County Library Qualifies For Area System Membership

Thirty-one libraries in the 26-county area served by the Corpus Christi Area Library System have qualified for system membership for the fiscal year that began September 1. They are among 247 libraries that have qualified for membership in ten Texas systems. A total of 86 percent of all Texans are served by these system member libraries. As members, they are partici-

pating in activities to improve public library service in the region.

Among libraries qualifying for membership in the Corpus Christi Area Library System is Aransas County Public Library in Rockport.

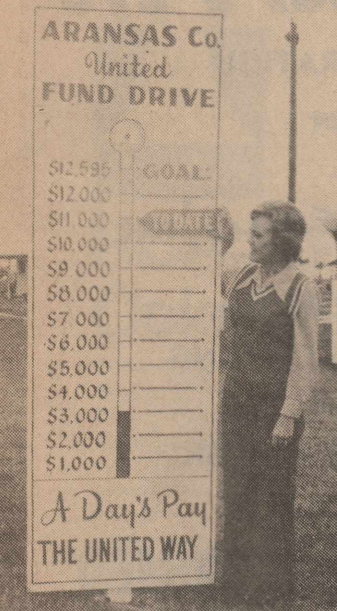

The regional systems are authorized under provisions of the Texas Library Systems Act and are supported by funds administered by the Texas State Library. In order to qualify for system activities, libraries must meet certain criteria concerning number of volumes, amount of local per capita support, and staff.

Each member participates in planning for system activities. Lay representatives from all member libraries attend the annual meeting of the Advisory Council at which council members are elected. The Systems Act gives the Major Resource Center responsibility for drawing up the annual program of service, and Rules and Regulations for its administration direct that the Advisory Council and librarians participate in formulation of the plan.

System funds are allocated according to a per capita formula. They may be used for a variety of cooperative activities, including purchase of materials for local collections, development of film collections to which all system members have access, centralized purchasing of materials to obtain discounts for large orders, and technical assistance for small libraries. Books-by-mail and deposit collections extend service to persons who are isolated from library service.

United Fund Total \$11,362

A total of \$11,362 was reported for Aransas County United Fund this week by Rev. Tom McClung, campaign chairman of this year's drive. The goal is \$12,595 and it is hoped that it will be reached by the end of the year, McClung said. The total collected or pledged

so far this year continues to be ahead of last year at the same time.

It has been suggested that those who have not yet contributed consider making a Christmas gift campaign pledge. This would in effect be a Christmas present to the entire community through the 12 agencies which will share in the funds raised during the campaign, according to McClung. Gifts or pledges may be delivered to the Chamber of Commerce office where official pledge cards are available. Another possibility is arranging for a bank authorization which will provide monthly deductions from the donor's checking account.

It was pointed out that the drive is being conducted entirely by mail solicitation so as to conserve the time of contributors and solicitors who otherwise would be making house to house calls.

Mrs. Loyce Landrum, United Fund secretary pictured above, points to that part of the "thermometer" showing that the campaign has passed the \$11,000 mark.

Hospital 'Ticket' Sale Extended

Mrs. Bertie Cone, chairman of the Women's Committee of the Chamber of Commerce, Hospital Foundation, has announced that the deadline for purchasing tickets on 1/64 overriding royalty in an oil and gas lease donated by H.C. Cooke has been extended until December 22.

A well has been drilled on this lease, located in Pearsall, Frio County, Texas and is in the process of being completed. A total of 200 tickets at \$100 each are to be offered on this lease and 135 have been sold.

A well completed on the off-setting lease to the one donated is now flowing at 140 barrels and now 1/64 royalty interest would mean approximately \$690 per month to the ticket winner.

These wells usually level off at around 75 to 85 barrels per day or an average monthly income of \$350 for that interest, according to studies of the area reported by Cooke.

Tickets may be purchased at the Live Oak State Bank, Chamber of Commerce office or through members of the Woman's Committee.

GIVING AWAY CB RADIO

The Rockport Volunteer Fire Department is going to give away a CB radio to raise money for its Christmas fund. A ticket may be purchased from any fireman for \$1 donation between now and Jan. 15, 1976.

Local Water Is Approved

Residents of Rockport will be glad to know that a recent inspection by Texas Department of Health personnel resulted in the local water system receiving their stamp of approval.

