Lamesa Man Is Killed Near Seagraves

Mangled Body Is Found By Road Side Wednesday

Funeral Services Held Here This Afternoon For Eulas Neal, Victim of Accident

The broken body of Eulas Aubrey Neal, 25, Lamesa carpenter, was found on the Seminole highway about five miles south of Seagraves Wednesday morning about 5 o'clock.

Wednesday afternoon a woman about 20 years old was arrested in Hobbs, New Mexico, and sheriff J. C. Sartin, of Gaines County, is reported to have said that he would file manslaughter charges against her. She was in a Hobbs hospital where she had been taken after her car had crashed near there.

Neal is reported to have gone to Seagraves Wednesday evening with two companions, from Seminole, where they were engaged in the construction of a theater. When his companions got ready to return to Seminole in the early hours of Wednesday morning, they reported they were unable to locate Neal and presumed that he had already caught a ride back to Seminole. It is surmised that he started walking along the highway towards Seminole when the car struck him.

The Seagraves undertaker stated that Neal had been dead only a short time when the body was brought to him. He added that the injuries included a fractured skull, broken back, broken arms and legs, and "cuts and bruises all over the body". death, he said, was apparently instantaneous.

The body was brought back to Lamesa where funeral services were held Thursday afternoon at 2:30 p. m. at the First Baptist Church with Rev. E. F. Cole officiating. Interment was in the Lamesa Cemetery.

He is survived by his widow, and two children, Aubrey Gene, 3 and Wanda Beal, 1, his parents, Mr. and Mrs. W. A. Neal of Plainview, two brothers, Eugene and Noble, of Plainview, and five sisters, Miss Pearl Neal, Plainview, Mrs. Annie McKain, Amarillo, Mrs. Lee Townsend, Odessa, Mrs. W. H. Jeffcoat, Levelland, Mrs. B. F. Connally, Midland.

He had lived in Lamesa for the past several years and was employed by Allen and Waller, local builders.

Lamesa High School Faculty Turns In Excellent Job Despite Record Growth

Pictured here is the Lamesa High School faculty which will soon complete another school term.

Guiding the destinies of more than five hundred children in high school has been the responsibility of these people and the harmony which has prevailed between teacher, pupil, school board and patrons, speaks for itself as to how well they have accomplished the job.

In spite of the fact that the Lamesa High School has shown the largest and most rapid growth in its history, there has been no serious mixups, and every member of the faculty has endeavored to do their part to keep things adjusted and operating smoothly.

With the senior class, goes the training they have secured under the guidance of this faculty... the knowledge they have gained through the past four years is the result of co-operation on the part of student and faculty.

Pictured from left to right in the top row are V. Z. Rogers, Superintendent, and F. T. McCollum, High School Principal. Second row: Lovie Beavers, Florence Griffith, and Lester Gregg. Third Row: Charles Hatchett, Mrs. Eleanor Ragle Huddleston, Reuben Huddleston. Fourth row: Conway King, Mrs. Jack McLaughlin, Ruth Manz. Fifth row: Rosalie Montgomery, Mattie Lee Moore and Reuben Neie. Sixth row: Dan Ogletree, Roy Powell and W. T. Seibert. Seventh Row: Carr Spraberry, B. C. Williams and Mrs. Arminda Yates. Agitation For REA Starts When Man Stumbles Over Wheelbarrow In The Dark

Construction of the Rural Electrification Lines in Dawson County and adjoining territory, is going forward at a very nice rate, it was announced this week.

A crew of men started digging holes for poles last week and they have made rapid progress.

A total of 234 miles of lines will be constructed on this project, most of which is in Dawson County and it is estimated that more than five hundred rural homes will be served with electricity when the current is turned on.

An interesting story came to light this week in regards to the starting on the move to bring Rural Electrification to Dawson County. Rip Sprayberry, prominent farmer in the southwest section of Dawson County, attributes the start to the fact that he skinned his shins on a wheelbarrow at his farm home. It seems that the wheelbarrow in question, like many other objects have a way of doing, was not parked in its accustomed place on the Sprayberry farm. Mr. Sprayberry stepped out of the house after night for some mission and collided with the wheelbarrow, skinning both shins, as well as well as bruises on the entire anatomy.

At that moment Mr. Sprayberry determined that his farm should have ample light and the next morning he came to town, contacted Amos Painter and the two of them made a trip to Tahoka to interview officers of Lynterag to find out how the project could be secured for Dawson County. From this start, others took up the battle and the results is that five hundred homes will be lighted and powered with electricity all on account of one man getting his shins skinned on a wheelbarrow in the dark.

Old Timers Meeting May 20 Expected To Draw Crowds Of Pioneer Citizens

With little more than a week remaining before the Dawson County Old Timers Association meets plans for the day are rapidly being completed by the various officers and committees.

Many interesting features are promised those who attend this big event, which will be held in the City Park, Monday May 20th. Everyone who has lived in Dawson County twenty years or longer is eligible for membership in this association, and is urged to be present at the meeting in Lamesa. If you lived in the county twenty or more years ago, but now live somewhere else, you are also entitled to membership and are invited to be present.

W. K. Crawley, is chairman of the Association this year, and has gathered a group of committees, who promise to make the 1940 meeting the greatest in the history of the Association. Plans call for a basket picnic, with every member bringing a basket of food, which will be spread picnic style. The association will furnish the Coffee and son-of-a-gun for the occasion.

In this connection if you know of anyone who is eligible for membership, but who lives elsewhere, you are urged to give the name and address to V. O. Key, so that they may be mailed a special invitation to attend.

\$40.00 IN CASH TO BE GIVEN COURIER READERS

Readers of The Courier are going to be \$40.00 richer as the result of a unique and interesting contest which is being announced this week. Ten readers are going to be awarded \$1.00 each and two out of that ten are going to get bigger awards. One will receive \$20.00 in cash and the other will receive \$10.00 in cash. Complete information as to how to win is given below:

Beginning this week, The Courier will offer a cash award each week of \$1.00, with a Grand Prize of \$20.00 Cash and a second prize of \$10.00 cash, for the best letters on the following subjects: First "Why I Like the New First of the Week Courier"; Second, "Why I Like to Shop in Lamesa"; and third, "Why I Like to Shop the Courier Way."

Choose any one of the above subjects, write a short letter of not more than fifty words, and bring or mail your entry to the Courier office. All entries for each week must be in the office not later than noon Wednesday to compete in that week's awards. The campaign will be conducted for ten weeks, and the weekly winners will be judged for the final and Grand Prize at the end of the campaign. In case of ties, duplicate awards will be awarded.

Remember, there is no catch, no fancy writing necessary, just good sound reasons to the above inquiries may win you the \$1.00 award with a good chance to win the \$20.00 Grand Prize at the end of the campaign. You may enter the contest every week, and if at first you do not win, just remember that another contest will be coming next week, and you may have just the winning letter then.

The letters will be judged strictly on the reasons given and the decision of the judges will be final. So get your paper and pencil now, pick out the one you would like to write on, set your reasons down and bring or mail it in. That's all there is to it. The contest is open to every reader of the Courier and you have just as good a chance to share in these awards as anyone else.

Special Bargain Rates On Subscriptions Announced For Limited Time Only

One of the most important announcements in newspaper history is made this week, with the announcement that henceforth The Courier will come to its subscribers TWICE A WEEK instead of once!

And with this announcement also comes the interesting news that both of these papers can be bought for the price of one for a limited time only. Think of getting two home town papers each week, one on Tuesday and the other Friday, for only \$1.00 per year! During this campaign, if you live in Dawson or adjoining counties, you can get the Courier sent to you, not once, but TWICE each week for a full year for only \$1.00.

AMONG THE YOUNGER SET

Photo By Rogers Studio

The Courier is happy this week to present this serious young man as His Royal Majesty, King of the Younger Set for the week. He is Sammie Alton Cates, son of Mr. and Mrs. S. A. Cates of the Union Community. He was born September 12, 1938. He has blue eyes and blond hair.

Vernon Adcock Is Candidate For Co. Judge

The Courier is this week authorized to place the name of Vernon D. Adcock in the announcement column as a candidate for the office of County Judge of Dawson County.

Mr. Adcock is well known to the people of this county, having served as County Attorney, and has practiced law here for some time. He will have a statement to make to the voters at a later date, he stated this week.

You are urged to give his candidacy your careful consideration when you vote in July.

Grand Master Of Masonic Lodge Speaks To Large Gathering Here Tuesday

Leo Hart, Grand Master of Texas Masons, spoke to a large crowd of local Masons Tuesday evening, as well as to those from over a wide territory. About 160 Masons, representing three states and fifteen lodges heard him give his address which is reported to be the finest delivered in many years.

His subject was Mother's Day and Americanism. Not only was his discourse most interesting, but gave much food for thought to all who heard him.

Mr. Hart holds the highest office among Texas Masons. He was accompanied by his Secretary, Mr. Mahon, both of whom live at Gilmer.

Preceding the speaking that evening, he had addressed members of the Eastern Star. Dinner was served to a large number at the Plaza Hotel, immediately preceding the evening address.

This is less than one cent per copy, and subscribers reports that they save many times the cost of a years subscription by shopping the hundreds of values which are listed in every issue of the paper. Heretofore the extra bargains came only once a week, but now they are offered to you twice each week, and yet the price of the two papers is what you would expect to pay for one. But remember this offer is for a limited time only. You may either renew your present subscription or subscribe new for only \$1.00 a year if you live in Dawson or adjoining counties.

