Ticket Sale To Banquet to Start Tuesday

El Paso Group to Be Honor Guests Thursday Night

Tickets for the banquet to be given in the Crystal ballroom of Hotel Scharbauer here Thursday evening at eight o'clock in honor of El Paso Good Will Trippers who will be in the city that night will be placed on sale Tuesday morning. It was announced today by chamber of commerce officials, the banquet being sponsored by the chamber of commerce and Lions Club. The tickets are priced at one dollar each. Efforts will be made to have every business and professional man of the city, and their ladies, in attendance, the affair being open to the public. Banquet reservations may be made at the chamber of commerce office, telephone No. 39. Regular Wednesday luncheon of the Midland Lions club this week will be dispensed with in favor of the Thursday night banquet. A special invitation is extended to Rotary club members and Junior chamber of commerce members to join in making the banquet one of the largest ever held here.

Following the banquet, tables will be cleared from the banquet hall and members of the El Paso Good Will delegation will be hosts to Midland citizens at a big "western" dance, everyone being invited to attend. The Blue Bonnet Dance Set of El Paso will furnish special entertainment at the banquet and dance.

Newest Yoakum Pool Opener Testing for Water at 5,319 Feet

By FRANK GARDNER

Shell Oil Company, Inc. No. 1 Waples-Platter Company, opener of Yoakum's newest pool, today was testing at 5,319 feet, after encountering a slight show of water. It was believed that the water might be "pocket water" and eventually would exhaust after bailing.

At present depth, No. 1 Waples-Platter has 3,000 feet of oil in the hole. It has shown steady rise in fluid since entering the pay at 5,276, having had 1,000 feet of oil in the hole at 5,297 and 2,200 feet at 5,309.

The Shell discovery is located 2-310 feet from the north, 330 from the east line of section 616, block D. J. H. Gibson survey, two miles northeast of the Bennett field. Geophysical and geological information indicate presence of a "saddle" between No. 1 Waples-Platter and the Bennett.

New location for the southwest extension of the Bennett, offsetting to the east, J. E. Mabey Company No. 4 N. W. Willard, large producer, has been staked by Honolulu Oil Corporation and Cascade Petroleum Company at No. 3-741 Willard. It is 2,200 feet from the north and east lines of section 741, block D. J. H. Gibson survey.

In the east extension of the Denver pool, southern Yoakum, Honolulu No. 2 R. M. Kendrick started heading oil when depth of 5,093 was reached and logged increases below that point. At 5,105, pressures were 100 lbs. per inch. At 5,105, casing, then bailed dry, showing no water. Five hours later, the well made a 15-minute oil head into pits. It is drilling ahead below 5,105, with orders from operators to bottom hole at 5,145. Magnolia Petroleum Company No. 1 Kendrick is drilling time at 4,940. Sinclair-Prairie Oil Company No. 2-A Kendrick has moved out rotary and will rig up cable tools to drill ahead from 4,896, where it is now bottomed.

Deep Well Tested

A 35-minute drillstem test from 5,040-92 in Gulf Oil Corporation No. 16 J. B. Tubb, northeast outpost to the Sandhills Ordovician pool of western Crane, showed rise of 420 feet of fluid, of which the top 100 feet were drilling mud cut with oil, while the bottom 320 feet were salty sulphur water bearing a slight show of oil. Water was believed coming from Simpson sand, in which the well also had shown oil and gas. This morning, No. 16 Tubb was coring ahead below 6,032 feet in Simpson lime and shale.

Gulf No. 10 W. N. Waddell, a quarter-mile to the north, flowed approximately 42 barrels of 67.9-gravity distillate on four-hour test gravity open 1-inch casing at 6,012, where it was 40 feet in the Ellenburger, lower Ordovician. The first hour gas gauged 12,432,000 cubic feet daily; the second hour 19,052,000; the third hour the same; and the fourth hour 20,000,000 feet. Both oil and gas are originating from sand in the Simpson, middle Ordovician. First oil in the Ellenburger was expected to be indicated by core from 6,012-22, which was being bailed early today.

In the same district, Sinclair-Prairie at No. 3 Tubb-Community is drilling at 5,137 feet in sandy lime.

After logging increase in oil from 3,515-20, Gulf No. 5 M. B. McKnight, prospective discovery a mile northeast of the McKnight area in west-

District PTA Conference to Be Opened Here Tomorrow

Eighteenth annual conference of district six, Texas Congress of Parents and Teachers, will open here Tuesday, with registration for visiting delegates to begin at 2 o'clock tomorrow afternoon.

Midland delegates however, are asked to register tomorrow morning, beginning at 10 o'clock, in order to avoid confusion and delay in the afternoon registration.

A pre-conference meeting of the board of managers and an open forum to be conducted by Mrs. J. J. DeWitt, state chairman of Child Hygiene and the Summer Roundup, will follow the registration.

Entertainment for delegates will get underway with a double attraction at 8 o'clock. At that hour a courtesy tea honoring local presidents and all delegates to the conference will be given at the home of Mrs. E. D. Turner, 1705 W. Mississippi.

At the same time, the board of managers will be honored with a dinner at Hotel Scharbauer. Midland PTA groups will be hosts for both affairs.

Formal opening of the conference, slated to continue until noon Thursday, will be held at 8 o'clock in the Crystal ballroom with greetings, musical numbers, introductions, presentation of procedure course graduates, and an address by Mrs. Alma Thomas, forming a varied program.

John Torrio, Two Aides Plead Guilty To Tax Evasions

NEW YORK, April 10. (P)—The income tax evasion trial of John Torrio, former Chicago underworld leader, came to an abrupt close today when Torrio and two of his four co-defendants pleaded guilty.

Entering guilty pleas with Torrio were his brother-in-law, William Stockholder, and James Lapenna.

Federal judge John Clancy declared a mistrial for the other defendants.

British Will Offer Guarantees to Two Other Countries

LONDON, Apr. 10. (P)—The British cabinet in an emergency session today was reported reliably to have decided to offer guarantees of independence to Greece and Turkey.

Earlier, Prime Minister Chamberlain was said to have told Italy any attempt to seize the strategic Greek-owned island of Corfu would be interpreted by Britain as an invitation to war.

The urgent cabinet session coincided with emergency movements of British warships in the Mediterranean.

Receives News of Her Mother's Death

Mrs. N. B. Larsh has left for Atlanta, Ind., after receiving word of the death of her mother, Mrs. Jeanette Smith Sunday in that city. Funeral services are to be held at Atlanta Wednesday.

Mrs. Smith has a circle of friends here, having visited with Mrs. Larsh at her home.

Senator Lewis Is a Victim of Heart Attack

Supporter of FDR Dies Shortly After Illness of 6 Hours

WASHINGTON, April 10. (P)—A state funeral in the senate chamber was arranged today for Senator James Hamilton Lewis, (D-Ill.) who died last night of a heart ailment.

Senate officials said the funeral would be held tomorrow or Wednesday. Burial will be in Arlington cemetery.

WASHINGTON, April 10. (P)—Senator James Hamilton Lewis of Illinois died last night in Garfield Hospital of a heart ailment.

Lewis, a Democrat and staunch supporter of President Roosevelt, died six hours after returning by train from Chicago, his home. He became ill aboard the train and was taken by ambulance to the hospital. Death occurred at 8:25 p. m.

Mrs. Rose Douglas Lewis, wife of the senator, was with him when he died.

Lewis was known throughout the nation for his Chesterfieldian manners. He was 72.

Dr. Francis B. Hagner, a Washington physician was waiting at the station and attended the senator. The doctor said death was due to coronary thrombosis.

Edwin A. Halsey, secretary of the Senate, said he had notified senators of the death and that the Senate probably would adjourn immediately after convening today.

Lewis was the Democratic whip to the Senate, whose major duty it was to hold the party's voting strength readily available during floor ballot tests.

In that capacity, he followed with few departures the leadership of the Roosevelt administration. His most outstanding difference with the administration came over Mr. Roosevelt's efforts to procure Senate ratification of the St. Lawrence seaway pact with Canada.

That Lewis opposed steadily and vigorously.

A familiar figure at Democratic party national conventions, Lewis was active in party affairs at other times. He was chairman of the Democratic Senate campaign committee of 1934.

His dress, his red beard and his slow, dignified delivery of words on the Senate floor attracted Senate gallery attention.

Years before Lewis came to the Senate he became acquainted with Senator Borah (R-Idaho) and that friendship remained unbroken despite many subsequent conflicts as members of opposing parties.

Lewis defeated former Senator Otis F. Glenn by nearly 600,000 votes in the 1936 Democratic landslide, becoming the first Illinois senator to win election for two successive terms since the origin of the direct primary.

For a time he was a teacher, then a stevedore, lawyer, congressman, soldier, diplomat and senator—but always James Hamilton Lewis was the perfect gentleman.

His courtly manners were known from the water front of Seattle, where he labored in young manhood, to the senate halls of Washington and the capitol of Europe where his striking career took him.

Perfectly tailored suits, harmonizing shirts, ties, socks and handkerchiefs, a rakishly tipped hat, spotless gloves, beribboned eyeglasses and a carefully parted beard that was ashen-grayed pink until creeping age grayed it, made up a personal ensemble that almost obscured the man's abilities.

Early in his congressional career Champ Clark of Missouri dubbed him "the greatest dude in the United States." Speaker Tom R. "Cigar" Reed called him "the garulous rainbow."

Under the heading of "outstanding strong points" was written: "Improved musicianship," which, after all is the purpose of musical organizations.

