County Nixes 50-50 Split

One small section of Corpus Christi Street is causing trouble for both the city and county governments this week.

At the meeting of the Aransas County Commissioners Court Nov. 23, City Secretary Herman Johnson asked the county leaders how much of an expected $31,000 bill they were prepared to pick up. It is estimated that it will cost that and then some to move and encase water lines on Corpus Christi Street in order that the section may become part of a state farm-to-market road.

There are two lines involved that belong to the city and two that are under county jurisdiction. After much discussion, county leaders said that they would pay that part of the bill that applies to the county. This would leave, according to Johnson, between 60 and 70 percent of the total to be paid by the city. Johnson said that having the street was more of an advantage to the county but Commissioner Charlie Hale said that the city would also benefit from the road change.

County Attorney James L. Anderson Jr., at the morning meeting, was sceptical that county money could be used for projects within the city limits. The Commissioners asked him to research the question and give an opinion.

Anderson, when contacted later, said that the Commissioners had already decided not to split the cost with the city and he did not look further into the question.

The Commissioners then took the stand that they would pay their cost and the city would pay its share.

Johnson said he would take the decision back to the city council.

City To Pay Third

At the City Council meeting Monday night, Nov. 28, Corpus Christi Street, the portion between Bronte and Fuqua, was a topic of discussion, as it had been at the Commissioners Court meeting last Wednesday morning.

Herman Johnson, city secretary, recapped to the city fathers that a decision had to be made in regards to the street. He said he had spoken to the County Commissioners and that they, the county leaders, wanted to pay for what the county was responsible for and that the city would pay its own part. Johnson said that the city cost would be approximately one-third of the total of over $31,000. Johnson said, "This will mean a cost to the city of Rockport of about $11,000."

City Alderman Norvell Jackson asked when the work would be started and Johnson said that it would take about two years.

The City Council approved the minute order for the work on Corpus Christi Street.

Editorial
Who Pays How Much?

Careful reading of the actions of the Rockport City Council and the Aransas County Commissioners Court will show a discrepancy in regards to Corpus Christi Street and who is going to pay for what.

At the Monday night meeting of the City Council, the Aldermen were told that the city's share in the project would be approximately one-third of the total cost.

Yet, at the meeting of the Commssioners Court last Wednesday morning, Herman Johnson, city secretary, told the Commissioners that the city share would be 60 to 70 percent of the total and asked the Court to split the cost down the middle.

The minutes of the Commissioners Court meeting shows that, "After due consideration, the Commissioners Court agreed to pay for that portion of removal and encasing water lines outside city limits."

This leads to questions: Why did the City want to split the cost if they knew the greater share would fall to the County? Why, on Tuesday morning, when contacted did two county officials still think that the greater cost will be borne by the city?

While not trying to make a mountain out of a molehill over what may just be a simple misunderstanding, the questions still need to be resolved and all confusion eliminated.

For Corpus Christi Street to be a Farm-to Market Road is a good idea. No one objects to that. The question is, why are there questions about a simple transaction?

Beatrice and Norm Hollingshead

In A Sailboat
Adventure Is 5,000 Miles

If anyone thinks the spirit of adventure is dead and that people p efer the staid existence of their living room and the television set, then they should probably stay away from Norm and Beatrice Hollingshead, who are providing a great example that the human spirit is not complacent, much less dead.

For right now and just a few days more, the Canadian couple have their sail boat tied to the Rockport Harbor dock and enjoying time on solid terra firma. They left Toronto, Canada, a year ago this past September, sailed down to Florida and stayed there for three months. Then they went on to the Bahama Islands for a few weeks and then back into the Gulf of Mexico.

Now a lot of people in Rockport wouldn't think anything at all about such a trip. To some with a lot of seatime under their belts, it might even seem rather mundane, but this is the Hollingsheads' very first trip on their very first boat.

"We had been out with some friends for afternoon outings before," Norm said, "but we had never owned or sailed a

Evil Companions To Rally

The "Evil Companions" are quietly at work in Rockport. They are planning for a quiet invasion of this area Dec. 2 through 4 and the scene of the activities will be centered around the Rockport Beach.

The term, "Evil Companions," sounds like something mothers warn their children against. However, these companions are up to nothing but good as they prepare for the December Lone Star Rally of the Family Motor Coach Association (FMCA).

Two of the "Evil Companions" are Dar and Trulie Elder who have been wagon masters for this group since 1956. "This is a national organization of people who own motor coaches and who like to get together for the fun and fellowship involved," Elder explained.

"Four or five times a year, we all get together at different locations to visit and see a different part of the state or nation," he continued.

According to Elder, the Rockport rally will have about 70 coaches in town for the weekend and this will mean about 200 people. "We are getting the reservations now but we never know exactly how many to expect until they all get here," he said.

The Elders have planned a full schedule for their friends in the Lone Star chapter. This group is one of three chapters in the state of Texas. The other two are "The Outlaws" and the "Winter Texans."

Altogether, according to the Elders, there are about 26,000 members nationally. "We had over 3,000 coaches at the national meeting in Syracuse, N.Y., and more are expected at

People Key To Problems Resident Learns

"If anything is to be done about the government and the solving of problems facing this country, I guess it's going to be up to individuals once again becoming involved with their own government."

If this sounds like someone running for public office, guess again. The speaker is Mrs. Molly Freeborn, talking about her recent trip to Austin for a symposium on government.

Mrs. Freeborn attended the program at the University of Texas on Nov. 15 through 17 because, as she said, "I just decided to go because I have recently become very interested in politics and what ordinary citizens can do."

"After all," she continued, "politics is the name of the game and if we are to find answers to the questions facing our nation, we have to know how the game works and what we can do as citizens."

The symposium was sponsored by the Lyndon B. Johnson School of Public Affairs and the Lydon Baines Johnson Library in cooperation with the United States Department of Government and was entitled "The Presidency and the Congress: A Shifting Balance of Power?"

According to Mrs. Freeborn, the question mark in the program title is a very real thing. "We were told by the panelists that power in this country is shifting back now to the Congress--the days of a strong president were over, at least for a while.

"And if Congress is beginning to have more power, the representatives are beginning to feel that they are "ombudsmen" for the people. They want to know what their constituents feel and think about specific issues," Mrs. Freeborn noted.

The idea of an ombudsman is a relatively new one to the United States though several European countries have had them for years. An ombudsman represents the people, not a party or the government.

Some of the people at the conference were Elspeth Rostow, dean of the Lyndon B. Johnson School of Public Affairs; Mrs. Lindy Boggs, United States Representative from Louisiana and widow of the late Hale Boggs; Margaret Chase Smith, former senator from Maine; Carl Albert, former Speaker of the House of Representatives; John Tower, U.S. Senator from Texas; and Sid Davis, director of news for the National Broadcasting Co. (NBC).

"Bill Moyers, newsman and former assistant to Lyndon Johnson, was also there," Mrs. Freeborn said, "and he said that the shift in power from the President to Congress was caused by the personalities of the President and the Congressional leaders, the times we live in and the moods of the public."

According to Mrs. Freeborn, there was some comment on the issue most Americans are concerned with--the energy crisis. "Senator Tower is concerned about keeping Texas fuel in Texas and with the price differential involved," she said.

"He pointed out that Texans pay twice as much for Texas natural gas as people do in other states who have it shipped in and Mrs. Boggs said it was the same in Louisiana," Mrs. Freeborn continued.

"I thoroughly enjoyed the conference and I intend to do something with what I learned. I mean to become more involved and do whatever I can at the grass roots level. I also intend to stay informed and this is what the elected people at the conference said they wanted. They wanted to know what people thought and they wanted to represent their people back home," she said.

On the idea of staying informed, Mrs. Freeborn also pointed out that the media journalists at the symposium had said how hard it was to get to the truth and find out what was going on in government.

"At any rate," she continued, "I do want to stay involved and be active in government."

Mrs. Freeborn recently joined the Democratic Women's Club and attended the state conference at El Paso.

"One often hears that the ordinary citizen can't do anything about the government," Mrs. Freeborn noted. "I came away from the symposium realizing that a lot could be done and most people just use the ordinary citizen idea as an excuse for apathy. If this country's problems are going to be solved, it's going to take all of us working together."

Rally

(Continued from page 1)

the winter rally to be held in February in Tampa, Florida.

On Friday, the rally will be opened with coffee and doughnuts by the Red Carpet committee of the Rockport Chamber of Commerce. The rest of the day will be devoted to getting acquainted with the town and area. The Elders prepared and sent a newsletter to all members about the places to go and the things to do locally. Friday night will be occupied with a shrimp boil and contests.

The business meeting for the rally will be conducted Saturday morning with dinner and bingo planned at the Sandollar Restaurant for that night.

Sunday morning will feature a devotional meeting before the end of the rally.

"We have had real good cooperation from the Navigation District, city officials, CP&L, and the Chamber of Commerce," Elder noted. "Something like this is good for Rockport because it brings money into the town and these people are able to tell others about Rockport."

Women's Committee Pledges $50,000

As part of the fund drive to match the Sid Richardson grant to the Aransas County Medical Services Inc., the Women's Committee of that organization has pledged $50,000 over the next three years.

The announcement was made at the luncheon meeting of the committee last Friday. President Thyna Russell said that the group felt that this was a conservative amount in comparison to funds already raised.

Cam Leonard and John Mitchell, steering committee co-chairmen, also showed the women the preliminary drawings for the emergency clinic. Leonard told the group that the steering committee wanted to avail every person with the opportunity to be a part of making the clinic a reality.

Also included in the program was a film on the cardiopulmonary resuscitation (CPR) technique and a demonstration by Iris Jenkins.

In other business, the women heard a report from Pat Evers on the ticket sales for the painting. The group also heard a progress report on the auction planned for early spring.

There will be no December meeting of the association and meetings will be resumed on the third Friday in January.

