

U. S. Man-In-Space Try Is Delayed By Weather

Shepard Gets Nod For Ride

CONTRACT CALLS FOR MORE LIGHTS ON SQUARE HERE

More bright lights are on the way for Snyder's court-house square. County commissioners Monday approved a contract with the Texas Electric Service Co. which will provide 24 mercury vapor lamps around the court-house. Both the county and city will participate in the project, which involves a contract identical to that between the city and TESCO for street lighting.

By HOWARD BENEDICT CAPE CANAVERAL, Fla. (AP)—Bad weather forced postponement today of America's first man-in-space shot and the chosen astronaut, Alan B. Shepard Jr., must wait at least 48 hours before he takes his rocket ride into the heavens and the history books. Announcement that Shepard, lean, muscular, 37-year-old Navy commander, had been chosen for the daring adventure came simultaneously with a report that unfavorable weather had spoiled a try this morning to launch him 115 miles into space aboard a Redstone rocket. The backup astronaut, to take Shepard's place in the 3,000-pound Project Mercury space capsule if he is unable to go when the time comes, is John H. Glenn Jr., 30, a Marine lieutenant colonel. Shepard had donned his pressure suit and sat in a hangar at the missile test center, awaiting the moment when he would be called to embark on the most thrilling voyage ever taken by an American. Observers reported that he sat quietly, outwardly calm, and eager to be the man who would challenge the Soviet feat of blasting a man into the weightless void beyond the atmosphere of the earth. In the coming 48 hours, physicians will keep Shepard under constant surveillance to see how he bears up under the mounting tension. A physical or psychological disorder would sideline him in favor of Glenn, who also will remain under observation in the Cape Canaveral room. If Shepard still is in good condition, mentally and physically, at the next scheduled launch time, he will remain the choice. The final countdown began at 12:30 a.m. but prospects were never good. A heavy cloud cover over the Cape and down along the 290 miles of the missile range over which the Redstone was to fly brought frowns to the faces of Project Mercury scientists. They needed clear visibility so that in the critical moments after the blast-off they could have good visual tracking and be ready to trigger Shepard's escape mechanism at the first hint of any trouble. While scientists and physicians checked everything from the working parts of the rocket to the functioning of Shepard's heart, weather men looked hopefully for a break in the clouds. But weather conditions did not change and at 7:40 a.m. the National Aeronautics and Space Administration announced that the shot was off until at least Thursday. "No new launch date has been set," said the announcement. "But the minimum recycle time is 48 hours. The pilot will remain in the crew quarters in the NASA Mercury hangar here." The rocket crew was 1 hour and 20 minutes away from its zero "gravity" start. The "biggest" problem was reached. The count had been halted several times in the hope that favorable weather would come.

House Delays Tax Debate

By GARTH JONES AUSTIN (AP)—The House postponed debate today for one week on the corporation income tax by a vote of 76-69. The decision to postpone, on the motion of Rep. Reed Quilliam Lubbock, came after an effort to table Quilliam's motion failed 73-71. Quilliam argued that House members did not have enough information at hand to debate the bill today. He contended the proposed income tax bill would not raise enough money for 1962-1963 but would have the effect of creating a \$40 million surplus in the following biennium. In the Senate, the possibility arose of another filibuster against the University of Houston bill (SB2).

Sewer Contract Let; Electric Rate Hiked

The Snyder City Council last night awarded a contract to extend sewer service to the Huffman Addition in the West part of town and approved a slight rate increase for Texas Electric Service Co. as a result of a contract for a new sewer line. Councilmen commended Brown and the electric company following the presentation. Several councilmen said TESCO had submitted the most competitive and thorough set of figures ever received by the council on the initial presentation of such a request. In other business the council accepted the bid of H. C. Arnold for the west 15 feet of Lot 1, Block 56 of Blankenship Addition. Arnold bid \$51.95 for the piece of property which had been owned by the city for many years. The city manager was authorized to advertise for a 1962 Chevrolet one-ton truck and a 1962 Chevrolet two-ton dump truck. Also approved was a proposed parade to display Civil Defense equipment assembled here by the city and the county. The display has been set for 2:30 p.m. Saturday. The equipment will be assembled on Thirtieth Street and then proceed north on Avenue S to Twenty-sixth street, then east to a dispersal point at Avenue L. A resolution was unanimously adopted paying tribute to the late W. W. Park, who served as city attorney for 11 years. The resolution called for a public hearing for members of the board of equalization on the oil and other properties was set for 2 p.m. July 26, and a committee composed of Councilmen Stanley Noah, M. L. Bowman and Fred Davis was appointed to submit a report for the city during a hectic period for city government, including the adoption of the present city charter.

2 Survive Crash Of Huge Bomber

HURLEY, Wis. (AP)—An Air Force B-47, a six-engine jet bomber, which looked like "a ball of fire falling from the sky" crashed in a swampy northwoods area today but at least two members of the four-man crew survived. The plane, from Forbes Air Force Base at Topeka, Kan., was on a simulated bombing run when it went down in an area where another Air Force plane crashed a little over two months ago. Two survivors were taken to Grand View Hospital at nearby Ironwood, Mich. They were Capt. Frank Meade III, 32, of Orange, Calif., and Capt. John Hill. Meade apparently was uninjured but was admitted to the hospital for a checkup. Hill suffered a broken leg and was taken immediately to the X-ray room. Meade walked out with members of a rescue party about 2 1/2 hours after the wreckage was spotted by search plane. The ground party was led to the survivors by radio messages relayed by one of the survivors to the rescue planes. The ground party was directed to the crash scene by the Iron County sheriff's department. The plane went down in an area known as Gates Flowsage in extreme northern Wisconsin. Deputy Agelo Daldorin said the plane crashed at 2:45 a.m. the hour the half of fire was reported to police at nearby Ironwood, Mich. The B-7 was participating in a practice bomb run being scored by the Air Force radar station at Ironwood. Spokesmen there said the plane "just disappeared from the screen."

Gunman Barricades Himself In Motel

HOUSTON (AP)—A man identified by police as Joe L. Wilson barricaded himself in a motel at Kemah, 20 miles northeast of here, today and kept officers at bay with a pistol. Authorities said the man is wanted on Houston federal warrants for the slaying of a federal agent. Galveston County deputy sheriff Truman Stone trailed the man to the Sylvia D. motel at Kemah and radioed for help. Four Galveston County and one Houston County police units answered the call. Tear gas was sent from Houston. Sheriff's Lt. Joe Taylor of Galveston said the man threatened to fire his pistol into his own mouth.

Truce Parley Ends Fighting Temporarily

By JOHN GRIFFIN VIENTIANE, Laos (AP)—A truce meeting between a government officer and a Pathet Lao rebel leader has brought a provisional end to fighting on the front 45 miles north of here. Gen. Phou Nosavan said today. He reported that the two officers met Monday afternoon and fighting had halted "provisionally and temporarily" by 5 p.m. Foreign Minister Tao Soganasana said the Cabinet was encouraged to hope that the contact could lead to an overall cease-fire, first step to ending civil war between the Communist-backed rebels and the government forces. The government's truce emissary went to a point just north of Vang Khy, 40 miles from the front. It was his second attempt to make contact with the rebels. Top Laotian government and American military officials joined the meeting Monday night, one informal session on the front. Prince Boun Oum's Cabinet met in Vientiane today to discuss the situation. There was still grave doubt in many quarters in Vientiane that a cease-fire would result. Some observers suggested that the rebels have agreed to the battlefield meeting for propaganda purposes. "There was a feeling that the Pathet Lao might lay down conditions for a cease-fire that the Western-backed government would find unacceptable. One likely demand was for the immediate withdrawal of American troops who have been serving as military advisors to the royal regime."