Following is a copy of a letter received by Mayor Walter S. Falk, Jr., from Floyd H. Williams, P.E., chief of the Domestic Water Supply Branch of the Division of Environmental Engineering, Texas Department of Health Resources:

"On November 25, 1975, our representatives, Mr. Len Klundrud, R.S. and Ms. Patti Connolly, S.I.T., in company with Mr. J.C. Gurley, Director of Public Works, conducted a sanitary survey of the subject water system.

"The report received by this Department covering this survey indicated that the water system presented an attractive appearance and that the majority of the requirements for continued Texas Department of Health Resources "Approval" are being complied with.

"In conclusion, we wish to express the thanks and appreciation of our representatives for the courtesies extended them during their survey."

Xmas Lights Brighten Area

Following a custom of long standing, the Chamber of Commerce is again sponsoring downtown Christmas street decorations. The colorful decorations are mounted on street light standards the length of Austin and Broadway in Rockport. Similar decorations are planned for Fulton and will be in place in the next few days.

In view of the energy situation, the Christmas street decorations are not illuminated. For the same reason the Chamber of Commerce directors decided to forego its annual contest for best decorated homes and business houses. Formerly prizes were awarded in both these categories.

Some of the decorations are owned by the Chamber of Commerce while others are leased.

C of C Sponsors 'Shop at Home'

For the third consecutive year the Rockport Chamber of Commerce is sponsoring a Christmas-oriented "Shop at Home" campaign to take advantage of well stocked local stores and for their own convenience in shopping.

A majority of local business firms are cooperating in the project which is hoped will encourage wider patronage of Rockport merchants.

Participating businesses have been provided with ribbons which read "Thank you for Shopping at Home." Sales people are encouraged to wear these ribbons at all times until Christmas.

The Chamber of Commerce has purchased advertising space in local newspapers, pointing out the advantages of shopping at home to stimulate the economy of the Rockport area. A feature of the "Shop at Home" campaign is a public drawing for a boy's and a girl's Western Flyer bicycles. Entry blanks and deposit boxes are located in various stores about the county.

Participants in the contest must be six years old or younger and residents of Aransas County who will be home on Christmas Eve. Santa Claus has been engaged to make personal delivery of the bikes following the drawing earlier in the day.

Water District Has Session

Report for the fiscal year ending Sept. 30 was presented to the board of directors of Aransas County Conservation and Reclamation District by R.D. Mosier, Jr., auditor, at a meeting in the courthouse Dec. 9.

It was the final report for Mosier who has served the District in this capacity for the past five years. He resigned the post Aug. 5 effective at the end of the fiscal year.

Appointed to replace him was Porter and Frazier, Certified Public Accounting firm with offices in Aransas Pass. Ed Frazier, partner in the firm was present at the Dec. 9 meeting. The District's auditing fee remains at \$100 a month.

Mosier's audit reported the District is in excellent financial condition, and showed only three expense items other than routine costs of operating the District. They were an engineering fee for inspection and report on the physical condition of the District-owned water tower, painting the tower and replacement of defective control equipment in the central water plant.

The Conservation and Reclamation District buys water from the San Patricio Municipal Water District and resells it to the city of Rockport for metering and sale to consumers. Originally, the district installed pipelines to bring the water to Rockport, selling bonds to cover the cost.

In addition to Mosier and Frazier, attending the Dec. 9 meeting were Jack McDavid, board president; John P. Mitchell, Jr., vice president; David H. Crooks, secretary-treasurer, and Thomas L. Morgan and J.H. von Pein, directors.

Bond Sales Top Goal

United States Savings Bonds sales in Aransas County totaled \$19,213 during the month of October. Sales for the ten-month period were \$69,563 which represents 116% of the 1975 sales goal for the county, according to County Bond Chairman Fred Bracht.

October sales in Texas totaled \$20,266,476 compared to sales of \$21,154,479 during the same period of 1974. Total sales for the January-October 1975 period were \$201,801,647, representing 86% of the \$236.8 million goal for the year.

Thank You, Tiney Gayle

The Pilot Staff says, "Thank you, Tiney Gayle, for bringing us that delicious buttermilk pie. We enjoyed it very much, and please hurry back—with pie, of course. We love you—and your pie."

