Cisco 6, Stephenville 0; Field a Literal Mud Sea

A Cisco Lobo line proved itself better "mudders" than a heavier and favored Stephenville team on a lobbly field at Stephenville Friday night and won the opening frame of the 1945 conference football season by a score of 6 to 0.

Although credit for the touchdown goes to the Lobo backfield, it was a scrapping, hard-charging primary which won the game, keeping the Yellow Jackets consistently bottled up and making the breaks, which are the measure of any game, in a water-logged and muddy field.

Melvin Noble, stellar right tackle of the Lobos, blocked the punt which Cisco recovered on the Stephenville two-yard line to set up the Cisco score. The Cisco backfield, its running and passing game almost nullified by the slippery field, cashed in on this one of four chances for a score which won the game, Tipton ramming through for the count.

The backfield played an equally alert game, but mud and water prevented any effective offensive play. The Cisco strategy resorted to keeping the ball in Stephenville territory and playing for the breaks. Practically none of the running formations which the Lobos use on dry territory were employed. Gambling on a slippery ball, the Yellow Jackets threw a ten-man line against the Cisco offense, and the Cisco attack was centered principally on a series of short passes which clicked at times, but not consistently enough to score on any of the other numerous occasions that the Jackets had their backs to their own goal.

The Jackets advanced beyond the 50-yard stripe once when they took the ball on the Lobo 35 on a punt exchange. For the remainder of the game they were held perilously deep in their own zone. Better ball hawking and more efficient blocking and tackling earned the Lobos the advantage of almost every break.

But for the slippery ball, which made passing and catching the leather difficult, Cisco could have scored on at least two short occasions. Once two other passes overshoot Williams in a clear field ten yards from the goal and on another touchdown pass the slimy ball slid from his grasp. The Lobos made 9 first downs to 5 for the Jackets.

Mineral Wells will be the next opponent of the Cisco team. The game, a conference affair, will be played at Mineral Wells next Friday night.

Starting for Cisco were Williams, le; Penn, lt; Baum, lg; Fields, center; Hill rg; Noble, rt; Pence, re; Sauls, wb; Farley, bb; Tipton, tb; Harrelson, fb.

Death Penalty to Those Who Reveal Atom Bomb Secret

WASHINGTON, Oct. 6. — Sen. Edwin C. Johnson, (Democrat, Colorado), advocated today that the death penalty be decreed for anyone revealing not already known secrets of atomic power or its utilization.

At the same time he called on the world to "have faith" in the United States that it will use the potent weapon it has discovered only in the interests of peace.

Johnson, ranking Democratic member of the Senate Military Affairs Committee, told reporters: "I think anyone who divulges any of the secrets connected with atomic power ought to be tried for treason. And the death penalty should follow."

BLAMES ARMY.

WASHINGTON, Oct. 6. — The Army "let down" the Navy in its radar detection of the Japanese planes which attacked Pearl Harbor, Rear Adm. Husband E. Kimmel told an Army investigating board.

COAL CZAR SAYS MEN QUIT OF OWN ACCORD; THAT IT IS NOT HIS BUSINESS TO ASK RETURN

(By United Press)

WASHINGTON, Oct. 6. — President John L. Lewis of the United Mine Workers refused today to order striking miners back to work at the demand of soft coal operators.

Lewis' refusal was disclosed by Secretary of Labor Schwelmbach as — in the nation and in Texas — an uneasy and partial peace returned to portions of the labor front.

Schwelmbach announced that he would press for early War Labor Board determination of current labor demands for maintenance of "take home pay" at wartime levels.

Faced with mounting labor unrest, Schwelmbach summoned Lewis and soft coal operators to a conference today in an effort to settle the dispute over union recognition for 60,000 mine supervisory employees.

The dispute has shut down mines employing 160,000. Spokesmen for the operators told Schwelmbach they would not discuss the merits of the case unless the strikers returned to work.

Lewis said he was not responsible for the walkouts, that the men had left their jobs voluntarily and that it was not his business to order them back to work.

The operators, Schwelmbach said, asserted that the UMW was responsible and that Lewis should move to reopen the mines.

The labor secretary told newsmen the labor situation had improved through settlement of the Kelsey-Hayes company strike at Detroit, government seizure of the strike-bound oil companies and the reopening of other struck plants.

The secretary said he will ask the War Labor Board within a week to take a specific case involving the current labor demand for a 30 percent wage increase to maintain take-home pay at wartime levels.

In Texas, more than 26,000 oil workers were going to their jobs in 25 refineries and pipeline firms, the longshoreman's strike at Houston was over and prospects brightened for ending the Convair Aircraft strike at Fort Worth.

