones in 1937 in Jacksboro and was a veteran of World War II.

Pierce retired from J. Cleo Thompson Oil Co. in Odessa in 1978 and moved to Lamesa four years ago.

Survivors include his wife; a daughter, Mira Moffett of Lamesa; a son, James Pierce of Lamesa; his mother, two brothers, a sister and five grandchildren.

MMH boards meet Thursday

Midland Memorial Hospital's governing boards will meet Thursday in the MMH medical conference room.

The agenda for the 12:30 p.m. board of trustees' meeting includes an update

Children die in explosion

PLAINVIEW (AP) — Two children died in an explosion at their home after one of them knocked over a pan of gasoline being used by their brother and it was ignited by a heater, authorities said.

Fire Capt. Wayne Wright said the children were playing in the family's living room Monday when one of them knocked over the gasoline, being used by their teen-age brother to clean an auto carburetor.

Man killed on highway near Stanton

STANTON — A 54-year-old man was killed when his bicycle and a car collided on Interstate 20 about three miles east of here early this morning.

Pronounced dead at the scene by Martin County Justice of the Peace F.E. Kennedy was Bobby Gene Byrd, no known address.

According to the Department of Public Safety, Byrd was eastbound on the

director of development and a chaplain for MMH. Updates also will be given on certificate of need applications and the Joint Commission of Accredited Hospitals. The board will set a time for an educational session on the Tax Equity and Fiscal Responsibility Act 1982. The board will consider the revised 1983 budget and review January's financial statements. Board action includes approval of new physicians.

The agenda for the 2 p.m. board of directors' meeting includes consideration of alternative financing for the \$15 million 77-bed expansion and approval of the Midland County Hospital District election seats. Financial statements and tax office reports also will be considered.

interstate when he rode his bicycle into the path of an eastbound 1978 Chrysler driven by Raymond Travis Bell Jr. of Big Spring.

Byrd was thrown against the windshield of the vehicle. His body was taken to the Gilbert Funeral Home in Stanton. The accident occurred about 2:10 a.m. today.

Accused killer will be returned

ODESSA (AP) — A 26-year-old man accused of killing a West Texas priest will be returned here now that authorities have completed New Mexico extradition proceedings which required warrants from two governors.

New Mexico District Judge Frank Allen ordered at a hearing Monday that James Harry Reyos of Chama, N.M., be returned to Odessa to stand trial.

Reyos was taken into custody by Albuquerque police Nov. 18. He is accused of killing the Rev. Patrick Ryan, a Denver City priest whose body was found bound and beaten in an Odessa motel room.

Reyos refused to sign extradition papers, and Ector County authorities were forced to begin a lengthy process that included obtaining warrants from the governors of Texas and New Mexico.

Ryan, 51, was found in a motel room Dec. 22, 1981. His body lay unidentified for several days in an Odessa funeral home after being discovered by a motel maid.

Yoakum County Sheriff Jim Rice and several of Ryan's parishioners identified the body two days after Christmas 1981, setting off a manhunt that took lawmen as far as California to follow leads.

The priest had disappeared from his rectory, located adjacent to St. Williams Catholic Church in Denver City, about 90 miles northwest of Odessa, about two days before Christmas Day 1981.

An Amarillo College student makes her way to class along a snow-covered path Monday. Amarillo got the smallest amount of snow in the Panhandle, 1 1/2 inches. White Deer, 30 miles away, got 10 inches.

According to autopsy, priest killed at close range

AMES, Texas (AP) — A popular Roman Catholic priest found dead on the back porch of his church rectory was shot in the neck at close range, according to preliminary autopsy results.

An autopsy performed Monday by the Harris County Medical Examiner's Office showed the fatal shot was fired within two feet of the priest, Justice of the Peace Sonny Loftin said.

"There was nothing unusual. It just confirmed everything we already knew," Loftin said Monday night.

A final report on the death of the Rev. Henry G. Bouchie is expected in about one week, he said.

Bouchie, a Boston native and pastor of Our Mother of Mercy Church, was

last seen alive Friday night when he performed mass in this community of 1,155 people, about 50 miles northeast of Houston.

A church employee found Bouchie's body Saturday morning on the floor in a tiny alcove near the back entrance of the house.

Sheriff's investigators said there are no suspects yet, but robbery appeared to be the motive because several rooms of the home had been ransacked and Bouchie's wallet was missing.

"Father Bouchie was a very kind-hearted man. If the murderer wanted money, all he would have had to do was ask for it, and the father would

have given it to him," said Ethel Char- gios, who found the body.

Drawers to a china closet also were overturned, the priest's clothes were scattered on the floor and the mattress on his bed was pushed aside, investigators said.

