S. assistant secretary of state for Far Eastern affairs, is flanked by Prince Boun Oum, (right), premier of Laos, and Gen. Phoumi Nosavan, Laos strongman, on the Laotian leaders' arrival in Geneva. Boun Oum came for another conference with Laos' other two political princes on the formation of a coalition government. (AP Wirephoto via radio from Geneva)

Portugal Is Facing Bitter U. N. Attack

By TOM HOGE
UNITED NATIONS, N.Y. (AP)—Portugal faced bitter attacks from the Communist and African blocs today as foes of her policy in Angola pressed for condemnation and possible punitive measures by the United Nations.

Poland, cosponsor with Bulgaria of a resolution calling on the Security Council to consider harsh penalties against the Lisbon government, was slated to take the floor as the 104-nation General Assembly's Angola debate went into its second day.

The former French Congo also was expected to blast Portugal's administration of Angola and to demand freedom for the West African territory.

Informed sources expressed belief the Africans group would not seek penalties against Portugal but would limit its proposals to a call for condemnation and a demand for Angola's independence. Any resolution will need Western support to ensure the two-thirds majority required for adoption. The United States reportedly has made clear it does not favor any call for economic sanctions against its NATO ally.

Diplomats said U.S. delegates had told them the United States wants to see a moderate resolution which would prod Portugal to grant self-determination for Angola.

Portuguese Ambassador Vasco Vieira Garin walked out of the debate with his delegation Monday and said he would take no part in discussions of charges of Portuguese terrorism in Angola.

In a heated address, Garin accused the United Nations of bias and described the debate as "mischievously designed, from which only evil can come to Angola and to this organization itself."

He said his delegation would not take part in "illegal, pointless and wasteful" debate, but would reserve the right to return to the rostrum "to clarify matters or reply to the accusations which might be leveled against my country."

He indicated Portugal would not feel bound by any resolutions the assembly might put through against her policies in Angola.

The Soviet bloc resolution would have the Security Council consider applying sanctions against Portugal to remain in effect until the Lisbon government complies with all council and assembly resolutions on Angola.

Farm Road Bill Sent To Daniel

By JERRY PILLARD
AUSTIN (AP) — The House beat down efforts to amend a Senate version of a farm to market road bill Monday and sent the \$15 million measure to Gov. Price Daniel.

This completed action on one of Daniel's main proposals to the current special session of the Legislature. Two others await Senate votes — escheat legislation and loan company regulation.

The House prepared today to take up a bill (HB2) by Rep. J. W. Buchanan of Dumas which would rename and reorganize the State Board of Water Engineers.

House members voted down several amendments to the farm road construction bill (SB2) by Sen. Neville Colson of Navasota. They passed it in the original form favored by Daniel, the Farm Bureau and the County Judges and Commissioners Association.

The key vote in the House was a 120-26 defeat of a substitute by Rep. Max Carriker of Roby. The Carriker version, which was first recommended by a House committee, would have increased the construction money from \$23 million under the Colson bill to \$25 million.

The measure sent to the governor restored a \$15 million farm road construction appropriation for 1963, which Daniel vetoed last August. It also set a \$23 million annual minimum for construction of newly designated farm roads and allows the highway department to spend up to half of the road bond assumption fund (\$35 million presently) for farm road maintenance.

Daniel issued a statement congratulating the House and Senate for prompt action. He said passage of the bill "is a major accomplishment in preserving and expanding this important program in the years ahead."

Rep. Grainger McIlhenny of Wheeler fought off other minor amendments to the Colson bill.

Consideration of the water board bill, due as the House reconvened today, followed approval by the Senate State Affairs Committee Monday of a similar measure (SB-11) by Sens. George Parkhouse and Franklin Spears. The bills rename the board the Texas Water Commission and outline duties of the chief engineer.

The Senate set two hearings on the escheat and loan bills passed by the House.

The key vote in the House was a 120-26 defeat of a substitute by Rep. Max Carriker of Roby. The Carriker version, which was first recommended by a House committee, would have increased the construction money from \$23 million under the Colson bill to \$25 million.

The measure sent to the governor restored a \$15 million farm road construction appropriation for 1963, which Daniel vetoed last August. It also set a \$23 million annual minimum for construction of newly designated farm roads and allows the highway department to spend up to half of the road bond assumption fund (\$35 million presently) for farm road maintenance.

Daniel issued a statement congratulating the House and Senate for prompt action. He said passage of the bill "is a major accomplishment in preserving and expanding this important program in the years ahead."

Judge Davidson Is Honored On Birthday

The district clerk's office today was the scene of a birthday celebration. Judge W. C. Davidson was honored with coffee and cake. It was the seventeenth birthday the judge had observed in the court-house.

Virtually every county court-house employee stopped in to offer congratulations.

When asked if it was a surprise, Judge Davidson said "No, not really — there've been too many phone calls."

Judge Davidson is retiring at the end of his present term.

NEW OFFICES OCCUPIED—Mrs. Clore Zimmerman, receptionist, and Jack Findley, assistant to the district superintendent, are shown in the new offices of the Standard Oil Texas production offices of Thirty-seventh Street and the Big Spring Highway. Construction is still underway on the new service station at the same location. An open house is planned when all construction is complete.

18 Roman Missionaries Reported Slain In Congo

Escapees Tell Of Violence

LEOPOLDVILLE, the Congo (AP)—Eighteen Roman Catholic missionaries were killed by Congolese soldiers at Katanga in north Katanga on Jan. 1, church authorities reported today.

A dispatch from an Associated Press correspondent at Bukavu, a Kivu Province town 225 miles northeast of Katanga, said missionaries who escaped the massacre reported the violence to the bishop at Bukavu.

The bodies of the 18 were recovered, the dispatch said. Another missionary was taken away and has not been heard from.

The report to the bishop said troops of the Congo central government attacked missionaries living near Katanga, beat them and then killed them.

President Moise Tshombe of Katanga reported on Jan. 4 that his forces had abandoned Katanga and that the invaders were killing

hundreds of civilians and burning villages as they advanced on the town.

Tshombe claimed that the invading troops were under the orders of the Central Congo government in Leopoldville, but reports since have indicated that they were loyal to pro-Communist Deputy Premier Antoine Gizenga, who was put under virtual house arrest in Stanleyville Sunday by central government troops.

Gizenga has been accused of dispatching troops into north Katanga in an effort to establish his own state in the northeast Congo. Units of Gizenga's Stanleyville force were blamed for the murder of 12 Italian U.N. airmen in Kivu Province in November.

The troops in north Katanga and adjoining Kivu Province constitute the bulk of the Stanleyville army which took orders from Gizenga and Gen. Victor Lundula when it took orders from anyone.

Lundula switched his allegiance to the central government and commanded the troops in Stanleyville who put down an insurrection attempt by Gizenga over the weekend and disarmed more than 300 of his gendarmes, his only military force in the leftist's former stronghold.

The central Congo government of Premier Cyrille Adoula is expected to strip Gizenga of his deputy premiership and possibly even put him under formal arrest in Leopoldville, and diplomats in the Congo capital fear there may be an adverse reaction from the troops in Kivu and north Katanga.

The United Nations announced the capture of a moving force of soldiers at Stanleyville. This brought to more than 300 the number rounded up since the central government moved against the pro-Communist leader last week.

