LORAINE.

The Prairie City Lavishly Entertains the West Texas Clubs.

Much Enthusiasm Manifest.

The meeting of the West Texas Association of Commercial Clubs was in Loraine on Tuesday of this week, and the Record represented Colorado. A splendid program was prepared and carried out. The ciizens of Loraine covered themselves with glory in the manner of entertaining the delegates.

The business men nearly all closed their stores and attended the meetings. The public school adjourned and attended in a body to hear Prof. Arnold's lecture on Texas. The school has an enrollment of 325, the first day, and all marched in a line, with their teachers, to the tabernacle, to hear this great lecture. It was a pretty and an inspiring sight.

Mayor W. H. Henthorn seemed to have the management under his care and being enthusiastic and a tireless worker, managed the entire affair with credit to himself and honor to his town. He was ably assisted by nearly the entire town and it was a noticeable feature that the farmers lent a helping hand, by their presence and participation.

The morning session was called to order in the opera house, where a most magnificent agricultural display was made, consisting of cotton, grain, feed stuffs and all kinds of fruits and garden vegetables, which will be sent to Abilene and Dallas Fairs. The display was most surprising to us, and would do credit to any county.

In the absence of the President, W. T. Patter, of Merkel, the meeting was called to order by Secretary Homer D. Wade, of Stamford.

The welcome address by Dr. W. H. Henthorn was simply fine. After eulogizing Loraine and Mitchell county, he told of the beautiful scenry and many advantages of Lone Wolf valley.

Homer D. Wade responded to the address of welcome in his usual humorous style, which put the large audience in a good humor, after which the Loraine band gave several choice selections, which were highly appreciated. This band is yet young but they played well and it shows a spirit of loyalty and enterprise for a town of this size to have such an organization.

O. P. Thomas, secretary of the Abilene 25000 Club then addressed the meeting on "Commercial Clubs and their Relations to the Towns, and vice versa." He made a good talk and explained much work for the clubs to do.

Prof. Kennard, connected with the government Experiment Station at Dalhart, then spoke wholly no the subject of how to retain moisture in the soil.

Miss Lee Kelley of Loraine, then gave a rich and rare treat to the audience in the way of a piano solo, showing skill and ability as a performer.

At this juncture Judge James P. Stenson of Anson, County Judge of Jones county, spoke on the subject of "Good Roads." The Judge is the best posted man in West Texas, is a forceful speaker and his address should have been heard by every farmer in this county. Judge Stinson is a strong advocate of each precinct bonding for good roads.

After this address dinner was announced and such a good dinner we have never before eaten. It was a banquet, a feast; and the Record man ate 11 chicken legs. The dinner was served by the Home Mission Society of the M. E. church, and it was truly bountifully and splendidly served.

After dinner the program was again taken up, with an address by Judge Ed. R. Kone, Commissioner of Agriculture.

At the close of his address Mrs. Dell King, a fine musician of Loraine rendered a piano solo, which was highly appreciated. Mrs. King has the reputation of being a very fine pianist.

J. A. Arnold, President of the Texas Commercial Secretaries Association then delivered his famous illustrated lecture on "Texas." Mr. Arnold has made a study of Texas statistics and [illegible] his illus- [illegible] lecture.

At the close of this very interesting talk, a specially prepared song by the best local talent was sung. It was entitled "A Home in Loraine" and sung to the tune of A Home in the Golden West. This made such a hit, and the enchore was so great that the singers returned and sang "Loraine" to the tune of Dixie, which went like this:

"There' a town out west in Mitchell county
Where everything is found in bounty,
It is Loraine, Loraine, Loraine.
There's land to sell by the real-estate men.
Who do their best to please you; then
Come to Loraine, Loraine, Loraine

Chorus:

Then I wish I lived in Loraine, don't you, don't you?
In Loraine I'll build my home, to live and die in Loraine.
Away, Away, Away out west in Loraine.

This song with its four verses so beautifully sung, captured the audience and immediately at its close the band struck up on Dixie and the entire audience cheered.

Dr. C. R. Ball, Government Expert, Department of Agriculture, Washington, D. C., then delivered a most excellent address on the subject of The Possibilities of Kaffir Corn and Milo Maize.

A local photographer then photographed the group, after which all the delegates were taken in autos to Lone Wolf mountain, then returned for supper, which was again served by the good ladies.

After supper Momer D. Wade spoke on Local Commercial Club Work" and was speaking when the writer left.

The Record man and wife spent the day very pleasantly and profitably and will always remember with kindest regards the good people of this goodly little city.

SPECIAL NOTICE.

That there might be a list of attractions in Colorado, that would furnish good clean entertainment during the fall and winter months, we have secured the artists named below at the respective dates:

October 9th.—Luther Manship, Dialect Stories of Slavery Days.

November 11th—Orphean Musical Club and Quartette and Character Sketches.

December 22nd—Italian Boys—Splendid music on different instruments, and band.

March 16th—Floyd Co.—Magicians.

We have guaranteed all their expenses and become personally responsible for the cost, and we feel sure that the people of Colorado will be pleased with the course and stand behind us in our guarantee.

The price for the four entertainments will be $2.00 or $3.50 for two tickets. Tickets can be had by the 20th and paid for on Jan. 1st. Some one will call upon you next week with the tickets.

Very respectfully,
C. M. ADAMS,
BEN VAN TUYL,
ROBT. M. WEBB.

PLAINVIEW POINTS.

Sunday school was carried on as usual Sunday with a large attendance.

A large crowd attended prayer meeting Sunday night.

Miss Vera Costin is visiting her grandmother in Colorado this week.

School began at this place Monday morning with an enrollment of 26 pupils. All seem to be well pleased with their new teacher.

Mr. Frank Free spent Monday night with home folks.

The ice cream supper at Mr. Loveless' was well attended on Thursday night, and all had a nice time.

A large crowd attended the entertainment at Mr. H. J. Free's Friday night.

PUBLIC SCHOOLS OPEN.

An Interesting Program, a Large Attendance, and Much Interest and Enthusiasm Shown

The Outlook is for a Most Successful Session of Colorado Schools.

The public schools opened Monday with a great attendance of children, parents and friends at the auditorium in the high school building, for the opening exercises. These were begun by the audience singing America, the school board, Mr. Elliott and Judge Crockett occupying seats of honor upon the stage. Mr. Elliott read a scripture lesson, making one of his helpful talks which was followed by a prayer. The president of the school board, Dr. Phenix, spoke next. His speech as usual abounded in witty, helpful suggestions to teacher, parent and child. At the close of his talk he called for contributions for pictures with which to beautify the walls of the school rooms. About $30 was raised for this purpose.

Mrs. Merritt next called attention to the Lyceum course the Hesperian Club is bringing for the benefit of the school, and asked the co-operation of the teachers and others present, in making this a financial success.

Mr. McDonald outlined the plan of work for this year, read the new rules adopted by the board, and otherwise enlightened the pupil and parent as to the part expected of them this year.

Dr. Neal addressed the youngsters upon the subject of cleanliness.—keep your mouth clean.

Judge Crockett upon keeping our mind and bodies erect and doing our best every day.

Judge Coe's address was upon keeping our bodies clean, and the co-operation of parents.

Prof. McDonald introduced the teachers, and surely no town can boast of more pleasant or intellectual corps of young men and women. They are: Mr. Frank Newlee, Miss Nannie Ellis, Miss Floy Perkinson, Mr. Payne, and Prof. McDonald in the high school.

Mr. Lowery, Miss Fannie Miller Miss Minnie Best, Miss Pearl Kennard, Miss Routh, Miss Graham, Miss Mozella Dry, Miss Mamie Riordan and Miss Julia McLure.

All the buildings are occupied, there being two grades in the little school building, which was lately sold to Mr. Dawes.

The work of our schools seems to have begun most favorably for all concerned and we hope to see the best year's work that has been done. 'Tis said that Colorado has more boys over seventeen, in its schools than has any of the western towns, which is most encouraging.