And think of getting the news of the city and county while it is fresh and alive, by getting two papers. For the past several years the Courier has been clock full of the happenings of every community in the county, and at the same time news of the city and the county as a whole. Now its news will come to you fresh.

This year is a political year and there is already every indication that local politics, as well as state and national politics will be most interesting. Of course you'll want to keep up with these things, and to do so you will want TWO papers per week instead of one, and why shouldn't you have, when both of them cost you no more than one.

About two months ago the publishers of the Courier started the publication of the Lamesa Times on each Monday afternoon, with the idea of ascertaining whether the people of this section wanted a first of the week paper, and with the thought that if they did, it would be incorporated with the Courier. After these two months, as it is proven fact that a first of the week paper is not only wanted, but is needed. So after this week, there will be no more Lamesa Times but the Dawson County Courier will be published twice each week, instead of one, as heretofore.

So don't miss a single issue of the paper, get your subscription in today while the bargain rates are in effect. If your time is not yet cut, send or bring the dollar in, and your date will be set all one full year from its expiration.

Just think of getting ONE HUNDRED AND FOUR PAPERS FOR ONLY ONE HUNDRED CENTS! Is there a bigger newspaper bargain in the country today?

Patricia To Hold Pie-Box Supper For Candidates

The women of Patricia Baptist Church this week are announcing a pie and box supper at the church Friday night May 24.

County and district candidates are being invited to attend and they will be allowed time to talk, it was further stated.

Hop Halsey, candidate for State Representative, and his Drug Store Cowboys, will be present and the Cowboys will furnish the music for the evening, it was stated.

According to Mrs. J. J. Gentry, everyone is cordially invited to attend and take part in the evening's entertainment.

MUST HAVE LICENSE
The State Game Department is urging all anglers who fish with an artificial lure to comply with the law which requires them to purchase a \$1.10 license.

Classified Gets Results

More proof that Courier Classified ads are read and will produce results, was evidenced this week, when an expensive fountain pen was returned to its owner through a Courier Classified.

V. F. Haggerton, General Delivery, found the pen and his daughter read the classified ad, and informed her father of the fact that the description fit the pen he had found.

Tuesday afternoon he returned the pen to the man who had lost it.

This is only one of the many instances when a small sum spent for a Courier Classified ad has brought results worth many times the small amount of money spent.

Regardless of your needs, what you have to sell, or what service you require, more than likely you can get what you want with one of these little ads. The cost is small, seldom exceeding the minimum charge of twenty-five cents.

Check up on what you have - dozens of what you do not want with a Courier Classified.

Lamesa Lobos Open Under Lights With Thrilling Win Over Midland Cowboys

With the return to the line-up of Red Hood and catcher Karthouse, Jodie Tate presented his full team Wednesday night for the first time in several days, and took the opening game from the Midland Cowboys 5 to 4, in one of the best ball games to be reeled off on the local diamond in many moons.

Although Patterson, for the Lobos was nicked for eight safeties, while his teammates were garnering seven off Johnson's offerings, the Lobo moundsman kept the bingles pretty well scattered and was almost invincible in the pinches. It was a beautiful mound out and represented some of the finest pitching on both sides that has been shown here.

Patterson had the edge of strikeouts, whiffing 9 of the Cowboys, while Johnson was fanning 4. He also had the edge on control passing only three batters while Johnson gave free trips to five.

Haney and Beeler lead the batting attack for the Lobos, connecting with a pair of safeties each, with Benites leading the Cowboys with three blows, although it was Naranjo's home run with a mate aboard that put Midland ahead (Continued on Back Page)

There's a difference in Gasolines, too

Both are Birds... penguin and swan... but no more alike than ordinary motor fuel and NEW Phillips 66 Poly Gas.

Experienced drivers discover the difference with their very first trial tankful of this greatly improved gasoline. Its higher anti-knock is a recent innovation at the price, a new and added extra value which makes Phillips 66 a better buy than ever.

This remarkable new-type Phillips 66 Poly Gas delivers the extra power units of POLYMERIZATION... it is more accurately matched to monthly changes in weather... is higher test... and gives you the kind of premium anti-knock performance for which you previously had to pay 2c more per gallon.

WHEN Your Boy Grows Up!

ALL mothers and fathers want their children to have worthwhile employment when they grow up.

The Texas oil business is manned by Texans... the Texas boys and girls of yesterday, 225,000 of them earn good livings for themselves and their families—a yearly payroll of \$271,000,000.

Oil pays good wages... maintains reasonable working hours... and offers opportunity for promotion.

Old age retirement and unhampered development of the oil business will provide many new jobs each year for our young Texas workers.

But the growing tax burden is a serious factor in wages and employment, since the Texas oil industry now pays taxes equal to 36 per cent of its labor payrolls.

Unwise laws and excessive taxes can retard and stop the growth of this industry which means so much to the future employment of our boys and girls.

SHERIFF'S SALE
STATE OF TEXAS)
COUNTY OF DAWSON)
BY VIRTUE OF AN ORDER OF SALE issued out of the District Court of Kent County, Texas, on the 7th day of May, 1940, on a judgment rendered in said Court in favor of J. B. Earnest and Kent County, Texas as plaintiffs, against Loyal Carr in the sum of \$1606.48 with interest from September 1st, 1930, at the rate of 5% per annum and all costs of suit and a judgment of foreclosure in said amount as against the defendant Loyal Carr, and the following defendants; August J. Winkler, Minnie Winkler, William Winkler, Loyal Carr, John J. Strickland, if living, and if he be dead, then the unknown heirs and legal representatives of the said John J. Strickland; H. W. Bonner, if living, and if he be dead, then the unknown heirs and legal representatives of the said H. W. Bonner; and W. P. Goebel, if living, and if he be dead, then the unknown heirs and legal representatives of said W. P. Goebel, and each and all of them; the same being a judgment in a suit styled J. B. Earnest and Kent County, Texas, vs August J. Winkler et al in the District Court of Kent County, Texas. I did on the 8th day of May A. D. 1940, at ten o'clock A. M. levy upon the following described tract or parcel of land situated in Dawson County, Texas, to-wit: Labor No. One (1) in League No. 286, Kent County School Land in Dawson County, Texas; Said land being located about twenty-five miles South-west of Lamesa, and being known as the Loyal Carr place, and containing approximately 177 acres of land, and levied upon as the property of said Loyal Carr; And on Tuesday the 4th day of June, 1940, at the Court House door of Dawson County, Texas, in the city of Lamesa, Texas, between the hours of ten A. M. and four P. M. I will sell said property at public vendue, for cash to the highest bidder, as the property of the said Loyal Carr, by virtue of said levy and said Order of Sale.

And in compliance with law, I give notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Dawson County Courier, a newspaper published in Dawson County.

Witness my hand this 8th day of May 1940.

Local Plans Go Forward For WTCC Convention In Big Spring Next Week

With the West Texas Chamber of Commerce annual convention but a few days away, May 16-17-18 in Big Spring, Lamesa citizens are completing plans in cooperation with their local Chamber of Commerce officials to have no small part in the three-day program.

Recently selected as Lamesa's Sponsor to participate in the evening sessions, May 16-17, along with other sponsors from cities all over West Texas, was Miss Marilyn Parkinson, daughter of Mr. and Mrs. Lynn Parkinson. Her age is 17, height five feet and one inch, weight 100 pounds. She is a senior in high school, and is the 1939-40 football queen, a junior Delphian, member of the footlight club of 1937, school Spanish club, member of the Thespian society and vice-president of YWA. She has blue eyes and reddish-brown hair. Her hobby is horseback riding.

Lamesa High School band, under direction of Conway E. King, who in February of this year was named vice-president of the Texas Bandmasters Association, will take part in the all-youth Americanization parade Friday afternoon, May 17. The colorful 64-piece musical unit will march along with other bands of this section and with Boy Scouts, 4-H club boys and girls, Future Farmers of America groups and with other organizations of girls and boys from this section who will be expected to participate in the affair. The Lamesa band took second place honors last month in the state-wide band contest held in San Antonio in connection with the world-famous Battle of the Flowers celebration, competing against 60 of Texas' best band groups. For this recognition the band was awarded a trophy.

Wright Grant Boyd Jr., high school junior, in a contest held in the schools, was this week selected to represent Lamesa in the official Home Town speaking contest held yearly in connection with the convention. Boyd, 16 years of age, is the son of Mr. and Mrs. Wright Boyd. This boy has been an honor student throughout his school career, was voted one of the most popular boys in school this year, won top honors while in the seventh grade in a declamation meet and later third place in the regional contest, is a member of the Thespian society, member of the press club, assistant yell leader, and has taken much interest in general student activities.

It is hoped and expected that many business leaders of Lamesa will attend the West Texas Chamber of Commerce conferences and general program activities this year. Owen C. Taylor, Lamesa postmaster, is the city's director in the regional Chamber of Commerce president of the Lamesa Chamber organization. Sam Richardson is of Commerce.

Bicycle Will Be Given To Some Lamesa Child

Announcement is made in an ad in this issue of the Courier, by Junior Hornbeck, Lamesa distributor, that his company will give a bicycle free of charge to some boy or girl in this territory.

Complete details as to how the contest will work may be found in their ad.

Barq's is a carbonated beverage which comes in a wide variety of flavors.

The bicycle which will be awarded is on display in the show window of Lamesa Tire and Battery Company. Look up their ad and see the easy, simple rules for winning.

Mr. and Mrs. Homer Green, Mr. and Mrs. E. N. Pells and son, J. R. and Mrs. W. F. Veasey attended the singing convention in Colorado City Sunday.