Gizenga is now believed to be without military support in Stanleyville.

The United Nations said its Ethiopian troops surrounded Gizenga's residence in Stanleyville have withdrawn, leaving him under the guard of central government soldiers.

In Elisabethville, the U.N. Command and the Katanga government announced the exchange Monday night of all prisoners captured in December fighting in that secessionist province.

Ten Swedish, two Norwegian and two Irish soldiers were turned over to the central government, and the United Nations gave up 31 Katangans.

The exchange was seen as evidence of the growing cooperation between the U.N. Command and the Katanga government headed by Tshombe.

WHERE INDONESIAN BOAT WAS SUNK—Cross approximately locates the spot in Dutch territorial waters off New Guinea where an Indonesian motor torpedo boat was sunk by Dutch warships, according to a Dutch Navy spokesman. (AP Wirephoto Map)

Lloyd Rites Are Set Here Wednesday

Funeral services are scheduled for 3 p.m. Wednesday for George Lloyd, 52, of 2400 Avenue I. Mr. Lloyd died at 10:10 p.m. Monday at Cogdell Hospital after a short illness.

Services will be held at the Avenue D Baptist Church with the Rev. D. D. Carpenter officiating. He will be assisted by the Rev. T. L. Nipp, retired Baptist minister. Burial will be in the Ira cemetery under the direction of Bell Funeral Home.

Mr. Lloyd was born July 7, 1909, in Fort Worth. He was married in Big Spring on Dec. 22, 1929. He and Mrs. Lloyd moved from Big Spring to Snyder in 1933. At the time of his death Mr. Lloyd was employed as a Snyder city police officer.

Survivors include his wife, Mrs. Ivy Jane Lloyd, his father, George Andrew Lloyd of Snyder, one daughter, Mrs. Homer Hutio Jr. of Abilene, one son, Delbert Hayes Lloyd of Huntsville. Three brothers also survive. They are Joseph Hodge Lloyd of Big Spring, Raymond D. Lloyd of Snyder, and Willie M. Lloyd of Austin.

One daughter, Eva Nell Lloyd, died in 1906, and a son, Dwayne Lloyd, died in 1947.

Palbearers will be E. J. Hardin, Ed Fenton, A. J. Greenway, C. O. Thompson, Carl Keller, and J. R. Meadows.

Swine Loss Ires Krush

MOSCOW (AP)—Soviet Premier Khrushchev in a speech published today sharply criticized the farmers of Byelorussia for letting 15 per cent of their hogs die last year.

"This is the result of a lack of fodder and bad treatment of livestock," the premier said.

Khrushchev told the farmers he had not come "to read Pushkin's poems to you. You will read poems without me. I came here to expose shortcomings."

Khrushchev delivered his speech at Minsk last Friday. The Soviet news agency Tass then described it as a big speech to 1,300 agricultural workers from all over Byelorussia, but did not report anything he said. His speech was published today in Pravda, the Communist party paper.

First Troops Arrive In Test Of Airlift

By JOHN FIERN
FRANKFURT, Germany (AP)—The first elements of an Army force of 4,000 men arrived here from the United States today to test American ability to airlift troops abroad in a hurry.

A C-130 transport carrying 72 officers and men of the 4th Infantry Division touched down at sprawling Rhein-Main base after a non-stop polar flight from McChord base in Washington.

The operation has been nicknamed "Long Thrust II."

Lt. Col. James Grimley, 46, of Florence, S.C., divisions operations officer, headed the first 18 officers and 54 men who arrived by way of Greenland on a flight of 10 hours, 7 minutes.

"Welcome to Europe," said Gen. Charles D. Palmer, deputy commander in chief of U.S. forces in Europe as he stepped forward to greet Grimley. "How was the flight?"

"Just fine," said Grimley.

Another C-130 is due later today. From Wednesday until the airlift of the 6,000 men is completed next Saturday midnight planes will be landing here around the clock.

It is a major test of U.S. capability to rush troops to Europe in an emergency—such as could arise from the Berlin crisis.

The first arrivals were welcomed by a group of officers headed by Gen. Charles D. Palmer, deputy commander in chief of the U.S. European Command, and a French colonel representing Gen. Pierre Jacquot, commander of NATO forces in central Europe.

"Long Thrust" involves three reinforced battle groups of the 4th Infantry commanded by Maj. Gen. William F. Train, who is due in Frankfurt Wednesday. The troops will take part in a four-day NATO field exercise in eastern Bavaria.

A total of 87 transports—10 of them C-130 strato-lifters—will be involved in the airlift, flying four different routes. Some will make several trips.

From Frankfurt the troops will proceed by truck to the Mannheim area to collect their equipment, jeeps, trucks, Patton tanks, armored personnel carriers and guns.

The troops will remain in Mannheim, the U.S. Army's major supply and maintenance area in Germany, for about 10 days. Then they will go to the Hohenfels training area, in eastern Bavaria, for a four-day maneuver in which planes of the 4th Allied Tactical Air Force will also take part.

Survival Program Is Planned Here

Superintendent of Schools, T. E. McCollum, announced today that a free program of "Personal and Family Preparedness for Survival" will be made available to all adults in Snyder this year through the public schools.

The plan was presented yesterday afternoon to the Safety Committee of the P-TA which is composed of chairmen from the individual units. This group expressed considerable interest and pleasure over the course.

The organizational meeting which will include background material for the course will be held Feb. 8. Teachers of the Snyder schools who took the instructors' course in November were certified by the Texas Education Agency and will teach the civil defense course.

The twelve hour course will cover such vital survival information as the effects of radioactive fallout; protective measures — against tornadoes, fires, floods, heat and blast from hydrogen bombs; and personal and family planning. The course will help to teach individuals how to act intelligently in an emergency.

Classes are planned for two hours each on Monday and Thursday nights with actual training to begin on Feb. 12. Parents of Snyder school children will receive a letter regarding the course from the school.

"If America is to survive in the nuclear age, its people must be trained to protect themselves in case of enemy attack," Superintendent McCollum said.

Two Contracts Are Approved By Council

The Snyder City Council approved two contracts at a brief session last night.

Approved were contracts for fire protection outside the city and for use of land adjacent to the sewage treatment plant and garbage disposal area.

The county's proposal of \$17,000 for firefighting operations outside the city during 1962 was okayed. The contract for use of the land is for a 10-year period and calls for a rental of \$25 per year.

WEATHER

SNYDER TEMPERATURES: High Monday, 38 degrees; low, 10 degrees; reading at 7 a.m. today, 26 degrees.

North Central Texas: Fair today and Wednesday. A little warmer today and Wednesday. Low tonight 24 to 26. High Wednesday 40 to 42.

Northwest Texas: Fair today and Wednesday. A little warmer today and Wednesday. Low tonight 24 to 26. High Wednesday 40 to 42.

South Central Texas: Clear to partly cloudy today and Wednesday. Low tonight 24 to 26. High Wednesday 40 to 42.

South Texas: Fair today and Wednesday. Low tonight 24 to 26. High Wednesday 40 to 42.

Shelter Survey Slated March 1

Snyder will be one of the cities in the South Plains area to be included in a survey of public buildings for possible designation as fallout shelters.