Sneak Thief at Work

Some time Monday night a sneak thief entered the St. James hotel and in regulation style proceded to lighten the cares of two of the guests, by relieving them of the burden and responsibility of their pocket books. From one of the victims we understand the deft fingered artist abstracted about $25, and from the other a less amount. The thief evidently was on to the job and its risks, as he turned down the watches he could just as easily have taken, but he seemed wise to the fact, doubtless by reason of experience, that watches leave a plain and broad trail; hence he'd none of 'em in his'n. The matter was dully reported to the authorites, but no clue to the identity of the party or parties has been obtained up to this time.

A singular precedent to this robbery is he fact that the hotel at Roscoe was worked in the same maner a few nights before and the one at Loraine, the night proceeding. So that it looks as it the parties were progressing westward. A most salutary lesson to this class of petty criminals, would be a double dose of buckshot No. 1, on the basic expansion of their trousers.

Important to Cattlemen.

Below is the report of the committee appointed at Fort Worth to confer with Dr. Leslie J. Allen in regard to the Texas Live Stock Sanitary Commission:

Colorado, Tex., Sept. 14, 1909.
To Cattlemen of Provisional Quarantine Line and others who assembled at Fort Worth on Sept. 2nd, 1909:

We, your committee appointed to confer with Texas Live Stock Sanitary Commission and Dr. Leslie J. Allen, inspector in charge of Bureau of Animal Industry, beg leave to submit the following report:

On September 10th, 1909, we met in Fort Worth and submitted resolutions based upon instructions given us in resolutions passed at meeting on September 2nd, relating to quarantine line, tick eradication, and regulations governing movement of cattle, especially Amendment No. 158, B. A. I. Order known as six months exemption.

In this conference we had the support of quarantine committee of Texas Cattle Raisers Association, composed of A. B. Robertson and Burk Burnett.

In reply to our resolutions Dr. Allen stated he would not lay our complaint before the Department of Agriculture, nor would he make any recommendations as to modifications of any of the existing orders until he had been called upon to do so by the Department for suggestions; any other action he said would be a breach of the rules.

Live Stock Sanitary Commission as you have doubtless seen from the papers, suspended the rule requiring cattle to be clean six months before inspection, by adoption of the following order:

"It is hereby ordered that the rule requiring cattle to be clean of ticks, and to have been clean for six months before inspection would be made is hereby suspended, so far as it shall apply to pastures that are drouth stricken and have not sufficient water and grass to maintain or winter the cattle now thereon. The inspectors for the Live Stock Sanitary Commission of Texas, are hereby instructed to inspect and permit cattle to be moved off of pastures in the condition as above stated, but this order is not intended to apply to pastures that are in a normal or good condition."

We are more fully convinced than ever of the fact that it is beyond doubt, as shown by affidavits read, and by the statements of many present at this meeting, that ticks can be completely eradicated from pastures by the thorough dipping in arsenical solution every twenty-one to twenty-four days, and we urge upon all our people in provisional area to carry out this method under supervision of state and Federal Inspectors.

Texas Live Stock and Sanitary Commission gave us the assurance that they had not at any time contemplated any change in quarantine line as it existed at the present time. (Signed.)

P. C. Coleman, Chairman.
W. N. Waddell, Secretary.

Messrs J. L. and W. C. Enins, living on the J. G. Norrell place, in the north east part of the county brought to this office Monday as fine specimens of both kaffir corn and maize as ever were raised in Mitchell or any other county, anywhere. The heads are perfect and fully matured, and these successful farmers have 50 acres as good as the samples brought in. If there is much of such feed stuff in the county, we are a great deal better off than we imagine. A poor cotton crop may make the current coin of the realm a trifle shy with many of us farmers, but a failure of feed crop ties our hands in making the next crop.

Fire Protection.

The contract for water for fire use, between the City of Colorado and the Water Co, expired Sept. 1 and has not been renewed. Under these circumstances, in case of fire what will the City do for water? Is there any water in the standpipe now? We may have a fire any moment. Who is responsible?

CUTHBERT CULLINGS.

Today, Tuesday, was the banner day for Cuthbert. The occasion was a Sunday School Rally, which was planned (Fairview class being the originators of the plan) about a month ago. The sole object of the rally was to invoke the blessings of God and to create more enthusiasm in the Sunday school work of this part of the county. Our class and Fairview class met one month ago and unanimously voted to have a Sunday school rally, and if need be, to bear the expense of same.

At about ten o'clock this morning people from all directions began to gather, until at 10:45 fully 600 people, or more, had gathered, representing four Sunday schools, besides a large number of visitors from other parts of the county.

The four classes represented were, Fairview, Vincent, Red Bluff and Cuthbert.

At the church all was made ready for the classes to march. After marching in this order of class, Fairview, Vincent, Red Bluff and Cuthbert, for some distance south, down main street and back to the church, the best program it has ever been our pleasure to hear, on Sunday school rally days, was rendered.

Each class had a short program which the participants rendered with equal pleasure to themselves and honor to the class they represented.

After the invocation by Rev. Sweney, pastor of the Methodist church at this place, C. E. Jenkins delivered a welcome address that seemed to make all a unity for good of the occasion.

Cuthbert class rendered their program first which was well done highly praised and the class greatly pleased.

Next was the Vincent class, which had a fine program, and it was rendered to perfection, which indicated that we were going to have the best all the time.

Red Bluff was third, which fully held up the standard. We cannot pass with justice to this class without mentioning especially the excellent paper of Miss Holley on "Hope."

Fairview class was fouth and last, and if it be possible that either class' program was best, Fairview had the climax. There were several parts of this program that deserve special mention, but will mention only one, and that was a talk by Claude Hooks on "Why I Like the Sunday School."

Next was dinner, and all was ready, for it was 1:20. This part of the occasion was immense, to say the least of it. There was plenty for twice the crowd, and it was of the best.

In the afternoon Rev. Sweney of Westbrook made a talk on the good of Sunday schools.

Then Robt. M. Webb, of Colorado, made an address, giving the plan, organization, unity, and the work of the Sunday schools of the world, laying special stress on our own country. Mr. Webb's talk was something we needed and enjoyed.

Then W. E. Berry made an interesting talk on the history of the origin of Sunday schools; how Sunday schools were conducted in his native country, England, when he was a small boy, and a brief account of the Sunday schools of various European countries he had visited.

After this a song, "God be with You 'Till we Meet Again" was sung and the audience dismissed by prayer.

For a better account of the occasion just ask any visitor.

It is talked of, and we hope this Sunday school rally will be made an annual thing at Cuthbert.

Among the visitors, not from any class represented, we noticed Misses Maxfield and Creath and Robt. M. Webb, of Colorado; Rev. Adams and our pastor, Rev. Sweney and many others from Westbrook.

Mrs. Rodgers will move down east of Colorado for the fall work.

Hans Womack has returned home from Oklahoma.

D. T. Bozeman and daughter, Miss Flora, W. R. Womack, W. J. Bryant and M. L. Hill left Wednesday for Big Springs to hear Bryan Speak.

MARK HOPKINS.

TEACHERS INSTITUTE.

The Colorado Teachers' Institute in Session all Last Week.

The Teachers Institute was in session here all last week. Its talks and discussions were all most practical and helpful to every one interested in schools, children and parents alike.

Visitors were present on several days and sometimes became so interested that the subject under discussion was almost taken away from the teachers. These meetings should be more generally attended by all interested in school subjects, as great good can be gained from the interchange of ideas.

Off to Hear Bryan.