New Minimum Wage Bill Is Worked Out By Conferees

By JOE HALL WASHINGTON (AP)—A minimum wage bill marking a historic breakthrough in coverage for additional employes has been worked out by Senate-House conferees. Tailored to win vital House votes, the measure would raise the present \$1.15 an hour wage floor to \$1.25 by 1963. But its key provisions in the view of many backers of the legislation would bring an additional 3.2 million workers under the law. Most of this new coverage would be in large retail stores. It would mark the first time since President Franklin D. Roosevelt got the original act passed in 1938 that there has been any extension of the workers covered.

No. 1 Astronaut Thrives On Life Filled With Challenges

By RALPH DIGHTON CAPE CANAVERAL, Fla. (AP)—To Alan Bartlett Shepard Jr., 37, chosen today to be the first American to ride a rocket into space, life has been a series of challenges. Asked recently why he volunteered for the hazardous mission, the Navy commander said: "The flight is obviously a challenge and I feel that the more severe challenges are on the first flight. I signed up to accept this challenge." His wife, Louise, once said that if Alan couldn't find a challenge, he would create one. He became impatient while taking Navy flight training and went to a civilian flight school in his spare time to get his private pilot license. He loves water skiing. First he used two skis, then one. Later he started surfing for a "beat" that would pull him fast enough to catch a wave. Shepard finds challenge where other men might find only chores. In his wife's words: "He is always reading technical manuals and the kind of animals and general say should be read." Other men his age drive sedans, Shepard drives a high-powered white sports car fitted with racing tires. The biggest challenge of his life came this morning when Shepard was tapped for the journey into space. "But it was a challenge he has spent two years preparing to meet." To prepare his muscular body he has allowed himself to be jerked, spun, shaken, crushed, chilled and roasted. To prepare his genius-level mind he's gone somewhere between 135 and 145 degrees, based up on astronautics, astrophysics, back guidance systems, meteorology, astronomy and geography. Asked if he now feels that he is ready, he recently said: "The answer is an overwhelming yes—a resounding yes." Shepard comes of a military

HEARING ON CUBAN INVASION STARTS—Secretary of State Dean Rusk chats with Sen. William Fulbright, D-Ark., before the start of a closed-door hearing by a Senate Subcommittee on an investigation into the extent of U. S. involvement in the Cuban invasion failure. The Subcommittee on Latin American Affairs called a hearing with Rusk as the first witness. (AP Wirephoto)

Advisers Map Plans To Elevate Economy

By NORMAN WALKER WASHINGTON (AP)—President Kennedy's labor-management advisers have decided to map out recommendations for the White House to increase both production and consumer demand while curbing "intolerable" unemployment. That is the gist of a statement of principles adopted unanimously by the 21-man advisory group made up of some of the nation's leading businessmen, labor union chiefs and public figures. The committee acted on its own after meeting briefly Monday with Kennedy. The President stressed that he is depending on the group for help in planning how to step up the economy in the light of both domestic and foreign problems. The government is due today to release its latest jobs survey, a report on the situation in April. Seasonal expectations call for a drop of about 450,000 in the idle total of about 5.5 million in March. The figure watched closely by the economic experts is the "seasonally adjusted unemployment rate." At 6.9 per cent in March it has been rising for several months even though better weather has somewhat curtailed unemployment. The labor-management advisers are to meet again at the White House on June 5. By then they are to get views worked out by Kennedy's economic advisers in consultation with government departments of tentative proposals to buoy the economy. Arthur J. Goldberg, secretary of labor and chairman of the labor-management advisory group conceded there already is a wide range of views inside the committee on some proposals such as the shorter work week generally favored by unions but opposed by management. But the labor-management advisers' statement said they have a substantial area of agreement including these points: 1. Technological change and automation must be recognized as essential to increasing the efficiency and growth rate of the economy. 2. The problem posed by automation is how to achieve full employment without significant and lasting unemployment. 3. General prosperity and the highest practicable growth rate are the best assurance against unemployment. 4. It is clear that the present unemployment rate is intolerable and that solutions must take into account not only the need to retrain workers but also special employment policy needs. Steps must be taken, the committee said, to make sure new entrants to the work force have the skills that are going to be needed, that workers displaced by machines are retrained for different jobs, and that workers are able to shift among plants, industries and areas as needed. Arrangements also were urged on the laid-off workers would not lose their unemployment compensation benefits while retraining for different types of work.

# Ex-Nazis To Take Stand For Eichmann

By RELMAN MORIN  
JERUSALEM (AP)—Four former Nazis were named today by Adolf Eichmann's lawyer to testify on his behalf. Robert Servatius said they would show Eichmann was just a cog in the Nazi machine to exterminate the Jews and could make no decisions by himself.

Two of the witnesses Servatius named were convicted of war crimes after World War II. Another is still pending an investigation into his wartime activities. The fourth is a former Nazi foreign office official who the prosecution has announced would be presented as a war crimes suspect if he sets foot in Israel.

Servatius said he would make applications for additional defense witnesses later. He indicated that all the witnesses want to testify in Germany.

Servatius named these men: Former SS Maj. Gen. Franz A. Six, one-time department head in the Nazi Reich security office. He was sentenced to 20 years in prison at the Nuremberg war crimes trials for his role in the "Einsatzgruppen" — extermination commands — but the sentence was later commuted. He is free in West Germany.

Dr. Max Merion, former German military governor in Salonika, Greece, who was convicted by a Greek court and sentenced to 20 years in prison. The sentence was commuted shortly after his conviction. He now is a lawyer in West Berlin.

Former SS Maj. Hermann Krumey, a deputy of Eichmann in Nazi-occupied Hungary. Krumey now is under arrest in Frankfurt pending an investigation into atrocities.

Elihuhard von Thadden, Jewish affairs adviser to the Nazi foreign office. An investigation into Thadden's case was ordered suspended by a Cologne court for insufficient evidence.

Israeli Atty. Gen. Gideon Hausner immediately said that all four are regarded as offenders under the Israeli war crimes law and would be arrested if they come to Israel.

Six, the defense counsel said, would testify on the setup of the Nazi security office. Merion, Servatius added, will show that Eichmann had to obtain the consent of others before he could make any decision.

Krumey will testify that in Hungary that Eichmann could not act on his own authority, and von Thadden will also testify that Eichmann had no authority to deal with the Jews on his own, Servatius said he wanted to have the witnesses who living in Germany testify before the Israeli court trying Eichmann, but he claimed Hausner was not able to assure immunity because the witnesses were "political."

But Chief Justice Moshe Landau said that he wanted to make it clear to Servatius that Hausner might need the witnesses to code this issue.

# Castro Proclaims Socialist State; Rules Out Elections

KEY WEST, Fla. (AP)—Prime Minister Fidel Castro today put Cuba deep into the sphere of international communism, proclaiming a Socialist state, ruling out elections and clapping harsh new restrictions on the Roman Catholic Church.