The concert playing was graded on thirty-two phases, such as beauty of tone, control, rhythm and tempo on each of the three selections played. The march was given nearly all "A's." One judge never gave Midland less than an "A." The lowest grades were given us on the required number, "Ella's Procession" in which was an oboe solo that had to be played by a clarinet as our band has no oboe. On the selected composition, "Tournament" overture, we were given grades of about half "A's" and half "B's." Under the heading of "general comments" the judges wrote, "The general effect was good" and "this is a fine band." Under "outstanding strong points" was written "good technique and good spirit."

In the marching contest Saturday night Midland's highest grades to win a first division and the honor of playing in the National Contest were on playing, cadence, which means the speed of playing and marching, position of instruments, length and manner of step, uniformity of action, military character of movement, discipline, general effect, suitability of music, rhythm, and balance. All the above mentioned items received grades of "A's."

Odesa had the most entrants in the contest and won the sweepstakes trophy. Midland's students who won first division honors and the band, which won two first division grades, will be sent their respective trophies and medals in the near future.

To LUBBOCK

Mr. and Mrs. O. B. Holt left this morning for Lubbock.

SENATE VOTE FAVORS SALES TAX

Crisis in Southeast Europe—Map Tells Story

The midge kingdom of Albania, cramped between Greece and Yugoslavia, looks directly across the Adriatic Sea at the "heel" of the Italian "boot." Mussolini, after a long period of inaction while Adolf Hitler pursued his territorial grabs in central Europe, moves for control of the Adriatic by bringing the already Italian-dominated Albania under complete Fascist control. Il Duce can also use to advantage the crude oil that Albania has in abundance. Meanwhile, Italy strengthens its fortifications in the Dodecanese Islands, strategically located within an hour's flying distance of the Dardanelles, where Britain and France seek safe passage for their vessels in time of war. Seizure of Albania also would strengthen Mussolini's hand and possibly that of his axis-colleague Hitler in stopping Yugoslavia and Greece from joining the "stop Hitler" bloc headed by Britain and France. Above map highlights chief centers of latest Mussolini-inspired crisis in southeastern Europe.

Four Legged Chick Found at Hatchery

Mr. and Mrs. A. B. Pon, co-proprietors of the Midland County Hatchery, today were exhibiting a "first" for them in several years of chicken raising—a four-legged chicken.

The chick, of Buff-Minorea stock, was apparently normal in every respect except for the two extra legs. The legs, minus one toe on each, are growing out on each side of the back of the chicken.

Austin Man Victim of Auto-Truck Collision

PALESTINE, April 10. (P)—Arnold Suber, Austin, died today of injuries suffered in an automobile truck collision near here yesterday.

His sister, Mrs. Saddle Lemmons, was killed almost instantly. Her daughter was seriously injured but is expected to recover.

Pope Pleads for Peace in His First Easter Message to World

VATICAN CITY, April 10. (P)—Pope Pius XII raised his voice Sunday in his first Easter message from the throne of St. Peter's in an eloquent plea for the "peace of justice and charity."

His scholarly Latin phrases, delivered after Easter mass in the vast basilica of St. Peter's, cloaked specific suggestions for averting "dull flashes of war" which he said might blot out the "longed-for dawn of peace."

To a militarized world in which war and the fear of war dominated many thoughts, the Holy father pointed to the "sacred rights of humanity, liberty and dignity" and to a fair distribution of the world's goods as the way to peace.

He exhorted the nations to combat unemployment, to wipe out the "strident contrast" between luxury and poverty and to halt the spread of "destructive theories."

"These goods and riches which God has strewn in the world for the advantage of His sons," he said, should be fairly distributed.

He implored nations to cultivate "internal peace" and "conscience, to promote respect for legitimately constituted authority."

He asked that charity be added to justice in seeking a "reasonable and vital solution" even in the most heated controversies and that "reasoning and calm" supplant

Bones of Prehistoric Mammoth Unearthed By Road Men, Studied by Geologists Here

Posseman Held For Theft of Loot From Bank

PAOLO PINTO, April 10. (P)—A grand jury today indicted L. C. Stockton, one-legged Oklahoma paroled convict, on a charge of robbery in connection with the hold-up of the Grafado, Texas, bank Saturday. His trial was set for April 14.

In Breckenridge, Guy Hale of Eastland, a possessor who participated in the pistol fight in which Stockton was captured, was charged with the theft of \$520 of money Stockton took in the robbery.

The complaint was signed by Frank Sloan and S. C. Booth, Stephens county officers, and charged Hale with "theft of the personal property of L. C. Stockton."

anger and "dangerous incitement of feelings."

"How may peace be had," the Pope asked, "if unfortunately, even among nations . . . pact solemnly sanctioned and the plighted word have lost that security and value which are indispensable bases of reciprocal confidence and without which ardently desired disarmament, material and moral, becomes with each passing day less possible of realization?"

In the face of "such a dangerous storm," the Pope begged "all to return to the King of Peace, to the Risen One from whose lips we hear the consoling words, 'peace be to you,'" and said:

"If men will turn to test the sweetness of this love and will rest in it, the radiant sun of peace will finally rise in the world. Reasoning and calm will supplant provocative anger. . . ."

HAS TONSILLECTOMY.

Carl Smith underwent a tonsillectomy in a Midland hospital this morning.

NEWS OF DEATH HEARD.

J. H. Williamson received word today of the death of his brother, A. K. Williamson, of Algood, Tenn., Friday. The Tennessean was 97 years old.

Measure to The House For Approval

Two-Third Majority Must Be Mustered Before Submission

AUSTIN, Apr. 10. (P)—The senate finally voted today for submission of a constitutional amendment to finance social security by a sales-service-natural resource tax and promptly reduce taxes. The vote was 21-10.

To submit the amendment the house likewise must adopt it by a two-thirds majority and so far it has refused to give this approval on similar measures voted upon.

Proposals to liberalize pensions and levy supporting taxes by statutory enactment are pending in the house and are expected to come up at an early date.

The long session hits the home stretch Monday. If it should end on the 120th day, as suggested by the Constitution, the adjournment date will be May 9. Many legislators were of the opinion, however, that May 20 or 27 would be a better guess on the quitting date.

Advocates of the statutory instead of constitutional route of imposing new taxes will make a determined effort to bring up a tax bill in the House during the next few days. They easily can obtain a majority vote to bring about floor consideration, but so far many have been unable to gain the needed two-thirds.

Many of them are of the opinion that unless they get a bill to the Senate by next week end it will be virtually useless to send one across. With calendars crowded, it would be extremely difficult to push something as controversial as a tax bill through all stages of Senate consideration in the final three weeks of the session.

Some taxes or increases mentioned as possibilities in event a general sales tax never is approved are 3 1/3 per cent boost in levies on oil, gas and sulphur, 10 to 15 gallon rise of the gasoline tax, an added 10¢ package on cigarettes, an additional 1 per cent levy on inheritances, a tax on billboard advertising, one on New York and Chicago stock exchange deals in Texas, a levy on amusements, one on cigars, a tax on beer and soft drinks, one on domino tables and a 2 per cent impost on phone, gas and light bills.

Much of the remainder of the session will be consumed in consideration of the five major appropriation bills. Members of the House appropriations committee said floor discussion of these measures would be started within a week or ten days.

Body of Flier Who Died in Crash Is Removed to Alpine

ALPINE, April 10. (P)—The body of Lt. Robert L. Grantham, coast guard air pilot who died Thursday when his plane crashed in the mountains southeast of here, was brought into Alpine at noon Sunday.

A searching party reached the charred wreckage of the plane early in the morning. Travel was entirely by means of horses and mules.

The three coast guard enlisted men who survived the disaster were reported recovering from the hardships they endured during the approximately 48 hours that they were lost in the rugged Big Bend country.

They are Electrician's Mate Robert A. Paddon of Mobile, Ala., in the army hospital at Fort D. A. Russell, near Marfa; Radioman James A. Dinan, El Paso, and Aviation Machinist's Mate Clifford J. Hudder, Gloucester, Mass., under medical care here.

Coast guard officers said that the three men would be ready to return to their El Paso station in "two or three days."

The searching party reported that it found the coast guard land plane had been completely destroyed. When the craft burned it deprived the three survivors of the emergency rations that had been carried. As a result they had no food from the time of the crash shortly after noon Thursday until around noon Saturday, after finding their way to the Kate Neville ranch, 30 miles southeast of Alpine.

The three enlisted men saved themselves by jumping with their parachutes after ice coating on the wings had made certain that the plane could not remain aloft much longer. They reported that Lieut. Grantham heroically continued at his post until all three of his men had jumped. Then he sought to "bail out" but could not get free of the plane and was carried to his death.

Coast guard officers were awaiting word from Mrs. Helen Grantham, at El Paso, as to disposition of her husband's body.

Notorious World War Evader Will Return And Serve Sentence

NEW YORK, April 10. (P)—Mrs. Grover Cleveland Bergdoll, wife of the notorious World War draft dodger, announced on her arrival from Europe today her husband would sail next week from Germany to surrender himself to military authorities and serve the remainder of a five-year sentence imposed upon him before his escape in 1919.

Mrs. Bergdoll went to Europe last December with the announced intention of persuading her husband to return to America.

The Co-Operative Movement Expands

By WILLIS THORNTON.

Now that the Co-Operative League has decided to conduct its own lobby in Washington, the movement may be said to be mature in this country. For that is the history of almost organizations: when they grow big enough and strong enough, they open a Washington lobby. Though the name "lobby" has acquired an offensive odor in American politics, the thing itself is not necessarily offensive if conducted openly and on the level.

There are governments today based on the idea that a man should be represented in his government not as a citizen of his community, but as a member of his labor organization, a worker or employer in his trade or business.

The American institution of the lobby is our own means of getting men so represented. As citizens, they are represented by the congressmen from their geographical districts. But as members of their trade unions, their chambers of commerce, their industries, their organizations of every sort, they are represented by unofficial lobbies which defend their group interests before the legislators.