If any one doubts the solid entrenchment of Wliliam J. Bryan in the hearts and minds of the people of the Southwest, the eager spontaniety with which all classes press to hear him when and wherever the opportunity offers, should dispell every ghost of doubt. Never, in the history of our great country, even in the days of the mighty giants of the bar and forum, has a public man possessed greater power to draw the people to hear him. Without question Mr. Bryan is today the greatest attraction on the platform. Something of his popularity may be comprehended by the following crowd which went to hear him at Big Springs last night and yesterday:

Mrs. P. C. Coleman and son, O. P. Ford, Mr. and Mrs. F. B. Whipkey, Mrs. A. L. Whipkey, J. W. Bird, J. A. Buchanan, Congressman Smith and wife, C. M. Adams and wife, G. D. Fields, Judge Shepherd and wife, J. W. Shepperd, J. T. Harness, Mrs. Q. D. Hall, Mrs. J. G. Merritt, Oscar Majors, Rev. W. R. Thomas, Mrs. D. N. Arnett, Judge Looney, J. C. Prude and wife, and quite a number of others whose names we did not get.

UNION UNITS.

It seems that Mr. Citizen thinks I'm a little backward, so I'll show him this time, though I know no special news.

The health of the community is good at present.

We had a light shower last evening and it is cool to-day, so we think the change will add some to the crop.

Mr. J. M. Dorn, Sr. and family, also J. M. Dorn Jr. and family, are off on a trip to Lubbock at present, visiting relatives.

On last Thursday night two young men from somewhere spoke to a small audience at the Union school house, on the subject of Socialism. I think it will likely be the last effort of the kind in this community.

On the same night the monotony of our quiet section was broken by a crowd of youngsters who prepared themselves with old tin pans, sweeps, clevises and other musical instruments of the kind, and gave Mr. Jones a clever seranade, it being the first night after his return from the land of flowers to a land of milo maize.

PLUNKET.

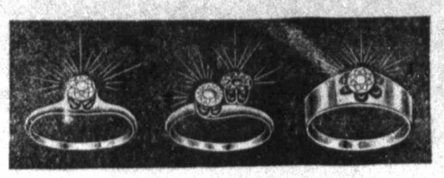

President Webb Resigns.

Colorado, Tex., Sept. 15, 1909.
Mr. Earl Morrison,
Secretary Colorado Commercial Club, Colorado, Texas.

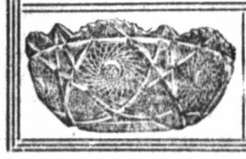

Dear Sir:—I hereby tender my resignation as President of the Commercial Club, to take effect at once. In doing this, please let me say that I am not unappreciative of the honors put upon me by the people of Colorado, but my business engagements are such that I am out of town a great deal of the time, and I cannot do the office justice. There is a great deal of work to do, to properly fill the place, and I have not the time to give to it. I find my business conflicts with the duties of the office, and therefore have to step down.

Most Respectfully,
ROBT. M. WEBB.

LIBERATI IS TO ATTEND.

Himself, Band and Great Vocal Artists Secured.

VAUDEVILLE FEATURES.

Music Hall Program at Texas State Fair, Which Opens October 16, Includes Many Rare Acts.

Seventy talented musicians, twenty great vocal artists and a grand array of instrumental soloists in a series of musical festivals, under the personal direction of the Imperial Cornet Virtuoso and Band Master Alessandro Liberati, is the splendid offering that the management has secured for Music Hall at the twenty-fourth annual exposition of the State Fair of Texas, which opens at Dallas, Saturday, October 16, and continues sixteen days.

Liberati's band is one of the most efficient musical organizations in the country. Although the leader has shown no inclination to sacrifice the artistic side of his work, it must not be understood that his programs are without the elements of popularity, for he has shown due regard for both sides of the question. In technique he has a way of handling his band which makes it far superior to the average musical organization. He gives ample attention to the requirements of his engagements, and assures the Fair management that he is preparing one of the finest program of his career for the State Fair.

Every morning, afternoon and evening Liberati's band, soloists and chorus will give free concerts in the Music Hall. His corps of opera singers are men and women with large, full-toned, melodious voices. The chorus is strong and well balanced and will be heard clearly in the splendid hall erected by the management for the purpose. Liberati's band is best in its military and patriotic selections, and selections of this kind are especially popular with State Fair audiences. This famous bandmaster has had a most interesting career and has been a bandmaster on this side of the Atlantic for thirty-six years. He has enough medals to make him a suit of armor if he strung them all together.

In addition to the superb band and operatic attractions the State Fair management has secured some of the finest vaudeville artists on the American stage for its Music Hall programs. Of the numerous artists that have been secured special mention should be made of McGarvey, the world-famous impersonator of the gentler sex; Galetti's monkeys in a farce comedy entitled "Green's Night Off," and Mrs. D. H. Kincheloe, a Kentucky woman, famous as a whistler, reader, vocalist and pianist. And then there will be acrobatic stunts of a sensational nature; a clown act that promises to be exceedingly popular and many other features.

Bert McGarvey, the female impersonator, who appeared several years ago in Dallas, comes back as an attraction for the State Fair in what is termed the greatest test of "finesse" in his art ever seen. A wonderfully beautiful makeup, exceptionally graceful dancing and with the world's most sensational contralto voice, undoubtedly places him in the front rank and in a class by himself. He is the most vivacious and charming creature imaginable when gowned for his act and is one bubble of life, magnetism and beauty.

Galetti's monkeys are the most famous trained animals in the world. Their absolutely human acts seem to substantiate the Darwinian theory. The monkey band, playing various popular airs in a manner perfect, has astonished audiences throughout the United States. And then the barber shop feature, where the monkey-barber shaves, cuts hair, etc., is one of the most laughable acts imaginable. They appear in a monkey farce comedy entitled "Green's Night Off," an act that keeps merriment a-rolling during the entire time.

As an entertainer, musician, whistler and warbler, Mrs. D. H. Kincheloe has no superior in this country. Her whistling would put a mocking bird to shame, and the old southern dialect in which she recites "The Party," ripples over with that sense of nativity enjoyed by every Southerner. She is a very fine musician and is an entertainer of an enviable reputation. The management considers Mrs. Kincheloe one of the star attractions of the coming exposition.

Another feature of the Fair will be the Flower Show at which will be exhibited splendid plants, flowers and shrubs grown in Texas. Practically every flower will be represented and in addition there will be rare bulbs, orchids, etc., from Mexico.

It has been conservatively estimated that the value of the exhibits in the Exposition building at the twenty fourth annual meeting of the State Fair of Texas, which opens at Dallas Saturday, October 16, and continues sixteen days, will easily total the vast sum of $2,000,000. Expensive gowns and frocks from Paris, New York and London, rich gold ornaments, diamonds, rubies, emeralds and other jewels, delicate machinery, Persian carpets, shawls of Cashmere that can be drawn through a ring, Brussels carpets, mahogany furniture, ivory inlaid tables of India, in fact all that delights the heart of women and makes the home beautiful will be found in this great structure. And exhibitors are spending thousands of dollars to make their booths attractive and inviting. There will be model bedrooms, parlors, kitchens, etc., of great interest to the housewife. In fact, this section of the State Fair will be like one of those bazaars of Bagdad, with the merchants garbed in Twentieth Century clothes instead of the flowing garments of the tradesmen of the East.

Just a short time now until the gates of the State Fair of Texas will swing inward on the twenty-fourth annual meeting at Dallas, which begins October 16 and continues sixteen days.

Interdenominational State Sunday School Convention.

Beginning on September 21 and extending its sesions through September 23, the interdenominational Sunday School Society of Texas will meet in Abeline for a general discussion of those things of interest to the Society.

Prominent speakers and workers, including Marian Lawrence, International Secretary Pierce of St. Louis and State Secretary Wiggins of Dallas, have notified those in charge that they expected to be present and deliver addresses during the three days sessions.

Reduced rates on all railroads will be in effect. Tickets will be on sale September 20-21 good for return September 30.

The various churches and Sunday schools of Abilene are uniting to perfect the most sucessful plans for the proper care for those htat may conclude to attend, as well as for their entertainment while they shall be the guests of Abilene.