Miss Oneta Hamilton who is attending Draughtons at Lubbock, spent the week end here visiting with her parents, Mr. and Mrs. A. P. Hamilton.

Those Having Houses And Apartments For Rent Are Asked To List Them

A check made at the Chamber of Commerce this week revealed that the organization's housing bureau files have very few apartments and houses listed for rent purposes, which indicates that folks are fast moving into Lamesa and taking up existing vacancies. Officials stated that since the city to take up permanent residence while many others have come and gone with oil drilling crews, seismograph crews, and at present Walco Engineering and Construction company of Tulsa, Oklahoma, has set up headquarters here in a warehouse east of Highway 87 near the Santa Fe lines.

"Officials of the company," said a spokesman for the Chamber of Commerce, "say they will be here some three months setting up more than 200 miles of rural electrification lines in this area. Workmen are coming in at intervals to seek housing."

It was the request from the Chamber of Commerce that folks in town who have apartments furnished or unfurnished, or houses or any available rent space, either call by the offices in the city hall or telephone 48 and list these facilities for rent with the housing bureau, so that folks who call by the Chamber of Commerce for housing may be sent to look at the vacancies.

"There is more demand for houses and apartments than for bedrooms," said a spokesman, although we do have an abundance of bedrooms listed. Most of the newcomers have families and can not use single rooms."

The story was told of a wife of an oil field worker who recently came by the Chamber of Commerce seeking a furnished apartment. She had clothing and other household articles in her car and was in need of an apartment right away. Fortunately the housing bureau had a few furnished apartments listed that the lady might visit.

"This means," said an official, "that many people come here who would like housing right away. They are busy and do not have time to search all over town without first knowing exactly where to look. If houses and apartments are listed with us, we can give them a list to go see immediately, thereby saving them much confusion upon arriving in a new and strange place. Please cooperate with us in this manner."

Mr. and Mrs. Ameral Payne and son of Lubbock spent the week end here visiting in the home of Mr. and Mrs. L. F. Kennedy.

Mrs. Ralph Smith of Pittsburg visited with friends in Lamesa several days this past week.

Miss Marion Carew of Jal. N. M. spent the week end here visiting with Charlene Jordan.

Many Collect Insurance In First Year

Statistics just compiled by the American Life Convention indicate that 77,000 policyowners die annually in the United States, within a year after they invest in life insurance, and that their beneficiaries receive approximately \$2,000,000 as a result of their insurance.

The statistics, just received here by Mr. Jud Watson, who is local representative of Southwestern Life Insurance Company, an affiliate of the American Life Convention, were taken from a survey which also covered the field of health and accident records. Based upon estimates of the United States Public Health Service, the American Life Convention reports an average of 5,000,000 person invalided each day by sickness, and 500,000 by accident.

The report estimates the annual loss in wages from sickness and accidents, not covered by Workmen's Compensation benefits, total more than \$6,500,000,000. Where permanent disability is involved, however, much of the loss is covered by life insurance.

Seminole Storm Does Damage To Many Buildings

High wind, accompanied by a heavy hail, did considerable damage to business and residence buildings in Seminole Wednesday night.

The storm struck down with little warning and a regular water-spout fell. An estimated three inches of rain fell within three minutes, accompanied by a high wind and hail.

The new Tower Theater, under construction, was damaged when the North wall was toppled over by the high wind. The new building is being built for Audrey Cox, Allen and Waller of Lamesa are the contractors.

Other damage was reported to the Palace Theatre which was flooded by the rainfall, as well as several other buildings. Many window glasses were broken by the hail stones, which are reported to have drifted as much as three feet four feet deep in shattered places.

Lamesa Lad Is Knocked From Bicycle And Hurt

Last Tuesday afternoon while Weldon Carmichael and Vernon Tate were riding their bicycles, Weldon became frightened by the horn of an approaching car, veered his wheel and was struck by the car.

He was knocked from the bicycle and thrown several feet, suffering severe lacerations about the head, it is reported. He was rushed to a local hospital, where his injuries were pronounced painful, but it is not though serious.

Albaugh Well Is Drilling Near 4000-ft. Level

Nearing the 4000 foot mark, the Ray Albaugh No. 2 Robinson test in Northwest Dawson County, was drilling Tuesday in anhydrite.

Top of the brown lime was reported at 3,830 feet to 3,850 feet.

This well is reported structurally high and is being watched with a great deal of interest by local people as well as operators over this section.

It will be recalled that the Albaugh No. 1 Robinson, about one mile southwest, showed some production.

The contract calls for the drilling of the test to a total of 5,059 feet, unless oil or gas in commercial quantities is found at a lesser depth. It is planned to put in standard tools at approximately 4,900 feet.

W. B. Collins Is Speaker At High School Meeting

W. B. Collins, Lamesa businessman, was guest speaker at the Union High School Tuesday night. He spoke before the high school students, and his subject was "Thrift". Mr. Collins is an able speaker and his talk was thoroughly enjoyed. The members of the Home Makers Club also listened to the talk.

Raymond Lee Johns, manager of the Lamesa Chamber of Commerce, accompanied Mr. Collins to Union, and also made a short talk.

Ministers Will Have Call Meet Next Monday

There will be a called meeting of the Dawson County Ministerial Alliance Monday morning, May 13 at 10:00 o'clock in the basement of the Lamesa Methodist Church building. Plans for religious services to be conducted on the Court House Lawn through the summer will constitute the principal business. All Dawson County ministers will be welcomed to this meeting.

Olin Nix Motor Is Burglarized Wednesday Night

The Olin Nix Motor Company, local Olds dealers, were burglarized Wednesday night and an estimated \$200 worth of merchandise stolen.

The thieves broke into the building and stole four spare wheels and tires from new cars. They also broke into the company's safe.

The thief, or thieves, had not been apprehended up until noon today.

County School Trustees Meet Last Monday

The county board met in regular session Monday at the Court house for the first meeting of the new year. O. E. Witte was re-elected chairman of the board for the 12th consecutive time of the 16 years he has served on the board. J. H. Norris was chosen secretary.

It was ordered by the board that the secretary publish a warning in the paper to the local trustees citing the Nephelism law which forbids local trustees hiring tax assessors, bus drivers, janitors, and teachers who are related with the second degree of affinity and the third degree of consanguinity, under penalty of law. The State Department of Education has sent out warnings this year asking that that trustees be warned of this law and pointing out the danger of infringing on its provisions.

Most of the meeting was spent in making a study of the transportation system of the county. A study is to be made during the next few weeks with the expectation of working out a more economical system for the coming year. Trustees and Superintendents will be asked to aid in this study.

TEXAS OUT-O'-DOORS

Texas anglers are overlooking a good bet for some of the finest fishing in the world!

You have the word of the chief aquatic biologist of the Texas Game, Fish and Oyster Commission for that. He is referring to the sport of fishing for those large red-eared bream, often called Georgia of Georgia blue gill bream on light tackle. Believe it or not, foot-long Georgia bream are not uncommon in Texas waters.

Many lakes in Texas are overrun with Georgia bream because so few people fish for them and so few know the proper method for snagging them. Once for once, there is twice as much fish in those red-ears than there are in bass, but Lone Star State fishermen have run riot over bass and have neglected the scrappy bream. As a result, according to the chief aquatic biologist, the lakes are overrun with bream, bass have too much to eat in the way of natural food and the bass fisherman, with his artificial lures, often is just like a man offering spinach to a person full of cake.

The chief aquatic biologist of the Game Department is urging bass fishermen to take a day off and go out and fish for the red-ears. If a sufficient number of anglers catch bream, they'll have better bass fishing as a result, and he can cite instances to prove his point.

There are many species of fish carrying the broad label of bream, but most of them are shore feeders and do not grow as large as the Georgia red-ear, which is almost entirely a bottom feeder. Consequently few people know how to leverage the Georgia bream grows and few have fished for it. Red-ears reach a weight of more than a pound in Texas waters and a foot-long red-ear, taken on light tackle is more sport than even most ardent bass anglers realize.

Child Health Day Is Every Day In The Home

Ruth E. Magee
 Farm Security Administration

Today is Child Health Day throughout the nation. But in homes where there are young children, the family takes part in a Child Health program every time it sits down to a meal.

Children growing fast and playing hard, need foods that will produce strong bones and teeth, build tissue, make red blood, and furnish energy. But children's tummies are small and quickly filled. So every bite they eat must be as full of food value as possible.

Milk is the most economical source of the materials needed for growth. From three to four glasses during the day are needed. Most children like to drink milk—but it is often best to give the milk at the end of the meal, so it will not crowd out other foods, that are also important. Some milk can also be included in cooked foods—cereals cooked in milk, vegetables combined with milk in a cream soup, and milk in custards and sherbets.

Eggs are also excellent body builders—rich in proteins, vitamins and minerals. Give the child at least four or five eggs a week. Serve them soft-cooked, poached, shirred or baked. Or use the eggs in custards or in souffles, with vegetables or cheese.

At least four servings of fruit and vegetables a day, is a good rule to follow for the entire family. It's easy to include them if you serve a fruit for breakfast, a vegetable at noon and again at night, and a fruit dessert at one meal. It's a good plan to add more vegetables to both the noon and evening meal.

Choose one of these fruits or vegetables to supply vitamin C. Citrus fruits and tomatoes are rich in this vitamin, so are greens and the vegetables of the cabbage and turnip families. When planning the day's meals, also remember that the green vegetables are valuable for vitamin A, and iron, as well as for vitamin C. Potatoes and sweet potatoes give good returns in food value for their cost. Prunes and other dried fruits, dried peas and beans, as well as canned fruits and vegetables, are useful in rounding out the list.