Economic Conditions Here Are Better Than Year Ago

You can feel it in the air and you read and hear about it almost daily in wire service reports carried in major newspapers and on television.

Economic conditions definitely are better this Christmas

season than they were a year ago. This applies to the Rockport area and apparently to many sections of the country.

An unofficial survey conducted by the Rockport Pilot revealed some interesting,

encouraging and positive information.

For example, one local merchant had this to say:

"At the present time we are running from 5 to 8 per cent ahead of last year in sales, particularly gift items, and in our case it just happened that last year was the best Christmas season our store ever had."

Another encouraging comment came from a grocer who said, "The purchase of food items is far ahead of the volume we were having a year ago, and the buying of other types of merchandise at our store also is up."

A local banker gave the following appraisal to the Pilot: "The volume of buying is greatly increased as compared to a year ago; however, the net profit is not keeping pace with the boost in buying."

The bank official added that at the same time that buying is on the increase, Rockport area people also are doing a better job of saving money.

So, in a general way it appears that it can be accurately stated that although not all the nation's economic "ailments" have been cured, most people are more confident about the future and they are loosening up with their money and are doing more buying.

Basketball Outlook Told

Cautious optimism as to success of Rockport-Fulton High School varsity basketball team during the current season was expressed by Bobby Flanagan, school athletic director and basketball coach, at a luncheon meeting of Rotary Club Dec. 10 at Sandollar Restaurant.

He admitted that this year's team lacked height but possessed excellent talent and a desire to win. He reported two of his 40-man squad were six feet two, with the others below the six-foot mark. Eight of the players are seniors and the two veteran starters from last year are five feet ten.

Flanagan said his greatest need was more inside scoring potential, players on whom he could depend for 30 to 40 points per game. He believes as of now the zone winner is up for grabs among Rockport-Fulton, Gregory-Portland, Taft, Sinton and Aransas Pass, with Gregory-Portland and Sinton probable favorites.

He said Rockport has strong potentials for the future with eight or nine especially promising players on the Junior Varsity and Freshman squads. Three of the Junior Varsity players are more than six feet tall.

Passing on to district prospects, Flanagan said West Oso appears to be the best bet with excellent sophomore and junior players, including one six foot four and another six feet five. On the subject of height, he reported Ingleside High School has a six foot eleven player.

Flanagan said the annual Toast of the Coast tournament scheduled for Jan. 2 and 3 would offer excellent matches. At the same time he expressed his appreciation for the support the local community has given the tournament in past years, resulting in its financial and athletic success. Tournament play will be double round robin matches with each team playing other teams twice. The team with the best record for the tournament will be winner.

Flanagan said plans were underway for a greatly expanded athletic program for girls at Rockport-Fulton High School. He also reported that the school is fairly certain that it will have a competent teacher-tennis coach this year to help stimulate the growing interest in this sport. A contract has been offered the prospective coach and it is believed he will accept.

At the end of the club meeting, Kemper Williams, visiting Rotarian from Victoria who is past president of the Sons of the Republic of Texas, invited guests to attend ceremonies of the eighth annual Kathryn Stoner O'Connor Foundation Presidio La Bahia Award Dec. 14 at Presidio La Bahia near Goliad. The event commemorates signing of the Texas Declaration of Independence in the chapel of the Presidio Dec. 20, 1836.

A CHRISTMAS STYLE SHOW on December 6 entertained approximately 45 ladies with a "Peek into Santa's Bag", held at the Sea Gun's Neptune Hall. After a buffet luncheon, one of Santa's Elves (played by Todd Eschberger) delighted the crowd by pulling gift ideas for young ladies out of his bag, such as T-shirts, toe-socks, stuffed animals holding small bottles of cologne, curling irons, etc. Following this, the nine girls, all students at Rockport-Fulton High School, modeled fashions from the Gull's Nest. Featured were sportswear, including ultra-suede skirts, multicolored and patchwork sweaters and coordinating pants, casual and dressy dresses, and soft flowing Holiday party outfits. Almost stopping the show were the "just for fun" Peasant dresses, modeled by Nancy Hicks and Beverly Barnard. The dresses, complemented by matching babushka scarves and high boots brought to mind Heidi and other girls of fairy-tale fame. Mrs. Jessie James won the door prize of \$50.00 gift certificate. The Kinsey Report

To all those who read this paper and advertise in it, the Pilot says Merry Christmas and a Happy and Joyous New Year.