Cuban masses filled Havana's Civic Plaza for a mammoth May Day demonstration and roared their assent when Castro insisted on Cuba's right to choose its own political and social future despite United States opposition.

"We will not even discuss that subject," said Castro, whose audience was estimated by Havana television commentators at three million. The telecast was monitored in Key West, 90 miles from Havana.

The multitude screamed "No" when Castro asked, "Do you need elections?" He said Cuba would do without them.

Calling priests "the exploiters who came in the name of God," Castro said, "If Mr. Kennedy does not like socialism, we don't like imperialism. We don't like capitalism." He said Cuba has as much right to set up a Socialist state 90 miles from the U.S. coast as the United States does to its form of government.

"Why do they fear us? As Khrushchev said, this shows they have no faith in their own system," Castro said.

Castro used the word traitors to describe Latin American nations which followed the United States' lead in severing diplomatic relations with Cuba and vilified President Kennedy, who earlier was burned in effigy.

"Kennedy had better get rid of that hate, that phobia against our revolution," Castro said in a 3 1/2-hour speech that lasted into the early morning and left him hoarse.

Castro, wearing a uniform, a beret and a pistol at his waist, spoke after waiting for 4 hours as legions of laborers, peasants, athletes and some heavy military equipment moved past him.

"The aggressive policy of the United States can cause a world war that can cost the lives of tens of millions of Americans," he shouted.

# Ex-GE Man Claims Fix Order Given

WASHINGTON (AP)—A former General Electric executive testified today he once was ordered by top management officials to short circuit his immediate superior and resume price fixing discussions with competitors.

The testimony was given the Senate antitrust and monopoly subcommittee by William S. Ginn, a former GE vice president who was given the stiffest penalty of all defendants after pleading guilty earlier this year to government charges of price fixing. Ginn was fined \$12,500 and sentenced to 30 days in jail by a federal judge in Philadelphia.

Ginn said the top official he was told to short circuit was Robert Paxton, who retired earlier this year as president of GE. He said the order was given by the late Henry Van Erben, a former executive vice president of the company.

At the time about 1950, Paxton was head of GE's transformer division in Pittsfield, Mass., and Ginn was the sales manager. Erben was over the two of them.

Ginn said that in about 1949, the company made it very clear that all contacts with competitors were to stop and that for about a year after that "the iron curtain was completely down."

Ginn said the stop order lasted about a year, and then Erben called him in and said "this wasn't working, that the market was getting in chaotic condition, and that I had better start meeting with competitors again."

Erben told him Ginn said not to let Paxton know about it—that Paxton didn't understand these things.

"I had better get rid of that hate, that phobia against our revolution," Castro said in a 3 1/2-hour speech that lasted into the early morning and left him hoarse.

Castro, wearing a uniform, a beret and a pistol at his waist, spoke after waiting for 4 hours as legions of laborers, peasants, athletes and some heavy military equipment moved past him.

"The aggressive policy of the United States can cause a world war that can cost the lives of tens of millions of Americans," he shouted.

"We do not endanger the lives of a single American. It is they who are playing at war."

Castro ended by waving his arms and shouting, "Long live the Cuban working class. Long live the brother countries of Latin America. Motherland or death, we will triumph."

# Fear Flight Of Gold To Resume

WASHINGTON (AP)—The U.S. Chamber of Commerce was told today that the flight of American gold and capital, curbed in the early weeks of the Kennedy administration, will resume if the government embarks on an easy-money, deficit-financing policy.

John J. Bailes, Pittsburgh financier, told the businessmen's organization that the government's reassuring words on the future of the dollar must be "followed by effective action."

The solution lies in attacking the root cause—inflationary budget deficits, excessive easy money, and a wage-price spiral," Bailes said in a speech prepared for the chamber's 48th annual meeting here.

The key policy is the avoidance of inflation, Bailes said. The speaker, vice president of the Mellon National Bank & Trust Co., said the torrential outflow of gold and dollars last fall "suggested a flight from the dollar, rather than a mere flow of funds to take advantage of higher interest rates abroad."

He urged support and strengthening of President Kennedy's programs to increase foreign trade and investment in the United States, cut spending by government agencies overseas, spread the burden of foreign aid among the industrial nations of the West, and critically examine the scope and effectiveness of aid programs.

Another business executive, William S. Street, president of the large Seattle department store, Frederick & Nelson, told the 4,000 delegates that the country's growing difficulties in meeting the Soviet economic offensive and maintaining its place in world markets are a result of some mistaken policies of the past.

He identified those as the annual rounds of wage-price increases, high federal spending, and a tax structure which he said has discouraged industry's investment in new and modern equipment which creates jobs and reduces costs.

# Daily Crude Flow Drops

TULSA, Okla. (AP)—Daily average production of domestic oil dropped to 400,000 barrels today, the lowest since the week ended April 29, the Oil and Gas Journal's survey showed today.

The week's best gain was in Arkansas, up 5,000 barrels to 82,675.

The Journal estimated 1961 production at 82,450,000 barrels compared to 83,199,700 barrels a year ago.

Declines were reported for Oklahoma, down 600 barrels to 545,500 and Louisiana, 500 to 1,182,400. Production was unchanged in Texas, 2,834,750 barrels; and New Mexico, 311,400.

Members of the Joint Chiefs of Staff, Salinger said, gave the security council a rundown on recent Southeast Asia developments.

Also under consideration by the administration, handling the Laos issue into the United Nations Security Council if the cease-fire fails.

There was no announcement of any decisions that may have been selected. The full roster of who attended was withheld.

Secretary of State Dean Rusk and Secretary of Treasury Douglas Dillon left the White House today after a day-long session about Laos.

In the next few days Kennedy and his aides are expected to decide whether there is any in trying to get the Soviet Union to go along with a test ban.

# Nuclear Test Ban Subject Of Parley

WASHINGTON (AP)—The President confers again today with his top strategy advisers, the National Security Council. The meeting will last in 11 days of international troubles—was to focus on a nuclear test ban.

The deepening crisis in Laos brought out a reinforced security council meeting Monday, with Kennedy.

There was no announcement of any decisions that may have been selected. The full roster of who attended was withheld.

# Teacher Pay Bill Before House Panel

AUSTIN (AP)—A House subcommittee is studying the Hale-Aikin \$900 teacher pay raise bill after some 800 parents heard leaders of the state's major teacher union demanded a 10 percent raise.

The pay boost, which was recommended in the report two years ago of the Hale-Aikin Education Study Committee, would set a minimum salary of \$4,914 a year for all the state's teachers. Present pay floor is \$3,200.

The House Appropriations Committee authorized and sent to subcommittee Rep. Marco Stewart's "cost of living" pay bill and Rep. Jack Wood's bill for a \$254 across the board pay raise with yearly increases and bonuses.

The \$900 pay raise bill, said Rep. Dewitt Hale, "is the compromise bill, as well as other parts of the Hale-Aikin school program, is 'the culmination of many years of work. It represents the collective thought of the people of Texas.'"

Cost of the raise to the state during the next biennium would be some \$144 million needed in new tax money, according to the Texas Research League's latest estimate.

The \$900 pay raise bill, said Rep. Dewitt Hale, "is the compromise bill, as well as other parts of the Hale-Aikin school program, is 'the culmination of many years of work. It represents the collective thought of the people of Texas.'"

