

Heavy snow blankets area!

Snow began falling in the county about "dark" Monday eve., and has been falling all night, with a beautiful white blanket of snow, about 4 to 5 inches deep through-out the county. The roads are very slick and bad! If you don't need to travel stay home! And, weather experts are predicting a possible "white?" Thanksgiving for the Hansford County area!

Be sure and check out this issue of the paper for some "great" Thanksgiving food buys

Jim Smith
... new county agent

Jim Smith, a veteran of agriculture both as county agent and as a private agri-businessman and rancher, has assumed his duties as Hansford County Agricultural Agent.

He spent considerable time in the agricultural side of Monsanto Chemical Co., then, in 1969, the lure of county agent work with its opportunity to help shape the lives of the young in agriculture and to help area farmers and ranchers with the experience of his accumulating knowledge, got the better of him.

Late in 1969, he went to Texas County Okla. as assistant county agent. At the end of two years in that capacity, he was transferred to Hollis, Okla. He was there only eight months when the county agent at Guymon retired and he was sent back to Texas County Okla. as county agent.

In 1975, he went into the farm implement business. After he had built that business into a profitable, going concern, the opportunity to sell was also the opportunity to financially afford to go into the ranching business for himself.

So...for the past two years, Jim Smith-county agent and agri-businessman-has been living the ranching life.

When Hansford County lost its county agent, the folks at the Texas Department of Agriculture gave Smith a glowing recommendation-if he could be lured back into the work that marked the beginning of his career.

Thus it was that Jim Smith WAS lured-placed his application and was employed as the current Hansford County Agent.

Jim is a tall, personable chap and easy to talk with. So, he is going into the work in Hansford County with two advantages: likeability and the ability to communicate.

Happy Thanksgiving Day! May God bless all your family fellowships today.

Georg Frederick Handel's "The Messiah" will be presented by a full chorus and orchestra on Saturday, November 29, at 7:00 p.m. at the Perryton High School Auditorium.

Pastor Edward D. Freeman will be the chaplain at Hansford Hospital November 29-December 5.

Sunday, November 30 is Advent Sunday, the beginning of the Advent season-the four Sundays preceding Christmas. Presbyterian Women have been working hard on Chrismons for several months and will have a tree up in the sanctuary with their Chrismons for decorations. A family each Sunday in Advent will light the Advent candles.

There is a Sunday Church School class for everyone every Sunday at 9:45 a.m.

"Wake Up and Live!" will be the subject of Pastor Ed Freeman's sermon at the service for the public worship of God on Sunday, November 30, at 11:00 a.m.

Pastor Ed Freeman will be the speaker on "Daily Devotions" over KRDF-FM Monday through Friday, December 1-5, at 10:35 a.m.

Presbyterian Men will join with their brothers in Christ from other churches in the interdenominational men's prayer breakfast on Wednesday, December 3, at 6:30 a.m. in the garden room of the Cattleman's Restaurant.

There is a warm, Christian welcome awaiting everyone who attends any of the services and activities of the First Presbyterian Church.

Spaghet Supper

Come one come all lets support the roundball game! The Spearman Music Boosters' Association is having an all you can eat Spaghetti Supper with Salad, Toast and Tea. (THE SPEARMAN REPORTER, SPEARMAN, TEXAS 79081)

THURSDAY, NOVEMBER 27, 1980

Local farmer supports Girls Town!

Girls Town at Borger, began as a vision, became a reality...a dream-come-true for many girls needing a home, then a matter of vision again following a disastrous fire several months ago.

Sharing the rebirth were a number of people from Spearman, including members of the Spearman Lions Club-and J.D. Wilbanks in particular.

"There is no way the work and aid of any individual or group can fairly be measured against that of another," a Girls Town staff member said recently, "but there are some things a visitor just can't miss-things we are mighty proud of."

One of these is a metal pavilion erected over the tennis court. In large block letters along the drop-eaves is the name: "J.D. Wilbanks & Bill Farnum Pavilion."

Another mark of Wilbanks' handiwork are the cabinets in the Coffee Cottage at Girls Town. Cecil Jones of Amarillo, had a hand in this project, too.

Wilbanks hones a number of talents to a fine edge in the course of living off the land of this High Plains country and he has put them to work at Girls Town.

But he is one man. When visitors tour the facility east of Borger, there is little to show of the damaging blaze that brought destruction and some hardship to the installation.

Now, thanks to Spearman Lions and others in the area-and similar great hearts across the Panhandle, Girls Town presents a happy picture from the first porch to the last shadow point of the pavilion. There is the kitchen and recreation area at Spence Hall, another kitchen at the Coffee Cottage-and a general homey atmosphere where the young ladies at Girls Town are housed.

There is another vision there now, awaiting the eyes and the hearts of Panhandle people: Christmas for Girls Town.

Despite the hours and dollars of aid after the fire, it cut into plans for the holiday season but there are no long faces there. From the youngest to the oldest, girls are confident that Christmas lights-and love-will sparkle from the promontory being covered more each year with an expanded Girls Town.

Hospital News

Patients in Hansford Hospital are Sharon Whitefield, Mary Brown, Ellen Groves, Clara Jackson, Dan Jackson and Leonard Jameson.

Dismissed were Jody Rex, Donna Baker, Kenny Slaton, Ofelia Vela, Elizabeth Martin, Teresa Villines & son, Pete Owens and Collett Smith.

Pearl Pierce, director of Spearman's Golden Spread Center, was one of 125 delegates attending the Rural Mini-Conference on Aging in Oklahoma City. A survey conducted at the conference revealed that better in-home services, adequate income, proper nutrition, and improved transportation systems were the major concerns of the delegates attending the conference.

Physical well-being and energy related problems were also main targets of concerns for the delegates, who came from Texas, Arkansas, Missouri, Kansas, Missouri, New Mexico and Oklahoma.

That the problems are not being fully addressed was brought out by Richard Conn, the President's Counselor on Aging in Washington, D.C. In addressing the delegates, he

said, "Some persons have the pernicious notion that old people on the whole are not too badly off. They decry the 'graying' of the budget, which has brought a measure of relief to rural elderly, and seek to divert funds for their own pet projects."

Sylvia Hoagland, Secretary of the Kansas Department on Aging, pointed to the conference as a method of bringing the needs of rural elderly to the attention of federal and state officials. In a keynote address, she said, "Meetings like these provide the grassroots input to elected officials and service providers that keeps them informed as to the actual needs and the effectiveness of current service delivery systems."

The delegates expressed the notion that availability of in-home services and ability to keep pace with inflation were the two most pressing problems. With more in-home services, older persons would be able to remain in their homes longer and avoid premature institutionalization. The cost to the nation, they pointed out, is nearly three times higher for institutionalized care than for delivery of in-home services.

Continued on Page 4

50th Wedding Anniversary

The children and grandchildren of Gilman and Lois Flowers would like to invite all friends and relatives to a reception of their 50th Wedding Anniversary. They were married October 22, 1930, but due to illness we had to delay the reception until November 29. This will be held at

First Baptist Church, 706 Main Street, Canadian from 2:00 to 4:00, Saturday, November 29. The Flowers were married in Perryton and lived Southeast of Spearman 16 years before moving to Canadian.

Golden Spread Center News

Golden Spread Center will be closed on Thanksgiving Day. Senior Citizens will be enjoying a thanksgiving celebration with their families or friends. This is a time when we traditionally look back over the previous year and give thanks for the good things which our Lord has done for us.

God has supplied our needs... **Praise the Lord!** There has been turbulence in the world...perilous times have come. Governments, nations, and individuals have said that the old ways do not work any longer.

For the Believer...God still works the same. We have just made national selection of a president which should last for a four year period of time. It is important for every American...especially the Believer...to pray for our newly-elected President.

We need to pray not only for Mr. Reagan. We need to pray that there be dedicated Christian advisers-folks who are filled with the Spirit of God-who make up our president's innermost councils. These people need the guidance and instruction of the Lord, so that they can give our president-elect the information he needs to receive in order that our President can and will make the necessary decisions so that we can lead a quiet and peaceable life in all godliness and honesty. (1 Timothy 4:1-4).

We need to give thanks to God for the Christian growth which has occurred in our personal lives; our churches; our neighborhood; and our nation. We need to dedicate ourselves to building a Christian nation from the grass roots up! With God...All things are possible!

If you want a quiet, pleasant afternoon to recover from all the turkey and trimmings, come for an afternoon of table games on Friday, November 28, from 2:00 to 5:00 p.m.

The Golden Spread Center's van-bus will take a load of fifteen friendly fellows to hear a full chorus and orchestra present the ever inspiring Handel's

"Messiah" at the Perryton High School Auditorium on Saturday, November 29. The van-bus will leave the Center at 6:00 p.m.