Children enjoy chewing carrot strips and crisp green cabbage or lettuce leaves rabbit fashion. A sandwich filling of butter creamed with chopped lettuce, cabbage, watercress, or parsley, is a way to tuck in some extra vitamins and minerals.

When vegetables are cooked, there's always the problem of saving the food values. But three simple rules make it easy to save most of the vitamins and minerals found in raw vegetables. They are: Cook vegetables in as little water as possible; stop cooking as soon as the vegetables are tender; make use of any liquid that is left.

Fruit is an ideal dessert for all the members of the family, no matter how old or how young they are. Fresh fruits in season may be eaten as they are, or mixed in a fruit cup. For small children, it's best to dice the fruit into very small pieces. Stewed dried fruits also make a good dessert, and fruit in a plain or whipped gelatin is always a favorite.

Educational News Is Run In Texas Papers

Interest of Texas Newspapers in educational news has again been indicated in the award to the University of Texas for national first place honors in news coverage of an educational event.

The award was made to the University's Public Relations Department by the American College Publishers Association in its recent national meeting in Des Moines, Ia. The association voted the news published in Texas newspapers on last December's inauguration of University President Homer P. Rainey and the attendant conferences on "The State and Public Education" as the best all-around coverage given an educational event last year.

Will Construct Pipeline To Gaines County

Branch Line To Serve New Cedar Lake Pool Expected To Be Constructed Also

According to an announcement which appeared in the Big Spring Weekly the past week, the Basin Pipe Company, of which C. L. McIver of Fort Worth is president, and A. L. Lipscomb Jr., is secretary treasurer, is about ready to start construction of a pipe line from the Cosden Refinery in Big Spring to the Gaines and Yoakum county oil fields.

The company, which was organized last December, plans to build 93 miles of six-inch line and 15 miles of four-inch laterals; and will be able to supply the refinery there with a constant and dependable supply of crude oil.

It is understood that a line will be built from the main line to the new Cedar Lake Pool. This will mean much to the development of that pool and the announcement met with a great deal of enthusiasm in Lamesa.

Local Plans Go Forward For WTCC Convention In Big Spring Next Week

With the West Texas Chamber of Commerce annual convention but a few days away, May 16-17-18 in Big Spring, Lamesa citizens are completing plans in cooperation with their local Chamber of Commerce officials to have no small part in the three-day program.

Recently selected as Lamesa's Sponsor to participate in the evening revues, May 16-17, along with other sponsors from cities all over West Texas, was Miss Marilyn Parkinson, daughter of Mr. and Mrs. Lynn Parkinson. Her age is 17, height five feet and one inch, weight 100 pounds. She is a senior in high school, and is the 1939-40 football queen, a junior Delphian, member of the football club of 1937, now president of the high school Spanish club, member of the Thespian society and vice-president of YWA. She has blue eyes and reddish-brown hair. Her hobby is horseback riding.

Lamesa High School band, under direction of Conway E. King, who in February of this year was named vice-president of the Texas Bandmasters Association, will take part in the all-youth Americanization parade Friday afternoon, May 17. The colorful 64-piece musical unit will march along with other bands of this section and with Boy Scouts, 4-H club boys and girls. Future Farmers of America groups and with other organizations of girls and boys from this section who will be expected to participate in the affair. The Lamesa band took second place honors last month in the state-wide band contest held in San Antonio in connection with the world-famous Battle of the Flowers celebration, competing against 60 of Texas' best band groups. For this recognition, the band was awarded a trophy.

Wright Grant Boyd Jr., high school junior, in a contest held in the schools, was this week selected to represent Lamesa in the official Home Town speaking contest held yearly in connection with the convention. Boyd, 16 years of age, is the son of Mr. and Mrs. Wright Boyd. This boy has been an honor student throughout his school career, was voted one of the most popular boys in school this year, won top honors while in the seventh grade in a declamation meet and later third place in the regional contest. He is a member of the Thespian society, member of the press club, assistant yell leader, and has taken much interest in general student activities.

It is hoped and expected that many business leaders of Lamesa will attend the West Texas Chamber of Commerce conferences and general program activities this year. Owen C. Taylor, Lamesa postmaster, is the city's director in the regional Chamber of Commerce president of the Lamesa Chamber of Commerce.

Those Having Houses And Apartments For Rent Are Asked To List Them

A check made at the Chamber of Commerce this week revealed that the organization's housing bureau files have very few apartments and houses listed for rent purposes, which indicates that folks are fast moving into Lamesa and taking up existing vacancies. Officials stated that since the city to take up permanent residence, while many others have come and gone with oil drilling crews, seismograph crews, and at present Walco Engineering and Construction company of Tulsa, Oklahoma, has set up headquarters here in a warehouse east of Highway 87 near the Santa Fe lines.

"Officials of the company," said a spokesman for the Chamber of Commerce, "say they will be here some three months setting up more than 200 miles of rural electrification lines in this area. Workmen are coming in at intervals to seek housing."

It was the request from the Chamber of Commerce that folks in town who have apartments furnished or unfurnished, or houses or any available rent space, either call by the offices in the city hall or telephone 48 and list these facilities for rent with the housing bureau, so that folks who call by the Chamber of Commerce for housing may be sent to look at the vacancies.

"There is more demand for houses and apartments than for bedrooms," said a spokesman, although we do have an abundance of bedrooms listed. Most of the newcomers have families and can not use single rooms."

The story was told of a wife who came by the Chamber of Commerce seeking a furnished apartment. She had clothing and other household articles in her car and was in need of an apartment right away. Fortunately the housing bureau had a few furnished apartments listed that the lady might visit.

"This means," said an official, "that many people come here who would like housing right away. They are busy and do not have time to search all over town without first knowing exactly where to look. If houses and apartments are listed with us, we can give them a list to go see immediately, thereby saving them much confusion upon arriving in a new and strange place. Please cooperate with us in this manner."

Mr. and Mrs. Ameral Payne and son of Lubbock spent the week end here visiting in the home of Mr. and Mrs. L. F. Kennedy.

Mrs. Ralph Smith of Pittsburg visited with friends in Lamesa several days this past week.

Miss Marion Carew of Jal. N. M. spent the week end here visiting with Charlene Jordan.

Many Collect Insurance In First Year

Statistics just compiled by the American Life Convention indicate that 7,000 policyowners die annually in the United States, within a year after they invest in life insurance, and that their beneficiaries receive approximately \$2,000,000 as a result of their insurance.

The statistics, just received here by Mr. Jud Watson, who is local representative of Southwestern Life Insurance Company, an affiliate of the American Life Convention, were taken from a survey which also covered the field of health and accident records. Based upon estimates of the United States Public Health Service, the American Life Convention reports an average of 5,000,000 person invalided each day by sickness, and 500,000 by accident.

The report estimates the annual loss in wages from sickness and accidents, not covered by Workmen's Compensation benefits, total more than \$6,500,000,000. Where permanent disability is involved, however, much of the loss is covered by life insurance.

Seminole Storm Does Damage To Many Buildings

High wind, accompanied by a heavy hail, did considerable damage to business and residence buildings in Seminole Wednesday night.

The storm struck down with little warning and a regular water-spout fell. An estimated three inches of rain fell within three minutes, accompanied by a high wind and hail.

The new Tower Theater, under construction, was damaged when the North wall was toppled over by the high wind. The new building is being built for Audrey Cox. Allen and Waller of Lamesa are the contractors.

Other damage was reported to the Palace Theatre which was flooded by the rainfall, as well as several other buildings. Many window glasses were broken by the hail stones, which are reported to have drifted as much as three or four feet deep in shattered places.

Lamesa Lad Is Knocked From Bicycle And Hurt

Last Tuesday afternoon while Weldon Carmichael and Vernon Tate were riding their bicycles, Weldon became frightened by the horn of an approaching car, veered his wheel and was struck by the car.
He was knocked from the bicycle and thrown several feet, suffering severe lacerations about the head, it is reported. He was rushed to a local hospital, where his injuries were pronounced painful, but it is not thought serious.

Albaugh Well Is Drilling Near 4000-ft. Level

Nearing the 4,000 foot mark, the Ray Albaugh No. 2 Robinson test in Northwest Dawson County, was drilling Tuesday in anydrite.
Top of the brown lime was reported at 3,830 feet to 3,850 feet.
This well is reported structurally high and is being watched with a great deal of interest by local people as well as operators over this section.
It will be recalled that the Albaugh No. 1 Robinson, about one mile southwest, showed some production.
The contract calls for the drilling of the test to a total of 5,059 feet, unless oil or gas in commercial quantities is found at a lesser depth. It is planned to put in standard tools at approximately 4,900 feet.

W. B. Collins Is Speaker At High School Meeting

W. B. Collins, Lamesa businessman, was guest speaker at the Union High School Tuesday night. He spoke before the high school students, and his subject was "Thrift". Mr. Collins is an able speaker and his talk was thoroughly enjoyed. The members of the Home Makers Club also listened to the talk.
Raymond Lee Johns, manager of the Lamesa Chamber of Commerce, accompanied Mr. Collins to Union, and also made a short talk.

Ministers Will Have Call Meet Next Monday

There will be a called meeting of the Dawson County Ministerial Alliance Monday morning, May 13 at 10:00 o'clock in the basement of the Lamesa Methodist Church building. Plans for religious services to be conducted on the Court House Lawn through the summer will constitute the principal business. All Dawson County ministers will be welcomed to this meeting.