The growth of co-operative associations in the United States has been so great in the last few years that it represents a powerful group interest.

The Consumers Co-Operative Association, a federation of 425 co-operatives in the middlewest, has more than 100,000 patron-members.

The Credit Union National Association reports 2,000,000 members of credit unions, most of which growth has taken place during the last 10 years.

One-sixth of all farm supplies in the country are bought by co-operatives, which also handle huge quantities of oil products. At least 3,330,000 consumers buy through 11,000 co-operatives.

This is a big factor in the national economy, and one which is no longer to be ignored in any calculations on the business scene.

Through its affiliation with the International Co-Operative Alliance, representing 70,500,000 members of co-ops in 39 countries, the Consumers Co-Operative Association is inviting to Kansas City the triennial international convention in 1940, previously scheduled for Prague.

Such a meeting under Nazi auspices would be practically impossible. If the American co-ops could land such a meeting, it would bring thousands of progressive-minded people to visit the United States, which is now beginning an active campaign to bring travelers from abroad.

The co-operative movement, which only a few years ago was regarded as many as a visionary activity of a small group, is itself getting into the realm of big business.

No Snake-Eating

If you're thinking of eating snakes in public, don't go to Kansas to do it.

It's against the law. Nothing is provided relating to the eating of live goldfish, but we can look for such a law any time now.

The pro-snake statute is just one of the freak laws encountered by Prof. Newman F. Baker of Northwestern University in a trip through the wonderland of the state statute books. He found laws against inciting hostile Indians to break a treaty, against hitching a stallion within 800 feet of a place of common worship, against stealing a neighbor's cook or butler.

It's easy to get a law passed, but hard to repeal it, no matter how ridiculous a change in times has made it. Any state which purged its statutes of all this useless lumber would be doing a great service.

And by the way, what has happened to Congressman Bruce Barton and his crusade to repeal a law a day?

The Distaff Side

"Isn't that stupid?" asked Amy Johnson.

Frankly, yes, we're inclined to answer after reading of her complaint that British defense officials, allotting emergency jobs in war time, assigned her to drive a truck.

Amy Johnson is a crackjack flyer. She thinks women thus qualified should fly in case of war.

Let's not be shocked too quickly. Why not, pray?

Is it any worse to put a qualified woman pilot in a plane where she may be shot down, but at least has a chance to defend herself, than it is to bomb her in her home without a chance to raise a finger?

Yet there are people scarcely moved by the latter, now an expected incident of any war, who will get very indignant at the thought of a woman flyer in war time.

Isn't that stupid, we ask, echoing Miss Johnson.

A Kentuckian advocates two violins for the masters. Fiddles, says he, get tired like fiddlers. How about the listener?

Hollywood has a new business—escorts for those too tipsy to get home by themselves. Since the escorts are handsome college men, the movie capital may expect a wave of women drinkers.

In Detroit, a fellow routed five policeman with dish water. Just like their wives do at home.

Possible scene at outbreak of the next war. A European cabinet minister calls his aide. "Get out that treaty file," he says. "I rather think we've pledged to support both sides."

Hobbies are as important as your vocation, says an educator. Yes, if you lose your job, you can always use the stamps to mail applications.

Any Solution in Sight?

• BRUCE CATTON IN WASHINGTON

WASHINGTON, April 10. — It is just possible that a pattern of great significance for the handling of industrial and labor problems is being worked out here by committees operating under the Wage and Hour Division of the Department of Labor.

These are the industry committees which are preparing minimum wage recommendations for Administrator Andrews.

Under the wage-hour act, the present minimum is 25 cents an hour. This is to be stepped up automatically to 30 cents next October, and in 1945 is to advance to 40 cents. The industry committees are trying to work out scales somewhere between the 30-cent level of next October and the 40-cent level of 1945, so that 1945 will not bring too great and sudden a dislocation to low-wage industries.

So far, seven of these committees have gone into operation, and for a 32 1/2 cent rate, and the woolen-textile committee has called for a 32 1/2 cent rate, and the woolen-textile committee has come out for 36 cents. Committees now holding sessions are those for the apparel, hosiery, hats, millinery, and boot, and shoe industries.

MACHINERY IS SIGNIFICANT.

WHEN Commissioner Andrews receives a committee recommendation, he may approve it and embody the recommended rate in a wage order. That rate then becomes the legal minimum wage for that industry until 1945. The commissioner may send the report back to the committee for revision, or he may set up a new committee and start afresh. He cannot, however, make changes in the recommendation himself.

Now the mere fact that some 1,645,000 workers are employed in the industries for which committees have already been selected is not a striking thing about this venture, nor is the fact that approximately 133,000 will receive wage increases under the two recommendations already made — if those recommendations get Andrews' approval.

What is really significant is the kind of operation which the Wage and Hour Division is attempting. Each industry committee must by law consist of an equal number of representatives from each of three different groups — employers, employees, and the public. The representatives are chosen by the Wage and Hour Division.

For groundwork, the committee is given statistics and economic data prepared by the Bureau of Labor Statistics. This material is pretty extensive. For the textiles committee, for instance, it comprised a 154-page printed book containing an extremely detailed cross-section of study of the whole industry.

EVERYBODY PARTICIPATES.

THIS digested, the committee calls witnesses — workers, retailers, wholesalers, economists, heads of trade associations, and so on. Then the employer and employee members of the committee speak their minds. In the end, after a tremendous amount of informal discussion, argument, and cross-questioning, the committee votes on the various wage rates which have been suggested until the majority is able to agree on one.

Several things are happening here. For one, capital and labor are getting another lesson in the art of

sitting down around a council table and going over their problems, seeing each other's point of view and looking at the industry as a whole.

For another, the fact that the general public has an equal concern in these problems with capital and labor is getting practical recognition. For still another, the responsibility which rests on the consuming public is being stressed in any of this to hint that the lion and lamb are about to bunk together amicably. But the committees are doing the job they were set up to do.

They are sitting down side by side — C. I. O. leader sandwiched between factory owner and college professor to thresh things out, to reach some sort of fair solution which will benefit the underpaid worker without either driving the owner out of business or skyrocketing prices out of the consumer's reach. (Copyright, 1939, NEA Service, Inc.)

Texas Today

Why not develop the vegetable dehydrating into a "big business" in Texas? asks the state planning board. After an extensive survey the board was convinced the state possessed abundant advantages to operate the industry successfully.

In this, some experts believe, lies an opportunity to convert and investment into millions of dollars.

During the world war, the survey pointed out, an inevitable ingredient of the overseas army cook's mulligan stew was a canful or two of what appeared to be a colorful assortment of hard chips.

In the boiling water the chips began to soften and swell. Soon a savory odor of cooking vegetables was an indication the mixture was ready for blending with chunks of beef.

The 60-pound can contained what had been two bushels of vegetables which had been dehydrated to conserve cargo space in the congested troop ships.

"Dehydration of vegetables is nothing new," the report says, "but not until world war days did the business of squeezing water out of vegetables and processing them for compactness, really become big business."

After the war, dehydrated vegetables were popular with housewives. They became accustomed to them when the government sold its surplus supplies. They were easy to use—a pot of boiling water, a handful of dehydrated chips and some beef and in a short time there was beef stew or vegetable soup.

There were no tops to dispose of, no peeling, no washing. These chores had been taken care of before the vegetables were put through the dehydrating process.

"So," say the experts, "why can't housewives become convinced all over again that this would save many an hour of kitchen work?"

"Why not an extensive advertising campaign pointing out this fact and rebuild the market?"

When the war returned to normal after the war, the gardens of the nation began to produce more and more fresh vegetables. Arid land was brought under culti-

vation through extensive irrigation and fine specimens of vegetables began to glut the market.

Prices dropped and the supply was greater than the demand. Thus, the market for dehydrated vegetables was reduced.

Nature, however, balancing supply and demand with droughts and insect plague, brought a sharp reduction in the supply with resultant soaring prices.

Thrifty housewives, turned to the grocery shelves for dehydrated vegetables but, like Mother Hubbard, found the cupboard bare.

Industrialists who had stopped dehydrating vegetables, however, lost no time in reconditioning dust-covered machinery and in a short time a steady supply of products began flowing to the markets.

Reserve stocks were increased in years of bumper crops and during the depression the daily fare of many needy was broadened by a ration of dehydrated vegetables.

"Today," says the report, "the greater portion of dehydrated vegetables are produced in the east and on the Pacific coast," notwithstanding that Texas is a prolific producer of many varieties.

For instance, Texas is the largest spinach producing state in the nation and no other state matches its production of beets.

Only California tops Texas in the production of carrots.

The planning board says opportunities for beet and carrot processing plants are splendid—that the climate, soils, transportation facilities and natural resources of the state point toward success in such a venture.

"The growing seasons for beets and carrots range from 220 days in the north and central portions of the state to 320 days a year in the Lower Rio Grande Valley," the board says. "However, the raising of

Miss Frances Burris And Foy Lesley Are Wed Sunday Morning

Miss Frances Burris, daughter of Mrs. Mae Burris, and Foy Edward Lesley of Midland, son of Mr. and Mrs. Foy E. Lesley of Phoenix, Arizona, were married in a simple ceremony at the Baptist pastor's home here at 9:45 o'clock Sunday morning. Rev. H. D. Bruce, Baptist pastor, repeated the single ring marriage service in the presence of relatives and friends of the couple.

There were no bridal attendants. The bride chose a wedding dress of blue crepe with pink hat and gloves and black patent shoes and bag.

She is well-known in Midland where she was reared and educated, being a graduate of Midland high school. She was on the typing team which entered the regional contest as one of her school activities and made a good scholastic record. She has also been featured on programs as a dancer, reader, and pianist. At present she is employed in the offices of the law firm of Whitaker, Perkins, and Turpin.