There will be another afternoon of table games on Monday, December 1, from 2:00 to 5:00 p.m.

The annual Baker & Taylor Women's Christmas party for the Golden Spread Center will be on Tuesday, December 2, at 6:30 p.m. It will be a Christmas banquet such as only Baker & Taylor Women can produce. A nurse from the Panhandle Home Nursing Association will be present to take everyone's blood pressure. There will be singing. There will be all your favorite table game.

Ruby Lair will be driving the Golden Spread Center's van-bus on Wednesday, December 3, from 9:00 a.m. to noon, picking up the sixty-plus bunch and taking them shopping, to meet appointments, and to run errands. This service is supplied free to all people who are sixty years of age or older without charge. All you have to do is to call the Golden Spread Center (659-3521) on Tuesday and get your name on the list, and Ruby will drive up to your house and pick you up and take you where you need to go.

Marv Hendrickson and Martha Batton will be directing arts and crafts on Thursday, Decem-

ber 4, from 10:00 a.m. to 5:00 p.m. You should see all the cute Christmas decorations and gifts that they are making each Thursday. Every Thursday is something different. There is a break at noon for a sumptuous covered dish luncheon.

Golden Spread Center is open every day, Monday through Friday, from 9:00 a.m. to 5:00 p.m. for everyone who is fifty-five years of age or older. There are educational and fun things to do every day.

Christmas Bazaar

There will be a Christmas Bazaar at The Church of the Brethren of Waka, on November 29 from 10:00 a.m. to 3 p.m. It is sponsored by the ladies of the Fellowship. Some of the money will be used for a girl from Girls' Town and other needy causes.

There will be gifts, toys and baked goods. Come and see what you will find for Christmas and enjoy a cup of coffee.

"Country Collections" 1st Christian Church-Spearman Christmas Bazaar Sat., Dec. 6th 10:00 a.m. - 2:00 p.m.

Afghan

In this time of inflation, wouldn't you like to have a Christmas gift for a dollar? That's just what you can have and help the YMCA, too.

Mrs. Janie Simpson from Knoxville, Tennessee has crocheted and donated a 2-tone reversible blue afghan as a fund raiser for the Y. The afghan can be seen at JG's during this week. And at Hickerson Jewelers next week. The drawing will be held just prior to Christmas. Tickets are available at the Y or from any board member-Dick Elbert, Tommy Russell, Sandy Russell, Charles Shieldknight, Jim Ivey, Ray Thomas, Rick Riggins, Marva Hohertz, Rondal Schell, Ed Dear, Frostie Hickerson, Ronnie Lusby, Kim Brock, Rev. Don Wirsdorfer, Carl Reed, Tim Woodington, Jackie Pearson, Mike Schnell, Cecil Biggers, or Jim McLain.

Ministerial Alliance Meets

Spearman Ministerial Alliance will meet on Tuesday, December 2, at 9:30 a.m. at the First Presbyterian Church. Romeo Reyes, pastor of the Mexican Baptist Mission, will lead devotions.

Not So Fast
He-I feel like a better man every time I kiss you. She-Well, you needn't try to crash the heavenly gates in one night, big boy.

Ouch!
Tourist: What's the speed limit through this quaint town?
Native: There ain't none; you city folks can't go through here fast enough to suit us.

The idea that the world is evil explains much of what we read and hear.

Matter of Direction
Madge-Jack's proposal was so sudden it made me jump.
Maria-At it, of course.

Sure Cure
Salesman: Your wife used to be so nervous. Now she seems quite cured.
Feed Dealer: She is. The doctor told her that her nervousness was a sign of old age.

Most people overvalue compliments and undervalue constructive criticism.

Methodist News

The Spearman UMYF (United Methodist Youth Fellowship) is offering a winterizing program for the citizens of Spearman to raise money for their church related activities. This program will include such things as weatherstripping and caulking the doors and windows, installing your storm windows, and tightening up thermal envelope of your home.

Men's Prayer Breakfast Set

John Trimmell, owner of B & J Wholesale Plumbing Supply and an elder in the First Christian Church, will be the speaker at the interdenominational men's prayer breakfast on Wednesday, December 3, at 6:30 a.m. in the garden room of the Cattleman's Restaurant. Every man in the community is invited to enjoy this warm, Christian fellowship.

INSULATE NOW—
don't let high heating costs catch up with you!

With the coldest months of the year just around the corner, there's no time to lose! Now is the time to "winterize" your home so you can heat it more efficiently and economically. Insulation is just about the biggest energy saving step you can take. If adequate insulation is installed, you can save up to 30% on monthly heating costs! Make sure the insulation you choose meets the R-value requirements of your area. This is extremely important to hold in warmth effectively and help hold down your heating bills. To get the facts on insulation, call our office.

Inflation - Fighting FOOD IDEAS
Harmonious Ham Medley

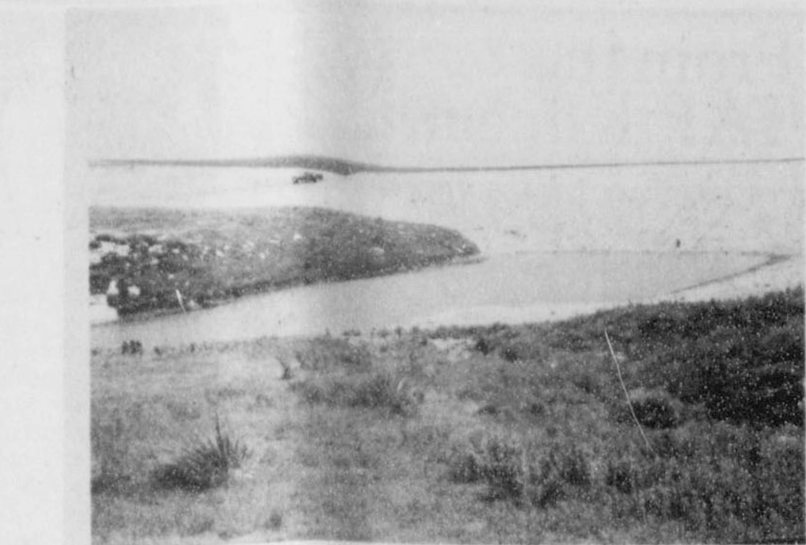

You can make a marvelous meal in minutes-for practically pennies-and put it all in one dish to save time and trouble, too, thanks to the versatility of rice and the hearty flavor of ham. As the rice kernels cook they absorb the mixture of delectable flavors. That's the way plentiful high-quality American rice battles budget problems, extending more high-priced fare.

HAM MEDLEY
3 cups cubed cooked ham, 1/2-inch cubes
2 cups chicken broth
1 teaspoon salt
1/4 teaspoon pepper
2 medium onions, sliced
1 cup uncooked rice
1 can (14-1/2 to 16 ounces) tomatoes
1 tablespoon prepared mustard
1 large green pepper, cut into thin strips

Place meat in a large skillet. Add broth, seasonings, and onions. Sprinkle rice over top. Heat to boiling, stir well, lower heat, cover, and simmer for 15 minutes or until rice is tender. Stir in tomatoes, mustard, and green pepper. Heat about 5 minutes. Makes 6 servings.

CRACKED EGG REMEDIES: Egg breakage is currently one of the biggest concerns of workers in the egg industry, contends a poultry marketing specialist with the Texas Agricultural Extension Service, Texas A&M University System. Eggs can be protected from breakage in two ways-development of a stronger shelled egg and through careful handling. The less handling, the better. This means washing, sorting and packing right on the farm.

Ponds and reservoirs are bodies of water created by constructing an embankment across a water course.

Water is as important as the forage in the production of livestock. Adequate water in pastures will give a better distribution of grazing in a pasture.

A pond should be of a size

that will meet the needs of all livestock that will use the surrounding grazing area. Ponds can be used for fish, wildlife and recreation.

A pond that is constructed and managed properly may yield from 100 to 300 pounds of fish annually for each acre of surface water. This is about equal to beef production realized from average improved grassland.

Ponds can provide recreation such as swimming and boating for the family and friends.

For more information and assistance regarding farm ponds contact the Soil Conservation Service office in Spearman.

When King Louis XII of France visited Milan in 1509, Leonardo da Vinci is believed to have constructed a mechanical lion that walked toward to King's throne, stopped humbly before him, and ripped open its chest with its claws. Fleur-de-lis, the symbol of the French royal house, tumbled out at the King's feet.

ATTENDED CONFERENCE
continued from page 1

Income was closely associated with employment opportunities, and the delegates stated a need for expanded availability of jobs, such as through the Green Thumb Senior Community Service Employment Program. By being provided with these employment opportunities, older persons earn additional income, retain their self-esteem, and continue to contribute in a productive manner as they have been doing in the past.