Jews Storm Palestine Jail and Free Prisoners

JERUSALEM, Oct. 6. (U.P.) — British troops were reported to have gone into action on the northern frontier of Palestine Saturday when fighting broke out between border police and Jewish "immigrant smugglers."

First reports from the scene said the disorders began when frontier police arrested a large group of illegal Jewish immigrants trying to enter the Holy Land.

Local Jews came to the rescue of the immigrants. They attacked the police station and seized from 50 to 70 of the prisoners.

PIONEER, Oct. 6. — Funeral services for George C. Cooper, 66, who died Tuesday, were held Wednesday from the local Methodist church. Rev. D. L. Barnes officiated and the remains were laid to rest in the Pioneer cemetery. Deceased has been in poor health for some time. He was born in Buckhorn, Ark., July 5, 1878, and came to Texas with his parents in 1907. He was married to Miss Emma E. Kelly, March 10, 1910. The wife and a daughter, Mrs. Mattie Elrod, survive him; also three sisters and three brothers, as follows: Mrs. Lizzie Barrow, Coleman; Mrs. Bob Howard, Rising Star; Mrs. Edd Sherrill, Long Branch; Jasper Cooper, Arkansas; Monroe Cooper, Rising Star.

New Jap Premier Pledges Unstinted Co-operation

TOKYO, Oct. 6. (U.P.) — Baron Kijuro Shidehara, newly-named premier of Japan, pledged unstinted cooperation to American and allied military authorities in the performance of his new duties today, and expressed hope for the support of all "right-minded Japanese."

In an exclusive interview with United Press he outlined a program of work, sobriety and patience to overcome Japan's difficulties and to re-establish her place in the world.

New Electric Torpedoes Destroyed 300 Jap Vessels

WASHINGTON, Oct. 6 (U.P.) — New electric torpedoes, which approach enemy targets without leaving a wake, destroyed nearly 300 Japanese ships, including the Battleship Kongo, the Navy revealed tonight.

The new torpedo was a top war secret.

Paul Trout Put the Hook to Chicago Cubs, 4 to 1

CHICAGO, Oct. 6 (U.P.) — Paul (Dizzy) Trout, a loquacious Hoosier boy with plenty on the ball, blazed his fast one past the Chicago Cubs at Wrigley Field today to give the invading Detroit Tigers a 4 to 1 victory and square the 1945 world series at two games each.

Trout smoked his fireball through the Cub hitters with ease. Hank Greenberg hit a single through short in the Tiger fourth, which sent home the first run in the winning four-man rally.

Mr. Truman Sets Forth on a Five-Day Flying Visit

WASHINGTON, Oct. 6 (U.P.) — President Truman set out on a five-day flying visit to Missouri, Tennessee and Kentucky today, after acting as best man for an old friend at a wedding ceremony in Virginia.

The president and his party left for the west in three C-54 transport planes and landed at Blytheville, Ark., this evening. Truman will motor to Caruthersville, Mo., for a two-day stay and a visit to the county fair which he has not missed in 12 years.

LONG-DISTANCE DEBATE.

WASHINGTON, Oct. 6. — The United States and Soviet Russia today engaged in a bitter long-distance debate over which nation was responsible for the failure of the London Foreign Ministers conference. Secretary of State James F. Byrnes blamed Russia. Soviet Foreign Commissar V. M. Molotov blamed all the other big powers. The Soviet government newspaper Izvestia placed responsibility directly on Byrnes.

THE YOUNG AND THE OLD—Three-year-old Billy Rose, Royal Oak, Mich., sits on the knee of his great great grandfather, Theodore Penland, 96, and talks to William H. Osborne, 102, at national G. A. R. encampment at Columbus, O. Osborne may be new G. A. R. national commander.

President Has a Ft. Worth Bomber Scranton Minis-Tough Decision Plant Production ter's Sister Be to Make and Soon Will Not Cease 99 on October 22

WASHINGTON, Oct. 6. — Growing labor strife confronts Harry Truman with the toughest political decision he's had to make since he became president: To appease or offend the CIO-PAC wing of the Democratic party.

This wing does much to swing the northern industrial centers the party must have to carry states with big electoral votes. That's where about two-thirds of Democratic strength is in a presidential race. Simple political arithmetic holding onto it.

Yet White House visitors say Truman is resentful, thinks organized labor is unfairly putting him in a tight spot. He's talking of taking his case direct to the country, on the radio.

Line he'll take is not clearly indicated. But Truman has told callers he has no intention of seizing auto plants if labor stoppages come there.