"He didn't have that much around that anybody would really want as far as we know," said Liberty County Sheriff's Capt. John Domy.

Beaumont pastor Raymond Woodka, who performed Mass Saturday and Sunday at Bouchie's church, said that the priest did not keep large amounts of money or other valuables at the rectory, and seldom carried much money with him.

Woodka said that the congregation reacted with "total shock and horror" at Bouchie's death.

"Someone or more than one has misused the precious gift of free will to kill. That is the horror," the pastor said.

Bouchie, who had been pastor at the Ames church for seven years, was a member of the Josephite order of priests and had been in the priesthood for 41 years, officials said.

A funeral Mass will be celebrated at 10 a.m. Saturday at St. Mark's Church in Boston's Dorchester section. Memorial services are scheduled for Wednesday at the church here.

Jury convicts Dallas man of drug charge

DALLAS (AP) — A Dallas man faces up to 171 years in prison and a \$500,000 fine following his conviction on 20 counts revolving around a conspiracy to distribute Florida cocaine in the Dallas area.

But the federal court jury, which heard testimony from 55 witnesses over seven weeks, deadlocked on a charge that John Russell Webster Jr. was the "kingpin" of the organization that police said was one of the city's largest drug rings.

The jury convicted Webster and three others Monday in connection with the conspiracy but deadlocked 10-2 in favor of conviction on a charge that Webster had engaged in a continuing criminal enterprise involving cocaine smuggling and distribution.

Webster, 35, was among 35 people charged in the case. Twenty-six defendants agreed to plea bargains, three are still at large, one was offered immunity in exchange for testimony and the trial of another was delayed.

The verdicts were returned after 2 1/2 hours of deliberation.

Webster's defense attorney, Dick DeGuerin, said he was "pleased" that the jury failed to reach a unanimous verdict of the so-called "kingpin statute."

U.S. District Judge Jerry Buchmeyer ordered a mistrial on the one charge over which jurors could not reach a unanimous verdict.

Pecos County detailed in book

FORT STOCKTON — "Pecos County History," an account of life in the lore-rich Fort Stockton area from prehistoric times to the present, is scheduled for release later this year.

"The stories are just incredible," said Lee Harris, chairman of Pecos County Historical Commission, which is sponsoring the book. "It probably will be released in summer, but no later than fall."

The first edition, to be published in two volumes by Staked Plains Publishers of Canyon, will be limited to 2,000 copies. Advance orders at \$35 for both volumes, along with \$2 mailing charges, are being taken by the commission at P.O. Box 419, Fort Stockton, 79735.

February, March bring fire hazards

(Continued from Page 1C)

—Don't store flammable liquids in the garage.

—Don't burn trash before checking with the fire department. Petree said Midland's fire code prohibits burning within city limits.

—Don't use gasoline or kerosene to light charcoal and don't leave burning charcoal unattended.

School for deaf officials hope legislators hear their pleas

(Continued from Page 1C)

A MAJOR problem trustees have encountered is a lack of clarity in the original legislation which created SWCID, said the president. "You can't tell for sure if SWCID is a separate state agency created by the Legislature, or is a part of the Junior College District. If it is a part of (HCJC District), the state does not want to give us construction funds, because the state would be building on somebody else's property."

Only an attorney general's opinion could decide the matter, but either way Hays hopes SWCID will gain its own identity. "If it is not a state agency, then we're going to try to get legislation to separate it from the Junior College District and establish it as a state agency," he said.

SWCID's cry for understanding will be heard by the Budgets and Oversight Committee at 6:30 p.m. March 8 in Room C of the Reagan Building in Austin.

Fodor performs with area Symphony

(Continued from Page 1C)

He is excited about two upcoming television shows. Those who tune in for Wednesday night's 25th anniversary of the Grammy Awards will hear Fodor perform, as will those who view the 25th Country Music Association Awards April 13.

In a tone which indicated he was quite pleased, Fodor said, "They wanted a classical piece on their show."

When asked which works he had performed that he considered particularly difficult to master, he said, "They're all tough. I've lived with all these pieces all my life. I don't think about the difficulty."

Eugene Fodor is 32 years old.

Alcohol abuse effects discussion topic

(Continued from Page 1C)

The Kermit High School student council also will present a skit, "The Wizard's Revenge," during a noon luncheon.

Alcoholism.

Registration begins at 8 a.m. Workshop sessions start at 8:45 a.m. and continue through 3:45 p.m. Fees for the institute are \$15 in advance, \$20 at the door and \$7.50 for senior citizens.

For more information, contact Cathy Clayton, alcohol services director for the PBRPC, (915) 563-1061.