Mr. Lesley came here from Phoenix, Arizona, a little less than a year ago. He is employed by the Midland Hardware company.

The couple is at home at 1201 S. Big Spring.

Couple at Home Here Following April 1 Wedding

Miss Nell Sapp, daughter of Mrs. J. L. Sapp of Midland and J. L. Sapp of Corona, and Joel Weathered, son of Mr. and Mrs. Chas. Weathered of Midland, were married April 1 in Odessa.

Rev. W. C. Harrison, Baptist pastor, read the single ring ceremony at his home.

Mr. and Mrs. W. F. Nees of Midland attended the couple.

The bride has lived in Midland about three years, graduating from Midland high school with the class of 1938. She took part in the choral work and other school activities.

Mr. Weathered was reared in Midland and also graduated from Midland high school in 1938. He is employed by Felix Stonehocker, building contractor.

Mr. and Mrs. Weathered are making their home at the Strader apartments.

beets and carrots in south Texas is carried on primarily with a view to serving the winter markets which bring better prices. Consequently, planting these vegetables is arranged so that the shipments begin in November and run into June."

Thus, carrots and beets raised in the "off season" in south Texas probably could be obtained by a dehydrating plant at more satisfactory prices and surpluses over the needs of shippers could be absorbed in winter months and insure a year-round operation.

"The value of such a plant to farmers in that section of Texas," the board says, "would be such that wholehearted support for such a venture could be expected from the community in which the plant was located."

Transportation facilities in Texas are such that shipments of dehydrated vegetables are possible to all sections of the nation and major ports of the world.

Natural gas and fuel oil, a plentiful supply of water and an abundance of the type of labor required for the operation of such plants are factors which, the board says, seem to insure an economical and successful future for dehydrating plants in Texas.

Besides vegetables, the survey says, dehydrators could utilize many fruits.

"Incidentally," the survey con-

Ho Hum and Hi Ho for Springtime

A mighty yawn from a tiny tike. Looks as though it might be a greeting to the spring season, but when the new magazine, Win printed this picture and asked for poems inspired by it, a high percentage of contributions expressed fear the baby was growing in a world to be torn by war and bloodshed.

Charley Guy's "Today's Chuckles" column, in the Lubbock Avalanche-Journal, has these cracks: Amherst's Beta Theta Pi cabled Spain's General Franco that he could be on good terms with the fraternity. Maybe one of the brothers wants to wear his uniform to a costume party.

Now we know what's become of all the burlesque queens. They must be studying the annual world's fair circuit.

France would like to exert French influence on General Franco in some other place than his name.

At the close of a Los Angeles chamber of commerce meeting, sun-

men took up a "collection." That got the city's name in the news. So the bandits probably called it "an advertising appropriation."

Elevator strikes in the news. The public gets no lift out of them.

What's going on in the Ohio legislature? News dispatch says a "bare majority" voted for an anti-nudism bill.

There will be one advantage in Czechoslovakian separation. As two nations, the spelling problem will be easier.

Our idea of a hard job would be trying to get Governor O'Daniel to endorse a quick biscuit preparation.

A New York girl asked an electric concern for a sample of "electricity," which she is studying in school. Wonder if the company wrote back: "Just stick your finger in a light socket and we will send it to you."

Remember this, you gals who succumb to each whim of fashion. As waistlines go lower, they are bound to grow larger.

cludes. "Texas is the pivot of the southwest market area, consisting in addition to Texas, of Oklahoma, Arkansas and Louisiana. This area with a population of more than 12,000,000, has a spendable income of more than \$5,000,000,000 (billion). In 1930 approximately 1,500 establishments were engaged in wholesale grocery and food distribution, and only six of this number participated in the distribution of dried fruits and vegetables.

"Yet, just across the international border, in Mexico, thousands of tons of chick peas are raised annually, dehydrated and shipped overseas by American exporting firms. There is a steadily increasing market for dehydrated vegetables, not only in the United States, but in the countries of Europe where people are turning more and more to foods in concentrated forms.

"It is a manufacturing possibility which the state of Texas should not overlook."

Ideal Girl Named Redbud Queen

Chosen for her charm, good taste, intelligence, beauty, grooming and other qualities which make her the most nearly "Ideal American Girl" on the campus at Texas State College for Women, Miss Ruth Vogel of Wichita Falls reigned as Queen of the Redbuds during the recent Redbud Festival. A student-faculty "Charm Committee" selected the tall blonde from among sixty candidates elected by students. Her coronation ceremony and ball climaxed a week of campus activities centered around the development of personality and beauty, known as "Redbud Week" because it was at the same time as the annual visitors' pilgrimage to see the 2500 flowering redbuds.

Weddings Lend Romantic Note to Easter

Miss Bodine Becomes Bride of Midland Man at Abilene

An Easter eve wedding of interest to Midland friends was that which made Miss Laverne Bodine, daughter of Mr. and Mrs. W. P. Bodine of this city, the bride of Gaines Murchison of Midland, son of Mr. and Mrs. J. S. Murchison of Crockett. The wedding took place at the home of Dr. Cox, president of Abilene Christian College, Saturday evening at 7:30 o'clock, at Abilene. The single ring ceremony was read by Dr. Cox.

Miss Bobbie Clements of Midland was maid of honor and Herbert Callaway of Crockett best man.

The bride wore a navy and white afternoon dress with matching accessories. Her flowers were a corsage of white roses.

Miss Clements wore a navy dress with white coat. Like the bride's, her accessories were in navy and white.

Others present for the wedding were: Cleo Tidwell and Harold Hensley of Midland, Duard Snodgrass of Abilene, Mr. and Mrs. Carl Hensley of Abilene, Miss Katherine Davis of Brownwood, Wilburn Manahans of Midland, and Miss Doris Clonks of Abilene.

Mr. and Mrs. Carl Hensley entertained the group with a dinner at The Terrace in Abilene, following the wedding.

Mrs. Murchison is well-known in Midland, having been reared and educated in the Midland schools. She is a graduate of the Midland high school where she took part in choral and other activities. She is now employed in the offices of the Southwestern Bell Telephone company.

The bridegroom is a graduate of the Crockett high school and has lived in Midland about two years. He is associated with the Humble salesforce here.

Stunning Ensemble

Bess Johnson, radio actress, wears a stunning ensemble which includes a navy and white check silk dress and a lightweight wool jacket in navy blue with matching check revers.

Howard Mickey, Dale Mickey, Van Cummings, James Wozencraft, Betty Ruth Pickering, Elise Pickering, Mary Taylor, Muriel McHargue, Bobby Wood, Marcelline Howard, Bonnie Collins, Frances Collins, Betty Mae Collins, Mildred Jones, Ann Jones, Adah Belle Reader, Billy Wells, Rosemary Rankin.

Taking cars were: Rev. and Mrs. John E. Pickering, Mrs. Glenn Brunson, Mrs. S. E. Mickey, Mrs. L. L. Butler, Mrs. Hall.

Margaret Murray Sings Solo at Naomi Class

A special solo by Margaret Murray, accompanied by Miss Frances Farnham, featured the Easter morning meeting of the Naomi class at Hotel Scharbauer.

Mrs. C. K. LaGue taught the day's lesson, with Mrs. A. E. Horst presenting the lesson reading.

Miss Mary Lowry gave the devotional and Mrs. Ruth Ramsel led the song service.

Twenty members were present and one visitor, Miss Hove Jenkins of Dallas.

Announcements

TUESDAY

The 1939 Sewing club will meet with Mrs. W. F. Neeb Tuesday afternoon at 3 o'clock.

Civic Music club has postponed the program scheduled for Tuesday evening.

Regular meeting of the Delphian chapter for Tuesday morning has been postponed.

Twentieth Century Study club will meet Tuesday at 8 o'clock with Mrs. Ed Reichardt, 1011 W. Missouri.

Music Is Feature of Bible Class Meeting

Special music was a feature at the Men's Bible Class Sunday morning.

Song service was led by Lige

Constipated?

"For 30 years I had constipation, awful gas, bloating, headaches and back pains. Adlerika helped right away. Now I eat sausage, bananas, etc. anything I want. Never felt better." Mrs. Mahel Schott.

ADLERIKA

Easter Sunday Afternoon Service Unites Couple Here

Miss Margaret Wall and Drexie Crowe, both of this place, were married in a 5 o'clock ceremony at the Methodist church Sunday afternoon.

Easter lilies decorated the altar where the couple stood to exchange nuptial vows. Rev. W. C. Hinds reading the single ring service.

Mrs. Joyce Davenport was matron of honor.

About 16 guests were present for the wedding.

The bride wore a dusty pink frock with light blue accessories. Her flowers were worn as a corsage. She has lived in Midland about two years and is night operator at the Hotel Scharbauer desk.

Mr. Crowe came to Midland about three years ago. He is employed at the City Cleaners.

The couple will live at Shady Lawn.

Three Talks Mark Program of Young People's Meeting

Preceding the meeting with a thirty-minute junior choir practice under Mrs. Frank Elliott, Young People of the Presbyterian church called their evening session to order at 6:30 o'clock for a program led by Frances Ellen Link, on the theme, "Jesus and His Kingdom."

The following numbers were presented:

Song, "All Hail the Power of Jesus' Name."

Scripture, Marilyn Sidwell.

Prayer, Betty Kimbrough.

Talk, "Minority Thinkers", Roger Sidwell.

Talk, "Dealing With Minority Thinkers", Mary Jane Harper.

Talk, "The Kingdom Expansion", Billy Kimbrough.

Benediction.

Bill Ferguson, president, was in charge of the meeting.

Present were: Marilyn Sidwell, Roger Sidwell, Lynn Stephens, Billy Kimbrough, Frances Ellen Link, Betty Kimbrough, Merle Scott, Eleanor Wood, Mary Jane Harper, Raymond Mann, Cedric Ferguson, Bill Ferguson, Walter Johnson, Mildred Braden, Mrs. W. L. Miller.