Plans for the survey were discussed at a meeting yesterday in Lubbock, which was attended by Bill Kinney, Snyder City Engineer. Principal speakers at the planning session were Roland C. Haun of Santa Fe, regional representative of the assistant secretary of defense for civil defense, and D. L. Orendorff of Albuquerque, official of the Albuquerque District of the U.S. Army Corps of Engineers.

The survey will begin Wednesday in Lubbock, and Snyder's survey is slated for March 1. In all, the survey will cover some 23 counties in Texas.

Haun said the purpose of the survey is to accurately determine how much protection is available in existing structures. Once this is accomplished and the buildings are properly designated and stocked, officials will be in a position to lay a blueprint for the future.

Supplies for use in stocking buildings are scheduled to be sent here in February, Kinney reported.

Orendorff said the government will not buy or rent any building. Instead, after a building has been approved as a possible shelter, a three-way agreement between the owners, local civil defense officials and the government will be executed. Then the structure will be marked as a shelter.

School Bus Involved In Freak Mishap

A Hermleigh School Bus was involved in a freak mishap this morning which resulted in no injuries to four pupils on board.

The driver suffered burns on the face and neck which were described as not serious.

The mishap occurred when a heater-base on the bus became disconnected, fogging the windshield and spewing some hot liquid on the feet of the driver, Harold Mason. The bus ran off the Roby Highway about 10 miles from Snyder, but Mason brought it to a stop at the edge of a creek.

The bus sustained little or no damage other than the disconnected hose. The vehicle was found to be in running condition after it was pulled back onto the road by a wrecker.

George Vicary, Hermleigh High School principal, said the four pupils on board the bus, along with the driver, were brought to Snyder for medical attention, but the pupils were found to be uninjured and returned to school. Mason who is a veteran bus driver for Hermleigh Schools, was treated for burns and returned home.

JFK Says Test Ban Failure Is Biggest Disappointment

WASHINGTON (AP) — President Kennedy said failure to reach agreement with the Soviet Union on a nuclear test ban was the biggest disappointment of his first year in the White House.

"This," he said, "could have been a very important step in easing tensions."

The most heartening development, he believes, was a "great surge for unity" among the Western Allies and in Latin America.

In his first news conference of the year—five days before the first anniversary of his inaugural ceremony—Kennedy touched on nearly a subject a minute Monday, roaming from the farm problem at home to Laos and Berlin abroad.

"We are taking a chance in all of Southeast Asia. We are taking a chance in other areas also."

New Course Pondered For Schools

C. D. Henry, Director of Curriculum in the Snyder schools, left this morning for a two day visit to Dallas and Ft. Worth. Henry will be visiting with officials of the schools there and in the classrooms of history classes.

The purpose of the trip is to study the orientation programs on communism in the schools. The Snyder school board recently discussed the possibility of having a unit in the American History courses devoted to a study of communism.

The book used by Dallas in their course is entitled "The Principles of American Freedom in Contrast to the Tyranny of Communism." The Louisiana legislature last year ordered such a course to be given in all state schools. Their material is entitled simply "Americanism vs. Communism." Similar course material has been received at the school office here from schools as far as Lubbock and from as far away as Florida.

HOSPITAL NOTES

COGDELL HOSPITAL
ADMISSIONS: Dorothy Hill, Box 624; Hugh Boren, Jr., 2801 Twenty-eighth Street; Sara Early, 2365 Sunset; Arthur Martin, 3211 Avenue U; Helen Lilley, 711 Twenty-second Street; Oma Bretz, 2903 Avenue N; Brenda House, Ira; Lula Brown, Cushing, Okla.

DISMISSALS: Paula Evans, John Gaston, Hugh Boren, Jr., Larry Kilgo, Troy Campbell, Johnnie Eick, Verline Arrandale, Hubert West, William Daniels, Romona Estrada, Wallace Odum.

SNYDER HOSPITAL
ADMISSIONS: Mrs. L. F. Goss, 3400 Avenue E; Nancy Isbell, Route 1; Mary Lou Garcia, 507 Fourteenth Street; Arch M. Lindsey, Fluvanna; Manuela Alaniz, Herring.

DISMISSALS: Johnny Peralez.

Rites Set Today For Family Of 10
MORRILLTON, Ark. (AP) — A single casket bearing the remains of the 10 members of the Andrew Paladino family will be carried into St. Joseph's Catholic church today for funeral services.

Paladino, his wife and eight children died in a fire that destroyed their rambling farm home while they slept early Monday.

The cause of the fire is unknown. The Paladinos were leaders in their community. In 1952 they were named Conway County farm family of the year.

Mr. and Mrs. Paladino were 40. Their children were Philip, 12, David, 11, Beverly, 10, Duffell, 9, Carolyn, 8, Ralph, 6, Jan, 5, and Terry, 3.

Graveside Service For Miller Infant
Graveside services will be conducted at 4 p.m. Wednesday for Jeffrey Dane Miller, infant son of Mr. and Mrs. Jerry Dwain Miller of Rt. 2, Rotan.

The child died at 8:44 p.m. Monday at Cogdell Hospital.

The services will be conducted by the Rev. Jimmy Nelson, pastor of the Colonial Hills Baptist Church. Burial will be in Snyder Cemetery under the direction of Bell Funeral Home.

In addition to the parents' grandparents include the paternal grandparents, Mr. and Mrs. Virgil Jones of Snyder and the maternal grandparents, Mr. and Mrs. E. E. Miller of Guthrie, Tex.

TOP TV TONIGHT

9:00 ABC "Premiere." Robert Fuller appears as a Peace Corpsman, when he stars as Henry DeWeller, agricultural expert from Pennsylvania, who discovers the Vietnamese people he is aiding are apparently more than willing to let him die. Barbara Luna and Viraj Amosin are featured.

OTHER HIGHLIGHTS
6:30 CBS "Password" continues with Allen Ludden as host and simply "Americanism vs. Communism." Similar course material has been received at the school office here from schools as far as Lubbock and from as far away as Florida.

Henry stated that a first-hand discussion of the problems encountered and the solutions to those problems in the setting up of such a program would be most helpful if and when such a course is given in the local schools.

7:30 NBC "The New Breed." While investigating the abduction of an infant, members of the Metropolitan Squad uncover an illegal adoption racket in "To Sell a Human Being." Guest stars include Richard Arlen, Paul Richards and Jena and Jean Engstrom, real-life mother and daughter.

7:30 CBS "Dobie Gillis." Rich, but friendly, Chatsworth Osborne Jr. arranges to "Borrow" Dobbie's father and have him move into the Osborne mansion so that Mr. Gillis can make a man of him.

7:30 NBC "Alfred Hitchcock" presents a drama of two persons who have lost their loved ones and seek companionship. Claude Rains stars as an amnesia victim and John Larch as police captain Shaw in "The Door Without a Key." Billy Mumy is featured as an abandoned boy.

8:00 CBS "Red Skelton." Guest star Virginia Grey plays Clara Appleby, who expects a worthwhile anniversary present from her husband, especially since he is now working at a jewelry store where it would be easy for him to pick up a ring. Giff Stuart is featured.

8:00 NBC "Dick Powell" presents the drama of a truckdriver who risks arrest when he gives a ride to an expectant mother who has entered the country illegally. Peter Falk and Inger Stevens star in "Price of Tomorrow."

8:30 CBS "Ishbad and Me."