Olin Nix Motor Is Burglarized Wednesday Night

The Olin Nix Motor Company, local Olds dealers, were burglarized Wednesday night and an estimated \$200 worth of merchandise stolen. The thieves broke into the building and stole four spare wheels and tires from new cars. They also broke into the company's safe. The thief, or thieves, had not been apprehended until noon today.

County School Trustees Meet Last Monday

The county board met in regular session Monday at the Court house for the first meeting of the new year. O. E. Wittie was re-elected chairman of the board for the 12th consecutive time of the 16 years he has served on the board. J. H. Norris was chosen secretary.
It was ordered by the board that the secretary publish a warning in the paper to the local trustees citing the Nephelium law which forbids local trustees hiring tax assessors, bus drivers, janitors, and teachers who are related with the second degree of affinity and the third degree of consanguinity, under penalty of law. The State Department of Education has sent out warnings this year asking that trustees be warned of this law and pointing out the danger of infringing on its provisions.
Most of the meeting was spent in making a study of the transportation system of the county. A study is to be made during the next few weeks with the expectation of working out a more economical system for the coming year. Trustees and supervisors will be asked to aid in this study.

TEXAS OUT-O'-DOORS

Texas Anglers are overlooking a good bet for some of the finest fishing in the world!
You have the word of the chief aquatic biologist of the Texas Game, Fish and Oyster Commission for that. He is referring to the sport of fishing for those large red-ear bream, often called Georgia bream, often called Georgia blue gill bream on light tackle. Believe it or not, foot-long Georgia bream are not uncommon in Texas waters.

Many lakes in Texas are overrun with Georgia bream because so few people fish for them and so few know the proper method for snagging them. Once for ounce, there is twice as much fight in those red-ears than there are in bass, but Lone Star State fishermen have run not over bass and have neglected the scrappy bream. As a result, according to the chief aquatic biologist, the lakes are overrun with bream, bass have too much to eat in the way of natural food and the bass fisherman, with his artificial lures, often is just like a man offering spinach to a person full of cake.

The chief aquatic biologist of the Game Department is urging bass fishermen to take a day off and go out and fish for the red-ears. If a sufficient number of anglers catch bream, they'll have better bass fishing as a result, and he can cite instances to prove his point.

There are many species of fish carrying the broad label of bream, but most of them are shore feeders and do not grow as large as the Georgia red-ear, which is almost entirely a bottom feeder. Consequently few people know how large the Georgia bream grows and few have fished for it. Red-ears reach a weight of more than a pound in Texas waters and a foot-long red-ear, taken on light tackle is more sport than even most ardent bass anglers realize.

There are several methods for fishing for red-ears which can be used successfully. It makes no difference whether the angler prefers artificial or natural bait.

Remembering that these scrappy little fish are bottom feeders, the artificial lure addicts rigs up his fly rod with light line, a small leader, a tiny trout fly and to this he attaches a piece of pork rind more narrow than a paper watch and approximately a half inch long. This is split in the middle. A small split shot is attached to the line as a weight. After the cast the bait is allowed to sink to the bottom of the lake and the wriggling pork rind attracts the big red-ears. Once he is hooked the man who is using light tackle is guaranteed plenty of thrills before landing Mr. Bream.

If the fisherman prefers natural bait, he can use either an ordinary pole and line or a fly rod, but the lighter the tackle the more sport the angler will have. Attach a leader to the line and use either a small fly or narrow cripple hook. Put on as many angleworms as you can and leave an inch or two of the worms wriggling. Cast or drop your bait in to the water and let it sink to the bottom. Leave it there for a few minutes and it is likely the wriggling worms will attract your fish. If not, try again a location two or three feet away.

The only baits ordinarily good for bream are worms and flies, which is consistent with their natural bill of fare. Only the green perch eats other fish, most bream making their meal of worms, flies and grubs.

Bream are one source of food for bass, but with few people fishing for them, lakes are becoming over-crowded with them. Bass have plenty of natural food and when you drop your plug or fly in front of 'Ol John Bass he naturally turns up his nose at it nine times out of ten.

So if you want better bass fishing, take time out to catch bream now and then. You'll enjoy it. And, the best part about bream fishing is there is no closed season on them. They are one species of fish the Game Department is not urging a closed season for, at least as long as they are so abundant with little danger of their being entirely fished out.

Educational News Is Run In Texas Papers

Interest of Texas Newspapers in educational news has again been indicated in the award to the University of Texas for national first place honors in news coverage of an educational event.

The award was made to the University's Public Relations Department by the American College Publicity Association in its recent national meeting in Des Moines, Ia. The association voted the news published in Texas newspapers on last December's inauguration of University President Homer P. Rainey and the attendant conferences on "The State and Public Education" as the best all-around coverage given an educational event last year.

Buddle Glover of March Field, California, is visiting with his parents, Mr. and Mrs. H. B. Glover this week.

Will Construct Pipeline To Gaines County

Branch Line To Serve New Cedar Lake Pool Expected To Be Constructed Also

According to an announcement which appeared in the Big Spring Weekly the past week, the Basin Pipe Company, of which C. L. McIver of Fort Worth is president, and A. L. Lipscomb Jr., is secretary treasurer, is about ready to start construction of a pipe line from the Cosden Refinery in Big Spring to the Gaines and Yoakum county oil fields.

The company, which was organized last December, plans to build 93 miles of six-inch line and 15 miles of four-inch laterals, and will be able to supply the refinery there with a constant and dependable supply of crude oil.
It is understood that a line will be built from the main line to the new Cedar Lake Pool. This will mean much to the development of that pool and the announcement met with a great deal of enthusiasm in Lamesa.

Child Health Day Is Every Day In The Home

Ruth E. Magee
Farm Security Administration
Today is Child Health Day throughout the nation. But in homes where there are young children, the family takes part in a Child Health program every time it sits down to a meal.

Children growing fast and playing hard, need foods that will produce strong bones and teeth, build tissue, make red blood, and furnish energy. But children's tummies are small and quickly filled. So every bite they eat must be as full of food value as possible.

Milk is the most economical source of the materials needed for growth. From three to four glasses during the day are needed. Most children like to drink milk—but it is often best to give the milk at the end of the meal, so it will not crowd out other foods, that are also important. Some milk can also be included in cooked foods—cereals cooked in milk, vegetables combined with milk in a cream soup, and milk in custards and sherbets.

Eggs are also excellent body builders—rich in proteins, vitamins and minerals. Give the child at least four or five eggs a week. Serve them soft-cooked, poached, shirred or baked. Or use the eggs in custards or in souffles, with vegetables or cheese.

"At least four servings of fruit and vegetables a day," is a good rule to follow for the entire family. It's easy to include them if you serve a fruit for breakfast, a vegetable at noon and again at night, and a fruit dessert at one meal. It's a good plan to add more vegetables to both the noon and evening meals.

Choose one of these fruits or vegetables to supply vitamin C. Citrus fruits and tomatoes are rich in this vitamin, so are greens and the vegetables of the cabbage and turnip families. When planning the day's meals, also remember that the green vegetables are valuable for vitamin A, and iron, as well as for vitamin C. Potatoes and sweet potatoes give good returns in food value for their cost. Prunes and other dried fruits, dried peas and beans as well as canned fruits and vegetables, are useful in rounding out the list.

Children enjoy chewing carrot strips and crisp green cabbage or lettuce leaves, rabbit fashion. A sandwich filling of butter creamed with chopped lettuce, cabbage, watercress, or parsley, is a way to tuck in some extra vitamins and minerals.

When vegetables are cooked, there's always the problem of saving the food values. But three simple rules make it easy to save most of the vitamins and minerals found in raw vegetables. They are: Cook vegetables in as little water as possible; stop cooking as soon as the vegetables are tender; make use of any liquid that is left.

Fruit is an ideal dessert for all the members of the family, no matter how old or how young they are. Fresh fruits in season may be eaten as they are, or mixed in a fruit cup. For small children, it's best to dice the fruit into very small pieces. Stewed dried fruits also make a good dessert, and fruit in a plain or whipped gelatin is always a favorite.

Cereals are another must in the well-planned diet. While grain cereals, including whole-grain flour for bread, are especially important for their vitamins and minerals. But don't forget to count rice, grits, macaroni, spaghetti, and noodles as cereals that supply energy.

Lean meats are quite suitable for children once a day; and sometimes during the week, the child's meat dish should be liver or kidney or sweetbreads. Coarse stringy meat is hard for a child to chew, so it is best to grind it or chop it fine. Broiling is a good method to use for tender chops, steaks, liver, and for ground meat patties. Roast the tender cuts of meat, and braise the less tender ones.

A piece of candy or other sweet is certain to delight a child. And if desserts do not take the place of more important foods, they may be served as a special treat at the end of the meal. Desserts that the entire family will enjoy are custards, puddings, ice cream, fruit sherbets, plain cereals, and plain cake.