The conference was conducted by Green Thumb, Inc., a federally-funded employment program for rural senior Americans, and by Oklahoma's Special Unit on Aging, Carl Larson, President of Green Thumb, led the conference activities.

The delegates adopted sixty resolutions which will be combined with resolutions from five other Area Mini Conferences held across the nation. These resolutions will be submitted to delegates to the 1981 White House Conference on Aging in Washington, D.C.

Mail Early

The U.S. Postal Service urges customers to begin mailing Christmas holiday parcels and greetings destined to military personnel serving overseas and to civilian friends in foreign countries.

The following dates are recommended for holiday gifts and greetings going to foreign countries to be mailed no later than:

SURFACE (regular postage)
...December 1st
AIR or PRIORITY MAIL....
December 10th

SHOP EARLY and MAIL EARLY to assure delivery before Christmas.

In addition, all Christmas mail, parcels and greeting cards destined for the continental U.S.A. should be mailed not later than:

SURFACE (regular postage)
...December 12th
PRIORITY and SPECIAL DELIVERY....December 19th

WHO KNOWS?

1. In what country is the highest lake in the world located?
2. How long is the Missouri River?
3. Where was Cathay?
4. What is the state flower of Rhode Island?
5. How old is a quadragenarian?
6. By what other name are cyclones called?
7. When did a November hurricane last hit the mainland?
8. Who founded the Society of Friends (Quakers)?
9. How many Friday the 13ths were there in 1980?
10. How many Friday the 13ths will there be in 1981?

Answers To Who Knows

1. Bolivia-Lake Titicaca.
2. 2,551 miles.
3. Cathay is the ancient name for China.
4. The violet.
5. In the forties.
6. Hurricanes.
7. November 4, 1935, at Miami.
8. George Fox.
9. One, June.
10. Three, in February, March and November.

ONE MINUTE SPORTS QUIZ

1. Who won the AL Cy Young Award?

Public Hearings

Five public hearings are scheduled jointly by the Texas Department of Water Resources and the Texas Department of Health to receive comments regarding a proposed solid waste management plan for Texas to be effective from 1980-1986.

Responsibility for industrial waste disposal in Texas rests with the Department of Water Resources, while the Department of Health has jurisdiction for municipal wastes.

Hearings on industrial waste will be held at 10 a.m. in each of the five cities, with the exception of Houston where the hearing is scheduled for 7 p.m. to accommodate representatives of the large industrial complex there. Municipal waste hearings will be held at 1 p.m. at all five locations.

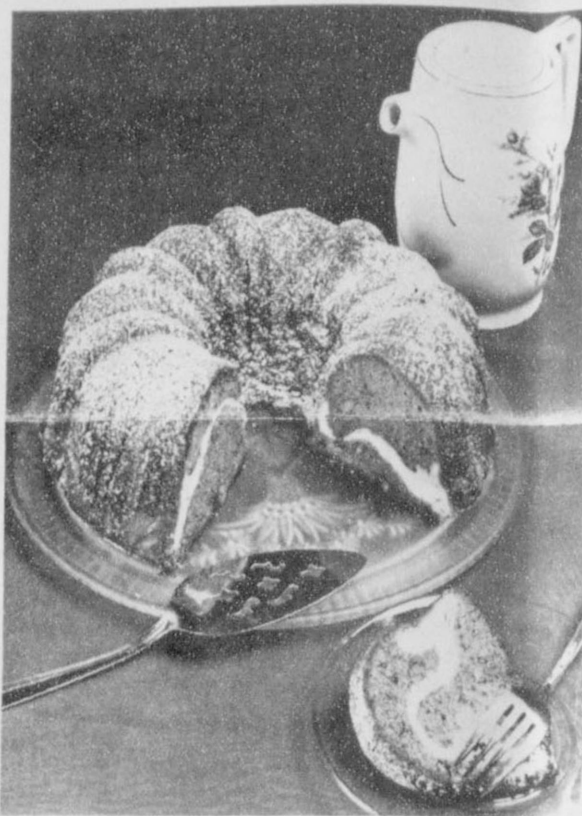

Places and dates are as follows: Midland, Dec. 2 at Midland College; Euless, Dec. 3 at the Community Building Gymnasium; Corpus Christi, Dec. 9 at the Nueces County Health Department; Houston, Dec. 10 at the University of Houston's Cullen Auditorium; and Austin, Dec. 12 in the Stephen F. Austin State Office Building.

Purpose of the plan is four-fold: to ensure coordinated efforts between solid waste management programs; to define problems; to establish goals and objectives; and to outline strategies, procedures and time tables for their achievement. Major goals of the plan are to: provide protection to human health and the environment from improper management of industrial solid waste; to increase the recovery and re-use of materials and energy from municipal and industrial solid waste streams; provide a coordinated approach to solve industrial solid waste problems; increase public awareness of solid waste issues and provide opportunities for participation; and foster understanding of the regulatory program to improve the efficiency of those who must comply with the regulations.

Interested persons are encouraged to attend the hearings and to present comments concerning the proposed plan if they wish to do so. Groups and associations wishing to submit testimony should be represented by one spokesperson. Written testimony also may be submitted, and should be postmarked by Dec. 17, after which testimony from all of the hearings will be considered and incorporated, as appropriate, into the final plan.

Questions regarding the plan may be addressed to Mr. Glendon D. Eppler at the Texas Department of Health (512/458-7717), 1100 W. 49th Street, Austin 78756, for the municipal waste plan, and Mr. Dan Eden (512/475-2041), Texas Department of Water Resources, P.O. Box 13087, Austin 78711, for the industrial waste plan.

From the TAP Kitchen

SWEET POTATO CREAM Cheese Cake can make coffee time a special time, notes the Texas Department of Agriculture home economist. This delicious item, which takes advantage of a plentiful supply of Sweet Potatoes now in season, can also make a tasty after-Thanksgiving-dinner treat as well.

SWEET POTATO CREAM CHEESE CAKE

- 2/3 C. butter
- 2 C. sugar
- 4 eggs, divided
- 1 whole egg
- 1 egg yolk
- 1 C. cooked sweet potatoes, mashed
- 1 C. buttermilk
- 2 C. flour
- 1 tsp. soda
- 1 tsp. allspice
- 1 tsp. cinnamon
- 1 tsp. ground cloves
- 1 tsp. nutmeg
- 1/2 tsp. salt
- 1 tsp. vanilla
- 1 (8 oz.) pkg. cream cheese

With electric mixer in large bowl, cream butter and sugar. Add egg yolks, mixing well. Pour in potatoes. Sift dry ingredients together and add to sugar mixture alternately with buttermilk. In separate bowl, beat egg whites until stiff. Fold in egg whites and vanilla. In another bowl, beat cream cheese with 1 whole egg and 1 egg yolk until fluffy. Grease and flour bundt pan. Pour in small amount of cake batter in bottom of pan. Then pour in cream cheese mixture. Pour in remainder of cake batter. Bake at 350 degrees F. for 1 hour or until cake tester comes out clean. Cool cake and sprinkle with confectioners sugar.

For additional recipes, write: Commissioner Reagan V. Brown, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

Empty heads appreciate empty honors and there are plenty of both these days.

Now that the heating bills must be paid, summer didn't seem so bad after all.

The Church, as an institution, deserves your support, not because it is perfect, but because it strives in the right direction.

"Patience and delay achieve more than force and rage."
Jean de La Fontaine

If you can keep from being envious and jealous of your fellow-man, you are approaching the outskirts of civilization.

Hard work is probably a good thing for mankind but there are many who want very little of the good things.

Careful habits will often save someone's life and the interesting part of it is that it might be your life that is saved.

SPEARMAN, TEXAS

Nixon's War

Richard Nixon's new book *The Real War* is the finest and clearest analysis of the threat facing America today, yet published.

It is full of facts, dates, quotes, hard truth and solid reasoning; and only a former president who had for years full access to U.S. intelligence sources could have written it.

The Real War should be must reading in every high school and college. Only if the American people clearly grasp the nature of the political, military and economic threat, and war that we are now experiencing, will public sentiment support the actions necessary to safeguard U.S. and western-world freedom.

Regardless of the reader's views on Nixon as a president, politician or person, this book is of critical and timely value to all Americans. It cuts through the propaganda and wishful thinking of the moment and paints the true, grim picture of the competition between democracy and communism for world dominance today.

It shows what must be done, very soon, and how the communists today are winning the contest for control of the world's strategic areas and resources. *The Real War* (Warner Books-Random House) may be Richard Nixon's greatest contribution yet to the free world.

The Senate Turnover

The unexpected Republican takeover of the U.S. Senate in the recent election is, in effect, a 20th century watershed in American politics. For the first time in a quarter of a century, the Republican Party once again controls a house of Congress.

That means the steady drift to the left in social programs and spending is checked, temporarily at least. The effort by organized labor to repeal certain laws is checked, at least for a time. Right-to-work laws are probably secure.