Mark W. Anderson, President

Williams Rites Wednesday

Funeral rites for Donald E. Williams, who died at 11:30 p.m. Sunday in Galveston, have been set for 2 p.m. Wednesday at the First Baptist Church in Hope, Arkansas.

Rev. Jack Dean of Northside Baptist Church, Snyder will officiate.

Mr. Williams, who resided at 214 Thirtieth Street, passed away in John Sealy Hospital at Galveston following an extended illness.

Snyder Youth To Compete For Post
A Snyder youth is among eight candidates named by Sen. John Tower today to compete among themselves for two appointments to the U. S. Military Academy at West Point.

Named among the eight is Donald Lee Moffett, 413 Twenty-sixth Street, son of M-Sgt. and Mrs. Jewel Vernon Moffett.

He graduated from Baker High School in Columbus, Ga., where his father was stationed in 1961 and is currently enrolled in the USMA Preparatory School in Fort Belvoir, Va.

Garland Weeks

Joyce Rodgers

The new year will be one of challenge for two Texas 4-Hers who were named the state's top boy and girl leadership award winners in 1961. Garland Weeks, 19, of Wichita Falls, and Joyce Rodgers, 16, of Brownwood, will be seeking to do even better in their 4-H Club work than they did previously.

Weeks was awarded a trip to the 40th National 4-H Club Congress in Chicago by the Sears-Roebuck Foundation. Miss Rodgers received a special citation.

Weeks was chairman of the 1960 State 4-H Roundup held at Texas A & M. He has held every office in his local club. He is the son of Mr. and Mrs. Lynn C. Weeks, who operate a farm in Wichita county.

Miss Rodgers, who was co-chairman of the Brown County 4-H Council in 1960, is the daughter of Mr. and Mrs. S. H. Rodgers.

Your Child Can Fight That Fat

Little doubt remains that America's youths are becoming fatter. That they are not as fit as they could be is borne out by these scientific studies of the last decade. Japanese children excelled in physical tests. British girls, 10 to 12 years old, beat American boys in leg-power tests for endurance. Italian and Austrian youths surpassed Americans in physical fitness. The clincher for these studies was America's disappointing performance in the Olympics.

Teen-age delegates at the recent National Youthpower Congress fought a fat status. In asking for help to achieve fitness, they took note of a king-sized obstacle in many schools: Physical education facilities oriented to team sports. Those not on the team often are neglected.

To be fit calls for a personal fitness program, experts say, not elaborate gym equipment. Daily exercise and physical activity

Jim Sorrells recently visited at Big Spring.

From me to you A DAILY VIEW

by Rev. R. Charles Spivey

"I appeal to you therefore, brethren, by the mercies of God, to present your bodies as a living sacrifice, holy and acceptable to God, which is your spiritual worship."

Romans 12:1 (read verses 1-9)

The trouble with us Americans is that we have become so accustomed to luxury and ease, that we don't want to sacrifice for anything or anyone. In fact today our individual and national freedom is being slowly eroded away. Soon we may find ourselves in such a condition that our whole national system will collapse and freedom will be a thing of the past. Only some real sacrifice on our part will avert this national disaster. One wonders if we are capable of sacrifice though.

The same thing applies to our Christian faith. "The gospel," we say, "is the hope of the world." Yet we refuse to believe in its message of salvation strongly enough to sacrifice for its spread to the world. This earth of ours will never find peace and love until you are ready to sacrifice yourself for it.

By MRS. N. F. HALL

The children of O. N. Lester, Sr. are honoring him on his 85th birthday with an open house in the Dunn community center, Sunday, Jan. 21. Mr. Lester has lived here since 1924. Friends are invited to call between the hours of 2 and 4 p.m.

Mrs. W. C. Wood spent the weekend in Lorraine visiting her daughter, Mr. and Mrs. Russell Dunn and family.

Recent guests of Mr. and Mrs. T. J. Webb were Mr. and Mrs. Arlis Cotton and children of Buford.

Sunday guests of Mr. and Mrs. Floyd W. Merkel and Lucky were Mr. and Mrs. Bo Merkel and children of Colorado City.

Mr. and Mrs. Hocky Allen and son of Big Spring recently visited Mr. and Mrs. Leonard Allen.

Mrs. T. J. Webb, Mrs. N. F. Hall and Donna, visited P. N. Lester Sr. and Katty Bynum of Colorado City Friday afternoon.

Eggplant Parmesan Is Robust Fare

EGGPLANT PARMESAN: One of the best ways to treat eggplant is to prepare it, casserole style with a rich tomato sauce and cheese.

By CECILY BROWNSTONE

KNOWING AMERICAN cooks pay ready tribute to the sleek royal - purple eggplant.

Italian cuisine has worked out such savory ways to use this vegetable that, when it is available, many of us follow suit.

Eggplant Parmesan (Melanzana alla parmigiana) is a top favorite in Italian - American restaurants. A meatless dish, it's fine for a family lunch or supper, and so rich tasting that it's also quite at home with company.

Although this dish has Parmesan as part of its name, more Mozarella than Parmesan cheese goes into it. Fortunately nowadays Mozarella cheese is widely available in supermarkets. However, Garibaldi M. Lapolla in his "Italian Cooking for the American Kitchen" suggested that "Swiss, munster, Monterey Jack, or other milk soft cheese could be substituted for it." In testing the following recipe we used Mozarella.

Eggplant Parmesan needs nothing more than crusty bread and a green salad as accompaniment.

Milk

Savory Green Peas

2 cans (each 1 pound and 1 ounce) green peas with onions

1 cup thin celery crescents

1 or 2 tablespoons butter (if desired)

Turn peas and onions plus the liquid from just one can into a medium saucepan; add celery. Heat; drain; stir in butter, if used. Makes 10 to 12 servings. (Reserve all liquid from peas and onions for another use.)

Butter Cake

1 cup plus 2 tablespoons sifted cake flour

1 teaspoon baking powder

5 egg yolks (from large eggs)

1 cup sugar

1/2 cup milk (scalded and slightly cooled)

1/2 teaspoon vanilla

1/2 cup butter (melted)

Sift together the flour and baking powder. Beat egg yolks slightly; add sugar. With electric beater at high speed, beat until ivory colored and thick. Add milk and vanilla. Gradually beat in flour mixture at low speed; make sure all flour particles are moistened. Fold in melted butter. Turn into two greased and floured 8-inch layer-cake pans. Bake in moderate (350 degrees) oven 15 to 20 minutes or until cake tester inserted in center comes out clean. Place pans on wire racks to cool for 10 minutes; turn out; cool. Fill and frost as desired.

Travelers took the ginkgo tree to Europe from the Orient in the early 18th Century.

Medical Education Costs Mount In Time And Money

BY INEZ ROBB

President Kennedy's general proposal, in his State of the Union Message, for Federal scholarship aid for medical students touches a vital educational area where mounting costs seem appalling to many in the profession.

Rising tuition and living costs are only part of the problem in the sixties. The twin dilemma is the increasing time span required, in this age of specialization, to produce a physician.

Gone are the days when four years' medical schooling (atop four years of regular college work) plus one year of internship and mayhap a year of residency were regarded as sufficient to entitle a man to hang out his shingle.

The American Board of Internal Medicine today requires a year of internship plus three years of residency before it qualifies a man to practice his specialty. (One year of that residency may be spent in research.)