Earnest and Kent County, Texas as plaintiffs, against Loyal Carr in the sum of \$1609.48 with interest from September 1st, 1930, at the rate of 5% per annum and all costs of suit and a judgment of foreclosure in said amount as against the defendant Loyal Carr, and the following defendants: August J. Winkler, Minnie Winkler, William Winkler, Loyal Carr, John J. Strickland, if living, and if he be dead, then the unknown heirs and legal representatives of the said John J. Strickland; H. W. Bonner, if living, and if he be dead, then the unknown heirs and legal representatives of the said H. W. Bonner; and W. P. Goemmel, if living, and if he be dead, then the unknown heirs and legal representatives of said W. P. Goemmel, and each and all of them; the same being a judgment in a suit styled J. B. Earnest and Kent County, Texas, vs August J. Winkler et al in the District Court of Kent County, Texas, I did on the 8th day of May A. D. 1940, at ten o'clock A. M. levy upon the following described tract or parcel of land situated in Dawson County, Texas, to-wit: Labor No. One (1) in League No. 266, Kent County School Land in Dawson County, Texas; said land being located about twenty-five miles South-west of Lamesa, and being known as the Loyal Carr place, and containing approximately 177 acres of land, and levied upon as the property of said Loyal Carr, and on Tuesday, the 4th day of June, 1940, at the Court House door of Dawson County, Texas, in the city of Lamesa, Texas, between the hours of ten A. M. and four P. M. I will sell said property at public vendue, for cash to the highest bidder, as the property of the said Loyal Carr, by virtue of said levy and said Order of Sale, and in compliance with law. I give notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Dawson County Courier, a newspaper published in Dawson County.

Witness my hand this the 8th day of May 1940.

The approaching marriage of Miss Jack Hart and Mr. Don Altman was announced Wednesday morning at a coffee given in the Robert Koger home with Mesdames Koger, Stanley Wilkes, Misses Ruth Lee Stuart, Van Clark and Elizabeth Arnett as hostesses.

Attractive bowls of roses and other cut flowers were used in profusion throughout the entertainment rooms forming a very attractive setting for this delightful affair.

Mrs. Koger met guests at the door and presented them to a line made up of Mrs. J. C. Hart, mother of the honoree, Miss Jack Hart, and Mrs. George Hart.

Guests were shown to the dining room by Misses Clark, Stuart and Mrs. Wilkes. Mrs. W. B. Collins presided at the silver coffee service. The table was covered with an Italian cut work cloth and centered with a beautiful bowl of pink Carnations, Calla Lilies and Babys Breath.

Assisting in the serving were Mesdames J. H. Clark, Tom Burnside and W. D. Arnett. Miss Elizabeth Arnett presented each guest with a small heart shaped picture of the couple with the inscription "Jack and Don, May 12"

Mrs. Carl Hart presided at the brides registry.

MISS SHANKLAND, SCOUT REPRESENTATIVE, HERE DURING THIS WEEK

Miss Katherine Shankland, Girl Scout Representative from the National Headquarters, was a visitor in Lamesa this week conducting a training course.

She held conferences with different committees and the leaders during the week. Thursday afternoon at 3:45 a Leaders Training Session was held at the Elementary School, which was open to everyone. A good crowd attended this meeting which was very educational.

Thursday evening at 8 p. m. the council met at the home of Mrs. Guy Weekes to finish plans for a financial drive which will take place early next week.

Plans will be made for a Camp Rally to be held next week end at which time Miss Stenchoomb of San Angelo will be here to meet and talk with parents and Girl Scouts.

Miss Stenchoomb and her staff have charge of the Camp and the Lamesa Girl Scouts have been invited to attend.

"HOBBIES" TOPIC AT DELPHIAN MEETING TUESDAY EVENING

"Hobbies or How to Spend Your Leisure Time" was the topic for discussion at the Delphian Club held in the Woman's Club House Tuesday evening with Mrs. Jack McLaughlin as hostess. Mrs. O. E. Dunlop was leader.

She had an interesting display of pitchers which was a part of her present hobby. She also told how she made a hobby grow into a profession from the making of doll hats as a child to the millinery profession as an adult.

Mrs. T. F. Vaughn spoke on "The Importance of Developing a Hobby and Its Possibilities." Mrs. G. L. Hardin gave an interesting talk on "Spoons." She had on display a number of spoons from Mrs. C. E. Auld's collection, which represented many part of America, the Dominion of Canada, England and Holland.

Miss Margaret Flaniken cited some interesting people, namely George Keller, Joel Parker Jr. Joe Meyers, Mrs. Katherine Fowler Richey and Mrs. Milton Seeley, who have made hobbies profitable.

How "Photography" can be developed into an interesting pastime, as well as a profession was explained by Miss Magee.

A guest of the club, Miss Frances Ferguson read a paper on her hobby of "Ship Collecting," and she also exhibited some of her ships.

A book review, "The Importance of Living" by Dr. Lin Yutang was given by Mrs. Suttle Purcell. The book is based on Chinese Philosophy. Dr. Lin Yutang was a pagan. He believed the more simple things of life bring the most happiness. "Simplicity" is always a mark of the truly great, and "The Wisest Man is the One Who Loafs Most Gracefully." The above quotations from his book show his philosophy.

Roll call was answered by "What Do You Collect?" Mrs. Bob Wade, president elect, gave an interesting report on the Convention of Federated Clubs held recently at Shamrock, Texas.

Those attending were Mesdames C. E. Auld, Cleve Austin, Lee Billingsley, Ross Boardman, Ross Gibson, C. E. Cameron, A. H. Smith, Ray Williams, Irvin Wright, Bill White, Dee Hull and the hostess, Mrs. Walter Jones.

GAMMA LAMBDA KAPPA HAVE CANDLE LIGHTING CEREMONY

A beautiful and impressive candle lighting ceremony climaxed the program of the Delta Kappa Dinner which closed the year for Gamma Lambda Chapter, Lamesa, Texas. The dinner was given at the Lamesa Country Club. Mesdames Jack McLaughlin and E. J. Yates were hostesses.

The dinner was a "star lit" occasion. The local president, Mrs. Jack McLaughlin, presided and introduced the theme, "Hit Your Wagon to a Star" and introduced all members with "Heavenly" language.

The following program was given: Music, Alice Lindsey; Invocation, Rosalie Montgomery; Reading, "Monologues from Failey and Browning," Arminia Yates, Piano Solo Beethoven's "Moonlight Sonata" by Mrs. Matt McCall, Candle-lighting ceremony, honoring founders directed by Mrs. Ruden Huddleston, Song Chapter. After the program a business session was held.

The table was arranged in a U shape with places around the outside. The center was marked with a brass Candelabra holding red candles over a gold star and tall brass holders with red candles at each end. Gold and red Stars were scattered over the white table cloth. Long low bouquets of red roses on gold centerpieces decorated the side tables and candles for the Founders ceremony were on the inside of the table.

Each place was marked with a little red and gold wagon hitched to a gold star on which were the names of the guests. Under the supervision of Mrs. Fred Reese the following menu was served: Tomato Juice Nectar with Star Dust Wafers, Heavenly Creamed Chicken, Celestial Potatoes with Marshmallow, Green Beans in Constellation, Beet Meteor, Ambrosial Jelly, Asteroid Salad, Comet rolls, Milky Way Butter, Nuble Delight and iced tea gleams.

Dr. Cox Says:-

Diabetes, the price America pays for indiscretion in living, took a toll of 720 lives in Texas last year, according to Dr. Geo. W. Cox, State Health Officer.

"While the controllable diseases, are causing a smaller number of deaths each year in this country, Diabetes, which was notably absent in the early pioneer days is now taking a staggering number of lives," Dr. Cox said.

"Up until the highly mechanized age, diabetes was not a health problem, but the disease became noticeable in direct ratio to the encroachment of luxury living, soft eating, soft habits, and general disregard for basic hygienic laws in our daily lives. Diabetes is nature's back-slap at coddling and pampering the body," Dr. Cox pointed out.

From the district winners, one family will be chosen to go to the World's Fair for a ten day trip as the guest of the Chamber of Commerce.

MAKE MOUNTAIN SHEEP SURVEY

Preparatory to setting up a refuge for the bighorn mountain sheep, generally considered a vanishing species, but one which the Texas Game Department hopes to bring back the Department will inaugurate a survey of the mountainous areas of West Texas immediately. It is announced by the executive secretary of the Department. It will also be a Pittman-Robertson fund project.

Before it will be possible for the Game Department to obtain the acres best suited to the raising of bighorn sheep, it will be necessary to know which sections of land in the Trans-Pecos are most desirable, to gather additional information on the breeding habits of the wary animals; to study the effects of predators such as eagles, bobcats, mountain lions and coyotes; to observe the movements of the sheep by day in an effort to obtain information in the types of habitats used by sheep; to study the ecology of the region to determine what habitat improvements may be necessary and to study the diseases which afflict the bighorn.

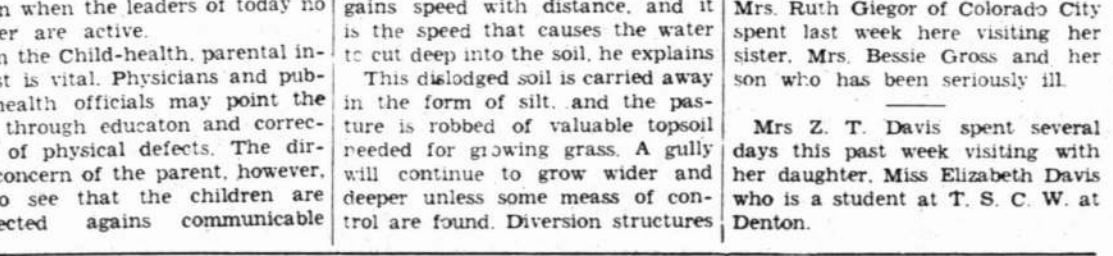

Most of the work will be carried on in the Beach, Sierra and Diablo Mountains of Culberson and Huddspeth counties.

It is estimated there are now approximately 300 bighorn sheep in the mountains of the Trans-Pecos. The Texas Game Department believes with proper control of predators and protection for the sure-footed animals, their numbers can be increased appreciably.

