## Goldwater Lead Hiked

By JACK BELL
and Barry Bell

SAN FRANCISCO (AP)—With noisy and sometimes rude Cow Palace balloting ... Republicans ignored their 1960 convention to-day to choose the man who will carry their standard against President Johnson in the fall.

Barring some kind of thunderbolt, the man will be Sen. Barry Goldwater.

Even as the first roll call was going under Goldwater backers further afield in the race for delegates, picking up 42 of Ohio's 58 convention votes in a caucus of the delegation. It had been counted with 26 in the bag.

Here, in all likelihood, Goldwater found the 655 delegates he felt he needed to sew up the nomination on the first ballot Wednesday and roll over his only real opponent, Gov. William W. Scranton of Pennsylvania.

But although the nomination was almost in his pocket, Goldwater acknowledged he was suffering a bit from stage fright.

Asked how he felt as the convention was opening, Goldwater replied, as he was leaving his hotel: "Scared to death as always."

As to a move by Scranton forces to try to change convention rules and force a second ballot, Goldwater said it would be undemocratic.

Goldwater was described as "boiling mad" Sunday night over a letter Scranton sent him, and then made public, in a last-hour move to try to stop the hurtling Goldwater bandwagon.

The Pennsylvania governor fired off a letter to Goldwater Sunday, challenging him to a debate at the convention and asserting the big issue is this:

"Will the convention choose the candidate overwhelmingly favored by the Republican voters, or will it choose one?"

Questioning that Goldwater has as many delegates as he claims, Scranton charged that "With open contempt for the dignity, integrity and common sense of the convention, your managers say in effect the delegates are little more than a flock of chickens whose necks will be wrung at will."

Goldwater dismissed Scranton's debate challenge as "ridiculous" and whipped the letter back. But his aides said he was steaming and he failed to show up at a $100-a-plate fund-raising gala Sunday night that Scranton attended, hoping the letter would boomerang, the senator's aides said, off thousands of copies to be distributed to delegates.

While today's convention has its speeches and more speeches, a floor fight loomed Tuesday over the platform carrying the senator's brand which the convention will be asked to adopt.

Goldwater swept into the conventions opening claiming 738 delegates with 655 needed for nomination. An Associated Press survey credited him with 700 first-ballot votes, including 36 delegates who favor him but are not officially bound. The survey counts Scranton's delegates as 170, none bound.

In his letter, Scranton declared he is certain Goldwater does not have enough delegates to nominate on the first roll call, and said:

"I have double-checked the arithmetic of my staff, and I am convinced that a true count of pledged votes on your first-ballot strength is only some 620 votes."

Scranton said the issue is whether the convention will choose "the candidate overwhelmingly favored by the Republican voters, or will it choose one." The Pennsylvania governor has cited polls which show him widely preferred over Goldwater as the nominee.

Scranton said "Goldwaterism has come to stand for a whole crazy-quilt of absurd and dangerous positions that would be roundly repudiated by the American people in November."

## Rubber Pact Is Expected

CLEVELAND (AP)—Contract agreements between the United Rubber Workers Union and three of the "big five" in the rubber industry are expected to set the pattern for other companies.

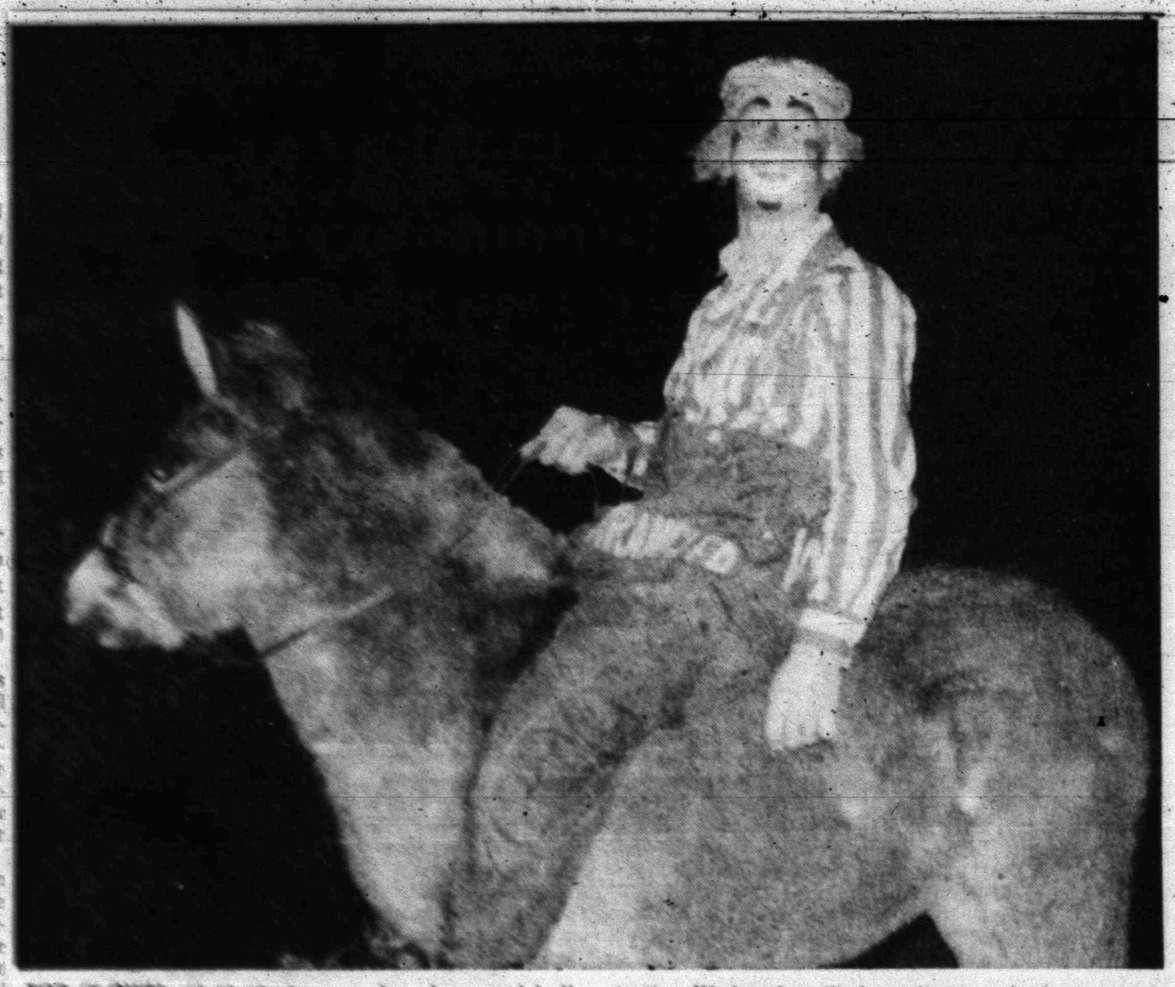
Firestone and Goodyear were to sign their pacts today, and Uniroyal this afternoon. Wednesday or Thursday. The agreements cover 41,000 production workers.

The settlements, subject to ratification by union locals at the various plants, improve pensions, insurance and hospital coverage. They run for three years, effective Aug. 1.

Wages, not an issue in these talks, come up for discussion next spring.

Contracts on all three rubber firms covered at midnight Tuesday. The union struck Firestone, reached an agreement with Goodyear Thursday and continued negotiations with Goodrich.

The URW represents 37,000 employes at Firestone, 3,300 at Goodrich, 2,700 at Goodyear.



TOP CLOWN—C. C. Cogburn, rodeo clown and bullfighter from Oklahoma City, pictured along with Tammy Hayter of Mineo, Okla., will be handling the important clown duties at the Scurry County Rodeo starting Wednesday. Cogburn is recognized as one of the leading clowns of the country. Rodeo activities will start with a parade at 4 o'clock Wednesday afternoon.

## Merger Of 3 Railroads Is Approved

WASHINGTON (AP)—The Interstate Commerce Commission has approved the consolidation of the Norfolk & Western, Nickel Plate, and Wabash railroads into a 7,450-mile system.

The ICC, in announcing the decision today, said the Pennsylvania Railroad must get rid of all of its financial interests in the N & W and the Wabash, because the Pennsylvania "is in a position to extend its control over the proposed system."

The transaction involves the merger of the Nickel Plate—formally known as the New York, Chicago & St. Louis Railroad—into the Norfolk & Western, and the subsequent lease of the Wabash.

The result would be a rail network extending from the port of Hampton Roads, Va., to the Great Lakes and Midwest.

The decision was adopted June 24 by a 10-1 vote. The ICC said the consolidation may not take place unless the Pennsylvania notifies the commission by Sept. 17—30 days after the order takes effect—of its intent to divest.

No particular plan of divestiture was specified, but the ICC said all holdings in the new system must be disposed of over a 10-year period.

The order requires that all management ties between the Pennsylvania and N&W be severed by mid-October.

A Pennsylvania spokesman said the railroad would study the ICC report before commenting on the divestiture requirement.