Pastors and Sunday School workers in every community of Centeral Texas are earnestly requested to spread the news of this convention in every manner possible, also a request is made that all persons interested in the Societys movements notify W. T. Curtis, Abilene, Texas, of the number of delegates which each community will send to the sessions. This notification must come as soon as possible so that the suitable reservations may be made for the visitors at the various homes through out the city the Harvard plan of entertainment will likely be used. It provides lodging and breakfast at the homes and dinner and supper where ever convenient.

Aside from the ineresting lessons of the Society sessions, the visitors will be given a chance of observing the very best section of the very best portion of Texas. Abilene's welcome will be spontaneous and cordial.

It is well to remember that this is to be a Centeral West Texas meeting, though it is state wide in its character and scope. Therfore it is important that all lovers of Sunday School work make it a special point to come to Abilene, bringing with them as many of them friends as can be prevailed on to attend. This field, as it has been pointed out times without number, belongs to Christ. The Christian sentiment now absolutely dominates. The continued growth and success of our Sunday School work will determine whether or not we are to hold this field for Him. The Sunday school right hand of the church, should be upheld.

Betrayer is the Word.

Mrs Sarah E. Thomason, the only woman drawing a federal soldier pension died recently in Washington. If the old time pension methods apply in her case, we may expect two or three pensioners to take her place. Mrs. Thompson was given a pension for service rendered federal authorities in betraying the dashing Confederate General, John H. Morgan in to the hands of the federal troops. Morgan was a bold leader of a brave and daring band and any price for his head was considered not too much.—Ennis Local.

Reform Oozing Out.

The Fort Worth purifers have pawed and roared and threatened. They called in one of the leading Texas politicans to tell them how to rid the city of its "bad lands" residents, but he declined to interfere in local matters and spoke merely on generalities. The regulators had the thugs assassins and vagrants badly scared. Somebody wisely suggested that the way to clean out the "acre" district was to prosecute the owners of the disorderly houses and force them to close the sin houses even if property sacrifice followed. This riled the house owners and it was astounding to note the many sympathizers flocking to them. Some of the most blatant clean up advocates began to plead for vested rights and then there were antagonisms began to show up in the law and order meetings and the outside world is about to conclude that the crusade will wind up as a first-class farce.—Ennis Local.

SYSTEMIC CATARRH.

One of many cases where Peruna has done what other remedies failed to do.

MR. C. A. LANDGRABE.

Mr. C. A. Landgrabe, Box 25, Coalburg, Ohio, writes: "I had been a slight sufferer for a number of years, but paid little or no attention to it, until the spring of this year, when my sufferings became very severe.

"I had pain in the head, back, spine, liver, chest, and various parts of my body, besides indigestion that caused me much trouble and anxiety. I often thought when I retired at night I would not live through it. I tried medical aid, but to no purpose.

"Not knowing what was my main trouble I wrote to Dr. Hartman, after reading of his treatment, for advice, telling him of my various ailments, and he notified me at once that I had systemic catarrh.

"After using the first bottle of Peruna I felt relief, so I continued to use it until I had taken four bottles, when I felt entirely cured. I recommend it to all others, believing that they will experience the relief that I did."

Pe-ru-na as a Tonic.

Mr. William F. Hawkins, 12 West St., Westerly, R. I., writes:

"I wish to give my testimony in favor of Peruna as a tonic. I have used the same for catarrh, and can recommend it to all who are troubled in that way."

You Should See It.

The star of Bethlehem, visible once in every 500 years, may now be seen in the eastern skies for a short time between the hours of 2 and 4 a. m. So if you wish to see this wonderful visitor that noted astronomers tell us guided the Wise Men of the East to the manger where the Savior of mankind lay as an infant. Set your alarm at 2 o'clock, get up and search for it in the eastern skyes. As it is visible only once every 500 years, it isn't likely that you will have another chance of viewing it in all its splendor as it adorns the firmament, the fairest and brightest among millions of its companions.—Tyler Courier and Times.

Trip to Colorado.

In company with W. A. Gossage J. M. Page and J. M. Burries we visited the county seat Saturday day. The party dined at Jake's restaurant, the popular place to get a square meal.

We called at the Record office and found Fred and Abe Whipkey the clever publishers, and A. H. Weston the able editor, busy with work, but not too busy to make us welcome and show us over one of the best equipped printing plants in this state. We formed the acquaintance of a number of business men whom we hope to introduce to our readers through these columns in the near future.

We met Jesse Bullock, our efficient county clerk; Judge A. J. Coe; Earl Jackson deputy sheriff and Mr. Stoneham, deputy clerk, to all whom we are under obligations for courtesies extended

Colorado is a good town and the should patronize its merchants—if they can't find what they want in Westbrook.—Mitchell County News.

There's No Other Way.

The old adage that "Money makes the mare go," has a counterpart in the truism that advertising creates and holds business. What man of ordinary common sense engaged in business in this day and generation would think or have the right to think, of success without liberal publicity through that best of all advertising mediums, he local paper? Sacred history records that there is a time for all things, and when that truthful sentence was penned if it was not meant that advertising should be perennial there was a lack of foresight that has since been made manifest.

The smallest merchant in the smallest town, even though he may be the sole occupant of the [illegible] there is no matter of spreading printers ink is overlooked or ignored. Trade that by right that should come to him will be diverted in the direction of a rival town, where the spirit of enterprise above and beyond all, takes into consideration the power of the press as a distributor of information that the public desires to know before parting with their dollars, that they may be placed where they will do the most good. --Western Publisher.

GREEN DELANEY
Colorado, Texas.

Nashville, Tenn.— For two months the police have been combatting with "odorless drunks," men being carried to the station house every day drunk with something that leaves no odor on the breath. When they are questioned what they have been drinking they almost invariably say "Beerette", but beerette is not considered intoxicating. The "odorless drunks" are usually without bottles in their pockets. There were 41 drunks on the police docket the other day.

A. & M. COLLEGE.

Largest Student Body in the History of the Institution.

College Station Texas.- With seventeen days to elapse before the opening of the next session of the Agricultural and Mechanical College of Texas. The enrollment now is greater than it has ever been in any year of the college history, and plans are being made to care for the large number of students, and more teaching force is being provided.

The boys who will go from Colorado are: Joe Smoot, second year; Leftwich Shepherd, first year; Story, first year; Palmer, second year and Walter Whipkey, third year.

Meeting of the Woodmen Circle of the West Texas Log Rolling Association.

The yearly session of the W. C. in connection with the West Texas Log Rolling Association of W. O. W's held in Cisco Aug. 10, 11, and 12th, was a most enthusiastic one.

Notwithstanding the heavy rains of the past few days, the Cisco people spared no efforts to make the occasion a pleasant one for the many visitors and delegate of the Association. The merchants had decorated their windows with W. C. and W. O. W. colors and the big ware-house which had been engaged for the sessions was trans formed into a beautiful woodland bower.

Early the first morning we met at the City Drug Store, the W. O. W. headquarters, where the local Com. on entertainment were making every arrangement possible for the comfort and happiness of the delegates and guests.

After registering, assignment of homes, instructions and general handshaing we marched to the big Auditorium led by Judia's band. Here the opening exercises of both orders were held. This consisted of music by the band. Address of welcome on behalf of the city by Mayor Platt Prof. Bledsoe of Abilene, also Pres. of the W. T. L. A. responded

Tuesday night we had the pleasure of listening to Congressman Morris Sheppard, also our Supreme Banker. This speech alone would have repaid one for going to Cisco just to hear it.

Then the welcome address on behalf of the W. C. was made by Mrs. Alexander.

More music, followed by introductions and handshakings, then adjournment for dinner.

The Ladies Aid of the Christian church served dinner that day in a well ventilated building and a crowd of us took dinner there and I for one felt very much at home among them. At 2:30 the W. O. W met with the W. C. for general exercises at the auditorium Here we listened with intense interest to the Head Consul, Jewell P. Lightfoot, on the "Origin and History of Woodcraft."

Music by the band, followed by a drill by the Big Springs Howard Camp Degree Team, which was admirably performed and was much commended for their excellent training.

More introductions and hand shakings and adjournment.