Mrs. Ruth Giegler of Colorado City spent last week here visiting her sister, Mrs. Bessie Gross and her son who has been seriously ill.

Mrs. Z. T. Davis spent several days this past week visiting with her daughter, Miss Elizabeth Davis who is a student at T. S. C. W. at Denton.

Counted Twice By Uncle Sam In Forty Years Is Local Man's Experience

A. B. Holt, pioneer Dawson County citizen, this week reported one for Ripley's "Believe It or Not" in 1900, or forty years ago, Edd Bearden came to Mr. Holt's field in Red River County as census enumerator. Mr. Holt was never enumerated again until Friday of last week, when A. G. Bearden, second cousin of the early day enumerator, took his census.

Mr. Bearden is District Supervisor for the Census department. The experience of being counted only twice in forty years is unusual but when two members of the same family were the enumerators and the distance from one county to the other, spreads the entire width of Texas, it is an usual and rare experience.

Medical Meeting To Be Held At Tahoka Wednes.

A "refresher" course in pediatrics and obstetrics for members of the Dawson, Gaines, Lynn, Terry and Yukon County Medical Society will be conducted at Tahoka on Wednesday of this week.

Dr. W. S. Brumage of Brownfield director of the state health department for the five counties, stated that the course would be held probably in the American Legion Hall. The program will open at 2 p. m. and continue to 9 p. m. with an interruption for dinner.

Speakers will be Dr. Robert L. Moore of Dallas and Dr. Roy Grogan of Fort Worth. Dr. Moore will lead the discussion on pediatrics and Dr. Grogan on obstetrics.

The course is planned primarily for 25 members of the society but doctors of other neighboring towns are urged to attend. Dr. Brumage said.

Dr. W. H. Dunn of this city is president of the society and Dr. Emil Prohl of Tahoka is secretary.

Big Wild Flower Show Attracts Hundreds

The Wild Flower Display, shown by the State Highway Department of this district, under the supervision of J. D. Wilsson, superintendent, attracted hundreds of people Saturday and Sunday.

This display was set up in the center window of the Collins Dry Goods Company store.

Sixty different varieties of wild flowers were shown, all picked in this Highway district, and fifty-three of them gathered in Dawson County. While some of the flowers were gathered from pastures adjoining the highways, Mr. Wilsson stated that every one of the fifty-three varieties could have been gathered along the right-of-way, but those selected from pastures were better specimens.

Among the varieties shown were: Wild Honeysuckle, Wild Yarrow, Wild Clover, Wild Larkspur, Yellow Daisy (seven varieties), Scrub Pea, White Weed, Gallardia, Sad Verbena, Dock, White Milkweed, Wild Onion, Blue Texas Star, Wild Egg, Desert Mallow, Spectacle Pod, Crow Poison, Pansy Leafed Aster, Yellow Evening Primrose, Small Verbena, Fiddle Neck, Milkweed, Purple Ground Cherry, Sand Verbena, Purple Horsemaid, Yellow Flax, White Mint, Perennial Primrose, Powder Puff, White Evening Primrose, Yellow Puccoon, Pink Sensitive Brier, Western Wall Flower, Wild Blue Flax, Mesquite Weed, Plains Verbena, Wine Cup, Sun Flowers, Wild Cow, White Aster, Purple Penetration, Purple Lace, Cactus, Mexican Hut, Purple Horsemint, White Prickly Pear, Prairie Scullcap, Bladder Pod, Paper Flower, Slender Verbena, Silky Sophora.

The purpose of this showing is to acquaint the people of this section with the large number of flowers which grow wild in this area, and to encourage their preservation.

The Highway Department is using every precaution to preserve the flowers, and do not mow the right-of-ways until after the wild flowers have seeded, so as to assure a good crop the following year.

"Uncle Sam's Puzzle" To Be Staged Friday

In observance of National Music Week, students of the Grammar School will stage "Uncle Sam's Puzzle", a folk festival of music and dances of the nation, on Friday evening, May 10 at 8 o'clock at the gymnasium.

Approximately two hundred and fifty students will take part and all will be dressed in appropriate costumes.

Nations represented in the songs and dances are Great Britain, Germany, Italy, France, Spain, and the Netherlands.

Mrs. Weldon Lindsey is directing the festival. The public is cordially invited to attend. There will be no admission charge.

Seibert And Aten Attend State Meet At Austin

W. T. Seibert and Pat Aten have returned from Austin where they attended the State Interscholastic Field and Track Meet. Aten entered several events and made a good showing. Mr. Seibert also attended the coaches conference while in Austin.

Mr. Seibert reports that the javelin throw will be discontinued after this year and in its place the 440-yard relay race. It is also proposed that baseball contests under the league auspices will be conducted in divisions like football and all basketball competition next year not to exceed two games per week.

MOTHER'S DAY . . . May 12th

Our Tribute To Your Mother . . .

We can think of no holiday more in keeping with the American Tradition than Mother's Day. It has ever been "American" to honor the great heroes of our land — is it not fitting, then, that we should set aside a day in honor of our greatest heroine, the American mother? But Mother's Day takes on added importance when we stop to think of how PERSONAL this holiday is. All American mothers of course we honor, to our own Mother we pay special tribute. And what can we compare with that inner joy that comes with giving good gifts to those we love. Remember your Mother!

New Nylon Hose Will Be Shown At Collins

Announcement is made this week by Collins Dry Goods Company, of the arrival of a special shipment of the new Nylon Hose. These hose have created a great deal of interest, not only among the women of the nation, but among scientists as well. They are made from coal dust, water and air, and are said to be several times as strong as silk, and to have a great deal more elasticity.

"Vitality interesting to every woman in the Lamesa trade territory, is the announcement that the new Nylon Hose will go on sale May 15," said W. B. Collins, owner and manager of the store. "We are proud to be first to present Nylon Hose, prouder still to bring you Hummingbird Nylons. We invite the women of this territory to see this revolutionary new type of hosiery on display in our store now."

This is the first shipment of these hose to be received in this section and the Collins Company was allowed only fifteen dozen pair of them. Leading stores over the country were selected for the initial showing and Collins feels fortunate in being among that select list. See their ad elsewhere in this issue.

Taylor-McCall Is Remodeling Interior

A large crew of workmen have been busily engaged in the Taylor-McCall Drug Company the past week, remodeling the prescription department of the store.

The department has been moved back about fifteen feet, the office moved from the balcony to the main floor, and the show room extending back to the new prescription case.

Besides giving the store a great deal more room, it will also allow for a much better appearance. The wall cases along the south side of the building which formerly sat against the stairway leading to the balcony, will now be placed against the wall proper. The stair way has been moved to the back.

Lamesans Father Succumbs At Spur Friday

Dr. and Mrs. Hall W. Cutler and son, Hall W. Jr., were called to Spur Friday morning to the deathbed of her father, J. R. Hill, 66, who passed away early that morning.

WHAT'S IT WORTH? (ABOUT \$300 MORE!)

ANY way you look at it—it will pay you to own a new Nash. It alone has the 99 H.P. Manifold-Sealed engine that took a "first" in the 1940 Gilmore-Yosemite Run with 23.76 miles per gallon. It alone has that smooth new Arrow-Flight Ride, Sand-Mortex Soundproofing. No other sedan near its price has provision for a big Convertible.

Bed... or has a 7-bearing crankshaft, the extra weight, the double frame, that mean so much in comfort.

To get all this in another car, you'd have to pay about \$300 more. But it's "standard" with Nash—and extra value when you trade. Take a look—take a ride in a 1940 Nash today!

New Records For Travel Expected In This Year

New records for tourist travel in the Americas, in 1940 were predicted here to day by officials of the Automobile Manufacturers Association, authoritative statistical body for the industry. Nearly 60,000,000 Americans will be taking to the highways during the summer months, the organization believes. Unsettled conditions abroad, combined with expanded facilities and accommodations in the great natural parks and other tourist Meccas, were cited as reasons for the statement.

"This has been rightly termed 'Travel America Year,'" the AMA announced. It seems a same prediction to say that a new all-time high mark will be set by vacationists this summer.

"Next to his own interest in the trip, the motorist's chief concern is for his car," adds Ed Hedner, national director of service for Chevrolet. "Once the tourist leaves his home town, the service problem presents itself in a new light. Chevrolet owners, however, need have no qualms along this line as they 'See the Americas Now,' for nearly 9,000 dealerships from coast to coast provide expert, factory-trained and supervised service.

Chevrolet's national service program annually reaches more than 27,000 mechanics, all of whom have access to factory methods and factory-approved tools and equipment. The standardization of service that has been brought about through this country-wide training system is the motorist's insurance against any mechanical clouds on the travel horizon.

Chevrolet's dealerships in every country and all major islands in the Western Hemisphere safeguard the tourists' travel pleasure. In our neighbor nation of Mexico, for example, are 39 Chevrolet service stations, as well as some half a hundred General Motors service headquarters. Canada has 425 Chevrolet dealerships plus another 300 G. M. stations where Chevrolet service may be obtained.

"Wherever he goes in the Americas, across peaceful and friendly borders, the tourist can be confident of rapidly-accessible service stations manned by experts fully competent to handle his every service need."

Mr. and Mrs. Clyde Guinn of Midland visited in the home of Mr. and Mrs. Russell Reising.

Would You Like To Lose 15 lbs Fat?

Read this and get Busy
How would you like to safely and harmlessly lose some of that ugly fat in a few weeks? How would you like to lose your double chin and your bulging hips and stomach and along with it get the increase in energy and improvement in health which so often accompanies excess fat reduction?