Club Members, Families Have Easter Hunt

Stitch and Chatter club members and their families were entertained with an Easter egg hunt and wicker race at the C ranch Sunday afternoon.

Guests gathered at 1:30 o'clock and played indoor and outdoor games, inspected the bunkhouse and corals, made pictures and hunted eggs during the afternoon.

Present were the hosts, Mr. and Mrs. Chas. Anderson and children, Billie and George, Mr. and Mrs. Ben Biggs and daughter, Shirley, Mr. and Mrs. R. F. Hedges and Farrar G., Mr. and Mrs. Chas. Ward and children Billie and Donna, Mr. and Mrs. W. P. Hedges, Mr. and Mrs. L. M. Hedges and son Leslie, Mr. and Mrs. P. D. Lynn Reagan, Gwynn Reagan, Mrs. Leila Hedges, and the following cowboys who were special guests: Hub Castleberry, P. A. Bird, H. S. Whittenburg, Mark Mensell, Clay Gates, Mike Price, Bill Jones, Lester Taylor.

Midkiff, and a solo, "He Died For Me," was sung by Mrs. Ruth Ramsel. "Calvary," by Rodney, was played on the cello and piano by Ned and Miss Lydia Watson.

Judge Chas. L. Klapproth delivered the lesson sermon to the 33 present. He took as his subject "Paul Preaches the Risen Christ."

A barbecue will be given by Clarence Scharbauer at 5:30 Saturday afternoon for the Men's and Naomi classes of the Hotel Scharbauer.

You can do it, unless you let

Side Glances-----By George Clark

If a clinging vine seems to be wrapping herself around all the sturdy oaks in sight, don't try to out-cling her. Instead, go in for sophistication and make her look silly.

The women who do all the crying about other women taking things away from them are the ones who let a newcomer walk in and name the weapons.

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Is it better for a guest to take a small serving of each food offered him, even though he leaves most of it on his plate than to refuse it?

2. Is it necessary, for politeness' sake to take a second helping when it is offered?

3. Should a hostess urge her guests to eat more than they really want to?

4. Is it good manners to comment on a dish?

5. If a dinner hostess has prepared a meal herself, is it thoughtful to tell her afterwards how good it was?

What would you do if—
You are a woman and you drop your gloves when there is a man nearby—
(a) Give him a chance to pick them up?
(b) Reach for them quickly yourself?

her scare you into thinking that clinging vines have a monopoly on men.

If an oh-so-smart business woman seems to be taking what you want—don't try to fight her way. Pick yourself a different set of weapons. Her very smartness is sure to be irritating a lot of people. You build up the people she tears down, and you'll get somewhere.

The reason so many women never get what they want is because they give up the minute a woman comes along who looks like tough competition.

"I hate to go to the country this summer. The best fruit and vegetables are shipped here and you just have to take what's left."

Easter Morn Wedding Service Is Read for Mr. Lupton, Miss Lacey

COLORADO CITY, April 10.—(Sp.)—Prominent in the Easter wedding twilight at Colorado City was the ceremony for Annetta Lacey and James B. Lupton of Midland at 8:45 Sunday morning at First Methodist church.

The Rev. S. H. Young, pastor of First Methodist church at Sweetwater and father of Mr. Lupton's brother-in-law, said the single ring Episcopal service in front of an altar of fern and Easter lilies.

Mrs. N. H. White sang the pre-nuptial solo, "At Dawning." Mrs. O. B. Price accompanied her and played the wedding march.

Attendants for the bride were Lucille Bodine, who attends the University of Texas, as maid of honor, and Joyce Lacey of Austin, aunt of the bride, as bridesmaid. The bridegroom was attended by Bob King as best man and by Jimmie James of Austin.

Ushers were Charles Garrett, Charles Smith, George Kiker, and Robert Lacey. Marie Louise McElreath of Dallas was ring-bearer and Billie Joyce Lacey flower girl.

Miss Lacey was gowned in white satin made with leg-o-mutton sleeves, a sweetheart neckline marked with white satin fluting, fitted waistline and floorlength skirt. Shimmering marked the shoulders and gave fullness below the waist line. Her veil of illusion was finger-tip length and was caught about her head with orange blossoms. She carried an arm bouquet of Easter lilies.

A reception at the Lacey home followed the ceremony. Immediately after the cutting of the wedding cake the couple left for a week's wedding trip, after which they will be at home in Midland, where Mr. Lupton is employed. For travel the bride wore an ensemble of dusty pink wool crepe with navy trim and navy accessories.

Mr. Lupton is the daughter of Mr. and Mrs. R. R. Lacey of Colorado City, a graduate of Colorado high in 1937; she attended business college in Austin before becoming assistant to the manager of the Colorado City chamber of commerce in June, 1938. She resigned this position on April 1.

Mr. Lupton is the son of Mr. and Mrs. Frank Lupton, pioneer Coloradans. He finished Colorado high school in 1933 and has since been engaged in construction work, having been employed with a firm in Midland for the past year.

We, The Women

By RUTH MILLETT

Women face stiff competition all their lives. No matter what a woman wants—whether it is a good place in the business world, a high place in the social world, or first place with some man—she has plenty of competition.

The only way to win against the other woman or women is to choose your own weapons.

Don't look at another woman and say, "I can never hope to be as smart or as clever as she is."

Say instead, "She may be clever—but no matter what she does to herself she'll never be as good looking as I am."

Make her fear your looks—instead of your fearing her brains. The only way you have to win whatever you want to win is to look yourself and your competitors over carefully, find out what you have that they lack, and then concentrate on that.

The women who do all the crying about other women taking things away from them are the ones who let a newcomer walk in and name the weapons.

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Is it better for a guest to take a small serving of each food offered him, even though he leaves most of it on his plate than to refuse it?

2. Is it necessary, for politeness' sake to take a second helping when it is offered?

3. Should a hostess urge her guests to eat more than they really want to?

4. Is it good manners to comment on a dish?

5. If a dinner hostess has prepared a meal herself, is it thoughtful to tell her afterwards how good it was?

What would you do if—
You are a woman and you drop your gloves when there is a man nearby—

Rev. Pickering Talks at Endeavor Sunday Evening

Senior Endeavor of the First Christian church held a special Easter service Sunday evening.

Rev. J. E. Pickering talked on "Christ Is Risen."

Elma Jean Noble read the opening remarks for talk.

A period of practice on special songs to be sung at the revival tonight occupied the remainder of the meeting.

Nineteen were present.

Newspaper Ads Will Be Continued by the Liggett & Myers Co.

Continuation of the 1939 newspaper advertising for Chesterfield Cigarettes, just released by Liggett & Myers Tobacco Company for national newspapers during April and May, features more famous personalities in Chesterfield's drive to emphasize more smoking pleasure through the right combination of the world's finest cigarette tobaccos.

The Chesterfield theme is supported by such well-known screen, radio and sport stars as Bette Davis, Paul Whiteman, Errol Flynn, Olivia deHavilland, Howard Hill, Big Bill Lee and others.

In addition to the newspapers, Chesterfield's magazine and display advertising continues to point out

that Chesterfield's famous can't-be-copied blend gives smokers what they want and that every day more and more smokers are finding real mildness and better taste in the cigarette that satisfies.

LARGE CROWD EXPECTED FOR AAU DISTRICT MATCHES TONIGHT

Karnes-Brasher Bout Expected To Feature Card

With additional boxers entering daily, interest in the district AAU matches here Monday and Tuesday night is rapidly increasing.

Latest entrant in the tournament is Jess Karnes of Odessa. Winner of the district Golden Gloves championship at Big Spring in February, Karnes knocked out two other youngsters in the state tournament at Ft. Worth before finally being eliminated. Karnes has sent word to promoter Bob Royal that he will bring about at least three mates from Odessa to enter the tournament.

The latest count showed 16 Midland youths had entered the tournament, there is a possibility others will file. Entrants have until Monday at noon to file. Weighing in exercises will be held Monday afternoon at 2 o'clock.

All matches will be held in the Midland Athletic club, located upstairs over the Midland Drug store. Reserved seat tickets are on sale at the club and at the City Drug. Reserved seat tickets are priced at 75 cents, general admission tickets at 40 cents. Student admission will be 25 cents.

Entrants filed to date are:

Bantam weights
Bob Dozier
"Smookey" Joe Woods

Featherweights
Fred Barnes
Jack Childress
Maurice Crawley

Lightweights
Brooks Roberts
Thomas McMullan
Jimmy Roberts
"Spec" Stewart

Welterweights
Truman Friday
Thomas "Patso" Wright

Middleweights
George Watford
Bill Brasher
Jess Carnes

Light Heavyweights
Hyson "Dummy" Smith
Ernest Brishers
Five Mexican boys, Martin Bendivatos, Lightweight; Joe Hernandez, middleweight; Arlo Rodriguez, featherweight; Pancho Garcia, welterweight; and Juan Hernandez, flyweight; all entered the tournament today.

Group Meetings to Feature Convention Of West Texas C-C

ABILENE. — Group conferences on two of the most vital subjects being studied in West Texas today will be held during the 21st annual convention of the West Texas chamber of commerce in Abilene May 15-17.

The first conference will be on transportation and will be held at 2:30 p. m. Monday, May 15. Dr. W. M. W. Salway, chairman of the Interstate Commerce Commission, will be principal speaker. B. Regan, Big Spring, chairman of the WTCC Traffic Board, will preside.