Jimmy Byrnes returns from the failure at London to face another difficult task — pulling together and reorganizing a divided, loose-ends State Department so upset within that there have been rumors of resignations very close to the top.

Attendance at Potsdam and London meetings has kept Byrnes on the jump since he became secretary. He's had no time to get his department rolling.

Congressional huff over Under-Secretary Acheson's abrupt move calling off the Rio conference of Western Hemisphere nations doesn't help. It piled new fuel on fire begun when Acheson was critical of MacArthur's Japan policy.

Failure of the Senate Foreign Relations Committee to act on nomination of Spruille Braden as assistant secretary of state is part of it. Braden will be approved eventually, perhaps at the committee's next meeting, and then confirmed by the Senate. But meanwhile committee members hope to teach him a lesson.

Trouble is this: Several senators are sore at Braden for his plain speaking in Argentina and since then; fear he has been trying to make our foreign policy. They argue that at this time, above all others, we must be careful about intervening in the affairs of our Latin-American neighbors. They predict other good neighbors, believing that Braden's actions in Argentina set a pattern, will begin to damn the "colossus of the North," even though all Braden did was condemn Nazi infiltration in Argentina and destruction of liberty there through dictatorship.

His position will be vindicated by confirmation, but Braden will be made to understand that policy is formed here by the administration in co-operation with the Senate.

FT. WORTH, Oct. 6. — Aircraft production at Fort Worth's bomber plant will continue for at least 2 1-2 years, Gen. H. H. Arnold said today in a telegram to officials of Consolidated Vultee Aircraft Corp.

The telegram followed an announcement by Reconstruction Finance Corp. that the plant, although not declared surplus has been listed for lease or sale.

The wire from General Arnold, received here by R. G. Mayer, Convair division manager, said:

"The government-owned plant located at Fort Worth, operated by your corporation, has not been declared excess to the needs of the Army Air Forces.

"The plant will not be declared excess, as the JX-3 aircraft schedule calls for production of B-36 bombardment aircraft through March, 1948."

Details of the B-36 have not been disclosed by the Army. The Convair plant here is at work also on two other aircraft development projects.

Mrs. May Hock of Caloga Park, Calif., sister of Rev. R. Ernest Little, pastor of Scranton Methodist church, will celebrate her 99th birthday October 22. Mrs. Hock was born in Castleford, England, in 1846, and came to this country approximately seventy years ago. She still is active and in good health. Mr. Hock, deceased, was a newspaper man and did religious work alongside A. P. P. Bliss.

The Scranton minister also has a brother Rev. Thomas Little, who is ninety years of age and now resides in London, England. A retired minister, he served as a missionary in India and Ceylon and as Dartmoor prison chaplain in England.

Dr. R. Ernest Little is 79 years of age and came to this country eight years ago. The three are the only ones living of four brothers, all preachers, and four sisters.

PARIS, Oct. 6. (U.P.) — Some 1,500,000 American soldiers — nearly one-half American strength in Europe on V-E Day — have been redeployed since May 12.

Oil Exploration Fire Department Crew of 15 Men Ready For Grass-Find Quarters Burning campaign

The seismograph crew of Rogers-Ray Co., Inc., Houston, mention of which was made in Friday's Daily Press, was located in Cisco that afternoon when living quarters for 15 men and the wives and children of a number of them were secured, together with space for offices, the chamber of commerce announced Saturday.

The crew will be here indefinitely, doing exploratory work in the Cisco oil territory.

Part of the group were located in cabins owned by the city at Lake Cisco, and offices were obtained in the Spencer building, owned by E. P. Crawford, on west Tenth street.

MERCY BEASTS.

LUENEBERG, Germany, Oct. 6. (U.P.) — Josef Kramer, the "beast of Belson," admitted in an affidavit read at his trial today that gas chambers were used to slaughter inmates of Nazi internment camps. Orders for the executions, including those of large groups of women, came direct from Heinrich Himmler in Berlin, the affidavit said.

HAS DEFENSE — Harry Crosby who has announced new defense against the atomic bomb, is shown in his office surrounded by inventions for which Crosby Research Foundation is clearing house. He will turn secret over to proper authorities only on condition that it will be used to protect the United States.

Strictly a Fight Twixt CIO and Independent Union

FORT WORTH, Oct. 6. — Normal telephone service was back in effect throughout the nation Saturday after approximately 650 members of Fort Worth's seven locals of the Southwest Telephone Workers Union joined national federation members over the country in a four-hour recess Friday afternoon.