Norfolk & Western operates 2,747 miles of line in Virginia, West Virginia, Ohio, Kentucky, Maryland and North Carolina. It derives most of its revenue from carrying coal from Southeastern mining areas to the ports of Hampton Roads and the Great Lakes.

The Nickel Plate is primarily a general freight line running over 2,170 miles in New York, Ohio, Pennsylvania, Indiana and Illinois, serving such major cities as Toledo, Cleveland, Chicago, Buffalo and East St. Louis, Ill.

The Wabash operates over 2,423 miles in New York, Michigan, Ohio, Indiana, Illinois, Missouri, Iowa, Nebraska and Ontario, Canada. It would initially be incorporated into the N & W system through an eight-year lease. After the sixth year of the lease, the system could take control of Wabash through stock ownership.

Under the merger plan approved by the ICC, N & W would issue up to 1,927,235 shares of common stock at a par value of $25 in exchange for all outstanding Nickel Plate common stock.

As the parent company, N & W would absorb all obligations of the Nickel Plate.

The plan calls for purchase of 108 miles of the Pennsylvania-owned connecting railway between Columbus and Sandusky, Ohio, as well as acquisition of stock control of the 171-mile Akron, Canton & Youngstown Railway and lease of the 131-mile Pittsburgh & West Virginia Railway.

The system would be completed upon acquisition of the operating rights and franchises of various carrier subsidiaries of the major railroads involved.

## Platform In Brief

SAN FRANCISCO (AP)—Here in brief is what the proposed 1964 Republican platform pledges on these significant issues:

CIVIL RIGHTS—Full implementation and faithful execution of the Civil Rights Act of 1964.

FISCAL AFFAIRS—"We also pledge prudent and responsible management of the government's fiscal affairs to protect the individual against the evils of spendthrift government."

VIET NAM—We will move decisively to assure victory in South Viet Nam.

CUBA—"We will vigorously press our OAS—Organization of American States—partners to join the United States in restoring a free and independent government in Cuba."

HEALTH CARE—Full coverage of all medical and hospital costs of needy elderly people financed by general revenues through broader implementation of federal-state plans.

## Platform Is Battleground For Gov. Scranton's Forces

By EDMOND LEBRETON

SAN FRANCISCO (AP)—Gov. William W. Scranton's forces are making the proposed Republican platform the battleground in their do-or-die struggle to deny Sen. Barry Goldwater the presidential nomination.

But Goldwater, whose strength on the platform committee was displayed in the crushing of key proposals sought by Scranton, said he isn't afraid of the result of any floor fight the Pennsylvanian may be able to organize Tuesday.

That is the day for considering the party statement. Sen. Hugh Scott of Pennsylvania, Scranton's manager, promised to force votes on major amendments in a struggle for "the soul of the Republican party."

Such a fight would be a major element in Scranton's drive to change enough delegates' minds to block Goldwater's indicated first-ballot nomination Wednesday.

The Pennsylvania governor sounded the battle cry in a letter accusing Goldwater of allowing "the radical extremism to use you" and saying "Goldwaterism has come to stand for nuclear irresponsibility . . . being afraid to forthrightly condemn rightwing extremists . . . refusing to stand for law and order in maintaining racial peace."

From across the party line came indications that Democrats were girding for the fray on the assumption that Goldwater and the platform would win GOP approval.

Democratic National Chairman John M. Bailey in Washington called the Republican platform draft a "fantasy, conceived in a shadowland of fear and hate" and containing "every radical right cliche."

But the platform committee chairman, Melvin R. Laird, said the group was not dictated to by Goldwater or anyone else. The Wisconsin congressman predicted its product will be "supported by the overwhelming majority of delegates Tuesday night."

The document being sent to the rank and file delegates—while Scranton forces map their parliamentary strategy to fight it — reflects Goldwater's expressed views on point after point and omits the major position statements for which Scranton pleaded in person and through his representatives on the drafting group.

Scranton wanted a repudiation of political extremism, with a specific disavowal of the John Birch Society and a plank opposing any shift from the president to any military commander of authority over use of any nuclear weapons.

These didn't get into the draft platform at all, and instead of declaring the new Civil Rights Act constitutional, as Scranton demanded, the document writers pledged "full implementation and faithful execution."

## Libya Asks Withdrawal

CAIRO, Egypt (AP) — Libya is pressing the United States for immediate agreement in principle to withdraw from the Wheelus air base, the last such U.S. installation in Africa, reliable sources said today.

These sources said Libyan Foreign Minister Hussein Mazak, in Cairo for a forthcoming African summit conference, is accusing the United States of refusing to give such an agreement and seeking to hold the base six more years.

The giant field is maintained by 9,000 Americans.

Mazak also is predicting that the British, who also have a base agreement with Libya, will have liquidated their military establishments there within less than three years.

## 2 Doctoral Plans Okayed

By ERNEST STROMBERGER

AUSTIN (AP) — The Texas Commission on Higher Education voted some recommendations of its professional staff today and approved two doctoral programs in the education field at Texas Woman's University at Denton.

The commission also approved a staff proposal to establish a law school at Texas Tech in Lubbock.

Commission Sec. Rex Baker of Houston objected strongly to creation of the law school and approval of the TWU doctoral programs.

The commission also approved several other degree programs and heard a preliminary report calling for spending $200 million during 1965-67 on teaching salaries and library, research and administration needs in 22 state colleges.

Baker told the commission establishment of the state's fourth law school at Tech "will be contrary to the intention from the legislature to eliminate duplication."

Baker said he voted against the law school request because the state already is supplying opportunity of legal education sufficient to meet all demands. L. L. Duckett of El Campo also voted against the law school and TWU requests.

## Gas Leak Is Probed

MOBILE, Ala. (AP)—A rupture in a deadly chlorine gas line which poisoned 37 workers and killed another is being investigated today by officials at Scott Paper Co.'s Mobile plant.

The leaking gas killed Walter Jordan, 34, Saraland, Sunday. He was a brother of Lee Roy Jordan, former All-America football player at Alabama.

None of the other 37 employes was listed in critical condition.

Plant manager J. V. Coil said the rupture occurred outside the papermill plant. He said the liquid chlorine was piped under pressure and became gas when released.

## Vietnamese Lift Communist Siege

By PETER ARNETT

SAIGON, South Viet Nam (AP)—Vietnamese government forces drove off a Communist siege over the weekend in the most violent action in the Mekong Delta in several weeks. Both sides suffered heavy casualties.

No American advisers were involved in the clash over the mud-walled fort at Vinh Cheo, 100 miles south of Saigon.

Using the 56 militiamen garrisoning the fort as bait, the Communist guerrillas lured four Civil Guard companies to the outpost and opened fire from ambush.

The badly mauled Civil Guard forces were withdrawn Saturday night. Four regular Vietnamese battalions lifted the siege Sunday.

The Communist forces killed 39 and wounded 129 in the ambush, the battle and the looting of a nearby village. One Vietnamese officer estimated Communist loses at 300, but American advisors said they doubted more than 100 were killed or wounded.

In Taipei, the Chinese Nationalist Chung Shing news agency claimed anti-Communist guerrillas in the South China province of Kwangtung sank a 120-ton Red Chinese naval transport that was believed to be carrying military supplies to North Viet Nam. The report said the transport, one of three, was blown up on July 3 in Chinchow Bay, in southwest Kwangtung.

## New Explosion Looms In Simmering Cyprus Dispute

By ALEX EFTY

NICOSIA, Cyprus (AP)—The possibility of another explosion in the simmering Cyprus dispute faced the U.N. peacekeeping force today after it reported the landings of reinforcements to both Greek and Turkish Cypriots.

Archbishop Makarios, Greek Cypriot president of Cyprus, convened an emergency session of his Cabinet Sunday to consider what a government source called "the clandestine landing of Turkish troops on Cyprus."

The source said the government expects the U.N. Security Council and the Commonwealth prime ministers' conference, now meeting in London, to help the Greek Cypriots meet the "Turkish aggression."

He indicated urgent appeals would be sent to both bodies, but made no mention of the even larger landings of Greeks reported by the U.N. command.

Over the past five weeks, a U.N. spokesman said Saturday, U.N. patrols have observed some 500 Turkish military personnel put ashore in the Mansoura area of northwest Cyprus, the only coastline controlled by Turkish Cypriots.

The spokesman also said some 3,000 men and artillery pieces had landed from Greece in support of the Greek Cypriots.

The Turkish Foreign Ministry issued a statement in Ankara saying that the only Turkish soldiers sent to the island were routine replacements for the regular 650-man Turkish Cyprus garrison.

Cypriot Interior Minister Polycarpos Georgadjis said 2,300 men had arrived at the port of Limassol from Greece. He said that 2,300 were Greek Cypriot university students returning home for the summer and 300 were Greek Cypriots who had deserted from the Greek army to offer their services to the Cyprus government.

Maj. Gen. M. P. G. Carver, the retiring British deputy commander of the U.N. force, denied that U.N. patrols had seen regular Turkish troops land, but he added: "We have, though, observed the arriving of a number who received military training in Turkey."