Get on the scales today and see how much you weigh. Take a half teaspoonful of Kruschen in a glass of hot water every morning to gently activate liver, bowels and kidneys. Cut down your caloric intake. Eat wisely and satisfyingly. Then after 30 days, weigh yourself again and just see if your haven't lost pounds of ugly fat. Refuse imitations. Demand and get the genuine Kruschen made right here in the U. S. A. A jar lasts 4 weeks and costs but a trifle. Money back if not joyfully satisfied.

Big Spring—Largest single marching group in the Youth Americanization parade, a feature of the West Texas Chamber of Commerce convention, May 16, 18, will be Boy Scouts from the Buffalo Trail and neighboring councils. The Scouts' participation is being organized by Spurgeon Gaskin, Buffalo Trail executive, and C. E. Paxton of Sweetwater, council president. Details will be worked out at a conference in Big Spring Monday night, May 6.

The Buffalo Trail council is holding its annual roundup in Big Spring, a two-day affair, May 17-18, the dates coinciding with the W-T-C convention. That will insure the presence of 700 to 1,000 West Texas Scouts in the Americanization parade expressing the convention's theme, the "American Way of Life," and at the Americanization mass meeting following, at which the speaker will be O. H. Benson, national director of rural scouting.

Among the Scout detachments in the parade will be Troop 33, from Rotan (picture above). This troop has a fine record for scouting having topped all A-Class troops at last year's Roundup. It is also outstanding in community service. Its leaders are W. C. Carter, scoutmaster; Boyd E. Powers and J. O. Brown, assistant scoutmasters; L. E. Newton, troop committee chairman; and C. G. Campbell, J. B. Day, Joe E. Boyd, and Lee Martin, troop committeemen.

SHE HAD HER OWN SYSTEM

Churchill Bragaw, a "black-water" fishing fan of Winnabow, North Carolina, who has a large repertoire of equipment, has been biting his nails recently. Bragaw, manager of vast ante-bellum Orton Plantation, delights to go after the big bass in the numerous cypress lakes of the plantation, and until recently held the seasons championship for expert bass fishing.

One of the plantation hands, an old negro mammy, announced she was going up to "de lake to git us a little pan fish for suppah." She carried a cane pole with a small line and a hook, and an hour later she came back with a tow-sack full of large mouth bass, the largest one weighing ten and a half pounds. She said that when the big one got on she just put her pole across her shoulder and walked up the bank with the fish.

More Reporters Are College Trained

Today's composite reporter is 75 per cent college trained, knows a little less about any given subject but boasts a working knowledge on far more subjects than his predecessor, according to P. J. Thompson, chairman of the University of Texas department of journalism.

Weighing his 1940 crop of journalism graduates—some 60 in number—Professor Thompson compared their backgrounds with the knowledge of their editorial forebears. What today's graduate lacks, in depth, Thompson said, is made up in breadth of learning.

The old-time editors were well-informed—a few subjects. Today's college trained journalist has been at least "exposed" to a variety of fields that weren't opened to the old-timers in their composing-room apprenticeship.

"Probably 90 per cent of those entering journalism in 1940 will have college training," Thompson declared, "and perhaps 75 per cent will be products of journalism departments and schools."

In the last 26 years the University department has granted 426 degrees of bachelor of journalism. Fast disappearing is the reporter whose wanderlust and temperamental nature kept him on the move from one newspaper to the other. Thompson pointed out. Main reason for this is that jobs are scarce and social security laws have made newspaper workers reluctant to sacrifice pension reserves they have been building up for retirement, he said.

RURAL SCHOOLS OF COUNTY CLOSING

Rural schools of the county closing this past week were Bartlett, and McCarty. Scheduled to close during the coming week are Mullins, Woody, and Munger.

These schools have all had very successful eight month terms. All schools of the county will close within the next two or three weeks according to Mr. Henry Norris, the county superintendent.

Marie Hoover spent the week end at Odessa visiting friends and relatives.

Laurian Davies of Lubbock spent the week end here visiting with friends.

Three Buildings Will Be Built For Texas U.

Blueprints for three new buildings on the University of Texas campus are in the process of preparation in Dallas and Austin architects' offices. Construction is to start as soon as contracts can be awarded after plans are ready. It has been announced from the office of the Board of Regents.

Contract to draw up architect's plans for the \$400,000 music building to be constructed on the southwest corner of the campus, has been awarded to George L. Dahl, of Dallas. C. H. Page and Son of Austin, architects, received the contract for the chemical engineering and petroleum engineering buildings, each to cost \$200,000.

Paul Cret of Philadelphia is the consulting architect for the three new buildings, having served in that capacity for the University's expansion program since 1930.

Location for the petroleum engineering building has not yet been fixed. The chemical engineering grounds of the present Engineering Building, immediately south of the main structure.

STANDARDIZATION TEST GIVEN TO FOUR SCHOOLS OF COUNTY

Standardization school tests have been given to four schools of the county with very satisfactory results, stated Mr. Henry Norris, county school superintendent. Schools of the county taking the

test were Munger, Woody, Key and McCarty. All grades from these schools were very good. Mr. Norris said, and averages much higher than last year, with scores being higher than most schools in this part of the county.

Next year three other schools of the county, Mt. Olive, Liberty, and Harmony have asked for the test and it is thought that several other schools will also take them.

These standardization tests are made up under the supervision of the State Department of Education and were given at the schools by Mr. Norris, assisted by Mrs. E. E. Wright and Mrs. Dovie Smith.

Mr. and Mrs. Bob Van Wie and Mrs. George Norman spent the week end at Waco visiting with Mr. Van Wie's parents and other relatives and friends.

Miss Bobbie Rawls spent the week end at Christoval where she visited her parents and other relatives and friends.

Mr. and Mrs. Gus Ragsdale and daughter Doris, Mrs. E. Busby and Harry Barrington spent the week end at San Angelo visiting with friends.

Earl Winter Jacobs of Tech, Lubbock, spent the week end here with his parents, Mr. and Mrs. A. E. Jacobs.

Miss Elizabeth Arnett returned Thursday from Charleston, South Carolina, where she has been directing a play for the University there. Miss Olive Meadows spent the week end at Dickens with relatives.

Mrs. Jesse Lewis and little daughter Carol Ann of Los Angeles, Calif. are here visiting in the home of Mr. and Mrs. L. A. Lewis of the Klondike community.

We wish it were possible for us to see every one who visited our store last week end to thank you personally for your patronage and words of congratulations. As this is impossible, won't you please take this as a personal message? Our enlargement celebration exceeded our fondest expectations and we want you to know that we deeply appreciate your making this success possible. FIRST METHODIST CHURCH

E. D. Landreth, Pastor

The First Methodist Church invites you to observe Mother's Day with us. We expect a great crowd at Sunday School and at Church services, when the pastor will bring a special Mother's Day Sermon, and all the music will be arranged accordingly.

Sunday School, 9:45
Morning Worship, 11:00
Young People's Meeting, 7:15
Evening Worship, 8:00

The evening service will be in the nature of an evening of music, in keeping with the observance of National Music Week. Organ numbers, instrumental numbers, and a varied program of vocal numbers will be included in the services. The message of the evening will be brought by the Rev. Rodney Glasscock, who together with his congregation will be guests of the Methodist Church in this service. The subject for the sermon will be "Harpers Harping on their Harps". Various musicians of the community are being invited to participate in this special service. All who will be invited to enjoy this service.

LAMESA HIGH BAND PRESENTS TROPHY TO STUDENT BODY WED.

The Lamesa High School Band, under the direction of Conway King formally presented their Battle of Flowers trophy to the student body. The trophy which was received recently when the band won second place in marching at the Battle of Flowers Tournament in San Antonio, is a cup of beautiful gold, with the inscription, "Battle of Flowers Tournament, 1940". At the conclusion of the presentation the cup was placed among the other cups that the student body has won in the trophy case in the high school auditorium.

LAMESA HIGH ANNUAL BEING DISTRIBUTED TO STUDENT BODY

The El Tornado, 1940 Lamesa High School Annual, is now completed and is being distributed to students of the school. The annual published by the Press Club was under the direction of Mrs. Jack McLaughlin.

The El Tornado is a very well edited book carrying all the high lights of the school year, as well as individual pictures of each class and of the different school organizations. The book, partly mimeographed and partly printed, has over one hundred pages and is bound with an attractive leatherette cover.

BASS JUMPED TO HIS DOOM

Dr. B. B. Harris, of Denton, Texas is still relating, in a somewhat of a disgruntled manner, a fishing experience of last season. He couldn't get a strike on any bait he attempted to tempt the bass with, but came home carrying a 5 1-2 pound member of the finny tribe.

Dr. Harris was casting late one afternoon on an East Texas Lake. His fishing partner was rowing him around the lake and both the anglers got more disgusted as the afternoon progressed with the bass refusing all lures. Suddenly Dr. Harris heard a yell in the back of the boat and looked back to see his fishing mate battling to subdue a huge bass. The big 'un was finally brought under control. It measured 23 inches. A mighty poor way to catch bass - Dr. Harris concludes.

FERRETS HELPING LANDOWNER

Rats got so bad on the plantation of O. H. Vaughn near Queen City, Texas, that he imported two ferrets several months ago and they have done a magnificent job of clearing up the rodents. It is reported to the State Game Department.

Several big barns on Mr. Vaughn's place were so infested with rats that after he had trained the ferrets to catch rodents, as many as five at a time were seen scampering up walls of the barns when the
