

AWARDS DISPLAYED - Lions Leon Noack and Dale Cary proudly show off the awards the club garnered at the District meet last week. The Olton Club far surpassed any other club in District 2T2.

In District

Olton Lions Are No. 1

Displayed proudly Tuesday were the awards presented to the local club at the District Convention last weekend in Littlefield. The handsome walnut plaque of the District Governor's Contest was presented to President Dale Cary on behalf of the "District Champions." The contest was won by the local club on the basis of service projects and other activities. Local members cooperation in the club's numerous activities pushed the number of points received well above the remaining 72 clubs in District 2T2.

Other awards won by the local club included the Lion trophy for participation in the Lions International Youth Exchange Program, a "Twinning" emblem recognizing the local club's twin club in Oldham, England, a certificate of appreciation for 100 percent participation in the Lions CARE program and 100 percent participation in the Crippled Children's Program.

"The odds are one in five that YOUR home will be burglarized in the next 12 months," said Jim Coates speaker at the luncheon meeting held in the Agricultural Community Building.

Representing South Plains Association of Governments (SPAG), Crime Prevention Program, Coates cited facts which have been compiled from FBI, Department of Public Safety and the President's Commission on Law Enforcement reports. He also showed a slide presentation on crime prevention.

"A burglary is committed every 10 seconds. Eighty percent of all burglaries are narcotics oriented, committed by drug addicts whose actions are unpredictable. Many rapes, beatings and murders very likely started as burglaries."

"Burglaries," he said, have increased 320 percent over the last five years. Daylight burglaries, 200 percent over the past five years."

Surprisingly, Coates said, "Fifty percent of all burglaries are committed through an unlocked opening and most thieves who are apprehended have no tools. We make it so easy they don't need them," he said.

Engraving tools may be borrowed from the local police department to mark identifying numbers on valuables so that, in the event of theft, there is greater chance of recovering the stolen items.

"Use your driver's license number (and TX for Texas) to label your possessions. Mark them in an inconspicuous place, a spot where they could not easily be removed. If you have no driver's license, use your last name and your zip code. If your stolen merchandise should show up in New York or some other distant spot, the zip code can pin point where you live and in three minutes officers can reach your local police department or you."

"Don't use your Social Security number. The Buckley Act of 1974 prevents the disclosure of a person's Social Security number." This makes it impossible to trace ownership of items marked with such identifying information.

Coates cautioned his listeners to record all items thus marked and to place such records in safety deposit boxes or give extra copies of the list to some family member or friend so that a list remains should something happen to your own.

"List the item, make, color, serial number if there is one, cost, your identifying number and note any identifying marks. Take a colored picture of valuables to be used for identification purposes."

Coates gave tips for vacationers. "Don't close all your draperies unless you always keep your drapes closed. Use an electric timer to turn on lights and/or radio during hours when your home is normally lighted and filled with sounds."

"Notify your police department when you are to be gone so they might be alert to the fact that your property might be the target of burglars. Join in a 'Neighborhood Watch,' helping look after each other's property, and reporting any suspicious activity about your neighbor's property."

Other guests of Tuesday's meeting were Percy Parsons of Friona, Karen Carter and Debbie Burks, hostess and sweetheart, and Johnny Reber, all of Early Risers Lions Club of Littlefield.

Members voted to participate with Lions Clubs of the County in a county-wide installation dinner in June.

First Ladies' Fashions To Highlight Style Show

Selected fashions worn in the White House over the last 200 years will highlight "First Ladies' Fashions and Fancies in Cotton," an historical and contemporary style show to be held in the Olton High School May 6 at 7:30 p.m. The show, sponsored by the Olton Young Homemakers of America, is open to the public. Proceeds from the $1.50 admission charge will be donated to the Olton Historic Preservation Society.

The May 6 date is a change from that originally scheduled. Previously set for Thursday evening, the show was moved because of the final PTA meeting of the year.

"We're extremely pleased that we can present these historic fashions," says Mrs. Jim Ferguson, president of the club. "The 12 dresses and gowns span America's history from Martha Washington to Grace Coolidge. Contemporary fashions furnished by the Mini Mall round out the show."

Included among the historic replicas are Martha Washington's nightgown, Dolly Madison's evening dress, Frances Cleveland's bustled maternity dress, Edith Roosevelt's formal riding habit, Nelly Taft's motoring dress, Julia Tyler's cloaked traveling clothes, Jane Pierces everyday dress, Caroline Harrison's cloak, Alice Roosevelt's wedding gown, Edith Wilson's traveling dress, and Grace Coolidge's tennis togs.

All of the fashions will be modeled by members of the Young Homemakers and the Future Homemakers of America.

The historic fashions were designed for the collection of Ciba-Geigy Corporation, a nationwide manufacturer and marketer of crop-protection chemicals for cotton.

Styles of the future (?) have been fashioned by members of OHS's Future Homemakers and will be introduced at the show.

Fire Damages Home In Hart Camp Area

Mr. and Mrs. Armado Montemayor, victims of a home fire Sunday about 1:30 p.m., lost most of their furniture and clothing. Smoke damage was heavy upon the remaining furnishings, according to Mrs. Montemayor.