Wednesday morning at 9 a. m. the W. C. held a business session in the W. O. W. hall.

Proceedings of this meeting will in due time, be printed and distributed to the Groves.

The parade in the afternoon headed by Judia's Band was witnessed by hundreds of visitors who checred each float in the line. The floats were beautifully decorated. The one showing the Home protected and the one showing the home not protected attracted the most attention. Besides the decorated floats the marching Soverigns made up not the least triumphal part of the parade From first to last, cheering was continued, and the principles displayed in the value and importance of the Orders, was an object lesson that will not soon be forgotten.

Unveiling Ceremonies took place after the parade. The visiting Camps assisting. Mrs. Howard, of Cisco, recited the poem,

These unveilings although very sad brings to our minds most forcifully what Wooderaft stands for

Wednesday night we went to the hall where one lady was introduced into the mysteries of our order The Eastland team in charge of Mrs. Carr performed the ritualistic work in full, giving a beautiful and instructive exemplification. As there was no other team to compete with them, they were awarded a beautiful gold medal, which they are to retain until won by some other team. A vote of thanks was tendered this team, also to Cisco Grove, for the pleasant entertainment of their delegates.

Pleasant remarks were made by members from different Groves telling of the success of their Groves, in growth, finances, etc., which were listened to with pleasure, giving much desired information for the benefit of others, on their return home.

An invitation from the Woodmen requesting our presence in their hall, brought this meeting to a close. After singing the ode, followed by a good night march fruit punch was served and then we repaired to the large warehouse, where the W. O. W. held their meeting.

Here we were royally entertained and a delicious banquet was served. The Eastland team repeated their drill at this place and the Big Springs boys also. This team is so well trained and they go through the work with such exactness and eveness that you never tire of watching them.

An interesting drive over the City Thursday morning was one of the many pleasant features.

In the afternoon we were to meet at the hall for installation of officers, and a farewel! meeting, but rain prevented.

Thus ended an occasion which, from first to last, was one of the happiest it has ever been my good fortune to enjoy. Our Grove was the largest that was represented. I was proud to be your delegate—Proud of being found worthy of your confidence, and grateful for this pleasure that you have offered me. Wish we could all go together to Stamford to next year's Log Rolling.

Your Clerk.

The New Rector.

The Argus learns that Rev. Norman Fitzhugh Marshall has resigned as rector of Grace church, and has accepted a call from the Episcopal church at Colorado City, Texas. Rev. Marshall will not leave however, until October 1st. In losing Mr. Marshall, Grace church loses a hard working minister and the town a good citizen. For about five years he and his estimiable family have lived in Carlsbad and have done much to make Grace church one of the leading churches of the southwest. Under Mr. Marshall, the choir especially has been improved, and the church remodeled and a handsome tower built, which adds greatly to its appearance. Rev. Bishop Kendrick has not as yet signified who will succeed Mr. Marshall as rector. —Carlsbad Argus.

COLORADO, TEXAS, FRIDAY, SEP. 17, 1909

The French were ever "high flyers", and it was not much wonder that Johnnie Crapaud took the prize in the recent flying contest.

Floods on the lower Rio Grande have done great dammage and drowned 15 persons.

The town of Bonham has hatched a boom for "Billy Joe" as president.

One hopeful feature of the cotton report ending Sept. 1st is the fact that more cotton has been consumed by the southern than have been by the northern mills—60,000 more.

The state road from the "Red to the Rio Grande" is materializing. Grayson county has arranged to build about 15 miles of the road through the county towards the Collin county line.

The spirit of old Sam Bass goes marching on,—not in benighted Texas but in the highly cultivated and graftless state of Pennsylvania. A lone bandit stopped the express train on the Pittsburg & Northern road last week, and robbed the express safe of $1000 gold. There was $25,000 in the safe, but as he had to fly light, he took only enough to satisfy his pressing needs.

The reason many people don't mind their own business, are tow: they have no mind, they have no business.

Now that Stamford has the Location of the normal off its hands, it will doubtless resume the promotion of its wireless system to Mars. The fact that the town isn't in some way connected with the discovery of the north pole, breeds suspicion of its aggressive spirit.

Peary and his friends are trying ot double cross Dr. Cook's claims to the discovery of the North Pole. They display all the petty jealousies and bickering spirit of a lot of school boys. Dr. Cook is either the first man ever to locate and reach the north pole, or he is the colossal liar of all ages.

San Angelo did not get the Normal College, but gold mines runing high as $1,500 to the ton have been discovered in Tom Green county.

No doubt the shades of Cotton and Inerease Mather, shivered when the state of Connecticut legalized Sunday base ball.

The National highway idea is growing and the proposed link thru Texas from Denison to the Rio Grande is gaining friends in Texas fast. No internal material improvement could by any possibility, prove as valuable to the state as such an enterprise. It would be worth more than a half dozen steam roads and interurbans Why the counties through which it is proposed to run are not enthusiastic about it is more than the Record can understand. Would that Mitchell or other West Texas counties had the chance of securing such an upbuilding factor, as this would be.

The very latest thing in ladies Winter hats, is the "Dr. Cook" in honor of the intrepid explorer. It is two feet high, made of brown fur, with snow like spray or aigrette on left side for polar effect, but the hat is not nearly so high as the price.

With all his money, influence and power, Harriman could not buy that sympathy and loving service that means so much in the hour and article of dissolution.

Ads show which way the trade goes.—Watch them.

Herbert Hints letter was not received this week until a rush of other matter came in, and hence it was crowded out. We are not only glad to get these letters every week but would be glad to have more of them. So if at any time your letter does not appear you will understand that it has been omitted from some unavoidable cause, and that we will expect you to keep on writing. We would be glad to have the letters in hand not later than Wednesday morning, and on Tuesday would be better. The Record goes to press at noon Thursday, and as the local matter and advertisements do not come in until late Wednesday and on Thursday morning, sometimes we are unable to get the correspondent's letters in type in time.

It is indeed a pity that the honors of the discovery of the north pole should be the bone of contention and the cause of such jealous rivalry between the friends of Lieut. Peary and Dr. Cook. It recalls the victory of Santiago and the heartburnings it created among the friends of the rival heroes. It were better the pole had not been discovered for a generation, than that the disputed honors should be the cause of such a dirty row.

A court house removal war is soon to be waged between Georgetown and Taylor, down in Williamson county. The court house at Georgetown has been condemned as unsafe, and Taylor is whetting up its snickersnee for the fray. A county seat war can engender as bad blood as a family row or a church division, and breaches are often made in friendships that a lifetime can not heal. If the court house is unsafe, get together and build a new one, but don't try to move it.

The papers speak of "Bailey and Bryan being brought together, just like they were heavy weight sluggers hankering to be pitted ainst each other in the squared circle.

It is greatly to be regretted that a controversy has begun between Dr. Cook and Lieut. Peary touching the discovery of the north pole. The matter is too important and dignified to be fought over like two scratching, sore-tailed cats. If Dr. Cook has faked, his story will fall to pieces of its own inconsistencies. While it would much better comport with the dignity and official capacity with which Peary is clothed, to say nothing discrediting to Cook, until the question had been settled by the proper and competent authorities. Lieut. Peary has lost something of respect by his jealous and intolerant attitude toward a less endorsed rival.

Besides being first in war, first in peace and first in the hearts of his countrymen, George Washington set them a good example by being one of the earliest advertisers. While president of the United States he patronized the columns of a newspaper and much earlier than that an advertisement bearing his signature appeared in the Baltimore Advertiser (now American) offering a tract of land for sale. George Washington was a man of wisdom and as such he recognized the potency of printer's ink. His countrymen of the present day can emulate his example in this, as in other things to their profit and advancement.—Bartlett.

Small favors are ever thankfully received. The shower Monday was a great relief form the dust and heat, and a material help to crops of all kinds.

Its so if you saw it in the Record

Because President Taft would not change his route to include Austin, His Excellency, Thomas W. Campbell, has a good case of the "dumps." The governor takes himself and his importance much too seriously. He is not even an accident in the presidential tour.