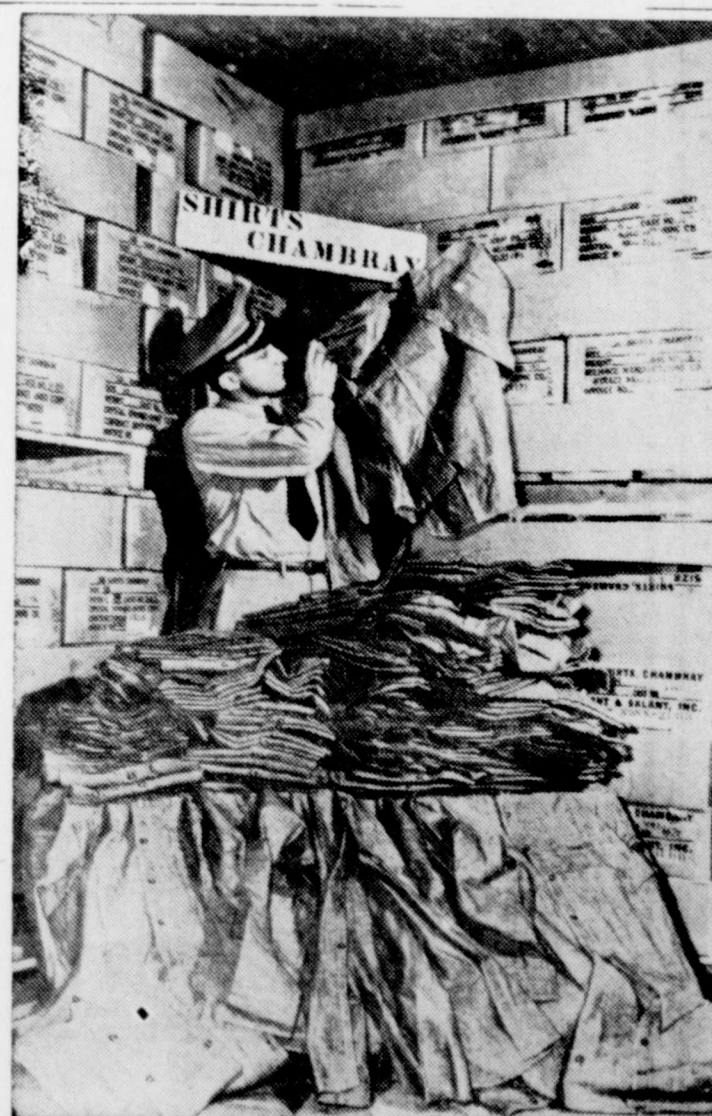

Meeting at First Baptist church, the workers authorized the executive board of the federation to demand a strike vote of organized telephone workers if necessary to challenge a National Labor Relations Board examiner's recommendation at Kearny, N. J.

Among other resolutions, the workers authorized Southwest Union officers to call another meeting similar to the Friday stoppage, "if necessary," to show union strength.

Local spokesmen contended that the NLRB examiner's recent recommendation that the Kearny union be disqualified on grounds of company domination was a s brought about by "CIO pressure" and represented "an attempt by the CIO to displace the independent telephone workers unions."

FIVE GERMANS HANGED.

LONDON, Oct. 6. — Five German prisoners of war were hanged Saturday for the murder of a fellow prisoner whom they had "tried" and condemned for deserting the Nazi creed.

NAVY GARB—Lt. W. H. Huguley, Storage Officer at Naval Clothing Depot, Brooklyn, N.Y., holds one of nine million Navy work shirts being released to civilians. Items declared surplus for civilian disposal valued at \$100,000,000, range from diesel engines to wheelbarrows.

DUTIES AND RIGHTS.

Speaking in general, this is a very dumb world. The fix that it has got itself into, in so many areas abroad as well as here at home, is evidence enough.

Probably never since mankind arrived at a state fit to be called civilized has there been so much unnecessary trouble stored up.

Most of it comes from the recklessness of ambitious men, here and elsewhere, trying to grab and operate the world for their own special benefit. They are paying for it now, and will pay more and more heavily as winter comes on.

The experts say Europe particularly will suffer. There will be hunger and cold and disease, possibly to an extent unknown for generations. The same might be true here at home if our industries are tied up by senseless strikes too long.

The more decent and more intelligent nations will have to share their better fortune, to an unprecedented extent, with the millions

who lack food, clothing and shelter. We Americans, especially, because we still have the most, and because "to whom much is given, of them shall much be required." We may condemn and denounce the creators of this situation as much as we please, but we cannot see millions perish if we are able to prevent it.

But afterward there should be a show-down.

America, though rich and powerful, cannot carry the world on her shoulders indefinitely.

If we have a duty to save this present world, we have a right to determine, more than others, how it shall be operated.

This is something to think of, and seriously, through the winter