Cost of the raise to the state during the next biennium would be some \$144 million needed in new tax money, according to the Texas Research League's latest estimate.

# Teacher Pay Bill Before House Panel

AUSTIN (AP)—A House subcommittee is studying the Hale-Aikin \$900 teacher pay raise bill after some 800 parents heard leaders of the state's major teacher union demanded a 10 percent raise.

The pay boost, which was recommended in the report two years ago of the Hale-Aikin Education Study Committee, would set a minimum salary of \$4,914 a year for all the state's teachers. Present pay floor is \$3,200.

The House Appropriations Committee authorized and sent to subcommittee Rep. Marco Stewart's "cost of living" pay bill and Rep. Jack Wood's bill for a \$254 across the board pay raise with yearly increases and bonuses.

The \$900 pay raise bill, said Rep. Dewitt Hale, "is the compromise bill, as well as other parts of the Hale-Aikin school program, is 'the culmination of many years of work. It represents the collective thought of the people of Texas.'"

Cost of the raise to the state during the next biennium would be some \$144 million needed in new tax money, according to the Texas Research League's latest estimate.

**MOST OUTSTANDING JAYCEE-ETTE CLUB**—Mrs. Kenneth Baker of Snyder holds up a bronze plaque which she was awarded in San Angelo Saturday as president of the Snyder Jaycee-ettes for 1960 as the most outstanding Jaycee-ette Club in Texas. She holds two first and two second place certificates also won by her club while she was president. (Photo by Lee Watson.)

## Two Snyder Women Attend Delta Kappa Gamma Meet

The thirty-second annual State Convention of Delta Kappa Gamma International Society for Women Educators was held at the Rice Hotel, Houston, April 28 and 29th.

The theme of the meeting was "Dimensions of the Future." By noon Saturday, 734 members had registered. There are 12 founders of the organization, four deceased and three were present.

The convention opened at 8:30 a. m. Friday with an executive board meeting. Two general sessions, with Mrs. Nell McMains, state president presiding were held in the Crystal ballroom on Friday at 2 p. m. and Saturday at 9:45 a. m.

The president's dinner was held at 7:30 p. m. Saturday in the Grand ballroom.

Approximately 148 of the 154

chapters were represented, and as each president entered they were spotlighted, each carrying a red rose, official flower of the society. The roses were placed in a large urn in front of the speakers table.

Miss Phyllis Ellis, state executive secretary presided.

Dr. John W. McFarland, superintendent of the Houston Public Schools gave the welcome. Miss Mildred Hulsey, state first vice president introduced the speaker, Miss Ailda Parker, California Southwest regional director who spoke on "New Dimensions."

Saturday activities started at 7:30 a. m. with a special interest breakfast; a birthday luncheon at 1 p. m. with Miss Norma Ewing, state corresponding secretary presiding. At this time the 32nd Anniversary ceremony and presentation of scholarships to 1960-1961 re-

ipients were made.

Founders' Dinner was held Saturday at 7:30 p. m. with Mrs. Nell McMains, state president presiding. The introduction of Miss Eula Lee Carter, state honorary founder and past state president was made, who in turn introduced Mrs. V. Y. Reebian, state honorary member who addressed the group. She spoke on "Reflections On The Soviet Union."

The presentation of money corsage ceremony, led by Dr. Mudge Davis, state chairman of committee on scholarships, followed.

Installation of the new officers for biennium 1961-63 was held. They were: Mrs. Ethel Sloan, Houston, president; Mrs. Ruby Lee Laifley, El Paso, first vice president; Mrs. LeVonne Davis, Texarkana, second vice president; Mrs. Marie Ward, Aspermont, recording secretary; Miss Agnes Sinclair, Houston, corresponding secretary; Miss Anna Bell, Dallas, parliamentarian; Miss Eugenie Terry, Dallas,

## IF YOU WANT TO EARN \$74.50 DAILY Even In Your Spare Time

NO EXPERIENCE REQUIRED  
WOULD YOU BE WILLING TO VISIT OUR DISABLED, POTENTIAL CUSTOMERS WITH AN ESTIMATED PROFIT TO YOURSELF ON EACH VISIT OF \$74.50?

Simply demonstrate with your vehicle how handicapped persons can operate a motor vehicle without the use of their legs. Pull to go — Push to stop. It's the way this device operates with a pencil like lever that can be installed on any car with automatic drive. It's a half an hour and once installed will not interfere with the normal operation of the car in any way.

We are receiving numerous letters weekly from handicapped persons without the use of their limbs, asking to see our product, and where they can see it demonstrated.

This is our offer. We will send you a control to fit your car, with pictured installation instructions, we will also furnish you with actual potential customers, such as, Hospitals, Rehabilitation Centers, Individuals, Dealers, etc. who are asking about our product, on which you can make a profit of \$74.50 on each sale.

If you do not sell five units in 90 days in your spare time at the fixed retail price of \$95.00 which will earn you \$375.00 you are at liberty to return the demonstrator set at our expense.

We are desirous of sending a free Unit to each of our representatives for demonstration purposes only. Please send \$10.00 to cover handling, shipping, crating, etc. The Unit is returnable at our expense.

Our organization is operated by the handicapped for the handicapped, the margin of profit to you is made as an incentive so that our product will reach every disabled person interested in Mobility and Independence.

### TERMS OF AGREEMENT

- I TAKE SIGNED ORDER WITH \$25.00 DEPOSIT.
- YOU SHIP UNIT TO ME UPON RECEIPT OF SIGNED ORDER.
- I THEN COLLECT MY \$74.50 WHICH IS MY PROFIT, AND THEN SEND YOU YOUR \$25.00 AS AGREED UPON.

MAIL COUPON TODAY!

### IT TAKES MORE THAN JUST MONEY

## Even Dudes Are Not What They Used To Be Out West

**By INEZ ROBB**

TUCSON, Ariz. — There is trouble in paradise — meaning out here where the West is in being and the desert landscape rolls a way to the rugged grandeur of vast mountain ranges, all under an endless, shining canopy of blue and gold with cloud effects by Michelangelo.

That may be gold in their mountains. But who wants to struggle with a pen or a pick and shovel when the dudes, who swarm here in season, make for such effortless pickin'?

But the dudes — O, it is a sad story I have to write today that shames me in the telling — the dudes ain't what they used to be. Once they swarmed to the luxury guest ranches that rim this community, there to play pretend at a rerun of life in the Old West.

Under the watchful eye of wranglers, the dudes rode the range, tried to rope and occasionally rashed a little doggie. They hosted themselves out of the Old West springs high at 6 a. m. to ride into the desert for a campfire cook-out featuring flapjacks, scalding black coffee guaranteed to curd the hair on their money back, and enough bacon and eggs to lift the commodity market on both.

Garbed in light levis or square dresses, they looked into the camera country, for check-wagon supper of beans, outsized sirloins and homemade pie. And if, for the first week, the dudes were a little stiff and wore from riding Old Point, they were soon relaxed and at ease.

It was the honorable mark of the tenderfoot toughening himself for the Old West he longed to return. But today — O, mores, O, rev-

### Gold Scattered Along Highway

**WARSAW, Ky. (AP)** — There was gold in them thar hills Monday.

Millions of dollars in gold was stacked along U.S. 42 after a Brinks armored car carrying it from Ft. Knox, Ky., to New York overturned.