County

(Continued from page 1)

In other business, the Commissioners opened bids for three new patrol cars for the Sheriff's Department. Commercial Motors in Aransas Pass had the low bid of $12,300. Bradford Pontiac and Friendly Chrysler-Plymouth also bid on the vehicles.

Harlan Heitkamp, representing Maverick Engineering, received preliminary approval for a development project on Egret Island, just at the edge of the county.

Judge John Wendell and Commissioner Ray Longino pointed out several problems in the area, notably a water and drainage situation that the developers would face.

Judge Wendell said, "There is a drainage problem there;" to which Heitkamp replied, "We are finding that out."

A new contract was signed by the commissioners that would give the county advantage in buying rights of way for the proposed relocation of Highway 35. In the previous contract, the county would have paid 50 percent of the cost. Now the county will only have to come up with 10 percent.

The first contract was signed in 1974, but according to Judge Wendell, the project has been in the discussion stage for over 10 years.

The Scene From Austin And Wharf

MONTANA DEDMAN, AND THAT IS HIS REAL NAME, departed Rockport nearly two months ago. With his wife and two daughters, he sailed away in "Madam Moselle," a wooden hull, 40-foot sloop, built by Sparkman and Stephens in 1936. No fanfare. He left a note stuffed into the hatch of a friend's boat: "Left for East Coast. Will send you a letter enroute, Monty." Since then no one in the Rockport sailing fraternity has heard from him, at least not to my knowledge. By the same token, none are worried. One fine day there will come a hastily scrawled note.

I remember the dirty, wet, cold day Monty brought "Madam Moselle" into Fulton Harbor. She was dirty, neglected, certainly no ship one could fancy a wife and two daughters accepting as "home."

But that's without knowing Montana Dedman. He is a chap who can do things with his hands. I popped aboard to visit and interrupt his work through the cold winter, spring and sultry summer. On cold days he invited me to "splice the main brace"--coffee and rum.

Below decks, the boat was all but gutted, then repainted. By late spring she began to shine. Sparkling white sides, glistening varnish work. Home!

ON LAZY DAYS THOSE OF US WHO LOVE THE SEA prowl the waterfront. Easily I might use all and more of the space allotted this column were I to name the sailing yachts that have made Rockport a port of call within the past year, even describe the sagas of many local craft.

While Monty was refurbishing "Madam Moselle," Jack Erlich was virtually rebuilding "Nymph," a 1913 vintage yawl which belongs to Phil Price of Bayside. You may have seen her. For more than half a dozen years she lay at Fulton, the caulking beginning to pop from the seams of her black hull. She was built on the West Coast where she was successfully raced for many years. Eventually she found her way to the Caribbean and then to Port Aransas where she was seized by the U.S. Customs who had been tipped of to her cargo of marijuana. Price bought her at auction about a year later. I had the pleasure of crewing aboard her some weeks ago when she was at last relaunched. A ship to sail the world and one must hope that she someday will. She is no boat for these shallow bays.

ALL BUT UNKNOWN, EXCEPT TO ROCKPORT "RAG Sailors," is "Karma," a 27-foot Bristol. Her owner, Park Gerdine and his son, Warren, satisfied a dream. A year ago they sailed across the Gulf and up the Atlantic Seaboard. "Karma" was in Newport when the Tall Ships arrived from Bermuda, in New York on the Fourth of July, when the magnificent fleet sailed past the Statue of Liberty. To the best of my knowledge, the Gerdines are the only Texans to sail those thousands of miles to witness that splendid, and probably never to be repeated, parade.

PRESENTLY IN PORT THERE IS A BEARDED college professor, Charlie Brown, and his wife Eleanor. Arriving from Mobile they earlier sailed their Danish-built 27-foot sloop across the Atlantic. And before that, they cruised the canals of Europe--Belgium, France, Holland. On, on and on I might go, but by now you will perhaps believe me, there is life on the waterfront. Here I have told you about four boats and the tale about any one of them is not one-tenth told.

SAIL ON ARANSAS BAY IS NO NEW THING. NEEDless to say, canvas was here before the powered commercial and sports fishermen which greatly outnumber sailing craft today. It was under sail that the Irish empresarios brought the colonists to the Coastal Bend and it was they and their children who became the "Horse Marines" as Texas sought independence from Mexico. It's a dashing tale of Irish colonists who on their native heath grew up close to the sea, but coming to Texas, became more accustomed to the saddle.

Briefly a ruse. They lured ashore the crew of a Mexican ship grounded in Copano Bay and captured them. Then disguised in uniforms captured from the natives, they boarded and captured two more Mexcian ships. And so they have come down in history as the "Horse Marines." -- a.h.a.b.

Copano Cove

Jerry and Roger Larimore

We missed you last week. The Thanksgiving rush caught us by surprise. We are down to only five kids again; maybe that will help us to stay caught up.

The Copano Cove Fire Department held a special meeting on Nov. 21 to approve purchase of a pump for the truck. The pump is on order now. Soon we'll we in the fire fighting business.

Some discussion about our stolen street sign posts sprung up. Most of us are hopping mad about it. Due to the lack of street signs in our neighborhood, the fire department decided several months ago to begin a street sign project. The same week that the posts were put in the ground near the street corners, someone ripped them up and took them. Some members think they know who it was but there were no eyewitnesses. To that individual who took the posts we have a message. If you bring the posts back, no one will say or do anything about your stealing them. We'll let you off this time if you make restitution.

To anyone thinking about vandalism in the Copano Cove area, we have a message for you, too. The Fire Department will offer a $100 reward for any information leading to the arrest and conviction of vandals. We mean business!

Aside from vandalism and street signs, I have always been irritated by people who like to leave their unwanted pets here. If you think that the residents of Copano Cove will take your unwanted dog into their home as a pet, you better think again. Your dumped out pet will go to the dog pound.

If a person litters our community, someone will search through the trash to find evidence of the source. You will find your trash in your own front yard. Copano Cove will be respected.

The Fire Department will have a bake sale on Dec. 3 by the H.E.B. in Rockport. Mrs. Rheinlaender, Mrs. Barlass and Mrs. Baxley are on the committee for the sale. Donations for the sale are needed. You can give by coming by the store or contacting one of the three ladies who are on the committee.

We traveled to Mathis for our Thanksgiving weekend to the home of Mr. and Mrs. Roy Hooper.

Jimmy and Helen Chittenden and children were in Divine, Texas, over the weekend. George and Kay Snapp were in Palacious visiting relatives on Thanksgiving.

Birdays: Reiko Lytle, Linda Daly.

Anniversary: James and Barbara Tumlinson.

$7,500 for the machinery. J.C. Gurley informed council members that the amount budgeted for the machine was $7,000. Mayor Walter Falk noted that was a pretty fair guess.

The city had also invited bids on a used copy machine since the Council had voted and accepted bids on a new one. The three bids entered were for $226, $227 and $228. The high bid was accepted.

Other items of business were tabled until the next meeting because the city leaders wanted more information before taking conclusive action.

Martinez Launches New Shrimp Trawler

A new shrimp trawler, the "Three Brothers," was christened Nov. 16. The new trawler is owned by Mr. and Mrs. Lupe Martinez of Rockport and Mrs. Martinez broke the traditional bottle of champagne across the bow of the boat, named in honor of the Martinez' sons.

The blessing of the trawler was offered by Rev. Boyce Laqua, also of Rockport.

The trawler was designed and built by Rockport Yacht and Supply Co. and measures 75 feet long. The boat is steel and powered by a diesel main engine and is four-rigged for commercial fishing in the Gulf of Mexico.

Operating out of the Casterline Fish Co. of Fulton, the shrimper will be captained by Johnny Matt, also of Rockport.

A reception followed the ceremony and shrimp was served in the galley of the new boat.

According to Heasley, the Club has some specific instances to cite.

"For instance," Heasley noted, "when we had parent's night, we were told that the parents couldn't walk across the field. When I asked why, they (the parents) could at Refugio, I was told that Refugio was in a different district.

"So we wanted to go by the rule book and we just had our parents stand on the sideline when they were introduced.

"However, at the Calallen game, the parents walked across the field and Calallen is in our district. I just want to know why they could and we couldn't."

Continuing, Heasley also noted the problem with the victory line at each football game. "That first time, I thought everything was settled about which end of the field we would be on. Evidently Joe Randow changed the decision and he wanted the line formed at the opposite end. We couldn't notify everyone and it made a lot of people look pretty silly to be at one end and the team running on the field from the other endzone."

"A lot of us would also like to know why the cheerleaders haven't gotten their new pompons yet," Heasley said.

According to Heasley, the Booster Club gave the cheerleaders a quantity of tickets to the Club Fish Fry held in September and the girls netted enough to buy the cheering accessories. "They still don't have them and the football season is over," he remarked.

Going on, Heasley also said he is curious why the pep squad still doesn't have an identifying uniform. "We went to the school board and offered $500 for a vest or sash or something for the girls to wear. We were told that the school would furnish something for the pep squad and we're still waiting for the school."

The latest incident on Heasley's list concerns a sign to put in front of the gym. "It's just a simple sign with the team name and a place to insert the name of the week's opponent," he remarked. "When the idea was brought up six weeks ago, no one at the school had any objection. Last week when I went to put it up, I was told I couldn't because the school did not have a policy on signs. Evidently they decided to get one in a hurry because they called me the next morning and told me I could go ahead."

"You know," he went on, "the idea of a Booster Club is to help. Look at the size of our high school squad. We don't have enough boys coming out to play. There are a lot of them in junior high. What happens when they get to high school?"

Continuing, Heasley said, "We could do a lot for the spirit at the school and for our children if we received cooperation and support from the Board and Mr. Randow. They are hiding behind a rule book when there is no rulebook and a lot of us would just like to know why."

Craigmile Rushed To Hospital

Chief of Police James Craigmile was rushed to Spohn Hospital in Corpus Christi Monday afternoon after complaining of chest pains.

Craigmile, 46, had been to a conference Monday morning and had returned to his office in distress. After a check by Paramedic Bill Aston, he was taken to the hospital by ambulance.