No one was at the farm home on property of Joe Harrell, six miles south and three and one-fourth east when the blaze erupted. Friends coming to the home for a visit reported the situation to Olton fire department then used available water supply to extinguish flames until the unit arrived.

Fire Department officials theorized the blaze may have been caused by an electrical short. Investigation continues. The young couple was seeking living quarters late in the week.

Break-Ins Reported In Business & Residents

Two separate offenses were reported recently of broken windows in the business and residential sections of town. Night patrolman William Hammon, patroling the city, discovered broken glass in the building formerly occupied by Superior Cleaners. A rock had been thrown through the glass. The case is still open.

Police Chief Don Hatley investigated the report of a window broken from a residence in north Olton. Evidence indicated that a person or persons had been stuck in one of the streets excavated for paving and that the rock was thrown from that spot. The rock went through a storm window and inside window.

A reported truancy was checked out last week for a child riding the bus to school and not attending classes.

Patrolman Hammon received a call at 11 p.m. Saturday night of a drunken male in south Olton. The subject's son reported his father had a knife and had threatened to use it. Chief Hatley and Hammon arrested the subject and placed him in the local jail. He appeared before City Judge Audie Thomas Monday and was fined $25 and court costs.

Letter To The Editor

No P-TA Here?

Unless there are enough interested parents in Olton to take offices, there will be no P.T.A. in the Fall of 1977. We are having difficulty in finding parents who are willing to take offices.

It is impossible for a few main officers to try and do all the work required in maintaining the Parent-Teacher Association. It is YOUR school, YOUR children and YOUR P.T.A. It is also YOUR choice if Olton has this valuable asset in its town.

Officers need to be parents who do not work and who have time to do the office justice. Teachers are busy teaching our children and do not have time. Besides, the organization was created for parents in order to keep the lines of communications open between teachers and parents. It was not organized to give the teachers another job!

On the local level, the P.T.A. has been responsible for many fine projects in our schools, such as book shelves in the high school library; the windbreak wall at our elementary school; and shelves for our junior high school.

There are also two $100 scholarships awarded each year to our students.

On a higher level, the P.T.A. is constantly working with legislative matters concerning the welfare of our children where the government and laws are concerned.

If YOU care, see you Thursday night at 8 p.m.

John W. Ratliff

Everything But The Kitchen Sink

BY MOZELLE TROTTER

Ah, to be a horticulturist - or just plain gifted with a talent for growing things, not killing them.

Would that I had a green thumb or the masterful skill with living plants to make them respond with luxuriant greenness or radiant blossoms! I might enter a new profession - that of plant doctor, nurse, companion or agent!

Few people can exceed my ability to turn a beautiful living plant so speedily into a wilted, yellowing, drying, drooping, shedding, shriveling, dying mess.

Sweet talk, threats or bad mouthing them seems to make little difference. They prefer death above my company. Such is life. Some can take a dry stalk and transform it into a thriving beautiful plant. I get the opposite results.

Never before has there been such popularity of growing things. Recent items in various news media have reported the astounding growth of popularity and sales.

An eye-opening item in Jim Servatius' column, "This and That," in the Plainview Daily Herald quoted a leading Texas business magazine on the amount spent by some large companies for plant "service." You know, having someone care for your plants.

Seems in Texas' largest city there are such businesses. Their charges run from $60 a month for maintaining around a dozen plants in an office complex to $4,000 a month by one of the city's bank's for plant leasing and care.

According to the magazine, the Pennzoil Building has two large beds in the lobby which contain 1,525 pots of grape ivy which cost $12,000. Besides the ivy and 20-foot ficus trees there are masses of chrysanthemums which have to be changed about every 10 days at a cost of $6.50 each of $1,300.

In the building's corporate offices are 900 trees plus various desk and floor plants for which the company pays $3,200 per month for maintenance alone.

A much smaller company with only about 40 plants will pay about $450 monthly for maintenance and leasing.

See, I should be gifted with a green thumb instead of just being beautiful and brilliant.

I know! I missed there, also!

Mr. and Mrs. L.H. Marshall had as recent guests their nephew and his wife, Mr. and Mrs. Bill Marshall of Lubbock.

Air Force Major Speaks Of Alarming Superiority

Some forty people were present Monday evening at a 'pot luck supper' in the home of Mr. and Mrs. Frank Cornelius on FM 168 South.

Planned as a special meeting of Olton Study Club, guests were spouses and friends of members.

Special guest for the event was William P. Tynan, assistant information officer of Reese Air Force Base, and head of the speakers bureau at Reese. With him was guest speaker Major Joseph E. Hickox, former air attache assigned to the U.S. Embassy to Soviet Union in Moscow.

Mrs. Glen Singleterry, chairman of the program committee, called upon the visitors to share "Glimpses of Tomorrow" in the field of aviation.

Major Hickox, having spent two years in Moscow, showed slides and discussed the alarming build-up in Russian air power, both planes and missiles.

Apathetic club members were challenged to look at the apparent superiority and the Russians' plan for military might.