The costly cargo had to be re-stacked before it could be righted. The gold was stacked in three neat piles, while waiting for trucks trucks rushed from Cincinnati.

## Hotel Clerk Tired Of Hearing This

**By HAL BOYLE**  
NEW YORK (AP)—Remarks a hotel desk clerk gets tired of hearing.

"But I tell you my name really is John Smith!"

"This is room 812. There is a party going on in the room next door. Will you please ask them to be more quiet!"

"Whaddya mean you're all filled up, and I need a reservation? What am I—an Indian?"

"Now, don't look so flustered when you register, Joe. Otherwise—giggle, giggle—He'll be sure to recognize we're on our honeymoon."

"Hello, hello! You told me you'd give me a room with one of those new hideaway beds. Well, you sure did. I give up. Where is the bed?"

"Why is it that every time I go to a hotel that says it has single rooms from \$8 to \$16, the only ones empty are the \$16 ones? Who lives in the \$8 room?"

"This is room 812 again. That party in 814 is getting wilder. They're running up and down the halls now barefooted. What are you going to do about it?"

"My bill comes to \$14.68. Can you cash my personal check for \$20? I'll need some pocket money to get out of town. No, I've never stayed here before."

"I understand you don't charge for children under 12. Well, we've got six of them outside in the car, and they're getting pretty sleepy, so we'll need a place right away. We'll also need some hot milk, some—oh, by the way, can you also put up our dog overnight? He's very quiet."

"This is room 812, and this is my little boy just bumped his head through the television screen. No, we don't want a doctor, but could you send up another TV set right away? My little boy is crying. It's his favorite program."

"This is the housekeeper. Can you catch the couple that just checked out of 706? Four bath towels, two blankets, a bedspread and a floor lamp are missing."

"This is room 812. Never mind about that party going on in 814. They just knocked on my door and invited me to join it, and I am—in my pajamas."

"Dudes have changed completely in the last five years. Today an outdoor barbecue, which used to send them right out of this world, affrights them. They want the grub served indoors and with napkins, and don't call it 'grub,' either."

"Once upon a time, everyone was wild to ride out for a sunrise breakfast on the desert. Now, maybe a few kids will go. Their old folks want a continental breakfast in bed. Something's going to happen, but it isn't the West. It's the dudes."

# Aerial Pirate Forces Plane To Cuba

## Strike Halts Air Service

The Snyder (Texas) Daily News, Tues., May 2, 1961 5

MIAMI, Fla. (AP)—An aerial pirate, armed with a steak knife and pistol and flaunting the name of an old-time buccaneer, hijacked an American airliner over Florida Monday and forced it to fly to Cuba.

While seven frightened passengers sat frozen to their seats, the self-proclaimed "El Pirata Cofresi" told the pilot that Rafael Trujillo, Dominican Republic strongman, had offered him \$100,000 blood money to assassinate Fidel Castro.

But he had no intention of carrying out the mission, he said, because he considered Castro a "good guy" and wanted to "spill the beans" to him.

When she shanghaied, two-engine National Airlines plane landed at an airport near Havana, Castro milliamen hustled the man away to an uncertain fate. Then the plane was permitted to return to Florida.

The FBI and other government agencies pressed an investigation today to determine the real name of Cofresi, and exactly what he was up to.

"El Pirata Cofresi" means "The Pirate Cofresi," a notorious freebooter who sailed the Caribbean and West Indies area in the early 19th century. In buying his ticket here for the scheduled Miami-to-Key West run, the gunman had first given his name as "Mr. Cofresi, Elpir." Then he told the ticket clerk that the letters "ata" should be added to the "elpir."

The plane had just taken off from an intermediate stop at Marathon, a Florida key, when the hijacker went into action.

A slim, unshaven man wearing dark sun glasses and a straw hat, he slipped into the cockpit and placed a knife at the throat of Capt. Francis X. Riley of Miami Shores. Then he pulled out a small, silver-plated pistol and ordered copilot J. T. Richardson of Jacksonville to leave the cockpit. "Taking the copilot's seat and turning off the radio, he said: 'Let's go to Havana.'"

Pilot Riley related: "He kept pointing the gun at me the rest of the trip. He spoke perfect English and said he was an American citizen who fought in the Korean War—but he looked Cuban. 'I talked to him to see if his mind could be changed, but he was intent on getting to Cuba. He said Trujillo had offered him \$100,000 to kill Castro.'

"But he said he was going to spill the beans to Castro. Then he said, 'If I don't see Havana in 30 minutes, we'll all die.'"

As the plane passed over Key West, about 50 miles from Havana, the pilot zigzagged as a signal of distress but nobody got the message.

Meanwhile, according to a passenger, Seaman G. J. Stickey, the pilot spoke over the cabin loudspeaker and announced: "The plane has been rerouted to Havana. We will all be back in the United States in a few hours."

"We did not panic," said Stickey, who was transferring from San Diego to Key West, "but we all got pretty scared."

Stewardess Inez Harlow, a comely light-haired girl who hailed from Manitowish, Wis., peeked into the cockpit and saw what was happening. "I turned around," she said, "and went back and explained to the passengers that a man was holding a gun on our pilot. The passengers stayed calm."

Capt. Riley radioed for permission to come down at Jose Mari Field, where commercial planes usually land in Cuba.

Mari field radioed back: "Get out or you'll be shot down."

Riley explained to passengers that he was out of fuel and every-

thing else I could think of. Finally they told me to go to San Antonio Field, a Cuban air force base 25 miles southwest of Havana."

Soldiers swarmed around the plane when it landed, Riley said they didn't seem happy to see Cofresi, in fact didn't seem to know him.

"At any rate," Riley continued, "they made him put down his pistol, I had thrown the knife, a plain old steak knife, down a few minutes before."

Before Cofresi was hustled off to downtown Havana, to be interviewed by "the authorities," he turned to Riley and said, "I'm sorry to have had to do this to

you—sorry to have inconvenienced you."

The Cubans treated the plane crew and passengers correctly. After taking down their story, they offered them refreshments and gave them 100 gallons of gas to return to Florida.

"They seemed eager to get rid of us," said Arthur H. Goldberg,

of New York, an ensign with the U.S. Coast and Geodetic Survey, who was a passenger on board the plane with his wife.

The plane flew back to Key West and then to Miami, where it landed at 10:15 p.m. Monday night, slightly less than eight hours after it was shanghaied in mid-afternoon.

MIAMI, Fla. (AP)—A strike of machinists today grounded all planes of National Airlines and brought layoff notices for employees all over its routes, which extend from Houston, Tex., to Miami, Fla., to Boston, Mass.

National said it canceled all flights and notified employees not

to report for work. National has 80 flights a day normally in and out of Miami.

The strike was begun by the International Association of Machinists which includes machinists, cleaners, janitors and stock clerks.

The 1,100-member union struck over its demand that stock clerks advance to the top of their classification, the union said. It contended Eastern Air Lines and Pan

American World Airways stock clerks get this opportunity. Improved shift differentials, sick leave, severance pay, seniority and other issues also are involved.

### No Flight Pay For Astronauts

CAPE CANAVERAL, Fla. (AP)—There'll be no flight pay from the government for the first U.S. spaceman, but he'll pick up more than \$70,000.

That will be his share of \$500,000 paid by Life magazine to the seven astronauts for the personal stories of their experiences. Life announced last fall it had signed contracts with the seven for exclusive rights to publish their accounts.