Reports from department spokesmen on Tuesday indicated that Craigmile was undergoing tests at the hospital and was considered to be in good condition.

Craigmile assumed responsibility of the Rockport Police Department in 1971.

District Seeks Corps Extension

The Aransas County Navigation District has made application to the Army Corps of Engineers for a permit to maintenance dredge the existing channel at the entrance to Little Bay.

"What we want," said Bernie DeForest, harbormaster, "is an extension on an old permit that goes back to 1973. This is work that needs to be done from time to time as the silt accumulates at the entrance."

DeForest said he expected no problem with the application and that the district would proceed with the work after the prescribed waiting period.

CHECK YOUR THEFT COVERAGE

Most versions of Homeowner policies limit theft coverage on Unscheduled personal property to $500 in total for the loss of jewelry, gems, gold, platinum and furs.

To determine if this is adequate coverage in your case, examine your policy to see precisely what is covered, under what conditions and for how much. [Some may vary above or below the standard $500.]

The next step should be to place a value on all of your valuables and particularly those items subject to fairly easy theft. Appraisals for jewelry should be made by a certified gemologist, stating the clarity, color and weight of stone involved. Appraisal for most other items are obtainable through professionals.

The last step is to specifically insure ["schedule"] the more valuable pieces, and leave the $500 aggregate to cover the less valuable items.

The two means of purchasing additional insurance are with an endorsement to your Homeowners policy or a separate Personal Articles Floater policy.

The Fund United...

A great idea, one fund-raising event each year for many local charities, and most of the time, thanks to you, it works. However, this year contributions are not being received in sufficient amounts to fund the needs of Aransas County.

In fact, the total contributions received so far this year are running more than a month behind last year's mark.

We encourage each of you to give concerned consideration to this problem and give to the fund or if you have already given, consider giving a little more.

To Letter Writers

Perhaps the best column read in any newspaper is the "Letters to the Editor" and The Pilot's column is no exception. We encourage our subscribers to use this important column whenever you have something important to say about our community. We do have a few simple rules which we request of you when submitting letters to The Pilot. First, the Editor reserves the right to edit letters for excessive length or expression. If possible, a typed letter is preferred and all letters must be signed and a phone number given by the person submitting the letter. The Pilot will hlep you have your say without rebuttal unless the letter contains an obvious mistake, which the editors would correct. The name of the person writing the letter will be included at the end of his letter. After all, it is just as important to know who is making the comment as well as the quality of what is being said.

Survey Tally Told

In looking over the results of last month's readership survey (which can be found below) several interesting bits of information concerning readers' habits have come to our attention. As we indicated last week, The Pilot is planning to make several changes in the news content in coming weeks. Most of these changes have been influenced by our readers and we encourage you to pass along any other additions you wish, addressed to Publisher, The Rockport Pilot, 1002 Wharf Street, Rockport, Texas. Thanks to you who cooperated with the survey...we hope you like the changes.

THANKSGIVING

What did it mean to you?

Did you really stop and think about all the things you were thankful for? Did you stop before devouring the turkey and all its trimmings to say a word of thanks at the table to the real provider?

It's not too late to start counting your blessings--and say thanks at every meal. You are aware, as well I am, that all the good things in life come from a power greater than you and I possess.

The older I get, the more I realize that, no matter how I plan, someone grater than I really pulls the strings of my life and dictates my paths. If this idea has not struck you, just sit and meditate on it--look backwards on your life and see how few things have happened to you--that you can take credit for.

Now let's list a few of the things right here in Rockport that we are all thankful for:

(1) Let's start with weather--We did not have a hurricane, or even a serious threat. The weather has been beautiful this past week or so. No excess rain or cold. Aren't you glad you are here? No snow or ice.

(2) We have a good health clinic--Region 10 of State Dept. of Public Health, maintain a registered nurse and several aides there. They can test you free for everything from blood pressure to pap test. Sandra Garrett, RN, is its supervisor. Call her at 729-0312 and make an appointment. It's where some of your tax money goes--so use it. Located at 310 N. Pearl St.

(3) Most of us are in reasonably good health--some are not so fortunate--but we are close to some of the best doctors and hospitals in the state.

(4) But, in case of trouble, we have the best ambulance service in South Texas. Bill Aston, and his crew of well-trained paramedics, are on 24-hour call. It's exciting how quickly they can reach you after calling 729-2222. A campaign is now underway to build a modern health facility. We need it sorely--so dig deep when called on. We must raise $250,000 to match like amount given by Sid Richarson Foundation.

(5) You only had to give one hour of your time last Tuesday evening when all the churches--all faiths, all ministers--gathered at the United Methodist Church for a Unified Thanksgiving Service. You were the loser if you did not attend. It proved that Rockport is a church town--led by a very devout group of ministers. If you are neglecting this side of your life, I recommend you turn over a new leaf. Support the church of your choice by your presence and money. Just try and imagine Rockport churchless. Don't think you would want to live here then.

(6) Friends. One of the reasons you live here is your friends. Remove them and it would be a poor place to live. I love my friends and I think they love me. How about it, Friend?

ADVICE

Easily administered--but usually taken with a grain of salt--if ever. I realize when I read back over this column, I have been rather free in passing out advice. What right do I have to do so? Well, it's one of those things usually allowed to a person who has lived beyond the allotted three score and ten years.

One who has lived a good long life and does, at times, look backward and see where he has failed. So, now he shouts advice. Did you ever pay attention when, as a teenager, your parents attempted to ADVISE YOU? No, I am sure you did not. Neither did I and I bet you a wooden nickel (I have one) you pay as much attention to my advice as you did as a teenager. Anyhow, the Maestro has spoken. You re the winner or loser--not me--if you fail to accept ADVICE.

UNITED FUND

Only $11,255 raised to date.

Why--because you have not turned in your pledge or cash. It's that simple.

One of the recipients of the United Fund is the ARANSAS COUNTY COUNCIL ON AGING--Yes, $1,000 was allotted to it to supplement its meager income from county and state funds. They need every dollar of it.

It has just moved its office into a new and larger quarters at 122 N. Magnolia. Mrs. Peg Boone is its Director and only staff member. All of the rest of the activities are handled by volunteers. It can now do a much better job for Rockport's senior citizens.

In the first seven months of 1977, the following services were rendered to senior citizens of Aransas County:

We provided for a total of 2,085 calls for transportation. This was for medical--to doctors in Aransas Pass, Ingleside and Corpus Christi--shopping, banking, bill paying, etc.

Information and referral for the elderly is provided also and we had 296 calls for this service.

Telephone reassurance (Dial-A-Care) is a program for those living alone, those disabled, for older couples, for those that have a need to communicate with other people because of loneliness or a handicap. We have from 20 to 25 that call in every day or we call them if they request it.

We have made a total of 101 home visits and have helped with 44 forms (Social Security, SSI, food stamp applications, insurance, Medicare, etc.).

We have helped secure clothing for 20 persons, helped get beds, blankets, stoves, refrigerators and numerous items for the needy. This has been a busy seven months, states Mr. Neil Gage, director during that time.

Where can you better invest some of your money?

Presbyterians To Dedicate Windows

On Sunday, Dec. 4, the Rockport Presbyterian congregation will dedicate the sanctuary windows as part of the morning worship at 11:00 a.m. These windows, in the sanctuary of the First Presbyterian Church, located at Live Oak and Laurel Streets, have been financed through the church's Memorial Fund, representing many gifts in memory of over 70 loved ones and as living memorials to several others, according to John R. Bradshaw, pastor.

"These memorial windows attempt to tell a story," Bradshaw said. Continuing, he noted that they were designed in colorful one-inch thick faceted art glass, combining a modern technique in the working of glass and epoxy with traditional themes rooted in fundamental biblical teachings, a happy merger suitable to the First Presbyterian Church and her congregation.

The new windows on the west side of the sanctuary feature themes from the Old Testament, moving more or less chonologically from the back of the knave toward the chancel.

The windows on the east, where they will catch the morning sun, depict themes from the New Testament, also beginning at the back and moving to the front.

According to the pastor, the Old Testament windows are tied together by the use of the ancient Jewish symbol of the Star of David in the top arch of each window, reminding the worshipers of their heritage in the Jewish faith.

The New Testament windows are united by the use of one of the oldest Christian symbols in the top arches, that of the Fish, or ICHTHUS, a Greek word containing in order the first letters of the phrase, "Jesus Christ, Son of God, Saviour," said Bradshaw.

"The Memorial Window Committee has attempted to cover the scope of the Christian faith and the Holy Scriptures from Genesis through Revelation as completely as was possible using only eight windows," Bradshaw commented.

Members of that committee are Mrs. N.F. Jackson, Sr. Chairman, John P. Jackson, Tommy Griffith, Floyd Smith and Bradshaw. "Truly a labor of love this committee has sought to design and utilize the sanctuary memorial windows to enhance the worshipful atmosphere of the First Presbyterian sanctuary," Bradshaw continued.

"The community, our area winter visitors, and Presbyterian members are cordially invited and will be welcome to attend and participate in the dedication of these windows Sunday, Dec. 4, at 11:00 a.m., in the sanctuary of the First Presbyterian Church, Live Oak and Laurel Streets," he concluded.

Aston Explains Emergency Law

Area and local law enforcement authorities are stepping up their vigilance on ticketing drivers who refuse to yield right of way to emergency vehicles, according to Bill Aston, Aransas County Paramedic.

Aston said that apparently some area drivers are not aware of the law when emergency vehicles are in traffic.

"If a person sees an ambulance or other emergency vehicle, the person is to pull off the road to the right and stay there as long as the emergency vehicle is in view," Aston said. "Also," he continued, "it doesn't matter if the vehicle is on your side of the road or not. You have to get off."

Aston cited two instances recently. One, according to him, occurred in Rockport and one in Gregory Monday afternoon when the Aransas crew was on a run to Corpus Christi.