Welfare recipients may soon have to work more, or get less. The bureaucracy will not expand so rapidly, and may even decrease in some areas. Defense spending will get a higher priority. There will, in time, be fewer federal regulations and, hopefully, less federal direction in some sectors of private industry. With a conservative Senate and a conservative president, these changes are probably assured.

Republican control of the Senate also reduces the power of Democrat leadership in the lower body—because, as of January 20, it will be two-to-one odds in the legislating process—counting the presidential veto as one of the three power factors.

The public must also now get accustomed to seeing Republican chairmen of powerful Senate committees. Chairmen control, to a degree, the flow of legislation to the Senate floor. They are centers of considerable power.

Finally, the G.O.P. victory in the Senate removes Senator Edward Kennedy from his chairmanship, and removes a built-in news-making posture for the Democrat likely to emerge from the G.O.P. landslide as the leading Democrat contender for 1984. Senator Strom Thurmond (R-SC) replaces Kennedy as chairman of the Judiciary Committee.

Illegal Aliens

Michael Teitelbaum of the *Ford Foundation*, writing in the current issue of *Foreign Affairs*, quotes a Roper poll as showing that 91 percent of the public wants an all-out effort made by the federal government to check the flood of illegal aliens into the U.S.

Dr. Lawrence Fuchs, executive director of a presidential commission studying the crisis, says the select commission has found growing anxiety, even outrage, over the unchecked flow of aliens into this country at a time of high unemployment.

Surely this is an area where the Reagan victory mandates remedial action. The United States is the only leading country in the world which does not seriously and strictly enforce its immigration laws.

As a result, no one today knows how many illegal aliens are in the country, but their number is estimated at up to 10,000,000—with a million and a half coming across the Mexican border each year (about half are returned to Mexico).

Since there are about 8,000,000 unemployed Americans today, it's clear that the illegals, most of whom have found jobs (that's why they came) have helped create unemployment in the United States.

The nation cannot allow such a rapid influx of aliens, who cannot possibly be assimilated into our society as other aliens have been in the past. Such an influx creates undigested conclave within the country—and bitterness and racial unrest.

President-elect Reagan risks a serious backlash reaction if this problem is not addressed. President Carter unfortunately played politics with the crisis, hoping for a big Hispanic vote, at awful potential cost to the nation.

The commission Carter appointed to again study the crisis, will report early in 1981. That will afford Reagan a good opportunity to act vigorously—and Congress will almost certainly back him if he does. The first step in a new policy would seem to be stiff penalties for employers hiring illegals knowingly, and identity cards for all Americans.

Poll Winner?

Pollsters like to tell readers (and viewers) that their margin of error is about three percent. That's the line used by Gallup, Roper, CBS/New York Times, Harris, Associated Press/NBC, etc.

In the election earlier this month, most of them missed by about ten percent. Only the Lou Harris poll came closer and only at the very end. Other polls announced the day before the election, or the morning of the election that the result was "too close to call."

The now-discredited *Washington Post* poll predicted a Carter victory! So much for the accuracy of the polls. One reason they cannot be accurate to within three percent, as claimed, is that they contact too few voters. Even the Lou Harris poll, which came closest, contacted only 640 people in its last sampling. Obviously, this isn't enough.

How Much Defense?

Indications are the new Congress will increase defense spending considerably. Today's defense budget (under Carter) is about \$157 billion. There's a good chance that from \$20 to \$37 billion will be added early next year. From then on, a \$200 billion defense budget in 1980 dollars is likely.

The best guess is that the following changes will be made: Trident submarine production is likely to be increased from one to three annually. Another three or four SSN 688 hunter-killer submarines will be added annually. (President Carter has asked only one a year.) Construction of nuclear aircraft carriers will be resumed. (Mr. Carter has not requested any more.) The 100 "excess" Minute Man missiles are likely to be deployed. A new bomber, deriving from the B-1, is likely to be built (Rockwell International).

These increases in defense spending are minimums the new Republican-controlled Senate feel necessary—and President-elect Reagan is said to be ready to go along with them. If savings in the neighborhood of the same amount can be effected, the inflationary and deficit spending effect of the increase will be minimal.

Senator Jesse Helms (R-NC), upcoming chairman of the Senate Agriculture Committee, feels he can cut the food stamp program by about \$5 billions without withholding money to those who deserve it. Senator John Tower (R-Tex) feels there is probably more than \$10 billion waste in the Department of Health, Education and Welfare. (the head of HEW has admitted \$7 billion in waste.)

If Republicans can beef up national security by largely eliminating waste and fraud, voters will almost certainly approve.

December, 1980

*Haile To December' say they all.
It Gave To Earth Our Christ, the Lord'*
—J.K. Hoyt.

December, the last month of 1980, arrives with happy anticipation of Christmas, homecomings and celebrations. The children's magic world of Santa Claus is played out on the anniversary of the birth of Jesus.

December 7 is the anniversary of the Japanese attack on Pearl Harbor, in 1941. Martin Van Buren, 8th president, was born at Kinderhook, New York, on the 5th in 1782. Delaware Day falls on the 7th. Wyoming Day is on the 10th and Indiana Day on the 11th.

Washington died on the 14th in 1799. On the 15th in 1791, the Bill of Rights became a part of the United States Constitution. The Boston Tea Party was staged on the 16th in 1773. On the 17th in 1903, man made his first flight in an airplane at Kitty Hawk, North Carolina. On the 19th in 1777, Washington encamped his 11,000-man army at Valley Forge, Pennsylvania, after the British had occupied the capital, Philadelphia.

The nation acquired the Louisiana Purchase on the 20th in 1803. Washington won the Battle of Trenton, N.J., on the 26th in 1776, the turning point of the Revolution. And Woodrow Wilson, 28th president and one of the great presidents, in the view of many, was born at Staunton, Virginia, on the 28th in 1856. Andrew Johnson, 17th president, was born at Raleigh, North Carolina, on the 29th in 1808.

The Computer Age

One gets the distinct feeling as time marches on that the computer age is not all good. For one thing, computers aren't human. They are cold blooded. For another, they don't apologize for mistakes; and their mistakes, if always blindly accepted, can be quite serious, even fatal.

The industry argues that computers don't make as many mistakes as humans, a point which is probably true. But the mistakes computers make are often much harder to correct. And in some instances, the correction is an involved process.

Someone has to program a computer to achieve corrections. And it should also be remembered that a clever operator, by choosing the parameters, can make a computer prove almost anything.

How many people have experienced computer errors in their bank accounts, stock brokerage accounts and department store accounts? How many have been at least partially rebuffed by the familiar story that "the computer arrived at that figure and doesn't make mistakes."

Computers do make mistakes and operators using them make mistakes. And just because the figure or sum or amount comes out of the computer, it isn't necessarily correct. This increasing dependence on computers for more and more is, in fact, a bit intimidating.

The individual today sometimes feel as if he were at the mercy of a mass of electronics and those hired to man the machines, which electrical surges can sometimes upset, and which periodically develop technological problems.

Dear Louisa,

I have a good husband and we have two dear little children but our worst problem is there never seems to be enough money that we would like to have to give our children the things that so many of their friends have.

My husband doesn't have a big salary but he is very thoughtful to me and gives the boys a great deal of time. He takes them for walks on holidays and Sundays and plays simple games with them or reads to them before they go to bed.

I could get a job as I have worked before the children came but they are three and five years old and I feel that they need me. I do my own work and as my husband's work is close by he comes home for lunch and I try to have nourishing meals. We also have a small garden

which helps our grocery bill. The children seem happy now but do you think they will resent doing without things later on?
M.M.—Tenn.

Answer:

Your children, in my opinion are receiving the most important things in the world—the love, attention and understanding of their parents. This will mean more to them later on than any of the material things you could have given them.

Later on, when the children are in school, you might take a part-time job to help out, as their real needs become greater but, while they are small, it will be better to stay on the home job.

Louisa,
Address: Louisa, Box 532, Orangeburg, S.C. 29115

Reagan Victory's Significance

The full significance of Ronald Reagan's one-sided electoral vote win over President Carter is still not fully perceived. Basically, it shows a slim majority of Americans remain who disapprove of the often-winning Democrat political formula of ever-increasing spending.

The Democrat political formula of 1976 was the union of the South and big-city Democrat machines, unions and minorities—including blacks and Jews but also Catholics to some degree—to outvote the traditional American majority. The defection of so many Catholics, Jews and blue collar workers this year made Reagan's victory decisive. It indicates the old, blind-allegiance Democrat bag for these groups and Dixie may never work again as it once did.