This will be one of the most important sessions of the entire organization's freight rate equality campaign. Several hundred delegates

named by organizations affiliated with the WTCC-sponsored Freight Rate Equality Federation will be given special invitations to attend. The WTCC in its freight rate campaign is seeking to secure equalization of rates as between zones, charging that West Texas pays 85 per cent higher freight rates than

Northeastern states. The second conference, to be held at 2:00 p. m. Tuesday, May 16, will be on agriculture, and will include discussion of soil and water conservation. M. L. Wilson, undersecretary in the U. S. Department of Agriculture, will speak. Clifford B. Jones, President of Texas Technological College, Lubbock, and chairman of the WTCC Agricultural Board, will preside.

Results of the first annual WTCC Soil and Water Utilization Contest will be studied at the session. Winning counties in the contest will be announced during the convention. First place county will receive \$500 cash prize, second place county will be awarded \$300, and third place county will receive \$200. Representatives of each of the 101 counties participating in the contest are expected to attend the agricultural session.

HUBBERS OUTLAST COWBOYS TO COP 17-16 WIN

Piet, Petzold Hurling, Hitting Stars for Locals

LUBBOCK, Texas, April 10. (Special). — The first intra-league game of the West Texas-New Mexico Loop was played in Lubbock Sunday afternoon at Harris Field between the Midland Cowboys and the Lubbock Hubbers, champions of the WT-NM last year.

In the free hitting contest which was delayed repeatedly by heavy dust Lubbock's stellar third baseman Johnny Taylor clouted a long home run in the last half of the ninth with a mate aboard to give the Hubbers a 17 to 16 victory.

The game gave indication that if pitching strength on both clubs is not forthcoming that the game will again be a league of long range heavy hitters. The Cowboys garnered 15 safe knocks to the Hubbers 14 and the heavy scoring was due to the ragged fielding of both clubs.

The outstanding playing of the day was contributed by rangy Bobby Petzold of the Midland club who was the shining light on the infield at second base and knocked the ball all over the field to come through with five safeties in seven trips to the plate. His performance at the rubber far exceeded that of the highly touted Stevens of the Hubbers and his work in the field is much more polished than Stevens' was last year.

The game began slowly with the Cowboys having one man left on base in the first and lanky Paul Peacock had the Hubbers in the palm of his hand for the first two outs at which time they pounced on him with all the power that annexed the bunting for them last year and had scored five runs before Patterson could get warmed up to relieve.

Patterson's exhibition on the mound was very good but his control was lacking and he walked in several men.

The most pleasing thing to manager Jimmy Kerr was the 4 and 2/3 innings Joe Piet, general handyman, worked out. Piet was by far the outstanding hurler of either team and working calmly kept the Hubbers from scoring until the last half of the ninth when Taylor connected with his circuit blow.

The Cowboys played listlessly through the middle part of the game but appeared to come to life in their half of the ninth to score eight runs and pull out on top for the first time during the game.

The game clearly showed manager Kerr that he needed additional hitting strength in the outfield and pitching strength.

Manager Kerr left the team in Lubbock Sunday for a two-day trip into East Texas League territory in the search of talent. Two players who should deliver in the WT-NM will report to Kerr on his return from his scouting trip. They are husky pitchers who will come to the Cowboys on option from Texarkana at the ETL.

The squad for the next two days will be under the direction of Joe Piet who will put them through the paces while Kerr is out of town.

The box score:

Midland	AB	R	H	P	O	A
Curtis, ss	3	2	2	0	1	
Petzold, 2b	7	3	5	2	3	
Vlaske, 1b	5	1	1	1	0

Hit by pitcher—by Patterson (Hancher) by Rollf (Vlaske). Umpires—Hightower and Gunter. Time of game—2:41.

The world series of baseball sport world originated in 1903, when the Pittsburgh team, winner of the National League pennant, and the Boston Red Sox, winner of the American Association pennant, were featured.

Cowboy's Lament

By Jess Rodgers

The following article was written by Frank Tolbert, Fort Worth Star-Telegram sports writer, who is making a tour of all member towns of the West Texas-New Mexico League. Tolbert will write a series of stories about each team in the league and Midland was his first stop.

His article follows:

They were having some unusual weather when we hit Midland. Mild thurries of snow were falling softly at a 45 degree angle. Freshets of cold, damp wind were blowing through Midland's slick new ball yard. But the sun was trying desperately to fling free from the tossing cloud banks.

And Mr. Jimmy Kerr, black-haired young playing manager for the Midland entry in the West Texas-New Mexico Baseball League, was worrying almost as desperately.

For Sunday at Lubbock Mr. Kerr will send a team which he picked out of his hat, so to speak, against the tough Hubbers, defending champions in the league.

Mr. Kerr's Midland team consists of 20 rookies and Mr. Kerr. The playing manager has a Pacific Coast Hollywood and San Diego and Texas League (Dallas, Shreveport) background.

He will do almost all of the catching and almost all of the worrying for the Midland club. He is the only "class man" on the club.

His 20 rookies may play some good baseball. But after a gander at them Saturday we decided that Manager Kerr can not count on them for any worrying.

They're Entertaining Lot

They are a happy crowd of husky boys, most of them of high school or college freshman age, picked from sandlots all over the Nation.

In the practice we saw the boys were playing roughhouse, hilarious baseball. They'd lost their two opening games to tough semipro clubs of the Permian Basin League. But they'd slapped out 35 hits in these two games. They're not at all polished, but they'll provide lots of entertainment for the Midland spectators.

In their street clothes the Midland athletes look like so many junior college footballers.

The Midland club has been in training for two weeks.

During that interval, Manager Kerr has acquired a fondness for two towering, 19-year-old pitchers. From left to right they are: Paul Peacock, a six-foot, three-inch left-hander from Winchester, Ark., and Joe Murphy, a six-foot, two-inch right-hander from all places, Dallas.

These are crude moundmen workmen good to be true. Kerr has another worry here, though; Petzold has been very homesick for Wisconsin.

In this Class D league they've a 14-man limit on the squads. Teams

BASEBALL'S BIG G-MEN ARE SLOWING DOWN TOGETHER

WAS BENCHED BY THE NEW YORK YANKEES IN AN EXHIBITION GAME RECENTLY. IT WAS THE FIRST TIME HE HADN'T ANSWERED THE BELL SINCE HE SUCCEEDED NALLY PIPP AT FIRST BASE IN JUNE, 1925.

may start with 16 athletes, but they've got to lop off two more 10 days after the season starts.

A versatile kid on first base, William Vlaske, will make it possible for Kerr to forego a relief catcher and make room for an extra pitcher. Kerr hopes to do all of the catching. But First Baseman Valske will be ready if he's needed as a receiver. Valske, from the Chicago sandlots, is six feet, one inch in height and he weighs 190 pounds.

Petzold Infield Star

And back of Valske at first will be Joe Piet, brother of Big Leaguer Tony Piet. Joe is general utility man for the club. He can pitch, play the infield or outfield, in the order named. He is a tall boy with a long nose and blond hair. He looks very like his famous brother in the face. Joe is 22 years old. He was released last year by Kilgore of the East Texas League. He is the only other man on the team with professional experience.

Valske looks very good. But another big boy has become the star infielder of the camp. He's 21-year-old Bob Petzold, second baseman. He bats left-handed with a lot of power, and he looks almost too good to be true. Kerr has another worry here, though; Petzold has been very homesick for Wisconsin.

The Midlanders have a rarity at shotstop in a fielder who wears

glasses, but plays so well you do not notice them. He's Sam Malvicka, a 20-year-old right-handed hitter. Malvicka has had an arm complaint recently, though, Elwood Curtis, a fast 18-year-old from California, has been playing at short.

Third Baseman Everett Deneff hasn't been looking so well at bat, but he gets in front of everything afield. He's 21 years old and from Michigan.

The base hit boy of the outfield is a 20-year-old heavyweight named Lynn Everson.

Left Fielder Everson has shown power all spring, hitting a couple over the fence almost every day in practice. He's had several home runs, too, in the preliminary games. The other starting outfielders are Wally Glowicka, a six-footer who weighs 185 pounds, and Ellis Childress, a stocky kid from Kentucky. Earl Patterson, a 22-year-old right-hander with some experience at Longview, has been the swiftest conditioner of the pitchers.

Patterson and Murphy are low ball pitchers, which should be to their advantage in the night games. Some of the other pitchers are Bernard McLaughlin, a 20-year-old right-hander who looks good, but gets nervous easily; Floyd Bartell, looks good, but has a sore arm; Joe Bonvillian, a small 19-year-old who used to throw some in batting practice at Shreveport last year.

Bonvillian has a good curve ball. His only handicap is his smallness. So rare were stoves at one time that, even as late 1865, recipe books gave two sets of instructions—one for "rich stove owners" and another for cooking at open hearths.

Expects More Pitchers

In addition to these chunkeys, Kerr is expecting two pitchers on option from Texarkana of the East Texas League.

Midland is an old member of this

young league.

This spring Fincher Withers, the owner and manager last year, moved the franchise to Abilene as the league swelled to an eight-team affair.

So Midland and new Manager Kerr had to start from scratch.

But this gay and hard-hitting bunch of young Athletics that Kerr has "pulled out of his hat" has Midland atwitter with baseball excitement.

Former Bulldog Star Is Green Wave Hope On Fast 1939 Squad

Tulane University's Green Wave football team for 1939 completed its spring and practice last week, banking strong on the good work shown by four freshmen, including Gordon English of Midland. Gordon has been playing at end, having played tackle and end on the Midland high school eleven until his graduation in the spring of 1938.

"Talk of the spring work at end," was the quotation by one New Orleans sports commentator, about English. The Times-Picayune, carrying a four column picture of the foursome, said: "The new men who are expected to help out are Charles Dufour, tackle; Jack Tuttle, quarter; Jimmy Thibault, fullback; and Gordon English, end."

Gordon is the son of Mr. and Mrs. E. E. English, residents of Midland.