"We are getting the license numbers and we are filing charges against these people," Aston said. He continued, "It's bad enough when we have someone on the run whose life is hanging in the balance. Add to that the fact that our lives also are being put on the line just because people either don't know the law or don't care."

Litter Bags Available From Bank

As a local contribution to the continuing nationwide campaign to reduce litter, First National Bank of Rockport is distributing plastic litter bags for automobiles and trucks.

Distribution of similar bags several years ago proved to be quite popular, bank officials said, adding that a recent informal survey indicated that most motorists no longer have litter bags and would welcome the opportunity to obtain them at this time.

The bags are imprinted with the nationally used "Pitch In" caption. They can be obtained at First National Bank teller windows in the lobby and at motor banking lanes.

Library News

"What Are Libraries Made Of?" is the title of a film presentation now available through the library to residents of Rockport who want to learn more about the Aransas County Public Library. "The film is only five minutes long, but gives basic information about what the library has to offer," says Eunice E. Hamon, librarian.

Aransas County Public Library is a member of the South Texas Library System which covers 26 counties in South Texas. Mrs. Hamon said, "Being a member of this system means that the library and residents of Aransas County have access to many resources not available locally."

Some of these resources include a 16 mm film collection of over 800 films ranging in topics from Disney to drug abuse; an information service that provides answers to many questions that cannot be answered with local resources; and a service that allows the Aransas County Public Library to borrow books and materials from other libraries throughout Texas. As with other library services, there is no direct charge to the user.

Mrs. Hamon stated that any group or organization that would like to know more about library services should contact the library at 729-2390. A representative from the library will be available to show the new film and talk about the library for any group meeting.

Thieves Use Master Key At Laundry

Sometime between Nov. 27 and the early morning hours of Nov. 28, the B&I Laundry and Cleaners was robbed of between $330 and $385.

Iris Pendley called the police to investigate the incident. The officer's report said that the coin boxes on the commercial dryers had evidently been unlocked with a master key and robbed of the contents. The report also indicated that entrance to the building was obtained with a master key.

The case is still under investigation.

Two Wrecks Reported By City Police

Two accidents and a burglary kept the Rockport City Police busy this past week. In an accident at Market and Bronte, witnesses said that a car driven by Cynthia Simmons of Aransas Pass ran the red light at the intersection and hit a car driven by Victor Herrera of Rockport. The accident happened Nov. 27.

At the intersection of East Market and South Church Streets, a car driven by Gary Waithe of Rockport allegedly hit the vehicle driven by Ricardo Iniquez, also of Rockport. The accident was reported on Nov. 24 and investigated by city police.

VFW Gives Money For Projects

The Stewart-Wendell V.F.W. Post 3904 held its regular meeting Nov. 21. Robert Tillison, Senior Vice-President, presided in the absence of Commander Paul Taylor.

District VI Commander Jim Cass and Shelly Williams of Ingleside attended. Cass made his official inspection of the Post.

There are 203 paid members to date for 1977-78. The quota is 226.

Under new business, the Post voted to give $500 to the Aransas County Ambulance Fund. They gave $200 to St. Vincent de Paul Society to purchase Christmas food baskets for families in need.

Fifty dollars will be given to the Fulton Cemetery Fund and $50 to the Lamar Cemetery. The Post pays $50 each month on the water bill at the Rockport Cemetery.

Pete Ramirez, who works with Explorer Scout Troop 49, cited their request for shirts. The Post voted to purchase 30 shirts. These are to be worn to out-of-town tournaments.

Bill Aston, Paramedic, will be invited to attend the Dec. 19 meeting to explain the ambulance service to the members.

One of the Post's projects is to purchase and give the American flag to organizations.

On Nov. 23, Mrs. J.W. Hunt and Mrs. Charlie Garrett attended the Girl Scout Troop 517 meeting. Mrs. Jan Cosby is the leader.

Mrs. Hunt, Patriotic Instructor in the V.F.W. Auxiliary, presented a three by five foot flag to the troop and also folders on the origin, care and use of the flag.

Garden Club Given Honor Certificate

The November meeting of the Rockport Home and Garden Club was held Thursday, Nov. 10, at the home of Mrs. Joe Meyer, with Mrs. Otto Brueggeman as co-hostess.

During the business meeting, reports on the various activities were discussed.

The condition of the Bay Front planting and the Triangle planting were discussed, insasmuch as this is a continuing project and one the members contribute a lot of time and effort to for the benefit of the community at large.

The Certificate for the Nature Conservancy was displayed.

The local Garden Club received this in acknowledgement of their participation in a project which Garden Clubs are working for--the preservation of lands in their primitive and natural states.

The club is working on ways and means of providing a lighted Christmas tree for the bay front during the coming holidays and a progress report on this plan and additional details were discussed.

A report was also given on the tour the members took through the Pearson Nursery.

Mrs. M.C. Baird, who is a Master National Flower Show Judge and a member of the Corpus Christi Judges Forum, gave the program on the fundamentals of flower show arranging, outlining the use and proper handling of containers and the use of various materials for arrangements.

Decor Tips Given By Club Members

"I use only what I have at hand," Linda Bechtel said when she started to demonstrate making holiday arrangements as part of the program at a meeting of the Key Allegro Garden Club last Monday. "And I do things quickly. If it's an arrangement I can't make quickly, I'm not interested in making it."

She then stuck cut marigolds and orange cape honeysuckle into a scooped out fresh pumpkin shell to make a colorful, decorative centerpiece for any of the fall holidays.

In another demonstration, Mildred Crites stuck polished, red apples into a Christmas tree-shaped styrofoam cone to make a solid apple tree; decorated the tree with yellow chrysanthemums and sprigs of jasmine and surrounded the base with cuttings from a Norfold Island pine.

"My children can eat most of the apples in about four days and anyone can make apple pies or applesauce with the rest," she said.

Making tree ornaments was one of Joan Allee's and Katherine Baird's demonstrations. Allee showed, among a number of other hand crafted designs, lacey quilled paper stars in various colors and told how to make them. Baird's forte was hanging ornaments in ball and fruit shapes decorated with ribbons, felts, cameos and sequins.

The program had been arranged by Gen Bailey and Pat Evers, co-chairmen. Reba Rast and Jo Ann Sanders were hostesses.

In a business session, members elected to re-arrange some plantings in the cul-de-sac at Flamingo and Bayshore to avoid a traffic hazard and to start work on two cul-de-sacs on Blue Heron Drive with proceeds from the November barbecue.

I see a trend back to the basics of education. There is a greater concentration being applied to the basics and this is good because other types of learning are dependent on the basic foundation. **FAMILY:** Husband, Russ, son, Wes, 13. **PROFESSIONAL MEMBERSHIPS:** American Association of University Professors, International Reading Association and Alpha Delta Kappa, among others.

REACT To Develop Training Program

Jerald Owens, president of the Aransas County REACT Team, has announced the award of a contract to REACT International, Inc. headquartered in Chicago, Illinois, by the U.S. Department of Transportation, National Highway Traffic Safety Administration.

Under the contract, REACT will develop a training program for monitors of CB emergency channel 9. This is intended for use by public safety officers and volunteers participating in NHTSA's NEAR (National Emergency Aid Radio) program.

The NEAR program utilizes Federal Highway Safety Funds available to each state for the purchase of CB radios by state and local authorities. It specifies that police and other agencies involved in highway safety coordinate their efforts with volunteer organizations such as REACT.

REACT International is considered highly qualified, according to Owens, to produce the training program because it is the largest and oldest CB emergency organization and the most experienced national organization using CB for highway safety.

Its members, such as the local Aransas County REACT team, utilize common monitoring procedures. REACT has had a long history of cooperation with law enforcement organizations.

Mr. Owens stated, "We are very proud of our affiliation with REACT International. This clearly verifies REACT's role as a leader in the use of CB for highway safety purposes. It verifies and recognizes the outstanding job being done by REACT here in Aransas County and REACT teams everywhere for over 15 years."

Since Aransas County REACT was founded in November, 1976, organization members have had two Safety Coffee Breaks, lasting 72 hours each time. The team started out monitoring 24 hours a day, but the Sheriff's Office now monitors the early morning hours after 1:00 a.m.

In spite of the loss of quite a few monitors who moved away the team still manages to monitor 19 and 20 hours a day, Owens said. This places a heavy load on a small team, he added.

DINING OUT GUIDE

Breakfast, Sandwich Style, Featured At Marina

A new habit is beginning to take hold in the Rockport-Fulton area and like all habits, once it starts, it's going to be hard to break.

Unlike some habits, this one is good for you and it's called Tony's Taquitoes. It is a scrambled egg, hash browns and a choice of ham, sausage or charizo--all wrapped in a warm tortilla. A complete breakfast in one package that's bound to hit the spot anytime.

The place to go is the Key Allegro Marina and the person who puts it all together is Tony Dominguez. Tony also has a fine hand for homemade rolls and doughnuts, if lighter fare is your choice.

In the way of breakfast, Key Allegro Marina also offers omelets, hotcakes, bacon and eggs and other traditional items. The coffee pot is never empty and the hot brew is a great way to start the day.

Key Allegro Marina also serves through the lunch hour and it's really a mid-day tranquilizer to sit and look out the plate glass windows and watch the blue sky and the lapping waters touched by the white sails and harbored boats.

With the great view, the Marina has a fine luncheon menu. It's hard to say which Tony makes better, a corn chip pie or enchiladas. Either way, you can't go wrong. The corn chip pie is a meal in itself with good chili, cheese, lettuce and tomatoes. One of the owners of the Marina, Jerry Starr, says that it's a hardput job to finish the plate of enchiladas that the restaurant serves. For the extra touch, Tony's homemade sauce is a delightful condiment with real south-of-the-border flavor.

Other luncheon items include sandwiches, hamburgers, soup and a variety of side orders.

The Marina is open seven days a week from 7:00 a.m. to 2:00 p.m. The dress is casual and the food is good. The service is unique in that when you place your order, the staff puts your name on the ticket and brings your order to the table. "In that way," said the other owner of the Marina, Russ Wilhour, "we also get to know our customers very quickly by name and make them feel welcome."