Surely the election shows the formerly solid Democrat South is no more. The turn away from somewhat automatic allegiance to the Democrat Party, begun in the forties and fifties by leaders like the late James F. Byrnes and Senator Strom Thurmond, has become a reality. Big-spending Dixie Democrats cannot count on carrying just enough of the white vote to gain election, with a solid black block vote. Senate races in North Carolina, Georgia, Alabama, etc., clearly indicated as much.

Of course, Democrats being the majority party, they will recover and come back, sooner or later. But they will probably never again be able to win so easily with northern city machines and an assured Dixie, as Carter did in 1976. And it may be that very liberal Democrats, who have won in the past in part by turning the poor and minorities against others, have had their day for a time. (They have sometimes won in recent decades by playing to minorities with divisive and racist campaigning.)

Carter's election in 1976 was, of course, a political freak. The Watergate scandal had practically doomed the Republican candidate, though President Ford ran a surprisingly strong race. Carter captured the South overwhelmingly, as the first southerner nominated in a century, with the emotional support that bestowed on him. But that may be the last time for many years there is such a bloc southern vote.

The two-party system is therefore at least entrenched across the nation. That's gratifying. No party should dominate too long, either in one region or nationally.

RECIPE

By Sarah Anne Sheridan

If you prefer ham instead of turkey, here is a good way to fix ham.

Fruit-Glazed Ham

The day before you cook the ham remove gelatin from one 5-pound canned ham; place ham in pan; with fork, pierce deeply several times. Into small bowl, drain juice from one 17-ounce can purple plums; refrigerate plums. Combine juice, 1 cup packed light brown sugar, 2 teaspoons grated orange peel, ¼ cup orange juice, 1 teaspoon dry mustard, ¼ teaspoon ground cloves; pour over ham. Cover; refrigerate 24 hours, turning ham occasionally in marinade.

About 2 hours before serving, preheat oven to 325 degrees. Remove ham; place on rack in shallow pan; bake 1½ hours, basting with marinade. Remove from oven; make 1/8-inch-thick slashes in top; sprinkle with ½ cup packed light brown sugar; pour on rest of marinade. Bake 30 minutes or until meat thermometer reaches 160 degrees. Garnish with reserved plums. Makes 20 servings.

Here is a recipe to go with any holiday meal.

Nuttet Yam Balls

Drain, then mash two 17-ounce cans yams; add ½ teaspoon salt, 1/8 teaspoon pepper, ¼ c miniature marshmallows and 1 tablespoon butter or margarine, melted. Form into 10 balls. Preheat oven to 350 degrees. Heat ½ cup honey with 1 tablespoon butter. With 2 forks, roll each yam ball, first in honey mixture, then in 1½ cups chopped pecans; place in baking dish. Spoon 2 tablespoons melted butter over yams; bake 15 minutes. Makes 10 servings.

The Consumer Alert

by Mark White
Attorney General

AUSTIN—As the holiday season approaches, many consumers consider purchasing larger gifts on credit. In making the decision to extend credit, Texas merchants rely heavily on credit bureaus, which sometimes are sponsored by the retail merchants in the community and sometimes are independently run. The function of credit bureaus is to act as an independent third party, performing the task of gathering information from businesses with whom the consumer has traded, and making that information available to other creditors.

In the past, there have been reports of abuses by some unscrupulous or careless keepers of credit records. To remedy such abuses Congress enacted the Fair Credit Reporting Act, which sets standards for proper operation of credit bureaus and firms which perform credit record checks.

Let's assume a merchant denies you credit based on your credit record and you want to know why. The law guarantees you the right to be given the name and address of the credit bureau which prepared a report that resulted in the denial of credit or an increase in the cost of credit or insurance. You also have the right to be informed of the "nature and substance" of the information in your credit file although you need not physically be given your file. This information must be given to you free of charge if you were denied credit, but a small fee can be charged if you are simply curious about the contents of your file. Furthermore, you can take

someone along when examining your credit record and the credit bureau is required to tell you the names and addresses of anyone who received a report over the past six months, or over the past two years in the case of employers who received the credit information.

If there is a dispute about information in a file, the bureau can be required to reinvestigate and remove the information if it is inaccurate or cannot be verified. In such cases, you can require the agency to notify anyone who received incorrect information, free of charge. You also have the right to have your version of a dispute placed in your file and included in future reports. Finally, you are protected against the reporting of obsolete information since, except for bankruptcies, adverse information older than seven years cannot be reported.

When planning an installment transaction this holiday season make the credit system work to your advantage by being frank and open with credit interviewers. If a family illness or other problem caused slow payment in the past, don't be afraid to explain. In the long run it's much better to let the creditor base his decision on all the facts as explained by you than to find out later that the information you gave was incomplete.

If you have questions or run into any practices you believe violate the Fair Credit Reporting Act feel free to contact the Attorney General's Consumer Protection and Antitrust Division office nearest you.

ON HEALTH AID

Ronald Reagan's health task force is seeking to dispel the notion that the president-elect might disrupt Medicaid and Medicare programs. It is recommending that Reagan consider a plan to replace the current Medicare system with one in which senior citizens would be given checks and told to find their own health insurance.

LOSES SENATE POWER

Sen. Ernest F. Hollings, (D-SC), who took over the reins of the Senate Budget Committee from Sen. Edmund S. Muskie, (D-Maine), midyear, finds himself a man without a solid base. He will yield the chairmanship to Republican Sen. Pete V. Domenici, (R-N.M.). Also gone will be the power that comes with being part of the majority party in the Senate.

DRIVELINE

Most people injured in auto accidents are within 30 miles of home. Fifty percent of the accidents are within five miles of home.

As you read this, there are an estimated 362 million motor vehicles sputtering, roaring and zooming along the world's highways. Two out of five of all the world's cars and trucks are registered in the USA.

It's buckle up time. All the time. Use those car seatbelts, especially for your children. In a 30 mph crash you can strike the dashboard with the force of a fall from a three story building. And if you think it can't happen to you, the odds are one in five that you will have some kind of car accident this year.

Believe It Or Not . . . Almost half of the 50,000 per year American traffic fatalities are people under 30. Car accidents are our greatest killer of young Americans.

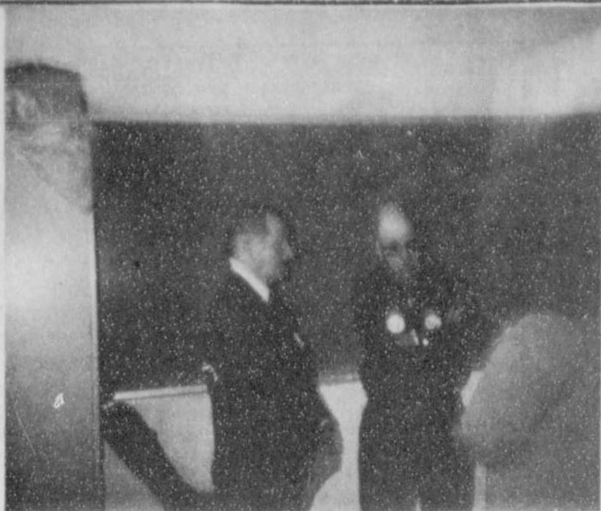

BEWARE: A recent study showed that over half of all motorcycle accidents are caused by motorists who said they didn't see the cyclist at all or until it was too late to avoid a collision. Street intersections are the worst danger zones. Never commit yourself until you know its safe to turn or proceed through an intersection. Make sure the other traffic sees you.

TEXAS OFFICE OF TRAFFIC SAFETY

1st Session Of Green Thumb Completed

Ernest Newcomb, employed under Green Thumb at the Stationmaster's Museum, and Edna Hays, employed by Green Thumb at the Golden Spread Center, were among the Green Thumbs from five counties gathered at the Frank Phillips College in Borger to attend the first training session of Green Thumb in the northern part of the Panhandle of Texas.

The meeting began on a light note with singing and guitar playing by Joan Mahaffey, District Director of Green Thumb, before getting down to the more serious issues on the agenda.

Pat Cook, social worker for the Department of Human Resources, Dumas, Texas, gave a very interesting talk on alternate care for the elderly, the food stamp program and

Medicare/Medicaid.

Jim Bolivar, manager of the Texas Employment Commission, Borger, spoke to the group on interview tips for mature job seekers.

Coordinator for this training event was area supervisor of Green Thumb, Inc., Darrell Hale of Plainview.

Ed Freeman drove Newcomb and Hays to the training event and Pearl Pierce, Mrs. Hays' supervisor at the Golden Spread Center, joined the training event for the afternoon session.

Green Thumb is a national older worker employment program founded by the Department of Labor and sponsored by the Farmer's Union. It has operated in Texas for the past ten years but has only been operating in the northern part of the Texas Panhandle for about a year.

On Bikes

The magazine *Consumer Reports* has reported (November) on its test of bicycles. Among the interesting observations was one that a top-rated ten-speed bike would cost, perhaps, \$350. But, the magazine reported, you can come quite close to the same bike for \$150 less.