## Commissioners Court Accepts Low Bid On County Road Work

The Scurry County Commissioner's court this morning received and accepted bids on the resurfacing of about 10½ miles of road in Precinct 1.

Roads to be resurfaced are the Ennis Creek Road and the Plainview Road.

Low bidder on the project was Wood Construction Company of Kermit with a total bid of $9,465.30. Other bidders were H. L. Stafford, Lubbock, $9,948; Abilene Paving, Abilene, $10,597.40; and Jones Brothers, Odessa, $10,675.90.

Work is expected to be started on Thursday.

In other business this morning the court approved the county's bills for the month of June.

# Big Vioience Toll Paced By Traffic

By The Associated Press

Shattering collisions and an upsurge of other violence caused a heavy toll of life in Texas during the weekend.

The Associated Press tabulation from 6 p.m. Friday through last midnight counted 31 deaths from traffic accidents — with eight killed in one crash. In all, 50 persons perished in violence.

Latest reported deaths included:

Guy McElvaney drowned Sunday in Day Lake near Dayton after jumping from a boat.

James Berendsen, 26, of El Campo and his wife, 22, were killed Sunday night when their small car and a pickup collided about 10 miles north of Waco on U.S. 81.

Mrs. Victor Aubrey, 75, Dallas, died Sunday night of traffic inuries suffered Saturday north of Hillsboro on U.S. 77.

Emil Harris, 15, of Houston drowned when he dived from a pier Sunday and failed to come up. His brother pulled him from the water, but efforts to revive the boy failed.

Mrs. Margaret Wier, 45, was found shot to death in her San Antonio home Sunday. Dr. Ruben Santos, county medical examiner, ruled suicide.

Michael le Fleure, 16, of Deweyville drowned Sunday in the Sabine River on a swimming excursion with friends, who said he dived from a tree swing and failed to surface. Examination of the body showed he suffered a broken neck.

Mrs. Marian Dunn, 24, Houston high school teacher, was killed Sunday when the sports car in which she was riding struck a sign post on U.S. 75 near League City.

Oscar Barnes Jr., 19, of Houston was shot to death Sunday. George Edward Waites, 46, told police Barnes and another man attempted to rob him but that he wrestled away a pistol and fired one shot at close range.

Robert Hayes, 52, of Plainview was fatally injured Sunday in collision on U.S. 77 about two miles south of Waxahachie.

Mrs. Mary Driggers Tenery, 34, of Irving was burned to death Sunday when fire swept an apartment where she was visiting.

William B. Rojack of Dallas was shot to death early Sunday and his wife seriously wounded on a deserted road in south Dallas. A pistol was found near the couple's parked automobile in which they had been sitting.

Mrs. Victor Aubrey of Dallas, widow of a longtime Texas Presbyterian minister, died Sunday of injuries suffered Saturday in an automobile crash near Hillsboro.

Gloria Jean Young, 14, of Houston was killed Saturday night in a two-car collision on the Eastex Freeway, four miles north of Houston. Mrs. Gretchen Burch, 46, of Humble was charged with murder by auto and driving without a license.

Eight farm laborers en route to South Plains cotton fields died in a two-car collision Saturday morning one mile west of Brownfield on U.S. 380.

The Texas Highway Patrol said a car driven by Primo Luna Ramon, 34, attempted to pass another vehicle and crashed headon into the station wagon driven by Pablo Galvan Castro, 23.

Castro and Ramon and five passengers in the station wagon were killed. Another station wagon passenger, Charlie Langora, 16, died a short time later in a Brownfield hospital.

Others killed included Jesus Estrada Jr., 11; Ellen Estrada, 19; Dela Estrada, 13; Lalo Guitterez, 15; and Luis Castro Jr., 11. All lived in Brownfield.

Austin Godfrey, Harlingen farmer, and Domingo Zavala, 40, of Mercedes were killed Saturday when a pickup truck and a station wagon crashed at a Lower Rio Grande Valley intersection.

Harvey Young, 35, of Canyon was killed Saturday night when a car and a pickup truck collided at an intersection between Farwell and Bovina in the Texas Panhandle. Four other persons were injured.

Willie M. Sigers, 23, was killed when his car veered from a Houston street and struck a tree.

Benjamin Choyce, 27, of Dallas drowned Sunday in a south Dallas lake.

LONE STAR FARMERS—John Zalman and Nonnie Ford, members of the Snyder FFA Chapter, will be honored at the FFA convention this week.

## Local FFA Students Honored

Two members of the Snyder FFA chapter are to receive Lone Star Farmer degree at the FFA convention in San Antonio, July 15-17.

They are John Zalman III son of Mr. and Mrs. John Zalman, Jr., and Nonnie Ford, son of Mr. and Mrs. Norman Ford.

Zalman's projects have been cotton throughout his three years in vocational agriculture.

Also, he has been a member of the grass team which has competed in several state contests, being the overall high individual at Texas Tech in April. He was a member of the meats judging team that placed fifth in the state. In leadership he was President of the Junior and Senior Chapter conducting teams, and was a member of the Quiz team.

At the present time Zalman is serving as president of the Lone Wolf District.

Ford's projects have included beef calves, lambs for mutton; and cotton. He was a member of the winning Quiz team in the district.

According to Billy Bob McMullan, vocational agriculture teacher and chapter advisor, both boys have had outstanding supervised farming programs.

Both Zalman and Ford will be seniors in Snyder High School next school term.

At the turn of the century, an average cow produced 3,600 pounds of milk a year. In 1963 the U.S. average was 7,545 pounds.

## County And District Court Cases Heard

William Floyd Biddle of Snyder pleaded guilty this morning in county court to a DWI charge which had been filed by the sheriff's department.

Biddle received a fine of $100 plus costs of $26.35 and a three-day jail sentence.

In county court Saturday Melvin Lewis of Snyder pleaded guilty to a charge of illegal possession of alcohol for resale in a dry area. The charge was filed by the sheriff's department.

Lewis pleaded nolo contendre, and received a fine of $100 plus costs of $26.35 and a 15-day jail sentence.

In district court this morning H. L. Emerick of Irving pleaded guilty to a worthless check charge. The check had been given to Jerry Rose.

Emerick received a two-year probated sentence.

## Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: We live in a project. In summer we keep all windows open and so do the neighbors. There is a kid next door who takes violin lessons. He's about 11, and he practices all the time, but he doesn't seem to improve any. I always thought the teacher gave the kids a new piece every week. Well, something is wrong here because this kid has been playing Humoresque all summer. I saw his father on the street and I said, "Your Marvin sure practices a lot. I hear him night and day." His father said, "Don't complain. It's free. Some day you'll have to buy a ticket to hear him play." I don't want to file a complaint, Abby, but that kid is really disturbing my peace. Any suggestions?

A NEIGHBOR

DEAR NEIGHBOR: If Mother Love is "blind," Father Love is "deaf." Buy Marvin a mute, or buy yourself some ear plugs until it's time to buy the "ticket."

• • •

DEAR ABBY: I have a very dear friend whose feelings are easily hurt. It seems that anything I buy, be it furniture, toys for the children or clothes, she always ends up with one like it. This has been going on for a long time. Our husbands work together and we go around in the same crowd. I suppose I should be flattered that she likes my taste so much, but people are beginning to call us "THE GOLD DUST TWINS." How can I solve this problem without ruining our friendship?

A "GOLD DUST TWIN"

DEAR GOLD: You cannot possibly tell your friend that you resent her copying you without hurting her feelings. Either do your shopping out of the city, or tell her how you feel about this "Kate and Dulpicate" routine and be prepared to write off the friendship.

• • •

DEAR ABBY: The woman who boasted that she had taught her children to inquire (on the telephone), "WHOM is calling, please?" needs to go back and study her elementary grammar. Doesn't she know that WHOM is objective and it should be "WHO is calling, please?" Did she tell you what the response to their "WHOM is calling, please?", was?

CURIOUS

DEAR CURIOUS: No. But it was probably, "It's ME!"

• • •

DEAR ABBY: I am not asking for advice, I just want to cry on your shoulder, and hope that the right people read this and do something about it. I am living with my oldest married daughter. I have two other married daughters, and a married son, but this daughter is the only one who knows she has a mother. I make my home with her as I am a widow. I realize every family needs to be alone once in a while, but I have nowhere to go. I wish some of my other children would invite me for a weekend, or even a night, but they don't. I'm not independent, I am not able to earn my own living. I have nothing. Sign me—

## Veteran Dies At Nursing Home

Hiram McNamara, 77, a patient at the Snyder Nursing Home, died at 5:35 p.. Saturday.

Local arrangements were under the direction of Bolger Funeral Home. Mr. McNamara's body was shipped to Meadville, Pa. for funeral services.

Burn Aug. 19, 1886 in Meadville, he had been a patient here for the past three years, coming here from the veteran's hospital in Big Spring.

Mr. McNamara is survived by one brother, Harry McNamara of Venus, Fla.