Farmers of Mitchell county and West Texas, hark to this: The broom corn growers are demanding $200 per ton for their brush, and the broom makers must have the brush or shut up shop. It has advanced $70 per ton during the past two weeks. If all the territory that will grow good broom corn were planted and a good yield gathered, the market would not be glutted. There is no farm product that is so constantly in demand as broom corn.

The Record desires to speak a word for the Men's meeting on every Sabbath afternoon at 4 o'clock. No movement has ever been started in the town of Colorado, that is as potential for good morals and good citizenship as the United Brotherhood. It was organized primarily for the development of its lay membership. The various ministers of the town have gladly taken the lead in most of the services heretofore, and stand ready to do so at any time. But they have as much to do on Sunday as they can well do justice to, and deserve the rest that the afternoon offers. At a meeting two weeks ago, several members volunteered to seve as leaders whenever appointed. The services therefore, from this time on will be conducted by the lay membership as far as possible. To the end that they may be encouraged, the presence of every member of the Brotherhood and as many others as can, are most earnestly invited to meet with us at the tabernacle every Sunday afternoon at 4 o'clock. If every member will lay upon the altar of the Master's service whatever of talents he may have, the greatest revival this town ever had, will spontaneously break out among all the churches. In no other way can the joys of His salvation be restored to us,and in no other kind of service will we be so abundantly upheld by His free spirit, and on these two conditions depend the conversion of sinners and the teaching of transgressors "the way."

Have you seen the new styles in ladies' hats. They are so comprehensive both in circumference and altitude, that one has to do like the little man who had the 400 pound wife—hug a section at a time and mark it off to keep from repeating. So with the latest hats—one must comprehend it in segments.

"Next the schoolboy with shining morning face, creeps like a snail to school." These are not the ipsissima verba employed by the imortal Bard of Avon, we know,but they retain the "figure" and fully express the 2:40 gait in which the average kid of Colorado does not hasten to the annual shooting match of ideas.

The greatest need in the business world today, is not skill or ability, but reliability. The majority of the bums who walk the railroad ties, are men of more than ordinary ability in their several trades and callings, but they are utterly without that sense of honor that prompts an employe to give to his employer full value received for the money he is paid. As a result such employees must be watched and kept at it by the boss, which condition gives rise to most of the friction, difficulties and strikes, and produces a majority of the ills and wrongs of which workmen complain today. The employe who gives his employer more than he is paid, whose honest efforts have created such confidence in his employer that he depends on him, never lacks for work or advancement. If his employer fails to appreciate such fidelity, his employer's competitor just over the way, will appreciate it.

We cannot understand the bad spirit in which many of the towns which were applicants for the West Texas Normal(before the decision we spelled it with a cap) take its location at Canyon City, Colorado devoutely believed it possessed advantages equal to any of its competitors and superior to many of them, and the town made a clean and active effort to land the school but has no criticism for the judgement of the board or jealousy of our successful competitor.

A New Disease.

Mrs. Harvey Cook who lives in East Colorado and has a ranch down near the McKinzie ranch has been quite sick for some time. She was sent to the Dallas sanitarium for treatment. The doctors at Dallas sent her home this week, pronouncing her critically ill.

The doctors both in Dallas and here, pronounce the disease Pellagra. The daily papers and medical journals have had much to say of late of this new disease and we take the following digest from the State Medical Journal:

"Little is positively known of the origin of the disease. The medical profession of Europe very generally believes that it results from the eating of deteriorated corn meal made from diseased or unripe corn. Extracts from such meal give symptoms resembling pellagra..

The disease appeared in Europe soon after the introduction of Indian corn. In Lombardy it is known as "Lombardy leprosy," in Spain as "mal de la miseria," and in Italy as pellagra (skin disease). The present scientific cognomen is given as maidismus. In some parts of Egypt 50 per cent of the population are reported as pellagrous. In Italy the disease has reached the extent of a national calamity; in 1881, 104,067 cases being reported. For a time the Italian epidemic declined, but it is again on the increase, 50,000 cases having been reported last year.

This disease has probably existed in the South for thirty years in an undiagnosed form, being called chronic eczema, tuberculosis, etc. This year it has been reported in thirteen states of the Union, throughout the Southeastern states and as far north as Illinois, Pennsylvania and New York. In South Carolina the disease has reached such proportions as to be considered in a Pellagra Congress, held at Columbia, October 29, 1908, under the auspices of the State Board of Health. Fifteen papers were read there upon the various features of the disease, and published in a special "Pellagra Issue" of the Journal of the South Carolina Medical Association, Nov, 1908. The Marine Hospital Service has recently sent experts who have had experience with the disease in Italy to help check the epidemics in Georgia, Alabama and North Carolina. They report through the lay press the presence of about 1000 cases in the United States.

Texas:—According to the daily papers, Surgeon General Wyman of the Marine Hospital Service, says no cases of pallagra have been reported in Texas or Arkansas. Notwithstanding this the disease probably will be found somewhat widely disseminated in this State. Dr. T. C. Merrill, of Colorado, Tex. was the first credited with a report of a case in Texas. (Journal of the A. M. A., Sept. 14, 1907.) Seven cases, all dying of the disease, have been reported during the last year from the Arlington Heights Sanitarium, Fort Worth; the diagnosis from intestinal, skin and mental symptoms being made by three prominent alienists of the State. Another case was shown at the June meeting of the Central Texas Medical Society at Marlin. Two more possible cases are under observation in Fort Worth, one of eight years and one of three years standing.

For forty years we have at least half that number of times, faced starvation in common with the entire community; but somehow, in some way, we came out of the little end of the horn of plenty, a little better prepared to face the misfortunes of the next year of leanness and want. It is sheer folly, neighbors, to borrow trouble or doubt the beneficence of Him who "sendeth the early and the later rain; who leadeth his creatures by ways they know not, who maketh darkness light before them; who calleth for the waters of the sea and poureth them out upon the land—the Lord is His name. He has always provided and He always will for those "not slothful in business, fervent in spirit, and serving the Lord."

The Record is in receipt of the Rochelle Record, published by W. D. Cowan at Rochelle, in McCulloch county The writer knew Will Cowan in old Mississippi, when he was but a cub in the mysteries of the "art preservative." We knew he came to Texas, and from time to time heard of him at different places. He has founded as many papers as our old friend Kirgan, and done as much to plant clean, progressive journalism in the state of Texas as any one in the state. Will Cowan is all right.

Enlarging Your Business

If you are in business and you want to make more money you will read every word we have to say. Are you spending your money for advertising in haphazard fashion as if intended for charity, or do you advertise for direct results?

Did you ever stop to think how your advertising can be made a source of profit to you, and how its value can be measured in dollars and cents. If you have not, you are throwing money away.

Advertising is a modern business necessity, but must be conducted on business principles. If you are not satisfied with your advertising you should set aside a certain amount of money to be spent annually, and then carefully note the effect it has in increasing your volume of business; whether a 10, 20 or 30 per cent increase. If you watch this gain from year to you will become intensely interested in your advertising, and how you can make it enlarge your business.

If you try this method we believe you will not want to let a single issue of this paper go to press without something from your store.

We will be pleased to have you call on us, and we will take pleasure in explaining our annual contract for so many inches, and how it can be used in whatever amount that seems necessary to you.