And as editor, I would like to take this opportunity to again express my appreciation to all those persons who bring in or mail in news articles which help us in our efforts to keep the public informed as to what's going on in this community.

May all of you--readers, advertisers and contributors--continue to enjoy the blessings of the Lord in this ideal place to live, and may you have good health and a good life.

Let's Have a Safe Christmas

Fire Marshal Elva Mullinax says men, women and children in this area should be cautioned to be especially careful in preventing fires at this time of year to make sure that everyone has a merry and safe Christmas season.

He urges all residents to observe the safety precautions regarding Christmas lights, the use of stoves, and he asks all persons to observe the law which forbids fireworks in the city limits.

"Safeguard yourself and your property, and let the volunteer firemen have an enjoyable Christmas--with no fires to put out," Mullinax urges.

YOUNG HOMEMAKERS PLAN ACTIVITIES

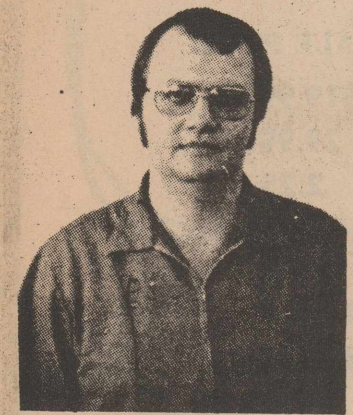

The Aransas County chapter of Young Homemakers met Dec. 2 at the high school homemaking department.

The members discussed plans for the Bicentennial year. One suggestion was designing a Bicentennial quilt. A couple of other suggestions were a cook book and historical displays.

The YHT members were also invited to join the Future Homemakers to go caroling and for Dec. 18 the YHT members are also invited to attend an open house given by the F.H.A. at the high school.

The Young Homemakers of Aransas County wish everyone a Merry Christmas and the very best wishes for the coming New Year.

Here's another reason to buckle up: the New York Court of Appeals recently ruled that a driver injured in a crash, who did not use an available seat belt, shouldn't recover for damages the seat belt might have prevented.

Good news followup: remember the Siamese-twin babies who were separated in a spectacular operation last year? They're well -- and walking.

BPW SCHOLARSHIP

Rockport Business and Professional Women's Club is offering again this year their \$500 scholarship to a graduating high school girl. Interested girls should pick up an application in the counselor's office.

Deadline for turning in an application is April 2, 1976.

I wish to publicly pay tribute to Loraine Close who has been with me for 13 years and is retiring 31 December, 1975. Her attributes are many—she was punctual, accurate, courteous, considerate, to name a few. Our State and County auditors will attest to her ability as my bookkeeper. She excelled in any duty assigned to her.

My office force joins me in wishing a very gracious lady and her husband, Willie, many blessings and much happiness in their retirement.

4th Graders Produce Film

Fourth grade students in Mrs. Little's class at Rockport Elementary school have produced a colorful filmstrip for the Governor's Office of Traffic Safety in Austin.

The title of the film is "The Safest Show on Earth." Materials are provided by the Governor's Office of Traffic Safety for the purpose of stimulating youngsters to become more aware of pedestrian, bicycle and passenger safety fundamentals.

In the Safety Ranger Program, students create their own illustrations. These illustrations are reproduced in Austin by Canson Associates Limited, designer of the program. Each class receives a custom produced filmstrip using work done by that class. The filmstrip and a sound recording become the property of the school.

Last year, nearly 250,000 Texas school children participated in the Safety Ranger Program. The program is offered free to all Texas 4th grade classrooms this fall.

LETTER TO THE EDITOR

I'm writing to remind the public that what is called Ski Basin is really a small boat harbor and I think the Coast Guard being called on to enforce the law at the entrance, it should be enforced correct (five miles per hour) as a small boat harbor as the state gave 400 acres to the Navigation District for a harbor and not for a Ski Basin.

Thanks,
W.S. Coaker

To My Many Friends and Constituents:

It is with a note of sadness I make this announcement.

I will not be a candidate for re-election to the office of Tax Assessor-Collector of Aransas County in the 1976 election.