# Whereabouts Of Widow Not Known

HOUSTON (AP)—Mrs. Candac Mossler, blonde widow of slain Houston millionaire Jacques Mossler, remained out of public sight for the third day today.

She left St. Luke's Episcopal Hospital about 7 p.m. Saturday after nearly a week.

The whereabouts of her 20-year-old daughter, Rita, also could not be determined. She was sought for questioning by the Harris County (Houston) Grand Jury.

Clyde Woody, Mrs. Mossler's attorney, said he felt sure his client had gone to another hospital as she was "extremely weak," but expected her to be up and around to talk with newsmen by the middle of the week.

Meanwhile, a suit brought by Melvin Lane Powers, 27, who is charged with first degree murder in the slaying at Miami, is scheduled to be heard today by the U.S. Fifth Circuit Court of Appeals at Atlanta, Ga.

Powers' attorneys have applied for an injunction restraining officers in Harris County, where Powers was arrested, and in Florida from interrogating him unless his lawyers are present.

Woody said Sunday Mrs. Mosser, 45, was extremely upset over the loss of her 69-year-old husband, whose bludgeoned body she found on returning to their Miami apartment June 30.

Mrs. Mossler slipped out of her fifth-floor hospital room and down the stairs to a waiting car without her doctor's permission. She wrote a note to her brother, L. S. Weatherby of Atlanta, Ga.

Weatherby said he found the note in the fashionable Mossler home late Saturday night and quoted it as saying:

"I am going to another hospital. I am tired of people threatening the children and me like a carnival or like we are animals in a circus. I will let you know where I am as soon as I am in another hospital."

Meanwhile, Harris County sheriff's deputies continued searching for Rita Mossler, an attractive blonde, who disappeared about a week ago and is under a subpoena to appear before the grand jury.

Powers is in the Harris County Jail awaiting a hearing on extradition to Florida for trial. He was arrested at his trailer sales firm just southeast of Houston four days after the slaying.

SUCH A DELIGHTFUL convenience dessert is Mocha Angel Sundae.

## Friends And Family Will Enjoy This New Dessert

"Good friends and good fare are always in season", is an old French proverb. When good friends gather, cooks of today can choose from an almost infinite variety of foods to create the good fare. Convenience foods make it easy to serve almost instant meals. A personal touch can be added with special seasonings, variations, and attractive arrangement of the food.

The high, light, moist mocha cake is made from white angel food cake mix with powdered instant coffee added. Serve this, glistening with a Mocha Glaze or on your best cake plate in wedges with rich ice cream. Then crown it with thick chocolate sauce and toasted almonds and you have created a dessert that will be 'good fare" for "good friends" in any season.

Here is the recipe.

**Mocha Angel Sundae**

Prepare Angel Food Cake Mix as directed on pkg. except — blend 1 tbsp. powdered instant coffee into flour mixture (packet 2) before folding into beaten egg whites. Cool. Remove from pan. Frost with Mocha Glaze (below) or serve wedges with vanilla ice cream and chocolate sauce. Top with toasted almonds.

Mocha Glaze: Mix ½ pkg. Creamy White Frosting Mix with ½ tsp. powdered instant coffee, 2 to 3 tbsp. hot water and 1 tbsp. corn syrup. Beat until smooth. Pour slowly over cake. Glaze will set within ½ hr.

Note: Powdered instant coffee can be stirred into flour mixture in the packet.

## Senior 4-H Club Girls Receive Sewing Certificates

The Snyder Senior 4-H Club met in the county extension office recently. Mrs. E. M. Ashley, adult leader, directed the girls in their final lesson on "Know Your Sewing Machine."

Betse Ashley, Debra Fikes, Rosemary Fisk, Ruby Hirst, and Kathy Pittman, completed the course and had their certificates signed by Mrs. Ashley.

Debra Fikes led the group in a game of indoor football. Betse Ashley was appointed recreation leader.

Kathy Pittman, president, closed the meeting.

### Molasses Wafers

½ cup sifted flour
½ teaspoon baking powder
Dash of salt
¼ cup sugar
¼ cup butter or margarine
3 tablespoons light molasses
2 tablespoons water
1-3 cup finely chopped walnuts or pecans

Sift together the flour, baking powder and salt. In a small saucepan stir together over low heat the sugar, butter, molasses and water; bring to boiling and remove from heat. Stir in the sifted dry ingredients; continue stirring, if necessary, until smooth; fold in nuts. Drop by level tablespoonfuls onto a lightly greased and floured cookie sheet; keep far enough apart so there are only 6 cookies to a large sheet. Batter should spread on sheet. Bake in a slow (325 degrees) oven until set and browned — about 12 to 15 minutes. Cool a few minutes to allow cookies to stiffen before removing with wide spatula to wire racks. Brush off any flour on bottom of cookies. Makes about 1½ dozen.

# Institutional Investors To Play An Even Greater Role

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—The institutional investor has seen his name go up in lights on the stock market marquee since the war. In the present decade and the next he may cinch this star billing by doubling the percentage of common shares he controls on the nation's stock exchanges—or from around 20 per cent now to 40 per cent. He already holds 80 per cent of the corporate bonds.

Of late the institutional manager also is playing more of a role in influencing corporate policies. This too could increase unless the number of individual investors multiplies again as fast as it did in the late 1950s, or government regulatory agencies move beyond their present stance of apparently increasing curiosity only.

The rapid growth of institutional ownership of stocks has been largely due to two things: 1. Money has been rolling into the various types of savings institutions at a faster rate than the economy itself has been growing; 2. The stock market has offered attractions neither they nor many individual investors thought they could pass up.

As to the role the institutions will play in corporate policies, the New York Stock Exchange says in a survey of such shareownership, out today:

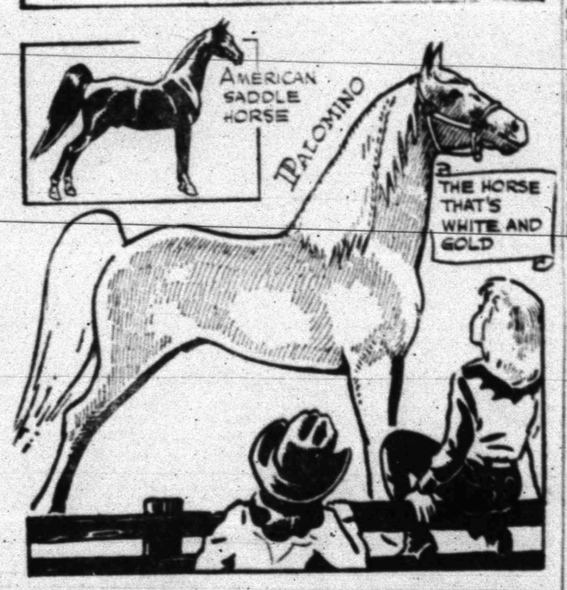
"If institutional investors some day take a more active role as shareowners, the methods by which they do this will be significant in view of the increasing importance of institutions in the stock market. Institutions will probably continue to rely primarily on informal discussions in communicating their views to portfolio companies — and on sale of the stock when they are in strong disagreement with management."

The exchange notes that in 1954 institutions held about 12.7 per cent of the stock listed on it, and by 1963 held 20 per cent.

It traces most of that growth to swelling assets of these savings concerns. In the years between 1945 and 1963 the output of goods and services in the nation increased by 160 per cent. But the assets of the six main forms of savings institutions grew as follows: life insurance companies 198 per cent; mutual savings banks 172 per cent; savings and loan associations 973 per cent; corporate pension funds 1,233 per cent; state and local government pension funds 829 per cent; and mutual funds 1,687 per cent.

With all this money rolling in, the institutions have invested $86.7 billion in corporate bonds, and some $82.4 billion in common stocks listed on the exchange. This big demand, the survey allows, "may have contributed to higher stock prices" since the war, but it says it's difficult to measure the real extent of their influence.

## Junior Editors Quiz on Horses



*QUESTION: Is the Palomino horse a separate breed?*

• • •

ANSWER: Horses are generally grouped into three kinds, draft or heavy horses, light horses and the smaller ponies. Light horses are the ones usually used for riding and driving. These have been developed by breeding—mating animals of similar type—so that their foals will be like the parents. These breeds include the Arabian, Thoroughbred (racing horse) Standardbred, American Saddle Horse, Morgan, Tennessee Walking Horse and American Quarter Horse. Horses, when born, may have different colors, such as black, seal brown, bay, etc. Palomino is simply one of these colors: it means a golden body color with blond or silver mane and tail. Other color types are the Albino (pure white with pink skin), pinto, (patches of color), and Appaloosa (a spotted horse). Palominos are so popular that they are often called by this name rather than the breed of horse they represent. Check in our picture with how the shape of the Palomino resembles the American Saddle Horse, which is this Palomino's breed. Two Palominos, mated, might produce a foal of another color, which is why they are not a separate breed. Except for Thoroughbreds, Palomino coloring occurs in almost all breeds.