The astronauts have received only the regular pay given to officers of their rank since they volunteered for the space program, plus flight pay for their time in jet aircraft.

Health checkups are becoming more popular. According to an American Cancer Society survey, the number of Americans having checkups since 1948 has more than doubled, helping to improve the cancer cure rate.

**STARTING NUCLEUS**—Holding down starting infield duties for the Snyder Tigers is the above quartet. From left are catcher Ronnie Wylie (232), first baseman Weldon Ware (382), shortstop Steve Free (305), third base-

man Spencer Dyer (439), and second baseman Freddy Miller (366). They'll be in the starting saddle today in Lamesa when the two teams battle in a District 3-AAA encounter beginning at 4 p. m. (Photo by Jackson)

## Between You And Me

BY JERRY JACKSON

Snyder's baseballing Tigers are currently fighting a long war with a short stick. Unfortunately, the war is getting longer and the stick is getting shorter. But they're not out of the picture yet and can keep the faint flicker of hope alive today by taking the measure of Lamesa.

A defeat-perish-the-thought-would tend to give the Terradons outright possession of the district pennant, regardless of the outcome of Saturday's C-City clash, the regular season copper-offer. A Tiger win, on the other hand, would have the effect of leaving the final decision until the last day of play—Saturday—with a Lamesa loss and a Tiger victory mandating at that time in order to facilitate a title tie.

It's a long shot, but not inconceivable by any means. When a Wolf and a Tiger tangle, the law of the jungle clearly states that Sir Tiger is the superior of the two. Colorado City's Wolves must not have been reading up their jungle laws lately, however, as Saturday's duel went a long way toward nipping that particular theory in the bud.

Some including several close-to-the-sceners, approached the district campaign somewhat dubiously and with an air of foreboding, thinking that the sky just might truly come tumbling down this year. But like Chicky Wicky, Henry Penny, and many of the rest of our fairly tangle feathered friends, I was prone to discount any such possibility with a merrie "Pshaw! The sky come tumbling down?" "Oh, for pshaw!"

Lamesa dealt the initial setback, 9-5, which was viewed as "one of those things" and no cause for undue alarm. C-City's follow-up ball came from out of a clear blue sky. The score in that one was 2-0, it being only the second time in 28 games of the current season that Snyder has gotten itself shut out, the Tigers having been on the administering end of the whitewash brush on eight (8) previous occasions. Snyder will beat Lamesa today. Call it "spouting off," "going out on a limb," "prejudice," or what you will. But it's a fact of which I'm confident.

Now, the C-Cities had a good day against Snyder with their double-A duo of Hillhouse and Houston, and there's no reason why they couldn't have another of the same against Lamesa Saturday, right? And Snyder has already beaten Sweetwater handily once this year, with there being no reason to think that the same trick couldn't be turned again, right? Oh, one other question. How would a guy go about building a hex dolly in the shape of a Tornado?

**Tech Netters Win**  
LUBBOCK (AP)—Texas Tech walloped Texas A&M 6-0 in tennis Monday. Neither team is a contender in the Southwest Conference.

**SCALED LEAGUE LADDER**—The State Reserve Insurance Company team, sponsored by Ray Haupt, recently was named champion of the Thursday night (6:30) league at Tiger Bowl. Composing the team are, from left, Joe Alexander, Sonny Farquhar, Ray Haupt, Jr., Cummings, and Kemp McMillan.

## Tuberculosis Smites Stith

**OLEAN, N. Y. (AP)**—All-American Tom Stith, whose scoring feats helped make little St. Bonaventure a major basketball power, has been stricken with tuberculosis. His doctor says at the earliest it will be more than a year before he plays again.

Doctors at St. Francis Hospital said Monday that Stith had the disease in one lung. He lost almost 20 pounds last season and entered the hospital for a check-up Friday when he failed to regain the weight.

Stith signed three weeks ago with the New York Knickerbockers of the National Basketball Association. He was the Knicks' first draft choice.

A prolific scorer, the 6-foot-5 forward scored 830 points in leading St. Bonaventure to a 24-4 record and an NCAA tourney berth last season. He was third among the nation's collegiate scorers.

Stith's physician said Tom would be transferred to Mt. Morris Sanatorium near Rochester. The doctor said it would be hard to say how long he would be convalescing.

"Given any break at all, I would say Tom could be ready to return to the game a year from this fall," he said.

"It depends on a lot of things," the doctor continued. "Red Schoendienst, the baseball player, apparently had a worse case than Tom's and was out only for a year. Schoendienst had a cavity in his lung and had to undergo surgery."

Schoendienst, an infielder for the Milwaukee Braves, was stricken at the close of the 1954 World Series but rejoined the National League club near the end of the 1959 season. He is now with the St. Louis Cardinals.

"This is a tremendous disappointment to us and to Stith, also," said Ned Irish of New York's Madison Square Garden, which owns the Knicks. "We felt that he was the best player the Knickerbockers had an opportunity to select in the draft for many years."

Tom was married here April 8. His wife, a nurse, was at the hospital with him.

### SOX SLUGGER SUPPOSEDLY 'CALLING IT QUITS'

## 'I've Had It'--Jensen

**OGDEN, Utah (AP)**—Outfielder Jackie Jensen of the Boston Red Sox, apparently discouraged by an anemic batting average, says he is quitting baseball for good.

But his wife, former Olympic diving champion Zoe Ann Olsen, said she will try to talk him into a comeback.

### Gladson To Hurl Today

Charlie Gladson has gained the starting nod for the Snyder Tigers in today's crucial District 3-AAA encounter in Lamesa, which has a starting time of 4 p. m.

He will be opposed by another right-hander, Melvin Keithley, who is 2-0 for the district campaign. Gladson is 1-0 in conference play, having gained credit for an 18-6 win over Sweetwater in relief. He's 2-4 for the entire season.

The Snyder nine finds itself "backed into a corner" as far as the district race shapes up, and must win today in order to keep its hopes for a title in alive. Following today's game they are slated to entertain Sweetwater at Towle Park Saturday in the final regularly scheduled game of the season.

### San Antonio On Top Of Heap Again

**BY THE ASSOCIATED PRESS**

A half-dozen home runs had San Antonio's exuberant Missions back on top of the Texas League heap.

The Missions hit five of them on the way to a 10-4 branding of Rio Grande Valley Monday night and three of them came in succession—and over the same fence.

It happened in the fifth inning when Paul Popovich, Danny Murphy and Darryl Robertson followed each other in parking the ball.

At San Antonio, "Big Nigger" was giving San Antonio a boost as he led Victoria to a 5-2 triumph over the Gold Sox. Nagel clouted a three-run homer and double, the latter setting him up to score a run.

There isn't any reason for this. He's had slumps before, she said.

Jensen had refused to talk with newspapermen on the train. The conductor told Ritchie "I don't think you want to talk with him (Jensen). You'll probably get a ball bat on the head. He's mad at the world."

**Harken, Pee Wee Prospects**

Matt Herod, local little guy baseball "commissioner," wishes to dispel any fears as the part of youngsters who failed to be named to either a Little League or Earm League team, and has announced that plans are now underway for the annual formation of a Pee Wee League.

Tryouts for the league will be held in the near future, and advance notice on the date and site for such activity will be announced in plenty of time to give all boys desiring to play a chance to take part.