The welcome is genuine, the food is good, and the view is scenic and the service is fast--what else could you ask? Whether you want breakfast, lunch or 50 sandwiches to go, if you're going on an early fishing or hunting trip, try the Key Allegro Marina and be sure to say hello to Tony.

Tennis News

Nineteen members of the Rockport Racquet and Yacht Club played tennis matches with members of clubs in Nuevo Laredo, Mexico, and Laredo, Texas, the weekend of Nov. 18 and 19, making the trip in private automobiles.

The group left Rockport Friday afternoon and returned late Sunday. The expedition to Mexico was organized and directed by Paul Snodgres, Racquet Club professional who is acquainted with tennis in Mexico on a first hand basis, having played in numerous tournaments in that country.

No tally was kept as to how many matches were won by Rockport players, but Snodgres estimated that approximately 40 percent of the singles and doubles matches went to players from this city. He explained that the meet was not a tournament but merely a series of friendly matches.

On the trip to the two Laredos were Mr. and Mrs. Dewey Lingo, Mrs. Elizabeth Smith, Mr. and Mrs. Bill Branigan, Mr. and Mrs. Fred Bennett, Mrs. Mary Hunter, Mr. and Mrs. Ed Slusher, Mrs. Polly Bracht, Mr. and Mrs. Robert Killian, Dr. and Mrs. Fred Ripzenger, Mr. and Mrs. Frank Lynch and Snodgres and his daughter, Sophia.

A second across-the-border tennis meet is planned for late January in Monterrey with the trip being made in a chartered bus.

Matches will be played at Clube Deportiveos on the outskirts of Monterrey and at Carta Blanco Brewing Company's Cervisaero sports complex. A horseback excursion into foothills of nearby mountains is planned. Also, there will be opportunities for sightseeing and shopping, Snodgres said.

More than half of all the men and women who have fought in America's wars, from the Revolution to the Vietnam conflict, are still alive, the Veterans Administration reports. A total of 44,482,000 persons have worn their country's uniform during periods of conflict, and VA estimates that 29,765,000 are still living.

Joe and Gwen Wuneburger have just returned from Llano after a visit with Gwen's brother and wife, Mr. and Mrs. John Wade. They brought back with them two iced-down bucks, the result of Joe's well-aimed shots. In this case, however, it was not necessary to call forth Joe's hunting experience. The Wades own a 2,000-acre ranch and the deer roam at will. And so, all Joe had to do was to step outside the house and make his selection, just like in the supermarket.

The horns of one of the bucks, a five-pointer, will be added to Joe's exotic collection of horns, which is prominently displayed outside the Wuneburger home. The display, a partial exhibit representing his hunting prowess, also contains horns from foreign countries.

As guest of nephew, David Poole, and family, this writer attended the National Woman's Conference in Houston.

Not being delegates, we, with the general "hoi polloi" gained entrance to Saturday morning's opening speeches on a "first come, first served" basis.

Charlotte Poole, our hostess, guided us to the best seats possible in the second balcony. There was considerable shifting about, which, I believe, was due to the poor acoustics.

We were so far back that our vision was blurred and the speeches were unclear. Despite our befuddlement, we at least were in the presence (of sorts) of the great in the women's movement. We were lucky enough to catch a few phrases of Barbara Jordan's booming oratory; however, the carryover of the applause blocked out many of her follow-up remarks.

We later visited the many state booths--some conducting a brisk sale of trinkets, buttons and T-shirts, which bore slogans symbolic of the movement.

We just missed the demonstration by the Ku Klux Klan. It was explained to us by a young man that the Klansmen were quickly routed by a formidable Women's group. When we arrived, the street and several policemen separated the protagonists.

Most of the women were reluctant to close the incident. One with a bullhorn led the taunting chants and they waved their banners high.

We were told that the women had prepared well in advance for this encounter, as they were on the scene minutes after the demonstration began. They were joined by a number of men--mostly young--with matching enthusiasm.

We opted for TV coverage of the balance of the conference.

American Association Of Retired Persons

AARP MEETING

Twenty-seven visitors who were among the folks visiting the area for the holiday, attended the annual Thanksgiving dinner given by Rockport Chapter 1536, The American Association of Retired Persons. Instead of the regular meeting, the dinner was held Wednesday, Nov. 23, at the Paws and Taws Building, Fulton Beach Road.

Announcement was made that Stan Heath will be the new AARP Insurance Chairman for 1978.

Registrations were taken for the Defensive Driving Course to be given Jan. 9 and 10. Interested persons may call Mrs. Greta Schweiker, 729-0443; the class is limited.

In keeping with Thanksgiving Day, guest speaker, The Rev. Josef A. Barton, Moravian minister of Rockport, spoke about "How to Count Your Blessing" and "Be Thankful in All Circumstances."

Members and guests enjoyed the delicious potluck dinner prepared by our host and hostesses committee of the month.

The United Way Fund is closer to its goal by $55.77 received from donations by all attending the festivity.

Following the installation of the new officers for 1978 at the Chapter's next regular meeting on Wednesday, Dec. 14, at 9:30 a.m., a program will be presented by the High School Choral Club.

A Christmas brunch will be served and Santa Claus will be there to give out the gifts. Please bring a gift, not to exceed $2.00, to exchange. Ladies to buy for the ladies and men for the men.

This will be the only meeting for the month of December. Come out and enjoy the fellowship of others, meet the people who have done so much for the Chapter. This is the Chapter's way of wishing you all a "Merry Christmas."

Please, on your way to the meeting, pick a can of vegetables or fruit from your shelves to help fill the baskets to be distributed by the Chapter at Christmas.

Everyone is welcome to attend, we will be looking forward to meeting you.

REPORT ON UPCOMING CARD PARTY AND DANCE

Adventure

boat by ourselves."

He went on to say he had taken some courses with the Canadian Power Squadron before he left for the long cruise.

He was involved in broadcasting for 40 years when the couple decided to sell their house and car and as they said, "see a bit of the world."

The "bit" has now amounted to about 5,000 miles of water travel and Norm and Beatrice still enjoy it all.

"Not that we haven't had a few moments when the going got rough," Beatrice recalled. "We had a very rough night on the Potomac River."

"The wind was about 25 knots and the water was very choppy," Norm explained. "The waves were from seven to eight feet high and when we finally got into the harbor near Readsville, Maryland, we ran aground and a volunteer rescue unit came and got us off."

"Altogether," he went on, "I would guess we have run aground about 25 times. It doesn't hurt the boat, but it sure is embarrassing."

The occasion that stuck in Beatrice's mind was their welcome to Norfolk, Virginia. "It's such a huge harbor and so many lights and evidently we missed two of the marker buoys and the first thing we know as we docked, there's the Navy and the Coast Guard and military police all over the place. We had sailed into a naval restricted area."

Norm said that when he had explained the situation, everyone was nice and very helpful. "And when it became evident that we couldn't stay, they helped us find the way out and to a dock where we could put up."

"The fact is," Beatrice said, "Norm said that he wasn't going to try to get back out when it had been so hard to get in and the Coast Guard said they would show us how to go and we followed them."

Both of the Hollingsheads feel they have been very lucky. "Sometimes," Norm said musingly, "I'm surprised that we are here at all."

"We have really enjoyed the trip," Beatrice explained. "There is a new port every day and new places to see and people to meet."

The couple has been impressed with Rockport. "For a small town," Norm said, "it's so convenient. The stores are right here and the shops are good for sight-seeing. We really like the town."

Thinking perhaps like a wife instead of the first mate, Beatrice added, "And the laundry--don't forget the laundry. It's just right across the street and so handy."

The Canadians have also enjoyed the friendliness of the people. "You know," said Norm, "on the boat, sometimes it's nice to get away from people, but then, it's nice to get back and be with people again."

Where to from Rockport? "We don't have any hard and fast plans," Norm answered. "We just don't see that far ahead. Really, I think we'll head down toward Brownsville and Mexico. We would like to go there."

More timid souls might think about safety factors and retire back to the comfort of their easy chair. "We don't try to do foolish things," Norm countered. "We pick our times to go out and we try not to get into a poor safety situation to begin with."

Beatrice went on, "We have all the standard safety devices such as flares, the safety harness and the lifelines, but we don't think about it. Our attitude is a positive one that nothing will happen."

"You know," Norm said, "a sailboat is a forgiving boat and we have learned from our mistakes and the boat has stayed with us through it all."

"And we're having such a good time to come and go as we please," Beatrice noted.

And maybe that's the best way to think of retirement--to retire from the existence before and move out and beyond, to new horizons.

From Near And Far

By Anne Murphy
Activities Coordinator,
Rockport-Fulton Tourist Assn.

I would like to welcome the following new members to the Tourist Association: the Circle Inn Trailer Park and the Sandollar, both on Highway 35N; and the Sportsman's Center and the Sea Gun, both situated just across the causeway on Highway 35N. I would also like to apologize to Marineland for the omission of their name from the list of Association members printed in the recent tourist guide.

Many thanks to Pat Loflin for preparing the Thanksgiving turkey dinner last week. Ginger Duckworth, of Surf Courts, is the hostess for the covered dish supper on Nov. 30 and the meal will be followed by the magic of Mr. Del Edwards. The meal will start at 6:30 p.m. and the doors will open at 6:00 p.m.

Some of the upcoming events sponsored by the RFTA will be a talk and demonstration of cooking with a micro-wave oven. This will take place at 10:00 a.m. on Thursday, Dec. 1, at the Recreation Center. Three dishes will be prepared and samples given. This new method of cooking saves time, fuel and money. These days, all three are in short supply. The microwave ovens for this program were loaned to us by Gould Appliances, here in town.

Tuesday, Dec. 6, at 10:00 a.m., we have the first of our programs on Roll-on Liquid Embroidery. There is no charge for the instruction; you only have to pay for materials used. This program is scheduled for the first three Tuesday mornings in December and is an ideal opportunity for you to make some of your Christmas gifts.