• • •

FOR YOU TO DO: Put a gold color over the body of the Palomino to get a better idea of the color of this beautiful horse. Watch for Palominos on horse farms. 7-13

# Columnist Enlightened By His Mail

By HAL BOYLE

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

Only one in four American sons follows the same career as his father. The other percentage—49.1—is in the professional group, including doctors and lawyers.

It has been estimated that the average person learns at a rate of only about 10 per cent of his full capacity, so — strain that brain.

Cheerful news for any man planning to go into a hospital: more than half of all U.S. registered nurses are under 40.

A civilization can be judged by how much paper it uses—and for what purposes. America consumes more than seven million tons of newsprint annually, and last year it used 287,758 tons of facial tissues—a figure not to be sneezed at.

Every office worker owes a debt to Turkey. The reason: the first coffee break originated in Isanbul in the 16th century. The coffee house, or cafe, also started there.

Quotable notables: "Do not pay any attention to the rules other people make. They make them for their own protection, and to hell with them."—William Saroyan.

Litter cleanup costs the taxpayers about half a billion dollars in 1964. We dump 20 million cubic yards of junk on our roadways, enough to cover a 3,000-mile highway between New York and San Francisco a foot deep in discarded cartons, paper cups, cans, bottles and assorted trash.

"Many a presidential hopeful who hears his country calling is a ventriloquist."—Arnold Glasow.

It was Fred Allen who observed, "A conference is a gathering of important people who singly can do nothing, but together can decide that nothing can be done."

## Seven Persons Die In Arizona Crash

WILLIAMS, Ariz. (AP) — Seven persons, including a Denton, Tex., family of five, died in a two-car collision Sunday during a rainstorm on U. S. 66 east of this northern Arizona town.

Denton residents killed were Troy W. Sparks, 41, his wife Faye, and three daughters, Sonja, 14, Lynn, 12, and Debbie, 6.

Also killed were Alford White, 26, of Lupton, Ariz., and Bioly Mustache, 25, of Los Angeles.

The Arizona highway patrol said that car driven by Mustache went out of control and skidded broadside into the path of the Sparks car.

## Says Demonstration Leader Was Invited

DALLAS (AP) — The president of the Dallas school board says two months ago he invited a leader of civil rights demonstrations to attend a board meeting but has never received a reply.

School board president Robert Folsom said Sunday he wrote the letter to the Rev. Earl Allen, recently appointed regional director of the Congress on Racial Equality (CORE), after noticing demonstrators outside the building during a board meeting.

Allen said last week that suits would be filed in federal court before September demanding total integration of Dallas schools this fall. The schools are now being desegregated at the rate of one grade per year under a court approved order.

## 80 From College Faculty Vacation

MEXICO CITY (AP)—Eighty teachers from Sam Houston State at Huntsville, Tex., are vactioning in Mexico.

The teachers, many of whom are accompanied by their wives, arrived here by train Sunday. They plan to visit Mexico schools and universities before departing Saturdy.

# Hungarian Defector To Be On U. S. Olympic Team

By JACK HAND
Associated Press Sports Writer

NEW YORK (AP) — When Hungary's Olympic team disbanded at Melbourne in 1956, Bob Zimonyi decided to defect. Instead of going home to Budapest, the coxswain decided to try his luck in America.

Zimonyi, a wisp of a man at 46, will go to the Tokyo Olympics in October as a proud member of the United States team.

"After the revolution in Hungary, sports did not seem to be so important in my native land," said Zimonyi after the Vesper Boat Club of Philadelphia, with Zimonyi as coxswain, won Saturday's Olympic Trials. He just had taken his third ducking, once for tradition and twice for the television cameras.

"When I left Hungary I had only what I wore on my back," he said. "My mother and father are dead. My sister is visiting me now. If I ever go back to Hungary it will be just for a visit. I am very glad we made it for the boys and for myself. Now I will compete on the Olympic team of my new country. For I am an American citizen now."

Zimonyi is typical of the Vesper crew, first club eight to represent the U.S. in the Olympics since the Vespers won in 1900 and 1904. College rowers have dominated every Olympics since 1920, never losing until Navy bowed to Germany's Ratzeburg crew in 1960.

Two undergraduates at La-Salle College, two Yale graduates, a 34-year-old businessman who is father of six children, and three service officers make up the Vesper eight, coached by Allen Rosenberg, a Philadelphia lawyer, with help from Dietrich Rose of the Ratzeburg crew.

The crew defied all the rules that say a crew must row together for years to weld itself into a unit. The Vesper boat was made up four weeks ago.

The Vesper boat broke last, caught Harvard at the 800-meter mark and won by a length in 6 minutes, 1.3 seconds for the 2,000 meter (about 1¼ mile) Olympic route. Harvard had a length on previously unbeaten California and Yale was last.

Bill Stowe, the new stroke, was stroke at Cornell in 1961 and 1962 and now is a lieutenant in the Navy stationed in Philadelphia.

The other crewmen are Stan Cwiklinski of Philadelphia (La-Salle undergrad), Hugh Foley of Philadelphia (LaSalle undergrad, transfer from Loyola of Los Angeles), Emery Clark and Boyce Budd (Yale grads), Lt. Joe Amlong (Air Force and West Point), Lt. Tom Amlong (Army and Virginia), Bill Knecht (Villanova grad, head of sheet metal firm) and Stowe.

# Giant Pitcher Defies Tradition -To His Sorrow

HOUSTON (AP)—It long has been a superstition in sports that when you're winning you should never change anything.

Gaylord Perry, San Francisco Giants' bullpen specialist, defied the tradition Sunday night —to his sorrow.

He changed his shoes right out on the mound before taking over from a banished picther, who hadn't been able to throw a single ball because of strong words with the umpire.

And look what happened:

Nellie Fox cracked a single in that seventh inning to drive in Jerry Grote with the tying run that set up another situation in the ninth enabling Nellie to win the game 5-4 for Houston.

He pounded his third single of the night with two out in the ninth to produce the winning run and hand Perry, the tradition non-believer, the defeat. It also snapped a Giants winning streak at four straight.

Nobody but Perry was too heated up about it though because San Francisco moved into first place in the National League, anyway.

It so happened that Philadelphia lost a doubleheader to Milwaukee and the Giants were able to back in ahead of the Phillies to the top rung.

The seventh inning was weird all the way around. Billy O'Dell, a relief pitcher, had been summoned but he got into an argument with umpire Lee Weyer and was thumbed out before he could throw a pitch.

Just what O'dell said wasn't checked on immediately since the Giants got out of the park so quickly when the game was over that no one could be contacted.

But they said in the press box that it looked like some pretty strong language.

San Francisco had a 3-1 lead going into the fifth inning.

But Houston started pecking away for single runs in the fifth and sixth, then Perry changed his shoes in the seventh.

In the fatal ninth Eddie Kasko singled to get things started for Houston. He moved to second on a single by pinch hitter Dave Roberts after one out. Next Al Spangler struck out and umpire Weyer evened things up with San Francisco by ejecting Al for arguing.

Manager Harry Craft of the Colts wanted to get in on the rhubarb but Weyer put him out before he could speak his piece.

Fox then slapped a Perry pitch for a single and Kasko romped home.

Bet Perry never changes his shoes on the field again.

## PGA Open Won't Have Barber

By WILL GRIMSLEY
Associated Press Sports Writer

NEW ROCHELLE, N.Y. (AP) —The pro golfing tourists shake the arithmetic out of their brains and move into Columbus today for the PGA Championship but they'll leave behind their latest tournament winner, Miller Barber.

The paunchy, 32-year-old Texarkansas, Ark., pro, who beat out National Open champion Ken Venturi for the $5,000 first prize in the Wykagyl Round Robin, isn't eligible for the pros' private tee party, starting Thursday.

He is two weeks shy in completing the five-year apprenticeship.

"I'll get a crack at them next year," said Barber, celebrating his biggest tournament triumph.

The bespectacled former assistant pro, on the tour less than two years, staged a rally to over take the front - running Venturi in the 90-hole, four-day mathematical monstrosity played over the Wykagyl Country Club course.

Barber wound up with a total of 31 plus points—one better than Venturi.

In this unique event, every player opposes each of the others in the field on a head-to-head, match play basis over a period of four days. Points are awarded for holes won and subtracted for holes lost.

Medal scores, the determining factor in most other tournaments, mean nothing.

## McKinley Begins Title Defense Today

RIVER FOREST, Ill. (AP)—Top seeded Chuck McKinley opens defense of his National Clay Courts Tennis Championship today, aiming to become the first man in 26 years to capture the title three years in succession.

Not since Bobby Riggs accomplished the feat from 1936 through 1938 has a man won the singles title three straight years.

The week-long tournament has attracted a field of 128 men and 64 women and will serve somewhat as a testing ground for the Davis Cup Challenge Round to be played on composition courts in Cleveland Sept. 24-26.

## Sets AAU Swim Record

DALLAS (AP)—Art S th of Fort Smith, Ark., a University of Indiana student who culd not make the swimming team, set an American record in the 100-meter breaststroke Sunday night in the Southwestern AAU.