Closing upon a hopeful note, the Major said "Our greatest asset is Agriculture-Power. Whereas we have sold our wheat (much too cheaply) to the Soviet nation, - we need to bargain with our food. "A bushel for a barrel" is a sensible motto.

Little Of This & That

MRS. BEN HENSON

"A little of this and a little of that," is the description given by Mrs. Ben Henson of the way she spends her leisure time.

Crafts are a big part of her hobbies. She has made countless pretty little pin cushions from jar rings and scraps of pretty velvet and edgings. She also weaves pretty hot mats from colorful yarn and has the "frames" for a new yarn craft - small, cuddly poodles designed from a bent clothes hanger and multiple loops of yarn.

Jewel enjoys making pretty pillows and quilts and has just recently completed her "first and only" one that is strictly hand sewn. She chooses, instead, to piece tops by machine because of rheumatism which bothers her hands when she crochets or sews.

A member of the Assembly of God Church, Jewel has taught Sunday School classes for every age group and has had very brief periods when she was the student rather than teacher. When her family moved back to Oklahoma several years ago, she was barely settled when asked to take a class of pre-schoolers.

"I never had said 'No' so I took them and those were the sweetest little ones."

Moving to Marble Falls for a brief time several years ago, she was immediately asked to teach and to help with an instruction class for teachers.

Jewel and Ben moved to Olton in April, 1929 from Oklahoma and it was sometime that year, Jewel remembers, that the local Assembly of God Church was organized.

"There wasn't hardly anything on Main Street then and they put a big tent for a revival and that's when the church got started."

The original church building was located where the church is today on Avenue G and is the portion which is now the fellowship hall and three classrooms.

Jewel and Ben came to Olton to share crop with his brother-in-law and sister, Mr. and Mrs. G.A. Bodkin. The following year, they rented the farm and had everything wiped out by a hailstorm in May.

"We plowed and planted day and night and got another crop up and in September, it happened again. So we packed up and moved back to our little acreage in Oklahoma where we existed till '36 when we came back here."

Jewel was born in Indian Territory near Shawnee, Okla. She met Ben when her family moved to a farm near Tecumseh. They were married in 1920. Ben died in 1968.

The Hensons' youngest child, Howard Ray, lost his life in an elevator accident. Their eldest son, George, lives in San Antonio. A daughter, Virginia (Mrs. Sonny) Miller, lives next door to her mother.

POTATO DUMPLINGS

8 med potatoes, cooked & mashed
½ c sifted flour
2 eggs, slightly beaten
1½ t salt
1 level teaspoon baking powder
¼ c chopped onion

Mix all ingredients together. Form into medium sized balls and drop into large saucepan or kettle of rapidly boiling water. Boil gently, uncovered about 25 min. or until done. Arrange on heated platter and pour about ½ cup hot melted margarine over them. Dust with black pepper. Serve hot.

KARO PECAN PIE

1 c dark Karo
3 eggs, slightly beaten
1/8 t salt
1 t vanilla
1 c sugar
2 T melted margarine
1 c pecans, chopped
1 unbaked 9" pie crust

Mix all ingredients for filling together, adding pecans last. Pour into unbaked pie crust. Bake at 400° for 15 min. Reduce heat to 350° and bake 30 to 35 minutes longer. When done outer edges of filling should be set, center slightly soft. Will set when cool.

EGG CUSTARD PIE

3 eggs
½ c sugar
¼ t salt
2 c whole milk
1/8 t nutmeg

Line a 9 inch pie pan with crust. Flute edges to stand up above pan. Put in a hot oven until crust begins to brown.

While crust is baking, beat eggs slightly and add the sugar and salt. Scald the milk and add it to the egg mixture slowly, add nutmeg and stir until blended.

Remove pie shell from oven, pour custard filling into it.

Return pie to oven immediately. Temperature should be much lower, now, however. Bake in slow oven until filling is firm to the touch and a knife inserted in center of pie comes out clean.

SECRETARIES HONORED - Wednesday, Olton Chamber of Commerce and Agriculture manager gave a coffee in honor of all secretaries in the area. The coffee was in observance of National Secretary Week.

Office Secretaries Feted In C/CA Morning Coffee

Some twenty-two 'secretaries' from throughout the city responded to an invitation to coffee Wednesday, Apr. 27, in the office of Olton Chamber of Commerce and Agriculture. Hosting the event was Mrs. Frances Redinger, secretary of that organization.

A hastily taken poll revealed Mrs. Dewayne Wilks as the youngest secretary, in terms of service, having been employed at Sluder Insurance for three months. Mrs. Angus Davis posted the longest tenure at her post, having served Southwestern Public Service Company for 18 years.

Mrs. Redinger spoke to the group of the variety of services offered through her office to the general public. Pointing out the wealth of information on file and on exhibition, she said, "Your Chamber of Commerce works very hard trying to provide answers to the needs of people of the area in everything from travel information to farm products catalogue. Some of these days I'm going to write a book about the questions I have been called upon to answer."

The heart of Mrs. Redinger's message, however, was directed to the thought of cooperation from everyone present in helping to build a better, cleaner city . . . . while spending Olton money in the home town.