In the good teaching-hospitals in major medical centers, such as New York, from four to seven years of residency are required in surgery. An intern in one of these distinguished hospitals can hope for \$100 per month. A resident in surgery in his fourth year at such an institution, for instance, can expect \$300 a month.

What it all adds up to for the

average American family trying to give one of its children a medical education is 10 to 12 years of financial stress, strain and sacrifice after the child is graduated from high school.

"The average medical student today is hanging on by the skin of his financial teeth," I was told by an eminent New York surgeon who is a member of the teaching staff in one of the city's premier hospitals.

A spokesman for Physicians and Surgeons, the medical school allied with Columbia University, pointed out that in the graduate field of arts and sciences, there is double the scholarship help and only half the tuition cost prevailing in medicine. Numbers of medical students, he added, hock their future by borrowing to help pay the cost of their education.

In the large Eastern medical schools, this spokesman estimated that it required a minimum of \$3,000 a year to see a student through his basic four-year medical training. He figured at least \$1,500 annually for tuition and a like sum for living expenses.

The lucky student, said an internist of my acquaintance, is the one who marries a girl with a good job and the patience to help her husband through school, internship and residency.

"As medicine becomes more and more complex," schooling not

only becomes more expensive," this specialist said, "but the years of 'on-the-job' training keep lengthening. A man or woman is lucky today if he or she can start practicing by the time that thirtieth birthday rolls around.

"In the meantime, the financial drain on the average family is drastic. I tell you frankly I am glad that none of my children has the slightest interest in medicine."

Just what the President proposes in the way of medical scholarships remains to be spelled out in a later message to Congress, a message dealing with education in general. But he has highlighted mounting public concern that medical education is being priced out of the reach of any income bracket below that of "upper middle."

"The critical shortage of doctors and dentists," of which the President spoke in his State of the Union message, is certain to mount in the future if qualified young men and women from lower-income brackets are barred from medicine by long and costly education. This is a field in which the nation cannot afford to be penny-wise and pound-foolish.

Seven Workers Killed In Blast

BILBAO, Spain (AP)—Seven workers were killed and two injured Monday when a blast swept an underground section at the Union Espanola de Explosivos company at Galdacano, near here.

The plant manufactures explosives. Reports said the victims were handling powder in a subterranean plant especially designed to localize any possible blasts.

Sleepyhead Is Problem For A Wife

By JOY STILLEY

NEW YORK (AP)—Women are always getting credit for being chauffeurs, nurses, cooks, housekeepers and laundresses.

Well, I can add another job to that list. I serve as an alarm clock too.

Not just the ordinary kind of clock that buzzes, rings, tinkles or flashes a light, either.

I pat, poke, prod, shake, whistle, groan, grumble, threaten, command and bring orange juice.

No store-bought alarm clock ever worked as long or hard to get a man up as I do, and I don't get paid overtime for it. In fact, no electrically powered clock has ever yet managed to get my husband out of bed in the morning.

He wakes up just long enough to turn the thing off and that's the extent of his dealings with the timepiece.

From then on it's my job to get my sleepyhead off to his job and I'm quite convinced he doesn't work half as hard at the office as I do getting him there.

Every morning I start off hopefully with a gentle pat and murmur softly in his ear. "Honey, it's time to get up."

If this brings any response at all—which it seldom does—it comes in the form of a cross between a snarl and a growl. Bravely ignoring the rebuff, I try a different approach. "Are you awake, honey?" This usually elicits a rather strong reply, the last word of which is "No!"

Sleepy as I am myself, long years of practice bring on the next stage automatically. I dig down under the blanket, with which he has covered his head as a defense against lights, sounds and an unsympathetic wife, and get hold of enough shoulder to shake.

This maneuver causes one eye to open wide enough to look accusingly at his attacker—but only momentarily.

By this time I have managed to get myself sufficiently conscious, I stumble to the kitchen for a glass of orange juice. This I am often tempted to pour over my husband, but instead I put it on his night table, inform him that time, tide and the bus wait for no man, and stalk out.

Five minutes later I make a return trip to the bedroom, expecting to find the family provider dressed, wide-awake and full of enthusiasm for the challenges of the new day.

Instead I find him snoring happily in the exact position in which I left him.

Incensed, I remove my kid gloves and attack the problem—and my husband—with vigor and a firm hand. After finally capturing his attention I direct his reluctant gaze to the bedroom clock, which shows that he should have been out of the house 20 minutes before.

The realization that he lives in a universe where alarm clocks and time clocks combine to make life miserable finally jolts him out of bed and into his clothes.

Meanwhile—back in the living room—I station myself, glass of milk and vitamin pill in outstretched hands, between the bedroom and the front door. He grabs the milk and pill from me on his way out, gulps them down and mutters grumpily, "I'm going to be awfully late. Why didn't you wake me sooner?"

Don't tell him he'd be later still if I didn't keep the bedroom clock set 15 minutes fast!

In 1646 a scythe manufacturer, Joseph Jenkes, received this country's first machine patent, for equipment used in his water-driven mill.

Junior Editors Quiz on SAHARA

QUESTION: Why doesn't it ever rain on the Sahara Desert?

ANSWER: The Sahara is the largest desert in the world—larger than the entire United States. It begins east of the Red Sea, covers a large part of Arabia, most of French West Africa and parts of Libya, Egypt and the Sudan. It sweeps across the northern part of Africa and extends eastward into Asia, thus touching two continents. Most of the Sahara is nothing but mile after mile of hot, shifting sand dunes and occasional stretches of hard and rocky terrain. Only a narrow strip of fertile land along the Nile River, and scattered oases where underground water is brought to the surface, break up this vast, dry area.

There is no part of the Sahara that doesn't get some rain, though in many places the showers are scanty indeed and sometimes the rain evaporates before it hits the ground. In summer the desert sun often sends the temperature to 120 or 130 degrees, but at night the sand cools so quickly there sometimes is frost. The reason for the lack of rainfall is because the northeast trade wind, which blows constantly across Africa from the Red Sea to the Atlantic, dries up the moisture of the Sahara. As a result, there is very little animal life on the Sahara because there is not much to eat.

FOR YOU TO DO: Make a scrapbook of your favorite Junior Editors issues.

Arthur Hooley of Norwich, Conn., wins \$10 for this question. Mail yours on a postcard to Junior Editors, in care of this newspaper.

Groundhog Clubs Claim Foul Play

QUARRYVILLE, Pa. (AP)—Defenders of the groundhog cried out in protest today against charges that, instead of being a weather forecaster, he is a lazy hibernator who sleeps through his big day.

His human allies say the groundhog is a topnotch weather prophet. They are stalling at the assertion he is interested only in food and romance when he finally awakes.

Groundhog clubs in this eastern Pennsylvania community and in Punxsutawney in the western part of the state charge foul play by the National Geographic Society, which said the groundhog sleeps right through groundhog day.

Feb. 2, rather than emerging from his cozy quarters and looking for his shadow.

The old belief is that if the groundhog sees his shadow Feb. 2 there will be six more weeks of winter weather and poor crops; if he doesn't cast his shadow it means an early spring and good harvest.

The Geographic Society said the groundhog hibernates from mid-autumn until March, living off food he eats in the summer. When he emerges, said the society, he isn't thinking of weather but only of romance and food.