Martha Lewis is teaching a course in Repousse starting Tuesday, Dec. 6. The program is scheduled for four consecutive days that week at 1:30 p.m. each afternoon. Repousse is the art of raised decoupage and this program was very popular last year, so we are asking for prior registration. The size of the class is limited to 10 people, so call early for further information and to register.

Herman Lappin

I went out to see Roger Gordon at his Reef Motel in Fulton on the Friday after Thanksgiving, only to find that Roger had gone hunting. He had left his motel in the very capable hands of Herman and Audrey Lappin. I got talking to Mr. Lappin and realized that I had found my Winter Texans of the Week. How many people in this country have a baseball field named in their honor? Mr. Lappin does.

Herman and Audrey have lived for the past 65 years in Elyria, Ohio, where Audrey worked in a supermarket and Herman worked as a landscaper. However, his real love is baseball. He was a catcher until he was 40 years old in the semi-pro leagues but the achievement that he should be proudest of is the 25 years he spent managing and organizing Little League baseball for the state of Ohio. For 24 years in a row, he attended the Little League World Series in Williamsport, Pa., and many of his Little Leaguers went on to great careers in the sports field--such as Vic Janowicz, who played for the Pittsburgh Pirates and who also won the Heisman Trophy in 1950 and Walt Rock, who went on to play football for the Washington Redskins.

His home town of Elyria honored him in 1974 by enshrining him in the Elyria Sports Hall of Fame and many of the people attending the banquet that evening were members of his very first Little League team in 1950.

Anyone who is willing to devote so many years to the service of youth without any compensation whatsoever should be justifiably proud but Mr. Lappin could not have done it without the support of his wife of 44 years.

Herman and Audrey are seriously thinking of becoming year-round residents of Rockport, and I, for one, hope they do. They would make a great addition to our community and besides, Herman has promised to teach me to fish!

Remember, our Game Night now starts at 7:30 p.m. on Monday evenings and the doors open at 6:30 p.m.

If anyone has questions or comments, please call me at 729-2388 most afternoons.

Burglaries Keep Deputies Busy

Sheriff's deputies were busy this past week investigating incidents involving stolen property.

Officers are still investigating an incident reported Nov. 18 when Michael Carl Moffitt told officers that a hitchhiker he had picked up forced him from the car and warned him not to contact the police or they would kill him.

The incident allegedly took place on Highway 35 North. Deputies are still on the case.

Eugene N. Adams, owner of the Copano Causeway Bait Stand, said that someone had stolen his boat late in the night of Nov. 22.

Adams said that evidently the culprits had loaded the boat into a pickup. The boat was valued at $800.

Someone pried the vent window of a car to steal a CB radio from Sam Martinez at the Happy Inn Lounge on Nov. 22. Martinez valued the radio at $204. He also said two hats were taken in the incident.

Charles Marshall reported to deputies that a utility building he owned at the Aransas Memorial Park had been burglarized between Nov. 19 and 20. Missing, according to Marshall, was a battery charger, jumper cables and assorted tools.

Whoever broke into the building left behind a cap which was traced to a construction company in Freer, Texas. Officers are working on that lead. Deputies also checked with local doctors because there were black widow spiders in the building.

Local Man Selected As Musician

Florencio Lara, son of Mrs. Felicitas F. Martinez of Rockport, has been accepted to play trombone in the Concert Band I and Orchestra at Sam Houston State University for the 1977-78 academic year.

Lara is a senior music education major at SHSU.

While in high school he was a member of the Rockport-Fulton High School band.

SARA MILES

For many people, one of the best parts of the holiday season is to entertain guests or to have guests drop by for a bit of holiday cheer.

When guests do come, be prepared with some of the appetizers listed below that are quick and easy.

FRUIT CUP

Fresh or whole frozen fruits are ideal because they are less sweet than canned fruit. Serve whole, halved or cut in attractive sizes (not too small). Add lemon or lime juice for a refreshing tartness. To blend the flavors, prepare in advance and chill. Serve cold. Eat with spoon.

In Orange Cups: Serve any combination of fruit in hollowed out orange halves. Garnish with water cress or mint.

RAISED ROLLS

For success in baking bread and rolls, select a basic recipe; master it, then develop any variations you desire.

1. Dough for rolls is softer than for plain bread, as soft as can be handled without sticking to hands or board.

With increasing amounts of sugar and fat, the action of yeast is retarded, so more yeast is often needed for rolls.

3. Most rolls require only thorough mixing, with little or no kneading.

4. Your rolls will be crusty if you place them 1 inch apart when baking.

5. If you grease tops of rolls lightly with melted fat or salad oil before they rise, you will prevent a crust forming.

6. Rolls brushed with salad oil or melted fat before baking will have tender crusts. Those brushed with milk or 1 beaten egg diluted with 1 tablespoon milk will have crisp crusts.

7. Rolls should be served at once or turned out of pans to cool.

8. The best way to reheat rolls is to place them in plain paper bag, sprinkle bag lightly with water, and place in hot oven 3 to 5 minutes before serving.

Gradually stir in flour to form soft dough. 4. Beat vigorously; cover and let rise in warm place (82°) till double in bulk, about 2 hours. 5. Cookie favorites are great Christmas gifts

CHRISTMAS MEANS COOKIES! Home-baked, fresh, delicious cookies are one of the nicest ways of saying "Merry Christmas"! Cookies packaged in boxes and cans and decorated with lovely wrappings and bows are a delightful gift to place under everyone's tree. Now there's an easy way to prepare cookies from a make-now, bake-later '1001' cookie mix to help you keep the family and friends well supplied with goodies. For further information on the '1001' mix and exciting cookie recipes, write to: America's Cookie Favorites, Domino Sugar, P.O. Box 738S New York, NY 10036.

Everyone loves cookies! They're easy to make, fun to decorate and even better to receive as gifts.

One of the nice things about giving cookies as Christmas gifts is that you can package and mail them in simple, inexpensive (sometimes free) containers that can also be gaily decorated.

A colorful, plastic mixing bowl filled with cookies makes a practical as well as delicious gift. Line the bowl with colored cellophane, pull it up and tie at the top with a ribbon bow or heavy yarn. For an extra touch include a spatula to go with the mixing bowl.

Package and wrap your cookies for mailing as you would any other fragile item. Wrap each cookie individually in colored cellophane or foil.

Canisters or tins containing cookies should be put into boxes lined with tissue or "grass" (to prevent shifting) and wrapped in brown paper for mailing.

Domino® Sugar has made cookie baking simple. Their consumer consultant, Glenna McGinnis, former food editor of Woman's Day Magazine, has developed a make-now, bake later '1001' cookie mix recipe to help you bake America's cookie favorites easier and faster.

The mix, which can be prepared weeks in advance and stored in an airtight container (unrefrigerated if shortening is used instead of butter), forms the base for an unlimited variety of cookies to make at your own convenience.

Try these fascinating cookie recipes and let your imagination run wild when packaging them for gifts. You'll be doubly rewarded for your efforts.

GOD and HIS CHURCH

AMERICA'S First Line of Defense

Providence...

. . . the capital of Rhode Island! The river on which that city is situated! But both derive their common name from a word that meant much to the early Pilgrims.

The word **providence** stands for the goodness, the faithfulness of God. It reminds men that He has provided everything to meet our daily needs. It dwells on spiritual as well as material blessings.

Thanksgiving is man's reverent response to God's providence. In colonial history that word became associated with a single day, an occasion set aside for appreciating our blessings . . . expressing gratitude in worship and celebration.

But **providence** is a reason for worshipping God all year. And it is a reason for celebrating our religious convictions in daily concern for one another.

Do not attempt to can this recipe in a water-bath canner; the heat is not high enough to kill bacteria and safely process this food. 3. Twink-ly angels are fun for whole family to make

Children love to participate in holiday preparations and these edible angels, simply assembled from Hostess Twinkies toothpicked to styrofoam cones, are perennial favorites. Ready-in-the-can frosting robes the cakes and silver cake decorations add sparkle.

An apple serves as the large angel's head with the crowning wreath made of colorful gum drops, miniature marshmallows and foil-wrapped chocolate candies. All are fastened to the apple with toothpicks.

A single toothpick holds the mini-angel's Hostess Donut halo above her head and another donut shapes the larger angel's collar.

Here is what you need to make the larger angel:

16 Hostess Twinkies
1 12-inch styrofoam cone
Toothpicks or bamboo skewers
1 can ready-to-spread white frosting
Silver cake decorations
1 small Hostess donut
Soft candies and miniature marshmallows for the wreath
1 apple
2 whole cloves

Cut Twinkies in half length-wise separating flat bottoms from rounded tops. Leave overnight to stale slightly. Fasten halves with toothpicks vertically in 3 tiers around the cone. Toothpick 4 halves to make each wing and fasten to the top tier with toothpicks or skewers. Frost the cakes and sprinkle with silver cake decorations. Place donut on top of the cone. Fasten candies around the apple top with toothpicks. Insert cloves for eyes. Toothpick, or skewer, apple to the cone top.

HEAVENLY CHRISTMAS TREAT for the kids to make and to eat, these lovely Christmas angels are easily assembled from Hostess Twinkies toothpicked to styrofoam cones, with robes of fluffy frosting and sparkling cake decoration accents.

Here is what you need for the mini-angel:

7 Hostess Twinkies
Toothpicks
1 6-inch styrofoam cone
½ can ready-to-spread white frosting
Silver cake decorations
2 Cloves
1 Hostess donut

Cut Hostess Twinkies in half length-wise, separating flat bottoms from curved tops. Leave overnight to stale slightly. Fasten halves with toothpicks vertically in 2 tiers around the cone. Toothpick 2 halves together for each wing and skewer to the top tier. Frost the cakes and sprinkle with silver cake decorations. Use cloves to make eyes in the styrofoam ball. Toothpick donut to ball and ball to cone.