Please accept my heart-felt thanks and appreciation to all of you that it has been my privilege and honor to serve for 16 years in this office.

December 31, 1976 will bring to a climax 29 years of public service in Aransas County, a record of which I am very proud.

A special thank you to my office force, without whom I could not have served the public that elected me to this important office. I hereby go on record endorsing as your next Tax Assessor-Collector Allena Jones, who has worked for me as chief deputy for 8 years and will be my chief deputy to the end of my term, 31 December, 1976. Her qualifications are above reproach. I highly recommend her to you for this important office in our County Government.

INDIANS AT ROCKPORT ELEMENTARY

Fourth grade students of Live Oak Elementary presented a Christmas program Tuesday morning at an assembly for the Live Oak students. The same program was presented Monday night at P.T.O. The musical program, "Christmas Is", was directed by Dona Acklin.

Indians were much in evidence at Rockport Elementary before Thanksgiving. The pupils in Mrs. Harris's first grade class were learning how the Indians helped our Pilgrims. Each child helped decorate and build the life-size teepee. Then, each one made a jacket, necklace and feather head band to wear. Pupils in the room are:

Ricky Adkins, Bobby Borey, Ruben Cano, Frank Garcia, Jr., Eddie Lancaster, Billy Bruce Myers, Domingo Ortiz, Buddy Stapper, Carlton Wood, Teddy Norland, Linda Cantu, Belinda Garcia, Michelle Griffith, Clara Hernandez, Jennifer Montgomery, Marisa Ramirez, Tammy Shettlers, Lori Strain, Nina Linney, Nina Waggoner.

When you talk about fishing lakes in South Texas it's difficult not to bring up Casa Blanca, the little city lake at Laredo.

This semi-tropical body of water averages only about 1800 acres in size, but it is a fine fishing hole. It has a history of hard times that dates back a long way, but Texas Parks and Wildlife biologists are now quite pleased with the results of their management efforts.

Not long after the lake was

built the dam washed out and most of the water escaped. This made it necessary to rebuild the dam and the lake was enlarged to its present size at that time. This called for a completely new start in the biologists' management efforts. By April 1966 the rough fish population in the lake had risen so high that the biologists did a total chemical kill of the lake and again started over. Since then the lake has done well.

Casa Blanca is only 24 to 30

feet deep at its deepest place, right near the dam, which would lead one to believe that it would be an excellent largemouth black bass lake. It is, but it also produces small sunfish and crappie in tremendous numbers. The largemouth is really not a very efficient predator and the sunfish population soon outstripped his ability to control them. This, of course, resulted in an overpopulation of stunted crappie and sunfish. A better predator was needed.

In May 1973 about 20,000 walleye fingerlings that averaged a little over two inches in length were stocked in the lake. This was strictly an experiment since no one knew whether or not this cold-water fish could even survive in the warm, semi-tropical lake. They have done well.

On last December 3 the biologists put sampling nets in the lake and caught ten walleyes. The largest was a female almost 24 inches long that weighed 5.4 pounds. Stomach analysis showed that their primary food was the stunted sunfish and crappie.

If a walleye the size of this largest one had been taken from Norris Reservoir, a famous walleye lake in Tennessee, it would have been seven or eight years old. Had it come from Clear Lake, a lake in Iowa that is also known for its walleye production, it would have been at least seven years old. Biologists were astonished to find that Casa Blanca was producing growth in walleyes that was two or three times that found in some of the best walleye lakes in the nation.

A second stocking of walleye

fingerlings is scheduled for Casa Blanca in the spring of 1976.

Walleyes normally spawn when they are four or five years old. Because of their tremendous growth rate, biologists believe that they may mature and spawn much sooner in South Texas. The possibility exists, although biologists are not sure, that a limited spawn occurred in Central Texas during the fish's second year. Casa Blanca will be monitored very closely from now on to see if any spawning does occur. Perhaps there will be no need for the scheduled stocking in 1976.

No Florida largemouth bass, the fish that crosses with the native largemouth to produce the fast-growing "Super Bass," has ever been stocked in Casa Blanca. There is a possibility that the Florida strain exists in the lake, however. Small ranch tanks on the Casa Blanca watershed have been stocked with Floridas and have had their dams washed out. The fish may have made it down to Casa Blanca. Biologists say that they have never picked up one of the Florida bass in their sampling.