So rare were stoves at one time that, even as late 1865, recipe books gave two sets of instructions—one for "rich stove owners" and another for cooking at open hearths.

When Stanley Cuppers Get Shore Over Something

Battling Eddie Shore of the Boston Bruins is nursing a broken nose, black eye and gashed cheek, while most of his teammates and the rival New York Rangers are soaking in liniment after indulging in New York's worst hockey riot during the Stanley Cup playoffs in Madison Square Garden. In the battle scene above, Shore (No. 2) is having a couple hung on his nose by the Rangers' Murray Patrick, former amateur heavyweight champ of Canada. At right, Ranger Phil Watson is backed against the boards by Hamill of the Bruins. P. S.—There WAS a hockey game and the Rangers won, 2-1.

Food Preservation Conference Slated

AUSTIN.—From microscopic food bacteria to refrigerated rail cars runs the gamut of subjects announced for the food preservation conference at The University of Texas, April 13-14.

Sponsored by the University College of Engineering and the American Society of Refrigerating Engineers, with the cooperation of the Southwestern Ice Manufacturers Association, the convention will be divided into five sessions, Byron Short, University professor of engineering, said today.

The first topic, food technology, includes talks on bacteria, preparation of frozen and refrigerated foods, and practical aspects of food technology. In another session, locker storage will be the subject. The third conference will hear the results of research in ice melt and freezing rates.

Special emphasis will be given quick-freeze developments. The University will have a pilot plant for quick-freeze experiments operating for the gathering of refrigeration engineers from Texas, Georgia, New York, Oklahoma, Pennsylvania, Missouri, Illinois, and Washington, D. C.

Truck and rail experts will discuss the merits of new methods in transportation of refrigerated foods.

L. V. Burton, editor, Food Industries, and David L. Fiske, secretary of the A. S. R. E., are scheduled for speeches at the conference banquet, April 14.

Every department of the engineering division is planning contributions to the show.

Approximately 10,000 visitors are expected. Students here for the district Interscholastic League contests conducted on the same dates will be among visitors.

Robert L. Mason, student from Post, is manager for the show and Charles F. Barnard from Tulsa is assistant manager.

Machinery of the division will be in operation.

The electrical engineering department will have charge of lighting and, in addition, will have several displays. Most outstanding feature in that department will be the giant Tesla coil with a potential of 2,500,000 volts and from which sparks several feet long will spit.

Several large testing machines will be in operation in the civil engineering department. The Olsen machine will crush concrete cylinders. Model bridges, highways and street intersections will be displayed.

A small but powerful turbine, capable of attaining speed as high as 9,000 revolutions a minute, and a 410 Pratt-Whitney radial model airplane motor obtained for display from Kelly Field at San Antonio will be among the exhibits in the mechanical engineering department.

Portraits of visitors to be drawn by students in freehand will be offered as souvenirs in the architecture and allied arts department. There will be a model city, complete in every detail, constructed from working drawings made by students. The clay modeling room will be open and statues and base relief work will be displayed.

Carding, spinning, weaving, dyeing and testing will be demonstrated in the textile engineering building.

A miniature volcano, cross section of a mine, and model of a prehistoric dinosaur and rock formations of different kinds will be on display in the geological engineering department.

Souvenirs will include silver and gold metal ash trays, small aluminum wine goblets, and photographs of visitors.

Steak Favorite Food of Students

FORT WORTH.—"Please pass the steak," might well be the dinner motto of the Texas Christian University student body. One in every four students named steak as his or her "favorite food" when The Skiff, campus newspaper, conducted a poll recently.

Chicken and ice cream ranked second and third, respectively, accounting for first-place food preference on the part of another 20 per cent of the student body.

The remaining 55 per cent of the votes were so scattered that practically every dish familiar to the Texas palate got at least one vote.

Mexican chili, Italian spaghetti, hamburgers, ham, potatoes, strawberry shortcake, oysters and pie are among the items that are fairly popular as student food preferences.

One freshman lad, with evident nostalgic memories, listed his favorite food as "my mom's biscuits."

Another boy, more philosophic, answered: "Any dish that is well cooked and of which there is a plentiful supply!"

NOTICE TO SUBSCRIBERS

If you have not received your Reporter-Telegram by 6:15 on week day or 8:00 on Sunday morning, please call 80 or 500 and your paper will be brought to you immediately. Please call by 8:00 P. M. through the week and by 10:30 on Sunday morning.

1,000 Children Take Part in Big Easter Egg Hunt Sunday

Favored with ideal Easter Sunday weather, an estimated crowd of more than 1,000 youngsters from Midland and vicinity took part in the annual Easter Egg hunt sponsored by the Midland Lions club here yesterday afternoon, club officials stating that the attendance was larger than at any previous hunt staged here. The local Lions club has sponsored the egg hunt in Midland for more than 10 years.

Promptly at one-thirty o'clock Sunday afternoon A. L. Gilbreth, chairman of the hiding committee, outlined the rules of the hunt to the crowd assembled, yelled "go" and the scramble for the coveted eggs was underway. The grounds had been divided into sections for children of different age groups, every child attending the hunt coming away with from six to several dozen eggs.

More than 5,000 eggs, approximately 2,000 of them hen eggs and the rest candy eggs, were hidden late Sunday morning by club members. Boy Scouts and Junior Safety Patrol members, members of the three organizations also patrolling the grounds during the affair. That the hunt was highly successful from every standpoint was expressed by them in charge of the annual affair.

Bill Collins, Lions club president, this morning issued a statement expressing thanks and appreciation to all club members, Boy Scouts, Junior Safety Patrol members, Presbyterian Ladies Auxiliary members who dyed the eggs, and others who had a part in the staging of this year's highly successful Easter Egg hunt.

Noise of Planes No Nuisance Now

For one of the few times in the studio's history, the sound of airplane motors overhead didn't interfere with production at the Warner Bros. Studio one day last September.

The only two pictures being filmed that day on the lot were aviation dramas—"The Dawn Patrol" a story of British wartime aviation, which is at the Ritz today and Tuesday, and "Wings of the Navy" and the drone of muted airplane engines was quite in order as a background sound effect.

Ordinarily when a plane passes low over the studio it means that somewhere from one to ten scenes are spoiled.

With the only two pictures working on the lot both aviation dramas, however, the welcome sign was out for low-flying planes. Errol Flynn, Basil Rathbone, David Niven and Donald Crisp

Vandenberg at 55: He Does Not Choose to Run

Four Republican singing senators join in a bit of harmony (?) at Washington on the 55th birthday of Senator Arthur H. Vandenberg of Michigan. Left to right: Senators John C. Townsend, Jr., of Delaware, Vandenberg, Wallace H. White, Jr., of Maine, and Robert A. Taft, of Ohio. Vandenberg, who announced he is not a candidate for his party's presidential nomination, looks directly at Taft, considered a possible nominee for 1940.

Sermon Subject at Revival Announced

are the stars of "The Dawn Patrol," Edmund Goulding directed.

A crowd that filled the auditorium of the First Christian church Sunday morning at 11:00 o'clock heard the pastor, Rev. John E. Pickering, in the opening message of an eight-day revival give a word picture of the Resurrection. The music was in charge of the director of music for the church, Mrs. M. A. Park. Many visitors thronged the special Easter service.

At 8:00 o'clock Dr. H. G. Gantz, pastor of the First Christian church of Lubbock, brought the evening message. To a splendid congregation of people the evangelist brought a powerful message on the subject, "Big Questions and Big Answers." Dr. Gantz declared in his message that people who accomplish the big things of life are asking the great questions, and are willing to abide by the great answers to those questions, difficult as though they may be.

Three great questions came to Jesus, the great Master of all of life, propounding the mighty question of life: "What must I do to inherit eternal life?" All the questions were identical, though the answers varied. Jesus looked into the heart of each and discovered the great need of the questioner. Also that which was preventing the great need being met.

To the lawyer, he said: "Go beyond the letter of the law. Accept the spirit of the law as well!" To the rich young ruler he said: "You are insulated with wealth and power. Strip this off and experience God by meeting the needs of men!" To Nicodemus he said: "You need more than learning. You need an experience of spiritual birth."

As the Master answered these great questions, so today He answers all who come sincerely bringing their problems.

The evangelist will bring the message tonight on "Why Doesn't Something Happen to Me?" The Young People of the church will have charge of the song services under the direction of Mr. R. Z. Dallas, who is leading the singing for the meeting. The senior choir of the church will also assist with the singing from a special place prepared on the right of the rostrum. The public is cordially invited to attend all the services of the revival. The morning services will begin promptly at 10:00 o'clock and close at 11:00 o'clock.

Visiting here Mrs. E. B. Bryan and daughter, Lillian, Mineral Wells, have been visiting in the Frank Ingham home here through the Easter holidays.

Osage Drilling Company and A. S. Everest No. 1 Dr. E. H. Jones, northwestern Gaines wildcat, is moving in cable-tool unit. Total depth is 4,800 feet in lime, and 6 5/8-inch 6 d casing is cemented at 4,650 with 50 sacks.

In the northwest extension of the Seminole pool, central Gaines, Atlantic Refining Company and Osage No. 1 Tippet is rigging up rotary.

Texas Company No. 1-C Mallet Land & Cattle Company, west out-post to the Slaughter pool in southwestern Hockley, had drilled to 4,602 feet in lime. In the pool, Standard Oil & Gas Company No. 1-B Slaughter is testing after re-acidizing with 6,000 gallons at 5,054 feet. Texas No. 5 Slaughter is drilling at 4,850 in lime, while the same company's No. 6 Slaughter has dug rot hole and is preparing to spud.

Honolulu No. 1-A-4 Slaughter is drilling below 3,400 in anhydrite and red rock.

Devonian Oil Company No. 2-B-19' T. B. Duggan, short southeast extension test in the Duggan pool of southeastern Cochran, is drilling at 3,785 in anhydrite and red rock.