"Oh, foul deed!" exclaimed Robert Herr, chairman of the Board of Hibernating Governors of the Slumbering Lodge of Groundhogs in Quarryville.

"Never have we been taken to task like this even by those Punxsutawney fellows who have heaped ridicule on us in the past," said Herr. "This is quite upsetting. This calls for a special convocation of the board of governors."

The Punxsutawney fellows joined the Quarryville group in lashing back at the National Geographic Society.

"They don't know anything about the habits of the groundhog," said Sam Light, president of the Punxsutawney Groundhog Club.

Light said the Punxsutawney groundhog positively emerges from his den every Feb. 2 to predict the weather, "and if the National Geographic people would come up here we would prove it to them."

Herr quoted Dr. David E. Davis, professor of wildlife management at Pennsylvania State University, as saying that five years' research proved the groundhog comes out Feb. 2.

Herr said all the charges by the society "must be investigated to bring justice to the groundhog."

"This is a job for our new honorary member (U.S. Atty. Gen. Robert F. Kennedy)," said Herr.

Hermann Sons Lodges Plan Installation

SAN ANTONIO—Eight West Texas Hermann Sons Lodges will have their officers installed in a ceremony set for 2 p.m. Sunday at Roscoe Lodge Hall in Roscoe.

Officiating will be Bruno J. Katzmark, San Antonio, grand trustee for the \$3,000 - member fraternal order.

Assisting Katzmark will be E. H. (Ike) Niemeyer, San Antonio, grand lodge special representative, and Katzmark's wife, Mrs. Ethel Katzmark, who is widely known for her work in the fraternal order.

All of the lodges having their officers installed have men and women members. They are:

Lubbock Lodge No. 16, Lubbock; Odessa Lodge No. 38, Odessa; San Angelo Lodge No. 177, San Angelo; Rowena Lodge No. 216, Rowena; Old Glory Lodge No. 228, Old Glory, Tex.; Paint Creek Lodge No. 214, Haskell; Hermleigh Lodge No. 256, Hermleigh; and Roscoe Lodge No. 257, Roscoe.

Roscoe Hermann Sons Lodge will serve as host group.

The order is famed for its free youth summer camp for its junior members and its home for its aged members. Both installations are near Comfort in Kerr County. Home offices of the Hermann Sons are in San Antonio.

Night Class Registration

Registration has been set for Thursday evening for second semester night school classes at Snyder High School. Bob Clinton, principal, has announced.

Courses in commercial subjects and industrial arts will be available to adults of the community.

Registration is set for 7 p.m. Thursday in the choral room at the high school. Clinton said the school will offer night classes in any course with at least 15 students.

Tigers Rout Chiefs; Free Meshes 28

Loss Drops Lake View In Cellar

By JERRY JACKSON
News Sports Editor
SAN ANGELO—Snyder's not-to-be-doubted Tigers, spurred on by the 28-point scoring spree as staged by Steve Free, raced to their biggest point total of the season here Monday night in walloping 3-AAA cousin Lake View, 82-67.

The previous high for the season was registered against Stamford, when the Bengalmen battered the Bulldogs 78-41.

Coach J. P. Ward's crew is now 4-1 within the family circle, while the defeated Chiefs were plumed into the district dungeon at 6-2.

Free was unstoppable during his scoring rampage, the 28 points compiled falling just one short of the school single-game record. In fact, he seemed to get stronger as the game progressed, and hit his peak in the third period with an 11-point outburst.

The Tigers began the game with a bang and moved out to a 24-15 first quarter lead, then upped the advantage to 45-30 at the intermission buzzer. William Robinson carried the major portion of the first half scoring bulk by meshing 13 of his 17 during that span, while Free chipped in with six field goals and 12 of his points.

The Wardmen knocked the props out from under the Chiefs initially by employing a successful full-court press, which they used to advantage throughout the first quarter and from time to time through the remainder of the contest.

Snyder romped to its biggest advantage midway through the final period—a 27-point spread at 75-48 before the Chiefs came back to dominate point-making activities in that period.

The ultimate victory came about in the area of the free throw line. The Tribe sank two more field goals over the course of the contest than did the Tigers, but their foul-prone activities kept them in hot water throughout.

Snyder attempted twice as many free throws, making good on 26 of 40 to Lake View's 7 of 20.

Robinson and Poch Hatter, deadlocked at 17 points each for runner-up Tiger scoring honors, Eddie Foy was the fourth Bengal to hit in double figures with 10.

Chief Danny Tomlinson finished with a rush to score 14 points in the fourth quarter to crowd Free's name scoring laurels with 28.

The other half of the Lake View 1-2 scoring punch—Bobby Meek—meshed 19 for the evening.

The victory gave Snyder a 10-1 record for the season and dropped Lake View to 7-11.

In the preliminary B game, Lake View emerged with a 53-48 win to drop the junior Black and Golders to 10-4 for the year.

Only in the fourth quarter was Snyder able to muster a strong offensive attack, scoring 20 tallies in that period while holding the Indians to 8.

Jimmy Wilson had 13 points to lead the way for the Tigers, and Billy Stewart added 11 to the losing cause.

Both teams hit in the area of 50 per cent on free throws, with Lake View capitalizing on 19 of 37 and Snyder on 12 of 26.

Both Snyder clubs see their next action Friday, when they play host to Colorado City in their district home opener. The C-City five sees its first 3-AAA activity tonight in Sweetwater. Lake View will also be busy Friday when it takes on Lamesa in San Angelo.

Browwood Halfback Heading For Baylor
WACO (AP)—Baylor University said Monday that Max Emfinger, a halfback from Browwood, has agreed to sign a letter of intent to enroll at the Baptist school next fall.

Emfinger, a 175-pound 6-footer, was on the all-state second team last year. He also lettered in basketball and track.

The cornerstone of St. Peter's was laid in 1906. Work then continued intermittently for 120 years.

Texans Suffer Triple Loss In Lamesa

LAMESA—The Texans of Lamar 9th hit the dust for the first time this season here Monday, falling before Lamesa 9th by a 45-40 count.

The defeat was the first as handed the Texans in nine outings, and averaged an earlier 43-33 clipping as dealt the Lamesans early in the campaign.

Drew Bullard and Tom Kincaid were top guns for Lamar with 9 each, followed closely by Phillip Floyd and Kenneth Dower with 8 apiece.

Floyd was also the top Texan rebounder with 12.

Lamesa reigned supreme in the 8th grade contest, also, by a score of 31-23. Bill Blum set the pace for the losers with 8 points.

Lamesa made it unanimous in the 7th grade fray, powering their way to a 29-25 victory on the strength of a big third period after the Texans had led by 14-9 at half time.

Tommy Sinclair popped the strings for 11 points to be high for the losers.

The Texas 9th next travels to San Angelo for a 4 p.m. Friday fracas against Coleman in the first round of the San Angelo Tournament. Play in the tourney will be for all eight places, so that each entrant will be assured of three games during the two-day meet.

Lamar 8th and 7th will take the weekend off before entertaining Colorado City Monday.

Lamar 9th—Bullard 4-10, Kincaid 4-10, Floyd 3-24, Venial 3-26, Dower 4-24, 10-45.

Lamar 8th—Greenfield 2-24, Bentley 4-11, Wiman 2-24, Taylor 1-20, Mayfield 1-11, Blum 2-24, 23-31.