Casa Blanca is not a very well known fishing hole outside the immediate vicinity of Laredo, but serious anglers should not overlook this lake. In addition to bass, crappie and walleyes, the lake has a good population of channel, blue and flathead catfish.

MAGIC GIFTS

The gifts brought by the Wise Men all had magical associations: gold for the sun mystery, frankincense as the smoke-maker, and myrrh, the healer.

A.A.R.P. Xmas Program Held

Approximately 85 people, members and visitors, attended the annual Christmas party of Rockport Chapter #1536, American Association of Retired Persons on December 10 at the Recreation Building at the Airport.

The Rockport High School Girls' Choir and the Rockport Mixed Choir under the direction of L.H. Sanders, director of music for the Rockport schools, furnished appropriate songs, closing with a "Song for Christmas."

Zollie Glass, retiring president, then introduced Mrs. Elizabeth Loessburg, assistant director of South Central District of A.A.R.P. from San Antonio. She preceeded her installation service by telling about ships and their part in their history of the world. She then likened the local A.A.R.P. organization to a ship and as she installed each member, giving the names that apply to a ship's crew. She had with her a copper sailing ship on display on the podium.

The following officers were installed for 1976:

President—John L. Leslie; 1st Vice-Pres.—Dr. Joseph Benjamin; 2nd Vice-Pres.—John C. Gore; Secretary—Mrs. Gladise Thompson; Treasurer—Mrs. Agnes Reasor; Zollie Glass—Legislative Chairman; Mrs. Esther Decker—Program Chairman; George H. Parker—Community Service Chairman; Mrs. Dorothy Leslie—Publicity; Mrs. Lucille Barber—Membership; Neal Gage—Chairman of Nominating Committee, and three directors—Neva Soren-

son, Dan Hodgins and Mrs. Frank Skrobarcek. Mrs. Irene Hopper was elected to the nominating committee.

Mrs. Lillie Wishert of San Antonio, a friend of Mrs. Loissburg's accompanied her on her trip to Rockport.

After a tour of the waterfront, from Copano Bridge down Fulton Road to the Rockport basin, both of them expressed surprise at the beauty and vowed to return to relax in the near future.

Following the installation, Santa Claus appeared on the scene and after a Merry Christmas to all, directed those present to pass by the Christmas table where each man found a gift for himself and each woman found a gift for herself.

Gladise Thomson, refreshment committee chairman, had a large supply of turkey & chicken and pimento cheese sandwiches and coffee, tea and punch. After a pleasant time visiting together, Santa Claus (Paul Riddle) bade all a farewell.

A.A.R.P. Card Party

On December 11 there were 8 tables of bridge and 3 tables of canasta at the weekly card party at the Airport sponsored by A.A.R.P. Mrs. Irene Hopper and Casey Edmiston hosted the group and refreshments were served during the game time.

Mrs. Dorothy Leslie won high in canasta and Mrs. A.G. Glenn, of South Fork, Colo. was second.

In ladies bridge Mrs. Gertrude Mills was high and Mrs. Zoe Heath and Doris Lamber-ton tied for second place.

In gentlemen's bridge Gordon Corger was high and Doug Duncan was second. Mrs. Fay Russell won the bingo prize.

There will be another party next week—same place at 1 o'clock.

up the palm trees given the club and to replant the trees around the band shell.

Mrs. Pat Evers, Flower Show chairman, reported that the schedule for the spring flower show will be ready at the next month's meeting. At that time, members must say how many will enter the show. At least 20 entries must be available. Mrs. Connie Garcia, president, reminded members of the Christmas party Thursday evening at the William Walston home.

Mrs. Mamie Caton, program chairman, introduced David Blankenship, who is a research biologist for the National Audubon Society. His work here is mainly with the whooping crane, while he is also concerned with birds of northeastern Mexico with emphasis on the white winged dove. Blankenship gave a very interesting and informative slide presentation on the whooping cranes at our refuge and other places.