Game meat differs in flavor from domestic meat, with each species of game having its own distinctive flavor and aroma. Flavor is more strongly marked in older and more active animals, in the more exercised muscles and in the fat of the animal.

The sucess of cooked game depends to a great extent on the treatment the animal received when killed. If the hunter properly cares for the game after it is killed, the homemaker can prepare delicious and palatable game.

Game meat adds variety to meals and is high in nutritive value. It is an excellent source of high-quality proteins, fats, minerals, iron, copper and phosphorus and the B vitamins, thiamin, niacin and riboflavin.

Fresh and properly handled game meat can be tender and palatable when cooked by dry or moist heat. The method of cooking is determined by the quality and tenderness of the carcass.

Young and tender game is best cooked by dry heat such as roasting, broiling, pan-broiling and frying. Basting with additional fat may be necessary if the meat is lean.

Old and less tender game is best when cooked by moist heat such as braising, stewing and simmering. Swiss steak and pot roasts are cooked by braising. Add a small amount of liquid to the meat which is cooked in a covered container. Stews, fricassees and boiled game are prepared by simmering (not at boiling point) in hot liquid which partially or completely covers the meat. With moisture, the high temperature necessary to soften the connective tissues can be obtained.

Parboil only strong game to reduce flavor if a strong game flavor is objectionable. Parboiling well-conditioned carcasses will remove some of the soluble nutrients and produce a mild game flavor.

The strong, gamey flavor some people find objectionable is concentrated in the animal fat. To reduce this flavor, remove fat in more mature, highly fattened carcasses.

Many people prefer to marinate meat from more mature animals to reduce gamey flavor and make the meat more tender. A marinade is made by combining one-fourth part vinegar, three-fourths part water, sugar and seasoning. Place meat in the solution and refrigerate for 72 hours or longer.

Venison is a rather dry meat and can be improved by adding butter or margarine, suet or other fat when broiling, pan-broiling or roasting. If you have a less tender carcass, there are ways of preparing the meat to make it tender and appetizing.

The methods of cooking venison are the same as those for cooking other lean meats. Use dry heat for tender cuts and moist heat for less tender cuts.

Cuts of Venison and Suggested Uses

The hind and fore shank are used in soups, stews and are ground for sausage, meat loaf and patties.

Round of the carcass is usually tender enough for steaks. If less tender, use it for Swiss steaks or grind it for sausage, patties or meat loaf

Legs, if small, may be roasted in an uncovered pan without adding liquid.

Loin of venison is used for sirloin and porterhouse steaks or choice roasts.

Shoulder or chuck should be cut into roast for pot roasting or ground.

Rump roast is used for pot roast. From a tender, young buck it may be roasted in an uncovered pan with no added liquid.

Flank and breast cuts contain considerable meat. Use them for soups, stews or grind for patties, meat loaf or sausage.

Neck of the carcass should have the tendons removed. It can then be roasted, used as stew or ground.

BROILED STEAKS OR CHOPS

Preheat the broiler compartment. Place meat on cold broiling grid and place in broiler compartment with top surface 3 inches below the source of heat. Close or leave broiler door open, according to instructions on use of range. For a 1-inch steak, broil 5 to 7 minutes for each side. When nicely browned, season with salt, pepper and butter or margarine.

VENISON ROAST

Season meat with salt and pepper. Place fat side up on a roasting rack. Lay beef suet or bacon strops across the meat. Do not add water and do not cover. Roast at 300-350 degrees F. 20 to 25 minutes per pound. If roast becomes too brown on top side, turn to aid uniform cooking.

VENISON STEW

2 cloves garlic
1 onion, sliced
3 tbsp. shortening
2 pounds venison
1 can tomato sauce
1 cup water
4 green peppers, chopped
3 potatoes, quartered
6 carrots, halved

1. Fry sliced onion and garlic in shortening; add the meat and brown. 2. Cover with tomato sauce and 1 cup water; simmer 1 hour. 3. Remove garlic; add carrots, pepper, potatoes and whole onions. 4. Add additional water, if necessary, seasonings, and cook approximately 30 minutes, until vegtables are tender. Serves 6

VENISON CHILI

½ gallon cooked kidney beans, optional
2½ pounds ground venison
1 tbsp. chili powder
1½ tsp. pepper
1 tbsp. salt
1½ pounds bacon
1 quart onions
½ gallon tomatoes or 4 No. 303 cans
½ tsp. comino seed

STEPS:

1. Cut bacon into small pieces; brown to a crisp. 2. Add venison and brown. 3. Combine rest of ingredients in large utensil. 4. Add the browned meat and enough water to cover. Simmer 2 hours. Serves about 20.

HO-HO-WHOLESOME WHEAT STUFFING for your old-fashioned christmas dinner—This year prepare a nutritious, great tasting turkey stuffing using toasted whole wheat hot cereal that's rich in dietary fiber—the important food element that everybody's talking about.

New old-fashioned fare for Christmas

Too often the meaningful traditions of the holiday season are lost in the fast-paced life that we lead. This year, why not plan your Christmas celebration with a sense of getting back to basics?

To make your Christmas more like an old-fashioned holiday, involve the entire family in more of the preparations and do it all from scratch the way it used to be done.

A week or so before Christmas, why not take a trip into the country to a fir tree farm and chop down your own Christmas tree? The effort you put into it will make it the most cherished ever.

Another "back-to-basics" idea is to make your own Christmas tree decorations. Buttons, pieces of material or scraps of paper and ribbon from your gift wrappings are all recyclable for inspired, hand-crafted ornaments.

Your Christmas dinner menu can also reflect this same old-fashioned hominess. If you do a little family research, you'll probably find a number of old-time favorites your family would enjoy—perhaps a special wholewheat bread, a fruit cobbler or a casserole of winter vegetables like peas and onions, broccoli or sweet potatoes.

And don't forget your turkey. This year, prepare an old fashioned, hearty stuffing that tastes great and is a nutritious addition to your back to basics Christmas.

Our stuffing recipe, using Wheatena toasted wholewheat hot cereal, is naturally rich in essential nutrients. The cereal also enriches the stuffing with dietary fiber, the important food element everybody's talking about.

TOP OF THE RANGE WHEAT STUFFING

(Serves 6 to 8)

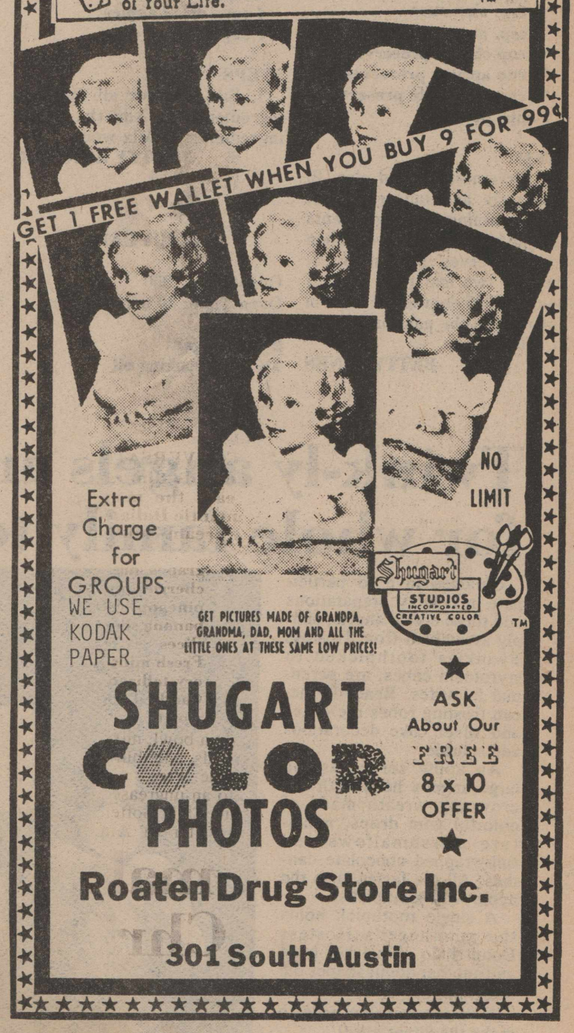

¼ cup butter or margarine
1 large onion, chopped
1½ cups sliced celery and leaves
2 carrots, shredded
1 can (6 ounces) sliced mushrooms, undrained
1½ cups Wheatena toasted wholewheat hot cereal
4 cups chicken broth or bouillon
3 tablespoons lemon juice
Salt and pepper

In a large saucepan, heat butter and saute onion, celery and carrots slowly for 10 minutes. Stir in mushrooms and their liquid, Wheatena cereal, chicken broth and lemon juice. Simmer, stirring occasionally, for 10-15 minutes or until thick like mashed potatoes. Season to taste with salt and pepper.

Della Robbia masterpiece to beautify holiday tables

One of the most festive desserts that you'll ever put a fork to has to be this spectacular Della Robbia Pie.

The perfect holiday dessert, this tempter takes its inspiration from the beautiful garlands of fruits and flowers that encircle many of Luca and Andrea della Robbia's incredibly beautiful works of art.

This particular masterpiece is as delicious eating as it is handsome looking. The almond-vanilla wafer crumb crust is filled with a scrumptious mixture of vanilla ice cream and chopped mixed candied fruits laced with Amaretto di Saronno, the fabulous Italian liqueur that's rapidly becoming an American favorite by sips and bounds.

The luscious pie is then crowned with swirls of whipped cream and a wreath of marzipan fruits. Assorted fruits—fresh, frozen or canned—can be substituted for the marzipan, if desired.

A CONVERSATION PIECE, this Della Robbia Pie will conclude dinner on a beautiful note. Marzipan fruits wreath the masterpiece. Amaretto di Saronno, the romantic Italian liqueur, lends its magic to the vanilla ice cream-candied fruit filling.