Masterson Test Runs Pipe

Anderson-Prichard Oil Corporation and Monte Warner No. 1 M. I. Masterson, deep test in the Masterson pool of northern Pecos, this morning lacked about 100 feet of having 9 5/8-inch casing on bottom at 3,435 feet. Operators previously had run Schlumberger electrical survey.

Magnolia No. 1 Abell-Eaton, Ordovician test in the Imperial area of northern Pecos, is building rotary derrick. George T. Abell No. 1 Frank A. Knapp, in the same area, is drilling past 1,205 in anhydrite.

Between the Masterson and Pecos Valley pools, Leidecker and Cain No. 1 Texaco-Lehm is drilling below 1,275 in anhydrite.

Haymon Krupp Oil & Land Company No. 1 Thaxton, Hudsonian county deep test, logged showing of gas at 6,945 feet and is drilling ahead at 6,169 in lime.

Pacific Mid-Continent No. 1 W. A. Tunstall, Reeves Delaware test, is shut down for orders after plugging back from 3,556 to 3,302 with lead wool and cement.

FROM STANTON. Miss Eleanor Houston of Stanton was a visitor to Midland Saturday.

Baptist Group Leaves for Waco

Half-a-dozen Midland Baptists left today for Waco to attend the Texas Baptist Sunday School convention. Included in the number were: Mrs. H. D. Bruce, Mrs. A. T. Donnelly, Mrs. H. R. Braezeale, Miss Vivian Gilwell, Education Director J. B. East, and Mrs. East.

The convention, which opens Tuesday and adjourns Thursday at noon, is said to be the largest gathering of Sunday school workers in the world.

Five former Texas Baptist secretaries will appear on the program.

Annual Egg Hunt Is Held at White House

WASHINGTON, April 10. (AP).—Thousands of children scattered over the White House lawn today for the annual Easter egg rolling festival. They were greeted by the President and Mrs. Roosevelt.

Former Resident Dies in Lubbock

Word was received here today of the death of N. C. Woolley, formerly a resident of Midland, in Lubbock Saturday night.

Woolley lived here for approximately three years, being transferred to Lubbock in 1931. He was a warehouseman for the West Texas Gas company while living here and remained with the company until the time of his death.

A heart attack was blamed for his death.

Negro Electrocutured For Slaying Parent

HUNTSVILLE, Apr. 10. (AP)—Harvey T. Nealy, 20, Dallas negro, was executed in the state prison early today for the axe slaying of his step father, Noe Nealy.

His execution was originally set for March 10 but he was given a 30-day reprieve by Governor W. Lee O'Daniel and a second reprieve of 24 hours so that the electrocution would not fall on Sunday.

OUT-OF-STATE Visitors.

Mrs. Pearl Riggs of Hutsonville, Ill., Mr. and Mrs. Fred Wolfe, and Mrs. Georgia Bone of Wichita, Kans., are visiting J. W. Rhoden Sr. and family here. Mrs. Riggs is Mr. Rhoden's sister. The visitors arrived Sunday.

FROM FORT WORTH.

Dr. O. W. Orson of Ft. Worth spent the Easter holiday with relatives here and on the ranch. He was accompanied by Dr. and Mrs. Dallas Berry of Fort Worth.

FROM AUSTIN.

Henry Orson, student in the University of Texas at Austin, spent the Easter week-end with his family here.

TO CONVENTION

Mr. and Mrs. B. G. Holcomb are at Beaumont, attending the state lumbermen's convention. They left here Saturday afternoon.

The chinchoan tree is the principal source of quinine.

Midland County Teacher, Abilene Man Married Here

Initiating the series of weddings which distinguished the Easter weekend was that of Miss Lucille Wilmett, teacher in the Cotton Flat school, and Paul McClung of Abilene, which was solemnized in the home of Mr. and Mrs. Harvey Childress here Friday afternoon at 5:30 o'clock.

Mr. Childress, minister of the Church of Christ, read the single ring service in the presence of a group of friends.

The bride was attired in pale blue crepe. Her accessories were black patent and she wore a corsage of pink and pale lavender sweetpeas.

Mr. and Mrs. Childress entertained the party with an informal reception following the wedding.

Present, besides the bride couple and the host and hostess, were Mr. and Mrs. J. T. Tarran, Mr. and Mrs. J. C. Reynolds, and Mr. and Mrs. Barney Alsbrook.

Mrs. McClung, member of a ranch family near Brownwood, graduated from Abilene Christian college last year and has been a member of the Cotton Flat faculty for the 1938-39 term.

Mr. McClung, student in Abilene Christian college, will receive his degree from that school this spring.

As soon as the Cotton Flat school closes, the couple will go to Alabama where he will be occupied in meetings during the summer. Next fall the two will make their home at Justin, Texas, where he will preach from the Church of Christ of which he is already student pastor.

Allen Holder Winner In Rankin Calf Roping

RANKIN, April 10.—Allen Holder, Salt Aringo, former world's champion calf roper, won over James Kenney, Dryden, in the main matched event of the lariat-throwing contests.

Holder used 132 seconds in roping his six calves. Kenney took 155 and 4/10 seconds. Holder won a four-calf match from Jack Sellers, Del Rio, in 72 and 4/10 seconds.

Buddy Nead, Rankin, took first in the free-for-all goat roping event, and Holder was second. The free-for-all calf contest went to Sellers.

Earl Sellers, Del Rio, won the jack-pot roping event in the time of 18 and 6/10. Winners in three other matched contests were Howard Westfall, Big Lake, 144 seconds for four calves; Neal, 130 and 3/10; and Branch, Stiles, 94 and 3/10.

Twenty-four ropers participated in contests, witnessed by approximately 1,000 spectators. Director of the performance was Bill Nix.

Odd Hobby Pursued By Fingerprint Expert

CHELLENHAM TOWNSHIP, Pa. (AP)—Sgt. Charles N. Lennox, fingerprint expert in the local police department, collects the fingerprints of Siamese twins as a hobby.

The first of such prints were obtained from the late Godino brothers, Filipinos. Another set is that of the Hilton sisters, and he recently added to his collection with the prints of Margaret and Mary Gibb.

Lennox studied at the Chicago Institute of Applied Science and at Swarthmore College.

Attorney in Family For Past 100 Years FRANKFORT, Ky. (AP)—The Harkins family of Prestonsburg, Ky., has had an attorney-at-law as a member for the past five generations, covering a span of 100 years.

Hugh Harkins began the series on May 1, 1839, and a son of each generation has been admitted to the bar since then. The latest one was Joseph D. Harkins, Jr., who began practicing recently.

Combination Storage Cabinet

A combination broom and grocery cabinet may solve your problem of sufficient storage space. The grocery section, consisting of four shelves, occupies the upper left corner, allowing space below and to the side for broom, floor mop and sweeper. The cabinet is made of strong, furniture steel finished durably in white enamel.

UNDERGOES SURGERY.

Mrs. Edward McGee of Big Spring underwent an operation in a Midland hospital today.

MEETING POSTPONED.

The young women's group scheduled to meet at the home of Mrs. L. H. Tiffin Tuesday evening has postponed its meeting until Friday evening at 7:30. Delay is due to Mrs. Tiffin's illness.

He Strings Along With Thread Strike

Representative Fred Hartley, center, of New Jersey, is pictured as carrying a strike poster, he recently led strikers picketing a thread factory at Kearny, N. J.

Local Interest Found In Easter News Photos

Descendants of Midland residents and former Midland residents provided Easter pictures for rotogravure sections of two large daily newspapers Sunday.

Jan Hollar, grand-daughter of Raymond A. Weaver of Midland, was pictured in the Dallas News. Frances Lowe Peters, daughter of Marion Peters, formerly of Midland but now of Plainview, occupied a similar place in the Fort Worth Star-Telegram.

TWO ARE FINED

Dave Ganer and Tranquino Flores, Mexican, were fined in justice of peace court today as the result of an afay in Mexican town Saturday night.

GUESTS OF SISTER.

Mrs. Cotter Hiett had as guests from Friday to Sunday Mr. and Mrs. Harry Leonhardt of Amarillo. Mrs. Leonhardt is Mrs. Hiett's sister, the former Miss Werthea Tarter, who will be remembered from previous visits here.

SPEND EASTER.

Mr. and Mrs. S. C. Dougherty spent Easter with his parents, Mr. and Mrs. M. S. Dougherty of Anson and her mother, Mrs. J. D. Falkner, of Colorado City.

STAYS OVERNIGHT.

A C-33, flown by Pilot Guile, arrived at Sloan Field from Hensley Field, Dallas, last night and departed this morning for Tucson.

HERE FROM ANDREWS.

Mr. and Mrs. H. E. Eaves were here Sunday from Andrews visiting friends.

All Day Singing Set For Cotton Flat Sunday

All day singing is scheduled next Sunday at Cotton Flat school when the Midland County Singing Convention meets. It was announced today. All singers, as well as the general public, are invited to attend. Each one is requested to "bring a basket full of dinner."

Notice is hereby given that there has been filed in the office of the County Clerk of Midland County, Texas, by O. D. Dillingham, a person engaged in the dairy business, the following names, trademarks, marks and designs used by him for advertising purposes or upon his milk bottles:

That the words used inside the oval besides the above word "Creamery", are "Milk", "Ice cream", "Ice", "Butter", and "Produce". And "It tastes better" under the oval as above.

That the colors used in billboards, posters and signs are as follows: Background in "Banner" orange; letters Ultramarine Blue; oval is Ultramarine Blue inset with letters in white.

In testimony whereof, witness my hand and seal, this 7 day of March, 1939.

Susie G. Noble, County Clerk, Midland County, Texas.

(SEAL) April 10-17-24.