If you can sell goods over the counter we can also show you why this paper will best serve your interests when you want to reach the people of this community.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Mitchell County, Greeting:

You are hereby commanded to summon William Cheek, Samuel Cheek and Thomas Cheek by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein but if not, then in any newspaper published in the 32nd Judical District: but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 32nd Judicial District, to appear at the next regular term of the District Court of Mitchell County, to be holden at the Court House thereof in Colorado on the first monday in January A. D., 1909, then and there to answer a petition filed in said court on th 19th dayof August A. D. 1909 in a suit, numbred on the docket of said Court No.1212, wherein Hardie Caesar individually and as Executor of the last Will and Testament of Maria Caesar, deceased, is Plaintiff, and William Cheek Samuel Cheek, Thomas Cheek and Mary Robb are defendants, and said petition alleging: That Plaintiff's testatrix was the owner, and Plaintiff as the Executor of and sole beneficiary under her last will and testament is now the owner of an undivided one-half interest in and to a certain tract or parcel of land, lying and being situated in Mitchell County, Texas, known and described as all of Lot No. Ten (10) in Block No. Thirty-five (35) of the town of Colorado, the value of said whole tract being Six Hundred Dollars ($600.00) That the Defendants William Cheek, Samuel Cheek and Thomas Cheek, are the owners of an undivided interest in said property, which Plaintiff believes and alleges to be an undivided one-eight each, and that the defendant Mary Robb, Plaintiff belives and alleges to be also the owner of an undivided one-eight interest therein, while Plaitiff is the owner of an undivided one-half interest therein. That said property was the community property of Richard Cheek and Maria Cheek both deceasd. That said Richard Cheek died intestate leaving the following children, William Cheek, Samuel Cheek Thomas Cheek and Sallie Garcia, wife of Martin Garcia, who thereby under the statuteof descent and distribution each became the owners of an undivided one-eighth interest in said proprty. That said Maria Cheek, afterwards Maria Caesar, as the surviving wife of Richard Cheek became the owner of an undivided one half interest in said property and died testate, as alleged, bequeathing all her right title and interest in said property to plaintiff. That the Defendant Mary Robb became the owner of all the right title and interest of her mother Sallie Garcia in and to said property by a certain deed of gift from said Sallie Garcia and her husband, Martin Garcia, dated June 29, 1909, and recorded in Vol. 29, pp. 91-92, Deed Records of Mitchell County, Texas.

That said property is not susceptible of partition in kind in a fair and equitable manner.

Premises considered Plaintiff prays that the several defendants be cited in terms of law to appear and answer this petition, and that on final hearing the court do ascertain the respective interests of the plaintiff and the several defendants in said realty, and determine whether or not said property is capable of fair and equitable partition in kind, and if it be not found so, that the same be sold through a receiver as ordered by law at either a public or private sale as the court may deem best and the proceeds of such sale be divided, or, in the alternative, if the said property can be partitioned in kind that same be done, and for a decree which will afford Plaintiff such other and further relief both general and special legal and equitable as he may be entitled to, for an equitable taxation of the costs hereof as in duty bound he will ever pray.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Jesse H. Bullock Clerk of the District Court of Mitchell County.

Given under my hand and the Seal of said Court, at office in Colorado this the 19th day of August, A. D. 1909

Lumber and

Will It Come to This.

An old English law was recently published by the Chattanooga News, which in 1670 was rigidly enforced in the old country.

And that was before the day of the sheath gown, and the decol lete, and the merry widow and the roached mane and such other ravishing devices the women of today have for alluring poor, weak man.

Listen to the old English law, O men!

"That all women of whatever age, rank, profession or degree whether virgins, maids or widows, that shall from and after the passing of this act impose upon and betray into matrimony any of his majesty's male subjects by scents paints, cosmetics, washes, Spanish wool, iron stays, hoops, high-heeled shoes, or bolstered hips, shall force against witchcraft ,sorcery force against whitecraft, sorcery and such like misdemeanors and that the marriage upon conviction shall be null and void.—Minden Democrat.

Dayton Ohio, Capitalists are seeking a locaion for an areoplane factory at Dallas.

It is estimated that fully 4000 consumptives starve every year in the United States.

J. C. Albritton cotton selling agent for the farmers Union of both Texas and Oklahoma, last week, declared that the Union had fixed a minimum price on cotton seed and that if this is not paid in either states mentioned,the seed will be shipped outside the state by the farmers for sale.

Oklahoma has found fault with its constitution already. The Populist plank restricting railroads, has acted as a practical prohibition of railroad building in the state, and a repeal is loudly voiced.

Churches in the United States are being built at the rate of 60 per day.

A new paving material is made of steel shavings and concrete. It makes a block practically indestructable. One great advantage being that the joints are wholly eliminated, thus doing away with the points where disintegration always begins.

A man was arrested in New York last week wearing twelve suits of clothes, two hats, eight cravats and had all his pockets full of cooking accessories. He explained to the court that he had been robbed once, and did not intend to risk being done a second time by carring all he possesed on his back.

Chicago now claims to have 2,500,000 inhabitants, but other pretentious burgs say "You'll have to show me."

In preparing for the visit of Pres. Taft, more than $600,000 have been expended at the Gregory ranch. The finest ranch house in the state with every comfort, and convenience has been rushed to completion. A fine hotel has also been built close by for the accommodation of the Presidents suite.

It's so, if you saw it in the Record.

The Coming International Fair.

From the announcement by President Brown of the attractions already arranged for and the preerations already made, or being made there appears to be ample promise of a great San Antonio International Fair and Exposition next autumn.

All the buildings on the grounds have been remodeled and freshly painte before the Fair opens, the grounds are to be beautified with plants and shrubs and walks made hard and smooth and everything put in shape before the exhibits are installed.

Greater efforts than ever before are being made for a splendid agriculture and live stock display and the merchants and buisness men of the city have promised a more active and generous co-operation in making the Exposition Hall an attractive resort. The Mexican government is having a comprehensive exposition of Mexican industries and resources assembled for the coming Fair, and will in addition send one of the best millitary bands with the compliments of the Government.

There will be, according to official announcement, a better line of amusements than ever before, and they have already been contracted for. Of course the main idea of the fair is to educate the people as to the progress and development along agricultural, live stock and industrial lines and to stimulate efforts for better things by force of example. Seeing what others have done in the field or workshop, on the farm or in the city, farmers, stockmen, artisans —everybody, in fact, with a speck of ambition or desire for progress —may obtain new ideas and new encouragement for going ahead with a purpose to emulate, if not to excel.

But people like to be amused as well as instructed, and when they go to the fair they look for some sort of novelty, something that will entertain them, something they are not likely to see elsewhere. So there will be horse races, automobile races on the track, sideshows in great profusion and of the best class, free attractions in open space and—best of all—airship ascensions daily, thus giving visitors to the fair an opportunity to see the modern dirigible air craft circle overhead and come back to the starting place to land.—San Antonio Express.

Come with the Mayflower.

How often do we hear people say: "Where in the world do all the flies come from?" It is simple enough. "The toper makes the blue-bottle fly, the cyclone makes the house fly, the black-smith makes the fire fly, the driver makes the horse fly the grocer makes the sand fly and the boarder makes the butter fly.—Peecs Times.

Geo. S. Berry has resigned the presidency of the First National Bank of Merkel.

Colorado need not dispair. If we cannot land any other enterprise or institution—why, there's the leper colony, for which the state made quite a nice appropriation, as a last chance. Some of the towns would meet the location of this colony with shotguns instead of a fat bonus.

Rev. J. R. Henson left Monday for Claytonville, where he will hold a meeting.

It costs more to get the best but you can always get the best at Doss' drug store. Anybody can buy cheap imitation goods but it takes money to buy the best and the best is none too good for Doss' customers.

Miss Mable Ratliff left Monday morning for Abilene, where she will attend Simmons College.

—o—

Coming!—The swellest line of corsets you ever saw at Mrs. Jas. DeMoss.

—o—

They are here all right—the despised and lowly weevil—the boll weevil. They have come very numerous. A sprinkling has been located in other counties, and a few have been found in Miteell county. They have been examined by peopie who know the bug from "a to izzard" and pronounced the real thing. Little trouble is apprehended.

—o—

We have some beautiful dinner sets in plain white, also decorated.

M. T. Crawford returned from a stay of about two months in the northwest, Sunday morning. He attended the opening and drawing of the Coeur D'Alene lands in Idaho, and saw much of the state of Montana. He reports a good crop in that section, but does not think it has any advantages over west Texas under similar conditions.