DELLA ROBBIA HOLIDAY PIE

- **1½ cups vanilla wafer crumbs**
- **¼ cup chopped toasted almonds**
- **⅓ cup melted butter or margarine**
- **1 quart vanilla ice cream**
- **⅓ cup Amaretto di Saronno**
- **⅓ cup finely chopped mixed candied fruits**
- **1 cup (½ pint) heavy cream**
- **2 tablespoons Amaretto di Saronno**
- **1 pound marzipan fruits or 2 cups assorted fruit—strawberry halves, green seedless grapes, maraschino cherries, peach slices, pineapple chunks, banana slices or plum slices**
- **Fresh mint leaves or crystallized mint leaves**
- **Candied mimosa and violets**

In a bowl, mix crumbs, almonds and butter or margarine. Press mixture firmly into an ungreased 9-inch pie pan. Chill. Soften ice cream and stir in Amaretto di Saronno and fruits. Pour mixture into chilled pie shell. Freeze until hard. In a bowl, mix heavy cream and Amaretto di Saronno and beat until stiff. Pile whipped cream in mounds around the outer edge of pie. Freeze until ready to serve. Decorate pie with marzipan or fruits pressed into whipped cream. Add mint leaves, mimosa and violets, if desired. Serve at once. Makes 1 9-inch pie.

A gift you make yourself enhances Christmas spirit

Nothing enhances the act of giving more than a gift you've made yourself. This fruit compote is easy to make. It combines a variety of canned and dried fruits with Bacardi dark rum.

You can make enough for gifting, and keep some yourself. For gift giving, pack pint jars and add a note explaining that the fruit is best when served over poundcake, ice cream or crepes.

RUM REST

- **3 cups drained canned fruits (any combination of chopped peaches, mandarin oranges, pineapple chunks, apricot halves, chopped pears)**
- **1 package (10 ounces) dried mixed fruits**
- **1 cup halved maraschino cherries**
- **1 cup blanched whole almonds**
- **3 cups superfine sugar**
- **2 cups Bacardi dark rum**

Layer the fruits, almonds and sugar in 1½-quart crock. Gradually add rum (rum should cover fruit). Cover crock and let stand at least 1 week.

Makes about 2 quarts.

GIFTS THAT YOU MAKE YOURSELF show you really care. This Rum Rest is made with Bacardi rum for a truly delicious taste.

Young geese are a delicacy and very little of their meat is wasted. The meat is rich, dark and lean. Old birds are tough and not easily tenderized by cooking with moist heat. They are identifiable by few pinfeathers, coarse plumage and extremely large wingspurs.

- **¼ cup butter or margarine**
- **¼ cup chopped onion**

Stir in apple, apricots, bread crumbs, salt and pepper. Spoon stuffing lightly into cavity. Truss bird. 4. Cover breast with bacon slices and cheesecloth soaked in melted bacon fat. 5. Place goose breast up on rack in roasting pan. Roast at 325° F. 20 to 25 minutes per pound or until tender, basting frequently with bacon fat and drippings in pan. 6. Meats And Stuffings

By L.D. Nuckles
TP&WD Infomation Officer

Are you one of those people who love to hunt deer but don't like venison?

If so, your education has probably been sorely neglected. Unless you are a vegetarian, a good piece of venison, properly cared for in the field and properly cooked, makes as fine a meal as any beef you'll find.

Of course, an old buck that is deep in the rutting season with all the fat run off and a neck swelled up like a balloon does not make choice venison. I really don't think there is anything you can do to make his flesh fit for human consumption. This may be the trophy you've hunted for all your life, but venison--NO.

If you would enjoy some really fine eating, choose a fat doe or young buck who hasn't yet entered the rutting season.

Even after you choose the proper deer, you must start caring for the meat even before you pull the trigger. Your first shot must be correctly placed so as to kill quickly and cleanly. If he drops dead in his tracks you're off to a good start.

Now you must field dress the carcass. If you don't know how, get someone to teach you. With a little know-how and a good knife, (it doesn't have to be a big one) you can do this in a matter of minutes.

Get the deer hung up so that it can cool and this needs to be in a place that is protected from flies. I always like to wash the body cavity, preferably with chilled water. This helps dissipate the body heat. Some people just wipe out the carcass and use no water. I'd rather have the dirt and blood washed away.

As soon as the body heat has left the carcass, you should skin the animal and cut and wrap the meat for the freezer. You now have good venison that needs only proper cooking.

Just as an example: take an old fat angus bull and cripple it with a couple shots through the body cavity and another through the rear end as it runs away.

After several hours of chasing him with dogs, then you kill him. Now do a sloppy job of field dressing him, then haul him around on your pickup fender for half a day. Now hang the carcass up in a locker plant for three to six weeks with the hide still on. I'll venture to say that you wouldn't consider this as the finest of beef.

The same thing applies to deer.

If you're after a trophy for the wall of your den--kill a skinny, stinking old buck that has huge antlers.

If you're not going to mount the head, choose a good, fat young deer, kill it cleanly and handle the meat properly and you'll have some fine eating to enjoy.

BAKED CHICKEN WITH RICE AND CORN DRESSING

Quail are small birds weighing about 4 to 6 ounces. When considering the number of servings allow at least one bird per person to be served. Quail meat is white and it tends to be dry. It needs a protective cover of bacon or other fat and frequent basting.

ROASTED QUAIL WITH MUSHROOMS

4 quail
4 slices bacon
1 tbsp. butter or margarine
Juice of half lemon
½ cup hot water
⅓ ounce can broiled mushrooms, drained

STEPS:

1. Wipe quail inside and out. 2. Bind each bird with a slice of bacon. 3. Put birds into a buttered pan and roast at 350° F., basting occasionally, about 30 minutes or until tender. 4. Remove birds and add butter or margarine, water and lemon juice to drippings in pan, stirring to make a gravy. 5. Add mushrooms. Serve the birds on toast with gravy poured over them. Serves 4.

FRIED QUAIL

4 quail
¼ cup flour
1 tsp. salt
1/8 tsp. pepper

STEPS:

1. Dredge quail with mixture of flour, salt and pepper. 2. Have deep frying pan half filled with hot fat. 3. Brown quail on both sides. 4. Cover skillet and reduce heat. Cook slowly until tender, about 20 minutes, turning once to brown evenly. Serves 4.

Pheasants have white-meated breasts and wings and dark-meated legs. The cock usually weighs from 2¾ to 5 pounds and the hens from 2 to 3 pounds. Like other game birds, it is best to consider age when cooking pheasant. Age can be determined by the claws. Short, round claws indicate a young bird and long, sharp ones an older bird. Broil or bake young birds and braise or stew older ones. Pheasant meat tends to be dry; roast with strips of bacon on the breast and baste frequently. Most chicken recipes are suitable for preparing pheasant.

PHEASANT WITH RICE STUFFING

2 pheasants, about 2½ pounds each
2 tsp. salt
1½ cups long-grain rice
3 cups water
1 tsp. salt
½ cup butter or margarine
1 cup finely chopped celery
3 tbsp. minced onions
½ cup mushrooms, sliced
1/8 tsp. crushed sage
1/8 tsp. crushed thyme
1/8 tsp. savory
6 strips bacon

STEPS:

1. Sprinkle 1 tsp. salt into cavity of each pheasant. 2. Brown rice in dry frying pan. 3. Transfer to saucepan, add water, 1 tsp. salt and cook until tender. 4. Melt butter or margarine in frying pan; add celery, onion and mushroom and cook about 10 minutes. Add to rice along with herbs. 5. Stuff bird lightly. Extra stuffing may be baked in a greased covered casserole last 30 minutes of roasting time. 6. Truss birds. 7. Brush birds with melted butter or margarine and place bacon across breast. Place on rack in roasting pan, cover and roast at 350 degrees F. about 2 hours or until tender. Serves 6 to 8.

ROASTED WILD TURKEY

1 turkey, 8 to 10 pounds, ready-to-cook
Salt and pepper
8 cups partially dry bread cubes
¼ cup finely chopped celery
½ cup chopped walnuts
2 to 3 tsp. sage

¼ cup butter or margarine
¼ cup water

STEPS:

1. Sprinkle turkey inside and out with salt and pepper. 2. Combine bread, celery, walnuts and seasonings. 3. Cook onion in butter or margarine until tender, but not brown; pour over bread mixture. Add the water and toss lightly. Spoon stuffing lightly into body cavity. Put remaining dressing in a greased casserole. 4. Cover and bake in oven with turkey during last 30 minutes of roasting time. Truss bird. 5. Cover breast with bacon slices and cheese cloth soaked in melted bacon fat. Place turkey, breast up, on rack on roasting pan. 6. Roast at 325° F. 20 to 25 minutes per pound or until tender, basting frequently with bacon fat and drippings in pan. Remove cheesecloth, skewers and string. Serves 8 to 10.

Some of the more popular game birds include ducks, geese, quail, dove, turkey, pheasant, rail and woodcock. Pheasant and other game birds uncommon in Texas are sometimes raised in captivity or killed in other states and brought home for eating. The native game birds are taken during prescribed hunting seasons and offer excellent wild game taste treats when properly dressed and prepared.

DUCKS AND GEESE

Duck meat is at its best when served rare. If well-done meat is desired, additional cooking time should be given, taking care not to overcook and toughen the birds. Meat of wild duck is dark and drier than domestic meat. Roasting strips of bacon or in a covered roaster helps retain moisture and reduce dryness of less tender and larger ducks.

ROASTED WILD DUCK

1¼ pound duck
2 cups quartered apples
1 slice of onion
2 tsp. salt
¼ tsp. pepper

STEPS:

1. Clean duck and wash thoroughly. 2. Fill the duck with peeled quartered apples. 3. Truss duck, rub with a slice of onion; then with salt and pepper. 4. Roast uncovered at 325 degrees F. allowing 20 to 30 minutes per pound. If desired, duck can be basted every 10 minutes with 1 cup orange juice. Basting is not required, however, at this low temperature. Total cooking time is 45 minutes. Serves 2.

BARBECUED DUCK -BREASTS

2 large duck breasts
4 tsp. lemon juice
1 tsp. Worcestershire sauce
1 tsp. tomato catsup