Smith sped the distance in 1:11.2, a tenth of a second under the American mark for the short course (50-meter pool).

His performance highlighted the closing session of the Southwestern AAU which saw Tudor Lacey, the South African who swam for Southern Methodist, take his third gold medal. He won two events Saturday night.

Lacey did the 100-meter in 57.5 after swimming a record 57.3 in the preliminaries. He had 21 points for the two nights and was high man of the meet.

Jan Belknap of Arlington was high point individual in the women's division, setting three records and tying another in the process of winning four events. She had 28 points.

## Texas Athletes Have Big Day In Sports

By The Associated Press

Texans were very much in the sports news Sunday, winning four national events.

It was one of the biggest days for the Lone Star State's athletes.

Miller Barber of Texarkana won the Wykagyl Round Robin golf tournament at New Rochelle, N.Y., and took down $5,000—the first money he had won on the professional tour. He beat out National Open champion Ken Venturi to do it.

Mickey Wright of Dallas beat Ruth Jessen of San Diego in a playoff for the women's National Open golf championship at San Diego.

Bill Wade of Houston won the 142.5-mile NASCAR stock car race at Bridgehampton, N.Y.

Wright Garrett of Houston won the Trans-Mississippi golf tournament at Colorado Springs, Colo. He beat a fellow Texan, Dave Eichelberger of Waco, 3 and 2, for the title.

## Mild Changes Made In Texas League

By The Associated Press

San Antonio lost its second straight Sunday night and there were some mild changes made in the Texas League situation.

Albuquerque gained a half-game by being idle, since the Dukes' engagement with Fort Worth was rained out.

So San Antonio now leads the race by 2½ games over Albuquerque as the upshot of a 4-2 loss to El Paso.

Tulsa also finally stopped its downward trend as the Oilers broke out in a rash of hits to smother Austin 15-4. Tulsa now is five games back of San Antonio.

Dave Turnbull was the San Antonio nemesis Sunday night, limiting the Bullets to eight scattered hits. El Paso won the game in the fourth inning with three runs on one hit—a two-run single by Dave Pavlesic. A walk had forced in the other tally.

Von McDaniel hit his 11th homer for San Antonio to give the Bullets a brief lead in the fourth.

Tulsa battered Austin pitching for 17 hits and did so much damage with them that Leroy Harris was able to coast in with the pitching decision although allowing 10 hits himself.

## McVea Chooses Houston Over 64 Other Colleges

SAN ANTONIO (AP)—Warren McVea made his long-awaited announcement of where he would go to college and was back in Houston on his summer job today.

The Brackenridge High School all-state football player, heralded as the finest running back in Texas schoolboy history, chose University of Houston in preference to 64 other major colleges who wanted his services.

The great Negro player works for Roy Hofheinz, president of the Houston Colts, and Bob Smith, chairman of the board of the National Leagae baseball club.

It was at Houston that McVea injured his knee while playing some basketball and for a time it appeared he might not be able to participate in the all-star football game of the Texas coaching school at Fort Worth Aug. 6.

But McVea said the knee was progressing satisfactorily and that he would play in the all-star game.

McVea scored 315 points in his final season at Brackenridge and led the team to the state championship in 1962. He got the most votes of any player for the all-state team and also made the Prep All-America.

McVea also is a track star, doing the 100-yard dash in 9.5 and is a standout in basketball and baseball. He will participate in all these sports except basketball at Houston.

McVea said he chose Houston because he wanted to stay close to home and because he didn't like cold weather. Houston's domed stadium, where the university starts playing its games next fall, should take care of the weather situation.

McVea's final report card from Brackenridge this spring showed four Bs and one C.

### *Yankees-Indians To Play Tonight*

The Yankees and the Indians of the American Little League will meet tonight in a makeup game. This will wind up all Little League activity except for the all-star action.

At stake in tonight's contest will be the second-place spot in the league. The two teams are now tied at 6-8. Also to be determined will be the coach of the American all - stars, as that assignment goes to the manager of the second - place team.

Tonight's contest is scheduled to start at 7.

# Braves Make Move-But Not To Atlanta

By MIKE RATHET
Associated Press Sports Writer

The Milwaukee Braves are moving—but in a northerly direction.

Rumored to be headed to Atlanta and subjected to some caustic comments about their talents, the Braves ignored the former and answered the latter Sunday by continuing their sudden climb up the National League standings into fifth place.

The Braves, bogged down in ninth place two weeks ago, made it 11 victories in their last 15 games by sweeping a doubleheader from Philadelphia 4-3 and 6-2, knocking the Phillies into second place behind San Francisco.

The Braves' latest outburst came just two days after the Milwaukee County board chairman, Eugene Grobschmidt, fired a verbal broadside at the players.

Hank Aaron has been laying the groundwork for the Braves' streak with some amazing stickwork.

The slugging outfielder collected four hits against the Phillies—including No. 2,000 of his career—and extended his hitting string to 16 games. During that stretch, Aaron has driven in 17 runs while hitting at a .394 clip and lifting his average to .312—sixth best in the league.

The Phillies, meanwhile, lost their fourth straight and again changed places with San Francisco ir the tight pennant struggle.

The Giants moved one game out front despite losing to Houston 5-4 in a weird game in which San Francisco reliever Billy O'Dell was ejected before throwing a pitch and Gaylord Perry took over, then proceeded to change his shoes while sitting on the pitchers' mound.

Elsewhere, the New York Mets swept a doubleheader for the first time in more than a year by beating Cincinnati 1-0 and 5-1 while the Chicago Cubs downed Los Angeles 6-3 before the Dodgers won the nightcap 6-2 with a six-run ninth inning.

The St. Louis at Pittsburgh doubleheader was rained out.

In the American League, the Chicago White Sox swept Kansas City 3-1 and 11-4 and the Los Angeles Angels edged Minnesota twice 2-1 and 3-2 in 10 innings. The others split, Boston beating Washington 5-3 before the Senators won 10-3 and Baltimore defeating Detroit 4-2 before the Tigers came back for a 4-3, 10-inning victory.

The New York Yankees and Cleveland played to a 2-2 tie in a game halted by rain after 6½ innings.

The Braves jumped on Chris Short in the opener for all their runs in the fourth inning.

Aaron doubled and scored the Braves' first run in the nightcap and drove in the second with a single, his 2,000th hit.

At Houston, O'dell was called in for a relief role in the seventh inning, but was tossed out before he even threw one pitch because of a disagreement with Umpire Lee Weyer. Perry then got a hurry-up call, trudged in and sat down to change his shoes.

Perry ultimately was touched for a run-producing single by Nellie Fox that tied the score 4-4 and lost it in the ninth when Eddie Kasko, Dave Roberts and Fox stroked singles for the winning run.

Galen Cisco of the Mets won a battle of six-hitters with the Reds' Joey Jay in the opener when New York scored the game's only run in the ninth inning on consecutive doubles by George Altman and Joe Christopher.

The Mets wrapped up their first doubleheader sweep since June 23, 1963, as Ron Hunt collected three hits, including a homer, and drove in three runs in the nightcap. Frank Lary got the victory, his first as a National Leaguer.

The Cubs won the opener with a four-run ninth capped by Billy Williams' 21st homer, off Ron Perranoski.

Ernie Broglio, looking for his first victory as a Cub, had a four-hit shutout going into the nightcap ninth when the Dodgers struck. Tommy Davis' bases loaded single tied the game and Ron Fairly scored the lead run on Frank Howard's infield out.

# BUSINESS and INDUSTRIAL NEWS

READY TO SERVE—Pictured in their new offices are the staff of the State Farm Insurance Co. office here. Roy McCloskey, seated, is the local agent for State Farm. Pictured with him are Mrs. McCloskey and Mrs. Virginia McMillan, both of whom are highly experienced in the insurance business. State Farm's new offices are located one block north of the old office, at 3904 Avenue S.

## State Farm Insurance Grows Into Brand-New Office Here

What is the biggest difference between insurance policies?

Coverages may be slightly different. Costs may vary. But the biggest difference will be the service that the local agent and the company give to the customer.

Service is the largest factor in the building of an insurance business, and the fact that State Farm insurance has had a constant growth, expansion and improvement of its facilities here for the past eight years is evidence that the local agent and the firm provide the service which its customers want.

Back in July, 1956, eight years ago this month, when Roy J. McCloskey came to Snyder and assumed the management of the State Farm Insurance Company's agency, he kept the records of policy - holders in one desk drawer.

Today, eight years later, several filing cabinets are required to keep the records, and the first office on the East Highway has been outgrown twice.

The new offices of State Farm Insurance have been recently moved to new quarters at 3904 Avenue S, about a block north of the former office.

McCloskey gave the reason for the move as the fact that the new offices give more room, and also more facilities for conferences between the insured and the agent.

Actually the newly - remodeled offices are important, McCloskey said, since he spends most of his time there. Most new business, he said, comes from people who call in or drop by the office, not from personal solicitation.

Good office facilities, thus, are important. Especially, so, since business for the first six months of this year is running more than 30 per cent ahead of the first six months of last year.