### Control Of Alleghany Is Undecided

BALTIMORE (AP)—Lawyers today took over the job of unraveling whether Texas financier Clint D. Murchison or wealthy Allan P. Kirby won America's richest financial fight, a \$6.5-billion affair.

Neither side claimed victory Monday night after a surprisingly short and anticlimactic 90-minute annual meeting of Alleghany Corp. stockholders that was supposed to decide the issue.

Instead, it was determined that batteries of attorneys, most of them brought along from Wall Street, should embark after an overnight truce on an exacting course of roughly nine million stockholder votes that might take a week or longer.

Under a gentlemen's agreement, opposing camps all but omitted any argument, Charles T. Ireland Jr., Alleghany president, at one point urged haste so the Lord Baltimore-Hotel ballroom could be turned over to a tri-state jewelers convention with a minimum of delay.

A bright spot was provided by Mr. and Mrs. Harold D. Ring of New York, perennial visitors to yearly meetings of the New York Central Railroad, which is controlled by Alleghany. They were hustled off to the poker for shouting protests against management while others tried to talk—and then struggling with gendarmes who sought to evict them on Ireland's orders.

They were released on payments of fines of \$25 apiece for disorderly conduct. Kirby, 66, Alleghany chairman, appeared at his first Alleghany stockholders get together in 20 years to put in a bland good word on his own behalf. He claimed credit for helping the company prosper.

Murchison, 30 and his allies didn't even bother to rehearse their contentions that Kirby policies led to stagnation of corporation affairs.

One of the points in the agreement provided for a delay in closing of the polls until 9 a. m. today for receipt of late-mailed proxies by stragglers in the voting.

Attorneys planned minute scrutiny of ballots cast by rivals for control, paying particular attention to the authenticity of signatures, eligibility to vote and possible cancellation through simultaneous support of both sides.

These loans are available to qualified owners of all sizes of farms provided the farm will produce at least \$400 worth of commodities. Sale and home use each year, based on 1944 prices. Additional loan funds have recently been made available for this type of credit.

Applications for this type of loan may be filed with the local county office located in the Diamond Building here.

### Disc Jockey Best Man At Wedding

MACON, Ga. (AP)—An out-of-state couple stepped up their wedding date so that a disc jockey could be their best man. Sam Ringo of Las Vegas, N.M., and Dixie Lou of Dayton, Ohio, wedding in two cars, were on their way to Florida to be married when they became separated in Macon's late afternoon traffic. Dick Lyles of radio station WNEK, was conducting a radiothon in a downtown show window and Ringo appealed to him for help. Lyles put the plea for the lost bride-to-be on the air and the couple was reunited.

So, they were married in a Macon church Monday with Lyles serving as best man.

### Pvt. Kubena In Training Exercise

Army Pvt. Jimmie L. Kubena, son of Mr. and Mrs. Jim J. Kubena, Route 1, Hermleigh, will participate in "Exercise Lava Plains," a joint Army-Air Force field training exercise at the Yakima, Wash. Firing Center on May 8-22. Kubena, a mechanic in the 87th Transportation Co. at Fort Lewis, Wash., entered the Army last September and received basic training at Fort Ord, Calif. The 23-year-old soldier attended Hermleigh High School and was employed by the Western Co. in Snyder before entering the Army. His wife, Linda, lives in Olympia, Wash.

# Resolution Due By Presbyterians

**By RONNIE THOMPSON**

DALLAS (AP)—Southern Presbyterian commissioners, nearing the end of their seven-day central assembly, today were to consider a resolution clearing the National Council of Churches of allegations that it had been infiltrated by pro-Communists.

The assembly Monday approved a resolution calling for the "naming of names and delivery of evidence" from those who had alleged that pro-Communists had infiltrated the Presbyterian clergy.

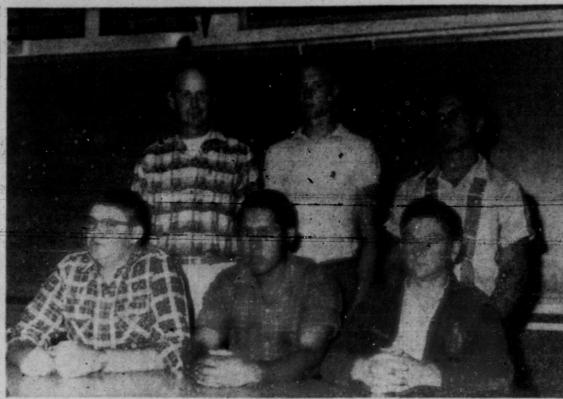

The resolution to be considered today says some leaders of the council joined Communist-front organizations when Russia was an ally of the United States and that some leaders innocently joined fronts for humanitarian reasons.

All the individuals the report says broke with the fronts when their true purpose became clear and that some of those accused never belonged to fronts.

One other question expected to reach the assembly floor today concerns the merger with other church groups. Church officials have said that no general merger is in the foreseeable future.

The new moderator of the Presbyterian Church, U.S. Dr. Wallace Alton of Decatur, Ga., has urged "closer ties" between Presbyterian groups but no merger at this time.

A 1962 benevolence budget of \$9,617,180, approximately \$150,000

**STAR FFA JUDGERS**—These Snyder Future Farmers of America scored heavily in area judging contests over the weekend at Lubbock. Seated, from left, are Jimmy Lester, Martin Pena, Marlin Overman; standing, Billy Bob McMullan, agriculture instructor, Gail Reed and Jerry House. Lester, Pena and Overman composed the first place judging team, with 34 schools competing. Pena had a perfect score of 360, while Overman was second individual with 348 of possible 360 and Lester seventh individual with 327 of possible 360. The livestock team of Reed, House and Kenneth Lloyd (not pictured) qualified for the state contest by placing sixth in the area. The freshman crop team composed of Tommy Hallmark, Robert Stipe and Tommy Foree was second among 36 schools. The meat judging team of Franklin Gilbert, Earl Shifflett and Eddie Foree placed ninth among 52 schools. (Photo by Jackson)

# Coffee Gets Cold While Frost Talks

WASHINGTON (AP)—Newsmen have learned that it's just as well to drink their coffee before they go to a kaffeeklatsch given by poet Robert Frost.

The 77-year-old poet invited reporters in Monday for "just a little informal coffee hour" at the Library of Congress. But most of the steaming coffee grew cold as the "kaffee" thusly scribbled down a barrage of quotable quotes.

White-haired Frost, who recited some of his poetry at President Kennedy's inauguration, briskly covered a wide range of topics.

They included:

Science—"Some people worry because science doesn't know where it's going. It doesn't need to know. It's none of its business. I like anything that penetrates the mysteries. And if it penetrates straight to hell, then that's all right, too."

Literary friendships—"You know, it's a great burden to have friends who write. They bring you their manuscripts to read and you have to say you like it. I'm glad when a friend gets mad at me. Then I can hate his poetry, as thoroughly as if he wasn't my friend."

White hair and barbers—"The newspapers are always comparing hair with Carl Sandburg's. That's absurd. Carl has a hairdo and I cut my own. I cut it at home. I got sick of the barbers because they talk too much, and mostly they talk about how my hair is falling out."

Poetry—"Every now and then

**Wilson To Review Report On Sheriff**

AUSTIN (AP)—A grand jury report on the activities of Gregg County Sheriff Noble Crawford will be reviewed by Atty. Gen. Will Wilson in Longview this week, Wilson's office says.