Lamar 7th—Robinson 2-24, Russell 4-10, Maly 1-23, Totals 18-43.

Lamar 9th—Bullard 4-10, Kincaid 4-10, Floyd 3-24, Venial 3-26, Dower 4-24, 10-45.

Lamar 8th—Greenfield 2-24, Bentley 4-11, Wiman 2-24, Taylor 1-20, Mayfield 1-11, Blum 2-24, 23-31.

Lamar 7th—Robinson 2-24, Russell 4-10, Maly 1-23, Totals 18-43.

Lamar 9th—Bullard 4-10, Kincaid 4-10, Floyd 3-24, Venial 3-26, Dower 4-24, 10-45.

Ohio State Keeps First Place Perch

By The Associated Press
Midterm examinations rather than opposing basketball teams, are the chief concerns of Ohio State's Buckeyes today as they once more carry the tag as the nation's top college team after the latest Associated Press poll.

The Buckeyes (12-0), the only major unbeaten team, play Minnesota on Saturday night and spend the rest of the week with those ever-famous books.

However, three teams in the top ten are in action tonight. Cincinnati (11-2), ranked third, takes on tough Dayton, fifth-ranked Duquesne (11-1) plays Toledo and Bowling Green (No. 8) meets Kent State.

Kentucky (12-1), which jumped into the No. 2 spot in the opinion of the country-wide board of experts, won't play again until Jan. 29.

Because of the midterm exams, the top ten teams have little activity this week. Southern Cal and Duke are idle until Feb. 2 and Jan. 27, respectively.

The only matching of the top teams occurs on Thursday when Cincinnati and Duquesne play in Pittsburgh.

The top ten teams based on a 10-9-8 etc. vote count, with first place votes in parentheses:

1. Ohio State (41)
2. Kentucky
3. Cincinnati
4. Kansas State
5. Duquesne
6. Southern California
7. Duke
8. Bowling Green
9. Bradley
10. Mississippi State

Midwest Hit By Another Frigid Blast

By The Associated Press
Another blast of frigid air spread across snow-covered sections from Montana into Indiana today, a repeat of last week's severe cold in the Midwest.

Temperatures dropped sharply as the icy air, in the wake of the year's second major snowstorm, fanned out from the mountain valleys in southwestern Montana.

The mercury dipped to more than 20 degrees below in the Montana region, touching -25 in Bozeman and -24 in Drummond. Minnesota got a full blast of the arctic air, with readings of -16 in International Falls, -13 in Duluth and -11 in Minneapolis.

Below zero marks also were reported in the Dakotas and sections of Wisconsin, Nebraska, Iowa, Illinois and Indiana. Chicago had a fresh snowfall of seven inches in zero weather. It was -8 in nearby Joliet, Ill.

Some of the cold air extended deep in the South. Temperatures were as much as 20 degrees lower than Monday morning's marks southward into southern Louisiana.

The storm which dumped up to 10 inches of snow across Midwest areas abated as it moved northward. Rains continued in northern New England and snow flurries persisted westward from the northern Great Lakes.

Fairly mild winter weather prevailed in most of the East. It was below freezing in Atlanta, Meridian, Miss., Memphis and Chattanooga, Tenn., and Little Rock, Ark. Mild readings were reported in most of southern Florida, with 66 in Miami.

In New York State, a wall of ice floes 12 feet high in the normally calm Fulmer Creek caused flooding in parts of the village of Mohawk, near Utica, in the Mohawk River Valley.

Ice floes also curtailed barge traffic on the Mississippi River near Cairo, Ill., and on the Illinois River near Marseilles, Ill. Ice jams were reported in the Wabash River above Terre Haute, Ind.

Loan Charge Suit Filed

AUSTIN (AP)—Atty. Gen. Will Wilson filed suit in 34th District Court here Monday to stop allegedly excessive insurance charges on small loans.

Defendants in the suit are Great Western Loan and Trust Co., Great Western Finance Co. and Great Western Underwriters, all with home offices in San Antonio.

The president of the three firms, E. M. Stevens, declared in San Antonio the allegations were groundless.

Wilson said the suit is the first of several test cases he plans to file.

The attorney general said his office has received more than 100 complaints from borrowers during the past 90 days.

"The chief violation, according to complaints, is the use of excessive insurance charges on loans to increase costs to borrowers," Wilson said.

He also said his staff is investigating "what appears to be a pattern by some loan sharks and finance operators, working closely with wholly owned insurance company affiliates, in a conspiracy to violate the usury laws."

Contract Is Let By Paper Firm

TEXARKANA, Tex. (AP)—Anglo-Southern Paper Corp. has let a contract to W. H. Nichols Construction Co. for building a spur railroad track to the site it has bought for a mill.

Company officials emphasized Monday that work on the spur should not be interpreted as a start on construction of the plant.

The spur from the Texas & Pacific Railroad will start about a mile and a half west of Nash and about 6.8 miles west of Texarkana and go north toward the plant site.

First Year Brings 'Twilight' Zone

By JAMES MARLOW
Associated Press News Analysis
WASHINGTON (AP)—After a bumpy first 12 months both President Kennedy and Eisenhower headed into their second White House year in a kind of twilight between afternoon and evening storms.

This was reflected Monday in Kennedy's first news conference of 1962. Neither the questions nor answers had a jumpy sense of tension. As news conferences go, Monday's was pretty dull.

It was much the same on Jan. 18 eight years ago when Eisenhower had his first 1954 meeting with the press.

Both men in their first year had been through a grinding chapter. Worse was to come for Eisenhower as it certainly will for Kennedy. The mid-January doldrums for both were an illusion of quietude.

In 1953 Eisenhower had brought the Korean War to an end but the battle between his administration and Sen. Joseph McCarthy already had begun.

Eisenhower in 1953 didn't have as much to worry about from Russia as Kennedy does now. It wasn't until late summer of 1953 that Russia had its first hydrogen explosion. It didn't have missiles then, either.

That very difference was at the root of Kennedy's most critical problem in 1961: how to keep Russia from taking over Berlin without getting into war.

Both men, by the time they had held their first news conference in January of their second year, had already deluged with the outline of their second year's program in their State of the Union message.

There was a similarity between these messages. Much of both was routine although both suggested pushing the country's welfare programs forward a bit.

The response both men got from Congress could hardly be called a disaster.

Police Are Looking For Chief's Auto

WASHINGTON (AP)—Police of Prince George County in nearby Maryland are keeping a sharp eye out for a dark blue 1961 four-door sedan reported stolen—it's their chief's official car.

Chief George J. Panagoulis said his county-owned Chevrolet was taken Saturday night from a parking lot at Bladensburg. The car thief hot-wired the ignition to get it started, police said. The unmarked vehicle contains the regular two-way police radio, but no weapons or confidential papers, they added.

WANT ADS

Here Are The Simple Rules

Our Classified Ads are the busiest, result-getting little power houses any time you use them. This offer of Guaranteed Results Want Ads is made to induce all of our readers (about 17,000 of them) to give them a try.

From Jan. 8 Until Jan. 31

Between Jan. 8 and January 31, place a 15-word Want Ad in the Snyder News for 6 consecutive days... if your Want Ad has not produced satisfactory results at the end of 6 days, The Snyder News will publish it for an additional 6 consecutive days without any additional charge! You don't have to call us at the end of the first 6 days because we will automatically continue it for another 6 days unless you call to cancel.