Attention Sidewalk Builders.

—o—

In consideration of the recent ordinance passed by the City Council, I wish to say that I have just received a fresh car of cement and am prepared to put down your sidewalks as cheap, if not cheaper than any other builder. I guarantee the very best of work, materials, etc. and can give you three to six months time at a low rate of interest. For further information, write or see J. B. Reese, Colorado, Texas. tf

Read Only the Best.

If you want your children to cultivate a correct and elevating literary taste they must have access to the best literature. They will read, if not the good, then the vicious. Give them a fair chance. The Ladies Home Journal and Saturday Evening Post stand at the head of all journals of their different classes. They cover the tastes of the entire family. Once a reader, always one. Mrs. A. L. Whipkey is the duly accredited agent in Colorado, and will be glad to call upon you and take your subscription for one or both. A phone to the Record office will reach her.

John Person and Mr. Houston are the latest concrete walk builders on the hill.

—o—

Mrs. B. F. Mills has some beautiful creations in new fall hats, new styles coming in every day.

—o—

And still the concrete walks go down. A walk over the town will discover walks that were not there a week or two before. Many are anticipating the compulsive force of the recent ordinance, and are taking time by the forelock. In every instance, where the new walks are down, the value of the property has been increased far more than the cost of the walk. On with the good work.

Special Atention Ladies.

Maxfield & McKinney are preparing to have their resturant department greatly enlarged and refitted with every accessory and convenience that will conduce to the comfort and convenience of their customers. The cooking department wil be moved into another building and all the space heretofore ocupied by the kitchen, will be made as a dining room.

These improvements and comforts will be made by the time the oyster season is with us and they will spare no pains or expense to give the people of Colorado, and particulary the ladies, an up to date, strictly private cafe, to which they can come at any hour of the day and at night, and be served in as much privacy as if they wer at home.

Further announcements will be made when our first consignment of oysters arrive.

Remember, if you will patronize the Independent Ice Co. you will always get your ice very reasonably.

A Colored Marriage.

On last Wednesday, the 8th inst, D. C. Fowler and Mae Wallace, daughter of D. M. Wallace, were married at the home of the latter who is well and widely known to all the stock men of this section of West Texas as "Eighty John." This family is a credit to their race and among the reliable citizens of Mitchell County. Aside from being one of the largest land holders and tax payers in it. His children have been given the advantages of a solid education at Phillips University. They have the respect and good will of both white and black, which was attested by numerous useful and valuable presents the couple received.

The Record commends the trustworthiness and substantial qualities of "Eighty John" and his family to the earnest emultion of every member of their race.

Letter to J. E. Hooper.

Colorado, Texas.

Dear Sir: Josh Billings never said anything truer than this: "Sucksess duz not konsist ov never makin blunders, but innot makin the same wun twist."

N. R. Watkins, of Lott, Texas, had his house painted some years ago, and it took 13 gallons of what he believed to be paint; he bought it for paint, and it looked like paint, the painter said it was paint.

He has had it painted again; it took 7 gallons Devoe.

It cost $65 before; now $35.

He knows it is painted now, and he's got that $30 in a safe place. He's got his knowledge in a safe place too.

Yours truly,

Blakeley—Pratt.

Mr. J. M. Blakeley and Miss Lela Pratt were married on Saturday Sept. 4th, at 6:15 o'clock at the home of the brides parents in Sylvester.

It was a pretty home wedding wih only the immediate friends and relativcs of the contracting parties present. At 7:15 o'clock the sweet strains of the wedding march was rendered by Miss Daisy Dees, the bridal couple entered, proceded by Mr. and Mrs. A. C. Pratt. The bride wore a handsome traveling coat suit of blue and gray, with jet trimmings, the groom wore conventional black Rev. A. L. Phillips of this place officiating. Miss Lela formerly lived here and was one of the most popular girls of our town. She is noted for her sweet and womanly grace and she has a host of friends who wish for her all the joys of wedded life. Malcom is a home boy who is well and favorably known and is connected with the popular firm of Blakeley Bros. Those who attended the wedding from here were Mr and Mrs. F. M. Blakely. Rev. A. L. Phillips, Misses Daisy Toler.

The News, with heir friends wishes the happy couple all the sucess and happiness that is possible to get out of this life.—Loraine News

When the train bearing Mr. Bryan came in yesterday morning it seemed as if half the population of Colorado was at the depot to greet him and hoping he might be prevailed upon to make a few prefatitory remarks. When the train came to a stand, and calls were made for "Bryan" and after a brief delay, (during which the great Commoner was getting on his shirt) he leaned out of the window and with a benignant smile, all his own, shook hands with all who crowded around the window. Many who were undecided whether they would go to Big Springs to hear him speak, shook their indecision and boarded the train.

Entertained.

Friday afternoon from 4 to 6, Mrs. and Miss Bertner entertained with a delightful 500 party in honor of Mrs. Sayles and Miss Roberts of Abilene. There were tables for thirty players and the time flew by all too swiftly for the jolly company. The largest number of games was won by Miss Hamner who was awarded a beautiful prize. The guests of honor were each presented with exquisite favors in remembrance of the afternoon's entertainment. Beautiful piano and vocal music by Misses Arnett, Roberts and Bertner, enlivenlivned the affair. Delicious refreshments of sherbet and cake being served at the close.

The Vogue's Opening.

On last Wednesday the millinery establishment known as the "Vogue" had its opening for the fall season. In the innermost shrine of the feminine heart there is an altar apart dedicated to the Graces, on which sacrifices are constantly made by Beauty. The display at this fountain-head of the things "approved and proper" was in harmony with this idea. Long streamers of alternate white and blue crepe paper were fastoon ed from a white square on the ceiling to the tops of the surrounding show cases, and counters, wherein and whereon in bewildering numbers, colors, shapes and sizes, hats to ravish the feminine heart and mere man's admiration. were arranged in lavish profusion.

The walls were hung with rugs and mats that touched the scene with a sense of the Orient so great that imagination could easily conjure up the note of he bulbul and twang of the lute, while the presence of the ladies in waiting left nothing to the imagination as to the setting of the Houris.

The stock is complete in every detail that enters into the millinery accessories of a "perfectly dressed woman." The markets of the east had been gleaned, and the best, prettiest and most swagger had been secured, and is now offered to the ladies of Colorado. If a perfectly selected stock, with lots of it, latest styles, best quality at the most reasonable prices, constitute a successful opening display, then by all these tokens, the opening was a most unqualified success.

Saturday evening at 5 o'clock a farm wagon filled to overflowing with the girls of Miss Nell Ruddick's Sunday school class and the boys of Miss Exa McLure's class left the Ruddick home, drove down town, added a freezer of ice cream to their already abundant lunch, and left for the country. A few miles out of town a stop was made, and while the shades of evening lengthened, the youngsters, who were chaperoned by the staid and dignified Misses Ruddick Ethel Majors and Louise Coe, enjoyed themselves. Soon the good things which had been provided by the party were temptingly arranged and the feast began, and ended only when human capacity would contain no more. The return was made by moonlight, the gay crowd singing and shouting as they drove hoem.

MAY PROVE FATAL.

When Will Colorado People Learn the Importance of It?

Backache is only a simple thing at first.

But when you know 'tis from the kidneys;

That serious kiduey troubles follow.;

That diabetes, Bright's disease may be the fatal end.

You will gladly profit by the following experience.

'Tis the honest statement of a sufferer who was cured

Frank Polacek, of Big Springs, Texas says: "It was two years ago that I first used Doan's Kidney Pills. I was then working in the shops and from continual drinking of too much ice water, my kidneys became disordered. The most severe pain darted thru my back, causing intense misery. The kidney secretions were too frequent in passage and annoyed me greatly. I was unable to get anything that would relieve me until I procured Doan's Kidney Pills. After taking the first few doses I felt better and two boxes made me as well as ever. Whenever I have the least symptoms of kidney ailment, I use Doan's Kidney Pills and am soon all right."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