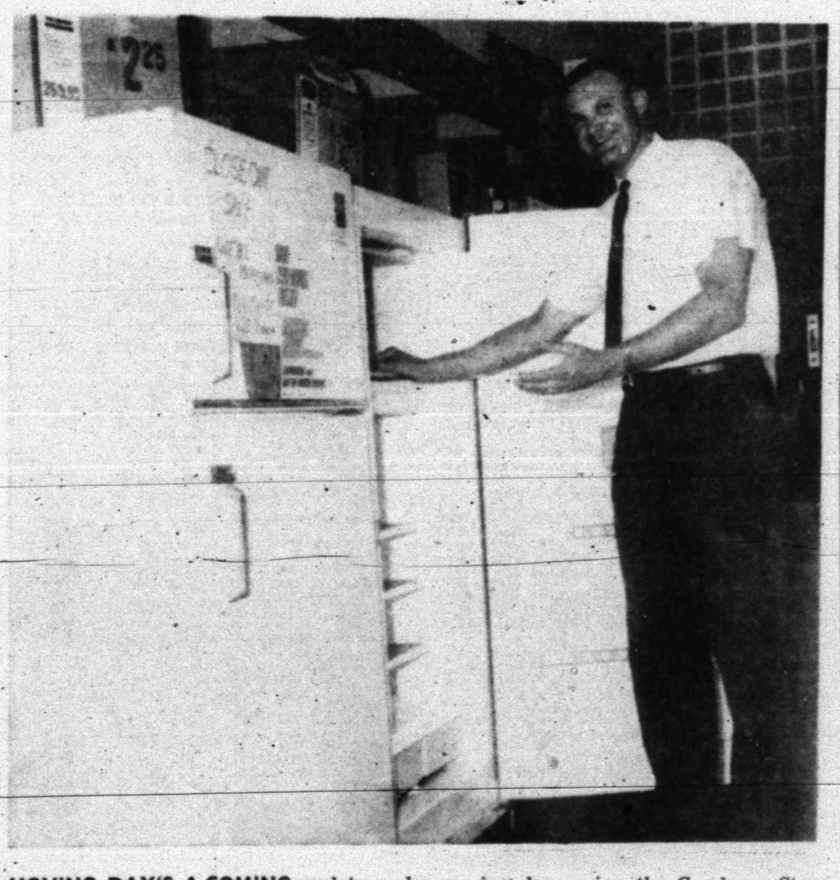
Helping in the office are Mrs. McCloskey and Mrs. Virginia McMillan, an experienced insurance secretary who recently joined the State Farm office.

Yes, the offices and the location are new, but the personal service on which the firm's growth is based are the same. As a State Farm agent, McCloskey is more than just an "insurance man." He's a friendly and helpful aide to his customers.

State Farm is the world's largest car insurer. But in addition to that, McCloskey and State Farm also offer State Farm Fire Insurance, State Farm Life Insurance, and auto insurance through the Texas company of State Farm County Mutual Insurance.

And, in addition to insurance, many Snyderites have found that they can save substantial amounts of money by financing their new cars by using the bank plan financing offered by State Farm.

McCloskey said he would be glad to explain the extra features of State Farm insurance including the discounts and dividends for eligible drivers. Just call him at HI 3-7266.



MOVING DAY'S A-COMING and to make moving day easier, the Goodyear Store here is making appliance prices so attractive that they will move to the customer's home instead of to the new store. Dan Novikoff, manager of the store, here shows a 14-foot General Electric refrigerator. He will be happy to explain not only the General Electric quality features you can see, but also the features of the refrigerators that can't be seen — those features which add extra quality to every General Electric appliance which give you more than your "money's worth."

## Moving Days Mean Bargain Days At Goodyear Store

Moving day is never much fun. Sure, van lines have taken most of the work and worry out of moving for the family which has to move, but what about a business firm?

The Goodyear store, for example is getting ready to move to their new building on Twenty - fifth Street in just a few days. What will moving day mean to them and what have they done to get ready?

The first thing they decided was that it was easier to move merchandise to the customer's home that it was to move it first to the new store and then to the customer's home. So that's the reason that the prices at Goodyear have been made so attractive. Right now a person can't afford not to buy that new appliance they've been needing, or that set of tires.

What it amounts to is that Goodyear would rather sell it than move it. They can save money that way, and they can pass that saving on to the customer. It's true that the floor stock at Goodyear is not as complete as it has been in times past. But it will pay a customer to look first at Goodyear. They'll save lots of money on washers, dryers, TVs, refrigerators, stoves — in fact, almost everything in the store is specially priced so that it will sell before Moving Day.

And if a person does go by Goodyear to shop for these moving - time bargains, he'll have the chance to pick up the Goodyear "Great Songs of America" long - playing album for just $1 in either stereo or mono.

"Great Songs of America" is the album that traces the history of America through our country's folk, marching, and patriotic music. The album features such stars as Mary Martin, Robert Goulet, Norman Luboff, The Brothers Four, and Percy Faith.

So it's a good idea to shop right now at Goodyear. They want help in moving their stock, so if the customer will help by buying it now, Goodyear will help the customer by making the price reflect their gratitude.

## Youth Is Charged With Hitting Ike

AMARILLO, Tex. (AP)—Free on $200 bond, Melvin Phillip Floyd, 23, was to face corporation court today charged with simple assault on former President Dwight D. Eisenhower.

Eisenhower Sunday telegraphed Mayor F. V. Wallace of Amarillo that he hoped the case would be dropped.

The charge against the Spearman, Tex., youth grew out of an incident which occurred during Eisenhower's stopover here Saturday. A placard was thrown in the air and struck the former President in the side.

Eisenhower told Mayor Wallace that the incident "was nothing but a spontaneous reaction to excitement."

"I trust the matter will be dropped," the former President and five-star general said.

## Sarah Churchill Draws $14 Fine

LONDON (AP)—Actress Sarah Churchill, second daughter of Sir Winston Churchill, was fined $14 today for disorderly behavior at London Airport two weeks ago.

Miss Churchill, charged in the name of Sarah Lady Audley, pleaded guilty to behaving in a disorderly manner. The prosecution offered no evidence on a further charge of being drunk.

Miss Churchill, 49, is the widow of Viscount Audley, who died in Spain last year. She was arrested at London Airport June 28 as she was about to board a jet flight for Milan.

## 2 Churches Are Burned

NATCHEZ, Miss. (AP)- Predawn fires burned two Negro churches to the ground in a rural community near this southwest Mississippi city today.

Sheriff Odell Anders of Adams County said he called in investigators from the state fire marshal's office to probe causes of the fires.

Burned were the Jerusalem Baptist church, located about two miles north of Kingston, and the Bethel Methodist church, about one mile east of Kingston Road.

Fire department crews from Natchez were sent to the scene of both blazes.

White residents of Kingston pledged they would help with men, money and materials to rebuild the churches.

An unidentified citizen told a newsman:

"We want to help these people rebuild their places of worship. This community is friendly and peaceful with no ill feeling toward anyone."

At Natchez, a Negro contractor, Willie Washington, 57, told police a white man tossed a firebomb at his home early today but it failed to ignite.

Washington told Lt. Charles Bahin of the Natchez Police Department that a car stopped in front of his house and a white man threw a bottle filled with gasoline or kerosene and rags stuffed in it.

## 4 Bodies Found At Crash Site

ALBUQUERQUE (AP) —The bodies of four persons were found Sunday night in a single-engine civilian plane that crashed in the Sandia mountains east of here.

Ground party members who made the difficult climb in rainy weather said the crash was so violent there would be no positive identification at once of the victims.

The Federal Aviation Agency said a single-engine Comanche PA24 carrying four Canton, Okla., residents disappeared in the area about 10 a.m. Sunday.

The FAA identified the Oklahomans as pilot Dean Rogers, about 50; Mrs. Rogers and Mr and Mrs. Loyd Sanders.

# Says Ruby Believes Big Slaughter Of Jews Slated

DETROIT, Mich. (AP) — Jack Ruby is convinced he has been linked to the assassination of President John F. Kennedy and that a result is the systematic slaughter of this country's almost six million Jews, a psychiatrist says.

Ruby is under death sentence in the Dallas, Tex., county jail for the slaying before a nationwide television audience of Kennedy's accused assassin, Lee Harvey Oswald.

The former Dallas night club operator "is convinced" that he and other Jews from all over the United States are being "rounded up" for execution, says Dr. Emanuel Tanay in a copyrighted story published Sunday by The Detroit Free Press.

Tanay, former assistant director of Detroit receiving hospital's psychiatric department, said Ruby is haunted by "psychotic delusions." The psychiatrist made two visits to Ruby's cell after he was retained by Ruby's family last May 14.

Tanay told Free Press newsman Don Beck that Ruby acted like "a caged animal . . . and definitely wants to commit suicide."

He described Ruby as sitting on the edge of his bunk with his hand cupped to his ear and leaning forward, apparently straining to hear something.