Crawford was indicted Saturday on two counts of perjury. The grand jury asked that Wilson remove him from office.

Wilson's office said Monday Wilson will confer with Dist. Atty. Ralph Prince on the report. Wilson told The Associated Press Sunday the district attorney has the power of initiating a removal action.

# Pressure of City Living Is Cited

DALLAS (AP)—A California psychiatrist said today volunteer community social service groups are needed to counterbalance the pressures of living in large cities.

"The voluntary organization is the citizen's own solution to the threat of social and cultural impoverishment and impotence," said Dr. Edward Stainbrock, chairman of the department of psychiatry at the University of California Medical School, in a speech prepared for the annual conference of the Association of Junior Leagues of America.

association received the golden baton award of the American Symphony Society for distinguished service in music and the arts and a citation by the Children's Theater Conference of the American Educational Theater Association for contributions to the children's theater movement.

The association also gave special recognition to chapters for winning local awards. These included:

Galveston, Tex., for a magazine award for establishing English classes for Latin-American children.

# Gas Men Urged To Spurn Exemption

**By MAX R. SKELTON**

NEW ORLEANS (AP)—Small gas producers were warned today not to accept President Kennedy's suggestion that Congress exempt them from federal price controls.

Alvin Hope of San Antonio said such exemptions could make small producers victims of federal price-fixing without giving the producers an opportunity to object.

In his presidential report to the midyear meeting of the Independent Petroleum Association of America, Hope acknowledged the exemption proposal is inviting.

"But there is no real answer to this problem other than legislation which will in fact declare production and gathering of natural gas is a local function and therefore not subject to governmental regulation," he said.

Dan Jones, IPAA counsel in Washington, said the outlook for corrective legislation this year is not too good.

"But we must push forward for a solution and be prepared should the opportunity open up," he said.

A Findley, Ohio, attorney said the FPC's new plan for controlling wellhead prices of gas on an area basis will work only if the commission determines such rates on the basis of reasonable market price and reasonable market requirements.

IPAA's policy committee on natural gas was expected to recommend that the 7,000-member organization formally oppose President Kennedy's plan to exempt producers whose annual gas sales are less than 2 billion cubic feet.

Hope said the exemption plan includes an assumption prices charged by the small producers would have to keep in line with those of larger producers regulated by the Federal Power Commission.

"In effect, all producers, large and small, would then have the price of their gas established on a utility basis," he said.

# Weather In Most Areas Wet, Cooler

**By THE ASSOCIATED PRESS**

It was wet and a little cooler in some sections of the East, South and Midwest today but sunny and clear in other areas over the weekend dissipated.

A shower-rain belt extended from New York State and Southern New England into Virginia, with showers and thunderstorms from the Carolinas into northern central Florida.

Widely scattered showers and thunderstorms were reported in Louisiana, eastern Texas and parts of Arkansas and Mississippi. Hill and strong winds during a thunderstorm near the Sabine River along the Texas-Louisiana border caused some property damage.

Light showers and snow flurries fell in most parts of Michigan. More showers sprinkled the far Northwest, with heavy rain reported at Grangeville, Idaho.

Fog at New York's International Airport Monday night forced diversion of about 50 inbound flights to other eastern seaboard cities. The fog delayed other flights up to an hour.

Cold air pushed southward during the night from northern border states into Oklahoma and north and central Texas. Temperatures dropped into the 40s and 50s, 10 to 20 degrees lower than Monday morning. It also was cooler from the Carolinas into northern Florida and through southern portions of the Gulf states into eastern and southern Texas as well as in most areas west of the Continental Divide.

# Snyder Mare Named Champ

**PADUCAH**—In competition here last week, Bar Miss—a mare owned by Judy Hays of Hays, Texas—was named champion of the grand champion mare of the Cotter-King Horse Show.

Peppy's Cowboy, belonging to D. M. Cogdell of Snyder and ridden by Shorty Acker, won second place in the open and senior cutting divisions. Dick Hart being the senior division rider.

# Thief Returns His Loot With Interest

**WILKES-BARRE, Pa.** (AP)—A thief has returned \$40 he stole with a note of apology and \$5 more for the trouble he caused.

Police said the money had been collected to help pay for the vacation of a driver for the Freuder Cigar Co. It was put in the glove compartment of his truck Thursday, but was missing the next day.

Another driver found the money back in the truck Monday along with a note reading: "Here is the \$40 I stole, as well as \$5 for any trouble I may have caused."

# Former Promoter Draws Sentence

**SHERIDAN, Ark.** (AP)—Former business promoter Max W. Nunn drew a second six-year prison sentence Monday on a plea of guilty to embezzling \$16,000 raised to build a toy factory.

He received a like sentence last week at Harrison, Ark., where he pleaded guilty to a false pretense charge.

Nunn, 50, awaits trial on other complaints at Abilene, Tex., Fort Smith, Little Rock, Conway and Russellville, Ark., and Trenton, Tenn. He has said about 500 persons probably lost money in companies he organized but his losses were even greater.

# School Field House Damaged By Blaze

**PORT ARTHUR, Tex.** (AP)—Fire broke out today in the field house of Thomas Edison Junior High School just as 1,300 pupils were assembling 100 yards away at the main building.

Flames were confined to the storage area on the second floor between the gymnasium and dressing rooms. Officials said no damage appeared to be heavy. No one was hurt.

# Meteor Shower Hits Its Maximum Today

**ALBUQUERQUE, N. M.** (AP)—A University of New Mexico meteorologist says today is a bad time to send a man into space.

Dr. Lincoln LaPaz said the Eta Aquarids meteor shower reaches its maximum today through Thursday and is active in the southeastern sky.

LaPaz added that it was unlikely that any meteorites would hit such a small object as the Mercury capsule but, "the idea that while we are sending things heavenward, there are other things that come earthward," he said.

LaPaz said "there could be a possible meeting of the two."

# Waco Boy Will Be Honorary Chief

**BIRMINGHAM, Ala.** (AP)—Gary Whitlow, 9, of Waco, Tex., who uses artificial limbs because he was born without hands and feet, is going to become an honorary chief of the Birmingham Fire Department.

Firemen heard that Gary dreams of joining their ranks and arranged a special ceremony conferring the honor. A member of the Birmingham department, Lawrence B. Giffis, will leave Friday to deliver a membership certificate to the youngster in Waco.

# Since 1951...

There has been no increase in Texas Electric Service Company's prices for electric service since 1951. In the meantime prices of almost everything else you buy have gone up.

We are proud of our record of holding the price line in the face of nine years of continued inflation, during which the costs of nearly everything we use in our business, as well as wages, have increased. Since most folks are using more electricity today, many of them don't realize that the average price paid for a kilowatt-hour of electric service by our residential customers is lower now than it was in 1950.

Skilled employees and bigger, more efficient power generating units and application of new processes—along with increased sales of electricity—have helped us keep the price of electric service low.

But these efficiencies and savings are not offsetting today's higher costs of doing business, and Texas Electric is asking for a nominal adjustment in rates for electric service.

The new residential rate schedule, which does not include the old demand feature, provides a special low rate for electric hot water heating. Another attractive feature is a low rate for electric household heating in the winter months.

Electric service will continue to be the biggest bargain in your family budget.