Fix-It Tip

Somewhere on your water heater tank there's a sticker or tag telling you to drain the tank at regular intervals. Or maybe in the booklet that lists all the parts it advises you to do the same thing. You may be told to do this once a month or once every six months. Then there will be a reminder that there's a drain valve at the base of the tank. The purpose of draining is to

get rid of the sediment that accumulates at the bottom of the tank. A build-up of sediment makes the heating of water less efficient, shortens the life of the tank and can give you dirty

water. The valve is threaded so that you can use a garden hose on it. Trying to drain the tank a bucket-full at a time is not practical.

The T.E.L. Sunday school class of First Baptist Church met in the church parlors for their class meeting and Christmas party Dec. 12 at noon.

Mrs. Art Cox read a scripture from the 2nd chapter of Matthew, a poem "Star of the East" and also asked us to put Christ in our hearts first, and think of Him, and not leave Him off of our list. After all, it is His birthday.

Afterwards the songs, "Jingle Bells" and "I Heard the Bells of Christmas Day" were sung. Mrs. Polly Rogers read "Some Thoughts for Us." Mrs. Roy Kuykendall read a scripture from the 2nd chapter of Luke.

Creativity takes on its finest forms at Christmastime as homes are beautified both within and without, and safety should be woven into the finished product.

The Yule season is no time for accidents, asserts the Texas Department of Health Resources. There's a lot of room for a mistake, however. Trees, lights, candles, trees and mantle trimmings, your fireplace and excess paper can be a source of trouble.

Center of most home decorations is the brilliantly lighted and colorful tree, and it should be the place for starting your safety efforts.

In selecting a cut green tree, get one with a good green color. Needles of a fresh tree should be hard to pull from branches, and needles won't break when bent. Bounce the tree hard against the ground and you won't get a shower of needles if the tree is fresh.

Trees should be placed in a base which holds water, and this water should be checked regularly while the tree is up. Before mounting the tree, cut about two inches off the trunk to allow it to better absorb the water.

Placement of trees also is important, says the Department of Health Resources. Keep them away from stoves, fireplaces and radiators which could cause a tree to dry out quickly and perhaps catch fire.

What about decorations? Never use lighted candles on a tree or near other evergreens, decorations or wrapping paper. Candles should be in non-flammable holders and in locations where they cannot be knocked down or blown over.

In selecting lights, check for the Underwriters' Laboratories "UL" label. On all strings of lights, make certain that all connections are tight and that there are no frayed or bare wires. These could cause short circuits and perhaps a fire—or a shock to the person installing them.

Outdoor lights should be waterproof. They are especially made for the outdoors.

When away from home, or when you go to bed, turn off all lights.

And, never use electric lights on metallic trees.

Trimming for trees and elsewhere in the home should be of flame-retardant material, something that won't flare up if accidentally ignited.

If there are small children in the home, care should be taken in selecting decorations. The United States Product Safety Commission urges parents to avoid decorations that are sharp or breakable—including bubbly tree lights. It also warns against trim with small removable parts if used where

children can get at them. Pieces could be swallowed or inhaled. And, trimmings resembling candy could be eaten by a child.

When installing their trees, many people burn the trimmings from branches in their fireplaces. If burned a piece at a time, this shouldn't cause any

problem. But piling up a big mound of evergreens could cause popping and crackling and a large number of sparks. So be careful. And always use a screen before the fireplace.

The Product Safety Division of the Department of Health Resources hopes that all cloth-

ing will someday be flame resistant. Standards are now in effect for certain types of children's clothing. But until that time, extreme care needs to be taken.

Matches, lighters and candles should be kept out of the reach of children. Children and adults should avoid the wearing of loose, flowing clothes—especially long, open sleeves—near the open flames of a fireplace, stove or candle-lit table.

Here's another reminder

about children's toys. Efforts have been made to remove dangerous toys from retail sources. But, a safe toy in the hands of one child may be unsafe if used by a younger one.

When purchasing a toy, look for a warning label stating that the toy isn't recommended for a child under a certain age. If the label warns that the toy is too advanced for the child in mind, the purchaser should heed the warning and find one to fit the child. This will help reduce the

chance of injury. And, once those presents under the tree have been opened, gather up all those wrappings from the tree and fireplace area and remove them from the home.

Christmas should be a joyous occasion. Keep it that way by planning for safety, says the Texas Department of Health Resources. It will add to your enjoyment of the season to know that you and your loved ones are as safe as possible.