So, those about to buy their first ten-speeder can figure on spending \$200. In fact, for the beginner or someone buying his or her first ten-speed, it may be wise to go the \$200 route.

And, says the rating magazine, buy a bike which fits your body. The frame should measure 9 to 10 inches less than the rider's inseam. (The frame is measured from the center of pedal crank to top bar—sizes range from 18 to 25 inches.)

On a male's bike, you should be able to stand with both feet flat on the ground, and clear the top bar by about an inch. Saddle height should be adjusted so that the rider's legs are practically full extended with pedal at the lowest position. If the seat has to be raised more than two or three inches to accomplish this, the frame is probably too small.

You can push the bike across the floor by holding only the saddle to see if it is properly aligned. And—says the report—buy a lock. Ten-speeders are the choice of bike thieves!

Texas Farmers Union News

Texas Farmers Union President Jay Naman, who has served the statewide farm organization for 19 years, has told TCU Executive Board members meeting here today that he will not be a candidate for re-election when the general membership holds its annual convention in Dallas January 8-10.

Naman, a 55-year-old cattle raiser from Waco, said his decision was "based partly on what I consider the best interest of Texas Farmers Union and partly on personal considerations." He further stated that he intends to continue his involvement in agriculture and will remain an active participant in the Farmers Union.

Several candidates are expected to announce for the post which will be filled through the vote of convention delegates representing chartered county chapters across Texas. Texas Farmers Union, with a membership near 10,000, is one of 22 states in the National Farmers Union which represents around 350,000 farm families.

The general farm organization experienced dramatic growth in Texas after Naman took office in 1961, expanding from a membership of only several thousand concentrated in North and Northwest Texas to its current geographic spread from the Panhandle to the Gulf Coast. Serving as both president and chief executive for the state organization, Naman has also held an automatic position on the National Farmers Union Board of Directors. He has additionally served in an elected position on NFU's Executive Board and sat one term as Chairman of the Executive Board. In making his statement of intent to step down in January, Naman predicted, "Family farmers and ranchers should soon see the 'golden years'. They shall, if they are responsibly organized and represented with credibility."

He concluded, "Our organi-

zation is the only organization that meets the criteria and has the potential of providing this kind of representation. I expect to play a role in helping our new leadership rise to the challenge."

MECHANICAL BRUSH CONTROL FOR FALL, WINTER. Chaining, root plowing and grubbing are all effective mechanical methods for controlling brush during fall and winter months, according to a brush and weed control specialist with the Texas Agricultural Extension Service, Texas A&M University System. Chaining of mesquite is most effective about three years after a herbicide has been used. Since root plowing is expensive, it's best suited for sites with high production potential. Grubbing works well on thin stands of brush and is also useful as a maintenance control measure.

Goodness is never a comparison.

The problem of any problem is to find the facts.

To read with understanding is to be educated.

This is the time of the year for hunters to be careful.

A balanced life includes work, recreation, meditation and study.

Life's hardest task: living each day by the Golden Rule.

Facts are very often stubborn things and well concealed.

Thanksgiving, 1980

Our American Thanksgiving dates officially from 1863 when the nation was locked in sectional struggle. Mrs. Sarah J. Hale, who had been proposing a national day of thanksgiving for decades in Boston and Philadelphia as a magazine editor, wrote to President Abraham Lincoln—who, in October of 1863, issued the first Thanksgiving Proclamation.

There had been earlier thanksgiving days; some date the American observance to the early settlers—who gave thanks for their food supply and the opportunity America offered. The first probably occurred in the Plymouth Colony in 1621.

There have been observances in other lands, but few countries had adopted annual thanksgiving days prior to the American observance.

An international thanksgiving day was held in Washington in 1909, having been conceived by the Rev. Dr. William T. Russell of St. Patrick's Catholic Church.

Thus, American Thanksgiving Day, this year on the 27th, is uniquely American. In 1980 it finds us still blessed with peace and plenty, though there is concern over U.S. hostages and the future.

In giving thanks for our many blessings, Americans should remember there's still much to be done in building of our country, and in preserving its freedoms.

ABOUT YOUR

HOME

By April Rhodes

Tired of stopping to pick up pins in the sewing room? Tape a small magnet on the end of a yard stick and save your back.

House plants require less fertilizer during winter months. They have less sunlight to promote growth.

For good luck when taking a written test, some say to use a new pen or pencil, because it has never made a mistake.

Drive Thankfully

The Pilgrims were lucky they didn't have to drive to their Thanksgiving dinner. Holiday traffic can be tough. So be extra careful driving to and from your celebration. Relax, obey speed limits, and be alert for other drivers. It's a great life... so Drive Thankfully.

We will be CLOSED

Thursday Nov. 27th

Thanksgiving

"While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."

Genesis 8:22

The harvest each year should remind us of God's great promise to man. This promise was made right after the great flood, from which only Noah and his Ark survived. Just prior to the flood, all men lived so evilly that it grieved the Lord that he had made man on the earth.

THANKSGIVING

We stand ready to serve you this harvest, as in the past....

Have you ever fed a Buffalo? Have you ever seen a Buffalo in person--eye to eye? Maybe you've seen some on TV in a Western Movie or in your History Books, right? Well, above is a picture of a real life, honest-to-goodness Buffalo! He lives just outside of Perryton going North and just before the State line of Texas and Oklahoma on Hwy. 83

Emergency Loans Available

Emergency loans for farmers and ranchers are available through county offices of the Farmers Home Administration (FmHA). Joe A. Maxwell, FmHA County Supervisor, said today.

Mr. Maxwell asked that those who need farm credit as a result of drought from June 15, 1980 thru October 31, 1980 and extreme high temperatures from June 15, 1980 thru August 31, 1980 make their needs known at the Farmers Home Administration office at 403 S. Amherst Street, Perryton, TX. Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until August 19, 1981 for physical and production losses.

FmHA loans covering actual

physical and production losses may be used to replace installations, equipment, or buildings, (including homes) lost through this disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming operation. Loans covering actual losses are made at an interest rate of five percent and are scheduled for repayment as rapidly as feasible consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities, de-

pending upon the purpose of the loan.

The interest rate for short-term loans for farm operating purposes is twelve and one-half percent. Long-term loans are being made at an interest rate of eleven percent.

To be eligible for an emergency loan, an applicant must have suffered losses from the disaster and be unable to get credit from other sources.

Emergency loans can be used to help the farmer restore damaged farm operations and additional loans based upon the emergency designation can be used to reorganize the farm for greater efficiency and better production.

Spearman All-School

Activities

Today, November 24, is the

beginning of the 3rd Six Weeks for Spearman Schools. Tonight,

November 24, there will be 8 ballgames played--4 here at

Lynx Varsity Gym and 4 at Sunray! The Varsity and Jr.

Varsity Lynx and Lynettes will play the Sunray Varsity and Jr.

Varsity Rattlers and Rattlerettes at Lynx Varsity Gym. The

Jr. Varsity Lynettes and Rattlerettes will lead off the night

at 4:00 p.m., followed by the Jr. Varsity Lynx and Rattlers game,

then the Lynettes against the Rattlerettes and the Lynx and

Rattlers game will be the finale for the night. The 7th and 8th

grade Lynx and Lynettes will travel to Sunray to meet the 7th

and 8th grade Bobcats. They will begin at 4:00 p.m. with the

7th grade Lynettes going up against the 7th grade Bobcats

then the 7th grade Lynx will meet the 7th grade Bobcats; after

them the 8th grade Lynettes, who seem to have a promising future,

will play against the 8th grade Bobcats and to end the evening the

8th grade Lynx, who seem to have a pretty good team, will meet the

8th grade Bobcats. Tuesday, November 25, the Varsity and Jr. Varsity

will travel to Stratford. The Stratford Coach was scouting the

Lynx and Lynettes when they played against Sunray. This will be

a real good game. The Jr. Varsity Lynettes will play against the

Jr. Varsity Elkettes to begin a night of excitement--as the Jr. Varsity girls

are supposed to; they will be followed by the Jr. Varsity Lynx

and Rattlers game; the Lynettes will then meet up with the

Elkettes and for the final thrill of the night will be the Lynx

going up against the Elks. The Freshmen went to the Follett

Tournament. The results were alright. The Lynettes lost the first

game 45-20 but won the second game 35-19 and won the Third Place

Trophy. Now that is a great way to start!! Way to go,

ya'll!!!

The high school students will get out at 1:55 and the buses will run at that time and will

drop by the Jr. high and Elementary around 2:00 to pick up those students. The Jr. high

and Elementary will get out approximately 1:50 for the Thanksgiving Holidays. School

will resume Monday, December 1, at the regular time, so that means that Thursday, Novem-

ber 27, everyone will eat Turkey and watch the football game--one will be the Detroit Lions

against the Chicago Bears--and the other game will be the Seattle Seahawks against the

Dallas Cowboys. Friday will be a day of rest for the students and teachers. Some folks will

see the college football game between Penn State and the University of Pittsburgh.

