Crops just coming up all over the country are looking mighty fine. Some have been having trouble with the sand blowing, but now days the ground can be covered so quickly no serious damage has been done to crops. One tractor and a rotary hoe implement can do wonders in a little while. It's a far cry from the old days when a team and one-row cultivator was used for the same purpose.

It seems odd to me that a United States Senator who never saw a day's service in the armed forces thinks he knows more about strategy in the Vietnam War than do officers who have spent many years in the business. Such ultra liberals as Senator Kennedy, McGovern, Fulbright, etc. etc. in my opinion are doing a great disservice to their country by their continued utterances trying to influence foreign policy of the country. They may not realize it but they are flitting with communism, in fact, are helping the communist cause not only in Vietnam but throughout the world.

Senator Kennedy is working for the Democratic nomination for president in 1972 but I hope the people of the United States will have better judgment than to elect him.

Body of Young Man Found Near R. R. Tracks East of Loraine

The body of a 25-year-old man, who was identified as Richard Eugene Rotramel, was found Thursday morning east of Loraine, along the Texas and Pacific Railway tracks, after

police officers had been notified by an eastbound train crew of seeing the body.

Apparently he had been riding a westbound freight train that passed through at 7:45 a. m. Thursday. There was a wound on the back of the man's head and on his side. Officers said the body had rolled almost 100 feet from the rocky spot where it first struck the ground after having fell, jumped or was pushed from the train. The irony of the grim accident was that the man had a tattoo on his shoulder which read "Born to Lose."

An autopsy was performed and Justice of the Peace Homer Hart stated he would not have a verdict until receiving a report of the autopsy.

Graveside services were held at Colorado City Cemetery, with Kiker & Son in charge.

Grandson On Apollo Pick-Up Team

Ray Lynn Beights, son of Mr. and Mrs. Marvin Beights of Texas City, grandson of Mr. and Mrs. Percy Bond and Mrs. Berta Beights of Loraine, was a member of the pick-up crew for Apollo 10 astronauts when they were picked up in the Pacific near Samoa, Island. This was the second exciting and exacting job in which Ray had a part, as he was on the job last year to help in the recovery of Apollo 8 astronauts.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Texas lawmakers have written the record of the 61st regular session, but their toughest job — levying taxes to pay for what they have ordered — remains to be done.

In adopting a \$2.8 billion one-year state budget (for 1970), they invited a special session to complete appropriations for 1971 and to decide on the inevitable major tax bill. Legisla-

tive leaders, Lt. Gov. Ben Barnes and House Speaker Gus Mutscher, claim the latter will be smaller if the finance show-down can be delayed until next year.

Gov. Preston Smith, who holds the key to the timing of the special session, had made clear from the start that he feels the Legislature should face up to a biennial budget and the

raising of needed revenue. He could veto the single-year bill and call another session immediately — or accept it and schedule the remaining financial work whenever he pleases.

Many all-time legislative records have topped at this session.

Certainly, the 61st session passed more legislation than any before it, and it was committed in advance to spending more money.

A multitude of laudable ends were attained. Giant strides were made in the field of education. Teachers got a \$61.9 million pay raise. Overhauls were ordered in the field of vocational and technical education. Three new medical schools, a dental school and two new nursing schools were authorized. Also, three new universities, plus an experimental upper

level branch college in Laredo. Never have so many new higher educational facilities been launched in a single session.

A master water plan got all the legislative support it could expect. Workmen's compensation laws were updated. Sweeping controls were approved over air and water pollution. A constitutional amendment to legalize the sale of liquor by the drink was submitted, along with many other proposed changes in the constitution. State employees got a 6.8 percent pay raise.

Texas' 61st Legislature was a busy, productive session. It was a liberal-spending one with the bills yet to be paid.

"The citizenship of Texas will applaud our work at this session and give us their full support when we return to appropriate and finance the second year of the biennium," concluded Speaker Mutscher.

LAW ENFORCEMENT PLAN ADVANCED — Texas' new State Criminal Justice Council has recommended a comprehensive \$1.1 million law enforcement plan that covers a wide scope of activities.

Governor Smith will analyze it before it goes to the U. S. Department of Justice for approval and funding under the Federal Omnibus Crime Control and Safe Street Act of 1968. Funds for a two-year operation must be committed by June 30. Texas received \$234,000 for riot control and \$830,350 in planning money six months ago.

Council voted priority funding to these programs: Prevention of juvenile delinquency education and training in all elements of the criminal justice system, regional and statewide information and communication systems, community relations programs, experimental and demonstration projects to test and evaluate new approaches to solving problems in

criminal justice systems.

Approved funds will be disbursed to 21 geographical planning regions of the state. Congress now is considering funding which would provide Texas more than \$11 million in action money, plus planning aid for next year to develop a long-range plan and begin putting it into effect.

COURTS SPEAK — An order by the Midland District Court to join nine union members for picketing the Texaco plant at Port Arthur was invalidated by the State Supreme Court. House of Representatives followed up in a matter of hours by passing a bill directing that lawsuits to halt picketing and strikes must be filed in the counties where the labor dispute arises.

Supreme Court ordered an Austin trial before August 1 for Clyde Durbin Jr. charged with killing two University of Texas students early this year.