"Wait, do you hear?" he quoted Ruby as asking. "Oh, God, they're bringing another load. They say I'm the killer of the President. They believe I did it. That's why they're bringing them in.

"They've brought in thousands already.

"You must convince Earl that he should take his own life before they torture him. You are a Jew, too, and you should, too."

Earl Ruby is Jack's brother, who lives in Southfield, Mich.

Tanay said the warning of the impending purge of Jews was the same as voiced by Ruby to Chief Justice Earl Warren last month when Warren visited the condemned man's cell.

Warren heads the commission appointed by President Lyndon B. Johnson to probe the Nov. 22 assassination and the subsequent slaying two days later of Oswald.

Tanay said Ruby never refers to Oswald by name, but calls him "the deceased" or "that weasel."

Wether Ruby was psychotic at the instant he killed Oswald is something the psychiatrist said he "can only speculate about."

"The act itself was committed under circumstances that indicate he was acting without conscious control, and you could argue, therefore that, legally, he did not know right from wrong.

"But I feel that his present psychotic state is primarily precipitated by his imprisonment," Tanay said. He added:

". . . He was always obese; always struggled in a vain attempt to control his weight; was always dieting unsuccessfully.

"Now, he is emaciated. He just doesn't eat. Part of it is because he believes his jailers think he's going to slip poison into his own food and he wants to convince them he hasn't.

"He definitely wants to commit suicide—but he tries to hide this from the jailers."

Tanay said he believed Dallas County authorities "honestly believe Ruby is faking. "He told me he had tried to strangle himself, but couldn't," Tanay said.

The psychiatrist said he thought Ruby had a good chance of committing suicide because he approaches the deed "with the earnestness of the psychotic, not the neurotic."

"The longer he is in that cell, the better his chances of killing himself are," Tanay said.

# Can't Take Care Of More Children

By BOB COOPER

BEREA, Ky. (AP) — Times is hard. We just can't take care of any more children," the gaunt woman said as she signed for a sterilization operation.

"My folks had 10 of us young 'uns and didn't send a nary one of us to school a bit. I want to school my children as best I can and I think I got all I can handle."

At 29, the woman is the mother of four. She had to make her mark on the application. She can't write. Her husband, a tenant farmer, earned about $700 last year.

"These are the sort of people we want to help," said O. L. Keener, volunteer contact man for a committee that is sponsoring a six-month program of voluntary sterilization for needy parents.

The program is administered by the Human Betterment Association for Voluntary Sterilization of New York. It is financed by a $25,000 gift from Jesse Hartman, a New York businessman.

Dr. Louise Hutchings, president of the Mountain Maternal Health League, is chairman of the Berea committee. Her group has been advocating birth control, including sterilization, for 28 years.

"I went to see a doctor 'bout three years ago," another mountain woman recounted. "I was pregnant with my 10th child and my legs swelled up so much the doctor said he didn't know how I could stand.

"The doctor told me about the operation. I wanted it."

The association paid for the operation, which costs about $280 for women.

This woman and another, who underwent the operation 10 days ago, had the operations at the same time as childbirth. Their hospital stay was only a day or two longer than normal.

The committee sponsoring the program here would prefer that men underwent sterilization rather than their wives, but it often is difficult to convince a man to allow it, they say. Male operation costs about one-seventh as much, is much simpler and does not require hospitalization.

But many men feel that sterilization would be a stigma. Some fear loss of work time even a few hours.

Keener said his group believes sterilization is one answer to the poverty that grips the mountain country of Appalachia.

So far, six couples have applied for the operations. They have a total of 53 children and four of them, with 35 children have a total income of $4,000 a year.

"It (sterilization) is the only answer for some of these people," Keener said.

## BIRTHS

Mr. and Mrs. Michael L. Stipe, Arah Rt., are the parents of a 6 lb. 4 oz. baby boy born at 11:28 a.m. July 11 at Cogdell Hospital.

Nearly 87 per cent of all milk beverages are consumed at home, with 8 per cent at schools and less than 2 per cent in commercial establishments.

# AP Puts 3rd Computor To Work Sunday

NEW YORK (AP) — A third computer was put to work by The Associated Press Sunday to help speed news to its newspaper members in the United States.

The AP for more than two years has been using a computer system to tabulate trading on the stock exchanges and to produce perforated tape for automatic typsetting of market tables. The system was the first of its kind.

Sunday's innovation, another first, extends use of a computer to the production of justified tape for a national news circuit edited and transmitted from New York and carrying general news of top importance. The TA circuit delivers perforated tape for automatic typesetting from coast to coast.

In conjunction with computer use, the transmission speed of the circuit has been increased from 53 words per minute to 66 words per minute.

This means newspapers will receive more words of copy per hour. Computers place more words into each column of type than is possible in manual operation. Another advantage will be improved over-all appearance of the news columns.

In a few days use of the computer will be extended to include production of tape for AP's national sports wire, also a 66-word-per-minute circuit.

A computer can instantly perform functions in producing perforated tape which manual keyboard operators find time-consuming. These include the calculations necessary to produce lines of type of uniform width—known in the trade as justification—and in hyphenating words at the end of lines.

Computerized tape for automatic typesetting is mechanically perfect. Justification is exact in all lines. Word hyphenation, achieved at split-second speed, exceeds accuracy reached in manual operations.

**THE CHAIRMAN TALKS ABOUT HIS PLATFORM**—Rep. Melvin Laird of Wisconsin, chairman of the platform committee of the Republican Convention, discusses the first half of the platform which his committee approved, during a news conference in San Francisco. (AP Wirephoto)

# San Francisco Is Likely To Survive

By SAUL PETT

SAN FRANCISCO (AP) — Having survived the gold rush, the earthquake and the Japnese beetle, this city of grace and taste is now choked with corn as high as an elephant's eye, assorted nuts, promoters, press agents, world-savers and pamphleteers, including one pushing "a positive program for responsible extremism."

While the Republican convention itself gets started today on an incoming tide of oratory and an ebb of suspense, the parade of hoopla, spontaneous and synthetic, continues in what has been called the lull before the lull.

There are all kinds of people here, even delegates, but the ones who seem to be having the most fun are the wandering bands of kids. Like street urchins in an Italian movie, they go from one free load to another, from one hospitality suite to the next, collecting loot, punch, soda, campaign buttons and tracts with fine impartiality.

For all the noise, bands, exhibitionists, for all the pickets for "Ringo (of the Beatles) for President" or those crying "Earl Warren must repent," for all the big button wearers, including those whose pins cry simply for "Help" or "Mother" or "Stop Stassen," memorable wit remains hard to come by.

However, one Goldwater delegate was overheard asking another Goldwater delegate: "What do you think of Scranton?" Answer: "Don't know. Never been there."

With all the important people here, unless you're Dwight D. Eisenhower or one of the major candidates, about the only way to attract any real attention is to look conspiratorial in a hotel lobby. The thing too do is lean over to a friend and whisper, "I must get in touch with my people immediately." Do that and you'll be drowned under reporters, blinded by camera lights and choked to death with television.

Another way is to undress in public. One healthy young blonde drew off the mob in front of the Mark Hopkins Hotel by appearing in a blouse cut down to her waist. On one side of her striking superstructure she wore a Goldwater button; on the other, a Scranton button but nothing for the middle of the roaders.

## Course Completed By Spec. Frazier

FORT BELVOIR, Fa. — Specialist Four Donnie W. Frazier completed a five-week precise power generation course at the Army Engineer School, Fort Belvoir, Va., July 10.

Specialist Frazier received training in the installation, operation and maintenance of gas turbine and diesel generators.

He entered the Army in April 1962 and was last stationed at Dyess Air Force Base.

The 20-year-old soldier, son of Mr. and Mrs. Dee H. Frazier, 1306 Twenty - ninth Street, Snyder, attended Snyder High School.

## Houston Girl Is Miss Texas Universe

SAN ANTONIO (AP)—Diane Balloun, 19, a sophomore at Mary-Hardin Baylor College in Belton, is the new Miss Texas Universe.

Miss Balloun, a brunette from Houston, was crowned at a pageant Saturday night.

She will represent Texas in the Miss U.S.A. pageant in Miami Beach, Fla., on Aug. 2, the winner of which will represent this country in the Miss Universe contest.

Miss Balloun also received a large trophy, $500 in cash and a $1,500 wardrobe.

# Session In Mexico On

MEXICO CITY (AP) — Mexico's secretary of the treasury Antonio Ortiz Mena today will open a meeting here designed to show the positive work and achievements of President Kennedy's Aliance for Progress in the last two years.

The hemisphere-wide meeting is the first ever held by the Inter-American Committee of the Alliance for Progress (CIAP). It is considered to represent the best concerted effort yet made to inject new boost to the program designed by the U. S. President to help Latin America overcome its economic shortcomings.

President Sanz de Santamaria will present his report on the activities of the alliance before this session, with delegates voting afterwards to approve an 18-point long working agenda.

The meeting will close July 24, with what are expected to be recommendations to make the alliance's program more effective throughout the hemisphere.