HAVE A NICE, SAFE, AND HAPPY THANKSGIVING HOLIDAY!!!

Planning for the future is the best way to improve the future.

The hardest job is the one that you put off until the last minute.

A good neighbor knows how to live and let other people alone.

SHOT PLACEMENT KEY TO DEER HUNT--Accurate shot placement is mandatory for a quick, humane deer kill, says a

wildlife specialist with the Texas Agricultural Extension Service, Texas A&M University

System. This means making sure your rifle is working properly and is sighted in at

different ranges. Knowing a deer's skeletal structure and exact location of vital organs

and arteries is helpful in placing the shot. A lung shot is best

since it's effective even when somewhat off-target, and the lungs form the biggest vital

area.

Rotary Club

Ferd Koehn, switching service coordinator of General Telephone, from Guymon, Oklahoma, and Oneal Philly of Perryton, district manager of General Telephone, spoke to the Spearman Rotary Club Monday noon, November 24, in the garden room of the Cattleman's Restaurant.

Community singing was led by Ed Freeman. The pledge of allegiance was led by Jim Benson. The prayer of invocation was given by Jack McWhirter.

Some of the telephone trivia shared by Mr. Koehn was that in 1978 there were 162,076,000 telephone stations. There are over 2,000 different telephone companies that are operating nationwide. There are over 100 companies operating in Oklahoma. The telephone network also carries Radio and TV broadcasting. The three largest companies in the U.S.A. in order are Bell, General, and Continental. He explained with charts how a call goes thru and the DDD network. Most of the time was spent in answering questions that people raised.

Eschol Blankenship announced that there were by a Rotary board meeting on Tuesday, December 2, at 7:30 p.m. in John R. Collard, Jr.'s office. There will be a Rotary Assembly for all members, but especially important for new members on Monday, December 15, at 7:30 p.m. in the garden room of the Cattleman's Restaurant.

Guests present were Tommy Lindsay of Borger, Gerald Wyche of Fritch, Oneal Philly of Perryton and Ferd Koehn of Guymon, Oklahoma.

Members present were Jim Benson, Carrie Marie Berry, Eschol Blankenship, Roy Bulls, Durane Castleberry, John R. Collard, Jr., Robert Elliott, Pete Fisher, Ed Freeman, Kerry Henton, John Hutchison, Eddy Limbocker, Junior Lusby, David McClellan, Jack McWhirter, Frank Oglesby, Coy Palmer,

Jim Shirley, Gary Sims, and Don Wirsdorfer.

Members absent were Ed Garner, Jim Murray, Steve Rogers and Mike Schnell. Junior Lusby and Jack McWhirter are the program chairmen for the five December meetings.

As of November 1, there are 18,929 Rotary Clubs with a membership of 874,000 in 154 countries and geographical regions. Also, there are 3,451 Rotaract clubs with a membership of 69,020 in 80 countries and 3,732 Interact clubs with a membership of 81,104 in 75 countries. New Paul Harris Fellows since July 1, 1980 are 1,810. The grand total of Paul Harris Fellows is 54,607.

Golden Gleams

An open door may tempt a saint.

—Thomas Fuller.

Whoever stands to parley with temptation

Parleys to be o'ercome.

—George Lillo.

It is good to be without vices, but it is not good to be without temptations.

—Walter Bagehot.

I can resist everything except temptation.

—Oscar Wilde.

Never resist temptation: prove all things: hold fast to that which is good.

—George Bernard Shaw.

Greater is he who is above temptation than he who, being tempted, overcomes.

—A. Bronson Alcott.

The best way to accumulate money is to save some of what you are now making.

Christmas Mail

"Don't take a chance on disappointing someone you love. Send your gift parcels and cards early enough to insure their delivery before Christmas, not after," the Postmaster advised today.

Such disappointments can be avoided if Christmas mailers will observe the following mailing schedule:

1. Gift parcels going to distant states should be mailed by December 12th.
2. Parcels going to local and nearby areas should be mailed not later than December 14th.
3. The name and address of both the sender and addressee should be enclosed in each gift parcel to permit identity in case of damage or loss of the outside address label. The outside label should be placed on only one side of each parcel.
4. Greeting cards going to distant states should be mailed not later than December 14th. Cards going to local and nearby areas should be in the mail by December 18th.

The Postmaster also emphasized the importance of using ZIP Codes and adding a return address to all Christmas mail. It takes only a couple of extra seconds, but pays big dividends.

ZIP Codes enable postal employees to sort and handle the mail faster. A return address insures that mail that can't be delivered because of an illegible or incomplete address will be returned to the sender.

"A return address might not seem very important," the Postmaster noted, "but last year over 32 million pieces of mail went to postal dead letter branches because the mailing address couldn't be read and there was no return address on the envelope. If you estimate the worth of each of these pieces at 25 cents, including postage, postal customers lost over \$8 million last year to dead letter offices. None of this would have happened if the envelopes had contained a return address."

Holiday 'Twist'

Bottle Caps With A Silver Lining

(Hayward, CA) — Collecting bottle caps this fall can be a rewarding venture for consumers who can win up to \$500 in cash during Shasta Beverages Inc.'s "Happy Holidollars" promotion. Through December, random liners in blue and silver caps on the company's bottles will be marked with specific amounts from \$1 to \$500. In addition, consumers will receive a nickel refund for each cap liner returned in minimum quantities of ten during the promotion.

THANKSGIVING

A Time to be Grateful...

CREAMY CREATIONS for the Holidays

Bake a Harvest Pumpkin Cheesecake for a holiday dessert this year and you're likely to start a new family tradition. The cake, which can be prepared a day ahead and chilled, features a smooth Philadelphia Brand cream cheese filling topped with traditional pumpkin custard fragrant with cinnamon, ginger and nutmeg. The crust is gingersnap crumbs and chopped pecans. Harvest Pumpkin, Sun-Sational and Peanut Butter and Jelly cheesecakes—all pictured here—are part of a group of creamy creations featured in a new cookbook from Kraft. The book comes with a versatile springform pan which has two interchangeable bottoms. To order your 9" pan and book, send \$4.75 in check or money order (no cash or stamps) with proof of purchase—two UPC symbols cut from back panels of 8 oz. Philadelphia Brand cream cheese packages—and your name and address to: Kraft Springform Pan Offer • P.O. Box 831 • Dept. HF • South Holland, IL 60473. Allow 6 to 8 weeks for delivery. While supplies last.

HARVEST PUMPKIN CHEESECAKE

- | | |
|--|-----------------------------|
| 1 cup gingersnap crumbs | 1 16-oz. can pumpkin |
| 1/2 cup finely chopped pecans | 1 5-oz. can evaporated milk |
| 3 tablespoons Parkay margarine, melted | 1/2 cup sugar |
| 1 8-oz. pkg. Philadelphia Brand cream cheese | 2 eggs, slightly beaten |
| 1/4 cup sugar | 1 teaspoon cinnamon |
| 1/2 teaspoon vanilla | 1/4 teaspoon ginger |
| 1 egg | 1/4 teaspoon nutmeg |
| | Dash of salt |

Combine crumbs, nuts and margarine; press onto bottom of 9-inch springform pan.

Combine softened cream cheese, sugar and vanilla, mixing until well blended. Add egg; mix well. Pour over crust.

Combine remaining ingredients; mix well. Carefully pour over cream cheese mixture. Bake at 325°, 1 hour and 30 to 35 minutes or until set. Loosen cake from rim of pan; cool before removing rim of pan. Chill.

RECIPE

By Sarah Anne Sheridan

Your holiday meal will not be complete without a colorful and tasty salad. Cranberries and fruit salads always go well with turkey and ham. These two salads are favorites at our home and are used often during cold winter months.

Cranberry Salad

- 1 can (20 oz.) crushed pineapple
- 1 lb. fresh cranberries
- 1/4 c. sugar
- 2 envelopes unflavored gelatin
- 1 c. chopped pecans
- Lettuce

Drain juice from pineapple and add enough water to make 1 cup liquid. Combine juice, cranberries and sugar in saucepan; cover and cook until berries pop (about 10 minutes). Add gelatin to hot cranberries and stir until dissolved. Cool, add drained pineapple and nuts. Refrigerate. Serve on lettuce leaf. This salad can be made a day ahead of serving.