Third Court of Civil Appeals affirmed a lower court condemnation awards of \$247,526 against Austin in connection with Decker Lake and a park area east of the city.

BEAUTIFUL, BEAUTIFUL TEXAS — Governor Smith will keynote a one-day workshop June 11 to stimulate the pre-

servation and enhancement of natural beauty in Texas. This second annual clean-up and beautification conference of the Beautify Texas Council will be held at the Villa Capri Motor Hotel in Austin.

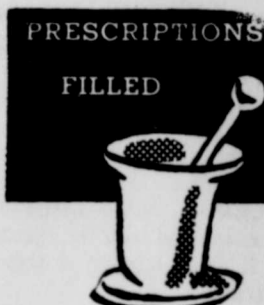

Other speakers will include O. P. Schnable of San Antonio, president of the Council, DeWitt Greer, chairman of the State Highway Commission, R. H. (Dick) Hackendahl of Washington, D. C., director of the National Clean-up, Paint-up, Fix-up Bureau, Mayor C. P. Waggoner of Grand Prairie, Earl Rudder, president of Texas A&M University and Reagan Brown, sociologist-community improvement specialist with the Texas Agriculture Extension Service.

Beautify Texas Council was organized in 1967 to combat the litter problem and to advise and act as a coordinating agency through which business and industry, government, public and private organizations may work together to solve the problems of Texas beautification.

The world's first coins came into existence in Lydia, Asia Minor, about 700 B.C., when a metal called electrum, a natural mixture of gold and silver, was used.

MRS. DON EDWARD SMALL
... nee Reece Beesley

Miss Reece Beesley and Don Small Wed in Beaumont Church May 31

Miss Reece Beesley of Beaumont and Don Edward Small of Loraine were married in the St. Stephens Episcopal Church in Beaumont, May 31.

The Rev. John Donovan officiated at the double ring vows as the couple stood before an altar decorated with mixed spring flowers.

Parents of the couple are Mr. and Mrs. Stratton W. Beesley of Beaumont, and Mr. and Mrs. Ed B. Small of Loraine.

The bride, given in marriage by her father, wore a gown of embroidered organza fashioned A-line skirt edged with a double row of venise lace over pale blue satin ribbon. Bands of lace over satin trimmed the empire midriff and chapel train. The bodice was made with high collar and wide fitted cuffs of Bishop sleeves. Her circlet headpiece of lace with train length veil of illusion was topped with loops of wide blue satin ribbon which ended in three long streamers down the back of the train.

Mr. Al Sacker was organist. Maid of honor was Miss Robin Thrift of Houston. Bridesmaids were Misses Betsy Henderson of Dallas, Peggy Patterson of San Angelo and Kathy Harris of San Antonio.

They wore flowered organza dresses with wide brimmed horse hair braid hats, with long ribbon streamers and carried hand bouquets of mixed spring flowers.

Gary Rodgers of Austin was best man. Groomsmen were Worth Beesley of Beaumont, Charles Harrington of Fort Worth and Robin Holland of Robert Lee.

Acolytes were Bruce Beesley of San Angelo and John W. Scott IV of Beaumont. Seating guests were Andre G. Beesley of San Angelo and Peterson Foster of Austin.

Mixed spring flowers made decorations for the reception, hosted by the bride's parents in their home. Members of the houseparty were Miss Cil Stork of Houston, Mrs. Gene McGee of Snyder, Miss Nancy Rundquist of Houston and Mrs. Neill Delaney of San Angelo.

After a honeymoon trip to Puerto Vallarta, Mexico, the couple will be at home in Arlington.

The bride is a graduate of Louise McGee High School, New Orleans, La., and received a degree in mathematics and computer science from the University of Texas. She was a member of Delta Gamma sorority and is employed with Texas Nuclear Research Corp.

The bridegroom is a Loraine High School graduate and received a degree in marketing from the University of Texas. He was a member of Phi Kappa Phi fraternity and is employed with Equitable Life Insurance Co. in Dallas.

Attending the wedding from here were the bridegroom's parents, Mr. and Mrs. Ed Small and Mr. and Mrs. Price Hall.

Think. Of the future, of yourself, of U.S. Savings Bonds.

They can make quite a team.

And you're the captain. You call the shots: a new house, that dream vacation, your son's schooling, or just a sweeter retirement.

Bonds will work for you, too. Work hard.

The current interest rate on Bonds is 4 1/4%. They mature in just seven years. And a Bond bought today will automatically continue to earn interest for ten years

after maturity. Think how you could use that money in

seventeen years.

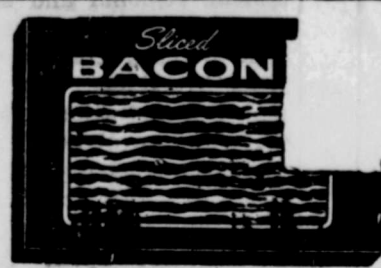

It's easy to put together your own Bond team. Sign up for the Payroll Savings Plan where you work. Or Bond-A-Month Plan where you bank.

With team work like that, you've got to be the winner. And your country is the winner, too.

That's something else to think about.