You're The Judge

You alone are to be the judge of results and we will accept your decision. If the advertisement is cancelled because of results before the first 6-day order has expired you will be billed for only the number of days the advertisement appeared at the Regular Want Ad Rate.

15-Word Minimum Size

You can use as many words over the minimum as you wish.

Everybody Is Eligible

Everyone is eligible for this offer whether an individual or business concern. It is not necessary to have a charge account with the Snyder News. Just Dial HI 3-5486, give your ad to our Ad Writer and say "Charge it." Most orders accepted.

RECOGNIZES AVALANCHE VICTIM—A policeman on the road from Ranchoirco to Manco, Peru, tries to reconcile an Indian woman who recognized the body of a relative, one of the victims of the avalanche that killed over 3000 persons in the Andes valley of Haugaylas. Only about 100 bodies have been recovered from the slide area. (AP Wirephoto)

New Phone Books Go In Mail Here

The 1962 edition of the Snyder telephone directory is to be mailed to customers today. Rusty Lummus, telephone manager said.

The new directory which has a gray cover will have 194 pages, according to Lummus. Lummus said approximately 10,000 copies have been prepared and, while many of these will not be mailed to customers, they will be used sometime this year. He said the telephone company finds they must replace directories in public telephone booths several times a year because of the heavy use the books get from customers.

In addition, dozens of copies will be mailed out of town to people who write to the telephone company and request copies of the local directory. Lummus said he expects to destroy their old telephone directories when the new ones are received.

He cautioned people to check the directories first to make sure they remove address and telephone number lists as well as other papers which they may want to keep.

"It is amazing," Lummus said, "when you learn the number of people who use a telephone directory as a depository for personal things like pictures, special lists and sometimes important papers."

Survey Of Damage Set

WESLACO (AP)—A survey is planned to determine damage to citrus trees from last week's hard freezes in the Lower Rio Grande Valley, the Texas Citrus Mutual says.

Gene Winn, manager of the mutual, said Monday there was some damage to two, three and four-year-old trees show few signs of not been determined. He said five-year-old trees show few signs of damage.

Juice concentrate plants are salvaging at least part of the damaged fruit.

It is estimated farmers will suffer \$19 million loss on the citrus crop also. Industry spokesmen say about \$4 million of this may be saved through sale of fruit for concentrates.

The \$19 million loss estimate is only on fruit, and not trees or vegetables.

Winn said unless weather turns too warm, the juice processing could continue a week or 10 days. Winn said a federal crop insurance program effective in the Valley last year covered only a small percentage of the citrus growers. Farmers and insurance men said they knew of no vegetable growers with such insurance.

Films To Pinpoint Balloon's Trouble

CAPE CANAVERAL, Fla. (AP)—Television and movie films taken in space are expected to pinpoint the trouble which caused a big space balloon to split apart high above the Atlantic Ocean.

Project officials theorized after the breakup Monday that perhaps the balloon carried too much air when it was launched, folded neatly in a canister aboard a single-stage Thor rocket.

A small amount of air was left in the bundle of plastic to help start the inflation process.

INSURE

WHAT YOU HAVE

Snow Season Is Dangerous

By WILLIAM C. OWEN
WASHINGTON (AP)—Today, this winter, you may throw your life away.

Or, to put it precisely, shovel or push yourself into the grave. It probably won't be easy to do, you'll have to put your heart into it—literally.

But you won't be expecting it, or you wouldn't be shoveling snow, pushing a stalled car out of a snowbank, climbing up a snow-mantled hill toward the deer stand, or doing one of a dozen other strenuous activities in the snow.

For snow-crystallized, water vapor—is bringing death to many persons—death by heart attack, and at times, by stroke.

That's the warning the American Heart Association has for you this winter, especially if you're one of the nearly 55 million Americans over the age of 40.

To stay alive, don't overexert yourself in snow. That's the first rule, the association says. During last week's big storm more than 50 deaths were attributed by authorities to overexertion in shoveling snow, car pushing and similar activities.

"Don't let winter be your Waterloo," says Dr. John W. Latimer Jr., president of the Washington Heart Association.

Approach snow-handling with common sense, and first get a health and heart check, he says.

Don't, for example, try to push your stalled car out of a snowbank singlehanded. Don't tackle

the job of snow shoveling with the vigor of a teen-ager, unless you are a teen-ager, and a healthy one at that.

People are lured to their deaths because snow looks innocent enough, says Latimer's association.

A physiologist has calculated the energy cost of shoveling snow with the usual 5-pound shovel. A shovelful of snow usually weighs about four pounds. Shoveling 10 loads per minute is equivalent to walking up three flights of stairs in the same period of

time. Wet snow, which is heavier, makes the job equal to climbing to the seventh floor in one minute.

Latimer says the unaccustomed exertion of snow work can play havoc with flabby muscles.

If you're overweight, get rid of the excess, he says. Even putting on bulky winter wraps can be a strenuous job for portly men.

(whatever your age), don't shovel snow without your doctor's approval.

"It's better to shovel before eating or wait an hour after eating. Never shovel to the point of exhaustion."

"When you shovel, lift with your entire body, letting your back and legs share the hard work with your arms."

"Probably the best piece of advice: hand the snow shovel to an ambitious youngster and go to the nearest skating pond for your exercise."

Pilot Swerves His Plane From School

OVIEDO, Fla. (AP)—A Navy pilot's last act swerved his blazing plane safely away from 200 children, and the jet bomber crashed several hundred yards from a crowded school playground.

Killed in the plunge Monday were Lt. Charles Hodgate Jr., 29, and two crewmates whose names were withheld. A fourth man, Belton E. R. Wilson, 33, of Sanford, Fla., a bombardier, parachuted to safety.

Hodgate, who lived in Sanford, leaves a widow and three children.

HERE'S HOW YOU CAN BE SURE OF ABUNDANT HOT WATER WORRY FREE!

INSTALL A MODERN FLAMELESS ELECTRIC WATER HEATER

Important advantages:

1 SAFE — NO FLAME

Perfectly safe in any location, an electric water heater has no flame to blow out, no fuel to leak, no pilot light or flue to worry about. And the outside of an electric water heater is always cool.

2 HIGH EFFICIENCY

Electric heating elements are in the water, inside the tank. The tank is completely insulated, even on the bottom, to prevent heat loss. And no heat is wasted up a flue. You get hotter water faster and it stays hot longer.

3 LONG LIFE

With an electric water heater, the tank bottom is not subjected to the corrosive action of flames. There are no valves to stick, no moving parts to get out of order. An electric water heater assures you many years of trouble-free service.

4 INSTALL ANYWHERE

Because an electric water heater requires no flue, it can be installed anywhere in the house, close to the point of greatest use. This saves long pipe runs and consequent waste of heat due to water cooling in the pipes.

5 SUNSHINE CLEAN

With an electric water heater, there are no by-products of combustion to soil walls or ceilings. No unpleasant fumes. No flue to accumulate soot. An electric water heater provides the cleanest method known for heating water.

6 MODERN — COMPACT

Choose from round or table top models at your plumber's or appliance dealer's. Compact round models require only four square feet of floor space. Table top models provide additional counter space in kitchen or laundry.