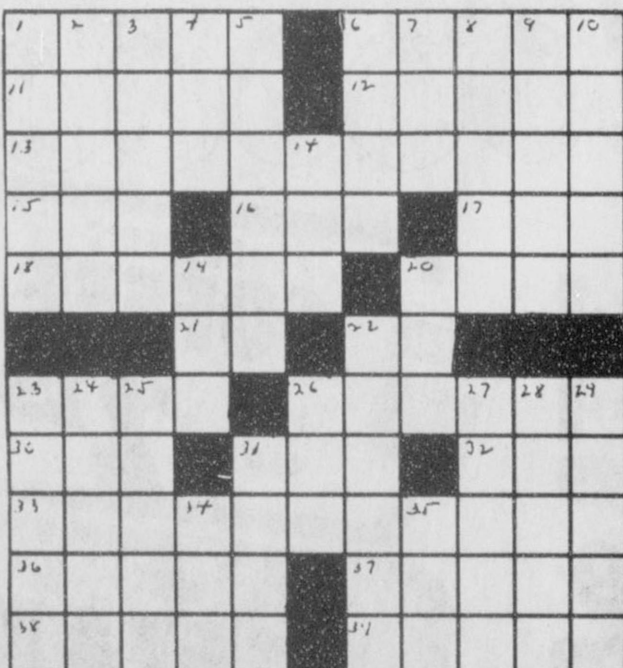

Five Cup Salad

- 1 c. sour cream
- 1 c. small marshmallows
- 1 c. flake coconut
- 1 c. chunk pineapple (drained)
- 1 c. mandarin oranges (drained)
- 1 c. cut green seedless grapes (optional)
- Lettuce

Mix the above together and refrigerate until serving time. Serve on a lettuce leaf cup.

One of the easiest things in the world to do is to stand to one side and tell the rest of the people what to do.

Violent exercise retards digestion while mild exercise accelerates it.

More About November

Five presidents were born in November, three in the last half.

James Abram Garfield, 20th president, born in Cuyahoga County, Ohio on the 19th in 1831, descended from Massachusetts ancestors. He was elected president as a Republican in 1880, and was assassinated in 1881.

Franklin Pierce (pronounced purse), 14th U.S. president, was born on the 23rd in 1804, at Hillsborough, N.H., and served his state in various capacities. He once resigned his U.S. Senate seat because the pay was insufficient. He was nominated and elected as a Democrat in 1852. He attempted to annex Cuba, tried to pacify North and South, but was not renominated by his party. He became highly critical of Lincoln during the Civil War.

Zachary Taylor, 12th U.S. president, was born in Orange County, Virginia, on the 24th in 1784. He preceded Pierce as president. He was a military hero in the Mexican war, son of a Revolutionary War officer of Virginia, grew up in Louisville, Kentucky (then Virginia). He won a great victory over the Seminole Indians in Florida, dying in office in 1850.

November 22 will be the 17th anniversary of the assassination of President John F. Kennedy, in Dallas, Texas.

Thanksgiving, a truly American observance, falls on the 27th this year. It's the principal holiday of November, and the highlight of the autumnal season. It is, in reality, a national religious festival, a thanksgiving for our many blessings.

November 30th is the first Sunday of Advent.

Spiced Popcorn Balls Make Happy Presents

Spiced Popcorn Balls are fun for under-the-tree gifts, to hang on the tree and, best of all, to eat. Making them is a nice project on a chilly afternoon, and children love to help. These popcorn balls are quite special tasting too, with their holiday flavors of cinnamon and cloves. They'll keep fresh, wrapped tightly in plastic wrap, for several weeks.

SPICED POPCORN BALLS

- | | |
|-----------------------------|---|
| 1 cup sugar | 1 teaspoon cider vinegar |
| 1 cup light corn syrup | 3 tablespoons butter or margarine, melted |
| 4 teaspoons ground cinnamon | 8 cups popped popcorn (unsalted) |
| 1/2 teaspoon ground cloves | |

In a small saucepan combine sugar, corn syrup, cinnamon, cloves and vinegar. Place candy thermometer in pan (end of thermometer should not touch bottom or sides of pan). Boil over medium heat until 250°F. is reached (do not stir). Remove from heat, stir in butter. Pour over popcorn, mixing quickly. For each ball pack popcorn into a greased 1 cup measure. Using mitts or rubber gloves to protect hands, turn out and form into balls. Set aside on greased waxed paper; let cool. Wrap with plastic wrap.

YIELD: 5 balls.

SOLVE THE LEFTOVER TURKEY PROBLEM

With the holidays just around the corner, turkey is bound to appear at one of the big three meals. Roast Turkey with all the trimmings presents no problem, but often how to vary subsequent meals can be a dilemma. Handy helpmates like packaged enriched pre-cooked rice and frozen mixed vegetables with cream sauce transform day-after turkey into a delicious casserole, hearty enough for the family yet special enough for company.

TURKEY-VEGETABLE CASSEROLE

- 1-1/2 cups hot chicken broth
- 2 teaspoons butter or margarine
- 1-1/2 cups Minute rice

- 1 package (8 oz.) mixed vegetables with onion sauce
- 1 cup milk
- 1 teaspoon Worcestershire sauce
- 1/2 teaspoon salt
- 1-1/2 cups diced cooked turkey
- 2 slices process American cheese, cut in triangles

Combine broth, butter and rice in 1-1/2-quart baking dish. Cover and bake at 450° for 10 to 15 minutes. Stir and move rice to sides of dish.

Meanwhile, combine vegetables, milk, Worcestershire sauce, salt and turkey in medium saucepan. Cook and stir over medium heat until mixture comes to a boil; then simmer for 4 minutes. Pour into center of casserole; arrange cheese triangles on top. Bake 2 minutes longer or until cheese is melted. Makes 3 cups plus rice or 4 servings.

The Lincoln Park Zoo in Chicago once tried using one-way glass in the monkey house, so that people could see in but the animals couldn't see out. The monkeys became despondent, but regained their lively spirits when the glass was removed.

Drive Thankfully

The Pilgrims were lucky they didn't have to drive to their Thanksgiving dinner. Holiday traffic can be tough. So be extra careful driving to and from your celebration. Relax, obey speed limits, and be alert for other drivers. It's a great life... so Drive Thankfully.

Menu Maker: Sour Cream Nut Pie

It's the season for fresh nuts: crunchy, crisp and many varieties. They add a flourish to meats, vegetables, salads, breads as well as desserts. The accompanying recipe for Sour Cream Nut Pie is one that will bring compliments to the cook. This is a pie with special character: it's crunchy, fragrant, mystical and delicious. It's a versatile recipe, too, because pecans, walnuts or peanuts may be used in place of cashews, shown in the picture.

SOUR CREAM NUT PIE

Makes 1 (9-inch) pie

- 2 teaspoons flour
- 1/2 teaspoon ground cinnamon
- 1 cup dairy sour cream
- 2 eggs, well beaten
- 1/4 cups sugar
- 1 teaspoon extract (see variations below)
- Planters Nuts (see variations below)
- 1 (9-inch) pastry shell, baked and cooled

In a small deep bowl combine flour and cinnamon. Add sour cream and blend thoroughly.

Beat in eggs, sugar and extract with a rotary beater until well blended. Mix in Planters Nuts. Pour into pastry shell. Fit a band of aluminum foil around the edge of the crust to prevent over-browning. Bake at 350°F.

for 40 to 45 minutes, or until firm. Cool. Garnish with whipped cream if desired.

Rum Pecan: Use rum extract and 1 cup Planters Pecan Halves.

Maple Walnut: Use maple extract and 1 cup Planters Walnuts.

Peanut: Use vanilla extract and 1 cup Planters Salted Peanuts.

Cashew: Use vanilla extract and 3/4 cup Planters Cashews Halves.

MICROWAVE METHOD: Bake 6 to 8 minutes on high power, giving pie 1/4 turn halfway through cooking time. Edges of pie filling should be nearly firm and center moist, but not liquid. Pie will continue baking when removed from oven.

POST-GAME WARM-UP

It's that time of year again. Rooting the home team on is hard work and win, lose or draw, everyone winds up exhausted. Just right for a post-game rehash is Almond Mocha, Swiss style instant coffee beverage provides a light, delightful chocolate flavor which is further enhanced by the addition of brown sugar and almond extract. Garnished with a generous dollop of prepared whipped topping, it's a warm welcome on a brisk afternoon.

ALMOND MOCHA

- 1/4 cup General Foods International Coffees, Suisse Mocha
- 3 cups boiling water
- 2 tablespoons brown sugar
- 1/4 to 1/2 teaspoon almond extract

Place instant coffee beverage in coffeepot or carafe. Add boiling water; stir well. Add brown sugar and extract; keep hot. Garnish with prepared whipped topping, if desired. Makes about 3 cups or 4 servings.

For 1 serving, use 1 tablespoon instant coffee beverage, 3/4 cup boiling water, 1-1/2 teaspoons brown sugar and 1/8 to 1/4 teaspoon almond extract.
